Salvage Rubber Drive Termed Successful As Tons of Scrap Pour In For War Effort

The drive for salvage rubber now in progress all over the nation is turning out to be a huge success in Donley county according to county agent H. M. Breedlove of the Texas A&M College Extension Service of Donley Co.

Forrest Sawyer, chairman of the salvage committee, announced that up to last Saturday that the total amount of salvage rubber sold to the filling station in Donley county totaled 42,378 lbs. This figure is expected to double before the drive ends the 30th of June. Nolie Simmons, chairman of the USDA war board in Donley county is urging that all families get together and bring all of the rubber in the community to the filling stations and sell it at once.

The human chain of communication of Donley county is now in operation and local and community Victory leaders are contacting their neighbors, urging them to bring in the salvage rubber as soon as it can be gathered up around the place. The community and local victory leaders are taking a lead in the communities over the county in assisting the USDA war board to make the salvage campaign a success.

All filling stations will pay any person one cent per pound for the rubber delivered to the station. This is one salvage campaign that is very vital to the national defense and the rubber is more important than gold the county agent stated. J. E. Burch, local representative of the FSA, is urging that all clients with the FSA help with this drive and bring all scrap rubber at once.

It is our patriotic duty to take the time to gather up this rubber and bring it to town and sell it to the filling stations, and also to contact our neighbors and have them to take part in this drive. This must be done as this material is so vital to the national defense. This rubber that is now being brought in by the people of the county might be of great help in the winning of the war, and the saving of lives of our boys who are in the fighting forces. This will make it possible for them to move faster and cover more territory, and the use of rubber is important in the moving of troops, so let's do all in our power to bring all of the salvage rubber in to the concentration points and in doing this we will not slow down the speed of our forces.

While bringing in the rubber, it would be wise to gather up all scrap iron around the place and bring it in at the same time and make one trip do the job. BRING YOUR SALVAGE RUBBER TO TOWN AT ONCE—IT IS YOUR PATRIOTIC DUTY.

LOCAL GIRLS EMPLOYED IN AMARILLO DRUG

Among the ladies cited in the Amarillo News-Globe Sunday edition, as being employed in the place of usual men employees, and assisting in carrying on business in a normal way, were Miss Letha Warren, assistant pharmacist, and Miss Wilma Jean Warren, fountain operator, both employed by the Blackstone Drug.

These young ladies are daughters of Mr. and Mrs. J. A. Warren of Clarendon.

Eighty-One Merchants Sign Up To Sponsor Free Show Event

Eighty-one merchants and professional men have agreed to cooperate with the local chamber of commerce in sponsoring a free Saturday afternoon matinee for customers in the trade territory of Clarendon, according to J. R. Gillham and R. E. Drennan, committeemen in charge of the event. The total number of merchants and individuals is expected to total close to one-hundred by

CONSUMERS HAVE NEW MANAGER

Major B. Hudson assumed the duties of manager of the Donley County Consumers Monday of this week. He takes the place of Thad Rodgers who resigned on account of farming interests with his father.

Mr. Hudson is well acquainted with this line of business, having been in the service station and wholesale gas business practically all the time since 1926.

VISIT IN ELECTRA

Dr. and Mrs. B. B. Harris and her grandmother, Mrs. J. W. Burroughs and uncle, Mr. Gossage of McLean, visited the week end with relatives at Electra.

Carl Peabody became Worshipful Master of the Clarendon Masonic Lodge for the ensuing Masonic year when officers were installed Wednesday night, June 24. He succeeds W. C. Slater.

Other officers installed were Clarence Whitlock, Senior Warden; Willard Skelton, Junior Warden; W. H. Patrick, treasurer; Lee Bell, secretary; Joe Horn, Tiler; Clayton Mann, Senior Deacon; Bill Weatherly, Junior Deacon; Allen Bryan, Senior Steward; H. F. Wideman, Junior Steward.

Chapter Royal Arch Masons: Nolie Simmons, Most Excellent High Priest; Bill Ray, Excellent King; H. T. Burton, Scribe; W. H. Patrick, Treasurer; Lee Bell, Secretary; George Green, Sentinel.

'Hopper Fight Will Begin Next Week

County agent H. M. Breedlove of the Texas A&M College Extension Service announced this morning that the fight against grasshoppers in Donley county would be in full swing the first of next week. Breedlove pointed out that a WPA project had been approved for this area giving Donley county one man to run the plant for the season. All persons can get the hopper poison at any time and the charge will be 15c per sack for the expenses of the plant.

"We will have only one plant at the beginning and that will be at Clarendon where the poison is stored, Breedlove said, "but if the demand for the poison becomes greater than at the present then another plant will be opened at Hedley."

The hoppers are only bad in some sections of the county and it seems that they are just beginning to hatch. There is plenty of bran and poison on hand to handle any emergency that might arise from the hoppers, so all persons are asked to help in the war against the hoppers if they have an infestation on the farm or ranch.

July 11, the opening day of the event. A regular feature motion picture will be run each Saturday afternoon at the Pastime Theatre with admission to the show to be gained by tickets given by the merchants and individuals sponsoring the event. Details of the event will be run in this paper at a later date.

VISIT IN CLARENDON

Mrs. Harold Hightower and daughter and Mrs. Earl Rinehart and daughters and Miss Margie Dean of Fredrick, Okla. and Mrs. Helen Malton of Lawton, Okla. visited friends and relatives here the past week end. They were returning home from a tour of Colo. and New Mex. Miss Vialas Ann Ziegler returned with them for a visit.

Deferment For Married Men

Drafting of men who married prior to Dec. 8, 1941, has been postponed. The local Draft Board of Donley County was telegraphed the information yesterday by Gen. Watt Page, state director of Selective Service.

The telegram said that, due to impending legislation contemplated to take effect, the board was directed to postpone the induction of all registrants who married prior to Dec. 8, 1941, provided they are living with their wives and children, if any.

Apparently the telegram went to all Texas boards, many of which had been taking married men. The impending legislation is the bill proposing payment of fixed amounts to the dependents of men in the service.

The telegram indicated new regulations were en route.

