RPRBC 12th Annual Registered Bull Sale Wednesday, Nov. 19

Wednesday, November 19, (this coming Wednesday), at 12:30 noon at the Fair Grounds in Clarendon, Texas, the 12th annual Rolling Plains Registered Bull Sale will be held, reports Flip Breedlove, secretary and manager. There are 56 bulls entered in the sale this year: 27 Herefords, 23 Galloways, and six Angus.

The catalog is off the press and Breedlove says all entries are in the catalog except the 6 Angus bulls which were consigned too late for listing in the catalog.

The 6 Angus entries are from Richmond Hales of Canyon, Texas, Pedigree sheets will be handed out on these entries just before sale time.

The judging of the bulls for sale order will be at 9 a.m. on sale day and everyone is invited to see this event. Breedlove says that a big TV show will be presented this Saturday, November 15, on the Farm and Home Show on KGNC, Channel 4, Amarillo. The show will be video taped at 9 a.m. Saturday morning and played back at noon on the Farm and Home Show. That is Saturday of this week.

Everyone please remember that the sale will start on time with Walter Britten, auctioneer, starting the sale of cattle promptly at 12:30 noon, Wednesday, November 19.

The sale will offer some good quality bulls and a fine selection for ranchers needing the type of bulls that will get big rugged calves with plenty of length and size.

Operation Everybody Includes Donley Co.

The "Operation: Everybody" voter quota for Donley County has been set by the Texas Democratic Party at 1,610 according to County Chairman, Mary S. Cooke. This figure represents 65 percent of our estimated voting population Miss Cooke said.

Voter registration is free but everyone must register to vote in the 1970 elections. Application forms are at the County Tax Assessor's office in the courthouse.

County competition to meet quotas will be statewide and gold, silver, and bronze plaques will be awarded the counties which exceed their quotas by the highest margins. Certificates of merit will be presented all counties meeting their quota.

Area FFA Leadership Conference Nov. 22

Dave Neely, new head mentor of the Clarendon College Bulldogs, will pit his basketball team against the Junior Varsity of Panhandle State College of Goodwell, Okla. tonight on the home court.

College Bulldogs To Open BB Season on Home Court Tonight

The 1969-70 edition of the Clarendon College Bulldogs basketball team will open its season this Thursday night on its home court against the Junior Varsity of Panhandle State College, Goodwell, Oklahoma. The Bulldogs will be under the direction of a new head mentor, Dave Neely, who replaces Lawrence Overcast who is now the assistant coach at Trinity University, San Antonio, Texas.

Neely brings to Clarendon College after a year of full time retraining with Ottawa University, a private Liberal Arts institution in eastern Kansas. Prior to this, he was head basketball coach for two years in his home town of Scott City, Kansas. The new coach lettered four years in basketball at Southwestern State College, Weatherford, Oklahoma. Upon graduation, he accepted the graduate assistant job at Kansas State University, where he worked as assistant freshman coach under Tex Winter, well known cage coach now with the University of Washington.

Neely brings to Clarendon College a philosophy of tough defense and disciplined fast break. Basically, the offense will be centered around a post man with emphasis on quick cutting, strong screens, and a balanced floor. This particular offense has been named the "Triple-Post Offense" by its originator, Tex Winter. The Bulldogs will be young and somewhat inexperienced this year, in that only three sophomores return off last years squad. Those returning lettermen are Rene Ornes, Jerry Howard, and Pancho Garcia. Ornes and Garcia hail from Laredo, Texas, while Howard is from Coleman, Texas.

Neely indicates that for this team to be successful, they must have a concerted team effort. "Without the over-powering size and jumpers, we must rely on team defense, sound fundamentals, and proper execution of all phases of our game," states Neely. The new coach indicated that the favorite at this time in the conference would have to be Howard County of Big Springs, winner of Region V last year. Other contenders will be South Plains, Amarillo College, and New Mexico Junior College. The Bulldogs will again be at home on Monday, November 17, to play Garden City, Kansas. The Dogs hit the road next week-end, November 21 and 22 against Trinidad, Colorado and Lamar, Colorado.

Pictures of various members of the Bulldogs and something of each's background will be run from time to time as space permits. Watch for these and become acquainted with this fine group of young men and their coach who represent our College.

Mr. and Mrs. Kenneth Scms and family of Follett visited relatives here through the week end.

Doyle Phillips Rites Held Monday Nov. 10

Ramphas (Slim) Phillips, age 70 a resident of Clarendon and Donley County for 35 years, were held at 3:00 p.m. Monday, November 10, 1969 in Murphy Memorial Chapel with Lowell Hill a Lay Minister, officiating, assisted by Rev. Paul Hancock, pastor of the First Christian Church, Interment was in Citizen Cemetery under the direction of Murphy Funeral Home.

