## LEGISLATIVE.

House committee on criminal jurisprudence killed the bill to reduce the penalty for carrying concealed weapons and also the bill to prevent the sale or giving away of cigarette papers.

Gafford's bill to prohibit giving of premium tickets with purchase of merchandise was reported favorably, also bill fixing venue of offense committed on passenger trains, giving any county through which line runs jurisdiction to try case; also bill providing entry into any home shall constitute burglary.

After wrangling all morning the senate Thursday finally adopted a resolution providing new rules to exclude visitors, lobbyists and others from the floor of the senate. The rules as adopted are not as stringent as those in the house. The senate rules provide that families of members of the senate shall have the privilege of the floor of the senate.

After considerable debate, the house passed to engrossment the anti-lobbying bill Friday, or rather the Robertson substitute for the original bill. Several efforts were made to amend the bill or substitute, but in each instance the effort was ineffective. It prohibits lobbying of the kind that smacks of bribery, but it does not prevent persons from appearing before committees to be heard on any measure which is pending for consideration.

After considerable discussion the senate passed finally Senator Looney's bill of intoxicating liquor in local option districts.

Senator Senter introduced in the senate the Oregon referendum law, which it is proposed to enact in Texas. It is proposed that if 8 per cent. of the voters at the last election for governor file a petition for any law that an election can be called and if the majority vote for it, the measure is made a law without the governor having the power to veto it. If 5 per cent. of the voters submit a petition asking for a repeal of a law already enacted it would have to be submitted to a vote. There would be no recourse if the majority voted for it.

## Whisky and Anti-Whisky Fight.

An Austin correspondent says the announcement from Dallas that the wholesale whisky men are getting ready to test in the federal court the C. O. D. tax law which has been passed by the legislature, is not taken in good grace by the legislators. This is a local option legislature. It is prepared to pass any measure that will put a stop to the sending of liquors to local option precincts and if the whisky men want to start in to test that C. O. D. law they can do so, but they may find they are going to be hit with something harder. The people seem determined that whisky men shall not trample on the laws of the state. This legislature is elected on that platform and it will carry it out. The Baskin-McGregor whisky bill will pass, and it is a tight one, and no doubt about it. The best saloon men will have to suffer with the bad ones, because there is going to be universal closing at midnight; there is to be regulation, and maybe there will be high license. In other words; it will be made less profitable to do a whisky business, and it will be a deal more dangerous to the saloon-

man's liberty if he violates the law. The edict has gone forth; the legislators believe in this thing, and they will send the laws to the governor, and any man who knows Tom Campbell knows that he will sign any bill that will protect the people against the encroachment of whisky men. When this legislature adjourns a whisky man's bond must be a good one, worth all the money it calls for, and collectible whenever he fails to follow the path laid down for him. And the same bond won't be good for but one attack. After it pays up once it will be out of business and the license goes with it. Therefore, those liquor men who are appealing to Judge Meek at Fort Worth and Dallas may find that something will be handed them with which a federal judge won't interfere.

## Give Justice to the Chinese.

There is one of the most appalling famines in the history of the world in China. In all the cities of the famine district, parents may be seen on the streets offering to sell their children from \$2 to \$4 apiece. Thirty-seven years ago there was a famine in China in which 10,000,000 lives were lost and our consul general at Shanghai fears that this one will prove to be even more severe. It would seem that now would be the proper time to return to the Chinese government the unused Boxer indemnity of 1901, which so preyed upon the conscience of the late Secretary Hay that he advised paying it back without delay. The share of the United States in that prodigious extortion was the sum of \$24,168,357. The total legitimate claims of American citizens for damages was but \$2,000,000, and they have been settled, leaving some \$22,000,000 either in the possession of our government or still to be paid in installments by China. The sum actually in the treasury of the United States must amount to several millions of dollars.—The Investigator.

