A Common Paper for Common People

Poultry Products Of Donley Will Show At Tri-Stat

Donley County Poultrymen will exhibit a large number of birds at the Tri-Stat Fair this year in an effort to win their seventh consecutive County Poultry Display Championship at that show. Local breeders and exhibitors exhibited approximately two hundred birds and according to information given by them to J. R. Gillham, local Vocational Agriculture Instructor, they will exhibit a larger number this year.

Frank Cannon will exhibit White Langshans and buttercups. Carl Morris, Columbian Wyandottes; Pete Morrow, Partridge Wyandottes; C. G. Kirkland, White Orpingtons; Lee Christie, Anconas; Sam Tankersley, Partridge Plymouth Rocks; Rev. J. Perry King, White Wyandottes, Black Giants and Rhode Island Reds; Wilson Grey, Speckled Sussex; George Jones, Rhode Island Whites; Wilson Rector, Black Leghorns, and the Clarendon Hatchery will probably exhibit Buff Minorcas, speckled sussex and white leghorns.

E. V. Quattlebaum, G. W. Beasley and a number of other leading poultry breeders are also expected to exhibit at the show.

The entry fee is 35c per single bird, and \$1.00 per pen of three birds, and the premiums are \$2, \$1, 50c, and \$4, \$2, \$1, and ribbon for four places on pens. The birds will be transported to Amarillo either the 27th or 28th of September and returned to Clarendon, October 4. During this period of time, the fair management will feed and care for the birds entered in the show. Transportation to and from the show from Clarendon will be furnished free of charge, but each exhibitor must pay his own entry fee and place numbered bands on the legs of his birds. Any one desiring to enter their birds in the show are asked to contact either Gillham or the Clarendon Hatchery.

Election Of Farm Loan Officers Next Monday

Final arrangements are being rounded out for the annual meeting of the Stockholders of the Clarendon National Farm Loan Association to be held at Clarendon next Monday 15th in Pastime Theatre.

President Caraway of the Association said reports of the attendance committee indicate a large crowd will be present to take part in the meeting. Invitations have been sent to all farmers and ranchmen who have obtained Land Bank Commissioner Loans through the Association as well as to all farmer members who have regular Federal Land Bank Loans through the credit co-operative.

The program will include a review of the year's activities of the Association, discussion of its affairs and talks by leaders on various subjects bearing on problems of the farmers of this region.

Members of the Association will elect two directors to serve on the board the next three years. The public is cordially invited to attend.

VISITS IN CLEBURNE
Mrs. Sarah Stocking accompanied her grandson, Frank "Soxie" Stocking Jr. to Celeburne Saturday where they will visit in the Foster home where Mrs. Frank Stocking is spending her vacation with her parents.

Chunns Reunion In State Park

Gathering in the home of Mr. and Mrs. L. B. Chunn in Plainview last week, the members of the Chunn family began a family reunion that ended Sunday in Palo Duro State Park.

Present were Mr. and Mrs. L. B. Chunn and children of Plainview; Mr. and Mrs. W. E. Chunn of Dallas; Rev. M. M. Chunn and family, Ft. Worth; S. M. Chunn and daughter of Amarillo; Mr. and Mrs. C. B. Chunn of White Deer; T. M. Chunn of Clarendon.

"There was plenty of fellowship, good eats and scenery in the Park," Dick Chunn here stated.

CANNING SEASON IN FULL BLAST

A lot of Donley county folks never waited for the government to talk food scarcity at the end of the season. They began early to plant and plan for canning and storing food many months ago.

Large numbers of canners and sealers are running over time this week. The best corn crop in years is being put into tin cans. Late vegetables are in their prime, and these are being canned up for future needs. Neither was the main fruit crop overlooked.

The Leader men saw two women canning corn Wednesday at the rate of 150 No. 2 cans in six hours. Both were mothers past middle age, and know the value of being prepared.

BOYS RANCH GETS MORE FOOD

Contributions of canned foods continue to be brought to the Palmer motor company for Boys Ranch of Tascosa.

Latest contributions are: Mr. and Mrs. Joe Goldston, 1 can chili sauce, 1 can peach preserves and 2 cans of piums. Mrs. E. W. Bromley contributes 6 cans of beans. Mr. and Mrs. J. E. Mongole and daughters contribute 4 jars tomatoes, 1 jar apples, 2 jars jelly, 1 of string beans, 1 of apricots, 1 of green beans.

County agent H. M. Breedlove at his office, and Doss Palmer at the Palmer motor company are receiving the contributions for Boys Ranch. Mr. Palmer has been delivering the goods to the Ranch.

SELECT SERVICE TAKES TWO

Donley county's quota on Call 23 for selective army service under date of August 11th, called for two men.

The two are Cecil Cowles Morris and Winfred Boyce Barbee. Carl Thomas Foust is the alternate should either of the two fail to meet the requirements when they reach Ft. Bliss, near El Paso.

DR. GOODLOE GIVES LECTURE SERIES

Quite a number availed themselves of hearing the inspiring addresses of Dr. R. W. Goodloe at the Methodist church, two subjects daily from Sunday to Wednesday night.

Dr. Goodloe is professor of church history at Southern Methodist University in Dallas.

BEVILLE EMPLOYED BY WAR BUREAU

R. H. Beville, long time resident and former district attorney here, is now employed in the Intelligence Bureau of the War Department with headquarters in Buffalo, N. Y.

Mr. and Mrs. Beville are making their home in Buffalo and like that city very much.

HOPPER CLOUD IS SEEN TUESDAY

A "zoological anomaly" was witnessed here about noon Tuesday when thousands of grasshoppers of the Kansas flying variety were seen high in the air flying across the country. Many of them lit on the lawns for a rest and fill, treating flowers and lawns as a filling station on their vacation trip.

PASTOR RETURNS

Rev. Cecil E. Harvey, pastor of the First Christian church, arrived home the first of the week after conducting a revival at Guthrie, Oklahoma. He reports over sixty additions to the church there.

BECKS WILL ATTEND NATIONAL DENTAL CONVENTION

Dr. and Mrs. H. R. Beck will attend the national convention of the American Dental Association which will convene in Houston October 27-31.