Mr. Phillips died Saturday, morning, November 8th, in Adair Hospital after a lengthy illness. He was born July 24, 1899 in Ellis County, Texas and married Quata Blanch Drake on January 27, 1928 at Plainview. The family moved to Donley County from Hale Center. He worked in the House Moving Business after coming to Clarendon.

Survivors include his wife, Quata B. Phillips of the home; four daughters, Mrs. Doris Faye Brigman of Tripoli, Africa, Mrs. Ila Richey of Clarendon, Mrs. Margie Brant of O'Fallon, Missouri, Mrs. Mildred Smith of Amarillo; one son, Allan Dwayne Phillips of Amarillo; two sisters, Bertha and Ivol Phillips both of Odessa; three brothers, A. O. Phillips of Odessa, W. B. Phillips of Ft. Worth, Noaa Phillips of Amarillo; and ten grandchildren.

Bearers were Dudley Wilson, C. S. Sims, DeVon Brigman, Ernest Brown, Everett Wilkerson and Joe Smith.

TB Program Slated at CHS Thurs. Nov. 20

Mr. Charles McIntosh, Executive Director of the Top of Texas Tuberculosis Association will be in Clarendon Thursday, November 20 to present an Anti-Smoking program.

Superintendent Arling Cordell has announced that on this date, November 20, the program will be presented to the Elementary School at 10 a.m. in the Public School Auditorium. Following this presentation, there will be a program for High School students at 11 a.m. in the auditorium.

The public is invited to attend either or both of these very timely assemblies.

Mr. McIntosh will have lunch with school officials and in the afternoon present a program to the members of Federated Clubs. The address to Federated Club members and area residents will be held at Patching Club House at 3 p.m. This program is under the sponsorship of the three local Federated Clubs of Clarendon: Les Beaux Arts Club, 1926 Book Club, and Pathfinder Club.

This is an open meeting and Club Women urge all area residents to attend if possible. The meeting will be informal with the relationship between Tuberculosis and Smoking discussed on a factual basis.

Commissioners Court Votes to Re-District County Precincts

The Donley County Commissioners Court voted Monday to re-district the commissioner precincts in accordance with the 1964 one-man, one-vote Supreme Court doctrine.

The motion was made by H. C. Reynolds and seconded by Roy Backman. When the motion was acted upon, Reynolds and Backman voted for redistricting and Jess Finley and Junior Hill voted against the issue. County Judge R. E. Drennan broke the tie with his vote for the issue, stating that the job had to be done in accordance with the Federal ruling and there was no need of putting it off any longer.

The next big job will be the counting and checking of registered voters in each area and re-mapping the precincts where the voting count will be equal in each precinct. This will necessitate the extension of Precinct No. 1 and No. 4 into the city along with Precinct No. 2 which has included the city of Clarendon in the past. Prec. 3 will continue to include the Hedley-Lelia Lake area.

Services Held Tues. For Minnie Roberson

Funeral services for Minnie Etta Roberson, age 80, a resident of Donley County for 67 yrs., were held Tuesday, afternoon, November 11, 1969 in the Church of Christ with Tom Waters, minister, officiating, assisted by Rev. Paul Hancock, pastor of the First Christian Church, Interment was in Citizens Cemetery under the direction of Murphy Funeral Home.

Miss Roberson died Monday morning in Adair Hospital after a short illness. She was born April 24, 1889 in Collingsworth County, Texas and moved to Donley County in 1902. She was a member of the Church of Christ of Clarendon.

Survivors include a half sister, Mrs. Mary Smith of Amarillo; a Step-Sister, Mrs. Henrietta Graham of Bayfield, Colorado; two half brothers, Tom Roberson of Amarillo and Frank Roberson of Colorado, Springs, Colorado; a sister-in-law, Mrs. Joy Roberson of Clarendon and several nieces and nephews which include Mrs. Charlie Sullivan of Adrian and Pat Roberson of Clarendon.

Bearers were Dudley Trussell, Troy Moore, Dee Smith, Bill Littlefield, Houston McDonald, and Vernon Davis.

McLean Tigers Are Broncs Main Target At McLean Friday Nite

Broncs Beat Wheeler Mustangs to Win District Honors

Broncho team effort was quite evident last Friday night in the decisive battle between the Wheeler Mustangs and the local team. The Broncs came out on top 42-22 to nail down the top spot in District 2-A and the opportunity to play the White Deer Bucks for bi-district.

Charles Louis opened the Broncs scoring on a two yard plunge and Scotty Lindley kicked the point. Jim Moore followed a short time later with his outstanding run of the evening, twisting and weaving his way for 65 yards and the 6 points. Lindley kicked the extra with the appearance of a professional.

Charles Louis opened up the second quarter with a 44 yard dash thru the center of the line and Lindley made it 21-0 with his extra point kick. Wheeler scored their first TD seconds before the half ended on a pass play and plunged for the extra two points. Wheeler's other two scores came in the fourth quarter against the Broncs second squad which put up a good battle but could not cope with the Wheeler passing attack.

