John Fraser, near Boydston, praises Nicaragua wheat which he tried out last season. He has a large crop growing now, almost ready to harvest.

LOWER REQUIREMENTS FOR ARMY DUTY

Since the lowering of the requirements for enlistment in the Regular Army Air Corps, states Major Jesse, U. S. Army Recruiting Officer for this District, there have been many young men with only an 8th Grade education who have succeeded in passing the War Department Test and thus were acceptable for this branch of the Service.

Most of these young men chose for their assignment, the 14th Pursuit Group, March Field, California, all though there are also vacancies at the Air Base Detachment, Fort Sill Oklahoma and for the Photo Group, Lowry Field, Denver, Colorado. Appli-

cants for enlistment in the Photo Group must desire Photographic training.

The majority of the young who enlisted this month have decided to take the Airplane Mechanics Course through the Air Corps Technical Schools, open to any enlisted man of the Air Corps, for these young men quickly realized the value that such training will be to them in later years in Air Transportation.

Applications for enlistment in the Regular Army Air Corps can be made at the nearest Army Recruiting Station where young men with out a High School diploma will be given an opportunity to take the War Department Test.

Where's the best place to choose your new car?

ON THE ROAD!

WE'LL MATCH the "showroom value" of the Ford with anyone... but if you want to know how great a car this is, take one out on the road!

TEST THE PERFORMANCE... IN ACTION. There never was another low price engine like this 90 horsepower Ford V-8. Take it out in traffic—then step out on the open road—challenge the toughest hills. Draw your own conclusions!

TEST THE RIDE... IN ACTION. Ride on the pavement, then ride the roughest road you know. You'll find the new Ford ride is the kind of ride you like. Smooth where the going's good. Soft and steady over the bumps.

TEST THE ROOM... IN ACTION. Measurements show

this Ford greatest in its whole field in actual passenger space. A ride will show what this means. Bigness counts and here it is!

TEST THE VALUE... IN ACTION. Stop with the biggest hydraulic brakes anywhere near the price. Rest your toe on the pedal of a fine-car type of semi-centrifugal clutch. Flick through the gears with the easy, silent kind of finger-tip shift that high-priced cars use.

GET THE FACTS AND YOU'LL GET A FORD!

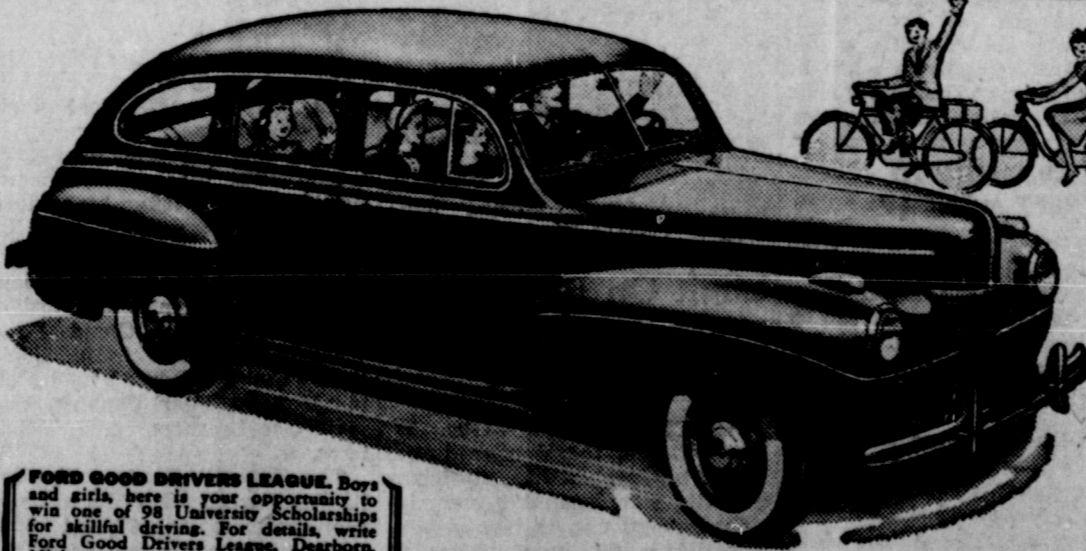

FORD HAS THE QUALITY FEATURES

V-8 POWER—90 smooth horsepower. There never was a low price engine like this before.

