Donley Bond Issue Defeated Two To One

ROAD BONDS FAIL BY WIDE MARGIN

MEASURE IS DEFEATED IN COUNTY BY LARGEST RECORDED MARGINS.

With returns from more than half the voting boxes in Donley County, the prediction that the proposed million dollar road bond issue is defeated is a mere statement of fact. Scarcely half the voters of the county took advantage of their privilege Wednesday of this week when the road bonds were placed before the voters of the section and even with the fact in mind, the election failed miserably in its purpose.

In only a few boxes of the county was the measure given even a majority, much less the necessary two-thirds majority needed to carry the measure. Taken all together, it will possibly go down in history as one of the most decisive defeats ever seen by Donley County in its years of life and development. Unofficial figures from a few of the boxes in the county shows the vote to have been approximately two to one against the issuance of the bonds and the consequent tax on the property of the voters.

Unofficial returns from twelve boxes of the county are given herewith:

Box	For	Against
Hedley	11	363
Clarendon	297	211
Jericho	0	21
Wilson	2	9
Goldston	13	27
Martin	22	10
Lelia Lake	37	95
Ashtola	14	49
Bray	0	20
Smith	14	3
Watkins-Oiler	4	16
Giles	0	29
Total	414	834

Complete tabulated returns will be slow in coming in since the weather is of such character that most of the workers will be kept in the fields and will only bring the supplies of the election to town when they happen to be coming this way.

FATHER OF W. H. RODGERS BURIED AT BRONTE, TEXAS

Mr. and Mrs. W. H. Rodgers returned the latter part of last week from Bronte, where they had been called by the death of his father, W. H. Rodgers, Sr. Mr. Rodgers was 82 years of age at the time of his death and had lived in Bronte for a number of years. Mr. Rodgers stated that he found conditions near his father's home far from good and that they were not even planning to make a final trip there. Mr. and Mrs. Rodgers drove through the country in their car.

Mrs. Hugh Riley and daughters of Shamrock were shoppers in Clarendon Saturday of last week.

GREATER PLAN IS UP TO PANHANDLE

MEETING IN AMARILLO ON DECEMBER 5TH INCLUDES ENTIRE SECTION.

Continuing in the plans outlined in the early part of 1928 for the colonization and settling of the Panhandle, the counties from the states to the North and East who have been made successful through intensive agricultural methods, a new and larger meeting has been called for December 5th. This meeting has been termed a general conference of the Panhandle interests and will include the presidents and secretaries of the chambers of commerce, county judges, county commissioners and editors of Panhandle newspapers. The meeting is to be held in the Amarillo hotel and further consideration to the 1929 program will be the keynote of the meeting.

Plans have already been perfected and financial arrangements made covering the newspaper advertising that will be necessary in conjunction with this program, and it now remains for the Panhandle commercial interests to determine definitely what it is desirable and how to do it to successfully complete this program for 1929.

A small group conducted the preliminary effort this year and very successful results have already been obtained, but continuity of this effort is desirable if we are to get the best results.

DENVER CHANGES MANY SCHEDULES

NEW TRAIN SCHEDULE EFFECTIVE TODAY TO MEET SOUTH PLAINS.

Changes affecting the entire schedules of trains on the Fort Worth and Denver were made effective at midnight last night. Two trains will not be changed in any respect, these being Numbers 2 and 6, the trains that pass Clarendon at 6:20 and 5:40 respectively. Other changes are of considerable importance and have been made that connections may be more easily made to the new South Plains routes that open for daily schedules on the same date.

Train No. 1, running from Dallas to Denver will be changed in schedule four minutes in Clarendon. This train now leaves Clarendon at 7:32 and will leave at 7:28 from this date forward.

Train No. 7, running to Amarillo, will be changed in running time to some extent and will reach Clarendon at 11:22 in the future instead of 11:55 as it has done in the past.

Train No. 5 will continue on the present schedule and will arrive in Clarendon at 5:40 a. m. as in the past.

Train No. 2, southbound, will see no change in schedule and will continue to arrive here at 6:20.

Train No. 6, the West Texan, formerly arriving here at 12:50 a. m. will be changed in Amarillo and will reach here at 9:47 p. m. This train will catch the through train from Colorado at Wichita Falls and will continue from there as a local train. The Pullman cars will be transferred to the earlier train and will continue on to Dallas.

Train No. 8, formerly arriving here at 8:36 will now leave Clarendon at 8:06 as a local. This train leaves Amarillo at 6:00 instead of 6:45 as in the past.

Train No. 5, northbound, and Train No. 6, southbound, will make connection with the South Plains road, arriving in Plainview and Lubbock the next morning at 7:20 and 8:30, respectively.

According to statements issued from the offices of the Fort Worth & Denver in this city, the schedule is speeded up to compare with the northbound time in effect. By the present schedule, one may spend a little more than an hour and a half in Amarillo or Clarendon and still reach Fort Worth or Dallas at the same time as before the schedule was changed. The running time from the south was not changed materially.

ST. JOHN BAPTIST CHURCH

There will be a celebration of the Holy Communion on Thursday, November 29th, at 9:30 o'clock. This will afford those wishing to do so the opportunity of attending the union service at a later hour.

L. L. Swan, Rector.

COTTON REPORT SHOWS GAIN IN GINNINGS TO DATE

The State of Texas shows a small gain for the two weeks following the cotton report for October 16th. Figures are now available for ginnings to November first. The general figures for the state were made public November 8th when the report for the entire nation was published. The entire report for the state shows that 3,866,439 bales have been reported this year against 3,392,707 for the period ending November 1st, 1927. It will be interesting to note that 58 counties out of 183 reporting show a loss in reporting cotton ginned to date this year. A part of these are in the drought stricken areas of the state and a part of them are in the boll weevil area.

Counties adjacent to Donley with the exception of Childress and Collingsworth, show a gain in ginnings for the season. Briscoe again comes to the top of the class with a net gain of 4,600 bales over the period for 1927. The 1928 crop stands at 4,716 bales while the 1927 report makes this figure 117. Childress County shows a loss reporting 16,684 bales for the present season and 23,807 for the season of 1927. Collingsworth County is another of those located in the drought belt, reporting 21,349 bales for the present season against 21,680 for the 1927 harvest. Donley County shows a gain with 11,435 bales for the present season and 4,770 for 1927. Gray County is among the list that shows big gains while the 1927 report shows 2,853 for 1928 against 1,240 for the last year. Hall County more than doubled its last year report with 34,908 bales this season and 16,391 for the 1927 crop.

Mrs. Robert Couch returned the latter part of last week from a business visit to Groom.

Clarendon Schools Get a Fine Letter

When Miss Louise Landis, Assistant Supervisor of Home Economics Education of the State Board for Vocational Education, was in Clarendon a short time past for an examination of the Home Economics Departments of the Clarendon High School and College, she had some very complimentary things to say concerning the department. Miss Landis returned to the department in Austin and has written a letter to Superintendent Burton again congratulating the school on the department. The letter is dated November 15th and follows in part. The letter:

"It was certainly a pleasure to visit Clarendon and find such an excellent new home economics department. I will admit that it was beyond my expectations, and I heartily commend you and your school board and Miss Beck for making this change, but feel that the results of this complete department in your school will more than repay your community. The home unit feature indeed gives an ideal place for the teaching of homemaking. When everything is completed Clarendon can certainly boast of one of the best home economics departments in West Texas.

"I hope that it will be possible for you to extend the teaching of this course into the junior college as this would be quite an asset to your college curriculum and your college students should not be deprived of the opportunity of having this course."

SEASON'S FIRST SNOW SUNDAY

VARYING ESTIMATES PLACE AMOUNTS AT FROM SIX TO TWELVE INCHES.

Clarendon's weather bureau reported a little more than three quarters of an inch moisture resulting from snowfall in Clarendon Sunday. Snow began falling shortly after early morning Sunday and continued without a break until late in the afternoon. Various estimates placed the total fall at from ten inches to more than a foot. Some difficulty was encountered in this case since the snow melted practically all day and did not remain where it could be measured with any degree of satisfaction.

Road conditions in all parts of the Panhandle were found to be the worst they have been in many months. In the Upper Panhandle rains and snows that had fallen in the week before had created a condition that left the roads without bottom and many cars were seen stuck on all roads leading to the larger centers of the section.

The benefits to be derived from the fall rains and early snows are to be counted most heavy where the wheat farmers are concerned. Both snow and rains have practically insured the carrying through of the crop in record good shape. The no great acreage of this crop planted in Donley County and there is some damage to cotton and there will be no end of delay to the harvesting of the crop for this year due to the receipt of the moisture.

Total precipitation for the week ending Sunday will amount to a little more than one and three-quarter inches. Up to the end of the week these figures stood at 1.03 inches and the additional .78 will make the total 1.81.

LARGE ELECTRIC SIGN IS ERECTED AT LIGHT OFFICE

After some months of delay, the erection man for the sign company arrived in Clarendon and placed the large, new sign before the offices of the West Texas Utilities Company. This sign is one of the largest and heaviest in the city and combines into one sign the facilities of being visible both day and night. The sign does not hang from the front of the building as is the usual case, but stands on a heavy decorative pillar of steel, which is in turn placed on a heavy concrete base. The sign may be seen from all parts of the business section of the city and adds materially to the southern end of the city during the hours of night especially.

Mrs. Robert Couch returned the latter part of last week from a business visit to Groom.

COUNTY LIBRARY URGED IN DONLEY

EXTENSION OFFICIAL STATE LIBRARY ADDRESSES WOMEN HERE MONDAY.

Mrs. H. L. Clutter, representing the extension department of the state library at Austin, addressed a group of Donley County club women at the assembly room of the municipal building Monday afternoon and urged the launching of a movement here to provide a library for Donley County.

Mrs. Clutter had been scheduled to appear here last week but the condition of the roads between this city and Amarillo caused her to change her date and Monday afternoon a fair sized attendance heard her plea for the benefits of such a library for this county. Under her suggestion the present library maintained by the Pathfinder Club of Clarendon would be used to provide the nucleus for the project and annual funds set aside by orders of the commissioners' court would perpetuate and enlarge the library from year to year. Many counties are operating under the state law which provides for such county funds and the state department is sending Mrs. Clutter and others out on this extension work.

No definite plans have been formed, but it is thought probable that the county federation of women's clubs may sponsor the movement in Donley County.

Mrs. "Shorty" Lynn spent the week-end in Amarillo.

W. C. Lamons and Mrs. Lindsey Taylor motored to Amarillo Tuesday. Mr. Lamons is a guest in the home of Mr. and Mrs. Taylor.

LEGION TO STAGE FIDDLE CONTEST

DONLEY COUNTY FIDDLERS URGED TO COMPETE FOR PRIZES OFFERED.

The American Legion post of Clarendon is again staging an Old Fiddlers Contest and is asking that the old fiddlers of the county get down their instruments and get them in first class condition for a real battle of bows. This time, the accompanist's intention for their due share of attention and a prize is being offered for the accompanist who makes the best showing.

The contest will be staged in the College Auditorium and there is plenty of room to care for all those who wish to attend. Circulars were passed out the latter part of last week and registrations are coming in very well. Two contestants who played in the other contest staged by the Legion have already signified their intention of being the winners in this contest and serve full notice that if they do not win they will certainly give the winner a run for his money.

Tuesday night, November 27th, has been set as the date for this event and the fiddlers and their accompanists are asked to get their names in the pot early.

There are no restrictions to be placed on the players with the exception that old time music must take the center of the field. Either breakdowns or waltzes will be accepted. The older the selection, the better the folk in the audience will be pleased.

THURSDAY IS HOLIDAY NEWS OUT WEDNESDAY

Following the custom established by many year's practice, the News will be closed all Day Thanksgiving Day. For this reason we are requesting that all copy from correspondents, reporters and advertisers be in the office of the News one day earlier than is ordinary. We are setting Tuesday as the deadline for all copy and ask that this be observed insofar as possible. The News will be placed in the office Wednesday and the insertion of copy for that week must be observed. We thank you.

Rumor Persists on Courthouse Move

A persistent rumor has been making the rounds in Clarendon since early Wednesday morning to the effect that a petition is about to be circulated for the removal of the county seat from Clarendon to Lelia Lake. The rumor insisted that the move was to be backed by persons in the eastern side of the county and is based on the fact that Lelia Lake appears to be more nearly the center of Donley County than is Clarendon. It would seem that legal advice on the situation was secured from Memphis and that the petition was to be drawn and circulated at once. It is further added that such a move could be carried by a majority if it was learned that the center of the county was nearer Lelia Lake than Clarendon and on the other hand, if Clarendon were nearer, it would take a two-thirds majority to move the seat of the county government.

Clarendon people are accepting the rumor as a sort of election day joke but will watch proceedings closely to see the final outcome of the move if there be such a proposition afoot. It might be added here that the report of the proposal was brought to Clarendon by a reputable citizen of the eastern side of the county and that the word of the man doing the reporting is excellent in his home community.

Mrs. Bascom White and Mrs. Leonard Parker spent the week-end in Wellington.

M. E. REPORT IS COMPLETE AFFAIR

PROGRESS IS SHOWN IN ALL PARTS OF CHURCH AS YEAR'S REPORT IS READ.

The report of activities of the Clarendon Methodist Church as made the latter part of last week to Presiding Elder Murrell is one of the most complete reports that has been made in some time. All departments of the church show a gain and a healthy condition is found in all parts of the organization. Rev. Murrell left Monday night for Lubbock, where he was in session Tuesday in the cabinet. Rev. Allison left Tuesday morning, making the trip overland in his car.

The report of the Epworth League will probably be more interesting to the public at large than any other section of the church organization. This body shows a membership of 50. With this relatively small membership, they report having raised for all purposes \$145.00. Of this amount, \$90.00 was used in the general fund for all purposes and the remainder of \$55.00 was the Missionary Special of the organization.