Jim Moore added three more touchdowns to his record in the third quarter, one on a 15 yard gallop, then 26 yards and 8 yards. Lindley kicked each of the extra points to bring his scoring total to 6 points for the game.

Statistically the Broncs gained a total of 428 yards to Wheeler's 302 and made 20 first downs to Wheeler's 15. Jim Moore added four touchdowns to his record and gained a total of 182 yards in the game. Charles Louis racked up the other two scores and a total of 143 yards for the game. The Broncs defense showed strong opposition throughout the game. Ronnie Hasteley and Ronnie Hill were quite alert on two occasions grabbing up Mustang fumbles.

One of the largest crowds in recent time was on hand to watch the Broncs gain sweet revenge for the 15-7 upset handed them by the Mustangs last year.

Those to visit through the week end in the home of Mrs. James Smith were Mrs. A. J. Fowler of Memphis, Mrs. Leon Fowler of Lakeview, Mrs. Donna Tipton, Pam and Kelly of Matador, and Mrs. G. T. Mayo of Amarillo.

Although the Clarendon Bronchos have the District 2-A title sewed up, they will be battling Friday night to keep their slate clean and an outright ownership of top honors in district play.

The Tigers made very little showing in district play until last Friday night when a fired-up eleven took on the Silver-ton Owls and smeared them 46-18. That fired-up effort is expected to be even more evident this Friday night as they would receive great satisfaction in knocking off the sixth rated team in the state, Dennis Duniven will be the boy to handle as he went wild last week, running for five touchdowns and had excellent help from his team mates on each occasion.

On the other hand, the Broncs realize the situation ahead and are making preparations to cope with any surprise attack McLean may hand out. It will take heads-up football and great team effort. At any rate, the Broncs will not be without fan support as the only people left in town Friday night will probably be the night patrolman and those who are without conveyance or ailing.

The Broncs still retain in their number one spot in the Panhandle rating and moved up to sixth place in the state. Jim Moore regained his number one spot in the scoring department with a total of 133 points and Charles Louis holds the number four place with a total of 84 points.

The probable starting lineup offensively for the Broncs will be as follows:

Center Jay Lambreth; Guards, Frankie Ellis and Willie Fields; Tackles, Ronnie Hasteley and Jerry Green; Ends, Bobby Leeper and James Hall; Quarterback, Jim Moore; Fullback, Bennie Reese; Tailback, Charles Louis, and Wingback, Ike O'Neal. Defensively, the Bronchos will probably be represented by defensive linemen Craft, Hall, Green, Hasteley, Tyler; Reese and Ronnie Hill line-backers; Ellis, Moore, O'Neal and Louis in the secondary.

Brian Tucker (center) son of Mr. and Mrs. James Tucker, is a member of the National Honor Society, Band President and Drum Major for the last two years, is active in basketball, is in the Stage Band, and last year participated successfully for All Region Band. Brian plans to further his education in the college of his choice next fall.

Candy Skelton (left) is secretary for the National Honor Society, Head Cheerleader, and reporter for the senior class. Last week she was elected F.H.A. Sweetheart. As our Most Versatile Girl, Candy is an annual editor, and plays tennis. Her future plans are to attend Texas Tech in the upcoming school year. Candy is the daughter of Mr. and Mrs. W. H. Skelton.

Beth Waldrop, (right) one of the three recipients of this award,

was elected F.T.A. President, and Vice President of the Drill Team. The faculty chose her as the Most Dependable girl of the 1969-1970 school year. A National Honor Society member, she is an editor for the annual staff. She was elected as a F.H.A. princess last week. Beth plans to attend Clarendon Junior College next fall. She is the daughter of Mrs. Margaret Waldrop.

DETERMINATION

When you walk from class to class in the hall of CHS notice the facial expressions: some fatigued, some mischievous, and others just plain expressionless. But "the look" which has won CHS such victory and high es-

illo, and a stop at Lee Optical for members of the group to get their glasses adjusted.

The day was, in all, an enjoyable one as well as being educational.

A WARNING

To Smoke, or Not to Smoke, by Debbie Lowry:

Television watchers and radio listeners have seen and heard lately about the benefits of the new 100 millimeter cigarettes. The main thing they've heard is how you get a longer smoke for the same price as the "normal" length cigarettes.

Only one problem - in a Clarendon student runs outside for that between class smoke, it's inevitable that by the time he gets through smoking the "7 minute cigarette" he is late to his next class; so if he wants to get good grades, he will lay off the smoking until he graduates. But that would mean he would live longer than his smoking and then who would he smoke with?

About the only solution left is a two-minute cigarette. That's right - a cigarette that lasts only two minutes. That way he could run outside, smoke a cigarette and still have plenty of time to get to his next class. Perhaps he could get the prices lowered for the shorter cigarette or maybe he could even talk the manufacturers into putting a little extra tar and nicotine into the short cigarettes for the same price as the regulars.

