RESERVE CHAMPION OF AMARILLO SHOW—James Edward Potts, son of Mr. and Mrs. James Potts of Hedley, is shown here with his Hereford steer which took reserve champion honors at the Amarillo Fat Stock Show Monday. In the sale Tuesday, the 945 pound steer brought \$1 per pound and was purchased by the Champion Club of Amarillo. This same steer was the Grand Champion of the Donley County Show December 30th.

Work On Greenbelt Dam Moves Nearer Completion

According to information released by Jack Patterson, Construction Foreman for R. N. Adams Const. Co., work on the Greenbelt dam is still running ahead of the new schedule and if the weather cooperates, the major dirt work will be completed in March.

The closure on the dam (portion left open for construction of morning glory overflow, etc.) will be filled by Monday or Tuesday of next week if the weather is cooperative. This will leave an average of around 15 feet of dirt fill across the entire top of the dam which will amount to around 250,000 yards of dirt to be moved before completion. We hope to have this accomplished by some time in March, Mr. Patterson stated.

The material for a large portion of the remaining 15 feet will come from the present highway location by the spillway. A temporary detour will be used while the road area is lowered to the level of the spillway and the blacktop will be replaced. The location will not be changed.

The rock rip-rap is approximately 50 percent complete at the present time. After the dam is completed including the rip-rap, the back side of the dam will be sodded with grass. Depth of the water at the dam in the river channel is around 22 feet at the present time with the normal flow of the river being let out.

The original completion date of the dam was set as April 1968. If everything goes well, it probably will be completed even sooner than the anticipated date of June 15th of this year. Work on the filter plant is moving along but concrete work has been slowed down due to the extremely cold weather.

Bill Lowe, Attorney for Greenbelt, reported that more stress was being put on the planning for the recreational program. All of this is being rushed up due to the earlier completion of the dam. It is understood that the lake will receive top priority for the stocking of fish by the State Parks and Wildlife Department and this will probably be started in May.

BAKE SALE SATURDAY

The women of St. Agnes Altar Guild of the Episcopal Church will hold a bake sale and delicatessen sale at Junior's Food Market Saturday, January 28, from 10 a.m. to 1 p.m.

You eligible people of Donley County who have not already done so, have only four days left to register so you can vote during the 1967 elections. The County tax office will be open today, Friday, Monday and Tuesday to help you get signed up. The deadline is 5 p.m. Tuesday, January 31.

Up through Tuesday afternoon, a total of 573 had registered here in Donley County. This would be a very poor representative figure would not be the voice of the majority of people or do you want a voice in selecting those who serve you and your community as an elected official or do you want a voice in saying whether a bond issue carries or fails.

Elections for many issues can be called within a very short period of time and you never know what proposals may come up during the year. It is a known fact that there will be city and school elections.

The old excuse was that it cost \$1.75 for the Poll Tax. Now it costs you absolutely nothing except the effort to go sign up if you are under 60 years of age. If you are over 60 years of age, you do not have to worry about registering at all.

We are publishing the application form again so you may see what information is required for you to sign up. It is your privilege to register to vote and it is your duty as a citizen to be able to vote.

CC Bulldogs Continue Conference Play

The Clarendon Bulldogs begin the new semester with two home conference games. The green and white will meet the rough and tough New Mexico Military Institute squad in Bulldog Fieldhouse on Friday night, January 27, at 7:30 p.m.

On the following Tuesday at 7:30 p.m. the Bulldogs will be pitted against a determined South Plains five from Levelland. This will be a grudge game for the Texans, who bowed out in overtime to the CC boys in the South Plains tournament in December, losing not only the game but the championship trophy as well.

CC fans are urged to attend both games as the Bulldogs need and appreciate the support and encouragement of the entire town.

"GET-ACQUAINTED" SOCK HOP AT CLARENDON COLLEGE

The CC Doggets are sponsoring a "Get Acquainted" sock hop in Bulldog Fieldhouse immediately following the Bulldog-New Mexico Military Institute ballgame Friday night, January 27. The Links, a four-piece rock 'n roll band from Perryton, will play for the dance. Admission price is \$1.00 per person.

