Demonstration Rally Here Friday, 22nd

Clarendon Forfeits District Title Game To Memphis

FINE HEARING IS GIVEN PROGRAM

LARGEST ATTENDANCE EVER RECORDED PRESENT SUNDAY EVENING.

The auditorium of the Presbyterian Church was so crowded on last Sunday evening that many were turned from the doors of the church unable to find a place where they could pay tribute to the boys who fought in the holocaust that was ended on November 11th, 1918.

The program in itself was planned by a committee from the Aubyn E. Clark Post of the American Legion. This committee was made up of H. T. Burton, G. L. Boykin and I. O. Noble.

Other numbers were on the program in plenty. Mrs. Rita Foster Stocking giving two readings that were especially suited to the time and to this particular occasion.

Rev. and Mrs. J. T. Griswold spent Wednesday night here in the M. M. Noble home enroute to the Methodist annual conference at Pampa.

TO ORGANIZE PARK BODY SATURDAY

PERMANENT ORGANIZATION FOR PALODURO PARK WILL BE EFFECTED.

Clarendon will be represented Saturday in the sectional meeting at Amarillo for the purpose of effecting a permanent organization for the promotion of the Paloduro State Park in the Paloduro Canyon.

Letters inviting persons interested in seeing state parks established in Palo Duro Canyon and the Caddo Lake and Davis Mountains districts to a meeting to be held at 2 o'clock Saturday at the Amarillo Hotel were sent out Wednesday morning by the Amarillo Chamber of Commerce.

Among those asked to attend will be chamber of commerce secretaries in the 32 counties of the Panhandle, city officials, county officials, civic organizations, American Legion posts, federations of women's clubs, and state senators and representatives.

MEET ON HIGHWAY MATTERS TUESDAY

A number of interested citizens from the northern section of the county met with the Commissioners' Court Tuesday of this week with particular reference to the location of Highway 66, a small portion of which passes through the northern part of the county.

LAMESA MAN CALLED BY LOCAL BAPTIST CHURCH

Rev. B. N. Shepherd of Tahoka, was here the fore part of this week and has been called to the pastorate of the local Baptist church. He has not made known his plans for the future, but has stated that he will let the local congregation know of his reactions on Sunday.

Miss Fern Cauten visited in Memphis Sunday.

BRONCHOS MEET MEMPHIS TODAY

CHAMPIONSHIP HANGS ON OUTCOME OF GAME TODAY WITH MEMPHIS.

Before the Bronchos met the Memphis Cyclones for the championship of section "D", there was one of the largest pep rallies of the season. Due to cold weather the meeting was held in the College auditorium at seven p. m. Wednesday night.

This will probably be the hardest game of the season as the Cyclones held the Bronchos to a 6-6 tie here earlier in the fall. Both teams have greatly improved since their last battle, with Memphis winning over Childress and Shamrock and Clarendon tied both Estelline and Shamrock.

Clarendon's starting lineup will probably be: center, Estlack; tackles, Eastorling and Behrens; guards, Hixon and Rutherford; ends, McCary and Watson; halves, Biard and Noble; full back, Nichols; quarter, Dillard.

Late Arrival Is Armistice Day Boy

A late arrival to the city of Clarendon is the son of Mr. and Mrs. Loyd Stallings, the youngster coming here early Armistice Day of this year. He is a bouncing youngster who has much promise as to the use of his lungs and will probably be a train caller when he grows up.

Mr. and Mrs. Dan Rutledge and son, Dan, Jr., of Elk City, Okla., were guests of Mrs. Rutledge's sister, Mrs. F. E. Chamberlain over the week-end.

BRONCHOS FORFEIT AT LAST QUARTER

Without being in possession of the details or causes, we learn as we hold the press that Clarendon forfeited the game to Memphis at the close of the third quarter which gives the Memphis Cyclone the game by a score of 2-0.

The score was standing 13-0 in favor of Memphis a few seconds before the break came which caused the Bronchos to leave the field.

WORKERS MEETING HELD IN ESTELLINE TUESDAY

The regular monthly meeting of the Workers' Council of the Panhandle Baptist Association was held Tuesday afternoon of this week in Estelline with a fair attendance despite the weather conditions and the sorry condition of the roads.

Those in attendance from Clarendon are: Mmes. T. M. Couch and A. M. Simpson, Miss Ruth Thompson and Messrs. O. C. Watson and R. W. Moore.

ARMISTICE DAY OBSERVED HERE

TOWN THOROUGHLY CLOSED AS HOLIDAY IS OBSERVED IN CITY.

Clarendon business houses observed the eleventh anniversary of Armistice Day with very little fuss in contrast to the observation of the first one on November 11th, 1918.

The four days of the year as planned by the Chamber of Commerce are to be observed this year, this being the second of the four for 1929. No unseemly play was seen here, the citizens keeping themselves well in hand and giving more than ordinary thought to the things that have passed in the eleven years that have gone into history.

LEGION REACHES QUOTA FOR YEAR

MEMBERSHIP DRIVE REACHES GOAL SET FOR YEAR WITH EASE.

Immediately on the election of new officers for the Aubyn E. Clark Post of the American Legion, plans were laid to bring the 1929 quota to its limits in as short a time as possible. This work was started October 8th and just a little more than one month later, or Wednesday of this week, the fiftieth member was secured and the quota was reached.

Post Commander Ralph Andis is feeling exceedingly well over prospects for the coming year and states that the Legion has a

METHODIST CONFERENCE MEETING THIS WEEK

The Annual Conference of the Methodist Church, Northwest Texas Conference, is holding its sessions in the Pampa Methodist church opening with the first service Tuesday evening.

GRAND JURY FINISHES-ADJOURNS

FIFTEEN TRUE BILLS RETURNED. THANK OFFICIALS FOR AID.

The Grand Jury for the October term of District Court in Donley County completed their tasks last week and made their final report to the court. They made many examinations and returned fifteen true bills of indictment for mischief done.

We, the Grand Jurors duly impaneled at the convening of this term of District Court herewith submit the following report:

We have examined a great many witnesses covering various law violations and as a result have found fifteen true bills for various violations of laws; twelve felonies, 3 misdemeanors. We also find as a result of our investigations that a great deal of mischief and damage to public buildings, particularly school houses is being done by small boys supposedly, and we would urge the parents of boys of school age to be diligent in their efforts to teach them the proper regard for all public property as well as private property.

We have inspected the County Jail and find same in good condition with the exception that some painting and paper hanging needs to be done inside especially in the jailer's living quarters and we feel confident if this small matter is brought to the attention of our Honorable County Commissioners' Court it will receive their usual prompt attention.

Feeling that we have completed our work we respectfully ask that we be dismissed.

T. L. Naylor, Foreman.

Whiskey Captured Owner Is Sought

Late in the afternoon of Wednesday a Ford car drove into the College Park, remained a few moments and left. Perry Wood, who was making a delivery at the Dr. T. H. Ellis home directly across from the park, noted the car and became suspicious. He likewise entered the park and found a ten-gallon keg of whiskey or like beverage slightly covered with brush.

great field of endeavor in which to labor. There are many more in Clarendon who have never aligned themselves with this organization and they will be expected to get into the fight with the boys, even as they did before the celebration of Armistice back in 1918.

DISTRICT COURT HAS BUSY SESSION

MANY CASES UP FOR DISPOSITION AS ADJOURNMENT NEARS.

The final week of the Fall term of District Court for Donley County has been one that passed many records for the amount of work completed. The case of Bodie Wells was tried last Thursday and Friday resulting in a hung jury. The defendant was charged with the sale of whiskey.

A trial that attracted quite widespread interest was that of Oscar G. (Jimmie) Brown charged with murder in connection with the slaying of the Hedley night watchman at the end of 1928. In this case the penalty was assessed at five years and no motion for an appeal or a new trial was heard.

Two suspended sentences were given, one to Roy Mangham, charged with cattle theft and the other to Lon Prather on a charge of chicken theft. Ted Snyder, was given his freedom on an instructed verdict for the reason that he was charged with one item and was tried for another. The case of Bud Randall, charged with cattle theft, was held Wednesday and the penalty was assessed at two years.

The remainder of the week will be given to the clearing of the docket insofar as possible, that the court may adjourn here and press on to another county to take up their duties there.

Judge A. J. Fires has been incapacitated with a severe sore throat and cold all of this week and has been relieved by Judge Moss from Memphis.

