Bronchos district champs by defeating Memphis 52 - 51

Calendar of Events

THURS., FEB. 22 - 7:00 p.m. Extension Homemakers Leader Training on "Home Accessories", County Extension Office.

SAT., FEB. 24 - Howardrick Lion's Club dinner and meeting at City Hall, 6 p.m.

MON., FEB. 26 - 3:15 Good Luck (4th Grade) 4-H Club Skating Party.

MON., FEB. 26 - 3:15 Good Luck 5th Grade 4-H Club Meeting, Room 101, High School.

Rites held for Joe Kent Mooring Sunday

Funeral services for Joe Kent Mooring, age 14, son of Mr. and Mrs. Arlis D. Mooring, were held at 2:00 p.m. on Sunday, Feb. 18, 1979, in the First Baptist Church, with Rev. W.R. Lawrence, Supply Pastor of the Calvary Baptist Church in Borger, and Rev. Paul Heil, pastor of the First Baptist Church in Clarendon, officiating. Interment was in Citizens Cemetery with the arrangements under the direction of Robertson Funeral Directors.

Joe Kent Mooring died at 8:15 a.m. on Friday, Feb. 16, 1979, in Hall County Hospital in Memphis. He was born on August 26, 1964 in Clarendon.

He was a victim of Muscular Dystrophy and was a Freshman Student in Clarendon High School. He was a Baptist.

Survivors include his parents, Mr. and Mrs. Arlis D. Mooring of Clarendon; a sister, Miss Stacy Mooring of the home; a brother, Ricky Mooring of Clarendon; grandparents, Mr. and Mrs. Joe Bownds of Clarendon; and great grandmother, Mrs. C.E. Killough of Clarendon.

Casket bearers were Rodney Hicks, Sherman Cosper, Lynn Floyd, Jack Eads, James Watts, and Eddy Eads.

Honorary bearers were Tony Kuhn, Keith Day, Doug Walker, Rod Davis, and Neal Johnston.

Bronchos lose bi-district by score of 50-52

Climaxing a series of heart stopping games which won them the District 2A title, the Clarendon High School Boys Basketball team competed in the bi-district game with Stratford in the Amarillo Civic Center Tuesday evening.

Final score of the game was 50 to 52, Stratford winning.

High scorer for the game was Billy Gardner with 13 points. Gary Thomas had 5 rebounds. Justin Lemons and Gary Thomas made 11 points each. Keith Floyd scored 7 points. Gary McClellan hit 6 points with Lynn Thompson scoring 2 points.

Bronchos are 2A Champs

The Clarendon Bronchos win district with an exciting play-off finish. After losing two overtime games the first round, Clarendon went 5 straight to win the second half. This forced a play-off with Memphis, last year's regional qualifier, at Pampa on Friday night.

The Bronchos and Cyclones met for the third time and made it interesting. The Cyclones won at Memphis by one in double overtime and the Bronchos won in Clarendon by six. On Pampa's neutral floor the teams played even ball with the score tied the 1st quarter 8 to 8, at half-time 24 to 24, the third quarter 36 to 36 and then a final: Clarendon 52 - Memphis 51. Billy Gardner iced the game with two free throws at the second mark to go ahead by 3 points. Memphis scored at the buzzer. Billy Gardner ended up with 22 pts., Gary McClellan and Keith Floyd had 10 pts., Justin Lemons had 8 pts. and Gary Thomas scored 2 pts.

The Bronchos face Stratford Feb. 20 for Bi-District at the Civic Center in Amarillo.

The Bronchos are to be congratulated and commended for their efforts this season.

Bronchettes finish season 18 and 10

The Clarendon community is proud of the girls this year. They have displayed qualities that will carry forward to the years ahead. The Bronchettes accomplished many of their goals this year and have already set even higher goals for this spring and next year.

The Bronchettes predict a first place finish in track this spring and are determined to win twenty plus games in 1979 and 1980 and first in District.

Coach Overcast stated that he enjoyed the opportunity to coach the Bronchettes and feels that the parents of each and every one of the girls are to be commended.

The Bronchettes and coaching staff would like to thank the community for their support this year. Next year is full of promise and opportunity.

NEW EMPLOYEES AT Sherwood Shores IX (left to right) Chuck Ross, General Manager Grady Dozier, and Kay Cole.

Sherwood Shores sells to Southland Properties, Inc.

In a recent sale the properties at Sherwood Shores sold and were purchased by Southland Properties, Inc., who home offices are in Tyler, from the previous owners. The property here will remain Sherwood Shores IX as before.

With the sale of the property came a change of personnel also and three new families will move to the Clarendon-Howardrick area.

Grady Dozier is the General Manager of Southland Properties and he and his wife, Pam, are in the process of moving to Howardrick from the Dallas area. Grady and Pam are lake recreation enthusiasts who enjoy waterskiing, boating, fishing, swimming and lakeside living. Grady spent much of his early youth around the Lake Texoma area and the couple describe themselves as outdoor persons.

Kay Cole, the mother of two youngsters, 9 and 4, has moved into a home in Clarendon. She and her nine year old daughter, Tracy, and four year old son, Ross, (Rooster) were former residents of Sherman.

The third family, the Chuck Ross family, also from Sherman, will reside at Howardrick. Chuck and his wife Debbie have an almost one year old son, Aaron.

Dozier has been in the resort business for seven years and Southland Properties, Inc. is currently developing and marketing in four states, Texas, Oklahoma, Kansas and Missouri.

At Sherwood Shores IX there is still a wide variety of property from which to choose with waterfront, water view, residential and mobil homes and ranchettes; large acreage tracts in Carroll Creek Estates.

Although the variety is still wide, the number of lots available is only 600. If this sounds like a great many it is the amount left from the original number of 3,100 lots. Having once purchased a lot many persons have decided to add one or more adjacent lots to their existing property for other family members or for friends.

If you are interested in a place for weekending, retirement or for an investment consider Sherwood Shores where there is a community building for family gatherings, a recreation park with swimming pool, restricted home site areas, an attractive large mobile home community, access to all utilities plus the advantage of recreational facilities of Greenbelt Lake.

There will be Grady Dozier or some one else available from 9 a.m. to 7 p.m. seven days a week at the office of Sherwood Shores in Howardrick or call 806 874-3333 for information.

RETRIEVED STREET SIGNS taken by unknown persons.

Senior Citizens to serve meals five days a week

Beginning February 19, the Clarendon Senior Citizens Center will serve noon time meals five days a week instead of three as they had done previously.

Prior to Feb. 19, Monday, Wednesday and Friday were the days when senior citizens were served hot meals. With the extra help which CETA has provided the Senior Citizens Center will serve five days a week.

These meals are cooked and served by Ruth Mills, manager of the center, and two assistants. One day last week 101 persons ate lunch with the Senior Citizens and during the month of February, to date the number has averaged 64.14 persons per day.

The Senior Citizens get no government help with their groceries for these meals which are for Senior Citizens only, those 55 years of age and over. The Center asks a \$1.00 donation per meal, for their good food.

If you are eligible come and eat with friends and acquaintances at the Clarendon Senior Citizens Center, at the corner of 100 East Fourth and Gorst St., one block east of the Clarendon Post Office.

Roping Club

Clarendon Roping Club will meet on Friday, Feb. 23, 1979 at 7 p.m. at James Owens Boot Shop in Clarendon.

Interested persons are invited to be in attendance.

Country Club news

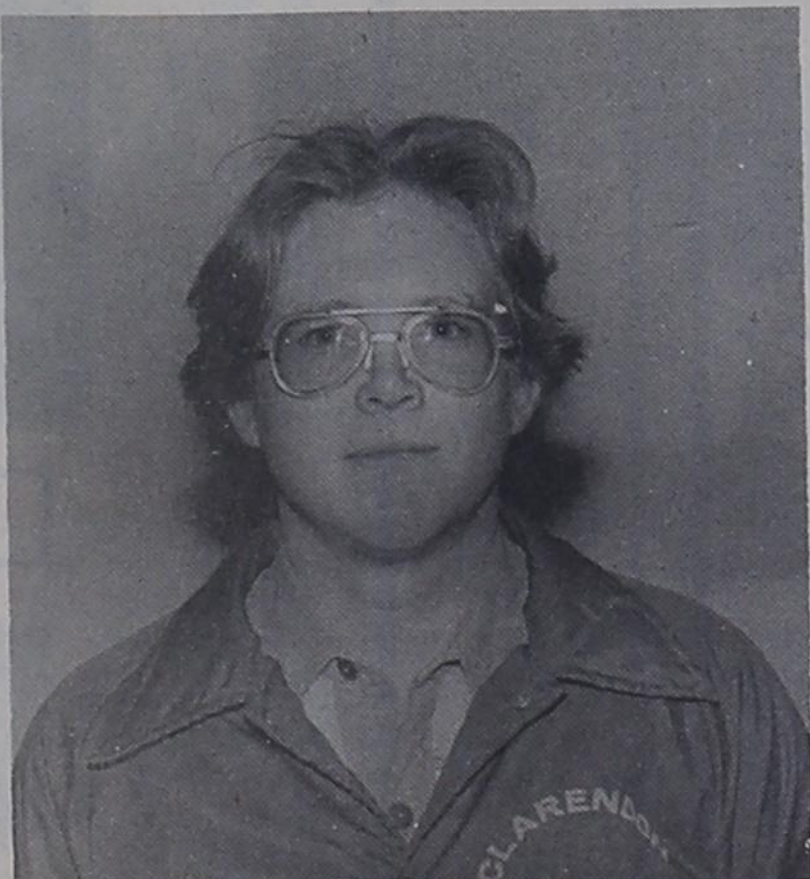

A steak and lobster special will be served at the Clarendon Country Club on Saturday, February 24, from 6 to 9 p.m.

Please make your reservations as the dinner will be for reservations only.

Presbyterian services

The Rev. John Otey will supply the pulpit at the First Presbyterian Church, of Clarendon and Memphis, again this coming Sunday, Feb. 25, 1979.

Contributions for One Great Hour of Sharing will be accepted.

BOBBY KIDD, Fireman of the Week.

City Police report

City Police reported they had worked six wrecks Friday, Feb. 16, when heavy snow and slick conditions combined to create hazardous road conditions. Fortunately no injuries were reported.

Monday, Feb. 26, a collision at West 5th and Jefferson at 8:15 a.m. caused about \$2,000 damages to two pickups involved, but no injuries to Joe Robert Leathers and Jerry Davis, drivers of the vehicles.

