The democratic state convention of Illinois is one more to repudiate what the party is now pleased to call "Bryanism."

FORT WORTH and Dallas are frequently referred to as having exceptional enterprise—and they have accomplished wonders, but just now Dallas is finding it very difficult to raise \$125,000 bonus to two prospective railroads. This is less than one per cent on her assessed values. A Panhandle town would raise a corresponding amount in 30 minutes to secure such an acquisition.

NEARLY 200,000 horses and mules have been sent from this country to South Africa to be shot, maimed and starved, but what care the American speculator, he received the cash for them. More than \$600,000,000 have been spent in Filipino war, but what care we, a few people will get high salaries and soft jobs. Thousands of American soldiers have met death in a foreign land, and 150,000 Filipinos have been killed on their own soil in battle and of exposure and starvation, their homes burned and their country devastated—for what? That we may pose before the world as a "strong government" and to furnish army and government officials with places of honor (?) and profit!

MR. BRYAN gives no intimation of how long he will remain with the party who is turning its back upon the Chicago and Kansas City platforms and drifting back to Clevelandism, but he says, in referring to the action of the Indiana convention of the democratic party: "The men who preferred a republican victory to the Chicago or Kansas City platform will never institute any reform or redress any grievance. They never fight an open battle; the victory which they have gained in Indiana (insofar as they have gained one) has been gained by stealth and because the rank and file were deceived. They talk loudly about harmony, but they are willing to disrupt the party unless the party humiliates itself by a surrender of its position. The men who now boast of the increased production of gold as a reason for the abandonment of silver favored the abandonment of silver before new gold was discovered, and as they wanted a dear dollar then they will, if entrusted with power, find some way of depriving the people of the benefits of a larger gold supply." Whether by "stealth" or deceit of "the rank and file," or otherwise, Mr. Bryan may rest assured that Indiana method will be carried out in most of the states.

Clarendon will have a 4th of July celebration for her people. It is thought by some that Childress should have such an entertainment, but we have not heard any of the business men who have most of the money to put up, advocating it. Pleasure is a great thing for the rich but just at this time when so many good and lasting improvements can be brought to the town with the offer of a little capital we are not in favor of any 4th of July business. Let us raise all the money we can for the up building of the permanent good of the town.—Childress Post.

Well, now, that is a great view to take of it! Clarendon makes no boast of her riches, but she can afford to take a little pleasure when she feels like it and is liberal enough to contribute to the pleasure of others, and at the same time she is not indebted to anybody for promised bonuses, and can show as "many good and lasting improvements" as the best of them. Come up on the Fourth, Mr. Post, and see our fine court house and its shady, well-kept grounds, our splendid public school building, our two colleges, our electric light plant, our water works and our beautiful residences, and partake of our bounteous barbecue, for which it took one solicitor only about half as many minutes to raise \$260 and several beaves for the occasion. We will say, too, if Childress people are really opposed to drinking good water, there are places yet in Clarendon where other drinks are sold where they might be satisfied. Anyway, come up and spend the day with us, you will be welcomed.

Hood county went dry by 183 votes after a hard fight on both sides.

A Very Pertinent Question.

There is not a legislative district in West Texas that the large ranchmen are not pushing forward some man favorable to their interests for the legislature, while the people whose interest it is to see the country settled up seem absolutely passive. If this perplexing land question is not watched, there will be more changes made and they will not be advantageous to the settlers, and besides that, a move is already on foot to put through a measure to validate thousands of illegal sales already made. A land commissioner who has, as has been proven, made illegal leases will, and has, just as readily make illegal sales, and the pasture men, knowing they are illegal and will not stand the test of the courts, will rely on men they send to the legislature to make their titles good. Relative to this the Vernon Call says:

"It is right amusing to read some of the 'castles in the air' articles in a few of our Panhandle exchanges that are conducted under the influence of land syndicates and cattle barons, about the great prospects of new railroads, banks, water works, street cars, etc., when in the same issue of the paper you will find them supporting men for office who are assisting in getting all the land in the country in hands of a few very men and oppose immigration. What can your town be without a settled country to support it?"

Mark Bennett, of the World's Fair Press Bureau, in a note to us says of the work going on at the grounds: "One remark is common to all visitors to the World's Fair grounds, namely, that they had no idea of the unprecedented scale of magnificence upon which the great exposition is being constructed. The grounds acquired to date comprise 778 acres, being nearly two miles long and a mile wide in the eastern part. Negotiations are pending for an additional four hundred acres. The north frontage of four buildings takes in a sweep of more than one mile, and there are to be not less than fifteen large exhibit buildings. Half the states and territories have taken official action looking to an enterprising exploitation of state and territorial interests and resources. The total cash available to date, including state and national appropriations, approximates twenty million dollars. The fifteen great departments of exhibits provide a place for complete exhibits of the resources and products of all countries and all peoples. Every day shows definite progress and the giant enterprise grows amazingly and wonderfully.