With one smoke after every class and a few extra at noon, he could still stay right at the front of the cancer roll with the rest of the people who are "dying for a smoke."

BIRTHDAYS

We would like to congratulate the following people who had birthdays in October: Debbie Heckman, Betty Mays, Candy Skelton, Ava Vinson, Steve Allen, Charles Louis, Gary Many, Jim Risley, Geneva Molder, Kenny Bacon, Cecil Burrow, Danny Hill, Larry Watson, Bill McQueen, Shelah McAnear, Brenda Row, Kent McElroy, Roy Ritche, Gary Swearingen, E. Wayne Barbee, Mike Leeper, and Larry Taylor.

PLAYER OF THE WEEK

Jerry Green was chosen as player of the week for the Clarendon-Wheeler game. He was chosen by the coaches for his outstanding playing throughout the game. Jerry is a senior member of the Broncho team. For two years, Jerry has been a tackle for the Bronchos.

THREE CHS STUDENTS OUTSTANDING TEENS OF AMERICA

The Outstanding Americans Foundation announced Monday that Candy Skelton, Brian Tucker, and Beth Waldrop of Clarendon High School have been selected as Outstanding Teenagers of America for 1970.

The students, nominated for this honor by their school, will compete for state and national awards in the Outstanding Teenagers of America program. In state competition they will compete for the Governor's Trophy. State winners will be eligible for one of two National Outstanding Teenagers of America awards and college scholarships made available by the Outstanding Americans Foundation.

The recipients of this honor were selected on the basis of ability and achievement.

ELEMINATE ELECTRICAL HAZARDS IN HOME ADVISES ENGINEER

The misuse of electricity or using defective wiring and equipment can be costly, cautions W. S. Allen, Texas A&M University Extension agricultural en-

gineer. Many fires are caused by such carelessness, he adds.

Here are questions, posed by the engineer, covering electrical hazards often found in the home. -Is the right size fuse (15 amps for lighting circuits) in use? Do you use a new fuse, never substitutes, when one blows out?

-Do you use extension cords within safe limits of their capacity? Safe limit for the most commonly used lamp cord is 500 watts.

-Are extension and appliance cords replaced immediately whenever insulation shows signs of fraying or cracking? Do you see that cords are never run under rugs or hooked over nails?

-Are appliances checked periodically to be sure they are in good operating condition and taken out of service for repair or replacement at the first sign of trouble?

-Is your TV antenna installed where it cannot fall across power lines, and is equipped with a properly grounded lightning arrester?

If there are "no" answers on the list, take corrective measures immediately, Allen advises.

A locking system is built right into the steering column. When you take your key with you, you lock not only your ignition but your steering wheel as well.

3 Aluminized exhaust system

It simply means that your original muffler, tailpipe and exhaust are going to last longer than you'd probably expect them to. Fair enough?

4 Side guard beams

They look like highway guard rails, and they're built into both sides of the car for extra protection in case of impact. Not too many cars have them.

5 Inner fenders

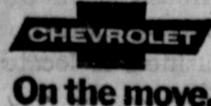

Up inside every fender is another fender to protect against slush and mud and help keep your Impala looking young.

6 Flush and dry

We build the car so that rain and wash water can run down through the inside of the rocker panels, then out. Air follows to do the drying.

7 Full Coil suspension

Huge coil springs at all four wheels are four big reasons why a Chevrolet Impala rides smoother and quieter than a low-priced car has any right to.

"Regardless of the motives, it is every man's duty to put his own and his family's security

first. He should not be condemned for using every legitimate means to accomplish that end. But, after we pass the point of taking care of ourselves now and providing for our old age, the making of money for itself is worthwhile only to the extent that the owner can use it in industry to serve others." William Ross.

Persons with a medical history of hay fever, asthma or other allergies should consult a physician immediately when stung by a wasp, the Agriculture Department advises.

TEXAS MINIMUM WAGE LAW

Farmers are reminded that Texas' first minimum wage law will become effective on February 1, 1970. James I. Mallett, Extension farm management specialist, says the new law will cover those employees not covered by the federal minimum wage law but does not supersede the federal statute. The agricultural section of the Texas law is designed to keep pace with future federal wage standards with the provision that the state minimum wage will not be less than 20 cents below the federal level.

DONLEY DETAILS OF 1970 UPLAND COTTON

The USDA, on October 31, 1969, announced 1970 crop upland cotton price-support loan and payment rates.

The national average price-support loan rate for Middling 1-inch cotton at average location has been set at 20.25 cents per pound. This is the same rate as that applicable to the 1970 crop.

The price-support payment rate to program cooperators has been established at 16.80 cents per pound. This payment is in addition to the price support loan and is made to cooperators on acreage planted within the domestic allotment which is 65% of the total farm allotment. The 1970 rate compares to a 1969 price-support rate of 14.73 cents per pound.