Donley County To Have Certified Alfalfa Seed

Donley county will have certified alfalfa seed this year according to county agent H. M. Breedlove of the Texas A&M College Extension Service. Mr. Goeth of the States Field Seed Certification Division was in Donley county several weeks ago and looked over the alfalfa fields of the Lelia Lake community and will return to the county and inspect the fields again just before the harvest of the seed. This will raise the price of the seed several cents per pound the county agent stated and will be one of the few counties in the state selling certified alfalfa seed.

The alfalfa growers will meet after the fields have been inspected by Mr. Goeth and organize as association of the growers in the county.

FFA Boys Receive Coveted Awards

Bobbie Harold Smith, Redell Henson, J. F. White, C. G. Kirkland, Charles Smith, and H. A. Harrison of Clarendon were awarded the Lone Star Farmer Degree at the State Future Farmer Committee meetings held at New Braunfels, June 18-20.

Chosen from more than 28,000 members of Texas these lads are among the 175 Future Farmers of the entire state who have reached the highest degree of attainment this year that may be awarded by the State Association of Future Farmers.

In order to receive this degree a boy must be carrying on his third year farming program under the supervision of the vocational agriculture teacher, and his investment in farming must exceed \$250.00.

He must be active in Future Farmer activities, a leader in his local chapter and be in the upper bracket in his high school scholastic standing. Not more than two per cent of the organization's members may receive the Lone Star Farmer Degree during any one year, however, only about six boys per 1,000 met the minimum qualifications this year.

GIRL RIDERS AND NAVY CLUB TO SPONSOR DANCE JULY 3

The annual Fourth of July dance held in connection with the Rodeo, will be jointly sponsored this year by the Navy Club and the Girl Riders. It will be held on the night of July 3rd.

An advance ticket sale will be conducted by members of both organizations, Mrs. Katherine Bugbee being in charge of ticket distribution. Price of admission will be 50c per person. One half the proceeds from the dance will go to the Navy Club to be used in carrying out their activities on behalf of the Navy men from Donley county, who are now in active service.

Further details of the program will be announced next week.

VISITS SISTER

Mr. and Mrs. W. E. Betts of Clovis visited his sister, Mrs. C. A. Burton Sunday and Sunday night.

CHARLES WALKER IS ELECTED TO YALE

Charles Walker, 28-year-old professor of chemical engineering has been elected as a member of the faculty of Yale University. His duties at New Haven will begin July 6.

Mr. Walker is the son of Mr. and Mrs. Jack Walker of this city and he is a graduate of the Clarendon High School and the University of Texas School of Chemical Engineering.

Since college Mr. Walker has done research for various sulphur companies and has served three years as a college professor. During the past year he was head of the department of chemical engineering at the University of Arkansas.

RETURN HOME

Mr. and Mrs. Clyde Douglas returned home Friday night from a visit with relatives and friends at Dallas and Wichita Falls.

The above is a drawing by Edmund Duffy, cartoonist of the Baltimore Sun. The drawing is one of the illustrations in a pamphlet, "The Unconquered People", soon to be issued by the Office of War Information to tell the story of the brave inhabitants of the Nazi-occupied countries, who have held fast to their love of freedom despite the campaign of terrorism waged by Hitler's Gestapo.

PLANS ARE BEING MADE FOR 5th REGISTRATION

Plans are being completed by the local Draft Board of Donley county for the fifth registration. In Donley county there will be two places of registration—one at the local draft board office and the other at the City Hall at Hedley.

All men of the county who come within the age limits of this registration will be expected to register that day. All men who were born on or after January 1, 1922, and on or before June 30, 1924, come within this registration.

Men may register between 7 a. m. and 9 p. m. on Tuesday, June 30, the day designated for the National Fifth Registration Day.

H. C. Shaw Wins Achievement Award

H. C. Shaw of the Windy Valley community was the winner of the county achievement award for 1941, it was announced today by county agent H. M. Breedlove of the Texas A&M Extension Service in Donley county, and advisor of the 4-H Clubs in the county.

H. C. won this award for having the reserve champion calf at the 1942 Amarillo Fat Stock Show. H. C. has been a 4-H club boy for three years and is the son of Mr. and Mrs. Harvey Shaw of the Windy Valley community. He will receive a gold medal to be given him in the near future at the meeting of the Clarendon Lions club by H. M. Breedlove.

Plans Complete For July Fourth Rodeo And Celebration

FISHERMEN BRING BACK EVIDENCE

The big one didn't get away this time! Fred Buntin, Bill Crawford, Colie Huffman, Wayne Morrow, W. C. Slater and Grover Heath returned the first of the week from Lake Kemp where they had spent several days playing with the finny tribe. They evidenced fair luck, displaying a tub of fish, among which was a 7 1/2 lb. bass which was caught on a trot line. They reported quite a bit of rough weather on the lake which cut their luck down.

Radio School Organized

The first meeting of a Basic Training Radio school was held at the College building Friday night, June 19th.

Paul Matke, CAA operator at the local emergency landing field, is the instructor. A local civic club is contemplating the sponsoring of this school which will be a three months course and will meet three nights each week. The present class is now full but anyone interested should contact Lee Bell, as a second class may be organized in the future.

Auto Stamps Must Be Displayed After July 1

Uncle Sam is in a war. He needs money and gobs of it. In order to help raise this immense sum of money, an auto and truck federal stamp act was passed by Congress. These stamps have been displayed for months.

Beginning July 1st, the new annual stamp must be displayed on every auto and truck in the Nation. This stamp is light red, costs five dollars and must be displayed on the windshield to facilitate inspection by federal agents who will check up on the matter.

The stamp is ready to stick on the windshield after the owner fills in certain information on the back in ink to prevent its being stolen. The information gives the motor and license number as well as the make of the auto or truck. This stamp is good for a full year, or until July 1, 1943.

The stamps are on sale at any postoffice. The Clarendon office has sold some two hundred of the stamps to date this month. To make sure that you will get a stamp, see your postoffice at once and make your purchase. Too, that will avoid a jam at the last minute.

The penalty is too heavy to operate either truck or auto after July 1st unless a stamp is displayed. Buy that stamp now before you forget it.

Local FFA Chapter Ranks Second In State In Dairy Cattle Contest

According to information received by J. R. Gillham, local FFA adviser, Wednesday morning from B. C. Davis, State FFA Supervisor in charge of the Dairy Cattle Improvement Contest, the Clarendon chapter ranked second among the 692 chapters in the state for the year ended in dairy cattle improvement work. The contest was based on number of registered dairy cattle, official records back of the cows and of the bulls used, pasture provided, milk records of the cows involved, disease prevention, use of past-

George Norwood, director of the Donley County Ranchers' Rodeo, announced today that plans were complete for the annual Fourth of July Rodeo and Celebration. He stated that all details of the event were planned and committees had been arranged for each.

