DURIUM RECORDS.

Tests have been made of the new durium phonograph records that are supposed to be unbreakable, non-scratchable, inflammable and non-everything. A man is reported to have taken one home, hit it with a hammer, sprayed it with bootleg that would slip a thumb nail, fried an egg on it, used it for half soles, all with good results. What next?

ACCIDENT PROOF.

A pedestrian of Evanston, Illinois was hit by an auto and his leg torn off. He felt no pain whatever—it was a wooden leg.

There is a solution to the pedestrian problem in Chicago and other reckless cities. Equip them with wooden legs, glass eyes, store teeth, cauliflower ears, calf kidneys, etc. Require the garages to keep 'parts' so that when a fellow gets cracked up, he can get a new 'part' and go his way without public expense or inconvenience.

THE GOVERNOR'S RACE.

If Tom Love thinks that every man in this section is duty bound to vote for him in this gubernatorial campaign, he has another guess coming. If Lynch Davidson thinks that he can herd his supporters into one camp since he 'flew the coop', he also has another guess coming.

People here are average Texans. They will vote as they please. Clint Small will get the big majority of votes. Ma Ferguson will likely get most of what is left. Mayfield will possibly get one or two out of several thousand.

BARBECUED CHICKEN.

Ever since the writer has been having so much to say about the wonderful quality of the barbecued chicken served the members of the State Press Association at Robstown in June, several ladies have been asking that we explain the method or process by which the article is manufactured.

For the benefit of the thousands

who want this information, we believe that Mr. Ray Carney of the Robstown Record will print the recipe that we may pass it on to others. Let us hope so at least. What do you say, Ray?

MONUMENT TO LAWYERS.

At a meeting of the forty-ninth annual session of the Bar Association at San Antonio Friday, a resolution was adopted and seven members appointed to solicit funds for the erection of a monument on the Capitol grounds at Austin in honor of the first Supreme Court of Texas.

Lawyers in those days were just the same as we have them today—good, bad and indifferent. Time has brought one change. Duels fought with 'hoss' pistols in the 'good old days' are now fought with tongues. There is also less real oratory today and less demand for it.

THE NEWSPAPER GAME.

Getting out a newspaper is no picnic. If we print jokes, folks say we are silly. If we don't they say we are too serious. If we publish original stuff, they say we lack variety. If we clip from other papers, they say we are too lazy to write. If we stay in the office we ought to be hunting up news. I we hunt up news, we are not tending to business in the office. If we wear old clothes, we are stingy. If we wear new ones, they're not paid for.

It is even probable that someone will say we swiped this article from another paper. We did!

SANEST FOURTH.

Not only did Clarendon have a sane Fourth of July celebration, but such reports are being made by a large number of towns. Rough-housing the neighbor has gotten to be a relic of the dark ages.

Clarendon did her best to entertain her crowd. The efforts of those on the various committees

are to be highly commended. Mr. Kemp did a good job of selecting helpers since the whole matter was placed in his hands.

Some of those coming at a distance were disappointed in not being able to buy supplies while here and thus save an extra trip. The stores were closed for two reasons: First, stores frequently close on the 4th; second, stores closed that it might not be said of the merchants that the celebration was staged here simply to get the people to town in order to sell them something.

The every act of every citizen was centered on one object—let the folks have as much enjoyment as possible, and help them to enjoy it just a little bit better by having ice water, lemonade and ice tea at the most convenient places. Our object was an act void of selfishness.

INFORMATION ON ABSENTEE VOTING

Now that the July 26th primary is just around the corner those who are absent from home or who expect to be away from home on election day are wondering just what is the proper procedure toward casting absentee ballots. Those who expect to be out of the county or their home precinct on election day will be permitted to vote under the following conditions:

At some time not more than ten days nor less than three days prior to the date of such elections such elector shall make his or her personal appearance before the county clerk of his or her residence and if personally unknown to such clerk, shall be identified by at least two reputable citizens of such county, and shall deliver to such clerk his poll tax receipt or exemption certificate, entitle him or her to vote at such election a ballot will be delivered by clerk, and the elector allowed to vote.

To those who have friends or relatives who are entitled to vote in this county, who are away at school or for any purpose absent from this, their regular residence, shall be allowed to vote in the com in elections by making application in writing, accompanied by their poll tax receipt, to the clerk of said county between the 5th and 16th days of July. Said clerk will then forward ballot to the party making application to vote, and same must be filled in and sworn to before a notary public or the county clerk of the county in which they are temporarily residing. Said ballot to be returned by the county clerk or the notary public taking the oath.

Boys and Girls of Texas Interested in Clubs

College Station, July 8—Nearly 30,000 4-H Club boys and girls in Texas are engaged in livestock and poultry, garden, dairy and field crop projects, reports by M. T. Payne, state boys club agent, and Miss Bess Edwards, assistant state home demonstration agent, of the Extension Service, A & M College of Texas, show. The exact total is 29,981. Of this number 16,596 are boys and 13,385 are girls.

