CLARENDON COLLEGE OPENS 20TH SESSION

Tuesday morning at 10 o'clock the twentieth session of Clarendon College opened with religious exercises in the college chapel. After singing "Come Thou Almighty King" the scripture lesson was read by Rev. W. W. Turner of Portales, N. M. and prayer was offered by Rev. J. T. Redmond of Clovis, N. M. President Slover then introduced Rev. C. N. N. Ferguson, presiding elder of the Amarillo District, who delivered the address of the occasion. The speaker reviewed the splendid work of the founders of the school and complimented the people of Clarendon and the Panhandle on the splendid equipment of the institution. Greatest of all he stressed the worth of President Slover to the College, blessing the day when a man of such extraordinary "horse sense" was placed at its head. This statement was received with cheers from the large audience. Rev. Ferguson went further in his exhortation to the young people enrolled for work to point out the tremendous opportunities now open to trained men and women and to urge that they avail themselves of every precious moment of their stay in college. He closed his address with a tribute to the memory of Dr. J. D. Stocking, deceased president of the Board of Trustees, who labored so faithfully for the upbuilding of Clarendon College.

President Slover then addressed the students and patrons on the plans of the government in the establishment of students Army Training Corps in the leading schools of the nation and predicted that the problem before Clarendon College was not meeting the first requirements but in taking care of the large number of students who will avail themselves of the opportunity of attending college at the expense of the federal government.

Dr. Jenkins, chairman of the Citizens Committee of Clarendon took the floor and in speaking of the comprehensive plans for the success of the Students Army Training Corps for Clarendon College, said that the business men of Clarendon guaranteed that every young man who came here would be comfortably and adequately housed and that the Citizens Committee underwrote whatever building expense it incurred.

After the announcements of class work in the various departments and the passing out of matriculation cards, "Praise God From Whom All Blessings Flow", was sung and Rev. J. W. Story pronounced the benediction.

With the very first day of school there were more boys enrolled and in the dormitory than at any period of last session and already the overflow is being taken care of in the private homes contiguous to the College. The girls dormitory is about full and the twentieth session of Clarendon College prom-

FUNERAL OF ALEXANDER BROY CLARK

Alexander Broy Clark was born in 1847, on the 13th of October in Patrick county, Va., and passed away on the 31st of August, 1918. Mr. Clark was converted and joined the M. E. Church at the age of twelve.

He was married in 1881, and to this wedlock four children were born, two boys and two girls, all of whom, together with his bereft wife, survive him.

In the death of Mr. Clark, the community has lost a good citizen and a good man; and his family a good husband and a father.

The funeral services of Mr. Clark were conducted by Dr. S. E. Burkhead and the Masons last Sunday afternoon, the funeral cortege being one of the longest known here for a long time.

Mr. Clark was an old and highly respected citizen of the Lelia Lake community, and his son, John Clark, is a citizen of our own town. The family and relatives have our profoundest sympathy in their loss.

CLAY-NORWOOD

Miss Irene Norwood, daughter of Mr. and Mrs. S. W. Norwood of this city was married to Mr. Tom M. Clay of Shamrock on the 18th of this month.

The ceremony took place in Shamrock at the home of the bride's sister, Mrs. T. J. Lyle.

This wedding was quite a surprise to all the relatives and friends as they were not expecting it just at this time.

Mrs. Clay has lived in Clarendon several years and has a number of friends who wish her joy and happiness.

Mr. Clay is not known here, but we are sure that he is worthy of the young lady who has chosen to journey through life with him, and he is to be congratulated upon his excellent choice of a life partner.

Rev. J. W. Story returned Monday from a very successful meeting at Fargo.

ises to be the most successful in her proud history.

Clarendon is solidly behind the College and her faculty and will do everything needed to be done to keep her in the front rank of Southern colleges and to make her servicable to the government.

CHRISTIAN MEETING

In spite of the rainy weather the Christian Meeting conducted by Elder Chism is going forward with gathering interest. The services are held at 10:30 a. m. and 8:45 p. m., and large crowds are enjoying the splendid preaching of Bro. Chism. Many who have heard him declare that he is the strongest preacher his denomination has had in Clarendon in many a day. His lectures of last week on the war and the prophecies were especially interesting and were heard by record crowds. The meeting will continue through Sunday week and all are cordially invited to attend.

HONORING MRS. MORROW

Mrs. F. E. Chamberlain was hostess to a few friends, last Friday afternoon, August 30th, honoring her guest, Mrs. W. D. Morrow of Dallas.

Conversation and knitting helped to pass a pleasant afternoon.

A dainty salad course was served to the following: Mesdames C. W. Bennett, A. L. Chase, A. R. Letts, F. B. Letts, J. L. McMurtry, J. R. Calhoun of Houston, W. H. Martin, Bob Younger, H. Glascoe, W. C. McDonald, Whitfield Carhart and A. N. McCardell.

