CLARENDON'S GROWTH CONTINUES WITH EVEN BRIGHTER PROSPECTS FOR NEXT YEAR

MANY FORMS OF IMPROVEMENT HAVE BEEN MADE HERE DURING 1920. HALF A MILLION DOLLARS HAS BEEN SPENT FOR BUILDINGS ALONE. PLANS BEING SHAPED FOR THE COMING YEAR ARE OF WIDE SCOPE AND GREAT IMPORTANCE TO THE CITY

The Panhandle section of Texas has enjoyed a phenomenal growth in development the past year such as has never occurred before in the same length of time in the history of the country.

PUBLIC IMPROVEMENT

The year 1920 saw the completion of the program of street paving for the present. The installation of the White Way is now in progress and will be completed before the first of the year.

CHURCHES

Dozens of nice homes have been constructed here this year. In fact the building program has been better this year than ever before. In this respect, church building has not been neglected in the least.

PUBLIC SCHOOLS

The public schools of Clarendon are in charge of J. E. Nelson, who is his second year here. The progress of the local schools since his coming has been phenomenal.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

An Ohio clubwoman complains that the high-schools of the country are filling up with "snobs," who wear silk stockings and other articles of attire which only the rich can afford. She said that she had been forced to remove her daughter from one school because of her plain dress and that silk-stockings snobbery was ruining the democracy and morale of our schools. One writer facetiously asked "whether silk stockings made snobs or all the snobs wore silk stockings?" It is a mooted question, all right, but *The News* is of the opinion that all snobs wear silk stockings, but it would be entirely unsafe and unfair to call all snobs who appear in silk hosiery. Putting aside the lighter vein of the argument, however, school authorities and parents should be on their guard against this growing tendency of the times which seems to be building an aristocracy in our schools. If our young people are taught or are allowed to establish class distinction it cannot be many generations until our vaunted democracy in America will have vanished. Let us discourage the doctrine that "clothes make the man" or woman, and put emphasis on the good old American doctrine of equality. "A man's a man for a' that."

Most of this feeling of depression over the low prices of farm products is kept up by useless talk. We know we are going to live through it. We know ours is the best country in the world. We know our friends and neighbors wouldn't let us get in actual want. We know that hard work and careful planning will make a successful year out of 1921. We know that "God lives and the government at Washington still stands." Times are pretty good after all. Last Saturday *The News* had just about as good collections in subscription as we had on any Saturday last fall. Of course we have something to sell the people want, but at that, everything is getting back on a sound basis and a good year may be expected in 1921. Look 'em in the face and whoop 'em up for the New Year.

The entire official staff of Clarendon has resigned. It seems there was dissension on the part of the people, and between those who stood for a progressive city administration and those of the tight-wad element. The same situation exists in all towns in Texas. There is always to be found a class of people in every town who are opposed to civic pride and advancement along lines of commercialism.

They are opposed to any move that costs them a nickel. They are tight-wads, who would like to live in modern towns and cities, but who want the other fellow to pay for these things.—Lockney Beacon.

KEEP BROOD SOWS IN WINTER AS CHEAPLY AS POSSIBLE

During the winter the brood sows should be maintained as cheaply as possible, but at the same time they must be properly fed in order to farrow a large number of healthy, well-grown pigs in the spring. Best results are obtained when sufficient food is given to produce daily gains on the sows of one-half or three-fourths of a pound. To do this the grain feed must be limited, and diluted with some roughage, for unless the ration has sufficient bulk, the sows will become constipated and hungry, due to the distended condition of the digestive tract. Legume hays are the chief roughages available at this season and their use will cheapen the cost of feeding.

Either alfalfa, clover, soy-bean, or cowpea hay makes an excellent roughage and when fed, little or no high-priced protein concentrate is needed to balance the corn. Bright, leafy alfalfa hay gives the best results of any of these roughages. Alfalfa meal is simply the best grade of alfalfa hay chopped into a meal. Clover hay contains almost as much nourishment as alfalfa hay, and soy-bean hay, cut and cured when the beans are almost ripe, is a very nutritious feed. Cowpea hay should be cut when the first peas are ripening, and consequently does not have as high food value as soy-bean hay. Great care must be exercised in curing soy-bean and cowpea hay, for the stalks are very heavy and succulent and unless thoroughly dried are apt to mold. Under no condition should a brood sow be fed upon any roughage which is not bright, nutritious, and free from smut or mold. She does not relish or thrive on such inferior feed. It is very apt to cause severe digestive troubles and may lead to the loss of her litter.

