Before Vacant Lot East of Post Office After
Girl Scout Troop 160 had a real busy day last Friday. First they enjoyed a hamburger cook-out at the City Park and following...the work began. As their "Operation Sparkle" project they took on the job of cleaning up the lot east of the Post Office and it was a difficult task with the high wind. The lot looked real good when they finished. Operation Sparkle is sponsored by the Girl Scout Council in order that each troop might clean up a sore spot in the community as a service project.
This is Girl Scout week and as a beginning of the observance, the troop attended Worship Services Sunday at the First Methodist Church. Girl Scout Week displays may be seen in the windows at Saye's.

FARM NEWS

from County ASCS Committee

PAYMENT REDUCTION FOR DIVERTING BELOW AVERAGE LAND

For annual programs, payments for the farm may be reduced where the County Committee determines that the average productivity of the acreage diverted, otherwise eligible, is substantially less than the average productivity of the cropland which would normally be devoted to the crop. This is most important, so be sure to remember this when you choose the acreage you will designate as diverted acres. Your payment could be affected.

SIGNUP

Friday, March 17 is the final date to sign up in the 1967 Cotton, Feed Grain, and Wheat programs. Those of you who have signed up have been sent reminders but we want to remind you again of the final date.

We would like to thank you for your patience during the sign-up rush. As usual, you have all been very kind and helpful.

Advance payments are being made as soon as possible after signatures and other needed information is obtained.

C.A.P.

To date, we have had 14 Cropland Adjustment Program Agreements signed, making a total of 32 agreements.

RELEASED AND REAPPORTIONED COTTON

Friday, March 17, is the final date to release cotton and to make requests for additional cotton acreage.

If you have not met our new clerks, we would like for you to do so. They are Vera Tucker, Nita Tyler and John Wayne Stepp. We are happy to have them working with us.

Funeral Services Held For Mrs. Belle Davis

Funeral services for Mrs. Belle Mary Davis, age 85, mother of Mrs. Carrie Pool, were held at 2 p.m. Sunday, March 12, 1967 in the First Methodist Church of Fletcher, Oklahoma.

Mrs. Davis died at 3:20 a.m. Saturday in Adair Hospital. She was born on June 20, 1881 at Prairie Grove, Arkansas and was married to William Henry Davis on February 13, 1900 at Engles, Oklahoma. Mr. Davis died December 22, 1944. Mrs. Davis has made her home with her daughter Mrs. Carrie Pool for the past 18 years. She was a member of the First Methodist Church of Clarendon.

Survivors include three daughters, Mrs. Carrie Pool of Clarendon, Mrs. Lola Middleton of Amarillo, Mrs. Marie Anderson of Fletcher, Oklahoma; one son, Alva H. Davis of Amarillo; one sister, Mrs. Carrie Wilkerson of Ft. Worth; two brothers, Steve Sanders of Elgin, Oklahoma, Floyd Sanders of Fletcher, Oklahoma; six grandchildren and six great grandchildren. Local arrangements were by Murphy Funeral Home.

FUNERAL SERVICES HELD FOR HEDLEY RESIDENT

Funeral services for Charlie Nathan Shaw, 91, were held Sunday afternoon in the First Methodist Church in Hedley with the Rev. Cecil Guthrie, pastor, officiating. Burial was in Rowe Cemetery.

Mr. Shaw, a resident of Hedley for 57 years, died Friday morning in an Amarillo convalescent home. He was born in Mansfield and was a member of Hedley Methodist Church.

Survivors include sons, Marion, Jasper, and R. A. all of Hedley, five grandchildren, and five great grandchildren.

Easter Holidays Announced For Public Schools And College

Announcement was made this week by K. D. Vaughan, Supt. of Public Schools and President of the college, that both the public schools and college would take a full week for the Easter Holidays.

Classes will be dismissed on Friday, March 24th at 3 p.m. and will be resumed on Monday, April 3rd at 9 a.m.

This announcement is being made so residents of the area, desiring to travel a distance, may make their plans in advance.

The Gipson Evangelistic Party of Springfield, Colorado will begin an Easter Crusade here on March 20, at 7:30 p.m. at the Assembly of God Church. Meetings will continue nightly at the same hour.

The Assembly of God Church, 5th & McClellan Streets, cordially invites everyone to hear the talented music and singing of this family group. Pastor is R. L. Lockwood.

E. A. Nivens Of Hedley Dies Sunday

Ernest Nivens, 75, of Hedley died Sunday at his home. Funeral services were held at the Church of Christ at Lakeview Tuesday afternoon with Bright Newhouse of Clarendon and Tom Anderson of Memphis officiating. Burial was in Union Hill Cemetery at Lakeview.

Mr. Nivens had lived in Hedley for two years. He had previously been a resident of Hall County for sixty years.

Surviving are his wife, a daughter, Mrs. Leon Kennedy of Hedley; sons, Jack of Albuquerque, and R. L. of Hedley; brothers, Henry of Hedley, Fred of Estelline; seven grandchildren and five great grandchildren.

CC CHOIR & DRAMA TOUR

Members of the college choir and drama class were on tour this week, presenting programs in area high schools. Approximately forty choir and drama students and their instructors entertained audiences in Estelline, Childress, Paducah, and Matador on Monday and in McLean, Groom, Claude and Panhandle Tuesday.

