sociation.

Good Newspapers
At a Very Low Price.

THE SPIRIT WEEKLY NEWS (Galveston or Dallas)
is published Tuesdays and Fridays. Each is-
sue consists of 8 pages. There are special de-
partments for the farmer, the ladies and the
boys and girls, besides a world of general
news matter, illustrated articles, etc. We offer
The Semi-Weekly News
and Industrial West
both 1 year for the low clubbing price of \$1.00
each. This gives you 3 papers a week, for 100
papers a year for a ridiculously low price.
Hand in your subscription at once.

Our New Clubbing Offer.

By renewing within the next thirty days we
will send you the INDUSTRIAL WEST and Texas
Stock and Farm Journal, one year for \$1.50;
two papers for the price of one. Texas Stock
and Farm Journal is a big weekly and is the
leading Texas exponent of diversified farming
and improved stock and stock farming.
Sample copies can be sent at our office.

WRIGHT'S Condensed Smoke. For smok-
ing all meats. A liquid made from
Hickory wood. Contains a new
meat preservative. Protects meat
from insects and preserves it for
any length of time, giving it a fine
flavor. Put on meat with a brush.
Cheaper, better and quicker than
old way. A 75c bottle smokes 250
lb. meat. Satisfaction guaranteed. Made by
E. H. Warner & Co., Ulysses, Neb.

Excursion Rates East and South-
east.

via the "Cotton Belt Route" for the
following occasion:
To St. Louis, account Interstate Mer-
chants Association Feb. 20th, 27th,
March 6th, 13th, April 2nd and 10th,
rate of one and one fifth fares, on the
certificate plan. One way tickets will
be sold at regular rates, and passenger
given certificates, which, if presented
within three days after adjournment of
the meeting, properly signed by Mr. C.
A. Singer, and stamped by D. Wishart,
will entitle holder to return ticket at
one-fifth fare.

For the following events reduced
round trip rates will be announced in
due time:
To Baltimore, Md. for the General
Conference of the M. E. church, South,
May 6th.
To Norfolk, Va. for the American
Baptist Educational Society, May 5th;
Southern Baptist Convention May 6th-
13, and Woman's Bap. Missionary
Union May 6th-10th.
To Washington, D. C. for the Annual
Meeting of the National Educational
Association, July 7th-13th.
To Nashville, Tenn., for the Interna-
tional United Society of Christian En-
deavor, July 5th-12th.
To Atlanta, Ga., for Ex-Confederate
Veterans Reunion, July 21-31th.
To Columbia, S. C. for the General
Conference of the (colored) M. E.
church, May 3rd.

Spiegel Grove, the home of the
late ex-President R. B. Hayes, at
Fremont, O., is advertised to be sold
at sheriff's sale April 11 to satisfy a
judgment.

We turn in on "Vol. 10" with this
issue. The INDUSTRIAL WEST is not
only the oldest paper in the Panhan-
dle, but has been run longer under
its present management than any pa-
per ever published in the county has
under one management, and its sub-
scription list has increased at every
office in the county, slowly, but sure-
ly. This is gratifying and appreciat-
ed.

The way Pullman porters are go-
ing to Klondike they must think that
a good country in which to hold po-
lice up.

If the "public servants" were as
prompt in bringing about a settle-
ment of the Maine disaster as they
were in making the fifty million ap-
propriation, the Cubans would very
soon be free.

And now comes a hay trust. The
horses will "kick." The American
Hay Company, composed of 100 of
the largest buyers and shippers in
the United States with headquarters
at Chicago, capital \$5,000,000, will
run up prices to consumers and run
down prices for the producers.

MINNESOTA, Indiana, Kentucky
and then old Georgia populists came
out square against any mix with the
old parties. Democrats invited popu-
lists into their ranks for the same
purpose the spider invited in the fly,
and it looks like anybody with intelli-
gence enough to cast a ballot should
have known it.

DURING the last two weeks the
attention of the business men of Den-
ver has been attracted to the un-
usually large number of counterfeit
dollars, made of silver, that are in
circulation. The counterfeits are
such close imitations of the genuine
coin that it is almost impossible to
detect them. It is estimated that
there are fully 2 million dollars' worth
of these spurious coins in cir-
culation in the country. All that
have been found bear the mark of
the New Orleans mint, a lower case
'o' immediately under the eagle,
and are dated 1888. It is much
easier to counterfeit the silver coins,
successfully, than treasury notes,
and with the low price of silver,
there is big profit in it. There may
be many more millions of such coins
in circulation than the government is
aware of. A proper currency, legal
tender notes, would be safer, less
expensive and more convenient than
metal money, and if it was not for
Shylock we would soon have it.

Mr. K. Aycock comes forward
with the first announcement this year
placing his name before the people
for sheriff and tax collector. He has
been a citizen of Donley county a
number of years, is a successful far-
mer and made a faithful officer as
assessor, which office he filled for
this county for one term. He is
amply qualified to fill the sheriff's
office and believes in seeing the law
fulfilled to the letter.

W. H. Oliver announces this week
for sheriff and tax collector. He
has been constable and deputy sheriff
for the past four years, giving the
people ample opportunity to judge of
his fitness for the place to which he
aspires, is fearless in making an ar-
rest and proposes to fully execute
his duties. He has been in the
county a number of years, conse-
quently his acquaintance is large,
and any further introduction on our
part would be superfluous.

The Sabine Pass News, with its
new type, book paper and splendid
press work, is the nearest general
weekly in the state.

