## Forbis announced candidacy for District Judge 100th Judicial District

John T. Forbis of Childress, has authorized the Press to announce his candidacy for the office of District Judge of the 100th Judicial District, comprised of Carson, Childress, Collingsworth, Donley and Hall Counties, subject to the action of the primary election of the Democratic Party. In making his announcement, Mr. Forbis made the following statement:

"Throughout my 34 years of law practice, I have held the ambition and desire to one day serve this District as its judge. This office is one of awesome responsibility, and I can only hope that my training, my experience, and such talents as I have, suit me for service in this capacity."

"This office is also one of great importance, and its performance has such a heavy impact upon the residents of the District, that the selection of a judge deserves the most careful and studied consideration of every citizen. I am sufficiently well known in each of the counties in the District that every citizen who does not know me can easily find a person that does. I urge you all to seek out all possible information upon my legal ability, my character, my sense of fairness, and my sense of decency. It is my hope that your inquiries will lead you to support me."

JOHN T. FORBIS, Candidate for District Judge.

Election to this office would require the termination of all my connections with the law firm of which I am now a member, and the end of my partnership with its other members."

Mr. Forbis has practiced law in the law firm of Williams, Broughton, Forbis and McCoy, now Williams, Forbis and McCoy, since January, 1950, and has served the District for eight years as District Attorney, from 1957 through 1965. He has also served the public as City Attorney of the City of Childress and as County Attorney of Childress County.

His public education was given by the Wellington schools, and his undergraduate and legal education came from Southern Methodist University in Dallas.

Mr. Forbis and his wife, Jeanne, have one child, and are anticipating with great joy the birth of their first grandchild.

## Bronchettes Basketball

by DALYN CROSLIN

A 1983 came to an end the Clarendon Bronchettes finished the year with some big victories.

The Lady Brones resumed after the Christmas holidays in a battle with Gruver on December 29. The Varsity girls left a wide margin between the scores as the scoreboard showed a final 63-32 for Clarendon. Statistics for the Bronchettes were as follows: Sr. Linda Weatherton - 17 points, 1 steal, 8 rebounds, 3 assists, 1 blocked shot; Sr. Gina Spier - 12 points, 3 steals, 7 rebounds; Jr. Gayla Clifford - 12 points, 1 steal, 3 rebounds; Sr. Kristen Walker - 10 points, 2 steals, 1 rebound; Sr. Connie Garman - 8 points, 5 steals, 6 rebounds, 4 assists, 1 blocked shot; Sr. Dondra Holland - 4 points, 4 steals, 6 rebounds, 7 assists; Soph. Shay Newland - 2 rebounds.

The JV girls played Gruver a close game, losing by only 9 points to have a final score of 33-42. Gruver scorers were Janet Risley, 15; Kami

May, 4; Gwen Bohanon, 4; Terri Phillips, 4; Whitney Cosper, 4; Kristi Page, 2.

The following night the Lady Brones traveled to Hedley to challenge the Owlettes. The Bronchettes trampled over Hedley, leaving a final score of 60-22. Linda W., 18 points, Kristen W., 10; Connie G., 10; Gina S., 10; Dondra H., 4; and Gayla C., 4 were the contributors to the scoreboard but the stat books also showed other forms of aid: Connie Garman - 10 rebounds, 3 steals, 3 assists; Linda Weatherton - 9 rebounds, 7 steals, 2 assists, 1 blocked shot; Gina Spier - 6 rebounds, 1 steal, 1 assist; Dondra Holland - 4 rebounds, 3 steals, 6 assists; Kristen Walker - 3 rebounds, 6 steals, 3 assists; Gayla Clifford - 2 rebounds, 2 steals.

## Drivers License will have new codes signifying class of licenses

Beginning January 1, 1984 those persons who renew their drivers license, qualify for their first license, or apply for a duplicate permit will receive licenses bearing new codes signifying class of license.

