Broncs Run Rough Shod Over Mustangs

by Adele Barnhill

Approximately 800 fans watched the Clarendon Bronchos clobber the Claude Mustangs Friday night at Mustang Stadium in Claude in their second district game. The visiting Bronchos won by a margin of 32 points, spoiling Claude's homecoming by a score of 40-8. It was the Bronchos sixth win of the season against two losses.

Due to good defensive effort by both teams, the first quarter was scoreless. However, in the second quarter Broncho senior Arthur Fields opened the scoring when he broke through. Claude's secondary for the first touchdown of the game—Senior Archie Smith's try for the conversion was wide.

The second score came when junior Mac McClellan scooted around the right to hit pay dirt for the Bronchos. Smith's kick was blocked, and the score was 12-0.

Claude got on the scoreboard on a pass from Claude quarterback Edwin Campbell to right end Gary King. The two extra points were run by fullback Jack Fields, making the score 12-8. A few plays later, McClellan again broke loose for a 70 yard run and six more points for the Bronchos. The Bronchos chose to run the conversion, but Claude held, and the attempt failed. The half-time score was 18-8.

At the beginning of the third quarter, Fields scored his second touchdown of the game. Smith's run for the two extra points was good.

The fifth Clarendon score came on a drive up the middle by Smith who kicked the extra point also, and the Bronchos led 33-8.

In the last quarter, junior back Monte Land made the final Broncho TD. Smith's kick was good, and the game ended with Clarendon out front by a score of 40-8.

The Bronchos gained 379 yards rushing and totaled 14 first downs.

MINUTES OF CITY COUNCIL — PAGE 8

A large number of Donley County voters are expected to go to the polls next Tuesday, November 8 along with a big turnout over the entire state to cast their ballot in the general election.

This is an important election in many ways as there are 16 constitutional amendments to be voted on as well as choosing the candidate of choice for the various offices which are to be decided upon at this time.

Democrat Governor John Connally is being opposed by Republican T. E. Kennerly, Constitution Party Tommy Gillespie and Conservative Bard A. Logan. Connally is expected to receive very little opposition here or over the entire state.

Republican John Tower is being opposed by Democrat Waggoner Carr and Constitution party James Barker Molland for United States Senator. This is expected to be a close race over the entire state and Tower is expected to run strong here and other points in the Panhandle.

For Lieutenant Governor, Democrat Preston Smith is being opposed by Republican Kellis Dibrel and Constitution William A. Johnson. For Attorney General, Democrat Crawford C. Martin is opposed by Republican Robb Stewart and Constitution John C. Williams. For Commissioner of Agriculture, Democrat John C. White is opposed by Republican Jack Garrett and Constitution Derek C. Bownds. For Commissioner of General Land Office, Democrat Jerry Sadler is opposed by Republican Albert Fay and Constitution Joseph L. Tiller. For Comptroller of Public Accounts, Democrat Robert S. Calvert is opposed by Republican Rudy T. Garza and Constitution Wilma T. McDaniel. For State Treasurer, Democrat Jesse James is opposed by Republican Lawrence Daffan Gilmer and Constitution Jesse Lee James. For Railroad Commissioner, Democrat Byron Tunnell is opposed by Constitution David R. Clark. All these Democratic candidates are expected to receive very little opposition over the state.

In the only other contested race, Democrat Dee D. Miller is opposed by Republican Bob Price. This is expected to be a hotly contested race over the district with Dee Miller, a late comer in the race gaining ground as election date draws near. Price was defeated by Walter Rogers in the last campaign and the Democratic vote is expected to give Miller the majority vote if the Democrats come out in full force and vote.

Voting places here in town will be at the Cantzen for those who live on the east side of town and the County Judges office in the Court House for those who live on the west side of town. For those who plan to vote a split ticket, you are reminded to be sure and mark out all other candidates for that office, leaving only one name showing on the ballot for that office.

