## New Member Is Formally Adopted By Rotary Club Fri.

## Popular Young Lady Is Hailed as First Rotary Ann of Clarendon

A one hundred percent attendance was noted when President B. L. Jenkins tapped the bell calling the Rotary club to order at the Antro club dining room Friday.

Responding to the subject of "How I make my business best serve the public," Marvin Warren in a two minute talk showed in detail how his realty business helped in the development of the country in a manner that profited each resident.

Judge A. T. Cole, who has been on a certain committee so long he has forgotten what it is all about, attempted to make a report of some kind about which he knew nothing and will continue the installment at the next meeting to the further merriment of his tormentors.

In discussing the proposition of who was responsible for the report that the Boy Scout picture show was sponsored by the Rotary club, it was finally determined that this story originated on the street and that the Club had nothing whatever to do with the matter though individual members did much toward selling tickets for the play wholly from a patriotic motive.

One of the interesting events of the program of this meeting was the formal adoption of the Club's first Rotary Ann in the person of the popular and handsome young lady in charge of musical instruction in our public schools, Miss Christine Stroder.

Miss Stroder will preside at the piano with Robert S. Cope leading in the song service of the Club in the future.

While no formal action was taken by way of endorsement or praise of the quality of food served by Ed Carlson, manager of the "foodery," many of the individuals were loud in their praise not only for the quality, but also in the manner in which it was being served.

### Cotton Reduction

Various and sundry suggestions, implications and threats have been offered to induce the farmers to reduce the cotton acreage this year, none of which seem to "take" and the editor of this sheet having raised a crop back in the days when she brought the magnificent sum of 3.25 a hundred, begs leave to suggest the following suggestions:

Make it a felony to kill a cotton flea, boll weevil or worm or grasshopper. Kill all the mules down to one to the 500 acres. Bust up the tractors as a man can raise more h— with the cotton price by over production with a tractor in west Texas than any other one thing. Cripple three-fourths of the cotton pickers.

Send all the Republican niggers north where there is a bigger demand by the Democrats. Pass a law forcing everyone to wear nothing but cotton, and burn up all bales left over from last year. If the Farm Board wants quick action that batch of suggestions will get it. P. S. Moody's diet next week doesn't seem to be blamed thing so far as helping the cotton market.

## Junior-Senior Banquet at Lelia Friday

The Junior-Senior banquet of the pupils of the Lelia Lake school Friday evening was an enthusiastic affair despite the rainy weather. The faculty composed the special guest list.

In a few well chosen words, Herman Dodson, president of the class, bid the assembly welcome. Superintendent Rex Reeves responded to the address of welcome in his usual interesting manner.

Hollis Leathers brought down the house with his oratorical effects of laughter, meditation, expectation and tearful word pictures. Many seniors and juniors made extemporaneous talks and the banquet table gaily decorated with flowers and plenty of good "eats" held its historical place as the greatest number of the program.

## Officers Capture Alleged Car Thief Monday Night

A car bearing no license plate on the rear and occupied by two men was accosted by Deputies C. M. Peabody and Guy Pierce on East First street about 3 a. m. this morning. When the officers sought information the car was hurriedly driven through town until overtaken by the officers at the Custis Benson residence.

## Two Killed in Auto Mishap Near Groom Monday

The two small sons aged 5 and 7 of rank Koeking, a merchant of Groom, were suddenly killed on the Groom-Whitdeer highway Monday when a car driven by their mother turned over due to a blow out. Mrs. Koeking and an aged man were severely injured.

## School Board Informs Tax Payers of Added Cost

During the past few days the local School Board has mailed to each tax payer in this district a circular letter giving the individual's assessed valuation for 1929 and the amount of additional tax that will have to be paid should the 20c raise be voted on April 5th.

## Little Theatre Presents Second Play Friday Evening

## Play With Cast of Local Talent Will Present a Three-Act Comedy

Workmen have remodeled the stage at the College Auditorium and curtains and stage scenery have been included in the preparation for "Kempy," the three act comedy to be presented by the Little Theatre Friday evening of this week.

This is the second presentation by this organization composed of local talent and promises to be the outstanding event of the season in the role of amusement in Clarendon.

All stage arrangement and equipment will comply with the requirements of Mrs. Frank A. Stocking, president of the Little Theatre organization, and director in their productions.

Rehearsals with a full attendance has lent encouragement to those directly in charge of the play and who have assumed responsibility for its success. Public interest is rapidly being cultivated to a point of better appreciation of this line of amusement.

Mr. and Mrs. Fred Buntin were Perryton visitors Friday.

## Two Men Jailed After Wild Auto Race On Friday Night

## Wife of One Makes Bond For Car Saturday and Returns to Amarillo

Refusing to state whether they were acting on a "hunch," tip or a woman's intuition, deputy sheriffs C. M. Peabody and Guy Pierce discovered a coupe near the Knight dairy about nine o'clock Friday night that was behaving as though the alcoholic liquid had missed the radiator and gone into the driver.

In an effort to form a more intimate acquaintance with the visitors, two men in the car suddenly remembered unfinished business elsewhere and hit a gait for town that began to interest the officers who were trailing along behind at a moderate gait of about sixty per.

After reaching town the trail led pell-mell across vacant lots, through yards of sleeping residents and across gullies, the visitors having evidently taken a look at the streets during the day as a reason for avoiding them in an effort to escape.

Guy Pierce took off the first casing of the visitors with a shotgun near the John Clark residence. Meandering around for some time dodging in and out the next opportunity to shoot a casing without doing personal injury to a disinterested spectator came when the two cars reached a point on Main street near the postoffice.

Firing into another casing, Guy Pierce caused the escapers to swerve to the curb, at which time he jumped out of the car hitting the pavement with such force as to force his six gun out of the holster sending it skidding across the street.

In the meantime, two men from the escaping car had entered the Bain brothers cafe in the building where the Home Bakery is located. Pierce hastily followed with the shotgun in hand. The men evidently had guessed wrong here because the cafe had no back door.

Pierce took one of the strangers to the door turning him over to Peabody and returned to the rear for the other man. The other party had grabbed a cup and in a menacing manner had ordered Bain to "hand him a hat" with which he no doubt planned to pose as a customer waiting for an order.

Both men were lodged in jail and the car searched where a case of half gallon jars were found, five of which had been broken out of twelve in the wild dash in "coming away from some place." Two pints were found later that had been thrown away in the race.