The program will start on the morning of the Fourth at 10 a. m., with the preliminary elimination in the girl rider and kid rider contests to be held at Broncho field. The Clarendon band will present a concert at 11 a. m., and the annual parade under the direction of Flip Breedlove and Buddy Knorpp will open at 1 p. m.

The rodeo will open at 2 p. m. under the direction of Norwood with calf roping, team tying, bull riding, bronc riding, cutting horse contest, and old timers' roping events being intermixed with the girl riders events to make up the program. The following is a list of the prizes and entry fees in each of the events:

Calf Roping contest: 1st \$25, 2nd \$15, 3rd \$10. Entrance fee \$2.50 for each performance. Junior Bull Riding: Mount money \$1. Bronc Riding: Mount money \$3.50. Old Timers Breakaway: Prizes 1st \$10, 2nd \$5. Entrance fee \$1.50 each performance. Bull Riding: Mount money \$2.50. Team Tying: 1st \$15, 2nd \$10, 3rd \$5. Entrance fee \$2 each performance.

Girl Riders Flag contest: 1st and 2nd, \$5 book of war stamps for girls over 15 years of age. For girls 13 and boys 12, 1st and 2nd will receive \$5 book of war stamps. \$5 book of stamps for contestants who have won 1st prizes in previous rodeos.

The contestants will be evenly divided between the afternoon and night performance with the night event scheduled for 9 p. m.

Special registration booths will be maintained for each of the larger ranches for present and old time cowboys to register and renew acquaintances. The cowboy entry registration will be under the direction of Joe McMurtry, John Knorpp, and R. E. Drennan at the County Agent's office from 8 to 11 a. m. on the day of the Fourth.

OLD FASHIONED BOX SUPPER

The Leader has been asked to announce that there will be an old fashioned box supper at the McKnight school house Friday night, June 26th. The purpose of the supper is to raise a fund in which to buy lights for the school auditorium. There will be plenty of music and fine singing.

The public is cordially invited to attend this worthwhile endeavor and to meet your friends and neighbors.

AFTER THE WAR

Some high government officials, such as Vice-President Wallace and Undersecretary of State Welles, have made interesting speeches of late, which cast a light on this nation's world destiny.

War will force immense changes in the home life of the American people. We will have to forego most luxuries, and use a minimum of many necessities.

Water Carnival At Lake McClellan July Fourth

A water carnival will be held at Lake McClellan, Saturday July 4. The day's activities will consist of boat races for 16 hp., 22 hp., 33 hp. motors and a free for all race.

It is said that we will be the leaders in stabilizing the world after the war, and in maintaining order. But it is also said that our program will not be imperialistic in the traditional sense.

If, as seems likely, this nation escapes wholesale bombing and invasion, we will have the only effective production plant on earth when the last shot is fired.

YOUR RETAIL STORE

As time goes on, your retail store will have a changed appearance. There will be less goods on the shelves in many instances.

There will be surf board riding and water ski exhibitions following the races.

A casting tournament for all fishermen of the Panhandle will be held at the Boat house at 3:30 p. m. There will be two divisions in the casting tournament, one for distance and one for accuracy.

The McClellan Boat Club will sponsor a dance at the recreation hall Saturday night, July 4th. Music will be by "The Prairie Ramblers" featuring Miss Delphia Bond at the Piano and Bill Ridge-way at the electric guitar.

Fishing for all kinds of fish will open at Lake McClellan July 1st. A fee of 25c per person will be charged.

Local Candidate Writes Letter To Opponents

The following is a copy of a letter being sent by W. T. Link, local lawyer and candidate for Chief Justice of the Court of Civil Appeals, to two of his opponents.

AN OPEN LETTER

June 22, 1942.

Judge E. L. Pitts, Lubbock, Texas.
Judge E. C. Nelson, Amarillo, Texas.
Gentlemen:-

Each of you is making the race for Chief Justice of the Court of Civil Appeals for the Seventh Supreme Judicial District of Texas.

As a District Judge each of you is receiving a salary of \$5,000 a year from the State of Texas, or approximately \$17.00 per day for each and every working day of the year.

So unprecedented an action as this creates a vital issue for the tax payers of this District, and since I also am a candidate for the office of Chief Justice of the Court of Civil Appeals I will be pleased to debate this issue with you upon a date and at a place suggested by you at any reasonable time before the July primary.

This is an open letter and a copy is being released to the press for publication as a news item.
Yours very truly,
W. T. Link
Clarendon, Donley County, Texas.

From where I sit... by Joe Marsh

MAYBE I shouldn't admit it, but there are a few things about this writing job I really like.

For instance, I like the part where... after all the writin' and the routine is done... I just set back and think about things in general.

Doesn't matter much what I think about. Sometimes I concentrate on one thing. Sometimes I think of lots of things, one right after the other.

Well, here I am... going on and on thinking and talking about beer. Probably could go on for hours.

Usually, when I get to thinkin', I send down for some beer. Seems a glass of beer not only touches the spot but it also sort of helps the thinkin' mood along.

It's such a peaceful, friendly beverage. Sort of honest and human. And it tastes good.

I like to hold my glass of beer up to the light and look through it. That beautiful, golden-amber color kind of fascinates me. Reminds me of the sunny barley fields where beer gets its start.

THE TEMPLE OF TRUTH

WAR DOPE.
The late Gen. Billy Mitchell who was kicked out of the army some twenty years ago because he advocated too strenuously an air fleet, made the statement about

that time that "He who holds Alaska holds the world." The Japs have evidently taken the General's statement at face value and have decided to take a slice of Alaska. The same General also stated that Attu is "the loneliest place this side of hell." That's where the Japs landed.

