NOTICE—Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publisher.

Clarendon's cotton market is drawing the cotton here from many miles away this fall. It pays a farmer to bring his cotton to Clarendon.

Already eleven have taken French leave from Gov. Neff's honor farm near Houston, so if the emigration continues, Ma and Jim may not have an honor farm to deal with at all. The News does not think much of "soft snaps" for the criminals of Texas. That, with the suspended sentence law, is responsible for a large percent of our lawlessness.

Our old friend, Jess Adams, editor of the Plainview News installed a new press and increased his paper from six to eight columns last week, and in the same issue announced his departure for a world tour on January first. Travel broadens a man, but this is an instance where planning to travel broadened a newspaper, as well. Anyway, we will await with interest, Jess' letters telling of his travels, and we congratulate The Plainview News on its progress.

Have you made a will? This is a question that most people overlook, and some seem to think that a will is not necessary except for the man of riches. Every man or woman who has property or who is about to acquire property, should make a will under the guidance of some competent lawyer or banker. It saves much time and expense to the heirs and you owe them that consideration, even if you are confident that your desires will be carried out when you are gone. Make a will.

Next week is our big Annual Home Town Edition, and we are going to send the News to every home in the Clarendon territory, with an invitation to non-subscribers to join the great majority of Donley County people in reading regularly what has been said to be the best weekly paper in the Panhandle, if not the entire state. We modestly admit that this statement is not far from correct and we want every body to enjoy next week's issue of The News, which will carry from thirty to forty pages of interesting news, stories of the long ago, illustrations and holiday advertising of interest to everyone. Watch for the Annual Home Town Edition.

The News editor voted for the free text book law, with an inward fear that it was a sad mistake. We voted for it because nearly all the educators of Texas urged its passage, and we have always stood so devotedly for anything that would assist education in this state, that we would not oppose the law. After what we have seen in recent years, and with the prospect in view of some third or more of the present contracts being almost certain to be changed next year, leaving thousands of dollars worth of books to be burned, we are out and out opposed to it, and we hope the incoming legislature will repeal the law speedily and allow Texas to rid herself of the socialistic and paternalistic theory and practice. After all free clothing and free meals are just as logical as free text books.

Feminine pulchritude is always delicately alluring, but "who the heck" ever though that there was anything alluring in the multitudinous and variegated bathing beauties (?) that have descended as a plague on the windshields of our country?

OPINIONS AND OPINIONS

You may cuss the fool hen for insisting upon crossing the road just ahead of your speeding automobile—but in doing so do not forget that the engineer of the "Express" has the same opinions concerning you.—Ex.

If we thought that parking space was at a premium a few weeks back, we only guessed at the real situation as it exists now. The matter is becoming more acute all the time in Clarendon, and we are going to be forced to do something in a big way to take care of the situation. The News hopes that Judge Porter and commissioners will be able to bring to fruition their suggested plan of providing more parking space around the courthouse square, for to our way of thinking that is the most convenient and best solution of the difficulty.

WELLINGTON IS DOING IT

Sam Braswell of the Clarendon News soliloquizes pertinently editorially thusly:

"The News has always contended that Clarendon should have a law to keep carnivals and certain kinds of tent shows out of the city limits. Other Panhandle towns are doing it by ordinance and Clarendon can do it. The better sort of citizenship is not promoted by having such amusements and their attendant hangers-on among us, and we hope that our city dads will give us relief by an ordinance with teeth in it." Wellington some weeks ago started just such a procedure and it is already showing results.—Wellington Leader.

THE PATHFINDER LIBRARY

An event occurred in Clarendon last Saturday afternoon, which appeals to The News as one of greater consequence than the man in the street is apt to think. We refer to the opening of the public library which was fostered and founded by the Pathfinder Club of Clarendon. Like most unselfish movements its full import is not recognized at the outset, but still like them, it will be recognized in its true light, more and more as the days go by. The Pathfinder Club is a study club and the women who make up its membership are exemplifying their love of good literature by this movement which has given our city its first public library. The modest beginning in the number and variety of books cannot be construed as indicative of a mean mission but the fact that it has been started with no more books than it now possesses is a challenge to the cultured citizenship of this community to see to it that on this foundation is built just such a public library as Clarendon needs, and that the tastes and discrimination of her people justify.

The opening of the Pathfinder Library is an epoch in the civic advancement of Clarendon, and the faith of its founders must be justified in an enthusiastic reception by this people.

FATHER and SON SENTIMENTS

Under this caption each week The Clarendon News will carry sentiments of Father to Son and of Son to Father, as arranged for on the evening of Clarendon's annual Father and Son Banquet, Nov. 18th, 1924. This is done in an effort to keep the spirit of that occasion and of the entire movement burning all through the year.

Send in your cards if you haven't already done so.

PANHANDLE BOOMING SAYS FRANK HOUSTON

Frank Houston, district manager of the Texas Central Power and Light Company, with headquarters at Childress, was a Wichita Falls visitor Tuesday.

Mr. Houston states his company is now completing a survey for a high line from Childress to Clarendon, which will supply current to Esteline, Newlin, Memphis, Hedley, Lelia Lake, and Clarendon. The line will be under construction within a few months and the estimated cost is \$250,000. In addition to this line, the company is planning another line eastward to Vernon, being owners of the plant in that city. The plan is to finally connect with the local power company's lines at Electra, thus completing the super-power high line that now reaches from this city to the Gulf Coast plants.

"Panhandle towns were never in better condition," stated Mr. Houston. "There has been an unusual cotton crop and the farmers have sufficient feed to last two or three years. Memphis, Clarendon and Chil-

The most practical and the most highly appreciated gift for every member of the family is the electrical gift.

