

### Broncs One Game Away From The District Title

The Clarendon High School Bronchos are one game away from clinching the District 2A Basketball title after defeating Wheeler Friday night and Memphis Tuesday night. The game Tuesday night of this week began the second round of District play.

Friday night of last week Coach Irlbeck and the Varsity basketball team played Wheeler at Wheeler. The boys won their game 63-42. In the first quarter Clarendon took a lead of 17-10 and by half-time held an edge of 34-15. The third quarter ended 55-27. Top man for Clarendon was Wayne Carter with 19 followed by Jeff Howard with 15 and Kenny Bacon with 14. High for Wheeler was Beatty with 14 points.

Tuesday night the Bronchos took on Memphis in Broncho Gym winning this game by a score of 70-50. By quarters the count was Clarendon 23-14, 44-24, and 50-38. Carter was again high with 27 points. Bacon dropped in 19 and Mack Tomlinson 11. High for Memphis was J. Johnson with 16.

In the Wheeler game Clarendon girls lost by a 53-64 score. Trailing from a 9-22 count at the end of the first period the girls were never able to muster a strong come-back and at halftime tallied 23-34 and at the end of the third period 38-50. Lee Ann McCracken was high with 26 points, Joyce Louis hit 13. High for Wheeler were Brenda Errington and Niki Ware with 29 points each.

Tuesday night the girls lost to Memphis 38-51 with quarter scores 7-14, 17-22, 31-36. Joan Smith dropped in 18 points and Lee Ann McCracken 14. High for Memphis was Devorce with 18 points.

CHS Varsity teams will go to Claude Friday night of this week. Claude has lost one game to Clarendon in District play. If Clarendon wins this game, the District title will be in the bag.

Tuesday night of next week Clarendon teams will entertain McLean teams in Broncho Gym. Game time will be 6:30 and 8 p.m.

All fans are invited to come out and give these fine teams and their coach your support.

They also visited with Representative Tom Christian.

### What Does It Mean To Texas Agriculture

What does "3.76 in '76" mean to Texas? It means a billion dollars increase in agricultural income by the end of crop year 1976. "3.76 in '76" is a program initiated by the Texas Agricultural Extension Service designed to help Texas farmers and ranchers and all those in the agricultural industry to achieve their full potential. "3.76 in '76" aims to reduce the gap between knowledge and practice through application of improved production and marketing techniques.

In proclaiming January 25th through the 29th as "3.76 in '76" week, Governor Preston Smith said . . . "The achievement of an increase of \$1 billion in agricultural income will improve the net profit and competitive position of Texas farmers and ranchers and make highly significant contributions to the future economy of the state."

Governor Smith asks all citizens to join in this observance and to dedicate their efforts to the achievement of "3.76 in '76" attackers.

### Mrs. Lillian Ellis Dies In Dallas, Texas

Funeral services for Mrs. John S. Ellis of Dallas were held at 4 p.m. Wednesday, January 20, in Restland's Memorial Chapel in Dallas. Dr. Thomas A. Fry, Jr. officiated. Interment was in Restland - Laurel Land.

### PROCLAMATION

"3.76 in '76" WEEK  
WHEREAS, the Texas agricultural industry, in all of its phases, continues to be our most important industry, and

WHEREAS, agriculture continues to have great growth potential in our county with the rewards from such growth accruing to the benefit of all citizens, and

WHEREAS, there is an urgent need for an active crusade to increase the public's knowledge, acceptance, and appreciation for the highly significant contribution which agriculture makes to the economy of our county and to the level of living enjoyed by its citizens, and

WHEREAS, it is recognized that all citizens of this county have a vital stake and a legitimate self-interest in the general well-being of the farmers and ranchers who provide the great abundance and variety of food and fiber of highest quality which we all enjoy, and

WHEREAS, "3.76 in '76" is a well-conceived program designed by the Texas Agricultural Extension Service, with the endorsement and active support of agricultural agencies, organizations, and individual leaders, to help the agricultural industry achieve its full potential through an intensification of efforts by producers: agriculturists to bring fessional agriculturists to bring about an increase in income to Texas farmers and ranchers of \$1 billion by the end of crop year 1976, and

WHEREAS, "3.76 in '76" will narrow the gap between knowledge and practice through the coordinated application of improved production and marketing practices that have been proven to be sound and profitable, and

WHEREAS, the achievement of an increase of 2.7 million dollars in agricultural income by the end of crop year 1976 will improve the net profit and competitive position of Donley County farmers and ranchers and make highly significant contributions to the future economy of the county.

