Bulldogs Meet Amarillo College Here Friday Night, 8:00 O'Clock

The strong Amarillo College Badgers will invade Clarendon Friday night for a Western Junior College Athletic Conference game with the Clarendon Junior College Bulldogs.

The Badgers, coached by Dr. Robert Carter, a 25-year coaching veteran at the Amarillo school, appear to be much stronger this year than in the past several seasons. They have compiled a 2-1 conference record with their only loss coming at the hands of the always powerful San Angelo College Rams.

The Bulldogs, on the other hand, hold a 3-8 season's record and a 1-2 conference record. They defeated New Mexico Military Institute and lost to Lubbock Christian College and Howard County College in conference play and in non-league play they took two wins over Sayre, Oklahoma, Junior College, and have been defeated by Odessa College, Lubbock Christian College, Schriener Institute, Decatur Baptist College, and Wayland Freshmen twice.

Amarillo was picked at the beginning of the season to finish third in the nine team Western Junior College Athletic Conference with the Bulldogs being picked to finish first for the second year in a row. Bulldogs could win only one of 16 conference games last year.

Coach Don Doran of the Bulldogs is currently starting a team of Max Courtney at center, Alvin Scott and Bill Bentley at forwards and Jimmy Boyd and James Starkey at guards. First line reserves include LeRoy Gerrett, Randall Murry, James Allen, Noel King and Garland Lancaster. Bentley suffered a sprained ankle in the game against Decatur College on the night of Jan. 1, but is expected to be back in action Friday night. Murry also missed the game against Wayland Freshmen last Saturday night because of a bad tooth, but he also is expected to be back by Friday night.

Mr. and Mrs. M. D. Kennard and daughter, Rosina, of Lubbock, Texas, visited Sunday with Mr. and Mrs. Henry Mann and Mrs. Gurvis D. Kennard and Jennifer.

Last Rites Held For Reagan C. Bryan

Reagan Clarence Bryan, 67, died at 7:15 p.m. Sunday in Adair Hospital.

Funeral services were held at 10:30 a.m. Tuesday at the First Baptist Church with the pastor, Rev. W. R. Lawrence, officiating, assisted by Rev. J. V. Patterson, pastor of the First Methodist Church.

Mr. Bryan was born October 13, 1895, at Tenaha, Texas, and came to Clarendon in 1906. He had been in the grocery business in Clarendon and Turkey prior to his retirement in 1957 due to ill health.

On November 14, 1928, he married Miss Ellen Bell at Memphis, Texas. He was a member of the First Baptist Church, a veteran of WW I, and a member of the American Legion.

Survivors include his wife; one daughter, Mrs. O. E. (Dona) Patterson, Jr., of Springfield, Illinois; two sisters, Mrs. Buel Sanford and Mrs. Frank Whitlock, both of Clarendon and two grandsons.

Pallbearers were Walter Clifford, Alvin Landers, George Thompson, O. C. Watson, Charlie Bairfield, and Billy Goodman.

Interment was in Citizens Cemetery under direction of Murphy Funeral Home.

High School Opens Conference Play Next Tuesday Night

The high school basketball teams will travel to Silverton tomorrow night to try to even the score with the strong Owls and Owlettes. Both the girls and boys teams were defeated when they met on the local court early in the season.

Both girls and boys teams were defeated in the consolation finals of the North Plains Tournament at Claude the past week end. Spearman defeated the Bronchos and Claude swamped the local Bronchoettes.

Conference play will begin on the home court next Tuesday night. Game time will be 6:30 p.m. when the McLean team invades the Broncho corral for the first conference tilt of the season.

Dogetts Select Games Outstanding Player

The Dogetts, a service club at Clarendon Junior College, have decided to pick an outstanding player or the "Player of the Game" in each of the Clarendon Junior College basketball games. So far the club has picked four players in each of the last four games the Bulldogs have played. They are:

Randall Murry for his outstanding play in the game against Howard County here on Dec. 18. Alvin Scott for his performance against Decatur Baptist College here on Jan. 1. Max Courtney for the game against Lubbock Christian College here last Friday night and James Starkey for his play against the Wayland College Freshmen at Olton on Saturday night.

Murry is a freshman from Samnorwood. He was an all-district performer his last three years in high school. He is only 5-9 but he makes up for a lot of height by his spirited hustle. He specializes in stealing the ball, dribbling, and setting up plays. Although not a regular starter he scored 12 points in the game against the strong and much larger Jayhawks from Howard County. Randall is also a better than average student in the college.

Scott is a 6-2, 190 pound sophomore from Quannah. He lettered for the Bulldogs last season. He is one of the hardest workers on the squad and always puts out his best when in a game. He is a good rebounder and has a good jump shot. In the game against Decatur he made 15 points on five field goals and five free throws. He is a good student and is President of the Student Body at the college this year. He was an all district performer in high school in both basketball and football.

Courtney, a sophomore letterman from Wellington, is the tallest boy on the squad at 6 feet, 8 inches. Although not a consistent scorer, Courtney is usually the top rebounder and plays a good defensive game. In the game against Lubbock Christian College he scored nine points and got 17 rebounds.

Starkey, a freshman guard from Quitaque, is one of the best prospects on the Bulldog squad. He is a good ball handler and an excellent outside shooter. He was on the all regional team last year as a member of the Quitaque Panthers who won the regional championship and participated in the state play-offs Saturday night. He scored 22 points in an eleven field goal attempt against the Mustangs. He is also a good student.