Some 8,000 dentists representing a membership of over 50,000 are expected to be in attendance. An exhibit of modern dentistry will be shown in the Hall of Exhibits in Sam Houston Coliseum. A panorama of the progress made by American dentistry in its 100 years of existence as a profession, will be shown in this exhibit.

Silo Building Demonstration

County Agent, H. M. Breedlove announced this morning that a trench silo demonstration would be held on the Forrest Sawyer farm two miles north of Clarendon on the Jericho road. Breedlove asked that all farmers and ranchmen wishing to see the silo in operation of being filled to try to come to the demonstration this coming Friday, at ten thirty, Sept. 12th. The silo will be filled all day. Breedlove stated, but at ten thirty there will be an explanation of the filling and feeding of silage. Farmers and ranchmen can visit the demonstration at any time during the day and see the silo being filled.

A trench silo is being dug on the John Bass farm. Breedlove stated and asked that all farmers who wish to see a silo being dug, to drop by Mr. Bass' farm and see this trench silo being dug. The silo on the Bass farm will be filled in the near future and farmers will be mailed cards and have a chance to see it filled.

"The trench silo is the best method that we have of putting up feed for future use," Breedlove said. "Feed could be preserved in this manner for an indefinite period. There is no loss from the weather or fire and the sand does not fill the feed as it does in the stack. We all know that feed in the stack left for over one year is practically useless except the head. The stalk and forage is so light that cattle will not eat it at all and the loss was avoidable if the feed had been put in the trench silo. The farmer would have taken as a feed from the silo as it was when the feed was put in the silo. We must preserve our feed this year when we are going to have a big feed crop, so that when the dry years come along then we will have something to fall back on."

Breedlove urges all persons to come to the Forrest Sawyer farm and see a trench silo actually being filled and try to be there by ten thirty this Friday so that you can hear the explanation of the digging and filling of the silo.

Daily Slaughter Never Stops

No one likes to think about enemy bombs falling on American cities.

But are bombs our only danger? Haven't we another danger—a peace-time danger—here at home that in terms of actual loss of life is more deadly than bombs? Decide for yourself, after you hear these figures from the Texas Safety Association.

Nazi air raids on England killed 41,230 persons in the year ended June thirtieth.

Accidents in the United States killed 97,500 persons—more than twice as many—in the same period!

Who are the victims of these accidents? They are skilled workers in defense plants, military personnel at army posts, thousands upon thousands of American people who may not consider themselves important, but who collectively make up the manpower—the most precious resource—of our nation.

In Texas, more than 2,000 persons will be killed in traffic accidents alone—if the present trend continues. Sixty men in uniform already have been killed in automobile accidents, 400 others seriously injured.

CIVIL SERVICE HELP WANTED

If you are of such an age that you are eligible, and willing to take a civil service examination to get a position, look at the post-office bulletin board. For instance, if you are interested in securing a job as Land Bank appraiser, see Form No. 560 at the postoffice. There are so many bulletins that space cannot be given all of them here. There are many openings for the younger men and women, and you may be the lucky one. You have all to win and nothing to lose by trying.

HAILES VISIT HERE

Mr. and Mrs. W. B. Haile came down from their ranch in Hutchinson county Tuesday, remaining over night with their daughter and husband, Mr. and Mrs. Clyde Martin. They were on their way to Mineral Wells for the benefit of Mrs. Haile's health.

Donley Youth Student Of Astronomy

A few years ago when a small boy would come into the Leader plant with his father, he appeared to be just another lad interested in intricate machinery. He was a keen observer, but asked few questions. In fact he was more of the timid type of country boy.

That boy is now a young man of twenty-one this month. He has graduated from the high school at Ft. Davis, the scenic little historic town down at the foot of the famous Davis mountains where he worked his way through school. On top of a nearby mountain was constructed the new astronomical McDonald observatory.

That youth is Hulen C. Harvey, a son of Mr. and Mrs. Noel Harvey of McKnight.

Hulen looked at the stars at night and had a wonderful ambition, but how was he to connect that ambition with the Observatory nearby. Finally, he made a chance himself and talked with one of the learned professors at McDonald. He was then on probation for a period while the professor investigated his record. In the meantime, he visited his folks at McKnight and returned to Ft. Davis to see about his chances to get started on his chosen profession.

A high school boy, ordinarily, has little chance to get started on the high road to studying the heavens by means of instruments costing well into the hundreds of thousands of dollars. Early this summer, Hulen was called to the Observatory and was informed that he was to begin his career on a salary of eighty dollars a month.

He is being trained in the handling of the massive machinery. He has his class period in which his studies are to continue two years. He will spend a part of the time at the Wilson observatory in California, he was informed.

He was told that his salary would advance in proportion to his usefulness. Most of his work is at night when the heavens are "blackened out" and views of the instrument are plainest. He is enthusiastic in doing just what he has had a craving to do several years.

No, you never can tell what is in a boy's mind, or what he will be worth to the masses of people until he gets a break. He made that break, gave himself a chance, and the learned professor was humane and intelligent enough to appreciate the ambitions of the youth who readily became his fast friend for many years to come.

GONE TO UTAH

Fred Cook, City gas company manager, has business in Salt Lake City this week. He went up there with parties from other points.

Ferrells Feted Here Sunday

A large number of friends, including the pastor of the Baptist church, Rev. J. Perry King, joined with the members of the Christian church Sunday in doing honor to the Ferrell family.

Rev. W. E. Ferrell, six years pastor here some years ago, preached at both the morning and evening service.

When asked about the all-day fellowship service at the church, Rev. Ferrell summed it up by saying "We had oceans of barbecued and fried chicken and other good things to eat, along with a wonderful fellowship gathering."

The Ferrells returned to Matthews, Virginia Wednesday. They spent about two weeks here "among the finest people I ever knew," as the minister summed it all up.

HERMESMEYER GOES TO BAYLOR

Bud Hermesmeyer, son of Mr. and Mrs. Frank Hermesmeyer of Jericho, made a fine record as a football hand on the local team, and will likely be mixed up in the football scrimmages that represent Baylor college of Waco.

He left Wednesday to matriculate. When asked if he had any special line of work for which to make preparation, he merely stated that "I may make a doctor out of myself if the preparation period does not look too long."

