CLARENDON, DONLEY COUNTY, TEXAS, THURSDAY, MARCH 3, 1921.

Established in 1878.

New Series, Vol. 32, No. 9.

INITIAL SALE DONLEY COUNTY SWINE BREEDERS ASSOCIATION DRAWS BIG CROWD

Forty-nine head sold to Donley County men, most of which will be foundation stock for future herds. Pig club folks are much in evidence, spirited bidding when better grades are offered.

Forty-nine head of pure bred Poland and duroc hogs sold here at public auction Saturday. This was the first sale put on by the recently organized Donley county swinebreeder's association.

For the most part bidding was spirited when the animal measured up to the proper standards. Off standards got few bids and were practically given away. Prices ranged all the way from fifteen dollars for the small fellows up to three hundred and five for one of the best. While the sale was held in the Lott barn with large seating capacity, many could not get within sight of the sale ring owing to the number attracted by the event.

One of the most surprising features of this sale was the fact that products shown by pig club boys measured right up to the standard, and in some instances, were bid in by professional breeders who were aware of the actual value of the animal being offered. Nothing but registered stuff was offered and bids from ladies added to the pleasantries that was passed during the more exciting moments. Another fact was brought to light at this sale. Donley county has some women and young ones at that—who are experts in properly judging hog value.

The first animal offered for sale was "Giant Lady," owned by R. E. Mann. As usual, the sale started with a drag. Frank M. Clark, owner of Silvercrest hog farm, took advantage of this fact and bid her in at \$85, which was less than half of her true value. W. H. Ground, a prominent plains stock-farmer, took the second prize at \$60, and a dandy good one. He also was successful in bidding in several others to add to his herd of pure bred stuff. The third offer was a sow and went to Sam Lowe, local grocer, for \$65. J. A. Sowell of Ashtola was the lucky man on number five taking her for \$27.50. Mr. Sowell is a practical farmer and knows big value like a veteran. Numbers 4 and 6 went to M. M. Mosely, accredited with being one of the best farmers in the county. Anyhow, he got two mighty good sows for little more than sixty dollars. J. F. Waldron bid in number 7 at \$42.50. This was a bred gilt and her pigs will pay for the mother and then some. Number eight went to W. H. Ground at \$38 and number 9 to J. W. Avtry for only \$26. At this point Tom Taylor got interested in better stuff and took number 10 away from the other bidder at \$62.50. This was by number one was put on the block, far the best sow shown since

Number 11 became the property of Milt Allen by a narrow margin at \$60. H. Stogner had been waiting for something to hit upon to this time and rat up and got interested when number 12 was run into the sale pen. She was a yucky red Duroc bred by H. Hogard of Hedley and was in the pink of condition. Mr. Stogner kept the bid going until he captured the prize at \$50. The next two were small fellows, barely old enough to make their "daboo" in the sale ring but found ready bidders even at that age. The first went to Ben Bentley at \$32.50 and the second to Roy W. Hendrix, county agent, at \$26. Both were of the Duroc breed but showed up well. W. L. Butler, veteran breeder, bid in 16 and 17 at \$15 each. The average man found fault, but Butler knew what they were worth and made a good investment on his judgment.

E. P. Berry took advantage of the temporary lull in the bidding at this time and got the next two offered at \$30. Both fall pigs and well worth double the price paid. A. O. Hefner was the lucky man when number 19 came into the ring, getting her for \$31. Still in the pig class but a good looker and made of the right sort of stuff that makes for real money when the age is added.

Up until this time only small hogs had been offered and when "Queen Mastodon" stepped into the ring, the crowd cheered with delight. Ponderous in size and with markings that classed her with royalty, the bidding was spirited right from the go. Col. Tom Morrison was crying sales at this time and for that reason was accused of treachery when he knocked off at \$107.50 just as Miss Minnie Leaks announced her bid. The first successful lady bidder and an enthusiastic pig club girl at that. Numbers 24 and 25 went to Roy E. Stogner, secretary of the association, and

the next to enter the ring. Both beauties and looking their best. M. M. McCracken won both on a bid of \$45 each. Numbers 23 and 24 were the next money makers to seek a new owner. C. H. Wisdom, head man of the local Denver depot crew was the lucky man in this instance, taking both sows for \$82.50.

Number 25 showed up next with good markings, smooth surface and appealed to Oscar Stanford as being a good investment at \$30. He got a bargain and remarked that when he could buy pure bred stuff at the same price he could sell scrub stuff for such as he had been raising, it was time to purchase some real foundation stuff and he got it too, when he bid in "Kathie 2nd." The next three offered were taken by W. A. Bulard of Lelia Lake, well known dealer of swine in his locality. When numbers 29 and 30 were run into the ring bidding was slow because of the size. No one seemed to realize the fact that they were real young stuff unless it was Frank M. Clark, and he got the both for \$56. W. L. Richards took No. 31 for \$41 and Jim Shaw, a piggy pig club youngster, bid in 32 at \$50 even up. W. H. Grounds landed on 33 with a successful bid of \$40 and Oscar Stanford again won big money when he got No. 34 for only \$27. Jim Darnell took the next offered, a boar of excellent promise at \$35.

Number 38 and 39 were Durocs owned by Nat S. Perrin and seemed to meet with popular favor. No. 38 was taken by M. J. Nix for \$30 and 39 went to Robt. Rundell for \$36. The next was bid in by John Clymer and was a boar pig of fine blood lines and markings that placed him in the class of royalty. The price was only \$15 for the pig and was one of the best bargains of the day according to professional breeders.

When number 42 was introduced cheering immediately began among the professionals and others joined in hardly knowing just what the fuss was all about. No. 42 proved to be "A Sidney Bob," son of one that sold to Ludwig Irlbeck of Happy, Texas a short time ago for "only" \$5,000.00. His markings were almost faultless and bids climbed rapidly until the \$305 mark was reached. Everett Mann of Hedley was the successful bidder. He is out of a litter of 11 that sold for over \$1,500.

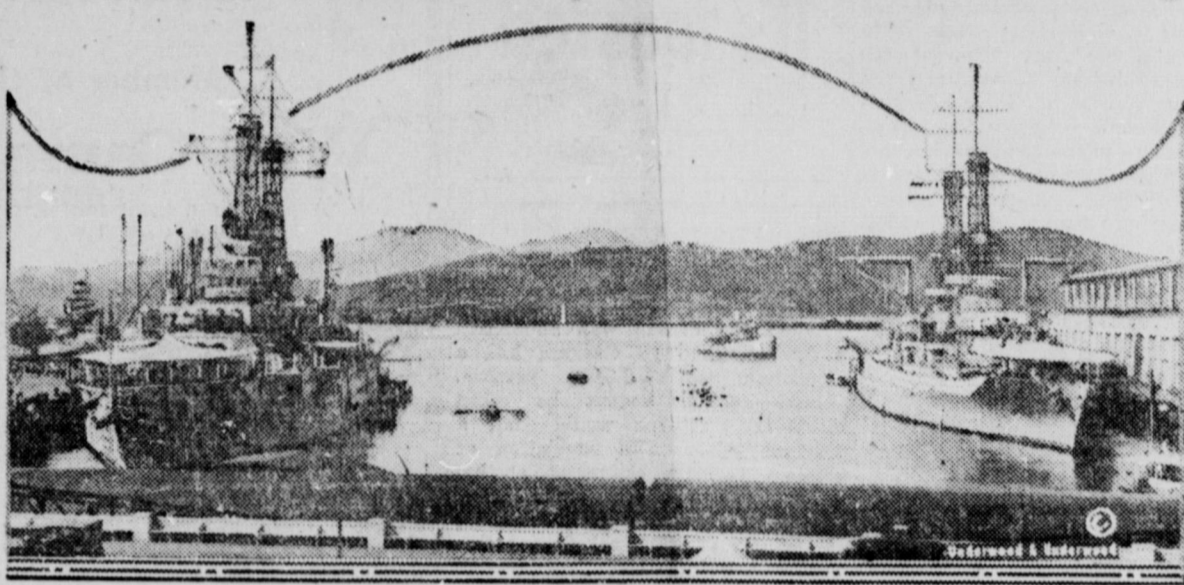

E. M. Oiler took No. 47 for \$20. Nos. 48 and 49 were taken by T. L. Taylor for \$20 each. All three of these were late fall pigs. The next two pigs went to Atkins and Alvin Mace of Lelia Lake, both pig club boys of promise and of the kind that make good. Oscar Stanford again got in some work capturing a boar of royal breeding for \$15, the only a pig. The last was taken by E. P. Berry for \$13. Not much money when you read it in cold print. Mr. Farmer, but think how easy you could beat a cotton crop raising pigs and selling them at only \$13. Almost the price of a whole bale of cotton as sold on our street here Wednesday of this week.

One notable feature of the sale was the fact that these hogs are still in Donley county. Foundation stuff that lift mortgages, build homes and make a deserving people prosperous and happy. From a financial standpoint, the sale was not a howling success. The animals offered were contributed by members of the association for the purpose of encouraging the public to breed better stuff. The desired results were obtained and those backing the movement are satisfied.

M. B. Oates, agricultural agent for the Denver road spoke before the sale began emphasizing the importance of the farmer giving more attention to the "sow, cow and hen." Fred Chamberlain, active vice president of the Donley county bank vouched for the fact that funds were not lacking for the responsible purchaser of pure bred hogs. Roy W. Hendrix, county agent, spoke at length on pig clubs. Col. Tom Morton of Oklahoma City and I. S. Jamison of Pampa were the auctioneers. The association will hold another sale later in the season and on an enlarged scale. The "hogway" is gaining "headway" in old Donley county.

W. C. Bridges, leading sweet potato grower of Hedley, was in town Wednesday to get a license for the curing plant proposition.

Two Great Battleships in the Balboa Docks

The mighty battleships New Mexico (left), flagship of the Pacific fleet, and Mississippi at the Balboa docks immediately after their arrival, awaiting the Atlantic fleet. Both fleets united at Balboa and sailed for a cruise to Peru and Chile.

PATHFINDER CLUB WILL HOLD STYLE SHOW MAR. 17TH

PATHFINDER CLUB WILL STAGE GRAND DISPLAY OF LATEST FASHION DECRES IN READY-TO-WEAR.

Announcement is made this week that Donley county is to assume her share of Panhandle style show entertainment, and the Pathfinder club of this city has assumed that responsibility, and if it is in the power of a willing, whole-soled, energetic citizenship to make a record, it will be done on March 17th. The display will be held in the opera house beginning at 7:30 p. m.

The stage will be beautifully decorated with flowers and plants contributed by the Clarendon Plant & Floral company. Local furniture dealers will contribute the necessary furnishings, for the convenience and proper stage display to best effect.

Displays will be made in groups with entertaining specialties between display groupings. Miss Myrta Hook will have charge of the stage management for the evening.

Living models will be used to display all exhibits. This display of handsome femininity, combined with beautiful floral and decorative effects, will present a gorgeous display of splendor and beauty unsurpassed at any style show held in the history of the Panhandle. The display within itself, will afford an excellent opportunity for the ladies of refinement to view the latest in the fashion world and the most beautiful effects of the weaver's art of the present day.

Mere man will also be induced to present himself at the place and time announced above to view at first hand the finest product of the blending of finite and infinite art. Such displays as this have been made in a number of Texas towns the past few weeks with varying success. Just what we will reap from this effort, depends all upon the amount of energy and skill invested.

The Pathfinders club is staging this style show for the benefit of the Parent-Teachers Association, and for the purpose of securing funds with which to furnish one of the rooms of the "Y" building. The exhibit will be properly advertised and every inducement made to interest people to come from nearby sections. The Pathfinder club has always made a success of every effort, and this will be numbered among the biggest things ever staged by the club. That it will be a huge success is beyond question.

BALDWIN-RICHARDS
The marriage of Rodney Baldwin and Miss Willie Nell Richards occurred in McLean Tuesday of this week, being the culmination of a courtship beginning as childhood sweethearts. The ceremony uniting this young couple was performed by Rev. D. J. Osborne in the Methodist parsonage.

BUSINESS MEN'S LUNCHEON HAS NEW PLANS

DIVIDED INTO FOUR GROUPS. BUSINESS MEN WILL SPREAD GOSPEL OF GOOD CHEER AND ENLARGE SCOPE OF ACTION

One of the most valuable assets and therefore the best advertisement a town may have is a spirit of active co-operation upon the part of the business and professional men. The Tuesday business men's luncheon of Clarendon is all that and then some. It is an exponent of greater possibilities backed by men who dare and do. This factor in our weekly program at once appeals to the public and advertises that fact to the public luncheons where the many perplexing problems are worked out for the greatest good for the greatest number. Selfishness is relegated to the background and good cheer drives dull cares away as men mingle and plan for the betterment of our home town. It is a worthy plan of action which any town will do well to emulate.

This idea has been in practice here for some time and the weekly dates have been changed to a bi-weekly schedule only to be changed for the old plan of getting together once each week. This event is looked forward to with delight by the membership. Each program is preceded by a meal that never fails to satisfy and put the diner in proper mood for action.