## Legislative Mileage Graft.

An Austin special says that Gov. Campbell has made no haste to sign the senate bill fixing the rate of mileage and per diem of members of the legislature. It is said that the governor is inspecting it on top, bottom and sides, and that he is not pleased with the provision that legislators shall continue to draw mileage at the rate of 20 cents a mile coming and going.

The bill which Representative Clements, the man who discovered the absence of a law upon the subject, offered, provided that the mileage should be at the rate of 5 cents a mile, but his bill was killed. It is now said that the governor thinks that 3 cents a mile would be a plenty, in view of the fact that that is the legal rate for passenger fares in Texas, and propositions are pending to scale said rate.

## Plant Trees.

Saturday Governor Campbell is sued his Arbor day proclamation, requesting the people of Texas to observe Arbor day, which is Friday, Feb. 22, as a legal holiday. The day is to be devoted to the planting and cultivation of trees, etc.

City of Mexico's new postoffice, declared to be the finest building of the kind in America, was dedicated Sunday.

## WASHINGTON LETTER.

Special Correspondence.

### PURE FOOD JOKER.

The Pure Food Bill was passed by Congress last session after a memorable fight. If enforced properly it will prove of great benefit to every individual. But at this time the friends of this most necessary reform are called on to meet a determined flank attack.

Representative Tawney, of Minnesota succeeded in having the following restriction attached to the appropriation made for the enforcement of the law:

"Provided, that no part of this sum shall be used for the payment of compensation or expenses of any offices or other person employed by any State, County, or Municipal government."

Now if this provision be enacted into law, it will prohibit the Secretary of Agriculture from employing any one of the vast number of trained scientists that have been developed in the different State pure food departments, and in Municipal health offices. It would take years of time and millions of money to develop an entirely new organization equal in efficiency to this body of men ready at hand.

With this restriction the appropriation of six hundred and fifty thousand dollars will be ridiculously inadequate, and surely that fact was known to Representative Tawney, and to Representatives Fitzgerald of New York, Sullivan of Massachusetts, and Crumpacker of Indiana, who helped him put through this totally unjustifiable amendment. It is to be hoped the Senate Committee on Agriculture and Forestry will cut out the "joker."

### BOOMING FAIRBANKS

There has been in the last week or two a revival of president-making politics in Washington. The assiduously cultivated boom of Vice-President Fairbanks is apparently the most flourishing. He is understood to have organizations throughout the south and the delegations from that section which will probably not furnish a republican vote in the electoral college are thought to be, in a measure, already corralled by him. The trusts, and especially the railroad combination, are friendly to Fairbanks. There are many, indeed, who look upon him as Harriman's representative. He has put probably ten times more money into his campaign than any other candidate. It is estimated that his entertaining in Washington has cost him not much less than the president's salary of \$50,000 a year. His fine residence, within three blocks of the White House, is a social center of but little less activity and interest than that of the White House itself. Politics is a business with both the vice-president and Mrs. Fairbanks, and has been for many years. People here are apt to attribute the three elopements in the Fairbanks family to their mother's activity in G. A. R. matters and politics which kept her away from her children when they most needed her companionship. Whether that is true or not, Mrs. Fairbanks is a politician and diplomat.

Those members of the state legislature who are already endeavoring to name the time of adjournment seem to have altogether lost sight of those state Democratic platform demands.—Telegram.

### The Socialist Vote.

A subscriber last week asked us what the socialist vote was last election. No full report has been published, but we copy the following from Wilsbire's Magazine for February:

"Although the complete official returns of the Socialist vote in the November election are not yet available, the total it is known, will approximate nearly two hundred and ninety thousand for the head of the ticket and about forty thousand more for the highest vote given in each state. Mr. W. J. Ghent, Secretary of the Rand School of this city, gives the latest figures which show 285,296 as the vote for the head of the ticket and 330,158 as the sum of the highest votes. Illinois stands at the head of the list with 42,065; Wisconsin follows with 24,437, and New York comes third with 21,751. Next follow in order, Ohio, 18,432; Colorado, 16,938; California, 16,016; Pennsylvania, 15,169 and Missouri, 11,528. The remainder of the states polled under 10,000 each.

