President to Block Statehood.

A press report from Washington says:

"There will be no statehood for Oklahoma and Indian Territory under the Constitution as it is now formulated. The only way the Democrats there can save statehood is to reassemble the convention and eliminate the gerrymander and other obnoxious provisions of the document. This information came direct from the White House.

"While the official copies of the Constitution promised the President by Chairman Murray have not arrived, the President has been advised of the objectionable features which are known to be in the document, and declares in tones that could not be misunderstood that he would turn down the Constitution.

"Democratic leaders here are advising Oklahoma Democrats to reassemble the convention and put out a respectable Constitution.

Sat on Bryan and Culberson Resolution.

Saturday Senator Senter offered the following resolution to the Senate:

"Resolved, That the Senate of Texas commends to the Democracy of the Nation as a presidential ticket which would represent the highest ideals and the scoundrel statesmanship the names of William J. Bryan and Charles A. Culberson."

The moment the resolution had been made Senator Meacham raised a point of order against it and the point of order was sustained. Afterward all reference of the matter was expunged from the record.

Costly Negligence.

It is observed that every time Gov. Campbell mentions new subjects of legislation they are in the nature of correction of laws passed at the regular session. The time does not seem to be far away when the rule will be to have special sessions to cure defects in laws passed at the regular session and also at special session.—Dallas News.

Mr. H. Clay Pierce of the Standard Oil company follows the example of the late head of the Baking Powder trust, Mr. Henry M. Zeigler, in the plea that the extradition proceedings are the result of a "conspiracy." The representatives of the people of Missouri were, in the Zeigler case, alleged to be "conspirators," and now the public servants of Texas are laid under the same charge. The potency of the defensive accusation comes largely, of course, from the fact that the officials of the trust would never, never think of such a thing as entering into a conspiracy against the people.—Kansas City Times.

The appropriations of the Fifty-Ninth Congress, as announced a few days ago, amounted to \$1,800,387,328.96. The appropriations of the second session exceeded those of the first more than \$40,000,000. Reaching the \$2,000,000,000 mark by the next Congress would cause but little astonishment. Thirteen thousand three hundred and nineteen Federal positions were established by the last congress, the yearly salaries of which aggregate \$8,852,000.—Dallas News.

The arrest of H. Clay Pierce, the millionaire oil magnate, in St. Louis the other day was a source of satisfaction to many people. It is only regretted that he was not arrested and brought to Texas to testify in the Bailey investigation. He is charged with perjury. Pierce will endeavor to escape being brought to Texas by habeas corpus proceedings in the federal court of St. Louis.—Memphis Herald.

If you want good fresh chocolates and Bon Bons try the kind the Clarendon Bakery sells.

Going in Debt.

One of the very worst things one can do is to spend money before it is earned—go in debt—buy on credit. The system is one of the greatest causes of "hard luck," or financial straits. To buy things and settle for them with "promises to pay" will surely bring trouble, no matter how large a salary one has. By thus tying up our resources, we are never in a position to meet the future with anything like a comfortable condition of mind, and if for any reason our earning ability is cut off, it places us in a very disagreeable position. The only sane, sensible, way to live is to set aside, every pay-day, some portion of our earnings, and force ourselves to live strictly within the limits of what is left. We may want more than this balance will buy, but it won't hurt us half as much to want as to face a deficit with no prospect, or a distant one, of being able to meet our obligations. We all have too much as it is. We could do with much less and still be happy.—The Commoner.

Brings Returns.

A gentleman tells us when living in Central Texas he had been in the habit of sending a dozen copies of local papers each week to people in the old states, and as a result had been instrumental in locating lots of people in that particular country. What's the matter with some of our people doing the same thing.—Quanah Tribune.

A substantial and sensible citizen says that he takes particular pains to read carefully the local papers. He reads everything, locals, personals, editorials, and advertisements. He says it pays him as he gets knowledge that is helpful to his business, knowledge that he could not get from any other source. To read carefully each week the local paper is worth from \$5.00 to \$100.00 a year to any thinking man no matter what his occupation is. He may not know or see the benefits but he gets them and uses them. Now, the editor does not write this solely as a selfish motive to boost his own business, but we have a great desire to present an idea that will help each and every citizen of the county.—Jacksboro News.