The men gave their names as E. Price and H. Hollifield and their place of residence as Amarillo. The wife of Price came down Saturday and made bond for the security of the confiscated car which she claimed as her own individual property, and returned with the car presumably to Amarillo.

## Baker Home on East First Street Greatly Improved in Appearance

Just what may be accomplished by the modern day builder in the newer methods of rebuilding and remodeling is well illustrated in the work done on the beautiful home of Mr. and Mrs. A. H. Baker on East First street.

The exterior has received a stucco finish, the porch has been changed from an old style to the latest arched pattern of modern residential architecture. French doors of the interior have displaced the old style solid doors.

The rooms have been repapered and the woodwork refinished in a variety of shades to match the wall coverings and drapery. The back room formerly used as a kitchen has been remodeled into a glassed-in sleeping porch of the modern style.

Taken all-round, it is wonderful what may be done in changing the appearance of an old building bringing it down to date, making it more beautiful and far more comfortable and a more pleasant place for a real 'comfy' home.

## Farm Schedule Blanks Being Mailed Out Over County

## Plan Designed to Hasten Census Enumeration to Begin April 2nd

Up to Saturday afternoon, some eight hundred farm schedule blanks had been mailed out over the county. Quite a number were handed out by T. V. Brown, the county agent and by Miss Harvey Thompson, county demonstrator for Donley county and by G. L. Boykin, Secretary of the Chamber of Commerce.

The blanks are somewhat complicated and it is hoped that the farmers will give them close study and fill them out so that the enumerator will save time when collecting such blanks. While these blanks are more for information, they are exact duplicates of the blanks used by the census enumerator and if properly filled in, will greatly haste the work. If any errors are noted, it would take a very few minutes to correct them.

J. H. Rutherford will take the census in District No. 2 outside of town and C. C. Powell inside the city limits. M. H. Rhodes will take the enumeration in the Ashstola district.

H. C. Brumley will work the Lelia Lake section and Paul Crozier and Clyde Bridges will take the enumeration in the Hedley and east side county section. If it is seen at any time that the work cannot be completed within the time limit, additional help will be supplied by the supervisor of this district, Nat S. Perrine of Amarillo.

## C. C. Directors Make Some Changes Thursday Meet

## Better Cooperation Being Shown by Committees is More Encouraging

Among the large number of matters of interest that came up for solution at a meeting of the Chamber of Commerce Board Thursday, the amount to be contributed to the Panhandle Plains, Inc. organization at Amarillo required the most time for a solution.

This is the organization that, in conjunction with the railroad people, puts on an advertising campaign each summer which results in stimulating home owning immigration. It will be recalled that Mr. Boykin covered the central states with this advertising committee of the Panhandle-Plains last summer making the larger towns where exhibits of Panhandle fruits and agricultural products were placed on exhibit.

The local C. of C. will contribute \$200 to the Panhandle-Plains fund at this time and will likely increase that amount later.

While Clarendon has a Board of Directors, the secretary of the Chamber of Commerce has been held responsible for collections supporting the band so far as such support came from the regular Board; individuals and the Chamber of Commerce. The regular band Board will take over all responsibility for financing the band after May 1st as the Chamber of Commerce directors do not feel that it is a part of the regular work of their organization.

As a matter of fact, many belong to both organizations and it merely means that the band Board will see after the interests of the band rather than the Chamber of Commerce.

The sum of \$25 was contributed to further the securing of a Palo Duro Park. This money will go toward paying expenses, and will no doubt be placed with funds from other towns in a general collection with the Palo Duro Park Association at Amarillo.

The Directors went on record as endorsing the twenty cent tax for insuring the establishment of Clarendon's Junior College.

## District Court Begins 4 Week Term Monday Morning

## Grand Jury Begins Labors With W. I. Raines of Hedley as Foreman

District Court was convened here Monday with Judge A. J. Fires on the bench and Hon. James C. Mahan, district attorney, representing the State. The Grand Jury listened to the usual charge read by Judge Fires and retired to begin their deliberation with attorneys Mahan and county attorney R. Y. King assisting.

E. A. Russell is acting as door bailiff this term. Names of the other bailiffs are not given here in compliance with a request of the Court that their work might be made easier in bringing in the witnesses as needed.

The Grand Jury is composed of W. I. Raines as foreman, W. E. Davis, Edwin Baley, Walter Goldston, O. P. Brown, G. G. Kemp, O. W. Latson, E. H. Watt, J. T. Bain, G. Leathers, G. P. Folley, J. W. DeBord.

Judge Fires was greeted by his many friends upon his arrival here and congratulated upon his recent recovery from a bad case of influenza. Judge Fires was in Washington a little more than a week ago on business in connection with the Interstate Commerce Commission relative to the Denver road building out of Childress, and attended the funeral of Chief Justice Taft while there.

In the closing of the term of District Court at Memphis Saturday, friends of District Attorney Mahan claim that he set a new record for securing convictions when he tried fifteen cases with twelve convictions. One party was released on an instructed verdict, one hung jury and one acquittal.

Of the above cases, two were murder charges. One was given the death penalty and the other resulted in a hung jury. Of the six liquor cases, Mahan secured a conviction in each case with terms ranging from one to four years. Four forgery cases resulted in three convictions, the fourth man being liberated on an instructed verdict. Those convicted received sentences from two to five years.

A party charged with assault to murder was given two years. A car theft case involving a negro boy of 16 resulted in a two year term in the juvenile training school.

District Clerk A. H. Baker stated Monday that Sheriff Mosley had the witnesses to be used in the Grand Jury investigations so arranged that little time would be lost and court officers are expecting the docket to be cleaned up by the end of the fourth week. Non-jury cases will be tried this week and the criminal docket taken up next Monday morning it is said.

Misses Eula, May and Mary and Elbon Naylor visited Mr. and Mrs. E. T. Naylor at Quanah Sunday.

## More Than Twenty Girls Share in Plant Gifts

Young ladies sharing in the plant distribution of the Clarendon Chamber of Commerce recently under the direction of Miss Harvey Thompson, county demonstrator, were more than twenty in number and live in most all parts of the county.

Those from McKnight received plants from their Club direct through Miss Leska Maye McBride who is president of the McKnight Girls Club.

Girls of Hedley and those who receive mail through the Hedley postoffice are: Imogene Robison, Pearl Robison, Helen Hoggard, Margaret Laurence, Verma Hager, Thelma Adamson, Beatrice Bland and Cecil Garner.

