CLARENDON, DONLEY COUNTY TEXAS, SATURDAY, SEPTEMBER 28, 1907

No 78.

**Denies Killing Goebel.**  
Captain Cassius Marshall Sandford, only son of the late John Sandford of Covington, Ky., who was referred to in the affidavit of Mrs. Lula Williams Clark in Sunday's newspapers as "John Sandford," and as having been present in the state house at Frankfort when Governor Goebel of Kentucky was assassinated, issued a positive denial of every one of the statements thru his attorney, Chas. Strong of New York. Captain Sandford is now living in New York after a residence of eight years in China and the Philippines, says Strong.

**Hearst Not a Candidate.**  
In an interview published in New York Tuesday Wm. R. Hearst denies that he is a candidate for the presidency on the Independent League or any other ticket.

"I cannot conceive of any condition under which I would be willing to become a candidate," added Hearst.

His determination is not because of any feeling of pique or disappointment as a result of the late election.

"I would only consent to hold office," concluded Hearst, "thru a sense of public duty as I would serve on jury."

**Pullman and Western Union Companies Sued.**

Attorney General Davidson filed suit Tuesday against both the Pullman Car company and the Western Union Telegraph company to require each to pay \$100,000 due the state and permit fees or be ousted.

The suits are based on the fact that the companies have no permits to operate in Texas, and have never had any. Both claim to be interstate organizations, and say permit fees are not required.

The Western Union has taken the position that it should be required to pay permit fees only on the Texas pro rata of the capital stock, and not on the entire \$1,000,000 of capital stock; that the taxation should accrue on the entire amount of capital stock, such taxation would be many times duplicated, would prove oppressive and that it would be confiscatory.

Assistant Attorney General Polard if the companies will pay the required tax and present the permit in court, the suits will be dismissed provided the defendants pay the court costs. He said the idea is to compel the payment of the tax, and if this is refused to oust the companies.

**Another Rebate Fine.**

The United States Circuit Court of Appeals of the Eighth Judicial District, sitting in Denver, Colo., handed down an opinion Monday affirming the judgment of the United States District Court of Minneapolis last May declaring the Great Northern Railway guilty of giving rebates. Under that judgment the Great Northern Railway was fined \$15,000.

A Missouri editor says if you have 1,000,000 one-dollar bills and pile them on top of each other and want to take a roll off the top one you will have to reach up 276 feet. If they are silver dollars piled one on the other the pile will be a half mile high. He says he tried it the other night, but the bed broke down and he woke up.—Ex.

George W. Beavers, formerly of the Postal department, who was sentenced to imprisonment in connection with the postal frauds several years ago, was released from the penitentiary at Moundsville, W. Va., Tuesday.

The American consumption of cotton for last year increased 465,763 bales.

**Borah on Trial.**  
Boise, Ida., Sept. 24.—William E. Borah, at the threshold of a career in the United States senate, having been elected to take his seat at the coming session of congress, was placed on trial Monday before Judge Edward Whitson in the Federal court charged with conspiracy to defraud the United States government out of title to many thousand acres of timber land in Boise county. Indicted with Senator Borah are twelve other persons.

Cloaked under the legal title of "John Doe," the attorneys of the government disclosed in open court the fact that former Governor Frank Steunburg was included in the indictment and is alleged to have a leading part in the so-called conspiracy.

**The Hide-Bound Newspaper.**  
Is the Democratic newspaper or the Republican newspaper that is never able to find anything to commend in the opposition party or candidate an honest newspaper? Can any intelligent man of either party believe that his party is always right and the other is always wrong? Would it not be much better for the country if the day of the hidebound partisan newspaper and political demagog that panders to petty party prejudices were past? Think of it.—Bristol (Va.) Herald Courier.

**Will be Something Doing.**

It is impossible to give an adequate idea of the interesting features at the National Corn Exposition, Oct. 5 to 19. Coliseum building, Chicago. There will be something doing all the time. In addition to a study of the exhibits of corn, the special exhibits, etc., Mrs. Hiller's lectures, three times daily, on the domestic science of corn, Mrs. Moore's exhibit of household articles made from corn, the March of Corn, Husking Bee, the Popcorn eating contest, and many others will make a very full day for every visitor. Added to this is the wonderful decorative scheme which will be the admiration of every one. This will make the Corn Exposition one of the most attractive spots among the many in Chicago.

There is an old adage that an Irishman is never at peace except when in a fight. A man up in Wisconsin seems to be similarly afflicted only in a much more aggravated form. He eloped with his divorced wife.

Disappointments come all through life and the wealthy are not exempt and the aged do not outgrow them. In Kane county, Ill., Thursday Cyrus Baldwin aged 85, although one of the wealthiest residents of the county, killed his wife and suicided by eating Paris green.

When the writer came to Texas in the 70s it was said Irish potatoes would not grow in the state. Now it is proving one of the most profitable crops. Some counties in the state have this year shipped out 500 car loads. Our soil here is well suited for potatoes and more should be raised for the market.