The thirty voice choir, performing under the direction of Mrs. Inez Lawrence with Mrs. Billie Clinton at the piano presented a concert of miscellaneous themes: Music of Broadway; Music of Love; Music of Rhythm; Music of Spirit.

Eleven members of the drama class, directed by Mrs. Norma Selvidge, presented a one-act play, "Nothing to Destroy", by Cora Montgomery. The theme of the play was the conflict in today's world between Communism and Democracy. One more tour is being planned for a later date.

Deadline Near For Vehicle Inspection

The director of the Texas Department of Public Safety reminded motorists today that only six weeks remain before enforcement begins on the 1967 vehicle inspection stickers.

Col. Homer Garrison, Jr. DPS Director, said that the law allows for no extension of the April 15 deadline and urged drivers to have their vehicles inspected before the last minute lines begin forming.

Garrison pointed out that some two and one-quarter million vehicles in Texas remain to be inspected in order to comply with state law. This amounts to approximately 14 vehicles per working day for each of the 5,000 official inspection stations.

"Undoubtedly", Garrison stated, "many motorists will wait until the last day, and it may be very difficult to find an inspection station that is not swamped with late-comers."

"In order to secure an orderly flow of the remaining uninspected vehicles through the inspection stations we would urge each motorist to have the inspection attended to as soon as possible. This can easily be taken care of during a routine visit to an authorized neighborhood inspection station."

COLLEGE CHOIR TO PRESENT EASTER PROGRAM

The thirty-voice college choir under the direction of Mrs. Inez Lawrence with Mrs. Billie Clinton as pianist, will present a program in the college auditorium on Monday, March 20, at 10:15 a.m. The theme of the program will be the resurrection story and will include the perennial favorites, "The Holy City" and "The Palms." The public is extended a cordial invitation to attend the concert.

AMARILLO SYMPHONY AND CHORUS TO PRESENT SEASON'S LAST CONCERT

The Amarillo Symphony and Symphony Chorus under the direction of Dr. Tom Hobstadt will present their last concert of the '67-'68 season March 21 at 8 p.m. in the Amarillo Auditorium. The program will feature Metropolitan Opera soprano Gianna D'Angelo who will perform with the symphony and chorus the "Gloria." Other selections will include the opening number, "William Tell Overture," and "Strauss Waltzes."

BIRTHDAY VISITORS

Mr. and Mrs. Loyd Brown, formerly of Hugo, Okla. and present residents of Clarendon, were hosts for a family gathering. The occasion was Mr. Brown's birthday. Visiting were his sisters, Mrs. Kate Bush, Mrs. Nan Potter, and Mrs. Adrian Madison, all of Amarillo; also Mr. and Mrs. Paul Brown Potter and children of Borger and Mr. and Mrs. Dick Madison and children of Amarillo.

Central American Student Visiting On Clarendon Campus

Sr. Manuel Antonio Santiago from Monjah Jalapa Guatemala, Central America, has been a frequent visitor on the CC campus. Manuel is twenty years of age and is a student at the Institute C.A.P.V. Jalapa, majoring in teacher education. The bishop at his college is a friend of Father Juan Jose Magana, the local Catholic priest, who was instrumental in bringing Manuel to the United States and Clarendon. He is currently residing with the Mike McCullys.

Manuel is spending five months in this country at his own expense in order to learn the English language and more about the customs and culture of North America. He visits the Spanish classes at the college quite frequently. "Manuel is a most interesting and intelligent young man", states Mrs. Dixie Howard, foreign language instructor. "My students and I are always pleased when he stops by. We attempt to converse with him in our classroom type of Spanish, and are trying to help him in the task of mastering the English language. We only hope that he enjoys being here as much as we enjoy having him."

US 287 CARAVAN TO VISIT CLARENDON

The 1967 Caravan sponsored by the US Highway 287 Association will leave on a south bound trip from Amarillo Wednesday, March 29 and will arrive in Clarendon that same morning about 9:45 for a fifteen minute stop.

About 35 cars will be in the caravan with individuals wearing red jackets and black top hats. The group will have a loud speaker and will be advertising and publicizing our fine highway system, places to see and things to do in our states, cities, and area.

CLARENDON COLLEGE TO PARTICIPATE IN SHAMROCK FESTIVAL

Clarendon College has entered a float in the annual St. Patrick's Day parade at Shamrock on March 17th. Mrs. Alexander's art students are preparing the float on which Dogett Cheerleaders, Nina Snyder, Jane Ragsdale, Sue Hill and Regina Borden, will ride. Mickey Thomas, Student Senate president, will chauffeur the girls.

HOSPITAL NOTES

Annual Red Cross Drive To Be Launched Saturday, March 18

The American Red Cross in Donley County will launch its campaign for funds to finance its programs of service in the 1967-68 fiscal year on Saturday, March 18th. President Johnson has proclaimed March as Red Cross Month nationwide.

Chairman of the Red Cross drive will be Mrs. Edna Smith. Mrs. Smith announced that the Donley County quota is \$1,312. This is an increase over last year, but it has been necessitated by greatly increased demands for service to the military establishment by both the national Red Cross organization and its chapters, and by heavy expenditures for disaster relief operations in the last two years. Mrs. Smith further states, "If the Red Cross here is to contribute its fair share to the nation-wide and world-wide programs of the organization, and continue to provide its services of welfare, health and safety in our County, our fund requirement must be met."

