Governor Urges Defense Plans

AUSTIN, March 26.—Community problems incident to national defense activity in Texas are receiving close attention at this time, Governor W. Lee O'Daniel announced today.

The Governor's Office, as the clearing house for national defense matters in Texas, is in daily communication with the Mayors and their designated representatives in defense areas of the State, and is endeavoring to assist these localities in handling the unusual situations arising in light of the emergency expansion.

Seventeen agencies of the State government have also been asked by the Governor to give technical help in making surveys and formulating recommendations for action on matters pertaining to health, welfare, transportation, water supply, fire and police protection, labor supply, housing, recreation, and related subjects.

After detailed surveys are made of the local areas, in collaboration with municipal authorities, the state agencies are clearing their reports through the Governor's office where the information and suggestions are assembled and charted for action.

Matters requiring the cooperation of Federal agencies are communicated by the Governor to the proper authorities of the national government. James B. Marley, regional director of the Social Security Board, San Antonio, has been designated as Regional Coordinator for the Federal government and is in daily contact with the office here, Governor O'Daniel said.

MEMORY LANE

(10 years ago in Donley county.)

According to information furnished the Leader by W. Cecil Alexander, local income tax expert, only 15 percent of income tax has been paid as compared with last year.

Admissions being paid with food, to see the Legion play "School Days of '49," over 5,000 pounds of food was stacked up in the College Auditorium at the close of the play Friday night. The food is being collected for the needy.

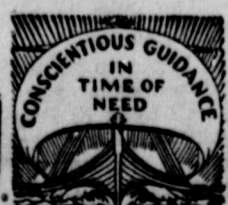

DEPENDABILITY

PLOWING thru the deepest drifts, braving Winter's most icy blasts, the country doctor will "get there" . . . if it is humanly possible. These servants of humanity are dependable!

Whether you choose simple or elaborate appointments, our staff will carry out your wishes faithfully and capably. Dependability is a mark of our service.

Visitors To See Soldier Boys

Camp Bowie, March 24.—Relatives and friends of men quartered in Camp Bowie who feel that they may never get the opportunity to see just how the young men of the Thirty-Sixth Division live are provided with a very comfortable quarters under just such conditions.

The Guest House, equipped with the same type of cots, mattresses, blankets, sheets and other bedding, is open to visitors. The only difference between the quarters there and those of the men is that the guest house is a frame building whereas the soldiers are quartered in walled tents. Mother and Dad may now come

down, spend the night in Camp Bowie and know they have occupied the same type beds as their sons.

Reservations are made by addressing the Senior Hostess, Camp Bowie, Texas. Rates are \$1 per night for one person or \$1.50 for two. Each room is equipped with two cots.

Guests are allowed to stay two nights on week ends and one night through the week. This rule, however, is altered in the case of a person who has a relative seriously ill in the hospital.

A guard is maintained at all times. His duties are to answer questions and otherwise aid the visitors. The reading room is open but the cafeteria is not functioning yet due to lack of equipment.

Guests may be informed of bus or train schedules from hostesses, may find and get word to soldiers they wish to visit and arrange to meet them at the Guest House.

Rules of the Guest House are the same as those governing the remainder of the camp. Guests must return to camp by taps each evening.

Mr. and Mrs. Fred Buntin were among the large number to hear Helen Keller lecture in the City Auditorium at Amarillo Sunday.

Mrs. Walter Lowe, Mrs. Pete Koontz and Mrs. Karl Adams were in Amarillo Friday. Mrs. Adams remained until Sunday to visit with her daughter Rachel Melton.

THE TEMPLE OF TRUTH

 By the Apostle

Moisture means much to our section. We have it in great gobs just now. Lots of rain and the snow Tuesday night will help put the land in fine condition for growing crops that will be sorely needed to feed half the people of the Globe during these war times. If I had my way about it, I would urge that food in every form be grown this season to the limit of production. We had a war and were put on rations. The time to begin is to prepare for the "pinch" now. There will be a market for all that can be produced.