The most important thing . . . is to go vote and exercise your right as an American citizen.

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

CONCERN FOR THE AGED AND NEEDY — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

OUTDOOR RECREATION — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

INDUSTRIAL EXPANSION — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion. Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

INCREASED TOURISM — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

MENTAL HEALTH AND MENTAL RETARDATION — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

COMBAT AIR AND WATER POLLUTION — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

NEW CULTURAL GROWTH — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

BUSINESSLIKE ADMINISTRATION — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS; HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR JOHN CONNALLY AT THE POLLS NOVEMBER 8TH!

CLARENDON COLLEGE SPONSORS ART EXHIBIT

A unique collection of photographs depicting Texas and Southwest ranch life for the last fifty years will be on view at Clarendon College Library from Sunday, November 13 thru November 20, 1966. The work of Frank Reeves, longtime livestock editor of the Fort Worth Star-Telegram, the 100 photographs were originated as an exhibit by the Amon Carter museum of Western Art in Fort Worth.

Often called the "dean of livestock reporters", Reeves began taking his photographs in 1912, to accompany his reporting, and has probably written and taken more pictures of livestock than any other person in the state. As a livestock reporter, Reeves has traveled an average of 50,000 miles a year—most of them by automobile—visiting ranches and stock shows. His photographs dot the walls of hotels, restaurants, offices and homes throughout the Southwest. Thousands have appeared in national publications and the Star-Telegram.

Reeves began his popular "Chuck Wagon" column for the Star-Telegram in 1930, giving news about the livestock industry and the people who make it work.

Still writing the column today, Reeves has taken countless pictures accompany the stories he has written, producing a unique pictorial record of his part of the

DOGETTS PLAN FUND RAISING DRIVE

In a called meeting last Wednesday, the Dogetts voted to begin a fund-raising campaign to finance a variety of activities during the year. The group will sell windshield stickers, pennants, ribbon badges, bracelet and key ring charms, and Bulldog sweaters. The organization is in the process of printing the 1966-67 Bulldog schedule, after selling advertisements to local businesses this last week. The Dogetts have also purchased materials for three large Bulldog signboards which will be used to advertise home games. These signboards are being made by students in the art department.

One other fund-raising venture was the sale of Cokes recently at the ex-student dance.

BULLDOG KENNEL

Comments from the Coach's Corner

The Bulldogs pretty well held their own in the two scrimmages against the Wayland Pioneers last Saturday. The afternoon session did not go well with the Bulldogs, due to their inexperience and a bad case of jitters. The Pioneers pretty well outplayed the Bulldogs until the Green and White shifted to a zone pattern. The Bulldogs gained steadily on the Wayland boys after that, with the final score standing at 119-113, in favor of the visitors.

The evening session went much better for the CC squad, as they fought to a 79-79 stand-off. Our efforts were hampered by Tom Byrd's being out of most of the action with a bum ankle. The little guards did most of the work, with Holloway, Jordan, Cannon, Kindrick, and Vidaurri showing up very well. We rotated our boys all the way through, and we feel that we have made pretty good progress up to this point. The rough and tough Wayland boys are the same group we played last year, and they are an-

PRICE IS RIGHT

FOR U.S. CONGRESS

BOB PRICE... the family man

Bob Price is a man whose interests are centered around his family. It's his desire to help create a better America for his children that led Bob Price into seeking the office of Representative to Congress. Bob and his wife Marty, along with their children, Janice, Carl and Grant, are a family we can be proud to send to Washington.

BOB PRICE... wants to stop inflation

Food, clothing and house payments must be paid out of take home pay after taxes. Inflation makes this more and more difficult for every family in the Panhandle. As a man operating his own business, Bob Price knows the effect of inflation on earnings.

