Baptist Revival Closed Sunday Night With Additions

Church Workers Encouraged With Results Of Revival Of Two Weeks

The revival being conducted at the First Baptist church by the pastor, Rev. B. N. Shepherd, came to a close with the services Sunday evening. There has been some thirty additions to the church roll as a result of the revival, most of which were by baptism.

A great deal of credit for the success of this revival is due to the leadership of Lee A. Stulce, musical director, who also had charge of personal work without which a pastor is greatly handicapped. The pastor also had the kindly co-operation of a sincere membership ever willing to lend a helping hand in the cause.

Twelve received baptism at Sunday night's services and several more will follow. The leading members of the church feel that much good has been accomplished for the town in general as well as surrounding territory. The personnel of the church has been greatly strengthened and the workers of this church enthusiastically look to the future.

Mr. Stulce has accepted work with a church in Monroe, Louisiana as educational director, and will take up his duties there at once.

Mrs. R. G. Dillard of Amarillo is visiting her parents, Mr. and Mrs. F. H. Bourland this week.

Z. T. Beaty Dies Suddenly At Hedley Early Saturday

Was Identified With Gin Interests In Hall And Donley Counties

Returning from an Oklahoma business trip the day preceding, Z. T. Beaty suddenly expired at his home in Hedley about 5:30 a. m. Saturday morning while in the act of taking a dose of medicine.

He complained of a slight illness during the night but there was no apparent cause for alarm. His sudden demise was a shock to his family as he was evidently taken by a sudden heart attack.

Mr. Beaty came to Hedley from Memphis some four years ago and for a time was associated with Ed Dishman in the gin business. He later purchased the gin plant and operated it as an individual when Mr. Dishman purchased gin interests in and moved to Memphis.

Funeral services were held at Hedley Sunday afternoon by the Reverends Kennedy, Hutto and Landreth, after which a large concourse of sorrowing relatives and friends accompanied the remains to Clarendon where interment was had late Sunday afternoon.

The deceased is survived by his widow, a daughter, Miss Irene who is teaching school at Burkburnett, and a son, Jack Beaty, who made his home with his parents. Mrs. J. A. Sowell of the Martin community and Mrs. Ragland Hillman of Windy Valley and Mrs. Chic Watson of Stephenville are sisters. W. W. Beaty of Memphis is the only brother surviving. Miss Dewey Mitcham with the Hanna-Pope mercantile company of this city is a niece of the deceased.

Alderson Opens Studio In McLean Saturday

Earl Alderson, owner of the local Alderson Art Studio & Gift Shop here, has opened a studio in McLean, Saturday being his opening day.

The new firm is located next door to the Southwestern Public Service office in that city. McLean was selected over other towns because of the general prosperous condition of both town and country around it.

Mrs. C. L. Craig of Pampa visited her mother, Mrs. F. G. Patching here Sunday.

Father Of Pat Longan Dies At Colorado Home

Pat Longan, one of the leading citizens of the Pleasant Valley community where the family has resided for a number of years, received the sad news of the death of his father at Loveland, Colorado Saturday.

Loveland was the family home of the Longans and Pat Longan moved from there to Donley county. Mr. Longan and two children left immediately upon receipt of the message. The Leader joins with the many good friends of this estimable family in expressing their sincere sympathy in their sad hour.

Financial Report Of County Clerk In This Issue

The annual financial report of the County Clerk of Donley county appears in this issue. The report shows expenditures for the past year and what they were paid for. It also shows county indebtedness in outstanding bonds and warrants.

The report makes interesting reading for those who do not know how county funds are handled, or little of the matters with which our county officials have to deal during the tenure of office.

Cost of road work in each precinct is shown as well as the amount of machinery investment of each. It is the purpose of a publication of this kind to acquaint the taxpayers with the manner and method of handling tax money as provided for under the laws of this state.

Bargain Hunters Profit From Leader Ads

Those who would save money and get the best quality of merchandise, read the advertisements appearing in the Donley County Leader. Our lady readers keep up with the latest styles in clothing, furniture and other forms of merchandise in which they take a decided interest.

Buy from our advertisers. They make it possible to give you a better paper. If we can get enough advertisers to pay the bill, we will give you fifty per cent reading matter space. We should be giving you 16 pages of good live news each week. If our advertisers find it profitable to use our space we can do it. We would do as much for you any time, and we believe you will help us to give you a better paper on through the year.