First Norther Hits Tuesday

The cool weather of this week is not unusual, neither does it mean an early frost, is the suggestion of the weather bureau in Amarillo. Records show that such weather has been experienced in former years, and in two instances earlier than this without being followed by an early frost.

While a bit late, the cotton crop never looked better, a prominent ginner informed the Leader Wednesday. He is of the opinion that the yield will be large and bring a much better price than for many years.

Donley's feed crop is rapidly nearing the maturity stage. Silos are being constructed and others used in former years made ready for the storing of the big feed crop. The trench silo system is used exclusively in Donley county.

BOY SCOUTS MEET EVERY MONDAY

The Boy Scout group meets every Monday night at 7:30 at the Junior High building. O. D. Lowry, member of the public school faculty, is Scoutmaster, with Dexter Todd and L. B. Penick as assistants.

GROCER MAKES CHANGE IN ARRANGEMENT

Howard Stewart and his force of workers are being paid many compliments on the new arrangement of the big stock of groceries and drygoods down at the Farmers Exchange store. Much space was saved by adding modern display counters, as well as making it more attractive to the patrons. The fall stock of drygoods is due to arrive most any day, Mr. Stewart announced.

GONE TO BIG BEND ON FISHING TRIP

Any time you see Walter Wilson and Fred Buntin collaborating, you can just bet they are planning a fishing trip, preferably to the Big Bend country on the Rio Grande, below where Terlingua creek empties into the Rio Grande when and if it ever rains. These men were accompanied by Bill Wilson of Lefors, brother of Walter, and left here Wednesday.

\$17,100 SCHOOL FUND INVESTED

At a session of the County Commissioners Monday, an order was passed upon the request of the County School Board to invest the county permanent school funds in Federal bonds of the G series. The bonds are said to draw three percent, and may be cashed or sold at any time, should the necessity arise.

ATTEND BAPTIST CONVENTION IN MEMPHIS

A large number from here attended the Baptist convention Tuesday and Wednesday. Among those to attend were Rev. and Mrs. J. Perry King, Mr. and Mrs. R. W. Moore, Mrs. Lola Barns, Mr. and Mrs. Zeb Davis, Mrs. A. T. Cole, Mrs. A. W. Simpson, Mrs. Grover Heath, Mrs. U. Z. Patterson, Mrs. Dexter Todd, Mrs. Elvis Burch, Mr. and Mrs. A. P. Todd, Miss Loraine Gunter.

Those taking a part in the program were Rev. J. Perry King, Mrs. Burch, Mrs. Cole and Miss Gunter.

MRS. WILKERSON IS SILVERTON MUSIC INSTRUCTOR

Employed as instructor in the musical department of the Silverton public school system, Mrs. R. Wilkerson left here Tuesday to make her home there for the coming school term.

As one of Clarendon's most talented instructors, the good people of Silverton are fortunate in securing the services of Mrs. Wilkerson.

PRESIDENT WILL SPEAK AT 8

Announcement is made that President Roosevelt will speak over the NBC chain at 8 p. m. tonight. There is much speculation as to just what will be included in his talk to the Nation.

The talk of 15 minutes has been changed to 25 minutes during the past twenty-four hours.

Singers Will Meet Sunday At Plaska

The Hall county singing convention will meet at Plaska, twelve miles southwest of Memphis. The session will begin on Saturday night, September 13th, followed by an all-day session Sunday, the 14th.

O. L. Barham, secretary of the Convention, advises that there will be heard quartets, duets, glee club singing besides the regular song practice one may hear at any gathering of vocal music lovers.

The invitation is extended to all those who enjoy good singing. Take your basket of food and enjoy the rare treat in store for you.

SMITH GIN MAKES IMPROVEMENTS

The Clarendon unit of the three gins owned by the Bert Smith gin corporation is receiving a lot of attention just now to prepare for the big cotton crop ahead this fall.

The latest type of Condenser, trumper and press has been installed. Two late types of burr extractors have been installed the past week. The new machinery involves an expenditure in excess of \$7,500.

A general overhauling is being done by experienced gin men. The other units of the Bert Smith company are at Goldston and Lelia Lake.

FOOTBALL WALL TO BE RESTORED

The east wall of the football field destroyed by the tornado June 9th, is to be restored, according to a telegram received by the Leader from Cong. Gene Worley. Funds in the amount of \$4227 has been approved and allotted for the WPA project. It is now up to the state administrator as to just when the work will begin.

HARMAN BECOMES BAND LEADER

H. N. Harman of Miami has been employed to succeed Ray Robbins as band leader and high school faculty member here. Mr. Robbins resigned recently to accept a place with one of the high schools in Pampa.

Mr. Harman has filled a similar position with great credit in the Miami schools for some four years, and comes to Clarendon highly recommended.

ON VACATION TRIP

Mr. and Mrs. P. C. Messer took a vacation trip visiting her relatives at Plainview, Bowie and Temple, Oklahoma the past week. They saw fine cotton to the east and picking in some sections, Mr. Messer stated. They returned home Sunday.

WHITE ELECTED PRESIDENT FUTURE FARMER GROUP

J. F. White, high school senior from Ashtola has been chosen by his fellow F.F.A. members to act as president of the organization this year. White has been an active member of the organization for the past two years, has carried on outstanding projects, and is a member of the high school football team. Redell Henson, another senior from Ashtola with an outstanding scholastic, judging team and project record will serve as vice-president. Other officers selected for the year include Bobbie Harold Smith, secretary; C. G. Kirkland, reporter; H. A. Harrison, Jr., treasurer; William Sullivan, watch dog; Jack Riley Parliamentarian, and Calvin Naylor, Historian.

Fifty boys are members of the vocational agriculture class and F.F.A. organization this year. This is one of the largest numbers to ever enroll in the course. The local chapter plans to exhibit poultry and swine at Amarillo, prepare an educational booth, and enter the dairy cattle and poultry judging contests at the Tri-Stat Fair, and to enter a number of hogs and poultry at the state fair this fall.

FORMER NURSE BACK

Mrs. Joe Wheat, Adair hospital superintendent for twelve years before her marriage to Mr. Wheat, was back here visiting friends over the week end. She was accompanied by her daughter, Jean Teat. They reside at Seymour.