Great Britain has really been going to town since American

fliers have started in to strut their stuff over there. Of course England claims all the credit. The Nazis dropped 680,000 pounds of explosives on poor Coventry and something like 1,200,000 pounds on London a few months ago. The Americans often each night now drop as much as 6,000,000 pounds of bombs on a single town. They have practically wiped out Cologne, Essen and Rostock, each

great German war manufacturing supply towns. The largest airplane factories in Germany have already been wiped off the map by American fliers. British air marshal A. T. Harris rises up to say that the United Nations' fliers, which means Americans, will soon be dumping eleven million pounds of bombs into the lap of German industrial towns night-

ly. Let us hope so at least and stop this world-wide carnage.

When the President stated that gas rationing depended on the response to a rubber collection, the service stations of the oil companies got busy. They really are doing a great patriotic service for the Nation. Any service station will pay one cent a pound, or twenty dollars a ton for old rubber. They then sell it for twenty-five dollars a ton and give the profit to the national war relief agencies. Ain't that a great idea? Collecting rubber here has been a job for all ages. Mere tots have collected rubber as well as the aged. It all helps. And Texas wants no gas rationing. Cut down the profits of oil production in our state and then who would pay the taxes? Oil companies pay 84.3 percent of the state tax. To shut down our oil companies would ruin the independent operators entirely, and cripple the standard or larger companies besides throwing hundreds of thousands of people out of employment. Senator Connally is being heard from in opposition to gas rationing, and no other living man can get the job done as can Texas' own Senator Tom Connally.

With the German and Italian submarine boats destroying boats of the Allied nations in the Atlantic and Caribbean sea every day, Congress is taking action. Wooden boats instead of steel-sheet boats are to be made at the rate of 100 a month. Congress has appropriated \$8,550,000,000 (billions) to make ships to carry on in defiance of the subs until enough bomber planes can be made to take care of the menace. Planes are scarce because lots of them are going to England, Russia, Australia, Alaska and other places. Uncle Sam has a big job supplying the more backward nations whose workers cannot snap into production like our nation can. Besides, they know the old Uncle will get the job done now that he is in the war game. They know, too, that America is the greatest war machine and most united nation on the Globe.

The high privilege of shooting Japs and Germans is denied to many of us in this war, but we certainly can help our fighting boys and nurse girls a long way by collecting rubber and scrap metal. Look at those fine fellows pictured in the show window at the Greene drygoods store. Why not get some of the nurse girl pictures and put in there with them. Miss Margaret Swinburne of Ashtola is known to all of us. There are many others. Let's give the girls proper recognition in this war. Miss Margaret is one of dozens of war nurses stationed in Alaska right now. How about it, you ladies who have that matter in charge?

SUGAR SAVING.
Since this column is devoted to the war cause this week, let's talk about canning and saving other food products without the use of sugar. Of course we can get a certain amount of sugar to put up fruits, but go to your county agent and ask for Bulletin B-85. If you have a County H-D agent, ask her for a bulletin. If you can't do any better, write A&M College, College Station, Texas and ask for the Bulletin which is free. A postal will do in making the request. You will be surprised at the number of recipes and suggestions in that Bulletin that will come in handy most any time.

FLASH!!!
Newspaper reports are that the English surrendered Tobruk in north Africa along with food and war supplies given them a few days before by Americans just as they did at Singapore in Malay. Why not hem them up and find out which side they are on. It begins to look suspicious.

Karl L. Lovelady

Senator Karl L. Lovelady of Meridian, Bosque County, has formally announced his candidacy for Railroad Commissioner, unexpired term. The Central Texas, serving his first term in the Senate, is contesting for the seat vacated by Jerry Sadler, resigned.

Lovelady was born in Hill County and formerly served as County Judge of Bosque County, as well as Secretary of the County Judges and Commissioners Ass'n. of Texas. He is author and co-author of resolutions passed to curb strikes and prevent violence in strikes in Defense Industries. He is a member of the Joint Legislative Advisory Committee that supervises the spending of rural aid money, which benefits 4000 Texas schools.

In making his formal announcement, Lovelady said, "This is one of the most important offices in Texas, especially during the present crisis. The oil industry of Texas plays a most important role in the winning of our freedom and the restoration of liberty to the Allied Nations. It is very important for Texas voters to carefully select their official to serve on this Commission."

Lovelady further stated that he would deal fairly with any person having business before the Railroad Commission and would guarantee the people of Texas that he would not make any last minute decisions affecting the entire State of Texas, but would keep the people informed on all matters affecting their welfare.

Hay Fever-

Hay fever is a typical parasympathetic syndrome. The parasympathetic fibers (of the seventh cranial nerve) carry impulses to the nasal and related mucous membranes and there cause a vasodilatation and an increased secretion. The sympathetic fibers from the first and second dorsal spinal cord segments carry impulses which cause vasoconstriction and decreased secretion in these membranes. A balanced function of the two antagonistic nervous groups maintains a state of normalcy.

The congestion and swelling and the excess of secretion from the nasal mucosa which characterizes hay fever is typical of a disturbance of the normal nerve equilibrium in favor of the parasympathetics. In such cases, the treatment may well include stimulation in the upper dorsal region to activate the spinal sympathetics and thus aid in balancing the predominant parasympathetics.

The Spinal Sympathetic are aided in maintaining their proper activity when the correct adjustment is obtained. This explains the usefulness of adjustments in cases of Hay Fever, reported by investigators. See your local Chiropractor for further details.

The Bankers In War-Time

Our whole Nation is shifting from peace-time to war-time. Life once geared to convenience is now geared to war demands. Production takes precedence over profits.

This shift throws a heavy responsibility on Bankers. They must:

1. Encourage thrift, discourage spending.
2. Assist small business in every way.
3. Lend to the farmer for the "Food-For-Freedom" Program.
4. Scrutinize non-defense loans with utmost care.
5. Practice and preach the gospel of work and save.

We want our friends to understand and cooperate with us. There is ample credit for all essential uses.

RED CROSS VOLUNTEER SERVICE

"Faith that the forces of righteousness can and will prevail is one of the attributes of a free people. The cause of the United Nations is the cause of freedom for all peoples.

"We have faith in this cause and because of this faith and the determination of our people to make whatever effort and sacrifice are needed to support it, we face the future with confidence that God will enable us to fulfill his purpose for the world."—The Presiding Bishop of the Protestant Episcopal Church—"The Royal Cross", June 1942.

Knitting

Yarn was issued this week to Mrs. Floyd Lumpkin (od), Mrs. George Bagby (muffler), Edgar Mae Mongole (wp), Mrs. Guy Sibley (wp), Mrs. Crutchfield (muffler), Mrs. C. B. Morris (wp), Ila Pool (wp), Mrs. Heckle Stark (muffler), Mrs. Weaver (muffler), and Mrs. C. C. Pipes (wp).

