## BIG CELEBRATION HERE JULY 4TH

Comprehensive plans are on foot for holding a mammoth Fourth of July Celebration in Clarendon, next Thursday for the benefit of the local Red Cross.

The local chapter has been handicapped for some time for the lack of finance to furnish enough materials for the capacity of the workers who come to the work rooms and the executive committee aided by the most loyal set of business men in the Panhandle have hit upon the plan of "pulling off" another one of Clarendon's Famous July Fourth Celebrations and presto—it is being accomplished.

There will be an imported speaker of note to address the people upon the Great War and the Red Cross and plans are being perfected for other entertainments. A ball game calculated to tickle the risibilities of the great crowd will be staged in the afternoon between the east and west side of Kearney Street. A large score is anticipated followed by groanings in the flesh for several days afterward.

No provisions will be made for dinner as the food regulations are such that barbecues and picnic dinners are taboo. Each family will therefore make arrangements for their own dinners or take a chance of getting something to eat at the crowded restaurants here in town.

Clarendon will be a seething mass of happy patriotic people on this day. Thousands will gather here from miles away to enjoy the relaxation of a day of pleasure where every cent of profit does its part in winning the war and binding up the wounds of those who suffer so cheerfully for us and our homes.

Mr. Jim Patman is the chairman of the committee on arrangements and can be depended on to make it a great day in every respect. All profits of the stands and ball game will go into the Red Cross treasury and every penny you spend on the big day will be helping to win the war and assisting in ministrations of mercy.

Following is the program as outlined:  
Place—Courthouse yard.  
10 to 11 a. m.—Music.

11 to 12 m.—Red Cross address by Imported Speaker.

2 to 5 p. m.—Political speaking. All Candidates are invited to participate and state candidates may have representatives. The people will enjoy this event as this will be their only opportunity to enjoy the "raw-hiding" of the candidates in this campaign.

5 p. m.—Ball Game at College Park, East Side Business Men vs. West Side Business Men. Worth the price and then some.

—Pledge the President—

## GLENN HOME BURNED TUESDAY AT NOON

Shortly after noon Tuesday fire was discovered in the southwest corner of the Glenn home near the College, which originated from supposedly defective kitchen flue.

After the alarm was sounded, hundreds of neighbors and friends rushed in and before the house was ready to collapse practically everything in the house had been carried to safety, even the kitchen range which had the dinner fire still in it. Unfortunately for the family no water was in the tank at the rear of the house, for at the time of discovery a few buckets full of water would no doubt have saved the building. No fire plug was within reach of the home, therefore the fire department was practically helpless and after everything had been saved that was possible to save attention was given to nearby barns and residences which the northeast wind brought in danger.

The J. L. McMurtry home was directly in line and special action was required to keep flying embers from setting it on fire.

The News understands that Mrs. Glenn had no insurance on the property, making the loss doubly hard to bear.

## Keep Faith With Your Boy "Over There"

When your boy was so little that all the world was a foreign country to him, he trusted you to take care of him. You sent him to school to play and on your little errands, and with implicit faith he did your bidding.

Now we have sent your boy or your neighbor's boy out into a foreign land, into territories that he cannot even know—and his faith has not faltered. He knows we will do our part if he does his.

**COULD HARDLY STAND ALONE**

**Terrible Suffering From Headache, Sickness, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.**

Gommes, Tex.— Mrs. Minnie Phillips, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days. I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go. I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me. One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle. I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. **M 78**

**SALVAGE DEPARTMENT**

Mr. J. T. Patman has taken charge of the Salvage Department of the Red Cross and will provide a place to store all salvage until it is ready to be shipped. The place of storage will be announced next week. This is essentially boys work and they can do their part by collecting this material which, when sold will provide funds for the girls to buy material to make into refugee garments and hospital supplies.

Newspapers and magazines form an important item but they must be systematically bundled and tied to facilitate handling. Fold each newspaper over once, put 50 to 100 in each bundle so that each bundle will not be over eight or ten inches high. Tie this with a stout string twice each way. Unless you tie all loose paper it is almost impossible to handle them.

**THREE POUNDS SUGAR PER MONTH PER PERSON**

Washington, June 23.—Drastic restrictions on sugar consumption were announced by the food administration Saturday night. They include: Reduction of home consumption to three pounds per person a month. Reduction of less essential manufactured products, including sweet drinks, to 50 per cent of their normal sugar requirements. Cutting of ice cream manufacturers to 75 per cent of their normal amount of sugar. Food administration officials are working on details of a ration card by which they will enforce the three pounds a month rule. This rationing scheme follows a serious reduction in available sugar supply for the United States and the allies.

Shipping shortage, destruction of over 200 French sugar factories, losses of thousands of acres of French and Italian beet sugar lands, have combined to create a serious scarcity of sugar, according to the food administration. The strain on America to provide for the allies is increasing. Only strict conservation will enable food officials to tide over the crisis without being forced to drastic steps and increased prices.

