REDUCING the tariff on trust-made articles as a remedy against trusts is now being advocated by President Roosevelt with as much or more vigor than by the democrats—and in just about as good faith.

The liquor dealers are losing out in nearly every contest now. Their scheme of buying the newspapers and a few officials has been exposed, but their next place of operation will be with the legislature when it meets. Keep your eye on them and see.

Last Sunday's Post-Dispatch contained 27 columns of advertising. It takes advertising to build up a city like St. Louis with its great mercantile establishments. The enterprising merchants there take whole pages at enormous prices, not only in one, but a half dozen or more papers and the business that follows is building them up vast fortunes.

Such extensive trouble as the strike of the eastern coal miners is creating public sentiment in favor of public ownership of mines as well as railroads, though the daily press is not giving publicity to that fact. However, a weekly paper says a monster indignation meeting was advertised by the Boston Traveler to meet at the famous Faneuil Hall, Sept. 8, to express the sentiment of the people for a settlement of the coal strike which was raising the price of coal beyond the reach of the people and incidentally to give a boom to the democratic ticket. Speakers addressed the great multitude and put and carried a resolution for the public ownership and operation of the mines, much to the astonishment and chagrin of the democratic politicians who had prepared the meeting. The result was a great surprise for those who had planned the meeting with a cut-and-dried program. Editorially speaking of the matter, the Traveler, that had provided the meeting, said: "Early in the meeting it became evident that those doctrines which are commonly labeled 'socialistic' were popular with the audience, and every reference made to government ownership of the mines was cheered to the echo. Even in the letters received by The Traveler from well known conservative citizens there is plainly a tendency in that direction. The extent to which these ideas have tainted the community was certainly revealed by last night's meeting. This feeling finally led to the proposal of additional resolutions, much more radical than the first, which were accepted with the most intense enthusiasm. They are as follows: 'Resolved, That we, the people of Massachusetts, in mass meeting assembled in Faneuil Hall, the historic cradle of liberty, on this September 8, 1902, demand the government ownership and operation of the coal mines as the best and surest means of ending the present strike in the anthracite coal regions and of securing justice and liberty to the mine workers and of forever preventing a recurrence of all such deplorable conditions.'

World's Fair and Press Day.
The newspaper men of Dallas have completed all arrangements for the entertainment of the newspaper men of Texas, Indian Territory and Oklahoma at the State Fair on "Texas World's Fair and Press Day," Sept. 27. The headquarters for the press will be at the Dallas Commercial Club, over 289 Main street. Visiting newspaper men are requested to call there upon arrival in the city. Members of the reception committee will be there and also at the fair grounds, and will do everything possible to promote the pleasure of their guests.

Governor Sayers and his cabinet have accepted the invitation to be there for that occasion. The Governor will go from Dallas to St. Louis with the Texas World's Fair Commission to participate in the ceremonies connected with the dedication of State and Territorial building sites.

The trusts have demonstrated that the old aphorism that you can't get something out of nothing is false. By the watered stock dodge they get millions out of nothing.—Ex.

Saddles It On The Paper.

There are few men in any other business who will risk the pecuniary loss in agitating a public question or in exposing some shyster that a newspaper man will. It is not uncommon for some business man to bring in some pointed article of public interest, but in which some individual is severely criticised, and ask that it be published. When told that it would be done with pleasure if he would sign his name to it, he throws up his hands and says, "No, I can't afford to do that! It would hurt my business." But the newspaper man's business is unworthy of consideration, of course. Why, only a short time ago one of our correspondents wanted to throw up his job because a slight criticism in a report had caused some censure. A person so sensitive as that will never make a newspaper man. A paper in east Texas gives his experience on this line thus:

"I suppose my experience has been the same as that of every other editor. People as a rule have an idea that the editor goes to his office in the morning, tosses his feet up on his desk, lights his corn cob pipe, rears back and tries to think of somebody to 'roast' next. I am sure there is not one editor in a thousand who carries on in the way I describe, but they all come in for a certain amount of condemnation on that score, however well directed their shafts may be when once aimed and launched.

"It may sound somewhat startling to the general public, but all editors of experience, I think, will bear me out in saying that it costs an editor money to write a criticism, no matter how deserving the person criticised may be of a public exhortation. I can truthfully say that I have never written a line of criticism against any person in whatever county I happened to be running a paper without suffering a cash loss as a direct result. Those whom you criticize and their friends quit doing business with you, and those whom your criticism pleases remain silent. No, sir; an editor thinks long before he criticizes, and when he does break loose and jumps on somebody he does it from a sense of duty to the public, and at a direct financial loss to himself that in ninety-nine cases out of a hundred is heavier than the loss of his supposed victim, and the only satisfaction he gets out of it is a knowledge that the person impaled deserved exposure for wrong-doing or incompetency, and that, as editor, it fell to his lot to officiate at the exposure, and he did his duty.

"You may praise a man 364 days in the year and if you criticize him, no matter how justly, on the 365th, you have made an enemy."

The Rush for School Land.

The demand for Texas school land by home-seekers has grown so great that "Oklahoma Rush" scenes are repeated whenever the leases expire on large bodies of land now held by the cattlemen. Something of this may be learned from the Big Springs Enterprise, which says:

"The next land rush will be for fifty-odd sections which come on in Dawson county, in one of the Slaughter pastures. This comes on the 8th of October, and already some of the applicants have taken their places at the county clerk's office prepared for a long wait. While the last rush was somewhat lively and spirited, this October rush is destined to outshine all former ones. Sheriff Baggett has posted notices at the court house to the effect that henceforth the outer doors of the court house will be closed from 8 p. m. to 8 a. m., and that no one but county officials will be allowed to enter during those hours. County Clerk Dent has also decided to transfer the scene of battle from the hall door to the west window of his office around which the clans are already gathering. It is hoped that these precautionary measures will remedy matters to some extent but the only serious remedy lies in a change of laws regulating the filing of applications."

It is said that O. W. Gillespie paid Mr. Riddle two thousand dollars to get out of the race for congress. Of course he paid it upon the pretense of expenses of the campaign. It will cost Mr. Gillespie the salary of one term to get in.—The Watchman.

Progress of Majority-Rule.

We clip from a circular, under the above head the following: "Organized labor in Texas has determined to secure Majority Rule. The committee on Direct Legislation established by the State Federation of Labor recently issued an address to the central labor bodies of the state, asking each to appoint a committee of three to co-operate with the state committee, and to form, with it, a general committee. The general committee met at Waco on August 25, and took part in a conference of persons interested in the establishment of Majority Rule.

"The conference agreed upon a plan of campaign and issued an address to the people of the state. The program is to form a strictly non-partisan organization, with a central committee, to which every organized commercial, agricultural, or industrial body in the state is invited to send a representative. The address has been published in many of the Texas papers, and 20,000 copies have been printed for circulation. Cards for voters to sign are also being circulated. A pledge in writing will be submitted to every legislative candidate in the state—congressional candidates included—binding them, if elected, to vote for the establishment of the Optional Referendum and the Initiative. John R. Spencer, of Waco, chairman of the direct legislation committee of the Federation of Labor, is in charge of the work.

Another circular says, we hope and believe that few, if any, of the candidates will deny this demand for a chance to vote upon the question of terminating the rule of the few. The history of our country shows that wherever this issue has been brought into the campaign and made a live issue, practically all the candidates have agreed to submit a constitutional amendment and have fulfilled their promises. The party leaders and the candidates have realized the peculiar nature of the situation, and, not wishing to retire from office, have bowed to the inevitable. In South Dakota, Utah, Oregon and Nevada the legislatures have acted with practical unanimity. In Illinois at the last session of the legislature the House passed a bill authorizing one per cent. of the voters of the state to propose questions of public policy and have them voted upon. This received a unanimous vote. In the Senate the percentage was raised to 10 and the bill passed by a large majority.

In Detroit recently the council by a unanimous vote installed a rule of procedure for the optional referendum as to franchises for monopolies such as street railways, public lighting, etc. Last spring in Chicago a majority of the aldermen elected were pledged to a similar system of Majority Rule as to franchise questions.