JOE TOM NAYLOR TO RECEIVE B.D. DEGREE

Joe Tom Naylor, son of Mr. and Mrs. Carl Naylor of Clarendon, Texas, will receive the Bachelor of Divinity degree from Southwestern Seminary, Fort Worth. Mrs. Naylor is the former Nadene Formway also of Clarendon.

Dr. Abner V. McCall, president of Baylor University, Waco, Tex., will deliver the mid-winter commencement address at Southwestern Baptist Theological Seminary, 7:30 p.m., Jan. 17. Seminary President Robert E. Naylor will present degrees and diplomas to approximately 116 candidates.

BAND PARENTS TO MEET TUESDAY NIGHT, JAN. 15

Parents of High School Band Students will meet in the Home-making Department of the High School Tuesday evening, January 15, at 7:30 p.m. Mother, father, or both parents of high school band students are urged to attend.

Donley County State Bank Increases Surplus Account

W. Carroll Knorpp, President of The Donley County State Bank, announced this week that the bank had increased its surplus account to \$125,000 to give a combined Capital and Surplus Account of \$225,000.

Certain banking services are regulated by the Capitol & Surplus of a bank and by increasing the figure, the Donley County State Bank will now be in a position to serve its customers in a more comprehensive manner, Knorpp added.

Former Resident Buried Here Friday

Funeral services for Mrs. Claudia B. Perdue, former resident of Donley County, were held Friday afternoon in the Blackburn-Shaw Memorial Chapel, Amarillo, with Rev. Eugene Matthews, pastor of Trinity Methodist Church officiating. Burial was in Citizens Cemetery, Clarendon.

Mrs. Perdue, 60, died last Wednesday in an Amarillo hospital. She was a member of the Trinity Methodist Church and was married to H. B. Perdue June 27, 1920.

Surviving are her husband of the home; three sons, E. R. and O. E., both of Amarillo, and M. R. of Okla. City; her mother, Mrs. O. L. Jacobs of Amarillo; three sisters, Mrs. L. O. Christie and Mrs. S. M. Harp, both of Clarendon, and Mrs. J. L. Fowlkes of Borger; three brothers, W. T. Jacobs of Clarkston, Wash., D. L. Jacobs of Amarillo and A. L. Jacobs of Tulsa, Okla.

Services Held Sunday For Miss Della Wood

Funeral services were held Sunday afternoon in the First Baptist Church for Miss Mary Della Wood with Rev. Waymon Culp officiating, assisted by Rev. W. R. Lawrence.

Miss Wood, 82, died Friday afternoon at Inez Rest Home. She had been a resident of the Martin Community and Donley County 52 years.

Surviving are two brothers, P. O. Wood of Riverside, Calif., and L. L. Wood of Clarendon, and 25 nieces and nephews. Pallbearers were Carroll Knorpp, Walter Knorpp, Richard Cannon, O. T. Hill, Pete Land and Chester Talley.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

NEARING END

The first semester for the 1962-63 college school year will come to an end next week. Final examinations will begin on Wednesday at 9:00 o'clock and continue through Friday.

Registration for the second semester will be on Monday, Jan. 21 and regular classes for the second term will begin on Wednesday, Jan. 23.

CLARENDON F.F.A. WORK DAY SATURDAY

The Clarendon FFA is sponsoring a work day, Saturday, January 8. The members will start accepting jobs at 8:30 a.m. If you have jobs of any kind to be done, contact the Ag teachers, Mr. Baxter or Mr. Sommerfeld. The purpose of the work day is to raise money for the FFA's annual Father-Son Banquet later this year. The boys will do you a good job and will appreciate the opportunity of working for you.

Adult Education Program Announced

Monday night, January 28, 7:00 p.m. has been set for the enrollment of students from the Clarendon Junior College Area in the second semester of the Adult Education Night School Program. This announcement was made by Oliver J. Abel, Dean of the College and Director of the Night School. The following courses will be offered during the Spring Semester of the Night School Program and will be staffed and taught when a sufficient number of students have enrolled to justify the continuation of the class. In most cases, this number will be set at a minimum of 10 students. With the exception of classes in Bible, Oil Painting, and General Chemistry, the night upon which each of the classes will meet will be determined by the students in each class at the first regular session of the class. Bible 137, (Life and Teachings of Jesus) and Oil Painting will meet on Monday night. General Biology will meet on Tuesday nights.

In addition, the following classes will be offered: Beginning Typing, Intermediate Typing, Beginning Shorthand, Intermediate Shorthand, Bookkeeping and Accounting, Arts and Crafts - Creative Hobbies, Government 223 (State) American History 213, General Chemistry, General Physics, Business Math, Business Law, English 113 (Composition and Grammar).

All classes will meet one night weekly. The length of the class session is determined by the semester hour value of the course. For example, three hour courses will meet from 7:00 to 9:40 one night weekly. Dean Abel has asked that any person interested in the above classes, or any other classes which regularly meet during day school, please inquire by card, letter, or by telephone at Clarendon Junior College.

Professor Rees, head of the Chemistry and Physics Dept. of the College has instructed us to announce that in either course each student will have an opportunity to learn slide rule usage with no additional cost to the student except purchase price of the slide rule.