Colonel Jim Adams, director of the Texas Department of Public Safety, said the department is starting the conversion to a new classified driver licensing system in accordance with a law passed this year by the Texas Legislature.

"Licenses issued prior to 1984 will be valid until the expiration dates which appear on them," Adams said. "The new licenses will carry classifications designating the type and weight of vehicles which the holder may operate."

The new license classifications are "A", "B", "C" and "M".

The class "C" license permits operation of single, two-axle vehicles with a gross weight of 24,000 pounds or less excluding motorcycles and mopeds. This designation also allows the towing of a vehicle not exceeding 10,000 pounds gross vehicle weight (GVW) or a farm trailer not exceeding 20,000 pounds GVW. In addition, the Class "C" designation permits the operation of a bus with a maximum seating capacity of 23 passengers not including the driver. Standard operator licenses issued under the old law will be

converted automatically to Class "C" permits upon renewal or issuance of a duplicate license.

The Class "B" license allows the holder to drive all Class "C" vehicles, plus single vehicles with a GVW exceeding 24,000 pounds and buses with a capacity of 24 or more passengers. Motorcycles and mopeds are excluded.

Class "A" permits allow operation of any vehicle or combination of vehicles including those listed for classes "B" and "C". Mopeds and motorcycles are excluded. Commercial and full chauffeur licenses issued under the old statute will be

converted automatically to Class "A" permits upon renewal or issuance of a duplicate license.

The Class "M" designation allows the holder to operate motorcycles, motor driven cycles and mopeds.

The road test must be taken with a vehicle which

## Savings Bonds sales in Texas up 29 percent

Sales of U.S. Savings Bonds during the period January through September 1983 in Texas amounted to \$202,122,865, an increase of 28.5% over the same period a year ago. John W. Dixon, Chairman of the Board and CEO of E-Systems, Inc. in Dallas and Volunteer State Chairman for Texas, announced today. These sales represent 90.0% of the state's 1983 assigned dollar goal of \$224,700,000.

Sales of Series EE Bonds were \$1,650 during September 1983, for a total of \$20,641 for the first nine months of 1983 in Donley County, Bill Lowe, Volunteer County Chairman, said. These sales represent 50% of the County's 1983 assigned dollar goal.

Nationally, September 1983 sales of Series EE Bonds amounted to \$315 million, up 22% over September 1982, making a nine-month total of \$3.06 billion, an increase of 32%. Savings Bonds held by the public amounted to \$70.6 billion as of September 30, an increase of \$272 million for the month.

According to County Chairman Bill Lowe, the U.S. Treasury Department has announced a market-based

interest rate of 9.38 percent for the first semiannual interest period of Series EE Bonds issued between November 1, 1983 and April 30, 1984. This is the third semiannual rate to take effect since the market-based, variable rates were introduced a year ago. The combined market based rates -- 11.09% from November 1982 to April 1983; 8.65% from May to October 1983 and this latest one of 9.38% for November 1, 1983 to April 30, 1984 -- make the average yield 9.70 percent for the three periods. Older Series EE and E Bonds and U.S. Savings Notes also receive the variable rate, however, all Bonds must be held at least five years from their date of purchase or November 1, 1982 (whichever is later) to receive these rates.

**Senior Citizens**

Despite the ice, snow and cold twenty-one came out to enjoy our Birthday/Anniversary supper Tuesday night, December 27, 1983. After eating a good variety of salads and sweet stuff we were entertained with music by Creed Smith, guitar and fiddle; Ray Anderson, fiddle and Dee Williams at the piano. It was a lot of good fellowship and fun.

Goodby's were extended to Katie Dvorak on Thursday, December 29th, her last working day at the Center. We have all enjoyed Katie and will miss her smiling personality. Katie implemented some very good programs while she was Director of the Center and we

### Strickland Reunion

Sharinne and Jack Weiler, daughter of W.C. and Eddie Strickland spent the night with them. They brought their Christmas presents to us and took all of ours to all the members of our family in South Dakota.