These examples demonstrate the great success of the voter's demand for the optional referendum and the initiative—a termination of the rule of the few. The practically unanimous sentiment of the voters caused the candidates to promise that, if elected, they would vote for the proposed system. They recognized that should they openly oppose Majority Rule they could not be elected. The same condition will exist in this district. If a candidate refuses to promise to vote to terminate the rule of the few he can not be elected. Some of the ways whereby the voters will be aroused, if necessary, are as follows:

To begin with, it is to be noted that Majority Rule, as we have said, is a fundamental tenet in all the parties. In every election each party puts forth a series of proposals as to legislative policies—a platform. These policies are discussed and the voters are asked to decide by their ballots which of the policies shall prevail. The candidates promise that, if elected, they will carry out the policies that are approved by the majority.

Such being the case, the candidate who hopes to be elected must not openly oppose the doctrine of Majority Rule nor openly oppose the system for putting in into actual operation—the optional referendum and the initiative.

Furthermore, all the parties in this state, except the republican party, are expressly pledged to the adoption of the referendum and initiative. The national platform of the democratic party contains such a demand, and this platform has been affirmed by practically all the democratic state conventions. Many of the democratic state plat-

forms contain an express declaration for the referendum and the initiative. And the democratic congressional campaign book contains 5 pages as to the practicability and desirability of Majority Rule in combination with the party system.

As to the republican party, in no state has it conducted an open campaign against the optional referendum and the initiative. On the other hand, republican South Dakota has the system in operation and the party in power does not declare against it, thereby approving it. In republican Oregon the republican state platform of 1900 and 1902 advised the people to install the system. In republican Illinois the unanimous sentiment was as shown above, and recently Senator Cullum wrote the Referendum League of Illinois, saying:

"I note the purposes of your league, and think very well of its proposed work. If by such action corrupt legislation in our state can be prevented, it will be a great thing, as one would certainly think from all accounts given out that our state legislators are becoming very unfit and less controlled by the voice of the people."

Albert J. Hopkins, a republican congressman of Illinois who was nominated by the republican state convention for United States senator, is openly in favor of the referendum and the initiative, and has contributed funds to help get up the petition of 150,000 names whereby a referendum is to be taken in Illinois next November on the question of adopting the Majority Rule system. And the present republican Governor signed the bill under which the referendum vote is to be taken. The bill was passed by a republican legislature.

In republican Massachusetts the Governor vetoed a bill last year (June 18, 1901) because there was no provision for a referendum vote. He (Governor Crane) said:

"Previous legislatures have referred to the city of Boston for its acceptance of rejection acts relating to rapid transit. And the results of the ballots so taken show that the voters have acted intelligently and with full understanding of the issues involved. * * * I see no good reason why these precedents should not be followed in a bill so important and far reaching in its consequences to the citizens of Boston as is the one before me."

The republican Governor in South Dakota (Governor Herold) says: "Since this referendum law has been a part of our constitution we have had no charter-mongers or railway speculators, no wild-cat schemes submitted to our legislature. Formerly our time was occupied by speculative schemes of one kind or another, but since the referendum has been a part of the constitution these people do not press their schemes on the legislature, and hence there is no necessity for having recourse to the referendum."

The republican Governor of Oregon (Governor Geer) advised the people of Oregon to adopt Majority Rule. He said:

"If the referendum amendment is adopted by the people, and made use of after adoption, it will be helpful all around as a restraining influence over careless legislatures. Even if not often brought into requisition, the fact that it is a part of the state constitution, ready to be used as a check against ill-considered legislation at any time, will justify its adoption. It may not be needed now any more than it was 100 years ago, but there have often been times in the past when even 'Our Fathers' could have been wisely checked by this most wholesome reservation of the rights of the people."

Both of the republican members of the United States senate from Oregon approve the system.

In Switzerland where the people have experienced for more than a quarter of a century the benefits of the optional referendum and the initiative the sentiment is that—

"The repeal of the initiative and referendum would not be tolerated for an instant; the Swiss yeomanry would fight and die in its defense as willingly as they would resist a foreign invader who sought to rule over them." (Statements of Mr. Wilson, a Swiss official.)

With such a basis who can doubt the ability of the Majority Rule forces to conduct a campaign in the district that will effectually arouse a sentiment that will stand for liberty and the defeat of the

candidates who are known to champion the rule of the few? Some of the ways in which we propose to work, if necessary, are as follows:

The report of this committee will be prepared September —. If a candidate has declared against Majority Rule there will be circulated for signatures an agreement by the voters that they will vote only for such candidates as are openly committed to Majority Rule. In this way enough votes can be turned in a few days to assure the defeat of the monopolists' tool.

Anarchy in High Places.

The St. Louis thieves, who have been robbing the people under the shield of official position, now threaten the assassination of the men prominent in ferreting out the crimes of the gang. We have yet to see the first old party newspaper of either party, to brand these official thieves and would-be assassins as anarchists. Were they laboring men they would have been hunted down and jailed as anarchists long ago. The truth is that the official corruption that has been brought to light in St. Louis permeates our entire governmental structure from the nation's capital down. It is only brought to public view where there is an independent political sentiment so strong that the old party politicians and their newspapers cannot suppress it. The oppressions of the trusts and money combines are but as a feather's weight compared with the oppressions and wrongs imposed upon the people by the political rulers.—Dalton, Ga., Herald.

From Clarendon College.

This week finishes the first month of the college work. Little time was lost in classifying students and arranging the order of recitations and as new students come in they quickly fall into line and all are settling down in earnest to the year's work.

The work that is now being done includes the common-school and high-school branches of course, but many of the text books used in the high-schools of the state are not sufficiently exhaustive. After the pupil has finished Sutton & Kimbrough's Arithmetic, he is required to finish Robinson's New Higher Arithmetic, a book that is complete in every respect, and one which thoroughly equips the student for the war of numbers. When students have finished Wentworth's New School Algebra they then take Robinson's University Algebra, which is the equal of any Algebra in any school. Our class this year began at Radical Quantities, and has finished thirty pages during the month. The advanced class in Geometry is in Solid Geometry, and is progressing nicely. There is also one class in Trigonometry. The Latin classes range all the way from the beginners to Cicero. The class that finished the beginner's book last year is reading Viri Romae and reviewing. The Caesar class is battling with Caesar's account of his war with the maritime countries of Gaul. The advanced Latin class is studying Bingham's Latin Grammar and reading Cicero's Orations against Cataline. This class has commenced to thread the mazes of the third declension. There has been no Greek class organized as yet, no one desiring to study it. A German class was organized last week and also a class in Bible History. Other work will be written of later.

Old Geronimo's Foot Race.

Five thousand people attended the fair and race meet at Colcord park last week. There was a double racing program owing to the interference of rain day before. The principal feature of the program was a quarter of a mile dash between Geronimo, the old Indian warrior, who was recently released from Fort Sill and came here under guard, and Captain Drennan, who rode the plains with Kit Carson and who has a record as an Indian killer and fought against Geronimo for seven years. Geronimo won the race. He is now 80 years old, while Captain Drennan is past 73.—Ex.

Tom Johnson's Special Privileges.

"The existing struggle is not between capital and labor; it is between labor and monopoly, between capital and special privilege. It is monopoly and privilege which must be dealt with before any just solution can be reached.

"Democrats as well as republicans have assisted to place iniquitous laws upon the statute books, by which special privileges are allowed and monopolies are protected. In national, state, county and city offices men have built up by man-made laws these special privileges which you cannot enjoy, and for which you have to pay.

"President Schwab, of the steel trust, estimates the value of the trust's property at \$1,500,000,000. Of this amount only \$500,000,000 covers all the tangible property, such as machinery and buildings. This leaves a billion to cover the value of the fields of ore and coal over which the trust exercises a monopoly, nature's storehouse, which God has given to all.

