Cub Scouts Blue And Gold Banquet Held Monday Evening At Cafeteria

Clarendon Cub Scouts held their annual Blue and Gold Banquet at the High School Cafeteria Monday evening. Theme for this year's event was "Scouting Rounds Out the Boy." Traditional colors of blue and gold were used in decoration with the head table highlighted by a tiered birthday cake complete with candles representing each of Scouting's 57 years. The cake was baked and decorated for the occasion by Mrs. Bud Hermesmeier, Frank Phelan, Vice-President of the Adobe Walls Council, assisted by a Cub Scout lighted the candles and later cut the cake.

The meal was prepared by the mothers of the Cub Scouts and served buffet. Fairmont furnished milk for the banquet.

Harold Gerner, Cub Scout Master, introduced Rev. Paul Hancock who pronounced the invocation after which the meal was served.

A welcome to all was extended by Mr. Gerner and special guests introduced. Rev. Paul Hancock was speaker for the evening. He led the group in singing and included in his part of the program several group participation activities which were most enjoyable.

A film made by Clyde Price at Camp Kiowa was shown by Emmitt Simmons. This was of interest to everyone for it gave an account in color of a scout's preparation for camp, his activities while there, and his return home. Tommie Saye, narrated, pointing out a few of the activities Cub Scouts can look forward to when they become Boy Scouts.

Den III presented a skit divided into four parts. The first was a projection of old cars along with a discussion of their development. The second was the story of the telephone and a display of several models. The third was the story of the work of Thomas Edison with a Cub Scout reading by the light of a kerosene lamp. The fourth and final part was a patriotic presentation using the G. I. Joe and Green Beret figures so popular with young people today.

The charter for another year was presented the Cub Scout sponsoring institution, The First Baptist Church, by Johnny Leathers. Eddie Floyd accepted the Charter for Rev. W. R. Lawrence who was unable to attend. Mr. Leathers then presented awards to members of Cub Scouts, a moment eagerly awaited by the Cub Scouts of each Den.

In closing Paul Hancock led the group in singing "Goodnight, Cub Scouts."

Scoutmaster Gerner extends a special "thanks" to the Boy Scouts of Troop 33 who assisted in serving the meal.

Two New Faculty Members At College

Mrs. Cheryl Alexander is the new Chairman of the Art Department, replacing Mrs. Glen Bromley who resigned at semester. Mrs. Alexander is a 1965 graduate from West Texas State University, and has been working as a graduate assistant there since that time. She will complete work on a Master of Art Education this summer. Following her graduation, she plans to make a trip to Germany to take additional art courses.

In addition to her present teaching schedule, Mrs. Alexander also teaches Arts and Crafts at the Y.M.C.A. on Saturdays.

Her husband, Larry, is a senior at West Texas State University, majoring in International Relations.

Mrs. Inez Lawrence is currently acting as interim Choral instructor at Clarendon College while Mrs. Mary Joy Knorrp is on leave of absence. Mrs. Lawrence attended West Texas State University and Baylor University as well as summer seminars of choral techniques. She has worked under private instructors in the applied fields of piano, voice, and violin.

Mrs. Lawrence has worked as Music and Educational Director in Baptist Churches over the area, specializing in youth choirs. She is currently serving as Music Director at the First Baptist Church in Clarendon, which carries a full music program consisting of five choir organizations.

Mrs. Lawrence is the wife of Rev. W. R. Lawrence, pastor of the First Baptist Church in Clarendon, who is currently teaching Bible at Clarendon College.

FIRE DESTROYS FARM HOME TUESDAY MORNING

Fire of undetermined origin destroyed the farm home occupied by Mr. and Mrs. Roy Lee Helms and family Tuesday morning. There was no one home at the time. It was thought that the blaze started in a storage house directly northeast of the home and spread to the dwelling. Only a very small part of the furnishings were saved.

Record Enrollment For Spring Semester At Clarendon College

Registration for the spring semester at Clarendon College closed Wednesday, February 8, with a record enrollment of 223 students. The final enrollment figure for last spring was 186, resulting in an increase of almost 20% for the 1967 semester. The enrollment figure includes 152 male students and 71 female students. A classification breakdown shows 133 freshmen, 68 sophomores, and 22 unclassified students. A total of 51 students enrolled for the spring semester who were not enrolled during the fall.

Enrollment records have been broken each year at Clarendon College since 1962. A continued steady growth is in prospect as the college begins construction in the near future on its new campus and facilities.