NEW BEAUTY—When you look at the smooth flowing lines you see one of the few cars with really up-to-date styling this year.

A NEW RESTFUL RIDE—On the new Ford "Slow Motion Springs." A soft, quiet ride wholly new this year.

EXTRA VALUE—New ease of control with positive mechanical, fine-car type shift—extra-big hydraulic brakes—and the famous Ford semi-centrifugal clutch.

FORD GOOD DRIVERS LEAGUE. Boys and girls, here is your opportunity to win one of 98 University Scholarships for skillful driving. For details, write Ford Good Drivers League, Dearborn, Mich., or see your Ford Dealer.

THE TEMPLE OF TRUTH
By the Apostle

WANT THE PROOF.

It's about time for the fishing liars to begin to get in their heaviest lies. I want to serve notice, here and now, that no outrageous fish stories cracking veracity or straining the imagination, will be printed until the proof of such alleged facts are submitted. Bring in the fish, boys.

BOKAYED A PLENTY.

Oola Yurt says she saw a bride Sunday with a bouquet on her shoulder, while the groom had nothing but a pint of four roses on his hip.

CURIOSITY.

Hastoon Yazzie relates how Bachelor Bill is going to celebrate his birthday. Old Bill says he has always been a model of propriety, never got mixed up in a woman scrape, indulges in no vices or excesses. "Now I want to know how in he -- a man can celebrate

without the makins", suggested old Hastoon.

BORN LEADER.

Without no other distinction than that of being a good whistler, some men brag about having the toughest beard in the community.

FIRST ITEM.

Cleanliness may be the first item in a modern kitchen, as a ladie's magazine suggests, but a can opener is a close second.

POLITICIAN.

A politician is one capable of untying a political knot with his teeth after it refuses to yield to his tongue.

ROCK-A-BY-BABY.

How do you like the latest air lanes nursery song? I mean that one called: "There'll Be Some Changes Made!"

SCIENTIFIC!

Many a flapper has wondered at the heart beating against her ear through a uniform, when her

mother, wooed in the early days of the Ingersoll, could have told her it was only a dollar watch.

THE FAITHFUL.

A dog and a bill collector are the only things that will follow you after you haven't got a cent left.

WASTEFUL AMERICANS.

A middle aged woman lost her balance and fell out of a first floor window of a hotel and landed upside down in a garbage can in the alley. "Now just look a' that!" mused a passing Scotsman. "The wastefulness o' these Americans. Wy, in Scotland, that woman wud be gud for two years yet!"

UNANIMOUS.

"How many kinds of wood are used in making matches?" inquired Ozzie Yazzie. "Just two kinds," replied Ima Fizzle. "He would and she would."

HISTORICAL.

Inquisitive Queen of Sheba meeting King Solomon early of a

morning said: "Who wuz them 1,000 ladies I seen you with last night!" Old Kingy broke down and fessed up to: "Seben hunnert is my wife, an' the tuther three hunnert ain't no ladies!"

DRESSED PARADE.

A local school boy describing his first Scottish band in action at Amarillo last fall said: "Some men marched around with skirts on, and every one played a vacuum cleaner that need greasing!"

IN CLOSING.

Well, as the hole said to the doughnut, "I wouldn't be here if I had your dough!"

Eating Surplus Farm Products

COLLEGE STATION, May 1.—Twenty-two Texas counties will benefit from the food stamp plan for distributing surplus agricultural commodities, following an announcement of the USDA's Surplus Marketing Administration.