Knitted garments were turned in this week by Mrs. Ed Dishman, Mrs. Henry Williams, Mrs. Ernest Hunt, Edgar Mae Mongole, Mrs. Guy Sibley, Mrs. Crockett Taylor, Mrs. Ben Buck, Mrs. W. E. Hastings, Mrs. B. F. Kirtley, Mrs. C. C. Pipes and Vivian Taylor.

The army has the very strictest requirements for the knitted garments being done by the Red Cross workers and for this reason it is imperative that the directions are followed. A great many articles have had to be ripped out and redone. Ione Wall is reknitting a sweater that was turned in improperly finished.

Several knitted squares for the afagans have been turned in this week. Alta Angel turned in 10

squares and Mary Edna Elmore, young daughter of Mr. and Mrs. Fontayne Elmore, turned in two knitted squares. Mrs. E. M. Ozier gave a nice donation of scrap yarn that will be used in knitting the squares.

Samples are being made of helmets and wristlets in order to see how much yarn will be required for each and as soon as the samples are completed, the yarn for these garments will be issued. These articles, especially the wristlets, will be very simple and the workers are asking that every one that can knit at all come in and get the yarn.

Despite the hot weather the knitting has been going well. Nearly all the yarn on hand has been issued with the exception of that which has just arrived for the helmets and the wristlets. There is still, however, enough yarn for several War Production sweaters.

Sewing

Mrs. E. R. Reeves of Jericho personally made and turned in six hospital bed sheets and the Home Economic girls, under the direction of Miss Maurice Berry, turned in 28 hospital gowns. The Presbyterian Auxiliary, under Mrs. Heckle Stark, turned in 12 hospital bed shirts.

Mrs. C. T. McMurtry made and turned in 3 operating gowns and 3 adult hospital gowns and 1 child's bed shirt and 1 bed jacket. These articles will be used as samples for further sewing.

The cutters will be busy for the next several weeks as the production room has received 800 yards of material for women's and children's blouses. As soon as these are cut they will be issued.

\$1.02 was turned in by Mrs. C. T. McMurtry for the local Red Cross fund. This money was the amount left over from the train service. This service has been discontinued for some time.

News Briefs
It has been announced recently that the American Red Cross has shipped 598,000 articles of clothing to the men in America's armed forces.

Since the beginning of the war in September, 1939, women volunteers in the Red Cross chapters have supplied 7,187,925 garments for men, women and children which have been shipped abroad for relief of foreign war victims, and have made 32,932,772 surgical dressings which were shipped abroad. These two items have a valuation of \$20,019,000. Material was supplied by the American Red Cross and the women did the work of cutting, sewing, packing, shipping, etc.

More than 40 million surgical dressings also have been made for the Army and Navy hospitals in the U. S. and its insular possessions, and delivered to the Army and Navy warehouses, from where they are shipped to hospitals.

Donna Ree Bryan, Juanita Carpenter, Lama V. Tatum, Judith Ann West were guests of Louva Hunt Tuesday night.

Rev. G. T. Palmer is attending the pastor's meeting at Dallas this week. Mrs. Palmer is visiting their daughter, Mrs. Shepherd at Vernon.

ECONOMIC HIGHLIGHTS

We are at last beginning to feel the colossal changes war has forced on the economic and social life of the nation. And, in the next six months or so, changes in a far greater degree than anything we have yet experienced will inevitably take place.

It should be clear to everyone by now that the American standard of living, which has been infinitely luxurious by comparison with that of most of the rest of the world, will be largely abandoned for the duration. This year, our national income will be the largest in our history. But the amount of money which the people will have to spend for goods and services will be down to the lowest depression levels and perhaps lower. There are three principal reasons for that. First, and most important, is the tax burden, which will be felt in the lowest income groups, and will reach staggering proportions in the middle and high income groups. Second, War Bond purchases, whether voluntary or enforced, will take a substantial part of everyone's remaining income. Third, the price level is far above that of 1932 and 1933.

For the most part, we have not

yet felt any particular lack of "luxury goods." While manufacture of such goods was stopped some time ago in most lines, stocks on hand have kept store inventories adequate. Soon it will be impossible to buy a refrigerator, and automatic heating plant, a radio, an office machine, and ten thousand and one other items, unless you have a first-class priority rating, and the item is needed for a purpose directly connected with the war. Rationing of public transportation services may make pleasure travel impossible. And it is generally expected that a card-rationing system, similar to that now in effect for sugar, will be extended to other foods, to clothes and to many additional necessities.

Whole professions are being virtually wiped out. For example, there is the plight of the salesman. There is no need for his services if his industry is engaged in war work. If his industry is not in war work, its production is swiftly declining and he has less and less to sell. These people are being absorbed by war industry, for the most part. After the war they will face another difficult problem of readjustment.

Whole industries are in the same position. The mortality, for instance, in the businesses which have been built up about the automobile—service stations, repair shops, roadside restaurants, resorts, etc.—is great, and before long it will be tremendous. All their proprietors and employees can do is to close shop and get a war job. There is no place for their businesses in the war picture.

The face of American communities of all sizes is changing swiftly. Gigantic war plants are being developed in sections where there was little industry before. In many defense areas, population growth—unprecedented in its rapidity—has created an exceedingly severe housing and transportation problem. These problems have not yet been adequately solved, and they will grow worse. They constitute a major headache to governmental authorities.

The population trend from

OUR DEMOCRACY — by Mat

Home. THE FAMILY UNIT IS THE OPERATIONS BASE OF AMERICAN LIFE.

DOWN THROUGH THE AGES MEN HAVE FOUGHT AND DIED TO PROTECT THEIR HOMES; MEN AND WOMEN HAVE WORKED LONG AND HARD TO PROVIDE FOR THEIR FAMILIES — TO GIVE THEM LOVING CARE, WITH FOOD, CLOTHES, MEDICAL ATTENTION, EDUCATION, THE SECURITY OF LIFE INSURANCE, RECREATION AND ALL THAT GOES TO MAKE A HOME.

