DONLEY COUNTY AGRICULTURAL AND LIVE STOCK EXHIBIT WILL BE HELD IN CLARENDON, SEPTEMBER 9, 10, 11

THE CHAMBER OF COMMERCE DECIDED TUESDAY EVENING TO HOLD THE COUNTY FAIR HERE IN CLAR- ENDON—BELOW IS GIVEN THE ARGUMENT AND SYNOPSIS OF PREMIUM LIST

The Donley County Fair will be held at Clarendon, Texas, on the 2, 3, and 4 of September, under the auspices of the Chamber of Commerce and in order to make a success of it, we are very anxious to have every citizen of Donley County to co-operate with us to the fullest possible extent. We are very anxious for each and every man and woman, boy or girl who has a good specimen of some agricultural or livestock product to bring that specimen to show in this Fair. It is just four weeks ago that you have a good specimen getting it ready to bring it in for the Fair. All entries are free to everybody, bring your stuff in and show your neighbor what good stuff you can raise. We are giving the completed organization of the Fair department together with the list of subjects that will be shown. Look this over and see what you have along this line.

TAX LEVY FOR DONLEY FIXED BY COMMISSIONERS

The Commissioners' Court in session Monday and Tuesday of this week fixed the county tax rate on property at 75c. The state rate is 62c, making the total tax \$1.37 as against \$1.50 last year. The jury, courthouse, and jail funds were ample but the road funds were insufficient.
The court also received the quarterly report of the clerk and of the treasurer, and passed on them as having all funds in good shape. The Commissioners' Court was composed of Judge Link, Clerk Bray, and Commissioners F. L. Goldston, G. A. Anderson, J. G. McDougal and T. L. Naylor.

CHAMBER OF COMMERCE IS RE-ORGANIZED

ROY B. MEFFERD PLACES THE CHAMBER OF COMMERCE ON A MORE CO-OPERATIVE BASIS ALLOWING FOR A SMOOTHER HANDLING OF BUSINESS

With the belief that a Chamber of Commerce should be run as a business organization we have proceeded with the complete reorganization of the Clarendon Chamber of Commerce and have completely departmentized its work. It is not right for a community to expect a few—the Directors of the Chamber of Commerce and the Secretary—to do all of the work. If they must do it they will have a Chamber of Commerce that is not doing much, more talk than action. We are desirous of having the other extreme said about us, that it will be a great deal and talk very little and in order to do that it is necessary to have a co-operative membership of the Chamber of Commerce. In the working out of this plan we are ready to report the completed organization of one Department, the Department is not exactly completed yet either for some of the subdivisions have to be filled out at this date but all of the subdivisions have been provided for and are ready to go to work. This is not the most important Department of the Chamber of Commerce neither is it the largest but since it is ready to report we will give it and give you the office as they are completed. In order to get Clarendon and Donley County before the eyes of the world and keep them there all of the time we have formed the Publicity Department of the Chamber of Commerce and it will be the duty of the Department to collect and prepare the news of Clarendon and Donley County for the State papers and keep something in all of them in each and every issue. A few items from Clarendon daily will soon begin to attract attention and people will be coming to this county in train loads. We are also making plans to cover all of the leading papers of the North Central States. In order to carry on this work efficiently the following plan will be carried out: the Chairman of each subdivision will collect the news of interest in that line of enterprise and send, bring, telephone or mail it to the Secretary of the Chamber of Commerce at least twice a week and offer if anything of interest happens and then the Secretary will proceed to prepare all of the items sent in from the different subdivisions and will send them out daily to the different papers. Let's say that each subdivision only sends in four items each week it means that there will be 48 items ready for the daily papers all over the country each week and that makes an average of nearly seven items each day that will appear all over the country in this county. Can you see what this will mean to Donley County?

Within a very short time each of the 12 subdivisions will be so organized that it will be able to cover the entire County in getting the news from all over the county in the quickest possible time before the eyes of the world. This plan will beat the idea of one man collecting all of this news and sending it in his own characteristic manner each and every day, if he would send it that often.

MEFFERD COLLECTING EXHIBIT

Secretary Mefferd will make a trip over Donley County commencing tomorrow for the purpose of collecting an agricultural exhibit with which to supply the West Texas Chamber of Commerce as that organization is instrumental in sending exhibits to fairs all over the United States. The exhibits will be collected by Mr. Mefferd tomorrow for the fair at Springfield, Illinois, commencing on August 20th and for the fair at Dayton, Ohio, commencing the 23rd.
Mr. Mefferd will collect a representative exhibit, and especially asks the cooperation of the farmers in this work. This work will do more to advertise Donley county than almost any other sort of work, as this is advertising by putting up the goods. Help Mr. Mefferd in this work; he is working hard, and with your assistance, will make up a worth while collection.

John Beverly announces that he has received a reply from his wife who is visiting at Wichita Falls in answer to the special delivery letter that he sent last week requesting her to tell him where the dish rag is located.

UNDERWOOD DISCUSSES RECORD OF BAILEY AND LAUDS NAT NEFF

"My friends, I am not here to discuss the issues of this campaign from the partisan standpoint; but I only wish to talk to you as friend to friend"; declared Hon. R. E. Underwood last evening in an address to an audience of about 125. Mr. Underwood was brought here by the local supporters of Neff, assisted by former supporters of Thomason and Looney. Mr. Underwood spoke for an hour and fifteen minutes to an audience that, despite his efforts to lay aside all speaking for effect, gave its endorsement of what he said by hearty applause.

Mr. Underwood discussed the record of Bailey while in the house and in the senate, taking the records of each for what Mr. Bailey stood for and against. He then discussed the promises of Mr. Bailey about the open shop, about reducing expenses, and about tearing down the achievements of the Administration, declaring that these plans were not feasible since Mr. Bailey did not say where he would begin. He then discussed the war record of Mr. Bailey himself. In the end Mr. Underwood read an editorial that appeared in the Republic, the official Republican organ of this state, the editorial having been written by Mose Harris. The advice of the editorial read was that all loyal Republicans should enter the Democratic primary and vote for Mr. Bailey. Mr. Underwood was accompanied here from Amarillo by Hon. Felix Franklin. He was greeted by many local friends.