Girls getting their mail at Lelia Lake who received plants were: Velma Shaw, Marguerite McElyea and Cleo Usery.

## American Legion Head Spoke Here Monday

Ernest Cox, State Commander of the American Legion spoke at the College at 3 p. m. and again to the Legion members at their Hall at 4 p. m. Monday. Mr. Cox served the state as a legislator for six years and was Dewey Young's right hand man in putting through the Junior College bill without which we would have no such school in Clarendon today.

State Adjutant Robt. Whittaker addressed the members of the Legion outlining the methods of handling the cases of disabled ex-soldiers, and other matters of interest only to the veteran of the World War.

Mrs. Carpenter, state president of the Ladies' Auxiliary spoke to the members of the local Auxiliary in the Club Room at 4 p. m.

## Many Attend Legion Meet at Childress Sunday

Aubyn E. Clark Post of the American Legion and the Auxiliary of Clarendon were well represented at Childress Sunday at the 18th District Convention. The usual program was carried out and State Commander Cox was the principal speaker.

Those attending from here were: Joe Holland, Ralph Andis, Clyde Douglas, R. W. Moore, Loyd Stallings, Zack Salmon and J. J. Robinson.

## Dallas Business Men Are Touring West Texas

The special train bearing twenty-five business executives of leading business houses of Dallas are touring West Texas on a schedule that will permit them to visit here arriving about 2:40 p. m. of April 4th.

Committees of the Chamber of Commerce will be delegated to show them over the City and extend the other usual courtesies of acquainting them with the resources of this section and the possibilities for development.

## Rev. Ferrell Will Lecture on Bible Subjects

Beginning Wednesday evening at 7:30 of this week, Rev. W. E. Ferrell, pastor of the Christian church will begin a series of Bible lectures at the church. In the course of his lectures covering every chapter of the book from Genesis to Revelation, 2600 pictures will be illustrated on a screen greatly increasing the interest in Biblical subjects. All those interested are invited to attend.

## Donley County Farmers Are to Plant Certified Seed

Encouraged by county agent T. E. Brown to plant better seed and diversify to the limit, a large number of Donley county farmers will plant nothing but certified seed this season. Mr. Brown states that the better seed will cost but a few cents more per acre and will pay handsome returns.

During the past week A. W. Simpson stocked 2000 pounds of certified row crop seed as a special favor for his farm customers, proposing to sell them practically at cost in order that more feed may be produced this season near home.

The Eads produce house of Hedley also stocked about 500 pounds of row crop certified seed at the same time. Both of these firms have been encouraged to keep certified seed according to a statement of the County Agent Saturday, and will sell them at a price every farmer can afford.

Only three firms in Texas make a specialty of certified seed at this time and all of them are said to be located in West Texas, one of the largest being near Lubbock.

## Bankers Offer Help In Producers Market Problems

## Agricultural Council Includes Three Banks, County Agent and County Demonstrator

At a meeting held in this city Monday attended by F. E. Chamberlain representing the Donley County State bank, W. H. Patrick representing the First National bank, J. D. Swift representing the Farmers State bank, G. L. Boykin representing the Chamber of Commerce, county agent T. E. Brown and county demonstrator Miss Harvey Thompson, an Agricultural Council was formed for the purpose of finding and creating a better market outlet for farm products.

These bankers have declared their intention to lend their support to the County Agent in his efforts to get the farmers of Donley county to practice a Balanced Crop System. Assistance will also be given the County Demonstrator in her work by placing on exhibit products arranged by the club girls and H. D. club women. These exhibits are to be prepared under the requirements of the County Home Demonstration Agent in order to sell under the 4-H label.

The use of home grown, standard packed fruits, meats and vegetables will be encouraged at every opportunity thus affording a direct outlet to the supply of our local people bringing returns directly to our farms. The prices asked for 4-H labeled goods will be the same as that of standard brand goods sold by the grocer.

This idea of creating a home demand for home products of fruits, vegetables, meats, butter and other farm products is one of the many original ideas of Miss Harvey Thompson.

It is her urgent request that standard recipes only be used that the goods may be saleable, and that since the banks and others have offered to assist in the matter of distribution, farmers and their women folks should get busy and plant with a view of meeting the expectations of those who have kindly consented to help them.

Finding a market for their products has been the biggest hindrance to farm women of this county. They have demonstrated their ability on many occasions and it is thought that with a united effort, 1930 will be a record-breaker in bringing the profits back to the producer where it rightly belongs.

M. S. Parsons continues to be confined to his home the greater part of the time and his health is not improving as rapidly as his many friends would like to see.

## Personal Liberty

It's getting so in Clarendon \* that visiting brethren from \* other sections who dispense \* "joy juice" are treated with no \* more courtesy than a chain \* store operator in Tulsa, Okla. \* homa.

Why even a drunken man \* driving along the streets is \* asked to stop until other ar \* rangements can be made. The \* other arrangements simply \* mean a trip to jail. If he does \* not stop, one of our officers \* (why they are called 'peace' \* officers nobody seems to \* know) takes in after his rig \* and refuses to let up. He de \* sires a closer acquaintance if \* one may guess at his actions.

As the visitor "floor-boards" \* his buss in an effort to fill a \* distant engagement, the offi \* cer also does some "floor \* boarding" and drives right up \* further disturbing the visitor's \* mind by crying out halt! halt! \* then bang! The casing re \* fuses to function, the car stops \* and the bootlegger's dignity is \* insulted by being thrown in \* jail.

If these conditions continue, \* it's going to get to the point \* where there will be an arrest \* when the next night watch \* man is killed.

**SELECTION.**

The Texas penitentiaries are still overflowing, but there is still plenty of room in the Hall of Fame.

**MAKING TRACKS.**

Some fellows start out to "make footprints on the sands of time" and wind up by making finger prints at the police station.

**WAIT A MINUTE!**

Just as soon as the big packing house outfits freeze out the independents, the price of cream will go up again. No, it won't be long.

**HIGHBROW STUFF.**

A college professor in Ohio says that we need more balanced meals, which probably means that we will have to begin eating peas with a knife.

**PREDICAMENTS.**

The politician who is too big to cry and too sad to laugh at defeat is pretty much in the same fix as the fellow who had St. Vitus dance and rheumatism at the same time.

