CHAUTAQUA

HERE JUNE 2

At a meeting of a representative body of Clarendon business men Tuesday a contract was signed with the Redpath-Horner Chautauqua Company. These people have been in Clarendon before and their entertainments were well received. Elsewhere we publish some of the attractions which will be here this year.

Following are the committees which have been appointed to be in charge of the Chautauqua: Publicity Committee: Sam Braswell, chairman, H. H. Sitner, Homer Mulkey, H. Lott and Silas Hayter. Sales Committee: Wm. Patman, chairman, A. R. Letts, W. T. Hayter, S. H. Condon, Harry Bryan. General Arrangements: Odus Caraway, chairman, W. T. Link, F. Rathjen, Dr. B. L. Jenkins, G. C. Davis, O. A. Barrett, J. W. Owens.

LEVEE-BALDWIN

Of interest to many of Clarendon people is the marriage of Mr. Roy Lewis and Miss Ruby Baldwin which took place at the First Baptist church at Memphis Monday evening, with Rev. David M. Gardner officiating.

Mrs. David M. Gardner sang, and Miss Edythe Bryan of Clarendon played the wedding march.

Miss Ruby is the daughter of Mr. and Mrs. Henry Baldwin and a niece of our townsman, Chas. Baldwin, and at the latter's home she has visited often.

Mr. Leveit is stationed at El Paso being in the army at that place.

Among those who attended the wedding from here were: E. F. Bryan, Misses Hallye and Edythe Bryan, Madie Thornton and Mary Lucy Baldwin.

The News extends best wishes and congratulations.

PHYSICAL TRAINING.

BAND CONCERT

The double bill which was put on at the college last Monday night was a pleasing specimen of the type of entertainment that institution offers. The young ladies from the different "gym" classes, under the able direction of Miss Chism, demonstrated that grace, poise and composure in public performance, can be acquired under proper conditions.

They moved about on the stage like so many fairies and made a beautiful picture as the colored lights were thrown on the scene. Especial mention should be made of the Spanish Dance as performed by Miss Faun Crane. Surely she was the very essence of what Tennyson called: "Slender, Slender and of Hellenic grace."

That Band, under the direction of Mr. Charles Dean certainly did play some, and we heard ever so many folks inquiring as to the limited number of times they have been heard this season. The only answer is, that they were "loading up," and rather surprised us when they turned loose with such unusually fine spirit and ensemble. There were four Deans in the band, including a daughter who does not appear to be more than a dozen years of age. Here's hoping we hear some more from this band and see some more of those "gym" stunts.

The real features of the evening was the sailor's Horn-Pipe by Sam Braswell and Clarence Adams.

MUSIC DAY, MAY 20

Annual Music Day will occur on May 20th and will be a feature of the College Commencement this year.

A large crowd is expected from out of town for the authorities have had many inquiries concerning the date, time, etc.

Three programs will be given, which are as follows: Recital by The Senior Class, Orchestra and Young Ladies Choral Club; 10:00 a. m. Artist Recital given by Mr. Luther J. Williams and Mr. Ava Bombarger, both of Ft. Worth, 3:30 p. m. The Creation, an Oratorio by Haydn, sung by The Methodist Church Choir. Mrs. J. S. Ulm, Soprano, Mrs. M. B. Adams Soprano, Mr. Bombarger, Tenor and Mr. Williams, Baritone.

The tenor and baritone are our visiting artists and they are quoted as being among the very finest in the south.

All three of these concerts will be given to the public free of charge and certainly standing room will be at a premium. Let everybody boost for Music Day and help make it the biggest musical stunt ever pulled off in Clarendon. We believe it will be.

HILBURN—ONEIL

This evening, Friday, at the Methodist parsonage in Wheeler, occurred the marriage of Mr. Aubrey Hilburn and Miss Eva O'Neil Rev. J. T. Howell, officiating.

The groom a brother of the Sun editor, has for the past few years been editing and publishing the Wheeler County Texan at Shamrock, but recently entered the army service and has been stationed at Camp Travis.

The bride is a resident of Wellington, but has been teaching music at Shamrock for the past two or three years.

After a few days visit at Shamrock and at Wellington they will leave, the former to Camp Travis, the latter going to Fort Worth where she will take up Red Cross training.

The Sun editor is sincere in his wishes for this young couple much happiness.—Wheeler Sun.

These young people are well known in Clarendon, both having been students in Clarendon College. Mrs. Hilburn graduating in music under Prof. Shure. The News with their many friends extends congratulations.

AT CHRISTIAN CHURCH

Special services in honor of Mother at the First Christian Church, Sunday 12th, at 11:20 a. m. Come and bring your mother. A seat reserved for her. P. R. Huckleberry, pastor.

S. A. GROGAN IS MARRIED

Following is a clipping which is taken from the Tampico Tribune:

"Announcement has been made of the marriage of S. A. Grogan, assistant geologist of the Mexican Gulf Oil Company on Wednesday evening.

Mr. Grogan, besides doing geological work for the company, is also the foremost meteorological expert in Mexico and issues a daily bulletin concerning this phenomena."

Mr. Grogan is the eldest son of Mr. and Mrs. E. W. Grogan who reside here. Friends in Clarendon join with The News in extending congratulations and best wishes to this happy couple.

FOR COUNTY TREASURER

In making my announcement for County Treasurer would like to ask the people to give me all due consideration on election day.

Think about it, talk it over and I feel sure you will approve my having the office.

Having lived in this County all my life, and feel that the majority of the people know me, and will endeavor to meet those who do not.