This, along with the previous announcement, gives cotton producers basic information on next year's program prior to the mail referendum, Dec. 1-5, on marketing quotas. In the referendum, at least two-thirds of cotton growers voting must approve marketing quotas before this program can go into effect. If more than one-third of the growers vote "no", the only cotton program will be price support at 50% of parity for growers who do not exceed their acreage allotment.

The carryover of upland cotton is expected to fall to the lowest level since 1953. In view of this, payments will not be offered in 1970 for diverting acreage from cotton. Special provisions for small farms, however, will be continued.

Small farms, that is farms with allotments of 10 acres or less or with projected production from the allotment of 3600 pounds or less, may plant the entire farm allotment and, in addition to the price-support payment on the domestic allotment, receive payment of 11.95 cents per pound on the projected yield of 35% of the farm allotment.

Payments under the program would be subject to any limitation that might be required by Congress in the USDA appropriations. SWEET OR FORAGE SORGHUMS ON DIVERTED ACRES—The State Committee has deter-

mined that the planting of sweet or forage sorghums on diverted acres will not be authorized in Texas for 1970 and subsequent crops. This determination was made on the basis that these crops would have to be disposed of prior to the beginning of the fall grazing period on diverted acres and the land would then be highly subject to wind and water erosion during the winter months.

DEKALB WINTER-GRAZE — DeKalb Winter-Graze is a wheat-wheat-grass cross, will be considered a feed grain but one not covered by the 1970 feed grain program. Therefore, like Triticale, it will not earn certificates of price support payments, nor will it count against the feed grain base or wheat allotment.

RAIDERS HOST BEARS

The Texas Tech Red Raiders will entertain the Baylor Bears at Jones Stadium in Lubbock Saturday, November 15. Game time is 2 p.m. This concludes season play on home ground. Their final game of the season will be against Arkansas at Little Rock November 27. This game will be televised.

I would like to take this means of thanking friends and neighbors for the flowers, cards, letters, gifts and other kindnesses extended me during my recent illness. Your thoughtfulness will always be remembered. Johnnie Bryson

We, the relatives of Doyle R. (Slim) Phillips, wish to express our deep appreciation to the many friends for visits, phone calls, and help during his illness and death.

A special thank you to the staff of Adair Hospital for care and attention; also to Rev. Lowell Hall, Rev. Paul Hancock and Delbert Robertson for funeral services.

To the many friends and neighbors who brought food and helped in so many ways we can never express our deep heartfelt thanks for easing the sorrow of our loss of a wonderful husband, father, and grandfather.

Mrs. D. R. Phillips and children.

Hunting Prospects In West Texas Improve

The general outlook for West Texas, which includes the Permian Basin, the Panhandle, and the Trans-Pecos, is good.

Although deer population are slightly down from last year in all the above regulatory districts, they seem to be in good shape, particularly in the Permian Basin where good antler formation and body condition are evident.

Prospects for bobwhite quail appear to be good in the Permian Basin and Panhandle with an increase in quail numbers in the Permian Basin and a good hold-over population in the Panhandle.

There are indications of an approximately 36 per cent increase in the total scaled quail population in the Permian Basin, so hunters should have good success. Production of blue quail in the Panhandle and Trans-Pecos was good this year.

The Permian Basin has a higher-than-average turkey population this year, and they seem to be in excellent condition. This is the first year in the Permian Basin that hunters may legally kill both gobblers and hens. Food prospects are good.

The Panhandle had a good turkey hatch this year, and the population is slightly up. The harvest should be fair to good.

Mule deer hunting in both the Panhandle and Trans-Pecos should be good this year. The Panhandle had a 46 per cent increase in population and approximately 80 per cent production.

DPS Reports Six Rural Accidents

The Texas Highway Patrol investigated six accidents on rural highways in Donley County during the month of October according to Sergeant Vernon Cawthon, Highway Patrol Supervisor of this area.

These crashes resulted in no persons killed, four persons injured and an estimated property damage of \$8,550.00.

The rural accidents summary for this county during the first ten months of 1969 shows a total of 41 accidents resulting in no persons killed, 29 persons injured, and an estimated property damage of \$32,936.00.

Highlights and Sidelights From Your State Capitol

AUSTIN, Tex.—More than 100 "fraternal organizations" are being requested by Secretary of State Martin Dies Jr. to swear that they are in fact fraternal organizations and not just "private clubs."

He says applications are coming in from "fraternities" that evidently are "private clubs" and if they are approved it will make a mockery of the five cent tax per drink requirement set by the legislature on private clubs.

Texas law provides that fraternal organizations are exempt from franchise taxes.

Among the "fraternal organizations" presently being asked to confirm their status are the Benevolent Order of the Impala of Texas, Club L'Amour Fraternal Association, Inc., the Fraternal Order of Moon Maidens, The Fraternal Order of Dart Players and the Fraternal Order for the Preservation and Restoration of Burlesque.

