# **July4th Celebration Plans NearCompletion**

# New County ASCS Director Starts To Work Monday

Much to the relief of Bailey County ASCS office employees, Danny Noble, new County Executive Director for Bailey County will be on the job on Monday,

#### \*\*\*\*\*

The Muleshoe Chamber of Commerce has hired Tana Holmes as the new Chamber office secretary to fill the vacancy created by the resignation of Robin Neptune. \*\*\*\*\*

Remember the Chamber Garage Sale on Saturday, June 25 in the old Western Auto Building. Proceeds will go toward financing the July 4th celebration. \*\*\*\*\*

At a recent board meeting, The Board of the Muleshoe Chamber of Commerce and Agriculture selected Charles Moraw and Diane Nieman to fill the unexpired terms of Harold Thornton and Larry Calvert. \*\*\*\*\*

A school reunion has been scheduled for the Sundown Schools on July 2 and 3 in Sundown; Texas. There will be an evening finner on July 2 for exes with awards presented to the oldest ex, the one who came the furtherest distance and for the class with the most present. Anyone having information or addresses of ex-students of Sundown are asked to contact Gaylene Helms, Box 433, Sundown, Texas 79372 or phone 806/229-7821 after 6 p.m. \*\*\*\*\*

June 27. Noble is a former home-town boy and has been employed the last year as CED of Hudspeth and Culberson Counties in the Sierra Blanca area. He previously worked for the

Bailey County ASCS office for six years before moving to the Sierra Blanca area. In the absence of a County Director following the transfer of Rusty Will-

iamson, Mildred L. Winn has been serving as Acting County Executive Director. Winn promptly informed producers in early June who had been hailed out or suffered other destructive damages to check with the ASCS office prior to doing anything with the damaged acres; and, as a result at this time, Bailey County has been fortunate not to have any disqualified producers or any out of compliance with the 1983 farm or PIK programs. "This program is so complex that each producer's business needs to be handled on an

individual basis," Winn stated. According to reports and advise from the ASCS office, producers need to be reminded that destroyed crops must be reported to the office prior to making other use of the land in question, even though there is no disaster prog-

ram for 1983. "This is the

CORN TO A GOOD STAND .- Some corn fields near Muleshoe that escaped hail damage recently seem to have a good stand. Recent rains have aided the corn's growth and helped producers to cut back on watering costs. Although several hundred acres of corn was lost, that which remains appears to be growing well. Producers are warned to examine closely for damaging corn borers, however.

## New Attorney **Combines** Law, Accounting

Michael R. Caldwell P.C. of Muleshoe has announced the opening of his private practice as attorney at law and certified public accountant. He resigned from a local firm as of May 1, 1983 and was appointed as County Attorney Pro Tem by the Bailey County Commissioner's Court.

Caldwell is a native of Kansas City, Missouri and attended the University of Missouri, graduating in 1970. He was employed by a CPA firm in St. Louis and one in Dallas before setting up his own practice in Dallas in 1976. In his Dallas operation, he practiced law and did tax work as well, specializing in estate planning and corporation business.

In October, 1981, Caldwell along with his wife Ginger and daughter Kellie moved to Muleshoe where he was associated until May with a local firm. Other than his duties as

County Attorney Pro Tem, Caldwell will be handling

# **CountyAgent Warns Of Rabies Cases**

Texas rabies cases are Spencer Tanksley, county up sharply for the first agent with the Texas Agricultural Extension vice, Texas A&M University System. That's more than a 30 percent increase. The big jump was due mainly to an increase in skunk rabies. Cases of skunk rabies for the first third of this year totaled 269 compared to 204 for the first four months of '82. Rabies cases also were up slightly in foxes, dogs, cats and cattle. Cat rabies continue to pose the greatest potential danger of rabies exposures to humans, Tanksley notes. Cats, like dogs, may expose up to 20 or more people, a much higher number than wild animals. Even though state law requires annual rabies vaccination of dogs and cats, a much lower percentage of cats are actually vaccinated than dogs, says Tanksley. This situation is unfortunate because cats, being predatory animals, are more likely to come in contact with wild animal rabies. The County Agent urges all dog and cat owners to make sure their pets are vaccinated annually against rabies. It's much easier and far less expensive to vaccinate a dog or cat than to provide post-exposure rabies treatment to humans.

The Muleshoe Youth Baseball League still has extra cannisters for sale and exchange. Please contact Betty Bush at 272-3655 for the products. These sales and exchanges will end on Friday, July 1, 1983.

only way we have to establish deficiency and history credits for crops destroy .ed," officials say. ASCS officials urge producers to take the time to come in and check these things out so that they can stay in compliance and maintain the bases on their farms. Another reminder from the ASCS includes the Conservation Use Acreage (CUA). The CUA acreage-

must be protected from erosion and weeds throughout the year to avoid the loss of all program benefits. "While we know that farmers are busy trying to get their crops. replanted, the control of weeds on the CUA land is extremely important and must be taken care of," Winn stated. Producers who have a weed control program worked out for their farm must inform the ASCS office. Acres desig-

nated for CUA must be in

plots that are at least a

ing to Buddy Lowrance, chairman of the annual celebration.