All college students and their dates are invited to attend the sock hop and get acquainted with new students who have enrolled this semester.

FEARFUL REPORTS

Thursday evening Fearful finally found a suspect on his own, sneaking into the back of the auditorium and decided last week's suspect was Barry Tyler.

Then early Saturday morning a worried mother called Fearful to see what was keeping her daughter in town so late.

Fearful mindful of the week end decided to wait until Monday morning. On his way to school Fearful had a flat and had to call his mother to come change the tire. Tired from the physical exertion he headed home to rest for the afternoon.

Tuesday Fearful rushing to school barely missed another collision with a school bus; and then turned the corner and had another flat.

The second flat caused Fearful so much mental agony that his psychiatrists recommended complete isolation for a few days. Won't someone solve Fearful's case and help this distraught

JUST A BIT OF THINKING

What more difficult job is there than thinking?

There is none.

And because thinking is more difficult than any other task, it is the most highly rewarding—rewarding not only in terms of money but also in terms of appreciating these things that make life wonderful.

If you have never had to think these words bring hope.

And if your primary task is thinking, your life is rich indeed.

Even the ash tray rides smoother in Chevrolets

When you're down at your dealer's trying out a new Chevrolet, be sure you pull out the ash tray. Notice how nice and easy it glides, never hanging up or even scraping. The reason is, it rides on ball bearings. Four shiny little ball bearings. (Take the tray all the way out and you'll see them.) You say you don't even smoke? Then look at it this way. **WASHINGTON REPORT**

This is my first weekly newsletter of the 90th Congress and I am looking forward to visiting with the residents of the 18th District by this means regularly.

My principal function as your Congressman is to be your legislative spokesman. It is certainly my duty as set forth in the Constitution. I have already exercised this duty several times. From the mail I have received I believe that I have represented your wishes in voting to have Adam Clayton Powell barred from taking his seat until allegations against him can be investigated.

I am here as your representative. It is important that I hear from you as an individual. I am going to represent all 200,000

people in the district and to do this I must know how you feel on the issues which come before the Congress. I welcome your letters.

If you ever need any help in dealing with the Federal Government I stand ready and willing to do so. This is usually complicated and I can often help expedite matters. As you know, Congress makes the laws which are then administered by the Executive Branch—the various departments, agencies, and bureaus—in other words, the "bureaucracy."

Sometimes the bureaucracy's interpretation of these laws is somewhat different than was intended by Congress. So when you have problems with the Federal "bureaucracy" don't hesitate to call on me.

A very important part of my job as your Representative is in keeping you informed on what is happening in Washington. By means of press releases, radio and television reports, and this weekly newsletter, I will get the facts

to you. If you would like to receive my newsletter just send your name and address and I'll be happy to put you on the mailing list.

If you need to contact me the best way is to write a letter. If you call, chances are that I'll be in a committee meeting or in debate on the floor. If you write I'll have a record in my office of exactly what you want. Here's where to write me:

Congressman Bob Price

1323 Longworth House Office Building  
Washington, D.C. 20515

For your convenience I will also maintain two offices in the district. Eddie Baird and Mrs. Elizabeth Ravenscraft will be in the Amarillo office which is temporarily located in Room 623, Bank of the Southwest. Mrs. Charles Wilkerson is in charge of my Pampa office at 800 N. Sumner. They are in direct contact with me here in Washington

should you ever need to contact me quickly.

In closing, I would like to remind everyone that January 31 is the deadline to register to vote in 1967—I would like to urge everyone to be sure and register. Remember, I am in Congress to serve you. Please do not hesitate to write if you have problems I can help you with.

Sincerely,  
Bob Price.

Dates for try outs in other centers will be announced later. Minimum age limitations on all positions is 18 years for non-local residents. Rehearsals will begin Thursday, June 1st.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

Texas House of Representatives is operating under far-reaching new rules. And a cooling-off period has been called in a controversy over whether both houses should revise joint procedures.