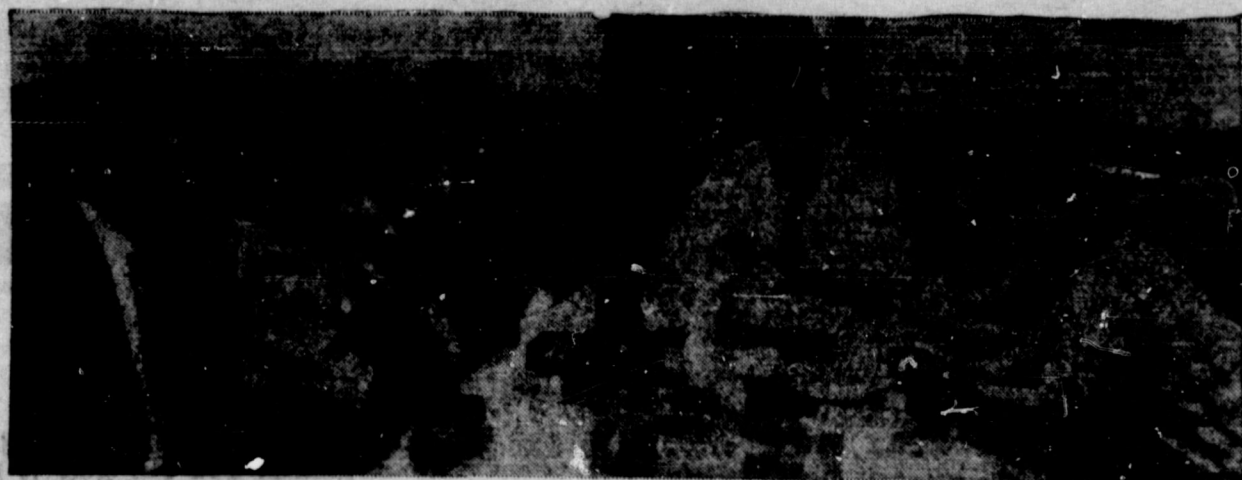

BOB PRICE a man known for his vital interest in water

Bob Price's family started ranching in the Panhandle in 1907. Following in his father's footsteps as a businessman and rancher, Bob Price knows that we must use greater water conservation to raise food and to attract new industry to the Panhandle. City and County alike are concerned with this problem. Bob Price has the knowledge and experience to plan ahead for our future water needs.

BOB PRICE... knows about war... he's been there

As a jet pilot, Bob Price experienced first hand the effects of war on the young men of today. This knowledge acts as a guideline to decision in regards to foreign policy. Experience is a valuable teacher.

BOB PRICE... keeps in touch

Over the past 2 years, Bob Price has talked to citizens of every county in this district. He has learned the problems facing us today and has the experience to work toward their solutions. Bob Price owes no debt to any single group and can give all of you representation in our nation's capital.

VOTE FOR BOB PRICE FOR U.S. HOUSE OF REPRESENTATIVES

Yes, you can vote for BOB PRICE regardless of your choice of other candidates. A split vote ticket is a legal ballot and will be counted.

Good Southern Style like my folks back in my home state of Kentucky." Then he added; "The Air Force knows more ways to ruin fried chicken than anyplace I've ever been."

Happiness is hard to find with ourselves and impossible to find elsewhere.

Another reason the way of a transgressor is so hard is that the traffic is so thick along the road.

A good woman takes a man for better or for worse, the other kind takes him for all he has.

Most women are like a good umpire—they never call a man safe when he is out.

This jolly old world is a bit like a fruit cake—it would be a lot harder to take if it wasn't for the nuts in it.

Hard work never kills anyone, but it scares some folks to death.

Wouldn't it be wonderful to find a politician who thought his opponent was as good as he was?

Wouldn't it be a surprise for some taxing agency to say: Don't need any more taxes, we are wasting enough already.

FEARFUL REPORTS

Two weeks ago Fearful was badly frightened by a mouse while trying to track down a band member. With the help of his mother, Fearful discovered that the missing Band member was actually Mr. Anthony, the Band director.

