HIGHWAY COLLISION CAUSES TWO DEATHS SUNDAY

A Sunday pleasure drive to the W. B. Lawrence home southwest of Claude Sunday ended in tragedy when two were killed and six injured when the Hedley car collided with a truckload of wheat four miles south and two miles west of Claude about 1:30 p. m.

Killed instantly were Ott E. Saunders, 36, Hedley grocer, and Claudine Tollett, aged 9 months, a daughter of Mr. and Mrs. Earl Tollett, also of Hedley.

Wanda Lou Saunders, 6, daughter of the dead man, suffered a head gash in the forehead and a fractured skull. Mrs. Ott Saunders, 32, received cuts and bruises and a hip injury.

Mrs. Earl Tollett, 25, received cuts and bruises about her head and a broken ankle. Their son of four years received cuts about the face.

Gus Tyler, 17, driver of the wheat truck, escaped with minor injuries. The Saunders were driving west and the wheat truck north. The vehicles came together about the middle of the country lane intersection. Officers making the investigation stated that there were no weeds or other obstructions of view at the place the collision occurred.

A passing motorist is said to have aided Earl Tollett in lifting the Ford off the body of Saunders. Luther Lowry was called from his home nearby, and took the bodies to Claude following the inquest.

Within a very short time, the Womack ambulance arrived and conveyed the bodies to the Womack mortuary at Hedley. A Griggs ambulance out of Amarillo came to Claude for the injured, taking them to an Amarillo hospital.

Wanda Lou Saunders is the only one remaining in the hospital. She is said to be steadily recovering.

Funeral services were conducted at the First Baptist church in Hedley at 2:30 p. m. Tuesday.

MRS. BLANTON WILL VISIT IN EAST
Leaving here next Monday, Mrs. A. B. Blanton will make her annual visit with relatives at White Pine, West Virginia. She spent several months there last year, enjoying her stay very much.

Living there are six of her brothers and three sisters and numerous other relatives, she said.

Knight Sells Dairy Herd
After operating a dairy here on an extensive scale for some twelve years, C. L. Knight has disposed of his cows and will try another plan.

The thirty-eight head of choice ayrshire cows were purchased by Frank Miller of Marlow, Oklahoma Sunday. The cows were taken away Wednesday.

Mr. Knight will continue his dairy business, and make a market for milk for other producers. He proposes to purchase milk of the right type, pasteurize it and keep right on. If you have milk to sell, see him.

His extensive dairy equipment will be moved to town where the family will reside in the future.

VISIT MOTHER HERE
Mr. and Mrs. Bob Donnell and children of Monahans, and Miss Ruth Donnell of Wichita Falls are visiting their mother, Mrs. A. C. Donnell.

FROM CARTHAGE
Mr. and Mrs. R. E. Blair of Carthage are here this week visiting his sister, Mrs. Lloyd Johnson and husband, and brother, Harry Blair and family.

TWO RESIDENCES ARE SOLD THIS WEEK
Joe Ray of Goodnight has purchased the residence occupied by Mrs. J. T. Warren, and will move it to his farm near there. Mrs. Warren, former county treasurer and long-time resident here, will continue to make her home in Clarendon.

INSPECT INVESTMENT IN OKLAHOMA

Looking over their business investment at Norman, Oklahoma the week end, were W. W. Noblet here and his partner, Senator George Moffett of Chillicothe.

They purchased the Chevrolet agency at Norman in January. Mr. Noblet says business is good in that section, and that crop prospects are most promising.

Mr. Noblet returned here early Wednesday after the two men had spent some time in Oklahoma City talking with district and factory officials of the Chevrolet production and distribution ends of the business.

CLIFT TO DISCUSS SCHOOL LAW

Those interested in a discussion of the new equalization law are requested to be present at the Courthouse here at 9:30 a. m. Friday, July 25th.

Carl G. Clift, the new deputy in this area, and former Potter county school superintendent, wishes to see each of the school trustees and others interested at the meeting.

CLARENDON CHRONICLE

W. P. BLAKE, Publisher

(36 years ago in Donley County.)

Miss Helen Love is visiting Mrs. Arthur McKnight in Amarillo.

Miss Agnes Betts is on the sick list this week.

J. H. Oglesby will leave Friday to look at Terry county lands.

Mrs. W. M. Crow is very ill at Memphis. Mrs. John Simpkins of Alameda was here Monday on her way to attend her mother.

Ira Barnett is home after punching cattle several months in Hall county.

Phil Reeves sold 553 acres of land three and a half miles west of Alameda to Uncle Jack Barnes of Greer county for \$4,000 Tuesday.

J. H. Rutherford and family are back from Arkansas where he says it is simply too hot to live.

J. H. Myers in town yesterday stated that a four inch rain fell on Lake Creek Tuesday.

There is some uneasiness here for relatives in New Orleans. To date there has been 854 cases of yellow fever there, 154 new cases last week.

Homor Mulkey, the photographer, made a picture of the Normal school Monday, and sold a lot of pictures.

W. P. McKenzie of Jericho was down Monday for a stock of goods for his store.

Albert Patrick, alleged murderer of millionaire Rice of Houston, has another stay of sentence. He has been under a death sentence several months.

Lightning set fire to a tank farm on the Humble lease near Sour Lake on the Texas coast Monday causing a loss over near a half million dollars.

N. S. Ray writes Geo. Washington that the family is not pleased with Wellington, Kansas and will move back here Sept. 1st.

The roads in the Giles country are practically impassable since the big rain. The same condition exists in the county across the river north of Hedley where, little has been done on the roads.

The estimated watermelon acreage is 800 right now. Some cantaloupes are being grown, but no one would contract the crop. The watermelons will go to Trinidad and Denver mostly.

Lightning killed seven head of stock on the Rowe ranch Sunday.

Hedley Youth Is Truck Victim

Funeral services were conducted at Hedley Tuesday for Lawrence Dodson, who died as a result of being crushed by a truck near Borger. He was crushed between two trucks while unloading brick on the Sinclair Weatherly lease, and died a few hours later in a Borger hospital.

He was employed by the C. M. Jeffries company of Pampa and suffered a crushed chest and spleen. While unloading brick from one truck, another rolled back pinning him between the two trucks.

He was a son of S. L. Dodson of near Hedley, and attended school at Giles. His age is given at eighteen years. Rev. I. E. Biggs, pastor of the Hedley Methodist church conducted the service.

MOUNTAIN TRIP

Mr. and Mrs. T. M. Shaver and Mr. and Mrs. W. W. Taylor returned from the southern Colorado fishing grounds Sunday. They report too much rain and too little fish.

Worley Heads Army Tour

WASHINGTON, July 22.—Rep. Eugene Worley has been named chairman of a committee of members of Congress which will pay a visit to Fort Belvoir Saturday to mix with the soldiers there and find out what army life is like at first hand, it was announced today.

About 50 members of Congress will go to Fort Belvoir Saturday to meet the men in the camp and to get acquainted with them. The Fort is just south of Washington in Virginia.

The plan is that the congressmen will look over the camp, get acquainted with the men there, discuss living conditions with them—and give the army men a chance to see that congressmen can unbend.

Worley is helping to work up a program of entertainment and sports in which congressmen and army men will participate side by side.

CLARENDON YOUTHS ON DEFENSE JOBS

Billie Cooke of Clarendon, was one of 4 advanced technical students from The Swallow Aircraft Training School to be selected by the Beechcraft Airplane Corporation of Wichita, Kansas for immediate duty. Alex Cooke was one of the first two students selected by Beechcraft.

The many friends of these young men here will be glad to know of their excellent record in aiding in defense work.