BOYS' ENCAMPMENT A GREAT SUCCESS

The County Agent reports a strenuous although a good time at the Boy's encampment at the Word Ranch last Friday and Saturday. Mr. L. W. Hillman, county agent of Potter county, and Mr. Jno. R. Edmonds of College Station assisted Mr. Bennett in supervising the activities of the boys.

Thirty-three club members answered the roll call Friday afternoon, and immediately started in to divert the agent's attention into thirty-three different channels. The swimming hole proved most alluring but a ball game was organized late in the afternoon, only to be broken up by a light shower before the score could be officially counted. After supper, Messrs. Edmonds, Hillam, and Bennett each said a few words to the boys and initiated them into the Royal Order of Stuckups. Ghost stories and songs kept them awake till fairly late and men and boys turned in for a well earned rest.

County Agent Bennett snored twice, turned over once and opened his eyes in the glare of a lantern to be assured by six solemn-faced boys that one of their number was missing. He had been last seen near the water, and the agent spent a hard half-hour counting noses. The missing lad was finally located sound asleep behind some bushes much to the disappointment of the searching party. They quickly rallied, however, and enthusiastically suggested a snipe hunt in celebration now that the lost was found and no one was sleepy. Some of the boys had discovered, in the meantime that by tying one end of a rope to a saddle-horn and the other to the foot of a bunk that the bunk could be jerked from under and around the occupant and dragged across the grass-burs in one operation, so the snipe hunt was dropped and daylight found the agent a little the worse for wear but the boys still going strong.

The girls began to arrive shortly before noon and the boys left their games long enough for lunch, after which a group picture was taken. In a short business meeting Walter Moreman was elected County President of the boys, and Nolan Woods, secretary. Both boys are from Hedley. A vote of thanks was tendered to Mr.

COUNCIL OF DEFENSE FOR DONLEY COUNTY

Last Friday night at the Odd Fellows Hall a Council of Defense was organized through the efforts of John R. Emonds, who is district agent for the department of agriculture in the Panhandle and whose very special duty it is to organize such bodies where they do not exist. The council is under the control of the government and is made up of the heads of the various war activities in each county. After the matter had been fully explained the work of organization was entered into as follows: Tom F. Connally, Chairman, P. C. Bennett, Secretary, Publicity, Sam M. Braswell, Sanitation and Medicine, Dr. B. L. Jenkins, Food Supply and Conservation, P. C. Bennett, Military Affairs and Protection, J. H. Rutherford, Food Administrator, J. S. Hayter, Fuel Administrator, Frank Bourland, Four-Minute Men, T. F. Connally, Red Cross, Mrs. J. B. McClelland, Liberty Bond Campaign, Judge J. H. Oneall, Thrift Stamp Campaign, F. E. Chamberlain, Members at large, A. M. Beville, J. T. Patman, Mesdames E. W. Bromley, and C. A. Burton.

The object of the organization is to promote every phase of the government's plans and to secure concentration, co-operation and co-ordination in every campaign that comes up for our prosecution. This organization has done great work in other counties in eliminating slackers and hinderers and will no doubt take a firm hand in the coming Liberty Loan Campaign.

W. M. S. NOTES

The Womens Missionary Society will meet in social meeting with Mrs. Braswell next Wednesday, Sept. 11th at 4 o'clock. At this time we will have our barrel opening. All women of the church are cordially invited to meet with us and will all who have barrels please bring them. Reporter.

Prof. and Mrs. Gribble arrived the latter part of last week for their duties here during the school year at Clarendon College.

Mrs. D. O. Stallings and her daughter, Miss Fray, returned Sunday night from a pleasant visit with relatives at Hereford.

Word for his courtesy in providing the camping place and to Mess. W. E. Bray, O. Smith, T. L. Naylor, and Cecil Curtis for their help in transporting members to and from the encampment. Plans were made for the fall show in Clarendon and for the winter's work. The boys then turned the grounds over to the girls, who had a pleasant time in the creek. Mesdames Hillam, Barnes and Naylor finally conducted a tired but happy bunch to the waiting cars, when all voted for a big encampment next year with every member in every club present.

JEROME STOCKING GIVES INTERESTING COMMENT ON FRENCH LIFE

Somewhere in France, July 28, 1918.

Dear Family:
Somewhere in America mother lies sleeping. Somewhere at this hour father sleeps or perhaps drowns with an eye alert or reflexive to professional call. I hope neither may be disturbed till morning wakes you. At the same hour somewhere in France and in a French Courtyard, entirely beyond my pen for description, I sit and write in the open day. High rustic walls surround me and great iron gates close the threshold—gates venerable with age. On the lower facing and near the huge hinges some French child has made this inscription with chalk: "Vive L' Amerique." God grant it. Perhaps he will. I am seated at an archaic old table that has doubtless served in the refectory of a monk or at least it has seen service in a French wine garden within a stone's throw of where I sit. Without these stone walls France is redolent with roses and wild flowers. Within these walls that are hoary with moss there are walks and passages hedged on either side with heterogeneous bowers that would be impossible to even a humming bird.