To faithfully serve the people satisfactory will be my aim and ambition. Submitting my candidacy and earnestly soliciting your most favorable consideration, I am

Very respectfully,
Mrs. Willie Goldston.

WAR SAVINGS SOCIETIES

President Wilson has requested that in every county there be organized War Savings Societies especially in the schools, and Clarendon and the other towns and communities, of Donley, are trying to comply with this request. This is a thing we all should take an intense interest in forwarding.

Below are the societies so far organized and the number enrolled in each. And it is hoped that those who have not organized will do so and assist with this movement:

Pershing War Saving Society, Leon O. Lewis, President and Grace Benedict, Secretary. Twenty members.

Do Your Bit War Savings Society, Mattie Dean, President, and Catherine Naff, Secretary. Twenty seven members.

Seventh Grade War Savings Society, Ruth Patching, president and Carmen Ulm, secretary. Twenty five members.

Over the Top War Saving Society Evelyn Patman, president and Ruth Silvey, secretary. Thirty members.

Watchful Workers War Savings Society, Oma Griggs, president and Mary Benedict, secretary. Twelve members.

Liberty War Savings Society, Miss Blanch Mann, president and Mittie Cole, secretary. Forty-one members.

Standing Back of President Wilson War Savings Society, May Lumpkin, president and Ineva Headrick, secretary. Fifty-nine members.

Kan the Kaiser War Savings Society, Miss Francis Cooke, president, and Miss Margaret Willis, secretary. Seventy-nine members.

Win the War, War Savings Society Miss Maud Shaw, president and Miss Chleo Rector, secretary. Sixty-five members.

All of these just named are societies of the High School and Public School of Clarendon.

Citizens War Savings Society, Hedley Frank Kendall, president and Mrs. Geo. A. Wirberly, secretary. Forty-nine members.

Harry Bryan, secretary. Seventeen members meet every second and fourth Sundays at Pastime Theatre.

Victory War Savings Society, Martin School. Theo. Swift, president and Miss Dixie Parker, secretary. Forty-eight members.

Anti-Kaiser War Savings Society Goldston School. Miss Olive Owens president and Miss Eula Gerber, secretary. Thirty-two members.

All of the folks are up and doing and it is earnestly urged that others organize as soon as possible.

SECOND WAR-FUND DRIVE

Plans for the Second War Fund Drive are rapidly being completed by the committee in charge of this movement. Last Sunday afternoon an executive meeting of the committee was held and some final points were decided upon. The members of the committee are: A. R. Letts, Wesley Knorrp, Joe Horn, W. D. Van Eaton, F. L. Bourland, Geo. Bugbee, R. H. Muir. In as much as these men are giving liberally of their time as well as their money, it is right that every one they approach should be liberal and in turn help them work for the County quota.

All money contributed in this drive goes directly to the War work. Unless you specify, contributions in this drive will not entitle you to membership. To secure membership an additional dollar will have to be paid.

Remember you are fighting this war as much as the soldiers—if not you ought to be. Just now the way for you to shoot is with long distance guns. Every hundred dollars applied through the Red Cross will shoot across the Atlantic help an American soldier, feed the Belgians, and unbalance the Kaiser. Do your part.

The drive proper begins May 20 closing May 27. Be ready to respond when you are visited. It is no more to the committee in charge than to you. By taking this work they are assuming a public responsibility that properly belongs to all.

The business men of town are liberally responding by contributing their regular advertising space to Red Cross News in the issue of the paper for May 16th and May 23rd. Read every one of these and see just what has been done with the money raised in the first drive—also how this second fund will be applied. A more liberal set of business men can not be found anywhere than here in Clarendon. Every movement that is deserving they at once back it up and give liberally. Now Mr. Citizen you do likewise and meet this Second Drive.

GOV. HOBBY WILL SPEAK AT MCKINNEY, MAY 11

Dallas, Texas, May 4 — Governor W. P. Hobby will deliver a public address Saturday, May 11, at the court house in McKinney, Collin County. At that time he is expected to discuss state affairs and the record of his administration. The event is expected to command wide attention.

It is stated that the acceptance of the McKinney invitation was made possible by the relative relief from immediate pressing matters at the capital at this time.

The Governor will leave Austin during the present political campaign only as the condition of state affairs and the business of Texas will permit.

KINDERGARTEN PROGRAM

The pupil's of Miss Maurine Mullen's Kindergarten will render a program at the Pastime Theatre, Wednesday, May 15 at 3:00 p. m. Admission Free.

Mrs. C. M. Huggins of Oliver, Ga., is visiting at the home of her relatives, Mrs. Fannie Powell and family.

Bank Resources and Safety

AS A BANK GROWS in Resources, it becomes more and more safe and strong. There is a ratio also between Capital and Surplus fund to the Resources that determines the high safety of a strong Bank. For example, this Bank has gradually increased its Surplus fund until the combined Capital and Surplus fund is now \$90,000.00, with Resources of over \$700,000.00. Thus the growth of the Capital and Surplus keeps pace with the increasing deposits of this Bank.

DIGEST OF WAR NEWS Many Trained Workers Are Needed by Army and Navy

The civilian branches of the Army and Navy are in need of thousands of highly trained workers, and before the end of 1918 these branches must be increased by at least 20,000 according to the Civil Service Commission.

The Ordnance Department of the Army needs large numbers of mechanical engineers, draftsmen, chemists, and metallurgists. Thousands of inspectors are wanted to pass on the quality of ordnance, ammunition, and other supplies. For office work statisticians, accountants, assistants in business administration, and specially trained clerks are needed.