"Colorado shows the greatest increase in percentage, 294, due of course to the candidacy of Wm. D. Haywood. Florida shows the greatest per cent. of the state vote, the figures being 11.02.

"The vote of New York is but 1.49 of the total state vote as compared with 2.28 in 1904. The highest Socialist vote in the state is 24,122.

"The total vote of the Socialist Labor Party is 24,880. In the state of New York 2,624.

"Some slight changes and additions are still to be made, but they will not materially affect the totals above given, which are considerably below the record years of 1904. This decrease is doubtless largely due to the presence of various radical and labor tickets throughout the country, which naturally diminished the Socialist totals."

Mrs. Hetty Green, reputed to be the richest woman in the world, has sold her sugar plantation in Cuba for \$5,000,000 to a New York syndicate. She purchased it four years ago for \$1,500,000 and has since cleared the purchase price.

## The Clarendon Chronicle

Published Twice-a-Week by  
W. P. BLAKE, Editor and Proprietor.

Entered February 10, 1903, at Clarendon, Tex., as Second class matter, under Act of Congress March 3, 1879.

CLARENDON, TEX., FEB. 20, 1907.

The new C. O. D. law has been attacked in a number of places by the whisky men invoking the injunction process.

The establishment of an immigration station at Galveston was authorized in a bill passed by the United States senate last week.

The Missouri legislature is considering a bill to fine newspapers not less than \$100 nor over \$1,000 for publishing results of horse races or names of horses in contest.

Neither branch of the legislature was in session Saturday and no committee work was done. Most of the members used their free passes in making a trip home or out of Austin.

Plans have been formulated by the central committee of the International Sunday School association for the world's Sunday school convention to be held at Rome, Italy, during next May. One feature of the program will be a vesper service in the Colosseum, on the very spot where a great many early Christians suffered martyrdom.

The so-called investigation of Bailey is proving to be but a glaring farce, with a majority of the committee, including the chairman, making everything as favorable to Bailey as they possibly can. Not only that, but they do not, if it can be helped, allow testimony to appear in the record before being censored by a majority of the committee, assisted by Senator Bailey.

The administration plan to settle the California Japanese situation was approved by the senate Saturday in the adoption of the conference report on the immigration bill. This report contains a provision which authorizes the president to exclude Japanese laborers from the United States at his discretion. The report will now go to the house for its approval, which, it has been stated, is assured.

At the approaching Hague conference a determined effort will be made to bring about a decrease in the standing armies of the world powers. And why not? The increase of standing armies, the cost of maintaining them, as well as the enormous cost of the ever-increasing navies looks more like the world is retrograding or drifting back to savagery, than that we are growing more enlightened and peace-like.

Colorado City, formerly one of the leading cattle shipping towns of West Texas, has already received more than 43,000 bales of cotton for the season, and the gins in that section are still running.—Fort Worth Telegram.

Yes, and it has only been a very few years since a stock paper at Colorado City, since gone out of existence, said it could never be made a farming country, that it was only fit for stock grazing and that it was only fools and bonus hunters that would claim it was otherwise. Wonder what the editor of the then West Texas Stockman now has to say on the subject?

The jury at Hillsboro in the D. R. Rice case has returned a verdict of guilty of murder in the first degree and assessed his punishment at confinement in the penitentiary for life. Rice lived at Joshua, in Johnson county, and was a prominent merchant. His wife died somewhat suddenly about Dec. 6, 1904, and shortly after her burial suspicions were formed that she had been poisoned.

### Penitentiary Report.

The monthly report of the financial agent of penitentiaries for the month of January shows a balance on hand on Jan. 31 of \$160,508.