BAILEY CLUB TO SECURE A SPEAKER

The local supporters of Hon. Jos. W. Bailey are arranging to bring a foreign speaker here, since Mr. Bailey is unable to be here Friday as was previously announced. Although only a few of the members of the club are present, they are supporting him in every possible way, by circulating an endorsement of his candidacy and in preparing to bring speakers here. Mr. Bailey carried the county by a plurality of fifty votes the other time and the local supporters are endeavoring to secure the majority of the Thomason and Looney votes for the run off August 28th.

FORMER RESIDENT KILLED

Word has been received here by friends that Hardy Parker, a former student of Clarendon College, was run over by a freight car and killed immediately at San Antonio, July 8th. Mr. Parker, while on his way home from his office, was standing in the shade of a freight car talking to a friend, when a switch engine pushed another freight car by that struck him, throwing him under the car.

HORSE RUNS AWAY WITH SMALL BOY

J. A. Jr., the twelve year old son of Mr. and Mrs. J. A. Cook, while driving home in a wagon just after noon today, was thrown out of the wagon when the horse became excited and unmanageable. The boy was caught in the wheels of the wagon and was dragged for more than a block, with the result that his body was badly bruised and skinned. At the time of our going to press, he has not regained consciousness, although the doctor thinks that the injuries are not dangerous.

EPWORTH LEAGUE TO HAVE SPECIAL SERVICE

The Epworth League of the First Methodist Church will hold a special service next Sunday evening at 6:45 o'clock. In an effort to recruit the membership of the League, special services will be given and new members solicited. Everyone who is attending no other young people organization, is earnestly requested to attend.

AUGUST TERM OF DISTRICT COURT ENDS SATURDAY

THE SUMMER TERM OF THE DISTRICT COURT CLOSSES AT THIS PLACE LAST SATURDAY HAVING RUN THE FULL TIME ALLOWED BY LAW

The summer term of the district court closed here Saturday after having run the full time allowed by law. The docket was not heavy and the criminal cases were dismissed with the exception of the case of the State vs. Henry Rowden and Jack Woods. These cases were under jurisdiction in Armstrong county, it having been discovered that the shooting took place in that county. The trials for the first week were conducted in a few cases in which the state was involved.

Following is the docket and the decisions: Nora Stone vs. J. M. Stone, dismissed; W. G. Word vs. J. W. Morris, injunction perpetuated; Myrtle Johnson vs. Barney Johnson, dismissed; Daisy Frazier et al. vs. M. A. Gant et al. judgment for plaintiff; C. B. Headrick vs. N. J. Webb vs. C. C. Carter, continued; L. F. Gregory vs. Robt. Patton et al. mistrial; Hubert Burrall et al. vs. Z. T. Brooks, nonsuit; Farmers State Bank of Burkburnett vs. G. D. Thompson and W. M. Cotran continued; Western Cattle Loan Company vs. L. F. Gregory et al. judgment for plaintiff against Gregory; City of Clarendon vs. A. B. Nave, injunction perpetuated; Hardcourt Drilling Company vs. Phillips and Lightower, continued; Cora Adamson vs. Mark Adamson, divorce granted; M. E. Horn et al. v. Mord Horn et al. judgment for plaintiff in partition; Bertie McCormick vs. Lester McCormick, divorce granted; Marie Benson vs. H. K. Benson, divorce granted; Zoe Nix vs. Dothan Nix, divorce granted; Fleem E. Caraway vs. Sarah J. Caraway, divorce granted; Rosa Rodrigues vs. A. L. Gibson, judgment for plaintiff, Sarah E. Rector vs. J. S. Rector, continued; Odos Caraway vs. heirs of J. B. Williams, judgment for plaintiff in partition; H. B. Vandecar vs. A. Carpenter et al. plaintiff nonsuit; Rufus Curtis vs. May Curtis, continued; G. R. Rafter vs. A. R. Letts, plaintiff nonsuit; N. C. Duggan vs. Earl Fuller et al. judgment for plaintiff; J. King vs. Edw. L. Dunn, continued; State of Texas vs. Zack Shepherd, dismissed; State of Texas vs. J. H. Evans, dismissed.

METHODIST CHURCH IS DOING IMPROVING

Improving on the building of the First Methodist Church in this city is being done to the amount of several thousand dollars. The work includes the installation of a new heating plant, the re-arrangement of the basement, the remodeling of Sunday school rooms and the re-carpeting of the floors.
The present heating system gave poor service last winter on account of the furnace being too small to accommodate a building the size of the church. A new and up-to-date furnace will be installed and the number of radiators doubled.

BAILEY SPEAKING DATE FOR FRIDAY CANCELED

Joseph W. Bailey, candidate for governor of Texas, will not be here to fill his speaking date announced for Friday night. Judge Cole received a telegram Tuesday informing him of the change of plans. This change was made necessary by alleged false statements made by a prominent speaker at Albany and Haskell during the past few days. Bailey ignored the suggestions of his campaign manager in filling his regular dates as announced, going to Albany, Baird and other places to answer the statements which Bailey alleges are false.
The change of plans is a keen disappointment to a large number of people in this section of the Panhandle who had planned to be present Friday night. It will be remembered that Bailey carried Donley county in the recent primary.

HEAVY RAINS FALL IN DONLEY COUNTY

A copious rain said to measure two inches fell over Donley county Tuesday night assuring the farmers of the biggest corn crop ever. Another good rain fell Wednesday afternoon. With the present moisture in the ground, a good all-round crop will be raised this year in the great Panhandle. Many land buyers have been coming this way almost daily, a majority of whom purchase before going back to their old homes.

FAIR QUESTION DISPOSED OF AT THE LUNCHEON

SEPTEMBER 9, 10 AND 11 ARE THE DATES SET FOR THE EVENT THIS YEAR—FAIR WILL BE HELD IN CLARENDON THIS YEAR

"If in the history of Donley county there was an opportune time to display the variety of our agricultural interests, this is the year," asserted F. A. Story, president of the Clarendon Chamber of Commerce, at the Tuesday luncheon. One of the best luncheons of the summer, consisting of fried chicken, creamed potatoes, fresh corn, and the trimmings to go with such a lunch, ice tea and apricot ice, was served by the ladies of the First Christian church. Following luncheon the proposition of an agricultural fair for Donley County was discussed and it was unanimously agreed that the Chamber of Commerce would give all the aid that could be mustered toward putting over a fair.