The increasing demands on the Red Cross for services to the military, make it more imperative than ever that the Red Cross in Donley County reach its fund drive now beginning. The American Red Cross Staff in South Viet Nam alone has passed the 250 mark. Whether we sanction the war or not does not justify withholding services from the boys who risk their lives daily for us.

In conclusion Mrs. Smith added, "Let's let the boys know we are helping in the only way possible by reaching our goal."

GOODNIGHT BAPTIST CHURCH TO HOLD REVIVAL MEETING

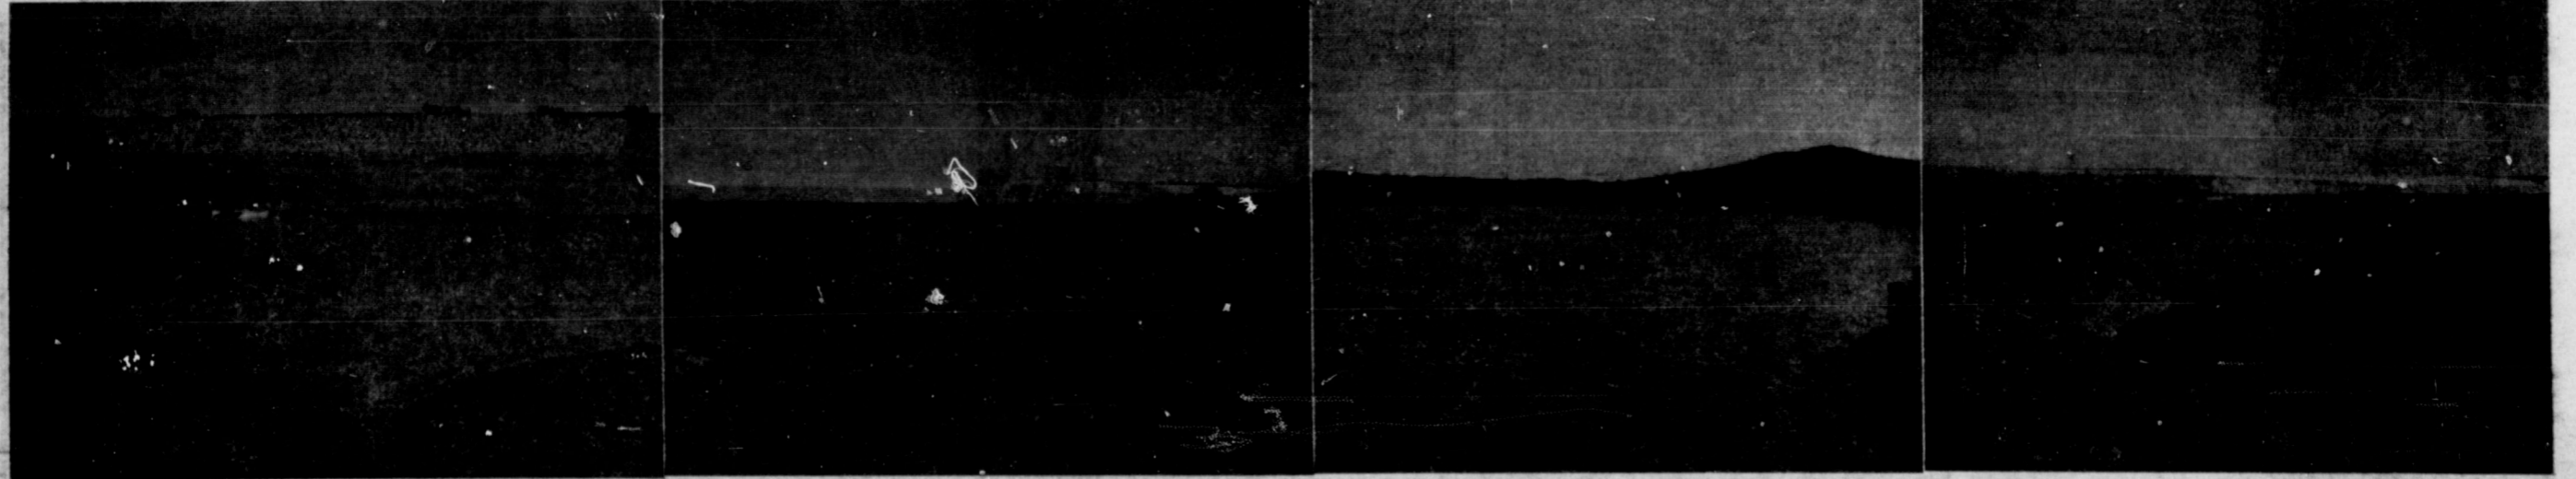

Rev. O. C. Edwards, pastor of the Goodnight Baptist Church, has announced that a revival will be held at the church beginning Wednesday evening, March 29. Rev. Chester O'Brian, pastor of Paramount Baptist Church in Amarillo, will be preaching. Music will be under the direction of Keneth Bennett, Music Director at the First Baptist Church in Panhandle. Youth Choirs of the Panhandle Baptist Church and their pianist will assist in the services.

The public is extended a cordial invitation to attend.