House of Representatives voted 145-0 for a modernized rulebook. Key changes reduce the number of House committees from 42 to 25, after this session; inaugurate a modified system; and set up a calendar system to determine the priority rights of bills for consideration.

Three days deep in the 60th Legislative session the House also approved 145-0 a proposed set of joint rules to govern matters involving both houses. This included Speaker Ben Barnes' proposal to limit conference committees to adjusting differences in bills passed by the two houses, rather than writing new legislation.

Another major provision calls for joint committees to hear budget requests and perform some housekeeping functions.

Still another would require that conference committee meetings be open to the press and the public. Lt. Gov. Preston Smith turned a cold shoulder to the conference committee restriction, long advocated by Barnes. Smith said the Legislature has too many more important things to do than squabble over rules.

According to some House lieutenants, Barnes feels that a majority of the Senators favor his proposals. Smith pointed out that rules can be approved or amended only by a two-thirds vote. So, the House version on joint rules is expected to spend an extended cooling-off period in a Senate committee.

If the House recommendations

are not accepted, Barnes made it clear that he will regard his own conference committee appointees as duty bound to adjust differences only. If Senate conferees are not so restricted, he readily admitted an impasse may be reached when the first controversial piece of legislation goes to a conference committee.

## LEGISLATIVE MEASURES READY

Major legislation now in the hopper includes:

- A constitutional amendment by Rep. Travis Peeler of Corpus Christi to permit revision of the state constitution by sections, on submission by the Legislature.

- Authority for cities to levy local option one-per-cent sales taxes by Rep. John Traeger of Seguin.

- A minimum wage bill (\$1.25 an hour) with Sen. Joe Bernal of San Antonio and Rep. Lauro Cruz of Houston as main sponsors.

- Legalization of mixed drinks by Rep. Jake Johnson of San Antonio.

- Abolishing the death penalty for crimes by Rep. Ronald Bridges of Corpus Christi.

SENATE TERMS DECIDED — In a drawing to determine the length of terms of members of the Texas Senate, required by legislative reapportionment, these Senators will serve four-year terms:

Joe Bernal and V. E. (Red) Berry of San Antonio; Wayne Connally of Floresville; H. J. Blanchard of Lubbock; Chet Brooks and Cris Cole of Houston; Tom Creighton of Mineral Wells; Roy Harrington of Port Arthur; Grady Hazelwood of Amarillo; Jack Hightower of Vernon; Don Kennard of Fort Worth; Oscar Mauzy of Dallas, Dave Ratliff of Stamford; Jack Strong of Long-

view; Murray Watson of Waco; and J. P. Word of Meridian.

Reps. R. H. (Dick) Cory of Victoria and Charles H. Jungmichel of La Grange are No. 1 and No. 2 on the workhorse state affairs committee.

Head of the powerful new House rules committee, which determines the order in which bills will be brought to the floor for consideration is Rep. Randy Pendleton of Andrews. Vice-Chairman is Rep. Honore Ligarde of Laredo.

SHEPPERD NAMED PARK TRUSTEE — John Ben Shepperd has been appointed sole trustee and administrator of the LBJ Park Fund.

Funds consist of money donated to buy land across from the LBJ Ranch in Gillespie County.

Selection of the former attorney general for this post was made by the State Parks and Wildlife Commission following criticism of the Commission for its handling of the fund.

Simultaneously, the commission announced it is fencing 25 acres of the 247-acre park to contain deer, buffalo, turkey, longhorn steers and other native animals.

Park has been enlarged to include historic and scenic, as well as recreational objectives. Area will soon be open, commissioners indicated.

Commission Chairman Will Odom of Austin said Shepperd was named to make the project function more smoothly and not because of earlier criticism. Shepperd said he will reveal the names of the donors to the fund, as requested by Governor Connally, when all land acquisition is complete.

TOURISM EXHIBIT — A \$12,000 exhibit has been prepared to demonstrate the scenic and recreational attractions of Texas. It will be displayed at major travel shows across the nation.

