## GREAT MAJESTIC COOKING EXHIBIT

Sep. 28 to Oct. 3.

ALL WEEK

Sep. 28 to Oct. 3.

IN order to prove to all our friends that the MAJESTIC is the most perfect range on the market, we have arranged for a Cooking Exhibit lasting one week.

During this exhibit we will have a Majestic Range in operation and show our friends that it will **bake better and quicker, heat more water and heat it quicker, with less fuel** than any other range made.

We don't ask you to believe all of our statements, but do ask you to call at our store any time during the exhibit, and we will convince you that the Majestic is exactly as represented. Don't fail to give us a call. Note the date.

### Free During Week of Exhibit

We will give One Set of **Majestic Ware Free** to any one purchasing a Great Majestic Range during this exhibit.

We make the broad statement that this set of ware is the finest ever offered for sale. Not a piece of tin in the entire set. We have the ware at our store, if you will call and see the set you will agree with use that it can't be bought for less than \$7.50.

Biscuits baked in 3 minutes and served with delicious coffee to all who call. Be sure and come.

### REMEMBER THE DATE:

## 28th of Sep. to Oct. 3rd, inclusive.

CLARENDON, TEXAS.

#### Launching the Independent Packing Co.

A meeting of live stock men and promoters of the Independent Packing Company was held Tuesday in Kansas City with E. B. Frayser of Vinita, I. T., O. B. Young of Kansas City, Paul Russell of Paoli, Kan., ex-Governor George W. Glick of Atchison, F. W. Flato of Kansas City and Charles F. Martin of Denver, secretary of the National Live Stock Association, present.

The company is capitalized at \$5,000,000. One hundred thousand shares of stock at \$50 a share will be issued. At the meeting a board of directors was elected, as follows: E. S. Gosney of Arizona, H. A. Jastro of California, C. E. Adams and A. Watkins of Nebraska, Noah Newbanks and C. J. Buel of South Dakota, M. C. Campbell, Paul Russell, T. M. Walker and George Plume of Kansas, E. B. Frayser and S. T. Williams of Indian Territory, J. T. Brown and William Lindsey of Montana, L. F. Wilson, Burk B. Burnett, W. E. Halsell and S. B. Lucas of Texas, F. W. Flato and N. H. Gentry of Missouri, John W. Springer, Frank Benton and C. F. Martin of Colorado, J. H. Gwinn of Oregon.

At the conclusion of the meeting Charles F. Martin said that the first meeting of the board of directors probably would be held in Denver on the first of next month. At this meeting the officers of the packing company will be elected and the plans for financing the company will be prepared.

#### Stock Car Shortage.

The Colorado City correspondent of the Dallas News says, "The greatest inconvenience that has yet been experienced in the moving of the cattle has grown out of the delay in delivering stock cars, and there has been considerable complaint on that score. Some shippers are also complaining of the time made in handling stock trains. While there is always more or less complaint over the question of rates, this season the great burden of the complaint has been over the poor train service. Stock trains continue to crawl into the leading markets anywhere from six to forty-eight hours late.

"The shipping experience of the present season is but a repetition of last year's conditions, and it seems that no practical solution of the problem has yet suggested itself to railway managers. Various reasons for the continuance of these conditions have been advanced, the most feasible or practical of which is that the freight business of Western lines of railway has just simply grown beyond the facilities of the roads for handling it. The railways seem to have been equipped with motive power and rolling stock back in the days when the West was but sparsely settled, and the tonnage along their respective lines has developed faster than they have been able to secure additional equipment. In other words the railways came West to grow up with the country, but the country has grown too fast for them to keep up with the procession."

On the other hand it is claimed by some that the car shortage is a

blessing. A railway stock agent is quoted as saying:

"There is a great deal of complaint among cattlemen regarding the slowness with which the railroads are furnishing stock cars this fall, but if they only knew it, this same shortage is the greatest blessing that could befall the cattle growers this year. Here is my reason for making the statement: In the first place, the market this fall is about as bad as it could be, for the packers are all well supplied with meats and the feeders afraid to take hold of the thin Western cattle. Were receipts therefore running much heavier, it would mean that disastrous breaks would take place, and if the market slumped off to any extent rock bottom would be reached.

"The shortage in stock cars is more pronounced right now than it has ever been in the whole history of the industry. The Santa Fe had orders for just 882 cars for shipment Sunday and Monday that it was unable to fill. This is equivalent to some 26,000 cattle. All the roads combined showed a shortage last Sunday approximating 2,000 to 2,500 cars, equivalent to 50,000 to 75,000 cattle. This applies to territory immediately tributary to Kansas City, Kan., Oklahoma, the Texas Panhandle and Colorado. Could the roads have filled these orders we would have seen 50,000 cattle on the Kansas City market on Monday of this week. Whereas the actual run was only 6,000 head."