Our whole family had our Christmas Reunion with our son, Mr. and Mrs. DeJuan Strickland and family of Omida, South Dakota. Sharinne's son, Russell McGregor, a recent graduate of University of California at Berkley, California flew in from Pittsburgh, Pa. for the occasion at Omida, South Dakota.

Two of our grandchildren, Michael DeJuan Strickland and Michelle McGregor who were both attending A&M University at College Station, Texas started to South Dakota for the reunion pulling Michael's sailboat behind his car. Michael had just returned from a 10-day Scuba Diving Excursion with his Scuba Diving Class in Mexico. Enroute to the reunion in South Dakota taking his sailboat home the kids got stranded in a snow bank in a storm of about -32° below zero, near Bassett, Nebraska. Fortunately for them, a couple enroute to

their parents residences to spend Christmas as Bassett, Nebraska and Wiener, South Dakota got them out and took them to their parents home for two days until the weather cleared up enough and car repaired to go on.

They arrived in South Dakota Christmas afternoon! Thanks to God and lovely people.

Because of sickness the Stricklands were unable to attend their family reunion even though both children and grandchildren graciously offered to come down and drive them up there.

Husband and I just returned from a 3 week stay at City of Faith, hospital and medical research center in Tulsa, Okla.

### Black-shirted organization

**Editors Note:** The following article was sent to The Clarendon Press by C.P. Jones, 9948 Lockerbie Ave, El Paso, TX 79925.

**CLARENDON, May 5-** Shades of Italy's Fascists! There is a real, honest-to-goodness black shirted organization that has thrived and grown in numbers and interest for four years at least right here in the Panhandle.

This black-shirted organization has its secret password, its arbitrary method of choosing its members (one cannot join unless asked by unanimous consent of the unit, its bunkhouse where it camps, its black-shirt uniform for occasions when it appears at public gatherings, its officers, including captain, great captain and first mate as well as the "great council," whence comes the dictatorial decrees that must be followed to the letter.

Old timers and the citizen of the street who content themselves with "cussing out" the government this office holder or that one were surprised when they learned only recently two groups of

JUNIOR HIGH BAND

young men and boys in two separate and distinct communities had organized themselves into black-shirt organizations, labelling themselves "The Pirates."

But all is not what it seems. Sid B. Thomas, powerfully built, double-shouldered 28-year-old rural school teacher, four years ago conceived the idea of a youths' organization while supervising the work and play of the overgrown country boys in the Brice community, 25 miles south of here. He says he saw the great need for some added impetus on the part of the young men to keep them in school.

"So I devised an organization which I call the Pirates," he says. "While our boys wear black shirts as part of their uniform and we have semi-military discipline, with others and a grand council to make laws for the order, our main work has been to promote everything for the good of the school and community."

Today, Sid Thomas has two very interesting groups of these boys and young men (he says several outsiders have now taken the secret work of the order), one at Brice and the other at Ash-tola, a village and post office 10 miles west of Clarendon, at the site of the oldest ranch in the Panhandle, the J.A. Ranch, founded by Charles Goodnight, first white settler in the Panhandle.

Asked for a statement regarding the qualifications of a candidate for membership in the order, Thomas said:

"Since only those who are invited may join, and since a unanimous vote of the crew is necessary for this invitation, a candidate must perform an all-round jolly good fellow, well liked by all the boys and able to give and take in the games of life. He must be honorable, upright and worthy of trust, able to keep secret the sacred work of the council, and willing to obey the orders of and the laws promulgated by it. To become a Pirate one must put selfish interests behind, in order to further the welfare of the organization. He must be sufficiently independent of home ties to attend meetings regularly.

These characteristics inspire non-members to try to attain them. Some who have striven for years to meet the requirements.