HOW MANY EGGS YOU MAY EXPECT FROM YOUR HENS

The average novice can reasonably expect to get an average of at least 10 dozen eggs per hen a year from his small flock in the backyard, say poultry specialists of the United States Department of Agriculture. On the basis of two hens in each corner of the family city, will give 20 dozen eggs a year to each person, which amount is about half-way between the general average of farm and city consumption. No backyard poultry keeper should be satisfied with less than this. He should try, however, to get as much more as possible.

To provide an egg a day for each person two hens would have to lay 183 eggs each a year. This is by no means an impossible average for small flocks. It is perhaps not too much to say that in cases where the person attending the flock is in a position to look after the wants of the birds, three or more times a day an average of better than 13 dozen eggs per hen can be secured if the hens are mature and in good condition at the start, and have the vitality to carry them through a year of heavy laying.

For the farm the average of 100 eggs per hen is advised as the lowest that should be accepted as satisfactory, while for the backyard 120 is insisted upon as the lowest average, although in general the conditions in backyard are less favorable to poultry keeping than on farms.

The world has never produced any more exquisite cabinets.

These cabinets are descended out of the Golden Age of Furniture.

This was the age when Europe built its most luxurious palaces, created its greatest works of art, developed its finest types of craftsmanship.

Mr. Edison's designers went back to the furniture masterpieces

of this period. They adapted 17 of them for the modern American home. They made every Edison Cabinet a period cabinet,—even the least expensive.

You must see these cabinets. Only then will you appreciate what wonderful richness and atmosphere one will add to your home.

Ask about our Xmas Budget Plan. It manages your money economically. It makes 1921 help pay; and that's good business.

Have You Your "Edison and Music?"

Get this fascinating book at once. It's free. The complete, romantic story of Edison's seven-year struggle to produce perfect realism in the phonograph. Beautiful illustrations of the 17 period cabinets. A truly worth-while book.

A Word About Prices

In 1914, as you can ascertain through practically any investment banker, the Edison Laboratories were selling phonographs on a narrower margin of profit than the other manufacturers. Since 1914, the price of the New Edison has advanced less than 15%—and a portion of this is war tax. "Edison stood the gaff" to keep his favorite invention within the reach of everyone.

IS A DOLLAR NOW WORTH?

We challenge anyone to prove that he knows what the dollar is worth anymore, but we all are able to appraise the value of a good home, or to size up what a farm producing most of the necessities of life for its owner means to him.

Avoid the speculation on dollars that buying and selling forces on you, and exchange your place directly for what you want. N. N. Martin & Son have on their lists a small number of good farms which are to be traded for homes, in town, and some ranches to be turned for bus-

ness properties. Our exchange list includes, also some homes. Come on and match us. 50c.

News of Interest From The Clarco

OSCAR SEAGLE PLEASES HEARERS

Clarendon Audience Delighted By Famous Singer.

The pleasant, smiling, likeable, golden-voiced Oscar Seagle came and sang his songs of French opera, Irish jollification, English folk-song, Spanish serenade, and negro folk-song Friday night, and with his engaging personality caused the audience to wonder if they had come to be entertained by a musical gentleman or a gentleman-musician.

The famous baritone captivated every one by inimitable personal charm, and forever established the fact that great artists are human beings. At the conclusion of each group of songs the audience enthusiastically called him back, envious, seemingly, of the few minutes he should spend off stage, when he might be out where he could be seen smiling and bowing in the friendly Seagle manner.

His first offering was the aria from Massenet's "Roide Labore," a French opera, an Irish song, recording the sentiments of a freely imbibing son of Erin, was next, and was followed by an English folk-song, De Bussy's "Spanish Serenade," and the best liked of all "Would God I Were a Tender Apple Blossom." All of these were prefaced by genial remarks apropos of the succeeding song—remarks on prohibition, Granada, or French art.

Mr. Seagle confessed that, in his opinion, his hearers had previously been given less than they might have reasonably demanded by an artist on this course who appeared here recently, and he desired to give extra measure. He graciously responded to the encores which repeatedly called him back.

His "Christ of Flanders" was most decidedly appreciated and so was Strickland's "Lindy Lou," which was sung by Reed Miller in the first concert of the course. "I'm Goin' Back to Dixie," revealed unmistakably the fact that Seagle is a Southerner and the ever-popular, "Carry Me Back to Ole Virginia," made an appeal equally as strong.

In fact his concert was a most appropriate conclusion to the course presented here under the auspices of the College management and business men of Clarendon in that the best came last.

A word is due Mr. Dansereau, the pianist who accompanies Mr. Seagle. His playing of the accompaniments and his piano soli were of an order that almost made the recital a joint one. Mr. Dansereau featured some Spanish dances, and also played a Chopin composition which drew unmitigated praise from the audience.