If an organization refuses to answer the questionnaire within 30 days, it faces dissolution. Answering the questions falsely means possible perjury charges.

WELFARE BENEFITS — According to Welfare Commissioner Burton Hackney, 509 Texas families may be affected by a San Antonio Federal court ruling requiring the State Department of Public Welfare to pay retroactive welfare benefits not paid since March under the now defunct one-year residency requirement.

Hackney said that if the department had to pay off all the back benefits, it would average about \$75 a recipient per month for that six-month period. And, if all applicants on the list were qualified, this would exceed \$250,000. However, he stressed that some of the applicants would be disqualified for other reasons, He

said no appeal of the decision was being planned.

Also, Hackney has asked the Texas Medical Association to help his department settle questions of "misuse" or "over-utilization" of Medicaid services and benefits.

USED CAR WARNING—Texas automobile buyers have been warned against purchasing so-called "bargain" autos now being offered for sale in South and East Texas.

H. C. Pitman, executive vice-president of the Texas Automobile Dealers Association, says many of these cars were "severely damaged by salt water submergence during the frightful ravages of Hurricane Camille in Mississippi and neighboring states" in August.

"This same sort of fraud on the car-buying public occurs following almost every hurricane in the Gulf Coast area," he pointed out, urging used car buyers to check the bill of sale to determine the origin of the vehicles.

ATTORNEY GENERAL RULES An employee of a county or hospital district does not have to be a resident of the county, the district, or even the state, says Atty. Gen. Crawford C. Martin, in a new opinion.

In other recent expressions Martin held that:

Condemnor in a condemnation case should pay the initial court-cost deposit when objections are filed by either party to a special commission award. He may recover if the county court judgment is for the same or a lesser amount of damages than offered before proceedings commenced.

Valley cable TV company which sponsors a bingo-type game over its facilities is not engaged in a forbidden lottery.

Changes in an individual holding of a wine and beer on "premise" license must be reflected on the license or permit, showing name and photograph.

COURTS SPEAK—A Supreme Court hearing has been set for November 26 on Mobil Oil Corporation's suit to get back \$386,893 in gas production taxes paid under protest since 1966. Same court has held that Wil-

son Radio Dispatch, with offices in McAllen, Brownsville, Harlingen and Rincon Camp, owes the state more than \$10,000 in back taxes from its car-telephone service.

A decision by the Corpus Christi board of adjustment to allow radio station KCCT to build a transmitter in a residential area was upheld by the high court.

APPOINTMENTS — Governor Smith named Richard Lee Penn, 39, of Austin to the Texas Industrial Accident Board. Penn is the husband of Fay Penn, Smith's secretary.

A long list of other appointments included the following: Judges New Dallas Courts: Charles Spencer Carver Jr. Snowden Marshall Leftwich Jr. Hugh Thomas Snodgrass, John Calder Vance and Roland Terry Seales . . . with James Greer Dowell succeeding Leftwich on the Dallas domestic relations bench.

Board of Regents West Texas State University: Dr. Theron Charles Hawkins of Kerrville, Donald Robert Curry of Fort Worth, Arthur Eugene Quest Jr. of Lubbock, Irby B. Carruth of Austin, James E. Jenkins of Amarillo, Patrick Richard Rutherford Jr. of Houston, Cloyce Kennedy Box of Dallas, Thomas Boone Pickens Jr. of Amarillo and B. Raymond Edans of Tulla.

Texas Optometry Board: Dr. N. Jay Rogers of Beaumont, Dr. John William Davis of Dallas, Dr. Salvador S. Mora of Laredo, Dr. Jack Burton of Cleburne, Dr. Jacob M. Cohen and Dr. Nelson F. Waldman of Houston.

New Customer Credit Study Committee: E. M. Stevens of San Antonio and Joseph David Irion of Beaumont.

Battleship Texas Commission: Richard C. Gusman of Bay City, Mrs. Viola Marie Webb of El Campo and Robert Norman Aylin of Houston.

State Board of Medical Examiners: Dr. McKinley Homer Crabb of Fort Worth; Dr. Glenn Garland Porter of Lubbock and Dr. Jose Gamma Rodarte of Temple.

San Antonio River Authority: Curtis C. Gunn and Thomas Drought of San Antonio.

WORKMEN'S COMP TO COUNTIES — Tony Korioth, member of the Industrial Accident Board, says counties which do not have workmen's compensation insurance may face a "serious problem."

Noting that county employees went under workmen's comp coverage on September 1, Korioth said that uninsured counties face open-end liability in lawsuits arising from the death or injury of their personnel.

Most major counties, he said, have not yet acquired insurance coverage and have no "common law defenses."