**CRIME REMEDY.**

It is the candid opinion of many peace officers, that if this nation spent half as much money in crime prevention, as they do in the prosecution of crime, our penal institutions would not be half so crowded.

**CALAMITIES.**

Of all the calamities of which we have ever read, the item appearing in a Girard, Kansas paper last week, beats them all. A lady was run over by her husband's car while it was being driven by his 'girl friend'.

**GOOD ADVICE.**

You fellows who have been criticizing the Governor all through five special sessions of the Legislature, will have to back up and admit that he made one sensible statement when he advocated that the people drink milk for a week.

However, he might have been more specific and suggested buttermilk as quite a few in this state have been weaned for some time.

**IMITATION.**

The women folks of Donley county are going to imitate the California women this season from the way they are planning. The women out there "sell all they can and can what they can't." Not a bad idea either. The women of Donley county put up in tin and glass the past season foods to the value of over thirty thousand dollars.

The best part of a scheme of this kind is the fact that the housewife has a supply at hand for any emergency, and that of the best quality in the world.

**NUISANCES AND PESTS.**

When the City Dads barred the street carnivals from operating within the city limits, there was loud acclaim from those who did not wish to be kept awake all night while some fakir squawked and howled like a wild Comanche.

Several folks are now wondering why other tent attractions are permitted to park in the middle of town and keep some of the same folks awake. It would seem that any outside attraction coming to our town that takes practically everything out and might be classed purely as a nuisance while here, should also be barred.

**LOYALTY.**

Loyalty to your town or community costs time and money, but both are well spent. There is plenty for every one to do. Most every one has a hobby and works most boosting their choice. Some make civic work a vocation, many make it an avocation.

Loyalty is a fine sentiment. Those who think for a moment that loyalty means no more than an occasional visit to the church of their choice, or a vote for a worthy object every two years, are badly mistaken.

There is nothing that will make one like their town or community so quickly as getting on the job and helping in all matters for the betterment of the section where they live.

**COULDN'T WAIT.**

Editor Robison of the Waskom Enterprise in his issue of last week in blazing headlines of "Don't Blame the Newspaper", explained to the home folks just why he was unable to give them a detailed report of a very important meeting of the Men's Business Club of his town.

He states that after having made a request of the Secretary for such information, and failing to get it, made another effort just before going to press when he visited the Secretary in the domino hall (can you feature that) and again asked for the desired information.

The brainy guy who functions as secretary of this organization might have been of the opinion that since it was an important item, the paper would be held up for a few days until he tired of the domino game at which time he would no doubt perform the services expected of him when he accepted the office.

A great many people are of the opinion that reporters or editors should attend every function that happens in order to make a published report. They forget that the newspaper man may, on some occasions, be forced to divide himself into as many as three separate and distinct elements in order to attend all the functions that are functioning at one particular time.

The public should take pride in supplying news matter. There is nothing so discouraging as having to pry a news item out of a stubborn cuss with a crowbar.

**CHAIN STORES**

Announcement was made this week that one of the nation's largest mail order concerns—one that for many years has dealt misery to small town merchants, and that has in recent months invaded larger towns of the country with retail stores—has increased their advertising in newspapers of the land by three million dollars. This company will spend in excess of \$6,000,000 for newspaper space in 1930, and they expect a marked increase in sales from their investment. Their comment that "Good newspaper advertising used consistently becomes a vital asset to any merchant, either independent or chain." Is one that to our minds affords the most effective weapon in combating the so-called chain store evil.—Roy Record.

J. M. Dickson, pioneer land owner of the Brice valley who has made his home at Santa Anna, California for several years, returned the last of the week for a visit with his daughter, Mrs. W. H. Youngblood.

**Temple of Truth**  
By the Apostle

Folks, the onions are up and the poke has sprouted. We have some of the best East Texas pedigreed poke in Donley county and I don't mean maybe. Then just about the time one gets tired of poke, salad mixed up with rhubarb (pie plant) lamb's quarter comes on the scene and saves the day.

The Apostle found several in this hick of a town last spring who were unaware of the gastronomical treat familiarly known as "lamb's quarter." There's a million east Texas negroes who worship poke salad and lamb's quarter like the Aztec did his sun god, and lots of white folks don't know what they're missing.

This warm weather is bringing on "pome" rains again.

Following the "pyralis" epidemic in Oklahoma, Texas got busy and licensed 2,502 doctors to issue "likker" permits. The drug store number is limited to just 762 which will probably result in a number of hips being knocked down by the mad throng getting through the doorway. All that Oklahoma trouble was charged up to "jake", and we hereby serve notice on the doctors that if Texas has a "pyralis" epidemic, it will be just too bad for the doctors.

That mental abortion in the form of a "pome" will be found in another column under the title of "Forty-Seven States." It is positively original, and may be used by the profession if credit is given.

A good friend wants to trade us muskrats, range delivery, for the paper. Speaking of trading, we are reminded of a hectic career many years ago back in Benton county, Arkansas where they never had any money. Punksins was the medium of exchange and a purchaser giving a large punkin, received one or more smaller ones as change.

It finally got so a man carried his punkin money in a sack, and when a fellow got to the point that he carried his punkins on a mule, he was dubbed "a capitalist" and denied the right of association with his former neighbors.

This is a funny world. A crook loses his freedom by bad behavior, and that's the way a married man gains his.

A road sign near El Paso reads: "Drive slow, two fools might meet."

Had you noticed that when headlights and light heads come together at a crossing, it is usually followed by a funeral?

What used to be known in a sewing circle as gossip, is now known as "character analysis."

Servant: "Madam, there is a man at the door with wooden legs." Madam: "Tell him to go on, we don't want any wooden legs."

As proof of the wonderful progress of the world, T. D. Nored says that Eskimos who used to eat candles, are now chewing up light globes.

The sailor's wife who lost her husband at sea later found out that he was captured by a bathing beauty.

**SUBSCRIPTION PAYMENTS**

Payments on subscriptions expiring are coming in daily and some are paying when convenient before the expiration. Those remitting by mail are kindly requested to state if the subscription is a renewal as that will save us quite a lot of time in looking up the records.

Your promptness is appreciated very much and this encouragement goes a long way toward causing us to do our very best to give you a better paper as time goes on.

**FORTY-SEVEN STATES**

If you don't like our town  
Our laws and our rules,  
Our churches and our lodges,  
And our city schools;  
If our general makeup,  
No longer fascinates,  
There's trains and busses going,  
To forty-seven states.