Counties to which the program has been extended are Willacy, Cameron, Coleman, Jones, Briscoe, Donley, Collingsworth, Gray, Falls, Wheeler, Howard, Baylor, Jefferson, Caldwell, Bastrop, Navarro, Coryell, Grayson, Denton, Kaufman, Johnson, and Henderson.

Population of these 22 counties, according to the 1940 census is 730,343. It is estimated that there

are approximately 41,690 families representing 147,940 persons, receiving public assistance in the area. Actual operation of the plan is expected to begin about May 15th.

Other good news for farmers of Texas and the remainder of the nation came with the announcement of the Department's purchase of food supplies during the first two weeks of April. These foods include 9,160,000 pounds of dried beans, 175,000 cases of canned grapefruit segments, 528,335 cases canned grapefruit juice, 1,109 tons fresh grapefruit, 33,264 boxes oranges, 150,529 bushels of fresh apples, 272,998 bushels white potatoes, 15,000 tons raisins, 696,000 pounds cheese, 75,444 cases eggs, 1,780,000 pounds of dry skim milk, 75,000 cases of evaporated milk, 9,540,000 pounds of lard, 6,045,500 pounds of pork products, 153,000 barrels of white flour, 178,000 bushels oats.

These foods can be used for domestic distribution to public aid families and for free school lunches, to meet requests from the Red Cross for shipment to war refugee areas, for transfer to other countries under provisions of the Lease-Lend Act, or for release upon the market when this is desirable.

Mrs. Maurice Lackey and mother, Mrs. L. H. Mullins, spent the past week with relatives and friends in Canyon and Amarillo while the son and grandson, Jack Lackey, was recuperating from an appendectomy in an Amarillo hospital.

600 NEGRO REGISTRANTS WILL BE CALLED 20TH

General J. Watt Page, State Selective Service Director, announced today that 600 Negro registrants will be inducted into the armed forces on May 19 and 20.

This is the Army's thirteenth call on Texas to supply men for military training.

Negroes are inducted in proportion to their percentage of the total population and assigned at the reception centers to every branch of the Army.

Pointing out that induction of Negro selectees throughout the Nation has been lagging due to lack of present facilities, General Page said that when this call has been completed Texas will have furnished 3,726 Negroes as against 21,585 white trainees.

At the present time Texas has furnished approximately 74% of its quota for the current year ending June 30. Whether June calls will bring the State up to its full quota of 33,213 men for the period is not known. A new quota will be assigned to Texas for the year beginning July 1. It is possible that this quota may be heavier than that for the first year, and rather steady calls after June 1st during the summer period are expected.

Be as careful of the books you read as of the company you keep; for your habits and character will be as much influenced by the former as by the latter.—Paxton Hood.

The picture is showing Wednesday and Thursday at Pastime Theatre.

"Planted" Turkeys Doing Well

AUSTIN—As a result of restocking a large area in Robertson County less than two years ago and managing the land, that is attempting to control the predators, provide good food and cover for game, there are now more than 300 wild turkeys upon

the area, a report by a game manager for the Texas Game, Fish and Oyster Commission to the executive secretary here indicates. Only sixty-one turkeys were released upon the area.

Work on the Robertson county area, which was done with the aid of Pittman-Robertson federal funds, included fencing twenty acres and placing a score of birds inside. Their wings were clipped.

Not only did the birdse nest in the enclosure, but provided excellent decoys to the birds released outside the fence. The birds at liberty had a tendency to drift back to the penned birds each evening. That prevented their spreading over too large an area and into sections upon which the Game Department was not carrying on specialized work.

The Robertson county area is one of several the Game Department has set up for deer and turkey throughout the state in an effort to restore big game to areas which formerly had a sufficient supply of game, but from which it had been shot out.

ARE YOU LONESOME?

