## Windy Valley To Stage Rally

PUBLIC TO MEET CANDIDATES THERE FRIDAY NIGHT

The Windy Valley club ladies will be expecting to see you at the school house Friday evening, May 31st. They set the date far ahead so that there will be no conflict with arrangements of other communities. Candidates are invited out to meet the big crowd that will gather. The entire public is cordially invited. The club ladies will dispense ice cream at a small fraction of profit. To make more neighbors, they will "throw in" a piece of cake absolutely free with each ice cream purchase. These good ladies admonish you to put down that date. Don't forget that it is May 31st, and that the time set is Friday evening about sundown.

## FIRST KARAKULE SHEEP BROUGHT TO DONLEY

Karakules sell at a fancy price, any of them. That has kept the breed from becoming more numerous in the southwest. It became the personal duty of John Potter to bring the first Karakule, a breeding ram, to Donley county the first of the week. He purchased the ram from a breeder at Dundee.

About the turn of the century a Dr. Young of Wichita Falls secured a few of these "sacred sheep of Asia." Later he had ranches at Wichita Falls and El Paso. The Potter ram is from this line of breeding, is registered and traces its ancestry right back to the nobility of the far flung Steppes of southern Asia. Mr. Potter will cross breed with Ramboulets, already owning some of the finest stock of this breed at his farm northeast of town.

## TWO DAUGHTERS GRADUATED WHILE ANOTHER RECOVERS IN AMARILLO HOSPITAL

Mrs. John Rhodes has spent practically all of the past six weeks in an Amarillo hospital spending anxious moments at the bedside of her daughter Mattie, who was injured in an auto collision near Martin. The mother found solace in the fact that she could leave Mattie much improved and return here Sunday for the graduation of two other daughters. Johnnie graduated from Clarendon College, and Dorothy from High School.

Mrs. Rhodes was informed by hospital authorities that Mattie could be brought home the last of next week if her improvement continued.

## VISITS NOTED MEMORIAL IN OKLAHOMA RECENTLY

Visiting relatives in Oklahoma the past week, Mrs. C. A. Burton was shown many interesting points. She was in Tulsa for the international oil convention.

Another point of extreme interest to Mrs. Burton was her opportunity to see the Will Rogers Memorial at Claremore. She describes the building as being both unique and beautiful, and the grounds in keeping with the tribute paid the great American by his people.

JA RANCH HEIR DIES IN SLEEP TUESDAY

Dick Ritchie, 29, and brother of administrator Montie Ritchie of the JA ranch near here, was found dead in his bed Tuesday morning. He died aboard the yacht Mattie Lee, off Aransas Pass, it is said. Ritchie came to this section in 1939. His mother and sister live in England near where he was born and reared. Only recently the two brothers, Montie and Dick Ritchie entertained a "flying rodeo" at the JA ranch with guests arriving only by plane. This is said to be the first rodeo of the kind ever to be held in America.

Funeral services will be held Friday at the home of Senator J. W. Wadsworth, a cousin, at Geneseo, N. Y. Senator Wadsworth was manager of the JA interests here many years ago before returning to his native state of New York and entering politics.

The Senator as well as the Ritchie brothers are grandchildren of Mrs. Cornelia Adair, wife of the founder of the JA ranch.

## CLARENDON'S FIRST PATIENT TO VETERANS HOSPITAL IN AMARILLO FRIDAY

Accident rather than after effects of army service in the World War sent Tom Tucker to the new Veterans Hospital Friday evening. Tucker, caretaker of the school property here for several years, fell from a step-ladder.

He was taken to Amarillo in a Buntin ambulance. Surgeons of the hospital are said to have found Tucker had a dislocated right shoulder and an injury to the right side of the pelvis.

Mrs. Tucker accompanied her husband to Amarillo. They were visited by Clarendon friends Sunday who reported Tucker as resting satisfactorily.

The county, which showed a drop from 10,262 in 1930 to 7,498 this year, automatically calls for the combination of the sheriff's and tax assessor-collector's office and county and district clerk's jobs.

Guy Wright, long-time deputy sheriff, and Jess Adamson, incumbent tax assessor, announced for the combined post at the outset of their campaigns.

Helen Wiedman, recently appointed county clerk, said Tuesday she would continue to be a candidate, but Walker Lane, eight years in the position as district clerk, said he had not decided whether to make the race for the two offices. Both had previously announced for their respective places.