NOW THEREFORE, I, W. R. Christal, County Judge of Donley County, Texas do proclaim the week of January 25-29, 1971 as "3.76 in '76 Week" in Donley County and call upon all citizens to join in this observance and to dedicate their efforts to the achievement of its stated objectives.

Dated this 29th day of January A. D. 1971.  
Signed: W. R. CHRISTAL  
County Judge, Donley County

### Deadline For W-2 Forms February 1

The deadline for employers to give employees their 1970 W-2 forms is Monday, February 1, 1971. Ellis Campbell, Jr., District Director of Internal Revenue for North Texas, said today.

The form should show earnings, income tax withheld and Social Security information.

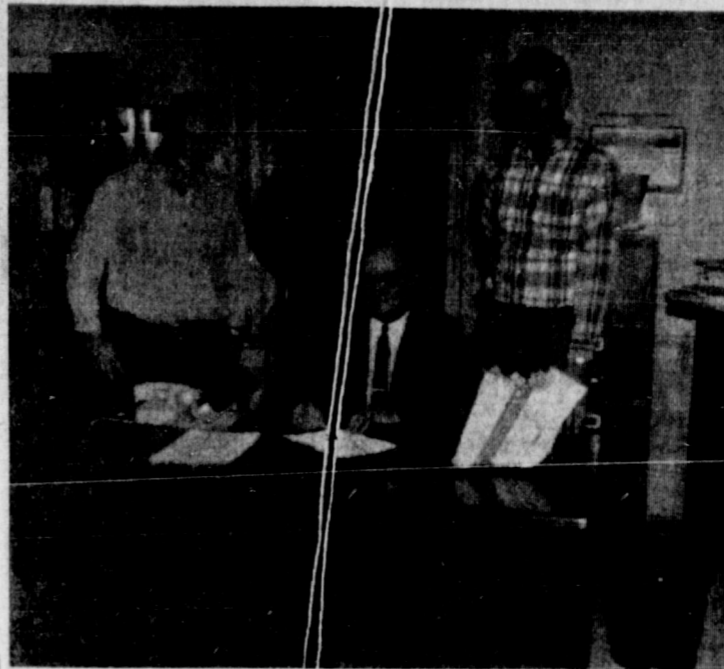

A copy of the W-2 from each employer has to be filed by the employee with his income tax return. Therefore, it is important that employers furnish W-2's to their employees by the date required to permit timely preparation and filing of employee's tax returns.

### CLARENDON COLLEGE ENROLLMENT IS UP

Leonard Selvidge, Registrar at Clarendon College, announced today the enrollment at Clarendon College exceeds last Spring's enrollment by 20%. At this date the total enrollment figure stands at 362 students with one more week left for late enrollees.

February 2, 1971 is the last date to enroll for the Spring Semester. It is very possible the total figure for this Semester could exceed 375 students by the last day.

### Follow-Up Diphtheria Clinic January 29

A Follow-Up Diphtheria Clinic for Donley County will be held Friday afternoon, January 29th from 1:30 to 5:00 p.m. in the old College Gymnasium in Clarendon. The Clinic is made possible through the cooperation of the Texas State Department of Health. No charge will be made for the immunization.

The primary purpose of this Clinic is to give a booster vaccination to all of the pre-school children, school children and adults who received their first vaccination at the first Clinic in December.

Anyone who was unable to take advantage of the first clinic is welcome to attend this clinic and receive a vaccination. Remember this Clinic is for adults as well as children.

### New College Gym Floor Nears Finish

If all goes well and progresses as smoothly as the past two weeks the C. C. Bulldogs will move back to home-base, Clarendon College Field House, on February 1, 1971.

The game scheduled for the 29th of January will be played at The High School Gym against South Plains Jr. College from Levelland, Texas. This game should be a squeaker either way since both Clarendon and Levelland are undefeated in Conference play.

