RECEPTION FORMALLY OPENS THE NEW HOME FOR BOYS AT COLLEGE

According to well laid plans the reception marking the opening of the Boys' Dormitory at Clarendon College passed into history as a fulsome success.

Shortly after four o'clock Tuesday afternoon the interested citizenship of this community began to come and go from the new hall and the girls' home, where punch was served by the old students' committee. This lasted until ten o'clock, each guest being required to register as he entered the first room in the right as entered the boys' dormitory, being shown through the rooms on each floor by a young lady guide assigned to that duty.

Those who did not attend may still be possessed with the idea that the equipment of Clarendon College, and the boys' dormitory in particular, is only average, but every sightseer who didn't already know better now knows that the building equipment of Clarendon College, more particularly the new dormitory, is not surpassed in Texas except in size.

President Slover is justly proud of the new building erected at a cost of near \$30,000, being three stories high with basement, built of gray brick, steam heated, and equipped with sewerage and shower baths. Near the showers in the basement lockers have been provided so each student may have his individual locker for towels, athletic uniforms, etc. The building is lighted throughout by electricity and the stairs are wide and of easy slope. Part is, the boys' dormitory at Clarendon College is about the last word in modern school planning.

There are forty-five rooms besides the rooms reserved for the resident teacher, and when the College opens next Tuesday it is expected that ninety happy boys take up their domicile in this classiest school residence in the Panhandle.

MORNING PARTY

Miss Zoe Glenn very pleasantly entertained with a morning party Monday, honoring her guests, Miss Wilson of McLean, Miss Higginbotham of Prosper, and Miss Miller of Midlothian.

Progressive forty-two was played. Miss Ethel Teague won high score and was presented with a beautiful water color picture. Miss Lelia Clifford was presented with a small water color picture as consolation.

At a late hour dainty refreshments were served to the following guests: Misses Carrie, Olive and Bessie Owens, Wilson, Miller, Higginbotham, Ethel Teague, Gertrude Miller, Mildred Baker, Mattie Helen, Luck and Annie Martin, Lelia and Elizabeth Clifford, Lora and Zoe Glenn.

FAREWELL DANCE

In response to invitations some seventy couples accepted of their friends' kindness and enjoyed a farewell dance given in honor of the members of Co. B, who will soon leave for the training camp at Fort Worth.

With the music furnished by the Clarendon Orchestra, the grand march was led by Captain Simpson and Miss Zelma Ritchie of Amarillo, and Lieut. Perrine and wife.

This occasion seems to have been one of the most delightful evenings spent by the soldier boys.

BAPTIST ASSOCIATION MEETING

The Panhandle Baptist Association will convene at Estelline Tuesday, September 11. All churches in Donley and Hall counties should have full representation and be interested in the reports of the year's work and the year to follow.

Curtis Croyer and wife of Northfield arrived Wednesday for a short visit with Mr. and Mrs. R. M. Stone, the latter's parents.

Miss Genevieve Dyer is visiting in Claude this week.

DONLEY COUNTY BOY NOW OFFICER IN COAST ARTILLERY

Last Thursday while we were mailing out The News we were favored by a visit from F. P. Dunkle of Lelia Lake and his son, Paul Dunkle, who recently won his appointment as Second Lieutenant in the Coast Artillery in the officers' school at Fort Monroe, Va. Young Dunkle is a fine specimen of physical manhood and is justly proud of the rank he won by the hard work in the school. He has the honor of being selected for immediate service in France, and left the first of the week to report for duty at Hoboken, N. J. Lieut. Dunkle is in love with his work in the heavy gun department, and we may be sure that his record will reflect credit upon his parents and on the county claimed as his home. We hope he will return to us with a great record for service and a higher rank as an officer.

CATTLE SALES THIS WEEK

T. M. Pyle sold two cars of steers to Lee Bivins of Amarillo.

Bob Muir sold thirteen cars of cattle to Lee Evans of Laguma, N. M., and eight cars of three year olds to Lee Bivins of Amarillo.

W. D. Van Eaton sold 170 head of cattle to Kansas parties.

Allan Jefferies sold 120 head of cows to Wylie Morris and S. T. Sayre of Estelline.

Fred Chamberlain and Nat Woods sold three car loads to Marvin O'Keefe of Panhandle.

Wylie Morris sold 100 head of steer yearlings to Marvin O'Keefe of Panhandle.

MEMPHIS MAN BUYS STUDIO

Recently Mr. Heffner sold his studio and photograph gallery to J. R. Bartlett of Memphis, who assumes control Saturday, Sept. 1. Mr. Heffner has been among us for the past three years and has many friends here who regret his leaving, but we none the less welcome the new owner to the business circles of Clarendon. Mr. Bartlett has moved here and he and his wife are occupying the Wilson property across from the Methodist church. The new owner is an experienced photographer and we are sure he will give Clarendon satisfaction of the highest grade in his line.

John N. Williams, resident of Clarendon for the past sixteen years, and whom this editor suspects of being of Irish ancestry from his good humor and wit, called at The News Saturday and presented the editor with three super-dreadnought peaches grown at his home here in Clarendon. These peaches were the largest we have ever seen outside of an exhibit and their flavor was excellent. A man who wouldn't save the seed from such fruit doesn't look far into the future.

