

**PUBLISHED EVERY FRIDAY BY**  
W. P. BLAKE, EDITOR AND PROPRIETOR.

Subscription price, \$1 per annum in advance.  
Mailed at the Post Office at Clarendon, Tex.,  
as Second class Matter.

Carnegie and Pullman made "nothing to arbitrate" win while Morgan and Baer failed, which goes to prove the "world do move."

For the next few days explanations as to how it happened will be discussed—and cussed—then people will go on with their business as though an election had never taken place.

TEXAS has a school fund of over \$40,000,000 invested that she will get from it this year \$1,353,969.57. Since 1893 the scholastic population has increased 154,194, yet the available fund is \$4.90 per scholar.

It is said that Wichita Falls dam has sprung a leak and it may go out at any time a big rain comes. It is too frequent that such costly structures are poorly built, when a little more care and expense might make them permanent.

PARTY politics cut little figure in Texas this year. Except two or three speeches by Captain Mallett and a little effort by the republicans in two congressional districts, there was no opposition to the dominant party. In many counties there was not even a state populist ticket printed.

In various places this year democrats had prohibition tickets printed with the two nominees of that party at the head of the ticket followed by democratic nominees. This was evidently done to swell the democratic vote. According to a ruling of the attorney-general, in case of a contest, this might affect the legality of the ticket. This office printed three different party tickets but we placed no nominees of another party on a ticket, leaving the voter free to write the name of any candidate he desired.

A READER asks one of the big dailies of St. Louis this question: "Why should the national treasury be concerned about a scarcity of money in Wall street when the national banks are entitled to three hundred and fifty million dollars additional national bank notes? Is it a good plan for national banks to be in a position to create a panic and force the treasury to come to the assistance of speculation and Wall street sharks? If the people need a large volume of money why not the government, which is the people, issue all the money that is necessary to transact the business of the country? The government bonds are no better than the government treasury notes. They both rest for security or payment upon the faith and credit of the people. If I issue my due bill and secure the same by my note, how much better is the note than the due bill?" The editor makes no pretense, whatever, to answer the question. It is a fact that the bonds and treasury notes rest alike on the faith and credit of the government that issues them. But with the bonds and bank notes, the bankers have it in their power to control the currency. In fact they are but a money trust.

The popular principle of the public ownership of railroads and telegraphs has proven so successful in Europe that all the governments are extending it. The German government will soon take over six of the eight private railroad systems of that country, leaving only two smallest and least important lines in private hands. Frank Carpenter in his letter from Paris says: "The telegraphs are under the government, and the charges are less than half those of America. The rate is ten cents for the first ten words, and one cent for each additional word to every part of France. The postoffice department has a parcel system by which small packages weighing up to twenty pounds can be sent. Six pounds will be taken to any railroad station in France for twelve cents, or for seventeen cents it will be delivered at your house. A ten-pound package costs twenty-five cents, and a twenty-pound one only thirty cents." Is it better to sell your vote to the railroads for \$2 and then pay double these prices for the same service? If you think that it is, then you will have the opportunity to do so.

All members of the band are requested to meet at the court house tomorrow night at the usual hour.

**Republican Congress Yet.**  
Late returns show that the republicans will control the next house by a vote of 204 republicans and 179 democrats.

The large democratic vote in Greater New York reduced the republican plurality in the state of New York, but the republicans made big gains in the country districts and their vote increased in the northwestern states. The democrats lost out completely in all the states, northwest, where they cut off from the populists.

**Already After Lauham.**  
DALLAS, Nov. 5.—The poll tax amendment carried in Dallas by 2 to 1. A train load of office hunters passed through Dallas to interview Governor Lauham at Weatherford today.

**Young Vest Found Dead.**  
Geo. Vest, Jr., son of Senator Vest of Missouri, was found dead in his room at a hotel in Washington yesterday. Vest for a number of years acted as private secretary for his father.

**The Galveston Sea Wall.**  
Galveston island is three miles wide at its widest point and thirty miles long. The sea wall will be three miles from the south jetty, extending along the gulf shore to Thirty-ninth street. The wall will be seventeen feet high, sixteen feet wide at the bottom and five feet wide at the top. It will be built of granite concrete on piling foundation.—Galveston News.

An editor who recently came to Texas seems to have been agreeably surprised upon becoming acquainted with Texans. He says: "The old idea that Texans have horns has long since been put to rest. The idea that the man from Texas was a bad man seeking human gore is a mistaken one. Of course we have some bad men in Texas just the same as other states, but the typical Texan is a true born gentleman, an intellectual being, a man. He regards the friendship of his friends and considers his foe as an enemy. He stands upon his word to his fellowman and is the soul of honor. He resents an insult on the impulse of the moment and offers no apologies for having done so. He is magnanimous, kind, courteous, openhearted and if wealthy lavishes his means upon those he knows to be his friends. His general bearing commands respect and his friendship is to be appreciated.

A wax woman in a dry goods store window in our city is attracting the gaze of the Vernon young men to such an extent that the girls are talking of withdrawing their patronage from the store unless "she" is removed.—Vernon Hornet.