Leaders in both branches of congress have set July 3 as the proposed date for adjournment, and will strain every nerve to bring about this result.

Orion Procter has bought an office at Bridgeport and with his associates will publish both the Boyd and Bridgeport Index. Mr. Procter is a hustler for business and we are pleased to see him spreading out.

A theatre treasurer has nearly died from erysipelas contracted in handling money, says a St. Louis paper. This is a change, anyway. The disease most prevalent with treasurers is color-blindness.

Celebration: the Fourth.

As was announced last week, Clarendon will celebrate the Fourth by giving a big barbecue. Two or three parties wanted to dispense with it this year and go elsewhere, but about all the business men favored it and at a short meeting Tuesday the following committees were appointed:

Finance—J. T. Patman, J. E. Cooke, M. Rosenfield.
Arrangements—A. M. Ramp, L. M. Price, Robt. Sawyer.
Program—A. M. Beville, F. D. Martin, J. E. Cooke.
Advertising and Transportation—M. Rosenfield, W. P. Blake, B. E. Drake.
Barbecuing meat—Jas. Trent, B. W. Johnson, Jno. Cadger.
M. Rosenfield started out and in a few minutes had \$260 in cash, and the bread and several beaves subscribed, showing that all visitors on that day will be amply cared for. Clarendon has a good shade, plenty of good water and is decidedly the best town in the Panhandle to accommodate a crowd comfortably. The program will be given next week.

How We Can Lead the World in Wealth.

A writer in the Saturday Evening Post points out how several items of National expenditure can be reduced, and says if this is done and with our marvelous wealth production we can soon secure supremacy in commercial competition. He argues as follows:

"Suppose we find ourselves spending \$200,000,000 a year on army and navy and pensions combined, while England and the other principal European Powers are spending \$400,000,000 apiece—would that make no difference in the chances of winning the commercial leadership of the world? And suppose, at the same time, that we diverted only 75,000 men from productive industry to naval and military exercises while European Powers were diverting at least half a million each, what then?"

"The \$200,000,000 saved in a single year would pay the entire cost of the Isthmian Canal. In another year it would buy out the whole telegraph system of the United States and provide us with Government cables to all our island possessions. In the third year it would irrigate enough land to support a million families. In the fourth year it would make a ship canal from Lake Erie to the Hudson by which the iron workers and shipbuilders of the Lakes would be given free access to the ocean. In the fifth year it would open deep water navigation from Chicago to the Mississippi. In the sixth year it would make every important harbor on the Atlantic and Pacific coasts of the United States accessible to the largest steamers.

"The mere crumbs and leavings of such a revenue would furnish the most perfect system of technical education in the world, by which the resourcefulness of Americans would be supplemented by the thorough knowledge of Germans. "It is well to be prepared for war, but there are various forms of preparation. Expenditures of money and wasted labor by which a nation is impoverished bring not strength but weakness. Spain was prepared in that way for decade after decade, and century after century, and the result has been that for more than two hundred years Spain has never engaged in a war in which her strength has not collapsed at the first serious strain. The nation that is best prepared for war is the one which, with reasonable but not extravagant military equipments, has devoted most of its efforts to strengthening its general health and vigor. European statesmen are complaining that their countries are fatally handicapped in the race with us by their excessive taxation. Why not take a hint from them and reduce our own taxation, or turn our revenues from unproductive to productive uses?"

Hill county, Tex., went prohibition last Saturday by 560 majority. Every precinct in the county, including Hillsboro, went dry.

Rev. Jno. Spurgeon, father of the famous Chas. Spurgeon, who died ten years ago, died last Saturday in London, aged 92. He boasted that he had never had a headache nor a bodily pain.

Bill Coleman, Henry Conwell, George Bratcher and brother, were killed by lightning while picking up potatoes Tuesday at Coleman's home, twelve miles southwest of Sherman. The bodies were left in a pile. Nearly every bone in the four men was broken and the clothing was nearly all burned from the bodies.

The Crown Prince of Siam is coming to the United States immediately after the coronation of King Edward, on which occasion he will represent his government. During his sojourn in America the Prince will visit St. Louis to confer with the officers of the Louisiana Purchase Exposition regarding Siam's exhibit at the World's Fair.

Immediately after the great disaster in the island of St. Vincent, our government sent a large sum of money there to supply the needs of the destitute. This was right. The sufferers were subjects of a foreign nation. Immediately after the great calamities at Gollad and Coal Creek, our government sent never a cent. Was that right, considering that the sufferers were our own people, and largely taxpayers of our government? Charity is a great thing, but it don't seem to begin at home.—Farm and Ranch.

Grazers or Settlers.

It has come to an issue between the Texas cowboy and the Texas plowboy and the steer must "vamosse the ranch," if the plowboy is ready to stick his iron nose in the sod. The Texas supreme court has decided that as leases expire in West Texas all public school lands shall go on the market for sale to actual settlers. This is a very important decision as affecting the future interests of Fort Worth. We cannot have a great city here until our tributary country is opened for settlement and is occupied and developed.—Fort Worth Union Banner.

