## Fire Department Celebrated Anniversary

The Clarendon Volunteer Fire Department celebrated their 85th anniversary on Sunday with an Open House at the Fire Hall. The Firemen and Firebelles opened the Fire Hall to the public and served cokes, cookies and gave out free balloons to all comers. Our Volunteer Fire Department, which consists of 41 firemen, is the oldest volunteer fire department in the Panhandle. The Fire Hall, which is the original City Hall built in 1918, has been newly remodeled with new carpet and paint. The Fire Hall consists of a Recreation Room with full kitchen facilities, a training center classroom, a restroom, a lounge area, offices and houses all the fire trucks and equipment. The Firemen took children on free rides on the 1927 Seagraves and the newer Pumper fire trucks. All three television stations from Amarillo covered the event and were very enthusiastic about our equipment and especially featured the Seagraves in their reports. The 1927 Seagraves was bought new and except for a new paint job is in original condition and still operates as a fire truck if needed. The Open House capped off the Fire Prevention Week activities which consisted of a play/demonstration the firemen put on for the grade school on Tuesday morning and the Poster Contest.

The Firebelles sponsored the annual Fire Prevention Poster contest. The winners were: Division I (Grades K thru 2nd) First Place: Emily Simpson-Kindergarten; Second Place: Lowell Ellerbrook-Second Grade; Third Place: Timmy McKinney-First Grade. Division II (Grades 3rd thru 5th) First Place: Mary E. Hodges-Fourth Grade; Second Place: Mark Howard-Third Grade; Third Place: Catrina Burrow-Fifth Grade. Division III (Grades 6th thru 8th) First Place: Julie Altman-Seventh Grade; Second Place: Jason Christopher-Sixth Grade; Third Place: Mandy Floyd-Seventh Grade. Division V (Special Education) First Place: Stella Jaramillo-Eighth Grade; Second Place: Ronnie Childress-Sixth Grade; Third Place: Candy Oliver-Fifth Grade. The first place winners received \$50 savings bonds which were donated by The First Bank & Trust; The Donley County State Bank; Bright Newhouse Insurance and Knorpp Insurance. The Firebelles want to say thanks all the children who entered the contest, and to the sponsors for their help. All of the posters were outstanding and they appreciate your participation.

Clarendon should be very proud of their fire department and we hope you all are around for at least another 85 years!

## Property Tax Bills

Donley County property owners should have received their 1989 property tax statements. They can be paid at any time from October through January of 1990. All Tax Entities participating in the Donley Appraisal District do offer early payment discounts: 3% discount if paid during October, 2% in November, 1% in December, net amount in January. A discount of 3% for these three months is equal to 12% annual discount rate!

Anyone who owns taxable property but has not received a tax bill covering that property should contact the Appraisal District in the Court House Annex. A duplicate or supplemental tax statement can be obtained. However, taxes are due whether a statement is received or not!

Your Appraisal District is contracted by all local Tax entities to assess and collect their taxes in order to save administrative costs. Your tax statement is a result of multiplying the assessed value of each property by the tax rate adopted by each Tax Entity with taxing jurisdiction.

An informative bulletin with further information is available, cost free, at your local Appraisal District office. The bulletin is published by your State property Tax Board and is entitled "Taxpayers Rights, Remedies, Responsibilities."

## Loans Being Accepted

Applications for emergency farm loans for losses caused by tornadoes, flooding, severe storms are being accepted at the Farmers Home Administration (FmHA) office, located in Clarendon, FmHA County Supervisor Debra G. Sanderson said today.

Donley County is one of several in Texas recently named by Secretary of Agriculture, Clayton Yeutter, as eligible for loans to cover part of actual production losses resulting from the tornadoes, flooding, and severe storms.

Mrs. Sanderson said farmers may be eligible for loans of up to 80 percent of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate is 4.5 percent.

"As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for a FmHa emergency loan," Mrs. Sanderson said. Farmers participating in the PIK or Federal Crop Insurance programs will have to figure in proceeds from those

programs in determining their loss.

"Applications for loans under this emergency designation will be accepted until May 1, 1990, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possibly over into the new farming season," Mrs. Sanderson said.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations or cooperatives in which U.S. Citizens hold a majority interest.