The Sunday school report shows one of the liveliest bodies of the church with an enrollment of 562 at the close of the conference year. The Church showed to have received fifteen new members from this source alone. The total raised in this department will amount to \$1,435.81 and is to be divided as follows: Sunday School Day, \$33.97; Missions, \$186.17; General Expenses, \$1,215.57. This is one branch of the church that is completely out of debt, facing the future with a very bright outlook.

The Women's Missionary Society will come in for its due share of applause from the people and members of the church, having raised in all departments and for all purposes a total of \$3,084.00. This amount was raised through the efforts of 95 members, that number is now to be found on the rolls of the organization.

All things taken together, the entire church reports a total of \$13,545.18. This figure includes the salaries of both pastor and presiding elder and all other expenses of the church that have not been tabulated elsewhere. The membership of the church shows to have made a gain of 31 by profession of faith and 45 by letter, leaving the membership stand at the close of the year at 918 persons. The total raised by the church amounts to a few dollars less than \$9,000.00 and represents one of the big years of the work of the organization.

Mr. and Mrs. Guy Andis of Wichita were Clarendon shoppers Saturday of last week.

W. A. Lamons of Oklahoma City spent the week-end in the home of Mr. and Mrs. Lindsey Taylor, relatives.

BOTTLING WORKS TO BUILD HERE

BRICK STRUCTURE IS STARTED AND WILL BE RUSHED TO AN EARLY FINISH.

When the Memphis Bottling Works completed their purchase of the lot from Mr. Blake the latter part of last week, they already had their plans in mind for the erection of a plant for bottling drinks. Their contractor was in the city Friday afternoon making the preliminary surveys for the building and just as soon as the weather moderated to a sufficient degree, the actual construction was started.

The building will face the East First and Second Streets on Sully. The lot secured is twenty-five feet wide but it has not yet been learned if the building is to be extended to the alley on the west.

The past two years has seen a steady increase of bottled drinks of all sorts and Clarendon citizens have been expecting the advent of a plant of this nature here. The sale a few weeks past of a lot on the north side of the railroad for a similar purpose would indicate that two such plants would soon be in operation here.

The opening date of the new plant has not yet been set but full announcement will be made as the building progresses.

THIRD DOLLAR IS PAID ON SCHOOL APPORTIONMENT

The News is in receipt of a letter from the State Department of Education with the statement that three dollars of the fifteen dollar per scholar apportionment has been paid. Further statement contained in the letter implied that further payments would not be forthcoming until after January first. Other information contained in the letter was that sufficient news value to warrant publication.

SATURDAY IS BEST DAY FOR SUBSCRIPTIONS YET

Saturday of last week was the best day the News has seen for subscription renewals without there being some extra effort put forth to secure the renewals. A great many subscribers called in the News office, there being practically a steady stream from noon until the office was closed for the day. Two or more were in the office at times pushing their papers forward for another year. This unusual receipt of subscriptions came without undue pressure and without any extra effort being placed to secure them. Notices had been sent out on all of them, but other than that, the renewals came as a matter of course.

HOME BAKERY ADDS NEW DELIVERY THIS WEEK

Following closely in line with their policy of progress, the Home Bakery added a new delivery truck to their equipment the latter part of last week, placing it in their service on Friday afternoon. The truck is nicely finished in blue, with the name of the place of business and their trademark on either side of the truck. Clyde Naylor was elected to the place of driver of the new truck and was very proud of the new motor vehicle.

PASTIME CONFECTIONERY SOLD TO R. WILKERSON

Transfer was completed Tuesday morning of this week of the Pastime Confectionery to Richard Wilkerson of this city. The deal had been pending for some time and was completed this week. Mr. Wilkerson has had complete charge of the business after the date mentioned above and is retaining the employees of the establishment intact as it has been for the past few months. Mike Corbin will remain in the place of business as assistant for a time until Mr. Wilkerson secures the lay of the land. Jack Merchant states that he has no definite plans for the future, not knowing just what he plans to do. Mr. Wilkerson has been a resident of Clarendon for a number of years and has made many friends here. He has been in the grocery business the greater part of the time and up to the time of his change was working in the Clifford & Ray business establishment. His many friends wish him great success in his new work.

Friends of Dr. G. S. Slover will be glad to learn that he was in Clarendon for a few hours Monday of this week en route to the sessions of the Northwest Texas Conference in Lubbock.

CLUB ROOM FOR DONLEY WOMEN

WOMEN LAUNCH MOVEMENT TO FURNISH AND OPEN CLUB ROOM IN CITY.

If plans work out that are now in the making all the women's clubs of Donley County will have an organization in the spacious quarters offered for their use by the city commission of Clarendon in the newly remodeled municipal building, and these quarters will be tastefully and commodiously furnished.

For many years, while club women of other Texas counties were securing organization homes at costs varying from ten to twenty thousand dollars, the women of Donley County have had little success in finding a workable plan for such a county-wide institution, and enthusiasm is high that the city commission of Clarendon has made a definite offer for such quarters in the municipal building which has been recently overhauled, remodeled and refurnished. The offer of the city is that they will furnish these quarters provided the women's clubs will secure the proper furnishings and make use of the rooms.

In the past week a meeting was held of the presidents or their representatives of a number of the women's clubs of the county and a general plan has been agreed upon which provides a board for the furnishings, opening and supervision of the rooms. Every women's club in Donley County, whether working or social, will thus have a voice in the supervision of the project with no dues or fees whatever.

In the preliminary meeting the following clubs were represented: McDowell Club, Mrs. Ralph Kerbow; Home Economics Club, Mrs. Henry Youngblood; 1926 Boys' Club, Mrs. S. M. Braswell; Mothers Club, Mrs. W. W. Taylor; Les Beaux Arts Club, Mrs. H. Glascoe; Pathfinder Club, Mrs. H. T. Burton. Mrs. Jas. Trent, President of the County Federation of Women's Clubs, was out of the city and could not be present at the first meeting, as was Miss Harvey Thompson, county home demonstrator. The board was organized with Mrs. Sam M. Braswell, president; Mrs. H. T. Burton, vice-president; and Mrs. Ralph Kerbow, secretary, with the presidents of all clubs in the county as members. This guarantees a constantly changing board as the new presidents of the various clubs are installed.

Four committees have been named: purchasing, finance, constitution and by-laws, and calendar.

A regular meeting of the board will be held each Monday morning at ten o'clock in the club rooms at the city building, until the details of the furnishing and opening of the club quarters are completed.

LOCAL MEN RIDE DENVER SPECIAL

PARTY OF CLARENDON MEN GO ON DENVER SOUTH PLAINS EXCURSION.

Clarendon was represented in the opening of the Fort Worth and Denver new line South Plains Tuesday, when eleven local men rode with the two thousand celebrants who viewed the new lines in seven special trains switching off from the main line at Estelline and completing the jubilee journey to Plainview during the day.

Those of the party were: O. C. Watson, Odos Caraway, Tom F. Connally, Frank White, Homer Mulkey, Frank Whitlock, Ernest Byrd, T. D. Nored, Chas. Speed, Sam M. Braswell and Secretary G. L. Boykin of the Clarendon Chamber of Commerce.

Ten of the party drove to Memphis and entrained with the Hall County special, while Frank White rode with his fellow-employees of the Fort Worth & Denver.

When the delegation arrived in Plainview at four o'clock the city was thronged with thousands from the South Plains territory and the street parades and demonstrations with the various bands resembled more the annual convention of the West Texas Chamber of Commerce than any other event.

The route of the new route from Quitaque up the cap-rock is one of the most scenic in the Southwest, embracing two tunnels in its tortuous mileage.

NATIONAL EDITORIAL ASSOCIATION — PANHANDLE PRESS ASSOCIATION

Then, anyway, one can't expect to win all his votes.

Even if we did lose the road bond election, we should remember that every county in Texas has had to vote from two to four times on this progressive measure before the voters awoke to its necessity.

Clarendon business men will be asked the latter part of this week to renew their memberships in the West Texas Chamber of Commerce. Our city has supported this regional organization in a satisfactory way for a number of years and will need their good offices in 1929. Get your check book, gentlemen.

No less interested than the city commission is the citizenship of Clarendon in the need of some efficient sweeper for our paving. Besides the dust nuisance we are losing some of the benefits of street paving by the accumulation of mud, dirt, trash and sand on our paving over town. The progress of paving is like all other progress—it requires other devices to make its service what it should be.

Clarendon's business men report a great and growing fall business and the climax is not yet. Our merchants have dependable merchandise, priced to compete with any of her neighbors and Clarendon's trade territory is being extended again this fall. December will be the heaviest trade month Clarendon ever knew. Then comes 1929 with a promise of being the best year this section ever experienced. Rosy!

Clarendon and Donley County is again invited to participate in the program of advertising in the Middle-west and north for immigration to this section as exemplified by the Panhandle-Plains, Inc., this past year. A general meeting to plan for the 1929 campaign is to be held in Amarillo on Dec. 5th, and The News voices the hope that our city and county will have representation present and will co-operate in this forward-looking program in the coming year.

Under the generous offer of the city commission the women of Donley County have been proffered a commodious home for their club headquarters and now they are working unitedly and enthusiastically for its furnishing. Fine, fine! Furthermore, the women are finding out, like the men, that the profits of any one united effort are not greater than the profits of co-operation in putting the project over. We all need co-operation and we hope the ladies will write a new and brighter page for the men to look upon.

PHONES 186 AND 421

Seven heavily loaded passenger trains from various centers formally opened the new South Plains lines of the Fort Worth & Denver railroad Tuesday of this week viewing an empire in the making and what promises to be one of the most profitable diversified farming belts in the great Southwest. The coming of the iron horse was celebrated in true Western acclaim in all the towns and hamlets along the new route and everywhere is evidence of a great and substantial building movement which promises to transcend anything known in the annals of West Texas. Those who witnessed the progressive celebration from town to town were impressed with the fact that they had seen history written in a clear, bold handwriting.

Texas Baptists in convention have demanded by resolution the repeal of the law which requires a search warrant before an officer may enter private premises in effort to locate illicit liquor or arrest violators of the liquor laws, also refusing legal standing to evidence secured by an officer who secured his evidence without a warrant. This is one of the most pleasing laws to the bootleggers ever passed and is promoting more violations of the law than any act placed on the statute books of this state. It is unworthy of a white, Anglo-Saxon citizenship, which prides itself on regard for law. It should be repealed the first day the legislature can do the job, and we believe such strong pressure is going to be brought to bear on the new legislature next January that it will be promptly repealed. The Baptists are right.

PLAYING BOTH SIDES

Attorney General Claude Pollard, according to reports from Austin, plans to be a candidate for governor in 1930.

If, as is generally predicted, the 1930 contest is one between those who supported the national ticket this year and those who didn't, Judge Pollard is in an interesting position. He voted for Governor Smith and the straight ticket, but he gave aid and comfort to the other faction, and made it plain enough that his heart was not with his vote. He is in position, therefore, to woo both factions, though belonging wholly to neither. The disadvantage of such a position, of course, is that each faction may prefer someone whom it considers more deserving of reward. If the lines are drawn as closely as might be, Judge Pollard may find it difficult to win favor with either side.—Wichita Falls Times.

WHEN TO MARRY

The experts on marriage continue to advise, and the great world goes on marrying and giving in marriage. Marriage is allowed earlier among some races than among others. We are told it is a matter of climate, temperament, religion, intelligence and what not.

M. Brieux, who startled the public with his play, "Damaged Goods," now tells us that a man should not marry before he is 30, giving as the chief reason that he has not come to mature judgment.

But what has judgment to do with marriage? Statistics may be piled up to prove anything. This arbitrary meddling with Cupid's business never has got us anywhere.

A man should marry when he is in love and financially able. Some believe they are financially able on \$25 a week; others will not attempt it on less than \$10,000 a year. Marriage is a matter of nerve. And the nerve of some people! —Denison Herald.

OUTWORN ITS USEFULNESS

Educators over Texas are glad to hear that efforts are to be made at the next session of the State Legislature to repeal the Fairchild certificate law which provided for the issuance of low grade teachers' certificates. Step by step, the educational standing of Texas has been raised in spite of the low standards of teaching ability permitted in some sections, and with the abolishing of this law, Texas will rise to a higher educational plane.

At one time the low grade certificates were a necessity, for teachers were in demand, and the State educational system was not sufficiently organized to provide teachers of higher qualifications. Now this time has passed, and the need for a large number of teachers in the rural districts, where most low-grade certificate holders found positions, is no longer so urgent. The requirements for a certificate must be maintained at a higher level, and already many school systems have taken the initiative in making permanent certificates a requisite.

Texas' rank among the States from a standpoint of public education is low, but a few more constructive changes and Texas educators will no longer have to make apologies when the educational standing of the State is discussed.—Denton Record-Chronicle.

FORGET WHAT THE OTHER FELLOW DONATES

People are pretty much like sheep. What one does the rest want to do. This is as true in commendable matters as it is in less worthy ones.

Then how important for a community to have some leaders who are real men working for the good of the many.

It becomes very noticeable in civic affairs. Those who have been taught to respect the right and privileges of their fellows are quick to come to the front in a helpful spirit.

Others follow those whose opinions and good will they respect.

Some cannot afford to do as much as the leaders, but if the spirit is right their mite is as much in a get-together meeting for the public good as the larger service the leaders can give.

But there is too much "what did this or that one give?" which signifies that sheep spirit.

Does it really matter what the other fellow does, if it is plain to you that you should help?

Of course, you should not give out of proportion to the need, but you should proportion your benevolences according to your income, not your neighbor's.—Houston Chronicle.