Services Pending For Fred C. Connally

Funeral services are pending with Murphy Funeral Home for Fred Christian Connally who died at 4 a.m. Wednesday morning in Brooks General Hospital in San Antonio, following a lengthy illness. His body will be returned to Clarendon for funeral services and burial. He was a son of Mrs. Tom Connally of this city.

Survivors in addition to his mother, are his wife of San Antonio and a son, Dick Connally of Corpus Christi; also a brother, Tom Coke Connally, and a sister, Mrs. H. E. Westmoreland, both of Amarillo.

College Assembly Friday Afternoon

The Clarendon Ministerial Alliance will sponsor another of their special assemblies at the college auditorium on Friday afternoon of this week beginning at one o'clock.

The speaker for this assembly program will be Rev. Baldwin Stribling, Pastor of the First Presbyterian Church here in Clarendon. The topic, as has been the policy in other such programs, will be non-denominational in nature. The public is invited to attend.

Cotton Harvest Nears Completion With Over 11,592 Bales Ginned

4-H Club Members Make Good Showing At Odessa Last Week

Donley County 4-H Club members made a good showing at the Sand Hills Hereford Show at Odessa, Texas, this past week says County Agent Flip Breedlove.

Ten steers were taken to the show and Tracy Sanders stood third with his steer that was champion of the Donley County Fat Stock Show. David Mooring stood ninth in his class and Susan McAnear stood tenth as well as Gene Floyd stood tenth in his class. Three steers were scratched from the sale by the Donley County club members so that they could go on to other shows.

There were two hundred and twenty-five Hereford steers in the show and only steers placing in the first ten of each class were eligible for the sale. The two steers sold by the 4-H Club members were Susan McAnear sold her 1004 pound steer for fifty cents per pound and Gene Floyd sold his 858 pound steer for fifty-two cents per pound.

The next show for the group will be the Amarillo Fat Stock Show and the steers will move into the show on Friday, January 18, and get ready for the opening of the show on January 20. Other shows this year in which 4-H members will take part will be the Fort Worth, El Paso and possibly San Antonio and Houston.

Plans For Little League To Be Discussed In Meeting Tonight

There will be a meeting of all officials, umpires and interested parties of the Clarendon Little League at the City Hall tonight, Thursday, at 7:30 p.m.

The purpose of the meeting is to select team managers, forming of a league for boys 13 to 15 years of age, drafting of players in the minor league, workers and making other plans for the big season which is not too far off at the present time. All members and interested parties are urged to attend.

Quality Job Printing At The Leader

The current Cotton Harvest is almost complete at the present time with local gins running only on a part time basis. The Paymaster Gins here, Martin, and Lelia Lake and the West Texas Gin at Hedley report a total of 11,592 bales of cotton ginned to date and we understand that other Donley County cotton has been ginned outside the county which would bring our total well over 12,000 bales.

The cotton harvest has been above average this year with a better yield per acre, a better grade and best of all, a better price.

Two New Homes To Be Featured In Open House This Week End

The public is invited to visit and inspect two new homes recently completed in west Clarendon in an open house affair Saturday and Sunday of this week. The two new three bedroom homes are located at 910 and 916 McLean Street which is 1 1/2 blocks east and south of the water tower.

The new homes, featuring Medallion Electric Living and many other modern construction materials and ideas, are explained in more detail in a half-page advertisement on page seven of this issue of the Leader.

Bill Williams, owner and operator of Clarendon Electric & Plumbing, is the builder, Glenn Sloan has been in charge of construction and Shelby Bell in charge of sales.

Jaycees' Final Account Of Christmas Projects

The Jaycees gave a final account of their Christmas projects by reporting that their Toys for Tots project was very successful with over 1,000 toys received for distribution. Twenty-three needy families received toys with some toys being left over for distribution next Christmas.

The Living Christmas card totaled thirty-three people contributing a total of \$12.00, used to buy groceries for needy families. The Jaycees would again like to say thanks for your cooperation in making this Christmas a more joyous Christmas for many needy families.

THE U.S. STRIKE COMMAND'S SWIFT STRIKE II highlighted the year's training exercises. Covering an area of 5,500 square miles in North and South Carolina, the operation was the largest joint Army and Air Force training exercise ever held in this country in peace time. U.S. Strike Command is composed of the Strategic Army Corps and major elements of the Air Force Tactical Air Command.

MEMBERS OF Texas & Panhandle Press Associations

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

THE 88th CONGRESS

The convening of the 88th Congress will bring a flood of proposals for changes in the Constitution and laws of this country. Some good, some bad.

Contrary to the thinking of many, the passage of a bill through the Congress is not an easy undertaking. The legislative gauntlet through which it must pass provides for a most exhaustive examination of its contents. This should result in practically no mistakes being made; however, many are made, which is proof of the fact that it is "human to err."

All measures introduced during one Congress which do not become law within the two year term of that Congress, die with its adjournment. Hence, it is necessary to re-introduce them. Several measures which I have long advocated and have submitted in prior Congresses but which have not yet been adopted will be re-introduced. One of these will be a Joint Resolution to amend the Constitution as follows:

"No treaty with respect to which the advice and consent of the Senate is required by section

2 of article II of this Constitution may be made without the advice and consent of the House of Representatives."

Another is a Resolution providing for a special subcommittee to investigate and study the problem of obscenity, lewdness, salaciousness, and immorality in connection with the production, distribution, and exhibition in the United States of motion pictures and in connection with advertising related thereto.