The FmHA office in Clarendon is open from 8:00 a.m. to 12:00 p.m. and 1:00 p.m. to 5:00 p.m. Monday through Friday.

## County Economy Stable

According to a report issued by the Comptroller of Public Accounts, Donley County Tax Receipts were up 1.15% over the comparable period a year ago. The state as a whole was up by 9.59%, but the results were widely varied from county to county. State figures also reflect the fact that the 1988 figures were off in many locales.

Among area counties there were mixed results. Armstrong County (Claude) was off by 2.32%. Briscoe County (Quitaque, Silverton) was down by 11.51%. Carson County was up by 12.71%, with White Deer at +28% and Panhandle at +5.03%. Childress was up 5.15% while Collingsworth County was down again by 4.40. Gray County was up by 4.57% with Lefors up 22.28%. Hall County was down 10.76%, with a 24.68% decline for Turkey and a -10.14% figure for Memphis. Hemphill (Canadian) was down 13.58%

Donley County's performance was not spectacular, but reflects the fact that the 1988 figures (the basis of comparison) were not down as much for Donley as for many area counties. For counties whose 1988 and 1989 figures were both low, the statistics are indeed tragic. A consistent string of ever-lower figures could lead to "ghost town" status for some communities.

The figures underline three important facts: First, every dollar that county residents spend outside the county hurts, and that injury is compounded with time. Second, local businesses must work hard at expanding sales and building the local base. Third, Donley county must make products for sale outside the area and sell far and wide. The county has done well over the years; it may have to do better if it is to survive. To thrive, the local economic community will have to be aggressive.

## Local Woman Bit By Snake

Hope Bechtel, age 87, was bitten by a rattlesnake and then fell and broke her hip in an effort to get away from the snake on Monday, Oct. 9th. Earlier in the day, a dog owned by Mrs. Bechtel's son-

in-law, Henry Like was bit by a snake. Mr. Like took the dog to the vet where it later died. After a search, Mr. Like could not find the snake. Then later the same day, another dog started barking. Mr.

Like and Mrs. Bechtel went out to investigate when she was bit. Mr. Like said that Mrs. Bechtel is doing fine and is at High Plains Baptist Hospital in Room 786 in Amarillo. Hopefully, he said, she will be home by the weekend.

MRS. ROY TYSON JONES

## Pettit and Jones Wed

Miss Larinda Ann Pettit and Roy Tyson Jones were united in marriage in a double ring ceremony on Saturday, October 14, 1989 in the First Baptist Church in Howardwick at 5 p.m. The Reverend James Coy Martindale, pastor of the First Baptist Church in Adrian Texas, officiated.

The church sanctuary was decorated with candelabras holding lighted tapers and entwined with english ivy and large satin rose bows. The pews were decorated with rose bows and white pearl bells.

Given in marriage by her grandfather, the bride chose a formal wedding gown designed by Jessica McClintock of ivory satin featuring a sabrina neckline, lace overlay bodice, lace collar and long lace sleeves which came to a point at the hands. The back was highlighted by a deep V and centered with a designer bow decorated with iridescent hearts and pearls.

The bride's veil of ivory tulle featured a pearl band coming to a point over her forehead with embossed small flowers and pearls on each side. It was designed and made by the groom's mother.

The Bridal Bouquet was a sweeping cascade of rose enchantment lilies and roses accented by english ivy, rose and ivory picot ribbon and iridescent pearls. For something old, she wore a lavalier belonging to her paternal great-grandmother. Something new was a garter, something borrowed was a pearl necklace and something blue a handkerchief. Entering the church, the Bride paused to give her grandmother a long-stemmed red rose and at closing of the ceremony, presented the mother of the groom with a long-stemmed red rose.

The Unity candle was lighted by the Bride and Groom.

Guests were registered by Kit Jones, sister of the groom.

Rice roses were handmade by Tena Powell of Goodnight, a friend of the Bride, and distributed by Casey Martindale of Wellington.

A reception following the ceremony was held in Fellowship Hall at the First Baptist Church in Howardwick. Members of the houseparty was Mrs. Joyce Combs and Mrs. Alma Bingham of Howardwick and Mrs. Shirley Nutt of Mart, Texas.

