GREATER DEFENSE

We are getting slightly fed up with all the public statements and all the editorial comments about how we the great American public, don't seem to be in any mood to give our all to defend our country.

What rot! Why of course we are ready. Why we can pick up any daily newspaper, and read the news stories, and show how ready we are.

On the day this is written for instance, we have just had the news how a blow was struck for liberty by presidential approval of a \$3,110,000 WPA grant to the University of Texas for recording, renewing, translating, transcribing public records. Doesn't that prove how the money we are paying in taxes is going to our all-out national defense effort?

And the same story tells how another \$1,500,000 was allocated to coordinate recreation facilities in Texas. There! To get a people in the proper mood for war, you've got to recreate them and coordinate them. How can anybody question the wisdom of such an expenditure in this time of grave national emergency.

And a chance visitor to our desk tells us how the governmental housing agency in building some housing for somebody in Beaumont—for soldiers or defense workers or something, we never did get it clear, we were so awestricken with the far-seeing-ness of our national leaders—put on every house a snow-proof roof, specially reinforced. Of course it has never snowed in Beaumont, but it might some day. God knows, anything can happen in this time of national emergency.

And we forgot to say that the news of the aforementioned WPA grants were wired back to Texas by those two great representatives of our Democracy, W. Lee O'Daniel and Tom Connally. When our future is in the hands of men who wire back home how they get millions off the gravy train for Texans how can we doubt the future of our Democracy? Men of achievement, that's what they be and damned be he who complains about the tax bill.—State Observer, Austin.

FREE PUBLICITY

An edition recently published by the Coryell County News at Gatesville is likely to become historic. Angered by the mass of publicity material sent him by government agencies for free publication, the editor, W. Mat Jones, got out an issue of his paper that contained, column after column, page after page, nothing but the unpaid-for "releases" from the federal agencies. The army, the navy, the marine corps, the air service, the CCC, the public health bureau, the department of agriculture—each of these, thru its publicity offices, sends out to all newspapers the information it wants the public to have, with requests for publication and also for free checking copies of the paper.

Editor Jones, by way of providing an object-lesson, omitted the local news items—deaths, births, marriages, social events, accidents, crop conditions and whatever—and used all the space to gratify the demands of the federal government for free publicity. The result, by all accounts, was nothing short of horrible.

One purpose of the edition, as explained by Editor Jones, was to arouse his fellow editors to the enormity and iniquity of the federal free publicity demands and to arouse editorial sentiment for a system under which newspapers will be compensated for the space they give the government. It was, we doubt not, an impressive object-lesson of its kind.

On this newspaper, to which many tons of publicity matter come in the course of a year, a less spectacular but far more effective method of dealing with it has been adopted. Each of the editors is provided with a cylindrical receptacle, made of wire. As rapidly as the publicity matter comes in from the spacegivers of federal and state departments,

colleges, radio stations, breweries, associations for saving America, and all the rest, it is dumped into these receptacles, which are emptied from time to time. The same receptacles can also be used for anonymous communications from readers afraid to sign their names and for invitations to rodeos.—Wichita Daily Times.

DR. STRICKLIN EXPLAINS

A recent query by the old Apostle elicited an explanation from Dr. A. J. Stricklin, Sr. one of "us medical men," which we reprint for the benefit of our readers. This is the article as it appeared in the Terry County Herald of Brownfield, Texas:

"The Clarendon Leader wants to know how they served salads before lettuce leaves were invented. Well, sir, they just threw a hunk of fat hog jowl (jaw) into an iron kettle of turnip or mustard salad (we called it sallet in Tennessee) and let the concoction boil until tender, and with some cornpone and buttermilk you had a salad fit for kings. Now this dressing stuff that comes on in fat bottles looks like the stuff that comes out of a festered sore to us, termed pus by us medical men, and tastes like a raw mixture of green olives and hog lard, seasoned with salt and vinegar. Pass the sallet greens."

The groom is a son of Mr. and Mrs. J. R. Leathers of near Lelia. Attending from here were Messrs. Lumpkin, Crabtree and Tib Bugbee who thoroughly enjoyed the dinner after the ceremony.

Mrs. J. W. Martin and children from Claude are visiting here this week.

Tuesday was the hottest day of the year, it being 102 in the shade. Showers are falling almost daily, and crops, what few tried, are most excellent.