Failure to yield right of way was given as cause of the accident.

Early last week Clarendon College officials notified the city of Clarendon of the overnight appearance of a great number of city street signs piled near the fence west of the track oval at the college. When they were picked up the city pickup bed was filled.

The city will spend roughly \$300 to reset the signs in place. Since pipes were broken on the signposts where the signs were not otherwise damaged this act constitutes a 3rd class felony. Penalty for this may be assessed for not more than \$5,000 fine and for as much as 2-10 years in the penitentiary.

Chief of Police Bill Hodges reported investigation was continuing into the incident and declined to comment on the progress.

Meet Bobby Kidd A Volunteer Fireman

Bobby joined the Clarendon Volunteer Fire Department in 1978. He is presently employed by Greenbelt Water Authority in Clarendon.

The citizens of Clarendon and Donley County are very fortunate to have young people like Bobby take enough interest in our community to volunteer their time and effort toward its betterment.

Spring election report

Prospective candidates for the City of Clarendon, Public School Board of Trustees and Donley County Hospital Board of Directors elections which will be held April 7, must file their applications soon to be eligible to run.

The Alderman position, which is presently held by Charles E. Deyhle, Jr. is being vacated because Deyhle will not be residing within the city limits of Clarendon. This position being vacated, the expiring office of Mayor Leonard Selvidge, and the alderman positions of Shir-

Voters must register

To be a qualified voter in the upcoming elections residents must have registered or if they have not done so, must register at least 30 days prior to the election.

To register you may go to the Donley County Courthouse tax office and the clerks will help you.

County Commissioners appoint Billy Christal County Judge

At a 10 a.m. Monday, Feb. 19 called meeting, the Donley County Commissioners opened eight letters of application for the position of Donley County Judge, after the written resignation of the present judge, J.S. Hinds, was presented to the commissioners last Monday, Feb. 12. In his letter the effective resignation date was Feb. 28, 1979.

Applications were received from: C.E. Blackburn, Lawrence Neece, Leroy Leathers, Maurice Risley, Doug Wright, W.R. Christal, (runner-up in the election), Cleo Russell and Dick Bode.

W.R. Christal's name was put in nomination and the vote was split two and two. White and Moore voted for Chamberlain and Holland against. Judge Hinds broke the tie by casting his vote for Christal.

Judge Hinds said he felt the runner-up on the ballot who was experienced in the position was a deciding factor for his vote for the best qualified man.

The appointment of Christal will be for two years, until the next general election. At that time the winning candidate may take office immediately after election or wait until the first of the year as he chooses.

W.R. Christal, when contacted, expressed his appreciation for the confidence shown him by the appointment and said he will work toward the best interests of the county.

W.R. [Billie] CHRISTAL

Compiled by Tommie Saye - Cooperative Observer for National Weather Service, Clarendon.

Scouting is for families

Cub Scouts is for the family, says Harvey Dunn, former Cubmaster of Pack 409, now leader of Troop 413.

Mr. Dunn and his wife, Ella, have been involved for five years with the Scouting program, which is celebrating its 69th anniversary this month.

They have been married for 13 years and have no children, and they say Scouting has become a way of life for them.

"We consider them our family," said Mrs. Dunn, referring to Pack 409 for which she is a den mother.

Mrs. Dunn said that she and her husband are in Scouts because of two boys whom she knew.

They came to her home one afternoon with Cub Scout applications and were excited about joining. The boys were unable to be Scouts because the area was short of den mothers and troop leaders. After seeing that the boys were upset, she volunteered temporary services.

CLARENDON PRESS

and the Donley County Leader. Published every Thursday at Clarendon, Texas, 79226, Box 1110, at Hwy 287 and Jefferson Street and entered as Second Class Mail at the post office at Clarendon, Texas. Helen Woody, Publisher and Jeanice Weatherly, Editor.

Subscription rates: \$8.50 a year outside Donley County, \$6.50 a year in Donley County.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

Later at a Scout meeting, she helped enlist her husband on a short-term period. "Temporary must have meant 25 years," said Mr. Dunn laughing with his wife.

The Dunns have created many activities for promoting the family.

"We started the Father and Son Bake Sale within our pack, and were one of the first in the city to raise funds in this manner; it is used by other packs now," said Mrs. Dunn.

A boy and his father bake a cake, which is created on the basis of a theme agreed upon by the Pack. Some of the themes have been the farm, Indians, and the circus. Mrs. Dunn said that one cake was shaped and colored like a big top.

These cakes are auctioned, and the money goes into the Pack's funds. Under the farm theme, Pack 409 sold about 30 cakes for \$197.

A mother and her son, who is a Scout, build a kite to enter in a contest. The kite that flew the highest and longest at the last contest was made of a black garbage bag.

The couple also began a Bike Rodeo. The Scout raced his bike through an obstacle course to prove the vehicle's durability, then drove it around a safety course where a policeman judged the rider on his turns, stops and signals. The boy's bike was inspected at four different stations manned by parents. If the boy's bike passed he got an inspection sticker. If not, he went to a repair station then through stations again. On the obstacle and safety course the boy was judged on his riding ability, if he passed this he received a small driver's Bike

license signed by the policeman and the Cubmaster. All the boys especially liked the idea that their bikes would get inspected just like their dad's cars and that they would have a driver's license just like dad.

The Scouts in Pack 409 sold candy to pay for their registration and Boys Life.

Pack 409 is sponsored by the Moose Lodge.

Troop 413 is sponsored by the National Guard Armory.

The pinewood Derby, a regular Scouting event, gets a father and son together to build a small wooden racing car. The cars are raced against each other at the derby which also includes a picnic.

The Scouts, said Mrs. Dunn, now let their applicants sell candy to pay for their fees. This helps them learn responsibility, her husband added.

Harvie has earned the Scouting Trainees Award, Scouters Key and Den Leader Training Award, served Roundtable Staff, Council Camping Committee, Scout Exposition Committee, Pow Wow Staff, Akela Kiva Staff, and Scouters Honor Roll.

Ella has earned Den Leader Training Award, Den Leader Coach Award, Scouting Trainers Award, District Award of Merit in 1978 and has served on Roundtable Staff, Scout Exposition Committee, Pow Wow Staff, Akela Kiva Staff, Unit Commissioner for Pack 409 and Pack 411 and Scouters Honor Roll.

EVERGREENS PROVIDE "In town conservation" of wildlife and energy as well as beauty.

Prepare for crop season with soil tests

With the present favorable supply and cost of fertilizers it is important to adequately fertilize crops this year, believes Ronald Gooch, county agent with the Texas Agricultural Extension Service.

Even though most soils contain some of all the essential nutrients needed for plant growth, most also need one or more fertilizer nutrients to produce economically profitable yields. The amounts of a given nutrient available in a soil vary greatly between soils due to past fertilization and cropping as well as native fertility. However, a soil test can help determine the level of nutrients available in a soil.

The first step in collecting samples is to use a map or sketch to divide the farm and

fields into sampling units. If the sampling unit is too large, the information obtained may not be much better than a general fertilization guide.

Under today's conditions a major objective in soil testing is to identify those soils with nutrient levels that are not adequate to meet crop requirements. This enables the producer to select fertilizers that will supplement soil nutrients and provide enough for top yields, notes Gooch.

Soil test results for phosphorus are especially valuable for measuring buildup that occurs in fields receiving regular applications of phosphorus for several years. However, the residual from row applications is difficult to measure until it is thoroughly mixed with the soil.

In addition soil tests will identify those soils high in potassium so that this nutrient need not be applied. Since most soils are low in nitrogen, a soil test will generally not give a reading on nitrogen levels in the soil. But it is important to consider the level of each nutrient in a soil when selecting the most profitable fertilization practices.

If you have not included soil tests in your farm planning program, start now to prepare for this year's crop, suggests Gooch.

Instructions for collecting and mailing soil samples are available at the county Extension office.

Dinner Theatre group to form

Planning is underway for the production of a Dinner Theatre presentation at the Clarendon Country Club on April 21, 1979 and interested persons are needed to join the group.

It is hoped that interest in this area will attract enough persons to encourage the formation of a Little Theatre Group here.

If you are an aspiring actor, set designer, makeup artist, prompter or stage manager or want to learn about theatre, contact Nancy Selvidge at 874-2507 or Patsy Wilson at 874-2480 for more details.

Trees for "In Town Conservation"

The Donley County Soil and Water Conservation District has had an excellent response from individuals requesting windbreaks. The Soil Conservation Service has assisted in planning windbreaks for farmsteads, gardens and wildlife.

Because of a number of requests from home owners in town for trees the SWCD will have available for order, Afghan Pines in one, two and five gallon containers.

Beauty is probably the first thing to come to mind when planting trees. However, trees can provide energy conserving protection. Evergreens planted facing the north will guard your home from chilling north winds. Deciduous trees (those that shed their leaves), facing south will give your home energy saving shade in the summer. In the winter the fallen leaves will allow the sun to help warm your home through.

A little thought of use of a well planned landscape is providing wildlife habitat for in town wildlife. Songbirds will use evergreens for winter cover and protection. Fruit or seedbearing trees and shrubs will supply a yearlong food source if carefully planned.

Planning assistance and guidance for initiating "In town conservation" is available in the SCS Office on S. Kearny at

McLean bank

to have grand

opening

The American National Bank was established as the American State Bank in McLean September 30, 1909. The first building was approximately one block south of the present location. The bank opened for business in 1909 with \$42,000 in deposits. Current assets of the bank total \$8,994,677.25.

Area residents are invited to attend the grand opening of the newly remodeled American National Bank in McLean February 25, according to James S. Allison, President.

The open house will be held at the bank from 2 p.m. until 4 p.m. February 25, Allison said.

Dog obedience training class

The Clarendon Dog Obedience Training Class held its sixth session Monday night in the high school gym with Mary Beard, Amarillo Obedience Training Club Instructor. She brought Irish Setter Clyde C.D. with her for demonstration work.

Exercises were practiced with warm ups of "Heel, right turn, left turn, about turn, halt." "Down your dog, come front, stay, leave your dog and back to your dog" were refreshers from previous weeks of lessons. The "down your dog" while heeling and the "down your dog" from a sit position was also included. The "come front and finish" commands were also executed.

Commenting on the prowess of the class Mary Beard stated that she had never taught or visited a class to equal these

dogs and their trainers in all of Illinois where she has taught dog obedience or here in Texas where she has spent most of her training time. Coming from a judge in the obedience ring this should be quite a compliment for this class.