Our boys have sense enough to pay attention to the real article. Give your best looking girls a pointer, please.

We are told that about all the old officers are re-elected in Potter county. This means unmolested gamblers and whisky sellers, if the past is to be judged by.

The officers elected in Hall county are J. F. Bradley judge, L. F. Jones sheriff, S. J. Alexander clerk, A. G. Powell assessor, J. L. Pyle treasurer, Browder commissioner and Grundy justice in the Memphis precinct.

The Armstrong county officers were about all re-elected except county treasurer, Mr. McCarty being elected to that position. Q. Moore is county judge, Robert McLaren clerk and P. H. Lynch sheriff.

The Colorado and Southern, which is the north end of the Fort Worth and Denver, has granted a raise of 4c an hour to yardmen in its employ in Denver.

Kansas farmers are only offered 25 cents for corn and a good many have hauled loads back home rather than sell at that price.

Mrs. Willie Skeen was granted a divorce from her husband, Thos. D. Skeen, in Wichita Falls last week.

Although she may have no knowledge of medicine, the dressmaker who can cure bad fits has a lot of patience.

**Printing Outfit For Sale.**  
We have a six-col. Washington press, 150 pounds of 10-point and 12 1/2 lbs of 8-point and five or six fonts of display type for sale at a bargain.

Send us your job printing.

**The "Nesters" After the Land.**  
C. L. James, of Sonora, Tex., said to a Kansas City reporter a few days ago:

"Some of the big cowmen in West Texas are getting it in the place where the bottle got the stopper on account of the incursions of the 'nesters' in that section. So much of Sol Meyer's big Schleicher county range was taken up that he had to sell the sections he owned and move his herds to his other ranches. The nesters also cut a big hole in Joe Funk's Irion county ranch, and in many others. As a result of such great quantities of leased land being thrown on the market some of the cattlemen are making preparations to move their herds above the line, which can be done after the quarantine is lifted. They will be moved to other portions of Texas and to New Mexico, wherever range can be obtained for them. It is not definitely known how many will be moved, but the Dr. Lewis spraying outfit has already sprayed 10,000 head around San Angelo and has another contract to spray 10,000 head preparatory to moving them above the line. This number is certain to be moved."

**Republicanism Democracy.**  
A Louisiana democrat seems to be pretty well disgusted with his party in that state. In a letter, to a New Orleans paper, he says:

"The result of the Seventh Congressional District primary, for instance, demonstrates the rottenness of the election laws of Louisiana. The democrats have been swindling the nigger so long, they have gone to swindling each other to keep their hands in. And we see newspapers foolishly rushing to the convention system by arguing the frauds committed in primaries in justification of conventions. Do they not know that the election laws of the state are at fault and not the general principle?"

"This suggests the question, 'What does the democratic party of Louisiana offer to a young man?' 'There was a time in the history of this state when a white man could not afford to be a republican. Now it is as hard for an honest and independent young man to be a democrat. Any young man of pride, who has any hopes for a future in Louisiana politics, naturally resents the disposition of the democratic ring in this state. It is either corrupting the young men of the state, or driving them out of politics altogether.

"Unless you bend the knee and bare the back to the inexorable lash of the machine master you are cashiered—nay banished from all participation in public affairs. You are absolutely deprived of the rights of a freeman and a voter.

"This is not confined exclusively to politics; you are persecuted in business, and hounded on the sly. To put it in good American slang, you are 'knocked' by some whining hypocrite, who entertains you pleasantly while some striker is 'doing' you elsewhere. And it is done so smoothly and politely. \*

\* Every member of the Louisiana delegation in congress is a protectionist. The Third Congressional district is represented by a democrat, yet he has not cast a single democratic vote since he has been in Washington. Mr. Broussard is a bright young man, but he knows that his district is republican, and he is either to vote for republican measures, or retire. We are democrats because our fathers were democrats before the war. What then does the democratic party offer to any man not a ringster? In state politics it is despotic. In national affairs, it is republican without the honesty of confession. It is a long stride from good old-fashioned faith; the party has abandoned its faith; there is nothing but the shadow left. We were taught to be democrats, right or wrong. This doctrine has ruined the politics of Louisiana. The winds were sown, we are reaping the whirlwinds. The methods used to redeem the state from negro domination in time of war have been turned to instruments of torture against white men in time of peace. Federal bayonets were routed by bayonets; but I believe a peaceful revolution among the young men can route the despots in control of the state."

**Best Linctum on Earth.**  
I. M. McHenry, Greenville, Tex., writes, Nov. 2, 1902: "I had rheumatism last winter, was down in bed six weeks, tried everything, but got no relief, till a friend gave me a part of a bottle of Ballard's Snow Linctum. I used it, and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Linctum to be the best linctum on earth for rheumatism." For rheumatic, sciatic or neuralgic pains, rub in Ballard's Snow Linctum, you will not suffer long, but will be gratified with a speedy and effective cure. 25c, 50c and \$1 at H. D. Ramsey's.

perform it. Let us not see another generation of young men drawn into the servile legions of the petty despots now in the saddle."