MEMORY LANE

(10 years ago in Donley county.)

A large number of old settlers gathered at the L. Spalding farm south of Hedley Saturday where the "Donley County Pioneer Association" was organized with W. I. Rains as president, M. W. Mosley vice president, and Mrs. O. R. Culwell as secretary-treasurer by choice of the large crowd. Speakers were E. H. Watt, J. T. Bain, W. H. Patrick, H. W. Taylor, J. C. Estlack. Membership is restricted to those who have resided in the county twenty years or longer.

Miss Neta Culwell, first child born in Hedley, will teach in the Mercedes school in the Rio Grande valley next term.

Mrs. W. L. Morton, the former Grace Taylor, and husband of Bartlesville, Oklahoma are guests in the H. W. Taylor home, her uncle.

Mrs. Nora McMurtry, county school superintendent, announces a teachers institute here next Monday and Tuesday to be conducted by H. L. Goerner, Supt. of the Dallas county schools.

Miss Hazel Hurn, daughter of Mr. and Mrs. J. H. Hurn, returned home this week after a tour of Germany, France, Belgium and England.

J. F. and J. B. Jones, father and son, have sold their drug interests to Geo. E. Norwood and Ted Williams who have moved the stock to the building formerly occupied by the A. N. Woods grocery.

While chaperoning a group of youngsters Thursday evening, Mrs. J. T. Warren had the misfortune to slip on a stone, fall and break her hip. She was taken to Adair hospital immediately.

At the Rotary luncheon Friday, president J. C. Estlack explained the movement suggested by civic clubs of the town to cooperate in relieving need and unemployment this winter. D. R. Davis, Dr. B. L. Jenkins and G. H. McCleskey were appointed to confer with like committees of other clubs. W. Cecil Alexander has been employed to make assessments

SUGGESTION. Stylists who got women stripped down to about three garments, have an excellent chance to bring out a dope to paint legs to take the place of hose.

We didn't have a very large crowd to attend Sunday school Sunday. Everybody came next Sunday so we can make it a big crowd.

The plan calls for a floor of 24c for cotton, \$1.64 for wheat, \$1.00 for corn, 12c for hogs, 14c for beef, and other basic crops in proportion.

INQUISITIVE. Some day let's take progress apart and find out what's inside of it that makes it so doggone much trouble and expensive.

Mr. and Mrs. Bob Hay and daughter of Clarendon and Mrs. E. F. Burgess of Eric, Okla. visited Mr. and Mrs. Haskell Hay and Earle, Tuesday night.

It calls for an actual parity price of 32c for cotton, \$2.19 for wheat, \$1.32 for corn, 16c for hogs, 17 1/2c for beef, and other basic crops in proportion.

LOGIC. What a queer old world! Nature seldom combines wisdom and handsomeness. The smartest men are generally ugly old devils like Honest Bill Miller of the Spearman Reporter.

Right now Congress is putting the final touches on income taxes that will come due in 1942. Many who have never paid one will do so for the first time. Those who have will dig down deeper than ever before. To figure your tax requires a complete record of all income and expense. The easiest way to do this is through a checking account that tells how your money goes and to whom. The best place to keep one is in a strong bank -our bank.

### Shamrock and McLean Favored To Win Top Places In District 3-A

The eight high school football teams composing District 3-A opened their training campaigns Monday, September 1st, with Shamrock and McLean top heavy favorites and Lefors, Wellington and Memphis with enough returning veterans to give the favorites a tough season. Clarendon, Lakeview and Wheeler with only a few returning lettermen will have the most inexperienced squads in the district.