The Bride's table was covered with an ivory linen cut work and lace european table cloth over a rose liner. The three tiered wedding cake was decorated with a rambling rose effect, wedding bells on the first and second tier topped with hand blown glass decoration of 2 hearts and 2 bells. Other refreshments were punch, mixed nuts and western hat, boots and horseshoe mints.

## Local Girl Named to Who's Who

Minde Hollar, sixteen-year-old daughter of Burl and Carlene Hollar of Clarendon, has recently been notified that she will be featured in the 23rd Annual Edition of *WHO'S WHO AMONG AMERICAN HIGH SCHOOL STUDENTS* for 1988-1989.

WHO'S WHO is the largest student recognition publication in the nation and has been published annually since 1967. The reference and recognition values of the book have been acknowledged in the favorable review by the prestigious American Library Association, the only student recognition program to be so noted. Since only 55 of our nation's high school students are honored each year, she is to be commended for her efforts and success. Her biography has been published on the basis of her achievements.

Minde, currently a Junior at

MINDE HOLLAR

Clarendon High School, was nominated for this honor by Ronald Gooch, former County Extension Agent-Agriculture, whom

## A Crowd of Sinners

Some folks think that they're not good enough to go to church. And there may be some people in some churches who do not want "sinners" in their building. Both misunderstand the nature of the Christian assembly.

Jesus confronted the same falsehoods in his day. The harshest words that came from his mouth in all of the New Testament are directed at religious people of the latter type. Matthew 23 is a good example. Such religious leaders are like cups that have been polished on the outside, but inside are full of greed and self-indulgence. They are like tombs that are clean and whitewashed on the outside, but full of dead bones and corruption inside.

At the same time, Jesus often associated with people who were outcasts in the view of the religious leaders of that day. In Luke 7:36-50 Jesus forgave a sinful woman, but apparently left his prominent host unforgiven.

In reality there was only one difference between self-righteous Simon and the sinful woman: the woman was contrite and penitent.

Members of Alcoholics Anonymous begin each discussion with the statement "My name is \_\_\_\_\_ and I am an alcoholic ... ." Every Christian in the assembly could make a similar statement: "My name is \_\_\_\_\_ and I am a sinner ... ." There are no exceptions.

The reason for gathering Christian assemblies together each Sunday is to muster strength for another week. The mutual aid, the shared encouragement, the periods of prayer and praise help. They make it easier to live more nearly as a believer should. If the assembly fulfills its intended purpose, then the sinners who attend and participate live more nearly like saints the following week.

The words that David wrote several thousand years ago are still true: "a broken and contrite heart, O God, you will not despise". That is why Jesus accepted broken-hearted outcasts but rejected "righteous" priests. And that is why we can all still pray like David, "Hide your face from my sins and blot out my iniquity. Create in me a pure heart, O God, and renew a steadfast spirit within me," [Psalm 51:9-17].

There is no one so sinful that he or she cannot attend. There is no one who is good enough to look down on someone else. And there are none strong enough to make it alone.

Please join us this Lord's Day as we prepare for another week.

### Broncos Lose To Wildcats

Canadian quarterback Shane Lloyd passed for three touchdowns, Friday night as Canadian Wildcats, beat the Clarendon Broncos 34 - 0. The Broncos offense never could get moving as they were held to less than 70 yds on the ground. Michael Adams had 34 yds on 11 carries and Randy Allen had 33 yds on 11 carries. Jonathan Stewart completed two passes and had two intercepted, with one being returned for a touchdown. However, the Broncos did manage to get two first downs

during the fourth quarter. The Broncos defense again played very well, as they managed to stop the Wildcat on numerous occasions. Waldo Vaquera again led the defense with eleven tackles. Michael Adams had eight tackles, Jared Estes had seven, Randy Allen, Che Shadle and Mark Austin each had six. The Broncos travel to Wellington, Friday, to play the Skyrockets. Game time is at 7:30 p.m. The Football team needs your support.

The Colt 7th grade beat the Canadian Kittens by a score of 16 - 0. Corey Field ran a touchdown off of a sweep and he also made the extra points to make the first quarter score 8 - 0.