Frank Whitlock Becomes Grandfather Thursday

Frank Whitlock, popular barber who has conducted a shop here for many years, has been receiving the congratulations of his friends the past few days due to the fact that he became a grandfather Thursday.

The occasion was the birth of a daughter to Mr. and Mrs. Geo. Garrison at Adair Hospital. Mrs. Garrison was formerly Miss Lucile Whitlock.

The little eight pound lady has been given the name of Frankie Arlene.

Smiths Enjoy Visit With Children Past Week

Mr. and Mrs. W. H. Smith enjoyed a family reunion visit the past week, three of their children being with them. A daughter, Mrs. Gertrude Emerson, lives at Lakeview down near Plainview. Another daughter present was Mrs. Pearl Owens of Abilene.

Mr. and Mrs. Harvey Smith of Plainview were also here for the reunion. They returned home the first of the week while the daughters remained until Friday.

Uncle Bill, as his many friends are pleased to call him, wants to sell his beautiful home place and retire as he feels that he is getting too old for active farm work. There is no prettier home place near Clarendon, but even at that, this lovable old couple will be greatly missed should they leave here.

Mr. and Mrs. C. M. Lane are visiting at the home of their daughter, Mrs. Thomason, at Ralls. Mr. and Mrs. Carl Parsons and son were visitors in Wichita Falls Sunday and Monday.

Donley County Farms Being Saved By Terracing

County Agent Spends Busy Week Giving Instruction With Level

Spending all of the past week in the field with a level, county agent T. R. Broun is finding an ever increasing number of farm owners who wish to save their land from further deterioration by erosion.

It being the primary duty of the County Agent to teach the farmer how to help himself, Mr. Broun started a number of terracing crews on the job the past week and will continue with the work indefinitely until the job is completed.

Forrest Sawyer was started off with a determination not to let any more of his valuable land go down for Salt Fork. W. M. Montgomery is getting his land in shape to produce more and better crops by stopping the washes in his field.

J. R. Ayres knows the value of holding the top soil and his place is showing up a lot of improvement as a result of terrace work the past week. A. H. Bowling, modern farmer of the Windy Valley country proposes to put a step to further soil waste and is a mighty busy man with a first-class terracing job that will save hundreds of dollars in land value.

The Finch Brothers ranch people over south of Hedley got the idea along with the other folks and were seeing the County Agent on the job seeking them off to a good start on a terracing program that will keep them busy for some time.

Mr. Broun left town by good daylight Monday morning going to the Hedley country where he will be busy all the week getting other farmers started off with levels and terracing machines that will stop gully washes in some of the best land in the Panhandle.

Donley county has on right now the largest terracing program in the history of her agricultural development according to statements of a number of farmers Saturday who are enthusiastic in saving their farms which they have seen gradually going down in productive and land value for several years.

Farmers are clubbing together in the purchase of a level, and with a few hours instruction from the county agent, they are enabled to proceed with the work in a satisfactory manner.

Mr. and Mrs. Chester Talley moved to Silverton the past week. Mr. Talley has been a valued employee of the Moss Battery & Electric station for several years.

Old Time Ranch Scene Is Coming To Pastime

The Pastime in showing "The Virginian" here Monday, Tuesday and Wednesday of this week brings back to old time cowpunchers hallowed memories of the old days that are gone forever.

This is the first all out door picture of the talkie variety to be shown here and it brought out a large audience last night. Days of the rustler brought to mind many old scenes that had been forgotten.

The loyalty of comradeship between old cow hands was played up in a manner that almost brought tears to some who have experienced that real thing in the long ago, and drew mental pictures of "trail waddies", bosom friends who shared hardships and danger without flinching. It's a good show in that it vividly pictures to the younger generation what life meant to the pioneer of this section.

Miss Mantie Graves and Mrs. Clark Hemminger saw the Passion Play at Amarillo Saturday.

Miss Mary Stocking, who is teaching at Panhandle, spent the week end with home folks.

F. L. Decker, old Clarendon boy who has been in the bakery business at Munday for the past eight years, is visiting relatives here, and is doing well.

New Citizens Honor Leader Office With Visit

It is always a pleasure to meet and talk with real farm folks who make it a dignified business. To make the job dignified, is to keep tab on what is bought and sold and steer clear of a haphazard method. Mr. and Mrs. J. E. Ware moved to the Goldston community recently after making their home in Potter county for a number of years. Donley is winner by odds since Mr. Ware is making a stock farm out of his place. He proposes to keep cows and hogs being a strong believer in the cow, sow and hen idea.