Work of the boys this year, according to Mr. Payne following annual June 1 check, is almost equally divided between livestock and poultry and crop demonstrations in improved agricultural methods. Enrollment of girls in productive demonstrations is as follows: Poultry 5,562, garden 7,522; dairy 301. In addition to one of these productive demonstrations, all of the girls are carrying home making demonstrations in such lines as clothing and home improvement and foods.

Memphis Man Has Many Ways of Making Money

P. O. Young of Memphis is a banker, merchant, farmer and poultryman according to some of his friends who discussed his money-making ability in the Leader office Saturday.

In addition to his other duties, he has no time to talk hard times, is an optimist and likes his section and expects to continue to make his home in Memphis. Mr. and Mrs. Young were here Friday for the celebration and enjoyed meeting with many friends of former years.

Miss Lodi Green, who underwent an operation for goitre in a Dallas hospital a few days ago, is reported to be improving nicely.

Miss Jewell Bailey of Paducah spent the 4th here as a guest of Misses Latrice Benson and Elgin Patrick. Her mother formerly operated the Antro and now has charge of the Hilton at Paducah.

Mr. and Mrs. Chester Talley and children of Silverton visited friends here over the 4th.

Mr. and Mrs. John Beverly of Pampa spent the 4th with friends in Clarendon. John entered a ter-rapin "Pampa", in the sweepstakes but failed to win anything.

A porcupine was added to the Amarillo zoo Friday, a gift of T. W. Baker of Pampa increasing the animal and bird variety to sixty-five.

At Once-- More Power When Needed

Except in the larger cities, electric service was rarely satisfactory before long-distance transmission of electric power was perfected.

Small local plants serving single communities generally lack the variety and volume of demand which enables a larger system, serving a wide area, to operate efficiently.

Nor can small, isolated plants meet sudden new demands for more power nearly as readily as the larger system.

The transmission line can deliver larger amounts of power at once without the delay of installing additional equipment. Thus it clears the road for industrial growth.

The present-day industrial progress of small communities is based in a large measure on the ample and economical power supply which resulted when the transmission systems replaced small local plants throughout the nation.

With 2,500 miles of transmission lines, the West Texas Utilities stands ready to distribute 100,000 horsepower of electrical energy to 115 prosperous cities, towns and communities throughout West Texas, the "Land of Opportunity".

**HEDLEY**

The High School auditorium in Hedley was the scene Tuesday evening of a very enjoyable "Get-to-Gether" affair, a large number of Clarendon people, probably 350 met with the people of Hedley for an hour of entertainment and sociability.

The entertainment consisted of a program prepared and presented by the visitors. The Clarendon Band rendered several excellent numbers. Rev. Robt. S. McKee acted as master of ceremonies and proved himself ably fitted for the job. The entire program was well received.

One of the most interesting numbers was the work of Count La Broke, magician, presented by Rev. W. E. Ferrell.

The purpose of the meeting was to encourage the work of the Home Demonstration clubs of the county. The Clarendon people are holding these meetings in every community in the county in cooperation with Miss Smith and Mr. Brown, our county Agents, the meeting here being the fifth of its kind.

The ladies of the Hedley Home Demonstration club sold popcorn before the program began, and in each sack was a ticket representing a chance at a nice quilt the ladies had made. Mrs. Trostle of Clarendon held the lucky ticket, and requested that the quilt be sold to the highest bidder, and the money be given to the club ladies. Rev. McKee qualified as an expert auctioneer, the quilt was sold to Dick Bain for \$7.50.

At the close of the program the ladies of the club sold ice cream and cake and were kept very busy for about thirty minutes. They report that they realized something over fifty dollar net, and wish to thank every one who helped them in any way and especially Mrs. Trostle for her very generous spirit.

Misses Emily Taber and Paula Price of Chillicothe are guest of Miss Martha Gene Pirtle this week.

A group of ladies met June 24th with Mrs. Clark Latimer and the Willing Helpers Club was organized.

B. N. Stewart Miss Hazel and H. Stewart and G. A. Stewart and son visited relatives in McLean one day last week, Miss Boots Stewart returned with them for a visit.

Mrs. P. C. Johnson left one day the past week for California for a visit with Mr. and Mrs. Bill Johnson.

The R. W. Alvine family are enjoying a vacation visiting relatives at Brownfield. During their absence Les Hawkins is taking care of the mail delivery on route 1.

Mr. and Mrs. A. T. Simmons returned the past week from a visit to relatives at points in Texas, Kansas and Missouri.

Mr. and Mrs. Clifford Skapple and children of Maidstone, Saskatchewan, Canada are her for a visit with their home folks and friends. Mrs. Skapple was formerly Miss Evaline Crouch.

Born July 3rd to Mr. and Mrs. Cat Armstrong a fine 9 1-2 lb. daughter.

In a Glasgow car was an aged Irishman, who held a pipe in his mouth. The conductor told him he could not smoke, but he paid no heed. Presently the conductor came into the car and said with a show of irritation: "Didn't I tell you you couldn't smoke in this car?" "Well, Oi'm not smokin'." "You've a pipe in your mouth." "So Oi hev feet in me boots," replied Pat, "but Oi'm not walkin'."