Tuesday of this week was no exception. After an unsurpassed spread prepared by the good ladies of the Christian church in the basement of their handsome new building, business matters were entered into with enthusiasm. It was at this meeting that the matter of a dry curing potato plant had its inception. It was here that representatives met with our business men Tuesday of this week and proposed a new plan of action that seems to meet with popular approval. A committee composed of R. A. Long, acting as chairman; and Rev. Sam J. White and Sam M. Braswell, was appointed to confer with C. R. Taylor representing the firm proposing the new idea. That committee was to meet within about two hours and were ready for the conference at the appointed time. The matter was put over so far as the committee was concerned. These representatives of the business interests of the town assured Mr. Taylor that the plant could not fail on account of any lack of interest of the business men. Quick action and decisive action was desired and delivered.

Toastmasters for each Tuesday of this month were appointed as follows: March 8th, Rev. Sam J. White; March 15th, H. Mulky, Mar. 22nd, W. H. Foster; March 29th, R. A. Long. These men compose a committee that will meet today (Thursday) to divide the membership into four groups. The group selected will have charge of the program at the meeting when the captain of that group will act as toastmaster. Each member of the group is required to bring a visitor with him on the day that his group has charge of the program. This is a new plan with a fine prospect and will be continued if found effective.

BALDWIN-RICHARDS
The marriage of Rodney Baldwin and Miss Willie Nell Richards occurred in McLean Tuesday of this week, being the culmination of a courtship beginning as childhood sweethearts. The ceremony uniting this young couple was performed by Rev. D. J. Osborne in the Methodist parsonage.

The bride is the accomplished daughter of Mr. and Mrs. G. M. Richards of this city and is possessed of a most pleasing personality. Having grown to womanhood here, she is well known and enjoys the association of a host of friends. The groom is a son of Mr. and Mrs. Chas. Baldwin and grew to manhood here, having been associated with his father in the mercantile business since early childhood. His industrious habits and strict attention to business and courteous manners enables him to enjoy a wide circle of friends who join with the News in wishing this prominent couple a happy journey through life.

FARM LOAN ACT MEANS MUCH TO HOMEBUILDERS

FARMERS AND STOCKMEN ALIKE WILL BENEFIT BY RECENT DECISION OF SUPREME COURT SAY FINANCIERS

The Supreme Court decision rendered Monday declaring the Federal Farm Loan act valid means thousands of dollars in cheap loans to farmers and stockmen of Donley county if they get busy at once with applications for land loans.

This matter has been tied up for several months thus closing the doors of opportunity to thousands and jeopardizing the existence of former loans made when the law first became effective.

Millions of dollars in loan applications have been held up pending this decision which was brought by Charles W. Smith, a stockholder in the Kansas City Title & Trust Company, who sought an injunction to prevent the company's investing in bonds issued by the farm loan banks. The act was attacked on the grounds that Congress had no constitutional authority to establish farm loan banks and to exempt such bonds from taxation. This allegation was made despite the fact that Chief Justice Marshall had passed upon this authority of congress.

Of the nine justices of the Supreme Court, six concurred in the decision. Two held that the court was without jurisdiction, and one, Justice Brandies, was absent. Since two thirds of the members passed upon the matter favorably, Farm Loan banks may now begin operation at once.

It was alleged that some of the larger loan companies attacked the act on the mere technicality that federal farm loan mortgages were exempt from federal, state and municipal taxation.

An appropriation of one hundred million dollars was made recently with which to purchase securities of the Federal Land Bank. A previous appropriation of one hundred and eighty million had been expended up to the time that loans were withdrawn.

Viewing the present financial stringency, this decision means that millions of dollars are now available for the man of small means at a low interest rate. It means relief for the local banks that have been taxed to the limit to take care of their customers. It takes a little time to get the loan through hence it behooves those who desire a loan to act at once and learn something of the requirements and make application without delay in order to get a chance at the present appropriation.

POTATO CURING PLANT DRIVE ONE STEP NEARER GOAL WHEN NEW PROPOSITION IS MADE

STRONG COMPANY PROPOSES TO FINANCE OVER HALF OF SUM NECESSARY TO INSURE INSTALLATION OF THE PLANT. BUSINESS MEN MEET REQUIREMENTS. NOW UP TO THE FARMERS FOR DECISION. LARG ACREAGE REQUIRED TO SUPPLY DEMAND.

SHRINE CLUB CELEBRATION STAGED WEDNESDAY NIGHT

On Wednesday night at 7:30 the Clarendon Shrine Club was entertained by seven of its members putting on a free feed at the Masonic dining rooms, these seven men being Harry Silner, R. H. Beville, Dick Walker, John Hunt, Fred Buntin, Allen Beville and Sam Braswell.

After feasting most sumptuously, President John Blocker called the business session of the Club, and it was voted to apply to Khiva Temple at Amarillo for a club charter and committees were appointed to draft a constitution and by laws, Sam Braswell, Tom F. Connally and R. H. Beville being the committee appointed.

It was decided to hold a barbecue and picnic at a later date for the club and entertainment of invited guests from out of town when the charter is granted and delivered. Proper committees for this occasion were appointed and are getting to work.

After the business session the meeting was thrown open and a story telling contest was held, and for two hours wit and humor held sway, laughter brushed away dull care, and the Nobility held their sides at the stories and jokes related to them. The dignity of the most august noble present was not spared, and sanctimoniousness had no place on the program.

The "cats" and fun will long be remembered by the Nobility. The requisite for admittance to the occasion was the red fez and a smile, as stated in the invitations, and each Noble brought his'n.

COLORADO-TO-GULF HIGHWAY MAN VISITS HERE THIS WEEK

Floyd W. Walker, publicity agent of the Colorado-to-Gulf highway association spent some time here this week conferring with local road enthusiasts and getting matters shaped up for the tourist season near at hand.

Mr. Walker has worked from Trinidad, Colorado down to this place and will continue on to Galveston, the southern terminus of the highway. He found the roads good in Colorado and through northern New Mexico, being hard surfaced where necessary and in excellent passable condition. The Highway through Hartley, Moore, Potter and Armstrong counties are receiving attention from the county commissioners at this time. Armstrong county has petitions out now calling for a special road bond election. Mr. Walker was surprised to find the roads in Donley in poor condition in view of the wide publicity given this county otherwise. He states that the road west of town is almost impassable. This is quite true as we all know and the road east is no any better until the line of Childress is reached. It is hoped that our county commissioners will take steps immediately to place our section of the highway in a condition in keeping with adjoining counties before tourists travel begins thus saving our reputation as a progressive citizen body.

Mr. Walker has completed data for a strip road map from Amarillo to Raton. These maps are free to tourists and local people may have their needs supplied at the office of the local chamber of commerce. Free camping grounds and other conveniences have been provided along the route in many places. The tourist travel this season will no doubt be increased very materially owing to increased passenger fare.

JONES COUNTY RANCHMAN HAS INTERESTING PRESERVE
One of the most interesting private game preserves in the United States is owned by R. V. Colbert consisting of twelve thousand acres some twenty miles east of Stamford. The preserve is well stocked with a large herd of buffalo that is increasing rapidly. The preserve is fenced in with a strong enclosure fastened to iron posts firmly imbedded in concrete. With the buffalo ranging at will are deer and wild turkey. No one is allowed inside the enclosure, not even the owner himself according to his rule. Nothing is slaughtered that each may replenish in time parks and preserves with fowl and animals now almost extinct.

CARD OF THANKS
In our great sorrow in the sickness and death of our little one, friends and neighbors alike assisted in every manner possible to alleviate our sadness. Never before did we come to realize the true worth of those who are near us. Our sincerest thanks are cordially invited. Bishop Temple is a gifted speaker and many will no doubt avail themselves of this opportunity to hear him.

LOW FIRE INSURANCE RATE CONTINUED IN CLARENDON
According to advices received by local insurance men this week, the fifteen percent reduction in fire insurance rate granted here last year is made possible because of year will continue in effect. This the excellent fire record maintained.

With a proper fire fighting equipment and adequate water supply, the rate would be further reduced very materially. That this matter will be remedied in due time is an assured fact if the wishes of the citizen property owners is any inducement for such an expenditure. In fact the City commission is working to that end at the proper time with all the means at their disposal. The city well promises a sufficient supply and drilling has been stopped. The establishment of a reservoir of commensurate capacity will no doubt be the next undertaking. That we have had no serious fires to date is a miracle. The present fire squad under the direction of James Trent, has done some very effective work even with the limited equipment and inadequate water supply.

Cleveland Hayter, local realty man of this city, became the owner of the J. A. Conner farm of 160 acres, two miles east of Lelia the last of the week in an exchange of city property here and in Amarillo.

Mrs. Frank Whitlock is a patient in the local hospital this week.

 THE AMERICAN PRESS ASSOCIATION

MRS. R. PHILLIPS.

Her many friends will be grieved to learn of the death of Mrs. Sam M. Braswell's mother, Mrs. R. Phillips, which occurred at the family home in Rotan, Texas, Tuesday. Interment was made Wednesday. Mrs. Braswell was with her mother in her last moments, having been called there early last week. Mr. Braswell and the children left for Rotan immediately upon receipt of the death notice Tuesday night.

YOU AND ROBINSON CRUSOE

One of the most persistent advertisers in the history of success was Robinson Crusoe. He knew what he wanted—a ship—and he put up an ad for one. He hung a shirt on a pole at the top of his island; that in the language of the sea, was plain to every seafaring man. The circulation was small, but there was no other medium, but Crusoe kept at it, despite the fact that he got no inquiries for a long time. In the end he got what he wanted, was happy and his name and fame have come down through the ages.

Suppose Robinson Crusoe had taken down his signal after a year and declared "advertising doesn't pay?" would he be and his story be now? Or suppose something had whispered in his ear: "No use, Robinson, these are pretty hard times. Nobody is buying or sailing any ships while money's so tight. Beer cut out your advertising until times get good again?"

Advertising now and next month and keep it there. See the News and arrange for a space for your ad each week. It will pay you larger than any other investment.

ADVERTISING IN THE COUNTRY WEEKLY

Advertising in the country weekly is the most valuable advertising in the world. Expert advertisers say it is not only the most valuable but the most scientific advertising in the world. Advertising in the magazines has to be general, for the reason that the average magazine that you receive today was set in type several weeks ago, and the advertising copy was probably prepared several weeks before that. This means that advertisers in the magazines have to anticipate conditions several weeks in advance of the time the copy is prepared. This is not so with advertising in the

country weekly, for the country weekly has the advantage over the magazine in that the weekly circulates in a comparatively small territory and the name of the merchant or the business man who is selling the goods can be placed in the advertisement. This is impossible in magazine advertising, which sometimes covers the whole nation.

The weekly newspaper is also considered the best advertising medium in the world by expert advertisers for the reason that it has a more intimate association with the family than the magazine or a daily paper.

No local merchant can afford not to advertise in weekly newspapers of better class. It is a sad commentary upon small town business men that they do not see the advantages to them of carrying an advertisement in the small town paper every single week. Such an advertisement is the cheapest salesman that the merchant can employ. The money spent in advertising in the better class of weekly newspapers is an investment and not an expense; and it is the best paying investment that a merchant can make; but not one in a thousand publishers of the weekly papers is compensated anywhere near what he is worth to the community in which he lives, and to whose interests he dedicates his life. Every editor of a weekly newspaper is constantly working in behalf of every merchant in his community, whether merchant patronizes the local paper or not; but every merchant does not have the business common sense and the business foresight to see that it is to his own personal advantage to help support the country editor by advertising—telling the people in the newspaper what he has, how it can be used and what it costs.

GOVERNOR DESIGNATES TIME OF CLEANUP WEEK

A state-wide clean-up campaign is to be conducted, according to Dr. Manton M. Carrick, State Health Officer, upon the conclusion of this campaign, the cities and towns of the State will be inspected and rated according to their sanitary condition. This rating will be filed with the State Board of Health. Texas must be the cleanest State in the Union," declared Dr. Carrick in an interview today. "We shall be content with no halfway measures of sanitation in this campaign, but expect to give Texas a thorough spring house-cleaning."

By special proclamation, Governor Neff has set aside the week beginning March 13th as Health Week, and telegrams from towns over the State, promising co-operation, are already being received by Dr. Carrick. The Campaign for better sanitary conditions will be conducted on a larger scale but along the same lines as the "Cleanup Campaign" of several years ago. "Each town and city of the State will realize the importance of such a campaign I am sure," said Dr. Carrick, "for it will give them a definite status with the State Board of Health. We are constantly receiving from persons interested in locating in a new community, inquiries as to the sanitary and health conditions of the place. After the sanitary inspection has been made, we shall be able to answer them by quoting the sanitary rating of the particular town or city in question. It is easily seen what effect a low rating will have upon the increase in population of a community."

Literature on how to conduct a campaign is to be sent to the citizens of the State by the State Board of Health, prior to the official opening of the campaign. Dr. Carrick suggests that every

community perfect a strong committee organization before beginning the actual work of cleaning up, and that the aid of the children of the town be enlisted. A separate committee should be formed to handle each sanitary problem and it is expected that the Womens Civic Clubs will take the initiative.