The Daily Panhandle says the Rock Island will build the Tucumcari extension this summer. It says: "Whether the extension will be completed this summer the entire 115 miles to Tucumcari, New Mexico, is not certain but it has been unofficially given out several times recently by Rock Island officers that the completion of the extension was a definite intention on the part of the Rock Island."

A prominent member of the Ananias club here said that during the hail storm here a large hail stone fell near the crusher. It fell on a large rock and bursted all to pieces and two full grown wild geese flew out of it. Arise and sing!—Jacksboro News.

A German princess who stole \$20,000 worth of silverware was adjudged insane. Had she stolen a loaf or two of bread she might not be considered mentally competent but she would be physically imprisoned.—Ex.

Why don't the railroad companies increase the fare to 6c because of the increased cost of living? If it is right to double salaries of men in public service on this account, why not double in all other lines? The News does not believe that either should be permitted to do any doubling.—Dallas News.

The man who brags usually has a lot to say about the things he is going to do. What he has done is far less important.

New Orleans Plans for Show in 1915.

Mayor Behrman named a committee of twenty-five to lay plans for the International Exposition which it is proposed to hold in New Orleans in 1915, a joint celebration of the opening of the Panama Canal and the one hundredth anniversary of the battle of New Orleans.

Albert Godchaux of the New Orleans Progressive Union has submitted the suggestion that the director generalship of the exposition be tendered President Roosevelt, and this suggestion is one of the principal matters which will receive attention by the committee named.

The "Lost Art"

If our girls, whether contemplating marriage or not, who have homes and mothers, would study the "lost art of housekeeping" and seek to render themselves efficient and proficient in the business (for it really is a business) and profession of housekeeping and home making, there would be fewer sorrowful sinning and unhappy, broken-down lives because of trying to "make a living" in the mad scramble for situations which are already overcrowded, and at best poorly paid. The young wife who has found that life is something of a failure when soggy bread and muddy coffee is the rule, or when "store-cooked" food are all that her table can "set before its king," should learn to eliminate the merely ornate, and do first the every day-essentials, perfecting herself in the few substantial, and keeping within the limits of her untrained strength. Simplify and systematize should be her watchword.—Ex

STATE NEWS.

The milling and light plant at Roysse, burned Friday morning. Loss \$20,000, pretty well covered by insurance.

At an election to decide on incorporating for school purposes at Chillicothe, the vote was 92 for and 21 against the proposition.

Miami Flouring Mill together with 1,000 bushels of wheat and one residence horse, burned Wednesday morning. Cause of fire unknown. Partly insured.

The Waggoner Bank and Trust Co. of Fort Worth, will erect a ten-story building, the highest building in the state. It will be of sufficient strength to add five more stories.

After being on trial a week at Paris, J. Marsh Dunlap, charged with killing Geo. W Hood a year ago, in the southern portion of Lamar County, came out clear. The plea was self-defense.

Andrew J. Black, commander of Parmley Post, Texas Division, Grand Army of the Republic, was run over by a Texas and Pacific engine in the yards in Fort Worth Thursday night and perhaps fatally injured. His left foot was crushed off and the leg torn and lacerated up to the knee. He was also injured internally.

Fort Worth has gone under a commission form of government. If such government is good for a city why not extend it so as to take in the state? At present the state legislature is too large and unwieldy to transact the business that comes before it, and if the lower house was reduced by half it would accomplish more.—Childress Index.

Points of a Good Horse.

Here are some good suggestions from a Canadian bulletin, giving the points of a good reliable horse:

If a horse is short ribbed he is light in his middle and is nearly always a poor feeder. He has not the stomach to contain succulent food to serve him from one meal to another.

A light centered horse seldom weighs well, and weight in a draft horse, if it comes from bone, sinew and muscle, goes a long way to determine his commercial value.

A stallion whose feet are contracted and brittle and whose hocks are puffy and fleshy looking should be avoided, as such hocks are generally associated with a coarseness throughout his whole conformation and a general lack of quality.

When a horse is well coupled together on top and has a short back, he must have the length below from the point of the shoulder to the back of the thigh. When so built he will stand the strain of drawing heavy loads much better than if he has a long, loose back.

The front feet and hocks are the parts of either a draft or a driving horse that come directly in contact with the hard work, and unless they are sound and good a horse's usefulness will be very much impaired and his commercial value much lessened.