"This trust escapes each year the payment of \$10,000,000 of just taxes. Who is it that makes up this deficiency, who is it that pays for the special privileges enjoyed by the trust? It is the farmer and the small land holder who bear the burden. And in this I am not talking politics. It comes nearer to being religion, because I conceive it to be in accordance with the teachings of the Saviour to advocate the establishment of full justice between man and man. And I care not which party it is that advocates the establishment of such justice. I care not whether the man who advocates such measures has his name under the rooster or under the eagle. He is the man to vote for."

OPERATION NEEDED

President Had to Submit to One While at Indianapolis. DUE TO PITTSFIELD ACCIDENT He Was Taken to a Hospital, and After the Surgeons Attended to Him Departed for the National Capital. Indianapolis, Ind., Sept. 24.—President Roosevelt's western trip came to an untimely end in this city, caused by the accident at Pittsfield, Mass. He was found to be suffering from a swelling in the left leg between the knee and ankle that required immediate surgical attention, and instead of being taken to the train to continue his journey to Fort Wayne and Milwaukee, he was conveyed to St. Vincent's hospital, where he was operated on. The operation occurred at 3:35 o'clock and lasted only a short time, when he was taken to a private room in the hospital to rest. After taking a light luncheon at 7:50 p. m., he was conveyed on a stretcher to his train, which had been backed on the "Y" near the hospital, and at 7:50 o'clock the train left for Washington. The first intimation that anything was wrong came in the form of rumors to the great crowd that was patiently waiting around the Columbia club and the soldiers' and sailors' monument for the president to appear. It was about 2:30 o'clock, half an hour of the time set for the president to leave the city, that a few of the favored ones in the crowd received intimations that the president was sick, and that the rest of the trip would probably be abandoned. These statements were promptly denied as fast as they gained currency, but soon the rumors began to take a more serious character. The president was driven to the hospital. He was taken to the operating room at once. He walked to the operating table alone, and as he lay down he remarked with a smile: "Gentlemen, you are formal. I see you have your gloves on." This was a reference to the antiseptic gloves of the surgeons. "Mr. President," said a surgeon with a smile, "it is always in order to wear gloves at a president's reception." This caused the president to exclaim: "Good! Well said." The operation began without delay. The pain caused the president to mutter several times in a low voice, but he said nothing that was distinct except to ask for a glass of water, before the needle had been removed. After the operation was over he made several laughable remarks concerning trivial matters and asked if he would be allowed to use his leg long enough to walk upstairs himself. "You will be hauled upstairs in a wheeled ambulance," said the surgeon. At 7:40 p. m., a white blanket was thrown around him and he was placed on a hospital stretcher and escorted by a company of infantry, was carried to the car a block away by four negro porters from the train. He had goodbyes to the nurses as he was carried out of the hall to the elevator and thanked them for their kindness. He did not talk during his trip to the car. Senator Fairbanks, Gov. Darwin and other prominent gentlemen were at the train to bid him good-bye. CAUSE OF OPERATION. It Was Owing to the Accident at Pittsfield, Mass. Indianapolis, Ind.: The swelling of the president's leg which made an operation necessary was occasioned by a bruise he received at the time of the trolley car accident at Pittsfield, Mass. Besides being injured in the face and across the eye, the president received a blow upon the inner part of the leg, between the ankle and knee, but, true to his characteristics, he paid no attention to it, deeming it a slight bruise, and worth talking about. During several weeks he took no heed of it, but it began to pain him so that it began to force attention. After starting on his western trip he determined that perhaps Dr. Long, who was aboard the train, should examine it. The doctor did so and pronounced it to be a serious matter. When in Detroit the doctor declared that something would have to be done. French Tragedy. Paris: A sensation has been caused in financial circles here by the publication of a dispatch from Etretat, near Havre, announcing that a Parisian artist named Sydon fired several shots Monday with a revolver at M. Davit, the well known stock broker of Paris, who was walking along the sea front with his wife. Mr. Davit died on the spot. The motive for the murder is not known. President addressed war veterans at Detroit. Demands Granted. New York: Delegates of the Piano-Makers' unions have reported to the Central Federation union that 1500 piano-makers had been granted demands for a nine-hour day and 10 percent increase in wages by twenty-three firms. Spoke of Indiana. Kokomo, Ind.: The president was greeted here by 5000 people and a detachment of the 160th Indiana State Guard, who formed his escort to the stand. The children of the public schools were drawn up along the line of march and waved American flags as the president passed. The president, who was introduced by Mayor Brown, thanked the people for coming out to greet him and said he was glad to be able to stop at Kokomo, and spoke of the great natural resources of Indiana.

STABBED WITH SCISSORS.

A Prominent Citizen of Waxahachie Wounded Himself Seriously. Waxahachie: Col. J. C. Gibson, one of the oldest and most highly respected citizens of Waxahachie, lies at his home in a critical condition as the result of self-inflicted scissor wounds caused by the effects of an accidental overdose of morphine. The gentleman, who is 74 years of age, has been ill for some time, and early Tuesday morning, through mistake of the size of the morphine tablets, swallowed an overdose of the drug. The peculiar sensations resulting caused him to remark to the family that he believed he had taken too much of the morphine. Physicians were summoned and after hard work and the administering of antidotes he was soon improved, but still suffered from the effects. Tuesday night, as the only other person in the room went after a drink of water, the patient got out of bed and procuring a pair of scissors, stabbed himself on each side of the jugular vein, inflicting severe wounds. He also lacerated his chest and side with many cuts. For a short while he was thought to be dead, but later rallied, though weak from the excessive loss of blood. DENISON FAIR. Paid Attendance on Opening Day Much Larger Than Last Year. Denison, Tex.: The fourth annual fair opened here Tuesday with a paid attendance much larger than the opening day last year. The poultry show this year is better than it has ever before. The poultry department is in a new building separate from the other exhibits this year and the building is filled with choice fowls. The livestock show is better than usual and the agricultural exhibit splendid. There is no better object lesson on crop diversification than that shown at the fair, everything that is grown in this state being on exhibition and there is nothing that can be grown in a temperate or semi-tropic climate that is not shown. The art exhibit, the art needle work, the culinary department, etc., are filled with samples of the work of the ladies of north Texas, and the showing is the best yet made at this fair. Katy Wreck. Denison: The Katy had a bad freight wreck near Woodbine Monday night. The engine and seven cars loaded with stock went into the ditch. S. E. Conway, brakeman on the train, had several ribs broken and his back badly sprained. He was taken to Gainesville for treatment. Over 100 head of cattle were killed or crippled. The cattle were shipped from Henrietta and were destined for the eastern markets. Filed a Motion. Austin: City Attorney Allen Sanford of Waco Tuesday filed a written motion in the court of appeals, Third district, at Austin, to dissolve the injunction which that court granted a few days ago restraining the city council of Waco from taking further impeachment proceedings against Mayor J. W. Riggins, while the case is pending in the court. The motion was set down for a hearing Friday morning at 9 o'clock. Six footpads held up and robbed a lady at Chicago in daylight. No Romance for Him. Lake Charles, La.: A double elopement was frustrated here Monday night. The quartette were on a train bound for Beaumont, but were taken off by a hard-hearted deputy sheriff on a telegram from the girl's father. The eloping quartette were taken home by him Tuesday morning. He said they could get married at home if they liked, but he set his face against romances. Three Children Cremated. Navasota, Tex.: Monday afternoon the residence of Allen Taylor, colored, residing near Anderson, in this county, was destroyed by fire and three of his children, aged 3, 6 and 8 years, were cremated in the building. The children were left alone in the house, and it not known how the fire originated. Birmingham's Big Blaze. Birmingham, Ala.: The fire which broke out shortly before 1 o'clock Tuesday morning in the clothing house of Louis Saks, at the corner of Nineteenth street and First avenue, burned until 4 o'clock, destroying their three-story building and its contents. The total loss on building and its stock is \$240,000, with \$190,000 insurance. Bishop Moore predicts China will become a Christian nation. Dan Patch paced a mile at Reading, Mass., in 1:59 2/5. CONVICT RODE AWAY. Better Mounted Than the Guard and Escape Was Easy. Brenham, Tex.: Road Commissioner Parker had an exciting experience with an incorrigible member of his county convict force Monday. A farmer, living near rode up to the camp and engaged the guard in conversation. One of the convicts, who has been very refractory lately, saw his opportunity, unloosed the hitch rein, sprang astride the horse and rode away at full speed. The guard, who had nothing but rifles in camp, saddled one and went in pursuit. He soon saw the uselessness of further pursuit on the mule and returned to the camp for reinforcements and a faster mount. This is the same man who appeared in the district court last Thursday and made an argument that induced the jury to return a verdict of not guilty on a charge of burglary.