RAINED OUT FISHIN'

Mr. and Mrs. George Wayne Estlack and daughter Jacqueline Marie returned home early Tuesday morning after spending a few days at Antonito, Colorado. They had fair success fishing, but were rained out.

Brick Drive Is Being Made For Museum

The Leader is requested to announce that the "brick drive" continues in Donley county as in every other Panhandle county looking to the accumulation of material with which to complete the Panhandle-Plains Historical Museum at Canyon.

The drive is expected to end with a meeting to be held at Canyon Sunday, Dr. L. F. Sheffy, secretary, stated.

The purpose at this time is to supplement state funds with material to complete the annex to the main building. The state funds are inadequate.

The loose brick doing no one any good around your home or farm is valuable at this time. Please bring this brick to the rear of the First National bank here. Mr. W. H. Patrick has said he will hire the brick trucked to Canyon.

Each individual, and each community may have a share in building this new addition. If you prefer to pay cash, please hand or send it to Mr. Patrick.

Son Is Noted Ball Player

Visiting her parents this week is Mrs. Minnie Brooks and children. Billy Jack, Harold, Majorie and Wayne. Mr. and Mrs. G. Milt Allen are the parents.

Mrs. Brooks, whose home is in Tyler, is the mother of Lloyd Brooks, famous pitcher for the Brooklyn Dodgers this season. Mr. Allen stated Wednesday that Lloyd had pitched nine straight winning games, and would get a hundred dollars bonus money if he won the tenth this coming week.

Last year when baseball scouts were in East Texas, they saw Lloyd pitch a winning game wherein a bunch of home country boys were playing a league team that was wintering down there.

After the game, a scout got better acquainted with young Brooks who was then eighteen years old. Later Brooks practiced some in New Mexico and later was transferred to the main headquarters in Brooklyn, N. Y.

"He has an ambition to get up in the high salaried class within a few years," Grandpa Allen proudly told the Leader man. And all the folks here are proud that a son of Mrs. Minnie Allen Brooks is going to the top in his chosen profession.

DAUGHTER ILL

Rev. and Mrs. J. O. Quattlebaum Jr. are in Amarillo to be with their daughter, Mrs. Dale Nix who had an appendectomy. She is said to be improving nicely.

ANDERSON GROWS ROASTING EARS

One of the few patches of choice corn grown this season is that of O. S. Anderson at his place in the east part of town. The corn is well developed, free from worm damage and has an excellent flavor just right for roasting ears. His generous sample 'loaned' the Leader man was a treat.

Visit Here On Vacation

Visiting Mr. and Mrs. R. H. Elkins here the first of the week were their grandson and family, Mr. and Mrs. Harry Kelly and daughters, Martha and Genna of San Antonio.

They spent some time in Pampa, Harry Kelly being a son of Dr. Kelly there.

After leaving their home, they toured west Texas, New Mexico and the scenic spots in Colorado spending the month on their trip, though they like the cool Panhandle the best, being natives of this section.

Mr. Kelly is vocational instructor in a federal school in San Antonio.

REUNION AT LUBBOCK

Mr. and Mrs. John M. Bass and Mr. and Mrs. John Bass Jr. and Mr. and Mrs. Van Kennedy and children attended a family reunion in the J. T. Anthony home in Lubbock the week end.

Aluminum Drive Is Under Way

County agent H. M. Breedlove announced this morning that the campaign for the accumulation of aluminum for defense was coming along in good shape and that people from all over the county are bringing their old aluminum ware to the office of the county agent and leaving it there for the national defense program.

Breedlove asked that all persons cooperate in this move of national defense and bring all of the old aluminum ware that is available to his office and help in this worthy cause. The aluminum will be turned to the war department when a big supply has been accumulated.

ROBBINS TO STAY

There was consternation among a number of folks here Tuesday when it got noised around that Canadian had offered band director Ray Robbins an attractive salary to join forces with their school. After mature deliberation and the pressure of a number of local people, Mr. Robbins decided to stay right here in Clarendon, where he has achieved wonderful success both as a music instructor and as a member of the high school faculty.

ROBERT L. HUTSON IS PROMOTED

Sgt. Hutson, who resides with Mrs. Hutson at 518 N. E. First street, Mineral Wells, has been promoted to staff sergeant. He is a son of Mr. and Mrs. J. L. Hutson of Clarendon.

NEW MAN AT FARMERS EXCHANGE GROCERY

The new man on the Farmers Exchange-grocery force is W. W. Raney of the Windy Valley community. Mr. Raney has had five years of experience in the wholesale end of H. A. Marr grocery company in Amarillo. He succeeds Herman Dodson who has gone to Dallas.

TO WICHITA FALLS

Mrs. A. L. Thornberry and daughter, Miss Estelle, returned home Saturday after a pleasant visit with friends in Wichita Falls. They were accompanied home by Mrs. G. W. Corkhill who will enjoy the cool breeze of the Panhandle while visiting in the Thornberry home.

Fall Business Looks Better

Conditions in general denote a lucrative fall business think most all of our business men. Crop prospects are looking up sharply. The buying morale is better. Prices of farm products and live stock are advancing.

W. J. "Bill" Greene of the Greene drygoods company is in Dallas buying goods for fall delivery this week. So is Isadore Mellinger of the Mellinger & Rosenwasser drygoods firm in Dallas this week.

This is the week that the Dallas wholesale houses are making their showing and merchants from over the southwest are congregated there to look over, discuss the situation and buy fall and winter stocks.

TRANSFER DEADLINE AUGUST FIRST

"Most every year some folks forget, or neglect, to have their children transferred in time," County Supt. Ruth M. Richerson stated Wednesday. She wishes that every parent or guardian understand that children to be transferred from one school district to another for the next school term, must make arrangements before August 1st. Otherwise tuition will have to be paid to get the transfer.

VISIT ANDERSONS

Guests of Mr. and Mrs. Bud Anderson the past week were Mrs. Will Anderson and children of Buckeye, Arizona, and Mr. and Mrs. Frank R. McCarty of Duncan, Oklahoma.

VISIT THE SCOTTS

Guests of Mr. and Mrs. W. D. Scott the week end were Mr. and Mrs. John Mosenbocker of Hereford, and Mr. and Mrs. Doc Pritchard of Phoenix, Arizona.

CLARENDON F. F. A. CHAPTER LEADS IN STATE AGAIN

LIKES FRIED PIES AND BOILED EGGS

Talking with W. M. Tipton of Hedley a few days ago, he told of his peaches and apricots and how he was selling them. He detailed his experiences in Oklahoma and Oregon.

He tried Oregon and her wet climate. He tried the sawmill and timber life and the hardships that go with working there. He finally decided to come back to old Donley and that was in 1928. He has been here since and likes it.

Personally, he is not timid, but when cornered, he admitted having eaten fried peach pies and boiled eggs as a kid. In fact he said they had just finished drying a lot of apricots with which to make fried pies this winter. He always has the eggs and that means a whole lot to a fellow even after he is grown.

MEMORY LANE

(10 years ago in Donley county.)

Going to A&M Short Course Sunday were Mrs. J. A. Huffstutler of Chamberlain, Mrs. Louie B. Merrell of Ashtola, Mrs. J. E. Baker of Martin, Mrs. C. D. McDowell of Clarendon, Miss Hazel Dyer of Goldston. They were accompanied by Miss Martha Buttrill, county H. D. agent.

Brown brothers, Belk and Milam, withdrew their appeals Monday and accepted sentence on the robbery charge at the home of Mrs. Fanny Naylor in December. Belk got five years and Milam four. T. R. Moss shot and killed one of the robbers when he fired at Tom Naylor at close range, and is believed to have saved the lives of several members of the family as well as that of himself.

W. P. Holly has the most extensive poultry production plant in the county on his farm near Ashtola, and says he makes it pay.