"After becoming a Pirate, a boy's first duty is to learn to obey orders, given by the great captain and the council. He must be an active member of the crew, never passive or indifferent. He must cultivate a love for his brother Pirates and the ability to work in harmony with them. He must learn that in unity there is strength and that co-operation makes possible the seemingly impossible.

The Pirate crew assembled forms the council. The members find an exacting taskmaster, as dire punishment is meted out to any black-shirt who fails to conform to the rules. At its head and presiding over it is the great captain, assisted by the captain and first mate.

"The Ash-tola unit of the Pirates is housed in the basement of the public school building. Here are found tiers of bunks, somewhat like an army cot house, uniforms, mess kits, etc. The boys also have what they term as a "work shop" nearby, where they do a dozen different jobs at the same time. A barber chair is kept handy for customers

(they cut hair of the school children), an anvil and bellows, where farmers' plow tools are sharpened, a clothes cleaning department, tools for repairing of cars and painting of cars, shower baths, etc. The members of the organization who are in

What is your ultimate aim?" was asked of Thomas. "Promotion of better living conditions in our rural sections by creation of a better community spirit through our organization," he replied. "We wear nothing but black suits on state occasions, also part of our program. We attend functions of kinds attired in some kind of uniform. But that is to promote a common cause."

Looking into the immediate future, Thomas plans to carry many of the young men of this unique organization to college another year. He already has contracted for a big boarding house at Canyon. To assure a livelihood for his group, the plan is to operate a laundry in the home of the black-shirts in the college town.

"I want to see these boys have an opportunity to attend college," Thomas explains. "We have picked 20 men to go with us. If any drop out, there will be others to take their places."

Some say the dollar sign (\$) looks the way it does because it is a variation of the 8 with which "pieces of eight" were stamped before the adoption of the Federal currency in 1785.

**Drivers license from 1** meets the specific requirements of the licensg class for which the person is applying. "All classes of licenses including renewals will be valid for four years," Adams said. "The fee for obtaining or renewing all license classes will be \$10. An examination fee of five dollars will be charged for those drivers seeking a higher license classification or a motorcycle endorsement for their current license."

Drivers who have no moving violation convictions over a four-year period and who also have no physical limitations are eligible to renew their licenses by mail. To qualify for mail-in renewal, a driver must first receive a DPS form in the mail. This application should be mailed back to the department within one week after it is received. When the license is renewed, the driver will be sent a validation card which must be carried with the old license. A vision test and new photograph will not be required for mail-in renewals. Drivers who receive

mail-in renewal forms may also visit a driver license office and renew their licenses according to the standard procedure which will require them to be photographed and have their vision tested. The fee for a provisional license is computed at \$2.50 per year until the driver's eighteenth birthday with a minimum fee of four dollars. The cost of a duplicate license is three dollars. **First Look At Olympic Torch**

INTRODUCES - "IRRIFAX"

A new computer for use in designing irrigation systems. Irrifax will design the most efficient and economical system possible by feeding in such information as: soil type, crop to be grown, acreage, fuel cost, rate of interest if having to borrow. Irrifax was built as a design tool and it paints the true picture.

GOOD NEWS... Lockwood Corporation has extended the P.I.K. Lease program until April, 1984. (Down payment not due until April, 1984 and the first annual payment will not be due for one year) Interest rates as low as 8.95%.

# Drip Irrigation for windbreaks

Wind breaks provide excellent protection to areas from the wind as well as providing wildlife habitat and screening from outside view. A major problem in establishing windbreaks is the need for water in addition to the normal precipitation.

Without the additional water, young trees have little chance for survival. Temporary wind and rodent protection should also be considered when planting small trees.

Soil Conservation Service standards and specifications

for farmstead windbreaks recommends that trees be watered each week from the last frost in the spring to the first frost in the fall. The water should be applied in one application at the following rates: 8 gallons per plant per week during the first year, 16 gallons per plant per week during the second year, and 32 gallons per plant per week during the third year. The trees should be able to survive on their own after the third year. Additional watering will, however, enhance the rate of growth.