Exhibit includes a miniature waterfall, slides and a diorama depicting each of the five areas of the state—East Texas, the Hill Country, the Rio Grande Valley, the Gulf Coast, and the Trans-Pecos/Far West Texas region.

Theme of the exhibit is "Texas For a World of Difference."

sities have been recommended for \$312,004 in teaching grants from the federal government, says the Higher Education Coordinating Board.

Public Senior Colleges scheduled to receive \$375,499 are Angelo College, Stephen F. Austin State, Sul Ross State, East Texas University, Sam Houston State, Southwest Texas State, Midwestern University, Texas College of Arts and Industries, North Texas State University, Texas Western College and University of Houston.

Nine Public Junior Colleges to receive \$177,280 are San Antonio College, Cisco, Wharton County, Laredo, Del Mar, Cooke County Southwest Texas and Panola County.

Private Schools receiving \$258,315 will be South Texas College, University of St. Thomas, Abilene Christian College, Jarvis Christian College, Texas Christian University, Bishop College, University of Dallas, and St. Edward's University.

Schools must match federal money on at least a dollar-for-dollar basis.

Federal approval is expected within the next few months.

AIRPORTS INCREASE — Municipal airports in Texas increased from 219 to 226 the past year, says the State Aeronautics Commission.

Texas still leads the nation in the number of air strips even though the total decreased from 895 to 870.

Mr. and Mrs. J. W. Toler of Amarillo visited Sunday afternoon with her brothers, Mr. and Mrs. Bill Percival and Mr. and Mrs. Herman Percival.

### Now Is Ideal Time For Soil Sample Testing

January is a good month for collecting and submitting soil samples for testing, reminds County Agent Ronald Gooch.

At the present time, samples are processed as soon as they arrive at the laboratory and test reports are mailed within ten days. This schedule should benefit you since prompt service is an important requirement for an effective soil testing service.

Sampling well in advance of planting offers the advantage of allowing time to obtain the fertilizers needed. We hope wet soil will be encountered during the next month or so, therefore, sampling now is advisable.

Shipping weights can be reduced by allowing the sample to dry a day or two at air temperature. Samples should not be heated since high temperatures cause potassium to be fixed in some soils in such a way that it cannot be removed by chemical procedures, Gooch advises.

If reliable information is to be obtained from a soil test it is necessary for the sample to be as nearly representative of the field on which information is desired as possible. To obtain a representative sample, a composite is made by obtaining a core of soil from 10-15 spots in the fields from 20 to 40 acres in size, Gooch says.

Pint boxes, mailing cartons, history sheets, and instructions are available from your county agent's office.

Instructions for sampling should be studied and followed as closely as possible. It is a good idea to go over these instructions with the county agent, especially if this is your first experience in collecting samples, Gooch advises.

### Common Income Tax Questions-Answers

**Q—Who has to file a return?**  
**A—**A return must be filed by every person under 65 who has gross income of \$600 or more during the year. For those 65 and over, a return does not have to be filed until gross income reaches \$1,200. However, if you are self-employed you must file a return if you had self-employment income of \$400 or more, even though your gross income was less than \$600.

The filing requirements also apply to minors. If, for example, a child has income of \$600 or more from a savings or trust account or any other sources, then a return must be filed on behalf of that child.

**Q—I'm due for a refund this year. What can I do to speed it up?**  
**A—**The best advice is to file a complete and accurate return and to mail it early to the address listed in the 1040 instructions.

The largest single reason for delays in refunds last year was a missing or inaccurate Social Security number. Be sure to enter an accurate number for yourself and your wife if it is a joint return. Other reasons for refund delays are failure to attach required W-2 forms, failure to sign the return and omission of other forms or schedules that may be required.

Another point—if you live in one of the states that have direct filing to IRS Service Centers, be sure to send the refund return to the Service Center rather than to the District Office. Page 8 of the 1040A instructions or page 10 of the 1040 instructions will tell you where to file.

**Q—Are auto license tags a deductible expense?**

**A—**Usually this is not a deductible expense. The exception would be where the license fee is based on the value of the car. In that case the expense would be considered a personal property tax and would be deductible.