Miss Nancy Rutherford and mother, Mrs. Hattie Rutherford, of Dallas, are visiting relatives and friends in Amarillo—expecting to visit here the last of the week. Mrs. Rutherford is an aunt of Mrs. Keener and Allen J. Bryan.

**Queer Causes of Waste**

It is estimated by a British expert that 4,000,000 bottles of medicine are wasted annually because the average teaspoon holds more than the usual dose. Another queer cause of waste is the railroad whistle. More than 2,434,026 tons of coal are used every year to blow the whistles on the railroad engines in the United States, and it is estimated that 1,000,000 pounds could be saved if the whistles were moved slightly forward and adapted to a single high-pitch note.

**Life Story of R. S. Sterling One of Triumph Over Difficulties**

Practical Understanding of People's Problems Fits Him For Governorship

**R**OSS STERLING was born on a farm near Anahuac, in Chambers county, in 1875, one of 12 children of parents impoverished by the Civil war. His father was a captain in the Confederacy, and an uncle on his mother's side fought with Sam Houston at San Jacinto.

Early in his youth he left the farm to engage in freighting produce and merchandise across the bay between Anahuac and Galveston in a schooner. At the age of about 20 he opened a little "general merchandise" store in his home community.

From there he ventured into the oil field regions of Humble and Sour Lake, establishing feed and produce stores, and later expanding his activities to include country banking. In 1898 he was married to Miss Maude Abbie Gage. Five children have been born to them.

Mr. Sterling launched into the oil business in 1910, purchasing two producing wells. Adding to these properties, he organized the Humble Oil company.

In 1925 he retired as head of the Humble Oil and Refining company and parted with his holdings in it, to devote his time to other affairs, private and public.

He has been a member of the Houston Port commission since its inception, in about 1912, and chairman of the commission since 1921, during which period the port of Houston has been developed from a dream into one of the major ports of the country, and the city's size has been doubled.

For a number of years Ross Sterling has served as chairman of the board of trustees of Hermann Hospital.

**Poultry Growers Complaining of Careless Neighbors**

Several poultry raisers complain that careless persons often throw dead animals, fowls, etc. out of the car on the highways near homes, the carcasses to soon become infested with maggots which, when eaten by poultry, produce "limber neck" and possibly other ailments.

This is an act of carelessness on the part of those who are guilty of such a breach of protection, and it is hoped that this article may be the means of saving our poultrymen losses this summer.

E. Bryson, among others, lost several turkeys from limberneck. Upon investigating, a maggot infested hen's body was found on the highway plainly showing where the turkeys had become infested.

**Boys Capture Golden Eagle Near Windy Valley**

Tom and Lloyd Morgan, sons of W. B. Morgan of Windy Valley, recently captured a Golden Eagle in the downy stage soon after being hatched and still in the nest. The bird was taken home and was on exhibit here the 4th.

At less than three months, the bird measures six feet from tip to tip. Rabbits, the principal diet, are required in large numbers to appease the appetite of this monarch of the air.

Mr. Morgan expects to sell the eagle to a zoo where it will no doubt bring a good price as this particular variety is yearly growing very scarce. The full grown birds are capable of carrying off lambs and kids, hence have been killed out in the west which is its habitat.

**W. P. Cagle Returns From California Well Pleased**

"Yes, I've come back to the United States", announced W. P. Cagle, president of the Farmers State bank after being absent on a trip over the west several days.

He was accompanied by his daughter, Mrs. J. F. Anthony of Lubbock, and the prime object of the trip was to visit W. P. Cagle, Jr. of San Pedro, California.

The trip was made by way of Salt Lake City where the train stopped long enough to let the travelers take a sight seeing trip over the city. After boarding the train, they passed over a portion of the big salt lake.

Spending the night in the sleeper, they awoke as the train entered the famed Feather river canyon—one of the most beautiful sections visited according to Mr. Cagle. The country was more or less scenic and interesting from there to San Pedro.

He returned in time to meet up with the more than four thousand visitors here the Fourth, and the dozens of good friends who appreciate our fellowtownsman.

**REV. W. W. EAVES**

Whereas our Heavenly Father, in his wisdom, love and goodness has seen fit to take from our midst our beloved pastor, Eld. W. W. Eaves, by calling him from the walks of men unto himself.

Therefore: Be it resolved by this Church that we with bowed heads and thankful hearts do hereby acknowledge our dependence on our Heavenly Father for our health, life and all comforts, blessings and happiness bestowed on us from time to time and do praise God with grateful hearts for his goodness in that he allowed us to labor with our beloved pastor, Bro. W. W. Eaves, in his vineyard here at Lelia Lake, both in the defense and the furtherance of his precious Truth.

We also wish to hereby acknowledge to all people and to our Lord and Master our sincere appreciation of our deceased brother's zeal, courage and wisdom with which he labored for the glory of our Master during his short sojourn among us.

And we do hereby extend to his bereaved and esteemed family and loved ones our deepest sympathy and love in this dark and sad trial.

Respectfully submitted to the Second Baptist Church for adoption and publication by his humble brother and friend, E. H. Kennedy.