Mrs. Ware is well versed in all farm subjects as is her husband, having represented Potter county in the state butter judging contest at A & M two years ago. She likes chickens, applies her knowledge of canning to advantage and there is going to be plenty of folks watch the team work on that farm the next few years.

R. A. McDonald Dies Friday In Memphis Hospital

After suffering for more than a week with a form of spinal meningitis following an attack of flu, R. A. McDonald of the Brice Valley died Friday at a hospital in Memphis where he was taken a week previous.

Mr. McDonald was a highly respected citizen of his community from which place many friends attended the last rites which were held at the Memphis cemetery.

Local Rebekahs Visit With Pampa Lodge

A large crowd of local members of the Rebekahs visited the Pampa Rebekah lodge Thursday night. Those making the trip were: Mmes L. L. Taylor, L. H. Johnson, Jim Morgan, Mr. and Mrs. A. M. Lanham, Mr. and Mrs. John Ticer, Misses Mazie Uva and Bertie Stewart, Lela Lamons, Dixie May, Aileen Parks, Ula Haley, Messrs. Roy Clappitt, Dick Eichelberger, Hugh Eldridge, Lee Holland.

The Pampa lodge entertained with degree work and following the lodge session, a bountiful feast was spread.

Many Applicants Appear For P. O. Clerkship

Some forty people have signified their intention of taking the postal examination for a clerkship in the local postoffice to date.

Those who successfully pass the examination will compose the waiting list and will be given preference when additional help is needed.

Hedley Is Host To Basketball Players In Tournament

Large Crowd Sees Games In Which Seven Teams Enter Contest

The basketball tournament played at Hedley Friday night to Saturday night inclusive in which seven competing teams strutted their stuff, brought out a large crowd and showed an unusual interest in school athletics over the county.

In the games Friday night, Smith school scored 23 to Lelia's 18. Hedley showed up with good form and scored 67 to Chamberlain's 16. Clarendon's High bunch played the Junior High team beating them 41 to 7. Ashtola drew a bye but were beaten by Clarendon Junior High by a score of 13 to 5 as a practice game.

Saturday morning Clarendon scored 21 to Hedley's 19 in the hottest contest of the tournament. Smith school ran up to 32 beating Ashtola with a score of 4.

Saturday night Clarendon scored a victory over Smith school 56 to 27.

This gives Clarendon High team the county basketball championship and the right to enter the District 1 meet to be held at Canyon on Friday and Saturday, February 21st and 22nd.

Poultry Class Begins Wed. Night Of This Week

Evening School Instruction Will Be Free To All Who Are Interested

Beginning Wednesday evening of this week, the Vocational Agriculture Department of Clarendon's high school with John G. Hutton in charge, will offer to the public a free course of lessons in poultry husbandry that is well worth the time of all those who are interested in any phase of poultry production.

The class begins Wednesday evening with a discussion of "Flock Management" in charge of T. R. Broun, Donley county's new county agent. Mr. Broun has spent years in this line of work and is thoroughly competent and will make his classes most interesting.

Monday of next week Mr. Hutton will discuss the problems of "Feeding Poultry" which will give the poultry producer better ideas as to what to feed and when to feed it to get the desired results.

Tuesday of next week, J. E. Ware, one of the Panhandle's most enthusiastic poultrymen will discuss "Brooding Baby Chicks." Mr. Ware has had years of practical experience in growing poultry, is a practical farmer and will disappoint no one.

Thursday of next week Mr. Broun will give instruction on "Diseases of Chickens" defining the cause and cure. This is an important subject and a problem that often besets the poultry producer. Those who would keep their flocks thrifty, should hear him.

Those who attend these classes will also be taught how to cull poultry thus enabling them to produce birds at the lowest possible cost and how to get the largest egg production from their flocks.

These programs on Poultry will be supplemented by moving pictures, slides, and charts. It is planned to have at least one moving picture on each night of the program.

These programs will not be in the form of lectures but will consist of general discussions on the various phases of Poultry with the idea in mind to promote the Poultry Industry in this section and to impart to the various poultry owners the best known methods for Care and Management of Poultry. The public is cordially invited to attend these programs and poultry owners are urged to attend.