New work included the inside and outside circle with the serpentine formation used to help acquire the prerequisites for accomplishing the figure eight.

During a short refreshment time for recess Mary and Bob Andis told the group of the oncoming FUN MATCH to be held in Amarillo by the A.O.T.C. at the Exhibits Building at the Tri-State Fair Grounds April 8, 1979. Registration will begin in the morning and the show will begin immediately after noon. Mary is trophy chairman and she exhibited one of the first-

place trophies of wood. She encouraged the class to enter the Sub-Novice division to win and for fun. Fannie Wilson, Sadie Wilson, Rick Hayes, Mary K. Hayes and Darla Slover were interested visitors.

Karen Benke with her English Setter will conduct the next class. She is secretary of the club and an active instructor. She has been training her dog for the Companion Dog title, graduating her dog in several classes of Obedience Training at the Amarillo College with Mr. Ban McClendon, instructor. Karen and Dave reside in Amarillo.

The seventh training class will be held Monday February 26 at the high school gym at 7:30 p.m. with special emphasis on preparation for the coming GRADUATION of this first group to train their dogs. A beautiful trophy will be awarded first place and ribbons for several following places. Judging will be done with scoring of points on all exercises that are being taught.

Visitors welcome to next class.

More than 30 million veterans

For the first time in history, the nation's veteran population has climbed above the 30 million mark.

And Jack Coker, Waco VA Regional Office Director, said today that the number is likely to keep climbing during at least the next few months before leveling off.

At the end of November, VA estimated the number of living veterans at 30,023,000. A year ago, the number was 29,879,000.

Coker said the continuing increase is due to the fact that discharges from military service have been exceeding the number of deaths among veterans. The lower death rate, in turn, is a reflection of the increased life expectancy in the past few years.

Coker said the largest group of living veterans are those who served in World War II. These numbered 12,866,000 in November and their average age was just over 58 years.

JUSTICES OF THE PEACE from across the state of Texas attended a 40-hour Texas Justice of the Peace Training Center seminar recently. The training center is based at Southwest Texas State University in San Antonio. Among the judges attending were (second from left) Judge Ernest Kent, Donley County, Precinct 2.

The Lions Tale

by Gene Alderson

The Clarendon Lions Club held its regular meeting at noon on Tuesday with 26 members present. Following the meal and the opening ceremonies, Boss Lion Courtney announced that Lions District 2T1 would hold its district convention in Amarillo on May 5th and 6th.

The program was brought by our own Lion Sweetheart Cynthia Manning. Cynthia is the Donley County Extension Agent. Would you believe that, right after many of the Lions had got in their cars and had driven the one to two blocks to the Lions Hall and proceeded to enjoy a big meal, that Cynthia had the nerve to bring a program on weight control and the importance of exercise. I

guess it was kind of appropriate, though.

Cynthia told us there are four basic reasons for weight control - cosmetic, improve job possibility, improve self image and improve health. However, lose no more than one to two pounds per week. As you get older, you normally exercise less, therefore your body requires less calories. You should reduce the amount of food and calories you consume to avoid having the excess calories go to fat. It takes about twenty minutes to begin to digest food so that you no longer feel hungry. If you usually eat in less than twenty minutes, you may be eating second helpings that you would not want if you ate more slowly.

Myrl Goodwin rites in Nevada

Myrl Goodwin, one of the Goodwin twins who played on the famous undefeated Clarendon College football team in 1922, died on February 14, in Sparks, Nevada. He was 78 years old. Earl, the other twin, died in 1976. This undefeated team was coached by the late Harley True Burton who was recently inducted into the Panhandle Sports Hall of Fame.

Mr. Goodwin is survived by his wife, Helen, and one daughter, Mrs. Frank Knafelc, of Reno, Nev., two grandsons, two great-grandchildren and numerous nieces and nephews.

Goodwin Bray, a nephew who lives North of Clarendon, attended memorial services for Mr. Goodwin in Reno on February 17.

Lone Star seeks full expense recovery

Lone Star Gas Company announced Jan. 26 that it has filed an application for a rule-making with the Texas Railroad Commission seeking authority to recover 100% of purchased gas costs.

At present Lone Star is limited by the commission to an 85% recovery of increased residential and commercial gas costs at the city gate, not all of which is recovered by Lone Star from these customers. The company has operated under such a purchased gas adjustment provision since June, 1975. During the years 1976, 1977 and 1978, about \$30 million of legitimate operating expenses went unrecovered in gas cost alone. If the company had been permitted to recover full gas costs in 1978, it would have meant only a 2 1/2% increase in consumers' bills. The most dramatic increase in Lone Star's cost of operations continues to

be the escalating cost of gas.

According to Doug Williams, senior vice president, operations, the passage of the Natural Gas Policy Act has for the first time placed maximum lawful rates upon all gas produced in Texas.

"For the past three and a half years, we have been competing with other major intrastate gas purchasers who have flowed through 100% of their increased gas costs to their customers," Williams said. "The new federal legislation now places us in direct competition, in addition to the foregoing, with interstate purchasers. Today the interstate purchasers are acquiring valuable packages of gas by bidding maximum lawful prices together with other contract considerations. The federally-passed legislation authorizes these interstate companies to recoup all expenses associated with the higher gas costs which will result from the new legislation."

"The continued erosion of earnings through our inability to recover lawful operating expenses will lead to reduced gas reserves for Lone Star customers and increased financial risk, which will most certainly affect rates and service," Williams continued.

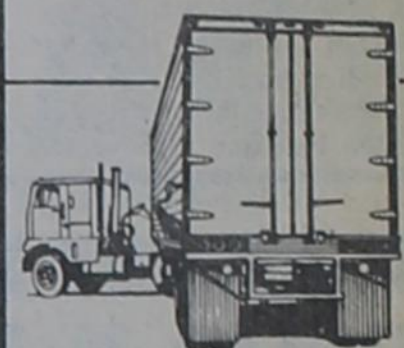

Social Responsibility

submitted by: Susan Payne

Over the past several years, employees and the general public have become interested in issues which didn't concern them much before. Confidence in all levels of government—and in our entire political process—ranks high on the list. Conservation of our natural resources and prevention of further pollution of our water and air are also of serious concern. From another standpoint, there has been criticism of business practices by the general public and consumer groups. Fortunately many companies are making serious attempts to demonstrate that they do care about the welfare of their employees and their community. We're the Future Business Leaders of America, and we realize that business need not divorce itself from the community. We are all on this plane together and we know we had better start working toward the same goals, caring about each other and living together. That's what business is seriously trying to do. We are Future Business Leaders of America-Phi Beta Lambda. We believe in our system. We know it can work.

Vonna Tunnell attends seminar

Vonna Tunnell recently attended an informative three day seminar in Amarillo held for Conklin distributors.

The Conklin seminar, held at the Hilton Inn, had representa-

tives for their company from the surrounding area. Tunnell, a Conklin distributor in Clarendon, is now a full line distributor of the Conklin line.

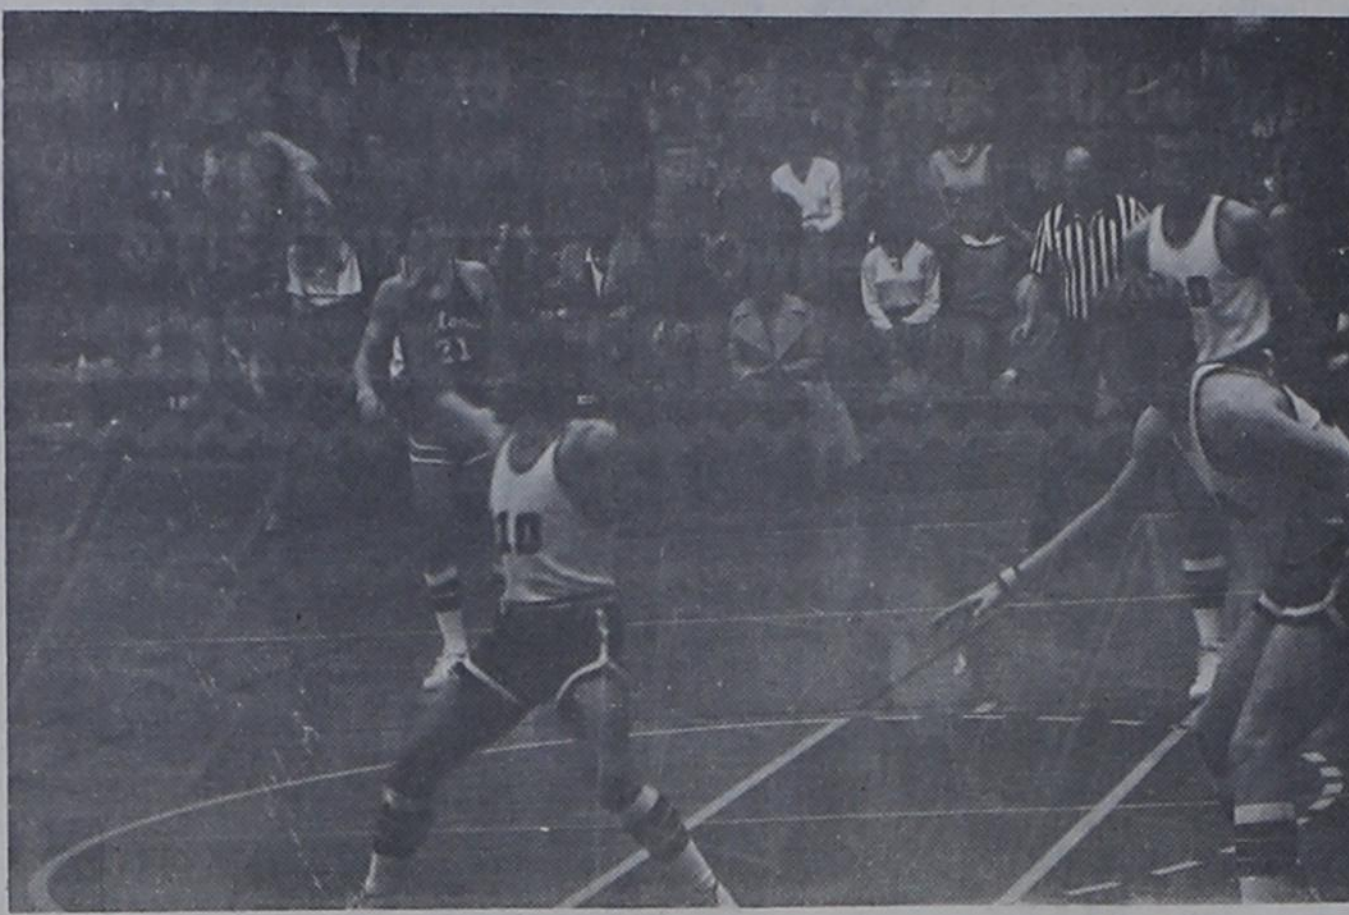

What you read in the Clarendon Press

News has to be reported before it can be printed in the Clarendon Press, and we, the staff members, want to please those who use our paper and who have news of interest.