Last week Fearful could not take a case because his mother sent him to the National Convention of Quilters to spy for patterns for her new quilt. On his return to Clarendon Sunday, Fearful received a phone call from a man wanting information

about a certain girl at C.H.S. The suspect is said to have light hair and to be short.

Fearful started his investigation at 9:15 a.m. Monday. He searched the high school and made a list of all probable suspects. He followed several of these people hoping to get a lead but to no avail. Finally, the 3:55 bell rang and Fearful got into pink Edsel and started to head for home when he discovered his suspect lives in the vicinity of the school. Tuesday, Fearful had to postpone his search as his suspect was not in town.

Wednesday, bright and early, after eating his wheat germ, and taking his scalp massage, Fearful headed toward the high school. He saw the Band marching down the street and decided to watch, and was accidentally knocked unconscious by a long metal stick. Due to this accident, Fearful must remain at home for the next few

days. If anyone can help Fearful complete his case call him at Dagnet OU812.

The Senior Class sold \$500 worth of Mums at Homecoming this year—the biggest sale ever.

The Sophomore Class will sponsor a bake sale on November 4, 1966 in the grocery stores in Clarendon. There will be a great assortment of baked goods. Plan now to stop by and sample some.

The Student Council met and elected the following officers for the year: Janice Riley, President; Druce Bush, Vice-President; and Sandra Lamberson, Secretary. The group is sponsored by Mr. Ledger.

All of the classes met recently and elected class favorites. The Seniors elected Judy McAneer and Irvin Mears; Juniors, Sandra Lamberson and Monte Land; Sophomores, Vikki James and Billy Longan; and Freshmen, Beth Waldrop and Gene Hommel.

At a recent FHA meeting, Mr. Tex Selvidge spoke on "Morals and Manners Matter." Following the speech there was a discussion of subject.

Pathfinder Club Holds Friday Meeting

Pathfinder Club met Friday afternoon, October 28, at Patching Club House. Present were sixteen members and one guest, Mrs. Guy Crawford, District President of Federated Women's Clubs.

Mrs. Crawford gave a short preview of the beginning of Federated Club work in Texas. The theme for her address was "Education Plus Community Service Equals Progress with Youth." The keynote of her discussion covered several points. If we continue progress we must recognize that education and community service added together give us progress with youth. Our greatest resource is our youth. Promoting traffic safety in the education of our youth in driver training and traffic safety and the re-education of our drivers in traffic laws and motor vehicle operation may be an aid. We, as club women, should strive for stricter laws and enforcement of heavier penalties for intoxicated drivers and work for adequate legislation for traffic safety.

Mrs. Crawford also asked for active participation in club work. She is serving the district well and will always be a welcome guest in Clarendon.

Fall flowers and autumn leaves were attractively used throughout the entertaining rooms. Mrs. Lee Holland and Mrs. Sam Lowe served delicious cake with whipped cream and topped with cherries, and coffee.

FORMER HEDLEY RESIDENT ON RESCUE MISSION

Mrs. Letha Youngblood received this last week a letter from Major Adrian D. Youngblood who is serving in Viet Nam. Youngblood is helicopter commander of the Jolly Green and has taken part in at least two rescue missions. On his first mission he and his pilot, Capt. Charles B. Skelton, whose home is in Idaho, picked up the pilot of a F-105 Thunderchief in dense jungle, only to have their helicopter downed. The three were rescued since that time Youngblood has made at least one other rescue, or perhaps by the time this news reached the states.

Youngblood was promoted to Major September 23 but did not receive the news until September 26.

Mrs. M. L. Rattan and Rickey, Mr. and Mrs. Dennis Rattan, Mrs. Bernese Moreland and Johnny visited Mrs. Johnny Rattan and new baby in Amarillo Sunday evening.