Homer T. Wilson's lectures were
the best, from a point of oratory and
logical reasoning, ever heretofore de-
livered here, far surpassing, in our
estimation the gifted Hubbard.

If woman was taken out of the
world it would not take man long to
drift back to where Darwin started
him.—Honey Grove Crescent.

Take the women out of the world
and the men would sink too quick to
drift at all.

Those democrats who are demand-
ing the renomination of Bryan in
1900 are significantly silent on the
Arthur Sewell question.—Young
County Call.

Exactly. But they will put up
somebody of like calibre. Perhaps
Arkansas-Bond-Bill-National-Chair-
man-Jack-o-lantern Ketchum Jones.

Another Blunder of Democrats.
AUSTIN, March 15.—It is highly
probable that the governor may have
to call an extra session of the Twen-
ty fifth legislature to rectify a blun-
der of that body in fixing the date
for the vote on the constitutional
amendment.

W. F. Brice is still at Ardmore,
and U. S. Judge Thomas has refused
to give him up to the Texas officers.
Even the prosecuting attorneys ad-
mit that without the lavish use of
expense money it will be well nigh
impossible to bring him back to
Quanah. The two charges preferred
against Brice in the Territory seem
to be of a trivial nature and he is
out on \$1,000 bond.—Quanah Tri-
bune.

Black Leg.
John Hoffer & Co. will receive in
a few days a car of stock salt mixed
with lime. The addition of the lime
gives bone to growing stock, purifies
the blood and acts as a prevention of
that scourge known as Black leg.

Place your orders for this salt be-
fore it is all gone, as 60 barrels have
already been engaged.

Edward Bok to Lecture

Edward Bok, the famous young editor
of The Ladies' Home Journal, has final-
ly been persuaded to appear on the lec-
ture platform, and he will make his
debut as a lecturer next October. He
will lecture in twenty of the principal
cities and in a few of the neighboring
Western States. The title of his lecture
will be "The Keys to Success"—the
most interesting subject he could have
chosen to talk about. Mr. Bok is, per-
haps, the most successful and popular
young man in America. He is as popu-
lar personally with women as are his
writings. Up to this time he has de-
clined the most flattering terms to lec-
ture, but last week the Southern Ly-
ceum Bureau, of Louisville, succeeded
in closing a contract with the Philadel-
phia editor. Mr. Bok has chosen the
Southern field entirely because he
wishes to acquaint himself with the
South and its people, and has stipulated
that his lecturing tour shall be so ar-
ranged as to allow him time for social
engagements and observation. He will
not speak more than three times each
week, and will spend seven weeks in the
South.

Pithy Points Paragraphed.

—Some preachers seem to be more
anxious to win men to their church
than to Christ.

—It is impossible to live a christi-
an life without Christ.

—There is something wrong with
the preaching that makes the money
changers feel like shouting.

—The devil likes to hear the man
talk in the church who is an extor-
tioner.

—The one who loves Christ always
hates whiskey and dancing.

—The devil is well pleased with
the one who claims to be perfect.

—The way to heaven is too narrow
for the saloon and ball room—they
are on the broad road that leads to
hell.

Rider's Prizes.

Last week at Fort Worth the fol-
lowing were awarded prizes for rid-
ing and roping:

Riding—First T. S. Privett, San
Angelo, \$100; second, J. M. An-
drews, Midland, \$25; third, Charles
Wilms, Wichita Falls, \$15.

Roping—First, Fred Baker, San
Angelo, \$100, time 34 seconds;
second, John Merrill, Round Rock,
\$20, time 1:07; third, Dee Graves,
Long S. Ranch, time 1:21.

Riding mule—T. S. Privett, \$15.

Hall County.

INDUSTRIAL WEST CORRESPONDENCE.

LAKEVIEW Mar. 14.—We had a
nice little rain Friday night and
Saturday morning, so the farmers are
smiling again and are very busy
plowing.

Mr. J. B. Pope returned from Ft.
Worth last Friday. He had been at-
tending the cattle convention. He
informed us that the Shoe Bar Cattle
company sold their coming 2-year-old
steers on September delivery but we
never learned the price. Mr. George
Bugbee informed us that he had
bought nine sections of land joining
his home section between Indian and
Oaks creek, where he will locate his
cattle in the near future.

There was no preaching at Lake
view Sunday. Bro. Harrell failed to
come, but I hope our gathering to-
gether will not be in vain, for the people
organized a union Sunday School at
Lakeview with A. J. Kinard as super-
intendent and Miss Davie Payne,
Secretary. The teachers are Prof.
Bradley, Mrs. George Gore, Mr. A.
P. Kinard and Mrs. Charlie Payne.
It bids fair to be an interesting
School, as there were 34 scholars
enrolled and several more that will
yet come in. The School meets every
Sabbath. Mr. Norris Orr is working
for Mr. George Bugbee and Mr.
Porter Orr left Sunday morning for
Clarendon to commence work for
Mr. T. S. Bugbee of that place; so it
seems as if Bugbees and Ors have
consolidated.

Rev. Bloodworth and Rev. John
Wallace, of the M. E. Church, south,
Memphis, preached at Twin Buttes
Sunday at 11 a. m. and 3 p. m. to
good congregation.

Candidates are sprouting fast in
this county but their announcing for
office don't seem to stop the war talk.

Some of the boys are standing with
their fingers in their ears listening
for the roar of the cannon, but it is
to be hoped that Uncle Sam will set-
tle it without calling out the boys or
shooting that big gun of his, for if he
has to shoot it many times he will
bankrupt our government.