**Q—I do not have a Social Security number. Now I find I need one for my tax return. What should I do?**

**A—**You may obtain a Social Security number, which also serves as a tax account number, by filing application form SS-5 with the local office of the Social Security Administration. This application is available at IRS offices, Social Security offices, and at many post offices.

**Q—How much can a child earn and still be claimed as a dependent?**

**A—**Generally a person may not

be claimed as a dependent if he has gross income of \$600 or more. However, if your child is under 19 or is a full time student, you may claim him as a dependent regardless of the amount of income he may have as long as you provide more than 1/2 of his total support for the year.

Several of my farmer friends tried to extend me their sympathy when it became known that we were to appear on the Ruth Brent Show about our new book. Don't worry fellows... It was a great experience for Uncle Zeb. It was so easy to find something to say under her kind and friendly leadership. Thank you Ruth for being so kind as to have Uncle

Zeb as your guest. Bless You.

One lady claimed that just as we came into the picture her set poured smoke from both tubes and gave up the ghost. One friend, (I reckon) said that he felt like the lady at her husband's funeral when after the preacher had rehearsed all his good traits thought she had gotten into the wrong place. Even Cotton John, no doubt remembering how poorly we done on his show last time, seemed to be shaking his head as we walked toward her office. Anyway my children and grandchildren like me, and my goodness one can't win 'em all.

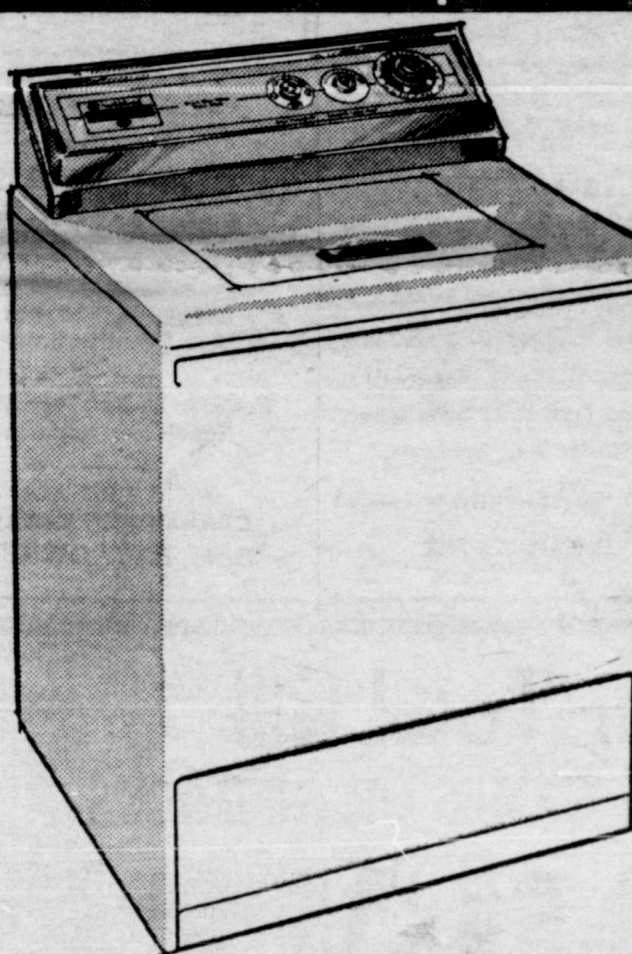

Rev. Mills said that our new book convinced him of another "great truth"—that every wife should help her husband with the dishes." Also that 60 years ago when he was just about the marrying age "Mother boiled coffee and settled the grounds with an egg. When neighbors saw to it that everyone had fresh liver at hog-killing time. When the preacher said a truth folks said "Amen", and back then mothers would always weep at a daughter's wedding, now it's the father." Thanks Rev.

To get nowhere fast—just follow the crowd in a hurry.

What one doesn't know won't hurt us, but it can prove to be embarrassing.

Hash is said to be the substance to things hoped for and the evidence of things which have been.