A lamp is used and enjoyed every time dusk falls. A toaster or percolator is present at every breakfast. The electric washer comes into service every Monday. And as often as any of these gifts are put to work, you and your generosity and thoughtfulness are recalled. There is nothing more appropriate. Look over the list:

| Electric Irons | Percolators |
| Vacuum Cleaners | Table Lamps |
| Curlers | Electric Washers |
| Heating Pads | Table Stoves |
| Electric Heaters | Cooking Ranges |
| Sewing Machines | Waffle Irons |

And many other useful labor saving appliances. You never see an electric appliance put away on a shelf or up in the attic with the soon-discarded Christmas Gifts.

SATURDAY
 DOUBLE-CROSSERS LOSE IN "WINNER TAKE ALL"

The most ingenious dirty double-cross ever pulled in a prize fight was a feature of the gruelling championship clash between Battling Buck and Kid Holliday, his challenger, it now becomes known.

The ring of gamblers who promoted the fight told Buck it would be "framed" for him to win in the eighth, when his challenger would weaken.

Buck, who refused to fight anything but square, even insisting on the basis being "winner take all," countered by saying he'd do his best to knock his opponent-out before the eighth. But the gamblers fixed it with Holliday so he would only pretend to weaken, long enough to fool Battling Buck off his guard for an easy knockout. How this dastardly double-cross worked in the "framed" fight will be shown in "Winner Take All," the new William Fox attraction coming to the Pastime Theatre Saturday, matinee and night.

BARBARA LA MARR AND NOVARRO BACK

Villains in one of the biggest pictures of last season, they are now the hero and heroine of one of the biggest films of the new year. Barbara La Marr and Ramon Novarro, who both made their start to fame in Rex Ingram's "The Prisoner of Zenda," in which they were the conspirators, have got together again in the leading roles of "Thy Name is Woman," the Fred Niblo production presented by Louis B. Mayer through Metro, which is coming to the Pastime Theatre on Wednesday and Thursday.

OUR ANNUAL HOME TOWN ISSUE

The Annual Home Town issue of the Clarendon News will appear December 11th. Some of the best writers in Texas have contributed to the columns of this issue and our readers will find much to interest and entertain them in the pages of this Annual Issue.

Austin Callan tells of an early day antelope hunt in West Texas, in which he took part.

Another writer tells how the good folks of East Texas celebrated Christmas back in 1876.

David J. Morris, who lives in South Texas, has a good story on how the foreigners in his part of the State celebrate Christmas.

Many other interesting stories will be in the Christmas Issue—stories for the women folks, the men folks, the boys and the girls. Lookout for it.

Following are the contents of our Christmas issue:

"Christmas in the Open"—An old-time antelope hunt in West Texas a week before Christmas. By Austin Callan.

"Christmas in the Piney Woods"—Peach Tree Village (East Texas) and its first Christmas tree.

"Christmas Reflections."—By J. H. Lowry. (Mr. Lowry writes tenderly of Mary, the Mother of Christ, and her long and painful journey to Bethlehem, where the Savior was born.)

"Getting the Christmas Spirit."—When the Yuletide of Christmas joy sweeps into your heart.

"A Review of the Passing Year"—A review of the progress of Texas during 1924. By W. N. Beard.

"The Ready-made Christmas"—A dear old grandmother has her own way, and shows the beauty of a "Home-made Christmas" over that of a "Ready-made Christmas."

"And as ye Give."—The angels gave the gift of peace and good-will almost two thousand years ago. Cannot we do the same thing in 1924?

"Christmas Tree Decoration"—Pretty ways to decorate a Christmas tree at the last minute.

"Housewifery Christmas Gifts"—For the woman who is swift and skillful with the needle there are many ways she can surprise friends with pretty gifts that can be made at home.

"Boys' and Girls' Page."—Aunt Mary wishes all her Boy and Girl friends a Merry Christmas and says to tell them that she has written a good story that they must read.

"Woman's Page"—Mrs. Margaret Syte has worked faithfully to get up an interesting Christmas page for the woman folks. It would be profitable for all our women readers to turn to this page and study it carefully.

LADIES ENJOY BANQUET LAST THURSDAY NIGHT

The Ladies Class of the Christian Church under the guidance of Mrs. W. T. Hayter were the winners in the contest lately staged between this class and the class taught by Will Dubbs of the same Sunday School. The penalty was that the losers had to furnish, cook and serve dinner to the winners. The date set for the dinner was Thanksgiving and a real dinner was served. Ed Carlson was chief cook for the men and was ably assisted by John Beverly and Jim Casey. Sixty guests were served to one of the best banquets ever served in the city and the ladies were all high in praise of the cooking put out by the men. A real Thanksgiving dinner was served, made up of all that goes to make this the happiest day of the year.

Homer Mulkey was the toastmaster of the occasion, calling on the leaders of the two classes and on several of the members of the classes to make remarks suited to the event. Special emphasis was given to the zeal with which the work was pushed to completion. One of the members having been reported as making his wife stay at home to keep the ladies class from winning. At any rate, the contest was a nip and tuck affair from the very start and a great deal of good was brought to the Sunday School on account of the contest being staged. The elderly ladies class of the Sunday school was the invited guest of the men, only two of them being absent from the feed. It is reported that they enjoyed the feed as much as did the younger folk who were in the contest.

Just before the meal was served, Mrs. Goldston was called upon to take charge of the kitchen to allow the men to make this a real Thanksgiving dinner and get to eat with their wives. She was assisted in serving the meal by four of the young ladies of the church.

To say the affair was a success would be putting the matter much too lightly as both the contest and feed made relations better between the classes, even if some of the men had wives in the other class. Some of the men were heard to state that the women had the least bit of advantage over them as their class was larger to begin with and that they had a start on them. At any rate, the men paid off their debt with this big feed and showed that they were very willing to be beaten by the ladies as squarely and fairly as they were.