I will also re-introduce a Resolution to amend the Constitution of the United States to limit the power of the Courts of the United States to determine that statutes of the United States or of any State are repugnant to the Constitution. This proposal would make it possible for the Congress, by a two-thirds vote, to overrule a decision by the Supreme Court declaring a statute enacted by the Congress of the United States or any State unconstitutional.

Another Resolution will be the one calling for a complete investigation of the State Department with relation to personnel, practices and procedures of choosing and assigning personnel, background and capabilities of personnel, including those employed directly by the Department of State as well as by other departments having duties or assignments directly or indirectly connected with the operations of the Department of

State. In my opinion, this is a matter of prime importance and should be acted upon with the least possible delay.

Another measure will be a Resolution designed to commence the procedure for the establishment of a diplomatic academy in this country similar to West Point, Annapolis, and the Air Force Academy. Such a procedure, if properly conducted, would make it possible for the foreign service of this country to be open and available to the boys and girls from the main streets of the small towns of this nation. Many feel that the foreign service of our country has been dominated by the influences of the Ivy League colleges.

Another Resolution will be directed toward a full investigation and inventory of the real property owned by the United States, with the thought in mind of making it possible to dispose of much of the property now held in public ownership.

Among the bills I will re-introduce will be the measure that I introduced shortly after I came to Congress and which I have re-introduced in each succeeding Congress. This is a bill "To increase the personal income tax exemption of a taxpayer and the additional exemption for his spouse from \$600 to \$1,000, and to increase the exemption for a dependent from \$600 to \$1,000." This has been a long, hard fight, but it now seems possible that favorable action can be taken on this or a similar measure this year.

Another measure I expect to re-introduce is a bill I have long advocated. It would require that all decisions of the Supreme Court shall be participated in by the full Court and that any vacancies or absences in the membership of the Court shall be temporarily filled by circuit judges.

There are a number of others, but lack of space will not permit me to discuss these in full at this time. I expect to treat them in a subsequent newsletter.

The House of Representatives will convene at Noon on Janu-

ary 9, 1963, for one of the most hectic sessions in history. It will probably begin with a highly controversial fight over proposed Rules changes. This will be only the beginning, because there are many domestic and international problems that must be faced up to in the coming year. Many of the domestic problems can be worked out and reconciled without too much difficulty. However, the international problems will not prove so easy. These could very well have a serious impact on what happens to the domestic issues. 1963 could well be the year in which telling decisions could be made in many countries with relation to the ability of peoples around the earth to sustain democratic forms of government. This country has been able to set the pace of true representative government for a number of years. It has tried to provide the leadership that would make it possible for other nations to follow in our footsteps. Nations in Europe have failed miserably to develop representative government by the people which has any stability. This was proven by the developments in Germany and Italy after World War I. The result of these failures was one of the primary causes of World War II. Attempts are being made in many other parts of the world to develop government of the people, by the people, and for the people. Many of these attempts have failed miserably in the Western Hemisphere, as will probably be the case in the new and emerging continent of Africa. In any event, our own country must continue to follow the dictates of our Constitution and our Bill of Rights and continue a true representative form of government under law. Let us hope that 1963 will produce some good results in other parts of the world.

SOIL: MANY THINGS TO COLLEGE STATION

Soil is earth to some and dirt to others; a nuisance to mothers and a necessity to farmers. All people have different impressions when they hear the word soil, says L. P. Pittard, extension soil and water conservation specialist at Texas A&M College.

To the small child, soil is mud pies and fun; but to his mother it is the material which is tracked on the carpet, Pittard observes. To the geologist, soil is the barrier between him and the material he is trying to study, and to the construction engineer it is sometimes a good and sometimes a bad place to build a home. To the homeowner, soil is an unmanageable mixture of clay, cement and stones on which grass will not grow and weeds will not stop, he says.

To the farmer, soil is a precious mixture of mineral and organic matter, air and water on which life depends. He considers soil the medium through which he earns his living and produces food and fiber for the world, and also believes that its wise use is basic to the economy of the nation, explains the specialist.

According to agronomists, work is done every year to learn more about soils and their management to contribute to a stable and permanent economy. Studies are being made of ways to use soil to the best advantage of agriculture and for other purposes.

Can we use our soils wisely and make them last? This is the great challenge today, says Pittard, and the answer may determine if children have mud pies and farmers have land to farm.

BLOWIN' Out the CORNERS

The Luck Get

As the New Year approached we were racking our brain for a new New Year's Resolution . . . Something that would give us the challenge of the moment as our heart yearns to do better in 1963 . . . It seemed that we had said so much already on the subject in past years that there was a danger that we would be repeating . . . The answer to our problem came in a letter from

our good friend and faithful reader Captain Frank Dougherty of Lawton, Oklahoma . . . Among the food for thought which he included was the following and we would like to make it our resolve for the New Year. It is called;

THE COMMODORE'S PRAYER
Lord, Thou knowest better than I know myself that I am growing older and will someday be old . . . Keep me from the fatal habit of thinking that I must say something on every subject and on every occasion . . . Release me from craving to straighten out everybody's affairs. Make me thoughtful but not moody, helpful but not bossy. With my vast store of wisdom, it seems a pity not to use it all, but Thou knowest, Lord, that I want a few friends at the end . . .

