RELATIVES HELP PIONEER LADY OBSERVE BIRTHDAY

More than usual interest is found in the details of the celebration of Mrs. E. H. Watt's 75th birthday at Giles Sunday. Of the four immediate members of her original family, all were present. The three sisters are Mrs. W. D. Shelton of Ashtola, Mrs. E. W. Bromley of Clarendon, Mrs. W. I. Rains of Hedley.

The celebration was held in the home of Mr. and Mrs. E. H. Watt, which was also the home of the three sisters when they came to Donley county more than fifty years ago. Mrs. Watt was both sister and mother to the orphaned sisters.

Mr. Watt, for more than thirty years, was section foreman on the Denver at Giles. He is also a distant relative of James Watt, Scottish inventor who first learned to apply steam to an engine in 1767.

Donley county citizens present were Mrs. E. W. Bromley, Mr. and Mrs. W. D. Shelton, Mr. and Mrs. W. I. Rains, Mr. and Mrs. F. G. Watt and children, Mr. and Mrs. W. C. Bridges, Mr. and Mrs. Bill C. Bromley and children, Mr. and Mrs. Charles Rains, Mr. and Mrs. Dick Shelton, Mr. and Mrs. E. M. Glass, Mr. and Mrs. L. T. Shelton, and children. Mrs. Sam Robertson and daughter and Mrs. Lloyd Moreman of Amarillo.

The event was planned by the relatives and was a complete surprise to the honoree. Food was brought in baskets and a picnic lunch spread at the Watt home.

Several of the above names frequently appear in the "36 years ago" column of your Donley County Leader.

Miss Arnold is a member of the American Nurses Association, and the National Red Cross Association. She assumed her position here the first of last week.

BAND CONCERT SUNDAY NIGHT AT THE FIRST CHRISTIAN CHURCH

This Sunday evening June 8 at 8:15 the Clarendon School Band will present a sacred concert at the First Christian Church. The Band began their regular summer practice last Monday evening and lovers of band music will have a treat in store for them this Sunday night.

During the evening an offering will be taken that will be divided between the Band and the Y.P.S. of the Christian Church to assist young people to attend Ceta Glen Conference this month.

Everyone is invited to attend this concert and the public is asked to be on hand early so the crowd can be seated without confusion.

ATTEND BANKER MEET IN AMARILLO

Seven hundred and fifty registered at the district Banker's Convention in Amarillo Tuesday. The ladies were shown the usual courtesies of entertainment while the men were in session.

A pleasing feature was a barbecue at the Fair grounds.

Among those attending the Banker's Convention at Amarillo were Mr. and Mrs. Van Kennedy, Mrs. Swift and son, Junior, and daughter, Anna Moores Swift; Roy Clayton and daughter, Geraldine; Wesley Knorpp, Carroll Knorpp, W. H. Patrick, Mrs. Harold Bugbee, Mr. and Mrs. M. R. Allensworth, Mr. and Mrs. J. L. McMurtry and Misses Mantie Graves and Lottie Lane.

MRS. PEEBLES HOME

Mrs. T. H. Peebles, who spent the winter with her daughter and husband in San Antonio, arrived home Wednesday. She was accompanied by the daughter and husband, Mr. and Mrs. S. T. Tullus who will visit here a few days.

Mrs. Peebles is staying at the home of Mrs. Eula Cox for the present.

VISITED PALO DURO

Visiting the famed Palo Duro state park Monday were Mrs. A. L. Chase and son Arthur, Mrs. B. T. Clark of Austin and Misses Geraldine and Tillie Pratt. They attended the graduating exercises at West Texas College while over there.

MRS. SMITH IMPROVES

TWO FROM CLARENDON GRADUATE AT TECH

Two of the four hundred and twelve to receive degrees at Tech College at Lubbock Monday were from Clarendon. They are Miss Jeanne Jeffries McDonald and Wesley Howard Strawn.

Miss McDonald received her degree in journalism, and Strawn received a degree in dairy manufacturing.

Of the large number graduating Monday, 13 received master's and 378 bachelor's degrees. This makes a total of 4,967 to receive degrees from that school since it was founded in 1925.

TWO POISON PLANTS OPENED TO FIGHT GRASSHOPPERS

County agent H. M. Breedlove representative for the A&M College Extension Service in Donley County announced this morning that the fight against grasshoppers in Donley County is now under way. There are two plants in operation in the county located at Clarendon and Hedley. The Clarendon poison plant is located in the Caraway building and the plant at Hedley is located in a building on the Cicero Smith lumber yard.

Breedlove urges every one to take part in this program and kill the hoppers while they are young. There is no danger from the use of this poison Breedlove stated if it is properly handled. The poison should be scattered on the infest-

ed areas at the rate of five pounds per acre to eight pounds per acre. The poison should not be left around the house in sacks. The poison should be used the same day that it is received from the poison plants.

There is a charge of ten cents per sack Breedlove said and this is to pay for the rent on the buildings and to pay for the equipment in the plants. The farmer is required to furnish nothing but the sacks to take his poison home in. Poison is available to everyone who has grasshoppers on his property and if we kill all of the young hoppers Breedlove said then this will help to hold down the infestation for the coming year.

Mulkey Memorial Day July 4th

Clarendon's Rodeo and Celebration Committee met this week and decided to set July 4th as "Homer Mulkey Day" in honor and appreciation of the late Homer Mulkey, who was always one of the strongest supporters of the annual Celebration. A special appreciation service will be held from the platform on Main Street, at 10 a. m. July 4th. The committee felt that a program from the platform could reach more of the crowd expected to gather for the event, and also that it would be more fitting as Mr. Mulkey was always on hand at the platform to help carry on the festivities on all past occasions.

Lee Bell and Sam Braswell were appointed to form a committee to arrange for the appreciation service. "Homer Mulkey Day" badges will be printed and presented to each person attending the event. The special day event is expected to draw thousands of people from Texas and neighboring states to participate in the appreciation service.