The West Texas Utilities Company will have a number of moving picture reels here after this week covering the poultry industry.

H. M. Barret Says Panhandle Best Part Of Texas

Henry M. Barret returned to his old stamping ground this week calling at the Leader office Monday to have the paper sent him a year and expects to locate at Pampa.

H. M. formerly operated a meat market here selling out a few years ago and went to the famed Rio Grande valley locating at Palacios.

He says that is the dearest part of Texas today. He also saw a long bread line at Waco where the Lion's club and Chamber of Commerce were combining their strength to feed a helpless people unable to secure employment.

He found the larger towns in the south part of the state in practically the same condition and clinched his opinion by saying that "any one who grumbled about dull times in the Panhandle should be prosecuted."

Mrs. G. G. Kemp, Mrs. Reeves and Miss Virginia Cluck visited with Mrs. Joe Cluck at Amarillo Sunday. Mrs. Cluck is a patient in a hospital there following an operation from which she is slowly recovering.

Mr. and Mrs. J. H. Clark and Mrs. Van Allen Kent were Amarillo visitors Tuesday.

Mr. and Mrs. S. H. Condon of Canyon visited relatives a n d days here Friday and Saturday.

Bridges Assumes Charge Of Hedley Mutual

The Hedley Mutual Insurance Association which was organized in 1913, and which has been in charge of P. C. Johnson for several years, has been taken over by W. C. Bridges of that city.

The Hedley Mutual has always enjoyed a good reputation by paying claims promptly and in the use of good judgment on the part of the management in selecting the membership to avoid undue risks.

After the last call was paid the treasury the sum of \$2422 in a surplus account. Ninety-three death claims have been paid during the past seventeen years, the life time of the organization.

Leader Store Is Moved To Wellington

Due to the fact that Max Saied, owner of the Leader stores here and at Wellington, must take an out door vacation of perhaps more than a year, he instructed Ben Saied, manager of the Leader store here to move the stock to Wellington which was done the first of the week.

Both stocks will be combined there with Ben Saied in charge. The store there has been enlarged from time to time until it is one of the largest in this section of the Panhandle.

Ben Saied stands high in the estimation of the general public here and regretted having to move his location, for, as he said Monday, "I have made lots of good friends in and near Clarendon and regret to leave people who have treated me so nicely."

Sims P-T Association Will Present Thrilling Play Friday Night

The members of the Sims Parent-Teacher Association will present a home talent play "Flappers of '44", at the College Auditorium Friday evening of this week.

There will be a full evening's entertainment of laughable comedy well worth the time of any who wish to avail themselves of the opportunity of seeing our best home talent in action.

The play is being given for the benefit of the treasury of this Association and parents of pupils of the South Ward schools are especially urged to lend their presence. Tickets are being sold by enthusiastic school pupils who insist that support be given a good cause with plenty of value thrown in for good measure.

Tire Store Installs Modern Vulcanizing Machine

A vulcanizing machine of latest pattern has been installed by Homer L. McElvany at the Panhandle Chain Tire store in this city to further service his auto trade in tire merchandising.

The machine will take casings up to 33x6.75 and any size tube may be repaired in a few minutes. Mr. McElvany reports his tire sales as on the increase this month and business outlook good for a spring run.

Giles School Has Pie Auction Friday Night

A large crowd made up partly of candidates attended a pie auction at the Giles school house Friday night. Bidding was spirited, some of the pies bringing as much as two dollars each.

Judge Alexander played the part of Good Samaritan by buying a number of pies and passing them out to the kiddies.

The object of the pie sale was to raise money with which to purchase supplies for the school other than those required for regular work. The Giles community is sold on their school and are enthusiastic supporters of educational matters according to statements of those attending the gathering there Friday night.

Mr. and Mrs. John Blocker saw the Passion Play at Amarillo Saturday.

M. L. Putman of Lelia Lake and D. D. Offutt, W. T. Simons and I. E. Offutt of Hedley had business here today.

Hedley Citizens Organize Chamber Of Commerce Tuesday

Membership Includes Farmers Business And Professional Men of Booster Type

A number of citizens in and near Hedley met at the Cooper hotel Tuesday evening and organized a Chamber of Commerce. Several good talks were made and objects outlined for which the folks down there propose to work for the betterment of their section.

