And A Few More.

In the course of his speech in the city hall at Fort Worth Tuesday night, Senator J. W. Bailey, after endeavoring to minimize the numbers of those who are criticising his present attitude, referred to those newspapers of the state which have also been criticising him and declared:

"The Fort Worth Telegram, the Dallas Times-Herald and the Houston Chronicle. These are the trinity of Texas newspapers who are fighting me."

The Telegram has repeatedly declared it is not fighting Senator Bailey, and its way of reading the two other newspapers referred to does not yield the view that either of them is "fighting" the junior senator. But all three Texas newspapers have been persistent questioners of the soundness of the Bailey doctrine and in this they are not alone.

For the benefit of those who may have heard Mr. Bailey say that there was only a "trinity" of newspaper critics. The Telegram prints in following list a portion of the newspapers which have lined up in The Telegram, Times-Herald and Chronicle ranks:

Colorado Record, Colorado News, San Angelo Standard, Brownwood Bulletin, Granbury News, Comanche Chief, Weatherford Herald, Weatherford Plain Texan, Cleburne Review, Morgan News, Waco Times-Herald, Waco Tribune, Austin Tribune, Terrell Transcript, Bonham News, Wichita Falls Herald, Denton Record and Chronicle, McKinney Examiner, Cleburne Chronicle, Clarendon Chronicle, Timpson Times, Corsicana Courier-Light, San Antonio Light, San Antonio Gazette, Corpus Christi Caller, Guadalupe Gazette, Cameron Enterprise, Beeville Bee, Palestine Herald, Center Advocate, Yoakum Herald, Beaumont Journal, Riesel Rustler, Troupe Banner, Rogers News, Jacksonville Reformer, Texas Farmer (Dallas), Chillicothe Independent, Athens Review, Quanah Tribune-Chief, Quanah Observer, Amarillo Herald, Amarillo Panhandle, Dallas Beau Monde, Seguin Enterprise, Brownwood News, Corsicana Democrat-Truth, Silvertown Enterprise, Coolidge Ledger, Henrietta Review, Decatur Messenger, Fort Worth Union Banner. And these are not all.

The man who has bought and sold land for 50 cents an acre can hardly comprehend how it can be really worth \$50 an acre. Thus it has happened that the strongest reactionary influence against the advance in the market price of land in Texas has been the incredulity of our oldest inhabitants. Oklahoma and Indian Territory, which have been liberally sprinkled with immigration from the Central States, have witnessed in a decade the advance of land values in the market to a point which similar lands in Texas have not reached in fifty years of development. The precedent which is being set for us across Red river will not be lost, however, upon Texas landowners, and when the last quarter section in the new State of Oklahoma is taken up by an aggressive nestor, Texas will be ready for the tidal wave of immigration which is certain to flow.—Ex.

Standard Oil on Trial.

The Standard Oil Company of Ohio was put on trial at Findlay, O., Tuesday charged with conspiracy against trade in violation of state anti-trust laws. The penalty prescribed is a fine of from \$50 to \$5000 or from six to twelve months' imprisonment. John D. Rockefeller was originally a party to the suit, but was granted a separate trial, the date of which will depend on the success of the state in the present proceedings. It is said Mr. Rockefeller will not be a witness and will not attend the trial.

Surrendered Fees Amount of \$51,000.

States Attorney John J. Healey Tuesday turned over to Cooke county, Ill., all the fees of his office for the last two years, amounting to \$51,213. Healey's act was in accordance with promises made by him before the election, in which he declared that if elected he would accept the statutory salary of \$10,000 as his compensation, and would turn over all the fees to the county. This was the first time in the history of that county that a state's attorney has surrendered the fees of his office.

To Test Separate Coach Laws.

It is probable that the Jim Crow car law, such as is in force in many of the Southern States, will soon be construed by the Interstate Commerce Commission. A negro of Chattanooga, claiming to represent the colored people of that city, has written the commission, protesting against the law in Tennessee and other Southern States. The negro claims the separate car law is in violation of the Federal Constitution, in that it is a regulation of interstate commerce. He says that the feature of the law, as administered in most of States, which requires a negro riding from a state in which whites and negroes are not made to ride in separate coaches to go into the coach for colored people as soon as the train passes into the Jim Crow state, is a violation of the Constitution. The claim is made that the Constitution is also violated by the refusal of conductors in some states to allow negroes to ride in Pullmans. It will probably be some time before any action can be taken.

