J. W. ROBINSON DEAD

J. W. Robinson died Wednesday after a long illness and was buried beside his only son Luther, in Ross Cemetery, Thursday evening. The funeral was conducted at the Methodist Church by the Pastor, Rev. S. L. Culwell.

Only two children of his family two daughters, Mrs. Van Jones, of Baird, and Mrs. Boon, of Brownfield, survive him. Both were present with him in his last days. The following old friends acted as pall bearers, Otis Bowyer, Frank Russell, W. E. Gilliland, Lee Estes, Frank Wheat and C. L. Gunn. Mr. Robinson was near 74 years old. Born in North Carolina, raised in Tennessee and lived in Baird for 30 years. Served in the Confederate army during the Civil war. Later a suitable memorial will be published. "The thin gray line" grows thinner and grayer each year and soon "taps" will have been sounded for the last one of as brave and chivalrous army as ever marched to battle.

Mr. and Mrs. George Carter, of Post City, are visiting here.

WILSON'S WORDS CLEAR UP DOUBT

CALIFORNIA THROWS OVER ITS
LEADER, JOHNSON, AND
RALLIES TO LEAGUE.

WEST GIVES HIM OVATION

All Doubtful Features of Pact Are
Explained Away By President, and
Former Doubters Hasten to Give
Him Their Support.

(By Independent News Bureau, formerly Mt. Clemens News Bureau.)

Aboard President Wilson's Special train—A continuous ovation along the Pacific coast and then on his eastward way back toward the capital was given to President Wilson as he came toward the end of his month daylong speaking tour in behalf of the League of Nations. California, particularly the delightful city of Los Angeles, went wild in its enthusiasm for him and his advocacy of the League, and it was in that state, perhaps, that he did his most successful missionary work. Hiram Johnson, California's former governor, now her United States senator, and considered by her as the most likely Republican candidate for the presidency in 1920, had before the arrival of President Wilson, convinced a great number of citizens that the League as at present formulated was not a good thing. He had told them that the United States, because of it, would be drawn into every petty European quarrel; he argued that we would lose our sovereignty by joining with the European nations. He had blamed the president for assenting to the possession by Japan of the Peninsula of Shan Tung in China.

BUREAU CHANGES NAME

The Mount Clemens News Bureau, which has been furnishing reports on President Wilson's tour in behalf of the League of Nations to 5,500 papers, has adopted a new name and will hereafter be known as The Independent News Bureau.

But Mr. Wilson, with clear logic and with compelling eloquence, answered to the entire satisfaction of California's people every objection which Senator Johnson had made to the League. And thousands of the state's citizens deserted the Johnson standard immediately and rallied to the sup-

port of the president. More than that, they came forward and said, "We were against you, Mr. President, but you have cleared everything up and now we are with you heart and soul." Still more than that, they let Senator Johnson know that they were no longer with him and that they disapproved of the speaking tour which he himself was making in opposition to the League and so powerful was the volume of public opinion which reached him, that the senator almost immediately abandoned his tour. The Shan Tung question, because of the anti-Japanese feeling which undoubtedly exists along the Pacific coast was the most serious which the president had to answer. He explained to the people that he had been powerless to prevent the rich peninsula from being given to Japan. England and France, through a secret treaty, had promised it to Japan for entering the war and remaining in it. That treaty had to be carried out. Anyway it was not China that was losing Shan Tung, but Germany, which had seized the territory from China in 1898 and held it ever since. Japan had promised, the president explained, to return Shan Tung as soon as the peace treaty was ratified and it was only through the ratification of the treaty with the League of Nations inclusion, that China could ever expect to get her former property back. And she surely would get it back, he declared, through the ratification of the League. Therefore, through the same instrumentality no other nation could again prey upon the "Great, patient, diligent, but helpless kingdom." As to our being drawn into any European conflict. The president pointed out that no direct action such as the sending of troops to any part of the world to maintain or restore order could be taken by the Council of the League without a unanimous vote of the council members, therefore our vote could at once negative any such proposition as sending our soldiers where we did not want them sent. Besides, Mr. Wilson argued, "If you have to quench a fire in California you don't send for the fire department of Utah." But, he argued, there probably never will be another war, if the League is established, for the members promise either to arbitrate their difference and accept the decision of the arbitrator, lay the differences for discussion and publication before the Council of the League for a period of six months, and then, if possible, accept the council's advice. That failing, they agree to refrain from war for a further period of three months and nine months of "cooling off," the president contended, would prevent any armed conflict. These clear explanations satisfied every reasonable