"To have a clean city, it is absolutely necessary that every lot and building, each street and alley, be clean," declared Dr. Carrick. "The streets of the town must be free from rubbish; every town should work toward a sewer system and should see that there is a sanitary disposal of sewage, for this is one of the most dangerous sources of diseases. The garbage can of the home is also a menace unless properly constructed and frequently cleaned. Not only 'Swat the Fly' but 'Prevent the Fly' is to be our slogan, and the breeding places of these dangerous creatures manure, garbage, and dump piles—are to be attacked vigorously. The same is true of the malaria-and-yellow-fever-bearing mosquito. We shall see to it that his birth-rate is decreased. The milk and water supplies of our State are to be subjects of careful inspection in our campaign for sanitation. We are going to do away with the insanitary handling of food by a thorough inspection of slaughterhouses, dairies, grocery stores; all that can be kept under glass will be put there, and no person suffering from a communicable disease will be allowed to handle food for sale. The local committees on housing will see to it that all public buildings are clean and properly ventilated; particularly are school buildings objects of concern. And there will be a mighty war waged on the death-bearing rat. One whole day of Health Week will be devoted exclusively to the eradication of this pest in every community in the State. At the close of our campaign," said Dr. Carrick in conclusion, "we shall see an increase in civic pride and civic sanitation that will extend to each and every corner of Texas."

POPULATION HAS INCREASED DURING THE LAST FEW MONTHS

When the census was announced a few months ago Graham had a population of 2,544 persons. Should another census be taken today the returns would tell a different tale. The population of Graham is now estimated at between 5,000 and 6,000 inhabitants.

From a peaceful town nestling at the end of the Rock Island this city during the last few months has become the scene of feverish and bustling activity. The boom has been growing steadily, gaining in strength and momentum each day. Even the most conservative persons estimate that Graham will soon outstrip both Breckenridge and Ranger and run Wichita Falls a close race. Graham is already a city in the nucleus and possesses an excellent water supply and sewerage facilities.

March 20, the date set by Chief Engineer McFarland for the completion of the Wichita Falls & Southern will mark a new era in the history of the city, as also will be the completion of the Hamon road that is being extended from Breckenridge into Graham. This, joined with the scores of substantial business enterprises that are coming here, is expected to make this a city of 25,000 within the next two years.

With three strong banking institutions, wholesale grocery houses, machine shops, excellent hotel facilities, good merchandising establishments, lumber yards and a group of men who are determined to build a city, Graham is hopping off at a good pace calculated to be a winner in the end.—Graham Leader.

POLISHING SILVER

The extra supply of silver should be kept in chamois or cotton flannel cases, stitched in pockets just wide enough for the knives, forks or spoons they are to hold. Sugar bowls, cream pitchers, cake baskets and other large pieces may be wrapped in cotton flannel, if you do not have a bag for each piece. They will not become tarnished or scratched when cared for in this way. They should be thoroughly dry before they are put away, and a few pieces of camphor gum kept in the drawer or box with the silver, helps to keep it bright.

To many a housekeeper the weekly polishing of the silver is a task to be dreaded, and the larger pieces are put away and used only on special occasions, because of the work it takes to keep them looking well. One silver polish after another is tried, hoping to find something that will lighten the work, but each piece must be cleaned and polished separately. There is an easier way, however, the whole silver service can be cleaned in a few minutes, just as effectively as if it had been subjected to several hours of hard rubbing. All the silver that needs cleaning should be put in an aluminum or enamel-lined pan and covered with a strong soda made by dissolving gold dust washing powder in hot water. Set the pan on the stove and allow the water to boil ten minutes, then lift them out with a wire spoon, and put them in a pan of hot rinse water. Take one piece at a time from the rinse water, and rub briskly as you dry it. Silver cleaned in this way will be bright as new, and there is no danger of rubbing off the silver plating as there is when using silver soap or powder.—E. J. C. in Vernon Times.

DR. ARONOVICH CLEAN UP COMMANDMENTS

- 1 Love your neighbor's lot as you do your own; but be sure to love your own.
- 2 Don't plant tomato cans and rubbish on unused land; their fruits are withered civic pride.
- 3 Don't allow yourself or your city to create dumps. Waste can be made to pay for its own destruction at a profit.
- 4 Don't allow tumbled-down buildings to stand on valuable land; they are financially wasteful, they create filth, invite vice and are a menace to life.
- 5 A fence that has ceased to be a fence and has become an offense should be repaired or destroyed.
- 6 Two gardens may grow where one dump has bloomed before.
- 7 School gardens are valuable adjuncts to education and recreation. They can be cultivated on an open lot.
- 8 Let the children play on the unused land, so they may become strong and keep out of the hands of the law.

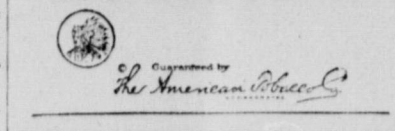

An exchange asks, "Where in the deuce does a girl get vaccinated now so that it won't show?" On the ear, brother; that's about all of the modern girl's person not exposed to view these days, we as a woman, regretfully admit. The short skirts and V-shaped necks, as some wear them, would make Mother Eve not only hide but commit suicide.

It is said that in some Texas cities the girls are wearing 'em thick enough, or else with sufficient color to hide such signs as vaccination marks. It is really not best to vaccinate in the ear, for some day this will be exposed to a husband the young lady selects.—Richardson Echo.

The artistic display at the Styer Show will be a treat. Don't miss it. (10c)

POPULATION HAS INCREASED DURING THE LAST FEW MONTHS

When the census was announced a few months ago Graham had a population of 2,544 persons. Should another census be taken today the returns would tell a different tale. The population of Graham is now estimated at between 5,000 and 6,000 inhabitants.

From a peaceful town nestling at the end of the Rock Island this city during the last few months has become the scene of feverish and bustling activity. The boom has been growing steadily, gaining in strength and momentum each day. Even the most conservative persons estimate that Graham will soon outstrip both Breckenridge and Ranger and run Wichita Falls a close race. Graham is already a city in the nucleus and possesses an excellent water supply and sewerage facilities.

March 20, the date set by Chief Engineer McFarland for the completion of the Wichita Falls & Southern will mark a new era in the history of the city, as also will be the completion of the Hamon road that is being extended from Breckenridge into Graham. This, joined with the scores of substantial business enterprises that are coming here, is expected to make this a city of 25,000 within the next two years.

With three strong banking institutions, wholesale grocery houses, machine shops, excellent hotel facilities, good merchandising establishments, lumber yards and a group of men who are determined to build a city, Graham is hopping off at a good pace calculated to be a winner in the end.—Graham Leader.

POLISHING SILVER

The extra supply of silver should be kept in chamois or cotton flannel cases, stitched in pockets just wide enough for the knives, forks or spoons they are to hold. Sugar bowls, cream pitchers, cake baskets and other large pieces may be wrapped in cotton flannel, if you do not have a bag for each piece. They will not become tarnished or scratched when cared for in this way. They should be thoroughly dry before they are put away, and a few pieces of camphor gum kept in the drawer or box with the silver, helps to keep it bright.

To many a housekeeper the weekly polishing of the silver is a task to be dreaded, and the larger pieces are put away and used only on special occasions, because of the work it takes to keep them looking well. One silver polish after another is tried, hoping to find something that will lighten the work, but each piece must be cleaned and polished separately. There is an easier way, however, the whole silver service can be cleaned in a few minutes, just as effectively as if it had been subjected to several hours of hard rubbing. All the silver that needs cleaning should be put in an aluminum or enamel-lined pan and covered with a strong soda made by dissolving gold dust washing powder in hot water. Set the pan on the stove and allow the water to boil ten minutes, then lift them out with a wire spoon, and put them in a pan of hot rinse water. Take one piece at a time from the rinse water, and rub briskly as you dry it. Silver cleaned in this way will be bright as new, and there is no danger of rubbing off the silver plating as there is when using silver soap or powder.—E. J. C. in Vernon Times.

The Time To Build

- because the prices of materials are down to their lowest possible level.
- because efficient workmen can now be had.
- because soon the 1921 building boom will start and the old law of supply and demand will push up costs.
- because we can furnish plans and service that mean the most home value for your dollar.

MUSIC HATH CHARMS

Do animals like music? The effect of it on various wild creatures, says the Philadelphia Public Ledger, was recently studied at the London Zoological Gardens. For the most of the tests a violinist supplied the music. Whether tarantulas listened or did not listen could not be determined; they remained unmoved and sulky. Not so the scorpions; after a few notes, they became agitated and writhed and danced tumultuously; their excitement increased with every crescendo and decreased with every diminuendo.

In the reptile cages the effect was more marked. The monster lizard listened and swayed; the black snakes were attentive and started up and hissed. A boa crept as close as possible to the instrument and seemed enraptured. Of all the snakes the cobra is said to be the most susceptible to music; the specimen at the Zoo did not believe the reputation of its kind. On hearing the violin it raised itself on its tail in the traditional attitude, spread its hood and swayed gently to and fro.

The polar bear stood up at the front of its cage to listen and showed much pleasure. The wolves snarled and covered in fear, with their tails between their legs. Their hair bristled, and their bodies quivered with fright. The foxes and jackals acted in the same way.

The elephant did not care for the music; on the contrary it trumpeted and snorted with rage. Some of the monkeys listened eagerly, with nods and gestures of appreciation; others scowled and turned away in disgust. After the violinist, players on the piccolo annoyed, frightened or ed. As a rule, the shrill notes of the piccolo annoyed, frightened or enraged the animals whereas the softer tones on the flute soothed and pleased them.—Youth's Companion.

PASTOR'S SUBJECT PROVES DRAWING CARD SUNDAY NIGHT

The subject of the pastor of the Christian church for last Sunday night was "Dr. Jekyll and Mr. Hyde." The church was crowded early owing to the eagerness of the public to hear the discussion of this subject by the talented minister, Sam J. White. The subject was handled in his usual affable manner with a beautiful mixture of oratory, and poetical effect most pleasing to those who had gathered for the feast of words and flow of wisdom.

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist. This sulphur preparation, because of its germ destroying properties, never fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

Let's Take a Lesson From Washington

Courage and determination enabled Washington to triumph over difficulties that seemed insurmountable. The anniversary of his birth which we celebrated this week, is a good time to take unto yourself new courage and greater determination. In times like these, the man who lacks these attributes must make way for the man who has them.

PRODUCTION OF HATCHING EGGS

Hazards which sometimes accompany the incubation of eggs are largely avoidable. Fertile eggs from vigorous breeding stock are necessary in order to obtain good hatches.

Free range for the breeders is most desirable for the production of fertile eggs with vigorous germs, but all eggs produced from such hens should be used for incubation. Eggs that are abnormally small and poorly shaped or those having thin or very poor shells should be eliminated. Dirty eggs or badly spoiled ones should not be used. If it is found necessary to set slightly soiled eggs they may be cleaned by rubbing lightly with a damp cloth, care being taken not to rub off any more of the natural bloom than is necessary.

It is never advisable to use for hatching eggs that are more than two weeks old. In freezing weather eggs should be collected two or three times a day so as to prevent their being chilled. Neither a hen nor an incubator will hatch chicks from eggs containing weak germs or from those which have not received proper care.

In preparing the nest for the sitting hen, it is recommended to put from three to four inches of damp earth or a piece of grass sod in the bottom of the nest before the nesting material is put in to provide moisture. When the hen becomes broody, and before she is transferred to the nest for sitting, she should be dusted with insect powder or sodium fluoride. In doing this, hold the hen by the feet with the head down, working the powder well into the feathers. This should be repeated about the eighteenth day of incubation so as to be sure there are no lice present when the chicks are hatched.

The hen should be moved at night from the regular laying nest into the nest where she is to be set. The latter nest should be in some out-of-the-way place where the hen will not be disturbed. In order to make sure that the hen will continue to stay in the new nest, she should be started with one or two china nest eggs. If,

at the end of the second day, when the hen should be permitted to leave her nest for food and water, she returns in a short time, the nest eggs may be replaced with the eggs that are to be incubated.

Throughout the period of incubation the eggs and nests should be kept clean. Sometimes it will be necessary to change the nesting material. Eggs should be tested twice during the incubation period, preferably on the seventh and fourteenth days, and all infertile eggs and those with dead germs should be removed. When the eggs begin to hatch, the hen should be confined and not disturbed until the hatching is complete. If she becomes restless remove the chicks as they are hatched and keep them in a warm place until the hatch is complete, when all should be returned to the mother hen.

Copies of a bulletin on "Hatching Eggs" may be had free by writing the United States Department of Agriculture, Washington, D. C., and asking for a copy of Farmers' Bulletin No. 1106—American Poultry Journal.

CITATION IN PROBATE

THE STATE OF TEXAS, To the Sheriff or any Constable of Donley County—GREETING: YOU ARE HEREBY COMMANDED to cause the following citation to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the citation in the County of Donley, State of Texas, and you shall cause said citation to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

CITATION IN PROBATE THE STATE OF TEXAS, To all persons interested in the welfare of Walter Henry Swain, minor, On the 10th day of February A. D. 1921, the Honorable W. T. Link County Judge of Donley County, Texas, made an order appointing Leonard C. Parker temporary guardian of the estate of the above named minor, which said order is now recorded in the Probate minutes of said Court, said

minor having an estate of the probable value of \$3,000.00, consisting of interests in land and personal property.

All persons interested in the welfare of Walter Henry Swain, are hereby cited to appear before the County Court of Donley County, Texas, at the Court House in the town of Clarendon, Texas, on the 7th day of March, A. D. 1921, the same being at a regular term of said Court, then and there to contest such appointment if they so desire, and that if such appointment is not contested at such term, then the same shall become permanent.