A luncheon will form part of the program of their semi-monthly meetings. The charter membership includes progressive farmers, business and professional men of a type that believe that the community can best be served through an organized body.

The city has grown to the point that many perplexing and important problems come up for solution frequently and this method of centralized work is expected to meet the demands of a town that is developing at a rapid rate. The rural section also comes in for the larger share of attention and Hedley has taken a forward step in including men from the rural district in their membership.

The following officers were elected: President, Zeb Mitchell; Vice President, Rainy Westberry; Secretary-Treasurer, Chas. Lowry. The Board of Directors included J. G. McDougale, A. T. Simmons, Z. T. Beaty and S. G. Adamson. The next meeting will be held Tuesday, February the 25th at 7:30 p. m.

C. Of C. Backs County Agent Work In Field And Orchard

Boykin's Work Commended By Board—Will Remain Another Year

At a meeting of the Board of Directors of the local Chamber of Commerce held Wednesday afternoon, G. L. Boykin was re-elected secretary for this year.

County Agent T. R. Broun met with the Board and outlined his plans for agricultural development in Donley county and was assured of a hearty co-operation by the organization. Mr. Broun's request for seed corn was promptly granted.

The Chamber of Commerce will also finance a number of orchard projects under direction of Miss Harvey Thompson, County Home Demonstration agent.

The Board also discussed the advisability of asking each school community to select a man to become a member of an advisory board working with the Chamber of Commerce Board of Directors. There are a number of similar organizations in the nation which have a large number of farmers on the membership roll, and a few have rural men on the Board of Directors, finding it greatly to the advantage of all concerned in the protection and advancement of the citizen body.

There is every indication that this will be a record year with both county agents, a rural board and the Chamber of Commerce working together for the betterment of the producer—the backbone of the nation.

Renewals Already Coming In For County Paper

It is with no little pride that we note renewals already coming in on subscriptions expiring next month. This fact makes us feel that our efforts are being appreciated.

New subscriptions are being added to the list constantly. We are doing our very best to give you the kind of a county-wide paper that will come up to your expectations, and we certainly appreciate these expressions of confidence and approval.

LEGAL PHASES.

If the men were as interested in obeying the laws of the land as the women are in obeying the laws of fashion, we would have a great country doing away with courts, jails and penitentiaries.

ADVISORY BOARD.

The idea of having a Chamber of Commerce Advisory Board composed of farmers is a right idea. It is understood that a man is to be elected from each school community, such men to compose the Board to act in conjunction with the regular Board of the local Chamber of Commerce.

PARKING SPACE.

A large number of farmer folks were in town Saturday and several found parking space. Despite the actions of the Legion boys, it appears that home folks are going to do as they please about parking on the main streets. Let's back the Legionists, folks, and give the visitors a chance at a convenient parking place.

JUST ONE JURYMAN.

A newspaper headline says, "Brady Jury Hung." There should have been only one. Criminal cases should be tried before a judge, or change the law to permit at least nine to return a verdict regardless of what financial influence has been brought to bear on the other three.

WINTER LAYERS.

Folks who want the best layers for next winter are getting chicks from the hatchery now. There is a wide range of variety from which selections may be made, but all are good as they come from Donley's best prize winning poultry yards.

MEMPHIS NEWS.

The Memphis news appears all dressed up for the last issue. Clear print and every evidence of a press improvement. Plenty of merchants telling the folks what they have to offer in a language that properly conveys the idea.

Yes, and it is another country weekly with an editor who has the ability to write common sense editorials full of human interest. King Stephens knows his stuff and is gifted with human sympathy making it possible for him to work with and help his people whom he is striving to serve.

hood's memory. Parents have their choice in a majority of instances, they can either run 'em off or keep them at home. Give the boys a room, the girls a room and arrange for a quiet place for the old folks where all may play after working hard.

IMPEDED PROGRESS.

Last week one Dew R. Oliver, aged 70, began serving a three months jail sentence. The crime for which this aged inventor must pay the penalty consisted of the construction of a machine that was generated by wind passing through a cut on the Coachella highway near Whitewater, Cal. There was a plenty of wind to propell the machine and the old gentleman proceeded to sell stock in a personally organized corporation.

That's what got the old man in bad. He failed to secure a permit from the State Corporation Commission before selling stock. He will get five days off each month for good behavior. The wind will be chasing through the cut like sixty long after old man is gone, but why place a damper on cheap pumping power in a country where water is so badly needed?