Keep my mind free from the recital of endless details; give me wings to get to the point . . . Seal my lips on my aches and pains. They are increasing and the love of rehearsing them is becoming sweeter as the years go by . . . I dare not ask for grace enough to enjoy the aches of other's pains but help me to endure them with patience . . . I dare not ask for improved

memory but for a growing humility and a lessening cocksureness when my memory seems to clash with the memory of others . . . Teach me the glorious lesson that occasionally I may be mistaken.

Keep me reasonably sweet; I do not want to be a Saint — some of them are so hard to live with — but a sour old person is one of the crowning works of the devil . . . Give me the ability to see good things in unexpected places, and talents in unexpected people. And give me, Lord, the grace to tell them so."

Thank You Frank, and we also join with you in praying your suggested prayer for each day in the year; Thank You Lord For The Abundance That Is Mine.

After listening to all the bad news over the radio during the long holiday season we also resolve to keep the following Ten Commandments of Driving which we read in the Hansford Plainsmen.

1. Thou shalt hold nothing but thy steering wheel — neither a baby in thy lap, nor a babe in thy arms . . .
2. Thou shalt not make unto Thee a God of thy horsepower . . .
3. Thou shalt not take the center lane in vain . . .
4. Remember the driver behind, to help him pass thee . . .
5. Honor thy father and thy mother — and all thine other passengers . . .
6. Thou shalt not kill — not even a pedestrian . . .

7. Thou shalt not commit inebriated driving . . .
8. Thou shalt not steal — not thy neighbors eyes with thy headlights, nor his ear with thy horn, nor his enjoyment with thy litter . . .
9. Thou shalt not bear false witness with thy signals . . .
10. Thou shalt not covet thy neighbor's right of way . . .

What strange power must control us? And the strong urge one must feel— If we suddenly become a killer, Once we take the steering wheel . . .

**TEXAS AGRICULTURIST
IMPORTANT CITIZEN**

College Station — When you see someone plowing a field or tending a herd you are looking at one of the more than 226,000 Texas farm and/or ranch operators, says Tom Prater, extension farm management specialist. If this man is the average Texas operator, his annual net income

is \$3,630, which is \$307 above the national average. There is also a good chance that this man has some non-farm income, says Prater. In 1961, over 109,000 Texas farmers and/or ranchmen reported that they had off-farm employment, and over 96,000 reported that their non-farm income was greater than the income derived from their

farming operation. When this man puts his tractor away for the night he must make the switch from farm laborer to farm manager, and this is no easy feat. He has a sizable investment in his operation and if he is to realize a profit he must manipulate the factors of production carefully. One miscalculation can mean the difference between profit and loss, points out the specialist. He must also keep up with the latest technological developments. New methods of controlling insects and plant diseases, new fertilization practices and new management techniques are constantly coming from researchers. The farmer must decide which of these are best applicable to his operation. All of this describes the av-

erage Texas farmer. There are some above average and some below. "Where do you fit in this picture?" asks Prater. **Opportunity For Young People** Career opportunities are rapidly expanding for college graduates in the meat packing and processing industry. That important bit of news comes from Homer R. Davison, president of the American Meat Institute. And he backs it up with some impressive evidence. The packing industry, he says, is today in the beginning of a new era which could be termed a renaissance. It is forecast that meat production, now running at 29.5 billion pounds annually, will double in the next 40 years. To quote him directly: "Meat . . . is no longer a simple business of slaughtering livestock and distributing carcasses of cattle. Today, older management concepts are dropping out and newer, bolder, and in many ways unorthodox methods are taking their place. "In fact, it is so new that it

is changing, adjusting and experimenting every day almost on the hour. Underlying its newness is a permanent demand for its products and a permanent outlet for the basic ingredient of the American diet. "And since it is basic and fundamental, its growth is assured since the number of mouths to feed is growing in such astronomical numbers it is difficult to comprehend." Young people with their college educations just completed naturally look for employment in enterprises with a bright future which offer abundant room for initiative, experiment, fresh ideas and concepts. Meat packing, it is clear, is that kind of enterprise.

used as a training aid in teaching rural families to protect themselves and their property in a fire emergency. It describes the damage which a nuclear blast can cause on farms, woodlands and in rural communities, and lists measures to reduce this damage. In a foreword to the bulletin Secretary of Agriculture Orville Freeman says, "Protection and survival of those living in rural areas, along with crops, livestock and other agricultural resources is vital. In addition, some rural families may be faced with heavy responsibilities from sheltering and feeding

survivors, bringing fires under control and helping to rehabilitate nearby areas." A nationwide civilian rural fire defense organization has been established under the direction of State and Federal forestry agencies to provide leadership in rural fire emergencies, the leaflet explains. Copies of "RURAL FIRE DEFENSE — You Can Survive," PA-417, may be obtained from the Forest Service, U.S. Department of Agriculture, Washington 25, D.C.

That Federal aid means Federal control could not be made more clear."

FIRES A HAZARD OF NUCLEAR ATTACK

COLLEGE STATION—Should America be attacked by nuclear weapons our nation's rural citizens would be greatly concerned with the problems of fire, according to a new leaflet by the U.S. Department of Agriculture's Forest Service. The leaflet issued in cooperation with the Department of Defense-Office of Civil Defense, envisions each rural family as a self-contained fire protection unit.