In fine my very surroundings summon with force the fanciful imagery of medieval ages when the frugal touch of early masonry converted stone ledges into marvelous sculpture and beautified everything that touched his ancient trowel. Before me is the visible trace of the Ionic chisel, the Doric engraving tool and finally the full revelation of Corinthian column. Such relics as these startles ambitions throbbing that he might see some of the greater Galleries of Europe.

We are among a peasantry population. In this region women do as much towards producing a livelihood as the men. While harvesters are busy in the fields, women tend to livestock and poultry. They make perfectly good clabber cheese from goat's milk that is palatable to the taste. One day before we were settled in camp and before our full rations had reached us a comrade and myself ventured a meal in a humble French cottage. For two francs they scrambled us eggs with war bread and furnished us with clabber cheese, and set wine before us. Eliminating the wine the meal was a good one and the full particulars of the adventure offers a fine gem for a story.

Sunday is an interesting day here. On the Sabbath in this country there are beautiful bells that soothe the ear. They

FLORIDA MAN SAYS TROUBLES ARE OVER AFTER FORTY YEARS

Couldn't Remember when He Had Had a Well Day Until Tanlac Restored His Health Declares Samuel Lutz.

"When I started on Tanlac I hadn't seen a well day since I can remember, but now I feel as well as I did forty years ago," said Samuel Lutz, residing at 603 Park Street, Jacksonville, Florida.

"My liver and kidneys worried me for over forty years," he continued, "and I never felt as well and strong as other people. My back hurt most all the time, I was troubled with indigestion so bad that my stomach would swell up with gas and make me dizzy and short of breath. I was very bilious and suffered awfully with catarrh, so that I could never sleep to do any good."

"I am feeling so fine now, since I began taking Tanlac that I am going to take a trip to Baltimore, and I'm going to take my bottle of Tanlac right along with me. I never expected to find such absolute relief in any medicine as I have found in Tanlac. I am now beginning to gain back my weight and strength, my kidneys and liver are alright at last, my digestion is good, and I sleep like a log. I just feel better than I have in many years."

Tanlac is sold in Clarendon by Stocking's Store; in Hedley by J. F. Tomlinson Drug Co., and in Jericho by O. C. Brown.

NEW ORDER ON SALE OF FLOUR

The long looked for revision of the substitute regulations has now been made by the Food Administration the same having been received this morning:

1. The amount of substitutes to be sold with wheat flour has been reduced to twenty per cent. Sales will now be made on basis of thirty percent wheat flour and twenty per cent substitutes.

2. Retailers will be required to carry in stock sufficient barley flour, corn meal or corn flour to sell the required twenty per cent with each sale of wheat flour. Other substitutes are permissible on the same basis as follows:

Bean flour, rice flour, oat flour, feterita flour, potato flour, sweet potato flour, buckwheat flour, kaffir flour, milo flour, peanut flour.

Sell any quantity of flour to the substitutes list but must be sold on basis of two pounds of rye flour with each three pounds of wheat flour.

4. The thirty days limitation on purchases by wholesalers and retailers has been changed to sixty days. Wholesalers, retailers and bakers are now permitted to purchase sixty days supply of flour.

5. The purchase limitation on sales of six pounds per person per month has been entirely removed and retailers are now permitted to sell any quantity of flour to the consumer that he may desire, provided he purchases the twenty per cent substitutes.

6. The purchase rule of limiting sales in any given locality to seventy percent of previous sales to the same locality has been entirely removed.

Their tone is the full deep intonation of a brozen metal and I feel certain those bells were moulded in Spain centuries ago. I must close, though I could write more but I am a little tired. The main object of this letter is to establish a chain of correspondence. On July 22, I wrote you my first letter describing our voyage. SEARS ROEBUCK & CO.

Sears, Roebuck & Company have been found guilty of fraudulent advertising by the Federal Trade commission. They have been forbidden to circulate certain of their catalogs, with certain advertising that misleads and defrauds the public into buying goods that are not as represented. This company is especially forbidden to advertise that it will sell sugar below cost, in violation of the Food Regulations of the country at this time. It seems that patriotism is a minus quantity with that mail order octopus, so far as obedience to this patriotic war time regulation is concerned. The Company pleaded guilty to the charge that it had misrepresented facts to the public through their catalogs. It was also held that the fraud of this company constituted unfair competition under the law in that the public were misled into believing that they were securing goods at reduced rates, when the opposite was true. We hope many of the practices of the company and similar ones will now be made to stand out in their true colors. We learned long ago that all are not bargains that sound well in a small order catalog.—Ex.