BASKET SUPPER

Last Thursday evening the ladies of Clarendon delightfully entertained the soldier boys of Company B with an old fashioned basket supper on the court house lawn.

Talks were made by Rev. G. C. Rafter, Rev. J. W. Story, Rev. Burton and Capt. Simpson which were very much enjoyed.

Mr. and Mrs. E. A. Teague and daughters, Misses Ethel and Oressa, have returned from a family reunion at Plainview and visit to relatives at Clovis, N. M., and to old friends of the family at Lockney, Texas.

Justice of the Peace Hoffman and E. C. Johnson of the Herald at Memphis were Clarendon visitors Monday. The News office was favored with a visit during their stay.

Arthur and Guy Martin of the engineering department of the Santa Fe at Amarillo spent Sunday here with their parents, Mr. and Mrs. N. N. Martin.

Mr. and Mrs. T. J. Noland of Stratford were in Clarendon over the week-end as guests of Mr. Noland's parents, Mr. and Mrs. E. H. Noland.

CLARENDON PLANING MILL CHANGES HANDS

Last week Mr. H. W. Kelly, proprietor of the Clarendon Planing Mill, sold his business to Messrs. E. W. and J. W. Taylor, well known business men of this city. For some time Mr. Kelly and his wife have been in ill health and this is the reason for his disposal of the mill. The planing mill is one of our town's best institutions and since it had to be sold we are glad that it fell into such competent hands. The continued success of the business is assured under the management of the Messrs. Taylor.

Mrs. I. N. Beaver of Brice was a visitor in Clarendon Monday.

PRESBYTERIAN CHURCH

There will be no preaching at the Presbyterian church next Sunday, inasmuch as the pastor will be absent from the city.

Sunday school will meet as usual, promptly at 9:45.

Prayer meeting Wednesday evening at 8:15. You are cordially invited to attend all these services.

Mr. and Mrs. E. C. Lowder and family, who have been at the home of J. O. Sewell for several months, left this week for Arizona, where they will make their home.

Geo. Grogan went to Swenson Tuesday night to receive some cattle.

RED CROSS ACTIVITIES

In response to a request from Hedley a delegation from the Donley County Chapter of the Red Cross went down to Hedley on the 16th inst. to confer with the people in regard to the work of the Red Cross there. The delegation consisted of Mrs. J. B. McClelland, chairman of the chapter; Mrs. B. L. Jenkins, chairman of the Military Relief; Miss Lila McClelland and Rev. S. L. Jockel, chairman of the General Propaganda Committee. There was much interest expressed by those present, and they desire to form a branch of the Donley County Chapter and hope to begin work at an early date.

Several ladies from Hedley came up to visit the Red Cross work room on Friday, the 19th inst.

The Knitting Committee has been organized and is very enthusiastic. This promises to be one of the strongest departments of the work, as there are many who wish to learn in addition to a goodly number who know how to knit already. Red Cross authorities write that knitted garments are much needed. There has been a call issued for 1,500,000 suits of same, which are to be apportioned to the various chapters. This chapter does not know its apportionment yet. Materials have been ordered and as soon as they arrive work will begin. Anyone, whether a member of the Red Cross or not, desiring to help will please notify Mrs. J. C. Killough, vice chairman of the committee.

The Finance Committee met and organized Friday, the 24th inst., and is at work arranging for funds. They hope soon to have a system in working order for procuring same.

The Entertainment Committee has been called by the chairman, Prof. B. Deane Shure, to meet Thursday night to arrange and plan entertainments to raise funds.

Another delegation from the Donley County Chapter of the Red Cross, Mrs. Chas. McMurtry, Mrs. J. F. Gruben, Mrs. Homer Glascoe, Mrs. Crockett Taylor and Mrs. Tom Kennedy, went to Hedley Tuesday, the 28th inst., to instruct the ladies there in the making of surgical dressings, garments, etc. They report a very pleasant time and much enthusiasm.

All members of the Red Cross are urged to come and work. More workers are needed at once. A large bill of goods has been ordered and there is much to be done. It is urgent that as much as is possible should be done now so that supplies may reach their destination in time for the winter. The regular work day is every Friday, 2:30 p. m. to 6 p. m.

NO PLACE YET FOR SINGING CONVENTION

Mr. N. C. Duggins requests us to announce that the Donley County Singing Convention will not be held at Brice, as understood. So many of the young men have joined the Army and the people are so busy that it will be necessary for some other point to entertain the convention.

Manager Benedict of the local telephone company is a very busy man since Joe Holland left his employ to join the Signal Corps of the Army. Mr. Holland is a deserving young man and during his seven years' service here with Mr. Benedict made many friends who wish him well and hope for him a safe return from army life.

W. W. Moreland, a substantial farmer of the Martin community, was here Saturday and dropped in at The News office to get acquainted with the editor. Mr. Moreland was kind enough to say that The News was improved and that he and his family were highly pleased with its content.

Mrs. Myrtle Read, who has spent the past few years with her sister, Mrs. Geo. Medley, returned this week to her home in Philadelphia, Pa.