**Effective July 1.** The new rationing regulations are effective July 1. Every manufacturer will be required to certify his sugar needs to the food administration before he can obtain sugar. Only the following products under the new rule:

Canned fruits, canned vegetables, explosives, meats, catsup, chili sauce, drugs for medical purposes, apple butter, packers of preserved fruits, mince-meats, glycerine, insecticides, tinsules. Under the less essential class which will get only half its sugar requirements instead of eighty per cent as now, Hoover has included: Bar rooms, breweries, California fruit cider, cough drops, dental preparations, dessert powders, druggists who have sugar for reducing concentrated syrups, honey manufacturers, hotel bars, gelatine, ginger ale, glue, grape juice, ice cream cones, ice cream powder, jelly powder, marshmallows, malted milk, maple sugar compounds, molasses and syrups, patent medicines, pickles, rollers for printing presses, preserving salmon eggs for sale to fishermen, table syrup, vinegar and whiskey.

In the case of grape juice the food administration announced it would possibly allow additional sugar if necessary to prevent fermentation of the grape crop, but no increased sugar would be allowed merely to produce a sweeter drink.

**Soda Fountains Hard Hit** Soda fountains are hit hard by the new regulations. They are cut to fifty per cent. Preserved fruits for soda fountains must adhere to this limit, although fruits preserved for normal domestic use may have the full amount of sugar. Ice cream has formerly been allowed unlimited use of sugar, but after July only seventy-five per cent will be allowed and where ice cream is manufactured on the premises of any dispenser it will come under the fifty per cent limitation.

**GENERAL PERSHING INSISTS THAT LETTERS BE WRITTEN HOME**

"Duty to one's country does not end on the parade ground, nor even on the battle field, but consists in doing everything in one's power to help win the war," says an order issued by Gen. Pershing, a copy of which has been received by the War Department.

"To write home frequently and regularly to keep in constant touch with family and friends is one of the soldier's most important duties. Mothers and fathers will suffer if they do not hear often from sons fighting in France. In the present large companies it is not possible for officers to write letters for their men, and every man must do it for himself."

The three new national forests recently established in the East include approximately 658,000 acres.

There are about 5,000 Germans interned in the United States.

**HER GRATITUDE SO GREAT IT CAN NOT BE TOLD IN WORDS**

**GAINED 30 POUNDS ON TANLAC — IS RELIEVED FROM TROUBLE OF 25 YEARS STANDING.**

Words of praise can't express the gratitude I feel to Tanlac, for it has not only relieved me of troubles that kept me in misery for twenty-five years, but has built me up until I am thirty pounds heavier than I was when I started taking it," said Mrs. J. C. Bogardus of 4220 Clifton Street, El Paso, Texas, a few days ago.

"I have suffered since I was about ten years old," she continued, "with a catarrhal trouble of the stomach and of recent years with rheumatism and it seemed my troubles were steadily growing worse."

"My food would sour on my stomach and the gas pressing against my heart affected my breathing greatly. I fell off until I only weighed seventy-six pounds and was so weak and nervous I got but little sleep at nights. I was constipated and suffered terribly from headaches. The rheumatism affected my lower limbs mostly and I had such pains through my back and right side I simply could not look after my household duties."

"It surely was surprising to me the way Tanlac took hold of my troubles. My appetite got better and in a short time I was eating just whatever I wanted. My strength came back to me day by day and I soon overcame the trouble from constipation and the headaches. The pains in my back and side have left me and I don't even feel the rheumatism in my lower limbs any more. I now weigh one hundred and six pounds—more than I ever weighed before in my life. Many of my friends have spoken of my great improvement and asked what on earth I had been taking. Of course, I simply tell them "Tanlac" for I think it the most remarkable medicine ever made."

Tanlac is sold in Clarendon by Stocking's Store; in Hedley by J. F. Tomlinson Drug Co., and in Jericho by O. C. Brown.

Construction of additions and improvements to the hospital establishment of the Army in his country during the past six months has been undertaken by the Construction Division of the Army at an estimated cost of \$25,173,417.55. The new buildings consist of hospitals, convalescent barracks, infirmaries, and nurses' quarters. The figure represents work finished and in course of completion, both within and outside the camps and cantonments.

**NO TRAPPING**  
Positively no trapping in any of the JA pastures. If you want to avoid prosecution, observe the above. J. W. Keat, Superintendent. **tf**

**REPAIR OF CLOTHING AT ARMY CAMPS SAVES NEW EQUIPMENT**

Through the operation of repair shops for clothing and other articles, a considerable saving in reissue of new equipment has been made at Army camps. One camp quartermaster estimates the issue of new clothing has decreased one-third, and of shoes 40 per cent.

At a base repair shop for clothing an average of 2, 831 garments were repaired daily during the first 18 days of May. In addition to the work done at base repair shops, many thousands of garments are repaired at camp shops, one shop being located at each large camp.

During April nearly 170,000 pairs of shoes were repaired in Army repair shops. At present practically all hat repairing is done by contract, the price varying from 50 to 90 cents per hat.

This work is in charge of the Conservation and Reclamation Division of the Quartermaster Corps, which has been in operation only during the last four months.

#### BIG GUN PROGRAM SOON TO BE LAUNCHED

Washington, June 23.—America is ready to launch a big gun program for three more years of war. The guns will be built for the primary purpose of smashing the German defenses on the east bank of the Rhine. They call for three field armies of 1,375,000 men each, or more than 4,000,000 in all.