hearer and destroyed the bugaboo which Senator Johnson and others had raised against the League. Through rugged Nevada into Utah, the land of Mormons, the president swept to find that those fine people were heartily with him for the League and a permanency of peace.

Life

The simple lass.
The broken working man.
When life entered the door.
Only a gutter bum.
The woman who knew no
shame.

By W. Alexander Imlay

She was only a simple girl from the country. She entered the big city in the hope of earning enough money to give her the clothing of the fashion plate ladies and movie queens. Perhaps she came with the intent of making herself useful in the world.

She got a job. It was work, if that constitutes a job? She slaved nine hours a day behind a counter or possibly she stacked matches in boxes—no matter she got the job.

And the salary, magnificent—\$10 a week. The clerks in Perkins' store back home only got \$6 but then she was ignorant as yet you see.

So she drifted along until one fine night she found herself hanging over the railing of the river bridge, pocketbook empty, hungry—contemplating a leap from the bridge—or worse.

Then there is the working man. He knows no trade for he grew up in untrammelled America where one is permitted to do as he pleases. An indulgent father had not insisted on him learning anything useful. His mother upheld him in idleness.

Possibly the father went broke. Possibly he never had anything. At least we find our hero at forty, discouraged, knowing no trade, on the bum.

A bad season strikes his section of the country. He has no money, no friends. Then we find him—where?

Riding the rods to a better land, in jail and out, a knight of the chlder trail.

The poor man comes one dreary night to a cold home. He is out of work. He knows no friends. His children are huddled around a stove in which the last embers are dying. A small girl of four weeps for food.

A mother in the next room—there are two rooms—lies in a bed of old blankets and ragged great coats. She is moaning in pain.

A little life is to come into the world before many hours have passed. There is no doctor, no provisions. There is no fire, no light.

In despair the man goes into the night stumbling against the cold wind seeking assistance in his trouble.

There is a gutter bum who has no knowledge of how loathsome he really is. Drunken, abused, kicked and cuffed he dodges all human beings.

Like a trounced dog he avoids people yet he must seek them. At last he decides that he is down and out. He goes down the street with longing in his heart. He longs to tell some one how he despises self.

He has reached the turning point. Will some one hold out a hand?

Ha! ha! he laughs. He knows the world.

Then there is the woman without shame. Christ had compassion on her kind but she has come to think that no one else had. Harpy like she plies her way about the streets of the great city.

Her cheeks are incarnadine. Her soul is as red as her painted lips. Her eyes are as full of guile as the misshapen mind.

Unloved, much caressed, hunted, a prey upon society she comes to the last step down, then she finds god in her heart. Does anyone else find it?

So they run through the annals of life. But here is what happened.

The simple girl went to a clean boarding house and after a few years made good. She blossomed into a flower of pure womanhood.

The workingman went to working man's hostel. He was given shelter and clothing with food as the lowly Nazarene commanded. He learned a trade and became useful. He became a producer.

The poor man sent his wife to a maternity home where she received good care. His children were sent food, clothing and fuel.

The gutter bum was offered a chance at self rehabilitation. He made good. He quit drink, got a job and was useful.

The harpy was sent to a rescue home and became a woman. She who was old only in experience again learned the simple love of a child. She was saved for the world.

Each was saved through the Salvation Army and its organizations for mankind.