The Quartermaster Corps wants several thousand examiners and inspectors, and passenger and freight clerks are needed. The Signal Corps is short of draftsmen.

The Navy has an unlimited number of places for draftsmen, and a long list of positions for technical workers. Practically all branches of the service need stenographers, typists, bookkeepers and clerks.

Discouraging Letters Cause Desertions From Army Camps

In a recent statement the War Department strongly advises against discouraging letters to soldiers:

"Recent reports from commanding generals of certain Army divisions indicate that one of the fruitful causes of soldiers absenting themselves with out leave is the discouraging letter from home. Such letters frequently give alarming and exaggerated reports of conditions surrounding the soldier's family, that some member is desperately ill, that all are starving, or that they are being in some way harassed. In instances such letters

have so preyed upon the minds of soldiers that they have absented themselves without leave to go home, only to find that conditions had been grossly exaggerated.

"Meanwhile, the soldier had been absent without leave—a serious military offense. His problem then became one of facing the penalty or getting deeper into trouble by deserting. Sometimes a man's pride or fear has led him to desert.

"Every soldier wants to receive letters from home. They should be frequent, cheerful, hopeful, and appreciative of the sacrifice that he is making for his country. They should be full of family incidents and cheerful home gossip. They should protect him from the trifling alarms and the small annoyances of everyday life. They should encourage him by giving full confidence that his family and his friends stand behind him in the great enterprise he has undertaken.

"The value of such letters to soldiers is beyond estimate. The harm that discouraging letters from home do to him is clearly indicated by reports at The Adjutant General's Office. Here are some extracts from recent reports of division commanders:

"I find, also, that many of the families of the men write to them of unsatisfactory conditions at home, sickness of relatives, and how much various members of the family wish to see the soldier. These letters, so far as sickness, etc., are concerned, are often overdrawn, but, combined with the homesick feeling, often result in the man going absent without leave and finally being dropped as a deserter."

"I am now, through the newspapers of Indiana and through lecturers in Kentucky, whom we are able to reach through the office of the adjutant general of that State, endeavoring to advise the home people of these men of the seriousness of these

offenses and that their efforts should be to assist every man in performing the duty that has devolved on him, to lighten his worries and, above all, to regard desertion in its proper light. I shall also attempt to get the West Virginia papers to institute a campaign of education along similar lines."

"A division inspector submitted the following in this connection:

"While stationed at Columbus Barracks, Ohio, last year I was a member of a general court-martial that tried approximately 100 enlisted men for desertion from National Guard regiments stationed on the border. I believe I am safe in saying that at least 90 per cent of them gave as their reason for desertion the fact that they had received letters from home to the effect that a wife, sister, or mother was either dying, very ill, or in destitute circumstances, and begged the man to come home at once. Many of the men admitted that when they arrived home they found that the writer of the letter had exaggerated conditions."

"Many young soldiers, fresh from home, suffer from homesickness, no matter how Army officers may try to make their surroundings pleasant and comfortable and provide proper amusements. Extraordinary measures have been taken by the War Department during the past year to keep the young soldier actively engaged while in camp with sports, amusements, and comforts that a wholesome psychology might be sustained. Still, a type of soldier will yearn for home and fall into a brooding mood. It is obvious how harmful to him and to the home might be."

MAKING MEATLESS DAYS PERMANENT.

In the meatless menu there is a fertile field for developing new and nourishing dishes, according to E. H. Niles, writing in the Hotel Gazette, who believes that the present shortage of meat and fats will not end with the coming of peace, but may grow more acute and continue for five or six years, thus making it worth while to develop menus of grain, vegetables and fish on a more or less permanent basis. Meat can be replaced by cereals and other protein foods, or may be served in very small portions as a favoring for other food. In making up meatless menus this author finds our American Creole and southern cuisine a broad field for investigation.

A FIGHTING AMERICAN

Mrs. Ora B. LeBow.

A letter was received recently by the officers of the Federal Reserve Bank at Dallas that made a deep impression on all who read it. We quote it in full:

"Your circular, 'The Victory of the Ages,' has just reached me today, and I assure you I endorse it with all my heart. I am a widow of a soldier, also a mother of one—and I have but one son. He enlisted in the U. S. N. last May. I gave my son to America and I am proud of him. He was my all. I am sixty-four years old. I did not have enough money last October to buy even a \$50.00 Liberty Bond, but I want one. My son was on the sea at that time and could not send me any money until he reached his destination, but I have saved five and ten cents till I can now get one.

"What would you advise—wait till the next Loan is placed before the people? I believe that will be April the 6th. Kindly advise me.

"I am with you for victory or death. Oh, how I wish I was a boy just like mine, so I could do more to help win the war."

On receipt of the letter Mrs. LeBow was requested to write again, and, in her own way, tell just why everyone should buy Liberty Bonds. Her reply to this request is also quoted:

"Why should all people be glad to subscribe to these Liberty Bonds?"

"Because it takes money as well as men to win this war. We have the men, let's have the money. This is our part—the part for us who stay at home in ease and comfort. It is also the very least part that we can take, to loan to Uncle Sam our money, when he pays us back with interest. Our sons have said so gladly, 'Here am I, send me, Uncle Sam,'—some are now this minute in the trenches facing shot and shell, and shall we who have no hardships to endure, be less patriotic than they, who give their lives if need be, for our homes and country? Let us give as cheerfully of our money as they have of their lives and hopes for the future. For they are young men, they have laid their all on their country's altar. Let us not hesitate to pledge our last dollar, and more, if Uncle Sam calls again. I do not think that the American people will be found wanting, and may the God who rules over the destinies of nations make us strong to lift high the Star Spangled Banner, and never let the old flag fall, at home or abroad, and, like Patrick Henry said, 'Give me liberty or give me death.' Then, and only then, will we win this dreadful war."