ARE YOU ASHAMED OF YOUR BUSINESS? NO. THEN ADVERTISE IT

Is there any reason why you should feel ashamed of your business, Mr. merchant? Certainly there is no secret about it, for no legal and honest business need fear the light of publicity.

Will you lose money by advertising? It is safe to say you will not, because thousands of the more successful merchants throughout the Nation are advertising every week, and there is a general trend upward in their bank accounts.

Do the people approve of advertising? Certainly they do. The average woman reads the advertisements as regularly as she reads the society column.

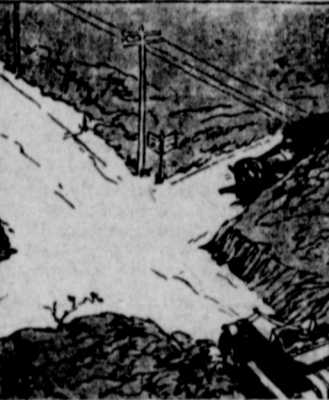

Why? Because she has learned from happy experience that It Pays to Patronize Those Who Advertise —IN THE NEWS

LAMB COUNTY WOMAN TO SELL \$5,000 WORTH TURKEYS

A woman in Lamb County, according to a Littlefield paper, will realize over \$5,000 on turkeys this year. She is Mrs. White of "Happy Hill Farm," who raises pure bred large Bronze turkeys, and will sell 700 for breeding purposes this year.

The Bluebonnet is the state flower of Texas.

Chevrolet Announces the Most Radical Change Ever Seen in Car History

Passing on to the motoring public the benefits of economies arising out of tremendous volume production, the Chevrolet Motor Company, Sunday, introduced "the outstanding Chevrolet of Chevrolet History—A Six in the Price Range of the Four."

In making this important announcement, W. S. Knudsen, president and general manager, points out that the sensational public reception accorded the car in recent years has enabled Chevrolet at this time to offer the added power, speed and smoothness of six cylinder performance at practically the same prices that contributed so much to the world-wide popularity of the four.

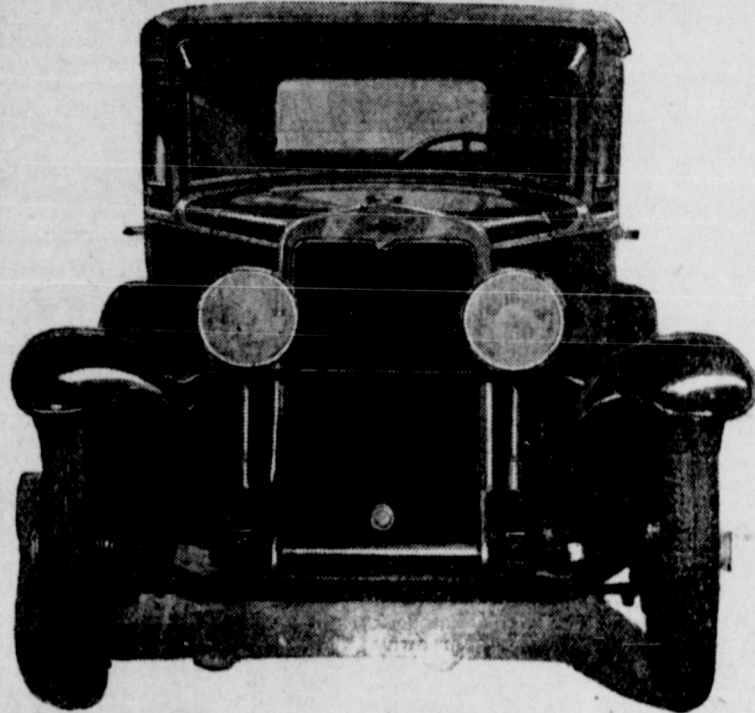

Preparations for the greatest year in its history are now being made by the Chevrolet Motor Company. Production of the new cars was started last week and

country runs, have shown that the new Chevrolet engine will operate with an economy averaging better than 20 miles to a gallon of gasoline. This is practically the same fuel economy enjoyed by the owners of the previous four cylinder model.

The motor develops 45 horse power at low engine speed and as a result of the automatic lubrication of the valve mechanism the motor is exceptionally quiet throughout the entire speed range.

Several models of passenger cars and three commercial types comprise the line, which according to General Motors officials, embodies the greatest dollar value ever offered in an automobile. Included in the passenger car line are five closed and two open models. All bodies this year carry the famous Fisher stamp of craftsmanship. The commercial car line embraces a new and

Front View of New Chevrolet

the company's fifteen giant factories across the country will be turning out cars to be shipped to dealers by December 15. Deliveries to the public will start January first.

Although no definite schedule has been set for 1929, Mr. Knudsen declared that production of the new car would probably exceed 1,250,000 units thereby surpassing all former records.

In its new offering Chevrolet has retained the highly successful valve-in-head principle. The motor is of the high compression type with a non-detaching head and develops 32 per cent more power than its famous predecessor; its acceleration is measurably greater and its speed has been stepped up to satisfy maximum requirements. The piston displacement is 194 cubic inches.

Despite this greatly improved performance standard, thousands of miles of testing under every road and weather conditions at the General Motors Proving ground in addition to many cross

larger Utility Truck of one and one-half ton capacity, a new light delivery chassis and the Sedan Delivery.

From an appearance standpoint as well as from inherent design, the car is completely new with a wide range of attractive colors and fine car appointments formerly found only on the more expensive makes.

Despite the score of advanced features, prices remain practically the same, chiefly as a result of the influence volume production. The passenger car range is from \$525 to \$725, f. o. b. Flint, Mich. The prices, according to models, are as follows: Roadster, \$525; Phaeton, \$525; coach, \$595; coupe, \$595; sedan, \$675; sport cabriolet, \$695; convertible landau, \$725. The commercial car prices are: light delivery chassis, \$400; one and one-half ton Utility truck chassis, \$545; one and one-half ton Utility truck chassis with cab, \$650 and the sedan delivery, \$595. All prices are f. o. b., Flint, Mich.

EXTENSION SERVICE BY AMERICAN UNIVERSITIES

Educational service in the form of packages of books and literature, bibliographies, outlines for study and discussion, and other assistance for persons outside the institution, is furnished 59 colleges and universities in 33 states, Hawaii, and the Philippine Islands, according to a report on college and university extension helps in adult education, published by the Interior Department, Bureau of Education, as Bulletin 1928, No. 3.

Other forms of educational service rendered by extension departments of such institutions are lectures by members of their faculties or by prominent persons for teachers' institutes, women's clubs, commencement exercises, and other occasions. In all, 195 higher institutions report this service. Visual aids for instruction and entertainment are supplied by 52 colleges and universities. One hundred and forty-one higher institutions assist local communities in holding institutes, conferences, and short courses; and 64 promote parent-teacher or other club work. Debating leagues are sponsored by 129 colleges and universities; community drama is promoted by 54, and 65 institutions report the use of radio in giving lectures or in other educational work.

ROAD BONDS SET CALENDAR AHEAD

ISSUES WORTH \$24,000,000 AUTHORIZED; TO CUT MOTORING COSTS.

By E. E. Duffy.

*Father Time is being taken by the forelock in road building as he never was before. The "pay as you go" method of building highways is being supplemented by the "pay as you ride" policy which carries with it refinements that mark the modern automobile as compared with the high wheeled auto buggy of the whip-socket era.

State road bonds worth \$24,000,000 were authorized November 6th as follows: Iowa, \$100,000,000; West Virginia, \$35,000,000; Louisiana, \$30,000,000; Missouri, \$75,000,000.

Next year portends to be a banner period for highway issues with Texas now seriously considering the passage of a \$300,000,000 issue with which to put a crimp in the vast mileage of unsurfaced, heavily traveled roads there.

Other states considering bond issues are Georgia, Mississippi, Alabama and Minnesota.

Since 1916, states have passed road issues totaling \$1,159,836,000 while from 1919 until this fall, counties voted issues amounting to \$985,417,000. Several counties passed issues November 6, including that of Will County, Illinois, for \$1,750,000 and that of Armstrong County, Pennsylvania, for \$1,500,000.

Installation buying, for such it is, has proven to be as desirable to the conduct of government as to individuals who pay for radios, automobiles, washing machines, and so on, by means of future earnings. Bond issues bring large sums of money with which highway improvements are immediately constructed so that the motorist and taxpayer, usually the same person, may save money directly in car operating costs, and indirectly through lowered road upkeep costs paid out of state funds.

Road bond issues are usually financed entirely by gasoline tax revenues and motor license fees. Highway economists point out that where motorists pay out from 9 to 15 dollars in gasoline taxes per year, based on an average use of 300 gallons, the actual return to the motorist through highway benefits will exceed this several times over.

By "paying as you ride" highway conveniences of a decade or

Does The Junior College Pay?

By Dean L. B. Cooper.

A class in Clarendon Junior College made a survey in the summer of a few of the luxuries sold by merchants of Clarendon. Twenty-six business firms who sell one or more of the articles listed below were interviewed and only one refused to give the data for which the College students asked.

The data below show the total sales for luxuries for Clarendon business during the month of June, 1928:

Bottled cold drinks.....	\$ 600.00
Snuff.....	375.00
Cigarettes.....	1,775.00
Cigars.....	1,584.00
Pipe and chewing tobacco.....	895.00
Chewing gum.....	633.00
Total.....	\$5,870.00

If \$5,870.00 is an average per month, the people of Clarendon would spend \$70,440.00 per year for these luxuries. This would be a blue town if it did not have its pop, snuff, cigarettes, cigars, pipe and chewing tobacco, and chewing gum judging from the amount being spent for these articles. The serious part about it all is that none of the habits which give rise to demands for these luxuries make for greater physical well-being; and it is doubtful if there is any great uplifting social value to be gained

so hence are available for current use at no greater cost, for poor roads cost from three cents more a mile to drive over. The saving possible here more than offsets that bugaboo, interests on bonds.

Took Soda 20 Years For Gas—Stops Now

Gigantic Poster Campaign Plan to Sell Texas to Texans Now at Work

CHAMBERS OF COMMERCE UNITED IN THEIR EFFORTS TO EDUCATE TEXANS ON MATTERS OF VITAL IMPORTANCE FOUND IN STATE. POSTERS, WINDOW CARDS AND MANY OTHER MEANS TO BE TAKEN TO PRESENT FACTS TO PEOPLE.

"Together for Texas" is the slogan adopted by the Chambers of Commerce of Texas in a widespread advertising campaign to help stimulate Texans to even greater interest and pride in their state.

"Everybody ought to know more about Texas," said G. L. Boykin, secretary of the Clarendon Chamber of Commerce. "We don't realize the tremendous resources and possibilities of our state, nor do we tell them to our visitors and to the rest of the nation nearly as much as we should. That is why the Chambers of Commerce of Texas are glad to have the opportunity, through the courtesy of the Outdoor Advertising Association of Texas, of presenting a series of poster messages to the entire State. Since November first nearly 1,500 of the big twenty-four sheet posters have been enlisted in this public service, representing, during the four months they continue, a donation of an \$80,000 advertising campaign by the Outdoor Advertising Association of Texas."

The basic thought back of this "Texas Plan" was to bring out, over the signature of the Chambers of Commerce of Texas, a series of powerful poster-messages which would arouse Texans to even greater pride in their state, by the presentation of outstanding facts and advantages of Texas, and which would also hold conspicuously before the eyes of the public certain specific lines of state progress sponsored by the Chambers of Commerce, and by the leaders in the industrial and social life of the state.

In the first poster of the series, appearing in November, over the ringing slogan "Together for Texas" the interest-challenging statement of fact is made that Texas is "The Only Billion Dollar Agricultural State!" Accompanying this is the statement of one of the state's outstanding needs: "Greater Highway Facilities! Will Help Make Texas Greater!"

In January, the poster messages will be devoted to the educational interests of the state, the fact being urged that: "Greater Educational Facilities Will Help Make Texas Greater!"

Following this, in February, the posters turn to the Agricultural field and present the fact that "Planned Planting brings bigger profits," while the line of state progress suggested is: "Greater Crop Diversification Will Help Make Texas Greater!"

The final posters of the series, appearing in March, are devoted to industry. They call attention to the "Vast power and products for manufacturing" which Texas has, and present to the public the pertinent thought that: "Greater Use of Texas-Made Products Will Help Make Texas Greater!"

The whole-hearted manner in which the Chambers of Commerce of Texas have endorsed this campaign and are co-operating in fulfilling its objectives is shown by the statements of various leaders of Chamber of Commerce activity in the state.

Col. Ike Ashburn, Vice President and General Manager of the Houston Chamber of Commerce, wrote: "I am greatly impressed by the magnitude of this Chamber of Commerce poster campaign. These messages are gotten up to portray some of the State's real strong points and their wide distribution should have a very helpful effect in impressing Texans with the worthwhileness and perhaps needs of their state."

In commenting on the campaign, Mr. M. J. Norrell, General Manager of the Dallas Chamber of Commerce, said: "It is my opinion the Chamber of Commerce poster campaign is constructive."

POULTRY OFFERING ONE OF BIG SOURCES OF INCOME

The time when the farm poultry was a "pin money" pastime for the farmer's wife is gone. The farmer who does not make his chickens contribute liberally to his yearly profit is overlooking one of his surest sources of income, in the opinion of authorities interested in bettering farm conditions.

The whole secret of bigger profits from farm poultry is contained in three simple things—better stock, more hens and better methods. It is just about as easy to handle several hundred hens as it is a few. Good layers eat no more feed than low producers, while the former return a good profit for the care they get.

Farm bureaus and state agricultural experiment stations have been stressing the need of better farm flocks for several years past. Now comes the hatcheryman himself, joining the battle to eliminate the "scrubs" from the farms of the country by pledging himself to improved quality of his chicks.