POLITICAL BUNK.

All that political speech making about prohibition in Congress is pure bunk and is being made to the fool the folks back home. The wets and drys both know that nothing can be said that will change the situation as to prohibition. While they are playing politics, it is costing the people thousands of dollars and wasting time that should be spent in constructive legislation.

For instance press agents mailed out to papers all over the country recently a statement accredited to Morris Shepherd in which he is said to have gone so strong as to say that "he hated every man who took a drink." There was a "flare back" to the scheme and Shepherd denied the whole thing. W. C. T. U. workers of Texas do remember that he spat in their faces and voted the wet ticket in our last election. That was his privilege, but there is no need of his acting the hypocrite about it.

TOO MUCH ADVERTISING.

Bernard Cone, some kind of an advisory expert on a farm board of some kind in North Carolina says that the present low price of cotton is due to the fact that the public has spent too much on autos, refrigerator machines, radios and electrical equipment for the home.

If the cotton manufacturers had advertised as much as the other boys, they would have sold their stuff too. This is 1930 and the business man who gets the business must do business accordingly.

CUTTING EXPENSES.

The most plausible remedy offered for the solution of our state prison troubles is that of purchasing an ocean liner, park all the state prisoners and the governor aboard and drop anchor about two hundred miles from shore in the Gulf. This plan will save a lot of expense and we will also have some peace of mind. The penitentiary system of Texas is carrying a big load of "leeches" who apparently graft off the system regardless of who is in authority.

DOLLIN' UP.

One often sees a furniture van now-a-days loaded with an up-to-the-minute suite of furniture headed for the country. The women folks of Donley county are making homes out of the old stopping places. Making a home where the young folks can gather for their socials instead of hiking off to a town thirty miles away.

Not only that—the old home is the most treasured spot in child-

Temple of Truth
By the Apostle

After listening to a bunch of crepe hangers Friday, the Apostle tried that old suggestion of thinking of the bright spots in one's life. These fellows seemed to think that life is just one bum day after another. Aside from covering the United States, parts of Canada and Old Mexico and seeing most all the sights of each country, with a bunch of good loyal friends thrown in for extra good measure, this is not a bad old world after all even if few do live to get out of it.

GRINDING

Yes sir, we are grinding feed stuff every day making a sack feed out of bundle stuff and ear corn for the farmer folks who want to save on their feed bill during the present high prices.

You will be surprised how much farther you feed will go when the stock eat ALL of it, and besides you can feed it in a box and stop the waste of throwing it on the ground. The cost is a mere trifle and we grind it while you wait.

How Big Is Your Town?

POPULATION figures have lost their significance as a measurement of the importance of communities. Today, towns are valued not so much by the number of inhabitants they house but rather by the productive power of the community as a whole. The productivity of a community is largely determined by the available power supply.

On this basis, the communities in the territory served by this company may compete favorably with the large metropolitan centers, for these communities today are equipped with improved transportation facilities and an ample and economical electric power supply.

Interconnection of the electric generating and transmitting equipment of this company provides a broad, ample pool of power for industrial, commercial and domestic use. On the firm base of this power pool the future growth and development of these communities is based.

NEW TIMES SHOULD COME

In answer to an article appearing in the Feb. 11th 1930 issue of the Donley County Leader defending chain stores, condemning the M. M. M. club and other organizations, naturally brings forth a few thoughts that we herewith present to you.

Your humble servant is proud to state that he is a member of the M. M. M. club—why?

To save independents business from destruction—yes! To save independent business from destruction, we would naturally have to preserve status of the farmer and those depending upon the farmers for their support. Monopoly controls our markets, factories and monies, and is now trying to control the distribution of our food supplies through retail chain stores.

These retail chain food stores are forcing independent grocery-men out of business and in doing so they are breaking down our markets, lessening earning power of the farmer, laborer and citizens of every agriculture city and hamlet of this good old U. S. A.

They are slowly but surely destroying the freedom that our forefathers fought for and the principles our constitution stands for.

Practically all the Groceryman's stock consists of articles produced on the farm, and the resale price of these products have considerable to do with the price paid the farmer.

If we buy a part of farmers spuds at four cents per pound and resell at 3c per pound, in order to get the trade into our stores, who then would pay the farmers four cents per pound for the remainder of their crop?

As the people are stating they are going to buy where they can buy the cheapest.