G. L. Boykin gave a report to the Lions club Tuesday of his recent trip to Toronto, Canada in attendance on the International Convention of Lions.

W. R. Silvey, superintendent of the local schools for 24 years, and a brother of Mrs. W. B. Sims, passed away in Dallas Tuesday. Interment was made here.

C. W. Gallaway has completed the prescribed course in an Oklahoma City school of chiropractics, and has returned to practice here.

Jack Bailey is given credit for having the best cantaloupes ever grown here, and that by no less an authority than Frank Hardin, and Frank has been champion for years.

Ashtola
Mrs. H. W. Lovell is visiting her two sons in Brownwood.

We are glad to report little Dorothy Caldwell in Adair hospital as much improved.

Mr. and Mrs. Gobel Barker and daughter of Estelina are visiting here.

Mr. and Mrs. Chester Hodges are the proud parents of a son born Wednesday. They are staying at the home of his parents, Mr. and Mrs. W. E. Hodges since Chester was brought from the Hereford hospital following serious burns.

Goldston
The J. D. Pope family has moved to near Clarendon. We regret to lose this good family.

Miss Jewell Rhodes is visiting relatives near Littlefield.

Mrs. Murphey Brock is visiting relatives in Arkansas.

Lelia Lake
Miss Wilma King returned from Lubbock Saturday where she attended Tech.

A large number of relatives and friends helped Mrs. W. A. Bullard observe her birthday Sunday.

Mrs. W. L. Butler is in Pampa visiting her daughter, Mrs. Howard Hughes.

Mr. and Mrs. Austin Aten of Uvalde are visiting his parents, Mr. and Mrs. C. G. Aten.

Hedley
Mrs. Donald Lindsey and Mrs. Oscar Alexander of Amarillo, and Mrs. Strickland of Dallas, spent the week here with their parents, Mr. and Mrs. J. B. Masterson.

For the second consecutive year, the Clarendon F.F.A. Chapter was rated as the best in the state, at the State F.F.A. Convention held at Marshall last week. Cotulla, Huntington, Waxahachie, Paducah, and Banquette were the other five chapters given Lone Star Chapter Rating. This is the first instance in which a chapter has received top rating for two consecutive years.

Jack Riley and adviser J. R. Gillham represented the local chapter at the meeting. Riley played in the state F.F.A. Band, and Gillham served as chairman of the State F.F.A. Swine Improvement Committee.

The local chapter rated as top chapter in the state and one of the four top chapters in the nation last year. There are 647 Texas chapters and over 7,000 in the nation, and the honors won by the local chapter have given Clarendon widespread publicity over the entire nation.

Youths Honored
Lee Christie and Frank Cannon were two of the 150 members of the State F.F.A. that were awarded their Lone Star Farmer Degree this year. The degrees were awarded at the state convention held at Marshall last week. There are over 30,000 F.F.A. members in Texas and to secure the Lone Star Farmer Degree is the highest honor that can be won by any youth in the Organization.

Cannon was reporter of the chapter in 1940 and was an outstanding dairy cattle and livestock judging team member in addition to representing the local chapter as a member of its boxing teams. He was finalist in the 1940 and 1941 Amarillo Golden Gloves Tournament. Christie was president of the chapter last year and is a member of the Texas State Milk Judging Championship team, and will represent the state as a member of the team in the national contests this fall. In order to receive the degree, the youths were required to have an outstanding student activity, scholarship, and project records.

Vacation Trip To Pacific Coast

Home again with many pleasant memories of another trip to the Pacific coast country are Mr. and Mrs. Frank Whitlock. They spent two weeks on the vacation trip.

Accompanying them was their granddaughter, Frankie Garrison who had been visiting here. The first stop of note was made at Escobedo where lives their daughter, Mrs. Geo. Garrison and husband.

Some time was spent at San Diego where their son Price Whitlock is employed in an airplane factory.

Long Beach and the famous bathing beach called for attention and the many unusual sights on the Pacific ocean.

Tijuana was over the line in Mexico, but the tales told of the ponies, races and gambling casinos of the foreign element had to be looked into. Frank just had to see it all while he was vacationing. The trip was a delight.

At last, the return home. Sailing over the long ribbon highway across beautiful Arizona and New Mexico were great, but no match for the sight of home, sweet home.

VISIT THE KEYS

Mrs. Tom Kyger and daughters, Julian and Bettie Sue, and a friend, Warren Payne of Kaufman, Texas, are visiting her sister, Mrs. Ralph Keys and family.

FORMER TREASURER VISITING HERE

Mrs. Willie Goldston, who was so critically ill in Amarillo for many weeks is visiting in Clarendon. She is feeling and looking fine, and will soon be able to assume her duties with the First National Bank there, where she is a valued employee.

es Francis Kendall and Allie May Caldwell, students at Canyon, spent the week end with home folks.

Mrs. Ernest Beck of McLean is visiting this week with her sister, Mrs. Charles Lowry.

DO YOU KNOW TEXAS?

A reader of this newspaper can get the answer to any question of fact about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin Texas.

MEMORABLE PASSAGE: "Son, it is more essential that you be courteous and a gentleman always than it is that you be brilliant."—Col. Paul Wakefield.

Q. What is a ground sloth?
A. The ground sloth, now extinct, was an animal about the size of a rhinoceros. Its nearest relative is the sloth of South America. During late geologic time the ground sloth lived in Texas and generally throughout the southern United States. A skeleton of one of the largest of the ground sloths is now on exhibit in the Texas Memorial Museum, Austin, of which Dr. E. H. Sellards is the director.

VARIETY:—"Why not organize an army of gossipers; their tongues are deadlier than weapons."—Joachim Besen, the Sage of Boerne, poet and philosopher.

Q. Are eggs ever found as fossils?
A. Yes. Fossil eggs have been found of birds and reptiles. In the Texas Memorial Museum is a nest of fossil eggs found in San Patricio county, Texas.

NAMES:—Bascom Giles, Commissioner of the General Land Office, reports two unusual Indian names found in the files of the Spanish Archives. One was "Son of the Left-Handed One" and the other was "Little Dark One" (el Negrito) who was the chief of a tribe.

Q. Who introduced the bill in the Forty-seventh legislature creating the Texas State Council of Defense?
A. Representative Joe C. Carrington of Travis county.

HISTORICAL:—Jesse Jones is the only Texan who has served in the cabinet of the President of the United States as Secretary of the Interior.

Q. What was the Comanche War Trail, and can you give me any information about it?

A. The Comanche War Trail extended from the plains country—western Kansas and Oklahoma—down through Texas traversing the Pecos at Horse Head Crossing. It is said that the trail was used by the Comanches in making raids into Mexico. The Indians set out on their raids every year on the September Moon, and that moon came to be known to the Comanches as the "Mexican Moon" and to the Mexicans as the "Comanche Moon." The trail was explored by Lts. Hartz and Echols in 1859 while they were experimenting with camels for use by the United States army. They followed the trail from Comanche Springs (now Fort Stockton) to near the Rio Grande, a distance of about 160 miles. About 60 miles of the distance was through the area now designated as the Big Bend Park. The trail continued on into Mexico for several hundred miles and was adopted as the state line between the Mexican states of Chihuahua and Coahuila. This information has been furnished to Do You Know Texas? by E. E. Townsend of Abilene.

MY LITTLE BOY'S DOG

My little boy
As dusk draws near
Is tired and weary
But has no fear,
While trudging home
At the close of day
His dog stayed near him
All . . . the way.

Good faithful dog
Can it be that he
Will be left behind
In . . . eternity?
Or will the Kind Master
Who watches o'er all
Let our dog slip in
At my little boy's call?