Leading hatcheries united under the slogan "Hatchery Chicks For Greater Profits," promising fair dealing, co-operation with the farmer in raising chicks purchased, and better quality stock to increase the profits from the farmer's flock.

The United States Agricultural Department reports indicate good egg prices for the coming year, as well as a profitable market for poultry as meat. Nearly all students of market prices agree with this forecast. With a favorable season just ahead the farmer with the largest flocks producing large numbers of eggs is going to reap the greatest profit.

Farm families have been too prone to look upon the poultry flock as a minor line instead of one of their most reliable sources of income. Particularly in winter, when egg prices are high, and other farm operations are at a standstill, can the farm home secure a steady and lucrative profit if its flocks are of the kind which are capable of turning out a steady supply of eggs.

FARMERS FINDING SHEEP PROFITABLE SIDE LINE

Approximately 4,000 head of lambs have been shipped from Farnsworth, lately. Sixty carloads of lambs were shipped by E. W. Biggers, and five carloads by J. W. Rogers. The farmers in this section are finding this a profitable sideline.

LARGE NUMBER BAND MEN VISIT ABERNATHY OCT. 20

Abernathy was host to a band of musicians estimated to be about 300 strong on October 20th. The musicians were members of bands from neighboring towns, and during the day played a concert and individually.

BRONCHOS SHOW A BIG IMPROVEMENT

STUDY OF SEASON'S BATTLES SHOWS REMARKABLE CHANGE RECENTLY

The Clarendon High School Bronchos started the 1928 season of football with one of the most dreary outlooks that has ever been seen by a team from the Clarendon school. With only three men back from the team of the preceding year, and with the morale of the entire team badly shattered by losses during the same year, they faced a strenuous season with little hope for making a team that would stand up in history as victorious.

Undaunted by their green and unseasoned representatives, the Clarendon High School coaches took the material in hand and have worked them into one of the snappiest and scrappiest light teams in the Panhandle section. Although their weight will not reach far above the 140 mark, they have a team that is fast and one that works well when matched with anything near their own weight.

The season was started with two easy victims, Hedley and Groom, falling before the Bronchos with scores of 19 to 0 and 12 to 0 in favor of the Clarendon bunch. Memphis was tackled and the team was frightened into believing that the Memphis Cyclone had them thoroughly outclassed. The result was found to be that the Memphis team walked away with the large end of a 47 to 0 score. The team then came home and played a decisive battle with the Wellington warriors, holding the mto a scoreless tie after Wellington had been slated to win by a large majority. Claude next fell a victim to the onslaughts of the Bronchos and were played off their feet for a score of 6 to 0 for the Bronchos.

By this time, the Clarendon boys were learning to know what to expect of their fellows and when Childress and Shamrock were tackled, both of them away from the home field, the lost, but by a score as different from their first defeat of the season as could ever be seen. In each of

the games mentioned above the score was 13 to 0 with the Bronchos on the losing end.

The final game of the season will be held with Claude in Clarendon on Thanksgiving Day. The results of the last game of the season is expected to be such as to justify the losses of the entire season before.

The total scores of the Bronchos is 37 points, while the score of the opponents amounts to a sum of 73 points. A strange thing in this connection is to be found when the scores are observed. One of them reversed will make the other. Such things are rarely found.

Why lose valuable plant food from the soil through erosion when much of this loss can be prevented by a winter cover crop? According to the U. S. Department of Agriculture, soil erosion removes 20 times as much plant food as is taken out of the soil by crops. A winter cover crop to prevent waste is especially important in the South.

BIG LAKE LIONS HELP ON ROAD BOND VOTE

To encourage the voting of bonds for the building of the Petroleum Highway, Big Lake's Lions Club gave three prizes for the best essays on "Why Reagan County Should Have Good Roads."

"Hatchery Chicks For Greater Profits" is the slogan of a national organization of hatcherymen who have united in the interest of better farm flocks through better breeding of chicks coming from the incubators.

COMMERCIAL GRADUATES FOLLOW THAT PURSUIT

That graduates of high school commercial courses are more likely to follow commercial pursuits than are graduates of college preparatory courses to enter college is indicated by a recent statewide survey conducted by the Connecticut Board of Education, involving the postgraduate record of 2,780 graduates of Connecticut high schools. The survey showed that 77 per cent of the graduates from high school commercial courses in Connecticut were actually engaged in commercial occupations, whereas only 63 percent of the graduates from high school college preparatory courses had entered higher institutions.

Commercial occupations absorbed 42 per cent, or 1,168, of the 2,780 graduates, a higher percentage than any other group of occupations. This number included 77 per cent of the graduates from commercial courses, 12 per cent of the graduates from college preparatory courses, and 23 per cent of the graduates from other courses. Of the remaining 1,612 graduates (58 per cent), 31 per cent were engaged in other occupations, and 27 per cent had entered college.

"INSIDE" INFORMATION

Squash, as well as pumpkin, can be used for pie filling. As these pies contain eggs and milk, they must be cooked in a moderate oven. To prevent the crust from becoming soggy, prebake it until it is delicately colored, but not brown, before putting in the filling.

WITH THE RIGHT BACK-ING ANY MAN CAN PUT UP A GOOD FRONT.

WHY DO THE SUCCESSFUL USE BANKS?

Merely because it is to their advantage to do so.

If men who are successful think banks are useful—and they all do—wouldn't it be reasonable to suppose they can be helpful to all classes?

100-HOUR DRIVE START-FINISH

The above photographs show C. F. Hamilton being handcuffed to a car he recently drove in a 100-hour drive, and shows him being removed from the same car at the end of the drive. Mr. Hamilton will start an endurance test here Tuesday of next week and will attempt to uphold his past records of completing drives of this nature. The attempt will be brought to a close Saturday afternoon, December 1st, at 2:00 o'clock.

ESTELLINE ADDS FIRE TRUCK-INSURANCE DOWN

The Big American La France chemical fire truck recently acquired by Estelline at a cost of more than \$5,750 will reduce the fire insurance policies by more than \$3,000 in one year. A volunteer fire department is to be organized in the near future.

A recent study of consolidation of schools and transportation of school children in North Carolina, made by the State Department of Public Instruction, shows that the number of 1-teacher schools in the State decreased from 7,867 to 2,340 during the 25 years from 1901 to 1926-27. Consolidated schools with more than six teach-

ers increased from 150 to 564 during the 5-year period 1921-22 to 1926-27. At the close of the school year 1926-27, rural consolidated schools in the State numbered 940, of which 819 were for white children, and 121 for colored children.

Material such as dry leaves, weeds, sweepings from the house and barn, coffee grounds, banana peelings, soot and wood ashes is not necessarily waste matter. According to the U. S. Department of Agriculture, these things all have some fertilizer value and can be utilized by the small farmer or suburbanite. The materials can be applied direct to the soil or composed with manure before using.

DEALERS AND CONSUMERS WARNED AGAINST CULLS

Both the State and Federal forces are actively engaged in the enforcement of the law against the sale of diseased or culled chickens or poultry of any nature. Placards have been mailed to all produce houses giving details of the plan for preventing the sale of this poultry and the operators of these places of business are being watched closely that all diseased or culled poultry should be kept from the market. The law provides that a rather stiff fine be assessed for the sale of this sort of bird and both governments are doing their best to prevent the sale of unedible poultry. Produce houses who have received this sort of edibles are required to kill them or otherwise destroy them that they be not sold.

STAMFORD TO BE SERVED BY TWO NEW HIGHWAYS

Two highways are being built into Stamford, one Highway 18 from the Shakelford County line will be completed by the end of the year, the other, Highway No. 30, will be constructed of concrete from the Haskell County line to within five miles of Anson.

MEGARGEL HIGH SCHOOL STUDENTS SEE ART WORK

The object of the Fine Arts Display of the Megargel High School Nov. 14, 15 and 16, is to give the students a chance to be able to recognize a number of good pictures at sight, by telling the artists' names, the subjects and style.

Alfalfa grown under conditions can profitably be given a top dressing of well-rotted stable manure in the late fall or winter; this not only furnishes protection against winter injury but will usually increase the yield the following season. If stable manure is not available, an application of 300 to 500 pounds of superphosphate (acid phosphate) per acre in the spring helps to maintain a good stand.

Of 47,760 pupils enrolled in evening elementary schools of New York City during the school year 1926-27, about 80 per cent, or 38,149, were of European birth. In all, 28 nationalities or racial groups were represented, exclusive of the United States, which contributed only 5,438 pupils. More than half of the pupils, 19,226, were born in Central Europe. Germany headed the list with 9,336 pupils, Russia was next with 6,040, Italy sent 5,889, and 5,385 were from Poland.

Texas has about 20,000 miles of improved highways.

WORK OF VOLUNTEERS RED CROSS BACKBONE

Men and Women Who Give Services Aid Greatly—Surgical Dressings, Knitting, Sewing Still Carried On.

Thousands of women, who were first enrolled as Red Cross workers during the period of the World War, have never ceased in their labors for that organization, but still carry on knitting garments for disabled soldiers, making dresses and layettes for children and infants, and giving hours of their time in the various volunteer activities of Red Cross work. Volunteer work by men also plays a large part in the organization of Red Cross.

This volunteer work is the backbone of Red Cross. Fully eighty-five per cent of the service this humanitarian organization is able to render the public, through public health, American Junior Red Cross, service to disabled veterans of the World War, and the service men of the regular establishment, and its many other activities, must fall upon the shoulder of the volunteer worker. Not only is this true of the national headquarters where such distinguished volunteers are enrolled as Judge John Barton Payne, chairman, and Miss Mabel Boardman, secretary of the Red Cross, and Col. E. P. Bicknell, vice chairman in charge of foreign operation, but also in every community where Chapter chairmen and other men and women devote hours of their time to fostering and planning the valuable and humane work of Red Cross, so that it may be ever ready to serve in time of distress, catastrophe or great national emergency.

In the year just ended, 253,909 garments were provided by Red Cross Chapters, including 1,399 layettes, with nineteen articles each, for use in disaster areas.

Women who rolled surgical dressings ten years ago, with the help of new volunteers, still carry on this work for hospitals in their communities, and for the Chapter's stock, where a supply must be maintained to answer emergency calls. In the year just ended, the women made 2,276,000 dressings.

No type of volunteer work is more interesting or meets greater appreciation from its beneficiaries than the distribution each December of Christmas bags—one of which goes to every service man in the Army and Navy stationed on a distant post. Each year the request comes for more bags, until for Christmas, 1928, Red Cross volunteers have been asked to provide 42,000. The bags, containing small necessities dear to a service man's heart, go to the Philippines, China, Guam, Nicaragua and all the distant ports where Uncle Sam's men are stationed.

Another service these volunteers perform, which has generally gripped the imagination of all who have come in touch with it, is the transcription into Braille for the blind of hundreds of books. Need of certain types of books for the blind first came to the attention of Red Cross through the blinded veterans of the World War. From work begun for the war blind, with a few devoted workers, this transcription of books now is being carried on by 1,029 Braille transcribers, who during this year have hand-copied 150,705 pages, and 248 titles have been completed.

WHEN YOU RECEIVE A BILL

It is an honor to receive a bill instead of getting all riled up when the mail brings you a statement of account, you should be genuinely pleased. For a bill is an indication that someone has faith in your honesty.

If you never receive a bill, it would indicate that your credit is worthless and that no one was willing to take your word that you will pay.

Credit is the most valuable thing a person can have. Money may be had by various means, but credit comes only from years of honesty and promptness in meeting bills when due. When you pay a bill, you are merely being honest.

When you receive a bill, then, meet it if you possibly can. If you can't frankly tell your creditor why you can't. You'll find him more than ready to meet you half way.

Cherish your credit as you do health, happiness, and other priceless boons, equally rare and elusive.—Ex.

Stenographic reports were made of a series of lessons for elementary grades prepared under the supervision of the efficiency committee of the central division of the Illinois State Teachers Association during the years 1925 to 1927. The lessons illustrate the teaching of reading, geography, nature study, language and arithmetic. The reporting was done by expert stenographers, and precautions were taken to prevent retouching the lessons. The lessons were thus reproduced verbatim as they were given in the classroom; they were published in pamphlet form by the Public School Publishing Co., Bloomington, Ill.

HALF MILLION PEOPLE AIDED BY RED CROSS IN HURRICANE RELIEF

Porto Rico and Florida Victims Helped by Prompt Action; \$5,000,000 Given by Public.

One of the greatest disasters, in point of loss of life and devastation of homes, in which the American Red Cross has ever carried relief was the West Indies hurricane of September last, which swept across Porto Rico, parts of the Virgin Islands, the coast of Florida and north to end in torrential rains, flooding streams in a half dozen states. The known dead in all of the areas affected was 2,259, although it was admitted that the complete total of dead in Florida would never be known. The number of injured was estimated at 3,170. Approximately 20,000 buildings were destroyed and damaged.

At the height of the emergency the Red Cross was caring for 506,410 people—that is, feeding and clothing them and arranging for whatever shelter was obtainable. As long as three weeks after the hurricane struck Porto Rico and Florida, the Red Cross was aiding 20,236 people who were sick, of these 236 in Florida and the remainder in Porto Rico, where influenza and malaria were being treated to prevent epidemics of more drastic diseases. Large numbers of Red Cross nurses were active at both points.

In Florida more than 11,000 persons applied to Red Cross for assistance, and a great number of people in Florida and also in Porto Rico still were being cared for in the matter of food, clothing and shelter as long as two months after the hurricane, while they awaited maturing crops which would enable them to again become self-sustaining.

For this relief task, the American public gave the American Red Cross a fund of \$5,000,000—the sum set forth in a proclamation issued by President Coolidge a few days after news of the hurricane was received.