This year, all former and present Sudan School administration officers, teachers and school board members will be the honored guests. During the parade, they will be seated in a viewing stand in front of the Sudan Hotel.

Registration for pioneers gets underway at 9 a.m. at the Sudan Hotel and anyone living around Sudan for 25 years is considered a pioneer, explained Lowrance. A coin dig for two age groups gets underway at the same time in separate sandboxes and the Arts and Crafts exhibit will begin at the Gamble building.

At 9:30, the children's olympic games and the dog show start, with a puppet show at 10 a.m., 11:45 a.m. and 1 p.m. in the fire truck building. Ribbons will be awarded in the olympic games.

All day will be the quilting on the friendship quilt with interested persons doing a block and a drawing scheduled for the quilt at the end of the day.

At various times through the day, beginning at 10 a.m., merchants will be holding drawings for merchandise, with five minutes allowed to claim the prize. Names drawn will be returned to the container for other drawings scheduled throughout the day.

M.D. Gunstream, President of the First National Bank of Muleshoe has announced the affiliation of Phil Kent with the bank as Vice President and Compliance Officer. Kent was elected by the Board of Directors on June 1, 1983.

Preceeding his appointment in the First National of Muleshoe, Kent was employed at the First National Bank in Sudan as Executive Vice President and Cashier; and, prior to that time worked for the Security National Bank in Lubbock during his college career.

A native of Sudan, Phil Kent graduated from Sudan High in 1976 and attended Texas Tech to graduate in 1979 with a BBA' in Business Finance. Kent stated that his interest in the banking business had grown from high school days when he worked in the Sudan bank. It was this work in the early years that caused him to decide upon the banking career.

In explaining his job as compliance officer, Kent said that due to the many changes in banking brought about by deregulation, it is

WEDDING PLANS REVEALED -- Mr. and Mrs. Kenneth Precure wish to announce the engagement and approaching marriage of their daughter, Judy to Scott Mason, son of Mr. and Mrs. Eldon Mason of Center. The couple will be married August 12 at the First Baptist Church in Muleshoe. Miss Precure is a 1981, graduate of Texas Tech University and will be employed with the Midland Odessa Symphony. Mason received his masters degree from Stephen F. Austin University in 1980, and is the new high school band director in Crane.

## **Creative Woman** By Sheryl Borden

On June 28 and July 2, viewers of "The Creative Woman'' show will see a very unusual fashion show. It's called the "3-D Sawyer Collection." The "3-D" stands for Dessie, Dimes and Democrats. Dessie Sawyer from Tatum is a former national committee woman for the democratic party and for over thirty years has raised large sums of money for the March of Dimes foundation. The fashion show features some very unusual designs.

Another guest will be Hazel Wallace, Consumer Affairs Director with the Food and Drug Administration in Dallas. The program will be continued next week and is called the 'Big Quack Attack.'' Mrs. Wallace will discuss quackery and explain the role the FDA plays in regulating many of the products Americans buy and use. Topics to be presented on "The Creative Woman" show on June 30 include the layering concept for dressing, super snack ideas and quick uses for rice. Elizabeth Chapman, coowner of Mountains and Rivers Sporting Goods in Albuquerque will discuss the layering concept for cold weather dressing. Another topic will be super snacks. Snacking has become part of America's lifestyles. Surveys confirm that people are eating more food between meals. Laura Jacobs, County Extension Agent from Farwell, Texas will explain how to kick the "bad" snack habit and be a super snacker. Finally, Kris O'Brien, Home Economist and spokeswoman for the Rice Council for Market Development in Houston, Texas

will share some quick uses for rice. She'll prepare two dishes from one of their recipe booklets called "Rice

on the Side.' "The Creative Woman" is produced and hosted by Sheryl Borden. The show is seen on Tuesdays and Thursdays at 12:30 p.m. and at 2:00 p.m. on Saturdays. Viewers can request copies of printed materials offered on the show by calling on KENW-TV's toll-free telephone lines. The numbers are: Mexico: 1-800-432-New 2361, out-of-state: 1-800-

## **Rodeo Bull Rider** Visits Library

Wednesday morning, the Summer program, Reading Rodeo had as a special guest, Rodeo Bull-rider, and winner of many awards, Lynn Moore, son of Mr. and Mrs. Dewey Moore. Lynn brought an interesting and informative program on his bull-riding experiences.

He told the group that Bull riding, the favorite event of the rodeo is also the most dangerous. The cross-breed Brahma bulls can weigh over 2000 lbs, and he had ridden one that weighed about 2,400 lbs.