## SHERIFF'S ABSENCE MAKES DEPUTY HIT THE BALL

Sheriff Guy Pierce and his family took off for San Antonio the last of the week. They will spend most of the time with the family of I. B. Pierce in Medina valley out around Natalia. They plan to visit other places before returning home.

Just when the Sheriff was away, Deputy Guy Wright had a number of matters to bob up that kept him up night time. There was said to be a stolen truck incident, a drunk driving case and a plain drunk case besides several calls to quell disturbances and rackets of a minor nature. Yep, it was a very busy week end for deputy sheriff Guy Wright.

## LOCAL SALESMEN WIN PRIZES IN CHEVROLET CONTESTS

## Brick Donations Are Requested

INDIVIDUAL CONTRIBUTIONS WILL CONSTRUCT ANOTHER STORY TO MUSEUM

(By W. H. Patrick) At a meeting of the board of directors of the Panhandle-Plains Historical Society May 10th the board was faced with the problem of providing housing facilities for a great quantity of historical, archaeological and paleontological material of very great value that can never again be assembled.

For obvious reasons at this time the State and Nation can not be depended on to make appropriations to provide funds to complete a unit to the present beautiful museum building. Two hundred and fifty thousand bricks are urgently needed for the building of this unit and at the suggestion of director John McCarty the board by resolution authorized McCarty of the Amarillo News to put on a campaign to provide these brick which are estimated to cost \$15.00 per thousand. It is suggested and hoped that every citizen in Clarendon and Donley county who is able will contribute at least 1000 brick or the price thereof. Every school child, every member of all Boy Scout organizations, Civic Clubs, Luncheon Clubs, etc., in Clarendon and Donley county is urged to contribute one or more bricks and assemble them in some convenient place and a truck will be sent to haul them to Canyon. The names of the donors should be recorded so the names can be published in the permanent record of the Museum.

If you cannot donate the bricks send the price of your donation to any bank in Clarendon. This is a movement to preserve the historical and scientific materials for the education and enlightenment of all our people and should meet with prompt and generous response.

TOM F. CONNALLY Mayor, City of Clarendon.

## ARTICLES LOST WHILE ON MOVE TO NEW HOME

It was while moving his household effects to the Harry Blair place south of town that J. M. Looper lost a stool to a bedroom suite, a boy's khaki shirt and checked knicker pants. These articles jostled off the trailer on the road between the South Ward school and the A. E. Benson home about a mile south of the school.

The family is in need of the lost articles and will greatly appreciate the finder returning them, or passing information as to where they have been placed.

## Donley Men Get Good Herefords

The bulls purchased by Lewis included New Prince Domino 47th at \$300, New Prince Domino 55th cost Lewis \$270, New Prince Domino 50th was taken at \$300. Mischief's New Prince was bid in at \$200.

Building up a nice herd on his holdings north of town is Judge J. R. Porter. His purchases at this same sale included Lady Domino at \$200, and Maile 27th cost the Judge \$330. This is all top stuff and Donley county as a whole is winner when grades of this type is brought within her borders.

## WILFRED HOTT MAINTAINS SCHOLASTIC RECORD

## NEXT SATURDAY IS "POPPY" DAY IN CLARENDON

Through the year a number of invalid veterans of the World War make imitation poppies similar to those they found growing in Flanders field in France. Many of these "boys" lie on their backs on an invalid cot and tediously fashion those little flower affairs which they know will bring them the munificent sum of one cent each—if they can be sold.

That is the manner in which the invalid earns a bit of spending money. He pays his incidentals with that one cent he gets for each poppy that he makes. You can help him next Saturday, May 25th, by buying liberally of that poppy supply that will be offered the public through the good offices of the Ladies Auxiliary of the American Legion.

## CENSUS FIGURES SHOW LOSS IN COUNTY POPULATION

At the time of taking the census in 1930, Donley county's population was 10,262. On April 1, 1940 the count showed 7,498, or a loss of 2,764 over a period of ten years.

This drop is in keeping with the reports from practically all farming sections of the state. This count is reflected also in the fact that Donley county had 1,364 farms in 1930, 1,140 in '35 and only 879 in 1940.

The A. farm program of closing out the small farmers is credited for the depletion of rural population. Most of those dispossessed of the soil, are said to have taken the next best thing in WPA jobs, or to have gone to the larger cities where factory employment was possible.

## FORMER TEACHER HERE PAID HIGH HONOR

Some years ago, J. Roy Wells was a member of the local school faculty. He later taught in college at Abilene. It will be recalled that Mrs. Wells is the former Fry Stallings, daughter of Mr. and Mrs. D. O. Stallings here.