Hunters Fined When Law Is Violated

"Be sure you are right, then go ahead and hunt," is the advice of the Game, Fish and Oyster commission of Texas. They are back of law enforcement with reference to protection of human life, and the proper observance of state game laws.

Three men were fined on their own plea of guilt here the past week when they were each charged with hunting without a game license. The fine was \$10 and costs in each instance, the minimum, totaling \$21 each.

The hunting license charge is one dollar for hunting in the county where you live. At all times, keep off game preserves, and secure the permission of the land owner or manager where there is no federal or state game preserve.

Another man was fined for shooting from the highway. Don't shoot from or across any highway or county road. The fine and costs may be as low as \$11, and may be many times that amount in the maximum.

Get the game laws in pamphlet form from your game warden, is the advice handed out by your game warden in this district, who is Mike Stricklin.

GONE TO COLORADO

Mr. and Mrs. W. M. Pickering left today to spend several days fishing in Colorado. They will spend several days with friends at San Louis in the big valley country before returning home.

CITY TAX RATE SAME AS 1940

There will be no raise in the City tax rate, Mayor Tom F. Connally has announced. The rate was raised ten cents on the hundred in 1940 to take care of the extra burden of paying for the overpass that is to be constructed over the Denver railway west of the depot, and for the rightofway within the City limits as Highway 18 intersects with Highway 287. The rate this year will be \$1.10 on the hundred valuation as set by the equalization board.

As a special inducement to secure tax collections, the City administration is taking advantage of the new law in allowing discounts on early tax payments. Those who pay taxes in October will be allowed 3% discount; November, 2%; December, 1%.

CARAWAY SPRUCES UP CAFE FRONT

Odos Caraway is adding much to the appearance of his place of business next door to the Farmers State bank by way of a modern front to his cafe building, using brick, glass and ornamental bakelite glass to make the appearance look like it should.

A portion of the space in the cafe is being made into an office room, "something I have wanted for a good many years," Mr. Caraway stated Tuesday.

MEMBER OF Panhandle Press Association

MEMORY LANE

(10 years ago in Donley county.)

E. C. Dewey from the Lott farm three miles west of town, brought in the first bale of cotton for the season Tuesday. He received forty dollars in cash and goods from the local merchants, and sold the bale to Fitzgerald gin for 6.90.

At the state convention of the Legion Auxiliary in El Paso, Mrs. James Trent was elected committee woman for this district. She also received first honors in submitting her year book based on "small duties of the state."

Odos Caraway has purchased the beautiful new brick residence near the College from John M. Bass, and will move his family into their new home.

Dr. B. L. Jenkins spoke on "patriotism" at the Rotary club Friday in which he swept his audience off their feet, and was loudly applauded for his excellent presentation of pungent truths.

Sneak thieves stole a lone row of shocks of Johnson grass from the lane east of town Friday night. The grass had been cut and shocked by Rev. C. B. Ingram, well known itinerant Methodist minister who makes his home here.

M. M. McCracken out near Hudgins has more pumpkins and big-

ger pumpkins than any ten men in the county, according to several who made a special trip to look at his patch.

D. M. Grimsley and W. C. Bridges each landed a "first bale" at Hedley Monday. Grimsley got 6 cents and Bridges 6.25.

Fred Buntin was presented with two cups by the golf club. One was for good behavior and dignity of the presidency, and the other was for skill. The presentation was made by G. L. Boykin, whom they dubbed the "boy orator of Salt Fork."

Mrs. L. C. Merchant of Amarillo and Mrs. Sid O'Keefe of Panhandle spent the week end here with their parents, Mr. and Mrs. T. W. Smith.

Mrs. Irene Mitchell has opened a beauty parlor in her home.

H. L. Goerner made an enthusiastic address to the Lions club Tuesday, basing his deductions on civic clubs in general.

Mrs. J. L. McMurtry will have charge of the program outlines, and Mrs. F. E. Chamberlain the membership drive in starting off the P-T. A. to a good, early start since schools have opened.

L. D. and Doyle Messer and Clarence DeBord were up from McKnight Tuesday.

Mr. and Mrs. G. W. Estlack and daughter Jacqueline visited relatives in Carlsbad and Tucuman over the week end.

CLARENDON CHRONICLE

W. P. BLAKE, Publisher

(36 years ago this week in Donley county.)

Mrs. A. M. Beville left Monday night for St. Louis to lay in her stock of fall millinery.

Roy Beverly left Sunday for Sherman where he will enter Austin College.

T. N. Frank and T. L. Naylor were buying supplies here Wednesday.

W. H. Cooke left Sunday with his son Will Jr. for Sherman for the purpose of placing him in college there.

Miss Blanche McConnell, who has been visiting Mrs. F. A. White, left for her home in San Saba county Saturday night.

A pair of fine boys were born to Mr. and Mrs. C. M. Kella Tuesday at Dalhart. Mrs. Kella was formerly Miss Minnie Hill of Clarendon.

Eld. C. C. Bearden has just closed a successful revival at the Christian church, and has been called to preach here. He will preach at Giles and Memphis, too.

Misses Lily and Myrtle Blake left Tuesday morning for Dalhart to take in the barbecue.

Mrs. Modena Mullins of Childress arrived Monday to visit her sisters, Mrs. W. E. Davis of Mulberry, and Mrs. M. T. Howard, as well as a number of friends.

J. H. Harris, who has been running a thrasher along the line of Carson and Armstrong counties, reports the wheat averaging 24 bushels to the acre, and oats 80. Will Massie had five acres of oats that threshed 408 bushels.

G. A. Latimer spent Sunday here with his family.

Last week C. T. McMurtry sold his Cuddy place for \$4,700. He bought this place since Christmas for \$3,600.

Cary Ray, wife and children from Jericho, visited Marian Ray the past few days. Cary is just up from a siege of fever.

W. A. SoRelle, late of Bosque county, who bought the Stevens ranch in Armstrong county, has become a member of the Priddy-Reeves realty company, and will move to Clarendon.