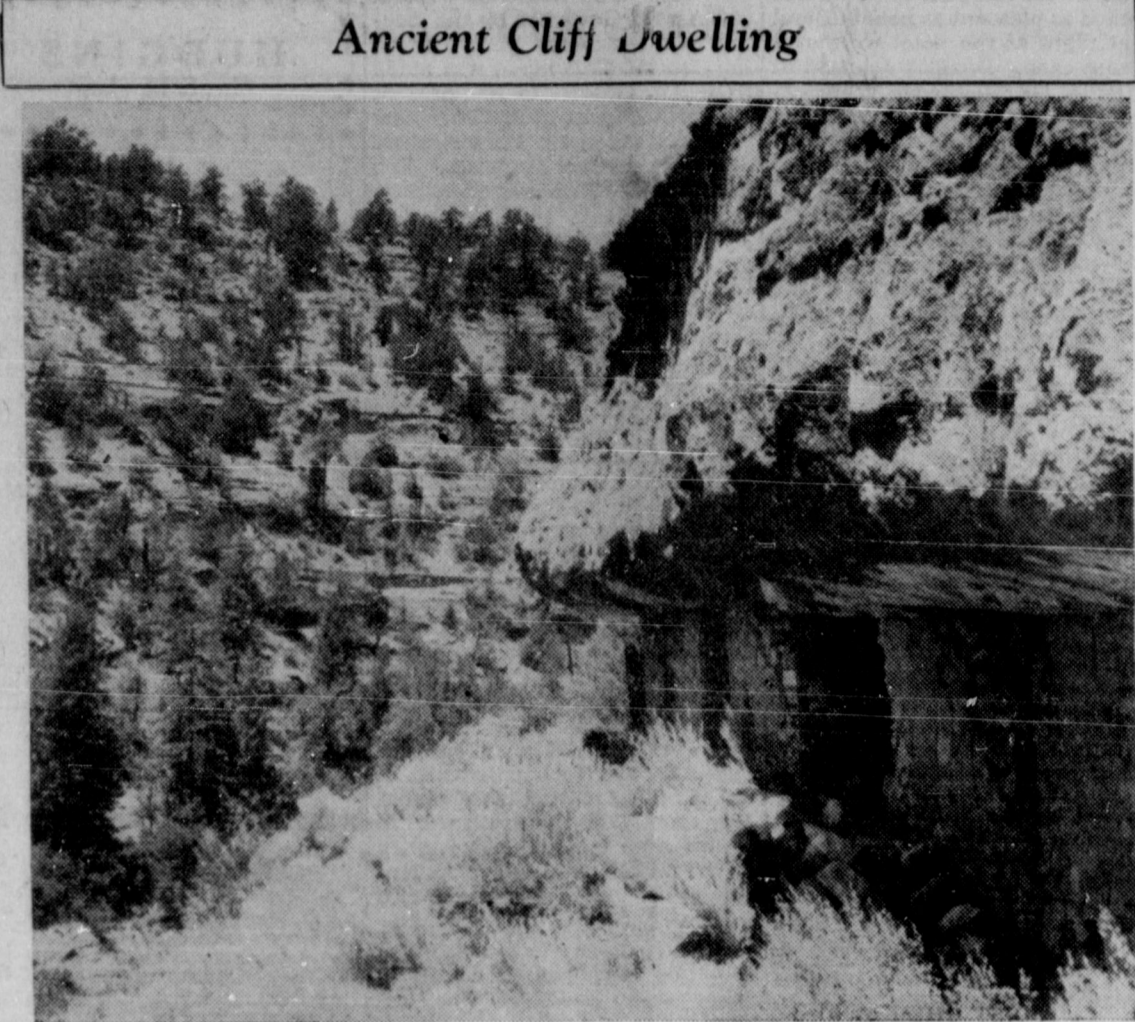

The Shamrock Irishmen will be seeking their third consecutive district championship under the tutelage of Forrest Kline, former TCU star. The Irish opened training with fifteen returning lettermen and ten squadmen in addition to a promising group of sophomores.

The McLean Tigers opened their training under Sewell Cox, former ACC athlete, who replaces

"Cricket" Christian. Cox coached at Claude last year where his class B team won bi-district honors. The Tigers will be led by all-district back John Kelly Lee and a host of other experienced veterans.

Francis Smith and John Rankin, the districts oldest coaches from the point of service in the district, are expecting the heaviest team in their history with twelve returning lettermen and 15 returning squadmen in addition to their freshman and sophomore replacements.

Wellington will open their season under Scott McCall, former Masonic Home and TCU star who has been assistant coach at Shamrock for the past year. Wellington lost only a few of their lettermen and are expected to make a heavy bid for top honors in the district.

Ancient Cliff Dwellings

More than 1000 years ago a pueblo people tucked in excess of 300 little one-story dwellings in shallow caves on the steeply slashed slopes of Walnut Canyon. These people lived for centuries beneath the limestone ledges, cultivating tiny plots on the canyon floor. Abandoned about 800 years ago this area is now known as Walnut Canyon National Monument and protected by the federal government. Located 7 miles east of Flagstaff the monument is of easy access to transcontinental tourists from U. S. Highway 66. Guide service is furnished and visitors are personally conducted among the ruins by the custodian.