NESTER.

The steamship Miami, of the Lone
Star line, left Galveston Wednesday
for New York with one of the largest
coastwise cargoes taken out of that
port. In it was a shipment of 55-
000 bushels of Colorado white wheat,
the first shipment of this kind of
wheat ever made from there to New
York. This was made possible by
the low rates now prevailing between
Colorado points to New York, via
Galveston. Other shipments of a
like character will follow.

I can say one thing for Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy; and that is that it excels
any proprietary medicine I have seen
on the market, and I have been in
the practice of medicine and the drug
business for the past forty years,"
writes J. M. Jackson, M. D., Bron-
son, Fla. Physicians like Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy because it is a scientific pre-
paration, and because it always gives
quick relief. Get a bottle at Stock-
ings drug store.

Is your subscription due?

ROWE RUMORS.

Rowe, Mar. 15, 1898.—Since
there is no one writing up Rowe lo-
cals I will endeavor to send in a few
dots.

We had quite a shower of rain last
Friday night and Saturday morning.
Farmers are at work preparing ground
for crops; but are a little afraid of a
cold snap yet.

The windy season is here and a
refreshing breeze from the west was
blowing last Monday.

Prospectors are plentiful and there
seems to be not enough land to meet
the demand.

Mrs. Brown's mother, Mrs. Wil-
liams, who has been sick for some
time, is now convalescent.

Rev. Baker filled his regular ap-
pointment at Rowe the last fourth
Sunday, with a good attendance.

W. T. White has set out another
orchard. He says this country will
need a cannery in a short time to
dispose of the fruit that will be pro-
duced here.

J. W. Hoppes can, by another
year, supply Clarendon with all the
strawberries and raspberries they
can consume.

Mr. F. H. Killian returned last
week from Jack county. He evi-
dently thinks this a better country
than that.

Mr. Isaac Smith has had a sister
visiting him recently.

Mr. Jones of Greer county has
moved his family up to the place he
purchased from Mr. Carpenter. They
will be quite an acquisition to our
society.

Mr. Carpenter has built a very
snug little cottage on his section six
miles northeast of Rowe.

Misses Evelyn and Hattie Cap-
erton spent two weeks with friends in
the vicinity of Rowe. They return-
ed to their home at Dozier a few
days since. — OLD HICKORY.

Claude Locals.

CLAUDE, Tex., Feb. 17, 1898.—
A good rain is falling tonight
which will start the grass in fine
shape. It will also start the farm-
ers to plowing for this year's crop.
The winter has been exceptionally
favorable for cattle and a rain now
to start the grass insures them going
through with almost no loss.

Mr. P. S. Tipton who got his leg
broken last fall has purchased a
Gramophone and expects to travel
and give exhibitions as he is unable
to work.

Mr. D. H. Thornton is with us.
again his health is some better.

Our school is nearing the close and
Prof. McBride is getting ready to
move to the country where he will
teach a summer term of school.

A very sad accident happened here
on last Saturday.

The boys had arranged for a horse-
race at the track north of town.
Everything was in readiness and the
signal given to go when one of the
horses, ridden by Mr. John Chap-
man, began pitching and threw him-
self in the air. He lighted on his
head and shoulders, sustaining a
broken arm and other injuries, caus-
ing complete paralysis from his
shoulders downward. He lingered
until this (Thursday) morning when
death came to his relief. He suffer-
ed a great deal but clung to the hope
that he would pull through. He was
attended by Dr. Warner who did
everything that could be done by
medical skill, but grim death had
thrusted in his sickle and human aid was
of no avail except to, in a measure,
palliate his sufferings. His mother
and brother, living at Bowie, were
summoned by wire but arrived too
late to see him in life. It is very
sad to see our friends cut down in
their early manhood and should in-
spire us to make the necessary pre-
paration for our future happiness
while the opportunity is afforded us.

MARRIED: On Wednesday even-
ing March 16th, at the residence of
B. C. McCaleb, Mr. Ben Christian
and Miss Mary B. Twyman, Rev.
W. H. Younger officiating. After
the ceremony refreshments were serv-
ed and all report a pleasant time.
Miss Mary was a presbyterian but,
after listening to a short talk by a
Baptist minister she joined the Chris-
tian family.

Eld. Denson, of the Christian
church, preached for us beginning
Thursday night, the 10th inst, and
continuing over Sunday. Some
splendid gospel sermons were preach-
ed and was listened to by good au-
diences, two additions. — PETA.

We want a few good fence posts
on subscription.

GENERAL NOTES.

It is said that 35 states have organized for participation in the Omaha exposition.

European powers are said to be leaving Spain to work out her own destiny regarding Cuba and American difficulties.

It takes 500 pounds of powder to fire a charge from a 13-inch gun, the largest carried by any of the ships of Uncle Sam's navy.

Waco has some patriots who wish to lend the government \$25,000 for war purposes—and charge no interest. They think \$1,600,000 could be raised this way in the south.

Mrs. Lizzie K. Spaulding, wife of the former bank president Spaulding, now under sentence for embezzlement, was granted a divorce in less than five minutes after she had filed a cross bill to her husband's application for divorce.

At a banquet the other day, Emperor William is quoted as saying:—placing the bit of his sword on the table: "What I declare is as long as Emperor William III. is emperor of Germany the Yankees shall not take possession of Cuba."