In the second quarter, Randy Haire ran a touchdown off of a bootleg. Then, Randy threw a pass to Todd Lindley for the extra points. In the third quarter and fourth quarter the game was scoreless.

Good Job Guy! The Colts will play Wellington in the Bronco stadium, Thursday, Oct. 19 at 4:00 p.m., so plan to attend and support the team.

The Colt 8th grade team beat the Canadian Kittens by a score of 34 - 6. In the first quarter Ricky Smith made three touchdowns. Chris Holland made extra points on one of them. Then Billy Ray Wilson made a touchdown. In the second quarter, Chris Holland made a touchdown off of a punt return. Chad Campbell threw a pass to Greg Collins for the extra points. The Kittens scored in the fourth quarter making the score 34 - 6. The Colts hold a 4-1 record. Way to Go!

### JV Lose To Canadian

The JV Broncos traveled to Canadian on October 12 and lost a hard-fought game, 14 - 12.

Scoring began only 2 minutes and 50 seconds into the game when Canadian scored their first touchdown. The kick after TD was good. Canadian scored again with 3:35 left in the first quarter. They kicked the extra to lead 14-0.

Early in the second quarter the JV Broncos scored on a pass from quarterback Lee Gage to Scott Hankins in the end zone. The extra point attempt failed.

In the third quarter the Broncos played exceptionally well on defense and held Canadian on the 2-yard line for four downs. How-

ever, Clarendon did not score again until the fourth quarter. On a pass play, once again from Gage to Hankins, the Broncos were able to get to the 10-yard line. Nathan Lowrie carried the ball to the 1-yard line and two plays later Lowrie carried the ball across the goal line with only 24 seconds left in the game. Clarendon could not convert the extra points and the final score was 14-12.

Brice Fletcher played an excellent defensive game getting into the Wildcat backfield for several quarterback sacks.

The JV Broncos will play in Bronco stadium next Thursday at 7:30 against Wellington.

## Blood Drive

The Coffee Memorial Blood Mobil Unit will be at the Clarendon Junior College Gym, October 25th, from 1:30 p.m. to 6:30 p.m. The Blood Drive is sponsored by the Student Senate of the Clarendon College.

From January 1983 to April 1989, the Coffee Memorial Blood Center has held 11 Blood Drives at the College. They have had 664 Donors for an average of 60 donors per Blood Drive.

The greatest benefit of giving blood is the feeling that comes from

knowing you are helping those in need. Your blood donation helps improve the quality of health and life for your family, your neighbors, and your community.

When you give blood you are replenishing the community's supply. Then blood will always be available when it's needed. Enjoy that special feeling of being a blood donor and visit the mobil blood drive site. You'll like the feeling!

The Coffee Memorial Blood Center was founded in 1950 and is sponsored by the Potter-Randall County Medical Society. The Center is governed by a Board of Directors appointed by the Medical

*The Clarendon Press*  
Society. It is a non-profit organization and is licensed by the federal government and accredited by the American Association of Blood Banks. The Blood Center is independent and self-supporting.

The Coffee Memorial Blood Center supplies all of the blood and blood components to 18 hospitals encompassed within a 26 county, 100 miles radius.

The Blood Bank needs to collect 400 pints of blood each week from volunteer donors to meet the needs of sick and injured hospital patients.

Blood is available from the Center for anyone in the Panhandle Service Area upon the request of a hospital or qualified physician.

Coffee Memorial Blood Center has become one of the outstanding blood centers in the country with the most modern techniques and services. Its laboratories and equipment make possible the latest treatment of blood diseases with the modern use of blood components.

Deuteronomy 6:7-9

### THE BURDEN

by Perry Mack Garrison

"Oh! Life is such a burden!" You hear people say. The weather is a burden, the financial situation this country is in is a burden, and relationships are burdens. It seems everything associated with life and living tends to become burdens.

Our youth are growing up under, what could be termed as the heaviest burden of all. How far can we go before we all experience the realization of that old saying: "That's the straw that broke the camel's back!" Is there an answer to life's steady pace of burden after burden? Jesus said, "YES."

"Come unto me all ye that labour and are heavy laden and I will give you rest. Take my yoke upon you

and learn of me for I am meek and lowly in heart and ye shall find rest unto your souls. for my yoke is easy and my BURDEN is light."