The prohibition enforcement bill, drastic provisions and all, has been adopted, section by section, by the house, but a man's rights to store liquor in his home stood up against all attacks.

Deportation of 513 enemy aliens for violation of various war statutes is proposed in a bill unanimously reported by the house immigration committee. The aliens are now interned at Fort Oglethorpe, Ga., and Fort Douglas, Utah.

THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO TRACK WAGON

Which Wagon?

The One that Fits the Road—or the One that Rides the Ridge

Recommended by the Government.
The standardized wagon fits the pre-
vailing track made by automobiles and
is the wagon you will want to buy.

This Wagon is Out of Date. This 60"
wide track wagon no longer fits the
roads when they are muddy and soft.

WOULDN'T you rather buy the style of wagon recommended by your Government,
especially when it is designed to pull easier, ride smoother, and last longer—the
wagon that fits the roads and does not ride the ridge?

The Standardized Weber "Auto-track" Wagon saves wear on itself, other wagons,
automobiles, and rubber tires.

The Weber fifth wheel and swivel coupling wagon is either sold at a price much too low
or most other wagons are sold at prices much too high, quality considered. Compare and draw your own conclusion.
To date the leading wagon manufacturers of America have sold at the most conservative estimate 100,000
standardized auto-track wagons. From this introduction it is but a step to universal use of this type of wagon.
Wouldn't you rather be identified with progress and recognized as an up-to-date farmer by doing your hauling
with such a wagon than to be classed as an unprogressive "back number" by buying a 60-inch wide-track
wagon, thereby helping some manufacturer and dealer to "unload" an obsolete type? Think it over—and then
come and see us about a standardized auto-track Weber.

The idea with some labor leaders seems to be "count that day lost in a strike against the Plutes is again."

We are not much interested in the next governor's race, but do not mind saying that Put M. Neff, of Waco is good gubernatorial timber, and believe that the man who defeats him will win the prize.

If all people would live up, strictly, to the Golden Rule, "Do unto others as you would have others do unto you." We would have no wars, no bickerings and strife among neighbors, no fights between labor and capital and of course no strikes.

Steel strike seems to be at a lull. Both sides claim that the innocent by-stander is the public—which has to suffer. This strife, is bound to end. The board have to foot the bill. The war is over. The Pacific way has been chosen. The public is entitled to all it earns. The capitalist, whether he be a big capitalist or a little capitalist, is entitled to what his capital earns. If all would keep this basic principle in mind we will solve our capital and labor disputes much easier and more satisfactorily to all concerned

The people of the South have a notion of the price of cotton in their hands and if they are wise they will use it. Plant less cotton and more grain each year and let these folks up North who think that cotton can be raised at less than cost of production, come down here and try it themselves. The Southern farmer has tried this for fifty years and failed.

The great railroad strike in England has been settled. The Englishmen makes an awful noise when things go wrong, but after they have expended all their wrath in wasting things out generally, they together and settle their differences and go on after the world is over. Hope we Americans can be successful in settling our labor troubles as our English cousins.

President Wilson made an urgent appeal to the leaders who were planning the strike among the operators of the steel corporation to postpone action until the Labor Congress which assembled on October 6th could act on this and other matters, but they flatly refused. Why? Is the interest of a few leaders in labor circles greater than the interest of a hundred million of people who suffer by reasons of these continued tie ups of mills, mines and factories?

* This is a critical time for either labor or capital to play a selfish game, that cause strikes, lock outs and throwing hundreds of thousands of employees out of work at this time when all are anxious, or at least should be, to hurry production in all lines so that the country can get back to a pre-war basis. We want to see everybody prosperous and happy, but this continued wrangle between employers and employees is breeding discontent all over the country.

