## CENTENARY MEN SET DATES FOR \$500,000 DRIVE

Representatives of the Northwest Texas Conference assembled here yesterday voted to go ahead with plans to hold the great Centenary drive April 13th to 20th, along with the rest of the Southern Methodist Church, rather than postpone to a later date. It is expected to secure a minimum of \$35,000,000 in Southern Methodism to be paid within five years. The quota of the Northwest Texas Conference is \$500,000.

Presiding Elders J. W. Story of Amarillo, A. W. Hall of Clarendon, W. E. Lyon of Lubbock, A. L. Moore of Plainview, E. P. Hicks of Stamford, G. S. Hardy of Sweetwater and M. Phelan of Vernon were asked whether they thought the drive should be put on now, or postponed. A number felt postponement might be wise.

After a statement by the presiding elders the matter was referred to the Centenary Executive Council of the Conference, the clerical members of which are the Revs. J. T. Griswold, Lubbock; J. W. Hunt, Abilene; A. W. Hall, Clarendon; and G. S. Hardy, Sweetwater. As none of the lay members were present J. E. Sweeps-ton of Tulsa, R. B. Bryant of Stamford; C. C. Bailey of Hamlin; Mrs. E. E. Adams of Amarillo; R. D. Green of Abilene; B. O. Brown of Vernon; and S. M. Braswell of Clarendon were appointed to advise with the council. The council's recommendation that this Conference advance with the rest of the Church was adopted. More than a hundred clerical and lay delegates were in attendance. Most of the delegates came in Tuesday night, and were assigned to homes by the pastor, Rev. C. N. N. Ferguson.

Rev. Sam Hay of Amarillo preached Tuesday night. Director General John W. Wood of Abilene was unable to be present on account of sickness, and after the meeting had been called together at the Methodist Church yesterday morning, Rev. J. W. Hunt of Abilene was asked to explain to the Conference the plans for the Centenary. Rev. Hunt attended the recent meeting held in Memphis, Tenn., presenting this Conference.

He went to Memphis believing that the drive should be postponed. Rev. Hunt said, "But found many Conferences already organized and the work was so far under way with so much spiritual enthusiasm engendered that I felt it necessary to say we would go ahead with the procession. The question of a conflict of the original dates set for the Centenary drive (April 23 to May 1) with the Victory Loan was taken up, and after consultation with Secretary Glass it was decided that the most practical time for the drive was April 13 to 20." One of the big reasons for hurrying up the drive, Rev. Hunt declared, is that the organization is costing the church \$100,000 a month. It would be suicidal to carry this on indefinitely.

"The Southern Methodist Church is the only organization that has come forward with a world plan to meet a world challenge," Rev. Hunt declared. "When the M. E. Church learned of the plan a representative was sent to us proposing to make this America's answer to a world challenge, and the M. E. Church agreed to raise \$75,000,000. This is \$1 for each man, woman and child in America—which is certainly small enough."

Urging that the drive be carried on, the speaker declared, "There will never be peace until Christianity sets boundaries between countries, instead of forts. The Church of God is the only agency that can make real the principles for which Woodrow Wilson has been fighting. The first boy to die in France when America went in to stop the German advance was a boy from a Methodist home, and while only 7 per cent of our population owns allegiance to Methodism the Methodist Church furnished 18 per cent of the soldiers."

It was announced that all money for the Centenary should be sent to Joe F. Garrison, Citizens National Bank, Abilene.

## THE PARENT TEACHERS' ASSOCIATION

Last Thursday afternoon at three o'clock, in spite of the wind and sand, quite a number of parents had assembled at the High School Building to be entertained by listening to a well prepared program.

The memory selections and songs given by Miss Clifford's room were a demonstration of their regular school work and gave the parents a definite idea of what their children are accomplishing in school and these as well as the selections given by Miss Houk's class were enjoyed as usual. Then Prof. Condon of the College delivered a most interesting illustrated lecture on the subject "The Value of Play," which was a very convincing proof of the needs of our own schools and we thank Prof. Condon for his presence and assistance. Mrs. Letts' paper was appreciated and ended the program for the afternoon.

The president is a woman with a broad vision and suggested that the association raise two hundred and fifty dollars for play ground equipment before school closes and a committee was appointed to formulate plans for raising this amount and to report at the next meeting.

The social hour is always the happy climax and the delicious cakes donated by the social committee and the refreshing tea makes each one eager for the next meeting. Mr. M. S. Parsons will furnish the sandwiches for the refreshments of the next gathering and the following ladies were appointed as the social committee for that time: Mrs. Hightower, Mrs. M. S. Parsons, J. E. Russell, M. M. Nobles, S. M. Stocking, Mrs. Antrobus and Mrs. Whitfield Carhart.

## LIEUT. BYRON KIBLER VISITS CLARENDON

Lieut. Byron Kibler, whose parents live at McLean and at which place he is visiting for a short while before returning to Camp Bowie for further treatment, pleased his Clarendon friends by making them a visit Wednesday.

Considering the seriousness of his wound, he is looking splendidly. Before leaving for Camp Bowie for training in the fall of 1917, he was in Clarendon several weeks during which brief stay he made himself very popular with our people and his short visit this week was truly much welcomed.