HEREIN FAIL NOT, But have you before said Court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

WITNESS my hand and official seal, at Clarendon, Texas, this 11th day of February, 1921, W. E. BRAY, Clerk County Court, Donley County, Texas, By S. Hightower, Deputy.

I HEREBY CERTIFY that the above and foregoing is a true and correct copy of the original writ now in my hands.

J. H. RUTHERFORD, Sheriff, Endorsed:—No. 331. In County Court Donley County, Estate of Walter Henry Swain, Minor. Citation in Probate. Issued 11th day of February, A. D. 1921, W. E. Bray, Clerk. By S. Hightower, Deputy.

Willard Batteries

Five Threaded Rubber Reasons

1. Willard Threaded Rubber Batteries are standard on 172 makes of motor cars and trucks, and on expert models of 2 others.
2. Most of the important battery improvements originated with Willard, and are today found in the Willard Threaded Rubber Battery.
3. Threaded Rubber Insulation saves you money because it does not warp, puncture, crack or carbonize. It outlasts the plates.
4. Threaded Rubber Insulation—found only in the Willard Threaded Rubber Battery—permits "bone-dry" shipment that keeps the battery new.
5. As an authorized Willard Service Station we offer to every Willard user the benefit of the broad Willard policies.

WARNING

This is official notice that all trespassing upon the grounds of the Clarendon Country Club will be rigorously prosecuted from and after May 6th, 1920.

Clarendon Country Club.

Security Safety

Don't carry around a great amount of currency. If you do you are beset by two great evils. One is temptation to spend readily. A man with \$100 in currency in his pocket is freer to spend than the man with little currency. He is more apt to break a ten dollar bill than he is to draw a ten dollar check. The other evil is the bait offered to thieves.

MR. HILL BUYS SEED

CORN FROM SAM
About a week after Sam Hill and the county agent had their talk about testing out Sam's corn, Mr. Blake, on his way home from a trip out in the Oak Grove section, stopped in at the Hill home. "Come in to the fire, Mr. Blake," said Mrs. Hill, as she met him at the door. "Is Sam home from school yet?" asked Mr. Blake. "No, but I expect him any minute and he'll be glad to see you," answered Mrs. Hill. "He said this morning he was going to call you, so he thought his corn was about ready to count. I hope so, anyway. There he comes now," said Mrs. Hill as she heard a jump on the porch and the front door slam. "I saw your car and knew you were here as soon as I got in sight of the house, so I ran the rest of the way," said Sam to Mr. Blake, as he glanced toward his testing box. "I think my corn is ready." "That's good," was Mr. Blake's reply as Sam lifted one corner of the cloth covering the grains. "Why the sprouts are larger than I expected," said the county agent in surprise. "We can count them."

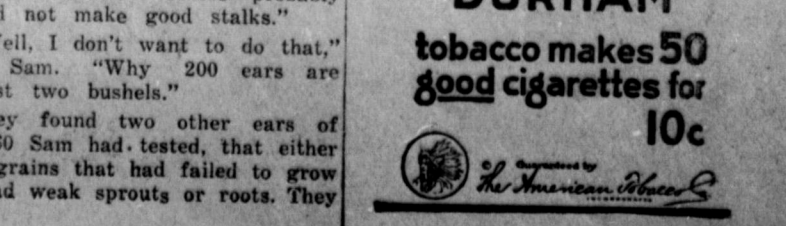

CANNING CLUB AT GOLDSTON

The Goldston Canning Club met with Mrs. Morgan on Feb. 21. Mrs. Chitwood was present to give us our first lesson. The ladies all brought lunches and the entire day was used for the lesson. Eighteen ladies all members of the club were present and visitors made a total of 35 present with good interest in the work. We think this a good showing for the first lesson and hope to accomplish great things before the year closes. The next meeting will be held with Mrs. John Thomas on March 13. Clarence H. Luft of Balmorhea, Texas, was in town Wednesday just looking over the situation and is pleased with the general make-up.

Carefully they took up the grains on square No. 1 and found each grain to have good strong sprouts over two inches long, as well as long, healthy looking roots. They found the same thing with two, three, four and five. Why they came to No. 6, though, Sam was first to point out two grains that had failed to grow.

"Look here," said he, "there are some that did not grow." "Yes," said Mr. Blake, "and notice here are two that do not have as large or as strong sprouts as these we have been looking at. There is something the matter with that ear and I would not use it for seed. You see two of the six grains from that ear did not grow and these others probably would not make good stalks."

"Well, I don't want to do that," said Sam. "Why 200 ears are almost two bushels." They found two other ears of the 60 Sam had tested, that either had grains that had failed to grow or had weak sprouts or roots. They

Style Show

Thursday Evening, Mar. 17, 7:30

Displaying the latest costumes and accessories from the leading fashion centers including New York, Chicago, Cleveland, and St. Louis to be furnished by the merchants of Clarendon. All costumes will be shown on living models.

Entertaining specialties between display groupings.

Staged by the Pathfinder Club benefit of the Parent-Teachers Association.

Admission 50c

LOCAL & PERSONAL

Hugh Eldridge had business in the Lefors country the middle part of the week.

Miss Willie Nell Richards visited friends in McLean the last of the week.

Rev. and Mrs. J. A. Smith are in Amarillo this week for the Baptist convention.

Mrs. J. B. Turnbow of Lefors, spent the week end at the J. R. Cox home in this city.

W. M. Martin of Amarillo has been a guest at the home of his uncle, N. N. Martin this week.

Mrs. Dr. Gray is representing the local Baptist church at the convention in Amarillo this week.

The Baptist church at Hedley has installed a Delco lighting system and otherwise improving their place of worship.

J. L. Chunn left Sunday night for Malone, Texas, where he will join his brother Marcus M. Chunn, in a revival meeting there.

The Style Show with the special attractions is the biggest thing of its kind ever shown in Clarendon—see it March 17th (10c)

Sam M. Braswell and children, Sara, Jr. and Claire Marie, were called to Rotan Tuesday night on account of the death of Mrs. Braswell's mother. Mrs. Braswell was called to the bedside of her mother last week.

FISK HATS

Individuality of Style

We take great pride in our ability to suit the individual style of our patrons. If you have difficulty in finding a hat that is really becoming to you, if will pay you to visit us.

We maintain a varied assortment at all times, and expert milliners are pleased to devote their time to seeing that you are suited, in style quality and price.

Harned Sisters AT BALDWIN STORE

Dick Allen made a business trip to Wichita Falls the last of the week.

Mr. and Mrs. R. L. Bigger and Miss Ethel Rutherford visited in Amarillo over Friday.

Clarence Peabody returned from Denton county the last of the week where he visited his father who was quite ill.

A small fire occurred in the O. W. Latson home Thursday night destroying almost all of the best of the family clothing.

Miss Nellie Reynolds returned to her home at Aledo the last of the week after a short visit with her sister, Mrs. J. L. Chunn of this city.

John Newlin is branching out with the coming of spring in the matter of a dandy good chicken house. You tell 'em Donley will raise chickens this season.

Mr. and Mrs. M. L. Moody, proprietors of the McLean News, were in our city Friday visiting friends. M. L. paid the News force the usual professional visit which was appreciated very much. Moody is putting out a good paper these days with the able assistance of W. H. Weinhold, formerly of Shamrock.

NO OUTSIDERS WANTED IN LEGION CLUB ROOM

Clarendon, Texas, Feb. 25, 1921 TO WHOM IT MAY CONCERN:

Within the knowledge of the members of the Executive Committee of this Post of The American Legion several persons who are not members herof, contrary to the rules governing this club room and contrary to the wishes of the Post, persist in using this clubroom and the pool tables, checkerboards and dominoes therein. Repeated warnings to these persons asking them to refrain from such use have fallen on deaf ears—they still continue. It is our desire to have this practice stopped and we wish here and now to reiterate with emphasis THAT THIS CLUB ROOM IS FOR MEMBERS ONLY. If you are not a member of this Post of The American Legion and you are not a member unless you have paid your camp dues for the year 1921 you are not welcome to use this clubroom or visit it and we hereby ask that YOU STAY OUT. No member of this Post has any right to invite ANY PERSON other than a visiting ex-service man to visit this clubroom or use the same or any pool table, checkerboard, or other form of amusement therein. By a VISITING EX-SERVICE MAN we mean and ex-service man from some other place other than Clarendon or this vicinity who is temporarily in our city and it is not necessary for such visiting ex-service man to be a member of the Legion here or elsewhere in order for him to receive such an invitation from any bona fide member of this Post.

Further The Executive Committee asks that each and every member of this Post co-operate with it in enforcing this rule. As you know it is unlawful to run a public pool hall in this State (Penal Code 633A.) and therefore it is necessary that the privilege of this hall be extended to members only. If a single outsider is allowed to play and visit this clubroom at will, eventually it will mean that this Legion Hall will be turned into a Public Pool hall because we cannot legitimately extend the privilege to any outside individual without extending it to all of them. And again those who support the clubroom by paying their camp dues are justly entitled to use it without interference on the part of outsiders.

Thanking each and every member of this Post in advance for his co-operation in this regard and hoping that the parties for whom this communication is intended will understand and heed the same, We are,
THE EXECUTIVE COMMITTEE OF THE AUBYN E. CLARK POST NO. 126, AMERICAN LEGION, CLARENDON, TEXAS.
ROY B. MEFFERD, Chairman.

JOE E. HOLLAND, Post Commander.
ERNEST L. HUNT, BYRON BLEVINS, EUGENE V. WIMBERLY, CURNIS E. THOMPSON, J. W. ADAMS, A. M. BEVILLE, Jr.

STOCK MARKET REPORT
Kansas City Stock Yards, March 1st, 1921.
Hogs steady, Lambs slightly lower, Cattle fully steady.
Last week's advance in prices of cattle failed to draw any material increase in receipts today and the market hold fully steady. February is closing \$1.25 to \$1.50 higher than the middle of the month and slightly higher than January. Hog prices were steady to 10 cents lower. The only decline was in rough heavy grades. There was a strong demand for light weights. Pigs were 15 to 25 cents higher. Lambs were 25 cents lower and sheep steady, compared with the extreme advance late last week. Top lambs \$10.50.

Today's Receipts
Receipts today were 11,000 cattle, 12,000 hogs, 17,000 sheep, compared with 10,500 cattle, 12,000 hogs, and 10,000 sheep a week ago, and 9,600 cattle, 13,350 hogs and 13,400 sheep a year ago.

Beef Cattle

Prices for fat cattle were fully steady at the extreme advance of last week and \$1.25 to \$1.50 above the middle of the month. Choice steers sold at \$9.25 to \$9.80, and fair to good kinds \$8.50 to \$9.25. In most cases buyers quoted prices higher, but salesmen regarded the market as no more than strong. The fact that demand is sufficient to absorb 12,000, most of them fat enough for slaughter, without any weakness, indicates that the trade now is in a healthy position. A good many cattle men believe that in acute shortage of fat cattle will be uncovered this month. Cows and heifers were quoted strong. Demand was active. Veal calves and bulls were steady. Stockers and feeders.

Prices for stockers and feeders were strong to 25 cents higher, with demand urgent. The firmness in fat cattle is bringing an increased outlet for stockers and feeders. Feeders sold mostly at \$7.75 to \$8.75 and stockers \$7.50 to \$8.50. Demand for milch cows and springers was active.

Hogs

Hog prices at the outset showed some weakness owing to declines in Chicago and St. Louis, but under an active demand from both shippers and packers, bids were raised and average prices were fully steady. Pigs advanced 15 to 25 cents, and rough heavy hogs were 10 cents lower. The top price \$9.85 was paid for light weights and \$10.25 for pigs. The bulk of all the offerings sold at \$8.90 to \$9.70. A close clearance was reported.

Sheep and Lambs

With receipts fairly liberal lambs were set back 25 cents and sheep were steady. Handy weight lambs sold at \$10.50 and heavy lambs \$9.00 to \$9.50. Ewes sold up to \$6.00. Killers bought freely, compared with a week ago, prices are still \$2.00 higher on sheep and yearlings.

Horses and Mules

Receipts were about the same as they have been for some time past. No improvement was reported in demand.

INAUGURATION DAY BRINGS BIG CROWDS TO CAPITOL

Hotel reservations were being made several weeks ago to care for the notables that are to be on hand Friday next for the nation's ceremonies when the newly elected men take their seat. Throngs are already gathering for the occasion and have been for the past two weeks that they may take advantage of any special events that might happen in connection with the big show.

President-Elect Harding has the complete personnel of his cabinet, and a short sketch of the life of each man appointed, follows:
Secretary of State
Charles Evans Hughes of New York. Born Glenn Falls, New York, Age 58 years. University training. Practiced and taught law, New York, 1884-1900. Conducted insurance investigation, New York Legislature, 1905-06. Governor of New York, 1907-08 and 1909-10. Associated justice, United States supreme court, 1910-16. Republican nominee for president, 1916. Practiced law since in New York. Conducted government aircraft investigation, 1918.

Secretary of Treasurer
Andrew W. Mellon of Pittsburgh, Pa. Banker. Age 65 years. University education. Entered banking business 1902, industrial and financial developments in western Pennsylvania. Trustee University of Pittsburgh and with brother founded Mellon Institute of Industrial Research. Identified with many charitable and welfare organizations.