FOR ALL THIS OUR FOREFATHERS HAVE FOUGHT BEFORE — AND FOR ALL THIS WE FIGHT AGAIN TODAY.

country to city is intense. Agricultural workers, attracted by the big wages paid by war industry, are literally leaving the farms in droves. The farm operator can't get enough labor, and, even when he can, he must offer wages that in many cases are beyond his ability to pay. This has offset a good part of the benefits of increased farm income.

The foregoing simply illustrates a few of the almost revolutionary changes that are occurring in this country. And they illustrate, by inference, what our post-war

problems will be. Authorities in both business and government seem convinced that none of the problems are insoluble. They know that there will be many mistakes, many errors in judgment. But they believe that, after the war, this nation's incredible industrial plant will be able to provide jobs for all employables, and will in time bring the general standard of living to a level well beyond anything we have known. It is a healthy sign that, even as we grapple with the immense problems of war, we are also thinking ahead to the peace to come.

Practical Experience Gained By WPA In Mass Food Serving

SAN ANTONIO, June 15 — Twenty-eight million hot, nutritious noonday meals were served to Texas children by WPA school lunch workers during the academic year just closed, it was reported today by Mrs. M. K. Taylor, state director of WPA service activities.

Practical experience in large-scale food preservation and mass feeding was gained by 7,000 WPA workers, Mrs. Taylor pointed out, emphasizing the importance of this training in event of war-time emergency.

Evidence of the ability of school lunch program workers to perform under disaster conditions was offered in April when WPA workers and volunteers served meals to as many as 1,500 persons following the catastrophic Crowell tornado. Food was utilized in preparing meals which were served to storm victims from the courthouse lawn and the Crowell school lunch room.

During March, peak month of operations, 2,528 Texas schools participated in the school lunch program. A quarter of a million Texas school children were served during the year, virtually doubling the participation figure for the previous year.

Summer stress is placed on the cultivation of 2,500 acres of WPA gardens in 126 counties, Mrs. Taylor stated, and on the operation of canneries where more than eight million pounds of vegetables will be conserved for use in school lunch rooms next year. This locally-grown produce, food supplied by the Agricultural Marketing Administration from surplus crops, and items supplied by interested local organizations are used in the preparation of balanced meals for students.

Lester Boone To Open Campaign At Amarillo

Dallas, June 24—Lester Boone, candidate for the regular term of the Texas Railroad Commission, will open his campaign Saturday night in the home town of his two opponents for the place, Amarillo. Boone opposes Ernest O. Thompson and Baker Salisbury both of Amarillo for the place on the Railroad Commission. Boone is from Fort Worth.

Boone's platform pledges him not to seek another office while serving on the Rail Commission, to attend all commission meetings, and to work for the betterment of oil and transportation matters in Texas.

Boone has served in the Texas Legislature and was largely instrumental in the passage of the omnibus tax bill which made possible the continuation of payments of old age pensions, aid to the crippled and blind, care for dependent children and teachers retirement.

Uncle Sam Has More Electric Power than All these Three Together!

POWER

...after 6 months of WAR...

TALK of a "power shortage" has died down. But if an uninformed person listened to occasional blasts from socialist individual groups in Washington, he would conclude that the future of America's war effort depends on spending more billions of tax dollars for socialized electric power projects.

The truth of the matter is just the opposite. In fact, Adolf, Hirohito and Benito probably are spending some sleepless nights because they know that this Nation's great and growing war production must inevitably turn the tide against them.

America can do it because America has the electric power to drive the machines that make tanks, planes, ships and guns ... more power than the three uneasy dictators and all their conquered countries combined ... five times more than we had in the last war!

Companies like this, under business management, publicly owned through millions of small stockholders, and regulated by the government, are generating and distributing over 90 per cent of all the country's commercially produced electricity. They have met war needs, plus your normal needs, with perfect efficiency.

The increase alone in power demand within the last year equalled the total output of the entire industry 25 years ago. Electric companies absorbed this increase without undue strain. The tremendous new wartime loads were met with the industry's total generating capacity working only 50 per cent of the time.

Expansion and improvement programs are being carried on to meet the greater demands of the future.

Your attention is called to this remarkable achievement because constant socialist political attack, over many years, hindered normal expansion.

After six months of war, it can be said that there will be no serious power shortage in this country if the government gives the electric industry the same degree of cooperation it gives to other industries on which the war effort depends.

The needed power will continue to be distributed where it's needed, when it's needed, and without added cost to the taxpayers.

The experience and training of the men and women who operate your electric company are dedicated today to making Uncle Sam so power-full that the Axis dictators soon will be nothing more than three busts in the Hall of Infamy!

With the armed forces subsidizing the Civilian Pilot Training program over the country, Lt. Comdr. Barry Holton, senior member of the Naval Aviation Cadet Selection Board, Dallas, today announced that accepted applicants for naval aviation cadet training can be promised almost immediate flight instruction which will lead to their gaining commissions about two months sooner than in the past.

Holton said that although these men will not be on active duty with the navy, they may be flying and gaining valuable experience which will expedite their gaining advancement after they are called to duty.

He said that so many young men enlisted in naval aviation have nothing to do during the two weeks or month that they are waiting for a call to training. This new setup, he pointed out, will give these men a chance to show what they can do at the stick of a plane immediately.

The first course these men will attend will be the CPT elementary course, a full-time eight weeks instruction course during which the men will study ground school subjects and get in actual flying hours. These courses will be conducted at schools now teaching CPT. Men will be sent to the schools nearest their homes, and their lodging and food will be furnished through the CAA.

This course is for men enlisted in V-5 (naval aviation) who are on inactive duty. No civilian may participate.

Naval News

Naval officers of the first World War who are physically fit to perform duty are invited to make application for Naval commissions in the present war, according to announcement received from Commander F. C. Huntoon of New Orleans, Director of Naval Officer Procurement in the Eighth Naval District.

Commander Huntoon said appropriate rank will be awarded, and proper consideration given to waiver of physical defects. Those with commissioned officer experience in the Navy at other periods also are needed, he said, and will receive the same consideration.

Former Naval officers desiring to re-enter the service should, if convenient, call in person at one of the branch offices of the Naval Officer Procurement in Houston, Alabama; Dallas, Texas; Birmingham, Alabama; Nashville, Tennessee;

Teachers Will Be Trained To Teach Basic Flying

AUSTIN, June 24—University of Texas officials have announced a program under which high school teachers will be trained in a special course to teach high school seniors basic flying principles next fall.