No saddle is used, so there is nothing between the cowboy and the bull except the cowboys's chaps ... but the chaps give the rider a lot of protection ... unlike other events the rider does not have to spur the animal ... and the time limit is 8 seconds ... all he has to do is stay on the bull, and not touch it or

himself with his free hand. He uses a bull or loose. rope that encircles the barrel of the animal, but is not. not tied or knotted in any way. A cow bell must be attached to this rope so that after the rider jumps off (or is bucked off) the weight of the bell pulls the rope to the ground so that the judges know it was not

knotted. With one hand, with glove on, the rider clenches the rope as the bull bucks and pitches, and hopes he can stay on the time limit. Lynn brought his gear along to show the kids, his leather chaps, his glove, (which he says is rubbed

LATEST ARRIVALS

Jeffrey Garrison King

with rosin to help him have a firm grip); the cow bells, his spurs, the bull rope he uses (which is partly plaited for strength); beltbuckles he has won and many pictures of his bullriding in rodeos both in his high-school and college events. Most of these items will be on display in the main area of the library.

Lynn stressed: to be successful at this exciting but hazardous sport, one must be well trained, by practice and or going to a rodeo school; must have a clear head; believe in himself and have a lot of confidence that he can ride every bull he gets on. He also gave a lot of credit to the rodeo clown who help prevent their getting hurt.

About forty children were at the library program and saw two films, as well as the talk, and they all enjoyed it by their response.

Next Wednesday morning the group will "find out" a lot about Calf-roping. And all boys and girls are invited to come at 10:30 for this.

JULY DATE SET .- Mr. and Mrs. Dale Nichols of Enochs announce the engagement and approaching marriage of their daughter, Paula Jean to James Grant, son of Mr. and Mrs. W.B. Grant of Morton. The bride is a 1982, graduate of Three Way High School. Grant attended Morton High School. Vows will be exchanged July 23 at 3 p.m. at the First Baptist Church in Enochs.

JUNE BIRTHDAY PARTY--Three residents of the Muleshoe Nursing Home celebrated their birthdays during the month of June and were honored with a birthday party Thursday afternoon. The Needmore Community Club hosted the event. Mrs. J.C. Shanks played the piano while the birthday song was sung. Carbohydrate foods like pasta, potatoes, corn and bread are often portrayed as the fattening 'villians' in American diets. But they are actually full of energy, nutrients, fiber and protein, and not all that fattening, says Mary K. Sweeten, a foods and nutrition specialist with the Texas Agricultural Extension Service, Texas A&M University "Many people System. don't realize that carbohydrates contribute four calories per gram to their diet -- which is the same amount of calories per gram contributed by pro-

tein." By contrast, fat contains nine calories per gram. "So carbohydrates are not the fattening foods they have often been called," declares Sweeten. Research has shown that obese people do not necessarily eat excessive amounts of carbohydrates, but they often eat more fat than people of normal weight, she adds.

## **Texas** Tech Announces 50th Annual Band Camp

Texas Tech announces its 50th Annual Band Camp, to be held July 10-22 on the campus of Texas Tech University. Registration information may be obtained by writing the Music Department, Texas Tech, Lubbock, TX 79409, or by calling the Camp office at (806) 742-2225.

The year's Band Camp will be unique for several reasons.

New emphasis will be placed on flag and rifle instruction this year. Students may come for flagsrifles all day, or split their day between band and flags-rifles. Students can also choose to attend flagsrifles all day long for the first week of camp, or for both weeks.

Flag-rifle instruction will be available at all levels. Groups will be assisted in designing their own routines, as well as provided with routine notes to take home for summer practice. A special three-day workshop on Corps Style Show Design will be offered for band directors. To be held July 10-12, the workshop will deal with show design and special techniques of charting and teaching drills.

Another very special aspect of this year's Camp is that it has been in operation for 50 years -- one of the few in the region which can boast such a long uninterrupted history.

When D.O. Wiley started the "Band School" in 1934, there were 40 students from elementary through college age in attendance. Students were housed in homes near the campus, and tuition for the six-week camp was \$10 for those students below college age. The next year, enroll-

ment doubled, tuition rose to \$15, and a second band was added to be of service to younger players.

By 1940, there were 230 students enrolled in three bands, students stayed in dorms on the campus, and a special guest conductor was brought in.

ilized into its present twoweek format with junior and senior high students attending simultaneously when Dean Killion took over the reins in 1969.

The Camp had to limit enrollment starting in 1972, when there were 900 students in eight bands. Growth progressed steadily to the present level of 12 bands in 1974, with 1300 students in attendance that year. Since 1979, the Camp has consistently reached its projected limit of 1400 students each year.

"Most of the growth has been due to a unique combination of recreation, supervision and quality instruction." Whitlock explained.

One of the recreational events in store for this year's campers will be a birthday party for the 50-year-old Camp. Other events include the usual dances, talent shows, movies and banquet.

Twelve bands are again planned, along with six jazz bands. The top group will be conducted by James Sudduth, Director of Bands at Texas Tech and also the Camp's Director. Don Turner, Texas Tech's Director of Jazz Studies, will head up the jazz division of Band Camp.

Sudduth will also offer a Band Director's Workshop for university credit, in which he will cover such areas as score preparation and rehearsal techniques. The Workshop has also been a part of Band Camp activities since the very first Band School.