Postmaster General
Will H. Hays, of Sullivan, Indiana. Lawyer. Born Sullivan, Indiana. Age 41 years. Graduate Wabash College. Prominent in county, state and national republican politics. Chairman republican national committee since 1916. Mason. Presbyterian.

Secretary of Navy
Edwin Denby of Detroit, Mich. Lawyer. Born at Evansville, Indiana. Age 51 years. Member Chinese Imperial maritime Customs service, 1887-97. L. L. B. Univ. of Michigan, 1906. Gunners Mate U. S. S. Yosemite during Spanish American war, 1898; sergeant Marine Corps, 1917; member Michigan House of Representatives, 1902-03; member of 59th and 61st congress, 1905-11. President Detroit Charter Commons, 1913.

Secretary of Interior
Albert Bacon Fall of Three Rivers, New Mexico. United States Senator. Born Frankfort, Ky. Age 59 years. Educated in country schools. Worked as farmer, rancher, miner, lawyer. Served in New Mexico legislature and as associate justice New Mexico supreme court. United States Senator since 1912, present term expiring in 1923.

Secretary of Agriculture
Henry Cantwell Wallace of Des Moines, Iowa. Editor and publisher. Born Rock Island, Ill. Age 54 years. Collegiate education. Farmer and live stock breeder in Iowa, 1887-91. Editor, manager, publisher of farm publications 1893 to present. Bank director. Member U. S. live stock industry committee. Secretary Corri Belt Meat Producer's association 14 years.

Secretary of Commerce
Herbert Clark Hoover of Stanford University, California. Mining engineer. Born West Branch, Iowa. Age 46 years. University

training. Wide experience in geological and mining enterprises, U. S. and abroad. Chairman American relief committee, London, 1915-18. 14-15. Relief in Belgium, 1915-18. U. S. Food administrator, 1917-19. Honored and decorated by foreign nations for war services. Received 10 1-2 votes republican nomination for presidential nomination. Near East relief, 19-20-21.

Secretary of Labor
James John Davis of Pittsburgh, Pa. Labor leader. Born Tredegar, Wales. Age 47 years. Went to Pittsburgh with parents at age of 4 years. At 11 began work in steel mills, becoming a puddler. Removed to Elwood City, Ind., 1893. Held city and county offices there Chosen in 1906 to reorganize Loyal Order of Moose, of which he is now the head. Member of Amalgamated Association of Iron and Steel Workers and always active in union affairs.

Secretary of War
John Wingate Weeks of West Newton, Massachusetts. Banker. Born Lancaster, N. H. Age 68 years. Graduate U. S. Naval Academy, 1881. U. S. midshipman, 1888-1912. Member of congress, 1905-13. Candidate for republican presidential nomination, 1916, receiving 105 votes. Served in Massachusetts naval brigade 10 years and in volunteer navy during Spanish-American war.

Attorney-General
Harry M. Dougherty of Columbus, Ohio. Lawyer. Born, Washington Courthouse, Ohio. Age 61 years. University education. Practiced law, Washington Courthouse, 1881-88. Elected state legislature in 1888, serving five years. Chairman state republican central committee of Ohio. Campaign manager for Harding at Chicago convention.

DONLEY COUNTY HOGS SHIPPED TO DEAF SMITH

The Hereford country has long been noted for her excellent Herefords. Not until recently did they begin to realize the value of pure bred hogs. They have started right by getting the best that money can buy for foundation stock, as the following, taken from the Hereford Brand will show:
"It is a well known fact that Deaf Smith county occupies a leading place among the counties of the Panhandle as the home of pure-bred whiteface cattle. It is not so well known that it is fast coming to the front in the production of pure-bred hogs.

Just recently Messrs. M. O. Meeks and M. D. Womble, of this county, who are engaged in raising registered Poland Chinas, returned from Silver Crest Farm near Hedley, Texas where they purchased six head from that well known herd. Mr. Meeks bought two sows two and three years old respectively, getting Big Lady Jones and Mc's Big Lady, two of the best sows on the farm. The two weighed 1810 pounds and possess both quality and royal breeding. They are out of Bob's Big Lady, the prize winning sow of Kansas in 1917, and on the sire's side are from well known strains that produce half ton hogs. Mr. Meeks also has on his farm now, Gold Dust, purchased recently from this same farm. He is an eleven months old hog standing 38 inches high and headed for the half ton class.

Mr. Womble bought three spring gilts of equal breeding and quality, from such noted sires as Mc's Big Chief, an 1125 lb. hog, Silver Crest Bob, who sold as a pig for \$5,000 and Big Bob Jones.

With these additions to their herds these gentlemen have foundation stock equal to any in the state and excelled by few anywhere. They propose to make Poland China history in this county from now on."

FARMERS STATE BANK IS DESIGNATED AS STATE DEPOSITORY

The Farmers State bank of this city was designated a state depository the past week by the state treasurer, thus according special honors to our local institution. Though youngest in years, this institution is rapidly taking its place in the front ranks of its class in this section. The men behind the bank are progressive and keenly alert to the needs of the county and take a personal in their customers' success at all times.

C. M. Blanton, who has been laid up with blood poison in his leg for several days, is again able to resume his labors on the outside.

Mrs. Lena Earls of Vernon, who was called here on account of the illness of a younger brother, returned home the last of the week.

James W. Owens has been shaping things up around his place the past week giving the home place a nifty appearance. The yards have been changed some and a new garage built.

M. T. (Doc) Howard, has been stung by the "chicken bug" and is having a large chicken pasture built on his ranch. He will have the co-operation of the county agent in the furtherance of his plans as Doc does not claim to be an expert in anything except the cow business, but he lands with the goods there alright.

BODY OF "TOMALE JOHN" FOUND IN CHILDRESS LAKE

There is no longer any doubt as to where "Tomale John" met his Waterloo. The following clipped from the Childress Index tells of his ending at the hands of murderers. This Mexican bore an excellent reputation locally and his many friends here hope that at least since he is no more, the brutes who murdered this harmless man, will be speedily brought to justice. The clipping follows:
"Luis Pablo, better known as 'Tomale John,' was murdered and his body thrown into the lake north of town. The body was discovered this afternoon floating on the lake, by Orville Johnson.

The last seen of John was on Monday, January 31st, by W. C. Carter and that day three Mexicans were about the hut in which John lived.

An inquest was held by Justice of the Peace J. H. Calloway, and a verdict was rendered that "Luis Pablo came to his death from three wounds inflicted on the right side of the head by parties unknown."

No one knows the Mexicans, nor have they been seen since. W. C. Carter said he could identify one of them if found.

The three gashes were over the left ear and all broke the skull. Death was no doubt instantaneous. After the crime was committed the body was thrown into the lake. Robbery was evidently the motive of this murder, as the pockets of his trousers were turned inside out.

SAULS-BATES

The colored population of this city witnessed a wedding of two of their most prominent young people Sunday morning at 7:30 o'clock when Dan Sauls and Beulah Bates were united in matrimony by the local pastor. Both of the contracting parties are of our most highly respected colored people and left immediately for points south on their honeymoon.

POTATO SLIPS

We can fill potato slip orders and will bed 700 bushels of seed and will sell one million, five hundred thousand potato slips that are not now sold. T. Jones & Co. (8c)

CHRISTIAN CHURCH

Bible school 9:45 a. m. J. R. Tucker, Superintendent.
Preaching 10:50 a. m. Subject: "Kept by His Power." Subject: "Baseball, Double Header."

There will be special music at the evening service, Mr. Hayter will give a special vocal solo. They will also be pictures of the Mammoth Cave and an illustrated song. These pictures will be of interest to all. Strangers will find a welcome to any and all services. No difference what your sin is, come and hear the Gospel preached in love.
Sam J. White, Pastor.

W. F. Page and family left the last of the week for Portales, New Mexico. The family effects and stock were shipped by rail.

CITATION BY PUBLICATION

NO. 329
The State of Texas.
To the Sheriff or any Constable of Donley County—GREETING:
You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the county of Donley, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR LETTERS OF GUARDIANSHIP

PLANTING HOME GARDENS IS A BIG STEP IN THRIFT PROGRAM

One-Tenth of an Acre of Fairly Good Ground Will Supply the Greater Part of the Vegetables Needed by the Average Family, Say Specialists.

Home vegetable gardens will be just as important in stabilizing the food supply in 1921 as they have been at any time during the past few years, say garden specialists of the United States Department of Agriculture. Urgent need for increased production of food during the war caused thousands of rural and urban residents to plant gardens, which resulted in establishing the gardening habit. This year, specialists say, home gardens will play an important part in thrift and economy. Thousands of acres of uncultivated land in and about many large cities will be utilized this year to furnish employment and recreation to home gardeners who know that by raising their own supply of vegetables they can materially reduce their living costs.

Enough for Average Family
One-tenth of an acre of fairly good ground—a square about 65 feet each way—will supply the greater part of the vegetables needed by the average family, say garden specialists of the department. The cost of all seeds, and fertilizers for a garden of this size should not exceed \$15 to \$18 and may not cost more than \$5 or \$10.

Experience has shown that not more than 100 hours should be required for planting and caring for a 1-to-10-acre garden. This time is so distributed throughout the season that the work can be easily done by most persons working in factories, stores or offices. It means an average of about 5 or 6 hours a week for a period of 20 weeks, or merely enough time for proper outdoor recreation and exercise necessary for good health. More time will be required early in the season while the garden is being prepared and planted than during the summer, when not more than 2 or 3 hours a week will be necessary to keep the garden in good condition.

A little time during mornings, evenings, and on holidays spent in the garden is a good investment. A garden is like a farm, however, in that it produces according to the attention given it. A well-cared-for garden will produce much higher yields than one which is neglected. The average return in money value from a 1-to-10-acre plot of ground usually is about \$85 for a season.

Plenty of fresh vegetables direct from the garden to the table is of vastly greater importance than the money value, the cutting out of middleman's profits or transportation problems. The question of saving and cost, however, may prove a very important factor before the close of another year. Already there is much unemployment of labor and the local or home production of foods in the garden is the surest way of safeguarding the family food supply. It is said that the farmers of the country could cut themselves off from the rest of the people and live comfortably for an indefinite period because they can produce practically everything that they need. Gardens furnish an important part of the living of families on farms and the same principle will apply to people who live in cities, towns, and villages who have access to a small tract of land on which to grow a garden.

There is no more healthful exercise than that of working in the soil. The old doctor who advised the dyspeptic to go out on the farm and follow the plowman had the right idea. So simple an operation as hoeing or raking the soil brings into play muscles of the body that seldom do any work.

The muscular exercise, coupled with the deep breathing of pure outdoor air, together with the effect of the sunshine, all tend to promote health.

Taking it Easy at First
There is nothing connected with the work of cultivating a garden that has a tendency to injure the health unless overexertion is indulged in. Persons who habitually work indoors should be rather careful when they first begin working in the direct sunshine. When the work is first started the muscles are stiff and weakened from inactivity and it is necessary to go slowly until they get into play. Very few cases of sunstroke or heat prostration among gardeners have been reported. A little precaution in the beginning will ward off possibility of heat injury. Garden work begins early in the springtime while the weather is pleasant, and by the time the hot period comes on the gardener will have accustomed himself to outdoor conditions, so the heat will have little effect upon him.

Gardens and health go hand in hand, and many reports have been received by the Department of Agriculture of the health-giving results of garden work. Even on farms where men do the heavy labor of preparing the garden, women find light work in the garden of great benefit, for the duties of the farm woman often keep her too closely confined in the house and the garden affords an opportunity to get out into the open air and sunshine. More than half of the work of growing farm gardens is done by the women, many of whom would have no outdoor recreation if it were not for this work in the garden.

For Beginners in Gardening
Some beginners in gardening become very enthusiastic in early spring when they look through seed catalogs. They have a desire to plant every kind of vegetable elaborately described and favorably illustrated. As a rule not more than 15 or 20 kinds of vegetables should be planted in the average home garden, say specialists of the United States Department of Agriculture. Few beginners also realize the importance of well-prepared seed beds. Pulverize the soil as deeply as it is plowed. If the soil is coarse and lumpy, even though its surface is well broken up, the plants will not thrive. Large air spaces in the soil are injurious but a great number of small ones are beneficial.

A REAL HUMOROUS LECTURE

A lecture is usually considered a dry insipid thing, but you want to hear the lecture at the Pastime Theatre on Friday evening March 11, by Sam J. White, pastor of the Christian Church of this city. He has delivered this lecture over four hundred times and it is filled with fun from first to last, yet carries with it lofty thoughts and high ideals. There is not one dull moment anywhere during the hour and fifteen minutes he is on the floor. He rises from the ridiculous to the sublime and he always gets back with but little trouble. He has spoken in hundreds of schools and colleges over the country. The youngest child will enjoy it as well as the aged and more mature. Every cent raised from the lecture will go toward paying for the basement of the church. There will be beautiful pictures before the lecture and also three selections in music and song. Married folks should hear it for it will make home a brighter spot to live and old maids and old bachelors should pop the question on the way home. It will be an evening of good things yet filled with jollity and fun from first to last. Don't forget the time: Friday evening, March 11th. Pastime Theatre.