The report of the superintendent was that there were 3 800 convicts on hand on Jan. 1 and during the month 62 were received, 2 recaptured, 4 returned by Sheriffs, 82 discharged, 6 pardoned, 8 died, 4 delivered to Sheriffs and 3 paroled, making a total of 3,755 convicts on hand Feb. 1.

They were located as follows: Insane asylums 13, contracted forces 1,457, state force 371, railroad forces 305, Harlem State farm 174, William Clemens State farm 150, Wynne State farm 40, Huntsville prison 468, Rusk penitentiary 777.

### Where Some of the Money Goes.

There has been for some years tentative efforts made to find out how much money was spent annually in Europe by American tourists. The economists have been anxious to get exact figures to enable them to settle the vexed question about the balance of trade. Recently an effort was made along a new line and the banks gave their aid. The amount of letters of credit were looked up and it was found that tourists spent in Europe at least \$275,000,000 every year, and the probability is much more. All that money is dug out of the farm and the mine and those who do the work do not often spend a summer in Europe.—The Investigator.

A case is reported in the New York papers that is rather hard on the doctors. A girl fell off a ladder some ten years ago and partially dislocated her neck. She has suffered from paralysis ever since, and at times suffered the most excruciating pain, all the time being under the care of physicians. Last week she had a more excruciating attack than usual and, being crazed with pain, she seized her head with her hands and gave it a twist. The bones went back into place and in a few hours she was a well woman and stood and walked for the first time in ten years.—Ex.

Sunday and Monday a great forest fire was raging in the forest reserve in the Wichita mountains and 100,000 acres of timber and grass are threatened with complete devastation. Several thousand head of cattle are being grazed in the reserve, and the lives of many of them are also in danger. The national game preserve and buffalo range that is being fenced has been entered by the flames, and is likely to be destroyed. Forrester Morrissey has several hundred men fighting the flames.

Fort Worth had a fire Friday night between Second and Third streets on Main. Damage, Miller's chili and fruit stand, \$100, no insurance, Ed Wilcox's saloon, building owned by James Moore, \$750, partially covered by insurance; Bound shoe shop and Swartz tailor shop, \$800, partially covered, buildings owned by R. M. Wynne, St. Elmo hotel, \$2,000, building owned by Mrs. L. C. Larrimer and occupied by H. C. Haley, partial insurance on building, but none on contents. City Planing mill, owned by R. L. Brown, \$8,500, partially covered.

The Clarendon College Fifty Thousand Dollar Club had a meeting yesterday and besides several enthusiastic speeches, several new members were added and over \$2000 more was added to the subscription list, running the amount up to over \$13,000. The committee would like to be ready for the corner stone laying by July 1.

Come and see our new stock of hats and caps. E. DUBBS & SONS.

### STATE NEWS.

W. H. Ingerton has been appointed postmaster at Amarillo.

Fifty feet of a trestle south of Fruitland burned on the Denver Sunday, delaying trains some ten or twelve hours.

Floyd Newton, aged 15, son of Luke M. Newton, a farmer near Marshall, was killed by a falling tree Saturday while dragging down cornstalks.

At Waco Friday John Kemendo, aged ten years, attempted to pass beneath a Katy freight train just as the train started. A wheel passed across the little fellow's neck, severing his head from his body.

Al Yantis, charged with the killing of Johnson in Childress three years ago, was continued by the court at Vernon until the next term of court, owing to the illness of Mrs. Yantis and the absence of witness Fires.

W. H. Downard, a real estate and insurance agent of Purcell, I. T., formerly district clerk of Cooke county, Texas, killed himself Thursday by shooting himself through the breast. The deceased had been sick for several weeks.

The contract was closed at Tahoka Monday for the construction of a railroad from Hereford in Deaf Smith county to Stanton in Martin county. The road is to be known as the Panhandle Short Line, and the contract specifies that work is to begin by May 1, 1907.

The movement of cabbages and other truck to market out of Southwest Texas is beginning to be very large. The railroads are handling a big quantity. All manner of early vegetables are demanding a high price in Kansas City and other markets and the outlook for a prosperous year with the truck growers is excellent.