Individual instruction on all band instruments will be available from a faculty which includes members of the USAF and Navy Bands as well as instructors from Texas Tech and other colleges in the United States and Canada. Electives include various small ensembles, drum majoring, electronic music, improvisation, marching, twirling,

and music literature and

theory. \*\*\*\*

AUGUST DATE SET .- Mr. and Mrs. Lewis Wayne Shafer of the Needmore Community would like to announce the engagement and approaching marriage of their daughter, Linda to Jeff Rhoads, son of Mr. and Mrs. Jimmie F. Rhoads of Midland. The bride is presently attending Texas Tech and is employed at the Methodist Hospital in Lubbock. Rhoads is a 1983, graduate of the college of Petroleum Engineering at Texas Tech University. Vows will be exchanged August 20, at 6:30 p.m. at the First United Methodist Church of Muleshoe. The couple plan to make their home in Big Springs where Rhoads is employed by Conoco Oil Company.

ENGAGEMENT ANNOUNCED -- Mr. and Mrs. Joe B. Brock of Amarillo announce the engagement and approaching marriage of their daughter, Kimberly Ann to Louis Kent Lowry, son of John Lowry of Amarillo and Carolyn Harmeyer, also of Amarillo. The couple plans to be married on July 2 in Flippen Park in Dallas. Miss Brock is a graduate of Mrs. Wades School of Fashion and Merchandising. She is currently employed as a sales representative for Dennis Loiselle at the Apparel Mart in Dallas. Lowry is an independent sub-housing contractor in Dallas. He is also a graduate of Muleshoe High School.

Add a cup of water to the bottom of broiling pan before sliding into the oven. The water absorbs smoke and grease.

The war years brought enrollment back down, but the camp remained in operation and continued to build. Several experiments were later tried, including an attempt at two separate two-week camps for junior and senior high students in the early 1960's, and an all-inclusive Youth Camp, with band, orchestra, choir, keyboard and dance students, later in the 1960's. The Band Camp, as it had become by then, stab-

meeting room of Bailey County Electric. Clara Lou Jones, president, called the meeting to order.

The IUPS pledge was recited and the fellowship song sung. Evelene Harris, weight recorder, called the roll with 16 members present. Nan Gatlin celebrated her birthday and received a gift from the birthday box, also a gift from her secret pall.

Members of the club reminisced over the past 20 years of the club.

Best loser for the week was Evelyn Moore. Evelene Harris was first runner up and Jewell Peeler was second runner up.

Pot Plant Popularity -- The popularity of pot plants in homes and businesses has increased sharply in recent years. Because of their portability, pot plants enable "instant landscaping," notes a landscape horticulturist with the Texas Agricultural Extension Service, Texas A&M University System. A wide range of plants can be used for pot culture, including deciduous or evergreen trees, shrubs, vines, and annual and perennial flowers. Pot plants require frequent watering, especially during hot weather, and added

## Mel Tillis To Headline **Panhandle SP Fair**

Country and western superstar Mel Tillis will be making his seventh appearance at the 66th annual Panhandle-South Plains Fair in Lubbock this fall.

Headed only by Charley Pride's 10 show dates at the exposition, Tillis will be featured in two shows at 7 p.m. and 9 p.m. on Sept. 30, according to general manager Steve L. Lewis.

Tillis and his Statesiders band previously have appeared in fair shows in 1973, 1974, 1975, 1977, 1978 and 1981.

His show is the third to be announced for 1983.

Earlier, it was disclosed that Reba McEntire and the Maines Brothers would co-headline a pair of shows at 4 p.m. and 7 p.m. on September 26 and Ronnie Millsap will be on stage in Fair Park Coliseum at 7 p.m. and 9 p.m. on Sept.

Except for the McEntire-Maines show, no opening acts are being booked this year as the fair launches a new format.

Entertainers will appear in one-hour shows only, with no intermission.

The fair will retain its eight-day format, Sept. 24 -Oct. 1.

A Florida native, Tillis made his first public appearance at 16 as a singer and acoustic guitar player. When a stint with the U.S. Air Force interrupted his music career from 1951 to 1955, he joined a band called the Westerners and worked in local clubs evenings and on weekends.

Back in civilian clothes in 1956, Webb Pierce recorded Tillis' "I'm Tired" single and he was on his way.

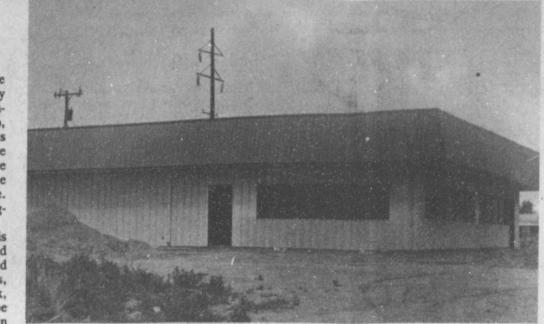

This led to a writing job with Cedarwood Music Publishing Co. in Nashville. He later became an independent songwriter, moved permanently to Nashville and worked as a band member for Minnie Pearl. Judy Lynn and the Duke of Paducah.

In his rise to the top of the country and western field, he has written more than 1,000 songs, more than half of which have

From 1971 to 1976, he was named the Country Music Association's comedian of the year. In 1976, he won two prestigious honors, including the CMA's entertainer of the year and admission to the Songwriters Hall of Fame. He has had many hit singles and albums.