President Harrington of the Texas agricultural and mechanical college says: "The agricultural and mechanical college is overflowing with students. Some 600 are on the ground, and this is considerably more than it will be possible to accommodate comfortably. Twenty-four extra tents have been ordered, and one of the old buildings on the ground has been converted into barracks, but even with this increased space, some of those already here must be turned away, and it is entirely useless for any other to come or to make application."

The railroads of Kansas have decided to put the 2-cent rate effect ordered by the commission of that state recently, provided it can be done and still preserve the right of the roads to contest in the court. When the commission's order was promulgated the railroad president declared they would not comply.

The argument that the economies which Standard Oil practices by virtue of its monopoly makes oil cheaper to the consumer than it otherwise would be doesn't sound so well since it was discovered that the corporation makes a profit of 1,000 per cent every year. It looks as if the economies were credited to the dividend account exclusively.—Dallas News.

In keeping with its usual practice, the Standard Oil Company is now resorting to bribery. At Findlay, O., Thursday L.B. Williamson was arrested on an indictment charging him with attempting to bribe Chas Thompson, a juror in the case of the state of Ohio against the Standard Oil company which was tried last June. Mrs. Thompson said that Williamson asked her to persuade her husband to disagree and hang the jury. The final vote of the jury was eight to four for conviction. Williamson admitted that he made the proposition to Mrs. Thompson saying that her husband would be paid from \$500 to \$1,000 should the jury disagree.

**Oklahoma and Prohibition.**

Three hundred Oklahoma City business men met at the chamber of commerce rooms Wednesday night to discuss the probable result of state wide prohibition. Secretary A. W. McKeand said for every one of the 59 rooms that would be vacated when saloons went out he had two applicants already; that four real estate firms representing \$50,000 were now ready to buy anything in the city that could give a discount of 10 per cent. from prevailing prices in force for the past sixty days.

There was once an idea that labor-saving implements and tools displaced human labor and made wages lower. Experience has shown that each advance has made increase demand for human labor, and wages were never so high. The difference is in the quality of the labor. The unskilled man must each year face greater difficulties. Men who know what to do and how to do it are in demand, and at high wages. There will never be active demand for the man who works without intelligence. He cannot now command higher compensation than is paid for a mule.—Farm & Ranch.

**The Show.**

The street parade of the Pawnee Bill Historic Wild West and Great Far East show is a positive and conspicuous part of the daily program of the big organization to visit here Oct. 6, at 10 o'clock, and an individual feature upon which the amusement purveyor has centered a fortune and 20 years' resource of experience. It is a gay and glittering pageant, with musical harmony from military bands. The well fed, superb, thoroughbred horses and ponies, in shining harness and waving plumes, are Pawnee Bill's especial pride. There are two divisions, representing the two extremes of the world which the show typifies.

**To Fight 2-Cent Fare.**

St. Louis, Mo., Sept. 25.—Officials of railroads declare that as a result of the operation of the 2c fare Missouri railroads have lost \$1,500,000 the past three months. Every passenger train on the Wabash System suffered a great decrease in revenue, according to General Manager Miller. The railroads intend to submit statements showing the effect of the 2c fare law to Federal Judge McPherson at Kansas City about Oct. 15. The Santa Fe, Wabash, Missouri Pacific, Burlington, Alton and other trunk lines have joined to fight the further enforcement of the law which became effective June 17.

By agreement with Attorney General Hadley the railroads decided to test the law for 90 days. Hadley says he understood the railroads would operate under the new law until Oct. 1, but he has heard no intimation of what course they intend to pursue thereafter.

In the proceeding now pending before Judge McPherson the railroads seek to restrain the state authorities from enforcing the law on the ground that it is confiscatory. At that time the railroad officials stated that the loss to the railroads under the 2c law would aggregate \$5,000,000 a year.

**The Knock-out Blow.**

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prime ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Eage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. E. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

**A Card of Thanks.**

We wish to express our sincere thanks to the friends and acquaintances who assisted in the burial of our dear father. The friendly hand and the sympathetic tear assisted us in bearing our burden of grief in this trying ordeal. We sincerely pray that when such sad afflictions come to them, that they may be sustained by such attentive, loving hands as we were in this hour of bereavement.

### Favorite Sons for Republican Nomination.

Several states will present the names of favorite sons to the next Republican National Convention and urge their respective nomination for the high honor of nominee of the party for the Presidency.

Most probably New York will present either Geo. B. Cortelyou or Chas. E. Hughes.

Ohio, against the virile opposition of a large element led by Senator Foraker and Senator Dick, will probably present the name of the War Secretary, Wm. H. Taft.

Wisconsin will urge the claims of Senator R. M. Follette. Iowa will doubtless extend the compliment of a vote to her ambitious young governor, A. B. Cummins, while Missouri will hardly fail to urge the claims of her favorite son, Senator Wm. Warner.

Illinois will boom "Joe" Cannon with all the paraphernalia and pyrotechnics that accompany the usual political demonstrations in the Sucker state, despite Speaker Cannon's declared indifference to the nomination.

Indiana, with solid and united strength, will present the name of the honored vice president, Charles W. Fairbanks.