Jiggs Mosley left for Hobbs, N. Mex., Saturday.

**Clarendon Folks Are Cavern Visitors This Week**

Large numbers of people from this section visit the Carlsbad Cavern each summer. The scenic beauty is all the more alluring this season by reason of the fact that electric elevators have been installed and pathways fitted out over a trail 27 miles in length.

Those going this week are Mr. and Mrs. C. L. Knight, Mr. and Mrs. G. A. Anderson and Miss Peggie Whisnand, who is a guest of the Andersons for several days.

**Keeping The Wolf Away**

The Leader editor and his large family feel deeply indebted to Mrs. J. W. Roland for a large quantity of choice Donley county grown tomatoes this week. The flavor, quality and size is all that could be desired.

W. A. Hughes of the Chamberlain community also fed up our bunch of roasting ears. There is only one objection to this corn on the cob—we have to scrape the butter off our ears after eating. Thank you folks, thank you.

**Rev. W. W. Eaves Passed Away in Shelby County**

The sad news of the death of Rev. W. W. Eaves which occurred near Short in Shelby county the 27th of June following the second stroke of paralysis became known here Monday.

Rev. Eaves suffered a light stroke while visiting relatives at Clovis in March. He left Lelia with his wife and three children some six weeks ago expecting to do evangelistic work in East Texas during the summer.

Few men are held sacred in the memory of as many friends of all denominations in the Panhandle as this faithful servant of his Master. News of his death is received here with profound sorrow, and the sympathy of the many friends goes out to the bereaved family.

Mrs. D. V. Brooks, who has been visiting her mother, Mrs. Matt Bennett, for the past several weeks, returned to her home at Ft. Worth Monday. Mr. Brooks was also here over the past week end.

**THE VALUE OF SOUND DESIGN**

**New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy**

THE good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

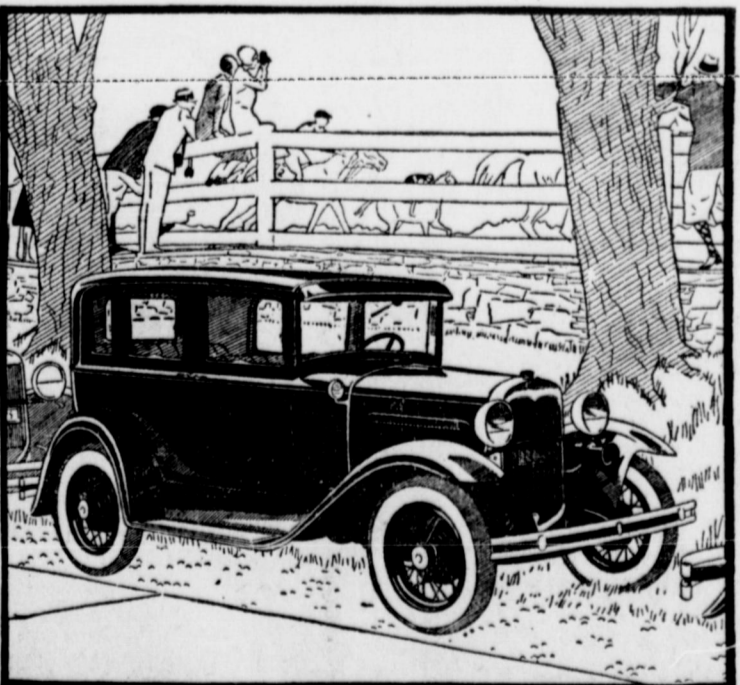

by producing turbulence within the cylinders during compression. The spark thus flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance. Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, the simplicity of the electrical, cooling, lubrication, and fuel systems and accuracy in manufacturing.

Most all of this community attended the races shows and other amusements in the thriving little city just north of us July the fourth. Everyone reports a nice time, the Clarendon chamber of commerce deserves and have the good will of the public for the well balanced program. Mr. Mulkey deserves a lot of credit for the splendid show that he furnished on that occasion.

Then Mr. Pyle the efficient City Marshall has a lot of credit coming his way for his untiring effort in taking care of the traffic.

Come to think of it the election is drawing near and with state and county candidates shelling the woods all round us, the hot winds piercing us from every angle and old soi unceasingly pouring his rays of sun straight down upon us we should make a great effort to keep a cool head.

There was a good attendance at singing Sunday night, some of the visitors included, Mr. and Mrs. A. N. Wood, Mrs. Conner, and Mr. Clyde Hudson of Clarendon.

Mr. Elmer Chenault of Lelia Lake. Always glad to have these good singers with us. In fact Mr. Wood and Mr. Chenault have been helping us so long an faithful that we always look over the audience to see if they are present before we announce that popular number, the gang's all here.

Mrs. Van Nox and Miss Altha Nox of Lelia Lake visited Mr. and Mrs. Morris Millsap Sunday afternoon.

Noon Johnston entertained a number of his friends with a birthday party Saturday night. Lonnie Smith, Howard Hughes, Hartley Bates, J. E. Duckett, Everette and Raymond Rodney, Woodrow Millsap, Annie Marie Hardin, Loetta Rampey, Louise Hughes present.