This is the meaning of the \$5,000,000 fortifications bill which was reported to the house Saturday. It reveals the purpose of General Pershing and the allied staffs to carry the warfare clear to the German border and assault the citadels along the Rhine with ten, twelve and fourteen-inch guns and sixteen-inch mortars.

The program for carrying the war into the enemy's country was formulated by General Pershing, approved by the allied war council in Paris and by the general staff of the war department here.

Total \$5,435,096,224  
The exact amount carried in the bill is \$5,435,096,224, of which \$623,465,845 are in contract authorizations and \$2,811,630,379 in cash. For the artillery program \$5,000,000,000 is allowed in cash and \$729,731,295. Field artillery and ammunition will receive the bulk of the total appropriations, \$5,408,065,845 being allowed for these purposes, the balance of \$27,030,379 being for seacoast defenses and other purposes.

The big gun program necessitates construction of an ordnance factory and for this purpose \$40,000,000 is allowed. The plant is being constructed at Neville Island in the Ohio river, near Pittsburg. It will manufacture guns from the steel ingot up to the finished weapon. It will be a worthy rival of the great German Krupp maker at Essen.

Another new departure of significance in the bill is that no appropriations are made for guns or batteries for use along the coasts of the United States. The production of ordnance for use in France is the big aim of the bill and everything else in subordinated to this purpose.

#### LOCAL RED CROSS NEWS

It is very encouraging to see the work room crowded with workers as it has been of late. Some of the gentlemen are working at night. Mr. Hubert Ziegler has cut and made hospital garments and muslin bandages.

Mr. Guest, Mr. Pierce and Mr. Blevins have made several boxes for the shipping committee free of charge, the lumber being donated by the Lumber Yards. Mr. Trent hauls the boxes free of charge, thereby reducing expenses to a minimum. Mrs. Hugh Riley donated 1-2 gallon of peach pickles and 1-2 gallon of grape juice to be sold for the Red Cross. Little Jno. Allen Heath showed his patriotism by giving us 1 quart of jelly. Any of these things can be bought from the ladies at the rooms.

Mr. Chas McMurry contributed \$50 to the chapter this week. All of these favors are highly appreciated.

The Executive Committee had a called meeting last Wednesday evening and transacted business of importance with the Finance Committee.

This school offers special inducements to girls who desire to become nurses. Any one wishing information on this subject should consult Mrs. McClelland.

Miss Marjorie was especially interested in painting and studied under Mrs. Frances S. Kempster, who regarded her as the most talented art student in her class.

Spend your money with the Clarendon Celebration of the Fourth of July. It all goes for the Red Cross.

The fire Tuesday demonstrated beyond a doubt the necessity of having fire plugs installed at reasonable intervals throughout the residence district of our city. We ought to have them and any square-toed citizen who would criticize the city administration for investing money in so wise an enterprise, hasn't a good title to citizenship, at all—he's merely a hanger-on who don't belong to the Antibellyache Society.

No doubt President Wilson is annoyed by the premature third term boom launched by some of his ardent friends. For the winning of the war it is best that little attention be paid to politics, but all the same, the people at large in these United States feel that President Wilson should be retained in office as long as the war continues. Such an expressed desire is not a political boom—it is a patriotic measure.

Clarendon's Fourth of July Celebrations have gained state-wide notoriety by their great attractions. This year the big event will be given solely for the benefit of the Red Cross and every penny profited during the day will go directly into the treasury of the local chapter. A big crowd is coming and the visitors are not going to be niggardly about the expense of the day because all but pro-Germans are in hearty accord with the work of the Red Cross and are glad to contribute at every opportunity. We don't invite the other bunch.

During the Ferguson administration thousands of dollars of state money was put in Ferguson's bank at Temple to the governor's personal profit. Since Gov. Hobby sits in the governor's chair all the idle funds available are invested in Government Certificates which draw interest at the rate of \$1,000 per day and every cent goes into the state treasury for the benefit of the people. Governor Hobby is a real Democrat, one who administers his office and the affairs of Texas for the benefit of the people of Texas. Not taking character into consideration at all, which style of handling the state's money do you prefer?

The News desires to call attention to the candidacy of Hon. Clarence Gilmore of Wills Point for the office of Railroad Commissioner of this State. Two years ago Mr. Gilmore's name was left off the ticket by the state Democratic Committee and at the last moment the courts held that his name should have been printed on the ticket. In spite of this debacle, Mr. Gilmore polled a very heavy vote as his friends everywhere wrote his name on the ticket. The News man personally vouches for Mr. Gilmore's character and ability and unreservedly recommends him to the voters of Donley County.

There has been so many "stock-selling schemes" offered the people of Texas in the last few months, that the state department of banking has issued a very strong letter against the practice, admitting that the laws do not cover this point to the extent of making it a felony to promote them. The letter urges that as a matter of patriotism that our people refrain from investing in stocks which are not regularly listed on the exchange or else have the endorsement of the best financial authorities. The people are further urged to abstain from investing their Liberty Bonds in these enterprises, as government bonds are as good as money and some people have been beguiled into investing bonds where they would refuse to put in the good hard cash. It is a matter worth considering.