While at this time it would be idle as well as silly, to attempt to analyze the strength or elements of support of the respective candidates named, this much may be assured with reasonable certainty: It will be the field against Taft. Upon that candidate who develops the greatest strength against Taft, the opposition will concentrate their united and combined following. Whether the combination will be sufficiently strong to encompass the defeat of Secretary Taft, is a problem for future solution.

It is generally assumed that Secretary Taft has tentatively, at least, the warm support and personal endorsement of President Roosevelt. Concededly, that means much, and must prove a potential factor in strengthening Secretary Taft's candidacy; but, on the other hand, may it not prove his chiefest source of weakness? The American people stand ready to accord to President Roosevelt any hour within their power to grant. Let him but recall his repeated declarations of refusal to stand as a candidate to succeed himself, and his nomination and re-election will follow practically by acclamation. But the American people are not clamoring to place even in Roosevelt's hands the power to name his successor in office; and once the idea prevails that such a power or authority, morally or materially, is sought to be exercised, it will be strange if the people do not resent the attempt in indignant protest and forceful measure.—Texas Republican.

### The New Gait.

Notable is the way the modern girl is walking. It is described as a "rather tired slouch," and it is the fitting complement of the costume she wears. This is what in Paris is called the "petit costume d'homme," consisting of a short, scant skirt, a loose half-fitted coat with a flower run through the buttonhole, and a big hat worn on the back of the head.

Wherever one sees this combination one sees also the gait seemingly induced by it—a sort of devil-may-care slouch supposedly imitative of the easy going masculine, and far from lovely or alert.—Ex.

### Advertising Pays.

A Nevada man who had seven homely daughters, for a box of cigars, got the local edition to publish a rumor that he was a desperate old miser who had seven barrels of gold buried in the cellar and all his girls were married off in four months from that date. Does advertisement pay? Well, we should smile. The only part of the story that sounds fishy is that the father of seven girls should advertise the depository for his seven barrels of gold, (a barrel for each girl. See?) But he will get his reward by and when he will have seven fake sons-in-law and seven grass widows to worry about.—Ex.

### WASHINGTON LETTER.

CHRONICLE Correspondence.

WASHINGTON, D. C. Sept. 23.—Comptroller of the Treasury, Mr. Ridgley, just returned from a trip through the west, made it his business in addition to investigating bank conditions to see what the business outlook was. Mr. Ridgley says that there is no question but that the country has just passed through a serious financial crisis. Money is still tight, but this is true more with respect to time loans than to call money. There has been an immense movement of farm products, grain and tobacco and there would have been more but for car shortage. This is significant. The "rich man's picnic" in New York hurt stock prices, but it did not materially hurt either the credit of the big financiers or restrict the amount of money that they have for disposal. But it suits their book just now to put the worst possible face on financial affairs. They have purposely restricted time loans which are for the most part legitimate loans, but they have the money and they want to keep it working and are not averse to letting it out on call. The car shortage is another part of the business depression scarce. There is no reason with the summer season just over why there should be either a shortage of cars or a congestion of freight. It is an artificial condition and one of the avenues through which the Wall Street powers can work if they will for political effect. As to the real business of production both in the field and the factory, Mr. Ridgley found it good. The country is too great a producer to be hampered unless the brakes are put down very hard. The country in the past month exported about five and a quarter million bushels of wheat and corn, which was a fifth of the world's trade in these cereals. Altogether the outlook is not bad.

### DESPICABLE PARTISANSHIP.

The War Department is having trouble just now over one of the same sort of personal squabbles that was more common nearer the close of the Civil war. Gen. Joe Wheeler's monument has been erected in Arlington, the National Cemetery, without the record of his Confederate service being inscribed on it. There were a couple of blank lines left on the stone where his Confederate record should have gone, and the fact was discovered only by accident. Miss Wheeler was naturally indignant and there was some talk of having the body removed from Arlington to his home in the South. As soon as the row was raised, however, steps were taken to correct the omission and it was explained at the War Department that the matter had all been settled and it had been intended to cut in the missing lines all along. There is no question that the record will be fixed satisfactorily. When the monument was first erected the question of inscribing the Confederate feature of the record was raised and referred to President Roosevelt. He said that it was a part and an honorable part of Gen. Wheeler's life work and that it would be small and foolish to omit it. Probably he thinks that it has been done long ago.

The War Department ought to realize if it does not that the surest way to call attention to the General's Confederate service would be to omit it from the monument, for it has a standing lesson in the line on the Cabin John Bridge just outside of Washington. This bridge at the time it was built and up to a few years ago was the largest single stone arch in the world and as such was an engineering wonder. There is a stone on the western end on which are engraved the names of the Engineers who built the bridge, the chief of engineers of the Army and some other names connected with the work. And there was at first the name of Jeff Davis who was at the time Secretary of War. But when the Civil War broke out and Davis went south, somebody in authority got busy and had his name chiselled off the stone. The

result is now that every visitor who sees the bridge asks what is the meaning of the blank line and is told that it is where Jeff Davis' name was erased. Naturally they go away remembering the connection of Jeff Davis with the great engineering work and forgetting everyone else connected with it.