The fastest time ever made on the Kay between Kansas City and Denison was made by a special train of Wagner cars a few days ago. The distance of 440 miles was covered in eleven hours, making an average of forty miles an hour, including stops.

Our Mineral Wealth.

Some idea of the almost unlimited resources of this country may be obtained from the abundance in which only six of its mineral products are found, viz: coal, iron, gold, copper, petroleum and silver. The figures giving the total output of these mineral products for the past year are not available; but for the year 1896 the figures are as follows: Coal, \$206,982,718; iron, \$87,688,660; gold, \$57,000,000; copper, \$48,786,080; petroleum, \$42,162,184; silver, \$30,461,665.

What country on the globe can surpass the aggregate showing which the foregoing figures present? Of course some countries may forge ahead of the United States in the abundance of some one or more particular mineral product which they possess, but in the aggregate they must necessarily fall short. But as yet the mineral wealth of the United States is only partially developed; the future alone can reveal the contents of our hidden treasures.—Atlanta Constitution.

The Belief of the Chinese.

A Waco Chinaman having stated that he was severely beaten and robbed of all his cash, County Attorney Cullen F. Thomas summoned a number of the associates of the Mongolian to an ex parte investigation. The courtroom was crowded with celestials of every craft, and one by one they were put on the stand to testify as to what they knew concerning the attack alleged to have been made on the restaurant keeper. Each Mongolian was required to answer questions touching his belief in the sanctity of an oath such as is customarily administered under the laws of Texas. All of them stated that cutting off the head of a chicken, although practiced as one form of oath

in China, was not necessary as a conscience binder in the estimation of advanced thinkers among the Chinese. The following passed between one of the Chinese witnesses and the county attorney:

"What god do you worship?" the county attorney inquired.

"The God of heaven and earth," replied the Mongolian.

"Do you believe," the county attorney inquired, "in the divinity of Jesus Christ?"

The Chinaman paused before replying and a shrewd twinkle could be seen in his almond-shaped eyes, then with a bright smile on his face which was just the color of the plumage of a first prize winning buff Cochon hen, he replied, "Yes, in this country, I do."

He was permitted to testify.—Waco Exchange.

Why Americans Do Not Enlist.

To many it is surprising that in the recent shipment of men for the navy native-born Americans are conspicuous by their absence, when comparison with other nationalities is drawn. Comment is also excited by the official reports showing that the personnel of our navy is, so far as birth is concerned, far from being representative of American citizenship.

If one will stop to consider, the several points of the question: the surprise will disappear. There are economic and sociological reasons why Americans do not enlist in the navy. The average pay of a sailor is \$17.50 a month and his rations, which amount to \$9. More rations than this no man in the United States navy is allowed, be he landsman on his first cruise or rear admiral of forty years' service. The compensation, then, is no inducement to the American, who can, or thinks he can, earn in two weeks ashore as much as he could in a month aboard ship. The fact that on ship board his \$17.50 a month is as certain as death till his three years enlistment is completed does not appeal to the American. It does, however, appeal to the foreigner, and, too, \$17.50 is in excess of what he has been earning in Europe.

But a more significant cause for the American's absence aboard his own country's ships is the confinement and discipline to which he must be subjected for three years. No nationality can respond to discipline quicker and more thoroughly than the American, yet he is the first to rebel against it. That supreme authority should be lodged in one man "aft in the cabin" is against his republican principles. His natural hatred for dictatorial powers makes him shun the one place where it exists—aboard ship. And he doesn't enlist.

Modern war vessels, too, do not call for sailors. They are engines of death in which the art of sailing has little place. A knowledge of heavy gunnery, electricity, machinery, etc., is more essential than splicing, reefing and setting skysails. And the man who possesses such knowledge needn't work for \$17.50 a month. The American seaman passed with the sailing ship.

The senate amendment to the Indian appropriation bill reviving the "free homestead" policy in relation to lands at present under the control of congress was defeated in the house after a long and vigorous debate by a vote of 99 to 136.

THE UNIVERSITY OF TEXAS.

FIFTY NINE INSTRUCTORS--FREE TUITION.

Enrollment for 1898-99 Will Reach 800 Students--Women Admitted to All Departments--Total Expenses, \$150 to \$250--Students Admitted at Any Time They Apply--Summer Normal.

Austin, Texas, March 15, 1898.—That the people of Texas feel proud of their State University, is a credit to their intelligence and patriotism. That the work of this institution is gratifying in a high degree to all the people of the state, is due to the ability and zeal of its excellent management. That it has prospered remarkably the past three years, and its growth seemingly just begun, is most pleasing to its Alumni and creditable to the faculty, and Board of Regents.

The University of Texas stands today in the very front rank of the best educational institutions of the South, with few equals and no superior, so far as concerns its curriculum, its faculty, and its resources for still greater advancement. It may be truly said the University was born of the spirit of freedom which inspired the fathers of the early Texas colony with the heroism that wrested the country from Spanish tyranny and founded the free Republic of Texas. In the Declaration of Independence, March 2, 1836, it was declared as one of the chief counts against the Mexican government that "it has failed to establish any public system of education although possessed

