PRESIDENT SIGNS DRAFT BILL CALLING 16,500,000 MEN TO REGISTER OCTOBER SIXTEENTH

ELECTION OFFICIALS TO PROVIDE MACHINERY FOR REGISTRATION

President Roosevelt signed the draft act Monday afternoon fixing October 16 as registration date for 16,500,000 citizens between the ages of 21 and 35 inclusive. One provision of the act permits volunteer enrollments for a year for those between the ages of 18 and 35 inclusive.

Would Reduce Quota

Thus an influx of volunteers from any particular area would reduce the quota of men conscripted from that area.

The new law itself requires that all who, on Oct. 16, have attained the twenty-first anniversary of their birth and have not passed the thirty-sixth year, must register. A national drawing by lot will determine the order in which questionnaires will be mailed to the men. On the basis of the questionnaires, local boards will place the men in various classifications—those available for immediate service, those deferred because of dependents, etc.

The local boards will select sufficient men from among those available for immediate service to fill the quota for the area. Those so selected will undergo physical examinations and, if they pass, will be inducted into service for one year.

"In the military service," Roosevelt said, "they will be intelligently led, comfortably clothed, well fed, and adequately armed and equipped for basic training. By the time they get physically hardened, mentally disciplined and properly trained in fundamentals, the flow of critical munitions from factory to combat units will meet the full requirements for their advanced training."

From All Walks of Life

"In the military service, Americans from all walks of life, rich and poor, country-bred and city-raised, farmer, student, manual

laborer and white collar worker, will learn to live side by side, to depend upon each other in military drill and maneuvers, and to appreciate each other's dignity as American citizens.

"Universal service will bring not only greater preparedness to meet the threat of war, but a wider distribution of tolerance and understanding to enjoy the blessings of peace."

Roosevelt signed the bill, seated at a table in the spacious cabinet room, its tall French windows open to the gentle breezes of a balmy September afternoon. Behind him stood Chairman Sheppard of Texas of the Senate Military Committee, and Chairman May of Kentucky, of the corresponding committee of the House. He used two pens and handed one to each Secretary of War Stimson and Gen. George C. Marshall, army chief of staff, also were present.

In national guard armies throughout the land, meanwhile, some 60,000 militiamen participated in the guards' first federal mobilization since the World War, called out for a year's training by a previous presidential order.

During the day, the White House announced that of the first 400,000 men to be called for the draft, 34,000 would be negroes.

Highway Route North of Town

RIGHT OF WAY ON NO. 18 PRACTICALLY READY

The finishing touches on Highway 18 from the City limits to connect with pavement near the Sawyer home, is practically complete. Deeds have been placed on file with one possible exception.

Due to the fact that the highway will cut off two corners of the farm owned by Mrs. L. E. Phelps, the matter of damage has not been agreed upon. A jury of view has been appointed by Judge R. Y. King with the final hearing set for September 23rd. The jury is composed of O. C. Watson, Joe Holland and Claude Lindsey who will make an effort to ascertain the damage and reach a settlement with Mrs. Phelps.

The right-of-way through town still hangs fire. Agreed damages to a part of the property has been held in abeyance for some time. Other property owners have not yet agreed to a valuation of the property damage if the route follows that outlined by the highway engineer.

LARGE DONLEY CO. CROWD ATTENDS FAIR

The largest Donley County delegation in the history of the Tri-State Fair attended the Fair Wednesday. Headed by the High School band, the local group paraded the main streets of Amarillo and stormed the fair grounds. The Broncho Band gave a 15-minute broadcast over station KGNC at 12:45 p. m.

One of the chief points of interest to the Donley Countians was the Donley County Booth in the agricultural building. Donley's booth was decorated with more blue ribbons than any other booth in the building. The dairy cattle and swine judging, the poultry show, and merchant's building were other chief points of interest.

Judging in this and other divisions have not been completed in time for this issue of your Leader. A full report will appear in the next issue.

Old Settlers Have Big Day

J. A. HILL IS ELECTED PRESIDENT FOR 1941

President Floyd V. Studer was in excellent form at the annual meeting of the Panhandle Old Settlers Association Wednesday at the Tri-State fair grounds. He kept things moving and added zest with ready wit, ably assisted by a number of enthusiastic members.

Mr. and Mrs. W. H. Patrick occupied places of honor in the official section, Mr. Patrick as past president, and Mrs. Patrick as vice president.

A varied program was presented. The highlights were the talks made by Chief Lean Elk of the Cheyenne tribe of Oklahoma, and Taham, reformed Osage, for many years a minister and lecturer. He first named fought on the side of the whites at the last battle of Adobe Walls in June of 1874, while Taham fought on the side of the Indians.

Among the large number from Clarendon and Donley county present were Mr. and Mrs. Cal Merchant, Mr. and Mrs. J. H. Hurn, Mrs. W. H. Corbin, Mr. and Mrs. W. H. Patrick, W. E. Hodges, C. M. Lowry and son Sam, J. C. Estlack, J. R. Porter and family, Mr. and Mrs. J. E. Mongole and daughters, Misses Edgar Mae and Mabel, Mrs. E. W. Bromley and son Jack, Mr. and Mrs. Bill Rains, Mr. and Mrs. W. A. Massie, Mr. and Mrs. E. H. Watt and daughter, Mrs. Glass. There were no doubt others whose presence could not be ascertained.

Bull Off Local Hereford Farm Brings Record Price of \$1,000

MANAGER W. W. BUCK IS ENTHUSIASTIC OVER FINE SHOWING

In a Hereford sale in Amarillo a few days ago, Prince Domino Plus 42nd, a bull of seventeen months brought \$1,000. This bull is a product of the E. B. Meyer Hereford Farm southwest of Ash-tola. W. W. Buck is manager and has been for several years.

The buyer of this bull is R. Roeder of Yorktown, down in south Texas.

The bull was sired by WHR Princes Domino 33rd, Mr. Meyer's herd sire, out of a Double Prince Domino dam, and is a full brother to the Meyer junior herd sire.