Coach Neely and the Bulldogs appreciate the patience and good sportsmanship of their fans during the delay of home court play and cordially invite everyone back home on the 2nd of February for the tilt with New Mexico Junior College from Hobbs, N. Mex.

### NOTICE!

Due to a shortage of pianos in the Clarendon Public School System we are in desperate need of a piano to be used in the Cafeteria for banquets and other social events.

Anyone wishing to donate a piano should notify the Junior High Principal, Mr. Stina Cain, or the Choir Director, Miss Betty Stewart.

### LICENSE PLATES GO ON SALE MONDAY

The new Texas vehicle license plates will go on sale Monday, February 1st at the County Tax Office. The new tags may be purchased and displayed on vehicles at that time and all vehicles must be registered if used on a public road by April 1st.

Everyone is reminded to bring along the registration card sent out by the state which will make registering your vehicle much faster. If you do not bring it with you, the old method will be used and you will need all your other papers to get your tags, Clyde James, Tax Collector, stated.

### DANGEROUS DRUGS TO BE DISCUSSED AT CHS

A program on dangerous drugs will be held today, Thursday, January 28, 1971 in the Old College Auditorium. Mr. Bill Lane and Mr. Bill Micchelli from Synanon Foundation Corporation of Santa Monica, California will discuss the subject at two sessions.

The first session will be from 10 a.m. to 11 a.m. for Junior High School students and the second from 11 a.m. to 12 a.m. for High School students.

The public is urged to attend this program. There is no admission charge, however donations will go to the Synanon Foundation for work in connection with the Drug Problem, work in which the Foundation is engaged.

Melvin Jones visited his father and other relatives in Mangum, Okla. Sunday.

### Voter Registration Picks Up But Still Shy As Deadline Nears

### Cong. Bob Price's Bill Passes To Help Small Hospitals

A bill introduced by Congressman Bob Price in October to change staffing requirements for small hospitals has been signed into law by President Nixon.

"Under previous regulations hospitals could not collect payments from Medicare unless at least one registered nurse was on duty during each of the three eight-hour hospital shifts," Price explained. "This new law will make it possible for 50-bed and under hospitals to treat Medicare patients if they provide 24 hour nursing service by licensed vocational nurses when registered nurses are not on duty."

Price introduced the legislation on behalf of the many hospital administrators, doctors, nurses, and concerned citizens throughout the 18th District and Texas who have been concerned about the problem.

"It would be a great blow to the residents of small towns if community hospitals would have been forced to close their doors because of unrealistic Federal regulations," Price said.

"I am very pleased that my colleagues in the Congress and the President had the foresight to take such quick action on this legislation," he added.

Voter Registration picked up some this past week but is still way shy of what the total should be. An important issue in regard to the Greenbelt Water District will be coming up in a short time so it will be wise to register so you can vote.

Up through Tuesday, a total of only 1575 had registered as compared with 2319 last year. This leaves approximately 744 to register between now and closing time Saturday.

Sheriff, Tax Assessor-Collector Clyde James announced this week that the tax office would remain open Saturday to accommodate those who have not registered in this area. He also stated that a representative from the tax office would be at the Hedley City Hall Saturday to assist those in that area who have not registered.

In addition to the Greenbelt tax issue there is a good possibility of a State Amendment election within the near future in regard to raising the Welfare limit.

Be sure to register so you can vote on whatever issue might possibly come up.

When you promised to share and share alike, did that mean your wife could use up all the hot water?

You could get up earlier. Then you'd be sure to beat her to it. Of course she wouldn't be too impressed with your chivalry. Another alternative is a larger gas water heater. Gas water heaters are easy to buy, easy to install, and recover hot water up to twice as fast as comparable electric models.

So stop competing with your better half. Get a larger capacity hot water heater. For fewer fights and lots more hot water.

## REMOVING STAINS

Remove combinations of greasy and nongreasy stains such as salad dressing, ice cream, gravy, or meat juices from washable material, first sponge the stain with cool water. If the spot remains, soak in cool water for 30 minutes. If the spot still doesn't come out, rub liquid soap or detergent into it. Rinse well and let the material dry. If a greasy stain remains, sponge with a spot remover.