The superior and boasted of buying power, furnished by Wall Street to these chain stores to enable the chains to undersell independents, is the agent that is breaking down the prices of our products, lessening the earning power of all our citizens except those directly connected with same.

The chain store patron is the "Buddie" who furnishes the buying power of this system, and some of our good citizens are unwittingly helping them to put this scheme over under the head of home owned chains.

Mr. Farmer how can you trade with chain system? They are forced to beat down the price of your products to resell to you at a small saving.

Fellow citizens of our agriculture towns, how can you trade with chain stores, as their system is lessening the earning power of the farmer and the farmer is the making your existence and livelihood possible?

Mr. Laborer, how can you trade with chain stores? Cheap products necessitates cheap labor.

This is not an independent Groceryman's fight. Every red blooded citizen of America, male or female, race or color, who believes in independence and freedom, who believe in equal right to all, special privileges to none. Who believe in the ideal manhood and womanhood as set forth and taught by Holy writ; who believe in our republican form of government, should rise in their might and come to the assistance of the M. M. M. club and tear asunder this monopolistic Octopus, that is slowly but surely sapping our commu-

IT PAYS TO ADVERTISE

The goldfish lays a million eggs
And the helpful hen lays one;
But the goldfish doesn't cackle
To tell us what she's done;
And so we scorn the goldfish coy,
And the helpful hen we prize,
Which indicates to you and me
It pays to advertise.

Former Police Chief In Potter Sheriff Race

Formal announcement was made the past week by H. L. Gaither of Amarillo that he would enter the sheriff's race in Potter county.

Mr. Gaither was formerly Chief of Police of Amarillo and is one of the best known law enforcement men of the entire southwest. During his experience as an officer for more than thirty years, Mr. Gaither has borne a reputation for being four-square with his fellow man—both the offender and the public at large.

Many good citizens of Amarillo were of the opinion that Horace L. Gaither lost his position as chief of the police department because he would play no favorites. In his attempt to stage a "come-back" he will have hundreds of friends backing him who believe in enforcing the law regardless of who the offender might be.

In his acquaintance with Horace L. Gaither covering a period of thirty-six years, the editor of this paper has never once heard of him being accused of wrong doing by any reputable citizen. He is fair, fearless, honest and is one man among thousands who discharges his duty regardless of personal feelings or public opinion.

MRS. R. C. BRYAN ENTERTAINS SUNDAY SCHOOL CLASS

Mrs. R. C. Bryan entertained her Sunday school class with a valentine party Friday afternoon from 3:30 to 4:30 at the home of Mrs. F. C. Johnson.

Hidden in the deep jungles of the room were lots of wild animals and the little tots were told to go wild animal hunting, and what a scramble when elephants, wild hogs, rhinoceros, camels and other animals were found.

The prize was a friendly dog which was given Master Joe Lee Humphrey, who found the greatest number. The next prize contest was walking a line blindfolded. Little Miss Beatty Blanche Baker was the lucky one to gain the prize—a little doll.

Other games were played, then came the drawing for Valentines. Those present were: Joe Lee Humphrey, Betty Blanche Baker, Dona Adams, Elsa Mae Ellis, Julia Hahn, Master J. B. Knight, Mrs. C. L. Knight and niece, Miss Shelton, Mrs. Eva Humphrey.

Refreshments were served by Mrs. F. C. Johnson, assisted by Mrs. R. C. Bryan.

THURSDAY AFTERNOON BRIDGE

Mrs. Bascom White entertained the Thursday Afternoon bridge club at the home of Mrs. Roy Ingram Thursday afternoon.

In the games Mrs. Sam Derden received high and Miss Bettie Weatherly cut.

Decorations and tallies celebrated the valentine period. A dainty two course refreshment was served carrying out the white and red valentine colors.

Have Just Purchased Another Car Load of FEDERAL TIRES

This Time the New 1930 Models "More Air" A Real Balloon Tire

The Big problem in making Balloon Tires is to gain strength without needless weight or bulk, to insure long mileage and real air cushioned riding comfort. For years leading tire manufacturers have sought the answer but FEDERAL is the first to announce the accomplishment of this scientific feat.

In this New Type Federal Balloon Tire 5 important engineering improvements produce GREATER STRENGTH with LESS WEIGHT. It is a triumph of finer quality and more scientific balancing of weight over mere BRUTE BULK.