Miss Rose Muir left this morning for San Antonio, where she will visit friends a while before school opens.

FORMER CLARENDON WOMAN BANQUETED

Mrs. A. J. Williams, about whom the following article was written, is a former resident of this city and was prominent in church and social circles. The article is taken from an Aberdeen, S. D., paper:

Mrs. A. J. Williams, elementary superintendent of the Methodist Episcopal Sunday school and Brown county elementary superintendent, was the honor guest last evening at a banquet in the basement of the Methodist church.

Sharing honors with her was her immediate family, as they leave today to make their home at Vevay, Indiana, where Mr. Williams will engage in the furniture business.

Since coming to this city to make their home, three years, Mrs. Williams has been active in church work and especially the elementary department. She is an expert in organizing, promoting and keeping up juvenile interest in church work and has devoted a great deal of her time to it.

"She has devoted more than half of her time to her work here," said Mr. Kemper, Sunday school superintendent, yesterday, "and I daresay more time than any other person in the whole department. A great part of the success of the elementary department is due to her efforts."

She was the first primary superintendent, then junior superintendent, then intermediate superintendent, and for the past year has held the responsible position of Brown county elementary superintendent.

Mrs. Williams was presented with a beautiful lavilliere set with pearls and sapphires, a gift from the teachers and officers of the Sunday school. Mrs. A. W. Giddens, her mother, was given a handsome traveling bag as a gift from Mrs. George Fish's adult class, of which she is a member, and little Miss Norma Williams was presented with a souvenir spoon.

The banquet courses were served at six-thirty and covers were laid for sixty-five officers and teachers. Green and white, the elementary colors, were used to decorate the rooms and tables.

George Kemper was chairman of the toast program and opened the afternoon speeches in his usual happy vein. Following is the program of toasts:

Our Loss—Mrs. H. F. Waring.
Their Gain—Mrs. C. M. Barnes.
Her Works—Miss Carrie Buttolph.
How to Perpetuate Her Work—Miss Valley.
Her Mother—Mrs. George Fish.
Her Daughter—Miss Gretta Cocking.
Her Husband—W. Thirsk.
Our Wish for You All—Prof. A. N. Wray.

Mr. and Mrs. Williams and daughter and Mrs. Giddens had planned on a very quiet departure, but the Sunday school workers learned of it in time for the banquet last night.

Mr. Williams has been engaged in the real estate business here and also has had charge of the Dakota Cereal Company for Mrs. Blanche Bushnell.

DAIRY BURNS

Monday night about nine o'clock fire broke out in the Jersey Dairy just north-east of town. The loss is something like \$500, but is mostly covered by insurance.

Mr. Alexander says that he has wired for a new separator and aerator which will arrive soon; therefore he will be well equipped shortly to serve his patrons as usual.

Miss Zelma Ritchey of Amarillo came down Friday to be present at the farewell dance given for the soldier boys.

Mr. and Mrs. A. A. Robinson and family left Sunday for Olney, Texas, where they will make their home in the future.

Eating Up Money

Insurance Protects Your Estate

It is better to stand a small loss, which is the amount that Insurance cost you, year by year, and which is the price of protection—than to stand, day by day, under the shadow of a great loss, the destruction of your home or business, which might mean your financial ruin.

If you buy Insurance, avoid trouble by having it written by those who know how.

FEDERATION OF THE CANNING CLUBS OF DONLEY COUNTY

A meeting for the federation of all the Canning Clubs of Donley county is called to meet at the county court house Saturday, September 8, at 1:30 p. m.

A program of speakers will be published in this paper next week. The membership of every canning club in the county is urged to come out in numbers to this meeting. The women of Clarendon are especially urged to come to this meeting.

Capt. Bell and wife, of the 7th U. S. Cavalry, stationed at Ft. Douglas, Utah, and assistant U. S. mustering officer, together with First Lieutenants Bruce and Standifer of the U. S. Medical Corps, examined physically, also inoculated and vaccinated, Company B, 7th Texas Infantry, stationed in our city, Tuesday and Wednesday. Out of 147 men examined only three were rejected. All of the commissioned officers passed.

Mr. M. F. Robinson treated the soldier boys to a load of watermelons and five bushels of peaches last week, all of which was very much appreciated and enjoyed by the boys.

Helping You Hold Your Crop

Our membership in the Federal Reserve System gives us special facilities to help the farmer hold his crop until he can obtain fair prices for it, instead of rushing it to market.

We can secure funds for this at special rates from our Federal Reserve Bank on loans secured by warehoused agricultural products.

Before you market your crop come in and talk the matter over with us. We are in a position to save you some money.

U. S. ARMY MAN HERE TUESDAY TO GIVE FINAL EXAMINATION OF MEN IN COMPANY B

Capt. Wells, Lieuts. Bruce and Standefer and Private Rubinsky of the regulars, U. S. A., were here Tuesday of this week to complete the examination of the members of Company B, who are in camp at this place. The examination will be very exhaustive and will be the last one under which our boys will be expected to pass. The Bertillon system of measurements and the finger prints of each man will be entered on the permanent records of the Army. This will save a lot of time when the men arrive at Camp Bowie, and right now the Government isn't wasting any time.