**Turkey Grading School**  
Very proud is George B. Terrell, State Commissioner of Agriculture, of his part in promoting the first Turkey Grading School for Texas. Such a school will be held the week beginning Monday Oct. 20, 1930 in San Angelo.

"The purpose of this grading school is to establish standard grades for turkeys and to teach our people how to grade them so they can be sold on grade, like

cotton, fruits and vegetables", explains Commissioner Terrell. The school is to be conducted by the U. S. Bureau of Agricultural Economics, the Extension Service of the A. & M. College and the State Department of Agriculture.

"Comptent instructors will be furnished. Texas is the greatest turkey producing state in the union—shipping these birds in car loads to all the northern markets for Thanksgiving and Christmas. A supply of turkeys will be furnished for grading and instruction purposes, and all persons desiring to learn how to grade turkeys are invited to attend and no charges will be made for instruction". Further details may be obtained by writing to the State Department of Agriculture or to the Extension Service of A & M College.

**Bigamy No Crime**  
A far-reaching decision was handed down by the Court of Criminal Appeals last week in the final session of the 1929-30 court term. There can be no legal prosecution in Texas of a person who commits bigamy in another state, the court held in the case of Riley Hopson, given a two year sentence in Wichita County on a bigamy charge. The conviction was reversed by the high court.

Dissenting from the majority opinion of the court, Judge O. S. Lattimore said:

"The proper decision of this case becomes of more importance for that it is one of the first impressions in Texas. I think the opinion adopts an interpretation of the law which, however, unintentional, may lead to the establishment of precedent of grievously hurtful consequence and same may be used to give law breakers a free hand and put society at the mercy of freebooters abroad on our social seas

in this day of much talk of increasing sexual crime."

According to the court records, Hopson married a second wife, without being legally separated from No. 1, in Oklahoma. He cohabited with the new wife in Wichita County, it was alleged. Charges of bigamy were filed.

While he cannot be legally be tried for bigamy, he could be tried for adultery, the court said.

**King Preaches Agriculture**  
"Texas' greatest opportunity for fame and advertisement is in her agriculture. The proper State encouragement and exploitation of our undeveloped agricultural resources would bring 2,000,000 people to Texas within the next decade". A. H. King, veteran legislator of Throckmorton, speaking.

"Much has been said of natural resources. They are but baubles compared with agricultural possibilities. The economic wealth of the State has its background in the farm.

"We are trying to put the cart before the horse. There are many schemes for bringing industries into the State. Develop agriculture! Then will come industry, naturally and easily.

"Your State Department of Agriculture is the logical instrument by which agricultural development can be set into motion. A wide latitude in policy, financial support of the Legislature, and the cooperation of our citizens will give us a Department that can start Texas on the climb toward being the largest State in population and the richest State in the Union.

"Let the Department of Agriculture find the light and our people will find the way to agricultural and economic supremacy."

The Department of Agriculture

has suffered greatly at the hands of the Legislature. Appropriations have been cut from time to time. Yet, legislators mouth much about "doing something for the farmer."

As Rep. King points out, this department has greater possibilities for advancing the State than any other agency of government. King retiring from the Legislature, is now running for Commissioner of Agriculture.

**Attorney General**  
The State of Texas received through its Attorney General, Robert Lee Bobbitt, \$11,160.97 last week from the United States Treasury. The Supreme Court ordered the Treasurer to reimburse Texas for one-third of the compensation and expenses allowed a special commissioner to survey the 100th meridian line between Oklahoma and Texas. By this survey, Texas gained approximately 28,000 acres of land long claimed by Oklahoma.

**No Mud, No Interest**  
The disinterested manner in which the voter is taking the approaching election is rather unusual. There is little enthusiasm evident. A large element of the electorate, holding the balance of power, has not yet decided for whom to vote.

The factor lacking to make the gubernatorial campaign interesting is a real fight. A strong clash between the candidates with some heavy mud-slinging is what intrigues the interest of the average voter, who understands little and cares less about problems of government etc.

So far we have only had a little long-distance skirmishing and polite debate among the war-horses.

OUR WEEKLY CHURCH CHAT "Influence"

It is impossible to rid one's self of the power of influence. "For none of us liveth to himself, and none dieth to himself." (Rom. 14:7) The most insignificant and the most isolated are of influence, affecting other in one way or another. Influence is ineradicable. None can dispense themselves of this power. All that can be done is to direct it for good or evil. Punshon speaking of influence said: "Oh it is a terrible power that I have—this power of influence! And it clings to me; I cannot shake it off. It was born with me; it has grown with my growth, and strengthened with my strength. It speaks, it walks, it moves; it is powerful in every look of my eye, in every word of my lips, in every act of my life. I cannot live to myself. I must either be a light of illumine, or a tempest to destroy."

In seeking to influence others for good, care must be taken lest attention be drawn to one's self, and the effect made to perpetuate one's own name or views rather than to lead men to a knowledge of and obedience to the truth. Christians should be willing, like John the Baptist, to decrease, even to nothingness, that Christ may increase. "Not what has happened to myself today, but what has happened to others through me" would be a good motto for many of us to adopt.