**DPS FACED WITH MANPOWER SHORTAGE**

The Texas Department of Public Safety is faced with the greatest manpower shortage in its history. In order to replenish the ranks of the uniformed services, employment procedures have been changed to allow for immediate employment, announced Major Harry Hutchinson, Regional Commander of this area.

Applicants who successfully meet all the requirements can be placed on the payroll within ten (10) days, and will be assigned temporary duty at any of the regional district or sub-district DPS offices over the state until a recruit training school begins. Periodic training schools will be held at the DPS Law Enforcement Academy in Austin.

To qualify for a position in the uniformed services, a man must be between the ages of 20 and 35, not less than 5 feet 8 inches in height, a high school education or its equivalent, sound physical condition, good vision, a citizen of the United States, and a resident of Texas.

Application and full information may be obtained by contacting any Department of Public Safety Patrolman or station, or Patrolman Chester Fant, Safety Officer, who will be at Clarendon College at 11 a.m. Monday, January 30th, will be able to give preliminary interview and assistance in filling out applications.

**FILM "ON THE SQUARE" AT FARMERS STATE BANK IS WELL ATTENDED**

Over 250 people were present in the lobby of the Farmers State Bank last Thursday evening to see the film "On The Square" filmed in Scandinavia and in the Soviet Union on a KGNC farm and ranch tour. "Cotton John" Smith of the KGNC Farm and Ranch Department was present to make a short talk before the film was shown.

E. O. Simmons, vice-president of the Farmers State Bank, introduced Cotton John and Mr. and Mrs. McBeth of Shurfine foods who represent the company sponsoring the production of the film and Jack Clifford who handles Shurfine foods locally. Refreshments were served in the Hospitality Room following the presentation.

Everyone thought it was one of the best films they had ever seen as it was educational as well as entertaining.

**SCS Offers Guides To Proper Range Use**

Many Donley County Ranchers and Farmers weaned heavier than average fall calves. Weaning weights in excess of 500 pounds, and yearling cattle shipped around 900 pounds were not uncommon. One of the factors that contributed to heavy shipping weights is that almost invariably cattle that wean heavy calves come off pastures where proper range use has been practiced thru the past years.

It is a well known fact that there is a direct relationship between stocking rates, beef produced per acre, and net returns for any ranching operation. Proper stocking of any grazing area has more to do with net profits than any other single item of management. Proper stocking will improve or maintain range condition, increase percent calf crop, increase net returns per acre, and protect land from erosion.

A 19 year study of stocking rates conducted at Woodward, Oklahoma showed the following results. Where pastures were heavily stocked the percent was 81%. Weaning weights at 7 months of age was 404 lbs. Heavy water erosion occurred in the heavily grazed pastures. Where pastures were properly stocked the percent was 92%. Their weaning weights of calves at 7 months of age was 481 lbs, and there was no water erosion. It must be remembered that stocking rates on individual ranches will vary according to rainfall and the kind and amount of different grasses.

A study conducted by H. L. Leithead, Regional Range Conservationist, SCS Fort Worth, Texas, showed light rate of stocking produced 102 lbs per acre of beef netting \$.66 per acre; moderate rate of stocking produced 158 lbs. per acre of beef netting \$1.02 per acre. Heavy over use produced 200 lbs per acre of beef netting \$.50 per acre.

Some pointers to follow in order to obtain proper stocking rates are: stock on the basis of available forage instead of many acres per cow, check for signs of range improvement or deterioration, allow for drought years because they are just as normal as wet years, remember that pounds of beef rather than number of head count at the market. Additional information and assistance on proper stocking rates and related problems can be obtained from the Soil Conservation Service in Clarendon.

**1967 FEED GRAIN**

Notices of Yields, Base Acres and Payment Rates have been mailed. Any producer wishing to appeal either the yield or the base must file such appeal with the county committee before February 8, 1967. The years 1963, 1964 and 1965 will be used for proving production.

**RELEASE AND REAPPPOINTMENT**

We are accepting requests for cotton release and for additional acreage from released allotments. If you have cotton which you do not wish to plant in 1967, you may release it to the County Committee and thereby protect your allotment.