He sustained his wounds in the right limb on the Champagne front when the Thirty-Sixth met the famous Prussian Guards in October. Especially delighted were the boys of the 142nd, who are home, to see him, as they had not met for several months.

of the field men in charge of the campaign explained the plans to the meeting. Bishop John M. Moore was asked to speak on Brazil at 3:30 o'clock.

## DONLEY COUNTY STOCKMEN IN SHOW AT FORT WORTH

Several Donley County stockmen have entered fine pedigreed cattle and hogs in the Fat Stock Show at Fort Worth, now in progress. W. I. Rains and R. O. McFarling are attending the meeting of hog men at that event and will no doubt purchase additional pure bred sows. Frank Clark of Hedley has entered a prize Holstein and John Naylor is exhibiting a baby beef.

The News hopes next week to chronicle these Donley County men as prize winners.

Frank Letts was in town several days this week from Dalhart.

## LELIA LAKE OIL ASS'N LETS CONTRACT FOR TEST WELL

After some weeks patient waiting The News is happy to announce that the Lelia Lake Oil Association, with headquarters in Clarendon will put down a deep test well on their holdings near Lelia Lake. The directors of this concern have closed a contract with McAllister & Ingle, experienced drillers from the Burk Burnett field, the terms of which state that the well is to go down 4000 feet unless oil is found in paying quantity at a shallower depth. The machinery has been loaded for Lelia Lake and work will be commenced at once.

This local concern has a remarkable record in that the entire stock was subscribed in one day, with many on a waiting list who were unable to get the coveted stock. Even before the company was fully organized the stock was selling at two for one. It is a well managed concern with such men as W. A. SoRelle, A. L. Chase, Odus Caraway, of Clarendon and Messrs. Gerner and Christal of Lelia Lake as the moving spirits. The News believes with the stockholders of this company that oil is to be found near Lelia Lake and we look forward confidently to the discovery in the first well.

## LADIES AID MEETS WITH MRS. W. B. SIMS

The Ladies Aid of the Baptist church met Wednesday afternoon with Mrs. W. B. Sims.

An enthusiastic Bible lesson occupied the attention of the members for a short period, after which followed a business session. The most important feature being the appointment by the president of a committee to make preparations for the entertainment of guests who will be in Clarendon next Wednesday and Thursday attending the Enlistment Campaign of the Panhandle Baptist Association. At the conclusion of the meeting lovely refreshments were served.

Refreshments of cake and hot chocolate were served. The guests departed thanking their hostess for such a pleasant evening.

## MISS BEVILLE HOSTESS

## Insurance Protects Your Estate

It is better to stand a small loss, which is the amount that Insurance costs you, year by year, and which is the price of protection—than to stand, day by day, under the shadow of a great loss, the destruction of your home or business, which might mean your financial ruin.

If you buy Insurance, avoid trouble by having it written by those who know how.

Some men never grow too old to be a learner. That is why some men never lose their youth. Study, observe, learn and stay young.

The Fort Worth Star-Telegram announces that the end of the "Confessions of Roxanne" is appearing on the horizon. The Clarendon News wants to know which end.

Other towns in the Panhandle are taking notice of Clarendon's paving movement and are agitating a like movement. Progressive towns are going to pave their business district this and next year, but isn't it nice to be the one that set the ball rolling. Progress brings its own reward. Besides the municipal advantages of the paving our city will get favorable advertising all over the state. Swell out your chest because you live in a town like Clarendon.

Occasionally you hear some lame church member griping about "the church never does anything for me". The trouble is that nine times out of ten that party doesn't put himself in the attitude of being helped by the church, and more often he expects the church to carry him around on a pillow and feed him cream chocolates, pink ice cream and red soda water. Don't be a leech. Stand up and do something for the church and humanity and you'll forget to worry over what isn't brought to you in a silver spoon.

Last week a citizen of Clarendon called at The News office and asked that The News make some mention of the Citizens Cemetery, just south of town. The said citizen complains that there is being no care taken of the city of the dead and that those who own lots there should see that it is put in a presentable condition. Early in the spring is the time to begin work of this sort and as we have had so much moisture this winter the weeds will grow rank under the encircling rays of the sun. We advised the citizen to see the proper authorities, but they claimed no knowledge of any one with authority to act. Surely there is some one with such authority and to them The News transmits the plaint. Few people would hesitate to donate a small sum to create a fund to do this work. We really owe a duty to the dead, if not to ourselves.

How many Clarendon people knew that Clarendon is one of eleven Texas cities with a Y. M. C. A. building? There are a number of Texas cities with railroad Y. M. C. A. buildings but there are only eleven cities in the state who built their own buildings like the people of this city did. The other ten cities include Dallas, Houston, Ft. Worth and San Antonio, and even the next smallest to Clarendon has over twelve thousand people—Corsicana. Another thing worth remembering: Extend the eastern boundary of the Panhandle south to the Rio Grande and in all the vast domain west of the line, only El Paso and Clarendon have Y. M. C. A. buildings. Our boasting neighbor, Amarillo, has no building. It is well enough to know European boundary lines and facts about our commerce with Timbuctoo, but don't forget to learn a few things about our own city and county as we go along. The more you study about it, the more figures you see, the more you will be convinced of the par excellence of Donley County and her capital, the Athens of the Panhandle.