BEHIND THE SCENES IN AMERICAN BUSINESS

By John Craddock

The Woman Buys

The female of the species is wealthier than the male. Women in the United States control 70 per cent of all private wealth, and they spend more than a thousand dollars every second. They buy 90 per cent of all food, 95 per cent of all furniture, 75 per cent of all clothing. They even purchase 63 per cent of all men's ties! But, as a leading woman's educator points out, "they own the money, they spend the money, and yet they never learn much about money." Since money is so clearly woman's responsibility, declares James Madison Wood, president of Stephens College, "she must be educated for the job." The head of the Columbia, Mo. women's junior college has long been recognized for the "practical-minded" preparation his school gives its girls, teaching them sound budgeting principles, home management, personal finances. But there are 37,000,000 adult able-bodied women in America, and their estimated collective holdings exceed \$210,000,000,000. The training of this giant army of women, Dr. Wood contends, can strengthen our financial structure and do its share in bolstering democracy here at home.

Things To Watch For

Cooling idea for ladies' watches is to surround them in a small cube of transparent plastic, so that they look as though they were frozen in the middle of an ice cube. If you're joining the Navy, watch for tarpaulins made of woven glass—said to be lighter in weight than canvas, and unaffected by sea water or salt air. Carolina Aniline and Extract company has a new synthetic chemical to be mixed with any paint to prevent mildew on painted surfaces. Jitterbugs needn't worry about any war shortage of imported bamboo reeds for saxophones and clarinets, for there's a new line of plastic reeds out, in five degrees of stiffness. Possible bargains in regulation "girls' bicycles"—for the present styles call so insistently for wearing slacks or shorts that bike dealers are worried that the models built to accommodate skirts may become a drug on the market. Electric lights on auto dashboards to flash when the generator is not charging, or when oil pressure sinks to the danger point. Sugar is the latest food to be impregnated with vitamins. An orange-nut bread is latest to join the canned bread ranks.

Examinations Highway Patrol

AUSTIN, July 24.—Approximately 5,000 young Texans will take examinations for Highway Patrol and Drivers License Examiner jobs in mid-August, State Police Director, Homer Garrison Jr. said today. Three thousand applications already have been received and

Time To Prune Flower Plants

If started at once, now is a good time to do summer pruning of shrubs. According to Sadie Hatfield, Extension Service specialist in landscape gardening, all dead or diseased limbs should be cut off. Limbs which are in the way of other plants, pathways or windows should be cut back, but avoid heavy pruning.

Light summer pruning tends to check vegetable growth and helps the plant to form a crop of fruit and flowers for the next spring. Root pruning, which has the same effect if not done too heavily, also may be done now by sinking a sharp spade into the ground and cutting a small portion of the roots. This time of year is suitable for making cuttings of many plants. If they are given plenty of water and partly shaded, they will root and develop. Cutting of choice petunias should be made now because petunia seed has a tendency to divert to the original single white flower. Pinks, carnations and most shrubs also may be rooted from cuttings.

another 2,000 are expected before the July 29 deadline, he said. Application forms are obtained only by writing the Department of Public Safety in Austin, and must be executed and returned by July 29th.

Examinations will be held at each of the 14 Highway Patrol district offices. Applicants will be notified by mail when and where to appear for examination. An eight-week training school will begin early in September at Camp Mabry for the more than 100 successful applicants.

U. S. Army Gets "Tank Busters"

Washington.—The army, seeking new ways to combat mechanized forces, created a fast new experimental division bristling with "tank killers" and other special weapons.

The new experimental division, described as a radical cross between the army's existing armored and triangular divisions, is being created by recasting the present motorized fourth division at Fort Benning, Georgia.

Increasing its fire power by approximately half is expected to make the new unit possibly the hardest hitting in any army aside from fully mechanized armored divisions.

In addition to 75 millimeter howitzers on self-propelled, track laying mount, the counterpart of mobile tank destroyers improved by the German army—the new division is to have 160 medium and light tanks of its own, and 36 versatile tank cars.

Conventional anti-tank guns are to be substantially increased in number.

THE TEMPLE OF TRUTH
By the Apostle

WIDE, WIDE WORLD.
Speedy transportation facilities has just about reduced a state down to the size of a county. In the old days when Pa was called to the county seat, he expected to

be gone from two to ten days and went by rail. He climbed aboard a passenger coach on a parity with a modern day cattle car. He carried a dozen hard boiled eggs and some cold biscuits in a shoe box and a change of shirt tied up in a newspaper as baggage. Remember when you were staying in the county seat that week how you wondered what was going on back home? And when you got back home it seemed like the

baby had grown an inch, and you had been gone only a few days. You will recall how you met up with some other fellows whom you knew from the other side of the county, and threw a wild party in celebration of your liberty by "buying a pint and staying in the wagon yard" to save hotel bills. To stop at this point is a mark of respect as one old-timer to another since we old timers must hang together.

PROMINENT CITIZEN.
The man who wins the sprint to get in first position with the crowd in front of the camera, is a civic leader sooner or later.
IMPOSSIBILITY.
You can't put on too many airs if the neighbors remember Grandma, Grandpa and the Uncles and Aunts. Move to some other community if you want to "put on the dog" and amuse the citizens.

COMMON SENSE.
Some day we will learn to relieve conditions that make men of ambition and talent poor in this world's goods. When that plan is evolved, it will be a plan for opportunity, and not a plan to harass the rich. This plan is gaining favor in educational channels. Why, down at the State University, a man or woman working their way through school is paid a distinct compliment and honor, just as it should be. You know why? Just because most of the great teachers of the University, the richest school on the globe by reason of its oil lands, are men and women who worked their way through school. Dr. E. H. Sellards, nationally known geologist, and head of the Bureau of Economic Geology of our State University for several years, worked his way through the Kansas state university at Lawrence. Many of the highest salaried oil geologists today were former students of Dr. Sellards.

GARDEN GLANCES
"America beautiful lies in the hands of the gardeners."
Of all the hobbies that a person can pursue, one of the most gratifying is the growing of flowers. Not only to the hobbyist but also to their friends and neighbors and the town this hobby is a very pleasant avocation.
The flowers of the town continue to become more beautiful as the warm summer days advance. Dahlias are blooming beautifully in many gardens now. The garden glancer noted the yard of A. W. Simpson with many different colors of this favored flower.
The Gentry home presents to the passerby one of the most unique and enchanting display of phlox that one may find in any place not excepting California. One might employ all the adjectives relative to flowers and then not adequately express their marvelous beauty. They range in colors from white, white with pink centers to very deep pinks, and orchids. See these for yourself; you will be glad that you have the chance to see such a picture.
The home of Lonnie Woods is made more attractive by the phlox bed in their yard.
The grounds of Ed Duncan are interesting with the round bed of pink cannas, the bright colored petunias in front and the phlox and exquisite white dahlias on the side. Eyes are greatly attracted to a yard such as this one.
Vitex trees are blooming in many local yards. A very pretty one is viewed in the yard at the Lovell home.
Gladiolus are more gorgeous this year than ever. The home of U. J. Boston, C. D. McDowell and many others are the proud possessors of these rare specimens of grace and charm.
When passing the Hoy Flower Shop, look through the netting. It is a gratifying view.