CANNING CLUB

This is to inform all members of the several canning clubs in this county that the lady agent who will give instructions in club work will be here Monday, September 3, and each club in the county will please arrange the time you can use her and either phone or write myself or Mrs. J. D. Stocking, and we will arrange the dates so as not to conflict with dates of other clubs. So please notify us at once.

Clarendon College Section

Equipment

We have the equipment to do satisfactorily all the work that comes within the sphere of a Junior College.

The Library is well stocked with general reference books, reports, standard readings, etc. This winter there will be a full file of the leading magazines and papers. The student can well spend his spare time there preparing not only on the particular assignment, but giving himself a general course of readings. Many of our greatest men owe their success to this. We have the library for such readings and hope that the students will avail themselves of the opportunity. The Library will be open daily during school course.

Our laboratories in Physics and Chemistry are well provided with all essential apparatus for work in the first year College courses in these lines. The students in the High School courses have the same Laboratory and hence is greatly to their advantage where such training can be secured. In any science course the most vital part is the Laboratory. Unless it is stocked with the proper equipment the course is largely useless. We plan to add Biology and Zoology in the near future so a student can complete all the pre-medical work before entering the medical department at Galveston.

The Art, the Domestic Science and the Music Departments are well fitted for the work in hand.

From the viewpoint of buildings, the College is better equipped than ever before. The new dormitory will house 90 boys, giving them every comfort that the best home can offer them. The girls' hall has been retouched on all floors and is in appearance new. Both splendid brick buildings will last for generations. The Administration Building stands a landmark over the plains as an emblem of all that a college education means and a challenge to the youth of the land to seize their opportunities so near. Ofttimes we are so surrounded by opportunities that we are blinded by the very shadows that we hunt elsewhere for what is in our very yards.

Expenses

The expenses at the College have always been kept moderate for the service rendered. It is not the purpose of the school to make money, but to charge just enough to give first class service and pay expenses. It is the plan to put all of the money that is donated into improvements and use all of the money paid by pupils for the running expenses.

The cost to attend Clarendon College is far less than some schools not near so good.

None of the fees nor the tuition in any of the departments have been raised, though the price of nearly everything else has advanced. \$258 will pay for board, room rent, light, heat, tuition and all fees except chemistry and physics for a girl for a full year.

Considering the service rendered, this price would be difficult to duplicate. The only reservation in these prices is, should the authorities be unable to give table board at the advertised price, right is reserved to raise this should it be found that it costs more than the price advertised. It is not planned to make a dollar off of the table board.

Teachers Certificates

Beginning with this fall the College will have the authority to issue First Grade Certificates valid for four years with the regular option as now in force, to extend and raise them.

The following students by attending the College one year, completing the course of education and twelve hours of other work, will be given this certifi-

cate: Graduates of high schools having the regular eleventh grade work from affiliated or approved schools. In case you are in doubt whether you can enter and secure this you can find out immediately by phoning or writing the Dean of the College. By eleventh grade work I mean schools that require as much as fourteen standard units for graduation. Of these units the following are required: English 3, Mathematics 2½, History 2, Language 3.

No person should attempt to teach that has less training than these requirements. This is just the completion of the freshman work of a university.

If you contemplate attending any school either for certificate work or regular college work, Clarendon College stands ready to offer you the best in training to be had.

Many students, on account of sickness or other reasons, have not been able to keep their course regular in the high school. You may be behind some, and advanced in other studies. The College has such a schedule that you can very easily adjust all these conflicts and even your course by attending here. Her extensive laboratories in both Physics and Chemistry will enable you to do most thorough work in these lines.

College Preparatory Course

This sketch should be of interest of many students at the present time. A time when a year or more of school life means so much in the affairs of men.

Students who are just entering the high schools of the country in general spend four years pursuing the regular course before graduation. Many of them—most of them—intend to continue their education further. Hence to a certain extent the high school course is preparatory to the college course, somewhere.

Clarendon College offers to students who are of sufficient maturity the opportunity of doing the high school course entirely in three years' time, thereby saving a year. In case of boys, this is a great item. Because with the war preparations that are being executed many have to drop out of school before completion of the course. By taking this way a year is saved to apply on the college course. This means much, as is attested by the Leon Springs training camp. College men, even though they had only one year, were given the preference over just high school trained men. Clarendon College is proud of several of her men who entered the camp and now are commissioned officers in the Reserve Army.

To the immature student I would advise the four year course even in the College. But to the student of average ability and more, I would suggest that you find out from the College authorities what you can do, and if a year can be saved for you to put in on college study, it is to your interest to do so. Parents, you owe it to your children to help them in the selection of their school as well as their course of study. You want the best for them in every way. Clarendon College is equipped in every way to give them as good as will be found in Northwest Texas.

Music Students Attention

If you plan to pursue the study of music this winter, or any line of the fine arts in the College, it will be greatly to your interest to do your literary work there also. This will save the walking so far and you can be in the building at any time for other work the director of the department may want. As to Art students—all time you do not spend in your classes or library you can devote to work in the art studio,

thereby gaining much time.