Is there one among us who can not or will not catch the spirit of this dear old Spartan mother?

She responds in spirit and in reality, to the call of country and humanity. She gives her all, husband, son, and carefully hoarded scanty savings, so that the world "may be made a safe place to live in."

What a demonstration of patriotism, sacrifice, and whole-hearted co-operation is presented in the view-point of this aged mother!

With the same spirit having possession of all our hearts and minds, it can easily be seen why the Third Liberty Loan will be subscribed with a rush, and Uncle Sam will have the benefit of our efforts toward maintaining our nation's share of the world's fight for a lasting peace, a peace not dictated by German force and brutality.

SOUTHWESTERN STOCKMEN'S ASSOCIATION TO MEET AT TUCSON, ARIZ.

The city of Tucson, Arizona, has sent a pressing invitation to the Executive Committee of the Panhandle & Southwestern Stockmen's Association to meet in their city at its regular quarterly meeting about June 1st. The Chamber of Commerce of that live young city appreciates the importance of these assemblages of cattle to look after their interests, and as Tucson is a cattle town in a cattle country it would be a good place to have a cattle organization deliberate, and we are quite sure the members of the Executive Committee would enjoy their stay there, for the membership of the Panhandle & Southwestern Stockmen's Association is composed of a great many strong and influential cattlemen in Arizona.

NEED BIG HERDS

Europe's Meat Supply Must Come From America.

Warring Nations Have Depleted Live Stock at Enormous Rate, Even Killing Dairy Cattle For Food.

American stock breeders are being asked to conserve their flocks and herds in order to meet Europe's tremendous demands for meats during the war and probably for many years afterward.

The United States food administration reports that American stock raisers have shown a disposition to co-operate with the government in increasing the nation's supply of live stock.

Germany today is probably better supplied with live stock than any other European nation. When the German armies made their big advance into France and then retreated virtually all the cattle in the invaded territory—approximately 1,800,000 head—were driven behind the German lines.

But in England—where 2,400,000 acres of pasture lands have been turned into grain fields—the cattle herds are decreasing rapidly. One of the reasons apparently is the declining maximum price scale adopted by the English as follows: For September, \$17.78 per 100 pounds; October, \$17.23; November and December, \$16.08; January, \$14.40. The effect of these prices was to drive beef animals on the market as soon as possible.

In France the number of cattle as well as the quality have shown an enormous decline during the war. Where France had 14,807,000 head of cattle in 1913, she now has only 12,341,000, a decrease of 16.6 per cent. And France is today producing only one gallon of milk compared to two and one-half gallons before the war.

Denmark and Holland have been forced to sacrifice dairy herds for beef because of the lack of necessary feed.

Close study of the European meat situation has convinced the Food Administration that the future problem of America lies largely in the production of meat producing animals and dairy products rather than in the production of cereals for export when the war will have ceased.

BAPTIST ENLISTMENT TRAINING CAMP BEGINS TUESDAY AT PLAINVIEW

The Great Enlistment Training Camp for the whole Plains Country begins next Tuesday evening at 8:30 at the Plainview Baptist Church with Secretary Gross in charge re-inforced by his corps of helpers including Drs. Gambrell, Carroll, Gardner and Mrs. Beddoe. This Training Camp will run full blast for two whole days and nights in which every phase of our great work as Baptists will be discussed by the experts from Dallas and on the Plains. Dr. Gross is anxious to meet all the pastors, laymen, young people and women workers on the Plains at this time and discuss with them our work.

Mrs. Beddoe requests all the ladies of the church all over the Plains to meet here for a Conference on the 8th and 9th of this month.

Dr. Gardner will discuss to young people's work and requests the young people to meet him here at the same date.

Dr. J. M. Carroll, of San Antonio, is coming to speak and you must not miss him.

Dr. Gross will direct the camp and speak at various times.

Now, since the Training Camp is secured for the Plains at extra cost and effort on the part of those who come, we, of Plainview, send you the urgent invitation to share with us in this great feast. We are expecting one hundred at least from over the Plains. We wish you might come 200 strong. We will give you bed and breakfast for sure and will try to do better. Anyway, you come and we can show you better than we can write to you our appreciation and hospitality.

Remember the dates, May 8th and 9th, beginning Tuesday evening at 8:30 and closing out Thursday evening at 11:00 p. m.

Prisoners of War In United States Must Work

Included in War Department regulations regarding the employment of prisoners of war and interned enemy aliens are the following statements.

All classes of prisoners, excepting commissioned officers and such others as are physically not fit for labor, will be required to perform work necessary for their comfort or for the upkeep of their prison barracks. Interned enemy aliens will not be held for compulsory labor except as provided in this paragraph.

Prisoners of war, excepting officers warrant, petty, and noncommissioned officers, may be required to work for the public service—they may be authorized to work on their own account. Under exceptional circumstances, when specially authorized by the Secretary of War, they may, upon their written request, be authorized to work for private persons or for corporations. Petty and noncommissioned officers may be authorized to work on their own account, and, upon their written request, may be authorized to work in the same manner as other prisoners of war, except that they will

be employed in a supervisory capacity only.

An order for labor will be regarded as a military command, and prisoners failing to obey such order will be punished accordingly.