NIECE DIES IN PAMPA

Katherine Mosley Rose, daughter of Mrs. Vestal Mosley and niece of Mrs. Ruby Bromley and Chester Talley of Clarendon, Winfield Mosley of Hedley, and R. H. Mosley of Amarillo, died Saturday. Funeral services were held at the First Baptist Church in Pampa Monday afternoon.

QUALITY JOB PRINTING AT THE LEADER

Here's proof there is plenty of water for boating and skiing. First photo shows motor boat on the Greenbelt Reservoir. The water level of the lake is rising daily with between 8 and 9 million gallons of spring water pouring in daily from side creeks. R. N. Adams Construction Co. report shows the dam is 92.10% complete with only 46.96% of time used to date. The filtration plant is 57.79% complete with 64.82% of allotted time used. The report is that the plant will be ready for testing May 15th and after a 30 day testing period, the water will be ready to go into the pipeline. The pipeline as of a week ago, was 93% complete with 83% of working time used. Second photo was taken from the southwest side of the lake and shows the dam in the background and how high the water has risen around the big cottonwood trees out in the lake. Third photo shows the expanse of water extending south up Kelly Creek and the last photo shows the main river channel and the dam in the background. The boat on the lake is just a white speck in the center of the photo.

Washington Report

From Congressman
BOB PRICE 11TH DISTRICT, TEXAS

1222 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. • 205-2704

It was good to return to the district the week end of February 24-26 and visit with many Panhandle residents. The meetings with our agricultural advisory committees in Memphis and Dimmitt were very helpful in giving me a better idea of the wishes and needs of farmers and ranchers in the southern half of the 18th district. I hope to get back soon to meet with other committees being set up to advise me on all phases of Panhandle business and professional life.

Members of the agriculture advisory committee in the southeastern portion of the district include: Lee Schriver, Turkey; J. J. McDaniel and Wayne Hutcherson, Memphis; J. C. Patman, Wellington; Kenneth Ellis, Kirkland; Loyd Mayes, Paducah; O. P. Stark and M. C. Jones, Quitaque; Clarence Zybach, Briscoe; and Henry Moore, Hedley.

In the southwestern quarter of the district I have asked the following men to serve: Doyce Turner and Clarence Mason, Muleshoe; Carl Bruegel and Charles Frye, Dimmitt; Deniz Pulliam and David Brumley, Hereford; Robert Meinecke, Olton; Harold Allison, Earth; Robert Jacobson, Adrian; Lynn Harwell, Vega; Bob Wilson, Bovina; Gilbert Kaltwasser, Farwell; Ben Tye, Kress; and Fowler McDaniel, Tulia.

I have found that much of a

congressman's time here in Washington is spent trying to get the various departments in the executive branch to administer laws as Congress intended when they were passed. On February 20, I asked Secretary of Agriculture Freeman to slow down beef imports in order to raise the prices American farmers and ranchers are getting for their cattle.

I have written Secretary of State Dean Rusk and asked that he reconsider his approval of the sale of government-subsidized vegetable oil to Communist Yugoslavia. I believe this to be illegal under terms of the last agricultural appropriations act which prohibits such sales to countries who are trading with North Vietnam. The Yugoslav government says it is private citizens aiding the North Vietnamese, however, in a Communist country such as Yugoslavia they could not do so without government sanction.

Because our area is one of the largest oil producing areas of the nation I have vigorously protested Secretary of Interior Udall's threat to increase oil imports to drive gasoline prices down. I would like 24 cent gasoline just as well as anyone but not if it means the petroleum industry is forced to lay-off workers because they are losing money.

As I have stated in the past, there is much more discussion

here in Washington at the present time about Federal government tax sharing with the states. It has been my position that the Federal government should reduce taxes instead of collecting them and sending them back to the states. In this regard, I will join with Senator John Tower in introducing a bill to create a 33-member Commission on State Revenue Assistance. If approved, this bill would urge the commission to determine the feasibility of the Federal government relinquishing certain taxes to the states.

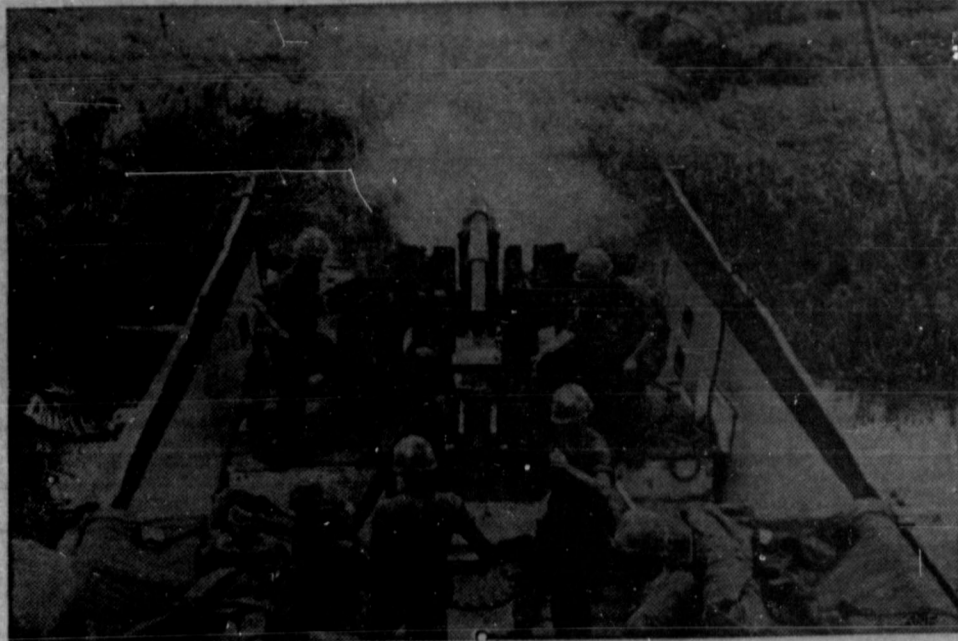

I will be discussing these plans more in subsequent reports to you. Until next week, best regards from your Congressman, Bob Price.