The more Jim Ferguson talks, the more he shows just how big a traitor he is to Texas and the nation. Some days ago he had enough gaul and little enough sense to say that he opposed the ten mile zone law, "because the lonesome soldier boy, away from his father and mother, needed the whiskey to cheer him up." The dirty liar, even he knows the "cheering up" of whiskey is always followed up by a sad "morning after," and any devil who would send our boys into battle with the greatest military power that has ever opposed human liberties, be-riddled and weakened by the use of liquor, is such a low down type of traitor to his country that even the denizens of Hell have no regard for him. No agent of the Kaiser ever tried harder to serve Prussianism than this man Ferguson who looks like an American, but who is bowed down to his idols of self and liquor that he is willing to oppose the draft law, which the Kaiser opposes, put a socialist of pro-German tendencies at the head of our State University and then try to destroy it because he was thwarted, in addition to having accepted the financial aid of the German-American Alliance in his campaigns for governor. The one great satisfaction of the patriotic citizenship of Texas has is that with every tick of the clock which marks the hours, that makes the days grow into weeks, draws nearer July 27, on which date the outraged people of this state will crush out forever the head of this poison that has dared to call itself respectable, that has attempted the rape of the constitution of Texas.

Recently we heard a banker say that if he had been guilty of half the violations of the state banking laws that Jim Ferguson had admitted under oath, that he (the banker) would have been in the penitentiary long ago. Which reminds us that Mr. Ferguson himself, said in a recent speech that he belonged "either in the governor's chair or in the penitentiary." The News heartily agrees and since he has admitted malfeasance in office and embezzlement and has been impeached by the largest vote by which a governor was ever removed from office, we certainly believe that he ought to be in the penitentiary.

Not many months can elapse before the business of the nation will be practically on a cash basis. There is an ever increasing demand for cash with order or cash in ten days for goods in every line of trade, therefore our people must prepare themselves to accept the conditions thus forced upon our merchants and respond by being able to pay them the cash for every purchase. This is an unprecedented condition, but this war has changed almost every phase of commercial activities and it is not for us to criticize and condemn but to accept the new conditions as they are thrust upon us.

Ferguson claims that all the brewers in Texas are supporting Hobby, which statement proves he has not lost any of his ability at misrepresentation since he has been under the infamy of impeachment. There is a brewer in Houston and one in Galveston who have a right to be opposed to Ferguson since he sold them stock in his lignite mine for \$15,000 and \$25,000 respectively and then rendered the whole mine for, taxation at \$6,300. Those men were Ferguson's friends, but he is the kind of a gutter-snipe who gouges and betrays his friends as cheerfully as he lies on his enemies.

Tomorrow is June 28th, on which date every man and woman who are wage earners must appear at a meeting held in the bounds of his school district and pledge the President his reasonable share of War Savings Stamps for the remainder of the year. Go to that meeting with your mind made up to do your best in this great work. Remember, you are not "giving," you are lending—at a fair rate of interest, too.

## TEXAS NOW JOINS BONE DRY STATES

Austin, Texas, June 25.—Texas became a "bone dry" state at midnight when approximately 750 saloons closed under a state-wide prohibition act. Eighteen hundred saloons had previously been closed by legislative act re-establishing a ten-mile "dry" zone around military camps and shipbuilding plants.

Under the ten-mile law which became effective last April 15, the sale of intoxicants ceased in the principal cities. Saloons closing tonight were located in the less populous districts.

Another liquor regulatory law effective at midnight tonight is the "anti-road house" act, providing that saloon licenses must be confined to incorporated cities. Should the state-wide law be held invalid the anti-road house law would govern re-issuance of liquor licenses.

## THAT \$156,000—FERGUSON— AND THE GERMANS!

James E. Ferguson challenges the opposition to "say that I BORROWED \$156,000 from the Kaiser." He is perfectly safe. He won't have to pay to get anyone to say it, for no one believes it. Now if he had said "BORROWED" instead of "BORROWED," and "German sympathizers or sources" in place of "the Kaiser," an entirely different question would have been raised.

The facts are these: Ferguson used his influence with Texas Senators and Representatives to defeat the draft law. He made a speech in Dallas April 10, 1917, against the draft. Two days later he deposited \$25,000 IN CURRENCY at the American National Bank in Austin, and a day later he deposited another \$25,000 in the same bank to the credit of the Houston Exchange National Bank, in CURRENCY. (See Impeachment proceedings, page 104-105.)

Asked where he got the money, Ferguson said, (page 648 Impeachment record) "if it means the price of the governor's office in that I must unload (disclose the source of) private accommodations extended to me, I must suffer and pay it."

In his Mount Pleasant speech, (Dallas News, April 7, 1918.) he said he "wrote in blood he wouldn't tell any one about it."

Patriots of Texas, with sons and brothers on the way to France, in the fields of Picardy and along the bloody Marne, are to pass on Mr. Ferguson's aspirations soon. Will they entrust the control of the State to the hands of a man in whom the German-American Alliance has boasted its interest?

## JOEKEL-TURNER

One of the most beautiful events Clarendon has witnessed took place Wednesday afternoon at the Presbyterian Church when the marriage of Miss Dorothy Turner and Rev. S. L. Joekel was solemnized, Rev. Tom Currie of Austin officiating.

The church was beautifully decorated with the national colors, southern smilax and cut flowers.

