CLARENDON, DONLEY COUNTY, TEXAS, JANUARY 8, 1942

A Common Paper for Common People

FIRST CHRISTIAN CHURCH TO CELEBRATE 50th YEAR

Sunday, January 11 will mark fifty years service for the First Christian Church of Clarendon, Texas. The Church was organized in the fall of 1892 with 16 charter members. The pastor at that time was Rev. A. T. Nance. The Church has today approximately 125 members. Among the charter members yet living are F. R. McCracken of Alanreed, Texas; Mrs. Kate Johnson of Lelia Lake, Texas, and Mrs. Lee of Amarillo.

The present building was completed in 1919 during the ministry of Rev. Hucklebee.

The program will start with the Sunday School hour at 9:45 a. m., followed with preaching service and communion service at 11 a. m. Following the morning service a basket dinner will be served in the basement of the church, followed with a program and period of visitation.

The evening service will start with the young peoples meeting at 6:30 in the basement of the church followed with the evening sermon at 7:15 p. m.

The present pastor, M. E. Hutson, who recently started his work, states that the church has an outlined program for making the year of 1942 a year of Christian Advance.

The present officers of the church are:

M. E. Hutson, pastor; Frank White Jr., Bible School Supt.; True Barbee, S. S. Secretary; Roy Clampitt, Chairman of Church Board; Mrs. Roy Clampitt, Junior Supt. and Church Pianist; Mrs. W. T. Hayter, Church Treasurer; Billie Jack Shelly, Christian Endeavor President; Leona McCraw, Sunday School Pianist.

"We invite you to enjoy the day of worship and fellowship with us," pastor Hutson stated in his invitation to the public.

Speakers Will Talk Missions

The District Missionary institute of the Methodist church will meet at the church Monday, January 12th in an all-day session, it was announced Wednesday.

Dr. E. M. House of Amarillo will speak in the morning. Dr. Sam Hillman will speak in the afternoon at 2 o'clock.

The Womens Society of Christian Service will serve lunch at noon.

BROTHER DIES AT DENTON

Rev. T. W. Lovell, 70, and a Methodist minister for over forty years, passed away Tuesday last at his home in Denton. He visited his brothers and other kinsmen here a little over a year ago. He conducted a revival at Ashtola some years ago.

Four brothers and one sister are left of this family. The brothers, S. H. Lovell of Clarendon, and H. W. Lovell of Ashtola and a nephew, Ben Lovell of Ashtola attended the funeral services Wednesday of last week.

New Year's First Baby Is Born Saturday

Janice Ann Hutson, born January 3rd at the Clarendon Clinic hospital is said to be the first Donley county babe born in 1942. She is a daughter of Rev. and Mrs. M. E. Hutson, and was born Saturday, January 3, 1942.

Her closest competitor for this honor is John Wayne Riley, weight seven pounds and six ounces, born January 5th. He is a son of Mr. and Mrs. Glenn Riley.

\$5094 WILL BE SPENT ON WPA CLARENDON SCHOOL PROJECT

WPA funds to the amount of \$4,226 have been allotted for the improvement of Clarendon school grounds. The work will include excavating, grading, constructing a wall at the ball park, gates and guard fence, and demolishing old fence.

The school district will supply an additional fund of \$868, and forty-two men are to be employed on this job. Work will begin at an early date, it is said.

TEACHER IN HIGH SCHOOL RESIGNS

S. M. Payne, instructor in the High School, has resigned to accept a place in a bank at Grapevine, near Ft. Worth. Mr. Payne is said to be planning on moving his family there in the near future.

This is Mr. Payne's fifth year as instructor here where he is regarded as one of the most proficient teachers of the faculty.

Cotton Loans Stop May 1st

College Station, Jan. 5.—The deadline for placing cotton under the government loan is prior to May 1, 1942. The loans will mature on demand or on July 31, 1942.

This statement, correcting an erroneous announcement previously made, has been issued from the state AAA office here.

Because of the importance of the closing date, AAA officials urged that all farmers be advised of the correct date.

Conservation Paying Off

During the past thirty days, conservation checks to the amount of \$37,836.41 has been paid to Donley county citizens who have complied with the soil conservation measures.

Checks totaling \$144.98 were received at the office of the county agent this week.

In addition to the payments, the conservation measures alone means much to those who are taking care of the soil.

Nurses Jap Victims

MISS MARGARET SWINBURN

who as a nurse in a Pacific coast naval hospital, is nursing victims of the Jap raid on Pearl Harbor. More than 400 wounded were brought to this hospital about a week ago. Miss Swinburn wrote her mother, who resides at Ashtola.

Candidate

JUDGE W. T. LINK

who announced his candidacy for a place on the Court of Civil Appeals, Seventh district, last March. Judge Link is a native of Lamar county, is 56 years of age and has practiced law in Clarendon since 1911. He served Donley county as county attorney from 1912 to 1916, and county judge from 1918 to 1922. Judge Link is credited by attorneys, as well as laymen, with being best informed on technical law of any attorney in the Panhandle. He served his country in the navy from 1906 to 1910. His integrity, like his ability as a general practitioner, is unquestioned by all those of his acquaintance.

Banks Showing Best Report In Years

The conditions of the banks of Donley county are said to be the best since 1929. Statements of each of the four banks, the three in Clarendon, and the one in Hedley appearing in this issue of your Donley County Leader will verify this statement.

This call as of December 31st, compared with the last as of September 24th, shows gains in both loans and deposits, indicating that outside money to an appreciable extent has come into Donley county since September.

The total deposits of September 24th was \$1,137,552.14 as compared with that of \$1,637,059.88 as of December 31st.

Look over the bank statements printed in this issue. The average reader will find much of interest. That is why banks pay to get their statements before the public.

TIRE COMMITTEE TAKES OATH

Members of the tire rationing board for Donley county took oath of office Wednesday. Members of the Board are Claude E. Lindsey, J. R. Bulls of Clarendon, and Ed Kinslow of Hedley.

The next Board meeting will be held in the office of the county judge Friday, January 9th.

WENT TO ARKANSAW AND SAW A LOT

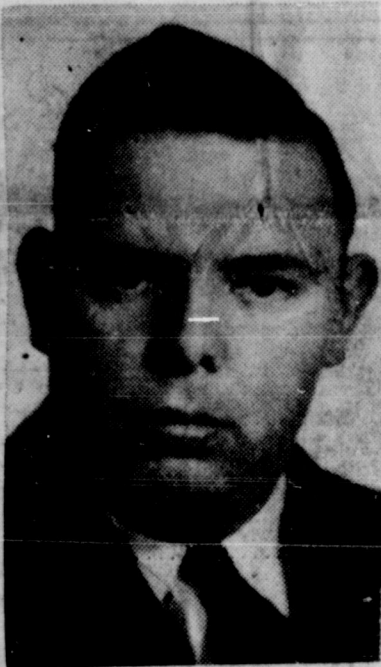

A fellow reared on the broad prairies of West Texas naturally marvels at trees, when and if he ever sees them. So it was with Carl Pittman when he got down in Arkansas last week end.

Carl reports plenty of firewood and squirrel timber. In describing it, Carl said "he could stand in his tracks all day and throw a ton of rocks at squirrels."

Others of the party were W. W. Noblet, Shack Dishman and Dick Shelton. They had business in Ft. Smith.

The above photograph shows the First Christian church as it appeared when completed in 1919 before the landscaping and shrubbery was added by effort and time. For the past several years, this church yard is said to be equal in beauty to that of any in the Panhandle. An interesting fact in connection with this church is that a group of the church ladies, raised by their own efforts, the greater part of the sum to pay for the building by serving meals in the well appointed basement of the church over a period of some twenty years.

New Minister

REV. M. E. HUTSON

popular new minister of the First Christian church. He came here from Haskell, Texas. He and Mrs. Hutson have found a royal welcome in Clarendon among the citizens in general as well as the membership of his church.

Stamp Program Means Food

Expenditures for food in Clarendon and Donley County were increased \$2,324.50 during the month of December through the Government's food stamp program, it was revealed today by L. J. Cappleman, Regional Director of the Surplus Marketing Administration for the thirteen Southwestern States.

This sum represented the amount of blue stamps issued by the Clarendon and Donley County Stamp Program office during the month. In addition, \$3,071 of orange stamps were purchased from the Government during the period, bringing the total amount available for food purchases due to the stamp program to \$5,395.50 for December.

Participating in the Clarendon and Donley County stamp program during the month were 234 cases, representing with their families, 947 persons. Those participating represented 84.1 percent of the 1,126 persons in the area eligible to receive stamps during December.

Since the stamp plan has been in operation, \$16,849.50 in blue stamps have been issued in Clarendon and Donley County, augmenting regular food expenditure for the area by that amount.

Amount of blue stamps issued per person during December averaged \$2.45.

GOES TO NAVY

Fred Bourland has enlisted in the naval service, and left for San Diego, California today.

FROM LOS ANGELES

Miss Iva Joyce Coleman of Los Angeles, Cal. is here to attend Clarendon schools. She is staying at the home of Mr. and Mrs. Victor Smith, her mother being a personal girlhood friend of Mrs. Smith.

LOOPERS COMPLIMENT SOLDIER SON

A Christmas dinner was celebrated at the home of Mr. and Mrs. J. M. Looper honoring their son, Pvt. James Looper who was home from Ft. Sam Houston for the holidays. Special guests were Sgt. Farris Dozier and Pvt. Cecil Sims, both of whom are stationed at Ft. Sam Houston.

Relatives present were Mr. and Mrs. Fred Weathers and son of Amarillo, and Mr. and Mrs. C. J. Usrey and children of Borger.

Winter Blasts At 4 Below

As a matter of fact, official weather observer Joe Goldston's instrument recorded 4 1/2 below zero early Monday morning. This is the coldest period of the winter to date.

At the same time, Pampa, just seventy miles to the north, had a recorded of nine below, the lowest record of the entire state.

No serious loss to stock was noted during the freezing weather of the past several days. Feed had been provided, and cattle are at a price that a single brute would entail quite a loss, much less a herd.

The most serious inconvenience beside a few plumbing troubles, was that of autos. The old family bus, in many instances, refused to budge. Many had forgotten to "winterize" with proper oils and greases.

TURN IN ALL RED CROSS KNITTING

Ladies working for the Red Cross are packing articles for shipment each day this week at the Club Room. All completed knitting should be turned in each day after 1:30 p. m., it was announced.