Every once in a while there is a piece of printing that goes out of town to be done, when as a matter of fact the same could be duplicated right here at home for the same price and the quality a great deal better. There is another feature to the deal: when the money is spent with the home printer all this money stays at home and finds its way back to all lines of business represented in the town, thereby contributing its part in making business better for every concern. But does a single penny ever come back that is sent away to Printum, Skinnum & Co., of St. Louis or some other place? Nay, nay, it is gone to return no more, and when the express charges, and mistakes are accounted for, the mail job of printing is the highest by some. The Item job department wants a square deal and this means that it ought to have an opportunity to make an estimate on the work, then if a better price can be had from some one else there is nothing said, but how do you know what you are doing when you do not have the home man an opportunity to even figure the work?—Itasca Item.

There is a bill of more than local interest in the legislature at Austin regarding the purchase of the Goodnight ranch and Goodnight, which includes his buffalo, cattalo and Karakule sheep. The ranch is such as could be turned into a splendid buffalo reservation and would become famous as a state park. That splendid old character, Col. Chas. Goodnight, has devoted much time and money to the preserving of the buffalo and the breeding of the cattalo, which added to his importation and raising of the Karakule sheep, comprehends a life work that should receive recognition. It is entirely possible that unless the state or national government buys in this property that on the death of Col. Goodnight that the herds will become scattered and all his years of painstaking toil will be lost to the state and nation. The buffalo herd consists of 160 head. There are also twenty-four cattalo and 136 head of the famous Persian Karakule sheep. The committee of investigation advises the purchase of the property, the breeding of the buffalo and cattalo and the establishment of a Panhandle breeding and feeding station. There is no feeding or breeding station nearer than 400 miles from Goodnight. Col. Goodnight estimates his property and herds to be worth \$242,000, but the committee recommends that the state pay \$150,000, for the entire property, which it is understood that Col. Goodnight will accept. The News believes that \$150,000 is a bargain price and that the state should make the purchase. On the plains of Texas where the King of the Prairies formerly roamed is the place to preserve his progeny for the generations yet unborn.

This week the local Methodist Church entertained a body of preachers and laymen, together with a bishop, who gathered here to lay plans for the great Centenary Campaign for missions, and also to discuss the great advance movement for Clarendon College. Nothing will ever satisfy the people of the Panhandle and more especially Clarendon, but a Grade A College, and we are going to have it.

## GOOD ROADS INCREASE YOUR LAND VALUES

Whenever a bad road leading from a farming community to its marketing and shipping points has been replaced by a good one, over which much heavier loads may be hauled every day in the year, the value of the farms using the road has been increased, says the Texas Industrial Congress. The Office of Public Roads of the United States Department of Agriculture has examined property valuations in parts of many counties before and after the change was made from bad to good roads. In Spotsylvania County, Virginia, for instance, the increase in values was more than eight times greater than the amount spent in building the roads; in Dinwiddie County, Virginia, the land values approximately doubled, with farms farthest back from the roads showing the largest increase; in Wise County, Virginia, eight farms located over which roads in various parts of the county increased from an average of \$49.06 per acre to \$79.44; in Franklin Co., New York, the average increase of land values on improved roads was \$12.50 per acre, or taking the increase at \$10 per acre on the farms along 492 miles of improved roads the gain in values was \$1,259,520. In Dallas County, Alabama, the improvement added at least \$5 to the value of each acre of land lying within one-half mile of the road, and quite a number of instances were found of increases in value from 50 to 150 per cent. In Lauderdale Co., Mississippi, the gain in values averaged from 25 to 50 per cent, in many cases being from 50 to 100 per cent. In Manatee County, Florida, the gain was from 50 to 100 per cent, or at least \$15 per acre on all lands within one-half mile of the new roads. No case has ever been found in the history of the world in which the building of good roads lowered property values.

Road-building is a business proposition, and all its phases can be put in terms of dollars and cents. A good many Texas counties have taxed themselves for this improvement, and valuations of tax renditions and farm values as expressed in deed records before and after the improvement was made and are on file. The prospective cost and gain can be very fairly estimated, so that there is no necessity that anything connected with the issue should remain a matter of opinion. What has happened in these counties will, in all probability, happen in others. Making money through an increased value of land by road improvement seemingly reverses the proverb that "one cannot eat his cake and have it too."

Texas can double land values by building better roads.

## "JUST A FEW WORDS TO LOYAL AND PATRIOTIC AMERICAN CITIZENS."

By The Postmaster

"When the United States Government authorized the issuance of Thrift Stamps and War Saving Stamps, the purpose of this action was to favor the people of the United States and it was indeed a favor, such as the average citizen had never had bestowed upon him. The granting of the right to purchase Thrift Stamps and War Stamps in small amounts at a splendid rate of interest was a beneficent act upon the part of our government, and thousands upon thousands of our people greeted the news with rare pleasure. Another purpose, of course, in issuing these Stamps was to provide our Government with funds to carry on the war, and again the people of the United States applauded the wisdom of those who outlined and put into operation this splendid plan. More than a billion dollars in these Stamps were sold, and thousands of people were praised as patriots for the unselfish manner in which they encouraged the plan by buying War Saving Stamps, and for the exercise of good judgment in fortifying themselves against the day when by purchasing these unexcelled securities thus providing savings for themselves which perhaps, they would have never dreamed of otherwise.