A CORRECTION

In the letter printed last week written by Dr. Geo. S. Slover, mention was made of his payment of \$10,000.00 to the Southwestern Life Insurance Company. The News was in error in the statement of this amount, which should have read \$100,000.00. We take this method of correcting the error made and trust that the mistake will not cause any undue worry on the part of those who read the article.

CLARENDON IS NOTED FOR FINE TAILORING

The saying that a "prophet is not without honor, save in his own country" works equally as well with tailors, according to Edward Peltzel, better known as "Dad." This was brought out in a conversation with Jim in the News office the latter part of last week. It seems that two of the big business men of the Panhandle had come to him and had given him orders for clothing and that he was justly proud of the honor conferred on himself as well as upon the city of Clarendon.

These two men, one of them James L. Smith, President of the Guaranty State Bank in Amarillo and the other E. A. Underwood of Plainview have been long time customers of the tailor in Clarendon, having a number of suits of clothes made by him each year. This is a credit to the work of the tailor in Clarendon and our city is duly proud of the fact that men come here for the purpose of having clothing made for them.

TWO FIRES IN CITY DO VERY LITTLE HARM

The fire fighting force of the city of Clarendon is getting that efficient that they can almost put out the fires in the city before they start. Two fires in the city in the last week have been promptly put out before they could gain headway enough to warrant any undue alarm over their spreading to do greater damage. A fire on last Wednesday evening which burned some out buildings in the rear of the Denver Hotel was promptly and quickly put out before any appreciable damage could be done. In like manner a small fire in a shed in the rear of the Methodist parsonage was smothered before much damage could be done. Had either of these fires been left to burn as they surely would have without an adequate fire fighting system and a sufficient water supply, the nearby section of the city would have been severely scorched if not totally destroyed.

CLARENDON EXCHANGE HANDLES MANY CALLS

The manager of the Clarendon Telephone exchange recently told the News man some things that are not usually known by the general public. The most of the data given in the News concerns the number of calls received through the local board. Six thousand calls and connections made over an average number of days is the actual rate for calls through the board at the Clarendon exchange. Of this number, approximately ninety per cent come between the hours of eight in the morning and eight at night. This does not take into consideration the long distance calls relayed through this board originating both in this city and from the other stations in the Panhandle. Clarendon is rated as having the second best station in Texas for the size town served and the operators and owner are justly proud of the record they are able to make by the use of the equipment furnished.

AMERICAN STORES ENJOY BIG TOYLAND OPENING

Opening the season Saturday of last week with the best stock of goods they have had since their opening in the city of Clarendon, they enjoyed a big day's sales. The manager, Miss Dewell has proven beyond a doubt that they are living up to the motto they have adopted for the store and they surely will have anything anyone could desire for Christmas. Their stock of dolls alone would stock an ordinary town for an entire year and they state that they expect to sell these and have calls for more than they have in stock. In addition to the stock of dolls, there are toys of every description and at almost any price a person could name. A glance at their windows will reveal the fact that they have put much thought and time into the preparation for the Holiday season of the year. For the remainder of the family, there are things that would delight the hearts of any of them and would serve to make any Christmas the best on earth. They believe in the power of the printed word and their ads may be seen in the News almost every week. They always carry a message for the buying public.

BAPTIST CHURCH NOTES

Our Sunday School under the new A-1 system of organization is moving along splendidly. In fact, this system is working with such a satisfactory degree of efficiency that the teachers and students are able to turn out a greater quantity and a better quality of work. Plans have already been set in operation for a Christmas program and the tree to be observed during the early part of Christmas week.

In addition to the Baptist Young People's Unions, the girls and young ladies of our church have been organized into auxiliaries according to their respective ages. Much interest is being manifested in this particular phase of the church work. In each group Mrs. Stapp is the efficient promoter. Delegates to the State Y. P. U. Convention, which convened in Ft. Worth during the Thanksgiving holidays, gave glowing reports of the work over the state. It was our good fortune to have Misses Martha Rateliff and Hazel Coleman represent us at this convention.

Our pastor and his good wife went as delegates to the State Baptist General Convention which convened at Dallas. All who heard Bro. Stapp last Sunday morning surely did en-

joy his report of the working of the convention.

The ladies' Auxiliary in connection with the Sunday school is going ahead with plans for the all-day market and bazaar to be held at the Y building, December 13.

Our choir is building up and is certainly giving us some worth-while renditions. The musical instruments contribute much to the pleasure received from such enjoyable singing.

Supt. of Publicity.

Geo. and John Ryan were Amarillo visitors Monday.

The J. R. Bulls' family visited relatives at Mangum, Okla., last week-end.

Gordon T. Butler, superintendent of the school at Groom spent the week-end in Clarendon with friends.

All Y. W. A. members remember to meet at the church Friday evening at 7 o'clock. Friends are invited.

WILD TURKEYS TURNED LOOSE ON CANADIAN

State Deputy Game Warden B. D. Garmon received in Amarillo by express last Monday a shipment of five young turkeys shipped to him by State Game Commissioner Lord to be placed on the range of some suitable point in the Panhandle. Mr. Garmon carried the young turkeys over on the Canadian River and turned them free in a large pasture, with plenty of food and water. This is the second shipment Mr. Gorman has received of wild turkeys and with proper care and attention it is planned to have an abundance of wild turkey along the Canadian River and the Palo Duro Canyon.

People who have no regard for the game laws of the State will find it a very costly undertaking to get among these young turkeys with their guns. Game wardens are watching the Panhandle game and a

very nice sum of money has been paid into the State Game fund by game violators. Only yesterday some parties were caught with two antelopes and a lot of quail in their possession. They thought they were having some Thanksgiving sport, but the law dabbled down upon them when they were least expecting it and their fun was rather costly.—Panhandle Herald.