DR. WITT BUYS STOCK FARM

In a recent purchase, Dr. Witt of Groom became owner of a section of land near Goodnight. The purchase was made from Mrs. Monica Harvey and her son Robert Harvey.

Car Turns Flop On West First

Frank Harrison and two other parties coming down from Amarillo Wednesday morning had great plans of bird hunting. They drove a '39 Dodge. Upon reaching a dip almost north of the ice plant on West First, the car did a flop and landed partly on the curb.

Others in the party to suggest less dips on the highway street were G. O. Ketchum and Henry Beverly, both of Amarillo.

Neither of the three occupants were hurt, neither were they discouraged in the hunt. They secured other means of transportation and continued on the hunt.

The car's top in front was mashed in, glass broken on three sides and the running board rolled up besides other damages.

CHURCH SOCIETY WANTS PAPER

The Women's Society of Christian Service of Methodist church continue their collection of waste paper for defense. Newspapers, magazines, wrapping paper or any kind of plain paper is wanted.

The paper may be left in the driveway of the Bigger garage, or at the residence garage of Mrs. L. N. Cox. If you have paper, and cannot deliver it, call Mrs. Cox and she will see that it is taken care of promptly.

Local Draft Board Receives Caution Notice

Pursuant to a directive received from National Headquarters, General J. Watt Page, State Selective Service Director, today cautioned all Texas local boards against anticipating changes in the classification policy in dependency deferments and occupational deferments.

In his memorandum addressed to all local boards, General Page quoted a telegram just received from General Lewis B. Hershey, National Selective Service Director:

"Production of war materials is vital to a successful prosecution of the war. Many complaints are being received that local boards have taken it upon themselves to reclassify many necessary workers. Local boards should be cautioned at once against anticipating changes in classification policy in dependency deferments and occupational deferments and that the vital necessity of continuing the uninterrupted flow of the materials of war cannot be over-emphasized."

HAS SERIOUS HEAD OPERATION TUES.

Mrs. Haskell Kemp had another head operation in an Amarillo hospital Tuesday. Mrs. Lon Ruddle, her mother-in-law, is staying with her. She is said to be doing as well as could be expected. Mrs. Kemp was injured more than a year ago when she attempted to cut-off a windmill. She had a series of operations to relieve her head injury following the regrettable accident.

Ranchmen Will Guard Against Fire Sabotage In Donley

CLARENDON CHRONICLE

W. P. BLAKE, Publisher

(36 years ago in Donley county)

Judge J. N. Browning has announced for district judge of this district. He has served as district attorney, was Lt. Governor four years, has practiced in the Panhandle for some 25 years, and is a member of the Board of Regents of the State University.

Rev. G. S. Hardy has bought 160 acres more of the Condon section at \$20 an acre.

John McKillop has gone to Big Springs to work in a drug store.

Joe Kendall of near Rowe passed here yesterday with a fine bunch of horses which he bought near Claude.

J. S. Richardson has business in Dallas.

Will Gamble, who formerly taught in this county, has moved to Wheeler county.

Miss Emma Burtin visited in Dalhart Christmas.

E. Dubbs & Sons are making room for their new stock, and offering some real bargains this week.

Williams & Clark have bought the gin for \$1200. Geo. Doshier sold a block in the west part of town to W. A. SoRelle for \$700.

Rev. Hardy sold 90 acres of land near town to J. F. Jones for \$3500. M. C. Reed sold a section to J. H. Reeves for \$5760. J. C. Knorpp sold a section to O. R. Smith for \$6080. Real estate is greatly in demand with many other sales pending.

Eugene Worley In Training

Carrying out his promise to his people that, "when I vote for war, I shall be among the first to enlist my services," Cong. Gene Worley enlisted in the naval reserve.

He took the oath next day after his vote was cast following the declaration of war on Japan within a few hours after the Pearl Harbor debacle, and was commissioned a Lieutenant Commander.

A letter from Lt. Worley states that he began training Monday. Another thing, not generally known, is that he turns back his salary as congressman to the government while drawing the meager pay of a naval lieutenant.

Three clerks will maintain his private office and he will continue in touch with his duties as

EDITOR IS ILL

Thos. T. Waggoner, editor of the Claude News is ill. Mr. and Mrs. F. L. Behrens, parents of Mrs. Waggoner were there Tuesday, accompanied by Mr. and Mrs. Truett Behrens and children.

County agent H. M. Breedlove announced this morning that the ranchmen of Donley county would meet in his office on the ninth of January at 2 p. m. for a discussion of the 1942 range program. Breedlove stated that there were very few changes in the program from 1941, but that all phases of the program would be discussed in detail. Ranchers will also be asked to make their recommendation for range inspector for 1942.

A discussion will also be held on the formation of a committee to organize a fire patrol to fight grass fires on the range if such should happen to break out. Reports from all of the ranchers is that their grass is very thick and tall this winter and if fires should break out it might cause a great deal of damage. Fire signals will be arranged in Clarendon so that any ranchman in Donley county can call the central offices in the county that will be designated and the fire reported to the county office. At the given signal the local people will know that it is a grass fire on some rancher's range and all people can turn out to help fight the fire.

Breedlove said that all of the organization and plans for the fighting of grass fires would be given publicity so all persons would know exactly what to do if a grass fire occurs on the ranges of Donley county. Breedlove urges that all ranchmen attend this meeting and get first hand information on the 1942 range program.

Eugene Worley In Training

Carrying out his promise to his people that, "when I vote for war, I shall be among the first to enlist my services," Cong. Gene Worley enlisted in the naval reserve.

He took the oath next day after his vote was cast following the declaration of war on Japan within a few hours after the Pearl Harbor debacle, and was commissioned a Lieutenant Commander.

A letter from Lt. Worley states that he began training Monday. Another thing, not generally known, is that he turns back his salary as congressman to the government while drawing the meager pay of a naval lieutenant.

SKILLET

Kenneth Preston

There is plenty of zero weather at and around the Skillet community.

Mr. and Mrs. Slaton Christie and children are visiting the former's parents, Mr. and Mrs. E. M. Christie.

Willie Garth Christie visited George Preston Sunday evening. Mr. and Mrs. George Preston, Mr. and Mrs. George Baker and children, Mr. and Mrs. Marvin Preston visited Mr. and Mrs. L. P. Preston Wednesday.

Miss Susan A. Baker visited her brother and sister-in-law, Mr. and Mrs. George Baker early last week.

John X. Christie visited Mr. and Mrs. George Preston Sunday. Mary Louise Preston spent Wednesday night with Jaunelle Davis.

Miss Loreva Davis spent Thursday night with Miss Hermie Maye Hunt.

Mrs. George Preston visited the Skillet school house Wednesday with the teacher, Miss Margaret Weaver.

Synthetic Rubber Production Next

Senator W. Lee O'Daniel in Texas the past week met with several groups of men relative to securing a factory in the gas belt of the Panhandle for the production of imitation or synthetic rubber.

Samples of rubber of this type made from residue of oil and gas has been tried in auto tires already. The new product is said to not be affected by heat or oil, provided the heat is no greater than that under ordinary circumstances in the use of the product. The three great enemies of rubber are heat, light and oil.

The Supply Priorities and Allocations Board on December 23 approved tripling of America's present synthetic rubber production program, subject to detailed examination of the program by the Division of Priorities to make certain that sufficient materials can be provided for construction and operation of the new plants.

This action was taken after presentation to SPAB by Jesse Jones, Federal Loan Administrator, of a program being worked out by him with the industry and designed to give the Nation an annual production of 120,000 tons of synthetic rubber. Productive facilities for synthetic rubber now under construction will have a capacity of 40,000 tons per year. Mr. Jones explained that, if the program were approved immediately, construction of the increased facilities could begin promptly. It is expected that all of the new plants can be in production early in 1943.

SPAB directed the OPM Division of Priorities to proceed at once to work out with the RFC detailed tables of the materials required to execute the program.

When a Navy doctor is commissioned he is given intensive training in tropical diseases, and problems of submarine and aviation activities.

Junior and Senior medical students are eligible for appointment as Ensign in the Volunteer Probationary, Class H. of the Naval Reserve.

MORE TEXTILES NEEDED

All-out production by the nation's textile mills is urged by Frank L. Walton, chief of the OPM Textile and Fibre Section. Emphasizing the importance of speeding up cotton yarn and cotton fabric production, he has expressed the hope that plans could be effected whereby mills could operate overtime and on Sundays and begin third shift operations. War requirements for cotton goods are rapidly increasing and will continue to increase, he said.

FATS, OILS CONSERVATION

Conservation of fats and oils has been undertaken by the OPM through an order limiting manufacturers and processors to a 90 days' operating supply. Some of the better known materials among 1,800 types affected are raw material lard, cotton seed oil, tung oil, linseed oil, soy bean oil, coconut oil, palm oil, olive oil, fish and mineral oils, fish liver oil, and castor oil.

The order defines fats and oils as "all the raw, crude and refined fats and oils, their by-products and derivatives, and greases, except 'essential' oils, mineral oils and butter." The exempted "essential" oils include lemon, orange, camphor, citronella, clove, dill, eucalyptus, lime, mustard, pennyroyal, peppermint, pimento, and wintergreen. Fats and oils products in finished form, such as edible products, also are excluded from the order.

Supplies of the affected materials, which are largely consumed in the soap and paint industries, are curtailed by war in the Pacific. Large quantities of coconut, tung and other oils normally are imported from the Far East.

The Navy is giving the Schick test for diphtheria susceptibility to 1,000 men in each of three Naval Training Stations.

Chiropractic

The following general conclusions as to the direct influence of alcohol in the production of mental disorders seem permissible.

The actual role of alcohol has been somewhat exaggerated. Alcohol is more commonly a symptom than a cause of mental disorder of a serious and long standing kind. Brantwhaite remarks, "that usually people are not insane as the result of alcohol, but that alcoholism was the herald, the only obvious sign of incipient mental disorder." "Moreover," intolerance of the excitation effect of small quantities of alcohol acts as a poison to all those who inherit a lack of highest control." It is the neuropathic tendency which is the important factor in determining whether or not a person will become insane, and not especially the amount of alcoholism. But mind you that does by no means minimize the deleterious danger accompanying alcoholism, because many of the neuropathic or psychopathic tendencies possessed by a goodly percentage of any group of individuals and which under normal conditions may be kept dormant, can be aggravated into vicious open expression thru alcoholic indulgence.