Coaches C. E. Headstream and Bill Fletcher, former Hardin Simmons stars, are in their second season with the Memphis Cyclones. They have seven lettermen returning with four linemen and three backs, but a large squad up from the 1940 "B" promises to make them a top contender.

Gone from the Clarendon squad are their four all-district men of the 1940 squad, and all of the lettermen except three first year "C" men. Coaches Warden and Penick are faced with a tough schedule and the Broncho stock was given a big boost this week when 32 boys reported for the initial practice.

McKnight, former Texas Tech star, will coach the Lakeview Eagles. Lakeview, for the first

time, will play a number of its conference games at home on a new sodded field under newly constructed lights. McKnight's charges are an unknown quantity with only six returning lettermen from the 1940 squad. Graduation cut heavy into the strong 1940 Wheeler squad and only four lettermen are expected to return. Coach Bill Horchem resigned at the end of the school term, and has not been replaced at this time. The squad opened the season under the direction of the school officials who expected to have a coach on the job by the end of the week.

The following is a copy of the official schedule as released this week by the district executive committee composed of Superintendents J. Beard, Wellington, H. T. Burton, Clarendon, and Rex Reeves, Lefors.

Sept. 12—McLean vs White Deer at McLean.

Sept. 19—Memphis vs Lakeview at Lakeview (x); Lefors vs Perryton at Lefors; White Deer vs Shamrock at Shamrock; McLean vs Phillips at McLean; Wellington vs Panhandle at Wellington.

Sept. 26—Lefors vs Clarendon at Clarendon (x); Wellington vs Wheeler at Wheeler (x); Shamrock vs Childress at Childress; McLean vs Panhandle at Panhandle; Memphis vs Paducah at Paducah.

One reason you see so much advertising is this:

It helps people with something to sell to find customers.

It helps those folks called "consumers" to find out about things they want to buy.

All of which is another way of saying, advertising saves a lot of time for everyone.

That's why advertising pays—on both sides of the counter.

## VACATIONING IN OUR OWN SPANISH SOUTHWEST

(By Mr. and Mrs. C. E. Griggs)  
On the morning of July 22 last, at 4:15 a. m. we climbed in our "wreck of old 97" and started to visit our daughter Esther at Hot Springs, N. M. The rattle of the old car, and the noise it made was terrible, but we thought we could take it, and we did.

The transformation in what originally was the Port of Entry patrol hasn't ended yet. Visitors will recall the furore that was raised by autoists when New Mexico created its port of entry and the uniformed men began stopping cars entering and leaving the state, searching luggage and imposing regulations almost as strict as if you were leaving or entering a foreign country.

The furore resulted in orders not to stop or molest passenger cars and for the patrol only to stop trucks to see if they were paying fees required.

It took the state some months to recover from the adverse publicity and complaints of tourists. Now it is announced by the director of the division, which was renamed the "courtesy and informa-

tion" patrol, that all employees must be courteous to tourists. And it is further said that a suggestion that hostesses be employed at the courtesy stations to pass out information to tourists, has not been entirely thrown out.

Director Stull thinks there may be something to the idea of employing young girls, dressed in short fringed buckskin skirts, cowboy boots and 10 gallon hats, at each "courtesy" station. Girls might prove better salesmen than the men and get more tourist to visit New Mexico. But he certainly is right in insisting upon courtesy, and in pressing forward plans to make the "courtesy" stations more attractive than they have been in the past.

We bumped along until we reached San Jon, N. M., and a few hundred yards beyond the old car stopped and refused to go either way, so we had to get another car to drag us back to the garage for repairs. Well, when the mechanic took out the rear gears he found the rollers had given away—no parts nearer than Amarillo, 140 miles east.

So we sat there for 26 hours and looked as pleasant as possible, and that night at the hotel we met a young chap, Douglas Johnson of Atlanta, Ga., sixteen years old and on his way to Los Angeles, Calif. on his vacation, and was riding a bike—the kind you have to walk while you ride. Douglas proved to be a good sport, as cheerful as could be, so we asked him to ride with us, and he did.