After shipping scrap iron to Japan for three years with which to fight us, we are now urged to gather up the remnants and send it to Britain to protect us. The drive has already started. "Scrap Iron for Britain," is the present-day slogan. These commercial

wars get my goat. I can't understand them. * * *
 Cong. Gene Worley has an office next door to Judge Sam Russell of Stephenville, also a new congressman. Don't you know those fellows have some interesting conversations about their new jobs! Anyhow, our Gene is snapping right into it and getting the job done. * * *

War times also produce a cold-blooded bunch of fakirs. Right now the "war relief" racket is being worked in many places. If we will confine our efforts to contributing to the Salvation Army and the Red Cross, we will play safe. * * *

Since the beginning of the war in September of 1939, an average of 23 short wave stations per month have been destroyed by officials in England after they were caught helping the enemy. What do you suppose is going on in the good old U.S.A.?

This column is cut short this week because of the crowded condition due to advertiser demand. We must carry a certain amount of news that the writer feels is of more interest to subscribers of your Donley County Leader. * * *

Governor O'Daniel is standing pat for action in the Legislature. He wants the boys to come out into the open and do something about social security which includes help for the aged, the blind, and the state's share of teacher pensions. His idea about strikes in defense plants is arousing a lot of interest, too. More power to you Governor. * * *

Chiropractics

The kidneys are considerably smaller in size and are situated higher in the back than most people seem to think. According to E. W. Cordingley, however, in a recent article in Nature's Path, the kidneys actually weigh from four to six ounces and are only about four inches long, two and one half inches wide, and only one inch thick.

Another popular misconception about the kidneys is that backaches point to kidney disease. Mr. Cordingley says this belief has no foundation in fact. One person may suffer from recurring or continual backaches and never have kidney trouble, while another may die from Bright's Disease without ever having a backache. If a person has both kidney disease and backache, one does not necessarily have a connection with the other, but on the contrary it is probably that each is independent of the other, old notions and other ideas claims notwithstanding.

CARD OF THANKS

To the many friends whose deeds of kindness and loving help and beautiful flowers helped us to bear the heavy burden of sorrow, we wish to pray God's blessings on each of you. Without friends, life would indeed be bare and may each of you when life's sorrows come have the joy of loving ministry of friends who so faithfully have practiced the Golden Rule in our dark hour of sorrow. Words cannot express our deep sense of gratitude.

Mr. and Mrs. L. T. Mays and Children.

FIRST METHODIST CHURCH

J. O. Quattlebaum, Jr., Pastor
Our Pre-Easter series of services begin Sunday. We will have services every day at 10 a. m. and 7:30 p. m. throughout the week following. Our slogan, will be, "Come let us reason together." The membership of the church is urged to attend these services, and the entire citizenship of Clarendon and surrounding country is most urgently invited to be with us. We believe that a good revival will help every one.

Mrs. Hattie Palmer and son Jimmie spent the week end with relatives in Amarillo.

Mr. and Mrs. Bert Ayers, Mrs. Clea Stogner and children, Gilmer Ayers and children, Gayle and Laquita, visited Mr. and Mrs. Eads in Pampa Sunday.

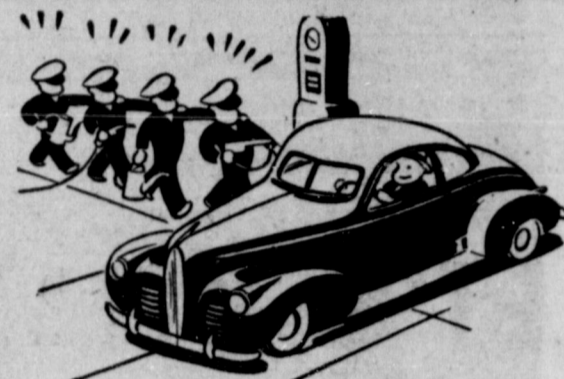

503 WEEKLY PRIZES ARE GIVEN FREE

More than \$500 in cash prizes are given away each week by the producers of Admiration coffee. Turn to the advertisement on Page 2 of this issue and learn how you may share in the distribution of these gifts. Some West Texas ladies have already shared in the gifts. You have all to win and nothing to lose. Try your luck now—today.

F.F.A. Boys Have Broiler Projects

Approximately forty F. F. A. members have started over 3,000 baby chicks this spring and plan to start approximately that many more before the hatching season is over. The boys' chicks range from baby chicks to broilers of approximately one and one-half pounds. A small portion of the chicks are cockerels, but the majority are straight run chicks and sexed pullets. The youths plan to sell approximately half of their chicks as broilers, and to keep the other half as pullets for their egg producing flocks this fall.