There is a considerable number of minor mental conditions, either of a transient or permanent nature due to alcohol, which do not reach mental hospitals, but are responsible for much of the homicidal and sexual crimes, and for a considerable proportion of attempted suicides.

Tires - Tubes Quotas

The Office of Emergency Management anent the tire and tube problem, has made allotments for every county in the state for January.

Donley county dealers may sell 16 tires and 13 tubes for passenger cars, light trucks or motorcycles; 28 tires and 23 tubes for the heavy vehicles of the truck class.

Just how many tires can be made available for later months will depend in part on developments in military requirements, the OPA said.

"There is no need for people to get panicky," said OPA Administrator Henderson. "The fact that a rationing plan is going into effect doesn't mean that everyone is going to get a flat tire one minute later. All of us should begin at once to conserve in the use of tires by stopping unnecessary driving, by carrying our neighbors, by driving slowly to minimize tire wear, and by following the rules of good tire care."

In issuing tire purchase certificates, local rationing boards are limited to 25 per cent of their monthly quota during the first seven days of the month and to an additional 25 per cent each in the next seven-day periods. No local board can issue purchase certificates for more tires than are covered by its monthly quota. The quotas are valid only for the month for which set, and unused portions of any quota do not carry over.

To secure a new tire or tube under the quotas, an eligible purchaser must fill out an application which must be certified to by an inspector as to the condition of the tire or tube being replaced. The application then must be taken to the local board which can issue a certificate for purchase if the purchaser can show that he is eligible. The application must then be taken to a tire dealer where the tire or tube may be purchased.

The eligibility list has been supplied by the OPA and it in general covers vehicles whose continuous operation is required to maintain the public health and safety, buses with a capacity of 10 or more passengers, and necessary truck operations.

In isolated naval stations our Navy normally supplies medical services for the entire population.

Texas To Get \$8,500,000 for Its Highways

Washington—Texas will receive more than \$8,500,000 in federal highway funds under the appointment of the \$100,000,000 for the federal-aid highway program, \$17,500,000 for secondary roads and \$20,000,000 for elimination of grade crossings.

Texas will get \$6,313,862 for the regular federal-aid highway improvement program, \$1,104,926 for secondary roads and \$1,098,295 for elimination of grade crossings. These funds are for the fiscal year beginning July 1, 1942. It will be the policy of the Federal Works Agency to restrict the approval of projects to those essential to national defense.

Eighteen destroyers and 13 submarines were launched by the Navy during 1941.

The Navy's women nurses are not allowed in combat zones but are replaced by male nurses trained by them.

Navy doctors must be graduates of accredited medical schools before being commissioned in the service.

Bandit Pair Hides In Bank, Hold Up Official for \$5,489

SUDAN, Texas, Jan. 5.—Two armed bandits hiding inside the Sudan National Bank confronted Assistant Cashier C. M. Furneaux when he opened the doors at 8:30 a. m. Monday, forced him to hand over \$5,489.16 in currency, locked him in the vault and fled by automobile toward New Mexico.

State and local officers gathered quickly to take up the chase and radio and telephone instructions were sent to block roads in all directions. Monday night, however, no report had been made that the bandit trail had been found.

The bandits combined both old and modern tactics. They were garbed in overalls, and reminiscent of forays by old wild west robbers, wore bandanas over their faces. A modern touch was the rubber gloves they wore, apparently to avoid leaving fingerprints.

In the recent 1942 cotton marketing quota referendum, 89.5 percent of Texas' cotton farmers voted "yes" to continue quotas for 1942. The national average percent of farmers voting "yes" was 93.9.

More Feed Profits

There's TWO easy ways of getting more profits from feed. One is to bring your feed to us to be ground, where you will know you are getting the best job. The second is to feed Chic-O-Line feeds. Your chickens will produce more, your stock will do better. If you are having feeding troubles just come to—

LOOKING BACKWARD.
We of the plains country have been the butt of jokes for many years. We have heard stories of the stiff breezes galore. Now we

are in for a break. The "durn burro" is coming back to claim his title of "Rocky Mountain Canary," as it was known to the old miners and others. It will be a favorite method of transportation while the autos are laid up for the "duration." Others will saddle "Old Paint" and feel relieved to know that the faithful horse did not get us into this mess. Next to the dog, a horse is man's most faithful domestic animal.

SUGGESTION.
Before this fracas ends, why not sterilize all the captives of Germany, Japan and Italy, and just before the prisoners get back home, sterilize the home folks of each nation. After a hundred years, this would be a better world in which to live.

JUST HUMAN.
Most women always worry about the future until they get

their man. Most men never worry about the future until they get a woman.

WAR STORY.
The latest war story going the rounds: Hitler, Goering and Goebbels were out in a boat together. The craft capsized.
"Who was saved?" you are supposed to ask.
"Germany," is the answer.

PROFESSIONAL.
It all depends on what the doctor charges, and also, what he can collect, whether or not he is a good skin specialist.

RAPID TRANSIT.
For circulation and coverage, nothing yet has been found to beat a back yard fence gossip fest.

DISCOVERY.
The Japs, who believe in reincarnation, are being taught that they once ruled America, and can readily get it back.

ASHTOLA
Mrs. W. B. Miller

There was no Sunday school or preaching service at Ashtola Sunday, due to weather conditions.

Rev. and Mrs. Vernon Willard and two small sons and Miss Marjorie Willard of Clarendon visited in the homes of Mr. W. B. Miller, Mr. W. A. Poovey and Mr. H. S. Mahaffey, Sunday.

Mr. Willis Walker returned to W. T. S. C. at Canyon Saturday, after spending the holidays with his parents, Mr. and Mrs. George Walker.

Little Miss Jeanette Stogner and her brother Harold are confined to their home with mumps.

Mr. and Mrs. Tate Poovey and children returned to their home at Berger last week, after having visited in the home of Mr. and Mrs. W. A. Poovey for several days.

Miss Mary Charlotte Word, who is a senior at W.T.S.C. returned to Canyon Sunday after having spent the holidays with her parents, on the S. J. ranch.

Mr. and Mrs. Hubert Rhoades and little Mary Sue spent Tuesday at Amarillo.

Miss Helena Poovey returned to W.T.S.C. Sunday after spending the holidays in the home of her parents, Mr. and Mrs. W. A. Poovey.

Gift Books Given New Soldiers

Every Texas registrant selected for induction in the Army now is receiving a booklet telling him exactly what the Army expects of him and what it offers to him, General J. Watt Page, State Selective Service Director, announced today.

Supplies of this booklet, which is entitled "The Army and You" and was prepared by the War Department in cooperation with National Selective Service Headquarters, have been received at State Headquarters, General Page said, and allocated to local boards for distribution to their selectees.

The booklet contains only 14 pages, 6 x 9 inches in dimensions, and is a convenient size for the selectees to carry with him. The valuable information provided for the "rookie" soldier is indicated by the following subtitles:

"In the American Spirit"; "What the Army Expects of You and What the Army Offers You"; "Teamwork is Essential"; "Military Courtesy"; "Your Health and Your Equipment Must Be Well Cared For"; "Good Food—And Plenty of It"; "The Chaplain is the Friend of Every Soldier"; "Promotion Rewards Duty Well Done"; "The Induction Station"; "The Reception Center"; "Classification and Assignment"; "Your Family is Kept Informed of Your Progress"; "The Replacement Training Center."

The cover page shows American soldiers on the march and the contents include inspiring messages from President Franklin D. Roosevelt, Secretary of War Stimson, Gen. George C. Marshall, Chief of Staff of the United States Army, and John J. Pershing, General of the Armies of the United States, together with a quotation from Theodore Roosevelt.

The Navy trains mobile hospital units staffed by two doctors and four hospital corpsmen for use in epidemics and emergencies.

During October nearly 234 million pounds of evaporated milk were shipped to England under provisions of the lend-lease agreement.

THE OLD DAYS.
The pioneer cattleman who always did what he promised, occasionally got up against a hard place and lost his wealth, but he was never a bankrupt. There was always some one to back him in a fresh start. You old-timers will have your minds refreshed. The younger ones will not understand, but it was a fine trait encountered in our young days.

INSIDE STORY.
A local man, who told me in all secrecy, supplies the following story: A few nights ago he stooped over to tune in his radio. Feeling a pain in his back, he remarked: "I'm getting lumbago." His son of six years, sitting on the floor with his Christmas tricks, looked up and said: "Tune out the yellow devils, we couldn't understand them nohow!"

THE GILES ECHO.
When the highway was put across the ravines from Hedley to Giles, a historic spot was brought to mind again. Long years ago, Poke Jarrel moved to that section from Jack County. Across his farm ran a deep, rocky ravine, and at a certain point in the ravine, the echo was something remarkable, if not terrible. When folks would picnic at the grove where the highway park is now, they would string out up that deep ravine to test the echo facilities for pastime. Before the day was over, old Poke got the idea of charging for the use of the echo entertainment as the picture show does today. He rigged up a gate and charged a dime to pass through the gate. But as time went on and the fame of the ravine spread, old Poke was not satisfied with a real echo. A business man of the first water, he concluded that a louder echo would draw more business. He went over to the Bar X outfit and hired old Rusty Cuss, the loudest snorer, cusser and yeller as had ever been in West Texas to that date, and Rusty actually practiced up and put the final touches to the volume of the echos from his hiding place in the rocks of the ravine. The idea worked fine except that it ruined old Rusty. It went to his head and made a fool of him. He got to putting an art to the echos in the form of a half-baked yodel. When not on his job, he put on his best silk shirt and John B. and strutted about like a giant with a double back bone. One day when a Dallas lawyer came by from Amarillo on his way home, he stopped to investigate the echo business. As the Dallas lawyer with a voice like a jackass bawled out a lusty "hello," old Rusty was caught in a pinch and sneezed, and the deal was off. Since then I've known a lot of fellows who rear back on their dignity, give themselves credit for being smart even when not wearing fine clothing. But they were just echos. They were men who went about "echoing" what they thought were popular sentiments. But every man of that type finally muffs a sneeze and echos the wrong thing, and ends his career. You know some of the same tribe yourself today. Before you let a fellow bluff you, pardner, find out if he's an echo, or the real thing.