JAYCEES ELECT DIRECTORS

The Clarendon Jaycees held elections for directors Wednesday night at the Jaycee room in the Elizabeth Stedens Building. Five Jaycees, Gary Gerdes, Glenn Wallace, Delbert Robertson, Gene White, and Bright Newhouse, were elected to two year terms to fill the vacancies on the board and they will be installed at the annual Jaycee-Jaycee-Elte Banquet which is to be held at the High School Cafeteria on March 18th.

Other board members are Bob Bell, Duane Nichols, Owen Johnson, and Charles Vaughn. The nine directors will be running for five officer positions the next two weeks and the President, Vice-President, Secretary, Treasurer, and Inter-Club Director will be elected at the regular meeting, Wednesday night, February 22nd.

MARCH 1 IS DEADLINE TO FILE FOR SCHOOL TRUSTEE

Election time is drawing near and March 1 is the deadline for anyone wishing to file for a position on the public school board, which is 30 days prior to the election date of April 1st.

Both incumbents, Steve Fedric and James McAnear have already filed as candidates for re-election.

Anyone wishing to become a candidate may file at the School Business office prior to the above mentioned date.

CC Scholarship And Loan Fund Available

In addition to state and federal assistance, students at Clarendon College have access to private funds drawn from the college Scholarship and Loan account. This is a relatively new and rapidly expanding service which Clarendon College is able to offer because of the generosity of various individuals, business firms and civic organizations. These are people who are interested in furthering the educational opportunities of students who might be denied the advantage of a college education because of financial problems. Often these problems are temporary in nature. A loan to cover the cost of books, or a scholarship to help with tuition will enable the recipient to meet the initial enrollment cost at a crucial moment when he might otherwise be forced to postpone or abandon plans for college.

Many contributors prefer to give assistance to designated students in whom they are particularly interested. Others contribute directly to the Scholarship and Loan Fund.

Six students have received such assistance this year, either in the form of a gift or a loan, the needs of each individual being determined by the office of the Dean.

Recent contributors include: WSCS of the Clarendon Methodist Church, Clarendon Jaycees and Jaycee-ettes, Methodist Student Fund, Mrs. E. S. Ballew, Mrs. C. M. Lowry, Harry Cooper, and Mrs. Clara Gillham.

Donations of any amount are welcomed, and each contributor will be recognized as a friend and supporter of education.

A CLEAN BREAK WITH THE PAST

"It meets with total-family approval," is what the Jack Rogers family of Abilene say. Mr. and Mrs. Rogers, Jim and Jenny live in over 1500 square feet of total electric GOLD MEDALLION comfort, and they like it all. "We like electric baseboard heating because it's quiet," Mrs. Rogers says. "It's controlled heat from room to room. We like to turn off the heat in the bedrooms at night."

The cooling, lighting and extra outlets add conveniences, too. "And we like electric water heating because we're never out of hot water," Mrs. Rogers says. "My electric range is easy to clean, and it doesn't black-up my pans."

Operating cost is only \$21.53 per month average—thanks to WTU's low 1¢ winter heating rate.

Why not step up to total electric living and find out what you have to say about it!

Coffee And Gadget Shower Honors Miss Dolfia Vallance

Miss Dolfia Vallance, bride-elect of Billy Frank Hearn, was honoree at a coffee and gadget shower in the home of Mrs. Ray Palmer Saturday morning, February 11, at 10 o'clock. Mrs. C. L. Benson was co-hostess.

Guests visited informally on arrival. Refreshments of miniature sandwiches, dainty sweet rolls, chips and dip, coffee, and Cokes were served from a table laid with a linen cutwork cloth. Highlighting the table was a Valentine tree with small kitchen gadgets hanging from its limbs.

After the arrival of all the guests, Miss Vallance opened her attractively wrapped gifts. Several mysteriously wrapped packages bearing cleverly written notes arrived during this time and created a great deal of interest. The Valentine motif was carried out in the wrapping of many of these gifts.

Unusual corsages using pieces of flatware and white frenched carnations were worn by Miss Vallance, her mother, Mrs. Dick Vallance, and Mrs. Charlie Hearn. Many lovely and useful gifts were received by the honoree.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

In Gov. John Connally's "state of the state" message there was enough grist to keep the legislative mill running all of its 140 days.

His proposals drew favorable comments from some, yes-and-no from others, and may-be so attitudes from other legislators. Their reactions indicate that Connally's recommendations will be debated extensively during the months ahead.

Included in his wide range message were:

CONSTITUTIONAL REVISION — He suggested that the Legislature ask the people at a special election in September whether they want to elect 450 people, three from each of House of Representatives district, to form a constitutional convention and bring back a new constitution for a vote by the people. A commission of 25 members, of which the governor would name 10 and Speaker Ben Barnes, Lt. Gov. Preston Smith and Chief Justice Robert W. Calvert would name five each, would serve as the staff for the constitutional convention. A vote in 1968 could be possible, under Connally's timetable.