Secretary Roy B. Mefferd presided and gave a short sketch of the plan as outlined and in his usual enthusiastic manner declared himself to be anxious to do as much if not more than the counties surrounding Donley. President Story then called on the various business men for an expression of their opinions relative to having a fair for Donley county this fall. Everyone responded that he believed the fair would be of more value to Donley County than any thing else this fall.

The plan is to have the agricultural exhibits indoors, while some street will be roped off for the exhibit of livestock. The fair will be more on the order of the highly successful fair held in the North and East. No entry fee for the exhibits will be charged and no admission to the exhibits will be asked. Everything will be free to the people of the county and the expenses relative to holding the fair will be met by the business men of Clarendon. Everyone who has anything in the way of livestock or agricultural products that he considers good is urged to enter that.

SECOND MONDAY OF SEPT.

The Chamber of Commerce has arranged with Mr. Will Lott to use his Horse and Mule Barn and lots during the fair which will be the 9, 10 and 11 of September. All of the Poultry and Hogs will be shown in this barn and in these lots. No one will be charged anything for the space that he will need. It will be expected of the one who arranged to furnish his own coops and pens and will be required to arrange them according to the defined rules of the Arrangement committee of the Fair department.

On the second Monday in September there will be held a General Trades Day. Arrangements will be made by the Chamber of Commerce to have an auctioneer here and there will also be free yardage secured for those who bring in stock to be sold or traded. Judges will be selected to award the following prizes during the day: for

- The best saddle horse brought in, a \$10.00 bribe.
- The best matched team brought in, a pair of bridles.
- The worst mismatched team brought in, \$5.00 in cash.
- The biggest family brought in a 50 pound sack of flour.
- The man or woman who makes the most trades during the day, \$10 in cash (must have made as many as five trades).
- The best mule colt brought in, a blue ribbon will be given.

CITIZENS BUILD ROAD

A most worthy enterprise was started yesterday morning when the citizens who live north of the river set out to repair the roads between there and Clarendon. The road and bridge fund, although to the state limit is insufficient for repairing and building the roads so these citizens have volunteered to put the road north of town in shape by either furnishing their own and their team's services for a day or pay ten dollars. The "River Hill" will also be graded down several feet and the ground that is removed will be used in building up the roads in the river bed.

The News was unable this week to get the names of those doing this patriotic service for their county but as the names of those contributing their services are learned they will be published in the paper.
In many parts of the country, the citizens, in order to have good roads will contribute so much per month and will hire a road foreman whose duty it is to look after the upkeep of the roads, and Donley can as well have that system as any place. Hurrah for these fellows, keep the good work going.

THE UNSKILLED LABOR SITUATION

In reply to an inquiry from the Farmers' Exchange of Hurlock, Md., as to whether wages of unskilled labor in stockyards, fertilizer works and other industries have advanced and if the supply of this class of labor had decreased since May 1, the Manufacturers Record finds that the labor situation varies in different parts of the country.

Reports to us from fertilizer manufacturers, who are large employers of common labor in Baltimore and other Southern cities, indicate that the supply of this class of labor is not sufficient to meet demands and that wages have recently advanced. On the other hand, labor conditions in Chicago district seem to be easier, and no appreciable advance in wages has been made in the last two months.

One concern writes that labor conditions at its Philadelphia, Baltimore and Norfolk plants are not satisfactory. It has been forced to make an advance of five cents an hour in unskilled labor, and even with this advance it is not securing all the men required. A large Baltimore manufacturer of fertilizer material finds that locally there has been a general advance in wages of approximately 10 cents

per hour, bringing the rate paid now to unskilled labor up to 50 cents an hour, and even at this rate labor is said to be very scarce and fertilizer manufacturers are having more serious trouble in getting labor than at any time during the past two years.

In Norfolk and Richmond it is stated that the available supply of common labor is less today than it was two months ago, and as men are constantly leaving without excuse or reason, there is great difficulty in keeping factories fully supplied. The opinion is expressed that labor is leaving in order to go on the farms, but farmers are also complaining of the shortage of common labor and that industries are bidding against them.

Georgia and Texas report an upward tendency in the rate of wages for unskilled labor and a lessening of supply. One of the largest packers and fertilizer manufacturers in the West writes that the supply of labor is larger now than it was a few months ago, though still below normal, but there has been no increase in wages since May 1. The company points out, however, that the present hourly rate of wages paid to unskilled labor is 202 percent above the pre-war rate. The hours of work have been reduced from ten to eight, and unskilled labor now makes in eight hours 142 per cent more than it made in ten hours before the war.

For several months all industries employing common labor have reported a scarcity in what is known as "pick and shovel men," the building trades especially feeling the effect of the decreased supply. With the cutting down of building operations as a result of the recent priority order of the Interstate Commerce Commission regarding coal movements to the detriment of all construction work, there should be more unskilled labor available. Badly as house building is needed in the country now, if during the temporary building halt, this labor could be induced to turn to the farm or industries so sorely pressed for help instead of waiting around for building to start up again, great good could be accomplished in enlarging our food supply.

The gist of the labor situation is that this country is short of common labor, pick and shovel men, and in recent years there has been little or no immigration of this class of labor to offset the increasing demand of our growing industries. Consequently it shifts from place to place and industry to industry, following the trend of wage advance.—Quannah Tribune-Chief.

AGRICULTURAL AND COMMERCIAL ORGANIZATIONS

W. E. Holmes
Secretary Commercial Club,
Sioux City, Iowa.

Dear Bill:
Your questionnaire received. Why is it, when an ordinary sensible individual prepares one of those infernal things he invariably leaves a lot of space where none is required and leaves none at all where a page is needed?