"But the most amazing part of it all is that, after the armistice was signed, many of our patriotic people felt that their obligation was ended: 'The war is over now,' they said, 'and we need our money.' But when the Stamps were bought it was with at least a silent understanding that the Government should have the use of the money for at least five years, and every individual pledged to himself and to his nation that he keep these stamps until the date of redemption. The pledge was made in good faith and our Government accepted it in good faith and, on the strength of these pledges of its patriotic people to supply for this definite period of time the needs of our Government, made great plans for the reconstruction period. This obligation is just as binding as it ever was and the need of the money is just as great, and our patriotism ought to be just as lofty, sincere and soulful as it ever was. We hear every day that there are greater things to accomplish now than ever before, and in this day and age of great requirements these things cannot be accomplished unless the Government is provided with the necessary funds. Of course, there are instances where there is a real need for the redemption of War Savings Stamps, and the purchaser has come to a point where he cannot afford to hold them longer and finds it necessary to surrender these Stamps, just the same as he would any other securities; but this cannot apply to a certain number of well to do citizens known as patriotic men and women who are making application daily for the redemption of the War Savings Stamps which they hold. It may be possible that those who are asking to have their Stamps redeemed have an opportunity to invest their money at what they think to be a higher rate of interest and, perhaps, think now of withdrawing their support of the Government, in their personal interest as a real need for the redemption to give their money to withdraw now, when the Government needs it most. Of course, when we thought we were in danger of invasion and oppression at the tyrant hands of Prussia, it was easy to rush to the defense of ourselves, but we are becoming too much inclined to think that now somebody else can furnish the funds for advancing the interests of our own country—our Victorious Nation—yours and mine.

"What would we think of a friend who, if he had loaned us a thousand dollars at four per cent interest and promised that we might keep it for five years, were to come to us in about ten days and say 'I want my money because I can get a better rate of interest by lending it to some body else?' What kind of a friend would we consider him to be? Your best proven friend is the United States of America.

"The case is parallel with the one we have in mind now. What kind of a friend must our Government think we are, when we say now 'I must have my money.' I tacitly agreed to lend it to you for five years but I find now I can make more money some other way."

"A little reflection along these lines will make us hesitate, will appeal to our hearts, to our loyalty, to our feeling for humanity. After all, should we change the United States Government securities for investment, we may be the wiser later on when we find that, while for a short time we receive a higher rate of interest, the investment proving to be more remunerative, there may come a day when these other doubtful investments may react upon us and we shall learn that it would have paid us to have remembered our obligation to our country and to have profited by the lesson of THRIFT, which it was the intention of the War Savings Plan to teach us. Do you remember the history of the immortal patriot, Benjamin Franklin, he who was the Father of Thrift? When the United States of America was in critical need and passing thru a most crucial period, Franklin loaned his entire fortune, approximately \$25,000, to our Government, without security, note or interest. Just think of the unselfish generosity of that patriotic act! It was such patriotic men as Franklin who saved our nation from failure, ignomy and destruction. He did not hesitate or falter when his duty was plain, and his name is now inscribed upon the tablets of eternal love and memory.

"We ought to hold our War Savings Stamps for ourselves, for our children, for the boys who are yet to be brought back home, for the boys who are yet to be provided with positions when they do come home, for the families of these boys, to whom they have been allotting part of their salaries during their absence, and for

## EFFORTS FOR BETTER REPRESENTATION IN CONGRESS IS MADE

In the hopes of obtaining better representation in the Texas senate for the counties composing Western Texas, made up of the 25th, 26th, 28th and 29th senatorial districts, letters are being mailed by the local Chamber of Commerce to all the more prominent citizens of this section and to all civic organizations, urging that action be taken in the matter. The letter is signed by President R. E. Huff of the local body and urges all those to whom it is sent to send telegrams to members of the house and senate urging that the state be re-districted so that the western counties will receive more fair representation in the upper body of the legislature.

At the present time, so the letter states, Western Texas comprises 156 of the 284 counties of Texas, and has a territory considerably more than half the state. The four districts into which West Texas has been divided, extends from a short distance northwest of Brownsville bending outward through Eastland county, and east to Montague county. It includes all the Panhandle country.

The senate of Texas as now constituted, is elected from districts which were determined upon a basis of the population of 1900 at which time Texas had slightly more than three million people. In 1910 the population had grown by 800,000 or 23 per cent for the entire state. During that same period the population of the four districts in West Texas increased 108 per cent, almost five times faster than the rest of the state. According to the letter, despite the fact that more than a fifth of the Texas population resides in Western Texas, she is permitted only a one-eighth representation in the senate.

The letter urges that something be done immediately. While it recognizes that it is too late to have the present legislature re-district the state, it contends that letters and telegrams should be sent by citizens of West Texas to legislators requesting them to do something at the next session.

"We desire to have the representation based on the population statistics of 1910" the letter reads. "Unless we have enough men in the senate in 1920, we will again get the short end of representation at that time."—Wichita Times.

## A FATAL EPIDEMIC RAGING IN CLARENDON

### MORBUS SABBATICUS

Morbus Sabbaticus, or Sunday Sickness, a disease peculiar to church members.

- 1st. The symptoms vary, but it never interferes with the appetite.
- 2nd. It never lasts more than twenty-four hours.
- 3rd. No physician is ever called.
- 4th. It always proves fatal, in the end, to the soul.
- 5th. It is becoming fearfully prevalent and is destroying thousands every year.