**GARDEN GLANCES**

"America beautiful lies in the hands of the gardeners."  
 Roses would take first place in our town this week, should there be a floral contest. They are gracing trellises, forming hedge rows, and in garden formation at the homes of the George Green's, McGowan's, Cornelius', Grady's, Frank White Jr.'s, Bert Smith's and Buddy Knopp's. There is a shy pink clump snuggling near the entrance to the Henry Williams' door.  
 The most noticeable shrub is the mock orange. While it is to be viewed in several yards, the most conspicuous blooms are in the Dr. Jenkins yard. The honey suckle with its fragrant blossoms is in season too. One that was especially lovely is at Mrs. Blanche Davis' back door en-

trance. Her entire back yard is thoughtfully planned.  
 The mesquite trees, or bushes are numerous on vacant lots and by ways in the south part of town, and their fern like foliage is exquisite.  
 Dr. Allan Ray Dafeo says, in speaking of gardening, "It's as subtle as the soothing power of music—only ten times more potent. Certainly one of nature's finest remedies is in good warm earth. Just putting your hands deep into it seems to recharge your batteries like nothing else in the world."

**SEE THAT YOUR ADDRESS IS CORRECT ON AAA ROLLS**

Miss Mildred Martin and Mrs. Fred Wewerka and children of Elreno are visiting relatives and friends here.

**THE FORD WAY OF DOING BUSINESS**

The Ford Motor Company was founded by a working-man for working-men. Its present officers began as employees of the Company. It was the first company to pay a minimum wage, beginning in 1914, at the then astounding figure of \$5 a day. That was double the prevailing wage of the time. The Ford minimum is now \$6 a day for all employees engaged in production work. And from that, the wages rise to \$10.80 a day, with the average wage \$7.25, exclusive of salaried employees.

The Ford Motor Company was the first large company to establish the 8-hour day—also in 1914. And the 40-hour week was inaugurated by the Ford Motor Company in 1926, years before any such laws existed.

The Ford Motor Company employs men without regard to race, creed or color. It is common knowledge that working conditions in the Ford shops are the best that science and constant care can make them. A square deal, a just wage and stabilized employment for a large proportion of our employees—and as fully stabilized for all as conditions will permit—enable our men to retain their personal independence.

In consequence of these policies the Ford Motor Company has one of the finest bodies of employees in the world. The larger proportion are mature men of long

service with the Company—sober, decent family men. Hundreds of them have been with the Company for more than 25 years—thousands for more than 15 years. Their health record, home ownership and citizenship records are good.

All this is reflected in Ford products, whether cars, trucks or tractors. The work is honestly done. Materials are the best that can be made or procured. Less profit to the Company and more value to the customer is known throughout the motoring world as "Ford's way of doing business."

*Henry Ford and Edsel Ford keep daily personal touch with all phases of Ford manufacture. In a conference with his staff, Henry Ford often says: "Go ahead—I'll sit here and represent the public."*

Ford Motor Company was the first to make a motor car within the means of the average family—quitting the manufacture of what was then the largest selling model in the world to do so. Its chosen field in all the 30 years since that time has been the average American family—for which it has consistently provided car facilities which formerly only the wealthy could buy.

It is the policy of the Ford Motor Company to share the benefits of advanced methods and management with workers and public alike. Increased wages and employment over a period of many years have resulted in

A 300 per cent increase in the built-in value of the Ford car and a 75 per cent reduction in its price.

"neither asked for nor wanted outside help to maintain her status quo?" That was when America gave the Japs to understand that the East Indies should not fall into the clutches of the Japs, etc.

**INSECT PESTS.**  
Old Hastoon Yazzie says that "a farmer has more troubles than anybody. Besides being deviled with 700 varieties of insect pests, along comes the politician trying to make love to him."

**THE LIBERALIST.**  
Don't expect too much for nothing these days. Liberality is more marked in government than in individuals as far as hand-outs are concerned.