CLARENDON GIRL IS ILLINOIS GRAD

Among the more than two thousand students to graduate from the University of Illinois at Urbana June 9th, is Ida V. Williams, daughter of Mr. and Mrs. Glenn Williams on Naylor route. Miss Williams will receive her bachelor's degree in library science.

OLD SETTLERS PLAN THEIR ANNUAL TATE GROVE RALLY AUGUST 15th

A meeting of the Donley County Old Settlers Association board was held at Hedley Saturday for the purpose of selecting the various committees necessary to insure the success of the annual gathering in Tate Grove August 15th.

At the session August 16th of last year, Tate Grove was unanimously voted the annual gathering place. This grove is on the farm of President Tom Tate where shade and water is convenient.

The program committee members selected are J. N. Riley of Clarendon, Mrs. W. C. Bridges and Mrs. Thava Crawford of Hedley, Mrs. Walter DeBord of McKnight, J. F. Stiles of Bray.

Members of the Finance committee are W. Milt Mosley of Hedley, L. M. Spier of Bray, Mrs. K. K. Day of Lelia Lake and Mrs. John Goldston of Clarendon.

Arrangement committee includes Carl Reed, Joe Crawford, Frank Jones, George Johnson of Hedley, Ben A. Kiser and C. C. Cavender of Bray, Walter DeBord and John Tate of McKnight.

Uncle Bill Rains was again selected to secure the badges, a job he performed last year with great success. Uncle Bill Rains is "president emeritus" of the Association for having served in that capacity for a number of years.

President Tom Tate presided at the meeting Saturday, and secretary Mrs. Thava Crawford wrote up the minutes. She will notify each member of the various committees of the time and place to meet at their earliest convenience.

Members of this Association pay no dues. To be eligible, one must have resided in the county twenty years. The one lone requirement is that those attending bring plenty to eat. The food is spread upon long tables and served family style.

This annual picnic is designed especially for the old folks. It is one place where "mother Hubbard's" and "old lady's comfort" shoes or slippers is in style and much in evidence. At these gatherings, the fashion plate is forgotten, the big majority going in for comfort and wholesome amusement in meeting the neighbors and enjoying the day. It is said to be the biggest event of its kind in the Texas Panhandle, and the outstanding event of the year in Donley county.

D. W. CLAMPITT ILL

His many friends will be pleased to learn that Mr. Clampitt is showing some improvement in health after an illness of several days at his home.

Junior College May Receive \$5,000

A message of much concern was received by your Donley County Leader at 10:30 a. m. Wednesday relative to a certain bill having passed both lawmaking bodies at Austin.

The message received from Rep. Ennis Favors reads: "The Junior College bill granting \$50 state money per pupil has passed both houses and gone to the Governor."

Normally, the only means from the state was the \$21 apportionment for pupils under 18 years of age. Few of that age ever became college students. Under the new Bill, the College will receive more than \$5,000 a year, or \$50 for each enrollee.

Gov. ODaniel is expected to sign the Bill today since he gave it his endorsement prior to its passage.

S. H. CONDRON RECEIVES DEGREE THURSDAY

Stuart H. Condron, former teacher in old Clarendon College, and for many years head of the Department of Government of West Texas College at Canyon, received an honorary degree of Doctor of Laws from McMurray College of Abilene Thursday.

Mrs. F. L. Bourland, sister of Dr. Condron, attended the ceremonies.

HEDLEY FAMILIES SCORE IN GRADS

Mr. and Mrs. Claude Bain and Mr. and Mrs. S. G. Adamson of Hedley were signally honored this spring by each family having three children graduate from school.

Miss Theresa Bain received her B. S. degree at Canyon June 2nd. Keith Bain received his high school diploma at Hedley on May 16th. Miss Leatha Bain received her 7th grade diploma on May 14 at Hedley.

Miss Carman Adamson received her B. S. degree at Canyon June 2nd. Miss Lorena Adamson received her high school diploma May 16th at Hedley. Bernard Adamson received his 7th grade diploma at Hedley May 14th.

The honors of each family run parallel.

RAINFALL RECORD

According to the records of official weather observer Joe Goldston, the rainfall during May amounted to 6.89. June already has a credit of .73 that fell the first of the week.

With a fall last year of 14.22 inches, almost half as much fell this year during the month of May.

May of last year chalked up 1.79 as compared with the 6.89 this year.

One and a half inches of rain fell this forenoon from 6 to 12 o'clock, according to Mr. Goldston.

FROM HOUSTON

Mrs. Everett Clark of Houston is visiting her sister, Miss Lottie E. Lane and brother, Frin. H. M. Lane and other relatives and friends in Clarendon at this time.

GARRISON INFANT DIES FRIDAY

Beset with pneumonia, measles and whooping cough, after recovering from mumps, Barbara Gean Garrison, aged 22 months succumbed at the home of her parents near Martin Friday.

The parents are Mr. and Mrs. F. I. Garrison.

Red Cross List Great Credit To Women

That wonderful exhibit at Hotel Clarendon Saturday and Sunday is a monument to the loyalty and sympathy of the ladies of Donley county who, through the medium of the Donley County Chapter of the American Red Cross, are helping the victims of World War No. 2.

Included in the showing was 159 knitted garments; 101 children's wash dresses; 18 women's woolen dresses and 24 cotton dresses; 43 flannel pajamas; 51 boy's shirts and operating gowns.

To give the reader some idea of who has been helping, the groups are named. In most instances the director's name of each group is mentioned.

Directing the work of the Baptist ladies were Mrs. H. T. Burton, Mrs. Fred Cook, Mrs. Carl Peabody.

The work of the ladies of the Christian church was directed by Mrs. C. E. Harvey and Mrs. G. A. Anderson.

The Home Ec. department of the High School directed by the instructor, Miss Maurice Berry, made 150 garments for the layettes.