If you don't like our town,  
Don't like to boost and give,  
In the town that you selected,  
As the best place to live;  
Then you'd better change location,  
Taking all your bitter hates,  
For they're still selling tickets,  
To forty-seven states.

If you don't like our spirit,  
Of generous give and take,  
Where every man's a neighbor,  
With a hearty hand shake;  
Then the country doesn't need you,  
With your many knocking traits,  
Hit any one of our highways,  
To forty-seven states.

Are you feeling somewhat lone-  
some—  
Just don't seem to fit in?  
Are you guardian of your neighbor  
And his every act a sin?  
There'll be cause for rejoicing,  
By any one who tolerates,  
When he finds you have scattered,  
To forty-seven states.

—J. C. Estlack.

**Uncle Will Dodd Raids "Shine" Stills, But Carries No Artillery**

Who ever heard of a moonshine still raider who didn't carry artillery?

Well there's one down in Walker county, and he's making a real success of his job.

His name is J. W. Dodd, but he goes generally by the title of "Uncle Will."

Newspapers term him a male Carrie Nation, who, although a private citizen of 70, finances his own deprecations on moonshiners and claims more destroyed stills than any other person in the United States.

He lives in the little community of Nauvoo, and operates a farm of 15,000 acres.

For several years, "Uncle Will" has been worried by tenants using his farm for distilling. Occasional arrests did not seem to clear the difficulty, so the story goes.

Three months ago, Uncle Will gathered his sons, grandsons, and a deputy sheriff and announced he was going to rid the Nauvoo hills of the liquor traffic. With the roads impassable for automobiles, he hitched two mules to a wagon and set forth.

He soon had 17 complete stills chopped up in his store and as the list grew he lost track of the count.

"We have not captured many men but we have seized practically all the stills in the community," he says. "I have sent the wildcatters word I will get every still they put up in our community and get it before they can sour the mash."

Since he started his campaign, Mr. Dodd has been joined by other ardent driers and has inspired still others. One woman went out alone, found the still she was seeking and a man working with his beer. Giving chase she shouted, "I am going to see who you are, you scoundrel."

Other women content themselves with sending Mr. Dodd information on stills. He estimates the combined capacity of the stills he seizes is about 3,000 gallons weekly.

And here is his prohibition philosophy: "I don't carry a gun. Why should I? The wildcatters are not bad people, they are my friends and trade at my store, or at my

son's store rather since I have retired. I am doing this work to save the boys and girls and to benefit the wildcatters and their families. I have been neglecting to do my duty other so-called prohibitionists and officers are neglecting to do their full duty. If we get after the bootleggers and wildcatters in the right way we will find plenty of volunteers to help us. The trouble with most of us and most of the officers is that we have not been doing our duty."

There are two kinds of prohibitionists he says. "Don't wait for favorable weather to go after the stills. I went out in 0th cold and snow with one leg swollen with rheumatism but my health is better now than it has been during the past few years."—Huntsville, Ala. News.

**Ware Will Beware of Old Method of Row Crop**

In an effort to coax from mother earth a livelihood, or at least a greater part of it, and some profit besides, J. E. Ware is starting off the seasonal crop preparation on the contour method of farming his rows round the hill rather than up and down.

The Ware farm is probably the only one in this section where the contour plan is to be faithfully followed. The owner believes it to be better than a terrace plan though he has terraced along with the contour idea. The big idea is to make the old hillside produce the stuff.

When asked Saturday as to just what varieties of crops he would tryout this season, Mr. Ware turned to the County Agent and said, "tell him Broun". That looks a bit like Broun was to furnish the brains and Ware the labor on a team work that will be watched with interest.

Ware is a good farmer, a good manager and understands all that goes along with farming, but he also wants to take advantage of the knowledge of the County Agent having learned the most important lesson of all—a willingness to gather ideas from the other fellow.

Both men named the following as a partial list of what was to be planted: oats to be followed later with alfalfa, cotton, cane, maize, kaffir, hegarri, peanuts, melons, canteloupes and a few other things. Ware is a strong believer in certified seed and had corn, maize and kaffir seed Saturday when last seen getting ready to start to his

farm home some six miles north west of town.

**More Available Labor**

Wherever the electric transmission line extends, there is instantly available an army of servants to shoulder the burden of human labor.

Housework, farm chores, commercial activities and industrial operations are thus speeded and made easier. The productivity of electric servants is greater than human labor on the farm and ranch, in the home and in the factory.

By thus increasing the productive power of its customers, the West Texas Utilities Company is contributing to the prosperity of the area which it serves and adding to the material comfort of the people.

**When Insurance Companies Fought Fires**

In the seventeenth century "fire marks" on buildings indicated that certain insurance companies were responsible for their protection against fire. At that time insurance companies had their own fire brigades.

Today they are replaced by modern fire departments and strong stock fire insurance companies, which promote the progress of the nation by protecting its homes and business against fire.

**LOW PRESSURE TIRES ARE NOT new.** We had them 6 years ago. But they gave out too soon—cost too much per mile. Then the manufacturers added mileage—made your present "balloon style" tires—big, fat fellows—but stiff. Too much material. Hard riding.

Now what these Federal engineers have done is this: They have combined that wonderful *air-cushioned riding comfort and long mileage* in the same tire—for the first time.

In this new-type Federal you get a 12% larger cushion of air. You get a longer, stronger yet more flexible side wall. You get a new rim-wide, full-contact Tread.

And to give you lowest cost per mile you get an excess of mileage. Now that's some tire. Nothing finer in quality, beauty, comfort and long life has ever been made.

And to prove how we stand—we sell the new-type Federals on a "Money-back" Guaranty. If you are not satisfied, after 30 days' use, return them. We'll replace your old tires free of charge and refund your money.

Mrs. R. A. Mantooth of Goldston visited in the home of her sister Mr. and Mrs. W. C. Reeves. On last Friday evening while the lightning flashed and the thunder roared, the cars slipped and the rain poured, the Juniors, Seniors and faculty of the Lelia Lake high school gathered in the banquet hall to attend the annual Junior-Senior banquet.

The hall was most beautifully decorated in pink and gold paper. On the table were tall vases of roses with class motto: "Out of the Harbor into the Deep" swaying above.