The bride attired in an exquisite gown of white satin, escorted by the groom in his military uniform, came in to the strains of Lohengrin wedding march, played by Miss Radie Britain of Amarillo, the ushers, Messrs. Will McDonald and Harry Bryan, preceding.

After the marriage ceremony a large reception was held at the home of the bride's parents, Mr. and Mrs. Robt. Turner. The rooms were elaborately decorated with smilax and cut flowers. Punch, ice cream and cake were served to the guests.

The young couple were the recipients of many handsome gifts.

The bride and groom are well known here, the former having lived here all her life, and is loved by every one who has known her during her girlhood.

Mr. Joekel, formerly occupied the pulpit of the Presbyterian Church and made hosts of friends.

The good wishes of all Clarendon people go with them for many years of wedding bliss.

Mr. and Mrs. Joekel left on the evening train for visits at Austin, Houston, Galveston and other points before returning to San Antonio where they will reside for the present, Mr. Joekel being stationed at that place in the Army Y. M. C. A. work.

The bride wore a traveling suit of tan trench crepe, with accessories to match.

Roy McMurtry of Tulia was in town the first of the week.

One of the most important matters of business that was transacted by the Panhandle Press was the election of Sam Braswell for Secretary-Treasurer of the Association. That is a man's job and Mr. Braswell is a man. He acts as assistant secretary for the state press association and we are satisfied he will be on the job as secretary of our district organization and that through his efficient service the local affair will have a steady and substantial growth from year to year.—Canadian Record.

We appreciate the above expression from Bro. Jamison of the Canadian Record and with the co-operation of such a membership as the Panhandle Press Association has we feel sure that all he predicts will come about anyhow, here's hoping.

### ODDLY SHAPED FEET NOW GET FITTED IN ARMY SHOES

Two out of every 1,000 men in the Army have to have their shoes made to order. In several camps entire regiments have had their feet measured, and hundreds of drawings were made of odd shapes and sizes. At the present time the Army uses between 2,000,000 and 3,000,000 pairs of shoes a month.

Facts brought out in tests seem to prove that men in the present Army are larger than those serving in previous wars. Not only is this shown by the larger sizes of shoes called for, but by the larger sizes of outer clothing that is being required. Records in the Quartermaster Corps show that a size larger, on the average, is being demanded in blouses, shirts, and breeches than have ever before been used.

### GOVERNMENT POWDER PLANTS PLANNED JANUARY NOW IN OPERATION

Operation has begun in two Government powder plants two months ahead of schedule. When the task of building the plants was considered by the War Department in January it was predicted that the production of powder might begin in August, barring unforeseen delays.

The \$120,000,000 allotted for the plants is expected to give the Government a smokeless powder production capacity equal to all other American plants combined. In construction of the plants it was found necessary to build a new town on each site to house the employees, and approximately 9,000 different buildings were erected. Streets put down and sewered, power plants constructed, and stores and hospitals built. Approximately 35,000 men worked on construction and about 30,000 will eventually be engaged in the actual production of powder.

### PASTIME IMPROVES SERVICE

In view of the expected falling-off of business, Manager Mulkey went to Dallas recently for the purpose of buying a cheaper program for the Pastime Theatre, intending to make his expense stay in line with the short business. But, he didn't do it. When he looked over the cheaper grade programs he didn't have the heart to serve them up to a Clarendon audience and not only bought his usual the Select Pictures made by such artists as Clara Kimball Young, Norma Talmadge, Constance Talmadge and Alice Brady. Thursday, July 4th, will be shown the great Douglas Fairbanks picture, "Headin' South," and a few days later will be presented run of pictures but added a line of the million dollar picture Annette Kellerman in the "Daughter of the Gods." Clarendon people who appreciate really good pictures will more readily appreciate Mr. Mulkey's action in strengthening his program when business might demand retrenchment.

### STRAW VOTE

Returning from the Panhandle Press Association at Amarillo last Saturday night, a friend, H. E. Smith, and myself polled the smoking car for Governor. Some five or six people were asleep in the car, whom we did not disturb, but the vote on those who were awake stood as follows: Hobby 12, Ferguson 2, Grubbs 1. One of the Ferguson men was the news butch, and the other was a German who was returning to Crosby County from Amarillo, where disloyalty charges had been filed against him by the good citizens of Crosby County.—Post City Post.

One can comprehend the attitude of the pro-German German; but what could have been the matter with the news butch?—State Press, Dallas News.

### RED CROSS FAMILY REMEDIES

Many able Chemists and Doctors were called into service in perfecting this line of Red Cross Remedies.

This is an age of Specialts, and while one may have distinguished achievements to his credit in one particular line, another is excelling in something else. That very thing makes it possible for us to have a Red Cross Remedy for each ailment, and enables us to give the consumer more than we promise or charge for.