The relief given by the Red Cross in this great emergency, spread over such a wide territory of sea and land, was everywhere commended and especial emphasis was placed upon the promptitude with which the organization responded. The hurricane struck Porto Rico September 13, and the first brief cabled word of it came September 14, to both Red Cross and the news agencies. Before nightfall, the national director of disaster relief for the Red Cross and a staff of four trained men had left Washington for Charleston, South Carolina, to board a navy destroyer which upon instruction of the President of the United States had been placed at command of the Red Cross by the Secretary of the Navy. And although the next day was Sunday, a Red Cross man arrived in New York to purchase a thousand tons of food for the Porto Ricans, already reported to be starving, and the Navy again placed a ship for the cargo at Red Cross command.

Late on Saturday evening there came another cable—a Red Cross nurse at St. Croix, in the Virgin Islands, addressed a plea to the mother organization in Washington and gave first warning of the plight of the people of the American possession, where no family in a population of 11,000 had escaped injury. In the meantime the Red Cross had notified its Florida Chapters that it stood ready for any service, in event the hurricane, headed toward them, did any damage. Not content with this, the Red Cross on Sunday night entrained a disaster relief director and six workers for Florida.

Money, food, clothing were dispatched immediately to both points, and before the end of the week the Red Cross was feeding a half million people.

This prompt response was made possible by the disaster relief organization the Red Cross has brought together and trained through a series of such national calamities.

Support of this work is through the annual Roll Call for memberships. The goal in the twelfth annual Roll Call to be held Armistice Day to Thanksgiving Day, November 11 to 29, is 5,000,000 members.

KERRVILLE RECEIVING NEW SANITARIUM FOR T. B.

A new sanitarium is being built near Kerrville for the treatment of tuberculosis. The building is 104 feet in length and 60 feet wide. It is located on an eight and one-half acre tract of land two and one-half miles from town.

Cultivated and forage crops agree with pocket gophers, but strychnine doesn't. These destructive rodents, which do much damage in the Western States to crops, can be controlled by strychnine, distributed on vegetable or grain baits in the main runways. Late fall is the best time to go after them in most localities.

GIRLS' CLUB NOTES

The Girls' Club at Hedley is working hard on their play that is to be given in the very near future. They are planning to put the proceeds in the fund toward the Community center.

All members of the Girls' Clubs of the county are asked to turn in their reports by the end of November so they may be examined and that the certificates may be ordered and here when promotion time is at hand.

Members of the Girls' Clubs of the county will be glad to learn that Geneva Whatley of Lelia Lake has entered the contest for the Home Demonstration scholarship. Geneva has three chances of winning a scholarship since there are three of these being offered girls in the state.

Members of the Girls' Clubs of the county are advised that they cannot start on their Bed Room Contest until the work of the last year has been completed. That is the major reason why the reports have been asked for by the end of November.

Lovely leather index cases, suitable for Christmas gifts to gentlemen. Make selection early at Stocking's Drug Store.

GERMAN, FRESH FROM FATHERLAND, VISITS HERE

A few of the guests of the Hotel Clarendon took a brief object lesson in German Wednesday night when Bernhard Pohlmann, who hails from across the Rhine, registered at the hotel for the night. Mr. Pohlmann greeted the Statue of Liberty for the first and only time about four months ago, when he didn't know a single word of English. He has picked up the language of our country pretty fast, and although somewhat broken, he can speak English enough to get across the idea he wishes to convey, and when he has been here a much shorter time than some of us he will be speaking it fluently.

The person who said that curiosity killed a cat was evidently correct, for the bunch who talked to the gentleman from Germany showed enough to kill one of the domesticated animals had one been nearby, so Mr. Hohmann was the center of attraction until a later hour.

The German was en route from Scotts Bluff, Nebraska, where he owns some land, to Marshall, Texas, where he will visit a brother, who is also late of Germany. He is driving through the country in a Chevrolet roadster.

Mrs. W. T. Hayter is in Amarillo at the bedside of her sister, Mrs. Spencer, who is ill.

Society

Bryan-Bell

A wedding which will be a surprise of the many friends is announced, having been solemnized at 6:30 o'clock November 14, when Miss Ellen Bell and Mr. Reagan Bryan were quietly married at Memphis, Texas.

The bride, whose parents reside in Wellington, has been a resident of Clarendon for the past year and a half, being private secretary to Judge J. R. Porter. She has made many warm friends during her stay here and it is with much regret that they give her up. However, they wish her much joy in her new venture.

Mr. Reagan Bryan, son of Mr. C. A. Bryan, is well known in Clarendon, having made this his home for many years and only recently entered into business at Turkey as part owner of the Hokus Pokus Grocery. He is well thought of in Clarendon, being connected with various firms who speak highly of him as a trusted employee.

After a short honeymoon trip the couple will be at home to their many friends in Turkey.

Free Art Is Subject For Party of Unusual Interest

Fittingly attired artists bedecked the basement of the D. O. Stalling home last Friday evening when Mrs. Lester Boykin, Mrs. Loyd Stallings and Miss Fray Stallings were the hostesses. The entire evening was spent in an effort to reproduce evenings in the far famed Greenwich Village where artists of all sorts foregather to ply their trades. The rooms were fittingly decorated with floor pillows, odds and ends of meals, empty bottles and other leavings indicating a long time residence.

The ladies of the party were attired in smocks, the men wore windier ties and were in their shirt sleeves during the evening. Natty green paper tams worn by the entire gathering added materially to the evening's entertainment.

A travesty on Modern art would be a fitting name to the entertainment of the evening for such it proved to be. Modernistic pictures, contributions of edibles of all sorts and blank verse took a great part of the time of the revelers. Budding young artists of varying sorts were located during the time spent in fun and frolic and the nation will probably be greatly blessed when the works of those present are given to the public.

At an hour advanced in the night, refreshments of brick cream, colored orange and pink and green were served with cookies modeled after the artist's palette with a stick of candy forming the brush.

Those present: Misses Rita Foster, Mable Mansell, Geneva Merrill, Helen Beck, Fray Stallings, Mrs. G. Lester Boykin and Mrs. Loyd Stallings; Messrs. Frank Stocking, J. G. Hutton, J. R. Wells, McHenry Lane, Howard L. Farrow, G. L. Boykin and Loyd Stallings.

Mothers' Club Meets in Home of Mrs. J. R. Porter

Though the day was dismal and dreary, a cheerful welcome awaited the members of the Mothers' Club at the home of Mrs. J. R. Porter Friday afternoon.

A large number was present to hear the lesson on "Characteristics, Habits and Uses of the Bee," with Mrs. Clyde Douglas as conductress.

Roll-call was answered by a quotation, anecdote or fact about the remarkable habits of bees. Mrs. H. T. Burton read a splendid paper bringing out the peculiarities of bees, their physical makeup, remarkable habits and unusual energy.

"Something About Bees" was interestingly discussed by Mrs. T. H. Ellis, and Mrs. R. Wilkerson told of the "Marriage Among Clovers," with special emphasis to the fertilization of flowers by the bees.

The program was then turned to the musical director who taught the members a small number suitable for children and the Brunswick furnished music during the social hour.

An appetizing salad course was served by the hostess later. Those present: Mesdames H. T. Burton, Manley Ozier, Will Bromley, J. D. Swift, Will Patman, Clyde Douglas, T. H. Ellis, R. Wilkerson, Fred Buntin, Paul Shelton, U. J. Boston, J. D. Sherman, W. W. Taylor and Jim Headrick.

A Lovely Autumn Party

One of the loveliest social affairs on the social records was the autumn bridge party given by Mrs. C. G. Stricklin and Mrs. R. L. Bigger Friday afternoon at the beautiful home of Mrs. Stricklin.

The beauty of the spacious rooms was greatly enhanced by the use of a wealth of chrysanthemums. Tallies suggestive of Thanksgiving were passed and the playing began with a zest, regardless of inclement weather.

Mrs. George Ryan was high score winner and table cuts went to Miss Maye Bennett, Mrs. John Blocker, Mrs. Kate Carroll, Mrs. Selden Bagby, Mrs. O. L. Jenkins, Mrs. Ira Merchant, Mrs. C. E. Miller and Mrs. Ralph Kerbow.

An elaborate turkey luncheon was served at the close to the following: Mesdames John Blocker, Char-

les Bugbee, Odos Caraway, Kate Carroll, Fred Chamberlain, A. L. Chase, Selden Bagby, Sella Gentry, A. R. Letts, J. L. McMurtry, W. H. Patrick, George Ryan, L. L. Swann, J. H. Morris, R. A. Chamberlain, Park Chamberlain, P. B. Gentry, O. L. Jenkins, Holman Kennedy, Forest Taylor, Ira Merchant, Carl Bennett, Jr., Clyde Price, John Ryan, Richard Bell, Forest Sawyer, W. H. Cooke, C. E. Miller, Ralph Kerbow, Charlie Bell, Misses Mildred Martin and Maye Bennett.

Junior High P. T. A. Meets

In keeping with Book Week, the Junior High Parent-Teacher Association had an interesting study on literature Thursday afternoon when it met in the auditorium of the Junior High School building for their regular monthly meeting.

Mrs. Jim Headrick read a paper prepared by Dr. Berle on "The Choice of Literature For Children." Mrs. George Ryan gave an interesting discussion on "Our Home Libraries."

Mrs. J. G. Sherman, leader for the afternoon, gave some interesting data on children's books in general.

Announcements were made concerning the Rummage Sale and the play to be given under the auspices of the Junior High P. T. A. soon. Committees were appointed and asked to begin work as soon as possible.

The P. T. A. work in Clarendon is growing. It is hoped others will come and be an active part of this worthwhile organization.

Mary Zee Taylor Is Hostess To Members of the Needle Club

The youngest organized club of the city, "The Needle Club," composed of youngsters of the primary age, was entertained by Mary Zee Taylor, daughter of Mr. and Mrs. Lindsey Taylor, at her home last Thursday afternoon.

A few stitches of needlework was followed by many games and stunts with dainty refreshments marking the close of the afternoon's pleasures.

Lois Marie Taylor was voted into the club during the course of the afternoon. Those present: Lalar Belle and Margaret Wilkerson, June McMurtry, Mildred Atterberry, Lois Marie Taylor, Dorothy Kerbow, Margaret Reavin, Kathleen and Ruezell Ryan, Phoebe Ann Buntin, Frances Grady, club members, Peggy Jean Noble and Betty Blanche Baker, invited guests.

1928 Book Club Meets in Home of Mrs. Allen J. Bryan

A much enjoyed miscellaneous program was presented Tuesday afternoon when the members of the 1928 Book Club were guests of Mrs. Allen J. Bryan at her home.

During the business meeting Mrs. Jim Haile was elected to membership. The program was opened by a vocal solo by Mrs. Rolle Brumley.

Miss Fray Stallings and Miss Helen Martin gave instrumental selections on the piano. Mrs. Bill Bromley interestingly read and Mrs. Sam Braswell gave cuttings from Elbert Hubbard's Notebook. A beautiful violin solo was rendered by Mrs. G. L. Boykin and the meeting came to a close with the serving of a palatable salad course.

McDowell Club In First Rehearsal Tuesday

The McDowell Club held the first rehearsal of their club year Tuesday evening in the parlors of the First Methodist Church. A large and enthusiastic membership was present and thoroughly enjoyed the practice hour.

In the business session plans for the Christmas concert were presented to the club by the program committee and met with the hearty approval of the members. Misses Etta and Mia Harmed, Mrs. Heath and Mrs. John Ryan have lately been elected to membership.

Much thought is being given to the Junior Boys' Chorus, which will be sponsored by the McDowell Club with Mrs. R. Wilkerson as organizer.

Mrs. Bascom White Is Hostess

A delightful and enjoyable affair of last Thursday was that given by Mrs. Bascom White, honoring the members of her bridge club.

Chrysanthemums adorned the rooms and made a more cheerful atmosphere for the playing of auction bridge. A Thanksgiving motif was carried out in the accessories and small favors. Mrs. Lenode Goldston was fortunate in the cut for the lovely favor.

The guest list: Mesdames Earl Alexander, Carl Bennett, Jr., B. C. Antrobus, W. L. Ball, Lenode Goldston, Sam Darden, Leonard Parker, Floyd Lumpkin and Miss Manette Chase.

Mrs. H. B. Kerbow Is Hostess on Saturday

Mrs. H. B. Kerbow was the genial hostess on Saturday to a number of friends with an afternoon of bridge at her home.

Shortly after the guests arrived small tallies suggestive of Thanksgiving were passed and the playing began, continuing throughout the afternoon in rooms artistically arranged with cut garden flowers.

A dainty refreshment course was served with miniature turkeys as plate favors.

The guest list, Mesdames S. M. Braswell, C. E. Killough, M. M. Noble, J. R. Porter, D. O. Stallings, Eva Rhode, J. G. Sherman, W. W. Taylor, R. Wilkerson, U. J. Boston and Fred Rathjen.

Busy Women Are Entertained

About twenty members of the Busy Women's Sunday school class, M. E. Church, South, were guests of Mrs. E. M. Ozier Thursday afternoon when they met for their regular business and social meeting.

Much work for their forthcoming bazaar was accomplished and all plans completed for the market.

A social hour followed the completion of the business and delicious refreshments were served.

Ladies' Aid Meets

Mrs. Clampitt was hostess to the Ladies Aid Society Wednesday afternoon at her home.

Mrs. Frank White presided during the afternoon and also conducted the study which embraced the 20th chapter of Matthew. The meeting close with a prayer. Mrs. J. H. Casey will be hostess to the ladies next week and Mrs. P. C. Johnson will be lesson leader.

Attention, Boys!

All boys between the ages of 9 and 12 years, inclusive, who are interested in the organization of a Junior Boys' Chorus, are invited and urged to be at the Methodist Church Tuesday afternoon at 4 o'clock for the purpose of organizing such a chorus.