Accompany Mr. Roeder to Amarillo was his son, Prof. Rudolph Roeder of the department of animal husbandry at Texas A&M College. Prof. Roeder's wide knowledge of fine livestock is said to have been a factor in the purchase of the bull.

MANY TO ATTEND WEST TEXAS COLLEGE FROM CLARENDON AREA

Going over to Canyon for College Tuesday were Joe Word, Phebe Ann Buntin, Ethelyn Drennan, Frances Grady, Charley Murphy.

Others already over there are Frances Morris, Mary Charlotte Word and Jesse Cornell, the latter having gone over in plenty of time to work out on the football team.

HISTORICAL PROJECT SUSPENDED

Owing to the fact that the authorities are unable to get sufficient work returned from the San Antonio WPA Offices to enable them to keep work going, the project has been temporarily suspended awaiting such time as sufficient work for checking comes in to enable the work to go on.

Legion Post Buys New Flag

OLD GLORY WILL AGAIN BE SEEN ON TALL FLAGPOLE

At their meeting Tuesday night, the local Legion Post appointed a committee to purchase a new U. S. flag to be used on the tall flagpole on the courthouse lawn.

As one citizen expressed himself today, "there is no reason why the public should insist on Old Glory floating above the courthouse lawn, and expect the Legion boys to foot all the bill." A few citizens have contributed to the cause, and more will be glad to do so. At any rate, the Legion boys will see that the flag is unfurled daily even if they have to pay for it, and neither of them is objecting to any public-spirited citizen's contribution.

Due to the fact that a number of transients have come through town selling various patriotic insignia, the Post has a word to say about that. Here it is:

"Aubyn E. Clark Post No. 126 American Legion went on record Tuesday night in regular meeting to warn businessmen and individuals that they need not feel obligated to persons offering patriotic emblems or other merchandise for sale in the name of the local Post, without written authority from same.

Rayburn L. Smith, Commander."

The above statement is printed that the public may know that the purchase of any goods has no local connection without due authority.

Patriotic Pageant To Be At Park Monday Night

A community pageant sponsored by the MacDowell Club entitled "America's Unfinished Battles" will be presented in the City Park on Monday evening at 7:15 September 23rd.

The pageant will be preceded by a short concert by the band and the band and MacDowell Club Chorus will give the music incidental to the action of the Pageant. The Reader will be Miss Anna Moores and she will represent America. Patriotism will be presented by Mrs. George Bagby, and Service by Mrs. Nathan Cox.

A large number of citizens are included in the cast and the community is cordially invited and urged to attend. The Pageant Committee from the MacDowell Club are Mrs. Jim McMurtry and Mrs. Boston and are assisted by Band Director, Robbins in arranging the music.

The audience will be asked to join with the Pageant cast in singing "The Star Spangled Banner and God Bless America."

Work To Begin Football Field

WINTER JOB PROVIDED FOR WPA CREW

SAN ANTONIO, Sept. 18.—Authorization to begin work on 60 public improvement projects, involving Federal and local expenditures of \$2,516,208, has been given WPA district managers in Texas, according to a statement issued today by Stearns S. Tucker, deputy state administrator.

WPA will provide \$1,405,084 towards operation of the new projects and local governmental agencies will supply \$1,111,124. Approved projects, including 45 for the improvement of highways, roads, and streets, were listed as follows:

Improve athletic field at Clarendon; excavate, grade and landscape grounds, construct ticket boxes, gates, and fence; WPA funds, \$13,246; funds supplied by the school district, \$6,699; workers, 64.

SPANISH INSTRUCTOR

Ardis Patman returned from Mexico City a few days ago where he has been a student in the University of Mexico City. He immediately took up his duties as instructor in the Spanish language department at West Texas College, Canyon.

BIRTHS

Born to Mr. and Mrs. Bill Weatherly at Adair hospital Tuesday morning, a son, given the name of Billy Ted. Congratulations, Bill!

Mr. and Mrs. Wm. Green of Trinidad, Texas announce the birth of son, William Mack, weight 8½ pounds, born September 7th.

Farm Problems Of Other Lands

FREE PICTURE SHOW WILL GIVE INFORMATION ON COTTON PROBLEMS

A. C. Williams, president of the Federal Land Bank, will present motion pictures in natural colors showing agricultural practices in England, Norway, Sweden, Denmark, Holland and Germany, at the annual meeting of the Clarendon National Farm Loan Association at The Pastime Theatre. These pictures are to be a feature of the program, according to C. E. Killough, Secretary-Treasurer of the association, and will be free to everyone.

The pictures were taken by Mr. Williams, who made an extended cotton study tour of the countries of Northern Europe in company with a group of students from Texas A&M College. During the showing of the pictures, Mr. Williams will discuss agricultural methods in these foreign countries and explain a number of interesting scenes. These pictures are both entertaining and educational. They will give many people their first view of foreign agriculture. They are rich in color and full of scenes that were selected on a tour of ten thousand miles.

Those attending the meeting will have an opportunity to compare the appearance of American cotton laies with those of other countries as they arrive in Liverpool and other cotton importing centers. They will see how the cotton is handled on the docks and in the warehouses and then processed in the mills and manufacturing plants as well as interesting pictures of farming activities in foreign lands.

Everyone is invited to the meeting which starts at 10:00 o'clock Monday September 30th.

HERE FROM GREENVILLE

Mr. and Mrs. Whit Carhart of Greenville are visiting her mother, Mrs. R. A. Chamberlain and other relatives and friends in Clarendon, where they resided for many years.

DONLEY COUNTY INDEXING PROJECT FINISHED

The indexing of the Commissioners' Court Minutes of Donley County was completed this week, and turned over to the County Clerk, according to Project Manager J. A. Warren, who has been in charge of the work since its inception. This work consists of three volumes, listing each action of the Commissioners' Courts and other items pertaining to the County's business and affairs since its organization, beginning with the meeting of the County's first Commissioners' Court, April 11, 1882, Hon. G. A. Brown, County Judge; B. H. White, County Clerk; J. D. Wilson, Sheriff; T. W. Morrison and L. B. Nall, County Commissioners.