You are the only one to report your personal news, club news, civic organization, church and school news either through your official reporter or from a member who will act as reporter.

If you bring news in we need to know if you want it printed word for word, if you would like us to edit it, or if you want us to take your information and write the story ourselves.

Call the Clarendon Press, 874-3541, and give your news to any staff member who answers.

JUSTIN LEMONS, GARY THOMAS and GARY McCLELLAN against Memphis in Pampa for District 2A Basketball Championship.

Letter to Commissioner's Court

Fred Clifford's letter to the citizens of the county, two weeks ago, and again last week, indicated that he felt your actions in contemplating building a new office building for the State of Texas to house the local offices of the Texas Department of Human Resources, was irresponsible.

It is our fervant hope this is not true, but only a matter of poor judgement that will be reflected by your soon to be announced cancellation of the proposed project. To be proven irresponsible would indicate to all the citizens of the county that there is something other than that which meets the eye, in your adherence to an obvious waste of money in hand.

The State of Texas also gets revenue sharing money in much larger amounts than any county is allocated and to spend our money on an office building for the State of Texas is preposterous.

Recently, Comptroller Bob Bullock announced a projected surplus in fiscal 1979, of \$743.2 million or more, if revenue keeps pouring in. He states: "This is a conservative estimate, we've got good times, the money's just there."

Does this sound like a state that needs help from a small

county that is almost without question overtaxed and populated primarily by people who can ill afford additional confiscation of limited resources available?

We, the undersigned, ask that you announce, in the very near future, abandonment of this wasteful venture, and spend this money on projects which the county most definitely needs, many of which have already been pointed out to you by other sincere and concerned individuals.

We urge all interested citizens to call their county commissioner and state their view on this issue.

Please make amends.

POLYSTYRENE CEILING TILE
 Is A Wise Choice Because It's ...

- EASY TO CLEAN — Washable with soap and water
- PAINTABLE — May be painted with Latex paint using a long-nap roller
- EASY INSTALLATION — Can be cut with a pocket-knife, featherweight, staple or glue-up, no dust
- ECONOMICAL — Most applications do not require furring strips — can be stapled directly to sheetrock
- INSULATES — Has same insulation value as polystyrene coffee cups and ice buckets — K Value 0.24 remains constant with age
- MOISTURE PROOF — Does not contract or expand with humidity changes — may be used in bathrooms and basements where fiber tile should never be used
- LIGHT REFLECTANCE — Grade LR 1. By reflecting 94% of the light, Thermo-Tile brightens and seems to enlarge any room without glare.

Teenagers need nutritious food

Teenagers need plenty of nutritious food to meet the needs caused by their body's large growth spurt.

The teenage boy needs more calories than a girl, so he can eat considerably more food than she at this age.

Because a girl needs fewer calories, she must choose food more carefully to meet nutrient needs.

Many teenagers have other problems meeting nutritional needs. --Some parents are unaware of the food habits of their teenagers.

The development of healthy attitudes toward food is an important responsibility of parents. Don't underestimate the influence of fathers', as well as mothers', examples.

--Poorly chosen snacks and those that interfere with meal-time appetites present a problem.

This is a particular problem for the teenage girl since she needs to choose nutrients wisely to avoid too many calories.

Parents can help teenagers recognize the difference between nutritious and "empty calorie" snacks and help them develop sound snack-consuming habits to improve their diets.

The kinds, time of day and amounts of food they consume as snacks can be critical to teenagers.

--Skipping breakfast can create problems in meeting the teenager's need for food.

Families who eat breakfast together are more likely to maintain breakfast habits.

--Exercise is important for teenagers in maintaining healthy appetites and using excess calories.

--Time is a problem for many teenagers who are active in school affairs or who may have jobs.

These demands make it hard to eat with the family and can lead to informal snacking rather than eating a nutritious meal.

--Low income of many families is also a problem for many teenagers.

--Peer pressure influences teenagers' eating habits and their physical growth. The concern for personal appearance often provides the teenage boy the motivation needed for eating the large amounts of food adequate for growth and filling out his form.

from Cynthia Manning
County Extension Agent

However, teenage girls want to fit the expected figure pattern of slenderness to be beautiful. Many feel they must severely limit caloric intake, which can also keep them from eating adequate amounts of food.

Letter to the Commissioner's Court

Feb. 19, 1979 To Commissioner's Court and Taxpayers of Donley County

In regard to Revenue Sharing Funds allotted Donley County, I must say that a second story to the courthouse annex seems absolutely ridiculous. I must agree with Mr. Clifford in that this money could be used in a better manner than this. In fact, the present annex has always been an eyesore to me. It throws the whole courthouse square out of balance, and there is not room for a bug to crawl between the annex and the sidewalk.

As Mr. Clifford, and other taxpayers have suggested, there seems to be lots of better ways to spend our money than this. Since the old courthouse is a historical site, why not spend some money on it? And what about a new jailhouse? Also, ask the working mothers what the Donley County Day Care Center has done for them. It brought approximately \$61,000 into Conley County the past year. The Center is partially funded by Title 20, but an extra matching \$3,000 must come from the county in order for it to be able to operate.

In addition to Licensed, State

Approved child care offered to working mothers, the center employs 3 full time, and several part-time employees. Ask the mothers who leave their children there what the Day Care Center has done for them.

I have to say, if local government has missed our funds there is probably a lethargy on our (the taxpayer's) part. But, it is high time we, as taxpayers, sit up and take notice and speak out.

Whether it be Revenue Sharing Funds, or 1% City Sales Tax funneled into our local governments, it all comes from the same source - OUR POCKETS.

We must not let County or City Officials take the attitude: We have the power - we will pass anything we want to. Both County and City Officials should publish every proposed Law or Ordinance, and let Taxpayers know where our money has gone or is going to go.

The reform of politics should begin at local levels and go all the way to the Whitehouse. Then, perhaps a new era will have dawned - the Era of TAXPAYER'S RIGHTS.

Helen Rogers, Taxpayer

Census Bureau begins 1980 census in Texas

Census Bureau address compiling operations for the 1980 census have begun in Texas from an office located in Dallas, said Mr. Julian Moseley, office manager.

Temporary workers are being hired now to begin putting together lists of addresses from which mailing labels will be prepared for use on the 1980 census questionnaires. They will be mailed to each of some 80 million households nationwide in late March 1980. Census Day is April 1, 1980.

Mr. Moseley said the address-collection phase of the census operation will take several months to complete. Also involved are checks of the lists to make sure all area dwelling addresses are included.

Census workers will drive or walk thousands of miles of streets and roads asking at each household for a correct mailing address. These address lists play a vital role in taking an accurate census since they are used to record completed questionnaires returned by mail. Households which do not mail back a completed census form

within several weeks after Census Day in 1980 will receive a visit from a census taker who will interview householders for the information required on the questionnaire.

The 1979 address collection activity in Texas is part of a Census Bureau program involving 35,000 temporary workers nationwide to compile lists containing approximately 30 million addresses. Another 50 million addresses have been purchased from commercial mailing list companies.

Persons interested in applying for temporary census jobs should contact their nearest state employment agency office or the census office responsible for address listing operations in Texas located at Room 2 C 8, 1100 Commerce, Dallas, Texas 75242.

The Census Bureau is an equal opportunity employer.

Report from Comptroller Bullock's office

State Comptroller Bob Bullock Tuesday said more than a half-billion dollars was spent in Texas last year to buy mixed drinks.

Mixed drink sales for 1978 totaled more than \$653 million, with mixed drink sales for October, November and December of 1978 adding up to more than \$166.8 million.

Bullock said his office has mailed checks totaling \$4.8 million to 205 Texas counties and 343 cities as their share of the 10 percent gross receipts tax on mixed drinks for the taxes collected in the last quarter of 1978.

The balance of the tax money collected—\$11.8 million—will remain in the State General Revenue Fund.

Texas cities and counties receive a 15 percent rebate of the tax collected on mixed drinks sold within their boundaries under the law that legalized the sale of mixed drinks seven years ago. The state retains the remainder in the General Revenue Fund.

Bullock said mixed drink taxes generated \$65.3 million in revenue for state, county and local governments last year. This is \$11.2 million more than was collected in 1977.

Mixed drink sales in Texas in 1977 amounted to about \$540.5 million.

Houston will receive the largest tax rebate—\$647,315.80—for the last quarter of 1978. Somerville's check was the smallest, \$5.65.

The mixed drink tax is collected by the Alcoholic Beverage Commission and the county share is rebated on a quarterly basis by the Comptroller's office.

Locally counties and cities in alphabetical order received the listed amounts: Carson County -- total county tax revenue - \$256.22, County's 15% remittance \$38.43, total city (Panhandle) revenue \$256.22 and the city's 15% remittance \$38.43.

Donley County -- total county tax revenue - \$4,901.00, County's 15% remittance \$735.15.

Gray County -- total county tax revenue - \$7,097.08, County's 15% remittance \$1,064.56, total city (Pampa) tax revenue \$3,371.72 and the city's 15% remittance \$505.76.

Hall County -- total county tax revenue - \$1,388.98, County's 15% remittance \$208.35, total city (Memphis) revenue \$1,388.98 and the city's 15% remittance \$208.35.

total city (Howardwick) revenue \$2,581.94 and the city's 15% remittance \$387.29.

excessive build-ups. If a field is used for intensive production, a soil test should be run more often. This recommendation also applies for fields with special problems.

Better soil management may have elevated soil fertility levels. If this is the case, a soil test will indicate the need for less fertilizer, says Gooch. If yields above those expected were obtained, an increase in fertilizer application may be needed.

"Soil tests cost only a fraction of what is spent on fertilizer application. It's probably the best investment a producer will make," Gooch states. "Money spent on the wrong fertilizer could result in less net profit for 1979."

Anyone interested in soil tests can obtain information sheets to accompany soil samples, instructions for sampling and mailing cartons at any County Extension office, adds Gooch.