Reunion, Canyon City, July 15.

We are requested to publish the following: "The biggest thing in the Panhandle of Texas this year will be the four days U. C. V. Reunion, Cowboy's Association and Fine Stock Show that will open in Canyon City, July 15. Ten counties will be represented. There will be steer roping, steer races, broncho riding, etc., by the best known experts, street parade, cowboy's parade. Some of the finest cattle in the world will be on exhibition. All railroads make a rate of one fare and give 12 days limit which will enable home seekers to see the most beautiful part of Texas. The Plains is noted for delightful weather in summer. The nights are always cool enough to sleep under a blanket.

World's Fair Notes.

Two more rivals of Santos-Dumont, the wizard of the air, have come into public notice during the past week. One of these is a Prof. Barnard, of Lynn, Mass., who has a flying machine all but ready for the contest in the air at the World's Fair. The other is Parvin Wright of Denver, Colo., a mechanical and electrical engineer of twenty years experience. Now that Santos-Dumont has packed up his aerial craft and gone back to Paris from London it is quite probable that daring aeronaut will be kept busy until 1904 perfecting his flying machine for the World's Fair races.

Iowa has more button factories than any other state in the Union, according to the U. S. census report, and this fact prompts an Iowa editor to suggest that it would be more appropriate to erect a "Button Palace" instead of a "Corn Palace," at the Louisiana Purchase Exposition.

E. Morton White, who has been continuously in the employ of the Chicago Columbian Exposition from its inception to the present time, in charge of the books, records, papers and files, which are stored in the vault of the Field Columbian Museum in Chicago, has been engaged by the Louisiana Purchase Exposition, and will go direct to St. Louis about July 1, to assist in organizing the Exposition admission system.

America's grand army of industrial agents, organized under the title of "The Traveler's Protective Association," in annual convalescence at Portland, Ore., agreed to hold their national convention at St. Louis during the World's Fair in 1904.

Constipated Bowels.

To have good health, the body should be kept in laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Cities Cannot Authorize Sunday Liquor Selling.

The court of criminal appeals handed down a most important and far-reaching decision when it affirmed the case of Frank Arroyo, appeal from Dallas county. Arroyo was arrested for selling liquor on Sunday in violation of the state law. He was tried in the county court and found guilty and fined. He appealed the case to the court of criminal appeals, contending that he was operating under an ordinance in the Dallas city charter which provided that saloons may sell intoxicating liquors before 9 a. m., and after 4 p. m., on Sunday, provided that the front door is not opened; he was fined however, for violating the state Sunday law and the case was affirmed. The court held that the legislature did not have authority to grant a city the permission to suspend the state law, and therefore that part of the Dallas charter which confers this right is invalid. The state law prohibits the selling of liquor on the entire day of Sunday, while the ordinance only prohibits selling liquor from 9 a. m., to 4 p. m., on Sunday. The result is that all saloons in cities in the state operating under a similar ordinance will have to obey the state law and thereby keep closed all day, provided the officers want to enforce the law.

State Prohibition Convention.

DALLAS, Texas, June 9, 1902. To the prohibitionists of Texas:—By instruction of the State Executive committee, we hereby call the state convention of the prohibition party to convene in the City Hall at Dallas, at 10:30 a. m., July 4.

Now, on every prohibitionist in Texas would we urge the importance of attending this convention. Never before in all the history of the party has there been such a downright, determined and organized effort to force our issue to the front; and never before has the time been as ripe for a great forward move for the party in Texas. We cannot afford to lag behind the advancing hosts in other states, and to this end we ought to have a large body of representative prohibitionists from every section of the state, in order that we may lay broad, wise plans for the greatest prohibition vote Texas has ever known. Brethren, we can make ourselves felt in this state for good. Come one and all prepared for work. It is expected that Quincy Lee Morrow, of Illinois, and perhaps other noted speakers will address the convention. Don't forget the date, for your cant afford to miss it.

E. H. CONIBEAR, State Chairman.

Chinese May Sneak In.

The people give no uncertain sound as to their wish to have reenacted the Chinese exclusion bill. The act passed by congress is full of loopholes. Under the old law, Chinese or persons of Chinese descent were excluded from the United States no matter from whence they came. Under the law just passed they can be excluded only when such exclusions shall be "consistent with treaty obligations."—Fort Worth Union Banner.

Shooting Boys in the Philippines.

It seems to be admitted now that a high army officer has ordered that all Philippine boys over ten years of age, in the Province of Samar, should be shot because they were liable to fight for their country and for what they believed to be its highest welfare, just as American boys would have done under similar circumstances. To be sure we paid Spain twenty millions of dollars for the privilege of shooting them, and so shifted from Spain's shoulders to ours a war which she was mighty glad to get rid of and which, saying nothing of the loss and suffering of human and animal life, has cost us up to the present moment more than six hundred millions of dollars.