ARREST IS MADE.

Grandson of the Late Head of the Mormon Church APPREHENDED IN CONNECTICUT William Hooper Young Will Have to Stand Trial for the Alleged Murder of a Woman at New York City. Derby Conn., Sept. 23.—William Hooper Young, grandson of Brigham Young, for whom the police of New York have been searching in connection with the murder of Mrs. Ann Pulitzer, was put in the Derby jail. He was arrested Sunday night by the local authorities and was fully identified. He consented to return to New York without requisition papers. In the guise of a tramp Young had been wandering about the country for several days, when he was arrested by the Derby police on suspicion. Although his description corresponded closely with that sent out by the New York officers, the prisoner at first stoutly denied any connection with the murder, and even when he was confronted with a man who was formerly a fellow workman he still denied his identity. But Sunday night upon the arrival of a man with whom he was intimately acquainted, the prisoner acknowledged that he was William Hooper Young. It was to Mac Levy, a physical culture instructor of Brooklyn, and Detective Sergeant Edward Hughes, of New York, that the prisoner admitted his identity. Levy and the detective arrived here Monday night and were at once conducted to the prisoner's corridor in the jail. The suspected man, who up to this time had insisted that he was Bert Edwards of Portland, Ore., was taken from his cell and met Levy in the corridor. "Hello, Hooper," exclaimed Levy as soon as the prisoner appeared. There was no response and no sign of recognition from the suspected man, but when Levy again saluted him he said, calmly: "I don't know you." "Of course you know me," said Levy, and placing his hand on the shoulder of the prisoner, he spoke in a low tone for several minutes. The prisoner said: "You should be sure of your identification. This is a terrible crime for which I am held." Then at the command of one of the officers Young began to divest himself of his clothing that Levy might complete his identification, but before he had finished he was led back into his cell. Mac Levy and Detective Sergeant Hughes accompanied him. There the officer told the prisoner formally the reason for his arrest and the nature of the crime of which he is suspected. The prisoner then for the first time admitted that he was William Hooper Young. He talked with the officer regarding his return to New York, and expressed a willingness to go back at once without requisition papers. Clarksville, Tex.: Martha Latimer, an old and highly respected colored woman, dropped dead at her home in the southern part of the city Sunday afternoon. She is supposed to have died from heart disease. Captured Seven Fords. Manila: Up to Sunday the force commanded by Capt. John Pershing of the Fifteenth infantry, operating against Mindanao, had met with slight resistance in the Maclin country and had captured seven fords, killed twenty-five and wounded twenty Moros. There were no American casualties. Capt. Pershing's courier reached Brig. Gen. Samuel S. Sumner at Camp Vicars Monday. RIOTOUS TIMES. Two Hundred Strikers Take Possession of a Breaker. Scranton, Pa.: A crowd of 200 strikers, mostly foreigners, ransacked the quarters occupied by forty men employed at the Raymond washery of the Ontario and Western company while the men were at work and then meeting with the men as they were returning home drove them back to the washery. The mob then returned to the colliery proper, drove out the engineers, firemen, pumpmen and guards and took possession of the breaker. The plant of the Crescent Electric Light company, which is supplied with the steam from the breaker, had to shut down and the whole region was left in darkness. In the attack on the breaker two men were shot. Diplomatic relations between Great Britain and Venezuela are strained. THE MARKETS. Quotations of the 22d: St. Louis—Grain: Wheat, No. 2 red 56 1/2c; corn, No. 2, 57 1/2c; oats, No. 2, 29 1/2c. Cattle: Receipts, 5000, including 3800 Texans; Texas and Indian steers, \$2.65@4.80; cows and heifers, \$2.45@3.25. Chicago—Cattle: Receipts, 22,000; Texas fed steers, \$3.00@4.00. Sheep: Texans, \$3.10@3.70. Kansas City—Cattle: Receipts, 20,500, including 4200 Texans; Texas and Indian steers, \$3.10@2.80; Texas cows, \$1.85@2.55. Sheep: Texas clipped, \$2.55@3.50. Dallas—Cotton: Middling, 7.87 1/2c; top price, 8c. Grain: Corn, shelled, 55c; oats, 42c; wheat, No. 2, 70c. Hay: Johnson grass, new crop, \$7.50@8.50; prairie hay, same. Cattle: Fat cows, \$2.40; good grain fed steers, \$2.75@1.50. Hogs: Good 200-pounders, \$6.75@6.95.

WICKED WOMAN.

Negroes Relieves an Engineer of Over Three Hundred Dollars. Conroe, Tex.: An engineer on the International and Great Northern railroad was relieved of \$390. The negro woman accused made good her escape. After the matter had been reported by the engineer to the authorities Deputy Sheriff Hargraves went to the house where the woman was stopping. When the officer demanded admission at the door of her room she asked permission to dress before admitting the officer. While he was kindly respecting her wishes in the matter, waiting at the front door, she was making her escape through the back door, so that when he finally forced his way into the room the woman was gone. The name of the engineer was not learned, but it is said that he had just cashed a check at Palestine and was taking the money to his wife in Galveston. When the officer and his associates appeared at the woman's house she was exhibiting to her associates some costly articles of dress goods just purchased. None of the money was recovered, but the dress goods are in the hands of the sheriff. ORIGINAL METHOD. A Young Man Charged With Impersonating an Officer. Marlin, Tex.: The officers of Marlin have under arrest a young man charged with the offense of impersonating an officer. The system employed was new and quite unique. Standing about the streets a young boy would be found alone. He would be arrested on some pretended charge of violating the law, and afterward a proposal to the youngster to release him on payment of some small amount—50c, \$1—would follow. It was principally country boys who were thus imposed upon. It is not known how long these operations continued in the city or how much was obtained. He was arrested Monday morning while proposing to a negro woman to release her boy from custody upon the payment of 50c. Was Accidental. Paris, Tex.: Wes Wilcox of this city was accidentally killed by Dave Wake at the latter's home, seven miles northeast of town on Pine creek. They started to go squirrel hunting, and while Wake was getting his gun down it was accidentally discharged. The load took effect in Wilson's leg near the knee, tearing a hole in it. Wake placed him in a conveyance and started to Lenoir with him to secure the services of a doctor, but he bled to death on the road. Famous Lion Dies. Hobart, Ok.: Nick Wallace, the great man-eating lion, who had a record of eleven men and two horses, died in Hobart, Ok., on Sept. 16. He was the property of a circus, which was in Hobart at the time of his death. Nick Wallace was the oldest and largest lion ever taken in captivity, and during his twenty-five years of confinement has traveled throughout the United States, the property of various circus men. Boy Actor Has Leg Broken. Detroit, Mich.: One of the boy actors of Gentry Bros.' dog and pony show had his leg broken while wrestling with one of the negro boys with the show. McConville's Funeral. Sherman: The burial of John C. McConville took place at St. Mary's cemetery Monday morning. The deceased had always been a liberal and enthusiastic patron of all progressive moves in musical circles and the weather unfortunately prevented a pretty testimonial of esteem which the musicians of the city had planned. The obsequies were conducted under the auspices of St. Joseph's Branch Catholic Knights of America. Some of Trunk's Contents. New York: When the trunk of William Hooper Young, for whom the police of the whole country were looking in connection with the murder of Mrs. Anna Pulitzer was opened at police headquarters, the following items were found in it: a sword-shaped stiletto with a blade eight inches long and an ivory handle four inches long, a half dozen mixed cakes which the woman left her apartments to buy, and her set of false teeth with one tooth missing. Fatal Feud. Eufaula, I. T.: In a fight among feudists at Spokee, I. T., Monday four men were killed, one mortally wounded and several others slightly injured. The dead are: Willis Brooks, Clifford Brooks, John Brooks, all of the Brooks faction; Old man Riddle of the Riddle faction; John Brooks was mortally wounded. The Montgomerys have arrived at Cape Haitien. NO DISORDERLY CONDUCT. A New York Judge Makes a Decision Out of the Ordinary. New York: Should the view of Judge Wilmont M. Smith be upheld, it is estimated that 2000 persons in jails of New York may get out. Judge Smith, sitting in special term of the supreme court in Long Island City, has rendered this opinion in a decision on a writ of habeas corpus ordered for two young men who were arrested a month ago on the charge of disorderly conduct. They were sentenced to six months each in the Kings county jail. Judge Smith, after listening to the arguments in the case, ordered the immediate release of the two men, and in ten minutes they were free. It was held by Judge Smith that no magistrate in the city of New York had the right to do more than to hold an alleged offender for a higher court or for the grand jury. There is no such thing, he says, as disorderly conduct. Five Trainmen Killed. Pittsburg, Pa.: Five trainmen were killed and two seriously injured as the result of a head-on collision between Buffalo, Rochester and Pittsburg and Pittsburg and Western trains, about 10 o'clock Friday. A number of passengers were cut and bruised by flying splinters and broken glass, but none were seriously hurt. Failure to flag passenger train is given as alleged cause. Denton County Fair. Denton, Tex.: The second day, Friday, of the Denton County Blooded Stock and Fair association was the biggest, in point of attendance, in the history of the association, and when the sham battle began, shortly after 2 o'clock, the grandstand was crowded and the betting ring was packed and jammed, while the track fence was lined along both sides of the stand. The principal attractions of the afternoon were the sham battle and the racing, but the arena programme was also good.