## do the "roman collars" label them catholics?

Episcopalians and Roman Catholics and Presbyterians and Baptists and Methodists...these and countless other denominations exist because of the differences between men.

It's the similarities between men that produce Christians.

Episcopalians are proud of both their differences AND their similarities to other denominations. You can call them anything you like. They're Protestant because their forebears were among the leaders of the Protestant Reformation in 16th-Century England. But the word "Catholic" means "universal, whole, or complete"...and, certainly, Episcopalians are proud to embrace all the traditions of Christ's "universal church."

In short, they don't feel that heaven is reserved for those who agree with the Episcopal viewpoint. They say, "There's only one God. Let's share." OK?

By the way, would you believe that the "backward collar" was not a Roman Catholic invention? It was introduced by a priest of the Church of England, parent of the Episcopal Church in the United States. He devised it as a mark of identification during his ministrations to the London Dock area.

Maybe, if you got the whole story from your nearby Episcopal minister, you'd find that some of the differences in the Episcopal faith would help you appreciate the universality of the Christian religion. Think about that.

## Highlights and Sidelights

### From Your State Capitol

By Vera Sanford

AUSTIN, Tex. — Gov. Preston Smith told Texas lawmakers they can balance a \$6.8 billion budget without new taxes — by deficit finance, bond issues and federal assumption of welfare costs.

While legislators liked to hear that they can escape a tax bill, many found the Governor's approach contingent on too many "ifs." Voter approval of bond issues, they noted, is highly uncertain and congressional assumption of welfare is doubtful.

Here, in brief, is what the Governor proposed:

Financing of welfare programs for only 10 months in anticipation that Congress will take over full funding by then.

A maximum \$450 million "public free school bond" issue, to be retired from school land income now going by constitutional decree into the unchangeable permanent school fund. A constitutional amendment would be required to create both the fund and pay-off plan.

Temporary deficit financing of a \$70 million emergency aid-to-welfare appropriation — which would require a four-fifths vote of the Legislature.

A \$71 million revenue bond program (secured with tuition income) to build new colleges, medical and dental schools authorized in 1969.

He also proposed three more constitutional amendments:

Removal of the \$80 million a year welfare ceiling.

Raising or removing the water development bond interest lid.

Creation of a \$100 million fund for state aid on waste treatment facilities.

Smith pledged an all-out effort to encourage a federal takeover of welfare financing. If lawmakers don't like his ideas, said the Governor, they should "bring me a plan."

COMMITTEES NAMED — House Speaker Gus Mutscher named his committees late last week, signaling the start of actual bill introduction and processing in the lower house.

As expected, he picked veteran Rep. W. S. (Bill) Heintly of Paducah for another session as chairman of the budget-writing appropriations committee which promptly launched hearings of spending requests.

To the hot-spot revenue and tax committee chairmanship, he again appointed Rep. Ben Atwell of Dallas.

But Mutscher estimated he ordered 74 per cent turnover in all chairmanships.

Rep. Rayford Price of Paestine was bumped from the hard-working state affairs panel chair, and Rep. James Sieder of Naples for that job. Rep. Delwin Jones of Lubbock got Mutscher's assignment to chair the congressional and legislative districts committee which must reapportion boundaries on the basis of the new census. Jones estimates a loss of 10 or 12 rural House seats.

Rep. DeWitt Hale of Corpus Christi kept the judiciary committee chair, and Rep. John Traeger of Seguin retained the constitutional amendment committee gavel. New rules committee chairman is Rep. James Nugent of Kerrville, Rep. Dick McKissack of Dallas, who sponsored the liquor-by-drink constitutional amendment, will head Mutscher's liquor regulations committee. Rep. Frank Calhoun of Abilene is chairman of the criminal jurisprudence panel.

WELFARE MEASURE ADVANCES — First major measure to clear senate committee was a proposed constitutional amendment by Sen. Charles Wilson of Lufkin to remove the \$80 million state welfare ceiling.