We cannot better express our opinion than in the following closing words of Hon. Samuel W. McCall, M. C., in a recent address to Harvard students, which seems to us to have the same patriotic ring as Senator Hoar's and the Gettysburg speech of Abraham Lincoln: "I confess that I prefer to see our country supreme upon this continent, guarded by the two great oceans and her own invincible strength, remote from the local entanglements and quarrels of the other hemisphere, neither stooping before the proudest nor encroaching upon the weakest of nations, peerless in justice, fitted by her noble qualities and her happy situation to be the moral arbiter of the world. That position is too honorable to her, too necessary to all mankind, to be idly bartered away for the poor privilege of indulging in a vainglorious declamation about the flag, which will lose all its beauty and glory the moment it shall cease to stand for liberty and international justice."

Tax on Babies.

Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few doses of White's Cream Vermifuge, the children's tonic. MONEY FOR GOMEZ

The War Department Furnishes an Explanation of Matter.

SECRETARY ROOT RESPONSIBLE

That Member of the Cabinet Says He is Prepared to Demonstrate His Action was Justifiable.

Washington, June 17.—Secretary Root has assumed full responsibility for the payment of money to Gen. Gomez by Gen. Wood during the American occupation of Cuba, and if Congress asks for an explanation of the matter he stands prepared to furnish what he regards as the most convincing proofs that the payments were dictated by the wisest statesmanship.

At the war department a high official stated the position of the war department in the matter as follows: "The conditions in Cuba two years ago were precarious. Not a Cuban believed that the United States government would ever withdraw from Cuba, and the half-famished veterans of the Cuban army were in a dangerous mood and clamoring for their pay. Gen. Gomez was the head and front of the army and had served the revolutionary cause as its principal leader without having received a cent of pay. Gen. Wood thought, and Secretary Root thought, that Gen. Gomez was entitled to consideration to the extent of a home, which was supplied him and in which he entertained his comrades, and to an income which at least might be set down as a small offset to the money due Gomez from the Cuban republic. That the Cubans themselves regarded the matter in the same light was shown by the passage by the present Cuban congress, among the very first of its acts, of a bill providing a liberal pension for Gen. Gomez."

"The necessity being present, in Secretary Root's view, the only other point was the legality and propriety of the payments. He soon satisfied himself that there was not the slightest doubt on that score. The military government was obliged to assume the responsibility for his disbursements and to exercise his discretion. Gen. Brooke did this and after him Gen. Wood and Secretary Root now fully approve of everything they did, including the payments to Gomez."

It is pointed out at the war department as a curious fact that congress has been in full possession of the information that Gomez had been receiving those payments for no less than two years past. The war department that far back submitted to congress the full statement of all expenses in Cuba and included in the list was a statement of the payments to Gen. Gomez.

UNIONISM IN NEW YORK.

Leaders Ask that it be Recognized in Municipal Affairs.

New York: Resolutions have been adopted by the Central Federated union of this city setting forth that as "labor unionism is the influence which has done most to improve the condition of the workman and has increased the rate of pay to men in the various departments of the city government, and that it is essential that those who toil should be entitled in the efforts to obtain for the working classes a just share of the products of their labor, that the board of aldermen should by ordinance require that all city employees who are engaged in callings represented by organized labor be members of the unions of their respective craft or trade."

Prince Henry Godfather.

New York: Prince Henry of Prussia has made the heir of Mr. and Mrs. Christopher Blume of Newark, N. J., by consenting to act as godfather by proxy of their twins, who were born the day Emperor William's yacht was launched.

Mrs. Blume wrote to the prince, saying that she would like to name the boy twins William and Henry, and asking if he would stand as sponsor. She has just heard from the German consul here that Prince Henry has consented and expressed the hope that the twins may some day do honor to their names. The prince also sent a check for a good sum for each boy.

Found Dead in Her Room.

New York: Mrs. Sarah Estee, former wife of Morris M. Estee, twice candidate for governor of California, and now Federal judge in Hawaii, has been found dead in her boardinghouse in Brooklyn, where she had made her home during the last ten years. Before her marriage to Judge Estee she was Miss Sarah Phillips, a leading society girl of Memphis, Tenn.

BRYAN HOPEFUL.

He Says that at This Time Democratic Chances Are Good.

Kansas City: William J. Bryan was in Kansas City, en route from Lincoln to Neosho, Mo. He called at the city hall to see Mayor Reed. "It is too early yet to say what the issues will be in the next presidential campaign," said Mr. Bryan in reply to a question. "I think that imperialism will be one of the principal ones, judging from the action of the house. The money question will also come up again. As to what part free silver will play I can not say. The Republicans fear to discuss the Power bill. They say that the money question is a corpse, but the corpse has so much life in it that they fear to push this bill before election, and have postponed it until the second session. The trust question will also come up for consideration in the next campaign. "At the present time Democratic chances look good."