Tickets for the Tillis show are priced at \$7 and \$9 and may be purchased by writing Show Tickets, P.O. Box 208, Lubbock, Texas 79408. Orders will be processed in the order in which received and orders will be filled after August

Mail order requests must be accompanied by a self-addressed stamped, envelope.

NEW EATERY NEARING COMPLETION .- Construction of a new "fish and chicken" place owned by Kenny Hamilton of Muleshoe is nearing completion now. The restaurant is located on the corner lot where Puckett and Clark Trucking was formerly. Most of the work done in the past couple of weeks has been on the inside of the building and an opening date will be set in the near future.

# June Oil, Gas Statewide Hearing

The Railroad Commission today set the Texas oil production rate for July 1983 at the market demand factor of 100 percent for the 77th month in a row and the 133rd time since the Commission first went

#### A&M professor writes textbook on agricultural marketing

COLLEGE STATION -A Texas A&M University agricultural economist has coauthored a new textbook that teaches agriculture students about marketing concepts. Dr. Robert E. Branson of Texas A&M's College of Agriculture co-authored the text, "Introduction to Agricultural Marketing," with a former doctoral student and professor of agricultural economics at Western Illinois State University, Dr. Douglass G. Norvell. Published by McGraw-Hill Inc., the text has been described as "the finest innovative introductory text on the

subject in years." Branson said he wrote the book because of a dire need for a better understanding of how agricultural producers could market their products for greater returns on investments. The author's view marketing

to the ceiling level in April 1972.

Chairman Mack Wallace and Commissioners Buddy Temple and Jim Nugent directed the continuance of the maximum statewide allowable after receiving and reviewing purchaser nominations for Texas oil in July totaling 2,454,269 barrels per day, an increase of 327 barrels daily when compared with June buyer requests. July 1982 nominations totaled 2,481,346

barrels daily. Next month's permissible rate of output is calculated to average 2,889,209 b/d with actual production estimated at 2.355 million b/d. The maximum allowable applies to all but 10 fields in Texas that are assigned lower legal rates of flow for conservation purposes. Actual production in July 1982 was 2,372,643 barrels daily.

Wallace reported that July 1983 nominations for the purchase of Texas gas totaled 18,777,756 Mcf/d (thousand cubic feet per day). Gas nominations for June amounted to 18,260,103 Mcf/d. July 1982 nominations totaled 23,515,757 Mcf/d.

The next statewide oil

headquarters building in Austin at 1124 S. IH 35.

Major purchasers filed these floor nominations for Texas oil in July: Amoco Production Co., 167,000 barrels daily, down 2,000 from the previous month;

#### **Biologist discovers** new protozoa species in his own backyard

COLLEGE STATION - A Texas A&M University biologist has discovered a new species of one-celled protozoa in his own backyard.

The microscopic animal is a new member of the genus Paramecium and has been named Paramecium sonneborni by its discoverer, Dr. Karl J. Aufderheide, who reported it with Dr. Pierre-Marc Daggett and Dr. Thomas Nerad in the February issue of The Journal of Protozoology. Aufderheide is a pro-

tozoologist at Texas A&M and spends many hours in his laboratory studying various species of paramecia and other protozoa.

It was in a water sample from a small creek in Aufderheide's backyard in College Station that the new species was found. There are about 30,000 living species of protozoa known in

doctorate sponsor.

74,000, unchanged; Conoco, 60,000, unchanged; Exxon, 276,700, down 600; Gulf Oil, 103,000, unchanged; Marathon, 67,420, แกchanged; Mobil, 174,400, unchanged; Phillips Petroleum, 72,000, up 2,000; Shell Oil, 162,800, down 4,000; Texaco, 89,000, unchanged; Union Oil of Cal-

Citgo Petroleum Corp.,

ifornia, 25,000, down 1,000. Other purchasers filed these significant changes as compared to last month: Charter Crude Oil Co., 17,900, up 1,980; Getty Trading & Transportation, 36,726, down 2,282; Koch Oil Co., 87,705, down 3,449; Lantern Petroleum

Corp., 8,814, up 1,440; Matador Pipelines, 69,683, up 1,684; Mesa Pipe Line Co., 27,463, up 3,341; Scurlock Oil Co., 102,000, up 2,000; Tesoro Crude Oil Co., 35,517, up 1,621.

Chairman Wallace reported that crude oil and petroleum products imported into the U.S. averaged 4,433,000 barrels daily for the four weeks ending June 3, down 17,000 barrels from the same period a year earlier.

## **State Minerals Protected By Court Decision**

This ruling will directly

affect the seven million

acres of land covered under

the Relinquishment Act of

1919. This land was sold by

the state between 1895 and

1931. Under this act, the

Texas Land Commission- a situation of having to fight on a case-by-case er Garry Mauro said today basis across almost every the Texas Supreme Court courthouse in the state. ruling in Moser v. United This ruling will save the States Steel was "gratifystate millions in needless ing" because it prevents a legal fees. At the same needless waste in legal fees time, it will make mineral and encourages developdevelopment more lucrative ment of state-owned minfor the state by removing eral lands.

the element of doubt of "We felt all along that ownership.' the state was not subject to the earlier court ruling that Supreme Court ruling reaallowed surface owners to ffirmed the historic tradiclaim some minerals to a tion of the surface . and depth of 200 feet despite mineral ownership by allsomeone else owning the owing the mineral holder mineral rights," Mauro the rights to all subsurface said. "But we were facing minerals.