The Minnesota wheat growers idea is that he ought to get \$3. per bushel for his wheat, but thinks five cts. per pound for cotton is about right. Let the Southern farmer abandon cotton raising when other crops will pay better and in a few years the Minnesota farmer will have to pay about \$3.00 for a shirt that he now pays about 75 cts for, but the tail of the \$3.00 shirt will be about ten inches shorter than the 75 ct shirt, but this will equalize the prices between the wheat and cotton growers and the wheat grower will find that it is not good policy to attempt to pauperize one class of farmers for some other class of farmers and others might learn a lesson too that will help solve our labor problems.

It is wonderful what great concern the Republicans in congress have so suddenly displayed about the Shantung provision of the peace treaty. Senator Lodge, Root, Borah, Sherman and a lot more were in office when Germany robbed China of this province some twenty years ago and they nor any Republican leader in this country did not utter one word of protest. Japan only secures Germany's concession with a promise to return it later to China, while these suddenly converted friends of China want the treaty amended so as to compel Japan to return the territory in dispute to China at once. Those who take this position must know that the nations at war against Germany will never consent to force Japan to relinquish Shantung to China. Back of all this foxtrot about Shantung is not love of China or hatred of Japan, but hatred of President Wilson and a desire to defeat all his work in Paris.

EULA LOCALS

Sept. 30, 1919.—Well Uncle Billie I guess you wonder what has become of Patsie. We will tell you the truth, I have been so busy I just have not had time.

Well, we sure are having plenty of rainy weather. Cotton picking soon will be in full blast, when the sun comes out.

Feed! Feed! We sure have it, and it is a find thing to have in the family. I don't see why we wont make lots of cotton.

Quite a bunch of men, 75 or more met at the Eula Cemetery and gave the yard a good working. You know where you see that many men meet at a place to help beautify a grave yard, it certainly speaks well for a neighborhood. Eula is always ready to do good to help her country.

W. B. Ferguson taken a bale of cotton to Clyde Saturday, it brought

him something over \$200.

Mr. and Mrs. Rod Kelton spent Sunday with Mr. and Mrs. R. P. Stephens.

J. F. Hampton tells me his cattle is sure doing fine. Grass is fine, hard luck has hit a great many who have not threshed yet.

Lee Smith made a business trip to Abilene Friday.

Gen. Gardner was in Clyde Saturday trading.

News is scarce, will ring off and write more next time.

FUNERAL OF MRS. MEYER

Mrs. Harry Meyer, who died at Alexander's Sanitarium in Abilene Saturday, October 4th, 1919, was buried in Ross Cemetery Sunday evening at 4 o'clock. Funeral services were conducted by Dr. John Collier at the grave in the presence of friends.

Mrs. Meyer had an attack of the flu last winter and had never fully recovered. She lived alone and was taken ill about a week before she was taken to Abilene. Friends cared for her as best they could, but when her condition became so serious it was thought best to take her to a Sanitarium where she could have the best of care, and Dr. Griggs took her to Abilene Tuesday afternoon. Mrs. Meyer's death was a surprise to her friends as none besides the physicians and nurses realized the seriousness of her illness.

Mrs. Annie Meyer was born in England, Sept. 29, 1849. Her maiden name was Gale. She was married in London to Mr. Wilson, who died Some forty years ago she came to this country with a party of friends, landed at Galveston and later moved to Bosque county. She was married to Harry Meyer at Ft. Worth Texas, on December 22, 1883.

Mrs. Meyer leaves property, real estate, money and personal property to the amount of something between \$20,000. and \$30,000. She told a number of friends that she had made her will soon after the death of Mr. Meyer, but to date no will has been found. Her heirs, if any, are living in England. Some friends do not believe she made a will, though she no doubt intended to and at various times had certain persons in mind whom she intended to remember in her will. She told a number of her friends this much. Other friends believe she has made a will, as she often said she had, but are puzzled to know what became of it.

T. E. Powell has been appointed temporary administrator and an inventory of the property is being taken, which will show what the estate is worth, provided all the stock, bonds and cash is located.