The majority of the chicks have been purchased from the Clarendon Hatchery, a member of the Texas Baby Chick Association that is sponsoring a state contest for F.F.A. Chapters throughout the state. The local youths plan to enter the contest which is based on number of chicks raised and the quality of the improvement program carried out by the various F.F.A. members.

C. G. Kirkland, Bobbie Harold Smith, Lee Christie, Redell Henson, J. F. White, Roger Hester, Calvin Naylor, Harold Donnell, are among the youths who have started over a hundred chicks each. White Leghorns, Barred Rocks, Speckled Sussex, White Giants, New Hampshires, Buff and White Orpingtons, Rhode Island Reds, Anconas, Partridge Rocks, White and Columbian Wyandotes, and Rhode Island Whites are proving to be the most popular breeds among the boys.

Thomas Mitchell, portraying a fightin' Irish seaman, is always on the alert for excitement and he gets plenty of it in this dramatic scene from John Ford's Argosy production, "The Long Voyage Home," film version of Eugene O'Neil's great sea play which shows Wednesday and Thursday at The Pastime Theatre.

Famous Names Listed On Rolls At Fort Sill

Herbert Hoover, Robert Taylor, Henry Ford and Al Smith are expected to attend the 45th Division's final Oklahoma review at Fort Sill tomorrow morning—and march with the soldiers.

That's because these men are already members of the 45th Division and it's only a coincidence that their "handles" are the same as those of notables.

A million kids, who faithfully follow the adventures of Dick Tracy in the comic books, would be dumbfounded to learn that boy in the 45th Division bears the same monicker and marches—as a private—in the rear ranks of 1st Battalion Headquarters battery, 160th Field Artillery, Roff, Okla.

"Eleanor" isn't found among the Fort Sill troops—this is a man's army—but representing the White House are George Washington, John Adams and three Woodrow Wilsons.

Henry Wallace and "Jimmy" Walker have registered for a year's training, but their names are more likely to be found on their company KP roster than in any political blue book.

Robert Ripley, believe it or not, has a namesake among the soldiers, but his cartooning is limited to pictures on certain walls.

Names of notables flourish in the ranks of the 45th. To name a few, there's John L. Sullivan and Fred Perry; Al Simmons and Walter Johnson, Billy Rose and George White, and Jesse James. John L. Lewis—without association with labor unions—totes a rifle.

Girls always ask "What's your name again?" when soldier boys James Stewart, Robert Taylor and Bob Young introduce themselves.

Gripping Drama Of Sea In Ford's New Picture

Speaking of pictures, John Ford can take love or let it alone.

Every Ford picture has love in it—but not the "Boy Meets Girl" type of love. Now and again he films a conventional love story but his finest pictures have ignored Cupid.

"With a great story, you can get along without love interest," Ford says. "Sometimes it's necessary. But if it doesn't belong, it should be left out."

Ford's Argosy production, "The Long Voyage Home," which was filmed at Walter Wanger's studio and which shows Wednesday and Thursday at The Pastime Theatre gives Cupid the go-by. John Wayne is in love—but with the soil. Thomas Mitchell is in love with life. Eugene O'Neil, who wrote the story, left it out and so did Dudley Nichols and Ford when they wrote the script. There are women in it, but they are native girls or Cockney drabs, for there is realism in this picture which tells a gripping and momentous story of men who dare the perils of sea and sky.

Ford isn't prejudiced against love stories. When he gets an assignment like "Arrowsmith" or "The Hurricane" he gives Cupid more than his due. But he doesn't believe in tossing it in willy-nilly. It has to belong or he lets it alone.

Governor Calls Attention To Tourists

AUSTIN, March 24. — Tourist literature available in Texas is listed in an information bulletin sent today from Governor W. Lee O'Daniel's office to Governor's Industrialization Committee in 238 towns of Texas and to tourist agencies throughout the United States.

It was stated at the Governor's office that requests in great number are received from all over the United States for information regarding the attractions which Texas offers for tourists.

Many travel agencies and publishers of travel guides have asked for a bibliography of literature on the subject. In cooperation with state agencies and various civic organizations, the Governor's office has compiled such a list for distribution throughout the nation.

In his weekly radio broadcasts, Governor O'Daniel extends an invitation to tourists to visit Texas, and the mail is particularly heavy after these programs.