Should the commission decide that it is unconstitutional to require a negro riding on an interstate ticket to go to the car for negroes on entering a state where the Jim Crow law is in operation, the case will be taken to the Federal Courts.

There is a shortage of good mules all over the south. A good pair of mules is now worth from \$300 to \$400, and few can be had at that figure. Texas farmers and stock breeders ought to go to work to restock the country and receive the good profit sure to come to the grower of good mules.—Stockman and Farmer.

A business education is utilized in every profession. Amarillo Business College conducts a first-class business department.

Bruce President of North Texas Normal.

Professor W. H. Bruce was elected by the state board of education principal of the North Texas normal school, vice Professor Kendall, deceased.

Professor Bruce is about fifty years of age, a graduate of the University of Georgia and Alabama Polytechnic institute, holding the degrees of A. B., M. A. and Ph. D. He has been teaching in Texas since 1884, and is now president of the Texas State Teachers' association. He is the author of several text books and was indorsed for the place by several prominent educators, pupils of the school and ex-students of his schools. He has been at the head of the mathematical department of the normal school some time.

Bailey's Real Work.

The Childress Index takes us to task for not giving Senator Bailey his just dues, and says we accuse the man "merely upon vague rumors and street talk." And that "all of Bailey's antagonists acknowledge that he has always spoken on the right side of every question, and also has voted right."

We regret to see the distinguished gentleman from Childress inaccurate like that, covering good white paper with such nonsense!

Is it a vague rumor that Bailey is the hired man and main prop of corporations—our people's greatest enemies?

Did Bailey vote right when he voted with the railroads against the building of the Panama canal, and did his utmost to prevent the South from securing this vastly shorter route from east to west?

Was Bailey right when he espoused the cause of the wholesale poisoners of this country, and spoke and voted against the pure food bill—one of the most needed bills ever presented to congress?

These two instances alone show that Bailey's antagonists do not acknowledge that he has always spoken right and voted right. The Tribune-Chief, for one, inclines to the belief that while serving two masters, Bailey made many "grandstand" speeches for the benefit of his constituents, but that a careful perusal of his record in committee rooms and other places, out of lime light, will show his faithful work for the boss who paid him best.—Quanah Tribune.

As usual the daily papers and the country weeklies are lined up differently in this Bailey matter. Fortunately for the state, the little papers come the closest to representing the sentiment of the people.—Quanah Tribune.

The condition of Mrs. Jefferson Davids, widow of the President of the Confederacy, who has been ill in New York for several days, is now regarded as serious.

Every time a girl announces her engagement all the other girls say "Poor fellow!"—Chicago News.

Wear Big Diamonds by Right.

STATE NEWS.

There has been frost in low places as far south as Waco.

Wednesday at Taylor fire destroyed the \$600 barn of Joe Murphy.

The Wichita Valley road is completed to Stamford and the Texas Central is pushing on from Stamford to Rotan.

Dr. George C. Rankin has again been elected as editor of the Texas Christian Advocate, the Methodist state paper.

From a lamp explosion Mrs. J. F. Harrison at Mansfield was fatally burned Monday, her hair and most of her clothing being burned off.

Ben, the 10-year-old son of John Harrison living west of Weatherford, fell from a wagon and was kicked to death by a mule this week.

In Ellis county Wednesday Uncle Pierce Swafford was thrown from a mule, his feet became tangled in the plow gear and he was dragged to death.

The cotton gin of W. A. Grimes at Bland west of Temple, was destroyed by fire Wednesday night. The origin is unknown. Loss \$5,000. No insurance.

W. T. Clark, of Lisbon, was found in a freight car in south Dallas Tuesday with his head badly cut and beaten. He could give no account of his assailants. He was taken to the hospital.

George Miller was probably fatally injured Tuesday by being beaten over the head with a club during an altercation at Booneville. Jess Woody, his cousin, was arrested and placed under \$4,000 bond, which he gave.

While out hunting last Tuesday near Quanah, E. A. Clousnitzer let his gun drop from the hack, which was discharged and the load of shot passed through his shoulder and collar bone. He came near bleeding to death and was hurried to a Fort Worth hospital as soon as he was able to stand the trip.

C. C. Williams, of Farmersville, charged by indictment with murdering W. A. Mims in Dallas several months ago, cut his throat with a razor in the county jail there this week. The trial of his case was to have been entered into next day, but owing to the fact that he was so badly injured, the case was passed and the special venire that had been summoned was dismissed. It is possible that the trial of the case will again be set for Oct. 29, in case Williams has sufficiently recovered.