**TRAVELING FRIENDS.**  
There was a time when folks living in even remote places had friends (?) drop in to stay all night. There was no charge for the staying, either. These traveling friends (?) included lightning rod agents, sewing machine peddlers, buggy and hack dispensers and the like. They were usually shrewd gentry and entertained the family after nightfall with jokes and slight of hand tricks. They had an uncanny faculty for building up confidence. If the head of the family chose, either of the strangers would read a chapter and lead in prayer. One sewing machine agent ran off with a beautiful daughter of his host who was 25 years his junior. The

man was afterwards killed in Oklahoma by a husband who caught up with the pair eloping for Kansas in his Spaulding hack. The Texas early day settlements offered a lucrative field for this tribe of skimmers. About the only family man who could play safe was the fellow with an infield rifle, and a glass-eyed pony that could run a hundred miles without feed or water. It was seldom that any of the agents put up at a home of this 'defensive' type because the man who had been stung once was black-listed for future visitations of this merciless tribe of financial marauders.

**INDIVIDUAL ARMIES.**  
Our exchanges from the east indicate the organization of a number of civilian anti-parachute troop legions. They propose to pump off parachute troops of the enemy and sabotage organizations at home. They are to secure arms from the war department and the National Rifle Association. By the time this appears in print, there will be thousands of such clubs organized. Individuals of America do not think Hitler's hordes will come out armed with a double-barreled nigger shooter as evidently did some of the European nations.

**HELL AHEAD.**  
At a curio shop in the west end of Little Pie Town in the Mogollon mountains west of Magdalena, N. M., appears this sign: "Hell ain't a mile west of here. Better get your water here." Most all the travelers stop and fill up their drinking vessels with the mountain drip spring water that tastes like melted snow. But after all, Hell is not far across. Within two hours one can drive into Springer-

ville, Arizona without any trouble. When they stop for water, they also purchase curios.

**LOST ARTICLES.**  
If more people would go to newspaper offices after losing articles, they would likely find their property. Here at the Leader we often accumulate bushels of keys, a few gloves of various kinds, and miscellaneous articles "too numerous to mention."

Come in to see us sometime.

Announcement is made this week of the marriage of Mrs. Eva Hill and Lee Holland at Rotan April 27, 1940. The ceremony took place at the home of a sister of Mr. Holland, Mrs. E. E. Patterson.

Local relatives present included sisters of the groom. They are Mrs. M. G. Whitfield of Hedley, Mrs. B. J. Leathers of Lelia and Mrs. C. R. Piercy of Palo Duro.

Announcement of the wedding was delayed until the bride completed her school term, she having taught at Sanford the past winter. The bridal couple left for the Pacific coast on a wedding trip Sunday.

Mr. Holland has long been in business in Clarendon where the Holland Bros. have been identified with the auto service station and allied interests for several years. Mrs. Holland is a degree graduate of West Texas College of Canyon, a talented musician and school teacher of several years experience.

# Marlene Dietrich, James Stewart In Big Western

Marlene Dietrich in the role of a frontier entertainer co-stars with lanky James Stewart in Universal's "Destry Rides Again," which opens Saturday Nite Prevue at the Pastime Theatre.

One of the season's most unusual pictures, "Destry Rides Again" is a marked departure from Miss Dietrich's recent screen roles. It is said to afford her a characterization greatly similar to her work in "The Blue Angel," the film in which she first attained stardom.

Producer Joe Pasternak, the man responsible for the Deanna Durbin and Gloria Jean successes, has assembled an imposing supporting cast for "Destry Rides Again." The list of players include Mischa Auer, Charles Winninger, Brian Donlevy, Irene Hervey, Una Merkel, Allen Jenkins, Warren Hymer, Samuel S. Hinds, Billy Gilbert and many others.

# ator who draws Marlene's wrath on his own head. The fight was five days in the filming and is rated the feminine counterpart of that historic battle in "The Spoilers."

Stewart, mentioned for Motion Picture Academy honors for his work in "Mr. Smith Goes to Washington," contributes one of his best jobs in the title role of "Destry Rides Again." He appears as the shy young deputy sheriff who brings a new order of civilization to the rough town of Bottle Neck by showing the people that guns aren't essential to law and justice.

As the singing, fighting star entertainer of the Last Chance saloon, Miss Dietrich has a role that gives full scope to her talents for drama, comedy and music. Her costumes, ranging from the sketchiest brevities to a highly decorative cowgirl outfit, are in keeping with the part. Songs written for her by Frank Loesser and Frederick Hollander include "Little Joe," "You've Got That Look" and "The Boys in the Back Room."

The picture tells the story of Destry's fight to rid the town of Brian Donlevy's gang and make the country safe for honest ranchers and townspeople.