DONLEY TEACHERS TO MEET IN MEMPHIS AGAIN

The Four County Teachers' Institute, composed of the teachers in the counties of Childress, Collingsworth, Donley and Hall will meet again this year in our neighboring city of Memphis. This Institute is composed of all the teachers in the counties afore mentioned with the exception of those in the Childress District, who are not affiliated with the institute.

This is the third time the teachers have met in Memphis and it is thought that Memphis will be permanently chosen as the meeting place on account of the centrally located position in reference to the others of the three counties.

The Hall County Herald states that tentative plans have been made by the teachers of the city of Memphis, in conjunction with the county Superintendent. Entertainment of various sorts has been arranged and the teachers are all promised a really enjoyable time for their stay in Memphis. Four days will be spent and each one of them will be crammed to the brim with everything to interest the teachers.

A record attendance is expected, and the folk of Memphis have already been called on for assistance as to accommodations for the visiting teachers.

BEWARE OF DIPHTHERIA

"This is the time of year when diphtheria begins to appear among our school children," according to Dr. Malone Duggan, State Health Officer, and every parent should watch his children carefully to be sure that an ordinary case of sore throat with a rise in temperature does not terminate with this dangerous disease."

Youngsters in rural districts are especially liable to diphtheria for they have not become naturally immune through frequent small doses of the disease producing germs as have city children who are constantly surrounded by them.

Contact Spreads Diphtheria Germs We formerly thought that diphtheria increases with the coming of cold weather but the real reason for its appearance at this time is that winter brings the opening of schools and the mingling of children in closed rooms. This contact affords better opportunity for the infection to be carried from one child to another on hands and books. The common drinking cup should not be permitted in any school or public place. Teach your children not to put pencils or other objects in their mouths, to cough or sneeze into their handkerchiefs, and to wash their hands carefully before eating.

In 1923 there were around 1400 cases of diphtheria reported in Texas and 189 deaths. Up to November of this year, with two winter months yet ahead, there have been 1238 cases and 70 deaths. Death from diphtheria usually indicates neglect on the part of some one if this disease is quickly recognized and properly treated there is no need for it terminating fatally. The discovery of antitoxin has given us aid in combatting the disease and this treatment, if properly and promptly given, makes recovery nearly certain.

Diphtheria Can be Prevented But any child can now be made immune to diphtheria through three injections of toxin-antitoxin

which is just as sure protection as a typhoid or smallpox vaccination. Your family physician can give your child this treatment and eliminate any chance of this dread disease. Every boy and girl should have this protection before entering school and it can be safely taken by a babe of a few months.

Make this a slogan of your school district—"Let there be no diphtheria among our pupils." Time, money, suffering and death are saved by this simple treatment. Every child between six months and six years should be given this protection. Let your doctor give your child these doses of toxin-anti-toxin.

GOLF CLUB MEETS MONDAY AND MAKES CHANGES

The Clarendon Golf Club met in a called session Monday afternoon of this week and made a few changes in the Board of Directors. Selden Bagby and Nat Perrine were elected on the Board of Directors to take the place of Fred Story and Lee Pope, both of whom have let their membership go to some other person.

In addition to the changes in the personnel of the club, it was decided to change the greens and put them in the best possible playing condition. The green for number six hole will be worked first and estimate will be made up from this, as this one will cost more to put in good condition than any of the others on the course. Several of the members are taking advantage of the pleasant days and are trying their hands at the game to keep their hand in for the playing next spring and summer. It has been predicted that there will be very little winter playing as the members are all too busy to attend to the game.

TIME slips by with startling rapidity. But a few short weeks ago you were looking forward to Thanksgiving. Now it's gone!

Christmas will be here before you realize it. So don't delay. Decide now to place your order for a Studebaker Special Six Sedan.

Make this the most practical Christmas of all—with a useful gift that will bring years of joy.

Present your family with these magic keys to happiness on Christmas morning—the keys to a Studebaker Special Six Sedan.

Here is a car that looks and rides luxuriously. It is a car that looks and rides luxuriously.

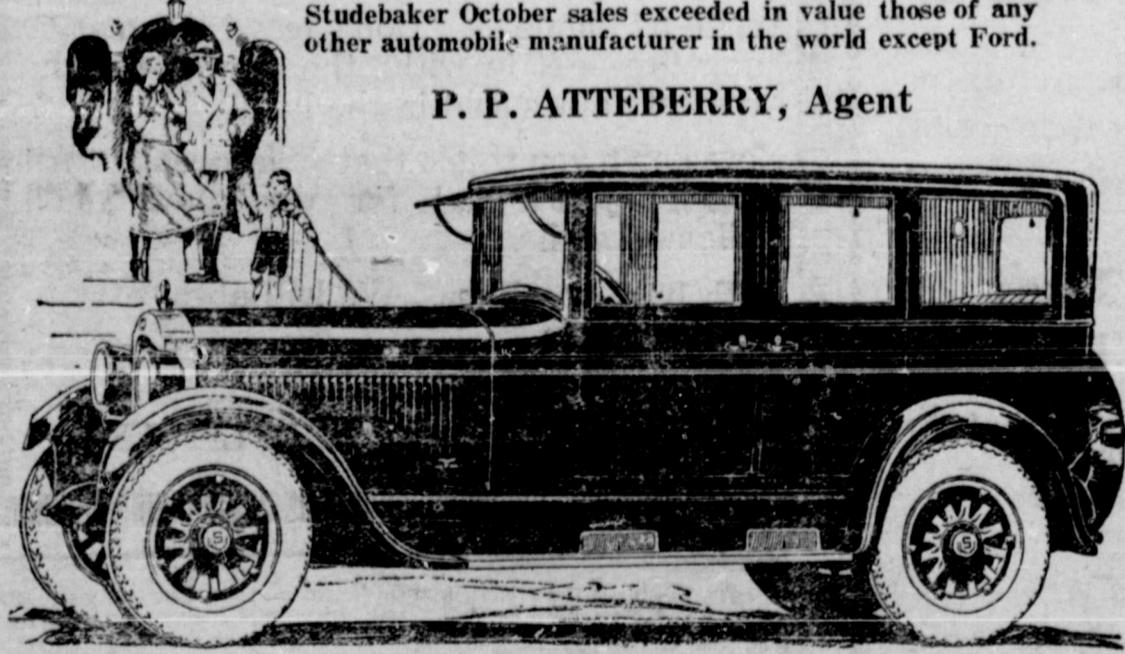

A car of imposing beauty—richly finished and fitted—with genuine mohair upholstery and appointments of the very finest quality.