--Jesus Christ-

(Matt. 11:28-30)

The word BURDEN, used in this quote of Jesus, if it were written in the original Greek would look something like this: Phortion. The literal meaning of this word, translated in English as "burden", is to lay something of value on another. To carry something of great value for someone else. To bear an object of great price with honor. What a magnificent thing Jesus has said to us if we would but let it sink in!

In Genesis 22 we find a wonderful story of Abraham, God's man, and Isaac, the promised son. Abraham loved Isaac like no other father loved his son. He waited a very long life time for him and cherished him with great love. Then one day God told Abraham to take Isaac up to a place that God had chosen and sacrifice him there as a burnt offering. To make a long story short. He did what God commanded of him by faith. But God

stayed the hand of Abraham from taking Isaac's life. And there completed this marvelous picture of our redemption. Abraham played the part of God the Father, Isaac played the part of Jesus the Son. But who played the part of you and me? Look in Gen. 22:3 and you will find us. We are the donkey. You and I carried this load of wood as if some terrible burden of life to the mount but there at the foot of the mount in verse 6 Abraham took the burden off our back and put it on his son. And I believe after the ordeal was over that Abraham being full of joy brought Isaac his son down from that old mountain and placed him (Phortion) on the back of the donkey for the ride home. Could you imagine a more joyous burden for the donkey to carry but the son.

Why can't we see that we too must meet Jesus at the foot of the old mountain with our burdens. And there give them to God to burn up like wood. Then there to be given the risen Son of the Most

### Hedley News

Hedley staged another successful Cotton Festival this past weekend. The weather was near-perfect, and everyone seemed to enjoy himself.

The Grand Parade is always a highlight of the celebration, and this year's edition was a credit to the hard work of the area's float builders. First prize in the Out-of-Town Floats category went to Memphis Chamber of Commerce. Second place went to the Miss Donley County float.

First place in the Hedley Commercial Floats category went to Security State Bank.

The Hedley Eastern Star won first place among the non-commercial floats. The American Legion float was awarded the second-place ribbon, and the Baptist-

Methodist float won third.

In the Decorated Vehicles category, "Mollie's Cotton-Pickin' Kids" captured first place (Mollie Dickson has seen ninety-five harvests, most of them in Hedley, the placard said.), the Brownie troop second, and the Hedley Junior High Cheerleaders third.

Security State Bank's beautiful float, entitled "Thanks, Cotton Farmers," won the grand prize in the parade.

Hedley can be proud of its parade. We doubt that any other community Hedley's size does better. Thanks to the many whose hours and hours of hard work always make it a success.

The drawings for the many prizes is also an enjoyable part of the Festival. Many cakes and other smaller prizes were given away all through the course of the celebration, but here are some of the late-Saturday major prize winners. Tammy Harris of Amarillo won the bank's fifty-dollar money tree.

Medicine Delays Onset of AIDS

U.S. government researchers recently announced that AZT, the only drug approved by the U.S. Food and Drug Administration for the treatment of AIDS, significantly delays the onset of the disease in those who exhibit early symptoms. Until now it has been thought that the drug was helpful only in patients who experienced the more advanced symptoms of AIDS.

According to recent news releases, AZT has been shown to slow the multiplication of the AIDS virus in persons who experience the first symptoms of the disease - diarrhea, fungal infection of the mouth, or a rash. Early detection of the AIDS virus now means that treatment can begin earlier for many patients.

AZT treatment is a very expensive (approximately \$8000 per year), and not all AIDS patients are able to obtain access to the drug. According to a recent report in *American Medical News*, an estimated 30,000 individuals are taking AZT. With the new finding, it is thought that as many as 200,000 could benefit from use of the drug. An estimated one to one and a half million people living in the United States are thought to be infected with the AIDS virus, most of whom are without symptoms.

## True Church of God In Christ

In our Sunday School Dept. of The True C. of G. In C. the teenagers, class no 2 was asked to write an essay on problems some teenagers are having today. Each student wrote on different subjects. This week's article is on Aids.