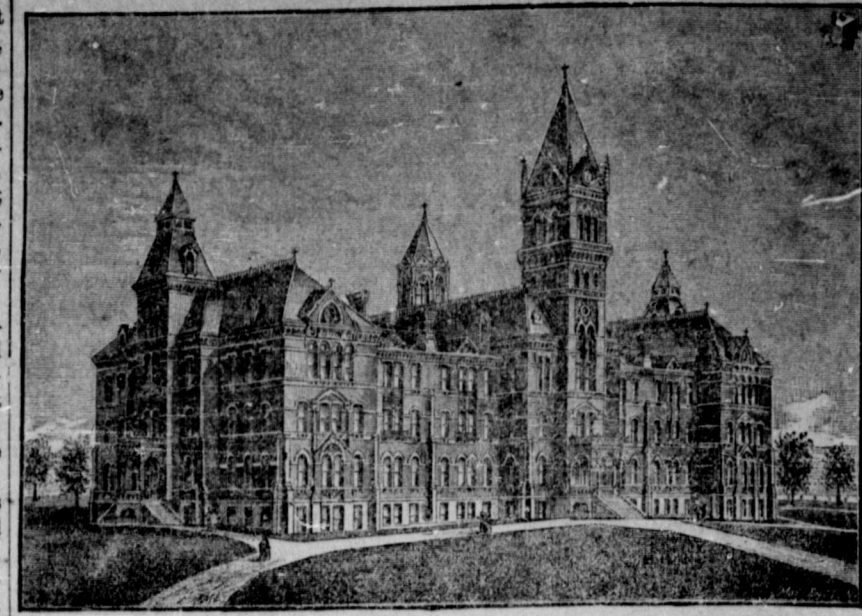

ty is governed by a board of eight regents appointed by the Governor, by and with the advice of the senate.

The Board of Regents for the current year is as follows: Thomas D. Wooten, Austin, chairman; F. W. Ball, Fort Worth; W. L. Prather, Waco; T. C. Thompson, Galveston; Beauregard Bryan, Brenham; R. E. Cowart, Dallas; G. W. Brackenridge, San Antonio; T. S. Henderson, Cameron.

HEAD OF FREE SCHOOL SYSTEM.—The University stands at the head of the state's grand public school system. It admits as students without examination the graduates of Sam Houston Normal Institute, of the Agricultural and Mechanical College, or of any of the approved high schools of the state, who are of good moral character and over sixteen years of age. There is no conflict between the University and the free schools of the state, nor is it desired that the University should detract from the public schools one iota of advantage. On the contrary it is the purpose of the organization and the desire of all the faculty and officers of the University to not only provide the highest culture for Texas youths, free of cost, but to promote in every possible way the development of the state's public school system.

Co-education is another prominent feature of the University. Both sexes are admitted on equal terms. The young ladies have every care and the special advantage of daily conference with Mrs. Helen M. Kirky, who was appointed by the regents lady assistant in the faculty.

George T. Winston, LL.D., was elected President in June, 1896. He was formerly President of the University of North Carolina. Dr. Winston is an indefatigable worker, and his efforts have been most successful. All departments have prospered under his administration. The teaching force has been increased 25 per cent, and a new \$50,000 addition to the building will be constructed this summer.

healthfulness. The drainage is perfect, and the atmosphere is kept pure by the breezes constant from the south and southeast. Picturesque hills on the west and south lend enchantment and break the monotony of the fertile prairies to the north and east. Altogether the location is most desirable for healthfulness and student life.

THE CAPITOL.—Austin being the seat of government for the state, affords with the government departments and various state institutions a never ending source of study. The legislative sessions and the executive departments, together with the supreme courts, gives practical and every day lessons in the science of government; and acquaintances made during leisure hours among leading men of the state helps to sharpen the wits and whet the ambitions of the student who is preparing himself for the battle of life.

TRAINING OF TEACHERS.—The Department of Pedagogy is in charge of two eminent professors. Prof. W. S. Sutton has been for a number of years superintendent of the city schools of Houston. In that time he has demonstrated his unusual ability and practical grasp upon the school situation in Texas. The wisdom of the Board of Regents in placing him in charge of this department has been universally commended. No less fitted for the work is his assistant, Dr. A. C. Ellis, who comes equipped from one of the leading universities of the North to give special training in the laboratory upon the questions involved in Child Study and Child Training. Students who complete one course in Pedagogy are given a first grade state certificate good for two years; upon completion of two courses a first grade state certificate good for four years is granted; while to all the graduates of the University, who have completed three full courses of Pedagogy, life certificates are issued. The graduates of the University and especially those trained in Pedagogy are being employed as superintendents of schools and principals of high schools in all sections of the state. They are especially in demand with the schools affiliated with the University, as being especially equipped to give satisfactory training to students preparing themselves for a University course.

SCIENCE.—The University contains fully equipped laboratories in Biology, Chemistry, Geology and Physics. In the School of Biology two instructors are employed, and the equipment is valued at \$3000. The School of Chemistry is lodged in a separate building that cost \$25,000. Its laboratory equipment is valued at \$6000, and three professors are in charge. The School of Geology is presided over by two instructors. It has a laboratory valued at \$2000 and a large museum of specimens. The School of Physics has a laboratory valued at \$8000, and is in charge of two professors. The electrical and mechanical apparatus in this department is probably the most complete in the South, and an excellent opportunity is offered those who desire special instruction in electrical engineering. The School of Mathematics is in charge of three professors, and the Department of Engineering employs two competent men. Instruction is provided in Greek, Latin, English, French, German, Spanish, Political Science, Philosophy, Ethics and History by men trained in the best universities of the United States and Europe.

LAW DEPARTMENT.—For several years this department has enrolled more than one hundred students annually. A two years course leading to the degree of LL.B. is offered; also a post-graduate course leading to the degree of Master of Laws. A degree from this department admits the holder to practice in any of the courts of Texas. Students have access to the libraries of the Capitol and Supreme Court, besides the well equipped law library of the University. The department is in charge of three professors learned in law.