retired pastor still preaching. He remarked that as he grew older there were three things that bothered his memory; he couldn't remember faces, he could not remember places, and he couldn't remember the third thing he couldn't remember. This fits me more and more...

One fellow was leaving the Doctor's office in a bit of a huff: "If my health or his treatment don't improve in the next week, I'm changing our ways."

It's mighty hard to have someone trying to force their ideas off on you when you already have some real good ones that you are just bustin' to try out—some that you thought up your own self...

Heard of the old backwoods preacher that could neither read nor write. But his wife read to him and he for the most part preached up a storm. Kneeling to pray he said; "Thank you Lord, that I am just a poor ignorant country preacher, and Lord make me more IGNORANTER than I am." I'll bet in his heart he meant well, and the Lord understood.

NEW TRUDAN 2 IS HERE!

Trudan 2, Northrup King's new true hybrid sudangrass, is an exciting forage. Unlike sorghum-sudangrass hybrids, Trudan 2 produces fast growth without coarseness... the finest-stemmed, highly palatable plant yields high TDN. Trudan 2 grows back fast with lower prussic acid content. Great for grazing, hay or haylage. Trudan 2 can mean more beef or milk per acre. In tonnage trials, Trudan 2 has out-yielded sorghum-sudangrass hybrids.

Order NEW Trudan 2 now. Supplies are limited.

FEARFUL REPORTS

Well Mr. Ledger called Fearful off his last assignment on Tuesday of last week. He told Fearful there was no need for him to find the student that was missing a lot of school for it was Gaylene Harman and she had just checked out of school.

But early Wednesday morning Mr. Ledger had to call on Fearful once again. All his teachers were complaining about one of his students that was about to drive them all crazy. Their main complaint was that this person never made bad grades no matter how hard they made their tests. Mr. Ledger begged Fearful to find this person in a hurry so that he could find out what illness could cause anyone to study that hard.

Fearful went right home and ate an extra large bowl of wheat germ for he knew Mr. Ledger was really concerned and he must work out this case in a hurry. After lunch, Fearful went right to work. He returned to the school and went from classroom to classroom looking for the "Brain". Fearful concentrated on the harder subjects such as Physics, English, Texas History, and Analytical Geometry, but he found some interference: some of the same boys were in all the classes.

Fearful knew he must try a different angle. That night Fearful started driving the streets

to find someone that was really burning the night oil. But as usual Fearful got lost and found himself on a country road near a ranch on the west side of Clarendon and discovered a white Corvair. Fearful started to ask the young couple how to get back to town but as he approached the car he recognized the signs of an argument and decided it best to leave.

After trying so hard, Fearful is ready to hand this case back to Mr. Ledger. But don't you sympathize with him enough to help Fearful solve the case so he won't have to admit to Mr. Ledger that he failed.

EDITORIAL

Do You Know This Type?
She's mod, not mad, but mod-way out and real gone mod.

In school, of course, she tones it down a bit. However, outside class, she is the miss with the most monstrous mod mania imaginable.

Her style of dress is pant-suit supplemented with giant buckled, square-toed slippers and zebra striped socks.

For a bit of change in mod attire, she dons a lace flounced blouse and Henry Moore-like reproductions on a hemp woven mini-skirt accompanied by a real vinyl jerkin. This entire scene is topped by a gypsy beret tinkling with spangles and she stands her ground in splotch colored boots.

Wild?
Definitely! Way out mod wild. But what will happen after the mod look fades?

*Will her hip huggers hold out if she gains two more ounces?

*Should that ironed straight hair atop her blue tinted head come to a sharp point for greater impact?

*Can her fingernails convert

into tiger paws with blood red claws to match?

*Who will create that essence of pungent gasoline and smog for her queen-size atomizer?

*Remember this chick is mod. She can wear anything anywhere.

Think do we have anyone that this description fits in our school? I certainly hope not. But the thing to remember is: Let's keep our fashions from going this way out. Mod is cookie and fun but let's not let our "Mods go Mad!"

ACTIVITY AT CHS

On Friday of last week a candid camera might have caught some funny expressions on the faces of students coming back to school for lunch. As they entered the front door they found a red carpet laid out for them. After inquiring further, they found that the carpet was being tested for wearability.

Those students who were overly enthusiastic after football and basketball are again busy with their Interscholastic events. Mrs. Grady would like for any other interested people to contact her for information concerning these events.

Although many eyes are raised when one mentions girl's track, one must accept this new addition to the athletic department. It has been reported that enthusiasm has picked up and the girls are really getting with it. Also some girls have been found down in the field house lifting weights. Imagine!

The new members of the National Honor Society received their official pins this last week.