PIANO-VIOLIN RECITAL PRESENTED THURSDAY

Miss Fray Stallings, member of the Amarillo College of Music faculty and Mrs. Lester Boykin, instructor on the violin, presented their students last Thursday evening in the auditorium of the First Methodist Church. A fair attendance was present, complimenting both the students and their instructors on the splendid showing made at this time. Mrs. Loyd Stallings was accompanist for the violin students. The following program was given:

"Dance on the Green," Professor Phoebe Ann Buntin. "Seven O'clock," Bilbo—Lovella Bell.

"Drifting," Williams—Joyce Smith. "Annetta Mazurka," Kramer—Joyce Link.

"Tumble Weeds," Bliss—Dorothy Jo Ryan. "Puppet Show," Trott—Virginia Cluck.

"Fairy Whispers," Bliss—Edith Pierce. "To the Rising Sun," Torjussen—Sally Smith.

"Minuet in G," Beethoven—Mary Smith. "Berceuse From Jocelyn," Godard—Agatha Taylor.

"Rustic Dance," Howell—Mary Taylor. "Concertante," Ruezzer—Verna Latson.

"The Butterfly," Merkel—Delphia Bones. "Scarf Dance," Chaminade—Margaret Christal.

"Oriental," Cui—Marjorie McKillop. "Berceuse," Chopin—Mildred Sparks.

Mrs. Walter Wilson spent the week-end in Spur.

Lovely leather index cases, suitable for Christmas gifts to gentlemen. Make selection early at Stocking's Drug Store.

I Have Bought

The Pastime Confectionery from Messrs. Mike Corbin and Jack Merchant and wish to extend a very cordial invitation to all my old friends to meet me at this place of business.

WE WILL CONTINUE

To render that high quality of service that has characterized this place of business for so many years and extend you the privilege of enjoying this service with the already long line of satisfied customers.

IT'S ALMOST TIME

To renew your Star-Telegram. Call us, or better still, let us renew your paper for you before you miss a copy.

Our stock of Thanksgiving and Christmas candies was never larger. Drop in and see them.

Home Economics Club in Interesting Meeting

Demonstrations of the white fruit cake and upside down cake were given Friday afternoon when the members of the Home Economics Club met in the home of Mrs. H. D. Tomb.

The ladies were much pleased with this demonstration and were repaid three-fold for their attendance, not only in the exchange of ideas for Christmas gifts as well.

A Christmas grab-bag party was planned and the members are looking forward to this with much expectant pleasure.

Books for everyone—at prices from 75c to \$3.00. See the line at Stocking's Drug Store.

EVERYONE IS URGED TO TAKE PART IN ROLL CALL

Mrs. A. T. Jeffries, chairman of Donley County, announces that five million members is the goal of the American Red Cross for the Twelfth Annual Roll Call, to be held from Armistice Day, to Thanksgiving, in all communities in the United States. If this goal is reached, it will mean an increase of nearly 1,000,000 over last year's enrollment.

A more representative membership is sought to enable the Red Cross to meet the increasing demands on the organization for service in disaster and in the development of its other activities, which are increasing in significance and extent in response to the public interest.

Just how gigantic the task of administering has become is indicated in the annual report of the Red Cross for the fiscal year, completed on June 30, 1928. Relief was given in a total of 66 major and minor disasters in the United States and in 22 foreign disasters. The Mississippi Valley flood, which affected a total of more than 640,000 people and required an expenditure by the Red Cross of \$17,498,902.16, is included in the list of disasters in the United States.

During the Roll Call more than 250,000 men and women, wearing Red Cross Worker's Badges, will go among the people inviting them to join for 1928. All will be volunteer workers. Dues collected will finance local Red Cross work, such as public health nursing and service to World War Veterans, and supply funds also for the national and international Red Cross program.

Donley County will play its part in enlisting members. Officers of the local chapter are now working on the annual enrollment.

100-HOUR DRIVE TO BE ATTEMPTED

PONTIAC SEDAN TO START LONG DRIVE TUESDAY AT TEN O'CLOCK.

An unusual advertising feature is to be started in Clarendon next Tuesday morning at ten o'clock. This is to be an attempt at driving a Pontiac Sedan for 100 consecutive hours and is undertaken by the Johnson-Mahaffey Motor Company of this city and has the okay of the company manufacturing the automobile in question. The car is in no wise different from those ordinarily sold, being a stock car proposition. Mr. C. F. Hamilton is the man who will attempt the drive, being locked to the car with a chain and a set of handcuffs. The car will be

C. F. HAMILTON

locked in high gear and the engine will not be stopped for the entire time of the attempt. One of the specifications states that there will be no oil or water added to the car during the life of the trial. One thing allows for the car to be stopped and that is to allow a flat tire to be replaced and during that time the motor is to continue to run and the clutch will be thrown out by the driver during the time the tire is being repaired.

Anyone may ride with Mr. Hamilton at any time and he states that he will answer any questions asked him during the first part of the drive. He asks that no one ride with him during the last 18 to 20 hours of the drive since he will be in no fit condition to do anything but watch the road and keep the car on the straight ahead.

Many towns are to be covered in the drive, these including White Deer, Borger, Amarillo, Canyon, Hereford, Claude, Hedley, Lelia Lake and Clarendon. The start and stop will be made in Clarendon.

Anyone may ride in the car, but they must get in and out of the car while it is in motion as there will be no allowances made for stops except those for flat tires. Mr. Hamilton has made a number of these drives, but does not guarantee success. He is ordinarily paralyzed from the waist down when the drives are ended and has to be helped from the car he has been driving. He will start from here at 10:00 o'clock Tuesday, November 27th, and will return to Clarendon for the end of the drive, which will stop at 2:00 o'clock Saturday, December 1st.

BASCOMB WHITE ERECTING NEW BUSINESS BUILDING

The first dirt was broken Tuesday morning of this week for the erection of a twenty-foot brick and tile business house on Third Street. This house is being erected by Bascomb White and is to be of the most modern construction, capable of handling the business of the agency for the Chrysler and Plymouth line of automobiles. Plans on the structure call for its completion at the earliest possible moment and it is thought that it will be in use by January first or a few days before this date. The building is to face the south and will be erected on the lot next the ditch. It will be twenty-five feet in width and will run the full length of the lot.

SMALL FIRE MONDAY IN RUTHERFORD'S TOP SHOP

Originating in a box of celluloid, where someone had carelessly dropped a spark, fire threatened the Connally Building at 113-15 Kearney Street Monday afternoon. The fire was getting well under way when the fire department arrived and put the blaze to rout by using the chemicals from the truck. A large crowd gathered and were evidently expecting a big fire but were doomed to disappointment when the fire was stopped suddenly. The Connally building has had a great fire record and stands as the most burned building in town with no serious losses to this date. A number of times it seemed to be doomed to be lost in the fires that were discovered, but it stands today as one of the monuments to the efficiency of the Clarendon Fire Department.

MARKET AND BAZAAR

The Busy Women's Sunday School Class will hold a Saturday Market and Bazaar in the Sun room of the Clarendon Hotel November 24th. Come and do your Christmas shopping. (47c)

Radiator glycerine, the safe anti-freeze glycerine; won't evaporate; you don't have to keep putting in more; one filling lasts all winter—At Stocking's Drug Store.

Harold White of Fort Worth, one of the workers in the general offices of the Fort Worth & Denver road, spent the fore part of this week in Clarendon, visiting in the home of his parents, Mr. and Mrs. Frank White.

Mrs. J. B. Haile returned Saturday from Lubbock.

Miss Mary Cooke has returned from Dallas.

135 Here Monday From Amarillo

One hundred thirty-five trippers from Amarillo invaded Clarendon Monday afternoon with their band and the boosters en route to the South Plains railway celebration. The trippers were as gaily bedecked as the weather would permit, carrying Amarillo bands on their hats and all of them wearing their canes as jauntily as possible. They paraded down the center of Kearney Street and the band played a number at second street, later moving into the center of the next block where the gathering was addressed by Col. Haines of Amarillo.

Following this, the trippers scattered among the business houses of the town, visiting their friends and distributing their souvenirs wherever they happened to stop. They remained here for three-quarters of an hour and left immediately for other towns along the line. They spent the night Monday in Childress and returned this morning.

BAD WHISKEY IS ENRICHING COURT

Bad whiskey costs Childress County approximately \$2,000 every 30 days, according to an estimate made this morning by Judge Ellison, of the city court, and Clifford Davis, city attorney.

During the past month more than \$1,300 was collected in fines on drunken charges in city court alone, while several fines were collected on similar charges in justice court.

It was explained that this estimate is only the initial cost and does not take into account money spent for the whiskey itself or the expense of added force necessary to successfully curb the practices.

"We have been making it hot for those brought in our court on charges of drunkenness," said Judge Ellison this morning, "and we expect to make it even hotter in the future. We are going to stop it if we can."—Childress Index.

Dr. W. H. Frye, formerly of this city, but lately of Sulphur, Oklahoma, was in Clarendon the fore part of this week attending to business matters and visiting with friends.

Happy Moments

You spot a pair of Florsheim Shoes with just the snappy note of style you admire.

And mister—when you're told the price—! Say that's a SURE ENOUGH happy moment!

Then you try them on—and you feel like purring—they're so comfortable.

There are all kinds of moments in a fellow's life—some good and others not so good. The reason we enjoy selling Florsheim Shoes is that they deliver so many happy moments to the men who wear them!

College—High School Activities

Conducted by the students of Clarendon Junior College and Clarendon High School.

HOW TO BE SUCCESSFUL IN WINNING

By A. D. Estlack.

Success is a wonderful thing. Men fight, struggle and die for it, and yet the largest per cent of them never attain that end. The majority do not realize what they are fighting for; the others realize its significance and what it is, but do not know how to go about attaining a successful life. In order to make it easier or less difficult for those who have the aim and ambition to succeed in winning, there are unlimited quantities of good sound things that might be done in order to realize this end:

Above all else believe you will win, no matter what the contest may be. Be courteous and polite to those whom you meet in the daily routine of life, and more so to those whom you meet for the first time. Your behavior stamps some kind of an impression on every individual's mind whom you come in contact with. Remember this always—it is worth your trouble. Try to save instead of spending, and pay close attention to the cost of things which you are buying. It is to your advantage that you dress neatly, and keep physically and morally clean. Make it a habit to be on time rather than a few minutes late. Be systematic rather than erratic and try listening to the other fellow's idea, it might benefit you some. Treat everyone with the same fairness that you would have them treat you. Be optimistic and meet every obstacle with a determination to win or die trying. If you can't win in a thing, make the winner break the record.

WHY WE DID NOT PUBLISH AN ANNUAL

By Dorothy McCanne.

You have perhaps heard the statement, "This school hasn't pep enough for anything—can't even put out an annual." Don't listen to it. The speaker is only a pessimist. Who dares to say that Clarendon High School has no pep? We have plenty of pep, and enthusiasm in abundance. What we lack is money—not backing, but greenbacks. Just because a fellow hasn't all the money in the world is no reason why he isn't a loyal and faithful member of our student body and willing to do all he can for activity.

Two-fifty is a lot to bring at once, with no week-end to earn it in. Not everyone has an obliging parent with a large pocket. The staff had to start in order to have the volume finished, and couldn't begin without the cash in hand.

Here we are, just where we started. We realize the student body has more than enough pep to publish a dozen annuals; we believe in the students' ability to co-operate and contribute to the best of their capacity; and are sure of everyone's interest in anything connected with Clarendon High School.

As for the financial problems, perhaps next year the ship will come in, bearing the lacking element and assuring the success of a bigger and better Broncho. We will never let one failure imperil a future success, so here's to the Broncho Annual of 1930!

HAVE YOU THE SCHOOL SPIRIT?

By "Slick" Naylor.

We could have a football team that would win every game that is played and the majority of our students would not know but what they had lost all of them from the way they turn out to the games and pep meetings. It does cost a little to see the games, but the pep meetings do not cost a cent, so why not come out and get the spirit? At the last pep meeting we had about 35 loyal and faithful students present. Now, where were the rest of you? If the question were asked this would be the majority of the answers: "I didn't know about it. Yep, you are correct, you didn't know about it and you did not try to find out about it, either. So far this year we have not had a game, either, here or away, that we have not had a pep meeting before the game. Thanks to those few loyal students. Last Friday afternoon when it was learned that the team we were to meet could not get here and that the game was called off, the announcement was made that there would be no game, that it was called off, some students asked this question: "What game?" Now that is how they try to find out about things happening in the school. There should not be a thing happen on this hill but what all students should know about it. I will be one to serve on the information bureau with a little help we will answer all of your

questions concerning the activities of the school.

Within the next few weeks basketball season will open for our boys. The girls have been playing basketball all fall and the majority of the students of our school do not know that we have such a thing as a basketball team. Now, if you did not like football, there will be plenty of excitement on the basketball court for you, so rub the rust off and lets have some real school spirit for the next six months.

Rev. Allison Conducts Chapel

The chapel exercises were conducted Friday by Rev. S. E. Allison, pastor of the Methodist Church. He made a very interesting comparison of the boy and girl of today with the boy and girl of years gone by. Reverend Allison does not think that the modern youth is any worse from a moral standpoint than it was in the past generation. His talk was thoroughly appreciated by all.

The chapel exercises Tuesday were the regular announcements made by Mr. Burton and Mr. Cooper. Mr. Cooper announced the basketball game that the College girls were to play with the faculty, and the announcement was received with much enthusiasm. Henry Wilder gave two saxophone solos which were enjoyed very much.