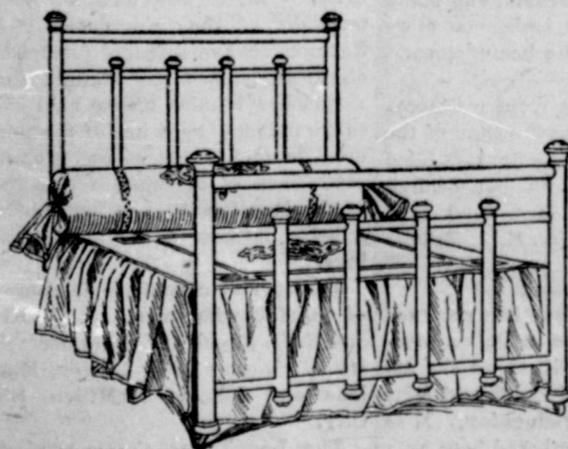

Each formula is compounded with as much care and precision as if our entire success depended upon that one Remedy. That's why NEUROSTONE repairs shattered nerves, and Red Cross STONE ROOT and BUCHU puts your kidneys in a normal and healthy condition.

Red Cross Remedies are not Patent Medicines. The formula is printed on each carton in plain English, so that you know what they are composed of and what you are taking. More than one hundred Red Cross Remedies and Toilet Preparations are sold and guaranteed only by

# Without Music You Can Not Live a Full Life

One of the keenest inward delights in life is enjoyment of music. This is because it has an emotional appeal as well as an intellectual. And it is through our emotions that we derive our most intense pleasures.

Music is a natural resource, one which is shared by everyone. But, unless cultivated, one's taste for it gradually becomes dulled until finally it becomes, as the scientists say, atrophied. Unhappy is the person who has lost his power to enjoy music. Every kind of music is offered you in

## The NEW EDISON "The Phonograph with a Soul"

This marvelous instrument Re-creates in all its splendor the voice of the living artist. It does not merely imitate, it actually Re-creates; and with such fidelity that no human ear can distinguish between the artist and the New Edison. This applies just as strongly to instrumentalists as to singers; it is just as true of Albert Spalding as it is of Anna Case.

Before audiences totalling more than two millions, some thirty great artists have conducted tone tests, which proved that no shade of difference could be detected between the artist and the instrument. They have sung in direct comparison with the New Edison, then suddenly ceased, permitting the instrument to continue alone. The only way the listeners could tell when the artist stopped was by watching his lips. And with the lights lowered, they were utterly unable to say when it was the living voice they heard and when the New Edison.

Could a more drastic test than this be devised? Doesn't it prove the truth of our assertion that ownership of this instrument is equivalent to having all the great artists of the world literally at one's command.

Drop into our store and hear the New Edison.  
Feed your love for music; it is a priceless resource.

### 4th ANNUAL COWBOYS REUNION AT LOS VEGAS

Las Vegas, N. M., June 24.—During the fourth annual Cowboys Reunion, to be held here July 3, 4 and 5, the New Mexico Cattle and Horse-growers Association will maintain its office in Las Vegas. Miss Bertha Becker, the secretary, will be in charge, and President Vic. Culbertson has named a special membership committee which will be present to invite visiting stockmen to become members of the association. The Reunion always attracts hundreds of stockmen, and it has become almost as much a reunion of the men of the cattle industry as it has of the punchers. In fact, many of the prominent cattle men of the state are members of the Reunion Association, and take a great interest in its annual meetings.

The special committee is composed of the following men: J. H. Kelley and R. H. Royal, of Whitewater; John Hicks, Cuervo; L. F. Medley, Magdalena and Johnnie McMillen, Silver City.

The Las Vegas Commercial Club has given the association office room in its quarters, and will be glad to welcome visiting stockmen.

We buy second-hand clothes, shoes, hats, furniture, stoves etc. Also repair your broken furniture. Do your upholstery and mattress work, at reasonable prices. Give us a trial. Phone 408. Williams & Hammer. One block west of First National Bank.

**WHAT KANSAS DID**

**"Soft" Town Men Made Good By Harvesting Wheat**

Men from towns and cities—"soft town men," if you please—are harvesting the great wheat crop of the Middle West and the West.

Of course, it "couldn't be done!" The professional pessimists persistently proved very conclusively that it was utterly impossible and altogether ridiculous even to attempt it. "Town riff-raff and soft, office pen-pushers for the farms!" they sneered. "Why the farmers won't stand it. And the town people can't stand it! Dear! Dear! What an inefficient Government! Why doesn't Washington press a button, or something, and send plenty of permanent, experienced farm labor to the farmers?"

But, strangely enough, the farmers did stand for it, and strangely enough the worn weaklings did stand the hard work. Perhaps they hadn't read the lamentations of the Can't-Do-It-Crowd and didn't know they were foredoomed to failure. Perhaps they were more interested in whipping the Kaiser than in hearing reasons why they were sure to fall down on the job. Perhaps being plain, every-day Americans who are so absurd as to have assurance they can do anything, they just went ahead with confident calmness and did it! Really, it is too bad (for the Huns) that these Kansans wouldn't listen to the lugubriousness of the Impossible-Squad—so willing to show that it just couldn't be done! What a pity to hurt Hindenberg's feelings by doing it, even if it was impossible!