Chiropractic
RADIOCLAST EXAMINATION
(A Radio Diagnosis)
Facial Paralysis
Bell's palsy, otherwise known as facial paralysis, is a condition which results from neuritis, involving the facial nerve. This nerve makes its exit from the cranium through a small opening at the base of the brain. If the nerve becomes inflamed, it swells and thus pressure is produced where it traverses this opening in the bone. The result of that pressure is paralysis of the facial muscle and the characteristic sagging of those muscles on the side involved.
What to Do
The Chiropractor is trained in knowing just where these nerves leave the spine and what parts they supply. In a case of neuritis he knows exactly where to look for the displaced vertebrae, and having found it, he proceeds to replace the offending segment. As soon as this is done the interference with nerve transmission has been relieved, and Nature, in her own way, proceeds to heal the inflamed nerve sheath and trunk. By doing so, health and ease is naturally restored. The great virtue in the Chiropractor's method lies in the permanency in results. These results are permanent because the cause of the disorder has been removed.

MUD BOWL PIETY.
Up in the Mud Bowl where the Dust Bowl used to be, some of the pious boys are having a bit of trouble understanding that scripture that says: "Whatsoever a man soweth, that shall he also reap."
PESTIFEROUS.
Next to the itch, nothing is so aggravating as to have relatives attempt to regulate one's matrimonial instincts.

FABLE WITHOUT SLANG.
A certain rich man died and went to Heaven and St. Peter was showing him around the place. The wealthy man was surprised to find all his former servants occupying mansions similar to what the rich man had on earth. In eager haste, he asked St. Peter to show him his new mansion. He just knew one had been fitted up for him especially. Pointing to the slum section St. Peter sighted the old boy to a tumbled-down shack with the shingles coming off and the paint peeling and pillows stuck in the windows. "What," said the fine-feathered fellow, "do you mean to tell me that I must live in that blighted thing!" St. Peter smiled. He just had to, it seemed. Then he said, "you see the homes in Heaven must be built from the materials you send up while you are yet on earth. That's all you sent."

COLLEGE GRADUATES CAN NOW OBTAIN COMMISSION IN NAVAL RESERVE
The United States Navy is now offering to men who are single, under 28 years of age and with a college degree, a marvelous opportunity to obtain a commission as Ensign in the Naval Reserve. Eligible applicants may now enlist to be sent to one of the three training schools, either at Northwestern in Chicago, at the U.S.S. Prairie State in New York or at the Naval Academy in Annapolis. Candidates accepted will be sent to the 4-month Midshipman Training School which begins September 18th at Northwestern and the Prairie State and January 9th at Annapolis. Due to the fact that Annapolis cannot supply this new demand for officers of this expanding Fleet, the Navy is calling upon new resources to fulfill this new program; that is, men with college degrees. The Navy needs young men of strong character, high ideals and mental abilities to meet the requirements of Naval officers in the new Fleet. This particular branch of the Navy, known as Class V-7, offers the greatest opportunity for these new graduates to properly apply the knowledge they have acquired during their college career. With the Naval Program underway, the expansion of the Fleet through construction of ships, establishment of new strategic bases, demand is great that we have trained officers and enlisted men to man the ships and operate these bases. This gigantic undertaking of the building of a 2-ocean Navy is not from any altruistic point of view but is purely from a cold factual outlook. In order to preserve our own standards of living, to protect our principles and ideals upon which our Government is built, to guard our own commerce and interest wherever that commerce and interest may be, to maintain freedom of the seas, the building of this mighty offensive fortress, our first line of defense, becomes a necessity and application should be made at the nearest Naval Recruiting Station, or by writing to this Station in Dallas.

Giants and Grasshoppers

Recall the ancient story of how a people missed a great opportunity because they thought of their opponents as giants and of themselves as grasshoppers?

Still true! Those who take fright over opposition and undervalue themselves are whipped before they start. No land of promise is ever taken in this spirit. The grasshopper complex will not lift a mortgage, educate the children, or put any advantage within our grasp.

While we face some problems that are gigantic, it is also true that our capacities are greater. A land of promise awaits all who use thrift, energy, and brains, grounded on character.

Scout Council Lake Marvin

GIFTS
How much gold will it take to buy a sunset?
Or a sky of crystal blue?
We do not have to buy the sound of silver in a trickling brook.
Or we do not have to pay for a glimpse of a beautiful hillside view.
We do not have to buy such things, we can capture all of nature's Loveliness without a cent of money and fully enjoy the view.
Nature is generous; she gives impartially to all of us her beauty and Never expects a sou.
—Albert Walton Speaks.

The Adobe Walls Council has announced another session of Camp Ki-O-Wah opening for one week August 17, on the Council property just north of Lake Marvin in Hemphill County.

Due to the success of the three-week term of camp held in June, and the demand created for more camping by the Troops in the fifteen counties which comprise the Adobe Walls Area Council, the Camping and Activities Committee has announced another term for August. Many Scouts who attended in June plan to return for this "fall" camp, as well as Scouts who were unable to attend during the June session.

LOCALS

Harry Edward Blair Jr. is spending the summer with his grandmother Blair in Carthage, Texas.

Mr. and Mrs. Carl Stewart of Amarillo visited relatives here Sunday.

The family of Bryan Armstrong left to spend a vacation spell in Colorado Sunday.

Mr. and Mrs. Willis Hastings and daughter, Maggie, visited relatives at Estelline Sunday.

Mrs. F. C. Johnson visited friends in Amarillo Saturday.

Mr. and Mrs. Wm. Beedy and children of Floydada were guests of the J. E. Mongole home Sunday.

Mrs. Hattie Palmer, who has been quite ill from pneumonia, is much improved today.

Tommy Land, who has been visiting his grandparents, Mr. and Mrs. W. A. Land returned to his home at Tucumcari Monday.

Word from the Council office in Pampa states that applications for the week opening August 17 must be in the office not later than August 1st. A minimum registration of 60 Scouts is needed to open the camp for this extra session. A minimum number of Scouts is necessary as there is no administration building on the camp property, and all equipment must be hauled from Pampa and other towns where it is stored.

The staff personnel for the August camp will be practically the same as that in June, with the same junior staff serving under the direction of senior leaders. J. H. Duncan, director of the early camp, is at present serving as water-front director for a private boys' camp in Colorado, and may be unable to return in time to assist with this session of Camp Ki-O-Wah. However, adequate supervision will be given so that Scouts attending either for the first time, or as repeat campers, will gain the fullest enjoyment from the experience.

Mr. and Mrs. Leck Goldston were in Amarillo Monday.

Ray Palmer and Homer Charles Speed left Monday on a Colorado fishing trip.

Excess Cotton And Penalty

Cotton marketed in excess of 1941 farm marketing quotas will be subject to a penalty of approximately 7 cents per pound, Walter J. Flynt, county AAA secretary has announced.

In 1939 and 1940, Flynt continued, the penalty for excess cotton was 3 cents per pound and in 1938 the rate was 2 cents per pound. There will not be an increase however, in the total amount of penalties due on carry-over penalty cotton marketed in excess of the 1941 quota.

The higher penalty rate will be applied on only that portion of the carryover penalty cotton which would yield the same amount of penalties as all of the carry-over cotton would have yielded under the former rates. The remainder of the carry-over cotton would then become penalty free.

"To make my point clear," Flynt said, "suppose a farmer has 700 pounds of carry-over penalty cotton from 1940. Had he marketed the cotton last year, he would have paid a penalty of \$21 which is the equivalent of 3 cents per pound. If he elects to sell the cotton this year, however, the 7 cents per pound penalty would be in effect and he would pay 7 cents per pound penalty on only 300 pounds for the \$21 total penalty since this is the amount of the total penalty for 1940. The remaining 400 pounds of cotton would then become penalty free."

Recently enacted legislation which makes 85 percent of parity loans available on major commodities also provides that penalties on excess marketings will be 50 percent of the basic loan rate. The basic loan rate for cotton for 1941 will be set at 85 percent of the parity price as of the beginning of the marketing year which will be about August 1st.