**Cooperative methods** increase minority

achievement levels COLLEGE STATION -The traditional form of classroom instruction which places emphasis on individual competition has contributed to the failure of integration and to the low achievement of many minority children, a specialist in educational psychology said at Texas A&M University.

Dr. Spencer Kagan, professor of psychology at the University of California-Riverside, said during a seminar on the Hispanic child that a "cooperative" classroom structure where children are placed in small working groups has been found to increase the achievement of minority children and help break down racism.

Many minority children especially those of Hispanic origin - have learned a value system from their culture that make them uncomfortable in a highly competitive system, he said.

"The Hispanic child is coming to school with more cooperative motives," Kagan said. "He wants equality." For example, studies have shown that when given a choice of getting an equal amount of marbles for himself and a classmate or more marbles for himself and less for his classmate, the Hispanic child will more often choose the equal amount. The Anglo child will more often choose the op-

posite solution, he said. Since less than 10 percent of classrooms use a cooperative teaching method, the Hispanic child's value system is placed in conflict with the value system of the classroom, Kagan said.

state retains ownership of the minerals and allows the surface owner the right to lease the land for certain minerals as agents of the state. Minerals subject to the Relinquishment Act include oil, gas, coal, lignite, sulphur and uranium and other minerals.

"When I took office as Texas Land Commissioner, I promised to run the agency like a business for the benefit of all the citizens of the State," Mauro said. "Orderly development of the Relinquishment Act Lands for valuable minerals In the Moser case, the will insure we continue our contribution to the Perma-

nent School Fund." The money generated from the Permanent School Fund was more than \$10 million in the past year.

"Only through the wise and prudent management of our state-owned lands can we provide the maximum revenues possible for the school children of-Texas," Mauro said.

been published.

He works over 200 show dates a year, traveling mainly in his Beachcraft King Air A-100 plane. He still attends his 1,300-acre farm northeast of Nashville, log a 6,000-square-foot home with logs taken from Tennessee and Kentucky houses that are 250 years old. Tillis and his wife have five children.

### **VA Increases**

### Basic

#### **Interest Rate**

The Veterans Administration increased the basic interest rate for homes and condominiums by a half percent June 8 to 12 percent, said William E. Welstead, Loan Guaranty Officer for the Waco VA Regional Office in Waco, Texas.

It was the first rate hike in 161/2 months and returned the basic rate to the level set last November 15. At the same time, the VA maximum interest rate for Graduated Payment Mortgage loans was increased to 121/4 percent.

Other current VA loanguarantee rates: 13.5 percent for purchase of manufactured home units; 13 percent to buy both a mobile home and a lot, and 13 percent for loans to purchase a lot and the cost of necessary site preparation.

For a veteran buying a home with a 30-year, average GI loan of \$55,000, the rate increase of a half percent will raise the monthly payments by \$21 over the previous 11.5 percent rate. The change, however,

doesn't affect existing closed GI loans, whose interest rate remains the same for the life of the agreement.

VA guarantees loans made by private lenders to eligible veterans, widowed spouses of veterans who died as a result of serviceconnected disabilities, or spouses of service personnel officially listed as missing in action or prisoners of war for more than 90 days. The basid home-loan guarantee is for a maximum of \$27,500, or 60 percent of the loan, whichever is the lesser amount.

from three vantage points -producers, agribusiness firms and consumers - and discuss and gas hearing will be conflicting goals and interests among these groups, as well as their contributions to progress.

## Fourth of July

#### Cont. From Page 1

has proven to be one of the most popular activities.

At 2 p.m. an area pioneer reunion will be held in the meeting room of the Bailey County Civic Center. Other reunions, such as several class reunions are also planned during the fourth activities. All Civic Center booths will close at 2 p.m. and a cleanup of the facilities will be done immediately following the closing.

A miniature golf tournament has also been planned during the Fourth of July Activities. Entry fee for the tournament is \$5 and trophies will be awarded to the top three winners following the tourney.

At 4 p.m. the line-up for the annual Fourth of July Freedom Parade will begin at the Boy Scout Grounds at the South end of Main Street. The theme of this year's parade is the song "America The Beautiful" and several parade entries have already been received. Riding clubs, bands, organizational representations and youth groups are expected to enter.

Chamber of Commerce Manager, John Gulley told the Journal Friday that Joyce and Wayne Holmes had been selected as parade marshalls this year. Judges for the riding clubs are being provided by the Sheriff's Posse organization and Chairman of the parade activities, Dianne Nieman has been busy securing other judges. There is a possibility that a fly-over

chain wide and contain 5.0 is the only crop that can be acres.