Before using a stallion get the groom to lead him away from you. Stand square behind him and see that he picks up his feet and places them on the ground properly, traveling in both trot and walk clear and clean, not striking the ground first with the toe and then bringing down the heel.

The feet should be large and waxy in appearance. The sole of the hoof should be concave, the frog spongy, plump and elastic, because it acts as a buffer to take the concussion from acting too severely on the foot, pastern and fetlock. See that both sire and dam have sound feet, free from flatness, brittleness and are not contracted. There should be no gumminess about the hocks of the draft horse, as it indicates coarseness. They should be large, flat and firm, and should be wide, especially from a side view.

The Clarendon Chronicle

Published Twice-a-Week by
W. P. BLAKE, Editor and Proprietor.
 Entered February 10, 1902, at Clarendon, Tex., as second class matter, under Act of Congress March 3, 1879.
 CLARENDON, TEX., MAY 15, 1907.

The Brownwood Fifty Thousand Club has appointed a board of directors for a big fall fair to be held in October or November. It will be a county fair with agricultural and live stock exhibits, racing, carnival attractions, etc.

A report from Guthrie, Ok., says that the Shawnee Central Railroad Company has been chartered with \$10,000,000 capital. The road will build from Muskogee via Shawnee one hundred miles to Childress, Texas. W. S. Woods of Kansas City, a banker, is the principal in corporator.

Circuit Judge Powell has assessed fines aggregating \$28,000 against the three Kansas City ice companies which on April 30 last he declared guilty of maintaining a pool to keep up prices of ice and to restrain the manufacture of that article in violation of the state anti-trust law. He ordered that the charter of the people's Ice, Storage & Fuel Co. be forfeited and that the concern be ousted from the state.

All this clamor for increased valuations, coupled with additional taxes from corporations will, we are afraid, accumulate a state treasury fund from which extravagant expenditures will be taken. The special tax board may reduce the rate, and it may not. We do not know what action our country commissions will take in the matter, but we believe that if valuations are raised they should lower the county rate in something like proportion, so as to put no heavier tax burden on the people than can be helped. Low taxes is one great inducement to new settlers and tends to economy in expenditures. While we do not advocate niggardliness in needed expenditures, extravagance should not be encouraged.

To Hide out Their Passes.
 A press dispatch from Austin says of the legislators:

"From what can be heard it seems that there will be some traveling in Texas from now until July 11. Those who secured railroad passes and telephone franks as a result of the session just closed are going to use them before the anti-pass law becomes effective. A number of extensive trips over the State have been planned, and the Solons are determined to see their State on passes before the record of a railroad pass will have passed into history.

The Kansas City business men arrived a little late Tuesday morning and they did not spend more than 25 minutes before the train left. The weather was raw, and each made a rush for the business house they were most interested in. A number of them made favorable remarks of the town and its apparent prosperous condition.

The month of March slipped about two cogs and gave us May weather, and though this is May 15, the weather is more like March or April. It may be that we will get some July weather pretty soon, but don't take us for a weather prophet.

By the discharge of a gun two other boys were struggling for possession of Bob Shirley was killed near Decatur, Tex.

While crawling through a wire fence at Sparta, Bell county, the gun Albert Frazier, fifteen years old, was carrying was discharged. The boy was killed.

Denison, Texas, May 12.—In a freight wreck on the M. K. & T. Ry at Milford, Texas, Engineer Ed J. Bevan and Brakeman Lawrence Foley were crushed to death and Fireman H. S. Gardner was fatally hurt. The engine overturned on a bridge, catching members of crew underneath. Fifteen cars were wrecked.

A Radish Crop.
 H. P. Gillespie, living near Casey's Mill, reports a successful effort in raising radishes in a small way. He planted a plot of ground 13 by 21 yards in early radishes. Up to April 1 he had sold sufficient radishes to net him \$58.09, after paying express and commission charges.—Atlanta News.

The telephone office will be moved to the company's new building this week. A great deal of new material has been added and an immense amount of work done. This is now one of the best local systems in the Panhandle.
Four of the twenty engines purchased toward the first of the year by the Fort Worth & Denver, have been shipped from the shops at Richmond. These four engines are of the consolidation locomotive style, and are classed as splendid engines for hauling the traffic of the Denver road. A lot of new freight cars are also expected soon.
Rev. Reynolds, president of Goodnight College, preached interesting sermons at the Baptist church Sunday and Sunday night. The pulpit committee of this church will supply a minister each Sunday until a pastor is selected, which may be some time yet. We will probably be able to announce in Saturday's Chronicle who will preach next Sunday.
We are late with this issue and have had no time to gather local news, as we have been installing a gasoline engine and a new shafting and pulleys. We have also received this week over 200 pounds of printing material, besides paper stock. All this in addition to being very short of help, has caused the contents of the paper to be somewhat short, but we will be in better shape for future work.