The attack comes on suddenly every Sunday; no symptoms are felt on Saturday night; the patient sleeps well and wakes feeling well; eats a hearty breakfast, but about Church time the attack comes on and continues until services are over for the morning. In the afternoon he feels much better and is able to take a walk and read the Sunday papers. He eats a hearty supper, but about Church time he has another attack and stays at home. He wakes up Monday morning refreshed and able to go to work and does not have any symptoms of the disease until the following Sunday. "Be not deceived; God is not mocked."—Gal. 6:7.

If you haven't already developed MORBUS SABBATICUS be at the Baptist Sunday School next Sunday at 9:45.

S. W. Lowe, Supt.

## THIS TELLS HOW TO FIGURE INCOME TAX

Squarely Up to Every Individual to Get Busy by March 15 or Suffer Penalty.

"Don't wait until the final due date, March 15, for paying your Income Tax and making your return. Avoid the last minute rush. Any person can figure out his liability today as well as he can next week, and if there is any point on which he needs advice he can now get in touch with a Revenue man." This word of advice is from Alexander S. Walker, Collector of Internal Revenue, Austin, who is collecting the Income Tax in Texas. Collector Walker is giving without charge every aid of his office and his enlarged field force to help the people get their payments and their returns in by March 15th.

But the Income Tax men will not pull your door-bell or your coat-tails, according to the Collector's announcement. It is squarely up to every individual to figure out his own case and to get busy if he comes within the scope of the new Revenue law.

Did You Earn This Much? Every unmarried person who received income averaging \$19.25 a week during 1918 and every married couple who jointly received income averaging \$38.50 a week should secure at once from the nearest Deputy Collector or the nearest bank a blank Form 1040 A. That form contains the information he will need to enable him to figure his correct net income and any tax that he owes the government.

The law requires that every unmarried person who had a net income of \$1,000 or over and every married person whose net income was \$2,000 or over (including the income of husband or wife and the earnings of minor children, if any) must make a return on or before March 15th. And this requirement does not hinge on whether the person owes a tax.

Taxable Income. An individual must include under gross income all gains, profits and income derived from salaries, wages or compensation for personal service of whatever kind and in whatever form paid or from professions, vocations, business, sales or dealings in property of all kinds, interest, rent, dividends or profits derived from any source whatever. Very few items of income are exempt.

Deductions include ordinary and necessary business expenses, interest paid or accrued on indebtedness, taxes of all kinds except Federal Income and excess profits taxes and assessments for local benefits, losses actually sustained, debts ascertained to be worthless and depreciation on buildings, machinery, fixtures, etc., used in business. A further deduction is allowed for contributions to corporations operated for religious, charitable, scientific or educational purposes or for the prevention of cruelty to children or animals to an amount not exceeding 15 per cent of the taxpayer's net income as computed without the benefit of the contribution deduction.

The taxpayer is not allowed to deduct any personal, living or family expense, any amount spent for improving property or any expense of restoring property or making good its exhaustion for which an allowance is claimed under depreciation.

Figuring the Tax. Before figuring the normal tax the dividends are deducted as credits from net income, together with the personal exemption. As in previous years, dividends of domestic corporations are exempt from normal tax when received by the stockholder.

The normal tax rates for citizens and residents are as follows: On the first \$4,000 of net income in excess of the credits the rate is 6 per cent, on any further taxable income the rate is 12 per cent.

The surtax rates apply to net income of each individual in excess of \$5,000. The personal exemption and the dividends are not deductible before computing surtax. In the case of returns by husband and wife, the net income of each is considered separately in computing any surtax that may be due. Form 1040 should be used for making returns of net income exceeding \$5,000, and the instructions on that form will show how to figure the surtax.

Business House Returns. Employers and others who paid wages, salaries, rents, interest or similar determinable gains in an amount of \$1,000 or over during 1918 to any person must file an information return with the Government. Blanks may be secured from the Collector.

Every partnership must file a return showing its income and deductions and the name and address of each partner, with his share of the profits or losses during the past year. Personal service corporations will file similar information for 1918.

\* FOR PUBLIC BENEFITS. \*  
\* "Viewed in its largest and true- \*  
\* est sense, the payment of taxes \*  
\* is payment for benefits received \*  
\* or expected. Only from a nar- \*  
\* row and essentially selfish and \*  
\* shortsighted viewpoint can the \*  
\* individual propose to himself \*  
\* the evasion of tax liability as a \*

# Let's Trade

A load of corn or wheat, or a bale of cotton, or a fat steer or hog will buy twice as much building material as it would even four years ago, which naturally suggests that this is a fine time to trade farm products for building material by selling your products and buying lumber.

Since the European war began, the price of Lumber has advanced only about 28 per cent, the statisticians say, while the price of ninety-six other important commodities, including, farm products, have made an average advance of 127 per cent. Why lumber prices have not soared along with the prices of most everything else is something of a mystery, but the fact remains they have not. And that is why the farmer is getting out his hammer and saw preparatory to fixing up before building material prices take to scooting upward.

### INTERSCHOLASTIC LEAGUE MEETS AT CANYON, TEXAS

The meeting of the Interscholastic League for the Canyon District will be held at Canyon, Texas, April 18 and 19. The constitution of the League provides for county and district contests, and a final meet in athletics, debating, declamation, spelling and essay writing at the University of Texas. Membership in the League is thrown open to all schools in the state below college rank. Its purpose is to organize and direct desirable school activities, and thereby assist in preparing pupils for citizenship.