Governor Smith said the current rate of expenditures would bring the state up against an \$80 million lid by June 1, and drastic cuts in aid to families with dependent children would be required. Welfare Commissioner Burton G. Hackney estimated AFDC average payments of \$13.60 a month would be slashed to \$90 May 1 if the ceiling is not raised.

Sponsors of the amendment hope to get it to a vote by early May along with other proposals in the Governor's constitutional change package.

AID FOR PRIVATE COLLEGES — Coordinating Board Texas College and University System endorsed aid to hard-pressed private colleges.

Board backed tuition equalization grants to needy students and state contracts with private institutions for educational degree purposes. Bills to accomplish both purposes have been introduced. Estimated cost to the state is about \$28 million.

Board turned down a proposal that the state should assume full cost of community junior colleges.

ALLOWABLE DOWN — Railroad Commission set the February oil allowable to permit a maximum of 3,852,821 barrels a day production, reducing the flow from 83.1 per cent in January to 82.1 per cent.

Actually, production is not expected to exceed 3,411,000 barrels daily. Buyers nominated for 3,410,979.

Commission heard testimony on high inventories of Texas crude. Only one of 14 major oil company buyers—Mobil—changed purchase plans from January.

DEMOCRATS BACK ELECTION CHANGES — State Democratic Committee endorsed a sweeping election law revision, including Tuesday primary dates and allowing 18-year-olds to participate in national party convention delegate selection.

Party leaders recommended complete revision of voter registration laws but came up with no specifics. They also proposed changes in convention procedures to conform with national party rules.

Legislation is pending in the senate to repeal the annual voter registration requirement and to move dates of primaries from May and June to August and September. Constitutional amendment to permit 18-year-olds to vote in all elections also is pending.

FOUNDATION PROBE LAUNCHED — Atty Gen. Crawford C. Martin directed immediate investigation of seven members of the Moody Foundation board at their own request.

Trustees asked the Attorney General to determine if there

## New Business Now Employs Seven

A new business, Loretta's Sew Shop, the first of its kind, was opened August 13, 1970 in the south block of Main Street in Clarendon. The shop is owned and operated by Loretta Harrison.

Featured along with custom sewing and alterations is a fine line of special fabrics, McCalls Patterns, sewing notions and trims, and a complete line of buttons.

The business offers the residents of the Clarendon area an entirely new service in making new garments and alterations. Excellent workmanship is stressed in every garment or alteration to give satisfaction to each customer. One of the main factors is that no two garments are ever made alike so that each garment sold is The One Of Its Kind.

Long Distance Sewing with aid of measurement cards, name and towns is also a feature of the business.

When the Sew Shop was first opened, it was opened for Custom Sewing Only but demand brought expansion into the fabric, pattern, and sewing notions fields. The business has been in operation for five months.

If you have not visited us, we invite you to come by, acquaint yourself with our services, inspect our beautiful fabrics, and see the many unusual features we have to offer you.

While this spoon still produces quite spectacularly, Hill's current favorite is the Slab Spoon. It is made commercially by the Bomber Bait Company. Hill likes the slab so well he even molds his own.

This heavy, solid-lead spoon can be worked slowly along the lake bottom and it seems to have the slow-wobble action that whites prefer.

Hill casts the bait and allows it to plummet straight to the bottom. Then he brings it back in slow stop-and-go jerks, lifting it off the bottom and allowing it to wobble back down. Most times, a white will not attack this bait savagely. It sort of pecks at it. Therefore, the angler must learn to keep a tight line, to feel the almost imperceptible bite, or watch his rod tip for the tell-tale bob that indicates a white is fooling with the lure.

Hill's favorite spoon is almost solid white with just a thin slash of red along the front end.

Biggest problem in white bass fishing is finding the fish. Hill watches for bird activity. Culls hovering and diving over the water usually indicate that white bass are feeding below. If there is no bird activity, he simply works any likely spot that might hold whites. He prospects an area for maybe 15 minutes before moving on. Usually, if whites are present and cooperative, they'll hit in a hurry. By systematically moving and trying different spots, Hill usually finds a concentration of fish some-time during the day.