STUDENTS' RECITAL IS ANNOUNCED FOR SUNDAY

The students of Miss Fray Stallings, instructor in Piano and pipe organ will be presented in a recital in the auditorium of the Methodist Church next Sunday afternoon, according to advices received the early part of this week. The hour for the beginning of the recital has been set at 8:00 o'clock, and the patrons are invited to attend and hear these young folk as they are put through their repaces. The general public is also invited to attend on the recital.

ATTEND SAFETY MEET

Messrs. T. D. Nored, R. S. Cope and O. E. Harvey were in Childress Tuesday of this week, where they attended the regular Safety Meeting of the West Texas Utilities Company employees. Mr. Nored attended the managers' meeting and Mr. Harvey attended the foreman's meeting, later all gathering for the program and other features of the Safety meeting in the afternoon. They returned here late Tuesday afternoon.

ALL CLUBS GATHER FOR ALL DAY MEET

CROWD OF THREE HUNDRED EXPECTED TO BE PRESENT HERE.

An annual rally day for the Home Demonstration Clubs of Donley County has been planned by Miss Harvey Thompson in connection with the clubs of the county, the same to be held here on Friday, November 22nd at the Methodist Church. In the morning the program will be given over to various stunts, each club being required to present at least ten minutes of entertainment, with a maximum length of time to be allowed of 30 minutes. Clubs will appear on the program in the order named here: Ash-tola, Bray, McKnight, Hedley, Chamberlain, Clarendon, Giles, Goldston, Hedley Rural Club, Jericho-Boydston, Lelia Lake, Martin and Naylor. Club Secretaries will also read their reports at the short time immediately before noon and following the stunts. The meeting will be called to order at 9:00 o'clock and will adjourn for lunch from 11:50 to 1:00 p. m.

The members of the clubs are asked to bring "Pot Luck" lunches with them and each club is asked to delegate three women from each of their groups to prepare the meal, more than this many would be in the way. In the afternoon, the following program has been prepared and will be given:

Message from Home Demonstration Council, Mrs. O. L. Fink, President.

Message from County Federation, Mrs. J. A. Thompson, President.

Announcements. Reading, Mrs. Frank Stocking. Music interpretation arranged by Miss Athea Evers.

Piano solo, Miss Christine Stroder. Pipe organ solo, Miss Fray Stallings. Home Economics, Miss Helen Beck.

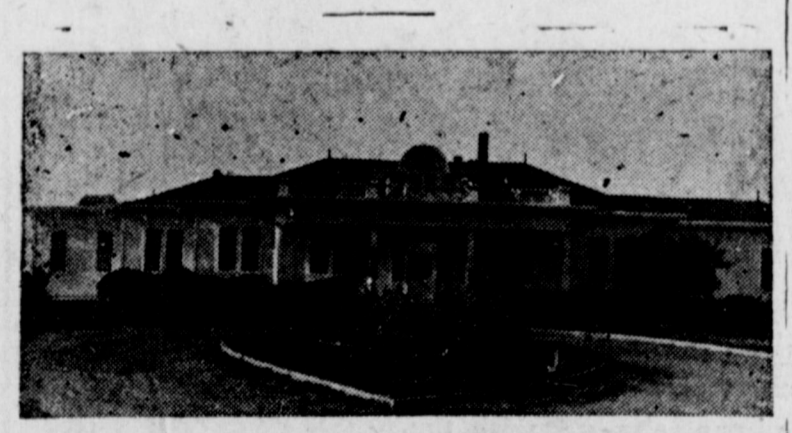

Announcements concerning the 1930 Living Room Contest. Prize awards to winners in reports, contests and garden work. Adjournment.

LIGHT SNOW FALLS AS THERMOMETER DROPS HERE

Although the weather man missed his guess as to the exact reading of the thermometer for Thursday morning, he failed to state that a light snow would fall during the night and that it would remain on the ground to prove that snow did fall. This was the first of the season and fell as the thermometer took a drop to stand at 27, the lowest yet recorded to this time of the year.

COUNTY HOSPITAL BOARD IS WELL PLEASED WITH INFORMAL OPEN HOUSE

SCORES OF DONLEY COUNTY CITIZENS VISIT NEW COUNTY HOSPITAL EQUIPPED ALONG MOST MODERN LINES AND OPERATED ON LINES OF LATEST SCIENTIFIC MANAGEMENT.

Adair Hospital—Donley County's Institution.

Members of the governing board of the County Hospital express themselves as being delighted by the number of Donley County citizens who availed themselves of the invitation, Monday November 11th, to visit the institution in an informal open-house arranged for that day. Many compliments were extended to the board and the county court on the recently renovated and furnished building and those who were escorted through the institution found the most modern new steel furniture, latest operating room equipment, and new furnishings down to the minute, with the building floored with hardwood and all wood surfaces of the house refinished in colors suitable to such use.

Bain, Youngblood, Harris and Stiles are well pleased with the work performed by the board of governors for the hospital and feel that this is one of the most popular measures ever put in effect in Donley County. The board now in charge of the operation of the hospital is as follows: Fred E. Chamberlain, Pres.; Odas Caraway, Sec-Treas.; T. E. Moreman, J. C. McDougal, J. W. Martin and Dr. T. H. Ellis, directors. Mrs. Ruth Teat is superintendent of the Hospital and she is head of a very efficient staff of nurses and technicians, one of whom is a qualified x-ray operator. The open-house was intentionally informal as the presence of patients in the house precluded any sort of program.

PANHANDLE PRESS ASSOCIATION

We are going to have prohibition. The automobile and the airplane and the technical demands of mass production are inexorable in requiring it. But some Americans have a great deal of difficulty in making up their minds that such is the case. Time is likely to be the most powerful reinforcement of the Volstead Act. And time is sure, though slow.—Dallas News.

The West Texas Chamber of Commerce is going to co-operate with the work of the Panhandle-Plains, Incorporated, in the coming year. This has not been done in the past, as it should have been, but the new administration is committed to a policy of fostering and encouraging the work of the various regional advertising and development organizations within the territory of the body.

True, a verdict of acquittal was rendered in the Hamilton case at Weatherford, but the verdict of guilty rendered by citizenship of the Panhandle and West Texas still stands. The verdict of the jury at Weatherford is another argument for a three-judge court and no jury, and those judges to be appointed for life or good behavior, removing them from political pressure and making strict law enforcement their chief aim in life. Something must be done to bring about greater regard for human life in this nation.

Property in the city limits of Clarendon will be taxed next year a total tax—state, county, school and city—of three dollars and sixty-nine cents. Assuming that other parts of the county except the city of Hedley, pay the same school tax as Clarendon does, the rate for them will be two dollars and forty-three cents. In Hedley the city tax rate will be added to the latter sum. From the standpoint of taxation we are all well off, and few people have more for the same or less tax money than do citizens of Clarendon and Donley County.

Many people have been seemingly skeptical of the results to be obtained by the Father and Son movement in Clarendon. Those who have been closest in touch with the seven year effort here are convinced that it is one of the greatest movements for good citizenship and better relations between the boys and men ever promoted here. The annual banquet of Fathers and Sons is not the end and aim of the organization; it is merely the outward manifestation of the spirit and heart of the movement which lives and operates every day of the year. Better fathers and better sons cannot fail to mean a better and happier town and citizenship.

Saturday afternoon in Amarillo interested citizens from over the Panhandle representing chambers of commerce, commissioners courts, city commissions, civic organizations and the various state senators and representatives, will gather for the purpose of effecting a permanent organization looking to the establishment of a state park in the Paloduro Canyon. At last sentiment has grown sufficiently strong to warrant a permanent organization for this worthy objective, and led by such a body there is every hope that before many years it will be possible to secure through state funds a large tract in the most picturesque section of the canyon and throw it open to the people of Texas and to tourists from all over the nation as one of the outstanding recreational and sight-seeing reserves in the beautiful Southwest. Let us lend our best thought and efforts to this worthy movement.

THE MAJESTY OF THE LAW

(William Howard Taft)

We shall not see the full majesty of the law until all of our people respect the law. The nation that reaches the highest degree of development will be that nation which has established righteous laws and whose every citizen not only observes and respect these laws but gives his best service in seeing that they are properly enforced. We have come upon a time when all our people must recognize that ours is a government that stands for the application of law to all conditions. The public detriment arising from violation of law, followed by immunity from prosecution and punishment, can hardly be overrated. Our legislature makes our laws, but the people are responsible for their enforcement. The constant violation or neglect of any law leads to a demoralized view of all laws and such disrespect of all laws rapidly spreads in a community where the sacredness of the law does not exist. It is distressing to me that mob violence in the form of lynching can continue in our nation. I deplore it because it often results in the death of innocent persons and because it makes chaos of our government by law. I do not for a moment agree in the view that everything is corruption and that our people are growing worse. I believe in our constituted law, both state and federal. I am greatly encouraged with the response which is coming from our people in all sections of the country for the enforcement of our laws. I believe better days are ahead. And when our already good laws are supported by a united and enlightened public opinion, based on the fundamental doctrines of Almighty God, we shall realize, what we must all now desire to see—the law in its majesty.