The German Staff says their recent retreats have "been according to plan." That's right, but it has been Foch's plan.

The Fourth Liberty Loan Campaign begins Sept. 28th and runs until Oct. 19th. Donley County ought to finish its work in the first week. There is no use in wasting the extra two weeks.

The Claude News reports having a subscriber who pays his subscription to the home paper on his birthday of each year. That's not a bad rule, but some men are like some women—they never have birthdays.

It is reported that Milton Moody, former linotype operator on The News, but now publisher of The McLean News has already arrived in France. He left Clarendon only a few weeks ago and is another proof that America is drawing much closer to Europe as the great war progresses.

Our good friend, Ben W. Waid, has leased the Childress Index as Editor Fred Haskett goes to war, and will conduct same in the line of best newspaper traditions. Mr. Waid would be in France with a command now, but for the misfortune he had in losing a foot as he charged up San Juan Hill at the head of a company of negroes in the 10th Cavalry. Anyhow he is doing a man's work even if he can't go to the front. Childress people will like Mr. Waid.

Sometimes we see families that seem to be happy only while they are away from the family dwelling, visiting with a neighbor or gadding about town. This applies to parents as well as children and is a curse to any home. The happiest people in the world are those who enjoy their home life and these always welcome the time when business or other duties give them the privilege to turn their footsteps homeward, where they may enjoy the rest and confidence of the family. When the home with its family associations fail to satisfy and render happy then that person is to be pitied for there is little pleasure left in life for such a one.

This editor recently had the pleasure of attending a session of the Childress-Hall-Collingsworth-Donley County Medical Association. Some people have had violent prejudices against an association of business or professional men, but these prejudices are unfounded and ignorance of the purpose and activities of these associations is to blame for their opposition. The doctors simply meet to discuss the unusual cases that come in their varied practices, giving each other the benefit of their diagnosis and treatment with the resulting effect. The whole purpose of the meeting is for the public good and the public health and no man should for an instant hold any but the kindest feelings for these meetings which are for our mutual protection. So far as we have heard there has never been one word said about charges, or reflections made on any one's credit. All business and professional men should have associations and much general good can come of them where their members sincerely endeavor to profit by them.

Clothes for fall that save for you

They're ready now

There has been a lot said about the scarcity of good merchandise for fall and there's just enough truth in it so that it may have caused you some concern. Particularly if you appreciate the economy in good clothes.

You don't need to worry; we're ready with new stocks of

Hart Schaffner & Marx Clothes

they're all-wool, carefully tailored, in styles that make the best use of material and labor; these clothes save because they wear so long and satisfactorily.

We feel that we're doing a service by making this announcement at this time; it's a positive assurance to the men of this town who need clothes that they can come here and get the quality that saves.

Our usual high quality standards have been upheld in all of our furnishing goods; if you need a hat, shirts, hosiery, neckwear, you'll economize most by coming here.

Hayter Brothers

The Home of Good Clothes for Men and Boys

Like other people in this country we shall be very much pleased when the time is changed back to its former basis. Getting-up time is coming mighty early these days and by October the first the extra hour will make a wonderful difference.

The State Democratic Convention at Waco will no doubt go in record for statewide prohibition, woman suffrage, drouth relief and some changes in the present homestead law. It is also expected that the Terrell election law will come in for its most scathing rebuke.

We see our old friend, W. B. Mayes, a down-state newspaper man of wide experience and proven ability is now with the Canadian Record. Canadian is to be congratulated on his acquisition for he is a real citizen and will make a team-mate with Frahk Jamison. Welcome to the Panhandle, friend Mayes.

It does one good, who believes in team-work and co-operation to see with what unanimity the business men of Clarendon rallied to the need of the College in making the necessary cam-

paign for the establishment of the Students Army Training Corps in the local institution. Nothing can defeat such united effort.

Says Merkel Mail, editorially: "Give a boy an auto, a girl, and a dark night and it will take precious little gasoline to run them straight to hell." That's putting it straight and to the point. And it is the truth. No surer recipe for damning a life could be invented. And a good many parents are trying it out on their boys—and other men's girls. A good per cent of the crime that is committed is due to the neglect, or the blindness of parents. Some parents are so guileless, having been brought up years ago in a quiet rural community where vital religion was a dominant force, that they stand with open eyes and watch their children plunge into a gulf of everlasting grief. Other parents seem to have forgotten that a boy is at best an animal (and so is a girl). And, given the proper stimuli, the animal propensities of them both will reveal themselves. Love makes many people blind. It is no uncommon thing to hear parents say, 'but my boy won't do that

way' when the young devil has already done so shockingly that the whole community has him under discussion. One can easily imagine Daddy David saying 'Oh, it's all a mistake about Absalom being ambitious to get me out of the way!' But that did not change matters. If parents will make a practice of watching their own progeny as carefully as they watch their neighbor's and be as quick to discipline their own as they are to 'get hold' of their neighbors', a lot of wrecks would be spared the world.—Western Evangel.