After a short time spent in pleasant greetings the thirty guests found their places around the banquet table. An invocation was given by one of the teachers. The president of the class, Hermon Dodson gave a very appropriate address of welcome. In replying to the address of welcome, Supt. Rex Reeves made some interesting and appreciative remarks.

The eats which were served by the guests of the Sophomore class were more than delicious. A number of toasts and talks were given by members of the Senior and Junior classes.

The Seniors expressed their appreciation of the high school they were leaving, while the Juniors almost said they would be glad when the Seniors should go so that they might hold that enviable place.

But it was Hollis Leathers speaking as only Hollis can that brought the crowd to excessive laughter only to be followed by tears. The one regret of the evening was that the Juniors sponsor, Mr. Kavanhaugh, who was to be master of ceremonies, was called away on account of sickness.

After an unusually pleasant evening we certainly felt that we were coming "out of the Harbor" as we stepped "into the Deep" amidst between us and the cars, but we each carried memories which kept us smiling through.

One present. Miss Vera Garland visited friends in Estelina Sunday.

Mr. and Mrs. B. L. Knowles and a Silas visited relatives in Hedley during the week end.

**Brice School Stages Play Friday Night**

The teachers, pupils and a few patriotic helpers again brought the Brice school to the front Friday night when they presented the play "Civil Service" to a large crowd.

The Clarendon Band under the direction of bandmaster Gus B. Stephenson kindly contributed to the success of the play with a number of choice musical selections, which was greatly appreciated by the large assemblage.

It was noted that visitors were present from Memphis, Lakeview, and other Hall county points as well as from several places in Donley county, some coming from as far away as Claude giving further evidence to the fact that first-class local talent school plays are being appreciated more.

**New Sound Features Added Pastime Theatre**

No doubt many have noted the improvement in the sound in connection with the various programs of the Pastime Theatre the past week. This is due to a change in the sound transmitters, a late pattern of horn being added at this time that was not available or completed at the time the change to sound pictures was made.

Directional horns, a late patented feature, works in conjunction with the compensatory which makes it possible to produce modulation of sound that it may be heard in its more natural state. The more noticeable effect is in the reproduction of musical features, either instrument or voice.

This additional feature costing some four hundred dollars, was installed by two experts representing the RCA photophone company from whom Mr. Mulkey purchased the "talkie" instruments. It is the intention of the Pastime management to install all the latest features from time to time that will increase the efficiency of the show.

The manipulation of the machinery responsible for your entertainment is in charge of Lee Casey, assisted by Elvis French and Bill Dillard. Mr. Casey has been with the Pastime theatre for almost twenty years.

**Clarendon Business Firms Adopt Novel Plans**

The Leader passes to its readers this week ads of two Clarendon firms that are not only something out of the ordinary, but may prove profitable as well should our readers taken advantage of the opportunity.

A. N. Wood, the popular grocer, is offering four prizes totaling \$25 for the four best articles written on the subjects mentioned in his ad. He asks that these articles be written only on one side of the paper and that they should be limited to 100 words.

Only one prize to each person and the article must cover all the subjects mentioned in his grocery ad. There is no strings to the plan, you have to buy nothing and if you should want further information, call at the store as he is too busy to talk over the phone. Here's a chance for four people of any age in this trade territory to make some easy money.

J. L. Story has distributed books the past week explaining his plan whereby the public may profit by an endless chain system securing photographs without cost and even share in discounts of local merchants. If you do not understand the plan after reading the book, he will be glad to explain further if you will visit his studio in the Latson building. Read his ad in this issue.

It is seldom that plans are offered the public without a "catch" and we are giving this publicity to these plans because we believe them to be honest, honorable and above board without our readers being asked to take a risk.

Mr. and Mrs. Clyde Naylor of Pampa visited relatives in Clarendon Sunday.

Mr. and Mrs. A. C. Halmark and daughter, Nancy Beth of Shamrock visited Mr. and Mrs. Fred Buntin Sunday.

Mr. and Mrs. Z. L. Salmon and children of Brice were Clarendon shoppers Saturday. Mr. Salmon reports that the cotton growers of his section are to plant a longer staple this season but will not likely cut the acreage.

**SUNNYVIEW**

Everyone has the spring spirit, making gardens, flower beds, sweet potato beds, and brooder houses for their baby chicks and with the good season we are hoping to make a good crop.

Mr. John Smith returned to his home at McKinney Monday morning after visiting here a week with his sister-in-law, Miss Eula Haley and Mr. and Mrs. Paul Smith and children, also his brother-in-law, Will Haley and family.

Mrs. B. G. Smith and sons Benton and Philip spent the week end in Childress. Mrs. Smith attended the professional and business Women's Banquet Saturday night and breakfast Sunday morning.

**You Ought to See the McCormick-Deering FARMALL**

**WHY? - - - Because It Makes True Horseless Farming Possible. Ask any Farmall Owner.**

NO NEED to talk tractors vs. animal power. Everybody agrees nowadays that tractors have horses beat, so it all simmers down to buying the best tractor that you can get, and that's just why we want you to come in to see the McCormick-Deering FARMALL.

Plowing is only one of the many uses of the general - purpose FARMALL tractor. Here, as in all farm power operations, it will plow from 7 to 8 acres a day—work that ordinarily requires two men and eight horses.

The FARMALL is the best all-round tractor we have ever seen. You'll say as much after you have looked it over and had its many fine points explained. And after you've watched a FARMALL at work—plowing, planting, cultivating, or harvesting, you'll fully understand why FARMALL farmers are so enthusiastic about this all-purpose, all-crop tractor.

Come in and see us—no obligation of course. We can arrange to demonstrate a FARMALL right on your own ground if you wish. Let us tell you all about it, and how the FARMALL will serve you as it has served thousands of others.

Quite a few of our farmers are through listing. Most everyone is planting gardens. The sand has begun to crawl around again the last few days. We hope it does not blow until it will ruin our little tender gardens.

lived for the past 15 years, I am taking advantage of your offer to permit citizens to have their say on this school tax proposition.

First, like a great many others, I have to work every week day. My labor is spent in order that I may provide comforts for my wife and three children, and once in a while a luxury.

If I could not look forward to a day when I believe that my girls would become useful, educated women, and my boy a respectable citizen willing to do his part in the general scheme of life honestly, life wouldn't be worth much to me.

Like many other working men, my means have been limited, but I have given all that I could spare to every worthy object. An education is all that I can ever hope to give to my children. My wife and I are more than willing to make any sacrifice in order that our children may grow up to be useful citizens. Without an education, there is no hope.