MEDICAL DEPARTMENT (located at Galveston).—The growth of the Medical Department has been phenomenal. The past year almost three hundred students were in attendance. The equipment and instruction is modern and the course thorough and comprehensive. The course covers a period of four years. More than twenty professors are employed.

SUMMER SCHOOL.—In connection with the State School of Methods and State Summer Normal there will be

conducted in the University building, during the summer of 1898 a University Summer School for the benefit of teachers and those students desiring University instruction. A large number of courses are offered, and a faculty selected from the corps of the University professors and from the most distinguished educators of the state has been placed in charge. A detailed circular describing this school may be had upon application to the University authorities.

CHRISTIAN ASSOCIATIONS.—While the University gives no instruction in the doctrines of the churches, it is distinctly a Christian institution. A daily morning prayer service is conducted by one of the professors or some one of the pastors of the city. The young men and young ladies have separate organizations of the Young Men's and Young Women's Christian Association, which holds weekly religious meetings. These associations also conduct weekly Bible classes under the direction of some of the professors that are open to all students.

Parties desiring any further information or catalogues should address Dr. Geo. T. Winston, President, or Mr. John A. Lomax, Registrar.

Brazil, Its Commerce and Resources.

Hon. Thomas L. Thompson, in the March Forum.

It is remarkable how little the average American business man knows, not of Brazil only, but of the entire continent to the south of him. He does not realize that the link is nearly formed by which he may ride across the continent, from Valparaiso to Buenos Ayres, in a railway coach, with accommodations equal to those of the best Pullman car. * * * While seeking in the far west for consumers of his surplus products of farm and factory, the average American overlooks the opportunities open to his enterprise and sagacity in a continent which lies, comparatively speaking, at the threshold of his factory and the gateway of his farm. At the same time, he fails utterly to realize that the United States—the chief consumer of South American products—is paying, by way of exchange, a vast tribute to Europe, not merely on what is taken from her nearest and most natural market for her own products, but on all she sells there. If intelligently utilized, not only would the semihome markets of South America save to the American consumer what he now pays in exchange to his more enterprising European competitor, who has forestalled him in the exploration and development of the vast resources of the Southern Republics, but they would in time turn the overwhelmingly adverse balance of trade to the credit of the United States. To-day the leading commercial city of Brazil, Rio de Janeiro, with a population of nearly 750,000 souls, contains but one strictly American mercantile house, supported by any considerable amount of capital. In the entire republic, with a population of 16,000,000, only two such houses exist. The American colony, registered, numbers probably 1500, embracing a few coffee buyers (agents only), farmers, clerks, mechanics, dentists and other professional men scattered over the country, while the British, French, German, Portuguese and Spanish colonies number, respectively, in the order named, many thousand inhabitants, representing hundreds of millions of dollars placed in mercantile, banking, mining, transportation and other pursuits, which yield remunerative dividends. I believe that Brazil offers many good openings to energy and enterprise, if properly guided by administrative capacity and duly supported by capital. It is obvious, in particular, that a large number of energetic and intelligent Americans engaged in industrial pursuits in Brazil would have an enormous influence in developing the natural resources, and consequently in increasing the purchasing power of the country, as well as in directing trade towards the United States.

Noisy demonstration or public speakings have been forbidden on April 1, the birthday of Prince Bismarck, on account of his precarious state of health.

Yano Fumi, Japanese minister to China, has demanded an official signed assurance of the payment of the indemnity due next May. China has given the written undertaking.

GEO. T. WINSTON.

of almost boundless resources (the public domain), and, although it is an axiom in political science that unless a people are educated and enlightened, it is idle to expect the continuance of civil liberty, or the capacity for self-government."

Acting upon the principle thus proclaimed, the first constitution of the Republic of Texas declared that congress should "Provide as soon as circumstances will permit, a general system of education;" and the first step in this direction was taken by congress as early as January, 1839.

The establishment of the University was really provided for by an act of the State legislature February 11, 1855. This act made provision for the endowment of the University by adding to the fifty leagues granted in 1839 one hundred thousand dollars in United States bonds and one section of land out of every ten reserved for the use of the state.

Its graduates now number over five hundred, and are to be found as honored members of every profession and business avocation in all parts of the state. Just think of so grand an educational institution, with faculty and appurtenances almost unequalled in this country, not only free, but backed by an urgent invitation from the great state of Texas for every one of her youths who will, to come and receive the benefits here provided. In this institution so well equipped and so thorough in every department of its work, we have the very crown of that system of public education which the fathers of our Republic declared to be the basic stone of civil liberty and self-government.

Its Government.—The University

There has been a large increase in library facilities, and plans have been perfected to correlate and affiliate all public and private schools of high grade in the state with the University.

AN ESPECIAL ADVANTAGE.—One of the greatest advantages of a course at the State University over an education abroad is the acquaintances formed with five to eight hundred young men during three or four years here, who go out to engage in business and the professions in every part of the state. To a young man who starts in life as a lawyer, a doctor, a merchant, or banker, an extensive acquaintance is the first requisite to success. If educated abroad he starts out, even in his native state, almost a stranger, and at a very decided disadvantage in competition with those who have been educated at a state institution, and has friends and pleasant acquaintances in every county and town in the state. This advantage is one that money cannot secure.