The Methodist church ladies were directed by Mrs. Cal Merchant, Mrs. Lon Rundell, Mrs. Virginia Schull. The Sunday school classes of Mrs. J. T. Patman and Mrs. C. B. Morris also came in for a big share of the credit in this group.

The work at Ashtola was directed by Mrs. M. H. Rhoades; Goodnight, Mrs. A. M. Crain and Mrs. Henry McKee; Lelia Lake, Mrs. Earl Myers; Hedley, Mrs. Ray Moreman. The ladies of both Chamberlain and Windy Valley helped in making dresses and knitted garments. Names of directors could not be learned.

HOWARD KING AGAIN DOES FIELD WORK

Friends of Howard R. King, farmer residing north of Lelia Lake, are pleased to see him again doing field work in a normal manner. Mr. King recently received a head injury while repairing a windmill. The block fell and crushed a portion of his skull. He was rushed to Adair hospital where a surgeon removed portions of King's hat from off his brain. He was taken home a few days later. Now he is his normal self again. His speedy recovery is said to be marvelous, according to those who are familiar with his condition at the time he was brought to the hospital.

ATTEND EXERCISES

Mrs. E. P. Shelton and Mrs. E. M. Ozier attended the graduating exercises of West Texas College in Canyon the first of the week, returning home Tuesday. They were accompanied home by Miss Edith Shelton.

RETURNS TO SNYDER

Mrs. R. J. Dillard, who has been visiting with her parents, Mr. and Mrs. F. L. Bourland the past two weeks, has returned to her home in Snyder. Her sons, Garry and Lynn, will remain for a longer visit.

SHERIFF REPORTS RAIN OVER ARID WEST

Making a trip to Sierra Blanca over the week end, Sheriff Guy Wright reports lakes full along the highway all the way. West of the Pecos, he states that they have had an abundance of rain, and would have fine grass if they had the seed.

He was accompanied by his two sisters, Miss Isabel Wright and Mrs. Lucile Kent. They went after Mrs. Gladys Wright, county H. D. agent of Hudspeth county, who is ill following a major operation some few weeks ago in El Paso.

VISIT IN OLLER HOME

Guests of Mr. and Mrs. J. F. "Shorty" Oller the week end were her mother, Mrs. S. W. Blackwell and sister, Mrs. Gees and husband of Ft. Worth, her brother, Mr. Harry Guill and wife of Pampa and daughter, Mrs. Floyd Rhodes and husband of Groom.

SPONSOR EVENT LARGEST UNDERTAKEN IN DONLEY

METHODIST CHURCH BIBLE SCHOOL

The vacation Bible training school at the Methodist church had a total enrollment the past week of sixty-six, with an average daily enrollment of fifty-four.

In addition to the regular study, each department did project work. The intermediate department made the programs for the school. The Juniors and Beginners constructed houses in replica as they appeared in Palestine during the time of Jesus. They also carved the vessel imitations from soap.

A book of poems and pictures was made and given the pastor by the Beginner class.

The attendance and interest is said to have exceeded any previous effort in this grade of church work. The school closed Friday.

ODESSA DOCTOR SEES LEASE ON ADAIR

Here Sunday, Dr. Thornton of Odessa again returned Wednesday accompanied by Mrs. Thornton and his head nurse. They visited Adair hospital in the afternoon, at which time Dr. Thornton is alleged to have informed Miss Emily Arnold R. N., superintendent of the hospital, that he had leased the hospital, and would take charge of the institution today—Thursday.

Judge J. R. Porter, member of the Holding Board, stated that he knew nothing of such a change or lease being made. Judge R. Y. King informed the Leader that Adair hospital was already under lease, and would continue the present routine.

CHURCH OF CHRIST PASTOR TO MOVE

There are many expressions of regret that pastor Claude C. Smith is to leave Clarendon next week. He was offered a larger field of work, and has accepted the pastorate of the Merkel, Texas church.

FROM COLORADO

Neal Thompson and a friend, Al Wells of Boulder, Colo. arrived Wednesday night for a few days visit with home folks. He will return to work in Cheley Camp, Colo.

Bible School In Session

The annual Vacation Bible School opening Monday has an enrollment of 105 students. Children are present from the Methodist, Baptist, Presbyterian, Episcopal, Church of Christ and Christian churches of the city.

Rev. M. M. Miller is director of the school. The faculty includes Mrs. Jeffries, Miss Lorene Gunter, Mrs. Roy Clappitt, Miss Leone McCraw, Mrs. E. C. Herd, Misses Edna Mae and Mable Mongole, Mrs. C. E. Harvey, Mrs. Joe Goldston, Mrs. D. Jones, Miss June Melton, Mrs. Howard Stewart, Miss June Miller, Mrs. G. D. Shelly.

The musical directors are Miss Frankie Hommel, Millard Miller, Margaret Faye Wadsworth and Ruth McDonald are secretaries.

The school will close Friday noon with a picnic at City Park. Approximately sixty children will receive a certificate for attending at least four days during the week.

Classes are being instructed in the Presbyterian, Baptist and Christian churches.

C. C. CAMP CALLING FOR MORE BOYS

High school and college graduates may enroll for CC Camp work between the ages of 17 and 23 at this time, at a salary of \$30 per month. If their folks at home do not need the help, they may save up \$22 each month, with \$8 to spend.

The enrollment period is six months. For further information, apply to the County Welfare office in the courthouse.

The sponsor event for the annual rodeo and celebration this year promises to be the most extensive ever undertaken by the local committees. The event has been planned under the direction of Mrs. J. H. McMurtry and R. E. Drennan with the help of a number of committees. The sponsor event will feature three separate divisions, the out of town event, the Donley County Sponsor event and the event for children up to 13 years of age.

Mrs. J. H. McMurtry and Mrs. John McClellan have charge of the Donley County Girl Sponsor Event. Any girl or woman in Donley County 14 years of age is eligible to participate. Drills for the contest will be held the latter part of June.