Should this tax be defeated, my children along with hundreds of others will have no opportunity beyond the common school. If they can go through the two year college course, they can then teach or do other useful work and pay their own way if they want to seek a higher education.

Am I selfish? Yes, if you want to call it that. I am willing to help my neighbor, and my neighbor can help me. Today I asked a young married man if he was going to vote against the tax. "Do I look that narrow?" he replied. "I wouldn't do any thing to hinder your children, any I have or those of my neighbor."

I asked another man who had no kids to send to school what he was going to do about the tax. He said, "I haven't any kids to send to school, but I am willing to help you other fellows, and if I didn't want to pay a school tax, I would sell out and leave."

Rich men give their millions to a number of good things. The poor man does not have much money, but the little he has to give helps more in paying school tax than any other one thing. Who wants to face the dozens of school kids after he has said by his actions that he would deny them the greatest asset the world can give them? I want my children, and your children, to have a better chance than I ever had. This is one time in our lives when we can do a lasting good in a day—let's be there at the polls and vote in the interests of our children, our town and our country.

Yours truly,  
J. F. (Shorty) Oller.

**Endorses Junior College**

Leader,  
Clarendon.

You ask us to state our position on the proposed tax of 20c on the \$100 valuation, to maintain our Junior College.

We shall vote for the Tax, on April 5th for the following reasons:

It will give the children of Clarendon and Donley County two years of College work, above the High School, at a nominal cost.

It will continue Clarendon's standing as a College town, which as an advertising medium alone, will be worth double the amount it will cost.

It will enable practically all of our children who finish High School, two years of College work, whereas 60 per cent would not be able to go away to College.

Parents who are not financially able to send their children away to College, have just the same tender love and affection for their children as those who are more favorably situated; have just as high ambition for their future success as the others; this Junior College will enable them to have their children take a College education right here at home without the expense even of tuition.

It would be an impelling influence that would bring to our town, a better citizenship, a privilege that Clarendon has enjoyed for many years, and we believe is the reason Clarendon has the reputation of being a city of culture and refinement.

Education of the proper kind, makes a better citizenship, so lets support the Junior College, and keep Clarendon the best town of its size in the Panhandle.

pain in the region of my heart which would often times extend clear across my chest and was so severe at times it seemed like I would go distracted I had the best treatment and tried all kinds of medicines but in spite of it all, I kept going down. I fell off in weight and was so nervous and run-down I had to stay in bed for days at a time, and for years was under the care of physicians. Nobody will ever know just how much I did suffer because I can't possibly describe it. I was advised to try this and that but nothing helped me and then I got worse and hardly knew what to try next.

"My husband had heard so much of the good results people right in Wichita Falls had obtained by taking Orgatone (Argotane), one night he brought home a bottle and I started on the treatment—and all that is left of my troubles is the memory of it. My appetite is so good I can hardly get enough to eat and I can eat just anything I want without having any gas, palpitation of the heart or other bad feelings afterwards. The pains have entirely disappeared from my head, chest, and side, my nerves are perfectly calm and no child could sleep better than I do. Orgatone (Argotane) seemed to get right at the cause of my trouble and I kept getting better and better until now I'm in better health than I have been in eleven years. No medicine could do more for a person than Orgatone (Argotane) has done for me and I

only wish everybody could realize its value, as I do."

Genuine Orgatone (Argotane) may be bought in Clarendon at the Stocking's Drug Store.

Grandma Rodgers, of the Heald community near McLean, is in Clarendon this week visiting her many friends here. She attended the Womans Missionary Council last week in Amarillo where she has a host of friends and relatives and plans to go from here to Vernon to visit for some time.

Mr. and Mrs. C. E. Noland and children spent the week-end in Lubbock visiting in the home of Mrs. Noland's sister.

Mr. and Mrs. Ray Couch attended the Legion meet at Childress Sunday.

Rev. Emanuel Dubbs, pastor of the Christian church at Borger, will preach at Hedley tonight. Rev. Dubbs is the son of Mr. and Mrs. W. F. Dubbs of this city and has met with great success in his ministerial efforts, some 200 having been added to the church membership at Borger under his pastorate.

Mr. and Mrs. Dewey Heath and Mr. and Mrs. Sam Darden spent the week end visiting their parents in Crosbyton.

"I was in such a bad condition I had to stay in bed for days at a time and I guess if it had not been for Orgatone (Argotane) I never would have seen another well day," said Mrs. George M. Bruce, of 507 Adams Street, Wichita Falls, Texas, recently.

"I have suffered so much," continued Mrs. Bruce, "during the past eleven years from nervousness and stomach trouble that I almost felt like a physical wreck at times. My stomach would fill up with gas, my heart would palpitate and my suffering was so great that I could hardly stand it. **Club Notes**

**Martin Girls Club**  
 Martin Girls club met at the Martin school Monday and Miss Thompson gave them a clothing demonstration. Good reports on home work assigned were given in response to roll call.

**Hedley Home Demonstration Club Girls**

Met at school Monday afternoon. The 20, attending were given a home improvement demonstration including patterns for making book shelves to keep their school and club equipment on.

**Lelia Lake Girls**

Thirty Lelia Lake Girls are now active members in Home Demonstration club. Six new members were added Tuesday morning when the club met for the demonstration in clothing and home improvement as recorded above for Hedley. These girls also appointed a committee to see the club boys and get them to cooperate in putting on a play so that funds may be raised to send club members to Short Course this summer.

**Hedley Club**

The Hedley Rural Demonstration club Women met with Mrs. Howard Tuesday afternoon and Miss Thompson gave them a demonstration on Food for the convalescent. The 12 women present were greatly interested as they are often called upon to help nurse the sick. Liquid diet and semi solids diet were given in the typical form from Feeding The Family by M. S. Rose, after a study of the food constituents and their distribution in certain easily digested foods. Ways of cooking and attractiveness as well as time of service were stressed as a means of keeping food correctly chosen from having an ill effect upon the patient.

**Windy Valley Girls**

The Windy Valley Girls H. D. club met at the Windy Valley school March 19th and Miss Thompson gave them a demonstration in sewing. They are making club aprons. Two-thirds or more of the membership of this club always have their sewing boxes and working materials with them.

**Ashtola Girls Club**

Ashtola Club Girls presented Miss Thompson with the following petition and were reorganized March 19th to meet regularly and 2nd and 4th Wednesdays in the month.