I have discarded the questionnaire and you'll find all the facts in the following, as briefly stated as possible. In the summer of 1912 the Secretary of this organization and the President of the First National Bank who is a live one and wanted to make himself solid with the soil-tillers, toured Scott County in a 1909 Cadillac, visiting, distributing literature, calling meetings, ticketing the bell-cow of every township, and doing other needful things in connection with the formation of a county agricultural organization. The Commercial Club provided an office, furniture, stenographic help, and other necessities, the government contributed \$1,200 a year, the business men of Davenport dug up an even larger sum, and the farmers of Scott county yielded \$124.10. With a favoring wind their moans could be heard for miles.

Cherished by the results we induced a kindly millionaire with a penchant for agriculture to guarantee the payment of any deficit that might be incurred, and launched the Scott County Farm Improvement League upon a chilly world. Then we bought a second-hand Ford car and a tank of gasoline, hired a solemn young man from Ames, and we were ready for business.

Our success was not exactly immediate. Although the young man from Ames can tell from looking at a rolled out whether it was planted with a drill or a shot gun, and is equally proficient in other directions, he was at first the object of considerable suspicion. Some farmers met him on the wrong side of the front gate, with their hands on their Ingersolls, and some of them shooed their stock in the barn when the second-hand Ford car hove in sight. His advice was as welcome as a case of small pox and was followed as literally as the ten commandments. And when he insisted there were better methods of testing seed corn than by looking at it wisely through a pair of ten-cent specks; that serum was not invented by black-hearted confidence men to separate the farmer from his loose change; that alfalfa will grow in Scott County, and that sprayed trees yield more and better fruit—he was looked upon as hopeless and a dangerous lunatic.

Two years ago we began to test seed corn, and untested corn did not; serum-treated hogs lived, and untreated hogs died; sprayed orchards bore fruit, and unsprayed orchards did not; alfalfa grew and thrived, and returned big yields. The farmers began to smile upon the young man from Ames. Some gave him butter milk. A few invited him to supper. The live bank president began to believe some of his own agricultural predictions. The Secretary of this organization began to give up money.

Another year slipped by! The second-hand Ford-car and the young man from Ames are welcome guests on every farm. The live bank president is known as the farmers' friend, and his rural deposits make him bluish. The secretary of this organization calls the farmers by their first names, and hopes one of them may some day join the Commercial Club. The government still would use \$1,200 a year, the business men still dig up even more, but the farmers—God bless 'em—are parting with about a thousand. The sun shines, the birds sing, the corn grows as thick as clover, the hogs die of old age, the alfalfa is cut with the weight of sanitary, sprayed fruit, and the Scott County Farm Improvement League is considered to be the best ding-busted organization in the whole blamed state.

Sincerely yours,
Irving C. Norwood, Sec.

WHY NOT HERE?

Some time ago Henry Ford suggested that manufacturing concerns build out in the farming centers and employ the farm hands during the winter months, then shut down in summer and leave them free to work the farms.

Mr. Ford's idea is that this would keep the young men on the farms and solve the help question. The idea is full of logic and common sense.

It could be done. Furthermore, it could be done right here in this community.

Such a factory or even a number of them could be operated economically in this town.

It might well be conducted upon a co-operative basis, with each employe sharing in the profits.

We believe every dollar required for such an enterprise could be raised in this town and farming community.

We believe the employees of such a concern would all subscribe for some of the stock, if given an opportunity to pay for it from their co-operative dividends and from their wages.

We have the emergency.

Have we the leader who is equal to it?—Quannah Tribune-Chief.

NOTICE PRECINCT CHAIRMEN

As most of you understand there will be no second primary for county offices, but on August 28th, will be held the run-off primary for state offices. There being no funds in the treasury to pay election officials for this work you are directed to secure volunteer election officials from the opposing adherents of Bailey and Neff to hold the election in your precinct. Election supplies can be secured at my office the week beginning August 23rd.

HISTORY'S LESSON

Those misguided persons in America who have been lauding the accomplishments of the Soviet government in Russia should by this time be convinced of the utter futility of any such scheme of governing a great nation.

After a trial of almost three years the Soviets have failed to restore even the semblance of peace to Russia. Bloodshed, rapine and thievery are running rife and Russia is helplessly starving. Meanwhile the printing presses are turning out worthless Bolshevik money—worthless because it represents nothing. Money cannot be made by the fiat of an autocrat whether he be Bolshevik usurper, Kaiser or Czar. Honest labor and things of life is what gives value to the production of the necessary money, and honest labor and production are all but extinct under the benevolent rule of the dictatorship of the proletariat.

Work has been abolished, according to the promise of Lenin and Trotzky, but no substitute has been found. No substitute will be found, because there is no substitute. Numerous political pirates in this country have recently expressed the purpose to bring about a Bolshevik government in this country. Few real Americans will be fooled by the claims made for this system of so-called government, but there are millions of foreigners in America, ignorant alike of the ideals of America and the language that Americans speak. It is among these that the seed of anarchy, revolution and Bolshevism will take root, if it ever does.

Here is the big, outstanding obligation of America. These foreigners must be taught the true ideals of Americanism. They must be taught the language of their adopted country. But more important than these, they must be encouraged to own homes. As long as they live in hovels owned by manufacturing corporations for which they work they are a source of danger. The wise employer of this class of labor will help these people to own homes. It would be a mistake to give them homes. It is elemental in human nature to prize those things which come from the practice of thrift and through honest work.

Bolshevism has never taken hold among home-owning, enlightened people and it never will. Will we of America learn this lesson? The facts of history shout them to us in thunder tones.—Amarillo Tribune.

THE SALE HAS STARTED!

Happy will be the purchaser of these furnaces when they see the necessary prices next fall!

10 Day Sale

Your chance to buy at prices that we may never see so low again

ROUND OAK PIPELESS FURNACE

This sale has made us many friends. They will feel even more kindly toward us next winter when they experience the warmth and comfort of the moist, healthful air that a Round Oak Pipeless Furnace circulates. They will thank us, too, when they try to price these furnaces later and hear that the building boom has created a scarcity with a corresponding advance in price. They will enjoy the conveniences of tending but one fire and the fuel savings will look mighty good. Finally, long years of comfort, low expense and appreciation of air that is always clean, will cause them to look back at this sale with gratitude.