Cigarette Wins in the East.
Says a writer in the Peking and Tientsin Times: "The cigarette has caught the popular favor in the east and far east, being a smoke seemingly peculiarly adaptable to Asiatics. The long-stemmed pipe is giving way everywhere to the cigarette."

Before and After.
The same man who pretends that he likes to row a girl for three hours in a hot sun when they are engaged will be found lying in a shady hammock after they are married, while she is getting him something good to eat in a boiling hot kitchen.

Weak Hearts in British Army.
Nearly 500 men fall out from the ranks of the British army every year, owing to weak hearts and other defects brought about by the illogical system of physical training in the army, said Sir Frederick Treves recently. This system is now under review.

Parents of Little Judgment.

At Rogers Saturday occurred a wedding of a very youthful couple, Albert Stratton, aged 17, taking unto himself a bride in the person of Mary Alma Moore, who acknowledged to the mature age of 12. The parents of both parties gave their consent.—Bartlett News.

Lightning Always from Clouds.

Many photographs of lightning taken in the Transval show that, in all cases, the discharges were from cloud to cloud, or from the clouds to the earth. Nothing was discovered which indicated that the motion was ever from the earth to the clouds.

Never Lonesome.

In the course of conversation an acquaintance remarked to the farmer's wife: "I should think it would be lonesome for you here, so far from the village," to which the reply came: "Lonesome? Gosh, no! Why, on a clear day we can see the mountains."

The Clarendon Chronicle.

Published Twice-a-Week by
W. F. BLAKE, Editor and Proprietor.
 Entered February 10, 1903, at Clarendon, Tex.,
 as Second class matter, under Act of Congress
 March 3, 1879.

CLARENDON, TEX., OCT. 13 1906.

The man who rejoiced because he no longer has to buy ice, wasn't glad long. The price of coal has gone up.

Less than a month now until the election, after which four fifths of the candidates can return to some useful occupation.

T. M. Campbell, democratic nominee for governor, has notified the promoters of legislative day a the fair Oct. 24 he will attend and deliver an address at the smoker.

The Daily Panhandle denies that the crime was committed in that city, until proven otherwise, but whether it was or not, Amarillo has just such a locality as such crimes are usually committed in.

In a late contest between Kentucky feudists sixty shots were fired and only one man was killed and another wounded. Why, a couple of women with hat pins could put up a more effective fight than that.

While Amarillo people have their ire aroused it is a good time to arise in their might and rid herself of what she calls her "bowery." A town is usually just what its people want it to be, and that Amarillo tolerates such a place is certainly an ugly reflection.

Feeling that he had about outlived his welcome in this world, and after working diligently four weeks in constructing his own coffin, Charles Stout, 85 years old, a pioneer of Litchfield, Ill., committed suicide by shooting himself. He left two notes insisting that he be buried in a striped shirt and overalls and that the funeral expenses be not over \$50. He left \$300 in an old closet for his wife.

Even Childress has organized a 50,000 club, and it started out with a sum subscribed amounting to \$1014 to do some effective work. This is the kind of zeal that overcomes natural disadvantages, and effective work is always accomplished in unanimity of purpose and will push a town with natural disadvantages ahead of a town with all the natural advantages if its people are non-progressive. In this connection we might mention that Clarendon has all the natural advantages, but too many of us think nothing else is necessary. A few of us may have a hazy recollection of a start to launch a Donley County Improvement Club, but it "died a bornin'."

Rev. Sebe Thomas passed down the road Tuesday enroute to Childress, and while at the depot here, told us he had seen and identified the body of the boy murdered at Amarillo as being Luther Johnson of Childress, son of the Joanson whom Al Yantis killed in Childress a few years ago. It will be remembered that this boy was accused of stealing a pair of cuff buttons which lead to the killing of his father, who was employed in Yantis' hotel. Since that time the boy has lead an aimless life. He was in a restaurant the night of the murder and paid for a cup of coffee out of a \$10 bill, and it is supposed he was murdered for this sum of money.

Minneapolis got her first snow of the season Monday.

We hope to be in our new building Jan. 1. There is a car of brick on the ground now and workmen to build it are expected daily.

WASHINGTON LETTER.

CHRONICLE CORRESPONDENCE.