CLOTHES FOR MAY

SUIT VALUE

Must not be compared with suit price. Suit value means quality, workmanship durability, fit, design and general satisfaction. The suit falling short in any one of these is expensive at any price, for it does not possess actual every-day wearing value.

The Clothes That Hayter Bros. Sell

are for those who consider real economy rather than cheapness; real value rather than price. After paying for Highest grade of material and workmanship, there is still an additional value in durability, comfort and artistic style that was not included in the price.

Verdict for Dr. Pierce AGAINST THE Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on," and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the slanderous and libelous article that Dr. Pierce's Favorite Prescription, for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$200,000.00 damages. Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business; furthermore, that no alcohol, or other poisonous, or habit-forming, drugs are, or ever were, contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatsoever; and that Mr. Bok's malicious statements were wholly and absolutely false. In the retraction printed by said Journal they were forced to acknowledge that they had obtained analyses of "Favorite Prescription" from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs. These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wickedly defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however, brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

WASHINGTON LETTER

(Special Correspondence.) Plans for raising the money to purchase a site for the proposed Hammerstein grand opera house in Washington are rapidly progressing.

To Be National Institution. Mr. Hammerstein's plans for the Washington opera house are on a large scale. It is his wish as well as that of those who are interested in the project here to make the opera house a national institution, situated as it will be in the capital of the country.

Treasury to Be Repaired. The treasury department has awarded the contract for repairing the east front of the treasury building. The repairs will include the entire east front of the treasury, which was constructed years ago of sandstone.

Clerks Put on Honor. Secretary Garfield has effected an annual saving of several thousand dollars in the interior department by signing an order which relieves employees of the necessity of having their signatures to traveling expense accounts acknowledged before a notary or other official empowered to administer oaths.

Gifts to National Gallery. There is now on exhibition in the Corcoran Gallery of Art the important and pleasing group of forty-six paintings by American artists recently presented to the National gallery by William T. Evans of Montclair, N. J.

The President's Vacation. President Roosevelt will leave Washington unusually early this year and will take the longest vacation at Oyster Bay he has ever had there.

Pure Milk For Infants. A movement is on foot to establish a number of distributing dairies throughout the city, at which certified and otherwise pure and safe milk can be purchased for infants.

A Mean Advantage. "You say he accused you of being untruthful?" "That's what happened," answered Plute Pete, with much embarrassment.

Siamese Object to Walking. The Siamese, above all nations in the world, hate to walk. No such mode of progression is tolerated by a Siamese if he or she can by any means ride.

Attentions Ceased. "Is Willie still paying attention to Tillie?" "No."

Not Her Full Weight. Mistress-Letta, Letta, you'll break that fragile table with your full weight on it. Letta-I haven't my full weight on it; I'm standing on one foot.

Senior Reminiscences. The chapel clock peered the hour for us, and we ate it with epicurean enjoyment. We were walking together, the senior and I, and I listened with baited breath while he told me a fish story.

Frankness Not Always a Virtue. Jack London before setting out on his world tour in a small boat was the guest of honor at a dinner in San Francisco.

A Fighting "Super." The following little gem was one of the experiences of Mr. Benson, the Shakespearean actor.

Silence and Science. Before it was determined scientifically that smoke is waste, smoke was fixed as the final indication and proof of prosperity.

Never Loses His Head. Many years ago, when William J. Stillman of New York city was reporting a disturbance in Greece for the London Times, a report was sent out that he had been beheaded.

A Swinburne Anecdote. "Studies in Eccentricity" having stirred up the London papers to match reminiscences of great men placed at a disadvantage, this is related as an example by the Chronicle.

Queessed Right. When Governor Frazier of Tennessee attended the launching of the battleship named in honor of that state at the shipyards in Philadelphia he entered into a discussion of that city's projected filtration system.

Not a Distillery. Representative Fred Landis of Indiana was coming to Washington over the Pennsylvania railroad the other day, and with him was Representative Olcott of New York.