"RURAL FIRE DEFENSE — You Can Survive," discusses these problems and suggests methods of meeting them. It explains that preparation is the basis for the National Civil Defense program and that preparedness in fire defense is a vital part of this preparation. The leaflet is designed to be

MR. AND MRS. HEATH CELEBRATE GOLDEN WEDDING ANNIVERSARY

Mr. and Mrs. Grover C. Heath observed their golden wedding anniversary Sunday, January 6. Open House was held at the family home from 2 p.m. to 5 p.m. Hosts for the occasion were children of the couple: Mr. and Mrs. Hershel Heath, Mr. and Mrs. Frank Tyler of Clarendon, and Mr. and Mrs. Frank Murray of Hedley. Also present were six grandchildren and two great grandchildren.

Lucy May Ray and Grover Heath were united in marriage January 5, 1913, at Willow Point, Texas. In 1917 they moved to Hedley where they lived until 1937 when they moved to Clarendon. Mr. Heath is a retired business man.

Guests were greeted at the door by a grandson, Mike Heath, and presented to the honorees and their children, Hershel Heath, Opal Murray, and Nita Tyler. Alternating at the guest book were Mrs. Edith Kinslow of Amarillo and Mrs. J. P. Heath of Pampa.

Lovely floral arrangements in yellow and gold which had been sent the couple and gold candles decorated the entertaining rooms. Refreshments were served from a beautifully laid table which was covered with a white lace cloth over gold. Centering the table was a bouquet of gold roses in an epergne. The four-tiered wedding cake decorated with gold roses was topped with a miniature bride and groom. Appointments were silver. Mrs. Weldon Day and Mrs. Hershel Heath presided.

The couple received many lovely cards, gifts, and other remembrances. One hundred thirty-six guests registered and extended Mr. and Mrs. Heath their good wishes.

Out-of-town friends and relatives attending were Mrs. M. E. Wells, Mrs. Jo Hy Smith, Bruce and Harlan Hy Smith, Mr. and Mrs. J. P. Heath, all of Pampa; Mr. and Mrs. Perry Beach, Mrs. Gale Ledbetter, Jimmie Lee Kinslow, Mr. and Mrs. R. M. Graves, Karen and Steve, John and Lucille Koeniger, Mrs.

HELEN BENNETT HONORED WITH PARTY

Monday night, December 31, 1962, some of the 7th grade girls gave Helen Bennett a surprise slumber party. Helen is moving to Tulsa, Oklahoma. The girls gave her a charm bracelet with a girl's head and her name on it. Mrs. Pfeiffer sponsored the party and gave some very interesting prophecies on what each of the girls will be doing 10 years from now.

A good time was had by all, especially the uninvited guest (a ghost). The others present were Helen Bennett, Gloria Patterson, Annette Cross, Christina Moore, Carol Chamberlain, Donna K. Tomlinson, Sherol Shelton, Donna Hill, Judy Koontz, Vicki Mays, Kay and Paulette Pfeiffer, hostesses. —Rep.

JANUARY PLENTIFUL FOODS LIST REVISED

COLLEGE STATION — The damaging freeze in Florida at mid-December caused a revision in the U.S. Department of Agriculture's plentiful foods list for January.

Food shoppers, says the Texas Agricultural Extension Service, will find Irish potatoes a good January food bargain and the same goes for fresh pears, and red tart cherries — both frozen and canned.

Stocks of fresh pears are much higher than last year at this time since fall movement was on the slow side and the crop was up 5 percent.

Supplies of red tart cherries are near a record high for January and prices are averaging

about 20 to 25 percent below a year ago.

The Florida freeze caused the USDA to remove from the plentiful list both oranges and grapefruit and also cabbage. Supplies of cabbage, however, are expected to be sufficient to take care of consumer demand.

In compiling the plentiful foods list, the Agricultural Marketing Service keeps a close check with production and the local and national food trade and other sources to determine what foods are in heavy enough supply to rate a spot on the monthly plentiful list, the Texas Extension Service said. The January revision is an example of how the list is kept up-to-date.

The Dominican Order was founded in 1215.

President Monroe was the last man in public life in this country to wear knee trousers.

Zachary Taylor, twelfth President of the United States, was a second cousin of the fourth President, James Madison.

AUSTIN — Jerry Sadler, Commissioner of the General Land Office, says that he will recommend to the 1963 Legislature that it extend the Texas Veterans' Land Program.

000 qualified veterans of Texas have purchased land under the program and I am receiving over 600 letters each week from veterans who wish to participate," Sadler stated.

Funds currently on hand will not be sufficient to satisfy the demand if the present rate continues, he added.

Veterans' Land Program has proven to be a worthwhile experiment in rewarding Texas servicemen and women for their valorous defense of American freedom. It has not been a "give away" but has been paid for, without cost to the taxpayer, by those directly benefiting from it.

"Basic fairness and simple justice require a continuation of the program," Sadler concluded.

POWER TO TAX — Right of

Only 29,000 out of the 1,000,000 local public junior college

districts to levy ad valorem taxes was upheld by the Texas Supreme Court.

A majority of the justices failed to find anything in the State Constitution prohibiting the privilege.

Constitutionality of the creation of public junior college districts and their right to a district property tax was questioned by seven property owners in the San Jacinto Junior College district.

With the Supreme Court's decision, the school now can proceed with a \$2,500,000 building program. Several other junior colleges — including those at Hillsboro, Athens, Wharton and Cisco — very likely also will begin to build.

Court's decision was countered with a dissenting opinion written

by Chief Justice Robert W. Calvert. He called the tax unconstitutional.

Those who backed its validity admitted that the 1929 constitutional amendment for public junior colleges was a patchwork thing. In fact, they stated that all public school laws in Texas are "confused, vague and conflicting."