Watering trees by hand can be involved, labor wise and monotonous, if done on a weekly basis. However, a drip irrigation system is well adapted for windbreaks due to their low labor requirements.

Also, drip systems efficiently apply irrigation water directly to the plant root zone and maintain soil moisture within the range for good plant growth without excessive water loss, erosion, reduction in water quality or salt accumulation.

A drip irrigation system is a planned irrigation system in which all necessary facilities are installed for efficiently applying water directly to the root zone of plants by means of applicators operated under low pressure. The applicators

can be placed above or below ground.

For more information on drip irrigation systems or to order trees, contact your local SCS field office located on South Kearney, past the post office or call 874-2339.

Giant bamboo stalks often reach a height of 120 feet.

By ALICE HOOD

Happy New Year 1984 to everyone!

Margaret and Joe Wells spent five days in Tulsa, OK visiting with Margaret's mother and helping care for her after she fell and broke a bone near her hip. The Wells left Tulsa Saturday, Dec. 24 to spend Christmas with their daughter in Lawton, OK. About two hours after returning home Tuesday, Dec. 27, they received news that Joe's brother, Cecil, of Tulsa had died of an apparent heart attack. He was 85 years of age. Our deepest and heartfelt sympathy is extended to the Wells family.

An aunt of Alice Hood's, Grace Toten Hahn, died Wednesday, Dec. 28 of a heart failure. The family resides in Portales, New Mexico. Other relatives of Clarendon are Ollie Tyler, a sister-in-law of Medical Center Nursing Home and Ruth Hutson, a niece.

Our congratulations to Lynn Cherry. He was recently placed on the Santa Fe Employees Hospital Board.

His family is very proud of him and the write up he received in the Santa Fe Dispatch.

Butch and Debbie Hamilton, Haley and B.J. were blessed with a wonderful Christmas celebration. They spent Christmas Eve in Amarillo with all the Cherry clan. There they enjoyed a delicious turkey dinner cooked by Mom, and opened presents from all. Everyone then departed to their homes to await the arrival of Santa Claus.

Lynn and Gennie Cherry prepared to leave for their trip to Las Vegas. Hope you have lots of fun and get that much needed rest.

Christmas Day Santa brought the much expected bicycles to Haley and B.J. and they would like to thank Santa and hope he has a safe trip back to the North Pole. Christmas afternoon was spent with the Hamilton clan. A delicious ham dinner with homemade rolls was served by Carol. Then presents were opened by all

and visiting enjoyed.

H.L. Tipton was appointed by a majority to serve the unexpired term as mayor of Howardwick. Mayor Tipton expressed his concern in badly needed street repairs and the boat dock. He is urging citizens of the community to attend the City Council meeting and voice your opinions.

The next City Council meeting will be held Saturday, Jan. 14 at 8:30 a.m. at City Hall. Come out and take a part, be a part of your community. Your suggestions, questions and ideas are welcome.

Donna Lee Napier of Amarillo visited with her mother, Alice Hood, Monday.

Children and grandchildren in the Troy Moore home for Christmas were: The Willis Duggans and son Willis Dean, the Roy Blevins and four children, all of Hereford, a granddaughter, Yvonne Alexander and the Sonny Blevins and Faye Lynn all of Amarillo.

The Lakers Homemakers will hold their first meeting of the New Year, Monday, Jan. 9 at 1:30 p.m.

## The Lions Tale

by GENE ALDERSON

The Clarendon Lions Club held its regular meeting at noon on Tuesday, Jan. 3, 1984. Twenty-six members and one guest, David Smith, were present. Following the regular opening ceremony, Boss Lion Henson reported

that project to deliver Christmas grocery boxes to local persons was well received. Twenty-two boxes were delivered. Our program today was on the Harrah Car Collection in Reno, Nevada and was brought by Lion Alderson.