—We thoughtfully say "Hurry in and order one of these furnaces"

This sale is nearly ended. All latest 1920 models bought at January prices. We are sharing profits to tide over the dull season in heating. We will reserve furnaces for future installation, if necessary. If you lack ready cash, let us talk it over. We regret to tell you we believe that no more will be obtainable at these prices.

BIG WILD ANIMAL SERIAL A THRILLER

The most weird, strange and certainly most thrilling sensational screen offering of recent years is soon to burst upon the excitement-loving public in the form of a fifteen episode serial production "THE LOST CITY," a story of the African jungle and its never-ceasing thrills and adventures, featuring the beautiful and daring Juanita Hansen, who is supported by George Chesbro and a big cast of clever screen talent will begin its run at the Pastime Theatre soon.
Elephants, tigers, lions, leopards, camels, gorillas, alligators, eagles and all the other wild denizens of the African jungle and scorching desert, each play their important part in this swift moving, crowding sensation upon sensation in such rapid sequence that the spectator is hardly allowed to recover from one gasp before another is forced upon him.
Unlike other animal productions of the past "THE LOST CITY" is presented with really ferocious and untamed animals, rather than with the subdued drugged beasts hitherto shown in many films. It was fortunate for the production itself that Miss Juanita Hansen possessed that daring courage that made it possible to use these savage specimens which have added so very much to the rush and "pep" of the story. 33.

BAILEY CLUB FORMED

The loyal supporters of Hon. Jos. Weldon Bailey for governor met on the street between the Donley County and the Farmers State Banks in this city and formed a Bailey for governor club Monday evening. Interesting talks were made by the chief supporters and much applause was given them following which plans were made for furthering Mr. Bailey's campaign in this county.

BELL RINGERS IN THE DEMOCRATIC PLATFORM

Only by immediate ratification of the Treaty without reservations may we retrieve the moral leadership which President Wilson won and which Republican politicians at Washington sacrificed.
The railroads were subjected to Federal control as a war measure * * * When human life and national hopes were at stake, profits could not be considered.
We remind the people that it was only by the return of a Republican Senator in Michigan who is now under conviction and sentence for the criminal misuse of money in his election, that the present organization of the Senate with a Republican majority was made possible.
Believing we have kept the Democratic faith, and resting our claims to the confidence of the people not upon grandiose promises, but upon the solid performances of our party, we submit our record to the nation's consideration.
A review of the record of the Democratic party during the administration of Woodrow Wilson presents a chapter of substantial achievements unsurpassed in the history of the Republic.
For fifty years before the advent of this administration periodical convulsions had impeded the industrial progress of the American people * * * By the enactment of the Federal Reserve Act the old system, which bred panics, was replaced by a new system which inspired confidence.
Under Democratic leadership the American people successfully financed their stupendous part in the greatest war of all time.
After a year and a half of fighting in Europe and despite another year and a half of Republican obstruction at home the credit of the United States stands unimpaired.
Claiming to have effected great economies in government expenditures the Republican party cannot show the reduction of one dollar in taxation.
The Republican Congress * * * raged against profiteers and the high cost of living without enacting a single statute to make the former afraid of doing a single act to bring the latter within limitations.
For nearly half a century of Republican rule not a sentence was written into the Federal Statutes affording one dollar of bank credits to the farming interests of America. In the first term of this Democratic Administration the National Bank Act was so altered as to authorize loans of five-year maturity on improved farm lands.
The Republican leaders at Washington have filled utterly to propose one single measure to make rural life more tolerable.
The whole people have a right to insist that justice shall be done to those who work, and in turn that those whose labor create the necessities * * * must recognize the reciprocal obligation between the worker and the state.
Labor, as well as capital, is entitled to adequate compensation. Each has the right of organization and collective bargaining.

New Fall Merchandise Is Coming In Daily

—Indications Point to The Largest Business We Have Ever Had and, Believing It's Coming, We Are Prepared For It.

Believing that, in view of the almost certain working of the Law of Supply and Demand, there could not reasonably be any noticeable reduction in wholesale and retail prices of merchandise, simply because there is not enough to go round, we bought the bulk of our fall merchandise, early in the spring at prices considerably less than now obtain. This means a saving to us and to you, because where we can do so we are going to pass it on to you. And we invite you to make free comparison of our prices with those of other stores—never forgetting to compare quality at the same time.

And don't forget that our aim is to sell you medium-quality goods at medium prices. We won't tell you that we sell the "highest grade merchandise at lowest prices", you know it can't be done. But we want to sell you the "In-between" goods at "In-between prices". When we do, you'll come back to our store again.

—THAT'S WHAT WE WANT.

Clothes That Enhance Her Loveliness

The style notes for 1920 are going to be a joy to modern, practical women. Freak models are absolutely passe; Fashion, who pretends to dictate, but who really only takes orders from women in dress, has seen the manifold advantages of conservative, becoming and servicable attire, realizing that beauty and artistry—far from being sacrificed—are more evident than ever in the delightful styles of 1920.

Good-Looking Coats

Coats, too, are right in line co-operating with the spirit of the times, which is more expressive of comfort and good sense than extreme style. Generous of material, with a graceful sweep, deep shawl collar and full cuffs, one finds coats otherwise unadorned, depending on richness of material, beauty of lining, becoming lines and excellent workmanship to recommend to all good dressers.

Frocks

When we were beginning to think that designers of frocks had reached the ultimate, and that no one could imagine anything more becoming, and sensible, yet beautiful and graceful along come the new models for 1920 and take our breath away! We are supposed to tell you all about them here, but that would be just like the lady who tells you the plot of the play so you miss all the thrills. You would much rather see them yourself—but we shall say, there is an agreeable surprise for everyone who likes things beautiful and distinctive.

Suits Are Lovely

All lovers of good, standard style and first class tailoring will be on hand early in the suit section where these very smart fall models are now to be seen. The three-quarter, or fingertip length jackets are here with plain skirts, of course, and straight-lined according to popular choice. Materials? You will call them most becoming, the loveliest of—but, you must see them!

School Days Will Soon Be Here

—So Buy "Tom Sawyer" and "Huck Finn" Washwear.

Tom and Huck were real boys and needed just such real clothes as the above named lines are. Made so they fit right, with the right buttons, tops and what not, and of non-fading materials, they are the source of never failing satisfaction to the mother. They come in shirts, with and without collars, blouses and rompers. Get the boys ready for school now.