CLASS NEWS

The Senior Class has decided on the dates for Kid Day and their Volley Ball Tournament. Kid Day will be May 5th and the tournament will be April 24, 25, 26, and 27.

A supposedly work meeting of the Juniors for the Banquet and prom turned out to be an eating party recently. You Juniors wouldn't want the Seniors to start to worry about the Junior-Senior Banquet would you?

THE ROVING EYE

"Which do you like best, blondes, brunettes, or redheads?"
"Makes no difference to me," replied the wise young man, "as long as they're girls."

SPRAY NOW FOR SCALE ON SHRUBS AND TREES

During the winter, while deciduous plants are in a dormant state, is a good time to control several plant pests, says County Agent Ronald Gooch. Spraying pecan trees and fruit orchards as well as ornamental trees and shrubs with dormant oils can often prevent severe damage from phylloxera (gall formers) and scale insects the following season. Control during the growing season is very difficult due to the hard waxy covering in scale insects and the protective gall of phylloxera. During the winter, these insects are generally in the egg stage and oils are effective as ovicides—are able to cause death to the egg.

There are two types of dormant oils on the market, concentrated emulsions and emulsible oils. Such terms as emulsible oils, miscible oils, and soluble oils are applied to emulsible oils. These oils usually consist of an oil in which one or more emulsifying agents have been dissolved. Emulsible oils usually contain from 95 to 99 percent oil. The concentrated emulsions usually contain from 80 to 90 percent oil by volume.

Careful attention should be paid to the selection and application of a dormant oil. Generally, heavier oils are more toxic to insects; however, they are also more toxic to plants. The more highly refined or purer an oil, the safer it is to the plant; also, the higher the cost of the oil.

Oils kill insects by completely enveloping them in a continuous film which interferes with respiration, thus suffocating the insect. Therefore, complete coverage of plants with a dormant oil spray is necessary in obtaining satisfactory control. Avoid excessive application as damage to the tree may result. Dormant oils should be applied when the temperature is between 40 and 60 degrees F. and free of freezing weather within 48 hours after application.

Dormant oils should not be allowed to get on the roots of trees. Dormant oils have reportedly damaged sugar and Japanese maple, beech, hickory, walnut and butternut trees.

Follow directions given on the

container label. For a list of recommended materials, rate of application and time of application please refer to L-245, Texas Guide for Controlling Insects and Diseases on Fruit and Nuts and L-199, Texas Guide for Controlling Insects on Ornamental Plants. These publications are available at the county agent's office.

Historical Program Presented At Pathfinder Club Meeting Friday

Pathfinder Club met at Patching Club House Friday afternoon for a regular meeting. Hostesses were Mrs. Lee Holland and Mrs. D. E. Leathers. Refreshments consisting of a salad, snacks, cookies, coffee or tea were served to eleven members and one guest.

A historical program titled "Knowledge of Clarendon" was presented by Mrs. Zella Noble. Mrs. Noble began her story with the arrival in the area of a Methodist minister, Louis Henry Carhart, who founded Old Clarendon across Salt Fork of Red River, and brought her listeners up to the present time. She told of the first Homestead established by a family named Bobbit. These people lived in a hut of cedar logs and adobe. She told of the first church and school house which was known as Allenstown Academy and though its duration was only a few months it did serve to designate the town as one of culture and refinement for this was the first school in the entire Panhandle.

In 1882, Donley County was organized by an act of the Fifteenth Legislature and Clarendon was designated the County Seat. Dr. J. D. Stocking was recognized as the first Physician to live and practice in Old Clarendon. Most families had moved to the present site of Clarendon by November 12, 1877 and for fourteen years there were two towns. The first Courthouse was built in New Clarendon in January 1889 and took in all of Block 4 which is west of the present Fred Chamberlain home. This was a frame structure. In 1902 Clarendon

was voted dry and two saloons and gambling houses were closed.

The first brick building was constructed in Clarendon in 1890. This was the First National Bank. The present courthouse was raised this same year. Mrs. Lena Antrobus taught the first subscription school with classes being held in a tent. In 1884 a school district was established and designated as District I.

It has been said that the town was named for Louis Carhart's wife but this has been disputed and other sources say the town was named for the English Earl of Clarendon.

These and many other interesting facts were brought out by Mrs. Noble, who in conclusion, stated that as we praise and reflect on the conditions under which our forefathers lived, the courage they exemplified and the high ideals embodied by them we rededicate ourselves to their purpose and strive to make this the Best city in the Panhandle.

TRIMROCK TOPS CLUB RECENTLY ORGANIZED

The Trimrock Tops Club has recently been organized in Clarendon. TOPS stands for Take Off Pounds Sensibly. The purpose of the club is to help and encourage each member to lose weight safely and keep it off.

Anyone who weighs 10 pounds or more is invited to attend. Meetings are held each Monday night at 7:30 p.m. in the Hospitality Room of the Farmers State Bank.

This week a total weight loss of 19½ pounds was recorded by the 6 members weighing in. Teenage girls are also invited to join us.

When washing windows, add a few drops of blue and kerosene to sudsy water. Rinse and polish with crumpled newspapers or a lint-free cloth.

GOOD NEIGHBORS CLUB

Bessie Helton entertained the Good Neighbors Club in her home Friday, March 10. A delicious covered dish lunch was enjoyed by eight members: Florence Harp, Tresa Hughes, Lida Warren, Carrah Mixon, Ruby Jordan, Emma Davis Rosa Bingham, and the hostess, Bessie Helton. Blanche Gray came in the afternoon. One visitor, Jewell Sickle was also present.