School authorities in Clarendon are due many compliments on the fine sportsmanship and neighborly attitude displayed by the Clarendon High School football team and student body this year in their contests with neighboring schools. It is a fine testimonial to the increasingly higher plane of athletics among our schools and The News joins with loyal Clarendon citizens in returning Supt. Burton and his assistants the thanks and compliments due them for their splendid leadership. There is a lesson in this condition which is worth much to the youth of this community.

Gratifying in the extreme is the business-like program of the new president and manager of the West Texas Chamber of Commerce. Particularly here in the Panhandle, and all over West Texas the demand for a more practical program of work has grown and the set-up of the new administration is the logical outgrowth of the demands of the real supporters of the organization. President Hamilton and Manager Bandeen are men of the executive type, both established successes and the work of the West Texas Chamber of Commerce for the coming year under their guidance will be the most fruitful in the history of the organization. The "ballyhoo" has been eliminated. Constructive, practical work has been made the exclusive order of procedure.

MAYBE YOU'RE RIGHT

Perhaps you are one of those who is sick and tired of reading about "Buy At Home," "Be Loyal to Home Town Merchants," etc. Being a fair-minded individual, all I can say is, "Maybe you're right."

You may feel as the gentleman who recently said to me, "Your saying 'Try The Home Folks First' may be all right, and I don't say it isn't the proper thing; but it does get my goat to have certain people in my town always preaching 'Buy at Home' to me, and then turn around and do the opposite themselves."

Sad but true, that is often the case. Not long ago a prominent merchant sat at his desk lambasting the people of his community for doing business with door-to-door solicitors, and buying in other towns the things he had to sell. He started to give me figures—and what do you suppose he wrote them on? Stationery he had purchased through the manufacturer of a product he sold. I called his attention to it, and he said, "I never thought about that."

A tire dealer, in this same town said, "Business is bum because everybody in this town has the mail order bug." A half hour later I saw a statement from this tire store on the desk of a banker, made out on a bill head printed by a mail order concern. When told of this, the tire man said, "Well, I never looked at it that way."

I once heard a druggist give a lecture on "buying at home," and that same evening saw conclusive evidence that members of his own family did just that which he was cussing others for doing. He said in reply to inquiry regarding it, "Well, that's a little different."

I heard a hardware dealer rave recently because a dry goods merchant's wife bought a cook stove elsewhere; when I told him that I happened to know that his wife would not buy a dress in town for fear others would know what she paid for it, he said, "Well, that's our business."

Such cases as this do get a person's goat and that is why I say, "Maybe you're right." But don't let these few "goat-getters" influence your attitude. Because a few people don't practice what they preach, don't cut off your nose to spite your face by saying, "Well, they do it so why shouldn't I?"

Be big—don't let the ways of doing and think of little people pull you down to their level.

If you don't like "Buy at Home," all right—but remember this, it's good business on your part—any way you look at it—it's money in your pocket to "Try Home Folks First."

ROY KUTCH ADVANCED TO MANAGER'S OFFICE

The late edition of the Quitaque Post contains an account of the transference of C. R. Seale from the manager's office of the West Texas Utilities Company in that city to the Commercial Department of the same company at Childress. The same story tells of the appointment of Roy D. Kutch of Childress to the place of manager of the West Texas Utilities properties at Quitaque. Mr. Kutch started with the West Texas Utilities in Clarendon and it has been with great interest that the people of his city have watched his advancement from one responsible position to another more responsible. He will take up his duties about the middle of this month at Quitaque.

Mrs. B. L. Jenkins left Saturday night for Mineral Wells where she will attend the State meeting of the Federated Clubs, from there Mrs. Jenkins will go to Waco as a delegate from the Sims P. T. A. to the State Convention of the P. T. A.

OVER 500,000 AMERICAN FARMS USE ELECTRICITY

Six years ago 200,000 American farms were being served by electric light and power companies.

Today the total is well over 500,000, a gain of 150 per cent within that period. And rural electrification is proceeding more rapidly today than at any time within the past six years.

PROMPT DELIVERY SERVICE

Just One Minute

You can read this Ad in one minute. By the time you reach the last line, property worth \$950.00 will have been destroyed by fire somewhere in the United States. Minute after minute, day after day, this astounding pace keeps up to an annual total of fifty million dollars.

That at least has been the record of the past several years. What the showing will be this year and in the years to come depends in a large measure on our attitude towards prevention. Over 60 per cent of the fires take place in homes.

Take a look in the cellar, the attic and the closet and clean out all rubbish. Dry grass, weeds and trash piles are common sources of fire.

Examine all your Gas connections and see that there are no leaks. Light connections should be looked after when they become loose.

A minute's thought and action now may save the patient accumulation of a lifetime from the flames. To be absolutely safe, have us write you a Policy on your possessions.

Misses Ruby, Louise and Mary Batson of Memphis, and Miss Abbie O'Neal of Lelia Lake spent

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from Douglas & Goldston Drug Co.

WE NOTE THAT CLARENDON HAS "TALKIE MOVIE"

Clarendon had her first "Talkie Movie" last week when that progressive civic, energetic, philanthropic manager, Mr. Mulkey paid out several thousand dollars improving his show house and arranging same for this new and interesting invention. Mr. Mulkey does not believe in letting Clarendon trade go elsewhere, and some of his regular patrons have been going elsewhere to take advantage and to be entertained by a "Talkie Movie" show.

It was our pleasure to visit this popular show house last Saturday evening and to be well entertained by a real down to the minute "Talkie movie" show. The town of Clarendon is to be congratulated upon having such a man as Mr. Mulkey. Mr. Mulkey believes in his town, believes in his friends and is never too tired, nor the night never grows too cold for him to go out of his way to do them a friendly turn.

After the wreck of our Chevrolet car, two weeks ago, three miles this side of Clarendon, Mr. Mulkey took this editor and family in his large Buick sedan, the home of Mr. and Mrs. F. L. Behrens, three miles in the country, and almost got insulted when offered pay for it.

Mr. Mulkey's many friends at Clarendon are showing their appreciation of his efforts to please them by giving him full houses at his popular show every evening. Claude people who have been going to Amarillo to see the latest in movie land, can now go to Clarendon and see just as good if not a little better than they see at Amarillo.—Claude News.

WORKS AS WELL AS ANYBODY NOW

"I suffered with constipation for five years, and during the past two years was so weak and run-down, and had to spend so much time in bed, I finally had to quit work entirely.

J. T. STOKES

I suffered with indigestion and would bloat up so after meals I couldn't fasten my clothing, and had awful pains in my stomach, between my shoulders and around my liver. It's wonderful what the Sargon treatment did for me. Every pain in my body is gone, I eat hearty meals and my digestion

Horses hard at work and dairy cows producing heavily should be fed three times a day. Young animals need to be fed at least three times a day, with the intervals between meals as even as possible. Two feeds a day for other animals are usually sufficient.

is perfect. I'm so strong and well now I can put in a hard day's work with the best of them. The clothes I couldn't fasten are loose on me now and I feel like a different man.

"Sargon Pills rid me of constipation, toned up my liver and I'll gladly tell anybody what I think of this wonderful treatment."—J. T. Stokes, 3039 Arizona St., Dallas. Douglas & Goldston, Agents.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and financial losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from Douglas & Goldston Drug Co.

Rio Grande Valley Has Unique Exhibit At Texas State Fair

"Pomela" in Spanish means citrus fruit, and on this principal product of the Rio Grande Valley, a most attractive exhibit was built for advertising purposes at the State Fair of Texas at Dallas, just closed.

Complete to minute details the good ship "Pomela" was constructed of grapefruit, kumquats and other Valley products and in the nearby peninsula stood a light house built of the same fruits.

Farming Must Continue to be Basic Industry of Penitentiary Says Terrell

SHORT TERM AVERAGE WOULD PRECLUDE PRACTICALLY OF TRAINING CONVICTS FOR MANUFACTURING PLANT WORK THOUGH SOME INDUSTRIES MIGHT BE FOUND PROFITABLE.