When employed on work that is necessary for their comfort, or for the upkeep of the prison barracks in which they are interned, prisoners will receive no compensation. When the work is done for the Government prisoners will be paid at a rate ac-

ording to the work executed; when the work is for other branches of the public service or for private persons, the conditions of and the compensation for such work will be settled in agreement between representatives of said branches or persons and The Adjutant General of the Army.

The wages of the prisoners shall go toward improving their position, and the balance shall be paid them on their release, after deducting the cost of their maintenance.

Attend the closing exercises of the Clarendon High School and witness the results of training under a corps of most excellent teachers. More interest should be taken in our public schools.

Donley County went over the quota as assessed in the Third Liberty Loan by \$37,750 as near as it can be calculated at this time. Our total subscription was \$227,550. Our quota was \$189,800. Every patriotic heart in Donley County swells with pride over this splendid record. Every slacker heart should consume itself in shame.

While our readers are perusing the columns the editor and wife is enjoying the annual meeting of The Texas Press Association at Fort Worth. The Panther City offers as a partial entertainment a bathing party in Lake Worth, and provided it stays warm "his nibs" the editor proposes to disport himself in the limpid waters of the lake and procure his annual bath, mermaids or no.

Our annual Chautauqua begins June the second and active work to make it a big success will have immediate attention. Tom F. Connally is chairman of the association and has named committees for the preparatory work. The Chautauqua people promise a program of varied excellence with special emphasis laid in the war, having several characters in their personnel who have seen active service in France. This event should be made a great occasion for Donley County people and everyone is invited to attend these splendid entertainments.

Public sentiment is gradually crystallizing against those who are able to subscribe to all war funds and who refuse to do so. Very little was said in the first campaign about the citizen who bought no bonds, more was heard in the second campaign and the third drive just closed the position of the citizen who neglected to do his duty became more uncomfortable. Take it for what it is worth: In the Fourth and succeeding campaigns feeling will be so intense against the financial slacker that his property will be in danger of yellow paint and mutilation even if his life should remain safe. It won't do, old tight-wad, you can't get away with it. The safest course to pursue is to become a simon-pure citizen before the next call comes—and you might begin by making a good strong subscription in the Red Cross campaign soon to begin.

Last week the Hedley Informer carried the names and subscriptions of the Hedley citizenship in the Third Liberty Loan with the goodly total of \$40,350 for that vicinity of the county. The Hedley people may well be proud of such a record and we believe that the publication of the list the week previous when the totals were a little over \$26,000 had much to do with the size of the final figures.

This week we are printing some matter pertaining to the nationwide Red Cross Campaign for a hundred Million dollars to be expended in war work. Our county managers, Mess. Van Eaton and Bourland are busily laying their plans which comprehend every nook and corner of Donley County. So thoroughly are they doing their work and so aroused are our people to the worthiness of this

great humanitarian cause The News predicts that Donley County will contribute \$10,000 instead of the \$8,000 asked for. Men, let's do more than we are asked for.

THE NATION'S SUPREME TASK

The Nation's one job is to make war with every ounce of mental, moral physical and financial strength. Nothing else counts now.

War, war, vigorous, aggressive, all-powerful war, is our one supreme work. To that end the fullest measure of the Nation's life must be given and upon it the utmost potentialities of our resources be concentrated and consecrated. Banish everything else but the things which arm us with the power to strike for life and liberty.

This means, crowd every coal mine to the utmost of its capacity; run every furnace and steel plant as though the Nation's life depended upon it, which it does; build every ship, big and small, steel and wood, for which men and materials can be found, and count not the cost; run every cotton mill to its limit.

Produce every bale of cotton, every bushel of grain that can be grown; raise livestock and poultry, and keep on raising them, for our Allies are hungry, and soon will starve if we cannot supply them bread and meat.

Make guns, the biggest and the best; produce explosives without limit; crowd all the potentialities of chemistry to the last notch of human energy; expand railroads; build permanent highways; make money with all possible energy, and turn it into Liberty Bonds, and into Red Cross or kindred interests.

Work, work, work, and keep on working, be you day laborer, mechanic, clerk, banker, manufacturer, merchant, capitalist, preacher or teacher, or whatever may be your occupation. All that you have, all that you prize in life, all honor of womanhood—your women, be it remembered—the safety of the prattling baby, the child yet unborn, the religion of Christ, civilization, your own America, Land of Liberty, the home of the free, are now staked upon how you meet your individual responsibility in this, earth's supremest hour.

You cannot, you dare not shirk. You cannot throw the burden upon others. From the women, the babies your country, your God, comes the call to you in thunder tones to do your duty, and do it now.—Manufacturers' Record.

CITATION BY PUBLICATION

THE STATE OF TEXAS,

To the Sheriff or any Constable of Donley County GREETING:

You are hereby commanded, That by making Publication of this Citation in some newspaper published in the County of Donley, if there be a newspaper published in said County, for four weeks previous to the return day hereof, you summon Harvey Adams whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Donley at the Court House thereof, in Clarendon on the Third Monday in July, same being the 15th day of July, A. D. 1918. File number being 1001, then and there to answer the Petition of Mrs. Jonnie Adams, filed in said Court, on the 8th day of May, A. D. 1918, against the said Harvey Adams, and alleging in substance as follows, to-wit:

That she and defendant were lawfully married in the State of Oklahoma on February 24th, 1915 that they lived together as man and wife until October 1916, at which time the defendant was indicted and convicted for felony theft, and sentenced to a term of five years in the penitentiary of the State of Oklahoma, that immediately after his said conviction he began the service of said term in said penitentiary, and up to the filing of said petition he has served twelve months and more of said term that he has never been pardoned out of said penitentiary by the Governor of said State or proper pardoning power; that during the time plaintiff and defendant lived together there was born to them a child, a boy named Doyle, age three years January last; that the defendant is not, and will not be a suitable person to have the custody and control of said child, and that she is able to undertake its custody, care and control. She prays for judgement in all things dissolving the marriage vows between herself and defendant, and for absolute custody and control of said child.