MORE RAIN

It began raining before day Sunday morning but cleared off in the afternoon, but started again Sunday night and Monday and Tuesday it kept it up at interval and cleared up Wednesday. Some claim that between two and three inches of rain fell at Baird. The rain was general all over the state and regular floods, with storms of wind and hail in places. Lamar county had a cyclone that destroyed much property, and one woman was killed. North of Big Springs hail killed some sheep and knocked the horns off a lot of cattle.

ROYAL FAMILY ARE WARMLY RECEIVED

BELGIAN KING AND QUEEN ARE WELCOMED ON ARRIVAL IN NEW YORK.

New York.—The king and queen of the Belgians, with Prince Leopold, heir apparent to the throne, were the guests of the United States in New York Thursday. They have come, as his majesty expressed it, to voice their gratitude and that of their people for the generous aid given them by this country when their nation was threatened with extermination.

The couple arrived in New York on the George Washington. She anchored three miles east of the Ambrose lightship. A flotilla of 12 destroyers escorted the George Washington up the bay to her pier at Hoboken. As the ship came up the harbor salutes of 21 guns were fired from the castle fortifications. In response the George Washington broke out at her masthead the flag of the Belgian royal family and the national banner. It was arranged for King Albert to leave the vessel and proceed to the reception-room between lines of American soldiers at present arms, and along a hall decorated with the flags of Belgium, the United States and the other allies in the war. Under a canopy of flags in the reception room the program called for the formal address of welcome by the vice president of the United States, and King Albert's reply to the greeting of the American nation.

Others in the official welcoming party at the pier were Robert Lansing, secretary of state; Newton D. Baker, secretary of war; General Peyton C. March, chief of staff of the army and Breckenridge Long, third assistant secretary of state.

HOUSE PASSES THE COLD STORAGE BILL

Will Not Have Much Effect on High Cost of Living, it is Claimed.

Washington.—After three days' consideration the house has passed the bill regulating cold storage in response to one of the suggestions of President Wilson in his message for reduction of the high cost of living. Many of the members say that the bill as passed will do practically nothing toward reducing the living cost and this is admitted by some members of the house agricultural committee.

The only essential change from the committee bill was an amendment to prohibit the placing in cold storage chickens until they had been drawn.

The bill was opposed by Representative Connolly of the Waco district, who contended in a speech to the house that the bill would bring an injury to the people and that practically its only effect would be to enable the operators of cold storage to relieve themselves of state regulation. While this is disputed by the sponsors of the bill, Mr. Connolly read to the house from a resolution adopted by the cold storage people showing one of the reasons why they desire the law was "in order to relieve the industry of the unnecessary annoyances and losses incidental to divergent state laws."

SIXTEEN PERSONS DEAD IN RIOTING IN ARKANSAS

Five White Men and Eleven Negroes Are Killed.

Helena, Ark.—Five dead and five wounded make up the list of white casualties so far as a result of the uprising of the negroes in the vicinity of Elaine, 18 miles south of Helena, which broke forth Tuesday and caused a reign of terror in the southern part of Phillips county until the arrival of federal troops from Camp Pike, sent to the scene on a special train at the request of Governor Brough. The number of known negroes dead stood at 11, one of them a woman, with others variously estimated at five to 15, reported to have been killed, but their deaths not definitely established.

Whitlock Ambassador to Belgium.

Washington.—The president has sent the following nominations to the senate: To be ambassador extraordinary and minister plenipotentiary to Belgium, Brand Whitlock, Ohio, now minister to Belgium. To be chief of naval operations in the department of the navy, with the rank of admiral, for a term of four years, Rear Admiral Robert E. Coontz.

Dallas Has Population of 167,584.

An increase of 14,804 is shown in the population since the publication of the 1918 directory. At that time the city was shown to have 152,780 inhabitants.

36 AMENDMENTS TO TREATY VOTED DOWN

SEVENTEEN REPUBLICANS JOIN ALMOST SOLID LINE-UP OF DEMOCRATS.