These index volumes are indexed according to subjects, all alphabetically and chronologically arranged, in order that any given subject, name, or corporation, may be located in quick order. Any person interested in anything pertaining to the Commissioners' Court Minutes or business will find these volumes helpful and accurate, and are invited to inspect and use them at all times.

HERE FROM BIG SPRINGS

Mr. and Mrs. Frank Bayouth and children, formerly of Memphis, visited in the Jim Barkett and Forest McCrary homes here the past week, returning to Big Springs.

RETURN TO CALIFORNIA

Mr. and Mrs. M. A. Wolfe of Los Angeles, who have been guests of Mr. and Mrs. F. A. White, returned home Wednesday.

MRS. CORBIN WINS AT TRI-STATE FAIR

For many years the name of Mrs. W. H. Corbin has been listed among the winners in the domestic science department of the Tri-State Fair each year. Meager reports show that she was first with her apple jelly this time. Possibly she won other honors, a report of which we are unable to obtain at this time.

Before his official duties became so strenuous as to require his presence in Washington practically all the time, Cong. Marvin Jones was a visitor in the Corbin home on occasion and always praised the culinary skill of Mrs. Corbin. The Corbin name has long been prominent among the pioneer families of the Panhandle, they having been among the first settlers in Armstrong county.

DONLEY HOG PRODUCERS MAKE FINE SHOWING TRI-STATE FAIR

Crop Prospects Hurt By Drouth

COTTON PRODUCTION WILL VARY AS TO SOIL

A large share of the placings and honors in the Annual Tri-State Fair Club Boys and Open Barrow Shows were won by local youths at the fair Monday. Approximately \$250 premium money was won by the local exhibitors. The F.F.A. County lot won first place for the second consecutive year.

Harice Green showed the champion Spotted Poland China pig in both the open and club shows and Redell Henson showed the champion Poland China pig in both shows. First place light Poland China pig in both club and open division was shown by Redell Henson. Other placings won by the local youths were second in club and third in open light Poland, sixth in open and third in club in light polands, sixth in club and open light Duroc, third, fifth, sixth, and 7th in club on heavy durocs, and sixth in open on heavy durocs, third and sixth club and open light hampshires, and third and sixth open show on light hampshires, second in club and open on heavy hampshires. First second, and third in club and open on light and heavy spotted Poland chinas, first in heavy chester whites in open and club. Third on chester white pen, and first on spotted Poland China pen, second heavy and second light Berkshires, second and 7th pen of three, and seventh on litter.

When asked for his opinion relative to the cotton outlook, Bert Smith of Smith Bros. ginners stated that "it will be about like the crop of 1939, with an approximate county production of ten thousand bales." That was Mr. Smith's estimate the first of the week.

The cotton is spotted. For instance, W. M. Pickering stated Monday that his cotton was not suffering for moisture, and bid fair to make a bumper crop. This condition on the Pickering farm is on Salt Fork.

So it goes all over the county. Tight land crops are practically a failure so far as cotton is concerned, and is this especially true of early cotton.

Feed stuff is also spotted. Most of the feed will be bundled. For the first time in several years, maize will be bound this time, at least a number are already cutting it with row binders. Others found it too short for row binders and are using reapers.

The general opinion seems to be that feed stuff will be scarce this winter. A lot of wheat and other small grain patches have been dusted in to offset the scarcity of roughage feed.

While the conditions mentioned above obtain in the main, thousands of acres on subirrigated land, and in the favorable locality where showers have fallen the past month, are said to have a crop above normal. This estimate applies to an all-round crop.

SWEETWATER FRIENDS HONOR FORMER PASTOR IN DEATH

Following the service here, the body of Rev. G. S. Hardy was conveyed to Sweetwater by the Buntin mortuary where it lay in state at the Methodist church from one to three o'clock Saturday afternoon amid a profusion of flowers contributed by his many friends in loving memory of their revered pastor.

A number of relatives accompanied the body from here. Others came from other sections to attend the last rites at Sweetwater. Hundreds of friends in and near Sweetwater were eager to pay their last tribute of respect to the memory of the good man who had served them well and faithfully in former years.

Dr. and Mrs. L. F. Sheffy, and her father, A. M. Smith of Canyon were present Friday at the funeral service of Dr. Hardy.

W. W. Harrah of Pampa attended the funeral service for Rev. G. S. Hardy here Friday.

Picture Arouses Curiosity

Dozens have called at the Leader office to see a natural picture that formed in the sink over the week end. It is that of a man having the appearance of a dead army officer. The cut of his burnside, goatee and mustache regales the custom of a half century back. He is lying on the left side with blood surrounding on the ground—or floor—depending on where he was when the bullet went in at the right corner of his mouth and came out at his left eye.

The photo still persists. Ernest Hunt made a snapshot of it. J. H. Hurn figured it all out, but does not believe it means that Hitler is "about ready to go down the spout," as another man suggested.

Bronchos Open 1940 Grid Season With Lefors Pirates Friday Night

The Clarendon High School Bronchos will open their 1940 grid season with a conference game with the Lefors Pirates in Lefors, Friday night.

Primed with almost three weeks of hard drills and a smashing practice Monday night, the locals are set for the opener with high spirits.

Local dopesters, however, give them only an even chance for victory after the tough Pirate crew whaled the Dumas Demons, 25 to 13, last weekend.

In the practice game against a strong eleven of exes and squads, the Ponies showed power aplenty but were weak in the passing department. Toughy Tootor Johnson, 120 pound wingback, was one of the Bronc stars. The pint-size back, time and again,

wormed through the exes' secondary for nice gains.

Brusing Bud Hermesmeier showed lots of drive from his full-back position and Basil Smith and Carlton Gordon, other Pony backs turned in nice games.

The line worked well as a whole with Ollie McCrary at left end alternating in the backfield to punch over the Horses' only touchdown.