Mrs. George Bagby will have charge of the out-of-town sponsor event in which any woman 14 years of age or older who lives out side of Donley County will be eligible to participate. Letters have been mailed to 45 communities inviting them to send a sponsor to participate in the event.

Mrs. Harold Bugbee and Miss Charlotte Molesworth have planned numerous entertainment events for the sponsors, which include dances on the nights of July 3rd and 4th, and other gatherings.

The following is a set up for the events as outlined by the sponsor committee:

Girl Sponsors

Mrs. Joe McMurtry, Director. Local sponsors will be divided in two sections and half will compete afternoon performance day of 3rd and half the day of the 4th. This will be determined by drawing for days. Three will be selected from each day's contest and the six finalists will compete the night performance July 4th.

1st prize, \$40, 2nd \$25, 3rd \$15.

Out-of-Town Sponsors

A chair sitting contest will be had at night performances, 3rd and 4th. Prizes \$40, \$25, \$15.

A special contest for the kids up to 13 years old, \$20 in prizes.

TO STUDY AT DENTON

Miss Geraldine Pratt, who taught in the public school at Hereford the past term, has matriculated at N. T. college in Denton for the summer term.

Booster Trips To 30 Towns

The advertising committee for the annual celebration and Rodeo, composed of Ralph Andis, Homer McElvany, Lee Bell, Verna Lusk, and Ray Robbins, outline plans for the annual booster trips and dress-up campaign at a committee meeting Tuesday afternoon. The annual dress-up campaign was set for June 16th, when the pen and other necessary materials will be ready for those who don't appear on the streets in the necessary two-pieces of cowboy regalia. The dress-up campaign resulted in much wide spread interest and publicity last year, and the committee is asking all Donley county citizens to cooperate with them again this year.

The itinerary for the annual booster trips call for visits to thirty Panhandle towns and communities on June 26th and 27th. The first day's trip will be made on the south run with stops at Ashtola, Goodnight, Claude, Washburn, Amarillo, Canyon, Happy, Tulla, Silverton, Quitaque, Turkey, Lakeview, Leslie and Brice.

The second day will find the troopers at Lelia Lake, Hedley, Memphis, Estelline, Childress, Wellington, Shamrock, McLean, Lefors, Pampa, Skellytown, Borger, Panhandle, White Deer, Groom and Jericho.

The committee announced that they would contact every merchant and individual possible to have as large a delegation as they could arrange.

EDWIN EANES TAKEN TO HOSPITAL

Indisposed for several days, Edwin Eanes was taken critically ill Sunday. His condition did not improve, and he was taken to an Amarillo hospital Tuesday in a Buntin ambulance. Reports today indicate that his trouble has not been defined. He is said to be somewhat improved late Wednesday.

MANN'S HEADQUARTERS GOES HAYWIRE

Aside from daily radio talks, an estimated \$25,000 is being spent by Jerry Mann's headquarters in Dallas for mats and union label printing, states the Texas Press Messenger, official publication of the Texas Press Association.

More than 900 newspapers, most of them weeklies, are on the mailing list for "free" advertising in the form of mats and feature articles allegedly boosting the campaign of Jerry Mann who is seeking the senatorial seat vacated through the death of Morris Sheppard.

Very few weeklies are running the free stuff. Only Monday of this week, each of the 900 alleged "dupes" received a radio schedule

of Mann's speaking hours to be advertised free. If Man is defeated, he can credit it up to his Dallas campaign managers.

LOCAL LADY DISCOVERS BOWIE PAYROLL PLANT

Reporting on a sweet potato factory at Bowie where she is visiting relatives, Mrs. F. C. Johnson writes of its advantages, and inquires: "Why can't Clarendon have a payroll plant?"

She states that the plant there manufactures four products. They are flour, starch, dextrose and dye. The same company wants locations in Texas for two similar plants, the only ones of the kind in the nation.

They also want locations for twenty dehydration plants. Since old Donley can produce the sweet potatoes in any quantity, more people will want to know why we of Donley county can't have at least one payroll plant.

Only producer pledges are needed. When sufficient acreage is pledged, the corporation is ready to provide the potato market right at home.

Last week acreage was being rounded up at Muleshoe in an effort to get a payroll and farmer market at home.

A Flying Squirrel? There is no such thing as a flying squirrel. They can glide downward, but can't rise. With the exception of bats, no North American mammal is capable of sustained flight. In the squirrel that glides, there is an extension of skin on both sides of its body extending from the front to the hind feet. When it leaps with its feet spread out, this membrane of skin is extended, forming a flat surface which enables it to glide diagonally downward from one limb to another.

Arthur Chase, State University student, is home for vacation.

Museum Building Fund \$56,952

CANYON—President Roosevelt has given his approval to a WPA allocation for erection of an addition to the Panhandle Plains museum. The sum, and the sponsor's portion, are to reach a total of \$56,952.

News of the grant came from Congressman Eugene Worley. Mr. Worley immediately notified Senator Grady Hazlewood at Austin, urging him to push the bill under which the State would match funds with WPA. As a result of the Panhandle-wide "gold brick" campaign, a fund of about \$7,000 is pledged to expedite beginning of construction. The local fund or state appropriation must be increased to \$20,000 or more.

The basement for the addition was completed several years ago under a \$25,000 grant from the Texas Centennial Commission. The present campaign is intended to rear the upper structure on this basement.

The museum is so popular and widely recognized that it cannot contain all the gifts which are offered. One of these will come from Judge James D. Hamlin of Farwell, president of the Panhandle-Plains Historical Society. Judge Hamlin's collection of valuable art objects cannot be received until the addition is completed.

Already ranked as one of the outstanding institutions of the kind in the southwest, the Panhandle-Plains museum ultimately will have a commanding place among the museums of the nation.

UNCLE SAM IS WANTING TRACTOR MECHANICS

The Civil Service Commission has announced the need for men with experience in the operation, maintenance and repair of caterpillar tractors, draglines or gasoline power shovels, adjustable blade road graders, power driven blade graders, gasoline road rollers or bulldozers, to fill vacancies in the position of Road Equipment Operators, \$1860 a Year in the War Department, Quartermaster Corps, at various Camps throughout the State of Texas.