ASCS officials advise that producers who still need measuring service should contact them as soon as crops are planted. The earlier the request is made, the quicker the service can be provided. Standard aerial measurement fees will apply.

Acreage reports from producers are important, and July 15, 1983 is the last day for producers to certify to any sp pring seeded crops planted and CUA acres. Certification must be accurate, since an erroneous certification could mean the loss of all program benefits. Producers are advised by the ASCS to measure correctly and to certify their measurements before the deadline. Producers who previously requested a farm visit and allowed wheat to mature on CUA acres are being reminded by the ASCS that the wheat on these acres must be plowed no later than July 15. Those producers having a cover crop planted must remember that it cannot be graced during the non-grazing dates between May 1 through October 31. Those who had wheat planted on the CUA acres, however, it may be grazed out. Wheat

by T-38's from Reese Air Force Base may add to the parade. Parade time will be at 5 p.m. through the downtown area.

Beginning at 6 p.m. and running through 8 p.m. a Bar-B-Que Supper, sponsored by the Bailey County 4-H Clubs will be held in the new city park. The \$4 per plate "feed" will include all the trimmings. Advance tickets may be purchased from the Extension Office in the Court-. house or from any 4-H

parent or member. Live entertainment will cap off the barbeque with such performers as Muleshoe's own Fiddling John Fried, the Fishers of Men, the Anchor Brothers, Gail Veach and the Storie Brothers. The entertainment will also take place in the new city park.

At 10 p.m., following all entertainment and concluding the day's planned activities, the Muleshoe Fire Department will handle the annual fireworks display. Many clubs and organizations have helped to raise funds for the fireworks fund this past year, so according to all reports, it should be a good one.

Make your plans to be in Muleshoe on July 4 and participate in all the activities. For further information concerning any of the events, call the Chamber of Commerce at 272-4248 or drop by the City Hall and talk to Chamber Manager John Gulley.

## Cont. From Page 1

grazed during this period. Any cover crop on CUA land other than baled wheat can not be mechanically harvested.

As a final note of interest to producers, the ASCS office has announced that producers with accepted bids on corn, sorghum and/or wheat may pick up their warehouse receipts at the ASCS office at this

time, sales ninda parto Field Day.

BOUND FOR THE NORTH COUNTRY -- Convoys of combines, trucks and mobile homes have been passing through the Muleshoe area in the past several days on their way to Colorado and Kansas wheat country where harvest time is upon them. Harvest of wheat in the Bailey County area began last week and many producers will be through in the next few days if the weather holds good.

#### **Opinions To Be Voiced** Curriculum

Area citizens will have an opportunity to present their opinions and concerns regarding proposed essential elements and related requirements for the revised public school curriculum at public hearings to be held July 25 - July 26, reviewed at the Service 1983. Center or the Texas Edu-

cation Agency, 201 E. 11th Public hearings will be held at the Education Ser-Street, Austin, Texas 78701 vice Center, Region XVII, after June 10, 1983. Representative Kent Hance, who will discuss the federal energy status, and Senator Bill Sarpalius who will present an overlook of gas legislation in the state

energy.

## **GSPA** Opposes R. A. Bradley announced Target Price Freeze

The Senate Agriculture Committee yielded on Tuesday, June 21, to pressure from USDA to recommend that agricultural commodity target prices be frozen at the 1983 level. This assures that the proposed freeze will be considered by the Senate. Last month the House Agriculture Committee postponed a vote onthe issue until hearings can be held.

The Agricultural Act of 1981 set annual increases for target prices to offset the increases in the cost of production. Target prices for grain sorghum were set at \$4.85 per cwt. (\$2.72 per bu.) for 1983; \$5.14 per cwt. (\$2.88 per bu.) for 1984; and \$5.40 per cwt. (\$3.02 per bu.) in 1985. The freeze, if passed, will

handle word processing and financial applications. Following his tenure as County Attorney Pro Tem, Mike plans to be permanently located at this address where he will practice law and financial accounting.

reduce '84 targets by 29 cents per cwt. and '85 targets by 65 cents per cwt. Grain Sorghum Producers

Association has expressed opposition to the proposed freeze. In a telegram to Secretary of Agriculture John Block, GSPA Executive Director Elbert Harp said, "Freezing target prices will counteract the surplus reduction benefits of the PIK program by decreasing program participa-tion and increasing produc-

tion and surplus." Harp pointed out that the 1984 sorghum target prices, as they now stand, are still 223/3 below the cost of production. "Target prices are the only real price protection farmers have under the present program," he stated.

Cats have no ability to taste sweet things.

Co-host of the meeting is the

Plains Irrigation Gas Users

Association, who joins Texas

Corn Growers in urging all

legislative session. Also program

reports will be given on alternate

farmers to attend.

### Rabies...

Cont. From Page 1

dogs and cats will not shed rabies virus as early as 10 days prior to showing signs of rabies. Therefore, a 10day quarantine of these animals will determine if a bite could possibly produce rabies infection, explains Tanksley. However, this is not necessarily true for other warm-blooded animals. So, if there is a question of possible exposure to rabies by a wild animal bite, laboratory examination of the animal's brain is the only method of providing a rapid and reliable answer, says Tanksley. Thus, wild animal bites should be evaluated individually by the appropriate health authority.