Its smooth, quiet, vibrationless performance is a delight to even the most seasoned motorist. The gears shift so easily—the clutch operates so smoothly—the brakes are so sure and positive—you are hardly aware of any effort in operation.

Make this Christmas one that will be remembered. Put the keys to a Studebaker Special Six Sedan on your tree. We will gladly have the car delivered to your door on Christmas morning. But come in and make arrangements now.

Studebaker October sales exceeded in value those of any other automobile manufacturer in the world except Ford.

WHAT ENGLAND THINKS OF AMERICAN WEALTH

As Reported by The London Daily Mail

Agitators demanding vast public expenditures on their pet prospects frequently tell us that England is "rolling in wealth," that it is the richest country in the world. That was, perhaps, true decades ago, but matters are very different now. England is poor, very poor, if compared with the United States.

The United States is fabulously wealthy. Although it possesses only about one-twentieth of the population of the world, it has half of the world's wealth, and has more than half of the world's gold, diamonds, pearls and precious stones of every kind.

The true wealth of a nation can best be measured by the condition of the masses. The prosperity of the American workers is almost unbelievable. More or less unskilled men, such as carters, milkmen, builders, laborers, etc., each \$3 per day. Vast numbers of skilled workers earn \$2,000 and more per year.

The assertion that America's wealth belongs to the few, that the high cost of living counterbalances the high wages prevailing, is incorrect. The white population of the Republic is a little more than twice as large as that of this country. However, the United States has not merely twice the number of telephones and motor cars that there are in England, but has fifteen times as many. To every three families there are two telephones and two motor cars. Millions of unskilled workers have not only roomy houses which belong to them but have a telephone, a motor car, and other luxuries of which English working men scarcely dream.

It is frequently stated that the United States owes its vast wealth to the possession of its great natural resources, to the possession of a fruitful agricultural plain, extensive forests, rich mines, etc. That explanation is fallacious. Every student of American economics is aware that the bulk of America's vast income is furnished, not by the farms, mines and forests, but by the factories and shops.

With existing arrangements this country can produce 12,000,000 tons of steel per year. That figure has never been reached. The United States can produce at least 55,000,000 tons per year. They produce far more than half of the world's steel and of products made of steel. Among other things they produce about 90 per cent of world's motor cars, both in their own country and in branch establishments abroad.

In the city of New York alone more building takes place than in the whole of the United Kingdom. The textile industries of this country now surpass Britain, and in the production of goods made from copper, brass, rubber, wood, leather, etc., America's superiority is overwhelming.

Why are Americans foremost in the world, not only in the output of food and raw products but also in that of manufactured goods? The reason is obvious to all who are acquainted with economic conditions on both sides of the Atlantic.

England, the former stronghold of individualism and efficiency, has become a stronghold of Socialism. Owing to Socialist influence can't any has become universal. The suicidal policy of restricting output has led to hostility to labor-saving machinery. The result is that the average American produces as much as three English workers.

Goods produced must be consumed. They are consumed—and enjoyed chiefly by the working masses. Production being three times as great in the United States as in England, workers receive not merely three times as much money but receive three times as much real wages in the forms of goods which they can buy. Hence the American workers are infinitely better fed, clothed and housed than the British workers.

The American workers realize that prosperity consists in an abundance of useful goods and nothing else, and that such abundance cannot be created by insisting on high wages in respect of an utterly insufficient output. He recognizes that capital, and labor-saving machines are his friends, not his enemies. Hence the American worker can afford a motor car and other things which, in this paradise of Socialism and of cap-penny, are privileges of the rich and well-to-do.—Southwestern Machinery.

FIRST TECH BULLETIN RECEIVED BY NEWS

The Clarendon News is in receipt this week of the first issue of the Bulletin by the new school of Technology at Lubbock. The bulletin is a discourse on the work to be done by the new school when it first are started. We are filing it away in the archives of the News as it will be of great interest in the years to come when the Tech school is the greatest school in the greatest part of the greatest state in the union. They plan to start the school with only High School graduates and have only the first two years of college work for the first year, adding one year until the full four years of college work are to be available. The faculty is already being lined up and the buildings are under construction that will enable them to start the school with a fine showing at the opening of the school term in September 1925.

IN CORRECTION

In last week's issue of the News, there appeared an item stating that Rev. Atticus Webb appeared in the Baptist Church at the evening hour. We were in error in this, he having appeared at the First Christian Church instead. In correction of this error, we are glad to run this item.

THE SUNDAY PAPER

When I was a boy back in Missouri our family reading matter consisted of the Bible and a few good books, and a weekly newspaper. The weekly newspaper came out of St. Louis and was, as I recall, four to eight pages, but usually four pages. It had the news set in very small type, and the advertisements chiefly were of patent medicines—nostrums guaranteed to cure man and beast of all ailments from toothache to corns.

The illustrations used back in that early day were of the line drawing or wood etching type, and consisted very largely of men with long black whiskers, very much on the order of the celebrated Smith Brothers. That was a day of humorous writers, and features written by men with a gift of gab. Many of these literary masterpieces were cut out and preserved in the family scrapbook, and even today they make mighty good reading.