AN AWFUL AFFAIR

Stampede Occurs in a Negro Church at Birmingham, Ala. EIGHTY OF CONGREGATION DEAD A Fight in the Choir Was Announced by Some One, and as It Was Thought He Said Fire, a Panic Prevailed. Birmingham, Ala., Sept. 20.—In an awful crash of humanity, caused by a stampede in the Shiloh Baptist church at Avenue G and Eighteenth street Friday night, between sixty-five and eighty persons were killed and as many more or less seriously injured. The calamity occurred at 9 o'clock, just as Booker T. Washington had concluded his address to the national convention of Baptists, and for three hours the scenes around the church were indescribable. Dead bodies were strewn in every direction and the ambulance service of the city was utterly incapacitated to move them until after 1 a. m. The injured were looked after and dozens of dead bodies were arranged in rows on the ground outside the house of worship, waiting removal to the various undertaking establishments, while more than a score were laid out on benches inside. The church is the largest house of worship for negroes in Birmingham and the pastor says there were at least 2000 persons in the edifice when the stampede began. Instructions had been issued to allow no one else to enter, but the negroes forced their way inside the building and were standing in every aisle and the entrance was literally packed. Just as Booker Washington concluded his address, Judge Billou, a negro lawyer from Baltimore, engaged in an altercation with the choir leader concerning an unoccupied seat, and it is said a blow was struck. Some one in the choir cried, "They're fighting!" Mistaking the word "fighting" for "fire," the congregation arose en masse and started for the door. One of the ministers quickly mounted the rostrum and admonished the people to keep quiet. He repeated the word "quiet" several times and motioned to his hearers to be seated. Again the excited congregation mistook the word "quiet" for "fire" and rushed pell-mell for the door. Men and women crawled over benches, fought their way into aisles, and those who had fallen were trampled on like cattle. The ministers tried again to stop the stampede, but no power on earth could stay the struggling, fighting mass of humanity. The screams of women and children added to the horror of the scene and through fright many persons fainted and as they fell to the floor were crushed to death. White Girls Had to Kiss Black. Bellaire, O.: The board of education met in called session Friday and demanded and received the resignation of J. O. Deafenbaugh, principal of one of the schools because he compelled several white girls in the school to kiss the colored girls, with whom the former had quarrelled. The action of the principal caused great indignation among the parents of the white pupils. Murphy's Anniversary. New York: Chas. F. Murphy has been elected leader of Tammany Hall by a vote of 28 to 8. HANGED AT HACKENSACK. Peter Hernia Made a Desperate Resistance Against Execution. New York: Peter Hernia was hanged in the county jail at Hackensack, N. J., Friday for the murder of Barney Kanton, a butcher, but before his execution was accomplished he made a desperate fight. When two deputy sheriffs approached him to strap his arms he suddenly tore off two brass brackets on the side of his cell, and getting into the corridor, leaped over a partition. He then tore off a piece of lead pipe and crouching in a corner shouted that he would brain any man that came near him. By this time the jail was in an uproar. The sheriff and his deputies were at first puzzled as to how to deal with the murderer and disarm him. It was finally decided to turn a hose on him. This was done, and as Hernia put up his hands to ward off the water from striking him in the face a deputy sheriff leaped over and grabbed the hand of the murderer in which was the lead pipe. Other deputies quickly rushed in. Hernia was finally overpowered and securely strapped. He was then placed in a chair and carried to the gallows, his clothing dripping wet. He was lifted from the chair and the noose quickly adjusted about his neck. The sheriff then asked him if he had anything to say. He replied in a weak voice: "Good by, all. Excuse me." Fined for Cruelty. Waco, Tex.: City Recorder Cammack entered a fine of \$50 against a negro teamster, the charge being cruelty to a horse. The case attracted considerable attention. The Waco Humane society was represented at the trial. Five Trainmen Killed. Pittsburg, Pa.: Five trainmen were killed and two seriously injured as the result of a head-on collision between Buffalo, Rochester and Pittsburg and Pittsburg and Western trains, about 10 o'clock Friday. A number of passengers were cut and bruised by flying splinters and broken glass, but none were seriously hurt. Failure to flag passenger train is given as alleged cause. Denton County Fair. Denton, Tex.: The second day, Friday, of the Denton County Blooded Stock and Fair association was the biggest, in point of attendance, in the history of the association, and when the sham battle began, shortly after 2 o'clock, the grandstand was crowded and the betting ring was packed and jammed, while the track fence was lined along both sides of the stand. The principal attractions of the afternoon were the sham battle and the racing, but the arena programme was also good.

IN FALL BLAST.