Their teacher is Mrs. Minnie Bowser and the pastor is Elder John Bowser of Amarillo, Texas. Sunday school Supt. is Mrs. Louisa King.

The following article was submitted by Lashonda Smith.

Aids A.I.D.S. stands for Aids, which is a very major health problem in the United States, Europe, Africa, South America, Australia, and parts of Asia. There are a number of people who get aids by blood transfusions, and by many accidents with a lot of bleeding. The main problem in aids is that the virus attacks the very cells that normally prevent such a disease. The human body also has a special way to protect it's self and perpetuate it's own life. A number of people get the aids virus at a certain part of the year. The body cell has a cell called the T Cell that recognizes the presence of a germ or virus of foreign matter. The T cells then transform to T helper cells, which acts as messengers to the brain. The T helper cell encodes the genetic structure of the invaded germ and carry it out to other blood cells called B cells, that manufacture antibodies that functions to destroy foreign cells or matter. When the B cells are invaded by the H.T.L.V. III virus, however they are prevented from acting normally. The aids virus interferes with the functioning of the cells that kill invading organisms such as, viruses and germs. When it has spread through the mechanism of the immune system, of course our ability to adapt, to think, to reason, and to understand ourselves are our best weapons. So be careful not to get Aids, because Aids will shorten everyday of your happy life. Be Careful!

The End!

## Library Purchases Equipment

The Burton Memorial Library recently purchased a Canon PC 70 Reader Printer which will aid patrons in researching local history and genealogy.

The library plans to begin the purchase of Donley County newspapers on microfilm. Diane Chamberlain, librarian, reports that it will take several years to acquire a complete collection for patron use.

Newspapers date back to the early 1900's with sporadic issues before the turn of the century.

The purchase of the reader printer was made possible by yearly fund raising efforts of the Friends of the Library and Young Homemakers as well as donations from individuals.

## 1990 Wheat Program Modified

To maintain humanitarian food aid commitments following two years of drought, and restore wheat stocks to safer levels, the U.S. Department of Agriculture will offer producers the option to modify their 1990 wheat program contracts and increase their wheat plantings if they choose to do so.

The previously-announced program includes a 5 percent acreage reduction requirement and limited cross compliance. The program enrollment period runs from January 16, 1990 through April 13, 1990.

"Farmers will continue to have

the option of signing up for and complying with the original program provisions," Drew Thornberry, County Executive Director of the Donley County Agricultural Stabilization and Conservation Service, said.

He said the change will give farmers the opportunity to modify their original contracts and plant up to the maximum 105 percent of their farm's wheat base. For each acre planted over 95 percent of the wheat base, there will be a decrease of one acre when determining the farmer's deficiency payment. "Producers may not plant more than 105 percent of their wheat base to remain eligible for these payments."

The 1990 wheat program benefits include a \$4.00 per bushel target price, a \$1.95 per bushel price support loan and purchase rate, and advance deficiency payment at 40 percent of the estimated deficiency payment rate. "These provisions will remain applicable to all farmers who enroll in the program," Thornberry said.

The modified wheat program option does not contain acreage conservation reserve requirements, 0/92 provisions, soybean and sunflower options, nor the transfer of wheat bases to oats bases. Producers may not credit other nonprogram crop acreage as acreage considered as planted to other program crops for base intention purposes.

Further details on these and other wheat program requirements are available at the Donley County ASCS office.

## Frost Can Cause Prussic Acid Poisoning

Now that fall is officially at hand, frost has already hit once and could hit again in Donley County before long. This could lead to prussic acid poisoning in livestock if the county has had enough moisture to produce certain pasture grasses and forage, according to Tim Trimble, county agent with the Texas Agricultural Extension Service.

While many plants contain the toxic material that causes poisoning, the greatest culprits are Johnson and Sudan grasses and sorghum or hybrids of these that cause the highest mortality if livestock graze them after a heavy frost.

"The most dangerous time for the grazing of these plants is following frost when the plant material begins to wilt," said Trimble.

Livestock should not be allowed access to the wilted material until it has dried completely following three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

Prussic acid poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10 to 15 minutes after eating toxic material and can die in two to three minutes.