Austin, Texas, Nov. 4—(UP)—Farming is favored by George E. Terrell, commissioner of agriculture, as the main occupation of convicts at the State penitentiary.

His conclusion is based on many years of studying the prison system in Texas and he believes farming is more practical than industrial pursuits for the convicts.

"Since a large portion of the convicts are serving short terms which would expire before they could be trained in industrial plants, it is conclusive," Terrell said, "that a large number must be worked on the farm."

His statement in part follows: "It is possible that 1,000 or 1,500 convicts might be trained to manufacture certain products to be sold to the State. These should be confined to the making of cheap articles, with cheap machinery, such articles as could be used to compete with private plants using costly machinery and manufacturing costly goods to be sold to the public. I would favor this limited experiment in manufacturing certain articles for the State with convict labor."

"I favor a central, well built prison plant, with the necessary machinery for manufacturing the character of goods mentioned above. This plant should be located on State-owned lands, south of Houston, as near the center of the major farm operations as possible for economical reasons. The more the system is scattered the greater the overhead costs."

"I favor good substantial prison buildings on the State farms for the proper housing and safe keeping of the convicts."

"Farms any great distance from the central prison system should be sold."

"If the central prison plant is to be located away from the major farming operations, as now indicated by a majority of the prison locating committee, it should be relocated at Huntsville, where it is now, on land owned by the State. There is no use in buying land at exorbitant prices when the State owns plenty of better land. There is no economical reason for locating the main prison buildings near Austin."

"The legislature should go slow about selling the large farms below Houston as there are oil fields around them, and they will be developed some day when the big oil operators get possession of the State lands, or when they are convinced the State will not sell them. These farms will be worth millions to the State in the future. They are now the richest farming lands in the State and should not be sold for a song, which would force the State to purchase other lands less valuable."

"Any attempt to go into manufacturing on a large scale with convict labor, using costly machinery will cost the State \$10,000,000 during the next few years with no assurance that the State will ever recoup the losses."

"The legislature seems to be the only hope now of averting greater losses than we already have suffered in the prison management."

"Manufacturing of cement for road and bridge building, automobile number plates, certain articles for the use of the prison system, and state institutions, might be profitable, and this with intelligent and capable farm management may eventually put the system on a self-supporting basis. Demagogic, destructive, criticism should have no place in solving this problem. It should be handled with care and caution combined with capable management."

Good silage fed to horses in limited quantities acts as an appetizer and tonic. It should not be given in larger amounts than 10 pounds daily per animal.

The American farm worker produces from two to five times as much as similar workers in the important European countries. The higher production capacity in this country may be largely attributed to the use of machinery.

URGES EARLY PLANNING FOR ROAD BUILDING

TOO MANY PROJECTS STAY ON PAPER TOO LONG IS REPORT.

By E. E. Duffy
Improved highways are so badly needed that every possible expedient should be taken to keep road graders and concrete mixers in action.

One of the leading difficulties encountered in the war on mud, dust and friction is nothing more than that human quality which inspired Benjamin Franklin to urge, "Never put off until tomorrow what you can do today."

Plans for highway betterments in themselves do not save the motorist gas, or wear and tear on his car. No comfort is brought to the motorist at least until he hears that the contract for the contemplated project has been let. In a day's ride one may pass through dozens of communities, each with a long planned pet project for which finances are available, and yet no constructive action taken.

It is with pleasure that the action of the Minnesota State Highway Department is viewed. Bids for contracts on 136 miles of pavement are now being received. This pavement is not to be built until 1930, but the contracts are being placed now—and just so much routine work is out of the way.

Early letting of road contracts brings with it manifold benefits: the contractor has ample time to make his plans; road machinery can be placed in operation at the crack of dawn on the first suitable day; costly delays are eliminated and full advantage can be taken of the all too short road-building season; and the citizen feels his tax money will soon be at work for him.

LARGE CASH AWARDS FOR PRIZE POULTRY AT AMARILLO EXHIBIT

Through co-operation on the part of the Amarillo Chamber of Commerce, the forthcoming Tri-State Poultry Show sponsored by the Panhandle Poultry Association, is in position to give definite assurance of large cash awards for winners of the many classes of birds which will be judged. The judges are nationally known, being E. C. Branch and Walter Burton.

Robert Ricks, President of the Panhandle Poultry Association, states that ever since the very successful poultry exhibit staged by his organization at the Tri-State Fair, the officers of the association have been bending every effort to provide Tri-State poultry fanciers with a show superior to anything heretofore held in the entire Southwest. Advance entries and indications, according to Mr. Ricks, already make it practically certain that this will be the banner show to date of the bird fanciers of this region.

The show, which will be held Thursday, December 12th to Monday, December 16th, will take place in Amarillo's big, scientifically heated, municipal auditorium. Trained poultry men will handle the exhibition birds, and exhibitors are assured of painstaking care of their entries.

The successful free gate policy of the Tri-State Fair will be utilized at the Tri-State Poultry Show and a very large attendance by the public is anticipated, as well as by poultry fanciers from all over the Southwest.

Prospective poultry exhibitors are urged to write immediately to the Panhandle Poultry Association, Box 1475, Amarillo, Texas, for entry blanks and information.

MARKET DECLINES FURTHER DEMAND FOR SPOT COTTON

The cotton market during the period Nov. 2-8 experienced a rather weak undertone with quotations on Nov. 8th about 1-2 to 9-16 cent per pound lower than those Nov. 1st and 1-2 cents lower than those for the corresponding day last season. It was said that domestic and foreign inquiries for raw cotton had increased considerably during the week under review, however, holders of raw cotton were reported not inclined to accept current quotations. Demand seemed to be centered on cottons in the white grades of almost all staple lengths from 7-8 inches and longer. According to the Weather Bureau during much of the past week conditions were unfavorable for picking and ginning cotton though in the more eastern states fairly good progress was reported. On Nov. 8th the Crop Reporting Board of the Department of Agriculture reported that from conditions of Nov. 1st the indicated 1929 production is 15,009,000 bales which forecast is 94,000 bales, or .6 of one per cent higher than the forecast of October 1st and 3.7 above the 1929 crop. According to the Bureau of the Census ginnings prior to Nov. 1st were 10,889,314 and 10,162,482 for the corresponding period one year ago. Quotations for middling spot cotton Nov. 8th: Norfolk 17.25c, Augusta 17c, Savannah 16.97c, Montgomery 16.25c, New Orleans 17.15c, Memphis 16.25c, Little Rock 16.10c, Dallas 16.05c, Houston 16.95c and Galveston 17.05c. Average for these ten markets Nov. 8th 16.70c per pound compared with 17.17c Nov. 1st and 18.26c for the same day the previous year. Sales of spot cotton reported by the ten markets past week 175,961 bales compared with 231,536 the previous week and 146,881 for the corresponding week last year. December future contracts for the week at New York declined 54 points, to 17.37c, New Orleans 57 to 17.30c,

and at Chicago 59 to 17.39c. Certificated stock Nov. 8th, New York 85,746 bales, New Orleans 39,510, Houston 14,216, Galveston 8,352. Total stocks New York 94,810, New Orleans 442,314, Houston 988,419 and Galveston 489,802.

Grade differences were slightly revised during the past week and on Nov. 8th the average of the ten markets for good middling was 44 points on middling and strict middling 28. The grade differences for strict low middling and low middling were unchanged at 78 points off middling and 170 off respectively.

BOYS OUTNUMBER INFANT GIRLS FOR MONTH

Births recorded in October for Donley County numbered one less than the number of day of the month. Thirty babies were born and of this number, fourteen will be found to be of the fairer sex. The other sixteen were boys. A detailed list of these will be found as follows, and is brought to us through courtesy of the County Clerk, in whose office the records are kept.

- Bonita Eunice Carlile, Mr. and Mrs. L. D. Carlile.
- J. L. McFarling, Jr., Mr. and Mrs. J. L. McFarling.

- Joe Veta Dawson, Mr. and Mrs. S. R. Dawson.
- Richard Bennett Hughes, Mr. and Mrs. Richard Hughes.
- Rena Aduddell, Mr. and Mrs. Jeff Aduddell.
- Douglas Richard Lowe, Mr. and Mrs. Walter Lowe.
- Billie Wayne Gollighugh, Mr. and Mrs. W. P. Gollighugh.
- Infant son, Mr. and Mrs. E. P. Hahn.
- Infant son, Mr. and Mrs. W. H. Green.
- Florence Jeannie Day, Mr. and Mrs. Hubert P. Day.
- Kenneth Gene Barrett, Mr. and Mrs. A. Van Barrett.
- Infant son, Mr. and Mrs. Melvin E. Caldwell.
- Oupal Oressa Tims, Mr. and Mrs. Gilbert E. Tims.
- Joe Thomas Lovell, Mr. and Mrs. B. R. Lovell.
- Ralph Raoul Percival, Mr. and Mrs. Herman L. Percival.