**Land Law Suggestions.**

In view of the fact that the state of Texas has many millions of acres of land which as a state policy should be in the hands of home builders and tax payers, a change in the laws governing its control and disposition is a crying need of the time. The millions of acres of school and other lands are there, and the people are ready who would gladly build up the wilderness into a land smiling with plenty—and incidentally pay a sum into the state treasury beside which the present returns from leases would look like 30 cents. But with the absolute lease feature, and with an administration insanely militant for lessees and against would-be actual settlers, we have before us the spectacle of mere grass on the one hand and logging, homeless people on the other. We have also for pleased contemplation the cross-eyed facts that the general land office at Austin furnishes to applicants lists of unsold and obtainable lands in almost any western or northwestern county of the state, and that the diligent careful seeker cannot under present conditions find such alleged vacant lands. This writer cannot conceive how the situation could be made more undemocratic and outrageous. We believe that so long as the lease law in any form obtains, these conditions must continue. We believe also that the general land office should desist from furnishing lists of alleged vacant lands that are delusions and cost people long and fruitless searches for nothing.

Touching the disposition of the state's lands, a correspondent offers the following suggestions, most if not all of which must strike the common sense of the reader:

1. The sale of the state lands to each person to be limited to one section.
  2. In any county containing lands subject to sale, the clerk shall have a map plainly showing such lands, hung up in his office conveniently for the public inspection and upon which each section as sold shall be plainly marked.
  3. The county clerk upon placing the filing, shall immediately inform the general land office of the transaction.
  4. Every clerk shall keep a list of leased lands open to the public showing date and expiration of each lease.
  5. Any clerk found guilty of making false entries or of concealing such map or list from the public to be fined in any sum not exceeding \$200.
  6. The state shall, upon application by the purchaser, cause to be dug or bored a well and erect a dwelling on the purchased land, such improvements not to exceed in value \$1 per acre on such land to be added to its cost, and on which the same interest shall be collected pending payment.
  7. No land to be leased for a longer period than one year, and all lands to be subject to sale at any time, the purchaser to have possession on three months notice and on reimbursement to the lessee for the unexpired term of the lease.
- To the Review, however, the fact stands out plainly that the lease law should be expunged from the statutes, and the people and nature would do the rest.—Peoples Review.

It is amusing but true. Let a wideawake hustling merchant who knows that advertising pays, put a list of low prices in the paper and his competitors who do not believe in advertising will tumble over themselves to post a lot of old box covers in the windows of their stores on which are daubed signs offering goods at the same prices. The merchant who declares it don't pay to advertise is not only a back number but his acts belie his statements every day he attempts to do business.—Magnolia (Ark.) Banner.

Inspectors began work at the quarantine line Saturday inspecting such cattle as presented themselves at the line for inspection. On account of the fact that as yet we have had no cold weather some ticky cattle are showing up, but are being promptly turned down, and no chances will be taken on such cattle this year.—West Texas Stockman.

Every town has a liar or two; a smart aleck; some pretty girls; more bums than it needs; a woman or two that tattles; an old fogey that the town would be better without; men who stand on the street corners and make remarks about women; a man who laughs an idiotic laugh every time he says anything; scores of men with the caboose of their pants worn smooth as glass, and people who can tell all about how to run other people's business, but have made a dismal failure of their own.—Vernon Hornet.

**Hardships of a Bachelor.**  
The bachelor sat in his bachelor's hall,  
Whence all but him had fled,  
The dust was heaped upon the floor  
And scattered o'er the bed.  
No one has to sweep his floor  
Or cook his frugal meal—  
Enough to make a preacher—'cuss'  
Or tempt a saint to steal—(a girl.)  
He sits alone at evening tide,  
The shadows come and go;  
And thus he drags his life away  
In solitude and woe.  
He's of no special benefit  
To human kind, we know  
Unless he'd quit his bachelor's life  
And quit his living so.  
He has no one to comfort him  
When sorrow doth abound,  
Except one little Thomas cat  
And one old spotted hound.  
Oh girls! Why don't you pity me  
In all my lonely life,  
And come to me at once and be  
My darling little-wife. —Ex.

Many are satisfied to live in Northwest Texas, having proved the value of the land in this region as a good Crop Raiser. Not only Cattle, but Wheat, Cotton, Corn, Feed-Stuffs, Cantaloups, Garden Truck and Good Health flourish here—in a district where Malaria is impossible and very little doing for Jails and Hospitals.  
Land, which is being sold at really low figures—the constantly increasing demand is steadily boosting values—is still abundant; and Farms and Ranches of all sizes, very happily located, are being purchased daily.  
We will gladly supply all askers with a copy of a little Book, published by the Northwest Texas Real Estate Association, which contains an interesting series of straightforward statements of what PEOPLE HAVE ACCOMPLISHED along the line of

There were only three socialist votes cast; one in Clarendon, one at Lelia and one at Boydston. The county commissioners are: Precinct 1, N. N. Martin, No. 2, J. D. Jefferies, No. 3, R. H. Jones and No. 4, F. R. McCracken.