Among the graduates of the Summer School of the University of Texas who were awarded the degree of Bachelor of Arts at the recent closing exercises of that school was George Ward Stocking of Clarendon.

Announcement

To My Friends and the Public Generally

I take pleasure in informing all my friends in Donley County and the Panhandle, and all that may be interested, that I have opened a real estate office in the H. B. White building, up stairs, and have also moved the County Treasurers office to the same place until the expiration of my term of office. I do not need to tell you that any and all business that you will give me will be fairly, promptly and honestly attended to.

If you have any land, houses or lots to sell or trade come to me, and we will do business.

WHAT YOUR SUBSCRIPTION MEANS

When you subscribe to a Liberty Loan you subscribe to the sentiment that the world must be made safe for democracy and subscribe to the fund that is to make the world safe for democracy.

You subscribe to the belief that innocent women and children on unarmed ships shall not be sent to the bottom of the sea; that women and children and old men shall not be ravished and tortured and murdered under the plea of military necessity, that nurses shall not be shot for deeds of mercy, nor hospital ships be sunk without warning, or hospitals and unfortified cities be bombed or cannonaded with long-range guns.

You subscribe to the doctrine that small nations have the same rights as great and powerful ones; that might is not right, and that Germany shall not force upon the world the dominion of her military masters.

You subscribe, when you subscribe to a Liberty Loan, to the belief that America entered this war for a just and noble cause; that our soldiers in France and our sailors on the sea are fighting for right and justice.

And you subscribe to the American sentiment that they must and shall be powerful, efficient, and victorious.

Music Lovers Amazed by Edison's Daring Test

All told 2,000,000 music lovers on more than 1500 different occasions have gone to one of their local theatres filled with curiosity regarding a startlingly novel musical recital which they were about to witness.

In each case they have come away amazed at the almost unbelievable demonstration which had taken place before their very eyes, and ears—the most daring test of a phonograph or talking machine ever made. They saw a noted Edison artist stand beside

The NEW EDISON "The Phonograph with a Soul"

They heard the instrument sing in the artist's voice—in other words, *Recreate* her voice. Presently the artist herself began to sing note for note with the instrument. Musically trained ears strove in vain to distinguish the faintest shade of difference between the actual voice and the Re-Creation. Then, suddenly and without warning, the artist ceased singing, leaving the instrument to continue the air alone. Only by watching the artist's lips did the audience know that she had ceased singing and that they heard the instrument alone. This is the famous Edison Tone Test.

Only Edison makes this test. Only Edison can make this test, because only the New Edison actually *Re-creates* the human voice and the music of human-played instruments with every tone quality and every shade of expression. Ordinary phonographs, and talking machines, merely reproduce.

If you have not been fortunate enough, to witness an Edison Tone Test, you may at least hear Edison's wonderful new phonograph at our store. Make the time to suit your convenience.

The Rexall Store

OUR STANDARD HAS BEEN SET

The mere purchase of a moderate amount of Liberty Bonds, and the payment of taxes without protest does not make up the whole duty of an American citizen today.

Something far deeper, further-reaching in its effect is called for than the lending or giving up of money under the pressure of popular demand or the attention of the tax collector.

We Must Reach a Higher Standard of Living.

We have lived altogether too much for ourselves; for material things. Henceforth our object must be slowly but surely to drive out the thought of self, and to so order our personal and business affairs that our Country, and the Great Cause for which the whole civilized world is fighting shall be our first consideration.

The possibility of bringing the great bulk of our people to such a frame of mind may be thought by some to be an empty dream. Such is not the case. Men used to every luxury that the world can afford, young men just starting out on a successful business or professional career, clerks from the department stores, boys on the farm, street laborers who have hardly learned to use our tongue, young women who might marry well and settle down to a life of comfort—these people in their thousands have seen that glorious vision of America as the Savior of the world, and of themselves as the instruments of that salvation.

Let Us Try to Rise to the Same Level

As have these men and women who have given money, future, life itself, to the service of their country. Let us lend our money to the Government as they have given their lives, cheerfully and fearlessly.

Let the requests of our Government which are published widely from time to time be regarded as sacred obligations. The Government has told us that the hardest work we are capable of, economy and sacrifice, are the great needs of the nation. Again, the Government has told us that the additional wealth we produce is needed for national expenditure and that

We Must Support the Liberty Loans

Just as the soldier persistently and consistently carries out orders, so must we.