The Mayorality Impeachment Case at Waco Excites Much Interest. Waco: The impeachment proceedings in progress before the city council were in full blast Friday night. A volume of testimony is being taken. The city council is sitting as a court, with Mayor Riggins present as defendant. The most interesting evidence was that of G. H. Luedde, bearing upon Mayor Riggins' service in the cause of anti-prohibition. One article of the impeachment complains of the mayor's spending time in that work. Mr. Luedde also is a determined anti-prohibition worker. Hon. Waller S. Baker is defending Mayor Riggins. He has applied to one of the appellate judges for relief, but so far nothing has been heard from that source. It is the plan of the city council to go, with short recesses when necessary, and to conclude the business without adjournment until a result is reached. SAUCEDO SWINGS. Pays the Awful Penalty for Transgressing a Law of the Land. San Antonio: Vincente Saucedo, a Mexican convicted of criminal assault on Guenecca Morales, the 10-year-old daughter of his wife by a former husband, was executed in the county jail Friday, the trap being sprung at 12:15 and life being pronounced extinct in fifteen minutes. His neck was broken in two places, and to all appearances death was painless. The execution was witnessed by 300 people. Saucedo met death without fear and made a speech from the scaffold, forgiving every one and asking the forgiveness of any one whom he may have wronged. He blamed no one for his death, and asked that every one take warning from his end. Queen of Belgium Dead. Spa, Belgium: Marie Henriette, queen of the Belgians, died here suddenly Friday night. Neither her husband, members of her family nor her majesty's doctors were present at her death. She was seated at a table eating a light dinner when she was seized with an attack of syncope. Dr. Gil-laume, who in the course of the day had remarked upon certain disquieting symptoms in the queen's condition, was summoned immediately, but her majesty was dead before he arrived. Waco Tragedy. Waco: Two shots at an interval of about a minute attracted police officers to the establishment of J. N. Thomas & Co., packers and freighters, Friday. Inside the office William Thomas, brother of the senior member of the firm, was found with two bullet holes in his head. By the side of the dying man was a Remington revolver of large caliber. One bullet entered the forehead and passed out at the back of the head. The other entered near the right ear. To Prevent Future Fires. Beaumont: At the oil exchange Thursday night was held a meeting of oil operators at which there was discussion and adoption of plans for the permanent protection of the Beaumont oil fields from destruction by fire and for protecting from gas the lives of the men who must work in the field. Fight Declared Off. Louisville, Ky.: Robert C. Gray, manager of the Southern Athletic club, declared the twenty-round contest between Terry McGovern and Young Corbett, off, court of appeals deciding against it. Mr. Gray announced that the \$30,000 worth of tickets which have been sold for the bout will be redeemed at any bank. The Southern Athletic club is out about \$5000, including the forfeit of \$2500 put up to insure the bringing off of the contest. Three Safes Cracked. Shreveport, La.: At Dubberly, La., a small town forty miles from Shreveport on the Vicksburg, Shreveport and Pacific railway, between the hours of 12 and 1 Thursday night, cracksmen blew, in succession, the safes of W. W. McCoy & Co., N. H. Boyet and the safe in the depot of the Vicksburg, Shreveport and Pacific road, securing something like \$200 in cash. Mr. McCoy is a general storekeeper and also the postmaster. Fined for Cruelty. Waco, Tex.: City Recorder Cammack entered a fine of \$50 against a negro teamster, the charge being cruelty to a horse. The case attracted considerable attention. The Waco Humane society was represented at the trial. Five Trainmen Killed. Pittsburg, Pa.: Five trainmen were killed and two seriously injured as the result of a head-on collision between Buffalo, Rochester and Pittsburg and Pittsburg and Western trains, about 10 o'clock Friday. A number of passengers were cut and bruised by flying splinters and broken glass, but none were seriously hurt. Failure to flag passenger train is given as alleged cause. Denton County Fair. Denton, Tex.: The second day, Friday, of the Denton County Blooded Stock and Fair association was the biggest, in point of attendance, in the history of the association, and when the sham battle began, shortly after 2 o'clock, the grandstand was crowded and the betting ring was packed and jammed, while the track fence was lined along both sides of the stand. The principal attractions of the afternoon were the sham battle and the racing, but the arena programme was also good.

"The applicant hesitated. "I hardly know whether you would suit or not. I need an unusually quick and active man."

Mrs. Emma E. Felch, Treasurer Fond du Lac, Wis., Social Economic Club, Tells How She was Cured of Irregular and Painful Menstruation by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I have used Lydia E. Pinkham's Vegetable Compound for irregular and painful menstruation, and was entirely cured after using two bottles. I can truly say it is a boon to suffering women, and I would recommend all suffering from the above troubles to try a few bottles and be cured. Very thankfully yours, EMMA E. FELCH, Division St., Fond du Lac, Wis."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

No other medicine for female ills in the world has received such widespread and unqualified endorsement.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

EVERY CHILD BORN INTO THE WORLD with an inherited tendency to distressing, disfiguring humours of the skin, scalp, and blood, becomes an object of the most tender solicitude, not only because of its suffering but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available, viz., THE CUTICURA TREATMENT.

Warm baths with CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, gentle anointings with CUTICURA OINTMENT, to instantly itching, irritation, and inflammation, and soothe and heal, are all that can be desired for the alleviation of the suffering of skin-troubled infants and children and the comfort of worn-out, worried mothers. A single set is often sufficient to cure when the best physicians fail.

Put in a story is being related to the effect that a gentleman is now being treated at a sanitarium at Lynchburg, Va., for a peculiar hallucination under which he labors is that he is a grain of corn, and that every chicken or other fowl is bent on swallowing him. If he sees a chicken, he is immediately thrown into convulsions. The cackling of a hen or the crowing of a rooster has the same effect on him. Seeing or hearing any fowl that eats corn produces spasms. Hallucinations truly take many and peculiar phases.

It is said haste makes waste, yet you seldom hear of a hustler being in a poorhouse.

It's folly to suffer from that horrible plague of the night, itching piles. Doan's Ointment cures, quickly and permanently. At all drug stores, 50 cents.

We may mean all right and yet be a bore.

MORE FLEXIBLE AND LASTING, won't shake out or blow out; by using Defiance starch you obtain better results than possible with any other brand and one-third more for the same money.

BLEW UP THE BANK

Dreadful Deed of a Money Dealer—Dynamiter. DEMANDED CONSIDERABLE CASH

Meeting With a Refusal, He Dropped a Bomb and by Explosion Building Wrecked and His Soul Hurled to Eternity.

Seattle, Wash., Sept. 19.—A special to the Times from Skagway, Alaska, says:

About 3 o'clock Wednesday afternoon an unknown man walked into the Canadian Bank of Commerce, carrying a revolver in one hand and a dynamite bomb in the other, and demanded \$20,000, threatening to blow all into eternity. Cashier Pooley and Teller Wallace were the only persons in the bank. Wallace ducked to get his gun and ran quickly to the back of the room, yelling for Pooley to do the same.

"No you don't!" yelled the man, and he dropped the bomb. The clerks had just got out of the window. The bank was wrecked. The robber's head was smashed and one arm was blown off. People living above the bank were blown into the air.

J. G. Price, formerly prosecuting attorney, who was entering the bank at the time, was hurt, but not seriously. The dynamite died without regaining consciousness. The bank lost about \$1000, chiefly in gold dust, which was lying on the counter.

POLITICAL CONVENTIONS. Democrats and Republicans Name Tickets in Several States.

Massachusetts Democrats. Boston: Acrimony was not wanting for a time in the Democratic state convention in Tremont temple, but in the end harmony was restored and the state ticket was enthusiastically greeted. The ticket follows:

Governor—William A. Gaston, Boston. Lieutenant Governor—John C. Crosby, Pittsfield.

Secretary of State—William B. Strone, Springfield. Treasurer—Thomas H. Thacher, Yarmouth.

Auditor—J. L. Chalfoux, Lowell. Attorney General—J. J. Flaherty, Gloucester.

Opposes Tariff Revision. Hartford, Conn: The state Republican convention selected a ticket, headed by Abram Chamberlain of Meriden for governor.

The platform indorses President Roosevelt's administration and favors his nomination for the presidency in 1904. It opposes a general revision of the tariff, but states that congress is expected to rectify without impairing the principles of protection any important duties that are found to have been "notoriously perverted from their true purpose to the inordinate enrichment of corporations, monopolistic in fact or in tendency."

New Hampshire Republicans. Concord, N. H.: In the Republican state convention Nathan J. Batchelder of Andover was nominated for governor by acclamation. The resolutions indorse the administration's Philippines policy. Combinations of capital which will reduce the price of necessities to the people are favored, but any such combination as will restrict business and throttle competition by unjust and tyrannical practices are condemned. The administration of President Roosevelt is heartily endorsed.

Roosevelt Indorsed. Birmingham, Ala.: A spirited debate lasting several hours, the Republican state convention passed a resolution recommending the nomination of Theodore Roosevelt for a second term for president. After the nomination of a platform a full state ticket, headed by J. S. W. Smith of Birmingham, was nominated and the convention adjourned.

It was the first white Republican convention held in Alabama since Civil war.

Colored Baptists. Birmingham, Ala.: Fifteen hundred delegates from all parts of the United States were present at Shiloh Baptist church, colored, when Rev. E. C. Morris of Helena, Ark., called the National Negro Baptist convention to order. Rev. J. F. Thomas of Chicago conducted devotional services.