Symptoms may include a brief period of stimulation followed by depression and paralysis. Signs of colic may be present. p73 Stupor (loss of sensibility), difficult breathing and frequent convulsions may result. Death is caused by suffocation since oxygen remains in the blood and is not exchanged to the tissues.

The key to prevent prussic acid poisoning in livestock is to be aware of plant materials that may cause poisoning and then keep cattle from grazing such plants until a safe period of time has passed.

### Computer Courses Offered

The on-farm or ranch microcomputer is becoming a profitable management tool for Texas farmers, ranchers and agribusiness firms.

As a result, educational needs have increased for in-depth subject matter training to profitably use microcomputers.

There also is a continuing need for updating information on the various hardware and software available.

In response to this need, the Extension Service, in cooperation with the Texas Agricultural Experiment Station, is conducting short courses in farm and ranch management at several Texas sites. The

courses originally were developed for the Stiles Farm Computer Center, and many are still conducted there.

Currently, computer courses are being taught at Stiles Farm and South Plains Junior College at Levelland; in the Rio Grande Valley at Weslaco; Tarleton State University, Stephenville; Texas A & I University, Kingsville; Texas A & M University Agricultural Research and Extension Center in Amarillo; Collin County Community College, McKinney; Grayson County Junior College, Denison, and Navarro College at Corsicana.

For more information about the short course schedules and fees, contact your local county Extension agent.

### "Colorado" And the Corpus Christi Rodeo

Texans have always relished encounters between men and beasts, and such an event was staged at Corpus Christi in 1852.

In May 1852, Col. Henry L. Kinney, the founder of Corpus Christi, organized the "Lone Star State Fair," the first state fair in Texas. Among the components of this fair were a Mexican bullfight and an equestrian event much akin to our modern rodeos. One particular animal took a prominent role in both competitions.

A correspondent from the New Orleans Daily Delta was among 2,000 guests in Corpus Christi for the state fair, and on May 20 his newspaper published his report on the exposition.

"This has been decidedly the most exciting week of the fair," the reporter began. "The sports of the week commenced with a bullfight, Camarena, the celebrated bull-fighter of the City of Mexico taking the field."

A large crowd came to witness the encounter between man and animal. In the first two fights the bulls were badly wounded. Things then changed. "When they let in the little red bull, 'Colorado' the journalist reported, 'Camarena found his match.' Twice the bull nearly gored the well-known matador. 'The little red bull was too much for him, and it was accordingly decided to make it a drawn fight.' 'Colorado's appearances were not yet over. He next came up in the rodeo.

The Louisiana newspaperman described the proceeding as "a contest for superior horsemanship." The competition among riders began with an event similar to present-day bulldogging. "The first feat of agility," the correspondent wrote, "consisted of throwing

speed." The bull was released from a bull down while running at full a pen and started down a road. The mounted competitor then would "dash after him, and coming up, catch him by the tail, and by a sudden turn, as the animal would rise on his fore legs, would be thrown rolling on the ground." This was no small task.

For the audience, bull throwing was more than entertaining. "Sometimes the bull would make a sudden bolt from the road, just as the rider would be reaching for the bull's tail, and before he could recover himself, would measure his own length on the ground, to the great merriment of the crowd."

The next contest consisted of picking up a silver dollar from the ground at a full gallop on horseback. "This feat created great sport," the writer noted, "and loud cheers greeted the victor."

Finally in the third and final rodeo event, "Colorado" the bull returned. "The next feat of dexterity was that of riding a wild bull," the correspondent reported, "and the little red bull, 'Colorado' was turned loose for the occasion." Much more difficult than modern bull riding, "the feat is effected by a sudden spring from the ground, and many a hard fall did the competitors receive before any met with success."

In the end, one of the Mexican vaqueros somehow managed to clamber onto the back of "Colorado," and "such running, roaring and pitching as followed even made the mules laugh."

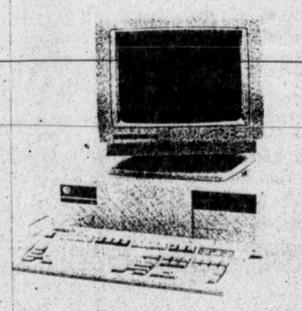

In this pioneer rodeo in Texas, "Colorado", the little red bull, was overwhelmingly the star.