Remember that dainty "Majestic" lunch next week at Taylor & Sons. Don't get left.

#### Next Baptist General Convention

The fifty-fifth annual session of the Baptist general convention will be opened at 10 o'clock a. m., November 6, 1903, in the city of Dallas, as the invited guests of six Baptist churches of the city, the Commercial Club and the city council.

The annual sermon is to be preached by Rev. George McCall of Beaumont, or by Dr. E. E. King of McKinney as alternate.

The convention will be composed of messengers appointed by their respective churches, associations and missionary societies, on the basis of three messengers from each regular Baptist church and one additional for each \$25 contributed to the funds of the convention, but in no case more than eight messengers from any church; two messengers from each association and one additional for each \$100 contributed to the funds of the convention, but in no case over five messengers; one messenger from any Baptist missionary society for every \$25 contributed to the funds of the convention, but not to exceed four from any society.

The objects of the convention are missionary, educational, the promotion of harmony and concert of action in a system of operative measures for the promotion of the Redeemer's kingdom.

All sessions are held with open doors and visitors have a cordial welcome.

The Baptist Women Mission Workers, auxiliary to the convention, and the State Pastors' conference, will occupy the two days previous, i. e., the 4th and 5th of November, and possibly at inter-

vals during the days of the convention proper.

#### Are All Women Deformed?

"Not once in five years have I found a woman among my customers who was not one-sided in some way. Perhaps it is one hip that is higher, one arm that is longer, one shoulder that is more developed, one side that is longer—there is always something that is not perfect." So spoke Mrs. Linda R. Wade, president of the Western Dressmakers' association, at the opening session of the Annual convention of that organization at St. Louis Tuesday.

Miss Ruth Bryan, daughter of Col. W. J. Bryson, is to be married next Saturday to Homer Leavitt, a Newport artist, a widower, 32 years old. Miss Bryan is barely 18.

Thos. Linton of Pope county, Ark., aged 55, married for 35 years and the father of seven children, went home drunk, took down his shot gun and shot his wife dead.

A representative of one of the Fort Worth packing houses is quoted as saying that the supply of hogs is not what is desired by forty-five hundred a day. The run recently has been something like three hundred a day and he says that the packing houses can use and would be glad to get at least five thousand a day.

Nearly 20 per cent of the men stationed in the department of California deserted in the year ended June 20. In twelve months 1344 men left the service without leave.

You'll miss a rare treat if you do not attend the grand Majestic cooking exhibit at Taylor & Sons. Don't get left.

MISSOURI either has some peculiar trees or some common previators. "The Ashland Bugle tells of two persimmon trees near Claysville which are bearing pawpaws. The bodies of the trees are persimmon and the small limbs and foliage are pawpaw."

IN this age of combinations we hardly know what is coming next. In the Press reports we find the following: "The Cash Buyers' trust announces that it will invest sixty per cent in any approved department store enterprise in which local investors take forty per cent of the capital stock. The parent concern will furnish the supplies at lower rates than can be secured elsewhere. Its capital is five million dollars which can be increased if necessary, so that it can cover the entire country. It will receive favorably any proposition coming from any of the principal towns." It is such combinations that give growth to socialism, and one of their leading papers commenting on the above says, "At last the predictions of the Socialists, are beginning to materialize. Little business men have got to go and as he goes the Socialists ranks will be swelled. Competition has about ended its march. It has been a destructive one, and in its path are the wreckage of multitudes of private enterprises. Competition has wasted the time of millions, doing senseless things, and wasted much of the product of labor on store shelves. Capitalism is slaying competition, and after capitalism, another avenger, Socialism. By and by in the Co-operative Commonwealth we will make only what we need, and do the work with the least waste, and in the quickest possible time. The worker will get what his labor creates, undiminished by rent, interest, and profit. Come on with your department stores. Give the little business men his lesson. We have a place for him on the soap box when you get through with him"

An exchange makes the following comment on the way of Americans: "Man's business requires haste." The average business and professional man eats in a hurry and gets dyspepsia. He walks in a hurry and gets apoplexy. He talks in a hurry and gets the lie. He does business in a hurry and becomes a bankrupt. He reads in a hurry and is superficial. He votes in a hurry and produces corruption. He marries in a hurry and gets a divorce. He trains his children in a hurry and develops spend-thrifts and criminals. He gets religion in a hurry and forgets it in a hurry. He makes his will in a hurry and leaves a legal contest.