Whether or not another course will be offered the college students and the town music lovers, will be announced later. From the College viewpoint the course just finished was a success in every way, financially as well as artistically, and it is probable that a still better and larger course will be offered the students of next year.

K. O. CLUB TO HAVE BANQUET

Knights to Entertain Ladies Fair Saturday Evening

The Knights of Oblivion have filled their ranks, depleted by graduation, and will enjoy their first Club affair next Saturday evening in the form of a banquet to be served by Mrs. Stegman in the College Dining Hall.

One or two of the members will not be here after the holidays, and the K. O.'s decided to have their annual banquet before Christmas in their honor. New enrollment has included Jimmie Miller, Melvin McCollum, and L. Z. Creighton.

Owing to the present examinations and the nearness of the approaching holiday, with several other social events, it was somewhat difficult to arrange a date for the banquet, and the K. O.'s somewhat congratulate themselves.

A NEW SMOKE STACK ON HILL

Boarding students are very elated over the fact that we have a new smokestack reaching into the heavens at night, and everyone is somewhat anxious now for a cold spell to test out the central heating system. The steam pipes were laid the last week, and the pits we are so accustomed to falling into at night have been filled up. It seems to be a source of great worry to some of the aspiring mathematicians to throw a stone up and down into the smokestack. The administration building has hitherto been heated with stoves, and we congratulate the janitors upon the christening of the new system.

PRESS CLUB MEETS

The Press Club held its regular meeting Monday afternoon, presided over by H. E. Boehning, president.

Some business connected with the Texas Intercollegiate Press Association was disposed of, some communications from headquarters at Dallas read, and the dedication of the annual discussed.

The Club will submit several dedications to the Students' Association next week to be voted upon to determine to whom the Wester of '21 shall be dedicated.

The Press Club continues to thrive and is one of the strongest organizations in the College now, aside from the literary societies. Cleo Norcross who applied for membership was admitted.

We are also sorry to hear that on account of his health, Mr. Roy Cockrell will not be with us next term.

As this is exam week nobody has time for visiting.

THE HONOR SYSTEM IN SOUTHERN COLLEGES

The Honor System, as it prevails in southern colleges today is itself an evolution. In southern colleges operating under the Honor System, the student is presumed to be a gentleman, and this trust is a powerful influence in making him honorable. The professor remains in the room during the examination to preserve quiet and answer necessary questions but there is no suggestion of espionage. To each written examination the student affixes the pledge.

"I certify upon my honor that I have neither given nor received aid in this examination."

The violations of this pledge are rare and are usually dealt with by the students themselves. That the Honor System prevails only to a limited extent outside the South is indication that student nature is essentially different in different sections. I have yet to hear of any college or university where the Honor System, if faithfully tried, has proved a failure.

There are few men who have lived under the Honor System who do not give it their absolute faith. —R. M. C.

A. H. Williams left College the latter part of the week for some place in Oklahoma, where he will take up his pastoral work.

PATHFINDER CLUB

The Pathfinder Club met Friday, November 16th at the home of Mrs. A. L. Chase. A pleasant and instructive hour was spent in the study of Shakespeare, Mrs. Burton directing the lesson.

Mrs. Chase and Mrs. Lumpkin, as assistant hostess, served a delicious salad course to about twenty members and to her guests, the public school teachers.

The next meeting will be December the tenth at the home of Mrs. W. B. Sims.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Eye Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

PRACTICAL EQUIPMENT

Many thousands of dollars worth of actual equipment such as rear axle assemblies, front axles, transmissions, steering gears, clutches, live motors on stands in running condition with complete ignition systems, electrical devices, such as starting motors, generators, combined starter-generators, all types of magnets, high and low tension, impulse starters, induction coils, cut-out-relay switches, and many other units are included in the course for auto mechanics at the Sherman Auto & Tractor School. The impression is that this is only a book school. A small percentage of book or theory work is necessary but 75 per cent or three quarters of our course is on real parts of cars, mechanical and electrical. We have ready for distribution our new illustrated folder showing pictures of our building and equipment that we will be glad to send you FREE on receipt of a post-card. Write for it now, today, address the card to Sherman Auto & Tractor School, Sec. (C.) Sherman, Texas.

New Fords on Hand

We are receiving and delivering cars right along—one car load Tuesday and three more loads on the way. It has been proven long ago that the Ford Car is the most economical car made, both in first cost and upkeep. In these days when products are low and money is scarce, it is good judgment to economize in every way possible. We now have in stock Ford cars of all models. Touring or 5 passenger, Roadsters, Trucks, and both the Sedan and Coupe in closed models for these cold windy days. All are equipped with starters at pre-war prices. If you want a car, see us at once and have one reserved. After December 1st we are going on a Cash Basis to All. The amount saved from bookkeeping and bad accounts will enable us to save you quite a bit on everything we sell. Come to see us for anything you may need for your car. Big reductions on all casings and tubes.