Maintaining accurate performance records on each cow is the key to accurately determining reproductive efficiency. These should include the cow's lifetime production in the herd, age, conception data, calving dates and weaning weights of calves as well as calving intervals.

Of that amount \$159.5 million was paid to aged recipients, \$6.3 million to the blind, and \$148.2 million to the disabled, Talbot said.

Nationwide, 4.2 million persons are receiving SSI. Payments totalled \$6.4 billion in 1978, including \$4.9 billion in Federal funds and \$1.5 billion in State funds.

Supplemental security income is a Federally-administered program that pays monthly checks to people in financial need who are 65 or older and to people in need at any age who are blind or disabled.

The aim of SSI is to provide monthly checks so that needy people 65 or older, or blind or disabled, can have a basic cash

income—\$189.40 a month for one person, and \$284.10 for a couple.

Not every person gets that much in his supplemental security income check every month. Some people get less because they have other income.

Supplemental security income is not the same as social security, even though the program is run by the Social Security Administration. The money for SSI checks comes from general funds of the U.S. Treasury. Social security benefits are paid from contributions of workers, employers and self-employed people. Social security funds are not used for SSI checks.

People who get social security checks can get SSI checks, too, if they are eligible for both. But a person does not have to be eligible for social security to get SSI.

If you think you may be eligible for SSI, or if you want more information, call your social security office at 806-376-2241.

From office of Jack Hightower

Congressman Jack Hightower has been selected to serve on two choice subcommittees by virtue of having a seat on the influential House Appropriations Committee.

Hightower, chairman of the Texas Democratic Delegation, will continue to have an impact on issues that confront the American farmer in an expansive role by serving on the Agriculture subcommittee that oversees funds for the operation of the U.S. Department of Agriculture.

The Subcommittee on State, Justice, Commerce and Judiciary on which Hightower will also serve, controls the purse strings of the State Department, the Department of Justice, the Judiciary on which Hightower will also serve, controls the purse strings of the State Department, the Department of Justice, and the Department of Commerce and their related agencies.

"I can think of no two subcommittees that compliment each other so well as the manner of these two subcommittees," Hightower said. "A part of our problems in agriculture can often be traced back to the State Department not playing the role they should overseas in dealing with foreign nations. Increasing exports at a fair return for American producers of all goods is vital to this country's well-being."

"The Department of Commerce can play an even greater role trying to see that government actions and policies have a positive effect on the economy of this country. It is important that these two agencies are useful to our national interest and making the best use of the tax dollar. I hope I can effect positive measures through the appropriations process," Hightower explained.

Soil test now, reap benefits later

Soil tests cost only a fraction of what is spent on fertilizer application. It's probably the best investment a producer will make.

Anyone interested in soil tests can obtain information sheets to accompany soil samples, instructions for sampling and mailing cartons at any County Extension office, adds Gooch.

Local girls serve as Shorthorn Princesses

Lisa and Jamie McAnear, daughters of Mr. and Mrs. James McAnear, Brice Route, are serving this year as Lassic Princesses for the Texas Shorthorn Breeders Association. A princess must show Shorthorn cattle or be a member of a family who raises Shorthorns or Polled Shorthorns, be 14 to 20 years of age, and be willing to promote the Shorthorn breed. Princesses present awards at all shows and sales in their geographic area of the state, and assist the queen at major livestock shows. The official representatives of the Shorthorn breeders are easily recognized in the Royal Stuart kilt and plaid. The girls are sponsored by the Texas Shorthorn Lassic Association, ladies auxiliary.

The sisters have helped with the county Blood Bank. Their hobbies include working with animals, helping younger people, cooking, canning, all sports, and camping. They are active in the First Baptist Church.

Boy Scouts Canadian canoe trip

For the outdoorsman this canoe trip in the far north country of the United States, Minnesota, and into Ontario, Canada is high adventure and every summer older Scouts and Explorers of the Boy Scouts of America take advantage of this wilderness expedition.

To participate in the Canadian Canoe Trip, you must be 14 by September 1, 1979. All participants must possess a current High Adventure medical form 4431. Co-educational crews are subject to the B.S.A.'s policies on Co-ed activities.

Reservations for the Canadian Canoe Trip July 16-31 have a total of \$375. This includes transportation to and from the canoe base, lodging for the complete trip, food while at the base (does not include food during the trip up and back) and fishing licenses.

A \$75.00 deposit is due with application (transferable but not refundable) with \$75.00 due at the last of each of the next four months.

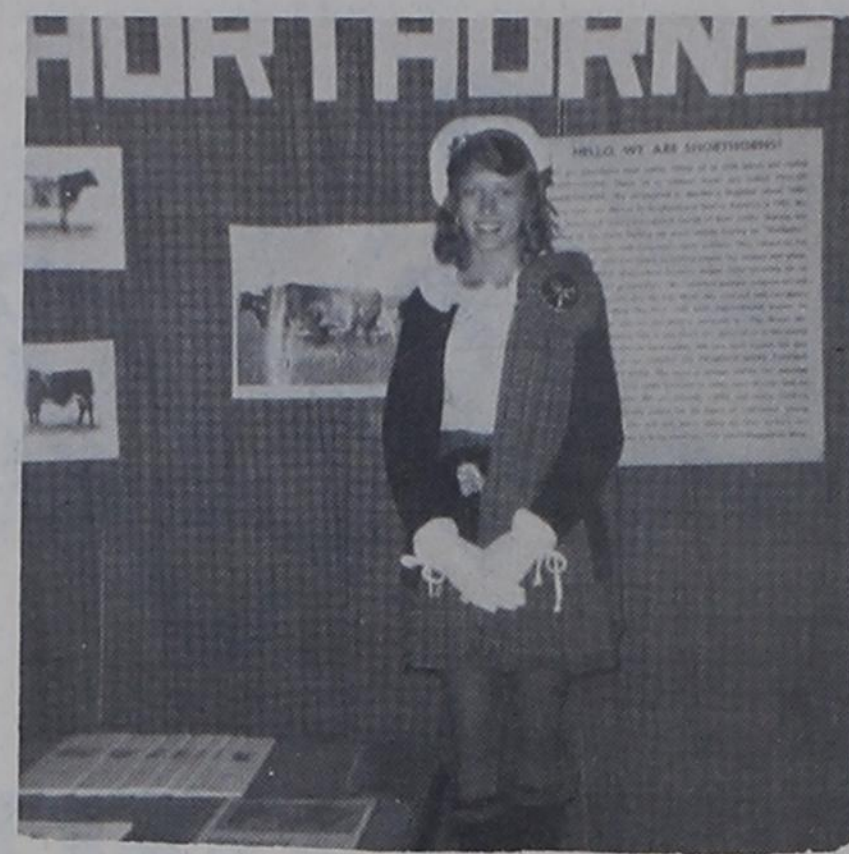

Send unit #, phone, name and address with \$75 deposit to: Council Office, 815 N. Sumner, Pampa, TX 79065.

Wed. - Pinto beans, buttered spinach, pear salad, cornbread, strawberry jello, milk.
Thur. - Beef taco with cheese, buttered corn, lettuce and tomatoes, 1/2 orange, milk.
Fri. - Chili burger on bun, lettuce and tomatoes, tater tots, peach pie, milk.

State Treasurer Harding stated that interest income from investments are up

State Treasurer, Warren G. Harding, stated "It is with great pride and pleasure that I announce to the people of Texas that interest income from the investment of State's funds during my sixteen month tenure in office amounted to \$185,230,502.02, an increase of \$46,726,624.46 over the previous sixteen month period.

Mr. Harding also stated that improvements of the office of State Treasurer has made in the area of interest earned for the State and the percentage of funds invested has resulted in increased earnings to the taxpayers of Texas.

Since being sworn in as State Treasurer on October 7, 1977, the percentage of funds invested has steadily been increased from 84.8% to an unprecedented average monthly percentage of 94.2% during the month of January, 1979, which is an all-time historical high. During Harding's sixteen month tenure interest rates have been increased from 6% to 9%, and total interest earned on the State's operating funds has amounted to \$185,230,502.02, an increase of 33.7% over the previous sixteen months.

During the month of January, 1979, interest earned for the State from improved management of the current operating funds amounted to \$13,963,330.57, an increase of 46.1% over interest earned from the same source a year ago.

Mr. Harding's policy to maximize the earning power of

the State's funds has direct bearing on reducing the amount of revenue that would otherwise have to be derived from taxes.

Mr. Harding was optimistic in his outlook for the future of Texas. "We are the most fortunate people on the face of the earth. We live in a sunbelt State and have a very healthy

economy in Texas. We have low unemployment, no personal income tax, the lowest per capita indebtedness and our cities are booming. I predict that Texas will continue to grow and prosper in the years ahead. I am highly honored to serve the people of Texas as State Treasurer, an office of high trust."

Flying foxes aren't really foxes--- they're noisy, smelly fox-faced bats

Flying foxes are not foxes with wings, as their name suggests. In fact, they are not really foxes at all.

What they are, according to the current issue of Ranger Rick's Nature Magazine, is big, smelly, quarrelsome bats with foxy faces.

There are about 35 different kinds of flying foxes in the world, the National Wildlife Federation monthly for children reports, but because they feed only on tropical fruits and flowers, none live in the wild in the United States. They are found in Southeast Asia, Indonesia, the Philippines, New Guinea, Australia, and islands in the Indian Ocean and western Pacific.

Like all bats, the so-called flying foxes have thin sheets of skin--rather than feathers--for wings. "Their arm, leg, and finger bones stretch the sheets tightly, like sticks in a kite," the magazine says. One species has a wingspan of up to four feet--making it the world's biggest bat.

When awake, these fox-faced bats are so noisy and smelly they are hard to miss. Screeching at each other, with the young clinging tightly to their mothers' fur, they skim along the surface of a river or lake, scooping up occasional swallows of water with their tongues.

When the colony sniffs out an area of ripe fruit--bananas, plums, mangoes and guavas are

favorites--they settle down for a clamorous night of eating. They push, shove, and quarrel over the food all night long. Often they slash out at each other with sharp thumb claws, or bite savagely with their needle sharp front teeth.

In the morning, back at their roosting trees, the bats crowd together, clawing, biting, and bickering over warm and comfortable places to hang for their day of sleep. Only then are they silent, according to Ranger Rick.

Cotton - a long harvest

Bad weather, a late season, and a good cotton crop have combined to create one of the most frustrating and longest ginning seasons most persons can remember.