LELIA LAKE

Elder Miholland was at Chapel at the high school Friday morning. Artie Clark and family were down Thursday night from Clarendon. T. J. Conner nd wife, Mr. and Mrs. Frank Wolford were among those who have been attending the meeting at Hedley this week. Mr. and Mrs. Homer Ellis were in Lelia Sunday. Bro. Rich who underwent an operation at Dallas some time back, we are glad to report as doing nicely. Stanley Conner of Hedley was in town Monday. Bro. Teddie and wife have been attending the meeting in Hedley. Mrs. Guy Taylor and daughters Misses Ona and Vera were in Clarendon Saturday. Dugless Conner was in Lelia Monday enroute from Kansas City to southern points. A tacky party was given the younger set at the McElroy home Saturday night. A merry time was spent in games and enjoying a good laugh as each one was dressed to suit the name of the party. Mrs. Jackson has been visiting her daughter, Mrs. Roy Guffey. The J. M. Bezman black smith shop has been sold to Mr. Jones. Work has begun getting the tools in shape for another crop. Mrs. Cothran was in Clarendon Saturday afternoon. Misses Vera Taylor and Fay Byham spent Saturday nd Sunday with home folks. R. E. Conner and wife, also J. A. Conner and wife visited in Clarendon Sunday afternoon.

MARTIN NEWS

Mrs. Ida Chitwood came out Friday to give the ladies in this community a lesson on their millinery work. On Monday afternoon she came out and gave a lesson to the girls. Victor McKenzie of Memphis visited with Lee and Oswald Jones from Friday to Sunday evening. The singing Sunday night at Mr. J. T. Bains was enjoyed by all.

Miss Hulda Cannon and Miss Yeager, the Red Cross nurse spent Tuesday afternoon in the home of J. F. Cannon.

Joe Cannon spent Sunday with Lee and Oswald Jones.

Mr. and Mrs. Conda Jones spent the week end with their daughter and family Mrs. Claude Primrose at Brice.

Mrs. J. F. Cannon visited her daughter in Clarendon Monday afternoon.

We had Sunday school Sunday at the regular hour with a good attendance.

The farmers are turning soil preparing for another crop.

CHAMBERLAIN NEWS

Owing to the snow and bad weather week before last the Washington programme and pie supper was postponed from Friday night until Thursday night last week. There was a large crowd that attended and the program was real good. The pie netted twenty-three dollars and fifteen cents which was good for "hard times."

A party was enjoyed by a good crowd at the home of Horace Reids last Saturday night.

Alfred Huffstutler returned home last Wednesday from Claude where he has been feeding cattle for the last two months. We are glad to see him back in our community.

Miss Gladys Miller spent Saturday night with Miss Eunice Reid. Tom Lewis spent Saturday night with Manard Lawson.

Richard Dingler spent Sunday with Lovis Huffstutler.

A singing was enjoyed by most of the young folks last Sunday night at Mr. and Mrs. Oren Hotts.

Mrs. N. Dingler who has been sick for the past two weeks is improving at this writing. We all hope she will be up and well by next writing.

Harry Neely spent Saturday night with his cousin Roy Gammons in the Goldston community, returning home Sunday.

A good sermon was enjoyed by a nice crowd Sunday evening. Rev. A. V. Neely conducting the service.

John Blackman spent Saturday night in Clarendon with his cousin, Gordon Bain, returning home Sunday.

Sol Pierce spent Sunday with Lloyd Reid.

Raymond Bell caught the south-bound limited Monday for his home at Lancaster, Texas.

Jim Taylor moved to his newly purchased home in Clarendon last Monday and Lim Taylor moved where Jim lived. He buying Jim out.

Most of the farmers are plowing their land for another crop, as nearly all of them are thru gathering their last year's crop. There is fine season and the ground sure lists fine.

Dan Dean happened to an accident while playing base ball Tuesday evening. Some how he fell, bruising his hip pretty bad.

A Chamberlain Reporter.

AMERICAN RED CROSS

Enlargement of the Southwestern Division of the American Red Cross with headquarters at St. Louis by 42 per cent in area and 10 per cent in population served has been announced in a statement received at headquarters of the Donley County chapter from James L. Fieser, manager of the division, according to Mr. Foster, Publicity chairman of the local chapter. Under the new arrangement the Southwestern Division will have added to it the states of Colorado and New Mexico, making this division the largest in the United States in area, with 764,694 square miles and 15,000,000 people served, the total number of the chapters in the Division then being 738. The additional business under the new arrangements will be handled without my appreciable increase in the staff of division employees and at the same time not lose in efficiency.

Under the new scheme the Southwestern Division territory will comprise Arkansas, Colorado, Kansas, Missouri, New Mexico, Oklahoma and Texas. The announcement further states that of the 13 division officers which are at present handling Red Cross operations in the United States five will be discontinued, leaving eight.

THE DIVORCE EVIL

The divorce evil is getting to be something startling in this country, especially in the larger cities, and should receive the best thought of our statesmen and jurists. Probably the apartment house is as much to blame as anything else, as it obliterates all the old-home ties. The increasing distaste for housework among women is another reason—they either want to enter business or go joy riding. The disruption of married life and its sacred relations is a very serious matter, and should never be thought of lightly. Especially is this true where there are children. Men and women, when you come to die and go before your God, what are you going to say to Him about the blessed little children you forsook and whose home life you broke up? Better do some sober thinking about this.—Pampa News.

UNCLAIMED LETTERS

Clarendon, Texas, Feb. 23—Letters remaining unclaimed in this office for the week ending Feb. 26 as follows:

NEAR EAST RELIEF

New York, Jan. 30.—The needs of the thousands of children in the Near East, made orphans by massacres, disease, and starvation, is becoming worse, agents in the field are reporting to officials at National Headquarters of the Near East Relief.

So great is the drain upon the resources relief organization, according to Charles V. Vickrey, its general secretary, that many child-older institutions maintained by dren needing attention are being turned away from asylums and because of lack of shelter and funds to take care of them. The need throughout the entire areas of the Caucasus, Asia Minor and Syria, is evidenced by the situation in Jerusalem, Mr. Vickrey says in a statement issued today. "More than three hundred applications have been turned away during the past few months from our orphanage in the Holy City alone," this statement says. "Jerusalem is one of our least needy and congested fields, though our activities there are extensive even if conducted on a small scale. From the printing shop, operated entirely by the orphans, is turned out one English weekly newspaper, one Arabic-bi-monthly, and one Arabic monthly. The boys do all the work, and make the printing shop self-supporting. There are also carpenter shops, potteries, tile factories, and other industries, that not only help make the orphans self-supporting but also train them for work that they can engage in when they have to make their own way."

CITY COMMISSION ISSUES STATEMENT OF FINANCES

The City Commission has a report of receipts and expenditures for publication in this issue, the report being prepared by Claud McAllister, the secretary. The report in the main shows to be one of a commission of practical economy. No money has been wasted and no unnecessary expenditures appear to have been made. As a whole, the report indicates that the city's financial affairs are in good shape.

INTERSCOLASTIC LEAGUE PROGRAM DISTRICT MEET APRIL 15-16, 1921, AT CANYON

Friday, Athletics
Friday morning, registration and payment of fees.
2:00 p. m. Tennis Preliminaries.
3:00 p. m. Preliminaries: 100 yds., 220 yds., 440 yds., dashes; half mile if necessary; jumps, if necessary, on account of the number entering.

Friday Literary
2:00 p. m. Preliminaries: Senior Girls' Debate, Room 205. Junior Girls' Declamation, Auditorium. Rural Junior Girls' Declamation, Room 105.

3:30 p. m. Preliminaries: Junior Girls' and Boys'; Rural Girls' and Boys' Declamations; and Senior Girls' Debate, Auditorium.
Saturday, Athletics
10:00 a. m. Finals in Tennis.
1:30 p. m. Finals in track and field events.

Saturday, Literary
8:00 a. m. Registration and payment of fees.
8:30 a. m. Preliminaries: Senior Boys' Debate, Room 205. Senior Girls' Declamation, Auditorium. Rural Senior Girls' Declamation, Room 105.

10:00 a. m. Preliminaries: Senior Boys' Declamation, Auditorium. Rural Senior Boys' Declamation, Room 105.
7:30 p. m. Finals: Senior Girls' and Boys', Rural Girls' and Boys' Declamation; and Senior Boys' Debate, Auditorium.

All Essays must be mailed to Supt. L. M. Fertsch, Hereford, Texas.

According to the rules of the Interscholastic League, the spelling contest for the district is discontinued.

In order that we may expedite matters, it is earnestly desired that the County Director General will mail to the District Director General the names of all of the contestants representing the county and specifying the contests each is entering. Furthermore, as there will be a number of visitors in town during the Meet, and as we are anxious to provide accommodations for our guests, the County Director General will render us a favor and themselves a benefit if they will furnish us, a week in advance, an approximate number each of ladies and gentlemen who will attend from the respective counties. Visitors and hosts must co-operate if we are to make the meet a great success. It is highly advisable that all teams be properly chaperoned.

Respectfully,
J. L. Duffot, District Director General.

ELECTION NOTICE

Notice is hereby given that the City of Clarendon, Texas will hold an election on the First Tuesday in April 1921, same being the 5th day of the month, for the election of a Mayor and one Commissioner, the Mayor to be elected for the regular term of two years and commissioner to be elected to fill an unexpired term of one year. Said Election to be held at the County Court House and J. T. Patman is appointed Judge of same.

CITY OF CLARENDON

By Claud McAllister, Clerk.

A. L. Chase returned the last of the week from California where he was called to testify in the Ballard oil case in a preliminary hearing at Los Angeles. The defendant was bound over in the sum of five thousand dollars on six counts, to await the action of the superior court.

GAINESVILLE MAN HEADS TEXAS CLOTHIERS

Fort Worth was chosen as the 1922 meeting place of the Texas Retail Clothiers' Association, and Leo M. Kuehn of Gainesville was chosen president of the organization for the coming year at the final executive session of the fifth annual convention in the Adolphus hotel at Dallas Thursday morning. Other officers elected were A. M. Waldrop, Bryan, first vice president; Gus Ross, Dallas, second vice president; L. R. Loving, Corpus Christi, third vice president; and Joe M. Green of Houston, secretary. Sam L. Williams, Galveston, was elected national director for the coming year. A board of fourteen directors also was installed.

Reducing Overhead

Mr. Kuehn conducted a discussion on reducing the overhead. He considered ways and means of bringing down the unnecessary expenses and gave many examples to prove that he had a definite foundation for his arguments.

"Advertising has been considered generally in the light of an expense, and often a useless one," Mr. Kuehn said. "This is not the case. It may be an expense, and in some cases a useless one, but these cases are few and far between. There is nothing so important in any line of business as letting the people know really what you have to offer them."

Intelligent Advertising

"The successful merchant studies his field, figures out where his patrons are and just what type of publicity it will require to reach them, then he applies the same intelligent method in the dissemination of his advertising, and the message thus reaches the people. This kind of advertising is not to be considered in the light of a simple expense. It is a definite division of his business, and as such must be provided for. Other types, some of which are merely wastes of money, are useless, and should be guarded against. This is the definite way of reducing the

overhead that eats up every merchant's profits.

"It is very important that every merchant keep in close touch with what other merchants in his particular line are doing all over the country. Years ago this was impossible, but now, through the medium of the national conventions that are held in every big trade center in the Nation, it is easily possible for the merchants over the Nation to keep in the closest touch with each other."

Opposes Salary Cuts

"I do not personally favor the reduction of salaries in the lessening of overhead expenses. There are many other ways, many loose ends that can be picked up, in even the most efficiently managed business. There are many little things in the shape of drainages that can be stopped, and the results will be surprising. I think a smaller force at full salary is better and more efficient in holding up the morale of a business than a large but poorly paid force of employees."

CEREALS TREATED AGAINST SMUTS

Smut in kafir and cane can be controlled successfully in this manner, according to a progressive farmer in this county:

"Some farmers believe smut is caused by weather conditions. This is not true. It is caused by smut spores. These fine particles

of smut stick to good seed and when this seed sprouts and grows up, these spores get into the roots and go up in the sap to the heads and form smut again.

In 1919 I planted kafir that had smut in it the year before. About one-sixth of this was smut. I then put seed in the planter that had no chance of having smut and planted a few acres. This had no smut. So time nor weather conditions had nothing to do with the smut.

Threshing machines are full of smut and scatter it from crop to crop. The safest and cheapest way is to treat your seed. Smut is expensive, as well as injurious to stock. After treating the seed, do not allow it to come in contact with sacks, wagons, sheets, or anything that could possibly have smut on it.

Cut out the following formulas, by Prof. J. J. Taubenhaus, of the Texas A. & M. College and keep them for future use."

Smut in Kafir, Cane and Wheat.

"Stinking smut of wheat may be controlled in two ways: 1. The seed are first thoroughly cleaned and fanned and then soaked for ten minutes in a solution made up of one pint (or one pound) of 40 per cent formaldehyde, which is diluted in forty gallons of water. The formaldehyde is put in half-barrels and the grain thoroughly stirred during the soaking, in the meantime skimming off all the light and floating material. After the treatment the formaldehyde is drained off and the seed spread out to dry quickly. With this method one pint of formaldehyde is sufficient to treat fifty bushels of wheat. The other method consists in merely spraying the wheat with a solution of one pint of formaldehyde in forty gallons of water. The spraying is done with an ordinary garden sprinkler or can, while the grain is being shoveled from one pile to another. After the seed has been thoroughly wetted it is piled up in a heap and covered with a blanket or canvas for eight to twelve hours in order to allow the formaldehyde fumes to act. After this treatment, which is easy to dry out, the grain is spread out thinly and allowed to dry as quickly as possible. As soon as it is sufficiently dry to run through the drills, it is ready for planting.