NEWSPAPER ADVERTISING BEST OF ALL, SAYS GAS ADVERTISER

Newspaper advertising surpasses all other forms of displaying knowledge to the public, Keith Clevenger, publicity and advertising director of the American Gas Association, told that association's annual convention at Del Monte Cal., recently.

"As long as people strive for intelligent information on current happenings, newspapers will be

read by the vast majority," he said. "As long as the present traditions of the major portion of the American press for editorial honesty and impartial news service are maintained, newspapers will continue to be the most effective advertising media for American business."

Get rid of scrubs and inferior stock—they are wasteful of feed. Reports from livestock feeders over the country indicate that purebreds make about 40 per cent greater returns for their owners than do scrubs or common stock.

Screenings, or dockage, makes valuable feed for livestock and should be removed before grain is shipped. In North Dakota alone the annual farm feed value of dockage is estimated at \$5,000,000 or more. Clean grain commands a higher average price and costs less to ship than uncleaned grain.

PALO DURO LITERARY SOCIETY

The Palo Duro Literary Society met Wednesday night in the regular meeting room. After the reading of the minutes, the program was rendered. Mr. J. Roy Wells gave a very interesting discussion on "Ethics" which was appreciated by all present. He read, in part the code of ethics of different organizations, including the Lions Club and College Students. Bill Wilder delighted his hearers by singing a solo, "I've Been Hoodooed." The next number was a debate on "Resolved that college students should be required to go to Sunday School." Those on the affirmative side were Edna Crane and Chester Williams; on the negative side were Maurine Wood and Earl Wilson. The negative won the decision. Cecil Hukel and Bill Wilder, accompanied by Maurine Vinson at the piano sang a duet, "I get the Blues When it Rains." The critic, Maurine Vincon gave an accurate report of the program, criticizing both favorably and unfavorably.

ALPHA DELTA PSI

The Alpha Delta Psi had a regular meeting Wednesday evening with eighteen members, Mr. Clark and one visitor present. The following program was rendered: Reading of the By-laws and constitution—Joseph Brazill. Violin solo—Helen Slater. Short story—Eugene Estlack. The society had decided to elect new officers quarterly. As November 6 was the end of the first quarter, the following officers were elected: President—Joseph Brazill. V. President—Eugene Estlack. Secretary—Archie Post. Treasurer—Ruth Dunn. Reporter—Jessie Swinburn. Sargeant at arms—Billy Dillard. Prosecuting attorney—Phifer Estlack. After discussing plans for on coming debates, the society adjourned to meet November 13.

SENIOR CLASS HOLDS INTERESTING MEETING

The senior class of Clarendon Junior College held its first meeting November 8, 1929. The following officers were elected: President, Gladys Nobles; vice president, Terry Smith; Secretary and Treasurer, Cecil Hukel; Reporter Edna Gerlach. They discussed whether the college and high school should put out an annual. The following committee was selected to meet and discuss the annual with the other classes. Cecil Hukel, Maurine Vinson and Lois Alexander.

JUNIORS ENTERTAIN SENIORS

On Friday night, November 1, 1929, the Juniors entertained the Seniors with a masquerade party. All types of costumes were worn by the eighty-five Juniors and Seniors present, such as Spanish, Gypsies, clowns, pirates, Colonial, fairies and peasants. Mary Frances Caraway received a prize for the best costume worn by the girls. She represented a Gypsy. Mr. Batton, dressed as a clown won the prize offered to the boys. Various games were played during the evening. The Junior, finding out that the Seniors possessed extraordinary talent, allowed them to display their wonderful talent. During the evening we also discovered that the teachers could be very jolly. By the excitement it was decided that the evening was thoroughly enjoyed by everyone. At a late hour pop and doughnuts were welcomed by the hungry and thirsty merry makers. When it was decided by the

teachers that it was time for the party to break up, "Home Sweet Home" and "Goodnight Ladies" were sung. The Seniors readily took the hint. Reporter.

ALPHA DELTA PSI ENTERTAINS PALO DURO SOCIETY AND FACULTY

On Wednesday night the Alpha Delta Psi Literary Society was host to the Palo Duro Literary Society and the faculty of the Clarendon Junior College. At 7:30 o'clock all the guests and society members began to assemble in the home of Miss Ruth Dunn, which was appropriately decorated for the occasion.

Games were played after every one had unmasked himself. Everyone declared that Bill Wilder was the best disguised person present. The guests seemed to enjoy the games, but they were very enthusiastic when the old witch came in to tell their fortunes. All had their fortunes told, which were very thrilling, although painful at times. After the witch had finished telling fortunes, she told a ghost story and of course it made everyone feel creepy. Refreshments of apples and stick candy were served. Everyone went away declaring that he had had a good time.

SAFETY EDUCATION IMPORTANT NEED FOR CHILDREN

Although states are gradually increasing the amount of attention given to health and safety in the public schools, there is still a great need for safety education to enable these youngsters to protect themselves on the streets and highways, according to Mr. W. O. Gaffon, President of the Panhandle Auto Club, which is affiliated with the American Automobile Association.

Mr. Gaffon made this statement in connection with the national safety program launched by the A. A. A. and said that millions of children will receive safety lessons this year as a result of this extensive campaign.

Calling attention to the fact that is today one motor vehicle registered for every child attending the public schools, the A. A. A. club executive asserted that only through education of children to enable them to protect themselves, can the nation's death toll be reduced.

Mr. Gaffon said that within the past two years, according to figures of the federal government, approximately one-half of the states enacted laws which in some way tend to promote the health and physical safety of school children.

"This is an excellent start," he continued, "and safety education should be added to make this program complete."

"Proper mental attitudes and habits of mind are more likely to be produced by the correlation of safety education with the other subject matter, than by sporadic campaigns or drives. The substitution of material that might give the impression to teachers that they are being asked to teach an additional subject is carefully avoided, and no extraneous matter is included in our suggested lesson outlines. For safety training, in the lower grades particularly, the children's own experiences are drawn upon, and therefore, has more educational value than abstract problems."

Under the "calamity" clause of the State Constitution, Texas has given away tax money that during the life of the tax exemptions will probably total \$15,000,000. Every coast county except three—Harris, Jackson and Chambers—has either total or partial exemption from state taxes.

Join +
America's answer to humanity's challenge

WHAT'S DOING IN WEST TEXAS

By West Texas Chamber of Commerce

By United Press of Commerce

Snyder—Mr. F. I. Townsend, not a poultry man but just an average farmer in Scurry county, has proved, during the past twelve months, that poultry is a profitable sideline if the necessary information is acquired as to the care of the hens and if one applies himself assiduously to the business. An accurate record was kept by Mr. Townsend which shows that from October 1928 to October 1929, two hundred and sixty leghorn hens produced \$731.47 worth of eggs, and \$188.70 was spent for feed, leaving a profit of \$592.77 for the year.

Anson—Among the many constructive and progressive moves being made by this city at the present are the completion of the concrete highway No. 30 through Jones County, and the replacing of the present street lighting system of Anson with 400 candle power lights in the down-town business district. Plans are also under way

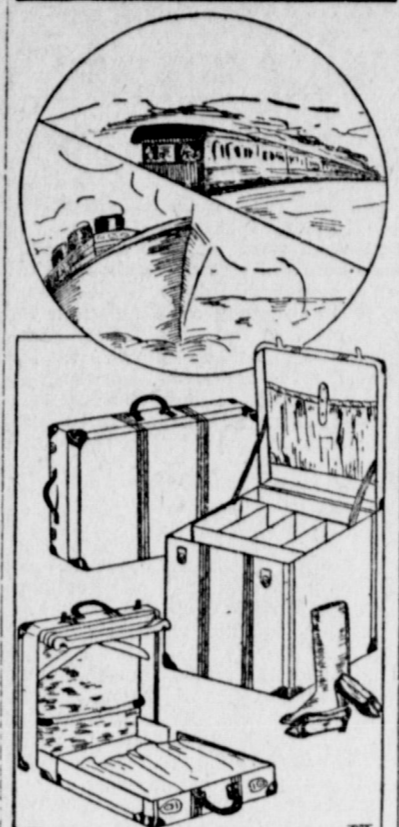

for the installation of the metallic system telephone service to replace the present magneto grounded system.