GRATITUDE.
In closing this feeble effort for the week, let the old Apostle tell you that he is deeply touched over the messages of congratulations, and the many personal calls, and the hundreds who have shook his hand and wished him well, when and if he becomes the next postmaster of Clarendon. I shall do my utmost not to disappoint Cong. Gene Worley, or the dozens of loyal friends who helped me present claims, while NOT ONE cast one word of reflection upon any other applicant. Thank you a lot folks, thanks a lot!

PAPER SALVAGE INCREASES
As an example of the progress being made in salvaging of waste paper—a vital war material—in the Southwest, Office for Emergency Management officials in Dallas have called attention to the increase in salvaged paper in the Dallas vicinity. During December, salvaged waste paper in the vicinity showed an increase of 320,000 tons, or 16 carloads, over September. Schools, Boy Scouts, organizations of many kinds, and charitable agencies are participating in the Dallas campaign sponsored by the Dallas City—County Defense Council.

Applicants for the regular Navy Medical Corps must be under 32 years old; for the Naval Reserve Medical Corps under 50.

TIN USE CURTAILED
Tin consumption for ordinary civilian uses, except in cans and containers, will be sharply curtailed during the first quarter of 1942. After March 31, tin used in 28 specified products will be cut off entirely; until that date, consumption for those purposes will be restricted to 50 per cent of the amount used during the corresponding period of 1940. A conservation order soon to be issued will limit the use of tin in cans and containers, but meanwhile those commodities are subject only to restrictions previously in force. The priorities order covers tins, tin alloys and scrap, with the exception of tin in type metal for re-use in the printing and publishing trades. Where substitutes are impractical, items produced under a rating of A-1-J or higher may be excepted from the 50 per cent limitation.

Articles affected include foil, advertising specialties, art objects, automobile body solder, band and musical instruments, beverage dispensing units, britannia metal buckles, building supplies, buttons, chimes and bells, emblems and insignia, eyelets, fasteners, galvanizing, household furnishings, jewelry, novelties and souvenirs, ornaments and fittings, pewter, decorative plating, decorative powder refrigerator trays, seals and labels, slot, game and vending machines, tin-coated paper, tin oxide in enamelware, and white metal.

The United States used more rubber than any other country and about three-fourths of it goes into tires and tubes for motor driven vehicles.

If glass utensils appear milky, clean them by boiling hot vinegar water in them until the deposit is softened. Then rub the glass with fine steel wool.

PATHFINDER CLUB
Members of this Club will meet at the Methodist church Friday at 3:30 p. m.

1930 NEEDLE CLUB
Met with Mabyn Andis at her home Tuesday afternoon. Needle work, knitting and conversation furnished entertainment for the afternoon.

Refreshments were served to members. Mmes. Nadine Whitlock, Mozelle Wright, Marie Patterson, Frances Hilliard, Josie Peabody, Ellen Bryan, Nora Decker, Glyn Kirby, hostess Mabyn Andis.

CLAYTON—McCRACKEN
Mr. and Mrs. Roy L. Clayton announce the marriage of their daughter Geraldine to Durward B. McCracken, son of Mr. and Mrs. B. F. McCracken. They were married January 4th, 1942, in Las Vegas, Nevada. Mr. McCracken is employed by the Douglas Air Craft Plant. At home 3415 - 8th Avenue, Los Angeles, California.

SENIOR ARTS CLUB
The senior Les Beaux Arts club met Friday at the Club Room in a business meeting, with Mrs. U. J. Boston as hostess.

Following the business meeting, Sam Braswell gave a talk on international relations. Dainty refreshments were served to fifteen guests and members.

SENIOR H. D. CLUB
Mrs. A. G. Lane was hostess to this Club at her home Friday afternoon.

The meeting was opened with the Club Collect being read in unison, led by Mrs. O. C. Watson. Roll call was answered with New Year resolutions.

Mrs. O. C. Watson, club president, presided at a brief business meeting.

A delicious plate refreshment was served to Members, Mmes. C. L. Benson, A. L. Chase, J. C. Estlack, M. A. Hahn, Elmer Hayes, Frank Hommel, C. D. McDowell, W. D. Van Eaton, O. C. Watson, Mattie Hudson and the hostess, Mrs. A. G. Lane.

The next meeting will be Jan. 16, with Mrs. Frank Hommel.

BRIDGE CLUB DINNER
Mr. and Mrs. Alan J. Bryan and Mr. and Mrs. Forrest Sawyer entertained with a lovely New Year's turkey dinner at the Bryan home.

Games of bridge were played as the old year passed into history. The guests were served doughnuts and coffee.

Those winning high score prizes for men were Simmons Powell and Dr. Beck. Winning for ladies were Mrs. B. F. Kirtley and Miss Anna Moores.

Present were Messrs and Mes-

dames Simmons Powell, H. R. Beck, Carroll Knorpp, Floyd Lumpkin, B. F. Kirtley, U. J. Boston, G. E. Norwood, John Blocker Jr., J. T. Hoy, Mrs. J. Gordon Stewart, and Misses Mary Cooke and Anna Moores, and the hostesses.

ADAMS—MONTGOMERY
Miss Jimmie Lou Adams and Mr. Joe Montgomery were united in marriage December 25th at 10 a. m. by Rev. S. F. Martin at the Memphis Baptist parsonage.

The bride, daughter of Mr. and Mrs. Jas. O. Adams of Lesley, graduated from Lakeview High School and attended Texas Technological College. She wore a pink long torso dress trimmed with silver nail heads. Her accessories were blue and black.

Mr. Montgomery, son of Mr. and Mrs. W. M. Montgomery of Lesley and Clarendon, attended Clarendon High School.

The attendants were Miss Glendora Adams, sister of the bride, and Mr. R. L. Adams, cousin of the bride.

After a wedding trip to Abilene and several other points South, the couple are at home four miles south of Brice on the farm and ranch, which Mr. Montgomery recently purchased.

JUNIOR LES BEAUX ART CLUB
Betty Jo Bartlett was leader when this Club met at the Club-room Thursday afternoon.

The life and paintings of Rayburn were discussed by the leader. Julia Mae Morris talked on the 'Life and Paintings of Lawrence.'

Kitty Ruth Bailey sang "God Bless America" accompanied at the piano by Betty Jo Bartlett.

Lovely refreshments were served by the hostesses June Miller and Margaret Jean Leathers.

Guests were Ruth Ham of Dallas, Hulda Garrison, Ima Jean Wisdom, Anita Cook, Members, Mary Howren, Mildred Phelps, Betty Jo Bartlett, Julia Mae Morris, Kitty Ruth Bailey, Callie Mae Gunter, Ruth McDonald.

1926 BOOK CLUB
Miss Maurice Berry and Mrs. Carl Bennett Jr. were hostesses to the Book Club Tuesday afternoon in the Home Economics Rooms.

Clark McMeekins' latest historical novel "Reckon With the River" was reviewed by Miss Lucile Polk.

"Reckon With the River" is a fine adventure story, carrying the reader through a rich racy plot about a search for lost mines and Spanish treasure, flat-boating on the Ohio River, and the grandiose schemes of Aaron Burr and James Wilkinson to found their empire in the west.

The central figure in the story is Ma'am Cambrin, 80 years old,

and one of the most unique and spicy characters that ever graced or dominated a tale. Ma'am's vivacious spirit not only did much to "feather up" her family but inspires the reader to take this catching phrase and use it as a motto in the daily tasks and trials of every day living.

Club members present were Mesdames George Eagby, Charles Bairfield, Carl Bennett Jr., Nathan Cox, J. R. Gillham, John Knorpp, McHenry Lane, C. M. Lowry, C. B. Morris, L. B. Penick, W. E. Ray, Lester Schull, Frank White Jr., Barcus Antrobus, Fred Buntin, Walter Clifford, and Misses Maurice Berry, Gladys Wallis, and Lucile Polk.

Mrs. Marguerite Goodner was the guest of the Club.

Church News

ASSEMBLY OF GOD CHURCH
Alma Wisdom, Pastor.
Church services every Thursday, Saturday and Sunday night. Sunday school, 10 a. m.

FIRST METHODIST CHURCH
J. O. Quattlebaum, Jr., Minister
Please observe the change in our time for the Evening service. We will have Preaching service at 5 o'clock, instead of the later hour. The morning services will continue as in the past.

The Church should mean more to every one. Go to some church to WORSHIP.
The First Section of the Service this Sunday Evening will consist of a Panel Discussion by The Pastor, S. M. Braswell, Mrs. M. R. Allensworth, and Mayor T. M. Connally on the Subject, "The Church and the Defense Program."

EPISCOPAL CHURCH OF ST. JOHN BAPTIST
Rev. Frank H. Hutchins, M. A., Clergyman.
Mr. Walter B. Knorpp, Lay Reader.
Sunday, January 11
11 a. m.—Morning Prayer and Sermon.
Mr. Knorpp will conduct the service. Visitors are welcome.

Mr. and Mrs. R. A. Baker and daughter Jaunita Jean of Amarillo visited Friday with Mrs. Baker's mother, Mrs. W. A. Davis. Jaunita remained over the week end returning to her home Mon.

Miss Leota Rampy, head of the Home Ec. Department of the Silvertown high school, and Max Rampy, student of Texas Tech, spent the Christmas holidays with their parents, Mr. and Mrs. M. C. Rampy.

CARD OF THANKS
Never was our sorrow quite so deep, yet never was friendship quite so sweet, for the manifold words and deeds of kindness we shall ever be grateful. May God richly bless each of you.
The E. F. Bryan Children.

Treat Hamburgers To Lavish Flavoring
Practically everyone likes hamburgers, but dressed up, treated to an imaginative twist, they can be made even more appetizing.

If hamburgers mean only meat cakes to you, here are some recipes, prepared by Charlotte Scripture and appearing in the October Good Housekeeping magazine, that will prove an eye opener to you. They are lavish with flavor, but easy to prepare.

HAMBURGERS DIABLO
Checked in Good Housekeeping Kitchen, Use standard measuring cups and spoons. Measure level.
1 1/2 lb. ground round or chuck beef
1 c. evaporated milk
2 tbsp. minced onion
1 clove garlic, minced
2 tbsp. minced parsley
2 tsp. salt
1/4 tsp. pepper
6 thin tomato slices
6 thin slices American cheese

Blend together first 7 ingredients; shape into 6 patties, and place in shallow baking pan. Bake in moderately hot oven of 400° F. for 30 min. Lay a slice of tomato, then a slice of cheese on top of each patty, and continue baking for 10 min. longer. Serves 4 to 6.