Herein fail not, but have you then and there before said Court this writ, with your return thereon, showing how you have executed the same.

HOME GUARD LACNCHED

After meeting Friday and Saturday mornings in regard to the organization of a Home Guard here in Clarendon around which a county Home Guard could be built, a committee was appointed consisting of Chas. Baldwin, W. T. Link and S. M. Braswell whose duty it is to secure drill grounds, provide drill masters from local talent and to take the names of those who volunteer to do the work incident to the regular organization of the Guard. It was decided that no final organization should be perfected until a specified number could be named as picked men and for whom Commissioner's Court would be asked to provide equipment as provided by law.

Regular drill will be held at 7:15 p. m., Monday, Tuesday, Thursday and Friday of each week in the vacant lot just east of the public school building. About fifteen men were present for the first drill which was held Tuesday afternoon and all who are willing to take this fine physical exercise should be present promptly on the days and the hour specified.

LOCALS RED CROSS NEWS

A new organization has been formed for the purpose of raising funds for patriotic causes. It is known as the Patriotic League and its first venture will be the giving of a benefit Masked Ball at an early date to be announced later.

The generosity of our friends continues. Last week Mrs. W. T. Howard gave a Cottage Organ to the Chapter to be sold. Also Mr. R. S. Heizer a superannuated Methodist Minister gave a Williams typewriter, saying that was all he had to give. Both Organ and Typewriter are in good shape and will be placed in the Red Cross Rooms where prospective purchasers may call and examine them.

Since Mr. Veazey began donating the eggs collected at his home on Sunday, several others have followed his example. These eggs will be sold at the market price or over, if any one cares to pay more. The first dozen brought 50cents. Any one wishing nice fresh eggs to set can get them at the Red Cross Rooms. Already twenty four dozen have been sold. If the donors of these eggs will leave their names with the eggs it will be appreciated. Some patriotic junior in each neighborhood can be useful this summer by collecting and delivering these eggs to the Red Cross Rooms or to The News Office, when the Rooms are not open.

Mrs. Sallie Dale of Brice has given a beautiful set of six dollies, finished with tatting, to be sold for the Red Cross. These can be seen at any time by asking Mrs. Talley at the Red Cross Room.

While every effort to assist the Red Cross either financially or otherwise is very highly appreciated should any person are organization desire to give an entertainment for benefit of the Red Cross, they should first notify the Chairman of the Local Chapter. While this may seem like red tape it is a regulation from headquarters and should be obeyed implicitly.

Mrs. Melvin Cook of Hedley, was a pleasant visitor at the Rooms last Monday.

The Executive Board will meet on Thursday at 5 p. m. of this week in

stead of next week.

GIRLS' NATIONAL HONOR GUARD

Tuesday afternoon the girls of the National Honor Guard of Clarendon met in a business session at the W. O. W. Hall.

Among the important business transacted was the making of plans by which we might raise money to pay for a Liberty Bond that was purchased during the latest drive. And it was decided to join with those of the Honor Guard over the United States and assist the furthering of the National Comfort Drive, which is for our boys who have come back to us "over here."

At an early date the girls will probably take up the study of the mechanism of automobiles.

Also at this meeting dues were paid for this year, and all those who failed to be present at this time please come the next meeting Friday, May 17, and bring your dues with you.

DELPHIAN CLUB

One of the most interesting meetings of the Delphian Club in some time, was at the hospitable home of Mrs. McCreary Monday afternoon.

Mrs. Wm. Gray, who had just returned from the District meeting of the Woman's Club which convened at Mineral Wells, gave a most interesting report.

The study for the afternoon was Palestine and all of the talks and papers demonstrated that much time and thought had been given them.

Mrs. McCreary has the Club with her Monday, May 27. The time of meeting was postponed until this date because the regular day will be during commencement at the College.

Mr. Louis Sitner, recent manager of the Gordon Clothing Co., of Minot, N. D., arrived here the latter part of last week for a visit with his brother H. H. Sitner of our city, before reporting for duty at Camp Dodge, Iowa. Mr. Sitner came via New York where he visited a sister. He is eager to don Uncle Sam's uniform and do his bit. Mr. Sitner is very complimentary of Clarendon and our country.

HOARDING

The impression seems to have gotten abroad in Texas that there are no teeth in the hoarding law. Such is not the case.

Any person convicted of having in his possession more than sixty days supply if any licensed food commodities (excepting those packed seasonally and except flour, which is restricted to a thirty days supply) is subject to a fine of \$5,000 or imprisonment for two years in a federal prison or both.

Administrators can be of great assistance in the enforcement of this law and are instructed to take the following steps:

1. Upon receipt of information that an individual or firm has in his or its possession an over supply of a given commodity the Administrator will exert his best endeavors, tactfully, to assure himself of the probable truth of the allegation.
2. Being satisfied that the charge is probably true, the Administrator will at once communicate with the United States District attorney for his district, giving him as much of the following data as he can:
 - (a) The name of the person or firm alleged to be hoarding food.
 - (b) The residence or place of business of the alleged violator.
 - (c) The reasonable requirements of the individual or firm for a thirty day period.
 - (d) The probable amount of the commodity in the possession of the alleged violator.
 - (e) The source of the information.
 - (f) The names of any material witnesses to the fact, as can be supplied.