Scrap Iron For Britain Next

Back yards and farm lots all over Texas are to be rummaged for scrap iron for Britain. A movement started by Fred McDuff of Oklahoma to give everyone a chance to throw in his bit, is spreading rapidly throughout the state.

R. G. Soper of Dallas has been appointed State Chairman for Texas and is seeking to organize the entire state for the systematic collection of old, abandoned and useable iron which is lying around virtually everywhere. The plan is to assemble the iron for transport to the mills where it will be reduced into billets and shipped to England for bullets, machine guns, and other armaments of war.

The first carload of scrap iron for this purpose was assembled in Sherman by the Sherman Lions' Club and for this reason the Lions Clubs of the state are volunteering to take the lead in organizing the campaign in their towns.

Vacant lots for the deposit of iron are being loaned by owners, and lumber yards are providing signs for the lots reading "Deposit Iron for Britain Here." In many cities employees of the street, fire or police departments have volunteered to place the signs in position, and transfer companies have offered to haul the iron to railroad yards.

"Here is a way for every person to do at least something for the vital cause of Britain and to do it with practically no expense," said Mr. Soper. "Nothing is more important to England's defense than iron. No movement yet projected gives every person in the land a more glowing opportunity to do his bit. Just bear in mind that 110 pounds of scrap iron which can be picked up in a few minutes' search can make a machine gun firing 300 shots a minute."

BROTHER IN CANADA WINS FIRST PLACE IN ESSAY CONTEST

A short time ago the Metropolitan Opera Company's manager offered a prize for the best essay on "Appreciation of Metropolitan opera company's broadcast." The prize consisted of a stay of a week in New York City, all expenses paid.
 A young man of the farm, used to milking cows and other chores, won that first prize over all contestants from Canada. He is Lawrence Wilton, a brother of Mrs. Cecil E. Harvey, wife of the pastor of the First Christian church here.
 In addition to the prize noted above, he was permitted to take along another person to enjoy the treat with him. He chose his sister, Miss Luella Wilton. They attended the opera, saw the sights, broadcasted and were "autographed" galore.

EVERY SCHOOL AND EVERY BUSINESS HAS ONE OR TWO

In a school full of bright, self-respecting students, there are very likely to be one or two completely lacking in good common sense. And that goes for business, too... particularly the beer retailing business.
 Out of thousands of beer retailers who conduct respectable, law-abiding businesses, there may be a few "dunce" retailers who disobey the law or permit anti-social conditions.
 These few unwanted retailers are a menace to the future of the beer industry... and also of the benefits beer has made possible. Right here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.
 It is the brewers' responsibility to make good beer—the retailers' responsibility to sell beer in wholesome surroundings—and the legally constituted authorities' responsibility to enforce the laws. All of these, working together with the public, are needed to protect the future of beer.
 You, too, can help the cause of moderation by (1) patronizing only reputable places where beer is sold; (2) and reporting any violation you may observe to the duly constituted authorities.

BEER...a beverage of moderation

UNITED BREWERS INDUSTRIAL FOUNDATION

County Judge To Capitol

County Judge R. Y. King left here for the national capitol Saturday afternoon. He was accompanied by Mrs. King and the twins, Mrs. C. McCauley of near Goldston made one of the party. She and Mrs. King are each said to have sisters living in Washington whom they are to visit this week.

The trip was occasioned by the fact that Miss Rachel Webb had secured a federal position up there after taking a civil service examination some time ago. Miss Webb's home is in Tell, Childress county, but she has been employed in Clarendon the past two years where she has attended College.

Club Boys Get Calves Ready

County agent H. M. Breedlove stated this morning that Donley county 4-H Club boys were putting calves on feed for the coming year. Breedlove says that there will be approximately 40 calves on feed for the coming year.

The 4-H Club boys with hogs on feed for the fall shows are doing fine. It is estimated that approximately 50 hogs will be shown in the fall pig show at Clarendon and then from here will be shown and sold at the State Fair at Dallas. The boys are looking forward to the coming shows even if they are one year off. The boys are in good spirits from the results of the past year, and are working hard to get all of their demonstrations started for the coming year.

The wonderful spirit that prevails among the boys is due a great deal to the backing that has been given the boys by all of the citizens of Donley county and fine way that they have encouraged the boys in their work.