EARLS-EVANS

A wedding of unusual interest to many people of both Clarendon and Vernon occurred Thursday evening, December 2nd, 4:30 p. m. at the family home of Mr. and Mrs. J. H. Evans of our city, when Mr. Floyd Earls of Vernon, Texas and Miss Lena Evans of Clarendon were united in marriage, by P. R. Huckleberry. Mr. Earls comes from one of Vernon's best families, and is a deservedly popular young man. Miss Lena needs no introduction here. She is a fine young lady of exceptional accomplishments and is well qualified to fulfill all the requirements of a well ordered home. The home was artistically decorated with carnations and chrysanthemums. The bride wore a charming frock of blue silk, with a simple bouquet of flowers. The groom wore the conventional black. After the ceremony was over the bride and groom led the way to the dining room where a bounteous spread of many good things to eat were found. Showers of rice were frequent and plentiful, and old shoes and all that go to make a happy occasion were there. Many nice presents were given the happy couple among which was a beautiful set of silverware. May the happiness of their days exceed their fondest expectations, and may the fruition of their lives gladden the hearts of many, and may their sun shine brightly through all the days and set at last in a clear and cloudless sky.

PAMPA ENJOYS ERA OF CIVIC PROGRESS

In addition to the early advent of natural gas, Pampa is enjoying quite a bit of civic progress despite the howls of the pessimist. The new high school building costing around a hundred and fifteen thousand dollars will be ready for occupancy early next month. What shipments continue and elevator men are doing a good business. Pampa is said to be one of the most important wheat shipping points in the west.

PANHANDLE MAN PROFITS FROM BETTER HOG PURCHASE

P. B. Snyder, a farmer residing near Plainview purchased a bred gilt in August 1918. Since that time the sow has provided for the family larder besides Mr. Snyder has sold off \$1500 worth of hogs during that time. He expects to add further to his stock of thoroughbreds this coming year. The progeny of that one sow is scattered around Plainview thus encouraging many others to raise better stock.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular, because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it, and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, dependent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a starchy twinge which is not unpleasant. If you aren't feeling your best, if you feel coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons. Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.

GARMENTS FOR DESTITUTE ASKED OF LOCAL RED CROSS

Texas chapters and members of the American Red Cross have been called upon to make and ship at the earliest possible moment several thousand garments for destitute and suffering children of Roumania, Poland, and other of the small Balkan nations to meet and alleviate the most desperate conditions in child life since the close of the war, according to an announcement received today by the Donley County Chapter. Each of the eighty-six chapters in the state has had assigned to it a definite quota of garments, the amount of clothes asked of this chapter being fixed at 10.

Grim evidence of the toll taken in child life of these stricken countries is contained in the call for garments, which states that the rigors of the past three winters have killed so many of the younger children that there is little need for clothes for children under the age of 12 years. Most of the garments asked for will be made for those between the ages of 12 and 14 years. The amount of ready-made clothing fixed for the southwest has been set at the minimum figure and will only tide the children over the worst of the winter. It is expected that by making the request conservative the entire amount needed will be reached without delay.

In Roumania alone, with a population of three million, statistics received at St. Louis show that more than 5,000 children under fourteen are running wild in pathetic little bands-gypsy fashion—crowding together for company and protection, and finding their sleeping quarters in caves and their precarious living from the aims of villagers. If these waifs possess two ragged garments apiece they are envied as fortunate by their comrades.

Garments made by Texas Red Cross members will be shipped direct to the Bush docks, Brooklyn, New York, marked for export will be sent direct from there to the Balkans.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Pothers You, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt, which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

PRAYER MEETING AND SOCIAL HALF HOUR AT THE METHODIST CHURCH

Last Wednesday night there were about two hundred present at the meeting. The subject for discussion and prayer was Missions. The meeting was led by the pastor. After singing and a prayer by the Pastor of the church, Rev. G. S. Slover made a five minute talk on missions, which was listened to with interest. The pastor made mention of Ansel Lynn, a Donley County boy now in our Missionary field in Africa. The congregation was led in prayer for Brother Lynn by W. T. Hayter. Then a few words were spoken about Rev. Hubert Sone and wife who are missionaries in China. The congregation was led in prayer for Brother and Sister Sone by Brother Lewis. This man and his wife are supported by the Methodist church in Clarendon. After some lively singing and another prayer the meeting closed with the benediction and twenty minutes were spent in social intercourse. The spirit of this service was warm indeed. It was a great prayer meeting. The public and especially the Methodists are invited to attend these services.