It is only by following out the full scheme of the Government for us as individuals that we can do our duty. For instance, the man who has not worked hard, produced more than ever before, economized and saved, will not be able to meet the demands of the next Liberty Loan. It is now that we must be producing and saving for our Liberty Loan subscriptions.

Start working, saving, planning now for the Fourth Liberty Loan.

NEW VOTERS FACE GRAVE RESPONSIBILITY

Yes! you m'am—the wife of a farmer. You face a life-time of satisfaction or regret for the part you play in this great war.

You have such an influence over what your husband does, that the country is looking to you, quite as much as to him to see that the next Liberty Loan is over-subscribed.

You know how your husband consults you about everything, and—between ourselves—how he does pretty much as you say.

Tell him quietly, "I have been thinking about our duty to our Country and I feel we must make a great big sacrifice. We have never really been called upon to do anything for our Country until this war came, and we must respond now. Let's lend every cent we can spare, and can save during the next twelve months. Let's buy all the Liberty Bonds we can. I'll help you do it."

Yes m'am, you can do a wonderful work, and you will do it, won't you?

Century-Plainfield Tires

In buying tires, exercises the same good judgement you would in other affairs.

There are two very distinct ways that a manufacturer can build tires. One way is to put in plenty of good strong fabric, combined with the best rubber, which after 6,000 to 12,000 miles will wear out. This plan is known as **MADE UNDER THE WEAR OUT SYSTEM**. The other plan is to use material not so good and put in less fabric and rubber, which will cause the tire to blow-out in stead of wear out. This is known as **Made Under The Blow Out System**.

Century-Plainfield

6,000 Miles

Extra Size—Hand Made

"Tires Made Under the Blow-out System"

This plan is adopted quite general and with fairly good success, as the party using a tire when it blows out naturally thinks that it has hit some obstacle and takes the blame upon himself. This plan also covers a multitude of sins in the "Tire Field," as the tire is blown out and out of service on account of being too thin and weak in general, long before you have had a chance to find out how the Beads, Tread and other vital parts of the tire would really perform, had you been able to give them sufficient mileage to bring out the unseen defects or weaknesses. In general the skeleton of the tire is not strong enough to serve its purpose, and being absolutely contrary to the laws of nature.

"Tires Made Under the Wear-out System"

This plan is quite different as the tire is built for service and durability. The construction of such tires is heavy and strong not sparing the good fabric and tough rubber in any way. No doubt you have seen or had tires yourself that after they had run 5,000 to 1-2,000 miles, looked as they were worn out, tread pealed off in spots, fabric exposed in some places, and still you are able to run this tire 2,000 to 3,000 miles in addition or have it retreaded with good success. Century-Plainfield tires are made under the **Wear Out System**, of high grade material and workmanship, the common performance being from 6,000 to 12,000 miles of service and are fast becoming very popular among experienced automobile dealers and owners who have had more or less trouble with weaker and cheaper tires that are made under the "Blow Out System," blowing out after being run only a short distance.

SOWING AND REAPING

Attention was called to the general violation of the curfew law by our young folks, by the Grand Jury that was in session last month, warning parents of the dangers of letting the boys and girls run at large at late hours of the night unprotected by older people. They are sowing—the kind of seed we will leave you to judge—now some of them are reaping, and it is thistles, not lilies. It is heart-aches for mother and storm clouds for father—it is the prison bars for son—it is disgrace for the family, it is humiliation for the community—its a sad harvest for everybody.

The events of the past week, in which a number of Lubbock boys are mixed up in a charge of theft, burglary and the Lord only knows what else, has brought home the fruits of late hours on the streets and the result of the boys being away from home when their parents knew not where they were, nor what they were doing. Of course it is too late to mend the matter so far as those implicated in this particular incident is concerned, but for those who have not yet passed from the threshold of the home might be a good idea to put on the breaks a little tighter. The children will thank you for it in later years. We have offered up a prayer of thanks to our Heavenly Father a thousand times or more for the early training of a father and mother, who knew the dangers and impressed them on our mind when we were young, that has proven a blessing to us. Oh, for the mothers and fathers in this day and time that would take the same care of their children that those of years gone by have. The honor of the son was their daily prayer. The virtue of the daughter was their hourly thought, and their watchful eye was the protection that landed thousands of boys and girls safely into manhood and womanhood without a stain on their characters.

We hope that the incidents that have recently come to light in our own town will serve as a warning to parents—it shocks the community—but how could we expect less? We sow and we reap, we reap what we sow. This time it is bitter tears. May next time be honey-dew from the sweet character of the coming generations. May these be the refining fires that will cause us as parents to train our children rather than to turn them out on the bowery, trusting to luck for them to come into womanhood and manhood with characters and physical bodies like we would have them possess.

Sowing and reaping. Be careful of the seed you sow and you need not be afraid of the harvest.—Lubbock Avalanche.