Applications may be filed with the Manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, Louisiana until further notice. Copies of the announcement and application forms may be obtained from the Secretary, Board of U. S. Civil Service Examiners, at any first- or second-class post office in the State of Texas, or from the Manager, Tenth U. S. Civil Service District, Customhouse, New Orleans, Louisiana.

But then, I got to wondering
And honestly, I swear,
I can't see for the life of me
What he was doing there.

HABITS AND CUSTOM.
One Englishman makes a club, and two make a bomb-proof shelter. Out here, three Americans make a beer party and four make a rodeo celebration.

SOCIALIZED STUFF.

The American Medical Association and three doctors were fined several thousand dollars last week for interfering with "socialized" medicine. We printers have been harassed by "socialized" government printing for most a half century and don't like it, either. But we don't want to be fined.

JUST SAP.
The sap is up in the trees, but in too many defense factories, he is sitting down.

OH! GOLLY!
Imagine Martha Raye and Eleanor Powell suffering with the hoof and mouth disease.

ALIBI DOPE.
If mother is a club woman, there's far less disgrace for the children to look dirty and upkept

than if ma takes in washing and hasn't the strength nor the time to clean up the kids.

HOUSEHOLD HINT.
If you suffer from a weak back, try this exercise: Get down slowly on your hands and knees and scrub the kitchen floor.

POPULARITY.
The successful business man who hewed to the line letting "gyps" fall where they may, never became very popular.

FALSE REPORT.
A party reading this column at Alamogordo writes in to say that our story of the scientist who declared that the White Sands would engulf Alamogordo in two million years is merely "propaganda put out to hurt the town and to help Santa Rosa," besides we scared a lot of the women

folks telling them stuff like that. Any woman's nerves ought to get settled in 2 million years.

RENAME IT.
Now that the Allies have Ethiopia for a while, we hope they will change the name to Holstein—where the white and black mix.

THE DANGED LAWYERS.
After listening to an address by a lawyer at the school closing, Oola Yurt believes there is no one so low-down as a lawyer. She knew one several years ago who tried a spicy divorce case behind closed doors and denied the public the right to enjoy the lurid details.

HOME HINTS.
In closing, the following hints are given: When hungry, eat. When tired, lie down. When your nose itches, scratch it. And remember, death and taxes appear to be a sure thing, still death does not keep having more sting every time congress meets.

A week end guest of Mrs. A. L. Chase was Mrs. B. T. Clark of Austin.

Mrs. Otis Rolls and Baeil Smith were in Amarillo Monday to spend a part of the day with their mother, Mrs. Victor Smith, a patient in the hospital there.

GARDEN GLANCES
"America beautiful lies in the hands of the gardeners."

June has arrived with more variety in the gardens. Roses are still in full beauty, poppies are with us yet; honeysuckles are perfuming the air and many other summer flowers are beginning to show their charm.

Tall white, pink and blue spires of rarest beauty are given by the stately larkspur in the yard of Carl Adams. There are also many other bright spots of this old favorite.

The C. C. Gilbert yard presents a number of flowers of especial interest to the botanist. Here we find corn flowers in five different shades and perennial sweet peas in three gorgeous shades.

A rare view of charm and grace is given the passerby as he sees the stately, white Regal Lilies making attractive the homes of Rev. J. Perry King, Misses Harned, and Mrs. Wiedman.

A scene of outstanding beauty is the rose entwined fence edging the George Ryan home in west Clarendon. If you have not seen this remarkable beauty spot drive by and see for your self. Mere words do not adequately express its loveliness.

LOCAL WOMAN'S BROTHER KILLED NEAR AMARILLO

Funeral services were held in Amarillo Tuesday for George Henry "Judge" Crawford, a brother of Mrs. Lucian Bones here.

Crawford was found dead by his brother Jack Crawford in a corral at the Lindsey Campbell ranch northwest of Amarillo late Saturday afternoon. His leg was broken and the back of his head was smashed. The horse he had evidently been riding was found in the pasture with the saddle turned beneath him.

It is believed that the horse fell upon the rider from indications found in the corral.

LIQUOR TAX INCREASES UNDER NEW LAW

The Omnibus Tax Bill went into effect June 1st. It increased the tax on distilled spirits from .96 a gallon to \$1.28. It levied a tax of 22 cents on each prescription for liquor filled by drug stores holding medicinal permits.

Florida Full of Holes
There are approximately 30,000 fresh water lakes in the state of Florida. No wonder they have good fishing down there!

Whale of a Story

Whaling, an unusual occupation which nevertheless provides employment, food, and utilities for many thousands of people throughout the world, is included among the subjects of research conducted by the Fish and Wildlife Service under the national conservation program.

Recent surveys show that during the 1938-39 season, 34 floating factories and two shore stations employing 281 catchers or "killer boats," operated in the Antarctic Ocean, where the bulk of the world's whaling activities

now is carried on. Seven maritime powers, including the United States, had fleets in the Antarctic during the period.

About one million whales were taken throughout the world in the three centuries between 1620 and 1920, while the total take between 1919 and 1938 was 543,622 whales. Thus, over half as many were captured in 20 years of the present century as were killed in the preceding three centuries. The Whaling Treaty of 1936 and international agreements regulating whaling resulted from the realization that the rate of capture far outdistanced the natural rate of replacement.

Mrs. J. D. Browder and daughters, Geraldine and Bess of Fort Worth, will arrive Thursday (today) for a visit with Mrs. R. A. Chamberlain.

Prairie Chickens

Hard Hit

Texas lost practically its entire 1941 crop of the Attwater prairie chicken when flood waters in Colorado and several other south central Texas counties swept away the nest of the birds, it is reported to the executive secretary of the Game Department.