Way down deep within our hearts Everybody's lonesome; Far within their secret parts Everybody's lonesome; Makes no difference how they smile How they live or what their style; Once in every little while Everybody's lonesome. People first in big affairs— Even they are lonesome; Maybe just like to put on airs, Just the same, they're lonesome; Men for whom existence blends Every good—who win all ends— Still reach out their hands for friends Everybody's lonesome.

Women, silk-clad, jeweled fine, Yes, they too, are lonesome; When their gems the brightest shine They are just as lonesome. Some must serve and some command All still seek with groping hand Love and friends who understand; Everybody's lonesome. Though your gift of friendship small, Everybody's lonesome; It may answer some's call, Someone who is lonesome; Give, and give with might and main Give your hands and join the chain, And your gift will be your gain. Sometime when you're lonesome. —Swiped.

SIDE GLANCES ON TEXAS HISTORY

By Charles O. Hucker University of Texas Library

The General's Wife Visits In Texas

"If every other land forsakes us, this is the land that freely takes us." In olden days, when Texas was very young, all sorts of rascals are reported to have fled from the United States to refuge in the new Southwest. One night a group of them, sitting around a campfire in their new home, composed the little rhyme quoted above. It's a pun: "takes us"—"Texas." And that's how Texas got its name, believe it or not.

At any rate, that's what someone told Mrs. George A. Custer when she came to Texas in 1865 with her illustrious young husband, famous "boy general" of the Civil War, who eleven years later was to die in the historic Little Big Horn massacre. Mrs. Custer repeats the story in a book of her travels, "Tenting on the Plains," a copy of which is in the University of Texas Library's Texas Collection.

It was just after the war when Custer brought his cavalry to Texas, and his wife came with him, first to Hempstead, near Brenham, and then on to Austin, where they spent the winter. From Mrs. Custer's story one gathers that the General enjoyed himself tremendously, but that she herself, born in the North and reared in the Northern tradition, couldn't quite understand the strange people, customs, and climate. She readily admitted it and often in the book smiles at her tendency to believe the worst.

The Texan as a Dude The Texan himself confused her. Once she wrote that "if the term 'dude' had been invented then, it would often have applied to a Texan horseman. The hair was frequently long, and they wore no waistcoat, I concluded, because they could better display the vast expanse of shirt-front." Yet elsewhere she remarked that the Texan "travels for comfort rather than for style."

It was the way they acted, however, that shocked her most. That they all wore guns, even women and boys of twelve, was a bitter revelation; and she soon noted that "something awful is constantly occurring among the citi-

zens. It is a lawless country—it is a common occurrence to shoot down men here for any offense whatsoever." Moreover, it seemed to her that to be thought courageous a Texan must have "either fought in duels, or, by waylaying the enemy, to have killed from one to five men."

And the horses! General Custer, she wrote, was delighted with them; but, for her part, she couldn't forget "the disfiguring brands that were often upon the fore-shoulder, as well as the flank. They speak volumes of a country where a man has to wear a thoroughbred with a hot iron, to ensure his keeping possession."

Weather Hasn't Changed Texas weather didn't appeal to her, either. Once she wrote of "the general shiftlessness that creeps into one's veins. We were not long there ourselves before climatic influence had its effect on even the most active among us." And, on the other hand, she seems to have cared very little for the famous Texas norther, which very suddenly, she observed, "awakens one to the knowledge that it is not always summer."

However, without understanding, somehow, Mrs. Custer persuaded herself that it wasn't all as bad as she might be led to believe. "I listen to the citizens talking over the prospects of this State," she confessed, "and I think it promises wonders."

In speaking of Sam Houston, too, she wrote that "his name is perpetuated in the town called for him, which, as the centre of large railroad interests, and as a leader in the march of improvement in that rapidly progressing State, will be a lasting monument to a great man who did so much to bring out of chaos a vast extent of our productive land, sure to become one of the richest of the luxurious Southern States."