Even when the fish are schooling near the top, he quite often fishes the bottom. He points out that the small, eager fish rush the shad to the surface to feed ravenously, while the older, more docile whites wait patiently near the bottom for wounded shad to sink down to them. . . shad that the eager youngsters have missed. A spoon dropped in the vicinity and worked to simulate a

## Look For Investment Credit Recapture

The recapture of investment credit is now possible under the regulations of the 1969 income tax law.

Investment credit was repealed by the 1969 tax law for property acquired or construction begun after April 18, 1969 according to James I. Mallett, farm management specialist with the Texas Agricultural Extension Service.

Now credit may be claimed on property acquired by contract that was binding on or before April 18, 1969 or for property with more than 50% of the costs of parts and components held on April 18, 1969.

Property placed in service after December 31, 1970 will not be able to recapture credit.

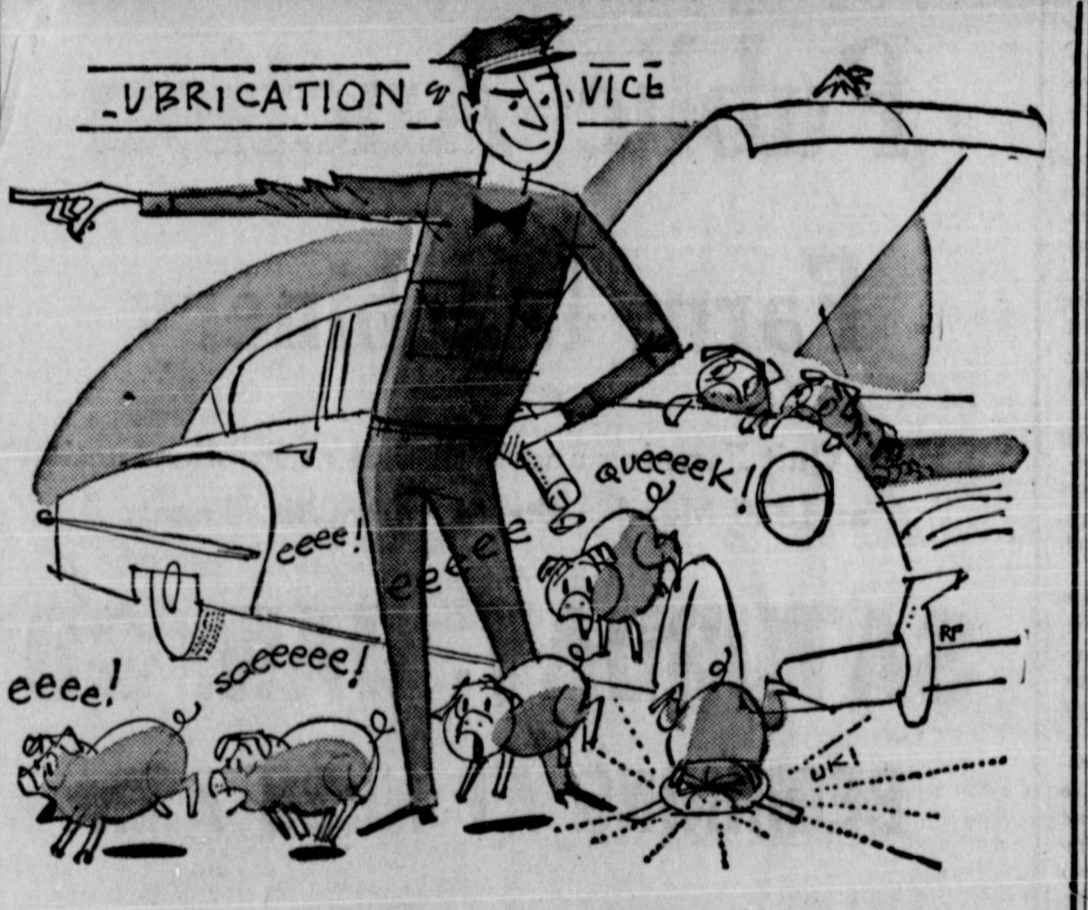

Mallett noted that investment credit recapture on dispositions after April 18, 1969 will be reduced if replacement property is acquired within six months after selling property qualifying under the old law.

He said the recapture would be reduced by the amount of investment credit the property would have been eligible for before the repeal.