R. B. McEntre, ranchman of Sterling county is running sheep in the same pastures with the cattle and is delighted with his experience on this line. Says the sheep for the few years have been much more profitable to him than the cattle. On 1,500 head of sheep he has paid the entire expense of the ranch the past year, and better still, he says where the sheep are the ticks do not seem to thrive half so well on the cattle.

"Yes," related the tattered wayfarer, "I told de lady in de wayside cottage dat I was a street-car conductor out of a job, but she would not believe." "Why was dat?" asked his companion of the ties. "She said I was too polite."—Chicago Daily News.

## C. B. Farwell Dead.

Ex-Senator Charles B. Farwell died at his home in Chicago Wednesday of heart trouble, aged 80. Mr. Farwell was a prominent figure in local state and national politics since 1844, and was a member of the house of J. V. Farwell & Company of Chicago.

The name of Charles B. Farwell is widely known throughout Texas on account of Mr. Farwell's connection with the Capitol Syndicate, firm which furnished the money to build the present state house at Austin in return for an enormous land grant in the panhandle. The land which is now left from the original grant is known as the XIT ranch with headquarters at Channing. It is the largest ranch in the United States, though its original size has been reduced by the sale of several hundred thousand acres within recent years.

## Jett to Hang.

Curtis Jett was sentenced to death Tuesday at Cynthana, Ky., for murdering James Cockrill, Marshal of Jackson a year ago.

Many believe that the death penalty in this case will have the effect of breaking up the lawlessness in Breathitt and also stopping the murders there. This is looked upon as but the beginning, as others are believed to be as guilty as Jett. The state will use all its efforts to bring all those who are guilty to justice.

The commonwealth of Kentucky has gone to enormous expense to investigate the lawlessness in Breathitt county, furnishing troops to protect witnesses and preserve order and prosecuting the cases against those accused of crimes. The whole country has looked on and waited with Kentucky for the conviction of those who are guilty. Now that one man is to pay the law's extreme demand, the state is anxious for the sake of justice to see those also punished who made Curtis Jett their hired assassin for ends other than his own.

## Milo Molasses.

BONHAM, Texas, Sept. 24.—Z. T. Potts, superintendent of the county farm, has been in town with a bottle of molasses made of milo corn. The flavor is said to be superior to that of sorghum.

Mr. Potts has thirteen acres of milo, which he expects to yield 1,000 gallons of syrup.

## Manufacture of Soap from Dogs.

There is almost an unlimited number of prairie dogs from Childress to Wichita Falls, and an Indiana man named Renfro advanced the idea at Vernon the other day that there was wealth in the dogs. He said: "It is a strange thing some one has not started a soap factory in the Panhandle country. I have just got in from a little hunt in your county and while out I killed a prairie dog and skinned it. It was as fat as could be and would make a fine quality of soap. In our state we pay from 8 1/3 to 12 1/2 cents for rabbits to make into soap and I believe the prairie dog is far ahead of the rabbit for that purpose."

Competition is fast disappearing. Flour is now sold at trust prices, meat is now sold at prices fixed by the trust. Coffee is sold at a price agreed upon in advance of its going on the market. Practically everything you see in the grocery store has a trust price marked on it; and generally the people are being held up and their just earnings taken from them. Still we hear it said this is a country by the people, for the people and of the people.—Tyler Courier.

Boley, the new town in the Creek Nation, will be opened Saturday, the 26th inst. Negroes will own the town, and no white people will be permitted to live there. This is the second town exclusively for negroes in the Creek Nation.

Saturday at Caddo Mills the large barn belonging to W. R. Peters was burned, besides a large quantity of feedstuff, harness and machinery, three large horses, valued at \$450, and other live stock perished in the flames. The fire had gained such headway before being discovered it was impossible to liberate them. The loss, over 2,000.

Fire destroyed the Four Sisters Hotel Sunday night at Brownwood. Loss on building \$3,000, with \$1,700 insurance; furniture \$1,000, with \$300 insurance. The hotel was owned by four sisters. The building is a complete loss. Only a few household goods were saved. The origin of the fire is supposed to have been a lamp explosion.

In what is known as the Trans-Cedar cases in the vicinity of Athens, Will Humphries was acquitted of the charge of killing John Greenhaw. Greenhaw, it will be remembered, took part in hanging the three Humphreys in Trans-Cedar a few years ago, and afterward turned State's evidence. After the trials at Athens and Palestine, which resulted in sending nine persons to the penitentiary for life, John Greenhaw went back to Trans-Cedar section and was shot by young Will Humphreys, whose father and two brothers had been hung by the lynchers. This is the last of the famous Trans-Cedar cases, which attracted wide attention. Will Humphreys is yet a minor.