HOSPITAL NOTES

Patients as of Wed., Nov. 2—George Green, Mrs. Tom Roberts, Mrs. Glenn Williams, Mrs. Jimmie Fry, Mrs. C. E. Killough, M. G. Helton, Mrs. Frank White, Sr., and Mrs. Udora Brandon. Dismissals—Carl Allmond, W. E. Bright, A. H. Moore, May Noblet, Rommie Lee Ryder and Mrs. Fannie Reynolds.

SCREWORM CASES ON RISE IN TEXAS

The number of screwworm cases reported in Texas continues to increase according to County Agent Ronald Gooch. For the two-week period ending October 15, 349 screwworm cases were identified in 60 Texas counties. The Southwest Screwworm Eradication officials urge all livestock producers to check their livestock closely and send in any suspected screwworm cases for identification.

It is extremely important that screwworms be eliminated in Texas this fall so that sterile fly releases can be concentrated across the border in Mexico early next spring. Efforts to push the screwworm fly populations south in Mexico are greatly hampered as long as a large percentage of the screwworm flies released must be used in the U. S.

Mailing vials for sending in samples for identification can be obtained free of charge at the county agent's office.

RICHEY TO RECEIVE PROMOTION NOV 16.

Truman Richey, son of Mr. and Mrs. John Richey of Clarendon will be promoted to Radioman Second Class November 16 carrying a rank of E-5. This is the highest rating that can be earned in a four year period.

Richey has been serving in the Viet Nam area since December of last year. His medals include the International Defense Medal, Vietnam Service Medal, and Vietnam Campaign Medal.

WEST TEXAS STATE VS NORTHERN ARIZONA SAT.

The Buffaloes of West Texas State University will travel to Flagstaff, Ariz. where they will engage Northern Arizona Saturday afternoon. Game time will be 2 p.m. MCT. The Buffs will be hoping for a win after being defeated by Memphis State last Saturday night to a tune of 26-14. The first half of the game Saturday night was well balanced but a change in offensive tactics failed to pay off in the second half.

Northern Arizona defeated Montana by a score of 34-8 Saturday night. This is expected to be a tough game for the Buffs. Arizona holds a fine record of wins against Idaho State, Central Missouri, Cal Poly, Pomona, and Long Beach State. The Buffs hold a 5-2 record.

Lumber doesn't corrode. Did you ever see a rusty tree.

Trees are a crop, according to the Texas Forestry Association. Trees grow, are tended, and harvested like any other farm crop.

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us as a precious memory. Our sincere thanks and gratitude for all those comforting acts.

Nolie Simmons
Mrs. & Mrs. Alvin Mace & Son

We wish to take this means of thanking our friends and customers whom we have had the pleasure of serving the past year at Sybil's Kountry Kitchen. We also wish to thank the volunteer firemen and all others who assisted in fighting the fire. At present we are undecided in regard to our future business intentions.

Thanks again,
Leo & Sybil Snoddy

Texans will vote on 16 proposed amendments to the State Constitution on November 8.

Major interest has been attracted to two amendments:

● No. 11 would double the Texas Water Development Fund from \$2,000,000,000 to \$400,000,000 and broaden its uses to include water filtration, treatment facilities.

● No. 7 would repeal poll tax (already nullified by federal court decision) and substitute annual voter registration.

Other amendments would:

● Increase elected judges of the Court of Criminal Appeals from three to five No. 9

● Exempt agricultural lands in urban areas from full-value taxation (No. 1.)

● Provide that taxes or bonds voted by school district will not be invalidated by changes in boundaries (No. 10.)

● Remove limitations on voting by armed services personnel (already invalidated by federal court) (No. 14.)

● Set legislator's term beginning on opening day of regular lawmaking sessions. (No. 16.)

● Remove Arlington State College from the permanent university fund (No. 3.)

Authorize Legislature to pass laws to accomplish the following:

● Create airport authorities (No. 2.)

● Set terms of conservation district directors up to six years (No. 4)

● Provide a statewide retirement system for employees of

counties and subdivisions (No 5).