A spokesman for the Donley County Farmers Cooperative said earlier this week they expected to finish in about 30 days with their ginning. This statement was prefaced by 'if the weather cooperates'. A lot of this winter it has not and the very low temperatures slowed the operation of the machinery.

Cotton already pulled and ready to bring to the gin had to set in the field until road conditions improved. With the warm windy weather of last week harvesting got going again. Friday, the day of the last big snow, 300 bales were weighed in. One hundred bales were ginned on Monday and by Tuesday about 600 bales were on the yard.

An estimate of another 1,500 bales to come in would run the number of bales ginned for the growing season to around 10,000. At one time last week the ginners caught up and for some 30 minutes there was no cotton on the yard.

Only one crew is working at the Cooperative gin and they are operating about 15 hours a day.

Earl Shields, at Paymaster Gin at Lelia Lake, reported an estimated 200 bales to completion of the cotton harvest at his gin. The Lelia Lake area was fortunate in that the sandy land quickly returned to normal after moisture and enabled harvesting to continue ahead of other areas. When harvest is completed the total bale figure is estimated at 7,000. This is about 1,500 more than had been anticipated earlier. Hail, washing rains and other inclement weather hurt the cotton land crop acreage early in the season.

After next week Paymaster is considering a set number of

days to operate, this will be announced prior to curtailment of operation. This way cotton could build up on the yard until there was an amount to necessitate ginning. The gin will be in operation as long as there is a customer needing their services, according to Shields.

A long range look at this years crop shows an inclination to plant an enlarged acreage for cotton.

Mrs. Kidd mental health chairperson

Mrs. Bob Kidd of Clarendon was named Mental Health Bellinger Chairperson for the May '79 campaign announced Dick Fredrick, president of the Mental Health Association in Texas.

"The Mental Health Association is comprised of citizens concerned about the quality of life in their communities. They are aware of the problems of the mentally ill -- the lack of treatment or information -- and have formed a statewide association to help solve these problems," said Fredrick.

Current concerns of the Association include: community mental health center funding; mental health coverage in national health insurance; child care licensing; patient's rights and the impact of deinstitutionalization.

The Association utilizes a variety of information and education services in order to eliminate misconceptions, educate the general public about symptoms and encourage early detection and treatment of mental illness.

Since the Mental Health Association in Texas is a non-profit volunteer agency, it must rely on private contributions to continue working to promote mental health.

Surplus panhandle turkeys trapped

Recent trapping operations by the Texas Parks and Wildlife Department netted the biologists 50 wild turkeys which were transported to southeast Texas and released in areas with little or no turkey populations.

"The weather has hampered our attempts to catch the Rio Grande turkeys but, we finally made a good drop on a ranch near Clarendon and removed 17 gobblers and 37 hens from the large flock of birds," said David

Call your news to
CLARENDON PRESS
 874-3541

Rideout, wildlife biologist. "We used the standard drop net with grain as bait but the wind blew parts of the net down twice during the trapping operations," Rideout continued.

Only surplus turkeys are removed from the huge flocks of turkeys sometimes numbering up to 500 birds. Ample breeding stock of turkeys are left at each site as the P&WD continues its statewide turkey restoration program.

The flocking characteristic of wild turkeys can be detrimental if the flocks become too large for the natural food supply. Supplemental feeding by landowners often increases the flocks and

the potential threat of a turkey disease spreading through the birds is multiplied.

The 50 turkeys caught and removed during the recent operations were transported to southeast Texas and stocked on predetermined sites approved by P&WD specialists.

The areas chosen for this particular stocking are located on the border between the normal range of the Rio Grande and the eastern wild turkey in Texas. The Rio Grande turkey which inhabits all of central Texas from the Panhandle to the coast, is the most numerous species in Texas sometimes numbering a half-million birds.

Colts Corral

Hello again!
 Well, its time to break out the spikes and put up the high tops. The Colts finished their season last Thursday against Memphis. The seventh grade girls won their game 24-6 and the eighth grade teams lost in two very close games.
 U.I.L. eliminations start Monday. The 5, 6, 7, 8th grade spelling tests will take place Monday afternoon. U.I.L. events will take place at the college the 27th and 28th of March. The schools in this district will compete in Spelling, Storytelling, Oral Reading, Picture Memory, Ready Writing, and Number Sense.

GOSSIP TIME
 Melody M. - Basketball Boogie?! Flossie S. - Miss Irresistible! Johnnie G. - Now, where could that spitwad have gone? Virginia C. - Do you always have a headache after you play your horn? Mr. Hedspeh - I can count to three. Now what's the first number? Melody M. and Tammy F. - Carnations, wow!

On Dean's honor list

The Shipkiller

by Justin Scott
 It was the largest moving object on the face of the earth, but for Carolyn and Peter Hardin it was a towering wall of steel bursting out of a squall at full speed, bearing down on their Ketch Siren. In a few compressed moments Siren was

shattered by the indifferent bulk. Struggling for his life, Peter Hardin had two memories burned into his brain—the hand of his wife being torn out of his frantic grip and the huge white letters on the supertanker's stern as it steamed away—LEVIATHAN.

If other boats had gone down like Siren, no one had escaped to bear witness to LEVIATHAN's deeds. This time fate allowed one man to live and reach the shores of England.

Hardin had lost everything he cherished in life. After his fight to survive and his slow recovery in a hospital, he tried to tell the authorities what had happened, only to be confronted by incredulity and closed doors. His sorrow, rage, and guilt mixed with mounting frustration, and slowly a kind of madness possessed Peter Hardin.

Thus began an odyssey of revenge and a strikingly different love story that embraced the distant waters of the world, from the titanic storms of the South Atlantic to the eerie, oil-slicked reaches of the Persian Gulf.

LEVIATHAN and her master, Cedric Ogilvy, moved as one through the oceans, keeping to a rigorous schedule as the ship carried over one million tons of crude oil, a potential disaster for any shore or living ocean should the unthinkable occur. Ogilvy's dominant concern was to preserve his ship and his absolute authority over her.

Now they had a nemesis—one man, determined at all cost to win at sea the justice he had been denied on land.

...a nautical tale of high adventure recommended for entertainment by The Bookworm.

Ashtola -Martin news

Mr. and Mrs. Othel Elliott and Mr. and Mrs. C.W. Owensby went to Memphis on Monday.

Mrs. Glynn Helton shopped in Amarillo on Monday.

My aunt and uncle, Mr. and Mrs. Albert Romine of Borger, and Frank Lyle of Clarendon visited Thursday with the Charlie Heans.

L.A. Watson's sister, Mrs. Virgil Bolles of Plainview, visited the L.A. Watsons Wednesday.

Mr. and Mrs. Pete Land went to the doctor in Amarillo Wednesday for his check up which was real good.

Mr. and Mrs. Jack Land went to Oklahoma City Sunday afternoon for funeral services for her uncle.

Congratulations to Larry and Teresa Watson who have a baby girl born Sunday morning at Hall County Hospital.

Sunday afternoon a large crowd attended the gospel services taken to the Medical Center Nursing Home by the Martin Baptist Church.

Mrs. Dorothy Scott and Mrs. Cindy Rattan of Amarillo visited Saturday afternoon with Mrs. Flossie Reynolds.

Mr. and Mrs. Price Webb of Amarillo visited Sunday with their mother, Mrs. Etta Reynolds.

Mr. and Mrs. L.A. Watson visited Sunday afternoon at Hall County Hospital with Teresa and the new granddaughter.

Burl Hollar, Deb Koontz and Garry Bible will be ordained as deacons of the Martin Baptist Church Sunday afternoon, Feb. 18 at 3 o'clock at the Martin Baptist Church. Bro. Robert Shugart extends a special invitation to every one to attend these services.

Mrs. Polly Schull and Mrs.

Thelma Behrens visited in Amarillo on Monday.

Mrs. Roselie Watson visited at Hall County Hospital on Monday.

ASHTOLA

W.R. Kelley visited in Claude on Monday.

R.R. Partain went to Groom to the doctor on Monday. He received a good report.

Wes Kelley visited in Eric, Oklahoma on Tuesday.

Mr. and Mrs. James Groom of Borger were in Ashtola Tuesday.

Mr. and Mrs. Garry Mahaffey of Amarillo visited Monday with Mrs. Addirene Mahaffey.

Mrs. Mary Green, Christel and Jerry, Jr. were in Memphis Tuesday and visited her parents, Mr. and Mrs. Haskel Talley.

Mrs. Bonnie Koontz and her mother, Mrs. Ollie Nelson, visited in Amarillo Tuesday and returned on Wednesday.

Mr. and Mrs. B.H. Clay visited in Wellington Tuesday.

Marie Lane went to the Groom Hospital Tuesday and later she was transferred to High Plains Hospital in Amarillo.

Hubert Rhoades attended an R.E.A. business meeting in Wellington Tuesday.

Mr. and Mrs. J.N. Weaver of Dumas spent Monday and Tuesday with Mrs. Addirene Mahaffey and others.

Mrs. Harold Green of Phillips visited Wednesday with her mother at Medical Center nursing home.

Mrs. Naomi Green and Mrs. Ellen Patterson and Tiffany visited in Amarillo and Canyon; they also visited with Mr. and Mrs. Joe Green in Canyon.

Mrs. Barbara Bible, Paul and Jeff visited her parents, Mr. and Mrs. Edgel Tisdale, in Hedley on Tuesday.

by Mrs. Hubert Rhoades

Lowell and Anna Hall and boys Don, Joe, James and George of Rome, New York came Thursday to be with their mother, Marie Lane and others.

Hubert Rhoades and B.H. Clay visited in Groom Thursday.

Mr. and Mrs. Cecil Payne attended funeral services for Cecil's cousin, Clyde Winters, in Amarillo on Thursday.

W.R. Kelley visited in Way-side Wednesday.

Mr. and Mrs. Terry Bible, Christie and Brad of Pampa spent the weekend with their parents, Mr. and Mrs. Clovis Bible.

Marie Lane was released from High Plains Hospital Saturday. She is improving slowly.

Mr. and Mrs. J.R. Graham and boys visited Saturday with their parents, Mr. and Mrs. W.A. Ward, in Memphis.

Mitch, Merle and Monty Roehr of Silverton had dinner with their grandparents and others on Sunday.

Mr. and Mrs. Garry Bible visited in Amarillo Saturday.

Congratulations to Mr. and Mrs. Garry Bible who are driving a new van.

Debra and Amy Roehr of Silverton spent Monday with the J.B. Lane family.

Vastil Bennett of Washburn visited Sunday afternoon with his brother, Bill and Florene.