BREAKFAST IN SCHOOL — Texas Education Agency says school breakfast programs in Texas public schools are expected to pass the 350 mark in 1969-1970, doubling the 172 total set during the last academic year.

TEA also announced that the State Board of Education has allocated \$10,400,000 in vocational-technical funds to Texas' public junior colleges for the present school year. Funds were provided by the Legislature.

REPUBLICANS ACTIVE — Promising themselves at least 35 more state representatives, four more state senators, three more congressmen and a second United States Senator, Texas Republicans are setting their election targets on areas where the minorities comprise a large portion of the population.

They outlined plans to start now, reaching for the Negro and Mexican-American voters, instead of waiting until election time 1970.

Republicans aim specifically at the 15 state senators who made the majority when the food tax bill was passed by the Senate.

Republican District Committeeman Winston Wrinkle of Big Spring, who heads the party's Legislative Committee, says they plan to use the recent "184-day Donnybrook" (the three legislative sessions) and the tax increases, as additional ammunition.

Texas Federation of Republican Women announced that Mrs. Spiro T. Agnew will be in Austin on October 31 to present the second annual Tops "N" Texas awards for community service by women.

BRUCELOSIS — Texas Animal Health Commission says only eight Texas counties have not begun brucellosis-eradication programs, and all but 66 have been classified as modified-certified areas.

Federal regulations went into effect on August 1 restricting the interstate movement of most cattle from areas not modified-certified.

SHORT SNORTS

Lt. Gov. Ben Barnes named a five-member Senate general investigating committee headed by Sen. J. P. Word of Meridian.

Speaker Gus Mutscher designated Rep. Henry Sanchez of Brownsville to head a committee on Texas-Mexico friendship.

A school land lease sale on November 4 may show the adverse effect of a threatened 27½ per cent oil depletion allowance reduction, according to Land Commissioner Jerry Sadler.

Sen. Criss Cole of Houston, who will be Governor-for-a-Day on January 10, plans on spotlighting rehabilitation of the handicapped.

Governor Smith has asked the office of Economic Opportunity to remove VISTA (Volunteers in Service to America) workers from Harrison and Panola Counties after county officials requested their removal, claiming that workers instigated the boycott of a Marshall merchant, fomented racial strife and published an underground newspaper.

Larry W. Talkington of Boulder, Montana, is the new superintendent of Austin State School.

Parks and Wildlife Commission has accepted the deed to the 738-acre Hueco Tanks from El Paso County for a state park.

Mexico has offered lower Rio Grande Valley farmers an 110,000 acre-foot water loan from Amistad Reservoir near Del Rio, for emergency needs, reports the Texas Water Rights Commission.

DRAFT LEGISLATION: A somewhat slow moving Democrat-controlled House of Representatives considered one of President Nixon's major legislative proposals last week when it acted on a bill to permit the selection of military draftees on a lottery basis. Under the plan proposed by the President, recommended by the Democrat-controlled Armed Services Committee, and endorsed by Republican Members of the House, the time young men are eligible for the draft is decreased from seven years to one year.

Nineteen-year-olds and those whose deferments have expired will be in the "prime age group." Men will be selected by lottery according to the sequence in which their birthdays are drawn. If March 2nd is drawn, those men who have a birthday on that date would be the most susceptible to service. Thus, a young man would know much better where he stands with the draft than at present. Once he left the "prime age group" he would not be called except in emergency. Those deferred for college would join the "prime age group" as soon as their deferment expired. There will be a new drawing of birthdates each year.

In my opinion these changes create a system much fairer to the young men of our country. Student deferments create a class of exclusions which place the burden of national defense upon those individuals who by choice or circumstance do not pursue a college education.

I believe that some form of draft must be continued for the duration of the fighting in Vietnam. This plan proposed by the President seems to be the first step toward eliminating inequities in the present Selective System. By restricting the prime eligibility pool to 19 year-olds and lifting the present uncertainty which hangs over the head of a young man from the time he reaches 18 until his 26th birthday, this legislation is among the most helpful to be considered by Congress this year.

Although I support the President's initiative, I do not think the matter should rest there. I believe the present Selective Service System should receive a thorough scrutiny in an effort to determine whether the present System should be revised or retained.

The method by which our nation meets its military manpower needs is a critical question of our times. The future of democracy as we know it, depends in part on how we resolve this question.

CONTINUING APPROPRIATIONS: Also approved during the week was a resolution which will allow the government to pay its bills during November. Only two appropriations bills have been passed for the fiscal year which began on July 1. Therefore, a "continuing resolution" must be passed each month to

allow government agencies to continue spending until their appropriation bill is adopted. Normally the "continuing resolution" provides that the agencies spend the same amount as they did during the same month in the last fiscal year, however, a number of us felt that our schools should get the benefit of new legislation and an amendment I co-sponsored was adopted to allow educational spending at the level provided in the new appropriation bill now being considered.