The special eight-weeks course will open July 6, according to V. L. Doughtie, coordinator of University Civilian Aeronautics Administration work. Four semester hours of college credit will be given teachers taking the course, Doughtie declared.

University instructors who handle the regular CPT classes will be teachers for this course, which will be directed toward supplying the teachers with a thorough knowledge of the work to be taught. The course will include 180 hours of classroom work.

CUE TO BARBECUE

Max O. Cullen, nationally-famous barbecue expert, shows Muriel Barr, young M-G-M starlet, how simple it is to barbecue meat. Pete Smith, producer of short subjects bearing his name, looks on as Cullen illustrates the correct method for turning a steak during the filming of "Barbee-Cues."

Backyard Barbecue Solves War's Entertainment Problem

With the entire nation seeking simpler means of entertainment because of war time requirements, the old-fashioned barbecue is rapidly growing in popularity. Backyard barbecues are becoming quite the style from California to Maine.

Old timers at this business of barbecuing have developed it into a fine culinary art, and in this connection Max O. Cullen, nationally known barbecue and carving expert, has brought out some new wrinkles for the handling of those old stand-bys, hamburgers and frankfurters.

Why does a frankfurter curl? Well, that's a problem that has bothered many a host, but if you're having a barbecue party and you want your franks to lie slim and straight as they nicely brown, try Cullen's little trick, as taken from the M-G-M. Pete Smith specialty, "Barbee-Cues."

First, slice the frank lengthwise down one side without cutting entirely through the casing, turn it over and slice parallel to the first slice. Then it opens up like an accordion and will not curl and fall through your grill.

Anybody can barbecue meat, Cullen points out, if they will only remember these pointers: Live coals, not a flame, should be used as a source of heat—charcoal briquettes are good. Steaks and chops should run an inch or more in thickness, and need be turned only once in cooking. Surplus fat should be trimmed away so it will not drip into the coals and flame up.

If you'd like a hamburger barbecue, take another hint from Cullen's repertoire and satisfy everybody's taste. Make your hamburger into a ball and barbecue it slowly until the outside is well-done. Then, slice it into three parts and you have two well-done pieces for those who like it that way, and one rare piece—the center—for those who like their meat rare. Cullen personally guarantees that barbecue fans will go for hamburgers prepared this way.

J. N. Hodges Dies At White Deer

WHITE DEER, June 18—Joseph Newton Hodges, 89-year-old pioneer of Carson county, died at his home here yesterday afternoon at 2 o'clock, after having been in failing health for more than a year.

Funeral services will be conducted this afternoon at the First Methodist church by the pastor, Rev. Don Davidson, assisted by the Rev. W. A. Cassidy, pastor of the Presbyterian church, and the Rev. H. W. Fike, pastor of the Church of Christ.

Born Oct. 3, 1852, near Gladsden, Alabama, Mr. Hodges moved to Hunt county, Texas, in 1865. In 1872 he went from there to Grayson county, where he married Miss Margaret Priddy. In 1876 they moved to Montague county, and during their 33 years residence there, 13 children were born to them. In 1905, with the six children who were still at home, Mr. and Mrs. Hodges moved to Clarendon, and in 1909 from there to a stock farm between White Deer and Groom, where they resided until 1916, when they came to White Deer.

Mrs. Hodges died several years ago.

Survivors are six sons, Marvin E., T. D., and Bryon of White Deer; Vestus C. and Walter N. of Hereford; and W. E. of Clarendon; three daughters, Mrs. Mattie Wilton of Henrietta; Mrs. Minerva Paine of Nocona; and Mrs. Pearl Burgin of Groom; 23 grandchildren, and 27 great-grandchildren.

Don't waste anything, for that means wasted money. Wasted money is wasted lives in wartime. Every dollar you can save should go toward War Bonds to help your state meet its quota.

Industrial alcohol needs for 1943, for military and essential civilian use, are estimated at 476 million gallons, including 200 million for butadiene, an ingredient of synthetic rubber. Production capacity is estimated at 540 million gallons.

A Crushed People Still Fighting—Unconquered

Imagine reading the following government announcement in your Donley County Leader:

"All men of the town of Hedley have been shot. The women have been deported to a concentration camp and the children sent to appropriate centers of education. All buildings of the village were leveled to the ground and the name of the village was immediately abolished."

Those are the words of an official Nazi statement issued a few days ago except that the town was named Lidice—a quiet little community of Czecho-Slovakia near Prague.

In Lidice (pronounced Leed-ee-say) men and women lived where their ancestors had lived for more than 600 years. A Lidice son brought his bride to his parents' home; his children were born in the same room where his grandfather first saw light. Above the roofs of the town rose the spire of St. Margaret's Church, a symbol of community faith since the church's building in 1736.

In Lidice, a farmer with earth sticking to his boots greeted the coal-dusty miner who as a boy sat beside him in school. On a warm day the tapping of the shoe repairman sounded through an open door like a faint echo of the blacksmith's hammering. A storekeeper going to the tailor shop paused on Wilson Street—named for the American president—to gossip with a man carving wood before his front door. Children laughed and played or were drawn to kitchens by the sweet scents of the cakes their mothers baked.

Life was not so easy after the German conquerors came. The men had to do what the rulers ordered. Limits were set on worship in the church and on schooling for the children. The women didn't have such good things or so much to fix for meals. But the people lived on, they worked, they loved, they dreamed—oppression had been upon them in the past but "Wilson" Street seemed a reminder that to a people of unconquered spirit, freedom at last returns.

Then two men fatally wounded Reinhard Heydrich who, as Nazi "protector" of Czecho-Slovakia, earned the title of "Hangman". That happened on a highway which doesn't even go through Lidice. The Lidice people told the Nazi secret police that they didn't know anything about the two men.

But the Gestapo agents learned that Lidice folk still dreamed of freedom. They claimed they found a radio, forbidden by German conquerors, arms and munitions. Several of the Lidice young men had escaped to join United Nations forces fighting the Germans. And the Nazis follow their policy of bloody vengeance—a policy which has meant the murder, in retaliation for the death of Heydrich, of more than 700 innocent men and women.