F. F. A. BOYS FIND HOME MIXED FEEDS ECONOMICAL

Members of the local F.F.A. chapter and farmers who have participated in the adult farmer schools are putting their book learning into practice this week when they mixed over six thousand pounds of chick starter for their own individual use at approximately one half the cost of commercial feeds of the same composition. Several weeks ago a small amount of the feed was mixed by the local youths and their broilers have fared so well that they are feeding the feed to all of the chicks. A number of adult farmer school members are using the feeds at this time.

The materials for the feed were purchased at the local feed stores and drug stores and the starter was mixed for a cost of \$1.53 per hundred pounds. Ground milo, yellow corn, oats and barley, grey shorts, meat scraps, ground alfalfa, cotton seed and soybean meal, salt, limestone, and cod liver oil was used in the mixture. Members of the classes or the adviser J. R. Gillham, will furnish the formula for mixing the feed upon the request of any patrons desiring to use same.

W. E. SCHOTT DIES AT PLAINVIEW

Schott Cap is known to every old-timer in this section, that being the place selected for the highway up the Cap between here and Silverton almost forty years ago. It was named for W. E. Schott, well known rancher.

Mr. Schott died last Monday in a Plainview hospital at the age of 71. He helped to organize Briscoe county in 1892 where he acquired ownership of extensive ranch lands. He is survived by his wife, three daughters and a son, all of whom reside in or near Silverton except Miss Elizabeth Schott who resides at Shamrock.

WEEKLY MASS MEETINGS HELD BY AGED

Those eligible to draw pensions are holding mass meetings every Sunday afternoon in the district court room in Amarillo, according to a letter from W. A. Delano of 314 Crockett Street there.

Mr. Delano invites eligibles from every county in the Panhandle to attend the meetings, in his request to your Donley County Leader to give the matter publicity.

Mr. and Mrs. Dewey Herndon and children returned home from Oklahoma where he had moved his sister and family, Mrs. Albert Cobb, where she will make her home.

F.F.A. JUDGING TEAMS TO COMPETE AT LUBBOCK

Livestock, poultry, and crop judging teams from the Clarendon F.F.A. Chapter will participate in the Annual Texas Tech Judging Contests Sat. March 29, in competition with some 86 other Panhandle schools. Local F.F.A. members have been working overtime this week in an effort to be ready for the contests, but the prospects are none too bright as none of the boys working out for the three teams have ever participated in any kind of a judging contest.

H. A. Harrison, Jr., Donald Thigpen, Frank Mahaffey, Calvin Naylor, and Billy Jack Land are working on the crop team. Billy Jack Green, Roger Hester, Ray Pittman, Johnnie Beard, H. C. Shaw, Harold Donnell, Gayle Pyeatt, and Troy Moffett, are working out for the poultry team; and Jack Riley, Ray Robertson, Bob Word, Billy Ray Graham, W. C. Gunter, Billy Moreland, Fleetwood Cornell, and Victor Smith have been working on livestock. The nine youths making the teams will leave for Lubbock Friday morning and return to Clarendon Saturday afternoon.

T. L. LOVELACE WAS 103 MONDAY

Following the usual custom, an all-day celebration was held at the Church of the Nazarene in McLean Monday in observance of the birthday of T. L. Lovelace, member of that church. He was 103 according to papers which he has showing his discharge from the Union army at the close of the Civil War.

"I quit liquor and tobacco forty years ago and have spent the greater part of the last fifteen years playing dominoes without worrying about anything." That was his answer to the question as to how to live to be a hundred.

Mr. Lovelace has all of his faculties. He enjoys good health and often visits friends and relatives here and at Hedley.

Mrs. W. A. Land, Mrs. Buel Sanford, Mrs. J. H. Harris and Mrs. Nolie Simmons were visiting and shopping in Amarillo Friday.

Mrs. Frank Whitlock and Mrs. Clarence Whitlock were visiting her brother, Eugene Bryan at Amarillo Monday. Mr. Bryan is improving slowly.

A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

- 1 A \$21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order for 4,236 eighteen cylinder, air-cooled, double-row, radial engines.
- 2 We are building a new \$800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.
- 3 Army reconnaissance cars — military vehicles of an entirely new type — are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.
- 4 The government has given the "go-ahead" and work is now under way for the fast construction of an \$11,000,000 Ford plant to produce bomber airframe assemblies by mass production methods.

- 5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.
- 6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if need be, to make it as fast as we can go, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.