Mr. and Mrs. W.R. Kelley visited in Memphis Monday afternoon.

Locals

Jack Bell, recently of Hahn Airforce Base, Germany, and the son of Mr. and Mrs. Shelby C. Bell of Clarendon, visited his parents briefly last week en route to report to his new assignment at Reese Air Base in Lubbock.

He is classified as SRA F. Flight in the Air Force.

Jack returns to the United States after spending the last two years based in Germany. He spent time stationed in Iran, Spain and Italy while in Europe. When time permitted he traveled and visited to see as much of the area as possible.

Service men in Germany were victims of inflation also. The exchange rate for marks when Jack arrived in Germany was four marks for \$1.00. When he departed the country a few days ago the rate had dropped to less than two marks for an American \$1.00.

Kim Brackett was recently named to the Dean's list at Amarillo College where she is a pre-law major. Mrs. Brackett graduated from Clarendon High School in 1977.

Fishing fever hits

The least little bit of warm weather seems to have a marked effect on Texas anglers.

The first symptom is a flexing of the casting arm and the only sure cure is several hours of throwing a bass lure, chunk of catfish bait or fly on some stretch of water.

Another symptom among anglers is the desire to look through the tackle box and determine what replacements will be necessary.

To keep the fishing urge alive till the ice goes out, the Texas Parks and Wildlife Department suggests you go ahead with the annual project of cleaning out the tackle box, repairing and oiling reels and replacing the spools with new fishing line.

A check should be made of all lures and hooks for bent, broken or dull points. Replacement hooks are available at all tackle shops now as are all the new lures and tackle.

Don't forget to inspect the fishing rods. Check all ferrules or guides for wear and possible

replacement. Also inspect the bindings for frayed or broken thread. A little varnish or clear finger nail polish could put the bindings in good shape.

While you are checking your fishing gear, remember to inspect the boat, motor, trailer, trolling motor, life preservers (personal flotation devices), paddles, and depth indicator.

Make sure your boat is currently registered with the P&WD if it is to be used on public waters. The expiration date is stamped on the current P&WD decal on your boat.

Repairs to electronic gear may take a few weeks and now is the time to get the gear repaired by either local technicians or send the devices to the repair centers.

Whatever you do now with your time will keep the fishing fever alive and ready for the warm spring winds to blow away the ice and cold exposing the varied lakes and streams you will want to try in Texas.

Mrs. J.F. Rampy has received information that her son, Don Rampy has been promoted to Director of Writer Corporation at Englewood, Colo. Writer Corp. is a general contracting company in the Denver area. Rampy is a Clarendon man,

raised and educated here who has been associated in the construction business for a number of years, about 10 of those years with Writer Corp. He is the father of six children and the brother of Oneta Thomas of Clarendon.

Al Morrah Shrine Club

Al Morrah Shrine Club met at 7:30 p.m., February 19 at the Clarendon Country Club for their monthly meeting.

Dee Williams entertained with dinner music on the piano while the evening meal was being enjoyed.

The Club was honored by a visit from Khiva Temple Potentate "Buck" Allred and his lady Juanita. They were accompanied by members of the divan and their ladies. Vance Reed, Oriental Guide, and lady Anita; Dan Gattis Shrine Hospital Benefit Days chairman, his lady Dorothy; Elwood Stein, Treasurer, his lady Katherine; Country Downs, Membership Chairman, his lady Betty; Marion Moore, Blood Donor Chairman, his lady Nan, and Jack Gibbs Ambassador.

Club President Emmett O. Simmons presided. Invocation was delivered by the Potentate followed by the introduction of guests.

Following introduction by Vice President Jerrel Martin, Potentate Allred gave a summary of Khiva Temple's various programs and activities, with emphasis on the two Texas Children Hospitals. The Potentate's Ball will be Feb. 24th and the Shrine Circus on March 30, 31 and April 1st.

In closing, the Potentate's lady was honored by being presented a beautiful flowering plant.

Fed cattle prices should climb

Fed cattle prices should stay well above year-ago levels during most of 1979, according to a livestock marketing specialist with the Texas Agricultural Extension Service.

Largest gains for 900 to 1,000-pound Choice fed steers should come during the January-March period when prices may be up as much as \$12 per hundredweight over those for the first quarter of 1978, notes Dr. Ed Uvacek. This would put the average price in the \$56-\$58 range.

In the second quarter, prices should average only about \$2-\$3 above last year's April-June period, or \$57-\$59.

Uvacek expects prices in the third quarter of 1979 to average \$60-\$62, or \$6-\$8 above the same period in 1978.

According to the marketing specialist, breakeven costs for cattle coming out of Southern Plains feedlots in the February-March periods will be about \$61

to \$62 per hundredweight. Thus, feedlot losses appear likely for fed cattle if these forecasts are right. Such losses should have a direct impact on the price premiums being paid for feeder cattle.

Uvacek gives this example. Choice 600-700 pound feeder steers began 1978 at prices about \$2.30 per hundredweight over the comparable fed steer price level. The rapid gain in fed cattle prices during the second quarter reduced premiums to slightly more than \$1 per hundredweight. Fed cattle prices then weakened, with feeders moving higher and resulted in a \$6.50 price spread by the third quarter. During the week of Jan. 5, 1979, however, Choice fed steers brought \$58 to \$58.50 while 600-700 pound Choice feeder steers were selling for \$68 to \$71.70, or about a \$10 to \$13 premium.

Lubbock gets new warden

The Texas Parks and Wildlife Department graduated 26 new game wardens last month and one of these officers will be stationed in the Lubbock district.

Robert Guevara, a 28-year-old native of Marfa, is assigned to work Lubbock, Terry and Lynn counties on the South Plains District.

Guevara and the other 24 men and one woman studied and trained for 4 1/2 months at the game warden school before successfully completing the final test Jan. 19, 1979.

Guevara along with the other new wardens are trained in the enforcement of game, fish, and water safety regulations. Specialized training was completed in civil defense, handling of all types of firearms, search and seizure and court procedures. The new wardens are also commissioned as peace officers in Texas.

Guevara, his wife, Rose Marie, and son and daughter moved to Lubbock last week as the new game warden began his duties with the law enforcement branch of the P&WD Feb. 1, 1979.

Capitol Comments

by Foster Whaley

"No man's life, liberty or property is safe while the Legislature is in session." - Surrogates Court, New York, 1866. This is the thought that hit me this week when I saw on the House Daily Report that the 1,000th House bill had been introduced in this session of the Legislature. Representative Lanell Cofer, District 33-0, introduced the 1,000th bill. Miss Cofer is a black legislator from Dallas. The bill dealt with worker's compensation. The total number has now risen to 1,050 bills. It is estimated that 4,000 bills will be introduced before the session ends.

In spite of all the bad bills that are dropped in the hopper there is some good legislation that is introduced. There are a number of bills that deal with the matter of Foreign Investments in our agricultural land. Most of these bills will come before the Agriculture Committee of which I am a member. Our problem will be selecting the bill or bills that will best accomplish the objective of keeping foreign interests from buying up all of our prime land. Our U.S. deficit trade purchases have run over \$25 billion the last two or three years. As these billion build up in foreign countries they create a situation whereby the foreigners are looking for good investments in the U.S. Land has always been the best hedge against inflation. So the result is good land is being bought up as a result of our trade deficit. Few people realize that the Government of Japan buys our wheat for INITIAL cost of around \$3.00 per a bushel. After the expense of transporting it to Japan has been added, the Government of Japan sells the wheat to their millers at up to \$9.00 per bushel. The farmer that produced the wheat had a loss in the wheat while the Government of Japan made a huge profit. And the U.S. is suffering 7-8 billion dollar trade deficits with Japan. There is an import duty on wheat going into the European Common Market of over \$3.50 a bushel. This represents 120% of the INITIAL cost of what the U.S. Farmer received for the bushel of wheat. Yet, we have an import duty on one of their Volkswagens of only three percent of the wholesale cost on the other side of the ocean.

After looking at these figures, it isn't hard to see why they are buying up our prime land. Only the Federal Government has the power to erase these bad trade agreements. Doing so would improve our balance of trade in billions of dollars, improve the farmers' financial status where less Government Aid would be needed or called for.

I'm willing to do whatever can be done to help market Texas products in foreign markets but this problem is pretty much in the hands of the Federal Government since it is the one that does the trade negotiation. This country needs to work on getting the price up a great deal more than increasing the volume of trade.

Government Organization Committee Report

This is the Committee that

deals with the Sunset Legislation. We have 27 State Agencies and Boards to act on this session. The State Bar is the first one we have heard testimony from. I am on the subcommittee that will decide which bill will be reported out. This will go before the entire Committee, then to the Floor of the House. Here is where the work is done. A vote in Committee is worth as much as 25 votes on the House Floor. A lot of lawmakers that seldom get on the Floor to debate the merits of a bill quietly bury what they think are bad bills and let those that they think are good ones proceed through the committee system to the House Floor.

If I'm late on answering your mail, it's because we can't find time at the present to reply. I look at every piece of personal mail and attempt to answer as soon as possible. My mailing address is: Foster Whaley, P.O. Box 2910 Austin, TX 78769. My office phone is 1-512-475 3883. My home phone in Austin is 1-512 837-4873. Should you want to contact me in Pampa, my office phone is 669-3251. Melba Gassaway is my Pampa secretary. Call her on any matter and she will relay your information to me.

BRONCO BUSTER

by Karlen Cantrell

Last week was a pretty good week all around for everyone. The Varsity Basketball teams beat Wellington. The Spanish Club started selling Carnations. Part of the speech team, Mindy Morris, Kathryn Perdue, Wade Porter, Ricky Price, Stan Lefew, and Buddy Hall, went to a Speech tournament at Texas Tech University. Stan placed in the semi-finals. F.H.A. worked strenuously to get the banquet ready.

As everyone knows, Valentines Day was Wednesday. Valentines is a special time of the year, a time when you think about the people you care a lot about and a time where you show these people how much you care for them, and love them.

What exactly is love? Love is so many different things to many people, because there are many different ways to love. I asked a few people what love meant to them and this is what they said. Debbie Johnston said love was getting a cute look from the guy you like. To Dee Ann Cook love is a special kind of happiness. The Senior Class says love is - May 18!! Paula Helms said love would be even better if she could find her engagement ring. Nancy Johnson says love is Don Hillis. Kim White said love is having your back scratched. Jenny Deyhle says her love goes to Chinese food! Medina McAnear says love to her is being around people who are happy. Colleen Cockerham says love is being free but yet knowing there is someone there to turn to.