Prairie chickens, once very abundant in Texas, are now so scarce that the state legislature recently passed a bill maintaining the present closed season on the birds. Texas has two varieties of the chickens, the Attwater, found on the coastal plains, and the lesser prairie chicken, which is found in a few counties in the Panhandle.

Destruction of the nesting areas of the prairie chicken is the biggest cause of their decline in number. Cotton and other crops now grow where the chickens once thrived in the panhandle, while the rice acreage is increasing each year in south Texas and the range of the birds is extremely limited. It is not considered likely that Texas will ever have a long open season on the birds, although it is barely possible that the Game Department will be able to restore the birds to a number sufficient to allow a very short season eight or ten years from now.

Mr. and Mrs. A. G. Lane and daughter, Mrs. Roy Gammons and baby visited their daughter and family. Mr. and Mrs. Dalton Ford at Groom Tuesday. They were accompanied home by their grandchildren, Nancy Ann and Chas. Ford for a few days visit.

LOCAL FAMILY HAS LARGEST FAMILY IN DONLEY COUNTY

A short time ago your Donley County Leader started out to find the largest family in the county. Right here lives Mr. and Mrs. W. H. Buchanan, parents of fifteen children. All the more remarkable is the fact that all are living. Fourteen of them were born in Texas.

Of the fifteen children, eight are boys and six of them married. Of the seven girls, all are married. There are nineteen grandchildren

and two great grandchildren. The last family reunion was held in 1926, at which time thirteen of the children were with their parents.

Two of the sons are doing service for Uncle Sam. Wylie Buchanan, the seventh son, has been in the navy six years. He is gunner captain on the U. S. Tennessee and is stationed much of the time at Long Beach, Calif. Cordell Buchanan, the eighth son, has

been in army training at Ft. Sill, but recently had a transfer to Fort Lewis, Washington state.

The father, W. H. Buchanan, is a native of Washington county, Arkansas, and has been married twice. He is the father of twenty children. He came to Denton county soon after the war between the states. He relates Indian skirmishes in Denton county in 1868, "but being a lad of eight years, he never got into any of the fights. At the age of fourteen he worked in Burnett county as a cowboy. "We gathered cattle on the Rio Grande and brought them to Burnett county, paying only a few dollars a head," he relates. He lays no claim to having been a "trail driver" in the old Chisolm days.

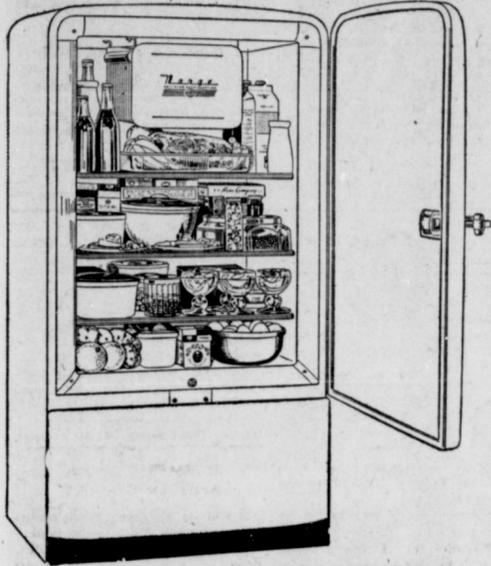

The family home was near Joy in Clay county for many years before moving to Donley county in 1929.

Mrs. Buchanan is a native Texan and proud of it. She takes an active interest in the welfare of her children. She is 62 while Mr. Buchanan is 81. Both enjoy good health for their years.

Summing up his experiences, Mr. Buchanan regards dodging Comanche Indians in Denton and Burnett county as the highlights of his thrilling experiences. The family resides in west Clarendon. Though a farmer for many, many years, Mr. Buchanan has retired from active work. His principal occupation right now, as he expressed it, is to keep his grandchildren off of the street near his home, lest they be murdered by an auto. He employs a fly swatter as a persuader for the little tots. Yes, they mind him without question or complaint.

Basil Kirtley left Monday for a visit with his grandparents, Mr. and Mrs. J. J. Smith at Hubbard City.

Mrs. Marvin Wright of San Diego, Calif. is visiting Mrs. Whittell. Mrs. Wright will be remembered in Clarendon as Myrtle Jolly.

White House of Canyon de Chelly

Three great canyons with walls of red sandstone, towering as high as 1,000 feet in places, comprise this national monument. Here the Navajo Indians put up their last resistance against Colonel Kit Carson before they bowed to the white man's supremacy. Several prehistoric dwellings are found here, most famed of which is "The White House," so called because the ruin was lined with a white clay. Canyon De Chelly is pronounced "Canyon De Shay." Near Chinle, on the Navajo Indian Reservation, this monument may be reached by leaving U. S. Highway 66 at Chambers (61.8 miles east of Holbrook) and traveling 79 miles due north.

MEMORY LANE

(10 years ago in Donley county.)
A. N. Wood has closed his grocery business, and talks of going to California.

Judge A. T. Cole was principal speaker "ladies night" of the Rotary club at Hotel Clarendon. His subject was "criminology," which he handled in a masterly manner. A pleasing number on the program was a quartet composed of R. E. Cope, Denzil Davis, Jack B. Jones, R. E. Drennan with Rotary Ann Rhoda Wiedman at the piano. President B. L. Jenkins, president, presided.

Petitions are being circulated requesting Gov. R. S. Sterling not to veto the bill appropriating \$25,000 for the construction of a

museum building at Canyon. Misses Elgin Patrick, Latrice Benson and Lois Alexander returned from Kid-Key College at Sherman Saturday accompanied by Mrs. W. H. Patrick and Bill Carroll, who had been visiting in that city and who attended the closing exercises.

Wheat and oat harvest is in full swing, many of the farmers baling both to avoid having to sell on the low market. Feed is high and the baled grain will be fed to make the later crops.