OIL ALLOWABLE FORMULA CHANGED — Texas Railroad Commission changed its formula for setting oil allowables from a pattern of "day's production" to a "percentage-of-monthly-allowable" plan.

It's an advantage to the Commission, since this makes it easier to set allowables closer to actual market demand.

January allowable of 26 per cent means oil production in the

state will be increased by 11,055 barrels daily — an average total of 2,711,490 barrels a day.

Sponsor of the percentage plan, the Texas Independent Producers and Royalty Owners Association, was pleased, according to a commendation by TIPRO president Johnny Mitchell of Houston.

Chairman William J. Murray, Jr., surprised oil producers with the announcement that the Commission intends to set a new rule, effective March 1, requiring oil gatherers to display lease signs and lease numbers on or nearby all lease tanks.

SHORT STUDY TERMS — Six new members of the House of Representatives were appointed to interim study committees by Speaker James A. Turman. But they'll serve as committees for less than a month.

Terms of all committees, established by the 57th Legislature, automatically end when the new session begins on January 8. The odd situation was created by Attorney General Will Wilson's recent lame-duck legislator ruling.

Appointees include Reps. Don Cavness, Jack Ritter, Jr., and Pat Cain, all of Austin; and Jack McLaughlin, Hugh Parmer and Dave Finney of Fort Worth.

The Austin legislators will help survey possible parking lot space in the vicinity of the State Capitol. Fort Worth group will study the turnpike problems.

CITRUS PRODUCTION TO DROP — Texas Employment Commission predicts a sharp cut in Lower Rio Grande Valley citrus production for 1962. Present estimate is about six per cent of last year's total — 200,000 boxes of grapefruit and 80,000 boxes of oranges.

Drop was caused by a prolonged January freeze which killed or damaged a large number of trees.

Commission stated that seasonal agricultural employees in October totaled 204,600; a decrease of 76,000 from the total of harvest workers in October, 1961.

"LAW DAY" CHAIRMAN NAMED — Wales H. Madden, Jr., of Amarillo, chairman of the State Bar Association's American Citizenship Committee, has appointed Dallas attorney John L. Estes chairman of the sixth annual "Law Day."

Joe P. Hart of La Grange was named co-chairman for the May 1, 1963, observance.

Madden said Law Day is not "a lawyers' day" but an occasion for "honoring the place of law in American life."

RADIATION CONTROLS TRANSFERRED — The State of Texas will acquire radiation control authority from the United States, effective March 1, 1963.

Thereafter, licensing and supervision of all Texas firms or individuals using radioactive materials will be in the hands of the State Health Department.

Dr. Glenn Seaborg, a leading atomic energy expert, and chairman of the Atomic Energy Commission, will represent the U.S. in transfer ceremonies in Austin on January 10. Transfer will culminate months of negotiations by State Health Commissioner J. E. Peavy.

TAX FREE CASH — The National Foundation for Infantile Paralysis in New York may use Texas money willed to it, tax-free, under certain conditions.

Texas' Attorney General Will Wilson says such funds must be spent in Texas or in one of five states in the Texas region.

Wilson's opinion was requested by State Comptroller Robert S. Calvert.

By—VERN SANFORD

Many elements are involved in making a good lake. By good we mean one that will stand up under heavy fishing pressure. Lake Whitney, on the Brazos in North Central Texas, seems to have all the attributes. This lake, now a dozen years old, has withstood such heavy pressure. It is located almost midway between Waco and the

Fort Worth-Dallas area. This means that it is worked every fishable day of the year. And still it produces fish. Lake Whitney Dam backs water up the Brazos to cover almost 50,000 surface acres when it is filled. Construction started in 1947 and was completed by the U.S. Corps of Engineers in 1953 at a cost of just over \$40,000,000.

The dam itself is 17,695 feet long and 159 feet high. It is wide enough to carry highway traffic across it between Whitney and Clifton and points east and west.

Although rainfall fluctuates its depth, perhaps the secret of good fishing in Whitney is the fact that it is filled from an effective watershed of more than 17,000 square miles.

Because of the rich food qualities washed into the lake with each slight flood, fish grow big and sassy.

Principal sport enjoyed by Lake Whitney fishermen is catching largemouth black bass, whites (sandies), crappie and catfish. The lake is loaded with bream, but unfortunately Whitney is underfished for this wonderful little creature.

Whitney is easy to reach. Good roads lead to the lake from every direction, with many access points.

There is a spacious state park which permits public camping. The park is heavily trafficked by week end campers from many parts of Texas.

The Corps of Engineers has developed recreational areas. They bear such names as Lofers Bend, Towash, Cedar Creek, Kimball and Powderdale.

People of Whitney have had a large part in making this an all-purpose lake. They have developed various types of water sports, including speed boat races, water skiing, boating and swimming. One of the annual features of Whitney is its bathing beauty contest, which has sent a bevy of gorgeous girls into top contests over the nation.

Villages on both the east and west side afford cabin facilities, food and drinks. There are several small airstrips around the lake and numerous family-owned cabins.

Although Whitney is a long narrow lake, it can get rough in bad weather. When it is dangerous to go into the water, warning flags fly. But with so many sloughs there always are places that can be fished, even in the foulest weather.

Many eight-pound bass have come from this lake, and many more will be taken, because the

water is good. It is the only impoundment on the main body of the Brazos below Possum Kingdom, some 100 miles north-west. Between the two dams are plenty of places for bass to propagate and grow big.