WASHINGTON, D. C., Oct. 6, 1906

Social circles here are much interested in the divorce suit and scandal in which Senator Platt of New York and his wife, long a resident of this city are concerned. Senator Platt has been in Congress since the days of Conkling and his face has been familiar to people here for more than twenty-five year. He has probably more appointees, especially those of the female persuasion in the department here than any other man in the country. When his engagement to his present wife, then Mrs. Janeway was announced, there was free prediction that the Senator was not laying up for himself a peaceful old age, and the society women of Washington helped to fulfill the prediction by snubbing Mrs. Platt on all occasions and by making her social career here a prompt failure. When Miss Snow, the daughter of Mrs. Platt by the first of her three marriages was married last spring to Colonel Carmody, the plot thickened and the application for divorce by the young people and the publicity given the Senator's unhappy domestic situation close on its heels, have elicited more "I told you so's" than actual surprise. The aged Senator has been the victim of several love affairs during his second youth and one Mae Wood gained notoriety last year by claiming damages for broken promises from her ancient lover. All of these examples and many others less widely known urge the adoption of a suggestion made in the unfortunate Breckenridge of Kentucky that a bureau for the protection and safeguarding of easily tempted Congressmen from wily school girls and widows should be established at the capital.

The appointment of Hon. Chas. E. Magoon to the temporary governorship of Cuba seems to meet with general approval here in Washington, where he is best known. Judge Magoon has just retired from a long and successful service in Havana and is apparently better fitted by education, combined with experience and temperament for handling the delicate and complicated relations with our Latin friends and enemies than any man just at present obtainable. Three men in this country have become notable in this country's experiments in colonization, Secretary Taft, General Leonard Wood and Judge Magoon, and of these only the latter is available for Cuba. Secretary Taft, whose heart is with the Philippines, feared that by appointing Judge Magoon to Cuba the Philippines for which he was slated would suffer and consequently he urged that some one else should be found for Cuba. Secretary Root intervened with the President and convinced him that the situation in Cuba was more critical than that in the Philippines and so it was decided that Judge Magoon should succeed Secretary Taft at Havana. The work before him in the Island is likely to be as difficult and thankless as that mapped out for any man.

Nine horses from King Edward's stables were entered this week at the eighth annual American live stock show at Kansas City.

Mrs. Wagley came over from Silverton this week to be with her daughter, Miss Maud, who has been sick at the dormitory for a few days, but is now improving.

Hugh Doak visited home folks near Claude over Saturday and Sunday.

Dr. Briggs has been compelled to change his Texas dates on account of the recent floods in the east, hence he will deliver his lecture at the Methodist church the evening of the 18th, instead of the 13th, as formerly announced. Dr. Brigg's lecture will be the second number of the College Lyceum courses.

The Clarendon College Manazine is now an assured thing. The various societies of the College will be responsible for its publication. The business men of the town are responding liberally in the way of advertisements.

The College circle want the people to remember that they will serve dinner and supper on Thanksgiving Day at some convenient place down town, and they hope everybody will at once make their plans to attend church on that day instead of staying at home to get dinner, and then come on to town for their dinners. They announce thus early in order that the ladies need not worry at all over a Thanksgiving menu.

Boys Hurt by Cigarettes.

Excessive use of tobacco, especially in the form of cigarettes, dulls the intellect, impairs nutrition, seriously affects the eyes, causes functional and organic heart disease, and in other ways contributes to physical and mental degeneracy.

Boys who smoke cigarettes much are prodigious liars and thieves, have been found unmanageable at home and at school, and judges of the juvenile court have declared that "of the incorrigible and criminal class of boys, not a boy has been found who did not use cigarettes."

During the past decade the habit of cigarette smoking, especially by boys and young men before the age of maturity, has given rise to so many cases of chronic tobacco poisoning as to cause legislatures to enact laws preventing their sale to the youthful. Usually and unfortunately, many young adults who use tobacco excessively also indulge in alcohol, and in these subjects the use of both poisons often produce atrophy of the optic nerve or retina, and other evils.—Professor Charles Mohr.

Tried the Campbell System.

The Hoffer brothers, who are farming in Prairie township in Kansas, tried the Campbell method of wheat farming during the past year, and according to the Jewell County Republican are much pleased with the result. They gave this outline of their method:

Plowed deep in July.
Harrowed ground.
Cultivated ground so as to get rid of volunteer wheat. (The disk would work just as well and be easier handled.)
Harrowed and sowed.
Harrowed ground in spring to loosen the crust.
Result: 42 bushels per acre. The ground was farmed in the usual way yielded from 25 to 30 bushels per acre. We think we were well paid for the extra work on our bond.