A RECORD BREAKER.

Such Promises to be the Trip of Chicagoans to Texas.

New Orleans: R. D. Bowen, the Texan who has been in Chicago several weeks working on the trip of Chicago merchants to Texas this fall, stopped here en route home. He has succeeded. He says it will be the biggest trip of merchants that ever came south.

Head Cut Half in Two.

Wagoner, I. T.: Ed Patten, who was employed at the Missouri Pacific coal chute at this place, was killed. He fell under the wheels of a train, and his head was cut half in two.

SIX KILLED.

That Number Victims of a Cyclone in Michigan.

St. Joseph, Mich.: The storm which swept over the central part of Michigan developed into a tornado in the northeastern portion of the state, where it reaped a harvest of six victims.

Chas. Gardner, living near Enslie; and Ernest Gardner of Stockbridge, were killed by lightning while seeking shelter in a farm barn.

Edward Merrif, in Bay county, was killed in his barn, which was lifted from its foundations and wrecked. On the G. H. Gardner farm, east of Stockbridge, the house was struck by lightning and a 3-year-old son killed, while Mrs. G. Gardner was fatally injured.

In the village of Citka, a frame store building was wrecked, instantly killing J. L. Eads, a village blacksmith.

VENEZUELAN AFFAIRS.

Condition of Affairs in that Republic is Grave.

Willemsstadt, Island of Curacao: Advice from Venezuela received here announce that the revolutionists attacked La Guayra, the port of Caracas. The government forces answered by shelling a suburb of La Guayra from the forts ashore and from the Venezuelan warship Miranda. Only a few women were killed. All the commercial houses at La Guayra were closed the day of the bombardment and the inhabitants were panic-stricken.

Eventually the revolutionists, who numbered about 400 men, were repulsed. They destroyed the bridge at Bopuerron, on the Caracas (English) railroad, and stopped all traffic for twelve hours. They also cut the French cable and the telegraph wires.

The people of Caracas were thrown into a state of alarm and every one began buying provisions, apprehending a siege.

The situation in Venezuela as these advices were dispatched indicated that a crisis was near. A Dutch warship and the German cruiser Falke left Curacao for La Guayra.

NEGRO COLONY.

One to be Formed in the State of New Jersey.

New York: Henry C. White, the last colored man to sit in congress, a member from North Carolina in both the Fifty-fifth and Fifty-sixth congresses, is reported to be at the head of a syndicate which has purchased from Senator Robert E. Hand 957 1/2 acres of land near Burlington, N. J., near Cape May. It is intended to establish a colony of negroes from North Carolina.

The name of the town is to be Whiteboro. Already several avenues have been laid out. Each colonist is to buy a house on the installment plan and is to have ten years in which to pay for it. It is to be an agricultural colony on the same plan as the Jewish colony at Woodbine, founded by the Baron de Hirsch fund trustees.

MURDERED BY MOTHER.

Woman Takes the Lives of Her Five Little Children.

Jackson, Miss.: Mrs. Louis Westrop, a white woman, living near Martin, several miles from here, Sunday afternoon killed five of her children by shooting them to death in an outhouse, and afterward burning the structure over their bodies.

The woman escaped. An investigation found that the women were dead, and upon a drum-head examination held Saturday sufficient facts were secured to warrant the officers in arresting Bear and Jacobs.

Shiners Organize.

New York: The newest thing in organized labor is Greater New York Shoe Polishers' union No. 1, formed with a membership of 800. The new unionists gave their pledge to post conspicuously cards announcing fees of 5c for a "shin" and 10c for a "polish."

Resolutions were passed calling on the city council to have all stands closed at 2 p. m. on Sunday and recommending the establishment of a training school for rising boot blacks.

Minister Dead.

Sherman: Sunday week, at the completion of his midday sermon, Rev. W. R. Grafton, pastor of Cherry Street Cumberland Presbyterian church, was stricken with paralysis, and since then until Sunday morning at 4:15 o'clock, when he died, he has lain unconscious and has not articulated intelligibly. The deceased was 41 years of age.

Constable Held Up.

Denison: Creed Porter, a Grayson county constable, was held up Saturday morning west of Pottoboro by two negroes whom he attempted to arrest for violation of a town ordinance. They relieved him of his pistol and tore the coat off his back, mounted their horses and the last seen of them they were headed toward Denison.

No Bail.

Vinita, I. T.: Benjamin Reeves, the man who recently killed his wife by shooting her in the head and then trying to blow his own brains out, but failed, was given a trial by the United States commissioner and committed to jail to await the action of the grand jury without bail. Two men are now in jail for wife murder in the Northern district.

New Mexico Killing.

Bebillos, N. M.: W. W. Atchison, a saloonkeeper, shot and killed James O'Meara and wounded Will Thayer after a quarrel in Atchison's saloon at San Pedro. O'Meara was bookkeeper for the Santa Fe Gold and Copper Mining company and his home is in New York where his body was sent.