**Achievement in Locomotive Building.**

The evolution of railway equipment during the past decade has been remarkable. Engines and cars that were common ten to twenty years ago appear as playthings beside some of the modern leviathans.

The two largest and most powerful express engines yet built have been turned out for the Chicago and Alton Railway. These will haul heavy excursion trains in connection with the World's Fair at St. Louis. Their duty will be to haul trains of twelve passenger cars each and carrying 760 people, with their baggage. They are to make 46 miles an hour, running time. The engines are twelve wheelers and with tender will each weigh about 374,000 pounds. The tender capacity is 8,400 gallons of water and 9 tons of coal. The heating surface of firebox and tubes is 4,078 square feet, being 500 more than in the New York Central express engines. In designing these moguls for this special work the Alton people borrowed and tested some of the most powerful engines of the United States, and then enlarged upon them.—The New Empire.

**Salvationists and Moonshiners.**

Near Prestonburg, Ky., last Tuesday Col. Richard Holtz of Cleveland and his band of Salvation Army followers ran into a gang of moonshiners and at first thought they had been fired upon. They had left the main road on being told that several men were working in the valley below and made their way around the mountain side to find them.

Two pistol shots brought them to a halt.

The guide rode on ahead and found they were approaching a moonshine still and the shooting was a warning to the operators to escape.

The bell was rung and the moonshiners returned after being assured that the strangers were not revenue officers.

The Salvationists were shown the process of making liquor, and then they held services in the cabin with the moonshiners.

The new \$50,000 bull ring at Jaurez, on the Mexican border, was formally opened Sunday in the presence of 10,000 people, chiefly Americans. Six bulls were tortured and put to death and several horses were slain by the bulls. Cervera, the famous Spanish bull fighter, is at the head of the troupe.

The Frisco excursionists have come and gone. Some are disappointed at the small sales while others are well satisfied, saying it is only a forerunner of what will be a grand thing for our country. Very few people will buy lands on sight. They want to investigate the surroundings before casting their nets; they want to know what kind of schools, churches, roads, water, etc., the country affords before setting. The Hornet looks for good results to come from the excursions.—Vernon Hornet.

William Renner, who has been held in the Dallas county jail with two alleged accomplices, since December, 1900 to await trial on the charge of killing Constable Pate Bain, made his escape from the county jail Monday night. Renner made his escape by sawing out two bars of heavy iron that barred the back window of the hospital ward of the jail, on the third floor, and used the plaited strips of his blanket to descend to descend to the ground. He was locked up with John Chapman and Eugene Faulkner, two other prisoners, who are to be tried again on the charge of causing the death of Bain, in the hospital ward of the jail.

**Boys do You Want to Win a Watch?**

The Fort Worth Telegram wants boys in this town to make money selling The Sunday Telegram, which will come to Clarendon every Sunday morning. In addition to the money to be earned selling papers, The Telegram will give away fine watches to every boy who will sell a certain number of papers. The new Sunday Telegram will contain a fine eight-page comic and magazine supplement printed in colors, and many other pages of interesting stories and features. In fact, The Sunday Telegram will be equal to any of the Chicago, St. Louis or New York Sunday papers. Boys, write at once for particulars. Address all letters to the Circulation Department of The Telegram.

Announcement is made by "The Denver Road" (The Fort Worth & Denver City Railway), that tickets will be sold to COLORADO points, from Oct. 4th. to 8th, inclusive, for one fare plus 50 cents for the round trip. I have had occasion to use your Black-Draught Stock and Poultry Medicine and am pleased to say that I never used anything for stock that gave half as good satisfaction. I heartily recommend it to all owners of stock.

J. B. BELSHER, St. Louis, Mo.

Sick stock or poultry should not eat cheap stock food any more than sick persons should expect to be cared by food. When your stock and poultry are sick give them medicine. Don't stuff them with worthless stock foods. Unload the bowels and stir up the torpid liver and the animal will be cured, if it is possible to cure it. Black-Draught Stock and Poultry Medicine unloads the bowels and stirs up the torpid liver. It cures every malady of stock if taken in time. Secure a 25-cent can of Black-Draught Stock and Poultry Medicine and it will pay for itself ten times over. Horses work better. Cows give more milk. Hogs gain flesh. And hens lay more eggs. It solves the problem of making as much blood, flesh and energy as possible out of the smallest amount of food consumed. Buy a can from your dealer.