Charles Thomas, a lumber dealer of Alvord, was shot and instantly killed on a Rock Island train near Hobart Friday. Dr. E. D. Beauchamp, of Lawton, was arrested. The shooting occurred over family troubles which occurred at Mangum, Ok., several years ago, where both lived. Beauchamp was taken to the Hobart jail.

Oscar Smith, a high diver in Carver's show, dived to his death Sunday at San Antonio. His feat was to force his pony, which he rode from a high tower into a deep tank, and it is supposed the pony threw up its head upon striking the water with such force that it struck Smith in the face, rendering him unconscious, and he drowned immediately.

Gail McBride, who was chairman of the negro reception committee and in charge of arrangements for negro delegates during the state Republican convention at El Paso last August has been given two years in the penitentiary for forgery. It was charged that he forged the names to orders for the money due local negroes for entertaining negro delegates. Another case is pending.

At Dallas Thursday morning a small building owned by some minor heirs, of whom C. T. Rowan is guardian, and occupied by Mrs. Kate Duff as a grocery store, was destroyed by fire, and the mother of Mrs. Duff, Mrs. Julia A. Gardner, lost her life in the flames. The building was a solid mass of flames before the family, who lived in the rear rooms, were aware of the danger. The family consisted of Mrs. Duff and her mother and two small children of Mrs. Duff. The fireman say all the inmates got out of the building, but that Mrs. Gardner, under the impression that one of the children was still in bed, re-entered the house to rescue it. She had scarcely entered the bedroom when the burning walls collapsed.

**Still Coming to the Panhandle.**

Officials of the Denver road say that during the past month the Fort Worth & Denver City alone handled over 175 solid carloads of immigrant outfits to points along its line in the Panhandle section, while probably half as many cars were diverted to other lines, especially to the Wichita Valley road. Calculating upon the recognized basis that one car represents one family and that five persons average the family, it will be seen that during four weeks the Denver has carried over 1,300 people to those sections, prepared to settle and make their permanent abode.

The other roads having Panhandle inlets, notably the Rock Island and the Santa Fe, have carried car after car of passengers, but the figures are not obtainable. Considering the fact that the Santa Fe and the Rock Island have inlets to the north, it is figured that these two roads carried at least 3,000 people into the Panhandle sections during the past thirty days.

Freight department figures show that the first six months in 1906 a total of 395 cars were handled, while during the latter six months the number of cars of immigrant outfits totaled 637.

**Hereford Cattle Prizes.**

The sum of \$20,000 was announced Saturday in Kansas City at a meeting of the board of directors of the American Hereford Cattle Breeders' association, to be given in prizes for Hereford cattle exhibits at 37 different shows to be held in 32 different states and Mexico during 1907, and January of 1908.

The American Royal Live Stock show, to be held in Kansas City during the week of Oct. 14, and the Chicago International Live Stock show, scheduled for the first week in December, were most favored, each receiving \$4,000 Fort Worth, where the fat stock show will be held the third week in March, got \$1,000. The remainder was divided into sums ranging from \$100 to \$800.

**During Month of February**

WHEN we bought our Winter Stock of Ladies' and Gent's Furnishings we expected to have a great deal of Winter Weather, but we were fooled on that. Warm, unseasonable weather has been our luck, so now we find our stock of Winter Goods that should of moved in December and January still lingering. We do not want to be looking at this stock in March when our Spring Goods begin to arrive. So we have decided to put a move on everything in the house. It is

**OUT WITH 'EM**

for every garment. If you do not believe that we are going to move them, come to this store and watch us. **OUT WITH 'EM** on all Winter Goods,

**Commencing February 2, 1907**

**THE** *Raincoat* **Raincoat** is a coat for all days. The only time you are aware it is a raincoat is on a rainy day. On all other days it presents the appearance of an ideal Spring Overcoat.