ELECTION LAWS — He recommended a strict law for registering to vote the first time but easier thereafter.

ANNUAL LEGISLATIVE SESSIONS — Connally renewed the proposal for sessions of the Legislature every year, with the even-year sessions limited to budget, making and emergency proposals from the governor. Trying to decide this spring what money is needed for state agency spending through August 1969, is too difficult, he declared.

FOUR YEARS — Connally renewed his request for four-year terms for himself and other state

officials, despite the voters' rejection of that plan in 1965.

STATE PARKS — He gave details on his proposal for a vote by the people this fall on issuance of \$75,000,000 in revenue bonds to finance an elaborate system of state park expansion. Most of the money would be used to buy land before its price goes up. An admission fee of \$1 per car to all state parks would retire the bond issue, he said.

AGRICULTURE — Connally said agriculture is important to Texas, but it is in trouble. The state is spending \$41,000,000 each two years on 15 different agencies. He said he will propose reorganization later to provide coordination and cooperation of efforts to aid agriculture.

WATER — Also recommended was passage of a bill to adjudicate water rights by administrative procedures, through the Texas Water Rights Commission, rather than the more expensive route of going through the courts. He said more water rights are granted or claimed than there is actually surface water available. This will lead to costly fights when use comes close to supply, hence he proposed the plan advocated by the State Bar to settle the arguments now. He also advocated reorganization, strengthening and financing of the Texas Water Pollution Control Board. This is to put a stop to water pollution, plus a program of \$4,000,000 for planning regional waste treatment plants, and grants of \$12,000,000 a year to cities and river authorities for waste-water treatment facilities, dove-tailing with federal grant programs.

BANKING — The governor drew quick fire from financial conservatives when he advocated that branch banks be legalized by

a vote of the people in the four biggest counties—Harris, Dallas, Bexar and Tarrant. He said the many small banks in these counties simply cannot gather the money to make the size of loans required by modern Texas industry. So he wants the big-city banks to be allowed to have branches, instead of independent banks, in all parts of the four big counties.

LABOR — Connally endorsed some of organized labor's goals—higher unemployment and workmen's compensation payments, and an industrial safety law. He pointed out that more people

are hurt on the job each year — 201,000 — than on highways — 186,000. Death rate in Texas factories is nearly double the average rate for the other nine major industrial states. So he proposed that the Bureau of Labor statistics be given the job of promulgating and enforcing industrial safety rules.

FINE ARTS — He suggested financing and permanent status for the Texas Fine Arts Commission set up in 1965 to preserve and promote fine arts in Texas, headed by John Ben Shepperd of Odessa.

INTEREST RATES — State

Finance Commission has had a committee working up a consumer finance code. Connally gave it general endorsement, but said he will have detailed recommendations. Report will allow banks to go into the small-loan business, with higher interest rates than the traditional 10 per cent. It will also propose regulation of automobile dealers, department stores, appliance finance companies, and others who charge people for use of money. At present, only those who lend less than \$1,500 at a time for more than 10 per cent, are under state regulation.

TRAFFIC SAFETY — He wants more men for the Highway Patrol at higher pay; driver education to be made available for all junior high schools; 18-year-old minimum driving age without driver education, upon which licenses may be obtained at 16; helmet requirements for motorcycle riders; medical exams to remove unsafe drivers from highways; new tests for all drivers every four years; 12-month license suspension for those convicted of major traffic offenses; mandatory suspension for driving while intoxicated; and stronger motor vehicle inspection laws.

James Waldrop's "Spatanga Flat" will bring back memories to folks who either live or have lived at Brice. The author lived there and went to the red school house, which by the way was not so little for a country schoolhouse. Quoting: "Spatanga Flat" is one of the most authentic and colorful books ever to be written about folks of the Texas Panhandle. Many poignant memories will be enjoyed as the reader shares the adventurous lives of Darr Jordan and Jody Pengrafter as they grow up through the dusty depression and then as soldiers in the war against Japan. It seems that at one time the Brice community was called Brice Flat or Flats.

LIBRARY NOTES EDITH BARNES A memorial gift has been given to the library to be dedicated to the memory of Miss Pamela Hicks. The Pathfinder Club has given the Library their yearly check. Books have already been ordered with it. It is hoped that the readers from the library appreciate the fact that these yearly checks have bought many many books for

their reading pleasure over the years. Again thank you Pathfinders.

Our library friends still keep us well supplied with paper backs. These two have just about kept the library in these for years. And if you don't think buying paper backs can run into money go buy a few.