All schools desiring to participate in these contests, should apply immediately for membership to Professor E. D. Shurter, State Chairman, University of Texas, Austin, Texas. Upon payment of the annual fee a school will be entitled to both the public speaking and the athletic contests, and to receive loan libraries and the special bulletins prepared for the assistance of schools in training for the contests.

Besides this bulletin, each member of the League will receive, free on request, four copies of the bulletin on the subject for debate in the League, six lists of words for spelling, and also one or more copies of the bulletin on Literary Societies, Debating, etc. A copy of the bulletin containing the constitution of the League will be sent on request to any person in the state.

The membership fee is graduated according to the size of the school. The fee for schools having no more than three teachers and not in incorporated towns, is \$1.00; schools having four or more teachers and in districts having less than 600 whites scholastics, \$2.00.

The following counties make up the Canyon District: Armstrong, Briscoe, Carson, Castro, Dallam, Deaf Smith, Donley, Gray, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Wheeler.—J. L. Duflot, District Director General, Canyon, Texas.

### SWINEBREEDERS WILL MEET AT CHILDRESS

The Spring meeting of the Panhandle Swine Breeders Association will be held at Childress, March 28-29, and everyone interested in the raising of swine of any kind are cordially invited to attend.

We had no meeting in the fall of 1918 on account of the war and crop conditions, and this will be a meeting of vast importance to the industry and we want to see everybody out boosting for better and more swine in the Panhandle. Childress county is among the banner counties of the State in the raising of pure-bred swine and has a live bunch of breeders and it will be a pleasure to meet these gentlemen and to see the fine herds they are maintaining. The best talent of the State will be there to address the meeting on the most important topics of the industry, and it will be money and time well invested to be present and hear them.

### STREET PAVING IS POPULAR

The city of Clarendon, county seat of Donley county, has passed an order to put in \$38,000 worth of street paving. This is one of the popular forms of civic progress at the present time and we dare say that many towns in the Panhandle will take on the paving enterprise.

There has been a movement in Canadian to investigate the paving proposition here, and at the proper time it will be presented to our people if thought best.—Canadian Record.

Guy Smith has arrived in Panhandle for a short visit with relatives and friends. He has been granted a 15 day furlough and also visited in Clarendon and Hereford. While in the thickest of the fighting in France, Guy sustained a compound fracture of the arm which has never healed satisfactorily, and upon his return to his company, he will enter a hospital and have the bones broken and reset in the injured arm.—Panhandle Herald.

you make the two correct choices and then choose poor quality of kerosene your honest efforts are doomed for failure. Poor kerosene will not keep the same temperature as one drop of water changes the workings of your lamp, causing smoke, soot and variation of heat.

We have just received another car of the high grade kerosene from Wichita Valley Refining Co. This oil needs no introduction as its being used all over the Panhandle. We have been selling it for three years at Clarendon. It has gone through special process of refining and deodorizing and is both odorless and smokeless. Mrs. Roy Guffey left last week for Fort Worth where he will spend a few days.

The play given Saturday night by the Hustler Sunday School Class was enjoyed by a good crowd and the ticket sales amounted to \$56.00.

Sgt. Cecil Reavis came in this week with his honorable discharge from the army. We rejoice with Rev. and Mrs. Reavis in having their son at home again.

Is there a Sunday School class in Donley County who has to her interest two fifty dollar bonds? Yes! the "Hustler" Sunday School class at Lelia Lake, Texas, and if there is another one we will give them a chance to speak up. And in the fight for our country there were eight young men out of the "Hustler" class who were ready and willing to give their lives if necessary for Uncle Sam. These were Messrs. Paul Dunkle, first lieutenant, Jim Adams first lieutenant, Irvin Batson sergeant, Grady Albert, Quartermaster Johnny Cook, Company Clerk and Owen Dunkle, Rice Batson, Oscar Roberts and out of this eight there were four who went to France. Although the members of this class have done their part, they do not deserve all the credit, but the one who has lead out with that willing spirit to give and do all in her power to the will of God is their teacher, Mrs. F. P. Dunkle.

## COLLEGE NOTES

Prepared Weekly by the Pupils of the English Department of Clarendon College.

Dr. Slover returned Saturday from Memphis, Tennessee, where he has been attending the Methodist Educational Convention. He was one of the speakers. Mrs. Slover remained in Fort Worth for an extended visit.

The Shamrock basket ball team came over last Friday to play the College team. The result was 34 to 6 in favor of the college. Although Clarendon College has been unfortunate in matching games this season, the boys show lots of pep and skill. This was the last game of the season.

Clarendon College has a very bright prospect for a victorious season in baseball. About twenty-five boys have been coming out for practice during the past two weeks and are showing lots of pep and enthusiasm.

Prof. Condon has been giving, in Chapel, a series of very interesting lectures on the South. It would make anyone who hears these, proud of the fact that he is a southerner. He gave statistics that prove that the south has been responsible for many of the great educational strides.

Miss Frances Wyatt left Friday for her home at Tulsa. She has just recovered from a severe attack of appendicitis and went home for a few days of recuperation.

Messrs. Cobb and Burnett spent Saturday and Sunday at their respective homes at Newlin and Goodnight. These boys say that it gives one a peculiar feeling to look a fair meal in the face. Burnett claims to have gained five pounds while Cobb contends for only three.

