WEST TEXAS EXHIBIT TRAIN TO TOUR NORTH

Porter A. Whaley, the newly elected General Manager of the West Texas Chamber of Commerce, plans to organize this summer a large trade excursion to visit the middle west early this fall. It is his plan to assemble about

three baggage cars of agricultural and mineral exhibits from West Texas. These will be attached to a Pullman train carrying a party of about 200 representative West Texas citizens.

The itinerary of the trip has not yet been made up and will be dictated in some measure by the dates of certain larger fairs which are held annually in the middle western states. In a general way it is the plan to visit Tennessee, Kentucky, Ohio, Indiana, Illinois, Wisconsin and Minnesota. The return trip will include Iowa and Kansas. Arrangements will be made to take

along a number of West Texas mo-tion picture reels which have been made during recent years.

official publication of the 36th Div- The News this morning,

These men all joined Company H, organized in Clarendon by Capt. E. A. Simpson in 1917. These men were rewarded for valor in action, in the battle in Champagne sector last October, when the 36th Divis-ion, or combat sections of the division went into the fight to relieve the sorely tried 2nd Division and French troops, going into the fray without any thorough preparation, and being what was termed raw troops, hav-ing hardly heard the sound of the guns, but going in valiantly and driving the Heinies back, back, back, like 15 or 20 miles of territory, cov-ering themselves with glory, and showing what Texas and Oklahoma ful French government. The story of the decorating of the men says that entire battalions turned out to do honor to the men, the decorations being conferred by Marshal Petain and other high French officers in company with distinguished American officers. All three of the men from Clarendon who were decorated received the bronze star cross indic-

ative of the brigade decoration. It will be recalled by our readers that Sergeant Lane at the head of eighteen men was cut off by a large number of Germans possibly 100 in number, and that he with his men, cut their way out with bayonets, and without losing a single man of the bunch.

We have been unable to learn what particular actions the other two men were rewarded for, but we can safely say that whatever valorous actions they were, reflected credit upon the Panther Division and the great Panhandle which they call home

Many other actions of valor have come to our attention, a number of men in the 36th having been cited

A hundred percent district is an honor to any county and Hackberry deserves full credit for their patriotism and effort for the government.

The campaign in the county is coming along splendidly and The News hopes to be able to report the full quota of \$171,300 in next week's issue. The two air-planes which visited this city yesterday from Call Field, helped wonderfully in creat-ing more enthusiasm. They arrived here shortly after nine o'clock circldriving the Heinles back, back, back, until they had covered something like 15 or 20 miles of territory, covple hurried out to greet the airmen and the complimentary ride over the showing what Texas and Oklahoma could do. It was in this battle that the men above named distin-guished themselves so as to win the honored Cross of War, which was conferred upon them by the grate-ful French government. The story of the decorating of the men says through the clouds and he says he felt very much in his element again to have hold of the "joy stick." During the flights over the city many hundreds of circulars boosting the loan were thrown down and are now held as mementos by those who recovered them.

One of the machines was damaged a little in landing and a few minor repairs had to be made before they could proceed on their journey. The pilots were most obliging in explaining the mechanism of their machines, so their visit was educational to so their visit was educational to many of our people, old and young. Joe went to Camp Travis in July 1917, where he was placed with the 315th Battalion Field Signal Corps, Ninetieth Division, leaving for France Ninetieth Division, leaving for France last June. His service at the front is three months, being on the St. Mihiel and Argonne Wood sectors. He was not wounded, but suffered severely from being out in the mud and rain a great deal, which caused trouble to develop and necessitated going to a hospital for treatment, where he remained until being sent to the States with a casual detachment

He landed at New York on the Frederick, and was sent to Camp Bowie to be demobilized. His discharge papers are excellent and he

BARCUS ANTROBUS MAKES OIL RIG, PUMP, DERRICK AND TANK IN MINIATURE

Considerable interest has been centered this week in a miniature oil rig, pump, tank and derrick placed in the window at the Palace Confectionery, which actually pumps oil into a storage tank in plain sight of hundreds of citizens who have more than passing (?) interest in the oil game.

The contrivance is down right ingenious and is the work of Mr. Barcus Antrobus, who built it and set it up for operation. The first producing well in Donley County may be seen in the window at the Pastime.

"Garden sass" is daily ration in Donley County these balmy days. There's no section can produce more and better garden truck than Grand Old Donley.