Let your children know you understand how important their friends are to them. But also tell them that real friends won't insist that they do drugs.

It's through love and understanding—and knowing about drugs—that you can be the most effective. Although peer pressure can have a strong influence on your children, your concern and guidance will help them develop the personal values and self-confidence they need to say no to drugs.

Remember, it doesn't always happen to someone else's kids. After all, there are over 35 million drug users in America. And they're all someone's children.

CANNOT BE REFILLED

Occasionally the pharmacist will attach an auxiliary label to the prescription container which reads "CANNOT BE REFILLED". This brief message conveys several meanings, none of which may be immediately apparent.

Depending on the type of medicine prescribed, a "no refill" label may simply mean that the physician did not want the prescription refilled. This type of situation frequently applies to those drugs which are intended for continual use (eg, chronic conditions such as high blood pressure, diabetes, or heart problems). Refills may be limited on such medicines to encourage periodic check-ups which will help insure that the medicine is still producing the desired effect.

Antibiotics (infection fighters) are another example of medicines that often carry the "CANNOT BE REFILLED" label. Refills are not needed if one round or course of therapy is sufficient to wipe out the infection. A lingering infection, on the other hand, may require additional visits to the physician.

Although auxiliary labels are intended to be helpful, they are sometimes confusing and misleading. If the exact purpose of any auxiliary label is unclear, it's best to discuss that label with the pharmacist.

## FACTS & FIGURES

Many people in the West don't know that, compared to the East, the West has one fourth the percentage of coal fired electric power, three times cleaner coal and, therefore, far fewer emissions that affect the West's air. In fact, only three percent of all sulfur emissions nationwide are from coal power plants in the West.

The umbrella, historians say, was first used in China in the 11th century B.C.

## NEWS FOR YOUTH

JUST SAY NO

You might think that most teenagers smoke marijuana. Well, that's really not so. According to a recent door-to-door survey across the country, three out of four young people age 12-17, said they had not tried marijuana even once. And, in a survey of high school seniors, most said they think smoking marijuana is dangerous and don't approve of those who use it, even occasionally.

So, even though most young people don't think smoking marijuana is cool, sooner or later you're likely to know someone about

your own age who will pressure you to use drugs. What should you do? The best thing, advise experts at the National Institute on Drug Abuse, is to just say no.

When your friends pressure you, saying no can be hard because you want them to like you. If others don't like you because you won't go along with them about using drugs, then they aren't your real friends anyway. Real friends will admire you for standing up for yourself.

When you feel unsure, try talking to someone you trust: your parents, another adult or maybe a close friend who doesn't use drugs. If you know the facts and know the risks that go along with drug-taking, your decisions will be easier. Remember, it only takes one good reason to say no.

For free flyers that will help you say no, write to "Say No To Drugs," P.O. Box 1635, Rockville, MD 20850.

A flying fish can glide as far as 500 feet in the air on its greatly enlarged fins.

## NOTICE

A water rate increase for  
the City of Clarendon will go  
into effect beginning with the  
December usage that is  
billed in January. The old  
rate was \$9.00 for the first  
5000 gallons, \$8.00 for the  
next 5000 gallons, and \$7.00  
per thousand thereafter. At  
the new rate, the minimum  
of \$9.00 for the first 5000  
gallons will remain un-  
changed. The rate thereafter  
will be \$9.00 per thousand  
used. In addition, due to the  
increased costs involved in  
making water and sewer  
taps, the cost for these taps,  
effective immediately, will  
increase \$50.00 per tap.  
The charges are as follows:  
Sewer tap \$115.00  
3/4" water tap 160.00  
1" water tap 275.00  
1 1/2" water tap 375.00  
2" water tap 460.00

## Deadlines for Clarendon Press

Deadline for all news and  
advertising is Monday noon  
of each week. All pictures  
must be in the Clarendon  
Press office by Monday noon  
also because halftones must  
be put in these pictures  
before they will print. This  
process takes approximately  
four hours. If we do not put  
halftones in the pictures in  
the office, the printers in  
Childress charges us 75 cents  
per column. Any pictures  
received after the deadline  
must be charged for at this  
price. If pictures are in the  
office before the deadline  
there will be no charge.