The Editor-in-chief and business manager of the "Wester" have gone to Amarillo in the interest of the annual. We have prospects for an unusually good annual this year, for the staff is composed of able and experienced students.

Rev. Ferguson gave his weekly talk in chapel Friday morning. Bro. Ferguson always has something worth while and his talks are greatly appreciated.

The College has a very interesting program this week. There will be a Lyceum number given at the college auditorium Wednesday night, the cantata Friday night and another Lyceum Saturday night. These are among the best and most interesting programs of the season and are well worth your time and money.

The board of trustees of Clarendon met Tuesday to discuss some very important matters. This is one of the most important meetings that has been held for some time. A detailed report will be given in a later issue of The Clarendon News.

#### CANTATA FRIDAY NIGHT AT COLLEGE AUDITORIUM

"The Fishermaidens" by Smart, is the title of the cantata which will be given in the college auditorium on Friday night by the Thursday Musical Matinee Club, Mrs. M. B. Adams director.

The young ladies have been heard to advantage on many occasions, and this appearance will be no exception to the rule. They have been working long and faithfully on this cantata, and earnestly solicit the patronage of the entire music-loving public.

They will be assisted by Miss Mabel Fairfax Hon, reader; and Miss Evangelin Loeffler, violinist. The latter has been heard and enjoyed many times in Clarendon, but this will be the initial appearance of Miss Hon, who is successfully promoting the work of the department of expression at the college. She is a reader of exceptional ability, and has not appeared in public before, because of the many interruptions caused by the epidemic. So many have expressed a desire to hear Miss Hon, that she has kindly consented to present her best number on this program.

Tickets are on sale by the members of the club, and an agent will be appointed to cover the territory west of the college. The admission will be 25 and 50 cents. This is strictly a choir benefit, and will go into that fund. A tremendous expense is involved in bringing the artists who appear on the May Festival programs and the Clarendon public has never failed to respond to that enterprise with a remarkable freedom of spirit. Those who attend on Friday night are urged to bring a little loose change, for an opportunity will be afforded to appease that appetite for sweets. Candy of every known make will be on sale.

Mrs. Adams deserves the everlasting co-operation of Clarendonites for this laudable undertaking, and naturally a record-breaking attendance is anticipated.

#### CARD OF THANKS

We desire to express our sincere thanks and deepest gratitude to our friends and neighbors who so kindly assisted and cheered us during the sickness and death of Baby Jack Allen Goodson.

Mr. and Mrs. Oscar Goodson,  
Mr. and Mrs. Hugh Brown.

Beginning Saturday, March 8th, the ladies of the Episcopal Guild will have a "Saturday Market" for five Saturdays. Home made cakes, pies, bread, candies, etc., will be on sale at the Palace No. 1, at 2:00 p. m.

#### BISHOP MOORE DELIVERS STIRRING ADDRESS ON BRAZIL AND ITS NEEDS

"There is not a college in all of South America equal to Clarendon College," declared Bishop John M. Moore at the Methodist Church yesterday afternoon. He has recently returned from South America, came to Clarendon to attend the meeting of Centenary workers for the Northwest Texas Conference, and was invited to speak on Brazil.

Bishop Moore said that Granbury College in that country had only one American worker. The others are Brazilians—some of whom have been converted to Christianity. He declared that it has been impossible to get other workers. That is one purpose of the Centenary movement—to provide funds and men. The Bishop would like to see at least half a dozen additional workers sent to Granbury College. There is also urgent need of the establishment of another college for which \$250,000 is needed.

Bishop Moore spoke of the wonderful possibilities of Brazil, Argentina, and to a lesser degree of Chile and Uruguay. He referred to the moral conditions of the people, declaring that a great awakening is necessary. They have steeped in forms, but know nothing, or at most, little of the power of Godliness.

The intelligent South Americans are coming to realize this, and are turning away from their established religion, but unless Christianity is carried to them quickly Bishop Moore insists they will turn to atheism, spiritualism and other isms.

Lotteries flourish in South America and the established church receives large sums from this source, the speaker declared. The gambling spirit is rife; and the willingness of the people to get or give favors by means of bribery, more or less outright, is amazing.

"Not only South America, but China, Japan, India and the rest of the world know that the applied sciences which furnished the terrible instruments of destruction for the recent war were the product of brains reared in Protestant Christian lands," Bishop Moore declared. "They know that all applied science which has made humanity efficient has come from Protestant Christian countries, and they will look to these lands for power."

"America has a place of moral and religious leadership. If the world is to become Christian the United States must step in and by its own christianity establish christianity for the world. This is the only specific that will bring health and strength to Russia. This is the only cure for Bolshevism and anarchy, just as it is for lawlessness and injustice—when we shall love our neighbor as ourselves, and live accordingly."

"If this great Centenary movement does not bring a great spiritual awakening, a revival of religion all over the world, then we should ask ourselves if Methodism has not lost

its power. It will bring such a revival if we each one ask not 'what is my part,' but 'how much is it possible for me to do?'"

Any kindness shown him will be highly appreciated." The News likes to see a tribute of that sort about a Clarendon man.

ARE YOU GOING TO HAVE A PARTY?