"This May Be Your Church"

And that was a beautiful day last Sunday. If it wasn't possible for you to get to the House of the Lord on such a day, it is too bad. But maybe you will be better next time and it will be possible, no matter what the weather is. It is your service and you ought to feel that you miss something everytime you do not attend.

And, of course, there will be the usual services next Sunday. Sunday School at 9:45 a. m. Morning worship at 11 o'clock. Subject of the sermon by the pastor: "The Glory of the Christian Hope." Service Sunday evening at 6:30. Sermon by the pastor on the subject: "The Program of the Christian Church."

Prayer meeting Wednesday evening 6:30. A study of the book of Philomel will be continued. Choir practice Friday evening at 6:30.

NEW PASTOR OF CHRISTIAN CHURCH PREACHES SUNDAY

Rev. Sam J. White, for eight years state evangelist of Florida and who has been holding a protracted meeting at Hampton, Florida, will arrive this week to begin his labors as pastor of the local Christian church. A special program has been arranged for Sunday's services to which the public is especially invited.

L. F. Scott, who resides on the Kerbow farm north of town, made up a quantity of "home spun" sorghum this fall for which he found a ready market at \$1.75 per bucket.

NOTICE, SELECTION OF COUNTY DEPOSITORY

The Commissioners' Court of Donley County at its February term, A. D. 1921, to be held at Clarendon, on the second Monday in February, A. D. 1921, will receive bids from any banking corporation, association, or individual banker in the county desiring to be selected as the depository for said county for the ensuing two years. All such bids shall be accompanied by a certified check for not less than one half of one per cent of the county revenue for the preceding year; shall be sealed, and delivered to the County Judge of said county on or before the first day of said term of said court, stating the rate of interest such banking institution is willing to pay on the average daily balances to the credit of said county.

WITNESS MY HAND OFFICIALLY THIS December 2nd, A. D. 1920.

W. T. LINK,
County Judge, Donley County, Texas.

CHAMBER OF COMMERCE GRAMS

Very nice letters have been received from several of the County Agents and Demonstration Agents who visited the One Day Poultry School last week telling about how they like Clarendon, Donley County, and the spirit of the people who live here.

Joe Cannon, who won the first prize on Broom Corn and on Squaw corn and two second and one third prize at the Donley County Free Agricultural Fair, has a habit of bringing six or seven pounds of butter, some milks and other produce to town every week and getting the cold cash for it. We are proud of the boys of Donley County who can get out and produce such results as this young man is producing and would do anything in the world that we possibly can do to help them make self-supporting men and good citizens.

If Hico—a little town down in Hamilton county, Texas—can ship out 50,000 turkeys, as reported, and if Dublin, Texas, a town about the size of Clarendon, can ship out \$35,000.00 worth of turkeys for Thanksgiving, how many ought the farmers of Donley County be able to ship out? Here where we have a world of cheap feed and plenty of open range for the production of turkeys? Did you ever stop to think what a bunch of a hundred or two hundred turkeys would mean to you right now if you had them to sell? Can you imagine a better way to market your waste feed?

More turkeys, more chickens, more hogs, more milk cows, more cream separators, more seeded ribbon cans for syrup, more and better gardens will soon put you on easy street when cotton is selling for seven cents and feed is selling for seven dollars. Try it.

Location has been made for the New, Feed Crushing mill near the Stock Yards, Mr. Ballard made application for the lease and has gone to Fort Worth to see about getting

it through and on to Dallas to attend to business of the Company. He is expected to be back here at an early date. Some people seem to have the idea that this is going to be another elevator while that is not the case other than for storage purposes.

We have just been informed that the Feed Crushing Mill will have a Meal mill in connection with it and will grind the corn and take toll for the grinding just like the meal mills used to do in central and East Texas when you lived down there and carried the corn to the mill on the old gray mule—you remember, no doubt!

Buel Davis, pupil at the college aged sixteen, his birthday having occurred Tuesday, was presented with his first long pants as a present from his proud parents. His father also kindly suggested the proper methods for the growing of a beard. Young Buel seems to appreciate the length of the gift and advice very much, stepping high in keeping with the new dignity of his new position in life.

Two or three pounds more milk in every cow's bag every day means a big extra profit at present milk prices.

This increase is possible by the use of Purina Cow Chow Feed, which costs only about a cent a cow more per day than the average ration.

The reason Purina Cow Chow Feed produces such heavy increase is that it contains 20% digestible protein (24% crude), the maximum amount a cow can assimilate and keep in the best condition.