QUICK-SEARED HAMBURGERS
Checked in Good Housekeeping Kitchen, Use standard measuring cups and spoons. Measure level.
1 tsp. butter or margarine
1 tsp. salad oil
1 1/2 lb. ground chuck or round beef
2 tbsp. softened butter or margarine
Salt
Pepper

Combine butter and oil in large skillet, and heat slowly until fat begins to smoke. Shape beef into 6 patties about 3/4" thick. Quickly brown 3 or 4 patties at a time on 1 side; turn, and brown other side. (This takes about 2 to 2 1/2 min. on each side.) Remove to hot platter; spread surface of each with 1 tsp. of the softened butter, and sprinkle with salt and pepper. Serves 4 to 6.

WOMEN FROM RURAL HOMES ENTER ARMY SERVICE

Women as well as men on the farms and in the villages and small towns of the country are forging to the front in America's united war effort.

The 2,000,000 men in our Army are not only supported by the patriotic civilian work of an increasing number of women and girls who are rendering efficient service in their home communities, but thousands of wives, sisters and sweethearts of the men in the combat forces are enrolling for active duty. Those now engaged in full time activities are members of the Army Nurse Corps, Reserve Nurses, hostesses in the various cantonments and dieticians in the hospitals and food consultants in the War Department and the camps.

Four-H Clubs have furnished ideal training for many young women now serving in auxiliary branches of our Army, according to a recent announcement by authorities in Washington. Conspicuous among the 4-H Clubbers now working for Uncle Sam is Mrs. Meryl P. Stone, designated as an associate of Miss Mary Barber, food consultant to the Secretary of War. It is Mrs. Stone's job to assist with menus for the soldiers in the camps and in the field. She will sample the "chow" and will be available for conferences at the Army Bakers and Cooks schools.

Mrs. Stone declares that the foundation for her present post was laid during her 4-H Club days in her home town of Black Earth.

—Photo by U.S. Signal Corps
MRS. MERYL P. STONE

her community and Mrs. Stone was one of its active members. Under her leadership the Black Earth organization won honors at a county fair for skill in sewing.

After high school Mrs. Stone entered the University of Wisconsin to major in home economics. Following her graduation she served an internship at the University of Michigan and established a training course in dietetics for student nurses at a Detroit hospital.

Going to New York she joined the staff of a large commercial concern and continued her work in preparing recipes and balancing their caloric contents for hotels, schools, hospitals and other institutions. Romance and marriage came for the former Wisconsin 4-H Club girl and last summer with her lawyer husband, she moved to Washington, where she continued active in her chosen field.

The story of her career is not unlike that of many other women on duty for our Army, as shown by the files of the War Department. Four-H Club girls recruited from various sections of the country have answered the call to service and are giving the Government the benefit of their skill, thrift and efficient training. As home demonstration agents, many young women from rural communities are strengthening the civilian forces, and in other fields they have shown resourcefulness and initiative in their patriotic efforts for the nation's defense.

LOCALS

Miss Mable Johnson spent the week end with friends in Memphis.

Travis Cypert of Ft. Knox, Kentucky visited Mable Johnson the past week.

Mrs. J. P. Pool spent the past week in Clovis visiting her son, Carl Pool and family.

Mrs. Jess Wertenberger of near Ashtola was a Clarendon shopper

Saturday. She formerly resided near Goodnight until recently.

Mrs. J. W. Welch of Memphis is visiting her sister, Mrs. J. R. Ayers here this week.

Ruth Donnel spent the week end at Amarillo visiting Virginia Wisdom.

Sergeant Charles Kelly of Ft. Sill, Okla. visited Mrs. Kelly and Mr. and Mrs. Bill Lane and family here the past week end.

Mr. and Mrs. Pat Slavin spent the week end visiting her parents, Mr. and Mrs. L. E. Davis at Lubbock.

"Jelly" McGowen of Canyon spent the week end here with Homer Charles Speed.

Dr. and Mrs. B. B. Harris and his grandmother, Mrs. R. T. Jones visited Sunday with Dr. M. H. Henexson at Paducah.

Mrs. Gordon Baird has returned home from spending the holidays at Marlin.

Mr. and Mrs. W. L. Sasser of Lubbock visited New Year's day with her parents, Mr. and Mrs. John Bass, Sr.

Mrs. Westmoreland and daughters Janice and Louise of Ama-

rillo visited her parents, Mr. and Mrs. Tom Connally the weekend.

Mr. and Mrs. W. E. Betts of Clovis spent Sunday night and Monday here with his sister, Mrs. C. A. Burton.

Miss Ruth Hamm, student of S.M.U. in Dallas, spent the Holidays here with Miss Mildred Phelps.

Mr. and Mrs. E. V. Crain of Headrick, Okla. visited his sisters, Mr. and Mrs. Bill Lane and family and Mrs. Charles Kelly here Saturday night and Sunday.

Mrs. Maggie Hopkins and Mrs. Ralph Glascock of Pampa spent Sunday with Mrs. Karl Adams and family. Rachelle Melton accompanied her grandmother home for a short visit.

Mrs. A. H. Baker and daughter, Mrs. Essie Tice, have returned home after spending several days in the Marion Cox home in Panchandle.

Evaporated Milk Being Shipped to England

Here's the way America is shipping food to Britain. This picture shows cases of evaporated milk, fresh from production in the Middle West, being loaded by dock workers into the hold of a British ship at an unnamed eastern port. Huge quantities of American farm products, especially dairy, poultry, and pork products, are being shipped to England regularly, easing the food shortage and giving the people strength to carry on their battle for freedom.

Political Announcements

Political announcements appearing in this column are subject to the action of the Democratic primary in July. All announcement fees must be paid in advance.

COUNTY TREASURER MARGARET V. THOMPSON DAVID JOHNSON

Personals

Misses Ida and Etta Harned visited in Groom Friday.

Mr. and Mrs. Ralph Keys have returned home from a Xmas visit at Dallas, Kaufman and Kemp.

Glenn, son of Mr. and Mrs. L. L. Wallace, is ill of a pneumonia condition.

Mr. and Mrs. Claud Moore and daughter, Dianne, of Memphis, spent the week end with Dr. and Mrs. H. F. Harter.

Jack, youngest son of Mrs. Kate B. Carroll, is doing army service at Sitka, Alaska.

Mrs. Mack Spurgeon is visiting a sister at Longview who is critically ill.

Mr. and Mrs. Chester Williams of Amarillo visited his parents, Mr. and Mrs. Henry Williams Sunday.

Mr. and Mrs. Lewis Wood and baby Wayne of Borger are visiting his parents, Mr. and Mrs. L. L. Wood.

Mrs. Arlie Wood, patient of St. Anthony's hospital in Amarillo, is said to be improving.

Indian Cuning

"I tell you," Lawrence related, "you've no idea how much an Indian can get out of them mustangs. Instead of being a weight to them, they seem to help them along." The Texans realized this sadly after three miles or so, when the Indians began to pull up close behind them.

Lawrence and his friends became even more uneasy about this time, as the Indians split up into two groups, some of them disappearing off to one side for no apparent reason. But suddenly the Texans came to a deep gulley which they couldn't cross, and they understood. They could imagine what would happen when they tried to circle the gulley and found half the Indians at the near end waiting for them. But they had no choice.

"Just as I came to the head of the hollow," Lawrence went on, "the Indians were within about one hundred yards, and yelling awfully. They thought they had us sure. I gave my mare the rein, and just touched her with my spur, and turned the corner with about fifty arrows whizzing about my ears." He got around safely, and his mare stretched out magnificently for the race to come.

A 15-Foot Plunge. "Soon as I got headed right again," he continued, "I looked around to see what had become of the others. One look showed me. They were all down. About

ly in the tall prairie grass. They approached cautiously and were congratulating themselves on not having frightened the horses when suddenly a hundred Indians leaped up out of the grass, mounted, and were after them in a screaming pack.

half the red skins had stopped to finish them, and the balance were coming for me like red-hot lightning." The Trinity was still three miles away.

Lawrence's mare now began to puff heavily, and after another mile he pulled up to a stop, dismounted, and gave her a chance to catch her breath. About forty Indians were several hundred yards behind, and one lone rider was practically upon him. Having lost his rifle in the race, he pulled out his knife and waited. "The Indian was game. He never stopped until he got within ten feet of me. Then he threw away his bow, jumped off, and came at me with a long knife like mine." Half a minute later Lawrence was mounted and off again, the Indian lying dead behind him.

A fifteen-foot bluff confronted him on the bank of the Trinity, and he took it at a leap with his mare. "We both went under for a second; then she rose and struck out for the opposite bank with me on her back." She got nearly across and then gave out; but Lawrence, while his savage pursuers, apparently not daring to follow his example, stood on the bank behind him and howled, swam the rest of the way to safety.

The U. S. Coast Guard has the power of transporting floating court in Alaska when necessary.

A flag officer in the U. S. Navy is a rear Admiral, a vice Admiral or an Admiral.

Cuff links on the uniforms of Navy nurses must, by Navy Uniform Regulations, be entirely white.

Cottonseed Hulls Make Good Litter For Poultry Houses

Cottonseed hulls make good litter for brooder and laying houses. Brooder house floors should be covered 1 to 2 inches in depth (one pound of hulls covers one square foot one inch deep). Hulls can be left on the floor 4 to 6 weeks, but should be turned daily with a fork. For laying houses, use a layer of hulls 2 to 3 inches deep over a thin covering of sand, turning the hulls twice weekly. Spraying hulls with a solution of 94 per cent kerosene and 6 per cent cresol compound aids sanitation, but the hulls should be replaced frequently enough to insure proper sanitation. Placed on a thin layer of fine sand, cottonseed hulls make desirable nesting material.