Well, at 11 next morning the garage man, Mr. Gorden, called and advised that the car? was ready for us. I went at once and asked about the charges and then I had a headache, for he replied, "\$31.35, please."

Twenty six hours in San Jon was all the time we needed to see everything in the town of about 300 people. Then on to Santa Fe, which to me was very interesting. There we visited one of the oldest towns in the Spanish southwest, the hall of Governors which is a beautiful place where one can see very old relics of the early days of that country. There is a lot that can be said about New Mexico and then not tell one half; but when the Indians first entered the Southwest, or from whence they came is still a secret that no one as yet have been able to solve.

It seems as the Indians began building their Pueblos as early as 900, and some of them contain as many as 500 rooms, may be seen. Later examples of pueblo architecture are still standing and in daily use by the Indians at Taos and other Pueblos.

This amazing race of people lived out their lives on the plains and valleys of the land which later became New Mexico. They evolved a drama, a religion and a system so advanced that they were called savages only because they had not developed a written language. In 1536 a white man first saw the country of the Pueblos when Cabeza de Vaca and his companions followed untold hardships, struggling across the southern mesas to complete their 10,000 mile transcontinental walk from the Atlantic to the Pacific coast.

Then in 1540, Coronado entered the Southwest in search of gold. This expedition is regarded by historians as one of the most remarkable in all history. He went as far north as Nebraska, but found no gold.

This fertile land could not long go unsettled. In 1598 Juan de Onate brought a band of colonists to northern New Mexico where they settled at San Gabriel.

In 1609 Don Pedro de Feralta was named Governor by the viceroy who instructed him to move the Capitol. This move was made from San Gabriel to its present site, probably in 1610. The new city was called La Villa Real de Santa Fe de San Francisco. The name was later shortened to Santa Fe.

The affairs of government were conducted in the palace of Governors, a building erected between 1610 and 1614, which is still standing and well preserved and now houses the museum of New Mexico.

For a few years there was peace. The padres, who always followed the Spanish soldiers, were so energetic that by 1633 they had built 90 churches. Many of these missions still stand, and are in daily use. Ruins of others may be seen.

The revolution of 1822, which gave Old Mexico her freedom from Spain, opened the gates of commerce with the United States, and merchandise flowed west over the Santa Fe trail.

In 1846 Gen. Kearny entered Santa Fe and took possession of the country for the United States. The coming of the railroad in 1879 opened up this vast country to the world and development was swift. In 1912 New Mexico became a state.

He attractions are so many and so varied that she is rightfully called "The Land of Enchantment."

Leaving Santa Fe, we picked up highway 85 and on to Albuquerque for the night. Next morning we took up No. 85 and followed it to Hot Springs—there we surprised our daughter.

(There ought to be a postscript, nota bene or something added to this interesting imitation of the early explorers. The writers and authors of this story and their daughter sat in my car all night near Hot Springs waiting for the water to run down so that we could cross the arroyo. Sitting over in the pickup to keep it from floating off in the deluge was Dr. Galloway, Joe Young and the Editor himself. We happened to meet up out there, and as explorers, Mr. and Mrs. Griggs have the world beaten to a frazzle. Some day they may take off to the north pole or something.—Editor.)

Claude Morgan of Amarillo spent the week end here with his parents, Mr. and Mrs. Jim Morgan.

RADIOCLAST EXAMINATIONS ACIDOSIS

(Reduced Alkaline Reserve) It is in an acid medium that nearly all disease Bacteria thrive. If it were possible to keep the body in an alkaline condition, the body would throw off the invasion of such bacteria. It is to create an alkaline reserve that the dietitian is striving when he gives and abundance of alkaline foods and restricts the acid forming foods.

The body that is highly acid is not only more subject to disease, but pains and other aches are much more frequent, so the acid content of the body should be looked after carefully.

Many times the acid will be localized in certain areas. In these areas pathology is usually present. Many times these areas are important diagnostically as in Diabetes we find an abundance of acid in the pancreas and on the 4th ventricle of the brain.

If the above condition exists it can be located and measured on the Radioclast.

### Bob Hope Says a Mirthful In "Caught in the Draft"

Bob Hope, the man who always says a mirthful, is a buck private in Paramount's all-out comedy blitz on Uncle Sam's draftees, "Caught in the Draft," which comes to the Pastime Theatre next Wednesday, Thursday and Friday. Dorothy Lamour, co-starring with the popular screen and radio gagsters in their fourth picture together, emerges as a new figure in the fashion world. For the screen's best "undressed" woman wears 22 changes of smart costumes and makes her first bid for another title, "The Screen's Best Dressed Woman."