HISTORICAL. Member way back when Schley's fleet whipped the Spaniards as the Spanish vessels came out of the harbor where Hobson had sunk a vessel to bottle them up? It was the 4th of July, 1898, when we got the news at the picnic. And what yelling! We ate more barbecue and the dancers pounded the floor harder. All because "our" side had won. Today we pay little attention to the war in Europe—or Asia. It's hardly "our" war yet.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

April showers have truly brought May flowers—pansies, poppies, verbenas, phlox, petunias, annual phlox and the roses.

Poppies are at the height of splendor in the Ralph Keys yard. Lee Bell's garden also presents rare poppies. A. G. Lane's yard gives a rare view of red oriental poppies.

Red climbing roses enhance the lattice garden fence at the home of Mrs. Homer Mulkey, giving to the passerby an impression of marvelous beauty.

Extending to the roof, with grace and charm, is the lovely delicate pink rose in the yard of Mrs. L. Ballew. Mrs. Zada Adams home presents an elegant yellow climbing rose.

The dainty polyanthus roses form an outstandingly beautiful and striking hedge at the home of Lon Rundell and Buddy Knorpp.

A rare species of azure blue wild flowers adorn the lots near the Junior High School and attract the attention of all who pass by.

Lawns are becoming more noticeable whether they are kept or not given much care. In the well cared for group are included the ones of civic pride, the Donley County Court house yard, the City Park, and the Methodist church.

A gay splash of color is presented to the tourist who sees the wisteria gracefully draped over the front of the home of Major Hudson. This beauty spot will greatly impress the traveler of Clarendon's remarkable beauty.

Irishman Writes Irish Letter

The following letter, from a recent copy of the Gallup Gazette, is said to be an authentic message received in this country by a young Irish-American, from relatives in Ireland. Whether or not it is authentic, it is well worth reading:

County Cork, Ireland. August 6, 1940.

Dear George:

Your welcome letter received and me and your Aunt Bridget thank you kindly for the money you sent. We have had seven masses said for your Grandfather and Grandmother. God rest their souls.

You have gone high places in America. God bless you. I hope you'll not be putting on airs and forgetting your native land.

Your cousin, Hughie O'Toole, was hung in Londonberry last week for killing a policeman, may God rest his soul. And may God's curse be on Jimmy Rogers, the informer, and may he burn in hell. God forgive me.

Times are not as bad as they might be. The herring is back and nearly everyone has a heart in making ends meet and the price of fish is good, thanks be to God.

We had a grand time at Pat Muldoon's wake. He was an old blatherskite and it looked good to see him stretched out with his big mouth closed. He is better off dead and he'll burn till the damned place freezes over. He had too many friends among the Orangemen. God curse the lot of them.

Bless your heart. I almost forgot to tell you about your Uncle Dinny. He took a pot-shot at a turncoat from in back of a hedge, but he had too much drink in him and missed. God's curse be on the dirty drink.

I hope this letter finds you in good health and may God keep

reminding you to keep sending the money.

The Brennans are 100 per cent strong around here since they stopped going to America. They have kids running all over the country.

Father O'Flaherty, who baptized you, is feeble-minded and sends you his blessings.

Mollie O'Brien, the brat you used to go to school with, has married an Englishman. She'll have no luck.

May God take care of the lot of you and keep you from sudden death.

Your devoted cousin, Timothy O'Quin.

P. S. Things look bright again. Every police barracks and every Protestant Church has been burned to the ground in County Cork, thanks be to God.

P. S. Keep sending the money.

Tire Opportunity Presented Now In Current Sale

Anticipating the year's first new peak in tire buying, scheduling of the annual Spring sale has just been announced by Mr. McElvany, local Goodyear dealer, who points out that the opportunity is timed to coincide with the beginning of what may be the country's biggest driving period in any year.