If, for example, Flynt continued, the parity price of cotton on August 1st is the same as it is at the present time, or 16.12 cents per pound, the basic loan rate will be 13.70 cents per pound, which is 85 percent of parity. The penalty on excess cotton, in this case, would be 6.8 cents per pound. The loan rate for cotton marketed in excess of the farm marketing

Protestant Sects United In Japan

Tokyo.—Following the recent recognition of the Roman Catholic church as a legal religious organization under the Religious Bodies law, which became effective April 1, 1940, all Protestant denominations in Japan, except the Episcopalians and Seventh-Day Adventists, united in one organization, the Church of Christ in Japan.

The work of organization, which had been going on since last Summer, was completed this week at a conference attended by 317 delegates from every section of Japan. A constitution was drafted and officers elected.

Under the Religious Bodies law Christianity was recognized as a Japanese religion but its administration was divorced from foreign influences and placed under government control. When it became clear the government would not recognize any denomination having fewer than fifty churches or fewer than 5,000 members, unification became imperative.

One of the standout attractions at the Sixth Annual XIT Reunion in Dalhart Aug. 4-5 will be the Dalhart Cowgirls Trio who, left to right, are Irma Jeannette Karnes, Billie Jo French and Betty Steele. The XIT Reunion is based on the history of the 3,000-

000-acre XIT Panhandle ranch which Texas in the 1890's traded to two Chicago financiers for construction of the \$3,000,000 red granite Austin capitol. It is to honor all men and women who once worked for the ranch, and all other Western pioneers. The trio

is shown in front of the Empty Saddle monument, located in down town Dalhart, and dedicated at the fifth annual reunion to the sons and daughters of the Old West.

Defense Bond Quiz

Q.—What is the price of a Defense Savings Bond?
A.—For the smallest Bond, you pay \$18.75. The Bond will increase in value in ten years to \$25. For \$75, you get a Bond which will increase to \$100; other Bonds are in proportion.

Q.—What will the Government do with the money I pay for my Bond?
A.—Your money will be put to work at once in the National Defense Program to protect the freedom and safety of the United States, and of all its people everywhere.

Note.—To purchase Defense Bonds and Stamps, go to the nearest post office or bank, or write for information to the Treasurer of the United States, Washington, D. C.

Xit Reunion August 4-5th

Dalhart, July 23.—Entertainment for the Sixth Annual XIT Ranch Reunion in Dalhart Aug. 4-5th will really start Saturday night, Aug. 2nd, in order to take care of the early comers.

Three old-time organizations annually meet in Dalhart on XIT Reunion dates. One is the XIT Association, parent of the reunion and open only to men and women who once worked on the 3,000,000 acre spread that Texas in the 1880's traded for its \$3,000,000 red granite capitol in Austin.

Another is the Old Trail Drivers of the Southwest; and the third is the Texas-New Mexico-Oklahoma Cowboys Association, known as the TNO.

Many of the pioneer members of these organizations, and other old-timers, drift into Dalhart a day or two early to have a little more time to look up old acquaintances, renew friendships and swap yarns. And lots of the youngbloods come along.

Major Saturday night attractions will be the dances. Three top-flight orchestras have been secured for the reunion—the Light Crust Doughboys of Fort Worth; the Melody Maids of Amarillo; Lasswell's Playboys of Dalhart.

The Dalhart Square Dance club, in the new Legion hall, will be host to all old-timers Saturday night and each night of the reunion. Any old-timer with a badge from any one of the three pioneer organizations will be admitted free. Only old-time steps will be danced.

The annual Memorial Service, paying tribute to the West and all sons and daughters, passed and present, will be held Sunday nite, Aug. 3. Dr. J. A. Hill, president of West Texas State College at Canyon, will be the speaker.

Each reunion morning there will be band contests, maneuvers, massed concerts and the XIT parade. The professional rodeo, attracting top hands of the Southwest Rodeo Association and the Rodeo Association of America, will be held at 2 p. m. daily. A cowgirl sponsor contest, and an all-girl roping event will be stand out attractions.

Brodbeck & Schrader shows will be here with rides only—but plenty of 'em—for the kiddoes.

Mrs. A. T. Cole was in Dallas the first of the week where her sister, Mrs. Reynolds, has been ill.

A. J. Kelley, branch manager at Amarillo of the Mutual Benefit Accident & Health Insurance Co., was here on business Friday.

Wheat Penalty Is Explained

Wheat producers who have excess wheat may store the amount of the excess in order to postpone or avoid payment of the penalty, Walter J. Flynt, Secretary of the AAA committee, said.

Some wheat farmers have misunderstood the motive of wheat marketing quotas but the primary objectives is to keep the excess wheat off the market at this time since the United States has an enormous surplus on hand. The penalties on excess wheat are not to be confused with measures for raising revenue since the penalties are a means of inducing producers to keep excess wheat off the market and in no way constitutes a tax.

Wheat producers who have excess wheat and who wish to postpone or avoid the payment of the penalty may either store the wheat on the farm by executing a bond of indemnity, or by placing funds in escrow, through the county AAA committee, or by storing the wheat in a warehouse and depositing the warehouse receipts with the county AAA committee. The excess may be pledged to secure a Commodity Credit

Corporation loan which will be at a rate of 60 percent of that available to cooperators.

If producers do not choose to store their wheat they may avoid the penalty by delivering the excess to the Secretary of Agriculture, through the local county AAA committee, for relief purposes.

Producers who do not choose any of these methods to dispose of their excess wheat must then pay the penalty on the excess before they are eligible to receive wheat marketing cards.

Flynt pointed out that an amount of wheat not less than the farm marketing excess must be either stored or delivered to the Secretary of Agriculture, or the penalty at the rate of 49 cents per bushel must be paid not later than 60 days after harvesting the wheat. If the excess is not accounted for in one of these ways, the producer will be liable for the amount of penalty incurred on the farm marketing excess.

According to Flynt, the payment of the penalty can be postponed as long as wheat is in storage.

A. L. Chase, who has been in declining health for some time, left Monday night for Temple, where he will go thru the Scott & White Sanitarium for a complete examination

THE PASSING OF THE Boomtown

Oil boomtowns exist today only in the movies. The old-time "gusher" wells are gone forever.

In the early days, as long as oil flowed, the boomtowns flourished. But soon the wells failed and the booms collapsed, carrying with them the income and security of those who had depended on them.

Today, through a sound program of conserving oil and gas, hundreds of Texas communities are enjoying a permanent type of petroleum development. Furthermore, because of conservation, we have the largest oil reserves in the world, one of our greatest assets for National Defense.

Oil now builds stable communities. It provides assured tax revenues and greater ultimate tax returns than were ever possible in boomtown days. And every citizen benefits from the income oil creates.

Conservation not only protects Texas oil resources. It also assures for many years the prosperity which oil brings to every community where it is found.

Edge In Attack Is Pointed Out

Washington.—Rep. Warren G. Magnuson of Washington, returning to the capital after a tour of Alaskan defenses, said this week that the possibility of German-Japanese military collaboration menaces that strategic American outpost.

He said that the Axis partners—in the event of a victory over Russia—probably would follow this line of action against the United States:

1. Japan will open an attack upon the Dutch East Indies. (Chief of Staff Geo. C. Marshall

advised congressional leaders last week that the army feared such a southward move.)

2. The German army—with the double-track trans-siberian railway as a supply line—would attack Canada and the United States by way of Alaska across the narrow Bering Straits.

An invader, operating from bases on the Siberian coast, would be in a far better position to attack than the United States would be to defend Alaska, Magnuson believed.

"We'd either have to fly supplies 1,100 miles to our forces in Alaska, or ship them up the coast," he said.

The present sea supply route to Alaska would be made practically useless in wartime by Japanese submarine action, Magnuson added.