The latter part of May Kansas began to put into effect on a wholesale basis the program which for many months the United States Department of Agriculture had been urging in every community—that town men go to work in agricultural territory adjacent to them during emergency farm-labor needs of cultivation or harvest. Kansas started an intensive campaign for the enrollment of town and city volunteers for harvest labor. Kansas made ready to shut up shop during the harvest period. Kansas prepared to subordinate every activity, for a few weeks, to the one supreme job of saving the big wheat crop. From every town and city in the State men, women and boys, in such numbers as were necessary, went to the fields; the men to work as harvest hands, the women to cook for the volunteer army of harvesters, the boys to fit in wherever they could best serve. This Kansas harvest army of nearly 100,000 men did the job. All the outside help that could be secured was used, of course, but by far the largest part of the help came from right at home—the "soft town men" who just simply couldn't do it, and who wouldn't be tolerated by the farmers!

And, in just the same way, the war-winning wheat crops will be harvested in Nebraska and Minnesota and North Dakota and South Dakota! In just the same way, when necessary and where necessary, crops will be saved in every state. Of course, it can't be done! For that we have the word of many eminent critics of the United States Department of Agriculture and the Government in general.

No doubt the Kaiser himself has said so, and surely the Crown Prince will sustain the statement if further authority be necessary. It just can't be done! But the simple weaklings of Kansas seem to pay more attention to straight-from-the-shoulder, get-there-or-bust American common-sense than they do to Prussianish "can't do it" clap-trap and to skyscraper editors of literary journals de luxe who write prettily phased editorials giving plethoras of peevish reasons why failure is certain. Kansas seems to like to do better than to listen to why it is impossible to do. Kansas just goes ahead and harvests the wheat anyhow!

Your state will do likewise! True, it can't be done! The faint-hearted and the Hun-hearted will tell you so on every hand—so, do it!

**AN INDIAN SOLDIER'S SPEECH**

On Tuesday evening of last week, a number of soldier boys left for the training camp. Several Indians were on the list. Among the speakers was White Buffalo, an Indian. The following is a fragment of a synopsis of Buffalo's speech as interpreted for us by one of the young Indians:

"White soldier go over big water to fight Wasaa (German.) Indians go fight Wasaa too. White soldier and Indian soldier make rabbits out of Wasaa. When white and Indian soldier meet Wasaa on battlefield, Wasaa heart beat fast, make um heap afraid. Wasaa kill women and papoose. White soldier and Indian soldier no kill women and papoose. White soldier and Indian soldier kill Wasaa—maybeso, heap kill um. Wasaa Wasaa swim like fish under water. White soldier and Indian soldier fly like eagle in air. Eagle scream, and Wasaa fish hide under water. Uncle Sam's canoes heap catchum Wasaa fish.

"Young men go to war, strong, brave, drive Wasaa into river. Wasaa never come back. Young men come back heap big chief. Young men carry flag. Wasaa see flag and run. It is Indian's flag too. Uncle Sam Indian's Great Father. Indian fight for Uncle Sam like young white warrior. Nobody whip white soldier and Indian soldier. White soldier and Indian soldier shoot big gun at Wasaa. Sound like thunder of Great Spirit. Shoot Wasaa with little gun—poop! poop! poop! (with a sweeping gesture of the hand, evidently indicating the action of a machine gun.)

"White soldier and Indian soldier fight Wasaa and kill um. No scalp um much. Maybeso Indian might scalp um some, when blood runs. Indian raise war whoop in battle, like fathers. Make Wasaa tremble like leaf on tree.

"White soldier and Indian soldier drive Wasaa out of land. The young warriors all come back. Make um big feast. White man and Indian man make big talk. Proud of them and glad to see um when warriors come back."—Watonga, (Okla.) Republican.

**DELCO-LIGHT**  
Increases Farm Efficiency

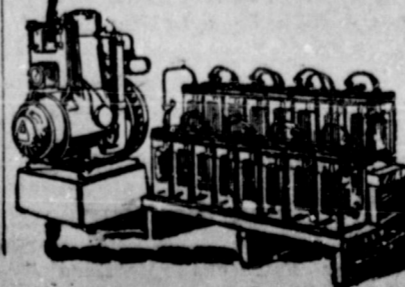

1. Saves time and labor—Work formerly done under poor light and by hand can be done better and in less time with the aid of electric light and power.
2. Labor is attracted to the farm—The "back to the farm" movement is made practical when the conveniences afforded by electric light and power can be had in the country.
3. Keeps the boys and girls on the farm—Electric service on the farm offsets city attractions. Valuable labor and valuable young manhood and womanhood are saved to the country community.
4. Solves the retired farmer problem—Electric light and power make the farm home so attractive and comfortable that the farmer and his wife remain on the farm where their advice, experience, and immediate interests are of great practical value.
5. Lightens burden of the housewife—Increased farm work in war times means increased labor for the housewife. Electricity offers the only practical means of taking the drudgery of household tasks from her shoulders.

Delco-Light is a compact electric plant for farms or country homes. Self-cranked. Air-cooled. Thick plate, lamp-bred battery. Ball bearings. No belts.

### GOVERNMENT SALARIES FOR STENOGRAPHERS

Washington, D. C. June 18, 1918.—The United States Civil Service Commission announces that through some misunderstanding an impression seems to prevail that the Government has raised the usual entrance salary for stenographers and typists in the departments at Washington, D. C., to \$1,400 a year. The Commission states that there has been no change in initial salaries for positions of this kind; the usual salaries at the beginning range from \$1,000 to \$1,200 a year, appointments at \$1,200 being in the minority. The War Department makes all appointments to such positions at not less than \$1,100 a year, and agrees to promote to \$1,200 a year after three months' satisfactory service. Appointments at salaries higher than \$1,200 a year are rare, and the appointees must possess exceptional qualifications.