Journalist No More.

FEMALES HANGED

Terrible Double Deed Committed in the Indian Territory.

MOTHER AND DAUGHTER VICTIMS

The Husband and Another Creek Indian Are Suspected of Doing the Heinous Work and Are Under Arrest.

Muskogee, I. T., June 16.—Word was received here of the murder of a woman and her daughter at Okfuska Friday. The woman and her 12-year-old daughter were found hanging from the ceiling of their home dead. A deputy United States marshal left for the scene. It is believed from information furnished the officers that the woman was killed by a man whom she had known and that the daughter was killed to cover the first crime. Both were dangling from the ceiling when found.

United States Marshal Dave Adams and posse, consisting of Sam Scott and John Schofield, arrived in Okmidge Sunday, says a telephone message from there, with Bill Bear and George Jacobs, full-blood Creek Indians, charged with the killing of the Indian woman and her daughter at Okfuska. The two persons refused to talk, but do not seem to be worried over their fate.

The circumstances, as learned from Scott, the father of the murdered woman, are as follows: Bill Bear, Nekose Bill, as he is called in Indian, had made a deal with some real estate man at Muskogee for his land and also the land of his wife and daughter, provided the woman would sign the papers. This the woman, after consulting with her relatives, refused to do, she alleging that Bear only wanted to get the money, have a big time and forsake her. If she would wait a short time her deed would be issued to her and the girl, and they could receive a much larger amount for the portion they were entitled to sell.

When Bear was informed of the decision of his wife, and that his prospects of receiving the Muskogee money had thus vanished, he, it is alleged, fell into a passion and gave his squaw a terrible beating. The assault of Bear on his wife stirred up bad blood between the Bears and the Scotts. After the killing Bear and Jacobs went to his mother's and told them that some one had hung the woman in his cabin and that he was not going to stay about the place. Little heed was taken of the matter, as both of the Indians were drinking.

An investigation found that the women were dead, and upon a drum-head examination held Saturday sufficient facts were secured to warrant the officers in arresting Bear and Jacobs.

TROOPS IN CONTROL.

They Rode on the Electric Cars in Pawtucket on Sunday.

Pawtucket, R. I.: Presence of 7000 armed men sent by Gov. Kimball had little influence except in the central parts of this city Sunday, where the soldiers formed an invincible guard, and in the afternoon rioting broke out anew.

The disorders extended over so great an area that the troops available were unable to handle the situation, and it was said that before the usual car traffic can be resumed it will be necessary to place the city of Central Falls and parts of Cumberland, Lincoln and North Providence under military control. To do this the increase in the number of troops will be necessary.

The tracks were obstructed and cars were pelted with stones by the mobs, not only in the suburbs of the city, but in Central Falls. Missiles struck many of the employes, some of whom were injured, and rolling stock was damaged.

Two sharp earthquake shocks were felt in Oregon.

No Advance.

Memphis: J. T. Harahan, second vice president of the Illinois Central railroad, who was in Memphis, gave out a statement regarding a widely published report in which it was stated that a 10 per cent advance was granted to telegraphers of the country and extra pay for overtime, and that the railroad company also recognized the Order of Railway Telegraphers.

"There was no horizontal increase of 10 per cent made," said Mr. Harahan. "Increases were made in the wages at certain stations where it developed at the meeting of representatives of the telegraphers and officers of the company in Chicago that more pay should be allowed. Overtime was granted under certain conditions where the work seemed to be a hardship on the men. The question of recognition of the Order of Railway Telegraphers was not passed upon."

Chickasaw and Choctaw Treaty.

Washington: The house committee on Indian affairs completed consideration of the Chickasaw and Choctaw treaty and Mr. Curtis of Kansas was authorized to make a report upon the bill. But two changes of importance were made in the treaty, as it was recommended by Mr. Hitchcock, secretary of the interior. One of these relates to the manner of disposing of town lots and the other to the enrollment of the Mississippi Choctaws.

The treaty as prepared by the secretary of the interior contained a provision for the sale of town lots in towns established since May, 1900, at their full appraised value. Much opposition to this was presented by people who have made improvements on town property. The provision was changed so to provide that owners of improvements on town lots may purchase the property at one-half of the appraised valuation. The provision already applies to towns established prior to May, 1900.

FOR RECIPROCITY

President Roosevelt Urges Congress to Pass a Measure.

SAYS IT STANDS ON ITS MERITS

The Chief Executive Regretted Having to Send in a Special Message, but Deemed it a Duty.

Washington, June 14.—After talking with a number of the leaders in congress regarding Cuban reciprocity, President Roosevelt Friday determined to send a message to congress reaffirming his attitude on the subject. The president has earnestly considered the matter for several days, and it is stated that the action of the anti-reciprocity Republican senators Thursday in deciding to hold out against the policy advocated by the majority of the party did not influence the president in deciding to transmit his message to congress.