BOY SCOUTS MEET FOR THE FIRST TIME

Saturday evening at six o'clock the Boy Scouts met in their first regular meeting at Y. M. C. A. building with about twenty boys in attendance. The meeting was interesting from the start, boys who have belonged to the Boy Scouts in other cities were invited to tell how the Boy Scouts made themselves useful in their particular troop to which they belonged and several responded with interesting talks.

For next meeting the program will be a lively discussion between each patrol leader assisted by their boys of each patrol in showing what is the most urgent thing that needs doing that Boy Scouts can do in making this a better town, the patrol having the best idea will be entertained by the other boys.

There was several new members and there is prospects for a fine organization in this town.

REAL WEST TEXAS POUNDING

Some time in June the Missionary Baptist church at Martin School-house extended to me a call to come two Sunday afternoons in the month and preach to them. I gladly accepted the call. We began a protracted meeting there the first Sunday in August running over to the third Sunday night. There were some 15 or 20 accessions to the church. We had a real heaven born revival. I buried with Christ in Baptism 9 happy converts.

Bro. King, of Quanah, Texas, was with us and did some fine preaching. Monday morning, August the 9th, the autos, luggies, really I do not know just how they came, drove up to my house, and such a pounding as they did give us. I thought they were not going to quit pounding at all. They brought meal, bacon, lard, sugar, syrup, potatoes, onions, milk, butter, eggs, roasting ears, peas, honey, watermelons, cucumbers, tomatoes, canned fruit, well, I have forgotten the other good things. I had to work nearly all afternoon fixing a place to put things away. However, I put a good deal of it away at noon.

We had not the words to express to them the appreciation of our hearts for all the good things they brought. Martin community has in it some of God's best.

My prayer to God is, that He may bless them abundantly in the salvation of their people.

HON. CULLEN THOMAS TO SPEAK HERE SATURDAY

By arrangements completed by the supporters of Neff here and at Amarillo, Hon. Cullen F. Thomas, of Dallas, will speak in Clarendon Saturday afternoon at two-thirty o'clock. As is announced in the Amarillo Daily for today, Mr. Thomas would speak in Amarillo Saturday afternoon, but by a late change of plans Mr. Thomas will speak here in the afternoon and at Amarillo that evening. By this change the many farmers in Donley county who are interested in the gubernatorial campaign may hear the issues discussed by a supporter of Neff. Mr. Thomas needs no introduction to the people of Donley county as his reputation as one of the most brilliant orators in the state has preceded him.

A feature of the advertising end of the assembling of this issue of The News, is the fact that Mr. T. M. Little's ad came all the way from Baltimore, Maryland, where Mr. Little is visiting on his round of inspection and buying of his new fall stock of goods.

1-4 block, good six room house, well and windmill, barn and sheds, good garden spot, good fences, storm cellar. Fine shade trees, prices \$5,000 \$1500 down and balance \$500 a year. Located in southeast Clarendon. A. B. Long. 35pd.

Did you know that a new cotton mattress would cost you from \$49 to \$65? We renovate the old one just as good as new for \$9.50, with a new tick or \$5.50 and you furnish tick. Whipple Produce Co. 33c.

As announced last week, we had rented the Dr. Jenkins office and will move in just as soon as the Dr. can move, but up to that time we will be found on the streets of Clarendon. Joe M. Warren & Son. 34c.

REVIVAL MEETING TO BE HOLDEN NEXT SUNDAY, AUG. 15

The First Missionary Baptist church will begin its revival meeting next Sunday with Prof. J. W. Davis of Center, Texas, in charge of the song services. Prof. Davis is one of

Texas' best choir conductors. He has been in the Evangelistic work for 20 years. He was with me for six years while in the Evangelistic work. We cordially invite the co-operation of all the Christian people of the community. Come and enjoy good music. Pray God to give us a real

heaven born revival, such a revival as shall make Clarendon a better town. The unsaved of the city have a special invitation. Come with us and we will do the good.

50% More Mileage

In Boston, Green & Sweet Co. watched the Miller records on some hundreds of large cars. They found that Millers increased the former tire mileage from 50% to 75%. They eliminated blow-out troubles. And only six tires in each 1,000 proved disappointing to the users.

\$1,000 Daily To Reduce Your Tire Cost

The Miller Tire mileage, now discussed everywhere, is not an accident.

Over \$1,000 daily is spent in tests and inspections. Fifty inspectors guard against defects.

Every lot of tread stock is first vulcanized and tested in the laboratory.

Over 1,000 tires yearly are worn out in factory mileage tests.

Every tire is signed by maker and inspector, and both are penalized if a tire falls down.

Highly-paid experts spend their years in making betterments.

Mark the results

The Miller Tire is now talked everywhere. It is today's sensation.

It is winning countless contests where a score of makes are brought into comparison.

In the factory tests—radical rear-wheel

tests—Miller cords last year averaged 15,000 miles.

The new Miller treads, in these tests, outwear the best of others by 25%.

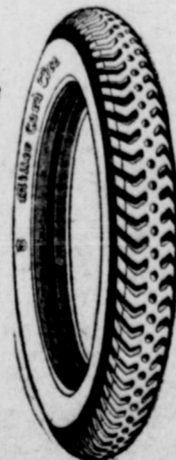

Defective Miller Tires are a rarity. Some large Miller dealers last year had not a single adjustment.

If you don't know these new-day tires you should find them out. They are saving millions of dollars to motorists.

Get one and watch it. It will give you new conceptions of a modern tire.

STATE FAIR TO HAVE BIG MEXICAN EXHIBIT

Neighboring Republic Already At Work on Plans For This Event

The State of Texas and the United States has received a distinct compliment through the fact that the new Mexican government has consented to send to the State Fair of Texas for the season of 1929 the Mexican

One of Mexico City's Famous Bands Will Accompany the Exhibit

National Exhibit, the great fair in itself that the neighboring republic to the south sends—and only on rare occasions—to visit foreign soil.