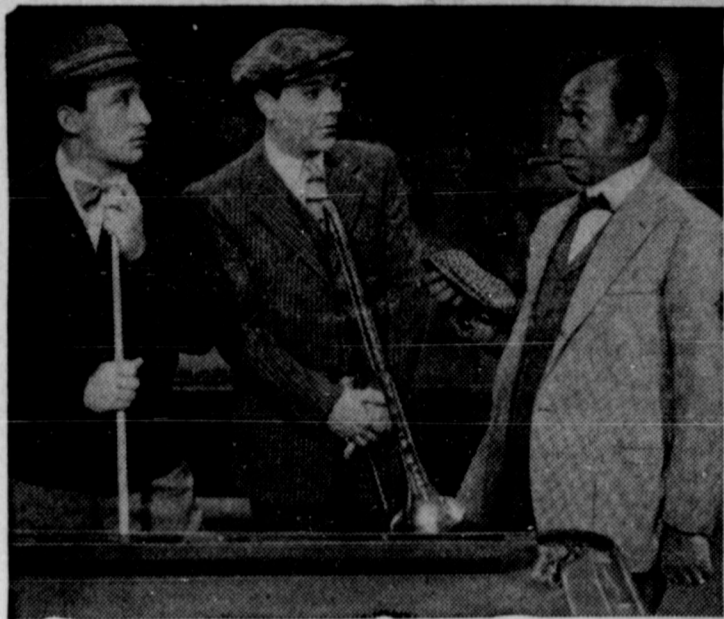

The local F.F.A. youths who have hens for egg production for projects are using the hulls to aid in sanitation and providing proper conditions for the hens during the winter months while eggs bring the highest prices.

In 1775 John Hancock signed a commission making Samuel Nicholas a Marine captain, the first commission of the U. S. Navy.

BILLIARDS AND BLUES—Bing Crosby and Jack Teagarden exchange those billiard cues for clarinet and trombone, respectively, when Rochester brings them the tidings that he has found the hottest jazz trumpeter in Dixieland, who turns out to be Brian Donley. All this goes on in Paramount's "Birth of the Blue," opening Saturday Night Prevue at the Pastime Theatre, with Mary Martin.

WOOL CONSERVATION

The use of new wool for the manufacture of woolen and worsted materials during the first quarter of 1942 would be reduced to 80 per cent of the rate which prevailed during the first half of 1941, under a conservation plan being considered by the OPM in Washington. The 80 per cent production would include both military and civilian uses. Army and Navy requirements would be met in full, and any remaining wool would be available for non-military orders. Manufacturers could exceed the 80 per cent limitation only in the event that their mills

were devoted entirely to war work. Civilian consumption of wool would be cut to 50 per cent or less, by comparison with last year's use, depending upon the manufacturers' opportunities to mix new material with reworked, reused and waste wool.

The Navy has 744 nurses on duty now and will have 1,250 by July, 1942.

Navy nurses are regulars and reserves, the former enlisting for three years and the latter for the duration.

The USS Solace, hospital ship, admitted 5,854 patients in one World War year. A new Solace has replaced her.

The Navy Nurse Corps loses 15 per cent annually through marriage, mostly to Navy men.

Navy hospital ships follow, with fuel and supply ships, in the wake of the fighting fleet.

About six homing pigeons are in the crew of each Navy blimp departing on off-shore patrol.

Two battleships recently launched have powder rooms for the convenience of lady guests.

Local FFA Youths Buy Machinery Find Home Mixed Laying Mash Pays

As a result of the sharp increase in the commercial egg production mashes, twenty Clarendon F.F.A. youths have been feeding home mixed laying mash this fall with great success from both the viewpoint of production and economy. The local youths mix their feeds in quantity and then divide the same among the users.

They feature home grown feeds as the chief basis for the feed and concentrated mixtures to provide the protein supplement. Their practical home-mixed laying mash consists of 150 pounds of either ground corn or wheat and 150 pounds of ground milo or kaffir, a total of 300 pounds of home grown grains, mixed with 125 concentrated mixture made up of 20 pounds of finely ground alfalfa, 56 pounds of meat scraps, 25 pounds of cotton seed meal, 20 pounds of bone meal or limestone, and four pounds of salt. This ration contains 5.8 percent cottonseed meal. It is recommended that not over six per cent meal be fed if the eggs are to be put in storage.

The mash is kept before the hens at all times in mash feeders. In addition, the hens should receive grain twice daily. The amount of grain fed varies from 8 to 15 pounds per 100 hens per day depending on the season. Clean water, grit and oyster shell should always be available. Alfalfa, Sudan grass, rye, or wheat pasture, sprouted oats, or other green feeds are also desirable at all times.

The Navy operates about 30 large hospitals, two hospital ships and every Navy ship has a "sick bay".

Over 200,000 defense workers now wear the Navy "E" awarded for efficiency in naval ordnance plants.

The Navy's new hospital ship, Solace, can carry 9 months' supply of food.

In 1929, many Naval homing pigeons were rendered jobless by the perfection of aircraft radio.

In many universities groups of friends are forming to take Naval Reserve flight training together.

Buy Machinery Parts Now

County agent H. M. Breedlove stated this morning that the National Defense Board of Donley county has recommended that all farmers and ranchmen of the county repair their farm machinery as soon as possible while they are still able to get the parts. Chairman of the board, Nolle Simmons has been advised by the National Defense Board that all farmers and ranchmen should do this work at once and save money on the increased price that parts will probably take.

If this work is done at once then the farmer will start in 1942 with his machinery in good shape which will save him a great deal of time and money. Breedlove is urging that all farmers and ranchmen give this very close consideration at once.

DO YOU KNOW TEXAS?

A reader of this newspaper can get the answer to any question of fact about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin, Texas.

MEMORABLE PASSAGE: "We have a slogan which reads, 'Keep 'em flying.' Let us hope that God will do the same thing too—keep them flying."—Joachim Besen, Boerne, Texas.

Q. How many insurance companies operate in Texas?

A. There are between 800 and 900 insurance companies in Texas. **DO TIMES CHANGE?**—Hitler's efforts to take European oilfields indicates the importance of petroleum in modern warfare and that "armies travel on oil." But would you believe that Texas' armies during the Revolution also traveled on oil? Muster rolls in the General Land Office include several orders by the quartermaster's department for barrels of bear oil. Land Commissioner Bascom Giles explains that this oil was used by the soldiers to keep their saddles soft and pliant, and therefore, the soldiers "traveled on oil."

Q. How many Texans died in World War I?

A. According to files and records in the Texas Memorial Museum, Austin, more than 5,000 Texans died in service during the war.

POPULATION OF TEXAS: On April 1, 1940, date of the 17th decennial census, Texas had a population of 6,414,824. This figure was 10.1 per cent or 590,109 above the census figure taken in 1930.

Q. Where and what is Monument Hill?

A. Monument Hill is located on the outskirts of La Grange on a branch of the highway leading to Schulenberg. On the brow of this beauty spot overlooking the Colorado River has been erected a monument to the 15 Mier prisoners

who drew the black beans and were shot on the orders of Santa Anna.

IF the trackage of all of Texas' railroads in 1940 were laid end-to-end to make one grand trunk line, it would nearly encircle the earth. There is a total of 22,420 miles of railroad tracks in Texas.

Q. Who was the first Texas governor to occupy the Governor's Mansion?

A. Governor E. M. Pease. He moved in upon its completion in 1885.

FACTUAL: Four Texas cities have a population of more than 100,000 inhabitants, according to the 1940 federal census. They are Houston, Dallas, San Antonio, and Fort Worth.

Q. How many Texas cities have a population of more than 10,000?

A. Forty-four, according to the 1940 federal census. **TRANSPORTATION:** The Texas Transportation Conference is to be held in Austin November 14-15. W. E. Long, Austin Chamber of Commerce, can furnish additional information.

When the new battleship USS Massachusetts puts to sea it will have on board a library of 2,000 books.

The freshman or fourth class at the Naval Academy is the largest in history, numbering 1,106.

Homing pigeon lofts are being established at all new Navy lighter-than-air stations.

The U. S. Navy changed from a navy of wood to a navy of steel between 1878 and 1898.

According to Edmund Randolph, it was an old observation that "he who commands the sea commands the land."

The USS Solace, new Navy hospital ship, distills 40,000 gallons of drinking water daily from sea water.

Disease and Parasite Free Hens Give Better Returns
Hens that were culled, wormed, treated for external parasites, and vaccinated for fowl pox this fall have produced three times as many eggs as similar flocks not treated according to project reports of Clarendon F.F.A. members having hens for egg production projects. The entire treating operation cost the members approximately three cents per bird, and during the months of October, November, and December the hens treated produced an average of sixty eggs compared to an average of twenty for the hens not treated. The hens were fed the same home mixed laying mash and grains by chapter members.
The experiment has made believers out of all of the youths carrying hen projects and all members have recently completed vaccinating, worming, culling, and treating their birds for parasites.
The Navy's two hospital ships are white with green bands and red crossed to mark them as non-combatant.
The battleship USS Indiana, launched November 21, was completed six months ahead of schedule.

The Problem of The Refugee

(Union Christmas sermon delivered by Rev. Frank H. Hutchins, M. A.)

It is said that Christmas is particularly the feast of the children. In a way, of course, this is true. Not only do the children get the greatest joy out of the gifts given and received at that season, but the romance of the Birth of Christ, the carols that we sing—favorites, all, with the children—and the festivities, religious and secular, are all calculated to strike particular joy into their hearts.

But the feast particularly dedicated to the children is the Feast of the Holy Innocents on December 28, when the infants slain by Herod glorified God by their deaths. Martyrs in deed, though not in will, their feast is commemorated usually in violet; but when the feast comes on a Sunday, or is the patronal festival of a parish, it is commemorated in red, like the feasts of other martyrs. It is in red that we commemorate it this year.

The massacre of the Innocents was the first of the persecutions that resulted from the birth of Christ, and in this persecution, as in the others that followed, the blood of the martyrs was the seed of the Church. That children were able, even without their knowledge, to testify to the eternal con-

flict between good and evil, on the side of the good, has always had, for children, a serious religious appeal, showing them as it does that their elders are not the only ones whose lives are touched by the Christian message. And it is true that child as well as adult converts in heathen lands have, throughout the history of the Church, borne witness to the faith that is in them.

The story of the Holy Innocents has also, however, another appeal for children, as well as to us; and that is the appeal of the escape of the Holy Family to Egypt: the care with which St. Joseph took the Holy Child and His blessed mother away from the danger that beset them, and did not bring them back until the danger had passed. You are all familiar with the old French picture of the repose in Egypt, with Our Lord and His mother resting between the arms of the Sphinx, and their beast tied at the base of that great statue with St. Joseph keeping watch beside him. They were, indeed, refugees, leading a refugee life, and giving new meaning to the Old Testament command: "Love ye therefore the stranger, for ye were strangers in the land of Egypt."