The four teachers examined Saturday, M. A. Buchanan, H. M. Pile, Miss Mora Denton and Miss May Lumpkin, obtained certifi-

cates of the second grade. Miss Lumpkin will teach at Glenwood, and Mr. Pile at Rowe. The others have not contracted schools yet. E. L. Saunders, depot agent at Rowe stood on the tracks as the passenger came in Friday night. He was pranking with some boys and the train struck him with painful injuries. He was taken to a hospital in Ft. Worth.

A message received by Mr. Clower Monday morning stated that Rev. Houk of Plainview was seriously ill. Will Clower and wife and Mrs. Tresise left at once to go there.

The Crawford tract of 640 acres near Giles was sold by order of the court yesterday and was bought in by E. W. Bromley, one of the heirs at \$3.50 per acre.

Dubbs & Son have added a stock of Graphophones. Call and hear this mysterious invention. (Advt.)

Hall county's first bale of cotton was produced by J. W. Bragg, and sold for 11 1/2 cents Saturday. W. D. Shelton bought a lot from J. S. Young at Giles and will erect a nice residence.

Misses Agnes and Lillie Devine of Rowe were here for the ball game Saturday.

Sheriff Reuben Hutton of Dallam county apparently has broken up a gang of horse thieves in that section by tracing horse shipments to Kansas City. He has arrested Tom Burk, Charley McCrae, Bud and Jesse Moulden who were released on \$750 bonds after an examining trial. Some of the horses had been resold at \$20 a head and shipped to Colorado, Indiana and other places out of Kansas City, the Sheriff stated.

DISTRICT TOWNSEND MEETING IS SET

Townsend Club of the 18th Congressional District will gather next Sunday for a basket luncheon on the west end of Ellwood Park in Amarillo. The session will begin at 11 o'clock and end in mid-afternoon.

Several speakers will address the club members and the Axtell Music Studio will furnish entertainment. The junior cowboy band will play.

The public is invited to the basket picnic.

Spindle Top STARTED IT!
Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas. That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state. In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves. Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries. From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan. The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state. Today all of Texas salutes Spindletop!
On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop. Inscribed in ageless Texas granite will be the story of oil. This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

BIG TOWN STUFF.

Living in a big city is bad. Living in the National capital is worse. That idea is based altogether on what a government

employee from Washington told me a few days ago. Can't give his name. His job would not last 15 seconds if I did. He says there is a lot of scandal going the rounds because of the three or more thousand British who have gathered in Washington to celebrate the easy money coming by way of the Lend-Lease bill. He says that one daily was bold enough to give an account of where \$30,000 was spent for "whoopie juice" and

eats at one swell affair given by some of that colony. He remarked that the small item of 100 portable air conditioners was a mere drop in the bucket as compared to what our taxpayers are being made to spend on keeping that bunch going, many of whom are nobility afraid to stay on the other side of the ocean. The above was printed in the Washington Times-Herald, and was reprinted in the Congressional record. Is it

a new deal or a raw one?
HOLY HORRORS.
Reading through an experiment station report today, this dumb animal ran on to a new bit of information which will be immediately passed on to the intelligent readers of this column who will, no doubt, readily understand it all. The professor says "the Acalyculate has no epicalyx!" Now who got his epicalyx?

MORE PROGRESS.

The leg cards that used to come along with a sack of smoking tobacco. Legs are pictured in so many magazines and on billboards now-a-days that they are as common as chiggers in the East Texas piney woods. The tobacco firm went broke. The sack failed to carry a punch competing with free pictures.

DIRTY HEATHENS.

There was a time when a man might beat his horse to death without any comment being made by any one. Now if he does no more than merely switch his auto tags, they jug him good and plenty.

HOMEY STUFF.

Yes sir, I'd just like to see the old boy with the handlebar mustache, who wore a watch as big as a spittoon and fastened it on with a log chain, "saucer" his coffee one more time. His name was Kay Ottic, and was referred to as the "one man wrecking crew" when he got stewed.

STREAMLINED.

Kids were weaned with quinine for centuries. Now the mother merely breaks the bottle and calls it quits.

WENT HAYWIRE.

Old Hastoon Yazzie, who has been doing a lot of secret work in his barn this hot weather, says he had a dream Sunday night. He dreamed that he had invented a new kind of breakfast food. When he woke up he had chawed off the corner of his shuck mattress.

IN THE ZOO.

Some men have a den of their very own. Others merely growl all over the house.

So long, fellow sufferers. See you next week at the same time and place.

TEACHERS RETIRE ON HALF TIME

Austin, Sept. 9.—In recognition of a long job well done, three veteran members of the University of Texas faculty this month will be allowed to retire to half-time duties as they reach the three-score and ten mark.

They are Dr. W. J. Battle, a member of the faculty since 1893, former dean and one-time president ad interim; Dr. J. L. Boysen, Germanic languages professor; and Goldwin Goldsmith, professor of architecture.

Mrs. John Rhodes and Miss Mattie Rhodes are visiting relatives and friends in Delta county.

Catarrhal Toxins

It is astounding, the great proportion of people who are suffering from this condition. We find full 85% of all people coming to practitioners are suffering to a more or less degree from Catarrh in some region of their body. It will attack any part with a mucous or serous membrane. Nose, Throat, Sinuses, Stomach, Intestinal Tract, Uterus, etc. Catarrh associated with Ulcers make them difficult to heal. Catarrhal deafness is the most frequent of ear troubles. It has been often considered as impossible to cure by many doctors, but persistent treatment with the Auto-Electronic has been unusually successful in treatment of catarrh.

The Micrococcus Catarrhalis is the cause of Catarrh and only by its destruction can it be removed from the body.

THE RECORD... Facts That Concern You

No. 30 of a Series

A BAD ONE DOES TURN UP ONCE IN A WHILE!

Good weather and a bumper crop! Even then one finds a poor stalk once in a while.

The retailing of beer is something like that. Most beer retailers operate respectable law-abiding establishments. Occasionally one finds an exception—a man who tries to beat the law or who permits anti-social conditions.

The beer industry wants this type of undesirable retailer stamped out. Your cooperation will help us in our clean-up efforts.

The beer industry brings important

benefits to the community. Here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

Texas, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from over 100 other industries.

You can help us protect these benefits in two ways. First—patronize only the reputable places where beer is sold. Second—report to the proper authorities any law violation you may observe.