The Mexican exhibit will be one of the rarest and most entertaining features ever offered by the State Fair. It will include showings from every state in the Mexican union, portraying the industrial and agricultural production of Mexico, and the unbounded raw resources of that nation. This exhibit will occupy the entire outer space of the State Fair Coliseum building.

As a part of the guard of honor that will accompany the exhibit, Mexico will send one of her world-famous bands. There are three of these bands in Mexico City, all noted musical organizations.

Senor Luis Lupian, special representative of General Jacinto B. Trevino, secretary of the department of Industry and Commerce, visited Mr. Stratton and the State Fair recently, and spent two days in going over plans for the event. He returned to Mexico, and his visit and its results met with the entire approval of his superior, as General Trevino's department has already notified each Mexican state of plans made, and giving them their assignments.

PUREBREDS COMPETE FOR \$65,000 PURSES

Livestock Division at State Fair of Texas Breaks All Records For Amount of Prizes

With the State of Texas looking forward to one of the most prosperous cattle years of its history, the State Fair of Texas is not over-optimistic in predicting that the season of 1929 is going to be the greatest year in its history so far as the Livestock division is concerned. A total of \$65,000 in premiums, breaking all past records for this department, is the prize dangling before the eyes of the owners of show herds of America. In addition to this, tens of thousands of farmers and stock raisers will attend the Fair eager to pick up purebreds to improve their own cattle strains. This is a great

opportunity for the show cattle owners, and they are coming—stronger than ever before.

The Hereford and Shorthorn breeds lead the field in the allotments for beef cattle, with \$15,000 each. Aberdeen-Angus come next, with \$5,000. Then the dairy breeds "cut in" for their share, which is \$7,500 this season. Swine easily make way with \$6,000, while horses, mules and jacks will draw \$7,000. The sheep and goat section, with the dozens of incidental classifications, absorb the remainder.

All premiums are generous to a degree this season, and exhibitors are exceedingly enthusiastic. The fact that the State Fair is building two new livestock barns, both of modern fireproof construction, which will give plenty of accommodation, is bringing the fine animals that never made the Southwestern swing before.

HALF MILLION ROUND-UP COMPANY IS IN FIELD

Tex Austin, producer and director of the world's championship contest of cowboy sports, which was held in Grant Park, Chicago, during the Elks National Convention, at a cost of approximately \$150,000.00 and who has staged more Round-ups than any other producer in the world, together with Ed Carruthers, owner of the United Fairs Booking Association, Chicago, as Associated Partner, heads half Million Dollar Organization.

Fired with the huge success of the Worlds Championship contest on the Lake front during Elks Week, Tex Austin and Ed Carruthers have incorporated a permanent organization, capitalized at \$500,000.00 for the purpose of holding a series of contests in the east and west this season and next. The combination, it is predicted, will be very hard to beat. Mr. Austin has not alone been one of the most forceful and outstanding figures of the Round-up field of activity, but he has now added to his reputation by paying as large (if not larger) cash prizes ever paid anywhere in the world for real cowboy events. Mr. Carruthers has long enjoyed the reputation of being one of the ablest and most successful men connected with the outdoor show business, and this combination assures a powerful medium thru which the finest and most genuine features in western contests will be made available to the entertainment-seeking public in various parts of the country. The gigantic event in Chicago, where every phase of the game, on a colossal scale, was tested out and systematized, will be transferred to other cities as contracts are consummated. It is also assured that such an organization will go much to stabilize this attractive form of amusement and eliminate from it many haphazard and careless methods employed in the past.

The Tucumcari Round-up, under Mr. Austin's personal directions, is progressing nicely and for the past two weeks the management of the Round-up Association have been scouring the western country from the Mexican border to the Canadian Northwest in an attempt to secure the best bucking horses obtainable, and at last have succeeded in securing several car loads of buckers that have unseated many of the best riders in the field, and have scores of victories to their credit.

The wildest Texas Longhorn steers that could be obtained, will be shipped here next week, which will assure the public something wild and exciting.

MIGHT BE ONE OF A SCORE

The Clarendon News recently published a statement that a gentleman Joe H. Hurn, of that city, has a farm near the town of Mobeetie on which was recently unearthed the skeleton of a man. The skeleton had been lying in a field that had been cultivated for fourteen years and Mr. Hurn has owned the place for nearly twenty years. No one from the community had been missed in that time, and the identity of the skeleton was something of a mystery. The News says that the idea of the remains being those of an Indian is doubted because the bones were found in a low place or sag in the sand. An Indian chooses a high place for a burial ground.

The item was referred to Judge H. B. Spiller and John Kunkle of this city, both of whom were in the Mobeetie country before there was any Mobeetie and before the Indian left the Plains. They say the remains might be those of any one of a score of men who rendezvoused about old Fort Elliott and the early day Mobeetie. Outlaws, criminals and renegades of every character came there and there was no concern expressed if a man dropped out of sight as mysteriously as he had dropped into the place. They say that with the desperate characters there, it would be small wonder if they did not commit murder after murder if they suspected that the victim had money on his person. That the victim could be buried at night and no one suspect a crime. If the land around Mobeetie could all be turned over for a radius of five miles it is no doubt that a score or more skeletons would be unearthed. And if those skeletons could be identified they would supply the names of several men who dropped out of public life back east for "obvious reasons."

The finding of one skeleton is not particularly startling under the circumstances.—Canadian Record.

COLLECTIVE BRAINS

There is no dearth of brains in this town. We have an abundance, and to spare.

But they are mostly individual brains, operating individually and for the benefit of the individual.

What we need is collective brains—the brains of many individuals who co-operate in enterprises for the common good of all.

Much can be accomplished thru the collective use of the brain power of this town, but little can be expected if each individual centers his brain on his own individual pursuits and refuses to permit it to function beyond that point.

Individual operation of brain power is good, but both individual and collective power is better—much better.

The man who has but few brains needs them all for himself.

Those who have been richly endowed by nature in this respect can afford to devote a portion of their mental activities toward community betterment.

Which class are you in?

REVIVAL AT GOLDSTON

Beginning last Sunday evening, Rev. C. N. Ferguson, pastor of the First Methodist Church in this city, is holding a revival meeting at the Goldston church nine miles north of Clarendon. The meeting had a fine start and the interest continues to grow.