W. M. Pickering is hauling baled wheat from Memphis, having bought the lot from Byron Alexander.

Miss Bessie Lee Clayton of Clarendon and Raymon W. Norman of Amarillo were married Tuesday at the home of the bride's parents, Mr. and Mrs. S. T. Clayton.

Mr. and Mrs. Hugh Riley of near Sunnyview entertained the young people with music, 42 and other games at their home Saturday evening.

Misses Nan Potter and Lopez Whitt have enrolled for the summer term at Canyon. Both are popular rural teachers in Donley county.

"Uncle Jimmie" Dixon has returned from California. He is the father of Mrs. W. H. Youngblood

Alice Faye Made Broadway Bow In Early Teens

"Too young!" was the verdict of the dance director when 13-year-old Alice Faye applied for a job as a Ziegfeld chorus girl.

But Alice had show business in her blood—not by heredity, for her parents were non-professionals, but by determination—and a year later she made her professional debut on the stage of the Capitol Theatre as one of the famed Chester Hale Girls.

The next milestone in the life of Miss Faye, who is starred with Don Ameche and Carmen Miranda in 20th Century-Fox's Technicolor hit, "That Night in Rio," was her discovery by Rudy Vallee. The popular band leader needed a vocalist, and after hearing a record made by Alice at a party, he promptly hired her.

When Rudy's troupe went to Hollywood to appear in the first film version of "George White's Scandals," Alice was one of the group's outstanding specialists.

Although she has achieved stardom and appreciates the acting opportunities offered her in the "period" films such as "In Old Chicago," "Alexander's Rag Time Band," and others, the shapely blond performer is most enthusiastic over her role in the tulle-filled Technicolor, "That Night in Rio," which comes Saturday night Prevue, also Sunday and Monday at the Pastime Theatre.

A Dog's Prayer

O Lord of humans, make my master faithful to his fellowmen, as I am to him. May he be open faced and undeceptive as I am; may he be true to trust reposed in him as I am to his; give him a face cheerful like unto my wagging tail; give him a spirit of gratitude like unto my licking tongue. Fill him with patience like unto mine that awaits his footsteps uncomplainingly for hours; fill him with my watchfulness, my courage, and my readiness to sacrifice comfort or life. Keep him always young in heart and crowded with spirit of play even as I—make him as good a man as I am a dog—make him worthy of me—his dog.

Fish Have Lubrication Too

While we don't know whether fish "change oil" every thousand miles, we do know that, in order to enable a fish to glide easily along in the water, its body is covered with a slimy mucus which is being constantly poured out in large quantities by special glands situated in the epidermis. This mucus makes the body of the fish slippery and also minimizes friction with the surrounding water.

Chiropractic RADIOCLAST HEALTH INVENTORY

Health inventories should be compulsory! We hear a great deal about business inventory. Health inventories are fully as valuable. How does one obtain an inventory of health? Where can we find out whether or not we have balanced the budget of normal function versus disease? That marvelous analytical instrument known as the Radioclast is a great aid in determining these things for us. It is the acme of modern health methods and is now in constant use in offices and clinics.

"Oh, I've heard about that," some reply, "but what I cannot understand is, how does it work?"

Well, as you may know, in the perfectly healthy body each and every cell is in absolute harmony with every other cell. Now each cell, being made up of living particles, is therefore a living entity, be it of mineral, vegetable, or animal potency. It is composed of vibrating matter, regardless of what its particular form may be. However, unless a cell vibrates in harmony with its surrounding it will cause conflict with attending pains and discomfort. Thus we see that all human body is vibratory. Diseased tissue will therefore have different characteristics than normal tissue. The human organisms give off vibratory energy corresponding precisely to the condition of that individual.

The Radioclast, a composite instrument, is a disease finder and a disease breaker as well. Examining disease with this highly sensitive device is a matter of utilizing vibratory energy from the patient. The principle involved in measuring these emanations is very similar to the scientific principle of radio reception.

Radioclast, one of the greatest of modern discoveries, has shown that abnormal tissue vibrates differently than normal tissue, each type of disease, whether advanced or incipient, having a wave length peculiar to itself. In short, a specific type of disease always has its specific wave length.

In your inventory of health we are able to check on disease liabilities by discovering whether poisons or toxins are present within the body. All poisons are inharmonious conditions, causing most disease and early death. Then by measuring the vitality of the organs and tissues of the body, we are able to balance accounts.

Heavy Population, Cars Hurt

Texans could legally kill six deer, twenty-five ducks or geese in a day and there was no limit on the number of turkeys, prairie chickens, doves and quail in 1903, according to an announcement of the most recent game laws in the May 15, 1903, issue to the Winnboro Wide-Awake, a newspaper now in the possession of V. Lamb of Flint, Texas.

The season on turkeys, prairie chickens and quail was from Nov. 1st to Feb. 1st. The dove season ran from Sept. 1 to Feb. 1.

Now persons can take only two buck deer in a season, three turkeys, not more than twelve quail a day or thirty-six in a week, no prairie chickens and twelve doves. Thus is shown the effect of the doubling of the population in Texas between 1900 and 1940 and the damage to game which the motor car and good roads have made possible since the turn of the century, as has often been pointed out by the executive secretary of the Game Department. In 1900 the Texas population was 3,048,710. It had more than doubled when the 1940 census was taken. Too, in 1903 there were few motor cars in Texas and hardly any roads over which they could travel. Now no place is too inaccessible for hunters and fishermen to reach within a day or two.

The tomato fruit worm, which is the same as the corn earworm and cotton bollworm, tunnels into the fruit. One worm may destroy several tomatoes before it is grown and enters the ground to change into a moth.

QUICK AID FOR PENSIONS SOUGHT

Governor W. Lee O'Daniel last week asked the Legislature for "quick action" to prevent old age pension checks from being cut during June, July and August and asked for "an additional check" to offset the May \$3.00 cut.