LIBRARIES AND READING ROOM.—The library of the Department of Literature, Science and Arts contains about forty thousand well selected volumes and pamphlets. It is open daily to all the students. The reading room contains all the leading journals and magazines.

ATHLETIC ASSOCIATIONS.—The University aims to develop the physical as well as the mental and moral sides of its students. To this end it endeavors to promote clean manly athletic sports. At present the association maintains a foot ball team, a base ball team, a tennis club, and a track team. In the near future it is hoped a boating club will be organized. The Austin lake is close at hand and furnishes the best rowing course in the South. A well equipped gymnasium and a competent instructor has been recently supplied.

LOCATION.—Austin is noted for its

Grove's Tasteless Chill Tonic

CURES Chills, Malaria and Biliousness
DELIGHTFUL TO TAKE. WARRANTED.
"NO CURE, NO PAY."
Is just as good for Adults as for Children.
Paris Medicine Co., Galatia, Ill., Nov. 16, 1893.
Gentlemen—We sold last year 600 bottles of GROVE'S TASTELESS CHILL TONIC and have bought 3 gross already this year. In all our experience of 14 years in the drug business, have never sold an article that gave such universal satisfaction as your Tonic.

LOCAL ITEMS.

See the Magestic steel range at H. W. Taylor's.

Rev. McCarver, of Claude, spent Thursday in town.

Miss Ada Graves spent last Wednesday in Claude.

Miss Porter returned from St. Louis Wednesday night.

Mrs. Joe Beaty, who has been ill is reported as recovering.

Mr. W. T. White, of Rowe was a brief caller at our office Thursday.

The total receipts of Dr. Homer T. Wilson's two lectures were about \$81.

Rev. A. W. Rogers began his meeting at the M. E. church last night.

Earnest Butcher came up from Ft. Worth Monday and will remain several weeks.

The showers this week and the continued warm weather are stirring the farmers to activity.

The Ladies Aid Society, of the Baptist church, will meet Wednesday afternoon at Mrs. D. J. Calvery's.

C. A. Burton has been assisting at the bank this week during the absence of Maj. Van Horn at Fort Worth.

Dr. Stocking informs us of the arrival of a bouncing boy baby at the home of Mr. N. M. Martin Tuesday morning.

Mrs. Webb McQueen came down from Amarillo Wednesday and is the guest of Mrs. J. D. Sherman.

Miss Allie Graves, Lula Ward and Lizzie Quillian and Mr. Crockett Taylor went to Amarillo last night to visit until Monday.

While carrying a glass fruit jar in her hands yesterday Mrs. J. M. Clower fell, broke the jar and one of her hands was badly cut.

Charley Derrick returned to Clarendon the first of the week, and we hear he has made application for stock inspector to succeed Mr. Doshier.

Mr. J. H. Evans, brother of Rev. Geo. Evans, arrived here Wednesday from Milwaukee, Wis., with the expectation of locating on a stock farm near Goodnight.

Of the cases in court mentioned last week; Hall vs. F. W. & D. road continued to next term. Minier vs. Morgan, set for next Thursday. Saye vs. Cole, judgment for plaintiff.

Mr. J. H. Fleming and wife, step-father and mother of Bob Dilworth, also two brothers and a step brother of Bob, arrived here from Hird, I. T., last week with the view of buying land and settling.

Morris Rosenfield, the old reliable panhandle merchant, returned home this week from his trip east where he laid in a big, fresh, stock of Spring and Summer goods. He will greet you with an ad. next week.

J. W. Fields, who has been working on a ranch in Hall county, but late of Oklahoma, was badly cut about the face by a horse kick the first of the week and was in town to have his wounds sewed up by Dr. Stocking.

The Woodmen of the World will give an entertainment at the court house Wednesday night. This has been delayed from time to time on account of other gatherings and it should now have a large attendance. Tickets 25c. Refreshments extra at close.

T. M. Wolf was so unfortunate as to get the corner of an eye badly cut by a barb wire, in passing through a wire gate some days ago. It did not heal properly and this week he came to town and had Dr. Stocking take a few stitches and properly dress the wound.

Mr. Geo. Doshier has accepted the position of manager of Mrs. Adair's J A ranch at a salary of \$110 per month, consequently he will not be a candidate for sheriff. He is a man who is well acquainted with the ranch business, has worked with cattle all his life and well qualified the fill the place.

For some time, I have suffered with rheumatism and tried every imaginable remedy, without effect. Mr. F. G. S. Wells advised me to try Chamberlain's Pain Balm, telling me that it had cured many cases of long standing like mine. I have used four bottles and feel sure that one more bottle will make my cure complete.—A. P. KONTZ, Claremore, Ark. Sold by J. D. Stocking.

We have for sale a nice bunch of 1 and 2 year old steers.
MORGAN LUMBER CO.

Some Mulberry Flat Biography.

PALODURO, TEXAS, March 10.—As nothing has appeared lately in the columns of your paper from this section I will give you a few items. Paloduro is the name of the post office, but as the settlement is located on the flats of Mulberry creek it is commonly known as Mulberry Flats—the greater portion of which is in Armstrong county. The school house is centrally located, is near historical ground, being near where a severe battle was fought with the Indians before they were finally driven out of the Panhandle. It is also in sight of the headquarters of J A ranch. It is used for church as well as school purposes. The heads of families nearly all either belong to or favor some branch of the church. While this is true they are not so sectarian in their views that they will not turn out and give a respectful hearing to the ministers of different churches. They have ample funds to run their school six months in the year and pay a salary of \$50 per month to the teacher. This year there are 36 pupils enrolled in the school, including those over and under scholastic age.