Tulia—Due to the immense building program in Tulia, Happy and on the farms of the County, the assessed valuation of Swisher County has passed the six and a half million dollar mark. More than fifty new homes have been built in Tulia during the past year and Happy is not far behind in a similar building program.

Electra—More than sixty farmers of this section met here recently and discussed the pooling of turkeys and the forming of an anti-theft association. A carload of turkeys were pledged at this meeting, and a sales committee was elected to meet within a short time to open bids and discuss the selling of these turkeys.

Childress—Elaborate plans are being made by the local Chamber of Commerce to entertain officials of the Fort Worth & Denver City Railway when they arrive here to celebrate the opening of the new Fort Worth & Denver station, which has just been completed. This structure was erected at an approximate cost of \$75,000, and is one of the most modern stations on the Denver line.

NEW YORK-PARIS FASHIONS

STYLES certainly change to lag—same as they do in clothes, and the newest pieces are done with the ensemble in mind; that is, matching as to color if not in materials. Shoes, without a doubt, are the greatest problem to pack. A new shoe trunk that should delight any woman's heart, especially if she is an equestrienne has three trays in the center to carry four pairs of shoes each, with a space at either side for riding boots, standing upright. The trunk illustrated is light weight and covered with tan fabricoid. The little compact-all-garment-case, of regulation suit-case size, is covered to match the shoe trunk. It is equipped with hangers, has space for the necessary accessories, and the delightful part about it is that it may be hung up by its handle. These cases are lined with plain tan rayon moire.

If unhusled sweet-clover seed is used it is better to sow it in late fall or winter. Seeding should be done so late that the seed can not germinate before spring. The action of moisture and frost breaks the seed coat and is ready to sprout with the first warm weather in spring.

HIS OWN HOME

Remove the Shadow of the Mortgage Question With Life Insurance

Their home—their home—how they love it. You can make it theirs, for always, mortgage free—
The cost of building and owning a home is so great that most families accomplish it by borrowing part of the necessary funds on a mortgage. Because a mortgage helps so many families to have the pleasure and comforts of a home of their own, it is a genuine blessing.
BUT—until that mortgage is paid, it always stands between your family and complete ownership of your home. While you are alive, that isn't a serious matter, for eventually you will be able to pay it off. But if you should be suddenly taken away, would your wife and children lose the home they cherish so dearly? Many families do.
YOU want your family to have their home, happen what may. You want them to be able to pay off that mortgage without taking a cent from the proceeds of your present life insurance policies.
And you can arrange it that way, by taking out Mortgage Insurance to cover the amount of the mortgage. Such a policy will lift the shadow of the mortgage question permanently and at surprisingly low cost.

Example:
Age 30 rate per thousand—\$8.30
Age 45, rate per thousand—\$11.65.

PANHANDLE IS BEHIND W.T.C.C. ALLISON TALKS ON CITIZENSHIP

AMARILLO MEETING PLEDGES SUPPORT TO ORGANIZATION—NO SECESSION.

Clarendon and Doney County were represented Tuesday at a luncheon and meeting of directors and chamber of commerce officials of the Panhandle with President W. B. Hamilton of the West Texas Chamber of Commerce, by Secretary G. L. Boykin of the local chamber of commerce and Sam M. Braswell, local director of the regional body.

Following an outline of the program of the West Texas Chamber of Commerce by President Hamilton, secretaries of Chambers of Commerce in a dozen Panhandle towns unanimously endorsed the work and pledged their whole-hearted support.

Representatives of almost every county in the newly created district No. 1 of the regional organization were present and more than one-half of the district's quota of 809 memberships at 10 each were pledged.

President Hamilton and H. J. Adair, manager of the oil and gas bureau, said Tuesday night that they were elated with the success of the meeting and the enthusiasm shown in the new program for the regional organization.

"The West Texas Chamber of Commerce will be conducted in the future on a strictly business basis," said President Hamilton. "I know of no other way to go at anything and the directors and executive committees are all hard-headed business men. We have set the quota for the coming year at \$60,000 and although we hope to raise more money, I can assure you that we will not be in debt when the year is over. In fact, we hope to have a surplus."

The organization has been divided into ten districts or zones with a director from each zone. Meetings like this are to be held in every district between now and December 15.

Despite the fact that two months ago we were \$25,000 in debt the organization will be out of debt within two weeks and it will be kept out of debt.

President Hamilton discussed at length the work of the Chamber of Commerce in regard to the Small land bills and other legislation affecting this section in particular and told of plans for the continuation of that work.

In response to a suggestion from Judge J. W. Cradginton, regarding the need for the conservation of natural gas, Mr. Hamilton asserted that the regional organization was heartily in accord with such a movement and asserted that the adoption of a gas conservation measure in Texas would automatically cut the production of oil and result in a higher price.

George W. Briggs, O. V. Vernon and Henry Ansley were named as a committee from the Panhandle Chamber of Commerce Secretaries association to prepare a resolution to be presented to the West Texas Chamber of Commerce pledging support to that organization carrying out its program in view of the recent change in policies and the creation of districts in charges of a regional director, through which it is hoped to render greater service to every section.

Our Community Life

This community is made up of individuals—each a cog in the tremendous machine of progress. That the machine run smoothly and carry us onward toward greater success, each individual cog must do its share.

Our churches, our schools, our business institutions, our public and private enterprises, our present and our future each and all depend upon the whole hearted cooperation of every member of the community. Let us all do our share.

Our interest in the welfare of this community prompts us to sponsor this message to the people of Clarendon and vicinity.

"The Eyes of Texas"

Kenneth Fink

Austin, Texas, Nov. 9, 1929.—The Union campaign drive for \$20,000 towards a Student Union Building will close Wednesday. An announcement was made Saturday that the field was open to all workers, whereas it had been divided up among the various teams. Unless drastic means are used, present indications tend to show that the drive will close far short of the prescribed amount.

The contractors for the new Auditorium-Gymnasium say all the steel work should be completed by November 15. More than 130 men work six days a week on the building, attempting to complete it in time for the basketball games to be held the latter part

of January, although officials state that it is improbable that games may be played in it before February.

The mezzanine floor is being "poured"; the swimming pool has been excavated but the steel work can not be done on it until the stage is completed. Steel work on the stage is still being erected.

Miss Agnes Caraway who is attending Incarnate Word in San Antonio witnessed the Texas-Baylor football game today in Austin.

Miss Florence Fink visited friends, who were students in the University last year, in Houston this week-end. She returned to Austin Tuesday morning in time for her classes.

1930 Licenses To Be Highly Colored

The original shipment of numbers for motor car licenses for Texas during the coming year of 1930 has been received in the office of the Tax Collector. The license plates received are for tractors and trailers, for the dealers of the county, for motorcycles and for chauffeurs and bus drivers.

Twenty-eight hundred passenger cars numbers have been assigned to Donley County for distribution in 1930, those starting with 245-800 and running through 248-499. The truck licenses will start at 52-001 and will be found to end at 52-306. In color, these tags will be a lively blue for a background and will have the figures in yellow. Other tags have a bright green background with black figures.

In view of the fact that the license fees are reduced for the coming year to approximately one-half the figures in effect at the beginning of this year, the registrations of cars and trucks is expected to be much larger than it has been in past years. This year the figures are many more than have ever been recorded to this date, with two more months to go before the end of the year.

The new motor registration is also allowed by the month instead of by quarters as has been in the past, the registrant paying for the number of months left in the year instead of paying for the number of quarters remaining.

Issuance of the 1930 license tags

will not be started until late in December.

IT'S SURE BEEN A SURPRISE TO ME SAYS AMARILLO FARMER

"I NEVER SAW ANYTHING IN MY LIFE THAT GAVE SUCH QUICK RELIEF AS ORGATONE," DECLARES DOYLE.

"It's the honest truth before I had taken this Orgatone a week, I was feeling so well and strong that I hardly knew myself," says John Doyle, a well known farmer residing at 904 N. Arthur Street, Amarillo, Texas.

"I had a very bad case of stomach trouble and liver disorders," he continued, "that knocked me out so I hardly felt like working at times. My stomach was in such an awful fix every thing I would eat disagreed with me and made me miserable all the time. I would have heart burn so I could hardly stand it, and in fact, for a whole month before taking Orgatone I just felt completely worn out."