Another marked advantage of this arrangement comes in this respect. You can then arrange for your lessons at any time of the day or the time most to your convenience and liking. Otherwise you might have to come at an extremely early or late hour.

If you are interested in this arrangement, it would be well to call the Director of Music or the Dean of the College.

Vocational Guidance

A new course will be given in the College this year, called a Vocational Guidance Course. The aim is to acquaint the students with the advantages and disadvantages offered by every occupation open to either men or women. No attempt will be made to select any calling for a student, but merely equip him to select wisely. Two books to be used by the girls are: "The American Woman and Her Home," "The American Girl in Every Phase of Her Activity." The books for boys will be along similar lines. Every boy and girl needs this work.

Besides this general vocational course, the College offers strong vocational training in the following lines: Domestic Science and Arts, Art, Music, Voice and Expression. Completion of any one of these courses enables a student to enter life and support herself. It is to your interest, parents, to have your children in a school where this practical and cultural work can be carried along with the literary work. Both departments under specialists.

Standing of Clarendon College

The high grade of work being done in Clarendon College, both in the Literary and Fine Arts Departments, has won full recognition from abroad. Such schools as the University of Texas, Chicago University, Southern Methodist University, accord our graduates full Junior standing. The A. & M. of Texas will also give our work full recognition, thereby enabling a student going from here there to give all his time to technical work. The College is equipped better than ever to maintain this high standing.

The Faculty

Beginning with the high school work, every teacher has as much as an A. B. degree. Some of them have the Master degree. Besides this extensive training, they have all had several years of successful experience. In fact they have been chosen not only for their thorough training, but their demonstrated ability as teachers. The two new teachers in the Literary Department are Miss Mamie McLean and Mr. R. L. Boger.

Miss McLean is a well known teacher in Clarendon. Because of her splendid training and superior teaching ability, she has been brought back to College and given the chair of English.

Mr. Boger has been dean of the faculty of Alexander College for three years and could have stayed indefinitely in that position, but preferred to come here on account of the standing of the school. Another school offered him a considerable advance in salary, but he told them he was honor bound to hold his position here. The indications are that Mr. Boger is a splendid all-round man, and will prove to be one of the strongest men in the faculty. The other literary teachers have been in the College for some time and have demonstrated their ability as educators.

Pres. Geo. S. Slover took his Master degree at

Southwestern University, took theological work at Vanderbilt University, and has been a life long student of human nature and books. For years he has been a successful pastor, pastor-evangelist and church builder. During his administration, extending over ten years, the school has developed from a thirteen-unit academy to a standard Junior College of general recognition. The Fine Arts department has developed from a small enrollment and a small corps of teachers to an enrollment of over two hundred and a faculty of eight. The work in this department is standardized and has recognition the same as the work in the Literary Department. Such conservatories as Oberlin are glad to get our pupils and give them credit for work done. During this administration over \$100,000 have been spent in buildings and equipment, until Clarendon College is one of the best equipped Junior Colleges in the country.

Dean S. H. Condon, who has been with the school several years, has the A. B. and A. M. degrees. He is a splendid instructor and is regarded by all who know him as one of the leading educators in the Panhandle.

Rev. S. E. Burkhead is the oldest and youngest member of the faculty. He is oldest in years but youngest in spirit. He has been a strong educator in Texas for a generation. Literally thousands point to him as their former instructor.

Mr. Gribble was with us last year and made good all along the line. As disciplinarian, teacher and athletic coach, he ranks high.

Miss Mary McLean, the lady manager, is a teacher of unusual ability and no school has a better manager and associate with its girls.

The teachers in the Intermediate and Primary Departments are women of training, age and experience. Mrs. Gatlin, who has charge of the primary work, has been with the school two years and has made a splendid addition to the faculty. Mrs. Burton has been with the College for years and is regarded by all who know her and her work as one of the best teachers in the Panhandle.

Miss Ross, the art teacher, has been with the school several years. Her work shows for itself. She has quite a number of her pupils that are successful art teachers all over the Panhandle. Her work will rank well with that done in any school in Texas.

Miss Chism is one of the most popular teachers in the school, as is evidenced by the large enrollment in her department every year. She is a graduate of the Curry School of Expression, of Boston.

Mrs. Eula H. Campbell will have charge of the Domestic Science and Domestic Arts Departments this year. She is a mature woman, has splendid native and acquired ability. We predict that these departments will be well patronized this year, as the demand for this class of work is increasing all of the time.

It can be seen at a glance, from this array of teachers and those whose names appeared in the last issue of this paper, that we have the best and costliest faculty that has ever been in Clarendon College. This means that the College needs all of the possible patronage, in order to keep such talent from year to year. This talent can't be held from year to year when other schools will give them several hundred dollars per year more.

Military Training

We call your attention to the fact that we have arranged for military training. This will alternate with athletics and will cost only \$2.50 per term to those who attend the College; \$5.00 per term for those who are not in attendance at the College.

Fall Term Begins Tuesday, Sept. 4

The opening exercises will be had Tuesday morning at 10 o'clock. The public is cordially invited. All of the pastors are invited to be on the platform.

NOTICE.—Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publisher.