In its issue of Sunday and Monday April 20th and 21st, the Wichita Falls News-Tribune devoted some six or seven columns to a write-up of the ousiness and natural resources of Donley County. Some weeks ago a representative of this paper visited this city and county and secured

large number of subscribers and collected the data for the publicity. Through some oversight the placing of the names on the list was delayed but in answer to a letter written by The Clarendon News in behalf of our citizens who had subscribed the News-Tribune was

able to locate the error and assures us that the paper shall be forthcoming. All Clarendon and Donley County need to do is to furnish publicity to the state at large and our numerical and financial strength is certain to be wonderfully augmented. When prospecting in the Panhandle,

Newport, R. I. My Dear Madam:

Having just read one of your letters in the Boston Herald I am writing to beg of you an explanation. You are a woman and you know how enumerated costing more than the women suffer in this work (for its price stated is taxable only for 10 continuance, for example). What- percent of the excess. The war tax ever happens the woman always says. If they want anything, it seems no large minded person would try to prevent their having it. Personally suffrage is nothing to me but to exempt from tax: Carpets and rugs, prevent other women from getting it seems to be a very cruel and unnec-essary thing for a woman to do. To say it would force it on other women who do not want it is silly because at \$5 orach; portable fixtures, lamps, etc. \$5 orach; force \$1 orach; and shopping bags, starting to me but to excerpt from tax. Progressive spirits, old and young, in Clarendon are getting together. A city is in the making in the good year of 1919 and The News feels work.

Up in Wisconsin there is a little corner saloon operated by a German named August. This week he put up a sign which reads, "THE FIRST OF JULY IS THE LAST OF AUG-UST". That is a philosophical way to look at it, too.

Dirt has been broken in preparation for the building of the new wing of the woman's building at Clarendon College. The local institution is making wonderful strides this year and with the increase in building facilities the school is having more catalogs printed this year than ever before and will solicit students in new territory. Result: A hundred increase in student body for the next session.

Once again the ability of the progressive men of Clarendon has asserted itself in the passage of the She knows all our troubles; paving ordinance. Under the terms She knows all our strife; of the contract entered into with the She knows every man contractors, the victory of Tuesday Who talks mean to his wife. makes the contract immediately effective and in the course of a very few weeks our streets will be torn She knows the excuses each fellow up for the foundation of the paving. Clarendon is destined to become the most progressive city in the Pan-handle as it is already the most desirable residence town in the entire southwest. Paving means progress and prosperity.

Clarendon Chautauqua comes here on May 20th. A wonderful program will be presented and our people ought to get more out of it than they did the one last year. The dates are a little unfortunate as they come immediately on the heels of the commencement exercises at the College and just before the public school closing, but according to our contract we cannot but take the dates as set by the Chautauqua people A number of the signers of the contract, however, have pledged them-selves not to sign another contract unless it specifies that the dates shall be at some time between June 15th and August 15th. If this concern will not make Clarendon con-cessions in the matter of dates on account of this being a school town, then there are other chautauquas anxious to make us such concessions. It is up to us to get the best contract to suit our local situation.

A Jubilee Service was held Sunday afternoon at three o'clock by the St. Stephenville Baptist Church (colored) at the court house. In response to the invitation issued in last week's News by the pastor, Rev. Menogan of Amarillo, there were present some five or six hundred white people who enjoyed immensely the re-marks of Rev. Menogan and the singing of the colored folks. The pastor and presiding elder of the Colored Methodist Church were present by invitation and the scripture lesson was read by the former while the opening prayer was made by the latter. Rev. Menogan, the pastor in charge of the service, was diplomataddress, laying stress upon the fact that the negroes of this section knew the Southern white man was his best friend and that his people were not and very friendly in his opening demanding social equality but only the assistance of the white people in living their lives in happiness and interview of these reconstructing agencies white assist would be raised through the agency for the world.

Democracy Made Safe Politically

In defining Democracy, Dr. Lyman Abbott gives the following very broad principles as the real verities of that form of government which is "of the people, for the people and by the people." And in so far as a Democracy is not a mere form of government. It is much more. It is a religious faith. It is the spirit of shovel every day, and never have any more trouble with my stomach." It involves four fundamental liber-ties: religious liberty, industrial liberty, educational liberty, political liberty. And these liberties are not all rights; they are also duties. We ought sometimes to forego our rights; we ought never to abandon our duties." Dr. Abbott goes into more minute detail of the application to our national life, but this brief excerpt is a very splendid analysis of the pur-pose of our forefathers in launching this old ship of state, which we call the United States of America. MISS LILA McCLELLAND ASSISTS IN ENTERTAINING MRS. WOODROW WILSON