**1967 PROGRAM SIGNUPS**

A four week signup period begins February 6th and ends March 3rd for the 1967 cotton, feed grain and wheat programs. This is less time allotted for sign-ups in past years so don't let the date slip by.

Producers will be eligible for advance payments at the time of signing up for program participation. The advance payment on cotton will be one-half of the total diversion payment. For feed grain, advance payment will be made on one-half the diversion payment for small farms and one-half the estimated price support payment which will be earned on larger farms.

**UPLAND COTTON PROGRAM**

To participate in this program a producer must agree to divert at least 12.5% of his allotment. He may divert as much as 35%. Price support payment will be made on the planted acres up to 65% of the allotment.

A farm with a cotton allotment of 10 acres or less or not more than a 3600 pound yield is considered a small farm. No acreage reduction is required on these farms to receive program benefits. However, the small farms that do voluntarily divert up to 35% of the allotment will receive double diversion payments.

**Increased USDA Food Donations Enroute To Texas Schools**

Increased supplies of food for school lunches are on the way to Texas as a result of recently stepped-up purchases by the U.S. Department of Agriculture, according to John J. Slaughter, Southwest Director, Consumer Food Programs, Consumer and Marketing Service, Dallas.

The food will be distributed to schools participating in the National School Lunch Program through the State Department of Public Welfare.

Texas' share of recent purchases, which USDA expects to deliver in January and February, will include 1,360,000 pounds of dry beans, 1,069,200 pounds of frozen beef, 1,038,390 pounds of butter, 436,800 pounds of cheese and substantial amounts of other commodities.

USDA has also announced intention to buy a large quantity of frozen orange juice, probably starting next month, and supplies should reach many schools in March. The Department is also buying fresh pears.

Other items supplied through USDA donations this school year have included raisins, nonfat dry milk, rice, shortening or lard, flour, corn meal, peanut butter, rolled wheat and, recently oats.

In supporting the state agencies in the administration of the National School Lunch Act, USDA's Consumer and Marketing Service donates some food plus some cash to buy food locally. On a national average, the food and cash contribute about 23 percent of the total program cost. State and local sources, including children's payments, cover the remaining cost of the lunches.

**Clarendon Ca Modern Dent**

After almost a year, I Hudson's new dental office furnishings in the Tunnell are complete. We started complete remodeling the upstairs section of the building to house the new offices the first Monday of Easter in 1966. The final of furniture for the room were moved in place week and other minor work completed.

Dr. and Mrs. Hudson's arrangement and installation of the dental suite is professional and have acclaimed it one of the nicest and most modern entire area. The offices of nine rooms including a reception room which is furnished with hand carved pieces from Mexico. The walls are a split cork. Other rooms include beautiful paneling and paper. Dr. Hudson has his office, a business office, bar, laboratory room, X-ray and three chair rooms, which have the newest type of operatories (dental chair vibrators built in to relieve patient. All rooms are complete for the exception of the laboratory.

Leading to the dental is a red carpet which extends from the ground level, through the stairway and throughout the halls of the Tunnell building. Construction of the dental was handled by Homer Ralph Decker and Willard son, father of Dr. Hudson.

After deciding to come to Clarendon to open Dental Hudson Dr. Hudson still had a long seige ahead, two years of dental internship at the Dental Branch of the University of Texas at Houston.

Before his offices were where near completion, Dr. Hudson started his general practice in August on a temporary basis. He began his time practice in September has had very few hours of time since.

Dr. Hudson was raised in Clarendon and is a graduate of Clarendon High School, where he received the Wesley Knorpy standing student award. His conclusion of his senior year after attending Clarendon College for one year, he completed the study of dentistry and years later received his degree from the University of Texas at Houston.

He was a member of Psi Chi Dental Fraternity and served as president of the fraternity in 1954. He also received the Fraternity Achievement Award as the standing member of the fraternity.

Mrs. Hudson, the former Ross, was raised at Quail, but attended Clarendon School and lived with her