● Permit benefit payments to survivors of law officers, prison guards and firemen killed on duty (No. 6)

● Ease voting restrictions for those who have recently moved (No. 8.)

● Provide for dissolving hospital districts (No. 12.)

● Permit major counties to consolidate some governmental functions and make contract with each other for services. (No. 13.)

● Authorize acceptance of private or federal funds for aid to physically and mentally handicapped (No. 15).

OIL ALLOWABLE UP—Texas Railroad Commission hiked the statewide oil production allowable for November to 34.5 percent of potential. It was the second monthly boost in a row and the highest level since June.

Factor permits production of 3,179,115 barrels a day, compared with 3,154,384 for October. Figure for November last year was 2,884,856 at 28.4 percent. In taking the action, Commission noted strong demands for gasoline and kerosene and declining crude oil stocks.

COURT SPEAKS — Dallas County district attorney asked the Court of Criminal Appeals to reconsider its ruling that Jack Ruby, convicted slayer of presidential assassin Lee Harvey Oswald, must get a new trial.

Supreme Court declined to reconsider its opinion that the City of Dallas could order a movie to be advertised as not suitable for youngsters.

Reversing the lower courts, the Supreme Court ordered a new trial of a Burnet County couple's suit concerning the method of computing interest on a loan from Fredericksburg loan association.

In a Seguin case, the high court agreed that a school district can reassess invalid values it places on property.

PARK LAND "OWED FOR" — Land Commissioner Jerry Sadler has written Governor Connally that 37,000 acres in area of proposed Guadalupe National Park in Culberson and Hudspeth Counties has never been paid for by a private purchaser.

Sadler said the interest has

been kept up, but the Abilene owner still owes the state \$37,000 on land he agreed to buy for \$1 an acre 40 years ago.

Congress has passed and sent to the President a bill to establish a 71,000-acre national park. Land cost has been estimated at \$1,800,000 and development at \$10,300,000. While favoring creation of the park, Sadler insisted that Texas retain the mineral interest in some 45,000 acres.

Federal bill requires donation of minerals owned by both state and private interests, Sadler said.

PUBLIC OPINION SURVEYS SHOW THE FOLLOWING

The Opinion Research Corporation, Princeton, N. J. has released the following information: Seven out of ten Americans want to reduce federal government spending to control inflation. Eight out of ten express concern about inflation. Two out of three say they have been hurt by inflation. One-third feel they are worse off financially than a year ago. Seventy percent favored a cut in federal spending rather than increased taxes.

Twenty-eight percent blame the Government for inflation compared with 6% blaming business, 10% blaming labor, and 13% blaming the people themselves.

After four months in office, President James A. Garfield was assassinated by a man whom he refused to appoint to office.

Amendments In Brief For Review Prior To November 8 Election

Here is a continuation of the recap of the 16 Amendments to be voted on this coming Tuesday, November 8. Study these along with the recap of last week before you go to the polls.

AMENDMENT NO. 9—Increases to five the number of judges on the Texas Court of Criminal Appeals and lengthens the term of the court. Presently the court operates with three Judges and two Commissioners who are assistants to the Judges but have no authority as a member of the Court. The Amendment would make two changes. It would require the Judge's appointment to be made with the advice and consent of the Senate and the appointment would be for the unexpired term, in case of a vacancy, until the next general election. The proposal would allow the Court to sit for approximately 12 months and require the Court to conduct its business at the State Capitol. A procedure for setting terms of office would also be set up.

AMENDMENT NO. 10—Provides that taxes or bonds previously voted in any independent school district or in any junior college district shall not be abrogated, cancelled or invalidated by any change in boundaries authorizing the continuance of the levy after such change without further election. The 1962 law stated that tax rates and unissued bonds by adjustment of district boundaries would not abrogate or cancel invalidate taxes for maintenance of public free schools or bonds voted but unissued and specified that the maximum tax rate after such consolidation or annexation would be the maximum rate voted by the district having the greatest scholastic population. This amendment would make the above conditions applicable to any independent school district or junior college district in Texas. Thus the tax rate would be that paid in the heaviest populated part of the district.