Washington.—The senate has swept aside in quick succession 36 of the 45 amendments which had been written into the peace treaty by the foreign relations committee.

The smallest majority recorded against any of the committee proposals was 15 and the largest 28. All of the amendments considered had been introduced by Senator Fall (Rep.), New Mexico, and were designed to curtail American participation in European settlements resulting from the war.

Of the nine amendments yet to be acted on, six relate to the Shantung section, two propose to equalize voting power in the league of nations, and one would limit American representation on the reparations commission. In the absence of a definite agreement for disposition of these proposals, senate leaders say that the debate might run on several days before another roll call is taken.

Throughout the voting the democrats presented a solid front against the amendments, except Senator Gore of Oklahoma and Thomas of Colorado. Seventeen republicans, on the other hand, lined up against the first committee proposal to be considered and most of them stood with the democrats on all succeeding roll calls. Many of them announced they were for reservations which they believed would cover the same ground without endangering the treaty.

SENATOR REED IS "EGGED" FROM ARDMORE STAGE

Cries of Derision Drown His Efforts to Make Anti-League Speech.

Ardmore, Ok.—Senator Reed of Missouri, was egged from the stage of convention hall here as he was being introduced by the mayor in preparation for his speech against the treaty and league of nations.

The crowd, more than 6,000 strong, went wild as Reed came on the stage, and all the light wires to the building were cut. Pandemonium broke loose and cries of derision howled him down, while the audience surged upon the stage. Reed attempted to hold the floor for a few minutes, but was forced to make his exit without beginning his speech. After several minutes of the demonstration, a number of women climbed upon the stage and quieted the crowd.

Some cool-headed citizen reached the middle of the stage where Senator Reed, Mayor Freeman and members of the reception committee were seated. He told them to "sit steady in the boat;" that if any attempt was made to leave the stage a riot might follow. Just at this point a bombardment of eggs began in a more or less steady barrage over the footlights.

MORE BLOODSHED IN ARKANSAS UPRISING

RIOTING NEAR HELENA CHECKED AND NORMAL CONDITION ART BEING RESTORED.

Helena, Ark.—While the situation in Helena is almost normal and virtual calm prevails in the southern part of the county, which has been practically a zone of negro insurrection since Tuesday night, sporadic clashes continue to take place.

Three negroes are reported to have been killed Friday in addition to two killed by soldiers near Elaine, making a total of 14 killed. Another negro is reported to have been wounded by machine gun fire.

Investigation of the disorders has begun by a "committee of seven," appointed by the civil authorities of the county with the approval of Governor Charles Brough. The committee is working in co-operation with the military authorities and will take testimony from negroes as well as white persons.

A statement issued late Friday over the signature of officials and prominent citizens expressed the opinion that normal conditions would soon be resumed.

A large amount of literature tending to show that the outbreak was due to propaganda circulated among negro tenant farmers, making rosette promises if the negroes would band together and arm themselves, has been taken possession of by military and civil authorities.

A large number of high powered rifles, shotguns and pistols in possession of negroes have been confiscated.

STORM DAMAGE WILL EXCEED \$20,000,000.00

Governor Hobby Renews Appeal to People of Texas to Extend Relief.

Austin, Texas.—Governor Hobby has made another appeal to the people of Texas to renew their efforts in raising funds for work of rehabilitation in the storm area. In order that the work may not be handicapped, the governor urges that ample funds be placed in the hands of the relief committee.

The governor issued the appeal upon receipt of a telegram from Mayor Gordon Boone of Corpus Christi; Roy Miller, chairman of the general relief committee, and Clark Pease, chairman of the finance committee, in which it was said that an actual survey will show the total damage to be in excess of \$20,000,000, the losses being suffered by persons in poor circumstances, who are now destitute and entirely without funds or credit to rebuild. Suggestion was made that the sum of \$5,000,000 should be set as a minimum for this purpose.

Funds so far received, the signers of the telegram said, are only sufficient to provide food and clothing for destitute people and to establish safe sanitary conditions.