Rev. Ferguson is one of the successful revivalists in this conference and is more at home in a revival meeting than anywhere. The Goldston church is one of the strong churches in this county and the many valuable laymen there back up the revivalist in all his efforts.

JOURNALISM BULLETIN

Austin, Texas, Aug. 4.—Announcement of courses offered in the Department of Journalism of the University of Texas is contained in a bulletin just issued by that institution. The Department of Journalism was established at the University of Texas in 1914. The number of students registering in that department has increased from year to year, and it is expected that there will be a still larger increase at the next regular session of the University. Many former students of journalism at the University of Texas now hold positions on newspapers of the state, and some are making good as reporters in New York and other outside cities. The courses offered by the Department of Journalism at the University are equal to the best given by any school in the country, and its students receive, under the guidance of experienced newspaper men, that instruction considered most helpful in journalistic work. It is the aim of the department to make its professional instruction so practical that its graduates may be prepared to do satisfactory work in either city or country offices.

FRIDAY, AUGUST 13TH LIGHTNING BRYCE
Don't fail to see the 14th episode of "LIGHTNING BRYCE", as there is only one more episode left this one. Also one of Mae Sennett's best two reel comedies "BY GOLLY". It's a corker, and a Pathe News reel 10c and 20c

SATURDAY, AUGUST 14 TWO COMPLETE PROGRAMS
For the Matinee we will have "LIGHTNING BRYCE" and a dandy five reel picture 10c and 20c
For our Night's program we will have Madeline Travers in "THE IRON HEART". The story of a big business, made in and around one of the biggest steel mills in the world, also a Snub Pollard comedy 15c and 30c

MONDAY, AUGUST 16 SELECT SPECIALS
Oliver Thomas the winsome little star in "YOUTHFUL FOLLY". The story is dramatic but there is plenty of comedy in it, most of it supplied by real Southern darkies, a picture everyone will enjoy. 15c and 30c

TUESDAY, AUGUST 17 PARAMOUNT PICTURES
Vivian Martin in "HIS OFFICIAL FIANCEE", a picture that is different with Vivian Martin supported by a notable cast, one of her most appealing roles. Don't miss it, also a Ford Educational Weekly 15c and 30c

WEDNESDAY, AUGUST 18 METRO SUPER SPECIALS
Nazimova one of the greatest screen actresses seen in pictures in her latest and last play "OUT OF THE FOG". Everybody knows that this woman's pictures are worth while so don't miss it 15c-30c

THURSDAY, AUGUST 19 THE BEST OF THE BEST
Miss Wanda Hawley in "MISS HOBBS". We are sure this play will please everybody as it has made her famous wherever it has been shown. If you have to miss a picture this week, don't let it be this one, for if you don't see it you are cheating yourself. 15c and 30c

MAHAFFEY-CLAYTON
Miss Laura Clayton and Mr. Clayton Mahaffey were married this morning at ten o'clock at the home of the bride's parents, Mr. and Mrs. J. T. Clayton east of town, the ceremony having been performed by the bride's grandfather, Rev. G. C. Spann, of Mundy.
Miss Clayton is the attractive daughter of Mr. and Mrs. S. T. Clayton and has lived in Clarendon for the past several years having made scores of friends who will wish for her many years filled with happiness. The groom is the son of Mr. and Mrs. F. J. Mahaffey and has been reared in Donley county, where his well-wishers are in great numbers because of his care-free disposition.
After the bridal tour in the eastern part of the state, they will be at home four miles north of town where Mr. Mahaffey is farming.
J. R. Bartlett and family will leave Monday next to be away until the first. They expect to spend the most of their vacation in Mineral Wells. L. C. Williams will have charge of the studio during the absence of Mr. Bartlett.
If the nights trouble you with a "creepy feeling" buy Bed-Bug-Beater at Stocking's Drug Store. We guarantee it to kill and cure.
Rev. G. C. Spann, of Mundy, is here visiting with his daughter, Mrs. S. T. Clayton.

PANHANDLE PHOTOGRAPHERS MEET IN CLARENDON

The Executive Committee of the Panhandle District Association of Photographers, met by call meeting at Clarendon, Texas, August 8th 1920 (with J. R. Bartlett as host) for the purpose of drafting the constitution and by-laws of their association.

The members present were J. W. Edwards, President, of Amarillo, W. D. Orr, Committee Advisor, J. R. Bartlett, acting Secretary.
The Constitution and By-Laws were drawn up in due form, and same will be adopted by the Association at their first regular meeting. After all business had been passed on that was to be brought up before this executive committee, they voted to adjourn to meet again at the first regular meeting of the Association which will be Wednesday the 15th of September.

This organization was organized this year at Dallas, Texas, during the Annual Convention of the Southwestern Association, of which all are full fledged members.

The organization of this Association promises to be of great interest and benefit to the Panhandle Photographers. As they will be much more able to get together in closer relation, and discuss things of interest peculiar to their profession.

With the live wires that are behind the organization there is the assurance of this being one of the best of its kind.

TEXAS RESOURCES WILL BE ADVERTISED EXTENSIVELY IN EAST

The Texas Chamber of Commerce will conduct an extensive advertising campaign of Texas resources in connection with the Texas Farm Boy Special which left the A. & M. College, August 7, and run through Oklahoma, Kansas, Nebraska, Iowa, Illinois, Michigan, Ontario, New York, Pennsylvania, Maryland, District of Columbia, Virginia, West Virginia, Kentucky, Tennessee, Alabama, Mississippi and Louisiana.

A booklet descriptive of Texas has been printed and will be distributed by the thousands along the route. The unique visit of the farm boys to the numerous cities and towns along the route is attracting much press comment and offers an opportunity for wide-spread publicity of Texas' resources. A publicity man from the state chamber will be aboard the train to greet the newspaper men along the route and "slip them the dope" upon the opportunities offered by the Lone Star State to home seekers and investors. Correspondents will be sent with the special train by several big Texas newspapers and magazines, including the Houston Chronicle, San Antonio Express, Dallas News, and the Progressive Farmer. These correspondents will help advertise Texas as well as send back the news of the Texas Farm Boy Special for the benefit of the parents and friends of the boys aboard the train.