Present plan for sales' dates covers the period from May 21 to 31 during the 10 days of which dealers nationally will feature the first-line G-3 All-Weather tread tire offered on a special trade-in deal, as well as the All-American in five popular sizes, attractively priced for the sale.

Backed by a written guarantee, these tires built with improved Supertwist cord have increased body strength, the G-3 in actual tests having averaged 20 per cent longer tread wear than other first line tires tested.

With rubber prices steady for the time being at least, despite a crucial international situation, now would be a logical time for those who need tires during the Summer to make replacements on their cars, in the opinion of Mr. McElvany, especially since prices are lowered in a period when buying should be increasing, because of a seasonal demand for new tires to provide safer motor car operation on crowded highways.

Miss Ruth M. Richerson, county school Supt. was in Canyon Monday on a matter of school business.

Tine and Frank Mace of Amarillo spent Sunday here with their sister, Mrs. J. A. Warren and family.

Dumas Rodeo Is May 30

DUMAS, May 1.—May 30 and 31 has been set for the 7th Annual Presentation of the Dumas Rodeo and Old Settlers Reunion, the show that has grown from the prairie cowpen to one of the best western exhibitions in this section.

The show opens with a 3 mile parade at 11 a. m. Friday, May 30. In line will be leading high school bands, hundreds of mounted riders, stage coaches, chuck wagons, and every form of old time conveyance.

Featuring chihuahua bulldogging steers, fast elusive Braham calves, genuinely tough bucking horses in a full 3 hour open amateur show. The rodeo proper is set for 2 p. m., May 30 and 31.

The Dumas celebration has consistently enlarged and built up its horse show until last year it was able to show at least \$100,000.00 worth of the finest horse flesh in the south-west.

A giant mid-way, old time and modern dances, a huge old settlers picnic, and all the features that can again typify western life as it was lived in pioneer days are brought into play for the 2-days celebration.

The Dumas show is wholly a municipal one, sponsored by the

Dumas Business Club and the Dumas Rodeo Association. Membership in both organizations is entirely local and all committeemen and directors serve without pay.

Four-fifths of the value of all the crude oil produced in Texas each year is paid to Texas oil workers and farmers and ranchers in wages and lease and royalty payments.

More than 45,000,000 acres of Texas land are now under lease to Texas petroleum producers for oil and gas production or exploration.

The Texas petroleum industry pays \$95,000,000 a year in State, local and Federal taxes, NOT

counting the gasoline taxes paid by the individual motorist on the industry's principal product.

Darryl F. Zanuck, John Ford And Nunnally Johnson Combine To Make Great Film

With the same triumvirate behind the scenes as in the case of "The Grapes of Wrath," the sensational stage play, "Tobacco Road," has been brought to the screen at last. Darryl F. Zanuck, Nunnally Johnson and John Ford are the men responsible for it.

Both Jack Kirkland and Erskine Caldwell—who authored the play and the novel, respectively—were reluctant to sell the screen rights to "Tobacco Road" until assured it would be given the proper handling. 20th Century-Fox production chief, Darryl F. Zanuck, persuaded Caldwell and Kirkland that "Tobacco Road" would be pictured honestly and

fearlessly—and the sale was consummated.

Nunnally Johnson went to work on the script, and to the immense satisfaction of the studio, as well as meticulous Director John Ford, Johnson's masterful handling of "Tobacco Road," coming Wednesday and Thursday to the Pastime Theatre, was considered to be even greater than his adaptation of "The Grapes of Wrath." He kept all the pungency, the humor and the intense love of life of both the novel and the play, making of "Tobacco Road" something all will enjoy to the hilt.

Meanwhile Production Chief Zanuck and Director Ford were in daily huddles. The problem of finding the proper persons to create the famous Lesters was indeed a knotty one. After weeks of deliberation, Zanuck and Ford came up with a dream cast. Charley Grapewin, Marjorie Rambeau, Gene Tierney and William Tracy were chosen to head the cast. Portraying Jeeter, Sister Bessie, Ellie May and Dude Boy, respectively, their selection was greeted with universal acclaim. Rounding out

the featured cast are Dana Andrews, Slim Summerville, Ward Bond, Grant Mitchell and Zeffie Tilbury.