Every ingredient used in Purina Cow Chow is a feed of recognized value. There is no cheap filler. Every pound yields more milk in the pail.

Try a ton and you will understand why dairymen insist on Purina Cow Chow.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of Donley County—GREETING:
You are hereby commanded to summon Mrs. P. L. Luce by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 47th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 47th Judicial District, to appear at the next regular term of the District Court of Donley County, to be held at the Court House thereof, in Clarendon, on the 2nd Monday in January, 1921, then and there to answer a petition filed in said Court on the 29th day of October, 1920, in a suit, numbered on the docket of said Court No. 1106, wherein Kimbrough, Underwood and Jackson are plaintiffs, and Mary Waller Rea and her husband B. M. Rea, John A. Rea, Henry Holmes, T. M. Dickey, Mrs. P. L. Luce and her husband, R. G. Luce, A. F. Luce, F. R. Carl and Charles Molter are defendants and said petition alleging that on the 30th day of October, 1917, the defendants Kimbrough and her husband B. M. Rea executed and delivered to them a promissory note dated the date last written for \$1500.00, payable to plaintiffs at Amarillo, Texas, one day after date and providing for 10 per cent attorney's fees on the principal and interest, so that plaintiffs say the defendants last named are bound to them for said sum. Plaintiffs further allege that on the same date the two defendants last named for the purpose of securing the payment of said note executed and delivered to plaintiffs a deed of trust dated the same date and covering Lots Nos. 1, 2, 3, 4, 5, and 6 in Block No. 19 and Lot No. 7 in Block No. 18 of the original town of Shamrock, Wheeler County, Texas, as shown by the map or plat of the town of record in the office of the County Clerk of Wheeler County, Texas; and also covering Lots Nos. 5, 6, 7, and 8 in Block No. 1 of the Grant Addition to the original town of Clarendon, Donley County, Texas, as shown by the recorded map or plat of said addition of record in the Deed Records of Donley County, Texas. That said deed of trust was recorded on the 10th day of November, 1917, in the Deed Records of Donley County, Texas and was filed for record with the County Clerk of Wheeler County, Texas on the 27th day of November, 1917, and recorded in the Deed Records of said county; so that plaintiffs have ever since said date and now have a valid and subsisting deed of trust lien against the property above mentioned.
Plaintiffs allege that about the 14th of September, 1917, and before the execution and delivery to them of the deed of trust above mentioned defendants Mary Waller Rea and her husband, B. M. Rea executed and delivered to defendant John A. Rea, a warranty deed dated on the date last written by which they attempted to convey to the defendant John A. Rea the property above described as being in Shamrock, Texas; but plaintiffs allege that the deed to the said John A. Rea was without consideration and was a voluntary conveyance upon the part of Mary Waller Rea and her husband B. M. Rea to John A. Rea for the purpose of defrauding creditors, so that plaintiffs say the title to said property did not pass to the said John A. Rea and that their deed of trust against the same is valid.
Plaintiffs further allege that during the early part of the year 1917 a suit was pending in the District Court of Deaf Smith County, Texas, being cause number 1094 wherein Mrs. P. L. Luce, joined pro forma by her husband R. G. Luce, and A. F. Luce were plaintiffs and the defendant Mary Waller Rea and her husband B. M. Rea were defendants; that on filing this suit, Mrs. P. L. Luce sued out some sort of a writ of attachment and said writ of attachment was issued and placed in the hands of the Sheriff of Wheeler County and in the hands of the Sheriff of Donley County, and the Sheriff of Wheeler County levied the writ so issued upon Lots 1, 2, 3, 4, 5 and 6 in Block No. 19 and Lot No. 7 in Block No. 18 of the original town of Shamrock, Wheeler County, Texas, on the 30th day of August, 1917; and the Sheriff of Donley County, Texas, levied said writ of attachment on Lots 5, 6, 7 and 8 in Block No. 1 in the Grant Addition to the town of Clarendon, Texas, on the 23rd of August 1917, so that by virtue of said levy of said writs Mrs. P. L. Luce and A. F. Luce have heretofore been claiming and are now claiming and asserting some sort of claim against said property. But plaintiffs allege that after the issuance and levy of said writs of attachment said cause number 1094 in the District Court of Deaf Smith County, Texas, went to trial and the plaintiffs therein, Mrs. P. L. Luce and her husband A. F. Luce, were denied any sort of judgment against Mary Waller Rea and her husband B. M. Rea and in truth and in fact the said Mary Waller Rea and her husband B. M. Rea in said cause 1094 on a cross action secured a judgment against Mrs. P. L. Luce and her husband R. G. Luce and A. F. Luce, so that the plaintiffs say that Mrs. P. L. Luce and her husband R. G. Luce, and A. F. Luce's right to the writ of attachment failed and levy of said writs as above set out became void and no lien in favor of the said Luce's above named was created by virtue of the levy of same and no such lien now exists; that plaintiffs are entitled to have the said writs of attachment and the pretended lien against the above described property canceled and set aside.
Plaintiffs further allege that in cause number 2656 pending in the District Court of Potter County, Texas, during the month of October 1917, the defendant Charles Molter secured a judgment for the amount of \$527.85 against Mary Waller Rea and her husband B. M. Rea and the said Molter caused writs of attachment in said cause to be issued and placed in the hands of the Sheriff