All personal pictures used  
by the Clarendon Press must  
be picked up the following  
week. The Clarendon Press  
will not be responsible for  
pictures not picked up the  
following week.

PRESENTED BY THE  
STATE BAR OF TEXAS

**Q: A neighborhood**  
child was recently convicted  
for burglarizing my home,  
and he is free on probation.  
I lost several valuable items.  
Now I'm out the money.  
Do I have any recourse? Is  
there any way parents can  
be held responsible for the  
actions of their minor  
child?

**A: The Texas Family**  
Code provides the parents  
of a child can be held  
responsible for property  
damage caused by their  
child if:

The child acts intention-  
ally;

The child is between 12  
and 18 years old; and

The parents were careless  
in failing to control him.

In this situation you  
could probably sue the  
child and his parents,  
assuming they knew his  
dangerous tendencies.  
However, as a practical  
matter, you'd probably get  
more satisfaction by talking  
with the child's probation  
officer. Ask to have the  
judge order restitution as a  
condition of probation,  
and the child will have to  
work to pay you back.

**Q: I am planning to**  
divorce my husband. His  
two teenage daughters live  
with us, as well as our  
5-year old son. We are buy-  
ing a home. When I file for  
divorce, can I make him  
leave? Does he have to take  
his daughters with him? If  
I leave the house instead,  
would I be giving up my  
rights to our home?

**A: If you bought the**  
house during the marriage,  
it is community property  
and belongs to you jointly.  
If you and your husband  
do not agree what should  
be done with the house, the  
court will decide for you.

The court has a number  
of options, and the final  
decision will depend on the  
needs and circumstances of  
all persons involved, espe-  
cially the children. On  
final hearing, the court  
may order the house sold  
and the proceeds divided. It  
may award the house to one  
of you and award the other  
spouse other property. It  
may set the house aside for  
the use of either you or  
your husband until the  
children are grown and  
then order it sold and the  
proceeds divided.

In the meantime, while a  
divorce is pending, the  
court probably will give  
one or the other of you the  
use of the house. But,  
without a court order,  
neither of you has a right to  
make the other leave. Nor  
do you give up your rights  
if you leave voluntarily.

You should be aware,  
however, that if you leave  
and find another place to  
live, the court will probably  
not change that arrange-  
ment while the divorce is  
pending.

Send your questions to "You and the Law,"  
State Bar of Texas, P.O. Box 12487, Austin,  
78711. Answers may appear in columns in  
hypothetical terms; personal answers not  
possible.

## NEWS OF JOBS

Study Shows Leasing  
Creates New Jobs

Good news for American  
workers from a study which  
shows that equipment leasing  
creates new jobs in the  
American economy.

Computer equipment leasing  
created 177,000 jobs in one  
year.

The study by Andrew  
Brimmer, former member of  
the board of the Federal Re-  
serve, was commissioned by  
the General Electric Credit  
Corporation. Jobs are cre-  
ated, the study shows,  
when capital for new plants  
and equipment is created  
through leasing. Such out-  
lays stimulate the demand  
for capital goods and for a  
variety of related products  
and services. As output  
rises to meet these demands,  
labor requirements increase  
and new jobs are created.

Among the eight indus-  
tries studied, the number of  
new jobs ranged from just  
over 40,000 in construction  
machinery and equipment to  
more than 308,000 in  
transportation equipment.

The study also shows  
that lease financing has ex-  
panded to the point where  
it is the single most impor-  
tant source of funds for cap-  
ital equipment, a whopping  
\$57.6 billion or 16.6% of  
total fixed investment by  
American business.

People once believed that  
a glass made of Venice  
would break if anyone put  
poison in it.