So when you read or hear the name of Lidice imagine what it would mean if the town of Hedley were crushed to the earth, its name scratched from all records, the bodies of all its men dumped into a common grave, their widows imprisoned, and the doubly-orphaned children in the hands of vengeful and merciless foreigners.

Haphazard spending on food and clothing is an insult to the men in Khaki and blue. Your dollars, invested in War Bonds, will move tanks and float ships.

Mort S. Banister Passes Away

Funeral services for Mort Saunders Banister, 76, of Hedley who passed away in an Amarillo hospital, were held Sunday afternoon. Rev. C. R. LeMond was in charge of the services and was assisted by Rev. W. H. DeBord, held at the First Methodist Church in Hedley. Mr. Banister came to Donley county about 1915 and had lived in the vicinity of Hedley and Bray since that time.

He is survived by his widow, eleven children, F. E. Banister of Clarendon, Jessie Frair, Oklahoma City; Martin Banister of Memphis; Mary Jackson, Oklahoma City; Ruby and Roma Wood; Wesley Banister of Hedley; Orville Mills, Talco, Texas; Maggie Tidwell, Dunn, Alabama; Malcolm Mills, Amarillo, and Wayne Mills, Wichita Falls. Thirty-eight grandchildren, seven great grandchildren, two sisters, and six brothers.

Janice Hill, Claudine Hill, Anita Bain, Mildred Clay, Wanda Lee Shaw, and Wanda Jennings were flower bearers.

Pallbearers were Leland Pierce, Clarence Hill, Tommie Bain, John Dickson, Graham Brinson, and S. Saunders.

TO THE PRODUCERS OF DONLEY COUNTY:

Walter J. Flynt, Secretary
Donley County ACA

The County AAA Committee of Donley county has definitely decided to start measuring, or at least to try to start, next Monday, June 29th.

Reporters will get their instructions this next Thursday and Friday from C. H. Moseley, State Performance Supervisor, and from his assistants, Roy Veal, District Performance Supervisor, W. B. Dryden, Field Assistant and Doss Buntin.

Reporters will be placed in the field as soon as possible after this instruction. This year the Performance Reporters will not be furnished a chairman so it is imperative that the Operators be present to help with the measurements. In helping with the measurements, Operators are cautioned to have the Reporters take out all waste land and all turn-rows as well as any other crops that should come out of the crop occupying the greater part of the land, at the time compliance is first checked, so that we might eliminate as much rechecking as possible as the rechecking fee this year on a total farm or part of a farm will amount to \$1.00 plus 2c per acre for the acreage rechecked.

Since there will not be a parity payment in 1942, it will not be necessary for the operators to come to the office to check their compliance papers at once unless there is something which they do not understand or do not approve. The farms will be measured in the county office as quickly as possible, and there will be mailed notices of the measured acres of all crops required in 1942. It will greatly improve the efficiency of the office if Operators will wait until notices are sent out on your farm, before coming in to check with us.

SUGAR RATIONING RULES ARE REVISED

The Office of Price Administration has announced that the value of sugar ration stamps 5 and 6 had been increased to two pounds each—but that each stamp would cover a period of a month instead of two weeks, continuing the weekly ration to each consumer at half a pound.

OPA explained that stamp No. 4, now valid for the purchase of a pound of sugar, would expire at midnight, June 27. The next stamp, good for two pounds, may be used at any time thereafter until midnight, July 25, whereupon stamp No. 6 will become valid until Aug. 22.

Sometime before Aug. 22, OPA will announce the period of time to be covered by other stamps in the ration books.

The ration stamps numbered from 1 to 4 each permitted purchase of one pound of sugar and covered a two-week period. OPA offered no official explanation of the extension to a month, but it was evident that the move to make a stamp last longer would reduce the number of stamps which grocers would have to handle.

At the same time, OPA disclosed that, effective Saturday, it would permit institutional and industrial users to obtain sugar allowances for a two-month period, instead of the one month now permitted.

SIDE GLANCES ON TEXAS HISTORY

When Did Cannibalism Start Among Texas Karankawas?

The reputation of man-eaters has followed the Karankawa Indians throughout Texas history and literature, but, according to Alvar Nunez Cabeza de Vaca, who in 1528 accompanied the second expedition from the Old World to reach the shores of Texas, it appears that they picked up the habit of eating human flesh after—not before—the coming of the white man.

True enough when Panfilo de Narvaez and his men were shipwrecked on the Texas coast and all save Cabeza de Vaca and three others were ultimately lost, the Karankawas even then were "blood-thirsty, brutish, hostile to the whites," but "as Cabeza de Vaca specifically states that he saw no native cannibalism in all his progress, one must conclude that the practice arose in later times."

These quotations are taken from Morris Bishop's "The Odyssey of Cabeza de Vaca," a copy of which is found in the University of Texas Library's extensive Texas collection.

Savage Horror at Spanish Cannibalism

On the contrary, the hunger of the Spaniards drove some of them to commit the sin of eating their brothers, a fact that filled the Indians with anger. The Indians had taken the party—which at the time numbered about 80—into their settlements on Bad Luck Island, or San Luis Island, southwest of Galveston Island, Bishop wrote.

Four of the Spaniards were sent to try to make their way to Panuco to meet the remainder of the expedition.

"The remaining Spaniards and their Indian hosts readily recognized that they could not all remain in one place," Bishop went on. "When the castaways strength permitted, they were divided into groups and quartered upon the various Indian settlements along the island. As one reads the account of the natives' barely-won struggle to keep themselves alive, one honors them for their acceptance of this intolerable burden, eighty hungry, helpless, useless men. The weather turned so cold and stormy that the Indians could not fish nor pull their roots in the submerged fields. Hunger and cold assailed Christian and pagan; the pagan suffered, but without complaint; the Christian's hunger drove him mad. The Indians, coming to visit a refuge of five Spaniards at a little distance, discovered an evil sight. Five bodies lay there; and the flesh of four bodies had been eaten."

"The Indians returned to the main camp, furious with anger. Their good-will changed to threats and blows. Had they known it in season to have done so, doubtless they would have destroyed any survivor." Their indignation was due, probably, to the proof that the Spaniards had succumbed to a temptation which they were trained to resist till death. Hunger was the very condition of their lives - - - After any spell of bad luck familiar on Bad Luck Island there would be starved bodies to be lightly covered over with sand. A dim sense of social welfare forbade the natives to learn the taste of their fellows."