QUATTLEBAUM ENTERTAIN

Rev. and Mrs. J. O. Quattlebaum Jr. entertained with open house at the Methodist parsonage Friday evening.

The parsonage which has recently been redecorated was arranged throughout with a profusion of beautiful garden cut flowers.

Mrs. Nathan Cox met the guests at the door and they were shown through the house by Mrs. J. R. Bulls, Mrs. C. A. Burton, Mrs. Cap Morris and Mrs. J. T. Patman.

Those furnishing music for the evening were Miss Ruth Palmer, Mrs. Lalar Wilkerson and Mrs. Rayburn Smith.

Patty Quattlebaum, Betty Jo Bartlett and Kitty Ruth Baley served the guests lovely refreshments.

Eighty-five members of the church and friends of the hosts called during the evening.

MARTIN-WAITES

A single ring ceremony was performed for Stacey Waites and Miss Opal Marie Martin Saturday night, September 6, 1941. The ceremony was held near Friendship by Rev. Melton Evans of Brice, who was assisted by Rev. Lafton of Estelline.

The bride, who is the daughter of Mr. and Mrs. J. H. Martin of Plaska, was dressed in navy blue and white with black accessories. She was a graduate from the Memphis high school class of 1941.

The groom, who is the son of Mr. and Mrs. Aran Waites of Lakeview, is a graduate of the Lakeview high school class of 1941.

Those attending the wedding were Lee Roy Martin of Plaska, Miss Thelma Lee Halcomb of Clarendon, Wesley Waites of Lakeview and Miss Nora Nell Lockhart of Friendship.

the Red River," he wrote, "are such as were too weak and too imbecile to excite the fear or jealousy of the Comanches."

The Comanches
But even the Comanches, he hastened on to say, weren't so bad. There was a Comanche population of about 11,000 in the state, he estimated; but if all the scattered Comanche groups came together he saw no possibility that they could muster more than 1,000 warriors. And it seemed to him that they had been so often and so disastrously repulsed from the Texas settlements that by 1840 they were content to "confine their depredations to the Mexican settlements west of the Rio Grande; where they find an enemy more cowardly than themselves, and who has been long accustomed to permit them to ravage the country with impunity."

To the others—the "weak and imbecile" tribes—Moore gave little attention. Strongest among them were the Lipans and Tonkawas, each capable of raising possibly 150 braves. But these two tribes, he pointed out, were friendly to the settlers, as were also the Coshatties, the Alabamas, and the Bedais, whose 220 braves busied themselves peaceably in hunting and fishing for the Texans.

Reds Are Paid Highest U. S. Salaries

The office of Prime Administration is a new federal bureau.

Leon Henderson was immediately placed at the head of it, having free reign to select his aids.

Now Chairman Dies objects. Dies has taken it up with the President. In fact he wrote the President a letter. He told the President that Henderson's aides had expressed communistic tendencies.

Dies urged that Henderson and the aides be dismissed immediately from the government service.

Recalling that he had accused Henderson himself on the House floor of recent connections "with several of the front organizations or transmission belts of the Communist Party," Dies concentrated his latest attack on these subordinates:

Robert A. Brady, head consultant of OPACS at \$7,500 a year salary.

His wife, Mildred Edie Brady, principal specialist in consumer education at \$5,600.

Tom Tippet, assistant chief of the rent section at \$5,600.

Dewey H. Palmer, \$20 a day consultant.

E. J. Lever, principal field representative of the labor division of the Office of Production Management, with a \$5,600 salary, also was accused of being "affiliated

with outstanding Communists." Exhibits Submitted

In connection with his charges, Dies submitted a sheaf of 43 exhibits, mostly excerpts from the writings of these officials between 1935 and 1939. On the basis of these exhibits, Dies contended that Henderson "has surrounded himself with highly-paid assistants who are, by their own public records, strangers to the American way."

He said that the Dies committee "has learned that Communists specialize in the penetration of government agencies wherever there is a lack of vigilance against their Trojan Horse tactics" and concluded:

Even before general publication of Dies' letter, Henderson called a press conference at his office, said he had learned of the letter and wished to issue a reply.

Dies must have a "leak" in his own bunch since Henderson knew of the letter writing. As a Texas congressman, Dies has all along been a thorn in the side of those who are allegedly boosting communists into higher positions with still higher pay.

SIDE GLANCES ON TEXAS HISTORY

By Charles O. Hucker
University of Texas Library

A Texas Editor Laughs At The Indian Menace

"An opinion has been for some time prevalent in the United States, that Texas contains many powerful and formidable tribes of Indians, and that the settlements of the country even at a distance from the frontiers, are constantly subjected to their depredations. This is a gross error."

That assurance was given the American people in 1840 by one of the Texas Republic's most outstanding editors, Francis Moore, Jr., of the Houston Telegraph and Texas Register. It appeared in a little book titled "Map and Description of Texas," published in Philadelphia and New York, which is one of the best-written old books in the extensive Texas Collection of the University of Texas Library—even if, perhaps, a little over enthusiastic.

Moore had no patience with talk about the Indian menace to the Republic; there was no such thing, he said. The Comanches, of course, were strong, and they dominated the Indian situation in Texas. "The only tribes that have been permitted to remain west of

the remaining tribes—the Keachies, Lenies, and Wacos—numbered no more than 120 warriors together and, Moore believed, could hardly be thought of as formidable foes. The Keachies, especially, he wrote, "are now in an exceedingly destitute condition."

No Menace at All

As a matter of fact, he went on, all of the Texas Indians of his day were "in a very wretched and destitute condition." "They are generally armed only with paltry bows and arrows," he wrote, and are despised and often insulted with impunity by the few roving Shawnees, Caddos, Cherokees and other Indians from the United States, who often frequent the prairies of Texas for game."

So that, according to Moore, was the truth about the Indian menace in Texas. "Even if the Comanches and all the tribes of Texas were united in hostilities against the citizens of the country," he summed up, "they could retard the extension of the frontier settlements only for a brief period; for the citizens have become so fully convinced of the weakness and cowardice of these Indians, that they now rather despise than fear them."

Mrs. Fred Whitehead of Slaton, Texas was a house guest of Rev. and Mrs. Quattlebaum last week. She was here for the open house reception Friday evening.