College Library Increases

With the recent drive put on by the school, students a number of good books have been added to the library which are of real value. The English department now has over two hundred standard books of fiction and a number of excellent anthologies. There are also on hand in this department, many text books on grammar composition, and history of the literatures. According to Mrs. Egan librarian, out of the six hundred and thirteen books contributed to the library this year, five hundred and fifty of them are desirable, and really add something to the value of the library.

Hi-Y Working on Chapel Program

Joe Noble reports that the Hi-Y is working on its program to be held in chapel at an early date. The boys are preparing a good program, and it is hoped that the students will enjoy the play they are planning to give.

Alpha Delta Psi Meets

Alpha Delta Psi Literary Society met Nov. 14, and conducted a short, snappy program. Although a short one, the program was unusually carried out and created comments of satisfaction from the members. Marue Trostle and Miss Spear gave readings which were both humorous and interesting. Both readings were well given and displayed the fact that they had been well prepared. Jane Killough rendered a very beautiful piano solo which sent sweet chords of harmony meandering up the spinal column. Katharine Smith read several witty sayings, using the name of some member of the society to make them humorous. Gertrude Witt next read "How to Cook a Husband." It was humorous and that was what the members wanted most.

Alpha Delta Psi has never failed to give a program on its regular meeting day. "Slick" Naylor says rather than to see no program, given at all, he would gladly consent to sing a solo. Judging from the response given in the past, "Slick" won't have to be the only one on the program, for there are about twenty-six more who would sing a solo if it became their duty to do so. The attendance of the society thus far has an average of a little better than ninety-six per cent.

College Seniors Get Rings

The Seniors of the College now have the rings that were adopted by the school as the official ring last year. Each year following the Senior class of Clarendon College will get these rings.

The rings are very beautifully designed having the Bulldog in the center of the ring and the words "Clarendon Junior College" around the emblem. The date of graduation is on the sides of the ring.

Interesting Pep Meeting Held Last Thursday Evening

Last Thursday evening the students of the High School and College met in a very interesting pep meeting. The meeting was opened by three or four selections from a quartette. Those taking part in the singing were Misses

Labor Head Asks Nation's Workers to Support Red Cross

William Green, president of the American Federation of Labor, in Washington, calls upon the workers of the nation to support the twelfth annual roll call of the American Red Cross, November 11-25, in the following statement:

"Through the American Red Cross we find expression for some of our noblest ideals. It is an effective instrument for magnifying many times our personal service to humanity.

"In the face of great disasters, when the injured and homeless run into the thousands, there is little we can do individually. Consolidating our strength through membership in this great organization, our opportunity for service is unlimited.

"We must not forget that every day is a day of disaster to thousands. Into homes where disaster strikes your Red Cross goes in your name to be friend and counselor to those upon whom misfortune has laid her heavy hand.

"As President of the American Federation of Labor, I hope and feel confident that the workers of the nation will respond to the Red Cross Roll Call and have a part in this organization's great work."

(Signed) WILLIAM GREEN, President American Federation of Labor.

HE NEEDED IT

One balmy night recently a young girl sat on the sands at the bathing beach. Her bashful swain was beside her. She cuddled close to him and laid her head on his stalwart shoulder, but it brought no result, except that he stealthily kissed her hair, of which she was unaware. She sighed wistfully and looking up at him with soulful eyes whispered in a voice, husky with emotion, "kiss me."

"I can't," he managed to articulate, "some sand got into my mouth."

"Then swallow it boy, swallow it," she snapped. "If anybody ever needed sand you certainly are the guy."

Egg production, hatchable eggs and the health of the farm poultry flock in the winter often depends upon the amount of direct sunshine to which the birds are exposed. Sunlight that has passed through ordinary window glass is not effective.

Hukel, Duckett, Youngblood and Alexander. These girls sang some real snappy and humorous songs. Immediately following the songs the girls gave two clever stunts. Then the crowd entered in a peppy pep meeting that lasted for thirty minutes.

Foolishness Naylor & Humphrey.

Coach Stocking has great competition in growing a "mussn't touchit." Slick Naylor is first now. Ade Estlack had a good one but he knew he was going to get a letter from a girl who didn't like them so he shaved them off in order not to have a guilty conscience.

TO WHOM IT MAY CONCERN:

I didn't intend to start the whole town to asking one question when I started out to do a little research work and asked several members of the faculty the question. That wasn't my idea at all. Now the whole town asks the same question. I merely asked, "Where do little flies go in the winter time?" I wanted to get a good answer and everybody thought there was some catch to it. The best answer was: "The same place your fists goes when you open your hand."

Yours for information, Earl.

I admire a man who has nerve enough to love two women at the same time but I can sympathize and feel sorry for one who tries it.—Earl.

My husband is an awful liar. I don't know, I think he is pretty good at it.

Colored Lady at Depot: I want a ticket for Magnolia, please. Agent, After Studying the Chart: Where is Magnolia? Colored Lady: Here is Magnolia, right here on this suitcase.

Opal: Don't you love driving on a night like this? Leonard: Yes, but I though I'd wait until we got further out in the country.

Joe is taking agriculture. What for? He wants to know how to sow his wild oats when he goes to Paris next summer.

When you get married twice it is polygamy, isn't it? No, it is damn foolishness.

Can I take you to the dance in these clothes? No, thanks, I have my own clothes.

I think Coach's girl is just as pretty as a picture. Yes, but what a frame.

"Take it from me," said the cow as she came in to be milked.

Cow Chow Does Pay Best

Say 24,919 Cows in One Survey

ACTUAL figures from 1,350 dairymen, feeding 24,919 cows, showed that Purina Cow Chow made 3 1/2 pounds extra milk per day per cow. That's an average extra profit of \$2.40 a month from every cow!

What Cow Chow has done for these dairymen—and for thousands of others in every part of the country—it can do for you. Let your own figures prove Cow Chow's value to you.

NEWS' WEEKLY COTTON LETTER

COTTON PRICES ADVANCE; CONSUMPTION HEAVY

A continued steady undertone prevailed in the cotton market during the week November 10-16, with final quotations up 1-8 to 1-4 cent per pound, compared with those Nov. 9. Domestic and foreign demand was only fair. According to Weather Bureau past week on the whole was favorable for cotton harvesting. According to the Bureau of Census, domestic mill consumption for October amounted to 618,788 bales which is highest figure ever recorded for any previous October and compared with 613,520 bales for October 1927. Domestic consumption ended Oct. 31 for three months, was 637,738 bales compared 1,875,824 corresponding period last season. Quotations midding, 7-8 inch spot cotton Nov. 16: Norfolk 18.85c, Augusta 18.69c, Savannah 18.76c, Montgomery 18.15c, New Orleans 18.75c, Memphis 18c, Little Rock 18.06c, Dallas 18.05c, Houston 18.65c, Galveston 18.85c. Average price these ten markets Nov. 16 was 18.49c compared 18.26c Nov. 9, and 19.32 year ago. Sales spot cotton for week ten markets 242,880 bales compared 146,881 previous week and 134,464 last season. December futures for week at New York advanced 25 points to 19.51c, at New Orleans 13 points 18.81c, and at Chicago 13 points to 18.90c. Certified stocks Nov. 16: New York 6,484, New Orleans 4,469, Houston 6,182, Galveston 2,545. Total stocks New York 10,839 bales, New Orleans 287,464, Houston 873,571 and Galveston 638,720. Exports from August 1 to Nov. 16 this season, 3,032,573 bales compared 2,802,858 same period year ago.

NEW YORK - PARIS FASHIONS

CHANNEL each year brings out several new and important ideas in accessories which she shows with her collection of models and which are always among the most successful of all the accessories to be found in Paris. This season she is making a great feature of fans and one particular fan, at that. It is perfectly plain, covered in heavy satin with no ornamentation of any kind and with the satin and the sticks which are apparently of pyralis, in exactly the same shade. These she shows in many colors, always matching the gown they are carried with and because of their simplicity, they have a very new air about them. The fan sketched is of red and was carried by the mannequin who wore one of the favorite evening dresses in the whole collection. It was a new stiff mousseline, not unlike the organdie and had a deep band of shirring well below the hips from which the skirt flared out and hung in great soft petals. This was in the same red as the fan. Chanel also uses broad fans for fans, but not so often as satin.

The coast line of Texas has a tidal shore line of 624 miles and a straightway mileage of 370 miles.

LIGHTING FOR FLYERS SHOWS RAPID GROWTH

More than 200 million kilowatt-hours of electric current will have been used during 1928 to light American airports and six million more kilowatt-hours to light airways, according to a study just completed by E. G. Hery for the Electrical World.

The rapid development of this phase of aviation appears in the number of miles of airways already illuminated. This total increased from 3,149 at the end of 1926 to more than 7,500 at the present time, and it is estimated that by June, 1929, there will be more than 13,000 miles of lighted airways in the United States.

Lighting of airways is mainly done by means of beacons about ten miles apart. These are mounted on fifty-foot towers and rotate six times a minute. They are equipped with 1,000-watt lamps and develop about two million candle power.

In addition to beacon lights, airports are equipped with illuminated wind indicators, boundary lights, floodlights, obstruction lights, ceiling projectors and building floodlights.

At the end of 1927 there were in the United States, 1,047 airports, including those owned by the government, by municipalities and by private organizations. In addition to these there are approximately 4,500 unimproved auxiliary landing fields.

Seventeen radio stations are already in operation along the transcontinental airways for interstation communication of weather information and other messages essential to safe flying.

FRUITS AND VEGETABLES SHOWED POORLY IN OCT.

Austin, Texas, Nov. 12.—Fruits and vegetables made a rather poor showing in their movement to market during October, according to Bervard Nichols, assistant in charge of index numbers in the Bureau of Business Research at the University of Texas.

"The record is still less encouraging in view of the fact that plantings in most cases are above those of a year ago, and large crops have been matured," Mr. Nichols said. "Prices are low, but markets have improved recently, and the outlook for higher prices over the winter months is much brighter."

"During the month, 225 cars were loaded, against only 96 in September and 292 in October, 1927. Ordinarily, September is the low month of the year, so that shipments should increase substantially over the next few months."

RED CROSS FIGHTS DEATH AND DISEASE

Four Nation-wide Services Promote Health Preservation and Accident Prevention.

A nation-wide program for preservation of health and prevention of accidental death is one of the great services of the American Red Cross. Four bureaus, manned by experts, direct this work. They are the Public Health Nursing Service; the First Aid and Life Saving Service; the Home Hygiene and Care of the Sick Service, and the Nutrition Service.

These services aim at preservation of health through skilled nursing care; prevention of loss of life in accidents; prevention of illness, through cleanliness in the home and knowledge of methods of care of the sick; and raising the standard of physical efficiency through proper eating.

This nation-wide campaign against disease and accidental death is conducted through a majority of the 3,522 Chapters of the Red Cross. It is a community campaign, fitted to the health problems of each section.

The Red Cross, through its Chapters, is the largest employer of trained Public Health nurses in rural work in the United States. In its campaign for preservation of health and prevention of disease it has aided in establishing 2,900 or more community nursing services.

At the national headquarters an enrollment of nurses is maintained, which forms a great nursing reserve. Under its Charter from Congress this Red Cross Nursing Service is the official reserve for the United States Army and Navy Nurse Corps. In addition, these nurses are available in time of disaster or epidemic. This reserve list of trained nurses has in 1928 reached its peak in number enrolled—there being now 47,000 nurses qualified under Red Cross regulations who may be mobilized in time of emergency.

The comprehensive, nation-wide program of instruction in First Aid and Life Saving maintained by the Red Cross is in answer to the appalling total of accidental deaths each year in the United States.

In its First Aid instruction among firemen and police forces, in factories, railroad centers, great industries, and public utilities, the Red Cross annually reaches more than 160,000 men and women, whom it teaches to be alert, ready in case of accident, to apply first aid treatment.

The campaign against accidental deaths through drowning has been carried throughout the country, and there now are 173,506 men and women, boys and girls, qualified as Red Cross life savers, expert in resuscitation, etc.

Photographs of about 100 ancient maps, made by noted royal geographers of France and explorers as early as 1580 to 1700 are made available for study by students of the University of Wisconsin by the Colonial Dames of America for Wisconsin. The old maps from which the photographs were made, now in the archives at Paris, present the earliest geographical knowledge of the Great Lakes region. The early explorers sought a route across the continent, and they expected to find a river flowing west.

BLAKE SELLS TWO LOTS IN CLARENDON LAST WEEK

W. P. Blake, former citizen of Clarendon and now a resident of Amarillo, concluded transactions in the latter part of last week for the sale of two of his lots in Clarendon. One of these, where the grinding mill and feed store of Mr. Thomas now stands, was sold to Mr. Thomas. The building was also included in the transaction. The News failed to learn if any changes are to be made in the present building, or if it is to be left as it now stands. The other lot sold by Mr. Blake is located just north of the Dunn's produce house and was transferred to the Memphis Bottling works. His residence in the rear of these two lots was also rented and will be occupied as soon as the garage building can be completed. Inclement weather the last of the week prevented the speedy completion of the improvements.

FREE WATER ADVICE AVAILABLE FROM T. U.

Austin, Texas, Nov. 19.—Free engineering advice on water supply problems is offered to any city or municipality in Texas by the Bureau of Industrial Chemistry at the University of Texas, according to Dr. E. P. Schoch. The work of the Bureau has recently been extended to include this service.

The water plant at Seguin, built at a cost of \$35,000, was designed by the Bureau, and plans for the Brenham water plant have been drawn up by Mr. Schoch. For a number of years, Austin operated under a temporary emergency system, the plant for which was designed by the Bureau. Although provided for by the Regents of the University, the Bureau of Industrial Chemistry is a State bureau, Dr. Schoch said.

The export business of Texas amounts to more than \$700,000,000 a year, making Texas one of the leading export states.

There are 422 fire marshals in Texas. Fires in Texas in August caused a loss of more than \$1,124,165.