CALIFORNIA BANK FOR "STARS AND STRIPES FOREVER"

The following letter, taken from a bankers trade journal of national circulation, is typical of the unselfish loyalty of the bankers of the United States as a whole, and bespeaks a policy that should be adopted in other lines of commercial endeavor:

"The First National Bank of Pasadena, Cal., May 2, 1918.—

"Mr. _____, Pasadena, California,

Dear Sir: We hold at the present time about \$60,000 worth of first mortgages belonging to you, on which we collect payments for you. We have held as high as \$90,000 of these. We know that you own stock here, and real estate in Iowa, that make you a well-off man. You are what a bank regards as a good customer; and we are indebted to you for past business.

"You have not subscribed to either First, Second or Third Liberty Loans. You are not a member of the Red Cross, and so far as we know, are not supporting your country in any way.

"You are not only a detriment but a menace to this community. This bank cannot afford to thrive on such business as yours. We have too many calls from patriotic citizens these days to be willing to extend credit to you in order that you may reinvest at from 7 per cent up. You will therefore please take up your small note of \$300 immediately; also call at the bank and receipt for your securities, and take your business to some bank that has money to lend to German sympathizers.

"Yours truly,
"J. S. Macdonnell,

SEPTEMBER 12TH REGISTRATION DAY

Saturday President Wilson signed the man power act, bringing all men in the United States from 18 to 45 years of age within the army draft and immediately afterward issued a proclamation fixing Thursday, September 12, as registration day.

An official estimate by the War Department Saturday placed the number of men who will register for military service on Sept. 12 at approximately 12,778,758.

This is on the basis of the last census and the figures in the opinion of some officers may be exceeded.

The estimated total number of males is 13,190,000, but from this number 410,000 is deducted to cover the men of the new draft ages already in military or naval service. Based on the ratio shown by the registration of men from 21 to 31, June 5, 1917, the shares of the new registrants expected in Texas is 846,187, and in Oklahoma 227,884.

"We solemnly purpose a decisive victory of arms," said the President, "and to devote the larger part of the military man power of the nation to the accomplishment of that purpose.

"It is the call to duty which every true man in the country will respond with pride and with the consciousness that in doing so he plays his part in vindication of a great cause at whose summons every true heart offers its supreme service."

The hours of registration will be from 7 a. m. to 9 p. m., and all state and local officials are called on to make immediate arrangements for maintenance of registration places on that day.

All men within the new ages whether citizens of the United States or not, must register unless they are diplomatic or consular representatives of foreign nations.

In case of illness on the registration day arrangements for tardy enrollment may be made with local boards and men who expect to be absent from their home may register by mail sufficiently in advance that the registration record reaches the board by September 12. If a man has no permanent residence he is to register at the place he is on September 12 and those out of the county on that day are required to enroll within five days after their return.

At least 13,000,000 men will place themselves subject to call for war service under new registration, it is estimated, although only those without dependents, in good health and otherwise qualified for arduous duties of soldier life are to be taken first.

Youths in their eighteenth year will be placed in a separate group, the War Department has announced, to be subject to a special educational program and will not be called until the supply of other available men in the new classes is exhausted.

In Donley County there will be registration booths open at Clarendon, Lelia Lake, Hedley and Jericho, and will open at 7 a. m. and close at 9 p. m.

DENVER AND I. & G. N. TRAINS WILL USE THE SANTA FE STATION

To relieve the crowded conditions at the Texas & Pacific passenger depot, all passenger trains of the Denver and International & Great Northern Railway, which now run in and out of the Texas & Pacific station at Fort Worth, will begin September 10, arrive and leave from the Santa Fe passenger depot, it was announced by the roads Monday morning.

Also the Houston & Texas Central railroad trains, which now run in and out of the Santa Fe depot, will be changed and arrive and depart from the Texas & Pacific station.

Other changes of this kind are expected if these are not sufficient to relieve the unusual congested conditions at the Texas & Pacific station.

NEW REFINERY NOW BEING ERECTED IN NORTH FORT WORTH

The Southern Oil Refining Association, Ltd., on August 12th began the construction of their refinery at North Fort Worth. The plant is located right opposite the Texas Company's North Fort Worth pumping station and loading racks and across from the Magnolia Petroleum Company's big refinery.

The plant when completed will consist of two five hundred barrel units. The management expects to have the first unit in operation by November the first and the second unit completed and in operation by January first.

The officers of the Southern Oil Refining Association, Ltd., include banking and business interests and leading oil producers. Every feature of transportation and the sale of finished products have been provided for. The officers of the company are: W. W. Alexander, oil producer and investment banker of Ennis, Texas, President; Geo. W. Dawley, an experienced refiner and marketer of petroleum products, of Fort Worth, Texas, Secretary-Treasurer; Robt. J. Caldwell, president Ennis National Bank, Ennis, Texas, Judge J. C. Smith of Fort Worth, Tex., H. C. McCarter of the Planters Cotton Oil Company, Waxahachie, S. C. Harrell, president Citizens State Bank, Maypearl, Texas, K. G. Stroud, president First National Bank, Italy, are the board of advisors.