The probable starting line-up for the Clarendon-Lefors game: Ollie McCrary, left end; Jimmy Lumpkin, left tackle; Carl Peabody, left guard; J. W. Goodman, center; Ray Bulls, right guard; Wardlow, right tackle; C. G. Kirkland, right end; Johnson or Gordon, quarterback; Hartzog and Smith, halves; Hermesmeier, full-back.

LET GEORGE DO IT.

Sure you have heard that expression before, but George is actually doing it in this case. Some months ago, you will recall that the dentist fraternity of Texas got a law passed prohibiting dentists from advertising. They probably did it for the same reason that medical doctors had been using that method. Now while that idea is getting over with the reader, let us explain further.

Did you know that an alleged "health department" down at Austin mails out space grafting advertising to all the newspapers of the state wherein they expect to get advertising free? The department is a form of "publicity bureau" without "portfolio." The advertising is carefully designed to attract patrons to doctors. Occasionally they let the dentists have a "plug" at the free space.

The taxpayers of Texas are paying for this press agent and this publicity bureau, whether they like it or not. Governor O'Daniel says there will be a housecleaning in this department January first. The head of the bureau, George W. Cox, M. D. is a political ap-

pointee. Luck to you, Governor.

George is doing what the boys behind the throne in the professions demand of him, they prefer to hide their talents under a bushel, and "let George do it" when they want the advertising done.

Some dentists and medical doctors are good men, talented and trained to a useful service. That kind is objecting to this "free space graft." If a doctor wants to advertise, that should be his personal affair. At any rate, why make the taxpayers foot the bill? We don't want any socialized doctors, neither do we want any socialized advertising.

NATURAL AIRPORT.

In a talk here some months ago after his return from Germany, Cal Farley informed his audience that Germany had her airports under mountains secure from explosives. The idea is excellent, no matter from what source.

Northwest of town along the Caprock may be found just such locations for an airport. In this day of rush for defense preparations, with the building of airports, barracks and other neces-

sary protective measure, why would it not be a good idea to call attention to the natural airport facilities northwest of Clarendon? One such location has springs near to supply water. Undermining the cliff, the roof could be 100 feet thick—a natural barrier against explosives. The air above is void of clouds approximately 340 days out of 365. The terrain above the airplane storage space is level. An excellent run-way in front of the depository is possible at small expense. The Caprock offers an ideal location for an airport not to be excelled in the nation. Let's have it.

TEMPLE OF TRUTH
By The Apostle

SAVING THE DAY.
According to western history, somebody always had to "save the day" when the pinch came. It was generally the women. Why, did you know that in proportion to their number, more Indians were shot and killed by women in the West than by men? It's a fact. Bringing history on down to the present, did you know that tons of beans have been canned by the women of old Donley county the past two weeks? Sure have! Men hold banquets and do nothing. Yes they do, too. They entertain a flock of leeches who gad about the country at the expense of the members of their organization. They make high-sounding talks and great plans that never mature. They stir up sentiment and cause deluded people to vote bond issues. On the other hand, the women folks stay at home and can up stuff for the winter. They pay a heavy penalty for the high tax stunts that the men pull off in a frenzied effort to "put their section on the map." Beans, peas, okra, tomatoes and a lot of other foods are being canned right now. No section of Texas has more

feminine skill in canning foods than old Donley county.

EXPLANATION.
Bachelor Bill allows as how compliments are like perfume. They should be inhaled and not swallowed.

EPOCHS OF LIFE.
As a boy he wanted to wear pants long. As a man today Poke Jarrold has that ambition gratified, even to having the seat of the pants quilted.

ANIMAL NATURE.
Wouldn't it be a wonderful world if human beings smiled with as much sincerity as a dog wags his tail?

QUERY?
Who collected rent on the Navajo hogans in Arizona and New Mexico while the tribesmen were prisoners of war of Uncle Sam and herded at Ft. Sumner, N. Mex.? They were released in 1868. Strange enough, they immediately went back home. Unlike the white man, there was no accrued taxes.

REMODELED IS RIGHT.
During the remodeling of a barber shop at De Leon last week, a local citizen noticed a sign on the front of the building which read:

"During alterations, all patrons will be shaved in the rear."

EXPERT TESTIMONY.
For several years the technical test to determine whether a man (or woman) was drunk on the highway, was simply to watch the suspect a short time. If he (or she) started in to roll up the stripe in the middle of the pavement, he (or she) was considered intoxicated. Now comes more expert testimony. It is from nowhere but ole Alabam and the testifier is a negro. He asserts that one is drunk when the drunkie is "toad high and has a terrapin crawl!"

SQUARE DANCE ASSET.
"I am taking steps to have congress include the square dance in every family as a requisite to promote home defense," so states a prominent ranchman in the person of one C. H. Featherston down at Wichita Falls. That all depends, C. H. Some squares have turned out in a manner calculated to stampee any race or creed. Did you ever hear of an Indian attack on a square dance outfit? Never!! Germans unused to a 'square' never would attack boldly. They might drop a few bombs to scatter the crowd just to make a scientific observation, but never to molest.

RALPH BUDD HIGHWAY.
Have you looked over the plans? You might be surprised. It will be a military affair with a possible truck speed of 90 miles per. It may extend from Ft. Worth to Texline. Amon Carter has in his application to drive a truck.

He thinks it would be great sport to pass empty Denver freight trains along the way, and do that continually. Such a highway is possible. Uncle Ralph never reckoned with Texans when they get their mad up. His association has been with men who manicure and wear rubber masks when they sleep, producing softies. He men of Texas all along have had a reputation of having "a heart as big as a ham, and a disposition that would compel them to charge hell with a bucket of water when aroused to anger. Some of them are becoming angrier and angrier right now. When they finally get "mad," that's when hell will break loose.