"I commenced to read in the papers about several Amarillo people who have been taking Orgatone and getting a world of good out of it, so I began to feel better from the very first

Nashville Spread Our County Fair

Besides being reckoned one of the best county fairs ever staged in Donley County the 1929 Donley County Club and Poultry Show has attracted much attention over the Southwest on account of the novel entertainment features provided by communities of the county.

In the Nov. 1st, issue of the Southern Agriculturalist, published at Nashville, Tenn., the following story about our fair was printed on page twelve: Donley County Rural Communities Furnish Fair Entertainment

The Donley County Free Fair recently held at Clarendon solved the matter of entertainment in a highly satisfactory manner, which might be profitably adopted by many other communities. No admission fee has ever been charged for this fair, neither have carnivals been permitted on the ground. For this reason some complaint had been made that not enough entertainment was provided. To meet this complaint, Miss Harvey Thompson, County Home Demonstration Agent organized the 18 Home Demonstration Clubs of the County for the purpose of furnishing entertainment programs of 45 minutes duration for each night of the fair. The Chamber of Commerce offered attractive prizes for the three highest ranking programs. This new feature of the fair was credited with drawing record breaking crowds and received wide spread praise for the clean entertainment furnished.

A 6-pound hen laying 144 eggs in a year produces about three times her own body weight and one laying 240 eggs produces about five times her weight. For such hard work a hen must be vigorous and in the best of health.

dose and before the week was out I was feeling more like nothing had ever been the matter with me. I never saw anything in my life before to give such quick relief as this Orgatone and I haven't had a single symptom of my trouble since I started on it."

Genuine Orgatone is sold in Clarendon by Stocking's Drug Store who are direct laboratory agents.

HOME ECONOMICS GIFT PRESENTED

LIGHT FIXTURES, NEW LINOLEUM AND SHADES ARE CONTRIBUTED.

The citizens of Clarendon, led by the Lions Club as sponsors of the movement, have completed installation this week of a complete set of lighting fixtures in the Home Economics Rooms of the Clarendon High School. In addition to this, the bathroom floor has been covered with linoleum and a sufficient amount has been retained to outfit the windows of the rooms with new shades.

The matter was first presented in rather a round about manner and the matter was considered hanging in the air. The head of the department, Miss Helen Beck, and likewise the girls who are in the classes, were greatly surprised on last Thursday morning when the request was made to install the fixtures. These were put in their proper places and a few changes were made to make them more appropriate to the rooms in which they were to be used.

This being completed, there remained a surplus in the fund and a piece of linoleum was placed in the bath room of the suite. The next thing that came to the attention of the folk who had charge of the fund was the fact that there were no shades on the windows. A slight deficiency was found in the fund, but with a few more additions this will be in hand and the shades have been ordered

and will be placed when they have been received.

Any of the directors of the Lions Club will receive contributions to this fund and will hand it to the proper hands and see that the donor receives proper credit.

Women Suffering Bladder Irritation

If functional Bladder Irritation disturbs your sleep, or causes Burning or Itching Sensation, Backache, Leg Pains, or muscular aches, making you feel tired, depressed, and discouraged, why not try the Cystex 48 Hour Test? Don't give up. Get Cystex today. Put it to the test. See for yourself how quickly it works and what it does. Money back if it doesn't bring quick improvement and satisfy you completely. Try Cystex today. Only 60c. For Sale by Douglas & Goldston Drug Co.

Gas Forces Woman to Sleep In Chair

"Nights I sat up in a chair, I had stomach gas so bad. I took Adlerika and nothing I eat hurts me now. I sleep fine."—Mrs. Glenn Butler.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. For sale by Douglas & Goldston Drug Co.

NEW OFFICIALS FOR SCOUTING

NEW LOCAL COUNCIL OFFICERS TO BE NAMED FOR COMING SCOUT YEAR.

At a meeting the latter part of last week of the local scout organization with Scout Executive I. E. Jolly of the Southeast Panhandle Area, a review of the work of the past fifteen months was had and suggestions offered for bettering the local scout program for the coming year.

After the deliberations it was voted to continue the work in Clarendon and a nominating committee was named to bring in a list of officers to compose the local council. Rev. S. E. Allison and G. L. Boykin were named on the committee.

Sunday afternoon on call of President Duvall of the Are a meeting of the area council was held at Memphis and with Memphis, Wellington and Clarendon represented a tentative budget was adopted for the coming year and plans laid to carry on the work along the same general lines as the past year, with emphasis placed on extending the work and drawing into the organization more men and boys over the territory.

According to Rev. S. E. Allison, chairman of the local council, who attended and participated in the meeting, there will be no additional money asked for the budget this year.

READ THE WANT ADS.

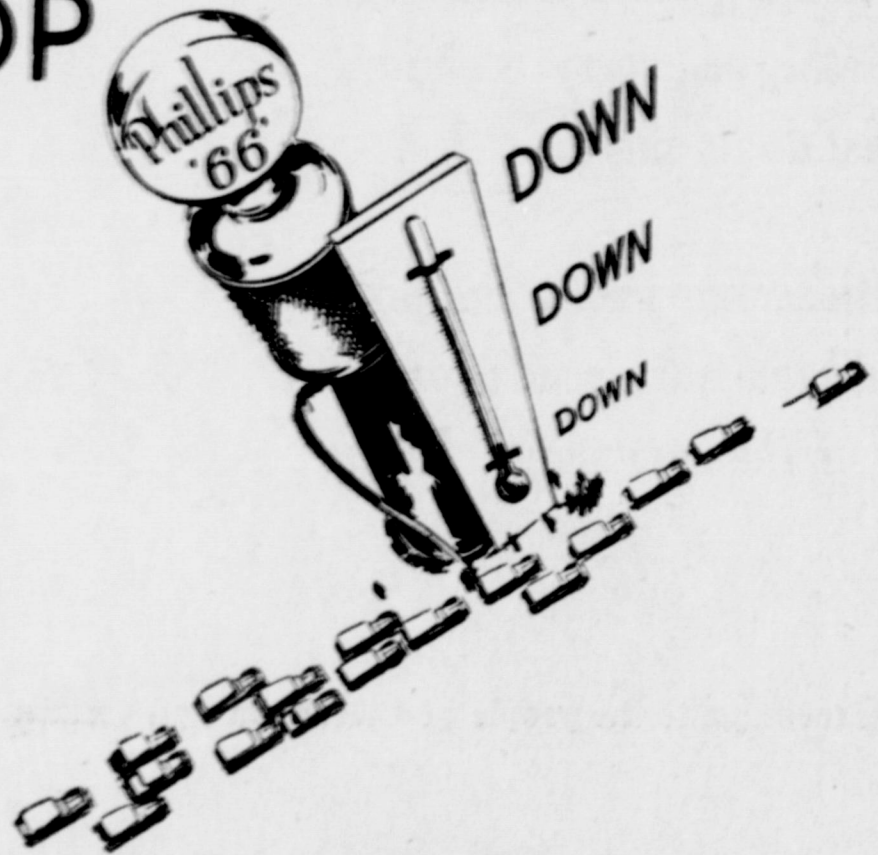

There is no drug nor combination of drugs which can be converted into a competent treatment for pyorrhea, say medical authorities. The Food, Drug, and Insecticide Administration is at present in the midst of a campaign to remove from the market tooth pastes, mouth washes and similar preparations fraudulently labeled as a competent treatment for this serious ailment.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers — washing every cut, no matter how small, thoroughly with Liquid Borosone, the safe antiseptic. You can get Liquid Borosone at Douglas & Goldston Drug Co.

LET THE THERMOMETER DROP

... it's always summer for your car

Even on cold winter nights your motor starts "right now" when fueled with Phillips 66. Here's a gasoline with volatility controlled to fit the season and the climatic conditions of the locality in which you buy it. Combines, for the first time, instant cold weather starting and quick warm-up—flexibility at all engine speeds—mileage and power—at no extra cost. Put your car on super-performance rations; for best results try a full tank of Phillips 66 or 66 Ethyl.

Phill-up with **Phillips 66**

CONTROLLED VOLATILITY

WHEN THE THERMOMETER GOES DOWN THE VOLATILITY GOES UP. Gasoline must vaporize before it can be fired in the cylinders of your motor. Volatility refers to the ability of gasoline to vaporize. With volatility controlled, Phillips 66 vaporizes as quickly in cold as in warm weather.

"I never thought your husband went into places like that!"

MRS. BEARDSLEY had just returned from the city and she was telling her friend, Mrs. Stanley, all about her visit.