Ashtola, Texas  
 March 13, 1930.

We, the undersigned, herein present to our county agent, Miss Harvey Thompson, this petition in which we request that she come back to Ashtola to resume her work in the supervision of the girls' clubs in the Ashtola community.

The action of the girls in dropping did not represent the desires of all, or even a majority, of the girls of the Ashtola school and in view of the opportunities that we realize that we are missing, and since it was not our desire to have her leave us, we kindly ask that she please come to Ashtola as soon as convenient and organize another club.

Respectfully submitted:  
 Winona Ford, Opal Dunning, Viola Barker, Ruth Warrick, Jewel, Dockray, Athlyn Drennan, Emma Sue Graham, Levell Huffman, Mary Graham, Evelyne Dunning.

Miss Thompson met with these girls and they organized a new club March 19, 1930. Opal Dunning was elected president, Emma Sue Graham, Vice-Pres.

Ashtola Women H. D. Club met at the home of Mrs. Allen March 19th. Miss Thompson gave the 20 women present the demonstration on Food for the Convalescent. She then gave them a butter judging

demonstration to prepare them for the contest in butter judging which is to be held some time in May.

Our community was shocked because of the untimely death of our friend and former neighbor, Rev. A. V. Neely. Brother Neely was held in very high esteem by all who knew him, he often visited in this neighborhood and his smile and words of encouragement was appreciated by every one, the bereaved family have the sympathy of the entire community.

Miss Maud Crawford intermediate teacher spent the week end with her parents at Clarendon.

Amos Yates of Clarendon attended Sunday school here Sunday.

Mr. and Mrs. Homer Newton and Howard Hughes visited in Amarillo for the week end.

Jimmie and Woodrow Millsap motored to Silvertown Saturday.

Miss Bettie Baker, primary teacher spent the week end with her parents at Memphis.

The home demonstration club held a very interesting meeting in the home of Mrs. W. A. Hughes.

Planting gardens and caring for young chickens seem to be the order of the day.

John Aduddell and family of Hedley attended Sunday school here Sunday.

Mr. and Mrs. O. W. Meadows of Hudgins attended singing here Sunday night.

Mr. Boren of Canyon visited in the Homer Newton home Friday.

Mrs. Joe Rackley of Goodland who was called here because of the death of her grand-father, A. V. Neely, returned home Friday after visiting several days in the home of her father, N. Dingle.

The Chamberlain home demonstration club haven't the words to express how glad we were to have Mrs. Harley Skinner back with us again. Mrs. Skinner is such an active member, each one is bereaved at her absence.

Howard Hughes is spending the week end with hinfolks in Amarillo.

The Chamberlain home demonstration club met with Mrs. W. A. Hughes March 20th with twelve members and two visitors.

Mrs. Ayers and Mrs. Gray gave an interesting talk on beautifying the lawn and yard. And correct ar ranging of flowers and shrubs. The club voted to give Miss Mammie Dingle a pot plant for her living room. Mrs. Roy Beverly demonstrated the hook rug and foot stool which was recently finished. The next meeting will be with Mrs. Harley Skinner April 3.

**OUR WEEKLY CHURCH CHAT**

One way to make the world better is by improving yourself. The most direct way of serving your country is by loyalty to Christ and His Church. A loyal church member is a Christian. A Christian, according to the New Testament, is one who having heard the gospel, believes in Christ, repents of his sins, and obeys the commandments. A Christian occupies a lofty position in Christ. The

Apostle Paul called it, "The high Calling" (Phil. 3:14). In his soul is being restored the image of God. Before him is the Lord Jesus Christ, his perfect Exemplar, into whose likeness he strives to become moulded. In his hand is the rule of his life, the law of God's word, which is able to make the man of God perfect. A Christian is called upon to refrain from evil, and actively engage himself in service for Christ. Such a life cannot be lived without encountering opposition and experiencing many trials, yet the true Christian is undaunted amid the fiercest conflict. He measures things by the end. He sees the glitter of the unfading crown, and presses on "Toward the mark of the high calling of God in Christ Jesus, (Phil. 3:14.)

Perhaps we all have our ideas about certain religious subjects, but in our message, "WHAT IS A CHRISTIAN?" Next Sunday morning we wish to show you what the New Testament says on this subject.

In our evening message we will study, "PAUL'S ANSWER TO KING AGRIPPA." At this time we hope to show you that Paul was not satisfied with the King being "Almost a Christian." Both of the messages will be filled with great truths and facts to help you live

#### Amerson Mixes in Hartley County Politics

If the folks of Hartley county are for him as strong as his old Donley county friends, L. L. Amerson, former Hedley citizen is sure to win out in his campaign for the county judgeship.

Reports coming in from the east side of this county state that he has already polled a big vote with the campaign hardly begun in a county two hundred miles away.

While a citizen of this county, Mr. Amerson was considered among her most prosperous and honorable citizens and his legion of friends here are taking a decided interest in his political ambitions up on the Plains. Some have already been up there campaign-

#### Barn Dance Friday Night Goes Over Strong

The barn dance sponsored by the club room ladies and held at the old opera house Friday night netted the ladies \$41.05 and the proverbial "good time was had by all."

Lu McClellan acted as master of ceremonies being a past master of the art of handling a crowd on a dance floor. Boley Mayo of Goodnight and the three Wallings of Lelia Lake furnished plenty of old time music.

Dave Shelton and Bob Beard called the numbers as only veterans of such frolics could, acquitting themselves with honor. The use of the building was donated by Messrs. Trent to help a good cause along. The effort will be repeated since there was no rift in the complete program of the affair.

Mr. and Mrs. J. T. Mostley of Clovis visited his brother, Sheriff M. W. Mosley and family here over Sunday.

#### GATTIS-YOUNGBLOOD

The marriage of Hilburn Gattis and Miss Thelma Youngblood is reported to have been performed by Rev. Robinson at Memphis Wednesday.

The groom is the son of Rev. and Mrs. G. H. Gattis of Goodnight and the bride is the daughter of Mr. and Mrs. W. H. Youngblood of this city. Both of the contracting parties are well and favorably known locally where they attended school and have many friends.

The Leader joins in the felicitations of the friends here in wishing for them all the happiness possible that life may have in store for them. They will make their home at Childress.

Miss Dale Park visited friends in Childress Sunday and attended the Convention.