At our Sunday services we are striving to help you that you might help others. Sunday morning our subject will be, "A REVIVAL PRAYER." A revival is something that revises. A revival is not merely a series of sermons, it is not just singing old familiar song and praying a lot of long prayers, though all of this is needful and good in a real revival. A revival that revives, is a stirring up of the people of God, it means "to give more life." Sunday evening we will bring a message on the power of influence, our subject will be, "A DEAD MAN'S POWER." Do you want to become a great magnetic force to draw men away from evil and sin, and to attract them toward Heaven, Home and God? If you do come and study with us Sunday evening, let the inspired writers tell you how to become a great power. W. E. Ferrell minister First Christian Church.

CHAMBERLAIN H. D. CLUB

The Chamberlain home demonstration club met with Mrs. Horris Reed Thursday July third with 10 members present. Four visitors. Members were: Mrs. Rumpy, Mrs. Beverly, Mrs. Hardin, Mrs. Richard Dingler, Mrs. A. B. Rumpy, Mrs. Gray, Mrs. Thomas, Mrs. Clifford Ohnson, Miss Mammie Dingler, Mrs. Hughes. Visitors were: Mrs. Barbee, Mrs. Rhodes, Miss Gertrude Barbee, Miss Anna Hinkle. Several girls were also present as they anticipated on organizing a girls club. But owing to the absence of the demonstrator they didn't organize. There was no demonstration, and had a social meeting, and all rehearsed the club song. The hostess served delicious ice cream and cake. The next meeting will be with Mrs. A. B. Rumpy, Aug. 7th.

IN APPRECIATION

To those who helped to make the 4th of July celebration a success in Clarendon, especially to those individuals and firms who are members of the Clarendon Chamber of Commerce as it was they who put up the money, to all members of every committee, to the contestants in all events, the Board of Directors of the Clarendon Chamber of Commerce thank you and promise with the help of all to put on a real 4th of July program in 1931. THE SCHOOL AS A SHOCK ABSORBER

If the motoring is rough, it is the road, not the car. If the train rides roughly, it is the poor road bed or the poor equipment, never the disposition of the passenger. If young people of a community do not measure up on conduct or otherwise to as many different standards as there are people, it could not be any negative influence in the community, it is the schools.

If the youth of the community, bubbling over with life and energy, display more pep than we can recall possessing when we were young, it is the fault of the disciplinary methods of the school. If there is a wave of crime or petty thievery in a community, it is the fault of education. If the scholarship of the young people of a community is low, it cannot be a dozen distracting influences that make concentration on school work difficult, it is the fault of the school instruction. If homework is assigned to keep less energetic students up to grade, the schools are driving the young people too hard and impairing health. If schools make provision for health and recreation in their educational program, they are indulging in fads and going beyond the legitimate sphere of activity of the schools.

If school costs are high, school officials are extravagant. If costs are low, with a resulting lower standard of education, the officials lack vision. If a superintendent exercises authority within his sphere, he is autocratic. If he does not, he is held inefficient and lacking the courage of his convictions.

If schools are run wholly in the interests of pupils, with a cold shoulder to appeals for special favors or without consideration of factional interests, they acquire the enmity of all factions.

It is a strange paradox that people know more about how a school system should be conducted than any other single project. Being public institutions supported by public moneys, they hold public interest and attention. It is right that they should. A school system bears much the same relation to a community as the only child a family does to its near relatives. Many a child has been deprived of its initiative and its opportunity for development because it has been subjected to too much guidance by many interested relatives. The school system is the one child of the community and it should be accorded every opportunity for growth.

The school is concerned with the scholastic accomplishments of the young people. It is concerned with their conduct in and out of school. It is concerned with their physical well-being. It is concerned with their moral standards. It is concerned with inclinations, interests and activities of its respective groups. It alone cannot be expected to overcome all negative influences. It cannot make void hereditary influences. It cannot furnish ability where ability does not exist. It cannot detect all personal characteristics where mass education is necessary. It cannot eliminate evil tendencies strongly embedded through heredity, environment, or unwholesome influences.

It can be a party to remedying

these situations. It cannot be held responsible for hazards but it can reduce their effects to a minimum. It can be and is a shock absorber for the ills of a community.

### Henry Ansley Nostalgia Victim at El Paso

Dr. Erasmus Tack has been called to El Paso with a special serum obtained from a veterinarian for the purpose of inoculating Henry Ansley against any further inroads of Nostalgia which is said to be more repulsive than a garlic breath or any of the forty varieties of halitosis. Word from his bedside is awaited with interest by all the ex-livery stable men in the Panhandle.

Winfield Mosley of White Deer visited homefolks on the 4th.

### Rotarian Delegates

(Continued From Front Page) at the Sherman hotel. Will readily gathered the Texans to his bosom and was "plum tickled" to see us. The writer knew Will as a cow-puncher around Amarillo back in 1902 and we talked over old times while the gaping multitude of natives listened. Will Rogers, in the writer's opinion, is the brainiest man the United States has ever produced.