The sparkling Hope-Lamour team is supported by two new comedy recruits, Lynne Overman and Eddie Bracken, who assist Bob in carrying out his one-man assault against orthodox army discipline and military tactics.

Keystone comedy-style tank chases, potato peeling and a wacky campaign to win Dorothy the colonel's daughter, are only part of the rookie's gag routine that gives promise of something refreshing and hilarious to look

forward to when Hope comes to town.

Bob Hope has registered the only kick against the film.

"So far as I'm concerned, 'Caught in the Draft' is the greatest picture I've ever worked in—except for the ending," sighed Hope. "I wind up in the picture as a corporal! I wish they'd change it to a sergeant. Look at the corporals: First, we had Napoleon; then Mussolini; now—Hitler! I don't want people to get the idea that Hope is ambitious. I'm just a plain guy. I'm not campaigning to take over the Chamber of Commerce—even though they do keep on bragging about the weather!"

#### KIN FROM ABILENE

Mrs. Joe Montgomery, and Mrs. Joe Davis and three daughters, Miss Joretta, Mrs. Larkin Drake and Mrs. Vivian Roby of Abilene visited here the past week with Miss Della Wood, Mrs. Lola Barnes and other relatives.

Judge W. T. Link attended to court matters in Memphis Mon.

### "Chickie - Here Comes the Colonel"

Bob Hope and Dorothy Lamour have good reason for the worried look in their eyes in this scene from "Caught in the Draft." Paramount's comedy invasion of army life which occupies the Pastime Theatre's screen next Wednesday, Thursday and Friday. They're hiding from the colonel, Dotty's father, who believes that bread and water is too good for the rookie who's in love with his daughter.

#### VISIT HUGH BROWN

A familiar scene on the streets this week is Uncle Hugh Brown and his team and buggy, for Uncle Hugh is entertaining his grandchildren. They are Martha Bell, Joe and Bill Reppeto of Dallas. Their mother, Mrs. Marian Reppeto, is spending the week with her father, Mr. Brown. Their home is in Dallas.

Donley Co. Leader, \$1.50 a Year.

#### DID YOU KNOW

That the age of a rattlesnake cannot always be determined by the number of rattles on its tail. The age can be determined from the rattles only when the snake still possesses the first rattle, or true button, according to game department experts. The true button often is knocked off when the snake strikes its tail against some hard object.

### GARDEN GLANCES

"America beautiful lies in the hands of the gardeners." A visit to the C. C. Gilbert yard recalls the verse: "In Grandmother's garden grew old-fashioned flowers. There were pinks and sweet Williams and hollyhocks tall. Four o'clocks drowsily counting the hours, And blue bells and daffies up close to the wall."

Clematis is flowering on these dew-drenched mornings. The ones at Fred Cook's, Tom Connally's and Mrs. Mulkey's are a delightful sight.

Zinnias in many gay colors make a bright spot at the Dr. Evans, and pink crepe myrtles are unusually lovely in Cap Morris yard.

Never have I seen such riot of blossoms on the silver lace vines as they display this year. The ones at the A. L. Chase and Tom Goldston's are a veritable bower of beauty.

The yards of O. C. Watson's, Lee Holland's and Leck Goldston's are carefully worked and very attractive.

There is a gay assortment of flowers in the Rundell's and Dr. Jenkins' yards.

And have you seen the lovely asters in the Boston's back yard?

### SIDE GLANCES ON TEXAS HISTORY

By Charles O. Becker University of Texas Library

The Story of a Failure: La Salle's Expedition It is often said that a poor beginning foreshadows a successful end, and Texans have a very definite reason to hope that it is so. For, whatever the future may hold in store for it, the history of Texas had its beginning in a complete and tragic failure.

What is known of that failure comes largely from the pen of one Henri Joutel, a French gentleman-soldier, who participated in it and miraculously survived. His story—and the first English edition, published in 1714, is one of the University of Texas Library's great treasures—concerns the third American voyage of the well-known Rene Robert Cavalier Sieur de La Salle.