TOUGHER DWI LAWS--Governor Mark White signs into law a bill, authored by Senator Bill Sarpalius, which mandates tougher DWI Laws for Texas. Shown at the signing are Representative Terral Smith, who sponsored the bill in the house; Gov. White, Sen. Sarpalius, House Speaker Gib Lewis, DPS Col. Jim Adams. Members of Mothers Against Drunk Drivers were also present.

AUSTIN-Sounds marvelous. doesn't it? Three days and two nights in your choice of Las Vegas, Palm Springs, Miami Beach, Acapulco or the Bahamas. You can take the hassle out of vacation planning by letting a "travel agency" plan it for you.

What could be more attractive than to walk in from a hard day at work and find a letter saying that you have been chosen to receive an exciting "travel package?" It may look glamorous on paper, but once you are taken in, the excitement may fade quickly. Consumers need to be aware

that some such "package" deals offered through the mail may promise more than they

Consumer Attorney General

main-show passes, four twofor-one main show passes and thirty-six completely free drinks, plus much, much more. Here is the catch: if you actually get to take your trip, you find that the "freebies" to which you are entitled are available free to anyone who visits the city and are not something special. Or when you call to confirm your reservations, you are met with such

excuses as they are all booked up, they never received your money, or in some cases you are met with a recording. Your money is never refunded, and further attempts at correspondence are fruitless.

Many such unscrupulous "travel agencies" exist. Once they close under one name, they simply re-open under another. Consumers should be warv of terms such as "vacation package" or "vacation invitation." Remember, you almost never receive something for nothing, and there is bound to be some catch if they are giving away a "free vacation

numerous legitimate travel agencies in the state of Texas which will be happy to plan your vacation for you. These travel agencies do not charge you for the planning of your vacation. Of course, you do have to pay for the trip itself. The unscrupulous "travel agencies" are not related in function to the legitimate ones and should not be confused with them. Before you sign up or send

Of course, there are

any money to one of these "travel agencies," contact the Attorney General's Office in the state where the company is located as well as the local Better Business Bureau in the city where the company is located. Additionally contact my nearest Consumer Protection Division office to see if Texas consumers have had any problems with the particular company you are dealing with.

Be sure you do not release a credit card number to a company without first checking the validity of the agency and its offer. With that particular number, charges can be made to your account which could

#### **Country Offers Small Business Funds** Taylor, and Throckmortan.

Small business in a 19county area of West Texas will be eligible to receive financial help through the newly created Big Country Development Corporation, U.S. Senator John Tower (R-Texas) announced today. The corporation has been certified by the Small Bus-iness Administration and will be authorized to lend up to \$500,000 per qualifying business for fixed assets. To qualify, the borrower must provide 10 percent of the investment package and obtain financing for another 50 percent from a commercial lending institution. The remaining 40 percent would come from the Development Corporation, Tower ex-plained. The Certified Development Corporation portion of the loan can be for

up to 25 years, although the commercial loan mustterm financing from the Development Corporation be for at least half the period of that loan. should make it easier for The counties covered by businesses to get the rethe Big Country Development Corporation include Brown, Callahan, Coleman,

quired loan from a comm-ercial institution," Tower explained. \*\*\*\* Every man and woman Comanche, Eastland, Fisher, Haskell, Jones, Kent, Mitchell, Knox, Nolan, has to settle the problems Runnels, Scurry, Shackelof life -- no one else can do

can deliver.

For example, you receive a letter from a "travel agency" informing you that you have been chosen to pick from a variety of exotic vacations spots. You decide to choose the Las Vegas trip with an incredible array of free benefits. First, you are required to send in a deposit (usually between \$50 to \$150) to indicate your intention to confirm a vacation date within a year's time. You are required to pay for your own transportation to and from Las Vegas; however, once you arrive you and your guests are entitled to six free breakfasts, six free lunches, four free dinners, two free

#### Mysterious disease killing newborn foals

COLLEGE STATION - A puzzling new disease is killing newborn foals nationwide and veterinary diagnosticians here are hoping to find clues before the current foaling season ends.

The mysterious di order attacks the liver and produces symptoms similar to hepatitis, explained Dr. Robert Fiske of the Texas Veterinary Medical Diagnostic Laboratory, a part of the Texas A&M University System.

The foals appear normal at birth, but a few days later exhibit jaundice in the eyes and lips, staggering movements and may seem to be blind. Within nine days after birth, they all die despite treatment, said Fiske, a pathologist.

Cause of the malady called neonatal foal hepatitis syndrome - is unknown, he said.

"There is a critical need to learn more about this potentially devastating disease," he said. "We are soliciting help from the veterinarian in the field when this disease is suspected.

Information that the TVMDL will be seeking from field veterinarians and owners includes samples of liver, blood serum, a complete history with medications and vaccinations given during pregnancy and exposure to toxic substances.

Minnows have throat.

cause numerous headaches to get resolved. Because these solicitations