Addresses of welcome were delivered by Rev. T. W. Walker, pastor of the Shiloh Baptist church, and Hon. Wm. Drennen, mayor of Birmingham.

Tarrant county grand jury returned twenty-seven felony indictments.

Maid Sues a Princess. Rome: A sensation has been caused in society by the announcement that a suit for damages has been brought against the Princess Di Si Faustino, formerly Miss Jane Campbell of New York, by her maid, the latter complaining that she had been beaten so badly by the princess that, according to her doctor, she would need ten days to recover.

Caused a Sensation. Washington: The dispatch announcing Speaker Henderson's declination of the congressional nomination caused a sensation in Washington. Very few public men are in Washington at this time, but all who are here expressed regret for the speaker's course.

The cause leading up to his declination was perhaps as much a matter of comment as the refusal to stand for re-election. The speaker had already entered the campaign.

Speaker Henderson says his declination is final.

RUSSELL NOMINATED.

He is Chosen to Fill the Vacancy in Third Congressional District. Mineola, Tex.: The Democratic convention for the Third district was called to order Wednesday afternoon in the city hall by Hon. M. D. Carlock, chairman of the new Third district.

C. E. Gilmore of Van Zandt county was elected temporary secretary and Hon. John B. Barnwell of Upshur county was made temporary chairman. The convention could not agree on a temporary chairman, the vote being a tie between John R. Barnwell of Upshur county and W. H. Clendenen of Rains county. After twenty-two ballots were taken a committee was appointed to select the chairman. This committee reported, recommending Barnwell for temporary chairman and Clendenen for permanent chairman. The report of the committee was adopted.

C. E. Gilmore was made permanent secretary of the convention. It was thought, before the convention met, that there would be a strong effort made to refer the matter back to the people and not make any nomination at this time. If this idea had prevailed, John S. Barnwell, chairman of the Third district, would have called the convention, but the matter was not mentioned in the convention, all the delegates being willing for this convention to make the nomination.

The Terrell platform on which Judge J. G. Russell was nominated, and resolutions deploring the untimely death of the late Congressman DeGraffenreid were adopted.

W. M. Pierson of Hunt, J. W. Humphrey of Rains, R. G. Andrew of Wood, W. T. Sargeant of Gregg and J. G. Russell of Smith were placed in nomination. Russell was nominated on the first ballot.

Parade the Feature. Palestine, Tex.: The second day of Palestine's great industrial carnival far surpassed the first day in point of attendance and programme arrangements. The International and Great Northern special trains brought in thousands of new visitors during the day. The feature of Wednesday's exercises was the grand parade which was participated in by the United States battery, cavalry, four companies of state troops, four bands and was over a mile in length. The parade was divided into four sections and headed by a band.

In the truck and fruit show Smith county got first prize, Anderson second and Leon third.

Scared Them Away. Dallas: Thursday morning at 1:30 two burglars entered the drugstore of Charles L. Ritchie at the corner of Corinth and Erway streets and attempted to blow open the safe. They were scared away by the appearance of Mr. Ritchie, who had returned to get something he had left. The burglars fired twice at Mr. Ritchie before leaving. A large set of tools were left behind. Two policemen appeared on the scene a short time afterward and took tools to police station.

Given Death Penalty. Bryan, Tex.: Joshua Price, better known as "Tobe" Price, a middle-aged white man, charged with a nameless crime against his 14-year-old daughter, was found guilty in the district court, the jury assessing his punishment at death. The girl was the principal witness in the case. Price is a widower and lived in the southern part of the county. He protested his innocence in his testimony. Price was arrested some time ago and the grand jury indicted him.

Must Give Proof. Vinita, I. T.: The Dawes commission has made an order requiring all intermarried white citizens of the Cherokee nation to appear before the commission prior to Oct. 31, 1902, and give testimony to show that they were entitled to enrollment on Sept. 1, 1902. No intermarried whites will be enrolled until they comply with this requirement.

Spouts Over Derrick. Crowley, La.: Heywood Bros.' eight-inch well came in Wednesday afternoon at Anse LaButte, St. Martin's parish, La., and is going twenty-five feet over the top of the derrick. The well is a little over 1200 feet deep and is a fine gusher.

Rained Six Hours. Ardmore, I. T.: Rain which lasted about six hours fell in this vicinity Wednesday. Grass will be benefited, but the condition of cotton will not be improved, because the crop is too far advanced to be benefited.

Child Beating Charged. Cleburne, Tex.: A large man of frontier type was arrested here on charge of beating his 14-year-old daughter into insensibility. He came here from the Territory, accompanied by his 14-year-old daughter and 12-year-old son.

STATE PRINTING. Number of Contracts Were Awarded By the Board Wednesday.

Austin: The state printing board Wednesday afternoon awarded the contracts for state printing for the ensuing two years as follows: First-class—Ben C. Jones & Co. of Austin, estimated amount of contract \$25,000 per annum; bond \$10,000.

Second-class—Ben C. Jones & Co., no estimate given of amount of contract; bond \$7000.

Third-class—E. E. Prescott of Austin, estimated amount of contract \$3000 per annum; bond \$2000.

Fourth-class—A. C. Baldwin & Sons of Austin, estimated amount of contract \$1500 per annum; bond \$1500.

Fifth-class—Book papers, J. L. Johnson of Dallas, estimated amount of contract \$5000 per annum; bond \$5000.

Sixth-class—J. L. Johnson, estimated amount of contract \$14,000 per annum; bond \$10,000.

DON'T GIVE UP. Don't be discouraged by past efforts to find relief and cure from the myriads of ills that come from sick kidneys. You may pass nights of sleepless tossing, annoyed by frequent urination. Your back may ache like a toothache or sudden twinges and twinges of backache pain make life a misery. Perhaps you have nervous spells, are weak, tired-out, depressed. There is a cure for all of this and for every trouble of the bladder and kidneys. Read this case and note it tells how well the cure was tested:

Charles Lindgren, dealer of freight cars on the L. S. & M. S. R. R., La Porte, Ind., says: "I have greater faith in Doan's Kidney Pills today than I had in the fall of 1897 when I began taking them and made a public statement of the result. At that time I had suffered with lameness and soreness of the back, which was so excruciating that I could scarcely turn in bed, and Doan's Kidney Pills completely cured this trouble. I am always ready to endorse Doan's Kidney Pills personally to anyone requiring a kidney remedy. After a lapse of three years I make this statement, which shows my undoubted faith in the preparation."

A FREE TRIAL of this great kidney medicine, which cured Mr. Lindgren, will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale at all druggists, 50 cents per box.

A Clever Arrangement. The hotel proprietor was good at reading faces. "We aim to please," he said before the guest could speak. "When we have a 'kicker' in the house we try to give him something to 'kick' about. We have a room for that particular purpose, which we always reserve for the 'kicker' and we have an absent-minded waiter that we always give him. What were you saying?" "I was about to remark," returned the guest, suddenly changing his mind, "that I never knew a hotel that was more to my liking."

NERVOUS PROSTRATION IS SYSTEMIC CATARRH

Peruna is the only Systemic Catarrh Remedy known to the Medical Profession.

Mrs. Ida L. Gregory, President of the Poets and Authors Club of Colorado, President of Colorado Art Club, Director of School of Industry and Design, Vice President of Sherman Art League, is One of the Leading Club Women of Colorado.

In a recent letter from 8 Grant avenue, Denver, Colo., this prominent lady says: "Some years ago my husband suffered from nervous prostration and advising with a friendly druggist he brought home a bottle of Peruna. His health was restored from its use, his appetite was increased and restful sleep came to him. I therefore heartily endorse Peruna, as an honest remedy worthy the good things which are said of it."—Ida L. Gregory.

Nervous prostration is so frequently associated with systemic catarrh that some doctors do not distinguish between the two. In systemic catarrh the disease has pervaded the whole system and there is a constant loss of vital fluids from the mucous membranes.