"Between Seattle and the Aleutian Islands," he said, "there are 40,000 islands, any one of them capable of hiding or basing an enemy submarine."

Magnuson said that construction of the proposed Alaskan international highway from Seattle to Fairbanks, Alaska, would "immeasurably strengthen" Alaska's position as a military base by providing it with a protected, overland supply route.

The intense look in William Holden's face is occasioned by his proximity to the sensational new screen siren, Veronica Lake. Their romance is part of the story of the Paramount air thriller, "I Wanted Wings," opening Wednesday at the Pastime Theatre.

Thrills, Romance On Way In Air Epic "I Wanted Wings"

Combining a story of adventure and romance with the exciting and fascinating chronicle of how America is training its young men for defense in the air, "I Wanted Wings," Paramount's new aviation spectacle, will come roaring into town Wednesday, when it begins its local run of two days at the Pastime Theatre. Hardly ever has a motion picture caused so much excited talk among moviegoers, and there is plenty of good reason for it.

To begin with, the film fans seem to sense, with that indefinable instinct that many of them seem to possess, that Paramount

has sent aloft an aviation picture perhaps of unsurpassed magnitude. The fact that the Army Air Corps gave its fullest cooperation to the film's producers indicates a picture of the first rank. Even the indelible motion picture, "Wings," one of the greatest sky films of all time, did not have such auspicious help. All this, of course, leads us to take for granted that there will be breathlessly thrilling sky sequences—and that they will all be authentic and accurate, which is always a tremendous benefit in a picture of this sort.

For instance, "I Wanted Wings" presents the details of what might happen if a city such as Los Angeles were to be raided from the air and blacked out in defense. Information hurtling back to this desk from the Coast heralds this scene as one of the most gripping ever filmed. And well it might be, too.

While the picture stars such brilliant players as Ray Milland, William Holden, Wayne Morris and Brian Donlevy, there is one player in "I Wanted Wings" to whom considerable attention must be given—and she is Veronica Lake, who has been stirring up as much comment as has been given to any movie actress in the past decade. A comparative newcomer to the screen, Miss Lake, who has appeared in only three minor roles in the past, dashes towards stardom with all the speed and surprise of a pursuit plane. She's a thoroughly streamlined beauty, honey-blond, with exciting looks, trim figure, and, no doubt, plenty of genuine acting ability.

Constance Moore, who has been seen more frequently on the screen than Miss Lake, also is featured in the cast, playing her most important part so far. As this department recalls her, she is lovely to look at, knows how to comport herself before the camera lens.

SIDE GLANCES ON TEXAS HISTORY

By Charles O. Rucker
 University of Texas Library

The Texas Mustang In Easy (?) Lessons

That the wild mustangs which overran Texas in the days of its early settlement were wiry and wily creatures of the prairie is a fact that everyone who knows anything about the state's early history thinks of as obvious. One gentleman, however,—and with good reason—went so far as to remark that "the wit of the country appears to be largely invested in the horses."

This somewhat cynical gentleman was the author of a little anonymous book titled "A Visit to Texas" which was published in New York in 1834 and from which the quoted observation is taken. A copy of the new-rare little book is in the Textbook Collection of the University of Texas Library.

Now our author spoke from experience; for, although when he reached Texas early in the 1830's he knew only enough about the Texas mustang to prophesy that in the future it might become "a valuable article of export," he soon bought one of his own—a small white one, newly broken in—and quickly learned the real facts of mustang life.

He Loses No Time

The very first morning, for instance, he had his first lesson in mustang temperament—an experience which immediately "laid the axe at the root of all that confidence and attachment which a traveler loves to exercise towards his horse." He was trying to lead it onto a ferry boat on the Brazos River when suddenly it "sprung at me like lightning, clearing the ground entirely, and making a leap of about eight feet. I jumped aside and barely in time to avoid his feet, with which it seemed to me he designed to beat me down," the author wrote.

Having had his confidence thus shaken at the beginning, he found it utterly dispersed by two incidents that immediately followed: one, when the "little flying brute" broke away in the middle of a vast prairie and led him a four-hour chase; the other, when it dropped to its knees without warning, threw him over its head into a swamp and made him lead it a remainder of his journey, a distance of thirty miles. At last then he realized that his mount was quite an "accomplished rogue" and even more than that—a very demon incarnate.

A Round-Up

The extreme versatility of the horse was not apparent, however, until near the end of the author's stay in Texas, when he participated in a friend's round-up. The little mustang knew the business far better than the rider and—apparently having determined determined "to show me how impudent and provoking a mustang can be under the mask of faithful and untiring service"—proceeded gleefully to do as he pleased, jerking to and fro after stray cattle so quickly as almost to throw the author into the midst of the herd. "I thought for some time that I should never get my bones back whole to Anahuac," he wrote.

Already he had come to regard his demoniacal mount with considerable awe, but this evidence of its extreme cleverness and utter irresponsibility was too much. When he was ready to leave for the United States he very probably was more than glad to part with it for twenty dollars—saddle, bridle and all.

BIRD KILLS 43-INCH SNAKE

Details of the efficient manner in which road runners, or chaparrals go about killing snakes, was contained in a report of a game warden to the Game Department recently. The warden got in on the start of the fight and remained until the close, exactly an hour and 21 minutes later.

The roadrunner was jogging down a small path through the brush when it stopped suddenly and started circling a bunch of cord grass. The warden approached to within twenty yards of the bird and remained there while the chaparral proceeded to trim a 43-inch rattlesnake down to its size and then to dispatch it. Darting in and out, the road runner dug viciously at the rattler time and again and each time managed to evade the fangs of the six-button reptile. After 81 minutes the rattler was lifeless. The chaparral took two more vicious stabs at it, cocked his eye at the warden and nonchalantly strolled off into the brush.

Upon examining the reptile, the warden found a hole completely through the center of its head, three lacerations on its belly and the rattler was missing both its eyes.

Mrs. F. N. Bentley and daughter, Mary Helen of Dallas, arrived Sunday to spend a month with her parents, Mr. and Mrs. G. L. Green.

Housewives to Help Build 2,000 New Airplanes

Housewives' donations of used aluminumware during the aluminum scrap collection campaign July 21-29 should permit construction of more than 2,000 additional fighting planes or 500 additional four-engine bombers, Robert E. McConnell, chief of the Conservation Unit, OPM, said on July 11th.

Although only a part of the coffee pots and frying pans which housewives will give to the Government can be used directly in aircraft manufacture, virtually every pound collected will be used for essential defense needs, he said.

The donations of aluminum will free an equal amount in pounds of virgin aluminum to be used for aircraft purposes, so that whether the family coffee pot goes into an airplane or not, it releases an equal weight of aluminum for aircraft construction, Mr. McConnell explained.

Test campaigns indicated that a minimum of 15,000,000 net pounds usable in defense manufacture will be collected in the Nationwide campaign, which begins in every community in the United States July 21. A fighter plane containing 7,000 pounds of aluminum could be built with the met-

INDUSTRIAL SPECIALISTS NEEDED FOR DEFENSE

Individuals who know industrial methods and processes from first-hand experience are needed to contribute their part toward the integration of the expanding defense program. The Civil Service Commission has announced an examination for industrial specialist positions paying from \$2,600 to \$5,600 a year. The examination (Announcement No. 102) is open for 1 month only. Applications will not be accepted at the Commission's Washington office after August 7th.

al freed by every donation of 5,000 dishpans, or 10,000 coffee percolators, or 2,000 roasters, or 2,500 double boilers (based on average weights).

Other OPM officials said that the Navy has already begun making changes in specifications to utilize the donated aluminum-ware in the defense program: all departments of the Army have begun the study of specification changes; the Army-Navy Aeronautical Board is continuing a special study at Wilbur Wright Field, Dayton, Ohio; and other Federal specifications have already been modified.