The Claude News reports the "lid on" in that city. The county attorney has notified all cold drink stands and garages that no more cold drinks, cigars, gasoline and auto accessories may be sold in Armstrong county. That is a good move. People who use these luxuries on Sunday could arrange to get them on Saturday just as well and the cold drink and garage people are entitled to a day of rest just the same as any one. No man ever made money by working on Sunday and the Nation stands in more danger from Sabbath desecration than it does from the German kaiser. Through the countless ages of the world's history nations have stood or fallen according to their reverence for God and the Sabbath. People and nations cannot violate the sanctity of the sabbath without reaping a just and sure punishment.

Like most people, The News has its opinions, and still more like them, we occasionally express what we opine. From years of observation we believe that dancing is more of an evil today than it was in former generations, when there was no permissious hugging and when all the figures were majestic and stately. The low standards of morals and modesty of the present day can be largely attributed to the modern dance and it is a matter to be truly thankful for that its pernicious influence has not yet reached our smaller centers of population to any great degree. But it will reach even Clarendon, if this and succeeding generations give it careless sanction. Less of it means a better Clarendon.

While most of the friends of good government in Texas are rejoicing over the fact that the house moved to impeach the governor by a large majority, it is well to keep in mind that the trial brought out some very derogatory facts about some other public men in the state government. It doesn't make any difference with The News whether a man is a pro or an anti, if he is a public servant guilty of wrong doing he deserves the penalty of official and social ostracism. Let Texas be a state where the servants of the people will deem their offices an honor and where public opinion will not permit of their walking in devious and dark paths.

The News wants to urge again the great importance of Donley county having agricultural exhibits at the fairs this fall. Our county agent, Mr. Kennedy, is anxious to get in touch with the farmers who will assist in furnishing the ribbon winner products and our business men ought to stand ready to raise whatever sum of money is necessary to ship and display the collection. We face an unprecedented opportunity this fall to win the premiums and give Donley county the best advertising she ever had. There are enough live wires here to do it and we believe it will be done.

Once again the trouble with negro soldiers at Houston has proven the utter mistake of stationing negro troops in the South, especially when they come from the North, where the white man is willing to grant him more privileges than it is possible for him to attain here in the South. The people of the South will not abide insolence in the black man, it makes no difference where he hails from or what uniform he wears.

Marquis Conservatory of Music Opens Tuesday

The Marquis Conservatory of Music opens for student enrollment on the thirtieth (Thursday) and the teaching begins next Tuesday. The Conservatory offers special courses of study in pianoforte, violin, band instruments and the theoretical subjects of music. Student and artist recitals are features of the advantages given along with choral and orchestral training.

Miss Marquis, director, and her able assistant, Mr. Larson, have taken the lead in bringing the best musical compositions written for violin and piano before musical audiences in the Panhandle. Their teaching and public work have no equal other than that of Carl Venh and Hans Richard in Texas.

MISS ROSA ADELAIDE MARQUIS

Miss Marquis is a native of Greencastle, Indiana. She received her earliest musical instruction from her father, Professor Emanuel Marquis, well known throughout the East and Central States as a pianist, composer and musical critic.

After several years of pianoforte study with her father, Miss Marquis entered the senior year of the De Pauw University School of Music, Greencastle, Indiana, where she was a pupil of Professor Walter Howe Jones, concert pianist. Miss Marquis studied harmony, canon, fugue and composition with Professor James Howe, of Boston, Mass.

Miss Marquis is a graduate of De Pauw University School of Music and was a teacher in the same school for six years.

Later, she studied piano in the Chicago Musical College, and continued the study of the theoretical musical subjects with Professor Louis Falk, Adolph Koelling and W. S. B. Matthews.

In Berlin, Germany, Miss Marquis was a pupil of Madame Cornelia Rieder-Possart, concert-pianist. At an early age, Miss Marquis began the study of the violin with the Russian master, Prof. Berth Zerkovsky.

After careful training under his direction, Miss Marquis became a favorite student of the famous Professor Simon E. Jacobsohn of the Chicago Musical College. In Berlin, Germany, her violin work was pursued under the personal direction of Herr Antin Witke, concertmeister of the Berlin Philharmonic Orchestra.

Miss Marquis taught for three years in the Birmingham Seminary for Young Ladies, Birmingham, Alabama. Was director of music for three years in the Louisiana Industrial Institute, Ruston, La. Was director of Music in the Illinois State School for the Blind, Jacksonville, Ill., for two years, in civil service.

The musicianship of Miss Marquis as concert soloist of pianoforte and violin, conductor of orchestras and choral unions is marked by unusual success. Responsible positions as teacher of the pipe organ and as church organist have been held by Miss Marquis.

Her work bears the highest commendation of her teachers and other well known artists, including the late Emil Liebling, concert pianist of Chicago.

In Pianoforte technic, Miss Marquis adheres to the principles of Professor Theodore Leschetizsy, and of the Ottakar Sevcik method in violin technic.

MR. ARTHUR LORIN LARSON

Mr. Larson was born of Scandinavian parentage in Ellsworth, Wisconsin. He gave evidence of musical talent when a youth. The serious study of the violin was begun in St. Paul, Minn., and through efficient training Mr. Larson became first violinist in the Grand Forks, North Dakota, Symphony Orchestra, with which organization he traveled.