Then commenced the arduous task of actually shooting the picture. A crew was dispatched to Georgia to get the necessary background material. Director Ford, three-time winner of the Academy Award, put the troupe through its paces for five strenuous weeks. Absolute secrecy was maintained, and when the filming was concluded, every one connected in any way with the picture was proud of having been instrumental in bringing "Tobacco Road" to the nation's screens.

Origin And History of Poppy Day

Do you know the history of the little red paper poppy that you wear on Memorial day?

The first sale of the Poppy was in Milwaukee, Wis., in June, 1919, on the occasion of the reception of the 32nd Division.

In 1920 it was formally sold by "The American Legion Posts" of Milwaukee to increase their funds for disabled comrades. Later Miss Moira Michael suggested that the little red paper poppy be adopted as the official flower of the American Legion.

At the American Legion Auxiliary's first national convention in Kansas City, in October, 1921, they too, adopted the poppy as their memorial flower.

The first veteran made poppies were produced in the Minnesota hospitals in the winter of 1922 and from this start the poppy industry has spread to many hospitals throughout the United States.

The poppies the American Legion Auxiliary will distribute here Saturday, the 24th, were all made by disabled veterans of U. S. Veteran's Hospital in Kerrville, Texas.

Each veteran receives one cent for each poppy he makes, with a maximum production of 500 poppies a week. The scale varies from 100 to 500 according to his adjudged needs.

From the sale of the poppies, the veteran receives money for his incidental purchases, principally tobacco. Many of them lie on cots, others in wheel chairs while making the poppies. Some are blind.

The least that the public here can do is to purchase the poppies. This brings a ray of hope to the limited world in which heroes of other days are living today.

Chiropractics --- Radioclast

For some time you have been hearing about the Radioclast diagnosing and treating instrument, and wondering when it will get here. May 26, through May 31, is the date set for the clinic.

The Radioclast is a short wave or radio diagnosing instrument that has been in operation only a few years. It has advanced so much in the last few years that the statement has frequently been made that short wave therapy is the greatest discovery since X-Ray.

After making investigations over a period of time, visiting users of the instrument, and attending clinics, I have installed the Master Model Radioclast in my office. It is the finest and latest instrument of its kind on the market, and beginning Monday and lasting throughout the week an expert technician from Tiffin, Ohio will assist me in conducting a clinic at my office.

In making an examination with this instrument no questions will be asked and you will be told what your trouble is, where it is, its intensity and the procedure necessary for correction.

If you have sickness in your family and cannot find the cause of the trouble, it will pay you to attend this clinic regardless of any other examination you have had in the past. IF YOU ARE NOT SATISFIED WITH THE EXAMINATION YOUR MONEY WILL BE REFUNDED.

Owing to the time required for each examination, only a limited number of patients can be handled during the clinic week. Therefore I urge you to telephone early for an appointment, or call in person at our office.

THE RECORD Facts That Concern You No. 29 of a Series

It's always the SORE thumb that sticks out...

Odd, isn't it—the way everybody notices the sore thumb?
 It's the same way with the retailing of beer. Everybody knows about the one undesirable place...everybody seems to forget about the thousands of worthwhile retailers who operate clean, decent, law-abiding establishments.
 To protect the good name of beer, we of the beer industry want the few... but noticeable... "black sheep" retailers eliminated.
 That's not all. Such retailers endanger an industry that brings important economic benefits to the community. Right here in Texas beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.
 This state, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from more than 100 other industries.
 You can help us protect these benefits in two ways—by (1) patronizing only the law-abiding places where beer is sold and (2) by reporting any irregularities you may observe to the duly constituted authorities.

BEER...a beverage of moderation