One quilt was quilted on. The next meeting will be with Tresa Hughes March 24. We will finish the quilt. Come and bring your covered dish.

Common Income Tax Questions-Answers

Q—Do I add the 6 percent tax surcharge mentioned by the President in his State of the Union address to what I owe on this year's return?

A—No, the surcharge must be approved by Congress before it becomes law.

Q—I started work on my '66 tax return and find the new withholding rates have left me overpaid. Is there anything I can do to reduce my withholding?

A—Yes. When the graduated withholding rates were adopted by Congress last year, provisions were made to allow additional withholding allowance to taxpayers with large itemized deductions. These allowances take into account the size of the taxpayers income and deductions as reported on 1966 tax returns as well as income deductions expected for 1967.

Procedures for claiming these allowances are outlined on Schedule A (Form W-4) available at local IRS offices. This schedule and a corrected W-4 must be filed with the taxpayer's employer who will make necessary withholding adjustments. These allowances cannot be claimed until you file your 1966 return.

Q—I just turned 65. Will my boss stop withholding Social Security taxes from my pay if I go on working?

A—The law requires the employer to withhold Social Security taxes on the first \$6,600 in wages paid each employee during the year. The age of the employee does not change this requirement.

Q—I support my daughter who was recently divorced. Can I claim her baby as a dependent?

A—You probably can if you provide more than half the baby's support. Check the dependency requirements listed on page 4 of the 1040 instruction booklet.

Q—There is one deduction I forgot to claim when I filed my 1965 return. Can I include it when I file this year?

A—No you can not. An amended return or claim Form 843 must be filed for 1965 to claim the deduction.

Q—Too much was withheld for Social Security tax as I held several jobs last year. Can I get this refunded or credited to any income tax I might owe?

A—Yes, you can. A special line has been added to Form 1040 where you can list excess Social Security tax withheld.

This is Line 19 on Page 1 of the 1040. If you had two or more employers, use it to list amounts in excess of \$277.20 withheld for Social Security taxes.

Q—I understand that the first \$100 in dividends is not taxable. Does that mean I don't have to list that on my return.

A—All dividends received should be reported on your return. Page 2 of Form 1040 has a line where you may take the exclusion you refer to. Note that this is \$100 for dividends of qualifying domestic corporations. On joint returns where both husband and wife receive dividends, each may exclude up to \$100 of such dividends.

Q—I moved and didn't get my 1040 tax package. What should I do?

A—Copies of forms and instructions are available at any local IRS office as well as at many banks and post offices.

Q—How should I make out my check for the balance of tax I owe?

A—Checks should be made out to the Internal Revenue service. Never send cash through the mail.

Use a check or money order.

Q—Do you need to have records of your medical bills, contributions and other items when you take the minimum standard deductions?

A—No you don't. The minimum standard deduction, like the 10% standard deduction, makes it unnecessary for taxpayers to itemize or substantiate deductions.

Q—Are state unemployment benefits taxable?

A—No they are not.

SMALL ENTERPRISE - BIG JOB

In an age when bigness seems to have become a necessity in government, and industry—in fact in virtually any activity you can name—it is gratifying to find one place where size is not necessary to success and has no relationship to quality of service nor the importance of the enterprise. That is the hometown community newspaper.

A national directory of weekly newspapers reports that there are more than 8,000 "hometown" newspapers in the country. These newspapers reach approximately 32 million homes. While metropolitan papers have been beset by circulation troubles, strikes and shutdowns, the smaller papers have been flourishing and enjoying steady circulation increases.

The thousands of smaller papers are a bulwark of independent thought. Without them, there would be no freedom of the press. There would be no record of community life, no reporting of important community events, no expression of editorial views or opinions that gradually crystallize into public sentiment on issues of the day.

In fact, without the thousands of editors to give it meaning, the institution of a free press would wither and die with it the freedom of the people. The local newspaper is a small enterprise that does a big job.

A Hedley couple and a couple from Pampa were very lucky Sunday night when the car above and the pick up collided almost head-on at the north end of the Greenbelt Dam where highway 287 is being rebuilt. The blockade was a confusing factor in the accident. Mr. and Mrs. James L. Baggett of Hedley were the occupants of the pickup and only received cuts and bruises. Mr. and Mrs. George H. Flaherty of Pampa, occupants of the car, received more serious cuts and bruises and were released from Adair Hospital Wednesday morning. Both vehicles were considered a total loss.

Last Rites In Memory Of Mrs. Eva Rachel Hall

Last rites in memory of Mrs. Eva Rachel Hall, 69, of Groom, Texas were held in the Church of Christ at Groom Sunday afternoon with Bill Blackstone, Minister, officiating. He was assisted by Roy Hannah of Amarillo. Interment was in Groom Cemetery with arrangements under the direction of Murphy Funeral Home of Clarendon.

Mrs. Hall, a nurse in Groom Memorial Hospital, died there Saturday morning after an illness of a week. She was born August 1, 1897 in Terrell, Oklahoma and was married to Robert L. Hall in Clarendon in 1915. The family moved to Groom in 1954 from Littlefield. She was a member of the Groom Church of Christ.