SWEETWATER CITIZENS PROTEST LIGHT RATES

A mass meeting was held here to protest against the recent increase in the rates inaugurated by the West Texas Electric Company. An appeal was made to the city commission and being informed that the commission had no power except in the courts, a resolution was adopted and a committee appointed to circulate a petition asking the commission to order an election for a municipal light plant, and for the issue of bonds for the installation of the plant.

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Donley County—GREETING:
You are hereby commanded to summon the unknown heirs of Nova Ramsey (a femme sole) deceased, if any there be, by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Donley County, Texas, to be held at the Court House thereof, in Clarendon, on the second Monday in January, A. D. 1921, the same being the 10th day of January, A. D. 1921, then and there to answer a petition filed in said Court on the 7th day of December, A. D. 1920, in a suit numbered on the docket of said Court, No. 1093, wherein J. B. King is plaintiff and Effie L. Dunn and the unknown heirs of Nona Ramsey (a femme sole), deceased, if any there be, are defendants; that he and his messrs grantors have held the exclusive possession and use of all of Lot No. twenty-one (21) in Block No. two (2), in the original town of Hedley, in Donley County, Texas, since December 23rd, 1907; that by reason of certain co-partnership conveyances it is not made clear that Nona Ramsey, a femme sole, did not have an interest in the said premises, except as they may be barred by the Statute of Limitation; that the said Nona Ramsey died about the first day of July, 1920; and vouching the statute of ten-years limitation.

Herein Fail Not, but have before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.
Witness My Hand and Seal at My office in Clarendon, Texas, this 7th day of December, A. D. 1920.
W. E. BRAY, Clerk,
District Court, Donley County, Texas.
By S. Hightower, Deputy.

of Donley County, Texas, and the Sheriff of Wheeler County, Texas, and said writs were levied by the said Sheriffs upon the property above described and thereafter said property to be sold under his said writs of attachment and on the 7th of February 1920 the said Molter caused Lots 1, 2, 3, 4, 5 and 6 in Block No. 19 of the original town of Shamrock, Texas, to be sold under a foreclosure of said writ of attachment lien, said sale being made by the Sheriff of Wheeler County, Texas, and said property was bought in by defendant Henry Holmes; and plaintiffs allege that defendant T. M. Dickey also claims some sort of a title to the property last above described. And the said Clarendon property was sold in the same manner and bought in by the defendant Charles Molter; but plaintiffs allege that said sales were void and of no effect and did not pass title to the said Molter, nor the said Holmes or Dickey, because the writs of attachment of same were void, because no proper notices of said sale were given, so that plaintiffs are entitled to have said deeds canceled.

Plaintiffs further allege that the defendant F. R. Carl secured a judgment against Mary Waller Rea and her husband B. M. Rea in the County Court of Potter County, Texas, on the 20th day of April, 1918, for \$205.68 and caused a writ of attachment upon all of the Wheeler County property above described to be levied on the 20th day of April, 1918; but plaintiffs allege that said levy was made long after their deed of trust was given and recorded, so that it cannot affect their deed of trust lien.
Plaintiffs pray for judgment against Mary Waller Rea and her husband B. M. Rea for the amount of the said \$1500.00 note with all interest and attorney's fees; for a foreclosure of their deed of trust lien against all of the property above mentioned; for a cancellation of all of the claims of the above mentioned defendants against said property, and for a sale of same in satisfaction of their debt, and for costs of suit.

Herein Fail Not, but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given Under My Hand and the Seal of said Court, at office in Clarendon, Texas this the 4th day of December, 1920.
W. E. BRAY, Clerk,

Fooling the Feeder

A prime steer could never be made of this critter, even if a carload of corn were funneled down his throat. He lacks something most essential to the making of a high-priced carcass. That "something" is pure blood. For all practical purposes, pedigree is the best feed.

If you've heard of a grade steer's topping the market, it was just because such pure blood as he possessed had *chanced* to get in its work, *chanced* to offset his scrub blood—but it was mere *chance!* With the pure-bred it's a planned certainty.