The president's action, it may be stated from sources close to him, was influenced by the broad question of the duty of the United States to Cuba and of fairness to the new republic. It has been pointed out to the president that his warmest political support is in the section of the country where there is the greatest opposition to reciprocity, the west and northwest, and that he should remain content with the stand he had taken without accentuating his views in a special message. It is known, however, that the president did not hesitate to arrive at the conclusion that he would not let his political prospects interfere with what he regarded as his plain duty. It is further known that he told his friends that he was a source of great regret to him to take a position hostile to the wishes of his warmest supporters, but that he felt that it would not be in keeping with his own nature and his position of chief executive to longer remain silent on this subject and thereby give an opportunity for false speculation as to his attitude.

The president was further led to conclude that the relations of the United States should not at the outset, after its declared purpose toward the island, assume a position contrary thereto and thus arouse the suspicions of the Cuban government as to our real intentions toward it. It is alleged that the positive declaration in his message as to the duty of congress probably will end his active efforts to bring about reciprocity.

HIGHEST PRICES.

Texas Cattle on Thursday Brought the Greatest Figures.

Chicago: A load of Texas cattle sold Thursday, says Drovers' Journal, at \$7, which is the highest price ever paid for straight Texans in quarantine division. This figure was secured by C. C. Fidler of Crosson, Tex., for twenty head of 1287-pound cattle. Mr. Fidler has been shipping cattle to this market for many years, and declares these to be the best he has ever marketed. The cattle were put on feed last November, being given an allowance of five pounds of oil cake per day. In March the allowance was increased a little. They were well graded Shorthorns and Herefords. A few weeks ago a load of Texans sold on this market at \$6.85, but aside from this the previous highest prices were \$6.80 in May, 1882, for straight Texas cattle. In June, 1882, the highest price for Texas cattle was \$6.25.

Hobson Not Retired.

Washington: The house committee on naval affairs decided to postpone until next session the bill for the retirement of Naval Constructor R. P. Hobson on account of defective eyesight. The report states that only the gravest reasons would justify special legislation of this kind, and that with further rest and care Constructor Hobson may be so far recovered as to render the service to the navy for which he is well fitted.

Widow Takes Legal Steps.

Guthrie, Ok.: W. P. Ashley, a prominent citizen of Guthrie, Ok., dropped dead on the streets here and in his pocket was found a will bequeathing all his property to the Northwestern Normal school at Alva. The widow has taken legal steps to have the will set aside, as by its provisions she is left practically penniless.

Bill Signed.

Washington: The president signed the rivers and harbors bill Friday afternoon, after discussing it fully at the cabinet meeting in the morning. This ends all the anxiety about the matter, and the Texas communities so deeply interested in the law may proceed to congratulate themselves.

DEATH PENALTY.

John Jenkins, Convicted of Complicity, is to be Hanged.

San Antonio: John Jenkins, charged with complicity in the murder of Mrs. Jane Barber, Wiley Barber and Levi Barber in Atascosa on Sept. 13, 1899, was convicted here and the death penalty assessed. The case was tried in San Antonio on a change of venue.

Mrs. Jane Barber, aged 80 years, and her two sons, John and Levi, the latter a weak-minded man, were murdered at their home in order to get possession of the property, valued at \$10,000.

B. Qualls, a boy, was first arrested, and he made a full confession, telling where a sum of money taken from the house had been concealed. This was recovered and the arrest of Fred and John Jenkins followed. The conviction of John Jenkins is the sequel.

From the Philippines.
The following extracts are taken from a letter of May 1, from W. A. Wedgeworth, brother of our Prof. V. K. Wedgeworth, and who is located at Nueva Caceres, P. I.:

I have visited every school in my province and traveling here is pretty tough work sometimes. In February and the first half of March, I traveled 450 miles on official business. One day I walked 30 miles over mountains and through gorges and waded half a hundred streams. It rained a good part of the day. At the close of the day's hike I had for supper such food as I could procure in a small Filipino village and that was not the best. But I have enjoyed most of this traveling for I have seen something new nearly every day. I have seen Filipino life in most all forms and have studied Filipino habits and customs. In my visits to the schools in a district "partido," I had to pass around a very large mountain. No mortal man ever saw such steep bluffs which had to be ascended, such gorges crossed, such streams waded! I carried a little pony with me but he became almost useless. He would "slip and slide, and gloom and glide," and fall down and deposit me in the mud till I concluded to walk. Many methods of travel are practiced here, sometimes in canoes, sometimes on carabos, sometimes on ponies, sometimes in army wagons and sometimes afoot; but the schools must be visited.

After I finished visiting schools I had the closing exercises to superintend. The schools of several neighboring towns came together and celebrated the closing of the first year's work. Drills, songs, recitations and music were the order of the day. The exercises were a great success and I was complimented much for the work.