Surviving are a daughter, two sisters, four brothers, one grandson and two great grandchildren. Nephews served as honorary pallbearers.

ONE RURAL ACCIDENT IN COUNTY DURING FEB.

The Texas Highway Patrol investigated one accident on rural highways in Donley County during the month of February, according to Sergeant J. W. Wilson, Highway Patrol Supervisor of this area.

These crashes resulted in one person injured and an estimated property damage of \$18,400.00.

The rural accident summary for this county during the first two months of 1967 shows a total of 6 accidents resulting in 4 persons injured, and an estimated property damage of \$20,330.00.

Only one month remains for approximately 2,000,000 vehicles registered in Texas to secure the 1967 Safety Inspection Sticker. The period set by law for securing the 1967 sticker ends at midnight, April 15, 1967, and there can be no extension of that deadline. The Sergeant stated, "Any motorist whose vehicle bearing Texas license plates that does not display the 1967 inspection sticker after April 15 is subject to arrest by any Sheriff, Deputy Sheriff, City Policeman or any officer of the department of Public Safety and upon conviction will be subject to a fine not to exceed \$200.00.

CHECK HERDS FOR VITAMIN A DEFICIENCY

With this year's drought stricken pastures, cattlemen may begin noticing signs of vitamin A deficiency in their herds, says County Agricultural Agent Ronald Gooch.

Vitamin A deficiency in the early stages is characterized by night blindness. In later stages, cattle become less alert and lose their appetites. Watery eyes, swelling at the joints, rapid breathing and staggering are some more symptoms.

Many cattlemen have bulls with their herds now and are breeding for next year's calf crop. Vitamin A deficiency can seriously affect reproductive performances of cattle, according to some research reports.

In a Texas A&M University test, 35 bred yearling heifers were injected with Vitamin A. Thirty-five bred heifers were given no supplemental vitamin A.

From the 35 heifers injected with vitamin A, only one calf was lost at calving time and 28 cattle needed help calving.

In the group which received no supplemental vitamin A, 7 calves died at calving. Two of the heifers also died at calving time and 28 heifers needed help calving.

This test seems to indicate vitamin A does play an important role in calving although research results with vitamin A vary.

The dietary source of vitamin A is carotene, which comes from green vegetation. In dry years such as this one, or in dry regions, mother cows may be deprived of green vegetation for several months before the calf is born. This causes two conditions.

1. The vitamin A supply of the mother cow may be depleted, thus limiting her reproductive performance.

2. A limited supply of vitamin A in the newly born calf. This is worsened by the fact that there will be little vitamin A in the cow's milk since her supply of the vitamin is low.

Doses of synthetic vitamin A—either injected or fed in concentrates—would help both of these conditions, advises the county agent.

QUALITY JOB PRINTING AT THE LEADER

NO SUBSTITUTE FOR "IN PERSON"

In this modern age when more and more persons are dealt with as numbers rather than as human beings, the individual still has a place the mechanical brain cannot fill.

Commenting on the importance of maintaining individual relationship in business, Robert T. Person, president of the Public Service Company of Colorado, warns of some things the soulless electronic devices cannot do. He says: "As our technology advances, we must never be blinded by the glamour of sophisticated computers... and the countless other wonders which may soon be commonplace. Our business will be -- as it always has been -- based on the principal of people serving people. Indeed, this concept will become more important. Even today there are indications that people, in an increasingly mechanistic world, are placing higher and higher value on being treated as individuals -- as human beings -- not as a sequence of numbers in some vast computer memory."

In dealing with customers and employees no mechanical device can take the place of the "in person" approach - appreciation, friendship and understanding.

TEXAS INCREASING CATTLE NUMBERS

Texas has already started the build-up phase of the beef cattle cycle.

We are running slightly ahead of the nation which is in the tail end of the liquidation phase, according to Ed Uvacek, Extension livestock marketing specialist at Texas A&M University.

Uvacek said the cattle cycle is simply the changes on the total numbers of cattle and calves on farms as of the first of each year. The cycle is in two distinct parts, the build-up or increase in numbers, and the liquidation or decrease in numbers, he said.

He said the present cattle cycle was at its low in 1958 and the build-up took place for seven years, reaching a new record high in U. S. cattle numbers in 1965. But at the beginning of 1966, fewer head were reported in the nation -- indicating the beginning of the liquidation phase of the cycle.

Forecasts point to a slightly further reduction in cattle numbers this year with a possible build-up by 1968. This would mean a new cycle is starting nationally, he said.

Since Texas is already increasing in cattle numbers, this indicates Texas is past the liquidation phase and into the build-up, he said. The reason is that Texas cattlemen have taken less time to readjust their herd sizes.

The A&M specialist explained that the slaughter of cattle and calves follows fairly close to the cattle numbers cycle. Usually as numbers increase, slaughter becomes heavier, and cattle prices are pushed somewhat lower. Then, numbers tend to decrease, pushing prices somewhat higher, and so the cycle goes.

Cattlemen who can adjust their operation opposite to the national cattle cycle, as Texas cattlemen are now doing, should be able to capitalize on the extra profit potentials, he said.

Each \$1.00 from standing trees adds \$25.00 to Texas' economy through harvesting, manufacturing, construction, transportation, and marketing. These figures from the Texas Forestry Association emphasize Texas' Woodland Wealth.