The pure-breds are the easiest feeders—they use their feed to make prime beef. If you are ready to do your part in efficient feeding, get in touch with some good local breeder and strike hands with him for the upbuilding of your business and of this community.

THE COUNTRY GENTLEMAN, the one great national weekly of practical farming, advises you to do this. Its Editors and contributors travel some 300,000 miles a year to study and write about farming in the United

States. And they declare, as a result of their investigations, that the most hopeful beef practice is that of breeding good steers and feeding them where they are bred.

If you have not yet subscribed for THE COUNTRY GENTLEMAN you owe it to yourself to order now. Only \$1.00 a year for 52 big issues containing the important farm news of the nation; well-tried plans; the best of fiction; strong editorials; good pictures; great cartoons; hopes, helps, and plenty of smiles.

MISSIS BELL AND MUIR INTRODUCED

The home of Mayor and Mrs. Sam C. Bell, in West Cypress Street, was the scene of a brilliant affair yesterday afternoon, when their daughter, Miss Josephine Bell and Miss Rose Muir, daughter of Mr. and Mrs. R. H. Muir, were introduced formally.

The large drawing room where the hostesses stood was a bower of giant pink chrysanthemums, the room of colonial buff with old rose hangings, making a pretty setting for the society buds.

Mrs. Bell welcomed the guests, next stood Miss Laura Muir, Miss Bell and Miss Rose Muir.

Mrs. Bell wore sapphire blue panne velvet trimmed in jet and tulle and more a corsage of pink roses and ferns. Miss Bell was in a witching gown of white satin brocaded in silver, with a petticoat of silver lace.

The low-cut bodice was of the brocade and silver lace. An arm bouquet of Columbia roses was carried. Miss Rose Muir was in a smart creation of pink taffeta and gold lace, the narrow skirt made of gold lace had for its overdress a rose pink taffeta, made full; trimmed in ruffled ruffles and of the taffeta alternating with others of gold lace. The bodice was of the gold lace and taffeta and she, too, carried an arm bouquet of Columbia roses.

Miss Muir was in a Harry Collins model of white cloth of silver, with over drapery of silver bullion lace in apron effect, corsage of lilies of the valley and orchids.

The dining-room was also in the pink chrysanthemums and an oblong basket was in the center of the table filled with the huge blossoms in a bed of ferns. Pink wax tapers in silver candlesticks. Pink mints were additional adornments.

On the buffet the serving table and mantel were crystal vases filled with the pink chrysanthemums.

Alternating in serving were: Mrs. Lucy Tobin Thornton, Mrs. W. P. Rote, Mrs. George Talafero, Mrs. W. P. Rote, Mrs. Winchester Kelso, Jr., Miss Adelaide Campbell, Miss Lottie Jean Steele and Mrs. Warren P. Colvert. Assisting were: Mrs. Arthur Mathis, Mrs. Marshall Terrell, Mrs. Sam G. Newton.

Mrs. Thornton was in a becoming black lace gown, trimmed in jet and silver sequins.

Mrs. Rote wore black satin embroidered in blue and gold and jet trimmed. Mrs. Colvert was in black chintilly lace with sash of sapphire blue. Miss Sceligion was in French blue chiffon over pin satin. Miss Campbell was in a lovely gown of apple green chiffon, beaded in crystal. Miss Steele was in blue bird blue.

The cake of crystallized fruits in a fondant, was one of the attractive features of the afternoon, occupying the center of the bay window in the dining room, presided over by Mrs. Gunter Hardie. Mrs. Hardie wore a pretty gown of black lace and jet.

In the specious living room were: Mrs. Lane Taylor, Mrs. J. B. Tuttle, Mrs. L. J. Hart and Mrs. R. S. Bynum, with the coterie of debutantes. The same color scheme of pink was carried out in here. On the mantel, were vases filled with tall-stemmed pink chrysanthemums, as were the tables and bookcases.

Mrs. Tuttle was in black lace and net, trimmed in sapphire blue sequins; Mrs. Hart wore a lovely gown of black lace, with tunic of jet, and ropes of jet beads. Mrs. Taylor was in black satin and jet.—San Antonio Express.

CITIZEN OF CLAUDE DIES OF HEART FAILURE

Citizens of Claude were shocked Tuesday night when it became known that C. Wolfe, a prominent citizen of that place had died suddenly. Mr. Wolfe was feeling ill out a short time, and his wife ran across the street to summons a physician.

When she returned a few minutes later, her husband had expired. The deceased was a brother of our fellow townsman, Perry Wolfe, and leaves a widow and three married children.

L. Longino, an optometrist of Panama, was here the first of the week looking the city over with a view of locating here.