Mallett also pointed out that investment credit is recaptured on early disposition of credit claimed property, and that the recapture is actually the amount claimed—less the amount for which the asset qualifies.

In cases of casualty and theft losses of investment credit property before April 18, 1969, the recapture will be offset. There is no recapture on such losses occurring after April 18, 1969.

## Accent on Health OUTDOORS in TEXAS

When you invite a visitor into your home, it's usually someone whom you know and like to be around.

But there's one visitor you seldom see and don't want even though you provide him with the run of your home and all the comforts which you enjoy. That visitor, says the Texas State Department of Health, is the rat.

Just as surely as if by invitation, you welcome the rat into your home by providing harborage and food — the two necessary ingredients for infestation of any premises. This may come as a surprise to most persons, since Texas and the United States have long prided themselves on being highly sanitized.

But, let's take a look at the problem to determine whether you may be guilty of encouraging rats.

A rat must have food to exist. If you have a cat, dog or other pet and overfeed it — leaving scraps around — the rat can survive quite well. Grain is another standard diet of rats and mice. How about that bird feeder? Is it constructed so that grain spills onto the ground, or so placed that a rat can climb onto it? And how about your garbage can? Is the lid tight, or does it fit loosely? Do you always keep the lid on the can?

The answers to these questions may give you a clue as to why there are rats around.

Now, for the harborage requirement.

Rats take up residence in sewers, in piles of junk and lumber, in heaps of boxes and leaves, in storage sheds, in the attic or under your house. Have you heard strange noises in your walls or attic? It could be rats scampering around.

With winter upon us, rats are more prone to seek shelter in the warmth of someone's home. You'd be surprised just how little space they need to squirm through a hole — around a water

### Coach Dave Neely Is Undaunted by Mishap

Editor's Note: Coach Dave Neely has been faced with many problems this season as the Clarendon College Bulldogs progress in league play. His spirits remain undaunted, however, and he and the boys are doing a fine job for us. Below is a letter written by Coach Neely to the Bulldog Boosters.

Dear Bulldog Booster:

Even though I've traded my tennis shoes for fins, my whistle for a snorkel, and my green pants for a bathing suit, things are going well here in Bulldog Country. Our only problems we have are climbing over bleachers

to get to my office, and keeping sandbags high enough to keep the dressing rooms dry.

In spite of our gym floor problems, we are winning some ball games. We have won five out of our last six now, bringing our record to 10-6 over all and 2-0 in conference play. After winning the consolation championship in the Murray State Tournament in Tishomingo, Oklahoma over the holidays, we have played two conference games, winning them both. On Saturday, January 16, we traveled to Odessa where we beat Odessa College 91-78. Then this past Monday night, we nipped a good Frank Phillips team 90-85. Tomorrow night we entertain the New Mexico Military Institute in

the Clarendon High School gym. At the present time we share the conference lead with South Plains and Howard County. They pay each other tomorrow night, so providing we win there will be two of us undefeated after this weeks play.

Next week will be a tremendous test for us, in that on Tuesday we play Howard County at their place, and then we entertain South Plains here at home on Friday, January 23. The game with South Plains will also be played in the High School gymnasium.

Tony Moya now stands third in the conference in scoring with a 22.1 point average. Jesse King of Quanah has moved up to second in rebounds, pulling down 22.2 per ball game.

Keep in mind that the poster board schedules downtown should read January 29 for the South Plains game. Hope to see you out to see us play this next week. Glub, Glub—Dave

The Bulldogs journeyed to Big Springs to battle Howard County Junior College players on Tuesday night of this week which should prove to be one battle-royal to see who remains on top of the Western Junior College Conference.

### Funeral Services For Mrs. Ida B James

Funeral services for Mrs. Ida B James, 95, a resident of Armstrong County and the Goodnight Community since 1913, were held at 2:00 p.m. Wednesday, January 27, 1971 in the First Baptist Church of Claude with Rev. Charles Davenport, pastor, officiating. Interment was in the Claude Cemetery under the direction of Murphy Funeral Home.