BULL NETTLES.
Many a man can recall his day of bare feet and knee pants when so handicapped for action against bull nettles armed only with a hoe. That was before bull nettles had been regarded as anything but an enemy. Now scientists, who never waded through a patch of the pests, come out and announce that bull nettles contain enzyme which is necessary to protein digesting. It is more nearly like papain, if you are further interested. Our A&M college folks state that farmers will soon be producing bull nettles on a large scale to supply the demand for papain which can only be had, at present, from the tropical fruit known as papaya. It is a source of regret that our parents never could understand why we protested against destroying bull nettles years ago. But we did.

GARDEN CLUB

The Garden Club members had their regular meeting Monday afternoon, September 16, 1940 with Mesdames Boston, Bromley and Noland as hostesses in the home

of Mrs. U. J. Boston.

Bowls of pink roses and dahlias were used throughout the party rooms.

During the business session, Mrs. Lee Holland was elected president.

Mrs. Marvin Warren was leader of the program conducting a clever tree contest. A delightful story of the "Gate Trees" of New Harmony, was given by Mrs. Geo. Ryan. Suggestions for useful tree pruning, was discussed by Mrs. Mae Prewitt.

The hostesses served a dainty refreshment plate to eighteen members and Mesdames Hoy, John Bass and Frank White Jr. as guests.

MEMORY LANE

(Taken from the Donley County Leader published September 16, 1930.)

September 24th is Donley County Day at the Tri-State Fair. T. R. Broun, county agent, says the Donley exhibit will exceed everything this time.

A. R. Morris farming on the Lott land 9 miles south of town says he has 149 acres of cotton on subirrigated land that will make 149 bales this season.

Dr. J. G. Sherman claims to have bagged his legal limit of prairie chickens in less than a half day in Wheeler county Monday.

The Clarendon Bronchos beat McLean Tigers Friday 25-6. The game was played here.

Miss Mary Howren is again in the schoolroom after touring Europe this summer.

Mr. and Mrs. M. W. Headrick led the list in the Leader's contest to ascertain the couple that had been married the longest. They married near Dalton, Georgia September 28, 1873. They will receive the Leader complimentary for a full year, with our best wishes.

Mr. and Mrs. H. C. Kerbow are enjoying a stay in Mineral Wells, having left here Saturday. Their return is indefinite.

In the "Yard Beautiful" contest this season, Mr. and Mrs. Cal Merchant were given first place, Mr. and Mrs. W. O. Hommel second place, and Mr. and Mrs. P. B. Gentry third place. The yards were judged Saturday.

(At this point the editor wishes to disgress because of a certain

letter and comment in this issue. The letter is one of the many treasured bits of history in his scrap book, "Sparks From the Anvil by Uncrowned Queens.")

Thank you, Mrs. Warner Claude, Texas September 10, 1930.

Dear Mr. Estlack: "Although late, I wish to thank you for your courteous account of the meeting held in Clarendon during the campaign in which I had a small part.

I realize that my talk was on the opposite side of the question from your convictions and for that reason consider your comment a greater courtesy than had our views been in union.

It takes nerve to say nice things about folks when down deep in your heart you don't believe what they say.

Very truly yours,
Mrs. Phebe K. Warner."

Thank you, Mrs. Warner. This is but one of many letters coming to the Editor in which he feels fortunate in that he receives many more roses than thorns. This letter is being published because it comes from one of "God's Whose Who," sweet of soul and gentle of manner.

It has always been our policy to be fair. We have stood together on so many things in the past, and will fight for so many side by side in the future, that we feel especially honored to have been praised for fairness in this particular instance.

—The Editor.

Super-Highway Plan Attracts Interest

Gov. W. Lee O'Daniel's proposal for a super-highway from Texline to Fort Worth, made in Childress last week, has attracted wide interest throughout the state.

Directors of the Texas Motor Transport association, meeting in Fort Worth, endorsed the idea.

State legislators, interviewed in Austin, generally approved the plan as an "excellent proposition" and expressed hope that it would materialize. Most of the legislators expressed vehement approval of the C&S-FW&D railroad merger proposal.

Editorial comment, favoring the super-highway, appeared in week end editions of several large Texas dailies and weeklies.

The governor proposed that a super-highway from Texline to Fort Worth be constructed by the state and commercial truckers be sold permits to operate trucks with loads of 50,000 pounds or more on it.

As a result, he said, the "Burlington Boys" could park their private railroad car on the little used Fort Worth and Denver tracks and watch their former freight go by on trucks.

Gov. O'Daniel said his plan was directly retaliatory to the Burlington consolidation, which would move the shops from Childress and the general offices from Fort Worth to Denver, Colo., but would absorb much of the labor released through the merger and would give Texas people the benefit of Texas freight business.

Memphis to Lead In 3-A at Least Until Oct. 4th

By DICK COOKE
The Memphis Cyclones got the jump on other district 3-A football teams Friday night when they licked the Lakeview Eagles, 12 to 0, and thereby clinched at least a league leadership tie until their next conference game on Oct. 4.

The loss put the usually low flying Eagles in their customary last notch position but they have an opportunity to pick up next week-end when they meet the untied Wheeler Mustangs.

In non-conference tussles, Lefors alone upheld the usually strong prestige of 3-A, by smothering the Dumas Demons, 25 to 13. The Pirates unleashed a versatile attack and loom as a possible trouble-maker in their freshman year in the loop. They'll get their baptism of conference fire when the possibly overrated Clarendon Bronchos pay them a visit next Friday night.

Down Chillicothe way the Wellington Skyrockets looked like a faulty shadow of their old selves when they were beaten, 41 to 6, in a warm-up game. The crown defenders, the Shamrock Irishmen, showed a remarkable lack of scoring punch when they were stymied at least six times just short of pay dirt by the Canadian Wildcatters who bagged the game, 13 to 0, for their first triumph over the Greenclads in over a dozen years.

Before Industry Can Produce?

When the American industrial machine begins to roll on a mass production basis in behalf of national defense, few doubt that it will show the world something new in military mechanical might. Tanks, airplanes, cannon, armaments of all kinds and varieties, will come off the assembly lines faster than men can be trained to operate them.