There is still great need for stenographers and typists in the Government offices at Washington. Those who have had considerable office experience are most desired. The Civil Service Commission urges qualified persons to offer their services to the Government. Full information may be obtained from the representative of the Civil Service Commission at the post office in any city.

### KANSAS CITY STOCK MARKET

Kansas City Stock Yards, June 24.—Cattle receipts today were 14,000 head, market steady on the best, but weak to 15 lower on others, very few cattle at \$17.00 or better. Hog supply was 12,000, rather liberal for Monday, market 15 to 25 lower, top \$16.30. Sheep and lambs sold 25 lower, best native spring lambs \$18.50, receipts 7,000.

### Beef Cattle

The break of 75 to \$1.50 on nearly all grades last week, cut down shipments and the supply here today, was 9,000 less than a year ago this week on Monday, and 5 leading markets had 40,500 today, as compared with 60,000 a year ago. Cooler weather since the middle of last week, reduced the pressure on owners to ship and it also, increased the demand for some grades of cattle. However, the beneficial effect was more than offset by new "stop eating" orders from the Food Administration respecting beef, retailers curtailing their purchases sharply last week. There was a small number of good cattle offered today, but California sent 73 cars for today's market, and Arizona 20 cars, mostly medium to common cattle.

### Stockers and Feeders

Hot and dry weather worked against the trade both ways last week, bringing in larger supplies and reducing the demand, prices off as much as \$2.00 per hundred, in some cases, plain stock cattle selling at \$7.50 to \$9, best at \$12.00, and no cattle for feeding above \$13.00 last week. The market is steady on these grades today at the low level.

### Hogs

The supply today was not sufficient to justify any great decline, but buyers refused to act, except at reductions of 15 to 25 cents. Order buyers took hogs up to \$16.30, but packers stopped at \$16.25, bulk of sales \$16 to \$16.20. Light hogs and mixed got the big end of the loss today, heavy hogs selling up to the top, \$16.30, best medium weights \$16.25, best lights \$16.15, stock pigs are lower than a week ago, but remain at a good margin above fat hogs, sales today on the open market at \$16 to \$16.50.

### Sheep and Lambs.

The market has declined daily since early last week and sales were lower again today, and native spring lambs brought \$18 to \$18.50, and some low grade Arizonas sold to killers at \$15.50. Best native ewes are worth \$12.50, westerns \$13.00. Several loads of good feeding lambs sold last week at \$15.50, but good ones sold today at \$15.25. Goats are steady with the close of last week, although 50 cents below ten days ago, Angora brushers today at \$8.25.

Market Correspondent.

### TESTS FOR AWARDING MEDAL OF HONOR NAMED BY GENERAL PERSHING

These tests are applied to cases recommended for the medal of honor according to instructions issued as a guide to officers by Gen. Pershing. Men who have performed in action deeds of most distinguished personal bravery and self-sacrifice above and beyond all call of duty; so conspicuous as clearly to distinguish them for gallantry and intrepidity above their comrades; which involve risk of life or the performance of more than ordinarily hazardous service, the omission of which would not justly subject the person to censure for shortcoming or failure in the performance of his duty.

The distinguished-service cross is awarded for gallantry in action to anyone who may distinguish himself in action by extraordinary heroism in connection with military operations against an armed enemy, under circumstances which do not justify the award of the medal of honor.

The distinguished-service medal is awarded for exceptionally meritorious service to the Government in connection with operations against an armed enemy.

### HOBBY CLUB ORGANIZED

Thursday evening of last week a number of our citizens responded to a call for meeting at the court house for the purpose of organizing a Hobby Club. The meeting was called to order by Dr. B. L. Jenkins, who stated its object and called for nominations for officers. Dr. Jenkins was elected President, Harwood Beville, Secretary and the usual committees appointed on membership, resolutions and publicity. Lists were placed in several places of business on Saturday and a large number have signed, thereby signifying their approbation of Gov. Hobby's administration, their adherence to the constitution and their demand for common honesty in office. A speaker sent out by the Hobby campaign headquarters will be secured for this place in the near future and announcement made of the date.

The resolutions Committee has drafted the following resolution:

Whereas our State and Nation is confronting the most serious crisis in its history,

And whereas, as never before, we need and must have clean government by clean men,

And whereas the present leader of our ship of State, has, by his clear grasp, preception and conception of world affairs, by his integrity of purpose and clean statesmanship proven himself to be broad enough to render his personal preferences in minor matters wholly subservient to the one great purpose, now uppermost in the mind and heart of every true American—the winning of this war; while his opponent stands for and advocates the very antithesis,

And whereas, during his short incumbency, under his direct guidance and direction there has been enacted more worthwhile legislation than in any previous decade.

Therefore be it resolved that we, the citizens and voters of Donley County in mass assembled, do heartily endorse and commend the course of actions of, and hereby pledge to use our best endeavor to further the interests in the coming primary of Governor Wm. P. Hobby.