Fresh from successful explorations in Canada, youn La Salle on the 24th of July, 1684, set sail once again for the great new western empire from Rochelle, France, with a fleet of four ships and an expeditionary party of some 280 persons. This time he took the southern route, for he proposed to establish a French colony at the mouth of the Mississippi River, which two years before he had reached from the north.

Plagued From the First He sailed with the highest hopes, but he was in for a multitude of troubles—and they plagued him from the very first. One of his vessels, separated from the rest by a storm, was captured at sea by the Spanish. Great differences arose between himself and his chief of naval operations, a M. Beaujeau. And early in January, 1685, he landed on a coast he did not know and realized that through some sort of miscalculation he had gone far astray.

It is now believed that this first landing was made near present day Corpus Christi; certainly, it was far west of the Mississippi. But La Salle was quite completely lost and for a month led his party up and down the coast, settling at last by Matagorda Bay and losing a second ship on a bar in the process.

His apparently hopeless wandering and the loss of two of his ships so soon considerably weakened the morale of La Salle's followers, and when two of them were murdered by Indians on March 5 it was conclusively broken. Within a week Beaujeau left for France with the third ship—and also with much food and ammunition and almost a hundred of the settlers.

The Final Disaster For the next two years La Salle struggled hopefully to find his way out of the Texas wilderness, always exploring a little farther eastward than before, though never getting beyond the Brazos River. Things went very badly. His only remaining ship went aground in the bay and was lost, and his settlement got steadily smaller. By January, 1687 only thirty-four persons remained alive.

La Salle's only hope now was in some way to reach a French fort which was to have been established by his Canadian friends where the Arkansas meets the Mississippi; so, in desperation, he and half his men started out on January 12 in one final attempt to find it. They proceeded slowly, and dissatisfaction grew fast among the men. At last, when in April they reached the Trinity (or the Neches) River, La Salle's own nephew

was killed in an argument; and on April 20 La Salle himself was shot through the head from ambush by one of his men. According to Joutel, who was his closest friend, his body was stripped and left unburied on the banks of the river.

Two months later, on July 20, 1687, eight survivors led by Joutel found the fort on the Arkansas, thus ending an 800-mile trek across the interior. Ultimately they reached their homes in France. Of the seventeen who had been left on the Lavaca none returned; the Carankawa Indians saw to that.

### FOREIGN SERVICE NOW AVAILABLE

Under recent regulations young men entering the Army through their Selective Service Boards have no chance of seeing the world. It is only by an enlistment through the Regular Army Recruiting Service that the young man's normal appetite for travel and adventure in foreign lands can be satisfied. The U. S. Army Recruiting Station at Lubbock, Texas (with sub-stations at Amarillo, Plainview, Pampa and Dalhart), now has many vacancies for service in the Hawaiian Islands and the Philippine Islands and young men registered for the Selective Service but who have not been called are eligible for enlistment in these vacancies.

For service in the Hawaiian Islands there are the following vacancies: Infantry, Coast Artillery Corps, Field Artillery, Corps of Engineers, Medical Corps and Ordnance Department.

For service in the Philippine Islands there are the following vacancies: Infantry, Coast Artillery Corps, Field Artillery, Quartermaster Corps, Medical Corps, Ordnance Department and Chemical Warfare Service.

These vacancies are something new, heretofore, it has been the policy of the War Department to send no one to Foreign Service with less than one year's service.

Now a young man can enlist for one of these vacancies and be sent to Foreign Service without delay. There are only a few of these choice vacancies left so young men desiring to travel and see the world should apply for enlistment at the nearest recruiting station without delay.

### TEXAS BOYS IN CCC LEAD THE NATION

In June there were 16,437 Texas boys in Civilian Conservation Corps Camps, 8,592 in Texas and the remainder in Arizona, New Mexico, Colorado and Wyoming. In that month these boys returned to their families over \$230,000.00 and the Government estimated they earned real wages in the amount of \$986,197.

Pennsylvania ranks next to Texas, having 13,006 boys in camps; Arkansas third with 10,403 and Oklahoma fourth with 9,941.

With recent changes made in Rules and Regulations, boys are sent to camps every month, and in many instances, when camps are near, every week. Training in National Defense Work has been increased and all enrollees have greater opportunities to prepare themselves for employment in private industry than ever before. CCC men are given first consideration by employers for they are already trained in good work habits, are healthy and make willing employees.