However, there are stumbling blocks in the path of industry today that did not exist during World War I. They are not problems of invention and production technique which can be grappled with in laboratory and office. They are the result of too much law-making. Industry is wrapped in red tape as never before. Virtually every operation falls under the alert surveillance of some commission, committee or tax bureau. Whole departments, costly in the extreme, are maintained by every sizable enterprise solely to compile data required by national and local units of government. This is a dangerous condition.

Industry is proceeding with national defense, however, in spite of artificial handicaps. Managements are going ahead with expansion plans running into tens of millions of dollars. In return they are asking cooperation from government to the extent of writing off inevitable losses against taxes in the event that plant expansion programs are unsupported by armament demands.

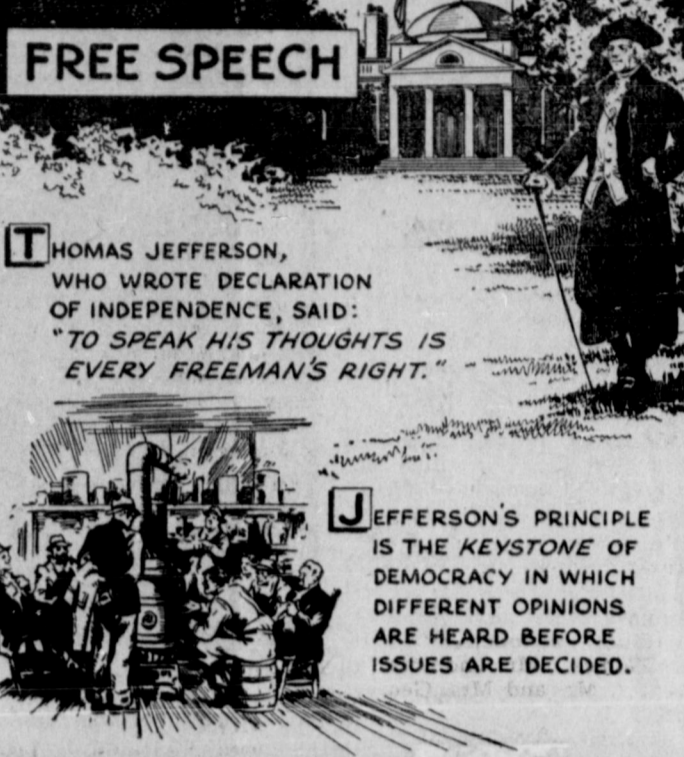

Every step that can be taken to protect and encourage industry during this critical period should be taken. Punitive political attack for the sake of votes should cease. Bankrupt industries are of no benefit to labor, the public or anyone else. Unproductive industries, crippled by too much red tape, can be disastrous at a time when the National Guard is training with "gaspipe" cannon.—I. N. Review.

DEBUNKING FALSE PROPHETS

The country's self-appointed reformers have been telling us that advertising raises the cost of living. Let's see. Let's take an example that everybody is familiar with.
Cast your mind back to what you knew or what your parents knew of the automobile of the first few years of this century. Then a big, heavy, unreliable gas eater could be bought, without top, windshield, horn or spare tire, for from two to six thousand dollars. Few people bought this expensive luxury.

But automobile makers saw a vision, a nation on wheels. They advertised persistently. More people bought. As production went up, the cost to make each car came down. Part of the saving was put into continued advertising. Part went to the public in lower prices. Again more people bought these better cars for less money.

And so it went, year after year. Continued advertising, production and value up, cost and price down, until today you buy an infinitely better, more efficient car, complete, for less than half of the lowest price of a few years ago.

The same is true of the refrigerator, vacuum cleaner, washing machine, oil burner, radio, electric light bulb; of packaged foods, clothes, and many another product that will come to your mind as you think this over. Advertising, says Nation's Business, has helped mass selling and made possible mass production, which cuts the cost and brings the price within the reach of the average consumer.

Preserved in Texas Memorial Museum on the University of Texas campus is the tomahawk used by Moses F. Austin and, later, his son, Stephen F. Austin.

Since 1928, University of Texas debaters have won first place in ten out of twelve debate tournaments, and have captured 71 per cent of the places in 195 forensics contests entered over the same period.

Legionnaires Urge Law To Curb Nation's Traitors

Congress will be bombarded this week with mail and telegraphic appeals from officials and citizens of the Texas Panhandle. These appeals will ask the congress to remain in session until proper and adequate laws are enacted to defend the nation from enemies within.

At its meeting Sunday officials of the 18th district American Legion department adopted a resolution, copies of which were sent to congress today.

The resolution asks that naturalization laws be tightened so citizenship will not be so easy to obtain, that immigration laws be tightened so American jobs can be retained by American citizens; that laws governing deportation of aliens be made more definite, rigid and enforceable; that aliens convicted of espionage, sabotage, traffic in narcotics, narcotic addiction, or advocating any change in our form of government should be deported immediately; that the Communist party or any other political party which receives support from foreign sources be immediately outlawed, and that it should be made a penal offense for a citizen to advocate a change in our form of government by force, fraud or violence.

A committee composed of Lou Roberts, Borger, past state commander of the Texas American Legion; Louis Goodrich, Shamrock, and William Heskey, Pampa, introduced the resolution at Sunday's district meeting near Miami, and it was unanimously adopted.

Copies of the resolution were sent to Congressman Marvin Jones at Washington.

Heskey and Ray Barnes, commander of the Legion in Pampa, also sent copies of the resolution, and urged city and county officials, civic clubs, churches, patriotic groups, and other organizations to join in the appeal by sending a letter or short telegraphic appeal to Congressman Jones or any other national legislator.

The resolution in full follows: "THAT WHEREAS, recent experiences in Poland, Norway, Belgium, Holland and France prove that the enemies which a nation has within its borders may be more dangerous than those which attack from without, and,

"Whereas, this Congress of the United States, now in session, has already enacted the necessary laws to provide an adequate defense from those who would attack us from without:

"THEREFORE, Be it Resolved, that we the members of the American Legion, 18th District of the Department of Texas, feel that it is imperative that this Congress remain in session until proper and adequate laws are enacted to defend this nation from the enemies within our borders.