Loose Smut of Wheat

"In Texas this smut is even

more important than bunt. The disease is usually recognized in the field just at the time when the heads are being formed. The diseased heads are covered with a loose, black, sooty powder, which falls away if the stalks are even slightly shaken by the winds, leaving bare the central axis of the diseased heads. It is at this stage when the loose spores are blown about and lodge between the glumes or chaff of the healthy heads, upon which they germinate and penetrate the young ovaries of the healthy, developing kernels, so that the mature wheat grains bear within the dormant smut fungus. When these seeds are planted and as soon as they germinate, the smut fungus within the kernel resumes activity and starts to grow, keeping pace with the growing wheat plant until the latter blossoms, then establishes itself in the interior of the kernel, using up all its contents and producing instead a large mass of smut spores. The diseased kernels then burst open and liberate the spores, which are blown again on healthy heads.

"Loose smut of wheat may be controlled by the hot-water treatment, also known as the 'long soak.' Here the seed are simply soaked for three hours in hot water, which is maintained at a temperature of 110 to 115 degrees Fahrenheit. The seed to be treated is placed in a sack in an iron tub or kettle, the water of which is maintained at the above temperature. The thermometer should be closely watched so that the temperature does not rise too high nor fall too low.

Kernel Smut

This disease differs from the head smut in that it is only confined to the individual kernels. Infected heads bear a large number of false kernels and these are filled with a mass of smut dust, which is inclosed in a conelike, tough, grayish-brown membrane. The infected kernels readily breaks open during thrashing and the sport mass is liberated and sticks to the healthy grains. Infection occurs when these are planted in the field.

"Contrary to head smut, kernel smut of grain sorghums is controlled (1) with formaldehyde, in which case the seed are soaked for two hours in a solution made up of one pint of formaldehyde in thirty gallons of water. After the treatment the seed are spread out and allowed to dry quickly. (2) Another method consists in soaking the seed from ten to twelve minutes in hot water at a temperature of 142 degrees Fahrenheit. After treatment the seed are spread out to dry quickly.

UNIVERSITY COLLECTING DATA RELATING TO WORLD WAR PERIOD

Austin, Texas, Feb. 28—Under the direction of Dr. Milton R. Gutsch, professor of English history in the University of Texas, a bureau known as the Texas War Records Collection is being established in that institution. At present those in charge are at work filing newspapers of foreign publications which contain valuable information on the World War. Foreign government publications issued during the period of the war are being added to the collection through Brentanno, a publishing firm of New York. An effort is being made to

Is Electric Light The Cheapest?

An old kerosene lamp is only a two candle power lamp, the most of them are only one candle power.

The smallest electric made is a 8 c. p. lamp. An 8 c. p. lamp will burn 1200 hours and not use the minimum. The smallest size lamp that is in general use (the 25 watt Mazda Lamp) gives 20 Candle power of light. One of these lamps will burn 480 hours to use the minimum.

Big lamps use a greater amount of current according to the size of the lamp. Some times one of our customers will tell us that he only uses one light at a time while his neighbor uses three or four yet his bill is higher than his neighbors. It is easy to understand why this is true. A 100 watt lamp will consume as much current as four 25 watt lamps. The big lamp that you have in the room where you stay the greater part of the time may use more current than all the lights in your neighbors house.

Look at the lamps in your sockets. Near the top of each lamp you find a tag telling just how much current per hour the lamp will use. On this tag you will find the inscription 110 volts, and the number of watts per hour the lamp consumes. For instance a lamp marked 110 or 112 volts—100 watts will consume 100 watts per hour. In other words, this lamp will consume 1000 watts or one kilo watt hour (the unit of measurement for electricity) in 10 hours. A 50 watt lamp, one kills watt hour in 20 hours, a 25 watt in 40 hours etc. If your light bill is more than you care to pay for lighting don't cut out the lights but use smaller lamps, any kind of an electric light is better than a kerosene or gas lamp and not near so dangerous.

Let us go over your equipment with you. It may be that we can help you.

Our services are free.

WE WANT YOU TO KNOW HOW TO READ YOUR OWN METER AND WE ALSO WANT YOU TO KNOW JUST HOW MUCH CURRENT EACH LIGHT AND EACH DEVISE CONSUMES.

I am in Clarendon nearly every Tuesday and am often here during the latter days of each week. I will be glad to give my personal attention to any and all such matters. Try me and find out.

Excerpts From The Clarco

LINDQUEST RECITAL

TENOR, WITH ACCOMPANISTS, GRACIOUSLY RESPONDS TO EAGER ENCORES.

The music loving public of Clarendon was given one of the most delightful treats of the year last Thursday evening at the college auditorium, in the form of a vocal recital by Albert Lindquest, one of America's most noted tenors. This number was the fifth on this year's lyceum course and fully as good as any of the numbers on the artists course which we had the privilege of enjoying before Xmas.

Mr. Lindquest arrived a little late on account of bad train connection, but his appearance was worth waiting for, and the audience was eagerly expectant when he finally came, accompanied by his accompanist, Mr. MacDonald and Miss Allen, and appeared on the platform for his first number. The first song was "Where e'er You Walk," from the opera "Semele" by Handel. This was rendered with such ease and softness of tone that his hearers were instantly captivated by his "golden voice" and his next number "Sound an Alarm" from Judas Macabaeus" only increased their praise and satisfaction.

Second on the excellent program were three piano solos by Mr. MacDonald. The first of these was a sonata from "Scarlati" which he played with much brightness of tone and with such ease that he almost instantly proved his extraordinary talent as a pianist, and justified his reputation as a rising young artist. The next two numbers, "Minuet Al'antico" from Sebeck and "Etude, Opus 10, No. 5" from Chopin only emphasized what has just been said and his rendition throughout the remainder of the program was highly commendable.

In the third number Mr. Lindquest's second assistant, Leonora Allen, a young lady who has distinguished herself on countless occasions as one of the coming sopranos in the world of good music, was introduced and sang, with a charm that is entirely unsurpassed by any woman who has yet appeared here, "By the Waters of Minnetonka" that most beautiful, favorite of songs, and a bright little song entitled, "The Cookoo Clock."

Another number of especial merit and beauty was "O! Paradise" sung in French by Mr. Lindquest. This was taken from the opera, "L'Africoine" at the point where the French explorer, Vasco de Gama, sighted land after long months on the sea, and Mr. Lindquest sang it with a power and perfect ease of expression which adequately expressed the fine lyrical quality and the true greatness of his voice.

Miss Allen also rendered a song in negro dialect and a lullaby which met with great approval and Mr. Lindquest's lullaby, "Tommy Lad" was one of the most successful numbers of the entire program. However the closing number, the famous duet, from the opera "Le Tionatore," sung by Miss Allen and Mr. Lindquest, was the crowning success of the evening and it can be safely said that no troupe has ever left C. C. leaving behind them a more brilliant record or a more pleased audience than the Lindquest company.

MISS GALEY ATTENDS BROTHER'S FUNERAL

Miss Galey, head of the expression department was away last week, to attend her brother's funeral, killed in Vladivostok, last November.

November 15, Miss Galey received word that her brother a sailor, had been killed. A letter from one of his mates gave the particulars of his death. He was lost one night when trying to get back to headquarters, and walked up to a house to inquire directions; in response to his knock, he received the full discharge of a gun, which wound proved fatal. His body did not arrive until last Tuesday. The body had been placed aboard with military honors, a United States flag was draped over the casket. At the funeral

twelve ex-soldiers acted as pall bearers. The body was put to rest last Tuesday evening.

Miss Galey returned to her duties Monday. May such a sorrow not be hers again for many years.

CHAPEL CELEBRATION EXERCISES

Since Tuesday was a holiday, the chapel period, Monday, the twenty-first, was used to observe, with an appropriate and pleasing program, the birthday of that character beloved of every American and revered as the Father of his country.

Following the devotional exercises conducted by Dr. Slover, P. W. Walker took the platform, and reviewed briefly with characteristic earnestness and intelligent treatment the life of Washington, emphasizing those traits in his character which have made him live and have made the day of his birth a National Holiday.

Gertrude Osborn came next with a very clever rendition of "The Birthday Lesson," which won much applause.

No less appreciated was Loraine Patrick's reading, "The Minuet," which aided by Miss Britain's accompaniment delighted her hearers. The students have come to look forward to the part the primary and grammar school people take in the chapel exercises for their part is always entertaining.

The program closed with a number by our able quartet Beights, Brummett, McDaniels and Pyeatt. They sang "Carry me Back to Old Virginia" with such true spirit that it called forth an encore. The entire program was one of the best, and it served to further the new regime in the chapel exercises—student representation.

LOOKS FINE FOR TRACK.

Material has been received which is immediately necessary for the beginning of track work. Shot, hammer, and vaulting pole are now ready for C. C.'s prospective track men.

There is no doubt that Clarendon has the personnel for a good track team. Some twenty men evidenced intentions in taking part in track work. Close has made the hundred in ten flat and should soon be able to crowd that mark again. It will take a fine rabbit to stay ahead of Garrett for a mile too. Skeen and head should make Thor ashamed of himself throwing hammer and

putting shot. Red Upton comes with a good rep in hurdling, and if Sturdivant can vault as good as he can ride outlaw horses, we entertain little doubt as to the winner there.

Men may be seen almost any time of the evening circling the quarter of town about the Hill and when Coach has had active charge of them for a couple of months, the woe is the opposition.

PRESS CLUB MEETING

A very interesting program was rendered at the regular weekly meeting of the Press Club last Monday. Wesley Upton addressed the club about reporting for the publications and was very much appreciated by the members. Mr. Upton did not fail to bring in his series of humor in his talk. Earl Clements gave a report on the cost of the publishing of the Press Club edition of the Clarco and reports that we fell short some nine dollars. The club advised the treasurer to pay the debt. The Press Club is to have a banquet soon and is to be the first to be held in Clarendon College by the club. The club means to make this an annual affair and will be put in the catalog among the amendments next year. The membership now numbers approximately fifteen and all the members of the Clarco

and Wester staffs are among them. The club has done much to the advancement of the publication and much more is expected of them in the future.

PAN POPULAR CANDIDATES SELECTED

The popular election closed last Saturday afternoon in a victory for Arch Hart and Oma Griggs, by a landslide of some three thousand votes. The number of votes cast was a little over thirteen thousand for the Pan candidates and a little less than ten thousand for the Add candidates. The senior class favorite was elected last Monday, Naomi Allison Pan Alethean, being selected, without opposition.

BASEBALL DOPE BEST

Coach Burton made the call last Thursday at Chapel, for all men intending to come out for baseball, to report on the field at 3:15. At the stated time there were thirty odd men out, eager to try a wallop or catch at the colt skin.

Of last year's letter men, we have pitcher Walker and catcher Meads back, Cooke, first baseman and Lewis of the outfield. Other candidates for a place on the

ground are O. Close, with the long left, and Smalley, of football and basket ball fame. Position behind the bat is also contested by Bostick and Phelps. Verner, who played some sixty games with the fast Rule team of last summer, is out for shortstop, with Cagle and other good competition. Second base is the prize aimed at by Geo. Close, Mounts and others, while Jim Noble, Pyeatt, Cole, and more aspirants have hitched their wagon to third base. For the "pea patch" or outfield, there are over a dozen contestants, including Vaughtner from Byers, Joplin from the baseball village of Slaton, McLaren, McCown, Campbell, Head, Hysinger, with respective competitors. With a nine selected from the above, a first class club should be made, the snappiest team around seems likely to result.

The field is not in good condition. The snow made it possible to be dragged with good results, but the work was abandoned too quick. However, Coach promises more work, and the diamond will likely be fairly smooth, with in a very few days. Regarding a schedule, five games have been matched with the Canyon Normal Club, with no specified dates, and little further is definitely known. Triumphant optimism is prevalent.

PANS RECEPTION LINE PARTY

PAN-PAN ALETHEANS SPEND EVENING IN SUPREME ENJOYMENT

Tuesday the twenty-second, was celebrated by the Panhandle Literary Society by a combination line party, including a show at the Pastime Theatre and a banquet later at the Pastime Confectionery.

A portion of the college students, who are members of the Panhandle, gathered early at the Girls' Hall, and soon after, chaperoned by Miss Howren and Mrs. Griggs, went in a body to the Pastime Theatre, where they were joined by others congregating from different parts of the town. Seats had been reserved for the party by the Pastime management, and the Pans settled themselves for the enjoyment of the show, which was no insignificant part of the evening's entertainment.

Following the show, the party adjourned next door to the Pastime Confectionery where was served the banquet that will make February 22 a red-letter day in the history of the Panhandle Literary Society. On entering that part of the Pastime curtained off for the use of the banqueters a big electric sign, colored with the colors of the society greeted the merry-makers. They stepped under the arch of the colonade that gave entrance to the land of Pan enjoyment, and passed from the realm of hum-drum college routine to one of flowers, streaming colors, music, laughter and tinkling glasses. A long, snowy-white table, resplendent as only the Pastime could make it resplendent, with everything from the dainty printed menus to the mints on the last course, extended down the hall, with a profusion of decorations above and all round.

