The longest touchdown jaunt of the game came early in the fourth quarter when Hermesmeyer grabbed a blocked Mustang punt on the Wheeler 49 yard line and dashed down the sideline to pay dirt.

The Wheeler lads started off like a great ball club, but went to pieces before the first quarter was half over. Perrin and Hampton were the outstanding backs for Wheeler. The Mustangs suffered several serious handicaps during the game when key men were knocked out. The Wheeler lads. apparently big and husky, wilted under the persistent pounding of the Broncho forward wall. The Clarendon line played a whale of a defensive game and not once was the Broncho goal line serously threatened.

Gordon, Hartzog and McCrary were each credited with a touchdown, and big Bud Hermesmeyer went over th double stripe twice. The most persistent ground gainer of the game was little L. B. Hartzog who gained yardage almost at will. With shifty hips and legs that churned like pistons, the fleet diminutive back spelled disaster for a Mustang victory. The game yielded 18 first downs for the Bronchos as to 6 for the Mustangs The starting lineup: Clarendon-McCrary and Kirkland, ends; Lumpkin and Spencer, tackles; Peabody and Bulls, guards; Goodman, center; backs, Smith, Johnson, Hartzog and Hermesmever. heater that

DIRECTS Heat Down to WARM THE FLOOR

Without an Electric Blower*

The effectiveness of the Superfex Heat-Director, with adjustable shutters, to direct heat outward at sides and front and DOWN, to warm the floor, has been proved by years of satisfaction in thousands of homes. No other heater can use this method, because it is patented by the Perfection Stove Company.

*Electric Blower if Desired for Unusual Heating Jobs

If you have an unusual heating job, such as remote alcoves or adjoining connected rooms, we can supply a Heat-Director with an electric blower, for forced circulation, or we will be glad to install a Heat-Director without one, and the blower can easily

be installed later, if you wish.

Also a Complete Line of Radiating Heaters

In addition to a choice of sizes in Heat-Directors, there are also several styles and sizes of Superfex Radiating Heaters.

Heaters operate on inexpensive fuel oil (either No. 1 or No. 2). Can be had with detachable fuel reservoirs for outside filling, or with constant level valve for connection to large outdoor fusl tank. Thermostatic controls available, to make heating entirely automatic.