Normal this next thing was a normal institute for the native teachers. I had charge of this institute, ran it entirely, selected the American teachers, arranged the course of study, etc. We did some good work and the school was pronounced a decided success. I was also complimented much for this.

Perhaps you are somewhat interested in educational affairs here. I can give you some data with reference to this province. There are 250,000 people, 40,000 school children, 3,400 enrolled and 2,100 in average attendance in the English schools. Thirty American teachers are in this province and 45 Filipino teachers. These teachers are in 20 towns. Of course other towns have Filipino teachers but they are not included in the 45. There are 19 night schools. These are for adults and are not generally largely attended. 15 of the American teachers are ladies. Teachers have had great need of tact and judgment but with these a teacher can be successful. In some cases the paders have been troublesome and have kept the children out of school, but generally, if the teacher is prudent and tactful, he will get along all right.

The teacher here need not bother about politics. He need not concern himself about the policy of any party so far as his work is concerned. He need not worry about the Declaration of Independence nor the Goddess of Liberty, nor the mistakes of Ingersoll, Moses, the republican party nor the devil. All he need do is to teach English, live the right sort of life, teach the natives truthfulness, honesty, patriotism, cleanliness and industry. If the teacher does these things he will fulfill his mission and will accomplish much good.

So far as politics here are concerned, the Filipinos have too much liberty. The governor of a province is elected by the council members of the organized pueblos, whereas he should be appointed. Being elected he is liable to be a sharp politician who is in no way fitted for governor, or a native who really may not have the ability nor inclination to govern correctly.

The Provincial Supervisor, who has charge of the Government property in a province and who looks after road improvements etc., is appointed. The Provincial Treasurer is also appointed and the officers in the department of education. These can do their duty fearlessly, but the governor may be influenced by his interest in the future election. He should be appointed. The presidents and other municipal officers of the towns

You had better get ready if you are not. We can fit you out in good style in suits, hats, shoes, shirts, ties and men's furnishings, we need not say at a bargain, you can say that when you see our goods. For ladies we have some special bargains in wash skirts, waists, muslin underwear, in fact, all our ready made goods for ladies. In our entire line of dry goods we have bargains, shaping our stock for change of season.

Keep your eye on us in groceries. This department of our business continues to grow. Our high standard of goods such as Swift's meats and lard, and White Swan brand canned goods and flour, with right prices, do the work. Another car of our famous flour and meal just received. Keep coming we will do you good.

are elected by the certified electors of the town. The presidents of towns have many responsibilities and should be men of ability. These should be appointed by the Provincial Board, and if a pueblo should have no native capable of acting as Mayor, an American should be sent to the town to act as mayor. This country needs many improvements. First, good roads, then good sanitation, good houses, good schools etc. These improvements need guiding hands and must have them.

You fellows back there need not worry about whether the Filipino is capable of self government, for he is not. He may be able to have some sort of government but it would be a poor one. When our own people can scarcely govern themselves, how can men expect these people, who have been in the dark so long and in the light so little, to govern themselves successfully.

The United States government, now that it has begun here, should pacify all these people at once. It should give them the government they need, which I have just outlined, they should make the government strong and keep enough soldiers over here to enforce it, they should arrange tariff laws so as to work to the advantage of these people and the people of the U. S., they should make laws that would lead to the development of the country. In a word they should protect these people, educate them and use them. If they become capable of self government, which will not occur before fifty years, then it will be time enough to consider that phase of the question.

There is a vast difference between our ancestors before and at the time of the Declaration of Independence. We were the same people as those who were oppressing us, we were members of the first and best race, but it is not so here. These people are not members of the leading race neither have they had opportunities that the leading nations have had.

We need not worry ourselves about the right to do these things, so long as we protect and aid these people.

I have had fine luck till recently. I have had two or three financial misfortunes which have cost me over a hundred dollars, for instance, I was forced to buy a horse and it died, losing me nearly a hundred dollars. But my salary has been raised to \$1,500 a year to begin April 1. I can make money on this salary. But one thing I am sorry for is that I felt honor bound to resign my position as Deputy Division Superintendent of Schools. The Division Superintendent above me is a man of so little backbone and so little integrity and so little competency that I cannot remain in my position under him hence I sent in my resignation a month ago. It has not been accepted yet. The Division Superintendent may be removed, I rather think he will. He and I are going to Manila in a few days to testify in his case. My testimony will not aid him any. I may lose out myself but nothing bad will befall me.

Cholera is all over the island now. More than 100 have died here. I am a sanitary inspector. I volunteered to do this as did many other Americans here. Cholera is on the decrease now. I am very cautious.

Hot Weather Weakness.
If you feel fagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. These symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels and impart natural activity to the liver. This, Herbine will do; it is a tonic, laxative and restorative. H. J. Freagard, Prop., Grand View Hotel, Cheney, Kan., writes: "I have used Herbine for the last 12 years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kan. 50c at R. D. Ramsey's."