Nearly all of the settlers are engaged in stock farming and making it a success. Their cattle numbering anywhere from fifty to three hundred head. They represent different states but a majority came from Tennessee and Georgia. Mr. John Journey and wife being natives of Hardin county, Tenn. and came to Texas about ten years ago. They spent a few years in Lamar county before coming to the Panhandle. They have no children but exercise a father and mother's care over all the young people who sojourn with or visit them. Those who have once enjoyed their hospitality love to repeat their visits. They like the country and are prospering financially.

J. T. Hemphill and wife are Tennesseans who spent several years in Cooke county before coming to the Panhandle. They have several sons and daughters some of whom are grown and are well respected in society circles. Misses Modena and Ida are favorites among the young people. The former is a school teacher and stands high in the profession. The family are well satisfied with the Panhandle and are here to stay.

Mrs. Graham is a native of Tennessee who had the misfortune to lose her husband several years ago while in Cooke county. Soon after the death of her husband she came with her family to the Panhandle and through the industry and economy of herself and family are now well situated. A great deal of credit is due her son, Will, for the way he has managed his own affairs and that of his mother. Deprived of the opportunity to get an education he has toiled on faithfully and energetically until he has laid the foundation of a handsome income. On the 22nd of last Dec. he was united in marriage to Miss Oney McCrae, an amiable young lady whose parents reside in the community. Mrs. Graham has two married daughters living on McClellan creek in Gray Co; one the wife of Joe Cupell and the other of Thos. Robey. She has a married daughter, Mrs. E. Goodman, living in the community besides two, Misses Maggie and Mary, still at home with her. She also has three small boys whose ages range from 7 to 12 with her.

Geo. McCrae came direct from Tenn. to the Panhandle about six years ago. He is a shrewd trader and has succeeded well since coming here. His family have a good standing in the community. His eldest daughter, now Mrs. Will Graham, has many excellent qualities. Charley is an industrious, energetic young man and Miss Ethel is a handsome young lady.

A. L. Cobb is a native of Tenn. His father came to Texas when he was a small boy and settled first in Fannin county, but later moved to Cooke county. When Albert began life for himself he soon decided to abandon farming and turn his attention to stock raising. Having when young served several years as a cowboy, the experience gained while in that occupation has been a help to him in his business. Six years ago he sold his little farm in Cook county and invested the proceeds which amounted to about \$500 in a stock of cattle and in improving a ranch in this community. The most of his cattle were bought on time but by judicious management he has paid up the purchase money on them and now has four sections of land under fence and near 300 head of cattle. Thus it will be seen that in the short space of six years his hundreds have grown into thousands. His wife came from one of the best families in Cooke and to her industry and management he owes a good share of his success. Nellie, 9 years old, and Oscar 6, have no superiors, and few if any equals, for their ages, as

horse back riders. They are quick and apt students in school.

Dr. Bagwell and wife are natives of Georgia who also spent some time in Cooke county before coming to the Panhandle. The Dr., who finished his medical education in Atlanta, Ga., is engaged in stock farming as well as practicing his profession. He is highly respected for his honesty and skill as a physician as well as his general intelligence. He is making a success of stock farming and can give good counsel in that line as well as in a medical line. His wife is a lady of fine culture and his children by their deportment in society show that her duty to them has been faithfully discharged.

Newt Bagwell, a brother of the Dr., is also one of the good citizens of the community who is making a nice start in the stock farming business. He is favored in having a business woman for a better half, who looks after the interests of the ranch as well as her household affairs during his absence. They have a promising young family coming up around them.

Maj. R. C. Dobson is a native of Georgia and his wife of Texas. He spent some time in Clay county then in Wilbarger and from there he moved to the plains; but not liking the outlook there he finally located in this community. He is handling horses and cattle. He has an excellent wife and three handsome daughters who are well educated, besides other smaller children. His daughters are quite an addition to the society of young people.

J. C. Scoggins came from Erath county to this community, but the good citizens who came from Cooke county have not refused him and his family admission into the upper crust of society on that account. He and family possess those rare traits of character which will command respect in any community. In church matters he is looked to as a leader and faithfully discharges his duty. He is a prosperous stock farmer and like many others owes his success as much to his wife's energy as his own. Miss Lula has many admirers among the young people and she merits the compliments that are often bestowed upon her.

Eugene Goodman and family who lately came to the community are valued for their industry and honesty. He is as honest as the day is long and by his integrity has won the confidence of the entire community. His wife is a daughter of Mrs. Graham and is worthy of him. They have a promising young family.

Thomas Pain is also a valuable citizen and a successful stock farmer. He has an interesting family who are well respected by their neighbors. While he is not the author of "Pains Age of Reason" he can give a good reason why he had rather make a living by raising cattle in the Panhandle than five-cent cotton in the cross timbers of Montague county. I would like to speak of Berry Summerour, Stephenson, the Love Bros., James Reed, Davis and son, Johnsons, Howards, etc., but must close for the present.

J. N. K.
From all over the country, come words of praise for Chamberlain's Cough Remedy. Here is a sample letter from Mrs. C. Shep, of Little Rock, Ark. I was suffering from a very severe cold, when I read of the cures that had been effected by Chamberlain's Cough Remedy. I concluded to give it a trial and accordingly procured a bottle. It gave me prompt relief, and I have the best reason for recommending it very highly, which I do with pleasure. For sale by J. D. Stocking.