WOMEN OF AMERICA MUST HELP WIN WAR

"Why should we American women be shielded and kept from doing the work that French and English women have done?" This is the question being asked by Miss Grace Parker, who was sent to Europe to investigate woman's war work on the other side of the Atlantic. Miss Parker points out that one million English women are making ammunition, that several hundreds of thousands are working on the farm, that they are performing every kind of labor needed to build a battle ship; that ten thousand are working in France behind the firing line; that twelve thousand are acting as motor drivers; that within ten days of the declaration of war sixty thousand nurses were enlisted.

At her meeting in Dallas recently Miss Parker's question was applauded vehemently. This was to be expected of Southern womanhood.

There is a work into which the woman of the Southwest can throw all those energies which they would gladly extend in more arduous and dangerous tasks. They can secure for the Government a huge over-subscription to the Liberty Loan. This will send food and ammunition to our soldiers and to our Allies. Will build ships, help to crush Germany and so achieve the object of every true American woman. Do the duty that arises clearly defined before you, and the same credit will be due as to the over-alled, dirt-stained sister on the other side. In the army of Democracy some must go "over the top"—some must engage in the prosaic work of mule driving—some making ammunition—others again must provide the money. All are necessary. Do your part and you will share equally in that glorious triumph which must one day be ours. Women of the Southwest, we look to our men to subscribe the Liberty Loan quota. We look to you to double it.

"Mother, I believe Mamie is a pro-German. She's got 25c and won't buy a war stamp." These are the actual words of a five-year-old Ellis county child. The man who has not subscribed to the Liberty Loan, or has not purchased his full quota, should realize that his action is subject to the criticism of even the children.

At a Liberty Loan meeting held in a Louisiana parish the speaker drew such a vivid picture of the duty we owe to our boys in France and pleaded so earnestly for economy and sacrifice that a prominent citizen of the community drew off his \$500 diamond ring, handed it to the speaker, saying, "It would burn my fingers now. Sell it and invest the money in Liberty Bonds."

Read this letter from Otto Meissner of Copperas Cove, Texas, a town of six hundred people: "I am a farmer. I called a meeting at the public house, put up the posters, explaining the facts. After the meeting I said, 'I am ready to sell Liberty Bonds' and sold a few. Next day I started my campaign from house to house. In three days I had my quota sold. I worked my territory with pleasure. Unused to selling, or business pursuits, this man "got busy" in the hour of his Country's need. This is the spirit that will "put over" the Third Liberty Loan.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. ARE YOU FOR AMERICA OR FOR GERMANY?

Which Will YOU Wear?

The Kaiser would gladly confer the Iron Cross on the man who donates a hand of the THIRD LIBERTY LOAN

UNCLE SAM graciously gives the Liberty Loan to the man who buys a hand of the LIBERTY LOAN BOND

You think this an unnecessary question, but stop and think! A traitor is a man who gives aid and comfort to the enemy. Do you know of any better way of giving aid and comfort to the enemy than to leave your money in the bank doing nothing, when it could be used by the Government to build ships, make ammunition, and so help win the war? The Kaiser would ask nothing more of an American friendly towards Germany. He could hardly ask him to openly fight the Government of this country, because he would go straight into an internment camp, but he would ask him to do all in his power to hold up contribution of money to the allied cause, because the Kaiser knows that at the very end it will be money and resources, and nothing but money and resources, that will beat him to his knees.

You may say "If I do not subscribe to the Loan that is no reason why other people should not, therefore the matter is entirely a personal one." It is not. Example is everything in such matters. If you subscribe freely your neighbors will subscribe freely. If you are a tightwad your neighbors will see no reason why they should be anything else but tightwads.

Do not feel offended at having this matter put up to you so plainly. There is many and many a good American who believes that he has done his full duty when he has not done it at all. This war is now three thousand miles away, and it is a little hard to realize all the grave necessities of the situation.

Read over a perfectly true incident which occurred only last week at the Union Station, Dallas. The writer of these lines vouches for the truth of the story, which follows:

"Last night I saw a soldier taking leave of his mother at a railroad station. The two drew away from the crowd, the woman threw her arms around the boy's neck, and looked up at him as she sobbed words which will remain forever sacred to the occasion.

For a moment I could not see very clearly, and as a consequence I bumped into a friend of mine, a man, by the way, who has made more money this year than ever before in his life. After a friendly greeting he said, 'Say, you fellows are hitting us up pretty hard on this Liberty Loan business. Do you realize that we are having to make some terrible sacrifices to meet our quota?'

"My friend has a business, owns farm land, and has a substantial bank balance; he has no boy in the army, and he has subscribed ten thousand dollars to the Liberty Loan. His sacrifice consisted of the loss of about one and three-quarters per cent on ten thousand dollars, for probably he would have secured six per cent instead of four and one-quarter per cent had he invested his money in some way other than the purchase of Liberty Bonds.

"What is the matter with my friend? Is he a pro-German or a traitor, or a poor American even? Not a bit of it! He just has not the right glasses for his mental vision. He doesn't see things quite right. That's all. He will, though—I am sure of it."

You Need Music NOW

Music was never more needed in the American home than it is to-day. Home has never meant more to Americans than it does to-day. With some of our boys at the front and many preparing to go, the tenderest and deepest emotions surge through our souls. It is then that we feel the need of a song to cheer, to comfort and encourage.