**WHEAT ALLOTMENT SHOULD BE ADJUSTED NOW**

Anyone who wants to plant wheat in 1940 and who has not planted wheat in 1937, 1938, 1939 should call at the County Agent's office and make a request for a wheat allotment, indicating the number of acres he would like to plant. This should be done on or before June 15th in order that he may get as near the acreage requested as possible. Farmers intending to plant wheat this fall for any purpose are cautioned that

the acreage planted to wheat will be used to determine a usual wheat acreage for their farms. This acreage will then be deducted from their cropland, and their cotton allotment will be correspondingly reduced. To prevent lowering of the cotton allotment on the farm, general soil depleting crops such as winter barley or rye should be planted instead of wheat.

Mrs. W. C. Bridges is said to be improving in health following an operation in an Amarillo hospital.

**Ellzey Urges Conservation Of Youth As 'First'**

PERRYTON (Special) Tom Ellzey, Perryton rancher and candidate for Congress, carried conservation one step further today in his official announcement for that office when he stated that "Conservation of Youth is of paramount importance."

"If my platform consists of any more important planks," Mr. Ellzey said "it is conservation." "I believe we should conserve our natural resources with special emphasis on the conserving of soil, but of more importance is the conservation of youth so that this nation will have men capable of handling resources for the future."

"There is a dire need of a congressman to follow Marvin Jones that will fight to hold what he (Jones) already won and one capable of taking advantage of future possibilities that may arise and be of benefit to this Panhandle country," Ellzey declared.

"I am no lawyer," Mr. Ellzey said "but that should be in my favor as no client of mine could even expect special favors in lieu of attorney fees on previous or anticipated cases." "Every person in my district would be my client and it would behoove me to fight for these things that would improve my entire district and not just a selected few."

"I believe the Lake program one of the most important government projects ever presented and if I am elected to your congress will do my best to see this program is continued and more lakes be designated for the area."

Tom Ellzey is no stranger to Washington. When he came to the Panhandle in 1917 he brought a message from the capitol and immediately was made secretary-manager of the Food and Feed Production campaign for the World War. This association was organized by Panhandle cattlemen's Association headed by Bob Masterson and including such names as P. H. Landerger, Jim Hamlin, W. H. Fuqua, Tom Coble, Ed Brainard, Tom Mooty and others. Ellzey held this position without salary and when the state organization went into effect that August the Panhandle organization was appointed to continue its efforts. "I was sent to Washington several times for funds," Mr. Ellzey said, "and we always got what we went after."

It was in 1917 that Mr. Ellzey coined his name into a famous brand and founded the L-Z ranch that is known to every boy in the nation who loves ranch life and the great outdoors. For 8 weeks this ranch is devoted to the welfare of boys 15 years of

age and under and offers a real ranch educational vacation to the lad who wants to do more than dream of a cow pony and chuck wagon.

Each summer boys from over the nation drive into headquarters, soft from easy city living, but when they leave the L-Z they talk the cow boys language, can handle a cow pony with the best of them, cook a meal over a camp fire, milk, brand, and all those chores a boy loves to do. Each lad camping in the bunkhouse at the L-Z is taught the true meaning of religion. Church work is imperative, it is true, but the feelings of fellow man, what makes a good sport and self reliability are the things those boys remember long after their L-Z ranch work is but a memory.

Mr. Ellzey, a mason, is noted for his charity and church work and of all the honors he has won both civic and elective he points with pride to the fact that he and Mrs. Ellzey founded the highest standard county Sunday School organization in the world while he was a resident of Kiowa Co., Okla., prior to his moving to the Panhandle twenty years ago.

It was while associated with his Sunday school work that he met Mrs. Ellzey, who was secretary of this famed Sunday School organization, while her husband was its president. Mr. Ellzey tells how he met his wife and helper as being at a Sunday school meeting. Mrs. Ellzey was taking up collection from the audience and Mr. Ellzey saw her for the first time. "I decided I wanted that girl," Mr. Ellzey said "and I spent a dollar to attract her attention and then with a sly wink, added, 'And I've been spending them every week since.'"

Tom Ellzey is sincere in his race for Congress. From the point of his well-worn boots to the tip of his Stetson, he is the cowboy and lover of the soil. He realizes his experience has qualified him to talk the Western language and he is just as sincere in his desire to be of assistance to his fellow man. That sincerity has branded him throughout the Panhandle in the eyes of his friends as being a cowboy who can "savvy the politicians lingo."

Mr. Ellzey has turned the managerial duties of the L-Z to his son, Lawrence Ellzey, who is also well known throughout the Panhandle area.