MINE SAFETY: The House also adopted the coal mine safety bill last week. This bill has two major provisions. The first levies on the owner of every mine a royalty of two cents for each ton of coal produced. The money collected would be used to pay for medical examinations for miners and for medical research in connection with mining.

The second major provision provides Federal Workman's compensation for coal miners or their survivors who are disabled as a result of "black lung disease."

ELECTRONIC COOKING PROCESS EXPLAINED
Electronic ranges cook foods differently from conventional

ranges. But how? Linda Jacobsen, Extension home management specialist, explains that electronic energy in the range is produced by a magnetron, an electron tube with a magnet. The magnetron develops micro-wave energy that cooks food rapidly.

When baking with a conventional range the oven heats the air surrounding the food in the oven. Heated air circulates about the food and transmits its heat to the surface of the food then into the food's interior, Miss Jacobsen explains.

In the electronic cooking process, microwaves produced by the magnetron are diffused in all directions through the oven. This radiant energy, called micro-wave energy, penetrates the food and causes the molecules to vibrate against each other, creating heat and cooking the food.

The surface of the cooked products and the interior temperature of foods when removed from the electronic oven are different from those of products cooked in or on conventional units.

The oven air in the electronic appliance is nearly the same temperature as the room air; microwaves do not brown foods such as steaks, the Texas A&M University specialist says.

Livestock Survey Planned For Donley

Some 40,000 Texas ranchers and farmers, including a representative number from Donley County, will be involved in the 1969 state livestock survey.

County Agent Ronald Gooch said that during the last half of November survey questionnaires would be mailed to the selected livestock producers by the Texas Crop and Livestock Reporting Service. Each should fill out the questionnaire as soon as possible and return it in the enclosed envelope.

The reports will be used, explained the county agent, by the state statistician in making an accurate estimate of the cattle, hogs and chickens on the farms and ranches of Texas.

There are many uses, both in and out of Texas, for this information. We use it here in the county, Gooch said, in connection with our program building activities and in conducting educational programs involving livestock.

The more questionnaires returned, the more accurate will be the estimates; therefore, it is important that each producer in Donley County who receives

a questionnaire, complete and return it immediately.

Mr. and Mrs. Jerry Allen, Kyle and Karl of Hart visited home-folks over the week end.

Mr. and Mrs. J. D. Jones enjoyed as dinner guests Sunday, Nedda, Mike and Karen Jones and Pamela Blocker of Dalhart, also Ron and Debra Dolman of Odessa.

CHS Ex-Student Reunion Big Success

The CHS Ex-Student Association held its annual reunion November 7-8. Officials of the association were pleased with the number who attended the various festivities.

Following the football game Friday night approximately 100 exes and their families gathered in the Vo-Ag building for refreshments and visitation.

Saturday's activities were well attended also. Some 150 exes registered throughout the day. Gene White had a bus load for the tour of points of interest in and around our city. Group visitation in the homes drew a goodly number, especially in the classes to 1929, the 1940's, and the 1950's.

At 7:30 p.m. Saturday 130 exes and guests gathered for a most enjoyable meal catered by Sybil's Kuntry Kitchen. Following the meal, Mr. Arling Cordell, Superintendent of our public school, gave his words of welcome to all.

Recognitions were made and awards presented to: The Old-est Class Member Present, Mrs. Faye Morrison Walker, Class of 1915; Farthest Distance Travel-

ed, John Lumas of Corpus Christi, Class of 1938; and Teacher present having taught the longest, Mrs. Claudie Todd, 31 years.

Queen candidates presented were: Faye Morrison Walker, 1915; Ruby Botard Blackman, 1925; Alene Rhodes McElroy, 1935; Nova Lee Barker Mooring, 1945; Carol Lane Hall, 1955; and Dol-fia Vallance Hearn, 1965. Joan Putman Kidd, the 1968 Queen, crowned Carol Lane Hall as the 1969 Ex-Student Association Queen. At the conclusion of the crowning of the queen and before the president could make her final remarks, suddenly appeared "Phyllis Diller" and the room was filled with laughter for about 15 minutes. That Phyl-lis is quite a "gal," "guy," or "Oh, Well" — really good.

Between 175 and 200 danced to the music of the Motifs from Wheeler, Texas.

The officers of the Ex-Student Association expressed their appreciation for the fine attendance and support of their program and added that this support gives added incentive to plan on great things for next year.

Free Enterprise is the sum of many little things — but how miserable we'd be if someone stole it from us!

HEDLEY METHODIST SPECIAL SERVICE

The Hedley Methodist Church will take a special Christmas offering for the Methodist Home at Waco, Sunday, November 16. If you do not plan to be at Church on this date, those wishing to contribute are asked to mail or hand your offering to Ross Springer.

Be sure and designate the offering for the home at Waco. By taking the offering early this year, the money will be available to the Home in time to be used for Christmas, stated the pastor, Rev. Billy Wilson.