The St. Louis Republic says:

"The problem of music in the home is solved when the singing of the greatest artists is made possible by an instrument that does not betray itself in the very presence of the artist herself."

That instrument is

The NEW EDISON

"The Phonograph with a Soul"

Official Laboratory Model

The wonderful Edison invention that Re-Creates all kinds of music with such fidelity that the voices of great artists and the performances of great instrumentalists cannot be distinguished from the New Edison's Re-Creation of them. The Edison tone test proves this. Nearly 2,000,000 music lovers and upwards of 1500 of the leading music critics of America, who have witnessed these tests have admitted their inability to distinguish an actual voice, or instrument, from the New Edison's Re-Creation of it.

CITY DRUG STORE

MEAT FOR ARMY USE MUST PASS CAREFUL INSPECTION

The Army consumes about 2,000,000 pound per day of fresh beef. This necessitates the slaughter daily of 4,000 cattle. Official inspectors scrutinize every part of this supply from the time it comes on the hoof to the abattoir until it vanishes from the mess tin of the soldier.

Inspection begins at the stockyards, where the living animals undergo the examination of an official for any evidences of physical defect which might be difficult of detection later. Where there is doubt the questionable animals are separated for closer examination. Where there is certainty of defect, the animal is rejected as unfit for food supply.

Next comes a rigid examination of the carcass. Only when found "sound, healthy, and wholesome" is the meat passed as acceptable for food and duly branded with a nonpoisonous vegetable ink, "United States Inspected and Passed." The unfit carcasses are destroyed.

Fresh meats thus indorsed go forward in regular shipments, but those which are to undergo curing, canning or manufacture into sausages, lard, oleomargarine, etc., are subjected to reinspections at each step. For these there is a final inspection just previous to their dispatch for Army use. Samples are regularly collected for chemical analysis in the Government laboratories.

When the meats arrive at the Army stations they are again inspected either by inspections of the Bureau of Animal Industry or by veterinarian officers of the Army. They must also obtain the approval of the officer of the Quartermaster Corps receiving them. And then undergo their final test when the soldier's immediate organization commander looks them over before he permits them to be served to his men.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. B 79

Mr. and Mrs. Guy Taylor and family attended the exercises at the college Monday night.

U. C. V. ORDERS

To the Confederate Soldiers of Sam Lamum Camp under order number 3. Your are commanded to meet at the Kerbow Hardware Store on Monday, May 12th, at 2:30 p. m. for the purpose of organizing and electing officers from a Captain down to a Corporal, so we will be in shape to go down on the border of Mexico, to fight the Mexicans and Germans at any moment when our Governor calls for us and we will fight them to a finish. Now comrade you know when a man fails to show up he is called a Slacker—we all know there never was a Confederate called a Slacker and we trust there will not be a slacker when the role is called at 2:30, it would be breaking the Confederate record. Dr. S. L. Burkhead will address the company and his talk at times may cause the rebel yell, I believe the Dr. will be in favor of the Black Flag. We are going to arrange for a big picnic in the near future, perhaps in ten days in case we are not called to the border.

DON'T SLAM HELL

The following was written by Jas. T. Albert, before he left for France where he was killed in battle.—Orpha King, Moulton, Ia. Why do we slam hell By wishing the Kaiser were there? Have some respect for the place And in your wishing be fair. The devil was cast out of heaven By trying to run the place; Bill wants to run the earth By exterminating the race. We have no record that Satan Drew even one drop of blood, While the kaiser to obtain his hobby Would make the whole world run red.

No, hell is too good for the kaiser. There must be some place below Where he can be made to review The war like a moving picture show.

Let the moving picture be endless, May it last till the end of time, And in the minutest detail Show each hideous crime.

The screaming of little babies, Torn rom the mother's breast; The maiming of little children And suffering of the rest;

The drowning of innocent victims, The poisoning of water in wells, The explosion of gas bombs in trenches, And the suffering of soldiers in cells;

The starving of the old and helpless The massacre of crippled men. And after all has been shown Let the film start over again.

Brimstone and sulphur are dishes On which the kaiser fares well; So don't slam the devil's dominion By wishing the kaiser in hell.

DELCO-LIGHT Increases Farm Efficiency

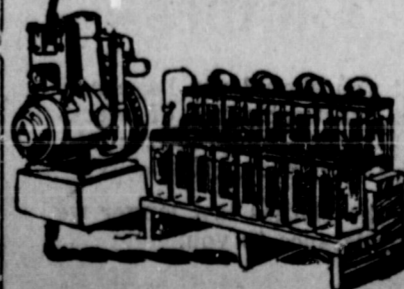

1. Saves time and labor—Work formerly done under poor light and by hand can be done better and in less time with the aid of electric light and power.
2. Labor is attracted to the farm—The "back to the farm" movement is made practical when the conveniences afforded by electric light and power can be had in the country.
3. Keeps the boys and girls on the farm—Electric service on the farm offers city attractions. Valuable labor and valuable young manhood and womanhood are saved to the country community.
4. Solves the retired farmer problem—Electric light and power make the farm home so attractive and comfortable that the farmer and his wife remain on the farm where their advice, experience, and immediate interests are of great practical value.
5. Lightens burden of the housewife—Increased farm work in war times means increased labor for the housewife. Electricity offers the only practical means of taking the drudgery of household tasks from her shoulders.

Delco-Light is a compact electric plant for farms or country homes. Self-cranishing. Air-cooled. Thick plate, long-lived battery. Ball bearings. No belts. RUNS ON KEROSENE