He stated that "there was no market for intelligence, but that he had been paid thousands of dollars for "dam foolishness" which was the biggest joke he had ever pulled in all his experience."

Negroes take a delight in sitting beside white women on the cars leaving other seats vacant, but they do not register very highly at the hotels and cafes frequented by the better class of whites. This fact came as a surprise to the Texas delegation. No, the races each have their eating places and do not mix.

Chicago is largely made up of foreigners who refuse to adopt our customs. Thousands lined the off street sidewalks begging. Most of them were foreigners. The city is hot, dusty and filthy in the loop district. Not a gun was fired though a motorman was killed where we boarded the street car the next day after the delegates left. Perhaps we should have staid and saved him from accidental death as gangsters shot at each other, but grand old Texas was calling and we were eager to answer the call.

Airplanes sailed over the City both night and day while students of the government flying school learned the art of manipulation. Fifty planes were often seen in battle formation at one time.

The writer had as his breakfast guests a newspaper man each from Japan and India. Both men spoke eloquent English and were most interesting. Conditions in their country is the same as here. In their opinion, prices of every commodity will be brought down to a parity manufactured possibly selling for half what they do now within less than two years.

Chicago is burdened with gangsters, rotten politics and foreigners of the "scum of creation" from Southern Europe according to the opinions of the better class. The police were courteous to the visitors escorting delegates across the street in the crowded sections because the native refuses to recognize a red light and run pell-mell at will regardless of ordinances, police authority to personal safety.

When the writer asked a policeman why pedestrians were not arrested for crossing the street against a red light, he replied: "That's what they want. We have to feed them when we jugs them."

A cop on the beat near the Stadium was a native of Waxahachie and the Texas hatband often caused one to meet up with former Texans.

The friendly Texas spirit never dies according to Will Rogers, and the longer we staid in "Chi", as they term it, the more we were convinced that we had an asset worth billions to which few other states could lay claim.

Of the hundreds of Boy Scouts doing messenger service at the Convention, several were colored. One colored boy asked the writer if he could safely tour Texas this summer. When assured by the writer that the Southern white man was a friend of the well-behaved colored man, he said: "Ah'm sho' gonna behave mahself when ah visits them Mr. Texans."

A visit to the Chicago wheat pit where gamblers set the prices on the farmers products was a distinct disappointment—every one was yelling and nobody listening.

After being absent ten days and crossing seven states, Clarendon looked better than ever to a green country boy who had been to a big city. Conditions here are much better, crops are better, we have a better class of people in West Texas and never realize this fact until we visit among "furriners" over the state line.

## Small Boosters To Gather At Amarillo On Friday Night

### Leading Speakers of State Will Outline Plans For Victory July 26th

If the people of the Panhandle thought enthusiasm was at its extreme height when Senator Small made his opening campaign address at Amarillo, they should be there Friday evening at 7:30 when the speechmaking begins on the Courthouse lawn.

It is reliably announced that patriotic men of the state's best oratorical ability will be present to give the public the 'low down' on the campaign in general. It is not expected that Senator Small will be there—he is campaigning in northeast Texas in the enemy territory, and has his hands full.

The surprise of the meeting will be when a man of statewide reputation announces his alignment with the Small forces. His name is withheld at this time by special request. It is said he rebels at the thought of the governor's office being bought by a multi-millionaire. Hear him. You read about him and have admired him.

Panhandle speakers, friends and supporters of Small will be present. Each county in this Senatorial district will have representatives there. Clarendon, Shamrock and Wellington bands will be there as will bands from several other towns. A grand parade on the streets will be staged. It is freely predicted that this will be by far the biggest political rally of unpaid boosters ever gotten together in support of any man in the history of Texas politics.

Small's strength in North, Central and Northeast is growing at a rapid pace. He carries his campaign into the eastern and south-eastern part of the state from this time until election day.

Senator Carl C. Hardin, who has represented the Stephenville or 21st district for the past six years, while in the Leader office Monday of this week stated that his section would go for Small by a big majority. Senator Hardin is objecting to what appears to be an attempt to purchase the governor's seat by hiring paid speakers and spending thousands of dollars advertising in daily and weekly papers over the state.

W. P. Cagle, chairman of the Democratic central committee, is in receipt of a letter from his brother at Greenville in which he states that Small spoke in his town and made such an impression that soem of the same crowd journeyed to Ft. Worth to hear him speak again.

A large crowd of Donley county folks will attend the grain rally Friday and stay over for the Small rally that night. The local band will be accompanied by several enthusiastic Clarendon boosters.

### Pampa Entertains 4-H Club Girls Monday

The Lelia Lake club girls sent as representatives Misses Margaret Gerner, Marie Howard and Marguerite McElyea to the 4-H club girl convention at Pampa. They were accompanied by Miss Nora Smith, H. D. agent of this county.

Five counties, Donley, Gray, Wheeler, Potter and Armstrong were represented. Teams from each county staged contests in poultry judging, essentials of diet, bedroom accessories, cottage cheese, etc., the winning team to be entitled to a trip to the Short Course. Winner will be announced later.