The Feast of the Holy Innocents is dedicated, not only to the children, but also to refugees everywhere, the women and children and old men who have for any reason been forced to leave their homes and wander about seeking safety. The picture of Our Lord and His mother a-

sleep in the protecting arms of the Sphinx calls to mind another statue, dear to the hearts of all Americans—the statue in New York Harbor, inscribed:

"Give me your tired, your poor, Your huddled masses yearning to be free,
The wretched refuse of your teeming shore,
Send these, the homeless, tempest-tossed, to me.
I lift my lamp beside the golden door."

America has always been a haven for the homeless; a land of refuge for the persecuted, the oppressed. We have always given gladly of our means, and of our hospitality, to those who found the tyrannies of other lands oppressive. The Holy Family, like the children of Israel before their deliveries by Moses, were refugees in the land of Egypt, and our own Nation, in truly Christian fashion, has remembered that they were, and done all it can, for their sake, to make the lot of other refugees less hard to endure.

In the times that lie ahead of us this will be less easy than in the days of our neutrality, but it will continue in spite of our war efforts. The Red Cross, in fact, will be even more munificently supported than before. But our main concern as Christians should be to have refugees in our minds and on our hearts, to pray for them, to make them a real concern of ours, that whereas we are now hampered from doing all that we should like to do for them, we shall once again, when opportunity offers, be generously disposed toward their cause.

It should also be our concern to spread democracy, and the hospitality that we ourselves have shown to the peoples of many lands and many creeds, to the other parts of the world as well, that when this war is over, the whole world may be a haven to the homeless, and refugees shall be no more.

While the primary objective of the Nation is to win the war, the Church must retain the ultimate objective of winning the peace. The war aims of the leaders of the two great English-speaking coun-

tries will doubtless remain as they are now; but these aims will not be realized unless the people continue to wish for their realization. It is the Church's function to subdue, in the minds of the men and women who comprise it, any tendencies that may arise to make this war a war of hatred, revenge, or self-seeking. It is the ideology of the dictatorships that we are fighting; not the poor unfortunates who have been duped by them, and certainly not the men, women, and children who have been forced from their homes by their intolerance.

It must be the function of the Church to keep alive in the hearts of men the Christmas spirit of peace on earth, good will toward men; that when the conflict is over, the resulting peace shall be one in which men may occupy their homes in peace, without fear of being driven from them by racial bigotry, or ideological intolerance. The aim of the Church has always been, and must continue to be, the establishment of the kingdom of God—the creation of a world in which the will of God for the well-being of all His children is the ruling force. And while realizing that this kingdom can never be brought about while dictatorships continue to plunge the world into war, the Church must also realize—and do its best to carry that realization to others also—that the mere vanquishing of the present dictatorships will not bring it about either, but that we must also see to it that the democratic ideals expressed in the Bill of Rights permeate the world when the war is over, that no more shall people wander about in droves, driven from their homes and not knowing where to turn for safety, because some government, like Herod of old, seeks their lives to destroy them.

The Church has little to say in the present conflict. Islands for whose defense the United States is responsible have been attacked, and the Nation can only defend them. But when the war is over, the Church must make its voice felt in the establishing of a peace that will endure.

Donley County Leader, \$2 a year.

Melodic Revelry On the Way in 'Birth of Blues'

If ever a picture showed more promise of being hit movie entertainment than Paramount's auspiciously-launched saga of indigo rhythm, "Birth of the Blues," which we're going to have an opportunity to see when it arrives Saturday night Prevue at the Pastime Theatre, then we don't know of it.

This commentator, for one, is floored by the impressive list of names in the cast. Each name fairly screams its entertainment power—Bing Crosby, Mary Martin, Brian Donlevy, Carolyn Lee, Jack Teagarden, the bandleader, and Rochester. What a lineup for laughs and music! Incidentally, preview critics and audiences don't mind any words in calling the new picture just about the best of its kind ever produced. Certainly the stuff of which swell pictures made is there.

Directed by the master director, Victor Schertzinger, who was at the megaphone on such rousing his as "Road to Singapore," "Road to Zanzibar" and "Kiss the Boys Goodbye," "Birth of the Blues" is a tribute to those trail-blazing bandmen who opened their hearts to the blues rhythms played by Negroes and worked for years to convince the country this music ought to be listened to, danced to, enjoyed. That's how some such songs as "St. Louis Blues," "Memphis Blues," "St. James Infirmary Blues" and a host of others.

That's not to overlook some other old favorites that are jazzed up in "Birth of the Blues," songs the old-timers liked to sing in a mellow sort of way. Those songs now come out of a blast furnace whipped up by saxes, trumps and trombones as Dixieland jazz. And don't forget this music is handled in the picture by masters.

"Birth of the Blues" is avowedly a celluloid monument to the great pioneer bandmen who brought the entire nation's attention to the new syncopated rhythms loved by the Negroes, but looked down upon by many white folks as disreputable. People just found it hard to admit in those days they had feet that liked to hop a little faster than a waltz, but when they did get around to admitting it, it was awfully fast.

Bing Crosby, in "Birth of the Blues," is one of the venturesome bandleaders who assembles the best talent he could find to play the spirited Dixieland jive. He plays the clarinet, Brian Donlevy the trumpet, and Jack Teagarden of course performs on that miraculous trombone of his. Pretty Mary Martin is the boys' musical helpmate, and where a better one can be found, we just don't know.

"Birth of the Blues" sounds like a winner to us, a veritable jackpot of entertainment.

New Air Mail Rates To Boys In Armed Forces

In an order dated Dec. 23, 1941, Postmaster General Frank C. Walker provided a change in the postage rates on all mail sent by airplane to and from the personnel of our armed forces stationed outside the continental United States. The new rate is six cents per half-ounce. Before this change went into effect, the rate of postage on an air mail letter to the Philippine Islands was fifty cents per half-ounce; therefore, it is readily seen that a great saving in postage will be made by persons corresponding with the armed forces on the military bases located outside the continental United States. This new rate of postage will enable the home folks to contact the army and navy boys in the quickest way possible with a minimum of expense.

The new rate applies only to air mail sent to and by the personnel of the armed forces. It does not apply to the mail of civilians stationed at these points outside the continental United States. In order, therefore, that mail sent to and from the personnel of the armed forces may be recognized as entitled to the new rate, it must show in the address or in the return card, as the case may be, the rank of the individual member of the armed forces receiving or sending such matter and the military or naval unit to which he is assigned.

CIGARET PRICE CEILING SET
Maximum prices for all cigarettes have been fixed at the levels which prevailed on December 26, 1941. The ceiling was imposed by Price Administrator Leon Henderson after one manufacturer had refused to withdraw a price increase. The action was considered necessary to forestall a general advance in costs to consumers, pending a complete study of manufacturing costs and related factors.

List of Vehicles Which May Be Equipped With New Rubber Tires, Casings, Or Tubes

No certificate shall be issued unless the applicant for the certificate certifies that the tire, casing, or tube for which application is made is to be mounted:

- (a) On a vehicle which is operated by a physician, surgeon, visiting nurse, or a veterinary, and which is used principally for professional services.
- (b) On an ambulance.
- (c) On a vehicle used exclusively for one or more of the following purposes:
 1. To maintain fire-fighting services;
 2. To maintain necessary public police services;
 3. To enforce such laws as relate specifically to the protection of public health and safety;
 4. To maintain garbage disposal and other sanitation services;
 5. To maintain mail services.
- (d) On a vehicle, with a capacity of 10 or more passengers operated exclusively for one or more of the following purposes:
 1. Transportation of passengers as part of the services rendered to the public by a regular transportation system;
 2. Transportation of students and teachers to and from school;
 3. Transportation of employees to or from any industrial or mining establishment or construction project, except when public transportation facilities are readily available.
- (e) On a truck operated exclusively for one or more of the purposes stated in the preceding sections or for one or more of the following purposes:
 1. Transportation of ice, and of fuel;
 2. Transportation of material and equipment for the building and maintenance of public roads.

VACANCIES IN THE ARMY
Corporal Harvey M. Gist, U. S. Army Recruiting Agent, Pampa, Texas announces the following vacancies in the Army for young men between the age of 18 and 35. All Enlistments are for the Duration of the War. Married men who have no dependents and who will sign a certificate to that effect may enlist. Men who have Registered for the Draft may enlist unless they have been called for induction.

- Vacancies**
- Air Corps, Unassigned, Sheppard Field, Texas.
 - Army of the United States, Unassigned;
 - Ordnance Dept., Pendleton, Oregon;
 - Ordnance Dept., San Antonio, Texas;
 - Signal Corps, Fresno, Calif.;
 - Ordnance Dept., Will Rogers Field, Oklahoma.
 - Chemical Warfare Service, March Field, California.
 - Air Corps, Sheppard Field, Texas (Must be trained automobile mechanics)

STOVE PRICE CEILING SET

A new schedule setting maximum manufacturers' prices for domestic cooking and heating stoves has been announced by OPA authorities in Washington. The ceiling, not to exceed 112 per cent of the lowest price quoted by the manufacturer during the period from January 15 to June 1, 1941, is applicable to "regular line" and "private brand" stoves alike.

According to OPA officials, that arrangement sets the price ceiling at about 2 per cent above the mid-October price levels on a weighted average basis. The action directly concerns prices only at the manufacturers' level, but the office is prepared to check further advances by wholesalers, jobbers or retail outlets. Production practices will be carefully watched to insure an equitable supply of stoves in all price ranges.

In spite of bad breaks here and there, 1941 will go into the books as the year of greatest total agriculture so far in the history of the United States, says Secretary of Agriculture Claude R. Wickard.

THAT'S FOR MY CAR... AN EXTRA YEAR OF YOUTH... Important Always but Absolutely Vital NOW!

HELP GIVE YOUR CAR AN EXTRA YEAR OF YOUTH

WITH auto manufacturers cutting new car production in the interest of defense, there's no telling how long my present car may have to last. So, naturally, I want to keep it in the best condition possible. And with that in mind, I sure take my hat off to my Cities Service Dealer. First of all, for pointing out sometime ago what the auto experts say: 'You can help give your car an extra year of lively, youthful performance if you give it the right service.' Secondly, for providing the kind of service that those auto experts recommend. Yes, sir, I can tell you, as far as my car is concerned, it's Cities Service all the way—the right service for that vitally important extra year of youth."