There are many different ways to love and as Pearl Buck wrote - Love cannot be forced, love cannot be coaxed and teased. It comes out of Heaven, unasked and unsought.

REPRESENTATIVES FROM HALLMARK Builders, Inc., Amarillo, received plaques denoting successful completion of an Erection Seminar held recently in Oklahoma City by Star Manufacturing Company, an Oklahoma City-based manufacturer of metal building systems. Tom Morris, Erection Manager for Star, made the presentation. (Left to Right): Paul Braddock, Hallmark; Dave Gilmore, Hallmark; Claude Lucas, Hallmark; Tom Morris, Star; Greg Hartman, Hallmark; and Dave Blakely, Hallmark.

Lower our standard of living or U.S. must find new sources of energy

Unless Americans find new sources of energy--and more efficient ways to use their present energy supplies--their high standard of living will suffer a drastic decline. That's the conclusion of a free, 16-page report entitled, "Energy--A Growing National Problem," published by the National Wildlife Federation. With illustrations, graphs, and text, the report examines what energy resources are available in the U.S. today, how Americans can conserve these resources, and what new energy alternatives may be developed in the future. The NWF report emphasizes the need for conservation and suggests specific ways in which the "four big energy users"--industry, transportation, homes and offices, and utilities--can become energy savers. However, the report continues, "aside from conservation, we need long-range solutions." The report focuses on six "promising alternatives," listing their advantages and disadvantages. Solar heating, Charles Mills receives promotion

Marine Lance Corporal Charles W. Mills, son of James W. and Doris E. Mills of Box 126 Rowell, Clarendon, has been promoted to his present rank while serving with 1st Marine Division, Marine Corps Base, Camp Pendleton, California. He joined the Marine Corps in March 1975.

Peach trees need pruning

Mid-to-late-February is the proper time to prune peaches according to County Extension Agent, Ronald Gooch. Peaches are produced on one-year-old wood only. This means the tree must keep growing but within an acceptable height. If the tree is not pruned, it will put on less and less new growth each year. Eventually, all that remains is old non-productive wood on the tree.

Now comes the most difficult part of all - how to prune. Obviously, one should remove all dead and diseased wood first. Branches that have been injured by other rubbing limbs or which have been broken by wind or weight should be removed also.

Young peach trees must be pruned and trained for development of a well-shaped strong tree capable of supporting heavy crops and withstanding strong winds. Peaches are trained and pruned by the three-limb, open-center, flat-top method. The training procedure during the first two or three years is largely that of developing the three scaffold limb framework of the young tree. One of the hardest things to

get the gardener to do is remove from 1/3 to 1/2 of the top at planting time. This is essential in order to train the tree properly. At planting time, prune the tree to a height of 24 to 36 inches, depending on initial height. Remove branches lower than about 16 inches. If a sufficient number of lateral branches are present at planting time, within the 18 to 30-inch range, select three strong, vigorous ones to develop into the main scaffold limbs. Choose

three that are evenly spaced around the tree and which are 4 to 6 inches apart on the vertical axis of the main trunk. After selecting the scaffold limbs, remove all others. The main scaffolds should be tip pruned at this time also.

During the first growing season the three scaffold limbs should be allowed to grow as much as possible. The other

shoots must be cut back to reduce the development of the scaffolds.

Saints' Roost 4-H Club news

by Susan Mosley

We met Feb. 12, 1979. Those attending were Bret W., Tim C., Mitch J., Kim F., Annette W., Terri L., Tish R., Muzzy H., Richard R., Shane K., Susan M., Connie R., Neita M., Jeannie F., Cynthia M. Our visitors were D'liss R. and Wayne R.

Cynthia M. showed us a film about Method Demonstration. Thank you Tim C. and Annette W. for the Magnificent cokes and brownies.

Thought for the day "What a man is, is reflected by what he says and does."

LEGAL

The City of Clarendon has called an election for the purpose of electing a mayor and three (3) aldermen for the City of Clarendon. Said election will be held on Saturday, April 7, in the board room of the City Hall from 7 a.m. to 7 p.m.

LEGAL NOTICE

Notice is hereby given by the Parks and Wildlife Department that a public hearing will be held at 7 p.m. on March 14, 1979 at the County Courthouse at Clarendon for the purpose of gathering information concerning proposed hunting, fishing and trapping regulations for Donley County.

As the result of action by the Texas Legislature, the Texas Parks and Wildlife Commission is responsible for the setting of seasons, bag limits, and means and methods of taking the wildlife resources in Donley County. All interested persons are urged to attend and comment upon the proposed regulations.

NOTE OF THANKS

We would like to take this opportunity to express our thanks and appreciation to each and every one of our friends who helped to make our fifty (50) years of married life so happy; and especially our (50th) Fiftieth Wedding Anniversary Reception and celebration such an enjoyable and memorable occasion. Your cards and gifts were lovely and wonderful; but we treasure your friendship more than any material gifts. May our Lord richly bless each of you in His prayer.
Sincerely yours,
Bro. & Mrs. J.L. Herndon
8-1tp

City of Clarendon will be accepting bids for a new automobile for the Police Dept. with the following specifications: 350-400 Cu in motor, vinyl seats, radio, heater, air conditioner, tinted glass, black wall tires, 80 amp alternator, heavy duty battery and heavy duty cooling system. 7-2tc

IN APPRECIATION

There is no way our family can adequately express our feelings toward each and every one who shared in our recent sorrow in the loss of Joe Kent. This community has to be rated No. 1 when it comes to caring about its friends and neighbors at times such as this. We would like to express our sincere appreciation for all the prayers, cards, letters, visits, food and floral arrangements which were sent to our family. Also our appreciation is extended to Dr. H.R. Stevenson and the entire staff at Hall County Hospital for all their efforts during Joe's last illness. We ask God's special blessings on each of you.

Late Edition Extension Homemakers has meeting

Vice President Georgia Guinn presided at the regular meeting of Late Edition Extension Homemakers February 15 in the Farmers State Bank hospitality room.

Cynthia Manning announced the PEP seminar in Amarillo

April 26.

The First Aid Course to be held the evenings of March 19 and 20 was discussed. Jerry Burgtorf will be the instructor. Karen Alderson explained the 4-H food project program for the club.

Cynthia Manning presented the program on "Weight Control."

Georgia Guinn and Helen Land served refreshments to the following members: Nena Hunt, Tiny Alderson, Evelyn Mann, Pauline Heath, Judy Bland, Frieda Tucker and Extension Agent Cynthia Manning.

New from Medical Center

Residents at Medical Center were treated to a beautiful Valentine Party on February 14, also given to honor the faithful volunteer workers at Medical Center.

Decorations carried out the Valentine theme in the dining room with a Valentine table cover, red napkins and white cups.

Refreshments of red fruit punch and beautiful valentine

cookies were served everyone present.

The delicious cookies were baked by the ladies of the First Baptist Church W.M.U., Mu Gamma chapter of Beta Sigma Phi and Mrs. Addierene Mahaffey.

The volunteers were given a special welcome by Billy Ray Johnston and Vera Johnson added her thanks on behalf of the residents for all the many things for which they were responsible. "Things are made much brighter by all of their help," Johnston said.

With the volunteers from the churches and individuals who

come there are about 60 volunteers and each deserves a big Thank You.

Helping with the afternoon's program was Don Stone, from the Church of Christ who gave a beautiful Valentine message. Rev. Roger Gray, of the Assembly of God Church gave the opening prayer.

Entertaining with beautiful love songs and religious songs were: Mrs. Moss, Jo Ann Kidd, Frank Reid, Norma Corgill and Melville Mills.

Rev. Shugart, of the Martin Baptist Church gave the closing benediction.

While residents and guests

were being served refreshments the volunteer singing group sang lovely old songs. These wonderful persons receive their compensation with the Joy of Service to others.

Serving were Mrs. Vera McMurtry, Gladys Diggs, Doiny Mayo, Gladys Hahn, Inez Skin-

ner and Vera Johnson.

Other guests present for the party were Connie Holland from Turkey, Alice Courtney, Mary Myers, our Thursday Bible teacher, Annie Pfeiffer, Yvonne Belle McDaniel, Addie Moss, Gertrude Reid, Paulette Kidd and her three daughters.

Red Raiders meeting planned

There will be a meeting for ar. Tech exes and Red Raider supporters on Monday evening Feb. 26, 1979 at 7:30 in the Lion's Club Hall in Clarendon.

The purpose of the meeting is to organize a "Clarendon Red Raider Club."

Highlights of the 1978 football season at Tech will be shown in a documentary film.

Look who's new Scott Allan

Paul and Elmonette Bivens announce the arrival of a son Saturday, February 17, 1979 at 12:27 p.m. in Hall County Hospital, Memphis, Texas.

The young man has been named Scott Allan. He weighed 7 lbs. 4 oz., and measured 22 inches. He joins an older brother, Stephen Paul, four years old, at home.

Imperial Makes the Most of Good Cooking!

- ONE PIECE BURNER** - Removable, dishwasher safe, styled to enhance the beauty of your new range while giving dependable service.
- LIFT-UP/LIFT-OFF COOKTOP** - Clean-up's a breeze. Burners and grates lift out for dishpan or dishwasher sudsing. The burner box wipes clean with little effort.
- INSULATED OVEN BOTTOM** - Eliminates hot spot above oven burner - Greatly increases effective baking capacity.
- TRI-TEMP® TOP BURNERS** - No more guess work. Accurately sets flame to "Full On" to "Simmer", to gentle "Warm" with a "Click" of the switch. Puts an end to pot watching. (Available on some models.)
- PORCELAIN OVER STEEL BURNER GRATES** - Tough! Rugged! Lightweight! Easy to clean in the dishwasher or at the sink.
- EQUATEMP® OVEN BURNER** - Designed to spread heat evenly throughout the oven... no hot spots... no cold corners.

ATTENTION DONLEY COUNTY TAX PAYERS
 The Donley County Tax office will no longer be mailing out rendition slips due to the rising cost of postage. This is a reminder that, by state law, you are required to render your property, both real and personal, that you own in Donley County as of the 1st of January of each year by April 30 of that same year. You may render your property in person at the county tax office, by phone at 874-2193, or you may also use the rendition form on the back of your pink tax statement and mail or bring it to this office. If you do not render your property, the tax assessor will have to render for you, possibly at a greater expense to you. Your cooperation in this matter will be greatly appreciated by this office.

Kay McCowen
 Tax Assessor - Collector
 Donley County