Mr. and Mrs. W. B. Ayers and Mrs. C. C. Ayers and Julia Hahn shopped in Amarillo Monday.

Miss Thelma Hardin went to Amarillo Sunday where she will enter a beauty college. She was a graduate of Clarendon College last season.

Dr. Robert D. Goodloe of S.M.U. was dinner guest of Rev. and Mrs. J. O. Quattlebaum Jr., Tuesday evening.

SHELTERBELT WORK WILL CONTINUE

Announcement is made that a crew will arrive during October to continue the planting of shelterbelt trees in Donley county. There is said to be some eight hundred miles of single row trees now growing in this county.

Fruit and forest trees planted three years ago, are fifteen feet high in some favored sections, mostly on red sandy soil.

Helping hand

One reason you see so much advertising is this:

It helps people with something to sell to find customers.

It helps those folks called "consumers" to find out about things they want to buy.

All of which is another way of saying, advertising saves a lot of time for everyone.

That's why advertising pays—on both sides of the counter.

OUR TRIP

On the morning of August 23rd at five o'clock, Mr. and Mrs. W. C. Holland climbed in our car and headed for Denver, Colorado to visit friends and see the wonders of the city and the surrounding mountain parks. We encountered some rain and a little hail, but not enough to hinder, for at six o'clock that evening we were in Denver. We saw the zoo and museum of natural history Sunday evening.

Monday morning our friends and ourselves started on the tour of Denver's mountain parks known as the "Circle Trip" which is an easy one day trip. It is a delightful trip which may be taken nearly all the year around. The road is a splendid mountain boulevard, wide and safe, protected at dangerous points by pillars and cables. It leaves Denver over the concrete road to Golden; climbs Lookout mountain over the famous Lariat trail and leads to Buffalo Bill's grave and to the Cody museum.

Following on, the road winds over and around the hills to pass through Genesee Park and the game preserve where elk and buffalo and mountain sheep are kept in their natural state, and on through Filius and Bergen Parks, and on to Evergreen a picturesque mountain village surrounded by slopes covered with beautiful spruce trees. Evergreen rests just below the high concrete dam

which stores the waters of Bear Creek in a vast lake among the hills.

A little above Evergreen is situated Troutdale Hotel a very fine picturesquely located resort hotel. From Evergreen the road travels beside Bear Creek down the canyon to Morrison and the Park of the Red Rocks with its giant up-tilted rocks of red sandstone and its Pueblo built of the same red rock.

From this point we returned to Denver on the regular valley concrete road.

Tuesday afternoon was spent in the city's business district viewing the large stores, the state capital a splendid structure of Colorado granite and a trip to the top of the Daniels and Fisher tower 375 feet high, from the observation balcony a view of 200 miles of Rock Mountains is visible Pikes peak to the south Longs peak to the north.

Wednesday afternoon a tour of the cemetery which is a beauty to behold. Thursday morning we bade our friends farewell and headed for Springer, New Mexico where our farm is located. We spent one day there where as fine crop as we ever saw is in the making.

We returned home Saturday much rested in mind and body, but always glad to get back to Home, Sweet Home.

Mrs. W. C. Holland.

BANKERS HAPPY ABOUT FUTURE: FORSEE \$ EQUALITY

A happy thought for the future was presented last week by Dr. Paul Cadman, American Bankers Association economist, speaking before the third annual bankers conference being held in Austin.

Cadman foresaw the eventual decline of the millionaire and the general uplift of slum-dwellers, with a tendency toward everybody having the same amount of income and social status.

"The day of the multi-millionaire is gone," he said, "and the day of the slum-dweller, the sharecropper, and the underprivileged hordes is going.—Austin State Observer.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

The spring like youth, fresh blossoms doth produce. But autumn makes them ripe and fit for use: So Age a mature mellowness doth set On the great promises of youthful heat.

The gardens are beginning to take on their fall colors, presenting bright yellow and orange blossoms to blend with the pinks and orchids. Digitalis with their long spikes of orchid flowers are found in

profusion in the gardens of J. W. Rhodes and Bryan Armstrong, giving a very nice splash of color. A lovely bright spot is presented by the rose colored verbenas in the yard of W. T. Hayter.

The homes of Carol and John Knorpp are attractively trimmed and add much beauty to the west part of the city.

Other grounds of especial interest are those of Prewitt's, A. G. Land's, Dr. Stricklin's and Mrs. Gray's.

The City Water and Light Co. always do have an attractive plot of ground which is very much appreciated by the people of the town.

This is an ideal time to cut weeds and burn them so their seeds will be destroyed and thus help to prevent so many weeds for next year's growth.

SOLDIER COLUMN

Dear Mr. Estlack: Just a line to tell you I received the Donley County Leader each week, and sure do enjoy reading it. You see we are in Louisiana now on maneuvers and I sure look forward to that paper each week.

We sure are having a time down here and I mean to tell you each man is enjoying it. It does get tiresome at times but when a man drives night and day at times without hardly anything to eat, that's when it's rough going.

We are bivouaced at Cypress, La. now as the railroad for the 1st Cavalry Division is here. You see our job is to supply and move the 1st Cavalry division into position in each problem during the maneuvers. The cavalry sure are losing a lot of horses down here.

You talk about rain, well we sure have had it the last week,

and to-day, our camp looks like a regular lake and you wade in water ankle deep all the time. It looks like it will drop loose and give us some more rain tonight. Well that's about all I know. Sincerely,

Corp. Led Jay P. S. Drop me a line soon.

(Write the corporal. Direct your letter to Corp. Led Jay, 16th Qm. Sq., A.P.O., Box 201, Ragley, La. He will appreciate hearing from any one in old Donley county. Ed)

SOLDIER

A soldier is a nobody So some people say; He is an outcast of the world And always in the way.

We admit there are some bad ones In the Army and Marines. But you'll find the big majority Most worthy ever seen.

Most people condemn a soldier When he takes a drink or two. Did a soldier ever condemn you When you stopped to take a few

Now please don't scorn a soldier But clap him by the hand, For the uniform he's wearing Means protection for your land.

The Army picks its soldiers From millions far and wide, So place him on your equal— Good buddies side by side.