Aluminum experts in OPM and in private industry contended there is no difference in usability between a given quality of virgin aluminum and the same quality in reclaimed scrap aluminum.

Cotton Stamp Is Coming Next

County agent H. M. Breedlove stated this morning that cotton stamps for the purchase of cotton goods would start to be issued in Donley county some time around the first of August. Breedlove stated that all merchants in Donley county would be notified when the stamps started to be issued so that they could get ready to take the stamps for cotton goods. Breedlove also stated that all merchants would be contacted separately by the county agent or a representative of the Surplus Marketing Administration to help each of them get started in handling of the cotton stamps.

REUNION WAS SHORT

Only ninety-four relatives attended the annual family reunion of the G. H. Hodges family at Vashti Sunday. Some came quite a distance. Attending from here were Mrs. J. C. Estlack and son, Alfred Estlack.

VISITS DOWN STATE

A popular young lady has a lot of folks to see and many places to go when she gets off on vacation. Miss Jo Ann Smith of the draft board office here returned Friday from a trip down state. She spent some time with the family of T. W. Bell Jr. in Dallas, and the Harlan B. Naylor family in Houston, as well as other places and with other acquaintances.

FORGOTTEN GRAVES NEED ATTENTION

The Trustees of the Citizens Cemetery report they were some what disappointed in their call for donations for the up-keep of the grounds. They mailed out over five hundred letters to Lot owners and others they thought would be interested, also made several requests thru the newspapers.

Up to this time only about 100 have responded to their appeal. The excessive rains this spring has made it rather expensive to keep men working. Over three hundred graves had to be refilled and a number of trucks were used for over a week which cost considerable money. Then on account of the rank growth of grass and weeds a crew of six to ten men were employed for some time. They now have one man which they hope to keep working the balance of the summer provided funds can be raised.

The Trustees urge everybody that has a friend or relative resting in this Cemetery to make a donation of at least \$1.00 and do it soon as possible so they can keep the good work going. Donations made so far range from \$1 to \$15, so any amount you see fit to contribute will be appreciated.

Miss Leona Pearl McCraw is visiting her aunt, Mrs. A. E. Humeson in Childress.

Mr. and Mrs. Ed England of Hobart, Oklahoma visited his nephew, Mr. and Mrs. Gilbert Bryan the week end.

Social Centers Provided By Baptists

Texas Baptists have established religious centers for fifteen army camps in Texas. In many places chapels have been built, where the soldiers come to meet sweethearts, loved ones and friends, also to write letters and to have a good time socially. The chapels are likewise used for religious purposes. They do not serve as churches, however, but serve more as mission stations and recreation and religious centers.

Dr. A. C. Miller is the superintendent of Baptist work among the soldiers in Texas. He says, "There are twenty-two military posts, camps and stations with approximately 200,000 soldiers in Texas. There are also three more major camp sites now being surveyed. It is safe to estimate that more than a million young men will pass through the training camps of Texas during the five year defensive period."

Dr. W. W. Melton, Secretary of the Baptist General Convention of Texas, says, "Texas Baptists will make an effort to raise \$35,000.00 on Sunday, July 27th. We are doing this in cooperation with Southern Baptists with an effort to raise \$300,000.00 that one day. All of this money is to be used in behalf of our boys who are in government service."

"The pastors of the 3,250 Baptist churches in Texas have been asked to take a cash offering Sunday, July 27th. There are 750,000 Baptists in Texas, and each one should have a part in supporting the soldiers' program."

The Baptist Executive Board has employed seven ministers to devote their full time to the Baptist soldiers' program. These men are working under the direction of Dr. A. C. Miller and are making an effort to carry out the following five-point program:

1. To conserve the religious life of our Baptist men in government service.
 2. To provide Baptist soldiers certificates of affiliation in lieu of church letters.
 3. To win to Christ all whom we possibly can through personal testimony.
 4. To cooperate with the local religious force in providing wholesome recreation and social contacts in the community for the many in the camps.
 5. To cooperate with army officers and government officials in creating such conditions that the young men who enter government service may return to their homes better physically, better mentally, better socially and better religiously.
- Dr. Melton said, "Texas Baptists can easily raise the \$35,000.00 on July 27th. It ought to be done; it can be done; and we believe that it will be done."

Local Officers To Aid Defense

AUSTIN, July 23. — Law enforcement officers throughout Texas were called upon today to join in a statewide mobilization for national defense.

A complete inventory of police personnel and equipment is being made in every political subdivision, it was announced by Col. Homer Garrison, Jr., State Police director and chairman of police mobilization for the Texas National Defense Committee. Sheriffs, chiefs of police, city marshals and constables were asked in letters from Garrison to report their personnel strength, transportation and communication facilities, special equipment such as arms, gas guns and masks, portable light generators, horses, boats and airplanes and jail capacities.

This information will make it possible for police authorities to "cope with any situation that might arise," Garrison said. "The state will be divided into 14 districts, and should a planned disorder or other emergency arise, additional qualified law enforcement officers would be asked to go to the affected area to assist the local officers."

This, he pointed out, will be merely an extension of the age-long practice of officers helping each other.

"Co-operation is strictly on a voluntary basis," Garrison said, "and no department is compelled to carry out the various phases of this plan."

Colonel Garrison also revealed that a comprehensive survey is being made of all Texas defense projects and industries essential to national defense, and the plans are being drawn for their protection against sabotage.

Mr. and Mrs. Vestal Mosley and children of Pampa spent Sunday with her mother, Mrs. C. J. Talley, near Martin.

ATTRACTIVE PROGRAM AT FIRST CHRISTIAN CHURCH NEXT SUNDAY NIGHT

The final message in the Happy Homes and Successful Marriages campaign will be given this Sunday night at the First Christian Church. The subject will be The Challenge of the Cradle. It will set forth the serious aspects of parenthood and at the same time present the rewards any good father or mother can have in rearing children.

A pantomime "Life Marches On" will be presented by a number of the children and young people of this church with musical interpretation.

Another feature this Sunday evening will be the local College quartette under the direction of Miss Howren. This quartette is composed of Fred Cook, Wilfred and James Earl Hott and Millard Miller. This group of singers have been doing some fine work in the field of music and we are happy to have them sing for us this Sunday night.

The service will begin at 8:15 and everyone is welcome and invited. A large crowd is anticipated.

VISIT ALLENS HERE

Week end guests of Mr. and Mrs. G. E. "Dick" Allen were her sisters, Mrs. A. S. Talliaferro of Dallas, and Mrs. J. H. Jackson of Ennis. Two sons here were Mr. and Mrs. T. J. Allen of San Antonio and Mr. and Mrs. Glenn Allen of Memphis.

Mrs. Harry Blair and daughters, Delene and Biffy Dee, spent the week end with Mrs. Blair's mother, Mrs. Mitcham in Memphis.

Getting Ready For Winter

According to county agent H. M. Breedlove the work on comforts for all families in Donley county who received a mattress under the cotton mattress program will receive one comfort for each mattress that he or she received. All persons will be required to make his own comfort, this will be handled the same as the mattress program Breedlove stated, with all persons helping each other make their comforts.

There will be two comfort plants. One will be located in Hedley and the other in Clarendon. No applications will be received at this time as only those persons who received mattresses are eligible to receive a comfort. All persons will be notified.

TO HOT SPRINGS

Mr. and Mrs. C. E. Griggs left Tuesday on an extended vacation visit with their daughter and husband, Dr. and Mrs. C. W. Galaway in Hot Springs, N. M. They expect to be gone a month, Mr. Griggs stated.