AMENDMENT NO. 11—Would authorize the issuance of an additional \$200,000,000 bonds by the Texas Water Development Board upon a two-thirds vote of the Legislature and expanding the uses to which money in the Texas Water Development Fund may be put. This Amendment would do little for the Panhandle Area, would require the appropriation of this additional tax money. It is anticipated that during the fiscal year ending August 31, 1967 and in some succeeding years, part of the cost of this water storage program will have to be

met out of the state's General Revenue Fund. The proposed new program to be administered by the Texas Water Development Board would not be immediately self-liquidating either. Storage water could be transported to any area.

AMENDMENT NO. 12—Provides the method and manner for dissolution of hospital districts. There are constitutional amendments providing for the creation of hospital districts in any county. In 1965 the Attorney General in a case, ruled that there was no existing statutory or constitutional authority to dissolve a district. The Legislature, under this amendment, would have to provide a process for determining whether a majority of the qualified voters of the district want to dissolve it. No election to dissolve a district could be held more often than once a year. Assets could not be disposed of or transferred except for due compensation unless they were transferred to another governmental agency in such a way as to benefit citizens formerly within the district.

AMENDMENT NO. 13—Would authorize Legislature to provide for consolidating the functions of government within a county having 1,200,000 or more inhabitants and to provide for inter-governmental contracts between political subdivisions of the county. On the face of this amendment it appears to apply to only about 24 counties but could later be expanded. If passed this amendment would permit the hiring of a county administrator, the election of county commissioners at large, abolish special funds as road and bridge, general, jury, and permanent improvements, and establish one huge general fund with a single general tax. In time elected officials would be replaced by appointed professionals. In large counties there would be many sections that might have no representation with all the commissioners coming from one section alone. A merit system of pay raises could also be set up. Though designed for larger counties, immediately, this could be expanded to cover areas as ours.

AMENDMENT NO. 14—Would allow members of the armed forces to vote in Texas upon satisfying the residence requirements applicable to Texans in general. Servicemen would be able to vote if they met the requirements of age, citizenship and residence necessary to qualify voters. In 1965 the U. S. Supreme Court

ruled that wording in the Texas Constitution preventing a serviceman from acquiring residence in Texas for voting purposes was in violation of the Fourteenth Amendment. This Amendment would eliminate the remaining provision that servicemen could vote only in the county in which they resided at the time of entering service.

AMENDMENT NO. 15—Authorizes the channeling of funds from private and federal sources through the state for use by privately owned or local agencies in establishing and equipping facilities to assist the handicapped in becoming gainfully employed. The wording of this Amendment is broad and vague but sounds fine on its face, but under this Amendment money accepted under this sub-section is state money making it subject to state auditing procedures and might jeopardize federal assistance. The proposal also states that no other money may be spent by state agencies for these purposes. Would this mean that no state money could be used in providing services for the handicapped when money is accepted from federal government, or private funds? The Legislature could prohibit state agencies from accepting money, or regulate the acceptance and expenditure of the money and the purposes for which it could be spent. Money contributed for the purposes and in this manner could be handled by a number of state agencies authorized by a patchwork of law and constitutional provisions. The vagueness of this proposal might jeopardize existing programs.

AMENDMENT NO. 16—Establishes the date on which newly-elected members of the Legislature qualify and take office. This would write into the Constitution a definite date on which Senators and Representatives would qualify and take office. Terms of both Senators and Representatives and when they take office would be clarified. The conflict has been the period between a general election and the next regular session held in January following.

Editor's Comment—Study these Amendments before you go to the polls and decide how you want to vote on each. It will save you time when you understand and know something of the issues involved.