Avis Maples, always pressed into service as master of ceremonies when levity is the order, was toastmaster. He put the party in the right frame of mind with a few happy remarks, and introduced as next speaker, Arch Hart, who deprecated the motives of any who would withhold homage from the father of our country on the grounds that, although he gave cause for the Pans' annual celebrations, he did so entirely unintentionally, and proposed a toast of welcome to the first president's birthday.

Miss Mary Walker toasted the Pan organization and during the courses that were served throughout the rest of the evening, was followed by Miss Lorraine Patrick in an inimitable reading, Miss Eunice Griggs, the Pan-Alethean ingenue, and later by Mr. Glenn Lewis, who permitted his hearers a glimpse into the distant future, and like Joseph of old, interpreted for them the things they saw. A mixed scene of desolation and of prosperity was painted by this imaginative speaker, and the musing of his hearers over his fateful words was not broken until Miss Oma Griggs proposed a toast to E. L. Craig and P. W. Walker, the two debaters on whom the Pan hopes of victory next commencement are pinned.

When the clock hands crept toward the hour of a new day the realization came that all good things must end, and regretful glances were cast toward the chaperone who began to show signs of a desire to get her charges safely back to the Hall. There followed a gathering of wraps, a shower of congratulations for the Pastime management who provided the entertainment who provided the entertainment a silent stroll back to College Hill, and the varieties of good-nights with which ended a day perfect in the annals of the Panhandle Literary Society.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantlv.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

MARTIN'S LIVE TWENTY-ONE CLUB

Met at Mrs. Baker's last Friday the ladies assembled at the appointed time nine o'clock. We began our work, hat making, re-trimming, re-shaping frames until the noon hour, each lady having brought a lunch and the hostess of the occasion had prepared dinner. The victuals were all placed on a table out on the porch, where the guests were asked to dine. Our instructor, Mrs. Chitwood declared "it was honest to goodness a real feast."

The menu consisted of the following: Light bread, pickles, boiled ham, sandwiches, chicken dressing, fruit salad, potatoes, corn cakes and delicious pie. There were twenty members present, seven new members. During the afternoon we still continued our millinery work and finished five model hats. When home going time came the house was called

to order by the president and it was decided to have our business meeting in the afternoon at Mrs. Bailey's home March the tenth. Each one having put forth real effort to accomplish something. The day was crowned with success.

ROOF GARDEN WILL GRACE NEW AMARILLO HOTEL

According to a recent statement of E. O. Thompson, principal promoter of a new hotel that will be constructed in Amarillo beginning with favorable spring weather. The hotel is to be five stories in height with a roof garden and contain 250 guest rooms, sixteen commercial rooms, laundry, ice making plant, garage and coffee room. The cost will be approximately \$25,000. The building will have a frontage of 180 feet on Polk and 140 feet on Third street.

CLARENDON POST TO ORGANIZE AN AUXILIARY

LADIES TO TAKE MORE INTEREST IN WELFARE OF LOCAL LEGION POST. INTEREST SHOWN FRIDAY.

A spirited meeting was held at the club room Friday night by the local Legionists. Light refreshments were served by the K P detail to all members and ladies present. This meeting is pronounced one of the best social meetings yet held by the local post.

A vote of thanks was given our local photographer, J. R. Bartlett, for an enlarged portrait of Aubyn E. Clark, who was killed in France and for whom the local post was named.

The officers of the post looking after the Auxiliary organization reported all in readiness for perfecting this organization. Ladies desirable for membership includes the mothers, wives, sisters and daughters of World War veterans. A committee of ladies was appointed and a meeting announced for Tuesday, March 8th, at which time final plans will be worked out and the organization perfected. This meeting will be held at 2:30 in the afternoon and it is very important that all those interested be present at that time. The club room is located upstairs next door to Bartlett's art studio.

The local post plans an annual banquet soon and a committee of Capt. Simpson, Clyde Douglas and Allan Beville, Jr., was appointed to look after the details. This will be the first real big event to be staged here.

Local members are constantly improving the appearance of their meeting place with the kindly interest of ladies who are interested in the matter. Reading matter and harmless games are being added from time to time making this the favorite meeting place of the eligible of the younger set. As a result of this increased interest, the membership is constantly growing according to reports from the secretary all of which bodes well for this worthy national organization.

KANSAS CITY WRESTLER BESTED SECOND TIME

For the second time a professional wrestler of note of Kansas City met defeat at the hands of a local man when Jack Freeman bested Joe Kirk in a wrestling match at the Pastime Theatre at Clatch Saturday night. The first fall came in twelve minutes, the only time that Kirk won. The second fall was accomplished in a space of four minutes with Freeman a winner. The best two out of three came in seventeen minutes with Jack Freeman again a winner thus giving him the honors of the occasion. Jack has won in twenty-two straight heats and is looking for another victim. Another match is scheduled to take place within a short time. Joe Kirk returned to Kansas Sunday and declares that he will not challenge the ability of our local man again, being satisfied with being downed twice in the best two out of three. The former bout took place here a short time ago in which Freeman was easily the winner.

Fans from all nearby towns were present to see the sport. The house was taxed to the limit and many had occasion to view real sport.

WHEELER COUNTY POULTRY SHOW WILL BE HELD SAT.

Poultry fanciers of Wheeler county will stage a poultry show Saturday of this week. That section has long been known for the excellent specimens of poultry entered in exhibits over the country. Mrs. Ida Chitwood, home demonstration agent of Donley county, has accepted an invitation to act as one of the judges of the poultry show. An entertainment will be held in the evening under the auspices of the Glee Club. Some of the more prominent poultry raisers of this county announce that they will be present on the occasion.

FOR SALE

Thirty or forty Rhode Island pullets at a sacrifice. Phone 113. (9c)

POULTRY INDUSTRY GAINS HEADWAY IN PANHANDLE

More and more are the people of the Panhandle section being made to realize the importance of the poultry industry as a side line. Some even have taken up the work as a profession and all are making good where proper judgment is used. The following clipping taken from the Texan, published at Dalhart will be of more than local interest since it details the success of the efforts of Mr. Bennett, formerly county agent here:

"In company with County Agent Bennett and Home Demonstration Agent Mrs. Pack, a Texan representative had the pleasure Monday afternoon of a delightful trip by auto to the Bunker Hill neighborhood. We first visited the Bunker Hill school and were given a cordial greeting by Miss Ida Lee Crabtree, principal, and her fifteen bright boy and girl pupils. At the school, both Mr. Bennett and Mrs. Pack spoke in the interest of boys' and girls' clubs, and while no organization was perfected at that time, the children desiring to first consult their parents, it is safe to predict that in the near future this school will furnish both boys' and girls' clubs to compete for some of the prizes to be given this year. While at the school the Texan person asked the school children if their parents all subscribed for the Texan, and the reply was unanimously in the affirmative.

On the return home we stopped at the fine home of L. B. Jones, where he and his estimable wife and younger son gave us a hearty welcome. Mr. Jones has one of the best improved farms in this section. He raises all kinds of cattle, and Mrs. Jones is developing a fine strain of White Leghorn chickens, and her two hundred hens were certainly a beautiful sight to see. She tells this paper that since Jan. 1920, with only about 75 hens most of the time, she has realized from this source \$425.00. Just recently she added a \$14.00 cocker to her flock from one of the best breeders in Wisconsin."

I'M TIRED

I am tired of his-women and she-men.
I am tired of moving pictures at dresses who cry glistening tears.
I am tired of imitations of celebrated people.
I am tired of stories that begin "When I was in France."
I am tired of paying \$1.50 per pound for candy when sugar is only nine cents.
I am tired of pasty-faced youths with cigarettes hanging from their mouths.
I am tired of short skirts that reveal telegraph poles.
I am tired of very white noses and very yellow necks.
I am tired—oh! shades of forgetfulness—I am tired!—Philadelphia Record.

600 bundles good sorghum for sale. Cleveland Hayter. (9c)

Mrs. Roy B. Mefferd and babe, Roy, Jr., left over the Denver Wednesday night for a visit with the lady's parents, Dr. and Mrs. W. E. Russell of Hico.

Several homes in neighboring towns to trade for Clarendon homes. Cleveland Hayter. (9c)

Cleveland Hayter spent a portion of the week looking over the Pampa, Whitdecker and nearby sections and reports conditions the best ever. He informs us that in conversation with various business men, they spoke very encouragingly, that money matters were loosening up and conditions getting back to normal rapidly.

FOR RENT—Four room house, close in. Cleveland Hayter. (9c)

THE STATE OF TEXAS.

To the Sheriff or any Constable of Donley County—GREETING: YOU ARE HEREBY COMMANDED to cause the following citation to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the citation in the County of Donley, State of Texas, and you shall cause said citation to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

CITATION IN PROBATE THE STATE OF TEXAS.

All persons interested in the welfare of Leora Carver and Virgil Carver, Minors, are hereby cited to appear before the County Court of Donley County, Texas, at the Court House in the town of Clarendon, Texas, on the 7th day of March, A. D. 1921, the same being at a regular term of said Court, then and there to contest such appointment if they so desire, and that if such appointment is not contested at such term, then the same shall become permanent. HERE FAIL NOT, But have you before said Court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same. WITNESS my hand and official seal, at Clarendon, Texas, this 8th day of February, 1921.

W. T. BRAY, Clerk County Court, Donley County, Texas. By S. Hightower, Deputy. I HEREBY CERTIFY that the above foregoing is a true and correct copy of the original Writ now in my hands. J. H. RUTHERFORD, Sheriff. By W. L. Crane, Deputy.

THE ADDS RECEPTION

HELD IN DINING HALL OF YOUNG LADIES HOME. MANY EX-ADDS SENT.

On the night of February 22, 1921, the Adkissonian Literary Society held its annual reception in the dining hall of the young Ladies Home.

The dining hall was beautifully decorated in colors that bring joy to the heart of every loyal Add and Orthonian—purple and white. The hall was a mass of gorgeous cut flowers and pot plants very artistically arranged.

About seven o'clock the Adds began arriving to escort the Orthonians into the dining hall where their eyes met with a very appetizing sight—the punch bowl. This bowl proved to be as appetizing as it looked.

After a few minutes social hour the programme was opened by Mr. Babe Garner introducing the speaker of the welcome address, Mr. Andrew Smalley. Then Dr. B. L. Jenkins made an elaborate address quoting the little poem "The Path of the Calf." Dr. Jenkins is a loyal Add and one that is always welcome at any Add affair. Alvin Osborne rendered a piano solo which adequately portrayed his talent as a good pianist. The next number was a vocal solo very vividly enacted by one of our most promising young singers, Miss Cleora Brummett.

Carl Parsons, an ex-student, and an old faithful Add in the most humorous manner, portrayed his ability as a speaker and a stunt puller. He told us how he had prospered in life and successfully passed through the "Pearly Gates" just by being an Add and informed us that we could do the same by being loyal to the Adkissonian Literary Society.

Miss Inez Christian gave a popular reading taken from "Mrs. Wigg's of the Cabbage Patch," after which Mr. Howard Beville, another ex-student and also ex-president of the Add Society made a very forceful and enjoyable talk on "Adkissonianism."

Last but not least was the Prophecy read by Miss Margaret Mickle in which she read in the dim future of the success and failures of the Adds and Orthonians. It is hoped by some that her sight was bad and she failed to read the future correctly.

On this annual occasion the light in the young Ladies Home do not go out until the hour of midnight so refreshments were not served until the late hours of the night (eleven o'clock.) Delicious refreshments consisting of hot chocolate, sandwiches, fruit salad and salad wafers were served to a large number of members of the society besides many distinguished visitors, namely: Dr. and Mrs. Oscar Jenkins, Mr. and Mrs. Harwood Beville, Mr. H. T. Burton and Miss Radie Brittain, Dr. G. S. Slover, Mrs. Schultz and Miss Irene Marie Reed.

At twelve o'clock everyone began to realize it was time for this affair, so long looked forward to to close. By twelve thirty every one had gone and the young ladies home was quiet again after several hours of the most enjoyable occasion the Adds have had this year.

PANS TICKLE CHAPELITES

In accordance with intentions of entertaining one day in every other week at chapel the Pans and Aletheans furnished a short, snappy program last Wednesday.

Of the two number presented, the first was a reading by Pauline Alexander, who seemed able to describe more worms and habits than a regular biologist. The reading was entitled "Worms" and given a very effective translation by Miss Alexander, it received much applause. The P. L. S. Quartette, with John Thompson singing first tenor, Roy Beights second tenor, William Craig, first base and Arch Hart, the rumbling second base, sang "It Doesn't Make Any Difference to Me," and were encored so persistently, it was necessary for a second appearance, this time singing "Brudnah Brown," concluding the P. L. S. part in the day's chapel services.

F. A. Story of the Strickland-Story mercantile firm of this city, left for Dallas Wednesday night to be gone several days, purchasing stock for his firm.

WARNING

This is official notice that all trespassing upon the grounds of the Clarendon Country Club will be rigorously prosecuted from and after May 6th, 1920.