But lo! times have changed! Now we read two or three papers every day and on Sunday go on a reading jag that takes us through scores of printed pages. We usually read the big news on the front page, and then jump to the funny pages—usually eight in this day of big journalism. Then the sport page, the market page, and the editorial pages come in for casual observation or close scrutiny, depending upon the mood.

As we run through the many sections, we see smiling forth from the pages the exact likeness of many of our friends, and other people whom we are interested in because of their importance in the work of the world. Then we turn to feature stories which are educational, rather than purely entertaining, as often was the case in the early days of American newspaperdom. We read about what the people are doing in all parts of the world, about laying hens, and milk cows; about crime detection and facial surgery; about delicious foods and scenic wonderlands; about boll weevils and intimate thoughts of famous folk. There's no end to it all, and if we ever get through and remember all we have read, we are mentally stimulated until the next week's Sunday edition comes along.

An interesting thing about Sunday papers is the advertising that they carry. Instead of bombastic claims and apparent exaggeration, they are buying news. We read the ads in order to find the best place to buy what is wanted or needed. The news is vital, but the ads are of equal importance and rare is the housewife who doesn't give more attention to the ads than to the news pages.

Yes, times have changed, and the newspapers along with them. Thanks to the newspapers many of our modern developments have been brought about and made available to the public. With each newspaper the world passes in review before our eyes, and we are made better and more able for it.

The world can never go back to the days I lived as a boy in Missouri.—W. D. Trotter in Southwestern Machinery.

Little Mercantile Company

WHERE MOST PEOPLE TRADE

Friendly Letter

By T. M. Little

Dear Folks:

My reason for writing you this is to thank you for favoring us so nicely during the month of November. The purchases you made at Little's store, we hope is in keeping with what you wanted. We feel you will be interested in knowing that we always exercise utmost caution in buying our merchandise as we purchase from the very best manufacturers and wholesalers the best merchandise that can be secured. The aim of this store is to render service in keeping with our business principles to sell you better merchandise for less money. We sincerely trust your recent purchase, which we so much appreciated will render you the best of satisfaction and we hope to have the pleasure of serving you frequently. We know that the finest thing in the world is reputation that is the reason Little has been in business in Clarendon for the past fifteen years. You will naturally give us credit for realizing the importance of retaining this reputation and from this day on we are giving you a better class of merchandise than ever has been brought into this town. Take for instance in our shoe department our line of solid leather shoes, made by the best of shoe makers in the country, the wearing quality, the best that can be had and the price is in keeping with our policy, superior shoes for less price.

In our men's suit department are the unique style for the conservative as well as the young men's style. The most comprehensive assortment. Many styles, all wool suits, handsomely tailored at only \$25.00. The values remind you of the good old days of 1913-14 in keeping with economy. If you knew how much we would appreciate your dropping in and looking over our beautiful line. We want the pleasure of a visit from you the very first time you have a moment to spare. In our boys' department where most people trade we can show the most beautiful suits, the best that is made for wear and looks.

Hart Schaffner & Marx Suits

Do you know that just any old suit won't do for the boy? Fit him with a Hart, Schaffner & Marx Suit from Little's store and he will be well dressed. You will be satisfied with the quality and you will be pleased with his looks. Underwear, Hats, Ties, Gloves, Handkerchiefs, Belts, Shirts, Sweaters, Slippers, Shoes and everything to wear.

Of course you heard of the Little big store selling dependable merchandise for less money.

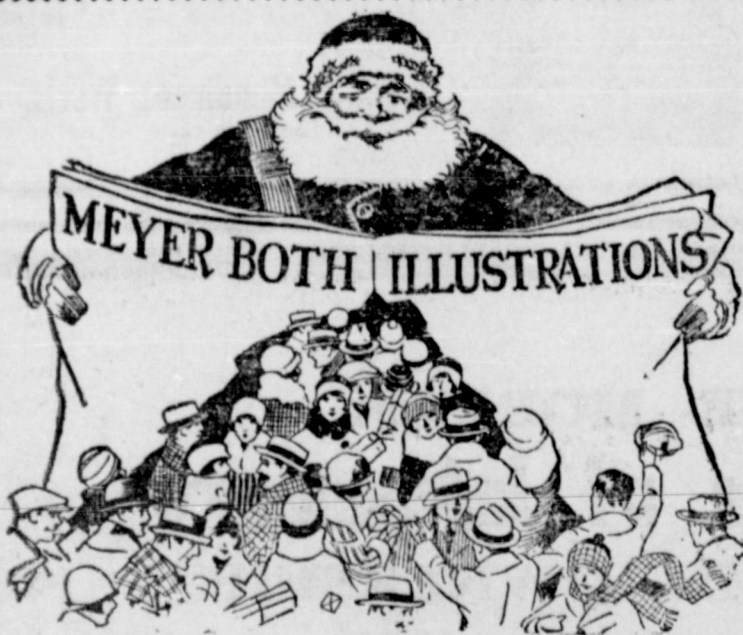

The leader of this grand old land—without doubt it beats the band, great crowds throng the building. They have the merchandise for which the masses call.

Write us phone us. Don't leave the matter hang fire—get in with the crowd to the greatest values sold in the land.

Now don't you think that it is great. All we ask is just a trial for we know you'll smile and smile.

With best of wishes. We will always try to be dependable.

Yours,
T. M. LITTLE.

Cole Boswell, salesman for the J. E. Bryant Company was removed to the hospital Tuesday of this week from the home of his uncle, A. T. Cole. His condition is reported as being serious.

Rev. and Mrs. Roscoe Stapp returned to this city Monday evening of this week after an absence of two weeks in Dallas and Fort Worth, where they attended the Baptist State Convention and the State B. Y. P. U. meeting at Fort Worth.