Interested young men of good character, between the ages of 17 and 23½ years, should apply at their County Welfare Office and make application for the Corps.

**Pastor's Statement**

Clarendon, Texas August 31, 1941

To the members of the First Baptist Church.

My dear Friends:-

I greatly appreciate the privilege of being pastor of your church these years. They have been happy years for me. I have tried to do the will of the Lord. How well I have succeeded He alone knows. I feel that I am ready to meet my record. I hope it has been satisfactory. The years have perhaps been the hardest years in the history of the church, but I am happy to leave her affairs in as good shape as at the beginning of my pastorate here. I have enjoyed having fellowship with you, but the parting of the ways come in the happiest of relationships in life.

It is the feeling of some now, and has been for some time, that my work as your pastor should terminate. I respect such feeling on the part of any and all, from the least to the greatest. It may be right. If so, then certainly I ought not impose myself longer on you as pastor. I have nothing in view as pastor. I have nothing in view in the ministry for a meal ticket. It is true that has been the method of my sustenance for a good many years, but somehow, to me it seems higher and holier than that I love the ministry. I love this church. I want to do the thing that is best for you and me and everybody concerned. I therefore, offer my resignation to take effect October 1, 1941.

I am asking for these extra thirty days in order to complete this Associational year, attend the Association, and help to perfect your organization. I also want to find another place of service and not have to resort to some other method of livelihood. Then too, I want to get my business in shape, and right any wrong that I may have done, and gain back any friends that I may have lost. I apologize most sincerely if I have done or said anything to hurt or hinder in upright Christian living. I did not intend it that way. My stay with you has been too delightful to be spoiled now. I want to be a Christian and act like a Christian.

For the sake of the church and the glory of God, I am expressing the hope that someone who feels that it would be alright for me to remain as pastor move the acceptance of my resignation. God bless you and lead you to His man as your undershepherd.

Respectfully submitted,  
J. Perry King.

**BOARD REPORTS ON CEMETERY WORK**

Have you visited our Cemetery lately? If not you are urged to do so this week end and as many as can take flowers out Sunday. Mr. Dever with a crew of men have worked hard during the past two weeks to clear weeds and grass off the entire Cemetery, also cleaned up every lot and mounded up many graves. This makes the fifth time this year the grounds have been cleared and has cost about \$600 including a new power mower just recently purchased by the Trustees.

Have you made a contribution toward meeting this expense? If not, you are urged to do so at once as about \$200 is needed badly. We think we have about the best kept cemetery in this part of the country and with your help the good work can continue.

W. W. Taylor, A. L. Chase, Odos Caraway.  
Trustees in charge.

Mr. and Mrs. Bill Lane and sons Wilson and Tommy Gene were Amarillo visitors, Monday.

Mr. and Mrs. Don Matheson and son moved to Borger this week. Don will work for the Phillips company.

**Aged Lelia Man Dies Suddenly**

Funeral services for Henry Bly Simmons, 73, retired Lelia Lake farmer, were held Saturday from the First Baptist Church in Lelia Lake. Mr. Simmons died of a heart attack early Thursday night near the Lelia Lake school. Mr. Simmons was known as Uncle Henry and had lived in Donley county for many years.

Rev. W. M. Hitt of the Baptist church in Lelia Lake was in charge of the services and was assisted by Rev. C. Thomas of Borger. Burial was in the Citizens Cemetery at Clarendon under the direction of the Womack Funeral Home.

Pallbearers were E. L. Lewis, Alvin Gerner, Oliver Espy, Jim Warren, Barney Brown, and Perry Cruise.

Survivors other than the widow are one son, Joe Simmons of Oklahoma City, and five daughters: Mrs. Dovie Lane of Morgan, Texas; Mrs. Ethel Simmons and Mrs. Lena Johnson, both of Borger; Mrs. Harriett Kilgore of Clarendon and Miss Laura Simmons of Lelia Lake.

**DR. MILLERS HERE**

Dr. and Mrs. Sloan Miller and children, Patsy and Barbara spent the past week here with Clarence Bairfield at McKnight, Mr. and Mrs. C. E. Bairfield and Mr. and Mrs. G. W. Estlack and Jacqueline of Clarendon. They returned to their home in Bridgeport Tuesday. Dr. Miller, a former student of old Clarendon college, has a lucrative practice in Bridgeport as a general medical practitioner.