Mrs. James died at 7:45 p.m. Monday, Jan. 25th, in Groom Memorial Hospital after a lengthy illness. She was born in Rye Cove, Virginia, March 30, 1875, and came to Armstrong County from Tennessee. She was a member of the Goodnight Baptist Church.

Survivors include a son R. J. Collins of Goodnight; a sister, Mrs. Bessie Ingram of Oklahoma City, Okla.; two grandchildren and five great grandchildren.

### Inside The Legislature with Rep. Tom Christian

AUSTIN — Let me begin this introduction of the 62nd session of the Texas Legislature with a brief comparison to the 61st—the big question being the veil of mystery that seems to surround the House at the present time.

In the 61st session it was not difficult to identify the so-called "team" of the Speaker's lieutenants who pushed the passing or killing of legislation. This year it is hard to establish who is where and what the direction will be in regard to legislation.

Speaker Mutscher has not yet fulfilled his appointed duties in regard to chairman or committee members and will not until after the Governor presents his tax and legislation message to a joint session of the House and Senate.

One of the major points of concern in regard to the future of the 62nd session involves the amount of tax money needed. It is estimated between \$645 million and \$800 million more tax dollars, which is burden enough without the added threat of new taxes and the added problem of disarray in state agencies. I am afraid it will involve many personalities which could be a stumbling block in the overall process.

With consideration to method of taxation we hear a great deal of talk in regard to a personal income tax. I would not be surprised if such a bill would pass the Senate. However, I do feel that it would have its problems in the House. I think it's safe to say that we are again going to have a great deal of legislation to deal with, with more than 70 bills introduced on the first day of the Session. The Chief Clerk estimates that over 3,000 bills will be introduced to the Session. Many bills are like re-runs of old movies on television. If they were bad the first time, they don't get any better.

There is some talk of using deficit financing to get around having an emergency tax bill of some \$40 million to fund the welfare program. However, as of now I think this theory lacks support needed to pass the House.

Bills dropped in the hopper—a sampling.

S. B. 24 By McKool. Amending Ar. 5.19a, V.C.S. relating to sale of lists of registered voters. Referred to Committee on Privileges and Elections.

S. B. By Brooks, et al. Relating to the inoculation of persons attending elementary or secondary schools. Referred to Committee on Public Health.

S.J.R. By Bernal. Amending Art. VI Sec. 1 and 2 Const., to lower the minimum voting age to 18 years. Referred to Committee on Constitutional Amendments.

H.C.R. 4 Creating a joint committee to canvass the votes cast in the General Election and arrange for the inauguration. Received from the House. Read and adopted.

(Most of these bills were introduced and referred to committee in the Senate. House bills cannot be referred until permanent committee assignments are made.)

I was appointed to the Canvassing Committee mentioned in the House Concurring Resolution 4 which is composed of five members of the House and five from the Senate. It is chaired by Rep. Vernon Stewart of Wichita Falls. We made our report to the House and Senate on Monday.

#### RUMORS UNDER THE DOME

An organized effort to tighten the rules under which the House operates in relation to conference committee is aimed at restricting the power of the conference committee to adjusting the differences in House and Senate bills rather than taking the liberty of rewriting them completely. The idea is to unify the rules under which the House and Senate operate in this matter.

It is my opinion that the majority of the debate concerning pros and cons of pending legislation before the 150-member House is a loss if a measure can be rewritten by a 10-member committee.

#### SECOND RUMOR

The powers that be are side-tracking talk about special sessions this summer. However, conversations around the Capitol reveal that Senators were advised to take full year leases on their

apartments. The opinions of the people in Donley County are important to me in the decision making process when legislation concerning the Panhandle area is before the House.

Your views on legislation or requests for additional information on bills that have been introduced should be addressed to: Rep. Tom Christian House of Representatives P. O. Box 2916 Austin, Texas 78767

### Panhandle Boat & Ski Club Annual Show January 29 - 31

### CUT CORNERS FOR EFFICIENT HOG PRODUCTION

The major factors which influence the cost of producing a 220 pound market hog are fixed costs, feed efficiency, cost of grain and number of pigs marketed per year per sow, says Bill Thomas, Extension swine specialist. Good records and corner-cutting on production costs will help make the hog enterprise more profitable, he notes.