"... and I saw him through the window. He was all alone at a table in the main dining room of the very best hotel. I was so surprised—you know, from seeing your husband washing his own car and cutting the grass himself and all those things. I didn't think he was at all extravagant."

"Sure, I go in there once in a while when I'm in the city," Mr. Stanley told his wife that evening. "It's not for the food. It's for the coffee. That coffee is worth the price of a meal there by itself. You know, dear, I simply must have good coffee once in a while and ... well, I didn't like to hurt your feelings by mentioning it."

"That coffee, madam," the waiter told Mrs. Stanley the next time she accompanied her husband, "is White Swan Coffee. This hotel has used it for years."

Wives who are coffee-wise know that the appetizing aroma and satisfying flavor of White Swan Coffee served at home makes everyone wish that every meal could be eaten there.

"... and I saw him through the window. He was all alone at a table."

Strict selection of the imported coffees, scientific roasting and artful blending each plays its part in fully developing and nicely balancing the famous White Swan flavor.

With the skill acquired by more than a half century of experience, the Waples Platter Company controls every phase of distribution as well as preparation—making certain that no finer or fresher coffee can be brought into your home for the price you are asked to pay.

White Swan Coffee comes to you fresh in sealed tins and fresh from the roaster with all of its rare goodness kept intact. No chances are taken with White Swan flavor.

One of the 22 Waples Platter Houses is conveniently close to each of the 10,000 White Swan dealers. A fleet of motor trucks, supplementing railroad facilities, makes regular deliveries along established routes to the retailer from all of the units of this institution of the Southwest.

Thus, your grocer always has a new supply of White Swan Coffee—freshly packed for you in one and three pound cans.

FREE—Expert advice and time-tested recipes

Do your omelets, rarebits and au gratin dishes always go wrong? Or do you sometimes have trouble with some other dish your family likes? Write to Waples Platter Better Cooking Bureau. Expert advice and time-tested recipes sent FREE upon request.

PRESIDENT ENROLLS IN RED CROSS

President Hoover, who is also president of the American Red Cross, enrolls in the annual Roll Call of the society, which occurs from Armistice Day to Thanksgiving Day, November 11 to 28.

discussed whether to organize a parent-teacher meeting and about the living room contest. But was decided to postpone these subjects until next meeting on the account of being so many members absent, which will be at Mrs. J. E. Baker's on the 21st of this month and will be an all day meeting and some quilts will be quilted to be donated to some orphan home.

AMARILLO ARTIST HERE NEXT WEEK

LES BEAUX ARTS CLUB TO HEAR PROMINENT PAINTER SATURDAY

Miss Harriet Kritzer of Amarillo, an artist who has achieved more than passing fame in her line, will be the guest of Les Beaux Arts Club next Saturday at their regular meeting in the Ladies' Club rooms in the City Hall. Miss Kritzer will bring a display of her paintings and will show them to the members and their invited guests at that time.

Miss Kritzer will also lecture to the members of the club and their guests, telling them of the works of art she exhibits at this time and of art in general and its application in many ways.

Following the meeting of the club, the exhibition will be opened to the general public and will remain so until late in the evening, the closing time having not yet been decided upon. The general public is invited to attend and see the pictures Miss Kritzer will show. There is to be no charge for admission.

MOST COMMON LIARS

I'll pay you back Saturday—A common liar.

It will pay you five to one—A promoting liar.

Why dear, I never look at another woman—The champion liar.

You look like a 16-year-old girl—A flattering liar.

These eggs are all fresh—A hardened liar.

Clear and pleasant tomorrow—An accidental liar.

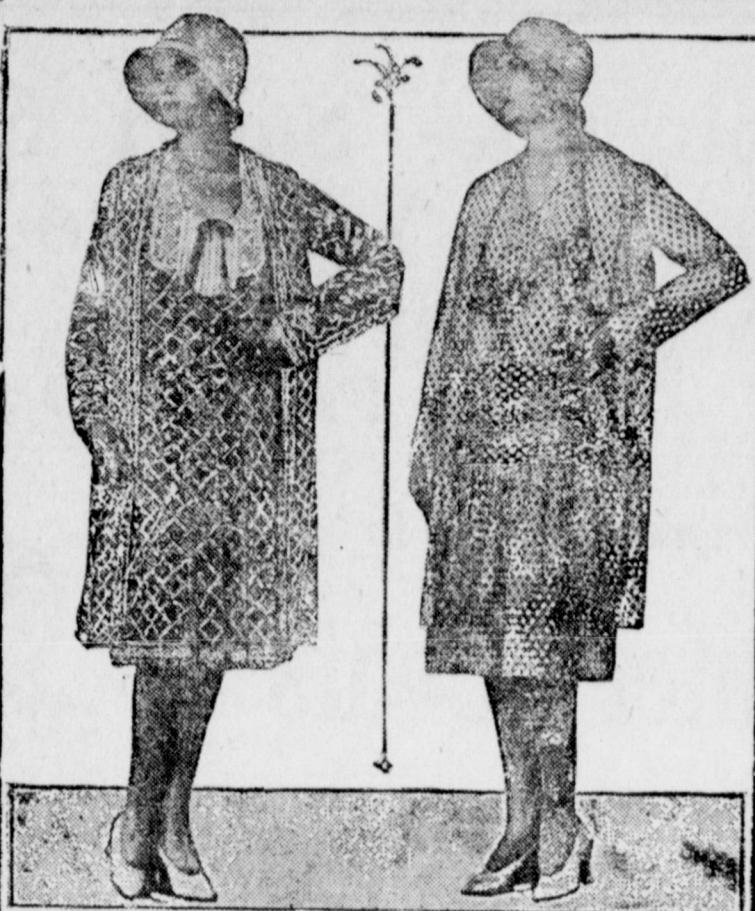

This is pure silk—A copy written liar.

Try a Sack of American Beauty Flour. In the State Baking Contest just closed at Dallas, American Beauty won 148 out of 151 prizes offered. Practically every Flour made in Texas were used by some of the contestants and a large number used flour from Oklahoma, Kansas, Missouri and other States.

Versatility In Cotton Ensembles

ENSEMBLES continue very popular and rightly so because in the case of cotton fabrics such costumes can be designed in a way that makes them suitable to wear for distinctly different purposes.

At the left is shown a model in cotton prints in which the "matched trimming" motif is carried out. The frock is of batiste, self-bordered to harmonize with the design of the

printed cotton.

An ingenious use of sheer cotton fabrics is shown in the other ensemble in which a spaced print is used to develop the body motif and an all over printed coat supplies the blouse and wide printed bands holding down hip lines. Other style features are a novel band at the neck and a narrow tie at the waist line. Both of these are very recent style notes.

My car uses very little gas—A universal liar.

The sweetest baby I ever saw—A complimentary liar.

Speaking of liars, most everybody lies, except newspaper people and railroad people—They never lie.

In Luke 22:55 to 60, we find where Peter lied. Perhaps he was excusable for he was a fisherman and all fishermen are natural born liars.

In the Biblical story, covering a part of Peter's life, we again find a maiden pointed her finger at Peter and the old boy wiled and lied. Yes, lied three times and also swore. But Peter did not always lie. After the pentecostal fire he stopped lying and lived the right life. That is what our preachers have been trying to

make you old sinners do. They have been giving you a straight story but the truth sounds strange to some of you.

Gee, it would be a hard matter, to classify all the different kinds of liars.

A man will rant and rave for prohibition and then sneak around and hustle for a drink of bootleg or home brew. He's a liar.

No one loves a fat man, but everybody loves to see a woman look her best and that's no lie.—Pete Cain in Greenville Messenger.

Swift & Co. are to erect a new poultry plant at Taylor which will employ seventy-five persons and which in addition to packing poultry will be equipped with butter-making machinery.

BUSINESS FAILURES ARE UP FOR OCTOBER 1929

Austin, Texas, Nov. 12.—Commercial failures in Texas during October numbered 50 firms, having liabilities of \$630,000, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas.

This compares with 29 failures with liabilities of \$128,000 in September and 39 insolvencies having liabilities of \$407,000 in October 1928. Normally, a seasonal increase in the number of failures occurs from September to October, but the gain this year of nearly 75 per cent is the largest on record," Mr. Nichols said.

Farmers' Bulletin 1497-F contains much useful information about laundering clothes and some suggestions about ironing them. How to fold a man's shirt, tablecloth and other flat pieces and how to wash sweaters, curtains, blankets, pillows and infant's woollens are among the practical directions found therein.