"We consider the most important of these to be the following:

"1. Tighten up our naturalization laws so that citizenship will not be so easy to obtain.

"2. Tighten up our immigration

MEN BRING ALIBIS.
In response to the suggestion in last issue that men dress more in keeping with weather conditions and seasons, a number have entered alibis against such a feminine regalia as was suggested. Among the objections registered may be knobby knees, hairy legs, crooked shanks, itch scars, etc., etc. The matter has been referred to the veterinary department for the present.

The Sunday magazine sections' annual scare about this being the age of insects has been blasted by research entomologists, who say that insects as a whole have reached the peak of their development and that their period of decadence has already set in.

CCC Boys, Ignorant Of Combat, Can Perform Vital Battle Work

Weep no more because the boys of the CCC have not been trained in the manual of arms and close-order drill. They have learned other things that make them more vital cogs in the system of national defense. If war comes, the men of the CCC will be specialists in a dozen fields, masters of noncombatant technique as vital to the carrying on of conflict as firing a rifle or machinegun.

Here are the things they know that make them soldiers already, in fact if not in name:

They know how to live together

in barracks, under discipline that is as rigid as that of an army camp even if punishment is less severe. Thousands of them know minutely the workings of engines, and how to tear them down and rebuild them in a hurry. Modern war travels on its machines, and the CCC mechanic would fit perfectly into the personnel of a mechanized division.

Many of them are expert drivers of heavy tractors. There is little difference in the process of driving a tractor and driving a tank.

Many of them are expert drivers of transport trucks. It is the same truck, loaded and handled by the same military rules, as the truck a soldier driver would handle.

Many of them are expert welders. There is no difference in patching the steel flanks of a tractor torn by a landslide and patching a steel flank of a tank torn by a shell.

Many of them have better than a fundamental knowledge of the use of surveyors' instruments and the techniques of throwing a temporary span across a stream.

Many of them know the operation of field radios, having been trained in this task by fighting fires.

There are even parachute experts among them. In the far northwest CCC men have been trained to jump from planes to fight small isolated fires in backwoods areas where no truck trails lead.

There are expert photographers among them, and mapping a forest area by photography is little different from mapping a battle terrain.

Know First Aid
They all know first aid. There is no difference in patching the leg of a comrade struck by a splinter of shell and in patching the leg of a comrade gashed by a falling rock.

There are expert cooks among them. They cook the standard army ration on the standard army range, with the standard army utensils. They observe the army standards of cleanliness and of order at table.

They have been soldiers all along, whether they knew it or not. They are soldiers now—trained in everything but the techniques of slaughter.

The day of a CCC enrollee, followed from dawn to dark, shows clearly how close their lives parallel the life of a soldier in camp. They rise at 5:30 to the notes of a whistle instead of a bugle. They dress in the same fatigue clothes that a soldier would wear. They go through the same calisthenics that a company of soldiers would go through.

Early Breakfast
They go in to breakfast at 6 o'clock—the same breakfast they would get in an army camp. At 6:30 they police the camp, the same routine a soldier would follow, even down to making the beds and folding the covers back in the regulation West Point fold. They stand to for roll call, just as the soldier answers drill call. Even the terminology of the army is used.

Henry Fonda, right, plays the role of the famous outlaw in "The Return of Frank James," new 20th Century-Fox Technicolor production coming to The Posttime Theatre for a 3-day showing, beginning at the Saturday Nite Prevue. Jackie Cooper and lovely Gene Tierney are featured in the cast.

At 7:05 they load into trucks, to be hauled to road or forest for their job. If they were troops enroute to be hauled up to the battleline they would not vary this routine one whit.

Mess is hauled to them on the job, and they eat from the same mess-kit that a soldier uses. The food brought up to them in the mess-kit is the same marmite cans that would be used by an army field kitchen sending grub to the front.

At 3:45 they are back in camp, to take up again a routine almost exactly like that of the army.

What Has Been Done

There are 1,500 CCC camps. There are 44 central repair shops now training 2,000 skilled mechanics, and there will be 63 by fall. In addition, each of the 1,500 camps has its own garage, giving basic mechanical training to 9,000 men a year. There are 40,000 pieces of automotive equipment operated by enrollees. A total of 72,000 of them a year learn to operate trucks, tractors, bulldozers, drag lines and scrapers. More men learn than are used in actual operation of machinery. In 1939, 45,000 learned to drive trucks and tractors, 40,000 learned how to repair them, 17,000 learned blacksmithing and 8,000 learned electric welding.

Cooking and baking schools have trained 22,000 men since the CCC was founded in 1933. An army still travels on its stomach. A CCC cook is as good as any to keep that stomach filled.

Last year alone 52,000 men learned first aid. Since the CCC was founded, 300,000 have graduated. There are 3,000 CCC medical aides and orderlies in camp hospitals.

...BUT WHY COURT-MARTIAL THE WHOLE REGIMENT?

There are bound to be one or two bad soldiers in every regiment. But why court-martial the whole regiment?

The same applies to beer retailing. Out of hundreds of thousands of wholesome, law-abiding beer retailers, there is bound to be a small minority who disobey the law or permit anti-social conditions.

To protect your right to drink good beer, the Brewing Industry wants even this small minority of undesirable retailers eliminated entirely. Beer is a refreshing, appetizing beverage — the

beverage of moderation. We want every beer retail establishment to be as wholesome as beer itself.

To that end, we have instituted a "clean-up or close-up" program—now in operation in some states and being extended to others. We'd like to tell you about it in an interesting free booklet.

Frank James Role Brought Stardom For Henry Fonda

Henry Fonda, who plays the title role in "The Return of Frank James," opening at the Saturday night Prevue, has a certain kindly feeling for the memory of the James boys, bandits though they were. For it was the role of Frank James, which Fonda created in "Jesse James," that established the actor as one of the top ranking stars of movies. And it was the success of that picture which led 20th Century-Fox to produce the new Technicolor triumph, "The Return of Frank James."