"This is an Oil Range." That information, on a placard on top of a range on a store floor, is indicative of the improvement in oil stoves in the last few years. The oil range, with its gleaming white porcelain cabinet completely enclosing the burners, could not be distinguished from the gas and electric ranges with which it stood.

**AMARILLO CLIMBS INTO CITY CLASS WITH 1940 CENSUS**

The former "Argonne of the Plains," handicapped for years by hick constables and the worst police system extant because of being politically owned, blossoms forth as a city and the "metropolis of West Texas."

Amarillo had a population of 43,132 in 1930. The recent census shows a population of 51,497, an increase of 8,365 over a period of ten of the hardest years known to West Texas since the Indians turned it over to the white man.

Mr. and Mrs. Marvin Allred and children of Altus, Okla. spent the week end here with his aunts, Mrs. T. Jones and Miss Cora Ferris, and other relatives.

Do you know why Sinclair Motor Oils last so long? It's because Sinclair takes an important extra refining step. And that step is taking out wax and petroleum jelly, which are non-lubricating substances.

**"HE WOULD APPROVE OUR RECORD HERE"**

The cost of all Electric Service used in the average home today is no more than for light alone just one generation ago.

**Something ought to be done about this!**

**F**ORTY years ago there were few women who didn't know the back-breaking misery of doing a family washing over a tub and a washboard.

"Today, few women have that experience.

What made the change? First of all, someone said, "Something ought to be done about it."

In those words you have the real slogan of America. Great inventions, great industries, great social benefits result from Americans' deep desire for better living. The electrical industry, for example, was founded by Thomas A. Edison, a man who spent his entire life looking for better ways to do certain things; and today the people of your electric company carry on in the Edison tradition. They belong to the great army of workers—engineers, scientists, linemen, managers and many others—who give the United States the finest, cheapest electric service in the

world. Yet they continue their tireless efforts to improve the quality of electric service and to reduce its cost.

Within the last fifteen years, these employees have done their work so well that this company has been able to cut the unit price of electricity just about in half. That means you can now use electric light, a radio, electric refrigerator, washing machine, vacuum cleaner and toaster for a total operating cost very little, if any, higher than you used to pay for light alone.

The aim of your electric company's employees is always to give you better service at less cost. Foremost in their minds is the thought, "Something ought to be done about it."

Agricultural and industrial growth; sites of scenic beauty and historical significance; great natural resources; fine highways; splendid educational institutions, and a delightful all-year climate. ### Conoco Gives Mile-Dial With Gas Purchase

SMALL INSTRUMENT HELPS YOU WITH BUDGET ON EXPENSES OF YOUR TRIP

PONCA CITY, OKLA., May 22—A device by which motorists can quickly and accurately measure their gasoline mileage is being introduced to-

day by Continental Oil Company in a nationwide newspaper advertising campaign which includes your Donley County Leader.

The "Mile-Dial" is a simple device which keeps count of the number of gallons of Conoco Bronz-z-z gasoline purchased and the number of miles traveled during the test, and automatically calculates the miles per gallon by a simple turn of the dial. The dial, which can be obtained free at service stations selling Continental Oil Company products, can be attached to the dash without marring the surface or can be carried in the glove compartment of the car.

With it the motorist can make frequent checks of the mileage he obtains from Conoco Bronz-z-z gasoline and can at the same time easily accumulate his purchases and miles traveled, so that an average miles-per-gallon over a long period can also be determined.

The Mile-Dial was invented by Continental Oil Company engineers, and its mathematical accuracy has been certified by F. A. Bergen, chairman, mechanical engineering department, Washington University.

Read the Conoco advertisement on this page for further information.

**MATTRESS MATERIAL and FREE INSTRUCTIONS GIVEN**

County Agent, H. M. Breedlove, stated this morning that a mattress program was now available for all families who live on the farm including farm day laborers. The mattresses are available to those families whose income is less than \$400 per year. Any person who thinks that his family is eligible to receive one of the mattresses can make application at the County Agent's office or with his local AAA committeeman. After all applications are filed with the County Agent, they are then to be inspected by the AAA County Committee and they will determine whether or not the application is eligible to receive a mattress. Breedlove stated that all persons who were eligible to receive these mattresses would make their own mattresses. These mattresses will be made at several designated places, and there will be a local supervisor who will supervise each family and show them how to make the mattresses. The cotton and ticking is all furnished free of charge, and there is no cost to the making of the mattresses other than the fact the family will make their own mattress.