Readers who read four or five books every two weeks know that the library does not have the kind of money it would take to buy that many even if there were that many published every other week. As a matter of fact all of the fiction that has been bought in the last several months, in spite of critical acclaims and being on the best seller lists, has not been read, rather the books have not been finished. There is no point in buying books no matter how good they are supposed to be if they are not going to be read.

Benjamin Capp's books will probably not start any big fires in the literary world but our readers are checking them out and reading them.

The other day a salesman was talking about a certain price reduction sale. He closed out with the words; "And the more you spend the more you will save. This sounds a bit like Great Society spend yourself rich talk."

Last week my littlest grandson had a bad case of the ear ache and had to be taken to the doctor. His little playmate wasn't taking too well to the fact that nothing of importance was happening to him at the moment. He remarked "Once I had the ear ache, in my ear."

The thought behind this bill is that the most effective job trainer in the Nation has always been the free enterprise economy. Business and labor working together have consistently been able to develop sound training programs, superior to inefficient government programs such as the Job Corps.

The Human Investment Act offers employers a 10 per cent tax credit toward certain expenses of programs designed to train prospective employees for jobs with the company or re-train current employees for more demanding jobs.

More than 120 other members of the House have introduced similar bills. With this great number of Representatives already supporting the idea I am hopeful we can pass the bill and get rid of the Job Corps as soon as possible.

Along the same lines, during the campaign I talked about giving property owners a credit on their income tax for local taxes paid. The logic behind this being that these local governments could then raise their taxes by the amount of the credit in their community and perform the needed services without grants from Washington.

However, the majority of the members of Congress seem to have the opinion that only the Federal Government knows how to collect and distribute tax money. These same members also want to "equalize" by taking money collected in one community or state and giving it to other states and communities.

It appears that the best thing we can hope for this session to start getting decision-making

powers back to local governments is a "tax-sharing plan introduced by several Republicans in the House and Senate. This is possibly a step in the right direction to decentralize the handling of our tax money but is a long way from what needs to be done.

The "tax-sharing" proposal simply means the Federal Government would return a flat percentage of the taxes collected within each state to that state with no strings attached. I question the wisdom of this plan when the Federal Government could simply reduce taxes by the amount they could afford to return to the states. Why bring the money to Washington, take out a handling charge, and then send it back to the states? The answer is simple. It goes back to those members who believe in the old socialist theory of redistribution of the

wealth. Under the present plan the 17 poorest states would receive supplementary grants. The 33 richest states would have to contribute to a "kitty" to give these 17 states something extra. I just don't consider this fair to the residents of the other 33 states.

However, I believe this tax-sharing program is an improvement over the Great Society programs which increase Federal controls and are designed to destroy any incentive one might have to accumulate any property or savings for the future of himself or his children.

Until next week, best wishes from your congressman, Bob Price.

NEWS FROM

Congressman Bob Price

18th District, Texas

I was very happy to introduce my third bill of the session on February 2. It was given the number House Resolution 4655 and is entitled the Human Investment Act. During the campaign I suggested several ways in which the Federal Government could give some powers back to local governments and to individuals. One suggestion I made was a tax credit to industry for training workers. This is the Human Investment Act.

BULLDOG KENNEL

COMMENTS FROM THE COACH'S CORNER

After a bad mauling at the hands of Cameron, 88-60, and Howard County, 88-64, the Bulldogs dug in and pushed Lubbock Christian College all over Bulldog Fieldhouse Monday night. Scoring was fairly evenly matched during the first half, but the Bulldogs hit their pace in the second half and the hapless Chaparrals were on the run the rest of the period.

This was an important contest for the Bulldogs. In addition to being their last home game for the season, it brought their conference standing to a 5-5 record, guaranteeing an all-time high in conference standing since the Western Athletic Conference was organized in 1960.

Harry Cannon had another good night, scoring 26 points and displaying a good floor game. Mike Barrera played a fine game, scoring 22 points and grabbing 12 rebounds. Rick Vidaurri scored 14 points and tucked in 10 rebounds.

The Bulldogs have four more road trips for conference and one non-conference. We go to Borger against Frank Phillips next Tuesday night and finish up the season the last of the month.

There is an outside chance that we will play in the Region Five Tournament in Amarillo on March 2, 3, and 4. This will give the Bulldogs a good opportunity to gain additional experience.

The Athletic Department appreciates the encouragement and support which area fans have given us this year. We are building toward a good team next year. With the experience of our returning sophomore boys, augmented by new freshman talent, we should build a fine team for the 1967-68 season.

This paper was taken from a picture belonging to Mrs. Bingham's parents, Mr. and Mrs. W. W. Rudd, and had been sent them soon after they moved to Gainsville, Texas from Tennessee and Alabama.