TREATY IS RATIFIED BY FRENCH DEPUTIES

Franco-American and Franco-British Agreements Are Also Approved.

Paris.—Complete ratification of the Versailles peace treaty with Germany by both houses of the French parliament is expected very shortly, possibly within four days.

The debate in the senate is expected in parliamentary circles to be quite short, possibly not exceeding four days.

The chamber of deputies have ratified the German peace treaty by a vote of 372 to 53.

The chamber then took up the treaties between France and the United States and France and Great Britain. The Franco-American and Franco-British treaties were unanimously ratified.

A total of 501 votes was cast for the two treaties.

BRITAIN'S RAILROAD STRIKE IS SETTLED

WORK WILL BE RESUMED IMMEDIATELY AND NEGOTIATIONS TO BE CONTINUED.

COMPROMISE ON WAGE SCALE

Existing Scale to Continue for Year and Minimum to Apply During Present Cost of Living.

London.—With dramatic suddenness it is announced that the great railway strike, which appeared to have brought the country almost to the brink of revolution, has been settled, and that the strikers would resume work as quickly as possible.

The terms of the settlement are in the nature of a compromise. The National Union of Railway Men agree to call off the strike and the government consents to a renewal of the negotiations, the continuance of the existing wage scale for another year, instead of six months, as previously offered, and the establishment of a minimum wage of 51s while the cost of living is 110 per cent above the pre war level.

The settlement was the result of a long conference between a trade union delegation, including representatives of the railway men's union, and Premier Lloyd George and Andrew Bonar Law.

It is conceded on all sides that the settlement is the outcome of the moderate but determined efforts of the executive of the transport workers' federation and men like Arthur Henderson and John R. Clynes, who throughout have set their faces steadily against the idea of a sympathetic strike until every possible avenue of mediation had been explored.

NEGROES HAD PLANNED MASSACRE OF WHITES

Investigation Discloses Widespread Plot for Slaughter in Arkansas.

Helena, Ark.—Bands of negroes in southern Phillips county, of which this city is the seat of government, had planned a general slaughter of white people in this locality beginning the first of this week, according to members of the committee of seven appointed by civil authorities with the sanction of Governor Charles Brough, who announced that confessions made by some of the captured negroes and other information indicated a widespread plot.

According to these authorities the plot included a widespread uprising in the event certain demands were not met. With Oct. 6 set as the day for the uprising, negro prisoners are said to have confessed, each member of the organization at specified places was to pick a bale of cotton by that date, take the cotton to certain prominent land owners, plantation managers and merchants and "demand a settlement." The confessions, as announced, made it appear to the investigators that without further ado following this demand the blacks were to shoot down all whites in sight. A list of 21 names, admitted to represent the men to whom the demand would be presented, is in the hands of the investigating committee.

Killing of these 21, the prisoners said, was to be the signal for all members of the organization to attack the white population.

Questioned about their supply of shotguns, rifles and ammunition, negroes declared they often had been advised by speakers to "keep their racks full" and "if your rack ain't full, fill it now."

Fifty thousand rounds of ammunition were discovered in the branch normal school at Pine Bluff, Ark.

Bodies to Be Returned.

Washington.—Bodies of all American soldiers interred in Germany, Belgium, Italy, Great Britain, Luxembourg and Northern Russia will be returned to the United States as soon as necessary transportation can be arranged. Secretary Baker announced he had issued instructions for the purchase, storage and traffic division of the general staff to take charge of the matter, and to hasten it as much as possible.

MISSIONS NEEDED ALSO IN HOMELAND

SECRETARY GRAY OF HOME BOARD SETS OUT SITUATION CONFRONTING SOUTHERN BAPTISTS THERE.

\$12,000,000 IS GOAL SOUGHT

This Sum Will Be Laid Aside From Baptist 75 Million Campaign For Work Among Negroes, Foreigners and Other Projects.