A great many people are doctoring for nervous prostration who would be immediately cured by a course of Peruna. Peruna makes clean, healthy mucous membranes. By this preservation of the

fluids the weakening drain of the discharge is prevented. The medical profession is just beginning to awaken to the fact that chronic, especially systemic catarrh, soon produce a condition so nearly resembling nervous prostration that it is very difficult to tell one from the other. Peruna cures these cases with fail.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President The Hartman Sanitarium, Columbus,

HABITUAL MISCARRIAGE is not only the result very often of some form of uterine disease, but also is the cause of many other derangements of the womb, which bring endless pain and misery to a large percentage of married women. The experience of MRS. EMMA SHORTER, of Prospect, Tenn., is so like that of hundreds of others that her story told by herself must be of interest and value to all who have suffered as she did. She writes: "Owing to some serious organic derangement, I was subject to habitual miscarriage and its attendant flooding and danger to life and health. I also had what was a great deal and was in a miserable condition generally. I decided to try what the G. F. P. Treatment would do for me and will tell you how it resulted. I took only two bottles of the medicine, but it made me sleep well at night, gave me a good appetite, the whites are entirely cured, and instead of the dreaded miscarriage I have a fine, healthy baby boy who weighed ten pounds at his birth. G. F. P. costs only one dollar a bottle, yet its actual worth to diseased and suffering women cannot be estimated. It has proven invaluable to me and will to others if they will but realize it."

Write to the Ladies' Health Club, care L. Gerstle & Co., Chattanooga, Tenn., for free medical advice and instruction regarding the treatment of your trouble. Under this advice you can treat yourself in the privacy of your home. You can get G. F. P. from your druggist or dealer at \$1.00 a bottle.

Pronunciation of "St. Louis."
 WORLD'S FAIR, Sept. 22—Many inquiries have been received as to the proper pronunciation of St. Louis. The press quite generally has discussed the subject and the suggestion of legislative action has been made. The matter has therefore been submitted to Prof. F. Louis Soldan, the superintendent of public schools of St. Louis, who is considered an authority on the subject. Prof. Soldan says: In answer to your question in regard to the pronunciation of the name of our city, I will say that I prefer pronunciation, St. Lew-iss. My individual opinion is based on the following facts:
 The French pronunciation, of course, is "St. Loo-i," with the final s not sounded, and somewhat of an accent on the last syllable. In the leading authorities—Webster, The Century, Lippincott's Gazetteer—both pronunciations are given as allowable, with the pronunciation "St. Lew-iss" placed first, which usually indicates that the pronunciation placed first is preferred. Hence, the weight of authority, as far as it goes, seems to be in favor of "St. Lew-iss."
 Second.—The common usage in this city, among the people that have lived here for a long time, seems to be "St. Lew-iss."
 Third.—It is a general tendency of the English language, and especially as used in America, to assimilate the pronunciation of words derived from foreign languages.
World's Fair Notes.
 Hot water from the government Hot Springs, Arkansas, will be one of the beverages at the World's Fair.
 President Roosevelt's visit to St. Louis and the World's Fair grounds on October 1 and 2, will be his first since he became president.
 Kansas expects to be the first state to erect a building on the World's Fair grounds. It will be entirely of Kansas materials, costing, besides the donations, \$30,000 to \$35,000. The commission will ask the legislature for an appropriation of \$150,000 in addition to the \$75,000 already appropriated.
 George W. Stewart will be appointed manager of the World's Fair Bureau of Music within a few days. It has been planned to have the musical features at the World's Fair the finest that can be presented and to carry out this idea the directors of the exposition chose one of their number, George D. Markham, to organize the Bureau of Music and act as its chief. President Francis, Chief Markham and the music committee have arranged with Mr. Stewart to become the manager of the bureau with the view of securing the best possible results for the exposition. George W. Stewart is a son of the distinguished Surgeon Joseph Stewart, or as he was familiarly called in the army during the Civil war, Dr. Joe Stewart. As a child he was known to possess great musical talent. At the age of eighteen he was known as one of the most promising baritone and trombone players in the country. After three years spent with traveling companies he decided to locate in Boston. His ability was at once recognized by Boston musicians and in a very short time the most desirable positions in Boston were offered him.
WORLD'S FAIR OPENING DAY.
 Some of the state commissions have expressed themselves favorable to opening the World's Fair on April 1, and closing on December 1, 1904. Some of the members of the government board are also understood to be favorable to this plan. The argument is made that the exposition will be so vast that the longer time will be desirable. Spring opens a month to six weeks earlier at St. Louis than it does in the latitude of Chicago and the New England states and weather conditions will be favorable to the earlier opening of the exposition.

World's Fair Notes.
 Hot water from the government Hot Springs, Arkansas, will be one of the beverages at the World's Fair.
 President Roosevelt's visit to St. Louis and the World's Fair grounds on October 1 and 2, will be his first since he became president.
 Kansas expects to be the first state to erect a building on the World's Fair grounds. It will be entirely of Kansas materials, costing, besides the donations, \$30,000 to \$35,000. The commission will ask the legislature for an appropriation of \$150,000 in addition to the \$75,000 already appropriated.
 George W. Stewart will be appointed manager of the World's Fair Bureau of Music within a few days. It has been planned to have the musical features at the World's Fair the finest that can be presented and to carry out this idea the directors of the exposition chose one of their number, George D. Markham, to organize the Bureau of Music and act as its chief. President Francis, Chief Markham and the music committee have arranged with Mr. Stewart to become the manager of the bureau with the view of securing the best possible results for the exposition. George W. Stewart is a son of the distinguished Surgeon Joseph Stewart, or as he was familiarly called in the army during the Civil war, Dr. Joe Stewart. As a child he was known to possess great musical talent. At the age of eighteen he was known as one of the most promising baritone and trombone players in the country. After three years spent with traveling companies he decided to locate in Boston. His ability was at once recognized by Boston musicians and in a very short time the most desirable positions in Boston were offered him.

Last week we reported Dallam county anti by a majority of 34 votes. The information came from an anti and was not correct. We learn that if the votes are counted as cast, it will be 9 majority, but as some of the pro voters voted a ballot that read "for local option" they will not be counted, hence the anti majority will be placed at about 17.
 The commissioners court was in session Wednesday to canvass the election returns. The vote was practically the same as announced by us last week, but boxes 1, 3, 4 and 5 were thrown out because 1, 4 and 5 had no poll list and tally sheets in the ballot boxes as the law requires and No. 3 had their ballots and returns in a paper box instead of a metal or wood box, as the law requires. This leaves the pro majority 73. A notice of 30 days must be given, and the commissioners deferred the beginning of publication to next week.
 Floyd county has about 350 acres of cotton this year, and the Hesperian says already many Floyd county farmers are preparing to put in large crops of wheat. It says if the county has 5,000 acres planted this year a flouring mill will have to be erected at Floydada.
 The local option election in Clarendon last Saturday resulted in a victory for the dry ticket by such a large majority that there need not be any fear of a cold storage plant taking the place of the saloons.—Canadian Herald.

Devoiced by Worms.
 Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition, their food is not assimilated, but devoured by worms. What ever plan the state and foreign commissions and the government representatives may favor will prevail. To have the World's Fair in full swing a month earlier than former exhibitions will be in the opinion of many a distinct advantage to this enterprise. When the state commissions are assembled here on the 30th of the present month it is expected that the consensus of opinion as to the proper date of opening will be ascertained.
Croup
 Usually begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment externally to the throat. 50c at H. D. Ramsey's.
The Canyon Stayer publishes the statement of the Dalhart business men that it was to their interest to have prohibition, and to which were attached the names of all the leading men of the place. The Stayer then adds: "We note with regret that Canyon City's contingent to Dalhart, J. N. Hadley, W. W. Hunt and Dr. J. A. Hedrick, are not signers to the above. Also the name of Hon. R. E. Stalcup, a candidate for district attorney of this district, who lives at Dalhart."