Fonda began his film career in 1935, and proved a capable player who steadily gained in film stature. Inevitably, he was certain to become a leading star. But the attainment of that happy eminence was realized with his performance in "Jesse James." Cast then, as is the case in "The Return of Frank James," in the role of Frank James, Fonda's part was obviously secondary to the title role. But the skill developed on the stage and screen showed its fruition with the amazing performance he gave in that part.

20th Century-Fox studio was not slow in realizing that it had a player of prime stellar ability in Fonda. The list of pictures in which he has since been cast demonstrates that conclusively.

It was a foregone conclusion, when the decision was made to explore cinematically the adventures of Frank James, that Fonda would be cast to play the role which had, a little over a year earlier, hoisted him to star rank. And the casting of Fonda in the title role was a certain indication that "The Return of Frank James" was to be a production of major proportions.

In the cast with Fonda are Gene Tierney, Jackie Cooper, Henry Hull, John Carradine, J. Edward Bromberg, Donald Meek, Eddie Collins and George Barbier.

Uniform Classing Of Loan Cotton

COLLEGE STATION, Sept. 8.—All cotton used as security for government loans in 1940 will be classed by official boards of cotton examiners of the Agricultural Marketing Service.

Used for the first time in 1939, this system of classing cotton will avoid any inequities among producers whose loan cotton formerly was graded by warehousemen and individual licensed classers, and only slightly more time will be required for approval of the loans, Donald L. Cothran, state AAA committeeman from Paris, points out.

The class placed on cotton by a board will be final, thus avoiding for the producer any expense or inconvenience for reclassing and for making deficiency payments for overclassing. In addition, the cost will be only 15 cents per bale as compared with the usual charge of 25 cents per bale under other procedures.

"The uniform and reliable classing by the boards will give

the producer information of value in negotiating with buyers for the eventual sale of his equity or his cotton," the state committeeman said. "The increased value of such classing will more than offset any inconvenience arising from the additional time needed."

On delivery of cotton to the warehouse for the Commodity Credit Corporation loan, samples will be drawn by the warehouseman and shipped to the nearest central classing office. The samples will be classed and each bale listed on a special form signed by the board and returned to the producer. Loan values will be based on the class shown on this form. The Agricultural Marketing Service predicts samples will be classed usually within 36 hours and at the longest 72 hours.

Silverton Sends Rodeo Invitation For Sept. 27-28

Silverton this week sends a cordial invitation to the folks of Donley county to attend their two day Rodeo there, Friday and Saturday, September 27 and 28. The rodeo is dated and planned as the closing event of the rodeo season in the Texas Panhandle.

Two snappy rodeo programs are planned—in the afternoons only. Nig Reids rodeo pens and his tough Brahma stock have been obtained, and one of the provisions in his contract is that not a dull moment be on his program. Amateurs from all over the Panhandle are sending in for their entry blanks.

Each night there will be a square dance contest on an open air platform for old timers, and both dancers, fiddlers, and callers are invited to take part.

Each night too, there will be a red hot Rodeo Dance, with music by the famous Hetrick's Rhythm Clowns of Amarillo. They need no introduction to dancers of the Panhandle. The dance will be held in the Silverton Ball Room, with the rhythmic floor.

Silverton, a few years back, was known as the best rodeo town in West Texas. It has been four years since they have held a cowboy celebration, and they say now, that they are making up for lost time, and that they will close the Panhandle Rodeo Season with a program that you will enjoy every moment.

Mrs. Eva Draffin is visiting her sister, Mrs. L. Walker, in Amarillo.

Mrs. W. H. Patrick and brother, John Bugbee, were among the fair visitors Tuesday.

Pioneer Pastor Dies Here Friday

FORMERLY PRESIDENT OLD CLARENDON COLLEGE

Funeral services were conducted here Friday afternoon for Rev. George Sam Hardy, aged 78, retired Methodist minister, who passed away at the home of his daughter about 2:30 a. m. Friday after an illness of several months.

Services were conducted here by Revs. E. D. Landreth, G. T. Palmer, H. C. Gordon. Attending the casket were J. T. Patman, Lee Holland, W. W. Taylor, Sam Braswell, J. R. Porter, C. M. Lowry.

Ladies in charge of the flowers were Mrs. U. J. Boston, Mrs. B. F. Kirtley, Mrs. C. C. Powell, Mrs. W. C. Thornberry, Mrs. Guy Stricklin, Mrs. Carl Bennett.

Interment was made at Sweetwater Saturday afternoon.

Rev. Hardy was a member of the Northwest Texas conference of the Methodist Church for more than 50 years. He had always been a member of the Northwest Texas conference but as the country developed, boundaries changed and new conferences were formed. He served, therefore pastores in what is now the Oklahoma, West Texas, Central Texas, North Texas and Northwest Texas conferences.

Margaret Mission, 20 miles west of the present town of Vernon, was Rev. Hardy's first appointment. Two years there and he was sent to Greer County where he spent two years. Then he went to Quanah and Childress. He served there from 1892 to 1896. Two years later he was made presiding elder at Clarendon and has been in the Panhandle ever since.

It was while he was at some of these early charges that Rev. Hardy proved himself a frontier preacher. It is told that he was warned against preaching at a certain ranch because the hands would drive him off and the boss would refuse him aid. But Rev. Hardy refused to be frightened and went to the ranch anyway.

He not only converted the boss and his wife, but all the hands and even the negro maid.

Rev. Hardy served as president of Clarendon College in 1904. As a pioneer elder he served the largest conference district in Texas making the rounds of his circuit with a horse and buggy, requiring weeks of travel. He was also a member of Southern Methodist University's Founders Club.

Survivors are Mrs. M. A. Allensworth, Clarendon, Mrs. Ben Smith, Plainview; Sam Hardy, Houston and Louie Hardy, Stamford.