There are two kinds of parties: The parties that are "lots of fun"; and the parties that you politely endure. If you would like to have the "lots of fun" kind, try these games. Call it an Athletic Contest. Divide the crowd into two sides, giving each a name. Select three judges. Let each side enter contestants for the following events:

1. A NEWSPAPER RACE. (Five points for first place, three for second, one for third.) Give each one who enters (about five players from each side) two newspapers. Have a starting line and a line for goal. Each one must run to the goal line stepping only on a newspaper. The newspaper must be advanced at each step.

2. A "BAWL" GAME. Have each side select a captain. The Captain selects what she thinks is to be a ball team, nine players. When all the players are chosen, announce that it is to be a b-a-w-l game. The side wins that can bawl the loudest. One side bawls, then the other. The judges decide which side wins. Ten points are awarded to the winning team.

3. THE RUNNING HIGH SQUEAL. A team is selected to represent each side. One team runs a certain distance and squeals, then the other side runs and squeals. The ones that squeal the highest win ten points for their side.

4. A SPELLING GAME. Two sets of the alphabet must be prepared beforehand. Print the letters on pieces of cardboard, one set in red, the other in black. The captain of each side is given a complete set of letters of the alphabet. The captains line up their twenty-six players on opposite sides of the room, parallel to each other. The leader of the game calls out a word to be spelled, for instance, "dog." Both sides try to form the word first, the one forming it correctly first being the winner. (A line is drawn at the end of the room where the word is formed). The side that wins ten points first wins and is awarded the ten points. If the letter appears twice in the word, shake the letter. The judges decide which side forms the word first.

IMPROVEMENTS NOTED

Frank Collinson and Frank Jr., were in the city from Clarendon the first part of the week. A few years ago Frank Collinson was a familiar figure on the streets of Childress, he having an interest in a ranch in King county and this was their shipping point. It has been some years since his last visit and he saw many improvements in the town.—Childress Index.

Mr. and Mrs. George Bagby returned Friday morning from Nevada, Missouri at which place they had been for several months in the interests of Mr. Bagby's health. We are glad to report to his many friends, a marked improvement, and wish to express to both, our happiness in their return.

ATLANTA BUSINESS MAN IS ENTHUSED

Since taking Tanlac Almand says he feels as well as he ever did.

"If you had seen me before I began taking Tanlac you would hardly believe me to be the same person," said A. F. Almand, a well-known seed merchant of 271-3 Peters street, Atlanta, Ga.

"For more than a year," he continued, "I suffered terribly with stomach trouble. After eating anything I would always have gas on my stomach and would constantly belch up my sour, undigested food. I suffered with heartburn constantly and was extremely nervous, my liver was sluggish and I was bilious, too. I felt languid and tired-out most of the time and often felt so bad that I could hardly attend to my business properly."

"I heard so many people praising Tanlac that I began taking it, too, and by the time I had finished my second bottle I had gained nineteen pounds. I never suffer now with heartburn or indigestion and am not nervous like I was before. I sleep well and get up in the morning feeling fine and ready for a hard day's work."

Tanlac is sold in Clarendon by Stocking's Store; in Hadley by J. F. Tomlinson Drug Co.; and in Jericho by O. C. Brown.

**Be It Resolved by the Legislature of the State of Texas:**

**SECTION 1.** That Article 16 of the Constitution of the State of Texas be amended by striking out and replacing Section 20 thereof and substituting in lieu of Section 20 the following:

**SEC. 20.** (a) The manufacture, sale, barter and exchange in the State of Texas, of spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication, or any other intoxicant whatever except for medicinal, mechanical, scientific or sacramental purposes, are each and all hereby prohibited.

The legislature shall enact laws to enforce this section.

(b) Until the legislature shall prescribe other or different regulations on the subject, the sale of spirituous, vinous or malt liquors, or medicated bitters, capable of producing intoxication, or any other intoxicant whatever, for medicinal purposes shall be made only in cases of actual sickness, and then only upon prescription of a regular practicing physician, subject to the regulations applicable to sales under prescriptions in prohibited territory by virtue of Article 598, Chapter 7, Title 11, of the Penal Code of State of Texas.

(c) This amendment is self-operative, and until the legislature shall prescribe other or different penalties, any person, acting for himself or in behalf of another, or in behalf of any partnership, corporation or association of persons, who shall, after the adoption of this amendment, violate any part of this constitutional provision shall be deemed guilty of a felony, and shall, upon conviction in a prosecution commenced, carried on and concluded in the manner prescribed by law in cases of felonies, be punished by confinement in the penitentiary for a period of time not less than one year nor more than five years, without the benefit of any law providing for suspended sentence. And the district courts and the judges thereof, under their equity powers, shall have the authority to issue, upon suit of the attorney general, injunctions against infractions or threatened infractions of any part of this constitutional provision.

(d) Without affecting the provisions herein, intoxicating liquors are declared to be subject to the general police power of the state; and the legislature shall have the power to pass any additional prohibitory laws, or laws in aid thereof, which it may deem advisable.

(e) Liability for violating any liquor laws in force at the time of the adoption of this amendment shall not be affected by this amendment, and all remedies, civil and criminal, for such violations shall be preserved.

**SEC. 2.** The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the legislature at an election to be held throughout the State of Texas on the fourth Saturday in May, being the twenty-fourth day thereof, A. D. 1919. At said election, the vote shall be by official ballot, which shall have printed or written at the top thereof in plain letters the words, "Official Ballot." Said ballot shall have also written or printed thereon the words, "For

## A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. B 79