Mr. Larson is an artistic player, a conscientious teacher, and enters into the different phases of musical study

with rare enthusiasm. He has devoted much time to the study of musical theory and piano.

Mr. Larson is strongly recommended as a gentleman of sterling Christian character, affable manner and excellent musical training. He is an exponent of the Sevcik Violin Technic. Announcements will soon be made of the Lyceum and Artist Concert for the season.

It is an acknowledged fact that the place to obtain the broadest musical culture is in a conservatory of music where one is brought in contact with artist teachers, and pupils who are eager to obtain special instruction in a systematic manner.

REAL ESTATE BARGAINS

640 acres grass, fenced, big well and tank, lots of water. Can deliver now. Only eight dollars per acre; short time; all cash.

220 acres three miles from Lelia Lake. 135 in cultivation. Five room house, sheds and granary. Good water. Grass land is rolling but good. \$30 per acre, half cash; balance to suit. 8 per cent.

100 acres, only half mile from good school, about 5 miles from town, all level. Ten acres grass, ninety acres cultivation. Good peach orchard, fine water, only fair improvements. \$45 per acre, all cash. Crop will likely make over 100 tons grain. Crop and place all for \$6,000. Only offered short time. One of the best small places in the county.

160 acres cotton farm. Can all be cultivated. 130 now in maize. This is dark low valley land next to the creek. Two good wells of water. Sheds and horse and cow lots. Two room house. \$45 per acre cash and terms to suit. Two miles from Lelia Lake. Two miles from big brick school. Good hard road to town. Will make some man who wants to grow cotton and feed an ideal home. Owner was offered \$40 per acre, nearly all cash, by a home man for this place only last week. It will sell.

The Best Farm in Donley County

Nearly 400 acres, 330 in cultivation. Two sets of improvements, one old 3-room house and one new 5-room house, tool house, granary, coal house, hog sheds, some fifteen acres hog-fenced. Improvements on this place cost over \$10,000, and all new except the 3-room house. 35 acres in wheat now up. This crop has good prospects for over 300 tons grain. Want to sell crop and land together. The year's crop and two more as good will about pay for the place. This is fresh land. No Johnson grass, and one of the best offers this county can make. Half cash; balance to suit purchaser at 8 per cent.

ANNOUNCEMENT AND CARD OF THANKS

This is to assure the patrons of the Jersey Dairy that every effort is being made to get our service back to normal since the fire and our new separator and aerator is being rushed to us by express. We are endeavoring to inconvenience you just as little as possible and ask your forbearance for a day or two longer.

We wish to express our sincere thanks for each and every one who hurried to our assistance during the fire which destroyed our dairy house last Monday night. We deeply appreciate your efforts and assure you that we stand ever ready to reciprocate should disaster ever come your way.
 Yours very truly,

I have secured the services of Leonard Reid of this city, who is a reliable auto and gas engine man, and will do good honest work and treat you right. I have also a full line of auto supplies and will appreciate you giving me a trial job of your work. L. C. JONES.

See Johnson & Stewart for plumbing and windmills, well casing, pipe working, barrels, etc.

GET READY

Now is the time that your hens will moult or shed their feathers. This process is rather slow and nature should be assisted. B. A. Thomas' Poultry Remedy will help your hens to moult, causing them to shed earlier and be ready to lay when eggs are highest in the winter. If this remedy does not make good, we will. TEMPLETON VOTES FOR IMPEACHMENT

Austin, Texas, August 24.—R. L. Templeton of Wellington, representative of the 124th District, composed of the eight counties of Collingsworth, Donley, Wheeler, Gray, Hemphill, Roberts, Lipscomb and Ochiltree, voted for impeachment against Governor James E. Ferguson on the 24th of August, after hearing all of the evidence. He stated that he received no personal joy or pleasure, but from Governor Ferguson's own testimony he was compelled to vote a disapproval of the governor's conduct in using the money of the state as his own funds, and in the many other unlawful, illegal and unwarranted practices that have grown up under Governor Ferguson.

While several representatives received especial pleasure in taking part in the downfall of a man because of personal dislike or political prejudice and gain, Mr. Templeton asserted that he did his duty, but was sorry that in doing his duty, he aided in bringing disgrace and ruin upon a man and his family.

NOTICE

To the Members of the Pannhandle Association and Friends:

Greetings: For business reasons I am going away, and if I am permitted to carry out my present plans, will return in August of next year, and I want to ask the co-operation of the members in filling up this Association, as you know there is a membership fee that pays for your trouble.

I regret to leave at this time. But again will thank you to still remain in the Association and be loyal to the cause. Address your communication to J. A. Ingram, who will be acting secretary. My address will be Yellville, Ark. Yours very truly, R. M. STONE, Secretary.

MUST HAVE LICENSE TO DRIVE CAR FOR HIRE

The following ruling of a law which is of general interest comes through the State Highway Commission, to which an inquiry was referred by the attorney general:

1. That even though a man runs his car only occasionally for hire, does not make a practice of it, it is necessary for him to have a chauffeur's license.

2. A man who delivers groceries for a grocery store and drives a motor vehicle in so doing will be required to have a chauffeur's license.