While \$20,000,000 of the \$75,000,000 to be raised in cash and five year pledges by the Southern Baptists between now and December 7th will go to foreign missions, \$12,000,000 will be levoted to missions at home, it has been officially announced. Home missions is regarded by the Baptists as quite as essential as foreign missions, the larger sum being set aside for the latter cause by reason of the larger field to be covered—practically the entire world.

DR. B. D. GRAY,
Of Atlanta, Ga., Secretary of Home Missions for the Southern Baptist Convention.

"Twelve million dollars is a large figure when compared with what we have been doing heretofore," Dr. B. D. Gray, corresponding secretary of the Home Mission Board at Atlanta, declares, "but it is very reasonable in comparison with our ability and small in comparison with the needs of the Home Mission fields."

Setting forth the particular obligation which confronts America since the war has transferred the center of education from Europe to this country, Dr. Gray says: "This brings a new day of opportunity and responsibility to our people. Our schools and colleges must be strengthened and endowed. They must be made thoroughly christian in fact as well as in theory. In this way we are to counteract the vicious ideals of Germany and her allies in the world war. Our youth must be trained on proper lines as to religion and ethics. This can be done best in our denominational schools."

Some of the educational institutions fostered by the Home Mission Board are the forty mountain schools, serving 3,000,000 residents of the South living in mountainous territory where public high schools are lacking. Fully \$10,000,000 could be used to advantage in strengthening the equipment and teaching force of these schools, it is estimated, so great is the need.

Another demand of the home field is the 4,000 church organizations in the South which need assistance in the erection of suitable houses of worship, while more pressing still is the problem created by the presence in the South of 19,000,000 negroes. Speaking of the negro problem, Dr. Gray says: "They are of more vital concern to us than any hundred millions of people anywhere else in the world. Socially, politically, economically and religiously they constitute our greatest task and we neglect them at our own peril as well as their infinite loss. Racial relations are tense and the situation calls upon Southern Baptists for a worthy program in behalf of the religious uplift of our brothers in black. We must lead them in sane missionary and evangelistic work and likewise in the development of their religious life on sane and helpful lines. We need a large company of the best, wisest and strongest negro evangelists and teachers who shall help us to lift up their race and make them worthy and worth while as Christian citizens."

That work among the foreigners in the homeland offers the best and most economical opportunity for missionary labors among them anywhere, is the declaration of the Home Mission leaders. These foreigners are in the fields, mines and factories and are a vital part of our civilization. This

work among the foreigners not only gives them the christian religion, but makes them more contented and better American citizens, it is pointed out.

Great hopes for the future of the churches in the South are held out in the enlarged program of evangelism and enlistment which the Baptist 75 Million Campaign will make possible. The Home Board hopes to win from 300,000 to 500,000 people in the South who are not christians during the period of the campaign.

Constipation

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.

Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup and whooping cough. From a small beginning its sale and use has extended to all parts of the United States and to many foreign countries. This alone is enough to convince one that it is a medicine of more than ordinary merit. Give it a trial and you will find this to be the case. 34-5t-adv.

An Agreeable Surprise

Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy. 34-5t-adv.

CIVIC LEAGUE

The Civic League met last Monday, and despite the bad weather a good crowd was present.

The Soliciting Committee have secured a number of members, names will be published later. This committee deserves much praise for their work. They have gone in rain making house to house canvassing. Still some have not responded.

Many good plans have been suggested, but our first plan and aim is to see that the town is cleaned up. We need the cooperation of all and especially the City Council. The streets and side walks in the business part of town are filthy and hog pens are very offensive to shoppers. Those who are not able to have trash hauled we will have it hauled for you if you will have it piled in the alleys.

Our press is in possession of a letter from the State Health officer, who will assist us if necessary.

Join the Civic League. Clean up and quit spitting on the sidewalk, make Baird a town that you will be proud of. This means you. We will meet next Monday at 5 p. m. at the Sigal Theatre.

League Reporter.