SEALED LUBRICATION . . . Lubricants used are sealed from refinery to your car, thus eliminating wear due to dirt.

CISCO SOLVENT . . . A complete internal bath for your engine. By cleaning out sludge, gum, dirt and varnish, it helps restore youthful pep and power to your car.

CITIES SERVICE PETROLEUM PRODUCTS . . . New Koolmotor gasoline, heat-proved Cities Service Koolmotor and Cities Service motor oil. Trojan lubricants and other proved Cities Service Products . . . all important factors in the program of youth-giving service for your car.

Also a complete line of tires, batteries and accessories.

TIRE RATIONING STRESSES NEED FOR LISTING ALL SERIAL NUMBERS

Since tire rationing will be more incentive to tire thieves than the depression a few years ago, Sheriff Guy Wright issues timely suggestions to tire owners this week.

It will be recalled that tire theft epidemics struck Clarendon and Donley county citizens often back in the dark financial days, he says. Stealing tires is not a new thing, the Sheriff states, and that he might as well get ready. In this connection Wright suggests an effective manner in which to cooperate with the law enforcement officers including the two highway patrolmen assigned to this county last week.

Serial numbers aren't new, either. They've been on tires ever since the first ones were made.

What's new, then, isn't the tire thieves or serial numbers, but the tire rationing system that has been put into effect over the nation. And anybody who's tried to buy new tires lately knows that Uncle Sam means there aren't going to be any—now or in the immediate future—for the ordinary run of civilian motorists. It's re-treaded or second-hand tires, or none.

Reason for Emphasis

That's why Wright and the rest of the force are emphasizing those serial numbers at the present time.

"We aren't going to be able to stop all of the tire thieving that can be expected as a result of the tire rationing system," Wright declares.

"The best we can do is to keep trying to prevent as much of it as possible, and to ask for the cooperation of car owners in holding the loss to a minimum," he added.

Here is where that serial number enters the picture.

It's the only method of positively identifying a tire. Consequently, if a tire is stolen, in most cases the owner wouldn't have a chance to get it back unless police were supplied with the serial number.

Yet Wright is convinced, from his long experience, that 980 out of every 1,000 car owners don't know the serial number of any of their tires.

The number might not be readily available, either, after the tire has been stolen. Stores here three years ago discontinued the practice of keeping records of the serial numbers of tires sold each customer. Unless the tires were bought on extended term credit, in which case mortgage papers would bear the numbers of the tires, there would be no source to check to get the numbers.

Serial numbers of tires ought to be permanently recorded as they are of as vital importance as the license number, Wright said, and the file should show by number the position of each tire on the car.

Can Enlist Aid

Car owners can do the job themselves, or have their service station attendant help them, he suggested.

Because the modern tire thief works fast, he usually takes the wheel the tire is mounted on, Wright pointed out. A wheel can be taken off quicker than the tire can be stripped off the rim.

For that reason, owners could be assured of means of identifying their recovered stolen wheels if they would put some peculiar identifying mark on each wheel.

Car owners were cautioned to put their vehicles in garages overnight, and to lock them when leaving them on the street. Unlocked cars can be rolled from a lighted street to a dark one and stripped in a few minutes, he warned.

American destroyers are the only ones in the world which can be refueled without stopping at sea.

Congress is considering a bill to authorize a sailors' medal for distinguished service "not involving actual conflict."

The average person in this country used nearly 25 pounds of cotton each year from 1935 to 1939.

The Alma Mater of the Naval Academy is "Navy Blue and Gold."

Lunching on American Bacon

American bacon sandwiches form the lunch of this British coal miner, photographed as he halted work for a meal far underground. U. S. farmers are making it possible to send thousands of tons of pork, dairy, and poultry products overseas, thereby giving new strength to the English people in their fight against Nazi Germany.

ALL MEN FROM 20 TO 64 WILL BECOME SELECTEES FEB. 16

Washington, Jan. 5.—Officials estimated that 1,300,000 men would be made immediately available for the armed services by the Feb. 16 registration of those aged 20 to 44, inclusive, who are not already on selective service rolls.

President Roosevelt's proclamation setting the mid-February date for listing of unregistered men subject to combat duty under the new selective service law will affect about 9,000,000 men.

Officials said it was expected that this group would include the following Class 1-A men, available for immediate call to duty:

20-year olds, 600,000; 21-year olds (who have reached that age since the last registration), 300,000; 36-to-44 year olds, 400,000.

Army expansion plans are military secrets since the start of the war. However, the last official word was that some 915,000 men in the presently registered 21-35 group would be called before the army dipped into the new registrants.

With over 1,800,000 men already in the army, the new registration will place the nation in position to put over 4,000,000 men under arms without calling any classes under 1-A and leaving out of account any men under 20 who may be accepted as volunteers.

The new selective service act provides for registration of all citizens and most aliens aged 18 to 64, inclusive, although only those aged 20 to 44, inclusive, are subject to combat duty.

Mr. Roosevelt's proclamation made no mention of those outside the 20-44 group. There were unofficial reports, however, that two additional dates would be set—one for registration of 18 and 19 years old, and the other for the 45-64 group.

In the technical language of the proclamation, the Feb. 16 registration order applies to men born on or after Feb. 17, 1897, and on or before Dec. 31, 1921. The existing machinery will be used. Selective service headquarters

is preparing a new questionnaire which will develop more information on skills than does that used heretofore. The purpose is to learn what special abilities the registrants have with an eye to use in war industries or home defense of those who are not inducted into the armed services.

Texas Pension Checks Ready

AUSTIN, Jan. 6.—Addition of new recipients to the state's old age pension rolls slowed somewhat in December but January checks averaging \$19.23, an increase of 13 cents over last month, will be mailed out shortly, pension officials said today.

The newly-inaugurated aid to dependent children expenditures doubled while aid to adult needy blind rolls increased but slightly. Department of public welfare officials reported January pension checks, totalling \$3,152,002, would be sent 163,910, the largest number yet and 2,608 higher than those of December. Last month's gain over November was 3,457.

Twenty-seven hundred and twenty-nine families with 5,753 children will receive checks averaging \$20.71. Statutes limit grants to families with one child to \$16 and families with more than one to \$24. The total January cost will be \$56,520 while last month 1,368 families with 2,376 children received \$28,328.

The aid to the blind program showed the least change, increasing 368 recipients to a total of 2,186 with grants averaging \$23.17, a decrease of eight cents. The checks amounted to \$50,646.

A grandson of King Louis-Phillips of France and a cousin of the King of Portugal have been graduated from the U. S. Naval Academy.

E. F. Bryan Dies In Amarillo

Funeral services for E. F. Bryan, 68-year-old Amarilloan who died at the family home, 1500 Bonham Street, Saturday afternoon, were held at 1:30 o'clock Monday afternoon in the First Baptist Church with the pastor, Dr. A. D. Foreman, Jr., officiating.

Pallbearers were Ted Ferguson, Jim Jenkins, Dr. J. B. Landers, Ode Caraway, Joe Goldston and Tom Connally.

Survivors include the widow, two sons, Dr. Harry C. Bryan of Colorado Springs and Alan J. Bryan of Clarendon; four daughters, Mrs. Ed Bentley of Lakeland, Fla.; Mrs. H. Guyburson of Dallas, Mrs. Floyd Keener of Vernon and Mrs. Glen Casey of Amarillo; three sisters, Mrs. W. A. Land, Mrs. Buel Sanford, and Mrs. Frank Whitlock of Clarendon; two brothers, Regan Bryan and Earl Bryan of Clarendon.

Interment was made in Citizens cemetery here Monday afternoon.

Mr. Bryan was interested in business here for many years, he having owned the Rexall drug store for several years. He moved to Amarillo several years ago to be more convenient to his oil interests.

State Office Pulls Boner

This is to inform you that an error has been made by the State Office in a news item sent out for you to print at a late date. The news item stated that the wheat, barley, grain sorghum, and cotton loans would close December 31st but this is in error as the grain sorghum loan will be held open until January 31st and cotton loans will be held open until April 30th. I would like very much for you to print our retraction in your paper so that all farmers may know that there was an error.

Sec'y Donley County A.C.A. Walter J. Flynt

Apples occupy more refrigerated warehouse space in the United States each year than any other single item.

Dickie Garments Made In Texas

The Williamson-Dickie company of Ft. Worth, largest manufacturer of men's garments in the Southwest, will tell you of their excellent products through your Donley County Leader for the next several weeks.

This company specializes in men's every-day wear that "fit better, wear longer and look neater." Shirts and pants made in Texas for Texas men.

The expansion of the Williamson-Dickie company was made possible through their quality products at a fair price. You will find them in Clarendon at the Mellinger & Rosenwasser store.

In Texas, 130 daily and weekly newspapers carry the advertising of the famous "Dickie" brand of men's clothing, as well as many newspapers in Louisiana, Oklahoma, Arkansas, Kansas, Nebraska and New Mexico.

Don't forget that "Goods Made in Texas, Make Texas." When you are assured of a better fit, longer wear and a neater look, buy a Texas made product at no higher price by buying DICKIE brand clothing.

DO YOU KNOW TEXAS?

Q. What elective offices has Governor Coke Stevenson held?
A. County Attorney, Kimble County; County Judge, Kimble County; Representative of 86th District; twice Speaker of the House of Representatives; elected twice as Lieutenant Governor of Texas.

Q. When and where was Coke Stevenson born?
A. Coke Stevenson was born on March 20, 1888, in a log hut in the edge of Mason County, and moved to Kimble County with his parents when he was three weeks old.

Q. What was Coke Stevenson married?
A. He was married to Miss Fay Wright on December 24, 1912, at Junction, Texas.

Q. What size family does he have?
A. One son, Coke Jr., born December 27, 1913, in Junction, Texas.

Q. What does his son do?
A. He is county attorney of Kimble County, serving his second elective term.

Q. Give the education background of Coke Stevenson.
A. During a seven year period, he attended a rural school for a total of 22 months.

Q. How many crippled children have been treated since the beginning of the State's program of physical restoration?
A. Approximately 5,000 children have received treatment with the State's assistance.