The following letter in part from Miss Lila E. McClelland to her parents is published here, with the hope that it may be of interest to her friends. It will be remembered that Miss McClelland enlisted for service with the Red Cross for one year. She sailed from New York Nov. 20th and arrived in France about Dec. 1st and after a three week's stay in Paris was assigned as an interpret-er to a hospital, for the French wounded, an old chateau about four hundred years old, known as the Chateau de la Fontaine Bude at Yerres, about an hours ride from She remained as an interpret-Paris. er there till about March 15th when the American Red Cross workers were assigned work elsewhere. The following are the newspaper clippings referred to:

Mrs. Woodrow Wilson was entertained yesterday afternoon at the Red Cross Club for Army students recently established by the Paris Chapter of the American Red Cross at 140, Bouvelard Montparnasse. Over 400 men and officers of the A. E. F., on detached duty for study in Paris, were present, and the wife of the President of the United States shook hands with each of them.

Mrs. Wilson arrived at the club shortly after 4 o'clock, in the President's car, accompanied by her sec-retary, Miss Benham. The court-yard of the building was crowded as yard of the building was crowded as Mrs. Wilson drove in, and a squad of soldiers formed a guard of honor at the entrance. Shown through the club and the old garden in the rear, Mrs. Wilson expressed herself as greatly pleased with the institution and the work being done there by the Red Cross for Army students. # An Open Letter to Hon. O. C. Watson; Mayor of Clarendon

#### Dear Sir:

As Mayor of Clarendon, we believe you are interested in everything touching the welfare of your community. That is why I am writing this open letter to you about the Clarendon 1919 Chautauqua, which I am glad to assure you will be found by people of your community to be the best program we ever have presented

The men who we have selected to lecture on this program are all men of experience and established reputation as authorities in their various lines.

Sergeant W. S. McBirnie is one of the boys who has "come back." He speaks on "Readjustment Problems."

E. H. Lougher, world traveler, criminologist and lecturer, will discuss a few of the world problems now confronting America.

C. H. Plattenburg and J. E. Aubrey are specialists in community organization and will discuss community interests at the Chautauqua

The Waggoner-Potter Company will give a novelty program of music and impersonations.

The Haydn Singers, a company of musical artists, organized by Chas. F. Horner, will give an artists' program.

Roach-Freeman and Williams Company in their sketches and varied musical programs, furnish fun for everybody, and the Co-Iumbia Band is considered by many who heard them last season as the best musical organization which has ever been at the Chautauqua.

Another big attraction is Eugene Laurant, known as the "man of many mysteries," and one of the foremost magicians in the world

This, in brief, is your program for the Chautauqua; a pro-gram in keeping with times. This is a great year for the United States. The war is over and we want to celebrate. We have gone from war to peace conditions and we all want to celebrate, so we are looking for the big Chautauqua attendance this year that this program merits, and we feel that after hearing the pro-gram, you and the people of Clarendon will be as glad to be on the circuit as we are to have you.

Sincerely yours.

CHAS. F. HORNER.

# Let's Get Together

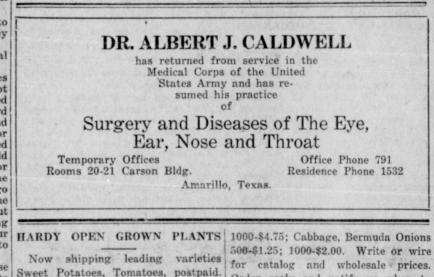

You often hear folks talk of "co-operation" and yet some people know little about co-operation. you must have friends. No one lives to himself. The same is true in a business sense. A merchant depends on his friends for business, for his enemies won't trade with him. Then if one succeeds he must make his money off his friends.

That is one reason why we treat our customers right-they are our friends and we do our best to please them, not just because it pleases them to treat them right, but because it is RIGHT that we should treat them that way. If you are not one of our regular customers, let's get acquainted.

WHATEVER the occasion may be, the Puritan Oil Cook Stove does its work on time, promptly-and in addition gives you the comfort of a clean, cool kitchen."

From Puritan advertising-Pictorial Review-May, 1919.

Set the utensil in a clean hot flame that comes up through the grate—like gas. Indicator on each burner shows low, medium, high flame—and you change the heat as easily as you set the indicator. At full heat the indicator's automatic wick stop prevents smoking. Brass burners-last for years.