PETROLEUM INDUSTRY IS HOLDING OWN IN TEXAS

Austin, Texas, Nov. 17.—"For the past few months, production and consumption in petroleum in Texas have been pretty evenly balanced, so that the statistical position of the industry has changed very little," Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas, said in a summary of the petroleum market during October.

"Each month the large output of crude is about offset by the heavy run to stills," he continued. "Moreover, gasoline consumption is holding up better than usual for this season of the year."

"A total of 22,600,000 barrels of crude oil was produced in Texas in October, compared to 21,979,000 barrels in September and 19,215,000 barrels in October, 1927. Field work was very active, 587 wells being completed, of which 351 were producers."

CHILEAN SCHOOLS ARE MANNED BY FOREIGNERS

Preparatory to the erection and inauguration of vocational schools in Valparaiso, Chile, for the establishment and maintenance of which a considerable estate was left by Don Federico Santa Maria, architects have been sent to the United States and to Europe to study vocational school construction and courses have been formulated. According to terms of the will, principals and teaching staff of the schools must be foreigners, and they will be selected at an early date in order that they may have time to acquire facility in the use of Spanish, and may also participate in decisions concerning school construction and equipment. It is hoped to start work on the schools on December 20, the third anniversary of the death of Senor Santa Maria.

The Friona Women's Club is sponsoring a move to secure the services of a county health nurse for the purpose of assisting in and directing the health inspection of the pupils of the schools of the county.

FOUR-YEAR COURSES IN THREE-YEAR SCHOOLS

A plan for rotation of grades in rural schools has been inaugurated in Cost Rica, by executive decree, in the effort to give the advantages of at least fourth-grade education to all people in rural sections of the country. Three schools having at present three grades a fourth grade will be added. In schools having only two grades, first-grade work will be discontinued next year and second and third grade instruction given; the following year, third and fourth grade; and the year following, fourth and first grade work, completing the cycle of instruction in four years.—School Life.

LIVING ROOM CONTEST ANNOUNCED FOR COUNTY

The County Home Demonstration Agent, Miss Harvey Thompson announced the fore part of this week that the Living Room Contest for the present year would start on schedule about December first. To this date, seven entries have been received and others are expected to be in before the first judging takes place. The first report on the living rooms entered in the contest is to be made by Miss Thompson and two other judges that she will select. The official score card of the contest will be used and the notations will be kept for reference when the finals are judged. The score card is divided into eight different sections and will total 1,000 points if a perfect score is reached. These points to be graded are: Sanitation, 35; lighting, 110; heating, 110; interior finish, 100; floors and covers, 75; furnishings, 270; general appearance, 100 and adaptability to

the needs of the family, 100. As has been mentioned above, the original score card will be used in judging the finals, which will close for the county about April 15, 1929. Judging for this county will follow between the dates of April 15 and May 1. The contest is being staged through the efforts of A. & M. College and the Semi-Weekly Farm News in the state and is being handled locally by Miss Thompson. Prizes are being offered in the State and District and will be provided in the county by the business men of the county. The rooms will be judged and their rating will be determined by the percentage of advance as based on the card, as compared with the cost. The room with the most improvement at the lowest cost will in all probability be adjudged the winner.

Get rid of freezing worries with one filling of radiator glycerine. Sold at Stocking's Drug Store.

SECRETARIAL SCREENINGS

Clarendon Chamber of Commerce
G. L. BOYKIN, Secretary

The Chambers of Commerce of Texas are joining in a campaign to sell Texas to its inhabitants. If you see the "Together for Texas" sign get the spirit. If we are all for Texas we will have a better state. The U. S. Chamber of Commerce also joins in the plan with its Texas organization. The Texas Commercial Executives Association also indorse the move, with a hope that all agencies in the state will become more sold on the possibilities of our great empire. Lets be "All together for Texas." We have window signs and stickers bearing the words, if you want one we have it for you. Business men are requested to display these stickers where ever possible. We have them to furnish you for the asking.

The date of the annual banquet of the Chamber of Commerce has been set for the night of January 15th. We should have one of our best meetings this year. The method of election of new directors will be the same as in former years. A speaker for the occasion has not been announced but will as soon as he has been selected. Keep the date on your mind and come out. It does not happen but once a year.

Four new directors will be selected for 1929 to take the places left vacant by the expiration of a two year term of Joe Goldston, J. T. Patman, J. R. Porter and G. G. Kemp. The three directors remaining on the board are C. J. Douglas, H. J. Edington and O. C. Watson.

Rain, snow and a good season in the ground mean a good prospect for next year's crops, with but little damage to present cotton in the fields and ungathered. Donley farmers who planted wheat this fall seem good for another crop, that paid some so well this past summer. Cotton is the money crop of the county but not the only one.

CHAMBERLAIN DEMONSTRATION CLUB HOLDS MEETING

The Chamberlain Home Demonstration Club met Thursday, Nov. 15th, in the home of Mrs. Loyd Reid with twelve members present. All these took active part in the program, which was led by Miss Thompson. The subject up for discussion was "White Fruit Cake" and was very interesting since a cake was made as a demonstration. The next regular meeting of the club will be held in the home of Mrs. H. R. Skinner and the subject to be discussed is "Christmas Program."

SIXTH ANNUAL SALE OF HEREFORDS JANUARY 30-31

The sixth annual Registered Hereford cattle auction will be held at Hereford, Texas, on January 30 and 31. Members of the committee sponsoring the sale announce that over a hundred head of cattle will be sold. The sale will be widely advertised.

We have in our window a magnificent dining room suite of genuine Walnut Veneer, well constructed and the very latest in design. Suite consists of buffet, table, five guest chairs and host chair. Priced at \$145.00. This is an exceptionally fine value, made possible by buying direct from the factory in several carload lots.

Our Direct Action Gas Ranges are just what you need to bake your Christmas turkey. Broil in the top and bake in the bottom at the same time, at a different temperature.

LIONS SCORE IS NEARLY PERFECT

WITH ABSENT LIONS IN MAKE UP ATTENDANCE PERCENTAGE RISES HIGH.

The percentage of attendance on the Lions Luncheon Tuesday of this week was one that was almost perfect. Six Lions were absent from their usual places round the luncheon board, but these will either make up their luncheons or will have a special luncheon to make up their records. Twenty-six were present at the Antro Hotel and six were unaccounted for in the list of those who might have attended a luncheon.

The proximity of the luncheon date to the election in which the road bonds of Donley County are to play such a prominent part gave the Lions subject to discuss that was dear to the hearts of most of those present. The policy of laxity that has marked the campaign to this date was urged to be set aside and the Lions were practically all agreed that a good vote must be secured if the ear of the State Highway Department is to be secured when Donley County wants another election.

A great percentage of the members took an active part in the discussion of this vital matter and it was the consensus of opinion that a great deal of work was to be done immediately. The history of a part of the highway under discussion was given to show that the lax attitude of the Highway department as pertained to this particular stretch of road was not of recent months, but that it reached back into the administration of Governor Pat Neff.

The cost of the road bonds to the average taxpayer of the county was discussed and it was learned that the county valuation did not raise the taxes a great deal. This was found to be true in both the property of the resident in town and the resident in the rural sections of the county. The first glance at the valuations would make it appear that the increase would mean many hundreds of dollars, but all instances where the county valuation was taken alone, it was learned that this was approximately one-third of the amount involved otherwise.

It being too late for any great amount of constructive work on the part of those favoring the proposal, the Lions suggested that all possible be done to secure the largest possible vote whether it be for or against the issue of the bonds.

HOME DEMONSTRATORS MEET IN HEDLEY 24TH

The County Home Demonstration Club Council for women will meet in Hedley on Saturday, November 24th. The basement of the First Baptist Church will be the scene of the meeting and the hour for the gathering has been set at 2:00 p. m. Miss Thompson asks that a full corps of the ladies be present for this meeting since there are many items of interest to be discussed at that time.

MERCHANTS BEGINNING CHRISTMAS ADVERTISING

There are some who would be surprised to learn that some merchants of Clarendon are planning their advertising for the Christmas season.

by to the holiday and festive appearance of the town.

The matter is being handled by the Chamber of Commerce and the local officials of the West Texas Utilities Company and the cheap cost of the project will lend itself to the adoption by many of the business houses of the city.

The basketball game between the College girls and the members of the faculty was announced by Lion Cooper.

Adjournment followed in the usual manner.

mas Holidays and for the entire holiday season of the year. It might be interesting to know, too, that there will remain only twenty-six shopping days before Christmas after this paper has been read. Many merchants are already asking that their patrons do their Christmas shopping early and avoid the last minute rush.

H. W. TAYLOR, MAYOR FIRST TO JOIN RED CROSS

Mayor H. W. Taylor was the first person in Clarendon to enroll as a member of the local chapter of the American Red Cross during its annual Roll Call which began November 11th. In a proclamation issued simultaneously with his membership contribution, Mayor Taylor praised the work the Red Cross is doing in this community, and expressed pleasure in being able to participate in it.

The Mayor also called attention to the Red Cross flag which is now flying, at his order, from the City Hall. He stated that the Red Cross flag can fly on a level with the stars and stripes, and as it waves over Clarendon from November 11-29, it is emblematic of the co-operation of Clarendon in the national and international phases of the greatest humanitarian undertaking of all time.

The Mayor's action was the opening gun of the Red Cross

Roll Call here, and Mrs. A. T. Jeffries, local chairman of the campaign, expressed a belief that this community would fulfill all of the high expectations held for it in its response to the opportunity to join the organization.

PADUCAH WHITE WAY TO BE ONE OF THE BEST

Paducah, Texas, Nov. 19.—Keeping pace with the rapid growth and expansion of the city, Paducah will soon boast of one of the finest white ways of any town in West Texas.

The West Texas Utilities Company is constructing a series system of ornamental street lighting in the business section. The contract calls for 34 standards mounted on the sidewalks, with wiring underground.

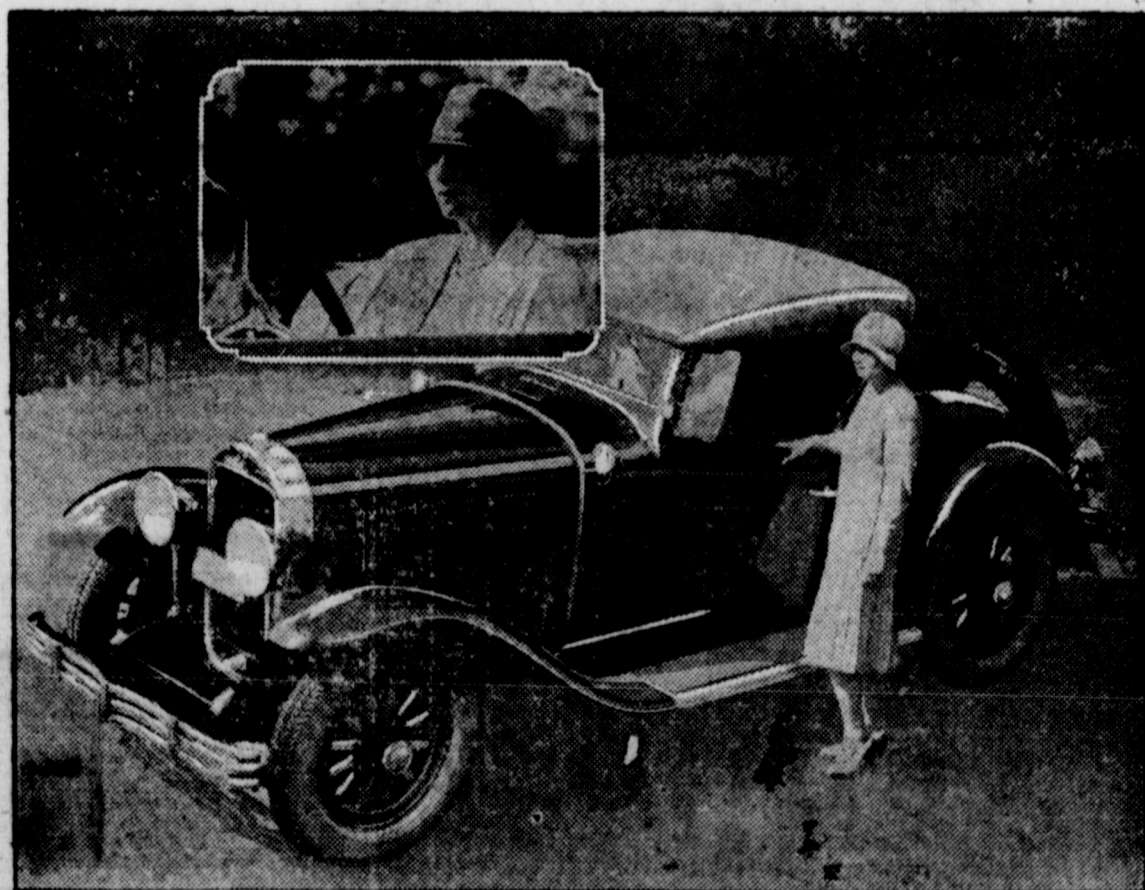

This lighting system will replace the old system consisting of 17 standards located in the middle of the street.

Maclin Butler spent the week-end in Amarillo.

Mrs. G. S. Darden of Sweetwater is visiting in the home of her mother, Mrs. Weatherly.

Mr. and Mrs. J. M. Simpson and daughter, Miss Robbie D. of Amarillo, were visitors in the J. R. Porter home last Saturday.

King of Cars for Court Queen

Helen Wills, monarch of all she surveys in the realm of tennis, has purchased a new Silver Anniversary Buick for her personal use. Known on the Pacific coast for her ability as an artist almost as well as for her tennis, she believes the new Buick is the new vogue in motordom. In the photograph, Miss Wills is shown with her new roadster.