Gene Byrd left last Sunday morning for his home at Dumas, where he will be for the remainder of the year. He was a popular student in the college.

THAT FELLOW ACROSS THE STREET

"I've always wanted to feel that I was a real neighbor," said my new friend, as we rode to town the other morning, "and I'm going to start early with you!"

This was quite a surprise for a newcomer to spring on me. He had just moved on our street the day before. And he held out his hand to me.

"I want to be your neighbor," he

said, half-smiling, "the kind of a neighbor that slips into the back door and borrows your sugar, or card table or garden rake. Let's shake!"

And we shook right heartily. Something gripped me elsewhere, and I said: "You must have had a lot of real practice at this neighbor stuff. You're right on the job!"

He looked away for a moment, then answered, slowly:

"Yes, I once let these little things go. Twice I regretted it. Once a family lived across the street from us. They were from an eastern city, in a strange country. They didn't know a soul.

"I mentioned it to my wife—that we should call on them, but we just

but it off. You know how it is, you get rushed and time slips by.

"Well, one winter day, as I started to work, I saw a bunch of crepe on the door. It struck me like a cold knife. I went right up, as I should have done months before.

"There in that still, lonesome place sat the man alone with his grief. I tried to comfort him, but all he could say was, 'She was lonely, so lonely.' My friend sat silent awhile. He cleared his throat.

"The other time I was nasty to a neighbor's kid I caught running across my flower bed. A week later the little fellow was run over by a coal truck. I have always regretted what I said to the poor little devil. I wasn't a neighbor, a pal to him."

My new neighbor is right. We are measured by our deeds. Intending to do the thing, to be real friend and neighbor, doesn't make one a good neighbor. You have to walk up to him, hold out your hand and say, "Let's shake on it," to count. And believe me, it's the act that counts for more friendship than anything else. —Better Homes and Gardens.

ANNOUNCEMENT

We have at last moved into our new home opposite the Court House where we invite our old customers to come to see us and invite others who have not been our customers to also visit us. Many Clarendon Folks Are Showing How to Avoid Needless Suffering

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretion. Night and day alike, the sufferer is tormented and what with the burning and scalding, the attendant back-

ache, headache and dizziness, life is indeed a burden. Doan's Pills—a stimulant diuretic to the kidneys—have brought peace and comfort to many Clarendon people. Profit by this Clarendon resident's experience. J. L. Bain, ex-county judge, says: "My back was giving me trouble for I had a mean, dull ache in it. If I stooped over, I got a sharp pain. My kidneys acted irregularly, too and at night the secretions passed too freely and my rest was broken. I took Doan's Pills and they regulated my kidneys and rid me of the back-ache. I haven't been bothered since."

A. & M. TELLS HOW TO HAVE GREEN WINTER VEGETABLES

College Station, Texas, Nov. 21.—Few farmers realize the great number of vegetables that can be stored in cellars or outdoor dugouts without the expense of canning for winter use. The storing of sweet potatoes is more common than anything else, but beets, salsify, parsnips, carrots, rutabagas, turnips and Irish potatoes can be stored in the same way in pits covered with an earthen roof, and this is being preached religiously by the A. & M. extension agents on the approach of winter. The tops of the root vegetables should be cut off, then they should be placed in conical piles, covered with 8 or 10 inches of straw, hay or leaves and then with 6 or 8 inches of earth. If the weather becomes extremely cold a thick layer of manure should be placed over the pile and a sheet or some old sacks help to keep the cold out and the heat in.

HOBART TRIAL IS TO BE LONGEST EVER IN AMARILLO. IS BELIEF

Amarillo—The trial of Mrs. Ruth Hebart and E. T. Miller, charged with the murder of E. W. Hobart, promises to be one of the longest trials in the history of the county. Ninety-four witnesses have been summoned by the state and a large number are expected to be summoned by the defense. The trial of the case will begin Monday morning, December 8 at 9 o'clock and a special venire of 200 men has been ordered for that time.

The majority of the witnesses summoned by District Attorney Lloyd Fletcher reside in the county but several reside in other section of the state, including Ranger Captain Frank Hamner and Sergeant J. B. Wheatley of Austin.—News.

Miss Mary Dewel and her brother, Charles motored to Chillicothe last Thursday and ate Thanksgiving dinner with her father and sister who are in that city.

CLARENDON CHURCH IS ASKED FOR ASSISTANCE

Presbyterians in Donley County are very much interested in a Church wide program for Sunday, December 14th at which time a cash offering will be taken according to the plan of the General Assembly of the Presbyterian Church in every Presbyterian Church in the South, for additional and improved equipment in the Home and Foreign Mission Fields.

The plan adopted this year is for each congregation to be asked to contribute to a designated object and all churches in Donley County have been asked to accept in connection with this Equipment Fund the following causes: Foreign Mission Fields, Mexico Property at Uruapan and Toluca, Home Mission Fields, Church in Amarillo, Texas.

The churches in this county asked to participate in this program are the 1st Church, Clarendon of which Rev. F. T. Charton is pastor and the Hedley Church, Hedley.

HELP POSTAL EMPLOYEES BETTER LAST RECORD

The Shop Early campaign inaugurated by Postmaster General New last year proved to be an unequalled success. It was of great benefit to the people and also enables post office employees to deliver all the Christmas mail before noon on December 25. The Department again this year asks the hearty co-operation of the public in order that the record made last year may be equalled, if not excelled.

When you shop early and mail early you are helping the clerks in the post office to eat their dinners home and you are greatly benefiting yourselves. You have a greater chance to secure a better selection of gifts from the stores, you have more time to wrap them securely and you are sure that they will arrive at their destination in time to be opened Christmas morning. You are also relieving the burdens on the clerks behind the counters in the stores and you are giving a practical demonstration of the good will that Christmas time signifies. Acting Postmaster General, John H. Bartlett requests that you refrain from using small envelopes in sending your Christmas cards as this very greatly retards the sorting and distribution of the mails. Let all of us pull together this year, do our shopping early and do our mailing early, let's make it a genuine old-fashioned Christmas celebration.