Mr. J. M. Erwin of Clarendon is interested in the proposition and is at this time offering some of the company's stock for sale.

TRIBUTE TO THE FLAG

The following splendid tribute to our flag is by L. B. Hodgson, mayor of St. Paul, Minn. Mr. Hodgson, better known as "Larry Ho," before his election to the mayorship, was one of the best-known newspaper men in the Northwest and was considered one of the best writers in that section. He was elected mayor by the largest vote ever given a candidate in St. Paul.

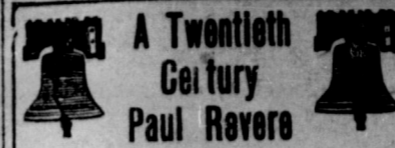

"It is no fabric of silk or bunting, no mere beautiful cloth woven by human hands. It is a living thing, pulsing with the throbbing ardors of humanity, glowing with the fever of immortal hopes, leaping out in ecstasies of love and dream. It is a song—the song of upward-looking men. It is an altar fragrant with sacrifice.

It is a garden wherefrom a nation grew, watered by the pure blood of heroes. It is a heaven wherein the sanctified are gathered. It is the home where freedom dwells. It is the battlefield whereon honor strikes its blow for the cause of God.

"It is a flame springing up to consume injustice and wither the hosts of wrong. It is a voice that speaks with the eloquence of graves where sleep those who died to make it mean purity and righteousness. He who looks on that flag with ransomed eyes beholds within its folds the valor and the faith of Lexington and Gettysburg—the blazing eyes of the embattled farmers at Concord bridge—the fierce splendors of the ocean that was the cradle of John Paul Jones—the clarion death cry above the ruined Alamo—the prayer of Washington at Valley Forge—the agony of Lincoln as he passed the midnight hours—and, crowning all, the windswept faces of boys who die today along the thunder-smitten hills of France.

"The flag of the United States is the glory of God shining in the faces of those who dream of a world made clean enough to be the dwelling place of God. It turns our sorrows into exultation and our sacrifices into melody of service. For such a flag true men will always gladly die—for such a flag good men will always nobly live.

Short of Texola, Okla. did the preaching and the best of all they organized a Sunday school with an enrollment of about 50 to start with. We are counting on 75 or 100. Oscar Smith was elected superintendent. The people are counting on something great from the Sunday school. Everybody come to Jericho to Sunday school and make it go. Hurray for Jericho. Contributed.

Listen, my children, and you will hear Of another rider than Paul Revere;

Of a tiny lad on a strange, strange steed, Who rode a race for his country's need.

He heard of his country's call for men; He heard of their sacrifice, and then—

He heard of the need for money, too; For food and clothes to help them thru.

He wanted to help, tho he could not fight; He wanted to serve in the cause of right.*

So he mounted a Thrift Card, reins in hand, And rode and rode thru'out the land.

"Money!" he cried, "Money for clothes! The boys in the trenches"—off he goes;

And 'mid the sound of the clattering hoofs The call re-echoed across the roofs:

"Gather your nickels! Gather your dimes! Help the Nation! Prepare, these times."

The people heard, as the boy flashed by, They heard his fervid, earnest cry.

And out of the stockings laid away, And out of the closets hid from day,

They gathered their savings of many years, And poured them forth with hearty cheers.

"Take these!" they cried, "in the cause of right, We'll save for the boys who nobly fight!"

As on he sped, he heard them say, "We'll do our best—save every day."

And when the boy on his valiant steed Had spread the call of his country's need

He drew the reins on old "Thrift Stamp" And petted his nose, all sweaty and damp;

"Our work is done," he said, "old man, The Nation's roused to the War Savings Plan."

LET YOUR UNCLE DO IT

Let Uncle Sam do the spending now; you spend later. Buy War Savings Stamps and save.

The ability of Texans to save is the measure of their patriotism and their desire to win the war and bring their boys back home. Pay your W.S.S. Pledge. Stick to the job and stick on more Savings Stamps.

Every dollar lent to the Government saves the lives of Texas boys in France. Dig deep into your savings and invest to the hilt in these victory bonds.

One War Savings Stamp will feed a Texas soldier or sailor for a week. It will buy enough gasoline to run one of our boy's aeroplanes for an hour. Dollar mark your W.S.S. Pledge.

Instead of spending your money for things you don't have to purchase, let Uncle Sam send it over the top with Pershing and the Lone Star State fighters. Hit the fall over here and the boys and your War Savings Stamps will hit the line over there.