3. A man who spends any part of his time driving a car for compensation, wages, etc., or hire, will be required to have license; therefore, a man who works part of his time as a clerk in the store and delivers groceries the remainder of the time must be provided with license.

4. A man is required to have license where his principal business is delivering groceries, if he does so for compensation, wages, etc.

No one is allowed to obtain chauffeur's license unless he is 18 years of age, or older; \$3 per year; \$2 for the remainder of the year; application must be made to the state highway commissioner at Austin.

OPENING OF THE PUBLIC SCHOOLS

The opening of Clarendon Public Schools on September 10 instead of September 3, as announced in the Course of Study, will no doubt meet the approval of both patrons and pupils, as the weather conditions will in all likelihood be more favorable.

The prospects for a successful year for Clarendon Public Schools were never better. With prosperity at hand, and splendid outlook for the commercial interests of the community, there is every reason for expecting the educational interests of the community will be well provided for.

It is believed that the teaching force selected by the trustees to carry forward the educational affairs of the town are the equal, if not superior, to that selected by other towns of Texas. The teachers as a class have had splendid training, as well as experience in school work.

At the high school building Prof. S. W. Lowe, principal, will teach science and mathematics. Prof. Lowe's experience in teaching those subjects in both college and high school fits him for that class of work. He is a graduate of Simmons College, and has always been interested in athletics. He will have charge of school activities at the high school building.

Miss Ola Beaty will teach Spanish and Latin. Miss Beaty is a graduate of Baylor University and has been doing summer work at the University of Texas. She is regarded as one of the most successful teachers in this part of the state.

The history department of the high school will be under the instruction of Prof. S. W. Reeves. Mr. Reeves holds a degree and has done special work at the University of Texas. Several years ago he was principal of Clarendon High School for a time, but resigned his position to do work in the Philippines. He has had experience in both high school and college work, which, together with his training, have served to make him an effective teacher.

The department of English will be taught by Miss Florence Douglas of Dallas. Miss Douglas has taught English before in some of the strong high schools of the state and has had training in this class of work from the University of Texas. She comes well recommended, and good results are confidently expected.

The greater part of the intermediate work of the schools will be done at the high school building. This depends largely upon the demands that may be made by the primary work, after school opens. The teachers for this work are Misses Elizabeth Stevens, Frances Roach, Moena Lane, and Clara Bates of Groesbeck, Texas. The first two named above are well known for their excellent work last year. Miss Moena Lane has been very successful in her school work in the county schools, and Miss Bates comes well recommended.

At the primary building there has been only one change in the teaching force of last year. Miss Chloe Rector takes the place of Miss Ethel Stone, who resigned her position. The very satisfactory work done by the teachers at this building last year should be sufficient guarantee for the present year. Miss Margaret Willis is principal. The other teachers are Misses Maud Shaw, Millie Baker, Ineva Headrick and May Lumpkin.

While considerable progress was made last year at both school buildings in equipment of various kinds, greater things will be undertaken for the present year. We sincerely hope that parents and patrons generally will take a lively interest in school improvements, to the end that Clarendon Public schools may be kept as efficient as it is possible to make them.

Miss Merta Mae Houk, who is well and favorably known to the music lovers of Clarendon, will teach music and expression.

Patrons and pupils who may desire further information concerning the public schools of Clarendon will do well to secure a copy of the Course of Study for 1917-18, from the secretary of the board, J. S. Hayter.

GOLDSTON NEWS

Crops are looking splendid after the good rains. Everybody is feeling optimistic; no more blues out this way.

The norther that came up Monday evening made us think about old Jack Frost coming.

Surgey, are out on the Plains near D. A. Castleman and father, R. L. Hereford, doing some carpenter work for Mr. Lance.

Mrs. D. A. Castleman had quite an accident last Wednesday. She and the children and sister, Mrs. Veasey, started to spend the day with Mrs. S. Dilli and they ran into a washout and turned their car over. The funny part of it all is that no one was hurt, and Mrs. Veasey's baby never woke up.

The rest of the crowd was very much awake, but as they were not going to be beaten out of the trip, they walked the rest of the way. When they got there the news had spread, and it was not long until there was a big crowd with shovels and ropes, and with their efforts the little Ford was soon right side up again. Then all they had to do was to crank it, and away it went. Not even the flivver was damaged.

E. L. Moody and wife and little Margaretta left our community last Saturday for Decatur. We very much regret to see these good people.

Leck Goldston and wife, Alex Anderson, Ethel King and Vera Grant made a trip to Clarendon Sunday.

Frank Elmore has sold his place to Mr. Spitzer.

Rev. J. Y. Phillie has closed his meeting at Jericho, and has returned to his home in Jones county.

F. W. Bales and children visited the city Monday.

Mrs. C. W. Veasey's sister is visiting her this week.

Mr. and Mrs. Dilli spent Saturday and Sunday in Clarendon.

King Gore and Alex Anderson have returned from Dallas, after a two weeks' visit. They say Donley county looks good to them.

Alex Anderson and Miss Ethel King spent Sunday with Mr. and Mrs. Oscar Smith.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodford's the original and genuine. 21 79