Miss Oberia Hamblen arrived in the city Wednesday evening of last week with a slight attack of ptomaine poisoning and was confined to her home through Thanksgiving day and missed the ball game and all the other excitement that prevailed throughout the day. She had recovered sufficiently to return to her school in Hedley the first part of this week.

Neighborhood activities associated with the Lakeview Consolidated School, an open-country consolidated school in Michigan, include a community club, boys' and girls' clubs, Boy Scouts, Girl Reserves, a glee

club, dramatic club, athletic association, gymnasium club, and parent-teacher association, according to Edith A. Lathrop in the September number of School Life, a publication of the United States Bureau of Edu-

cation. Carl Parsons was among those who were in Clarendon for the great game last Thursday. Carl is now located at Wellington.

"HOLD YOUR COTTON UNTIL YOU GET 30 CENTS", SAYS STATE COMMISSIONER

Austin, Nov. 18.—"Hold your cotton until you get 30 cents," was the word sent to farmers yesterday by George B. Terrell, commissioner of agriculture.

All conditions, both of production and selling, indicate 30 cents is the fair and proper price for this year's crop, he said. Anything less will mean a loss to producers, he explained, as it has cost 26 cents a pound to produce the crop.

"The recent government estimate of the total crop for this year is 12,816,000 bales," said Mr. Terrell. "Granting that this estimate is correct, though it is probably 300,000 bales too high, it is still not a large crop and is only about the amount of cotton that will be consumed during the next twelve months. The crop of 1923 was 10,081,000 bales, the 1922 crop was 9,652,000 bales, and the 1921 crop was 8,000,000 bales, which makes a total production for the three years of 27,733,000 bales. The domestic consumption and exports for the three years were 34,715,422 bales, or 6,982,422 bales more than was produced during the same period of time. Will anybody contend that with a shortage of 7,000,000 bales during the last three years that 12,500,000 bales is a big crop and should cause a reduction in price?"

"Business has materially revived in Europe since the partial settlement of reparations which will cause larger exports of cotton. The captains of industry in this country have all predicted better business condition since the election of their man for president. Three-fourths of the money of the country is controlled by the Republican party and since it has a president and a congress of its political faith, it should spend money freely and revive business industries as was agreed would be done.

"These seem to be a genuine revival of business in many lines. The price of wheat and corn has doubled since the low prices paralyzed the West. The textile industry is booming and there is every indication that the price of cotton will advance. The price reached 31 cents in 1922 and 36 in 1923, and the crop is as short this season, compared with world conditions and consumptive demand, as it was in those years. This crop should have brought 30 cents from the beginning of the season, and

it is a calamity that the farmers were not sufficiently organized to demand 30 cents, and hold the crop off the market until that price was received. They have the making of prices in their hands if they will act together and receive the co-operation of business interests. "The price has materially advanced the last few days, despite the government estimate of the crop is larger than the former estimate. Recent reports sent me show that 18 or 20 cent of Texas cotton is being held for better prices. If the merchants, bankers and cotton buyers generally would hold what cotton they have on hand and protect it from weather damage, it would materially aid in advancing the prices. "M. H. Wolfe, a large cotton broker of Dallas, and others have recent-

And at the same time, to-wit, November 17th, 1924, I levied upon the remnant of cattle covered by chattel mortgage executed by the said C. T. Word and wife, Laura J. Word, Lola Word, W. G. Word, Harry Word, Millard R. Word and W. D. Word to the Commerce Trust Company, dated December 24th, 1921, said remnant of cattle so covered and described in said mortgage being about thirty-six head; and upon the following work horses, to-wit:

Seven work horses, described in said chattel mortgage as being from five to seven years old; Thirteen mares, described in said chattel mortgage as being from five to twelve years old; Twenty-two saddle horses, described in said chattel mortgage as being from four to eight years old; Four mules, described in said chattel mortgage as being from three to six years old, and branded T-T on the left side; Twenty-three work horses, described in said chattel mortgage as being from five to twelve years old; Thirteen mules, described in said chattel mortgage as being from four to twelve years old; Thirty-two saddle horses, described in said chattel mortgage as being from four to ten years of age, and branded T-T, and being on the Potter County Ranch. Also, eleven work horses, five to ten years old; five mules, five to ten years old; five saddle horses, five to eight years old; all branded T-T on the left thigh and located on the Palo Duro Ranch, and being the respective ages above stated at the time of the execution of said chattel mortgage. Also, ten mules, five to ten years old; four work horses, five to eight years old; twenty-seven saddle horses, five to ten years old; all branded T-T on the left side, and at the date of the execution of said mortgage of the ages aforesaid and then located in Donley County, Texas. Being all the work horses, saddle horses, mules and mares owned by the said C. T. Word and wife, Laura J. Word, Lola Word, W. G. Word, Harry Word, Millard R. Word and W. D. Word. And I, the undersigned, Ray Wheatley, as Special Master Commissioner, duly appointed by the order of this Court, on the first Tuesday in January A. D. 1925, the same being the sixth day of January A. D. 1925, between the hours of ten a. m. and four o'clock, p. m., on said date, at the court house door in the City of Clarendon, Donley County, Texas, will offer for sale and sell at public auction for cash, all the right, title and interest of the said C. T. Word, Laura J. Word, Lola Word, W. G. Word, Harry Word, Millard R. Word and W. D. Word in and to said property, for the satisfaction of said judgment and decree aforesaid. Dated at Amarillo, Texas, this seventeenth day of November, A. D. 1924. RAY WHEATLEY, Special Master Commissioner.