Read these 5 Startling Features—

1. New Federal "Inlaid" Cord System—A patented and exclusive feature.
2. New Federal "Multi-Cable" anchoring bead—An outstanding engineering achievement.
3. New Larger Air Chamber—You ride on a bigger cushion of buoyant air at lower pressure.
4. New Type Federal "Rim Wide" tread—A radical forward step in tread design.
5. New Federal "Cantilever" side walls—Greater increased flexibility, with longer life.

This New Type balloon tire insures even greater mileage. The New Federal "De-Luxe" balloon, for example, has a life expectancy of 50,000 Wonderful miles and more. You may never use up these 50,000 miles. But you will know that at 25,000 or 30,000 miles your Federal "De-Luxe" Balloon will be as safe and dependable as many new tires. Federal quality gives you this margin of safety.

Come in and let us show you this wonderful new tire, yes we will trade for your old tires, and guarantee to save you big money when you trade with us. QUALITY CONSIDERED, you can't equal our prices. We buy for cash in large quantities, therefore can sell for less.

BAD COMPANY

Wife: "How did you get into this state?"
 Hubby: "Bad company, m'dear."
 Wife: "What do you mean by bad company?"
 Hubby: "Well, there was five of us to one bottle of whiskey, and the other four were teetotalers."

THAT'S DIFFERENT

One day a very pretty young lady who had a poodle dog in her lap chanced to be riding on a street car. A bluenose lady sitting next to the girl addressed her thusly: "My, what a nasty little dog. Don't you think, my young lady, it would look much nicer if you had a little baby in your lap?"
 "No," the pretty one replied in calm, even tones, "it wouldn't. You see, I'm not married."

Half Hour's Job Like Day's Work

AMARILLO SMELTER WORKER DECLARES ORGATONE (ARGOTANE) PUT HIM IN FINE SHAPE

"Orgatone (Argotane) has simply given me a new lease on life" said A. C. Koonce, who resides at 303 N. Rusk St. Amarillo, Texas and is a well known smelter worker while in the City Drug Store Amarillo, Tex.

"Before I commenced taking it" he continued a half-hour job would tire me as much as a whole day's work does now. My nerves were so unstrung that I was irritable and out of sort all the time. I would get up in the mornings feeling as tired as worn as I was when I went to bed and my work was an actual punishment to me.

"I had reached the point where it was necessary for me to do something for myself and I bought Orgatone (Argotane) because I know how it had been helping others right here in town. I now sleep sound eat hearty and can do a day's work without feeling it. My

liver don't bother me any more and constipation is a thing of the past. Everything I have to do is a pleasure instead of a burden now and I recommend Orgatone (Argotane) to everybody with those miserable tired nervous feelings like I had for it has certainly straighten-

ed me out in fine shape." Genuine Orgatone may be bought in Clarendon at the Stocking's Drug Store.

Miss Beulah Baird was in Amarillo shopping Friday.

THINK OF IT! One tiny thimbleful... all the feed a chick can put in its little crop in one day. On this tiny bit it must live... grow... build bones... build muscles... start feathers. Think of the job feed has to do!

They must depend on feed for so many things! They get them all in Purina Chick Startena (mash) or Purina All-Mash Startena Chow... 12 different ingredients in every thimbleful. Cod-liver oil... dried buttermilk... alfalfa flour... granulated meat... these and eight others are there!

These 12 ingredients... think how carefully they must be mixed to make every thimbleful alike. Purina Startena and All-Mash Startena Chow are mixed over and over again... 960 times just to be thorough! You will find the same care taken with Baby Chick Chow (scratch)... to be fed with Startena until your chicks are six weeks old... and with Purina Growena (mash) and Purina Intermediate Hen Chow (scratch)... to be fed from then on until the pullets are laying at 16 weeks. How little feed a chick eats... just one thimbleful a day... yet how important it is... how much depends on it... the chick's very life... its growth... what the pullets will do for you next fall and winter when eggs are sure to be worth good money. You can afford to feed only the best... Purina Poultry Chows.

Poison! Poison! Poison!

Quite a number of requests are coming in to Secretary G. L. Boykin at the Chamber of Commerce office asking for poison with which to kill prairie dogs, etc. Mr. Boykin requests that all those wanting poison now or at any time in the near future, that such requests be placed with him at once so that the mixture may be made up in larger quantities thus curtailing every expense possible as the purchaser gets the poison at cost.