When a soldier goes to battle You cheer him on his way, And say he was a hero When in his grave he lays.

But the soldier's hardest battle Is in the time of peace, When people mock and scorn him And treat him like a beast.

With these few words, I close folks I hope I don't offend; But when you meet a soldier, Please treat him like a friend. (Sent in by Pvt. Henry B. Davis of Ft. Knox, Ky.)

Rev. Lee Ratcliff of South Bend, Texas visited his niece, Miss Della Wood over the week end.

Mr. and Mrs. Ernest Wood of San Diego, Calif. are visiting relatives in and near Clarendon.

WENT TO TUCUMCARI Mr. and Mrs. Bryan Armstrong and daughter, Donna Rea, and Mrs. W. A. Land visited relatives in Tucumcari Sunday.

Mrs. F. M. Hensley returned home Tuesday night after spending two weeks with her step sons in Ft. Worth.

U. S. ARMY RECRUITING STATION

Lubbock, Texas Sept. 8, 1941.

Young men who are learning to fly the new planes of the United States Army Air Corps are no longer "Flying Cadets", they are now "Aviation Cadets". This is due to the new War Department order authorizing the training of enlisted men as pilots in the Air Corps. These enlisted men are called "Aviation Students" to distinguish them from the young men who will be commissioned officers upon their graduation from flying training.

The qualifications for aviation student are essentially the same as the qualifications for aviation cadet with the exception of the difference in the educational requirements. For the aviation student, the young man needs only a high school education, while the aviation cadet at least 60 hours of college work is required.

The aviation student upon graduation from flying training is not commissioned an officer but is rated a staff sergeant pilot with pay of \$108.00 a month while the aviation cadet upon completion of flying training is commissioned a 2nd Lieutenant, Air Corps Reserve.

ELEPHANT ADDED TO MUSEUM

Austin, Sept. 9.—A million-year old fossilized elephant—a shovel-tusked mastodon — has been reconstructed and placed on exhibit in the Texas Memorial Museum on the University of Texas campus.

Skeleton of the prehistoric monster—equipped with a ponderous lower tusk or "shovel" to scoop up his food from the ground —was excavated in a Bee County gravel pit by University-WPA field geologists.

Mr. and Mrs. Fenn Bourland of McLean were here Sunday.

Jim Bourland and daughter, Miss Kate Bourland, spent Sunday in Clarendon.

Memphis To Open Drunk Driving Law Effective

The formal opening of the new City Park in Memphis will be held Sept. 25. C. C. Hodges, chairman of the park board, announced this week.

The new amphitheater, which seats about 2,000 persons and which was completed with WPA work last week, will be used for the program, which will feature "plenty of entertainment," Hodges said.

Although the park is relatively new in actual development, a large amount of progress has been shown. The amphitheater was built through a WPA project during the last few months. As a part of the amphitheater, a large stage has been erected, and plans have been made to build dressing rooms on each side of the seats.

Also included in the project was the changing of the channel of the creek, which formerly ran around the park in a horseshoe shape. The channel was straightened to prevent washouts in the park.

Twenty picnic units are completed and open to the public. The units are open to any group, unless they are reserved in advance by a party.

In addition to the units, a number of gardens and flower beds have been developed. For entertainment for children, there are swings, merry-go-rounds, seesaws and a squirrel cage. In the center of the park a lily pond has been constructed.

Federal Cattle Theft Law Enacted After Long Battle

A long fight by cattlemen to secure enactment of federal legislation aimed directly at cattle thievery has ended with signing by President Roosevelt of the McCarran cattle theft bill, S1261, local stockmen learned this week.

The bill prohibits transportation of stolen cattle in interstate commerce. First step toward this legislation was taken at the El Paso convention of the American National Livestock association in January of 1937, at which time the American National Livestock association took steps to obtain some such legislation.

President Roosevelt three times vetoed legislation outlawing theft of livestock, on the grounds it was unjustifiable extension of federal power and embraced too many classes of livestock, which, according to the president, placed it in the category of petty larceny. Senator McCarran, Nevada, not only introduced the first and subsequent bills, but has led the fight in the Senate, ably assisted by Congressman Case, of South Dakota, who led the fight in the House, aided by Congressman Coffee, of Nebraska, and others.

THE OLD PRINTER'S TOWEL

When I think of the towel, The old-fashioned towel That used to hang up by the printing house door, I think that nobody, In these days of shoddy, Can hammer out iron to wear as it wore.

The tramp who abused it, The devil who used it, The comp. who got at it when these two were gone, The make-up, the foreman, The editor, poor man, Each rubbed some grime off while they put a heap on.

In, over, and under, 'Twas blacker than thunder; Harder than poverty, rougher than sin, From the roller suspended, It never was bended, But flapped on the wall like a banner of tin.

It grew thicker and rougher, And harder and tougher, And daily put on a more inkier hue; 'Til one windy morning, Without any warning, It fell to the floor and was broken in two.

—Robert J. Burdette.

AUSTIN, Aug. 31.—Convictions for drunken driving in Texas have increased 340 percent under the new law making this offense a misdemeanor, State Police Director Homer Garrison, Jr., reported today.

Two hundred and thirty driver's licenses were suspended or revoked upon conviction for driving while intoxicated between June 19, when the law became effective, and Aug. 22. This compares with 50 suspensions in the same period last year.

Law enforcement officers and safety officials contended that the old law, under which a first offense was a felony, was so strict that enforcement fell down thru reluctance of juries and courts to send a defendant to the penitentiary. The recent Legislature enacted the new law which makes the first offense a misdemeanor punishable by automatic suspension of the driver's license for six months and a fine or jail sentence or both. The second offense becomes a felony punishable by a one-year suspension of the drivers license and a penitentiary sentence.

Eight convictions under the new law were for second offenses and one was for a third offense.

"These figures do not give an absolutely clear analysis of results obtained under the new law," Colonel Garrison pointed out, "because many city officers now are filing first offense cases in state courts, whereas they were previously filed in municipal courts. Nevertheless, the increase in convictions has been so overwhelming large that the new law apparently has already proven its effectiveness."

Mr. and Mrs. W. L. Crabtree of Newlin were guests of the E. J. Wise home here Sunday.