"The fact that old age pension checks for May have been cut \$3.00 each," the Governor said, "which makes each check short \$7.00 of the amount due recipients and inasmuch as the House of Representatives tried to avoid this cut by passing an emergency appropriation bill and sending it to the Senate, I again recommended that this 47th Legislature take immediate action on this matter so that all old age recipients on the rolls may get an additional check this month to offset the cut. This will require quick action."

The Governor also asked for payment of "the full amount" for June, July and August of this year, declared that "it is assumed that the new tax bill recently enacted will take care of them beginning Sept. 1."

Cigarettes for Measuring Fish

It might save you a fine, and besides, it isn't sportsmanlike to take undersize fish. When you are caught without a rule, remember that the length of any standard cigarette is 2 3/4 inches and that of the new "longies" is 3 3/4 inches. Lay your cigarettes end to end beside the fish in doubt and add the total.

the ROAD AHEAD

Old Man Texas is today looking ahead and planning. Beside the great farming and ranching country which Texans have built, he sees a new industrial empire here. Already the start has been made. Some industries, such as petroleum, are now showing what can be done to utilize Texas' vast natural resources. Today this industry refines with Texas labor over four-fifths as much oil as the State produces. Its products make up nearly one-half of all Texas manufacturing. Altogether petroleum provides the living for almost one-sixth of our people. But this is only a beginning. Texas has many other raw materials, unexcelled by any other State. Texas has in oil and gas the cheap and dependable fuel supply essential to industry. Texas is the gateway to Latin America, our new foreign market. Each new industry means more jobs. It makes added tax values for our State and local governments, bigger payrolls for our workers, and greater prosperity for you and every other Texan.

Will Scan Sky To Report On Enemies

AUSTIN—Plans for the establishment of an aircraft warning service covering every section of the State of Texas are being evolved here through cooperative action of the Office for Emergency Management in the Executive Office of the President and the Office of the Governor of Texas, it was revealed today.

Outside observation posts are to be established under direction of the Commanding General of the GHQ Air Force, acting thru commanding generals of several interceptor commands throughout the nation. Because of the large size of Texas, two commanding generals will direct activities here.

The posts will be located at designated areas, one probably to each one-mile circle, with an unobstructed air view of approximately eight miles in all directions. The view areas of the several observation posts will overlap, so that by locating the observation post within each indicated one-mile circle, the State will be completely blanketed by tactically located observation posts.

The outside posts will be supplemented by filter and information centers at appropriate points.

Details of the plan have been practically completed in correspondence between the Governor's Office, the Office for Emergency Management, and the commanding generals, and will be put into operation immediately, it was announced.

The Adjutant General's Office and the Texas State Employment Service are cooperating with the Governor's Office in carrying out the Army's plan in this regard.

Registration of volunteers for service will be started in the near future and detailed announcements in this regard will be made shortly, it was said.

Information received at the Governor's Office is to the effect that the GHQ Air Force desires that the complete volunteer aircraft warning service in the Atlantic and Pacific Coastal Areas be organized, ready to receive training and be in tentative operation by June 15.

Local Minister To Pastorate Pampa Church

Rev. Edgar W. Henshaw, rector of the local Episcopal church is engaged in teaching a course at the Church Summer School at Ceta canyon until June 12th.

Following his return from the school, Mr. Henshaw will conduct his final services in Clarendon preparatory to moving to Pampa where he takes charge of the church in that City as of July 1st.

Rev. Henshaw has made many friends in Clarendon. Aside from a successful ministry, he is a gifted speaker on any occasion, be it lodge, civic club or any public gathering.

Their friends here will regret very much the removal of Mrs. Henshaw. She is a talented singer, and has meant much to the civic betterment of Clarendon as well as her regular church work.

FINE CROWD HEARS FIRST SERMON IN SPECIAL SERIES

A good crowd attended the evening services Sunday night at the First Christian Church to hear the pastor speak on the announced subject, "17 and In Love." Bro. Harvey stated that God made no mistake in creating young men and women so that they attracted each other, but said that young people were too immature to judge the quality of love that is essential to a permanent marriage.

Various reasons were given to show the boys and girls who were present that it is better to enter into marriage only after financial stability and sound judgment are attained.

Rev. Harvey announced that his next sermon on the general theme, "Happy Homes and Successful Marriages" would be, "Will He Qualify as a Husband" and will be given Sunday night, June 15 at 8 p. m. Kindly notice that the Band Concert will be next Sunday night at 8:15 at the First Christian Church.

Mrs. L. E. Thompson visited relatives in Abilene over the week end.

Mr. and Mrs. J. D. Wood and daughter Evelyn Jean and Miss Della Wood attended graduation exercises at Canyon College Monday morning. Winston Wood, son of Mr. and Mrs. J. D. Wood received his degree, and returned home with his parents.

A "Sea Going" Prairie Dog

Did you ever hear of or see a "sea going" prairie dog. Well, Mr. John Gabbert, his son John Jr., and Mr. Ernest Stalcup, all of Brownwood, were amazed recently to find a prairie dog more than 150 yards from shore in Lake Brownwood. The little rodent was heading for a 160 acre island in the lake. Mr. Gabbert had to row the boat as fast as he could in order to catch the prairie dog. Its present home is in a chicken pen at the Gabbert home.

IN LEATHERS HOME

Relatives gathering in the B. J. Leathers home near Lelia for the week end included Mr. and Mrs. W. W. Beaty of Rochester, Mr. and Mrs. M. G. Whitfield of Hedley, Mrs. C. R. Piercy and daughter Jeanne, Mr. and Mrs. Lee Holland and Joe Holland and Johnny Leathers and his friend, Carl Buck of the Wichita, Kansas aeronautical school.

NEW EQUIPMENT

Within the next few days we will install new equipment in our market which will enable us to give better, quicker, cleaner service which everyone appreciates.

Once you try our Quality Beef you will be a regular customer. In spite of higher cost prices of meats we are going to stick to Quality at no extra cost.

Why worry about a quick meal - - - try our hot Barbecue with gravy, chicken salad or our fresh line of lunch meats. Kraft cheese and spreads.