There also are a number of fishing barges on Lake Whitney. They provide 24-hour fishing in any kind of weather. Some of them are air conditioned in the summer and heated in the winter . . . for year 'round comfort.

Waterfowl shooting is permitted in season and quail are quite plentiful in certain areas. Deer can be found around Whitney too.

Lake Whitney was constructed as a flood control project, with generators in the dam to produce an annual power capacity of some 85 kw-hr.

Whitney is a beautiful body of water throughout its entire length. When you cross the dam you are impressed with the rock-bound shores on the west and the rolling hills on the east. A ride up Whitney in a fast boat reveals many beautiful sights where artists could spend a lifetime recording its beauties and moods.

Lake Whitney is good for a Sunday drive, a week end visit, a camping trip or real honest-to-goodness fishing.

Bulldogs Lose Two In Last Week's Play

The Clarendon Junior College Bulldogs lost two more basketball games last week and ran their season's record to eight defeats as compared to three wins.

In Friday night's action here the strong Lubbock Christian College team defeated the Bulldogs, 63 to 50, in a Western Junior College Conference game. It was the Bulldog's second conference defeat against one victory. The Bulldogs were cold from the start and saw the Lubbock team

pile up a 31 to 19 halftime lead. The Bulldogs scored within two points of their visitors during the second half but the damage had been done in the first 20 minutes.

Alvin Scott, sophomore letterman from Quanah, was high point man for the Bulldogs with 12 points. Bill Bentley and Max Courtney, another pair of sophomore lettermen, followed Scott in the scoring column with nine points each.

Saturday night of last week, the Bulldogs traveled to Olton where they met the Wayland College Freshmen in a game which saw the Bulldogs again go down to defeat, this time by a score of 77 to 69. This was a close game all the way through with the Wayland team pulling out to their eight point win in the last few minutes of the game. Although the Bulldogs could go ahead only one time during the game, that being a 48 to 47 margin midway of the second half. Wayland held a 38 to 33 halftime lead.

Jimmy Boyd and James Starkey, a pair of freshmen sharpshooters, led the scoring in this game. Boyd poured in 23 points and Starkey came in with 18. The Bulldogs were notoriously cold from the free throw line and could make good on only seven of 22 attempts. They outscored their opponents 31 to 28 on field goals but could not hit from the charity line.

FARM NEWS

from County ASCS Committee

1963 ACP Program

Applications for cost-share assistance under the 1963 ACP Program are now being accepted in the county office. If you are planning to carry out any conservation practice on your farm in 1963, come in and let us help you.

Let us remind producers to make application for ACP assistance before they begin work on their practice.

Release and Reapportionment of Cotton

We are accepting applications for the release and reapportionment of cotton. If you have any extra cotton that you do not intend to plant, it would benefit both the county history and your allotment for you to release it for reapportionment to other farmers.

The last date to file either a request or release will be March 4, 1963.

Annese R. Bennett, our Chief Clerk for the last several years, has resigned to move with her husband and daughter to Tulsa, Oklahoma.

We will miss Annese here in the office and we know that each of you will miss her, too.

Annese has been responsible for the news letters from our office and in 1961 she won a \$50.00 award and citation for her good work. That is just one of the reasons we have been proud to have Annese with us.

We are sure that you will join with us in wishing her and her family the very best of luck wherever they go.

Mrs. Charles Hunt and David of Arna and Mrs. Joe Glass and children visited in the Doyle Phillips home Sunday afternoon.

Car Owners Urged To Get Inspection Stickers

AUSTIN — Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, today urged Texas automobile owners to "do their shopping early" this year to reduce the last minute rush for inspection stickers.

All vehicles coming under the provisions of the Texas Vehicle Inspection Act must secure the 1963 Inspection sticker by April 15, 1963. After that date, vehicles not displaying the new inspection sticker will be operating in violation of the law and the operators of those vehicles will be subject to arrest, Garrison said.

He reported that approximately one half of the inspection period has expired and about one fourth of the vehicles in the state have been inspected. Unless the number of inspections is increased appreciably soon, he added, long waiting lines will be forming at inspection stations as the April 15 deadline approaches.

"There are approximately 5,000 authorized inspection stations in the State and they are ready and capable of handling the inspection of all vehicles without delay if the owners of uninspected vehicles do not wait until the last few days before the deadline," Garrison said.

Mr. and Mrs. Doyle Phillips and Mr. and Mrs. G. D. Drake and Mrs. F. G. Crofford of Claude went to Northwest Texas Hospital Friday to see their sister and aunt, Bonnie DeJarnett, who was injured in a car wreck the 2nd. She was doing well. She suffered a broken collar bone, bruises and cuts. The other woman was seriously hurt, but some better. They are all thankful they were not hurt any worse. The car was completely demolished.

Johnston Named Jaycee Of The Month

The executive board of the Clarendon Jaycees has named Dale Johnston as Jaycee of the Month for the month of December for the work he did on the Toys for Tots Project. Dale, an employee of the Homen Meat Co., is a fairly new Jaycee but has been very regular in his attendance at regular meetings and is very enthusiastic in the Jaycee projects.

The Toys for Tots project was a terrific success with many other Jaycees working very hard on the project also. Dale made the sign for the Toy Center and put in long hours repairing many of the approximately 1,000 toys received for distribution to needy tots.