### Superintendent H. T. Burton Represents College

During the past week, Supt. H. T. Burton of the Clarendon school system, has visited a number of nearby towns in the interest of the Municipal Junior College, Lakeview, Hedley, Lelia Lake, Groom, Goodnight and Claude were visited where he met with much encouragement.

It is believed that a large number of pupils from nearby districts will attend the Junior College here next term in order to take advantage of the excellent courses offered, exceptional equipment and saving of monetary outlay.

### Miss Mayme Youngblood, who is employed at Amarillo at present, spent the week end here with her parents, Mr. and Mrs. W. H. Youngblood.

Donley County Leader \$2 a Year

### James V. Allred in Race For Attorney General

James V. Allred was born in Bowie, Texas March 29, 1899. He enlisted in the World War at the age of 19, and did his bit until the signing of the Armistice.

Not only is he a leading lawyer of Wichita Falls, but he served as district attorney of his district covering the counties of Wichita, Archer and Young counties. In 1926, Allred received the endorsement of 356,036 voters in Texas in his race for the office to which he again aspires after waiting the customary four years. He failed of nomination in his last campaign by only about 4000 votes. Outside of the home county of Harris where his opponent lived, he carried the state by 12,000 votes.

When his friends placed him in nomination in 1928, he refused to make the race in violation of Democratic custom since his opponent had served only one term.

The editor of this paper has known the Allred family since before the birth of Jimmie, the subject of this sketch. As a neighbor in Bowie, they were friends and Jimmie sold papers to us while a mere lad and talked of the time when he might be a man among men. He has arrived at that age of more mature judgment and through all these years has never violated the confidence of a friend or reflected discredit on the family name.

Jimmie Allred is self-made. Made out of the stuff that never recognizes defeat. Honest, honorable and skilled in his chosen profession. He came from the ranks of the every-day folks—the salt of the earth. He is deserving and appreciative of every consideration shown him.

This article is being written and published without his knowledge as an appreciation of a brilliant young man whose honor is priceless, whose character is clean and whose reputation stands out before the good people of the Lone Star state as a monument for the guidance of other worthy youngsters who hope to succeed on merit alone. He and thousands of others will appreciate your vote on July 26th.

### Lion Delegates Will Leave For Denver Sunday

Delegates from the local Lions club will leave here Sunday to attend the national convention to be held in Denver next week. Fred W. Rathjen, president of the club, is the regular delegate and Sam Braswell, Sr. alternate.

Those who have announced their intention of attending are Fred Rathjen, Mr. and Mrs. Sam Braswell, Mr. and Mrs. O. C. Watson, and children, Mr. and Mrs. D. O. Stallings, Mr. and Mrs. J. T. Patman, Mr. and Mrs. Homer Mulkey and possibly T. D. Nored and L. O. Lewis who have not fully decided as yet.

### Mrs. Fink Sells Bungalows to Local Parties

The purchase of two bungalows by local business is best evidence of their faith in the continued progress of Clarendon. During the week Mrs. O. L. Fink sold her bungalows just west of the Boys' Dormitory building on College Heights to J. Frank Heath and R. E. Paxson.

Both buildings were constructed a little over a year ago and are furnished with all modern improvements. The price paid could not be learned but is said to have been in keeping with the better class of dwellings located in one of the choicest locations of the city.

### Hedley Rural Club Thanks Clarendon Folks

The Leader received through the mail Monday of this week a letter of thanks from the Hedley Rural Demonstration club with a request that it be published, which we are glad to do in this issue.

"We want to thank the Clarendon folks for making it possible to send a representative from our club to the Short Course at College Station. Also we thank Mrs. Troselle for helping out with our quilt sale."

"The Clubs of Donley county are doing some fine work, so let's keep on with this work."

### CLARENDON DEMONSTRATION CLUB

The H. D. Club will meet at the home of Mrs. J. C. Estlack Friday, July 11th. All members are urged to be present with book reports made out in full.

### Camp Fire Girls' Program at Christian Church

The Clarendon Camp Fire girls under the direction of Miss Lorena Steagall presented an interesting program at the Christian church Sunday night. Mrs. John Bass rendered piano music for the girls.

The girls entered the church to the tune of an Indian march followed by the singing of a Camp Fire song "Oh We Cheer." A candle lighting ceremony included Misses Donna Downey, Dorothy Powell and Helen Louise Green.

Miss Mary Travis Dyer contributed a reading, "Ode to Council Fire" and Miss Eugenia Nolan gave a reading, "Crede for Camp Fire." A Camp Fire walking song was next on the program with all the girls taking part.

An exhibition of the "Law of the Camp Fire" included "Wood Gatherers Desire" for first rank, by new members, "Fire Makers Desire" for second rank by Wood Gatherers. A special song, "Follow the Glean" was rendered by Misses Mary Francis Caraway, Roberta Lafon, Willie Vineyard and Miss Lorena Steagall.

"Purposes and Ideals of Camp Fire" a reading by Mary Francis Caraway, Willie Vineyard gave a short history of Camp Fire organization. History of Sacajawea Camp of Clarendon by Ruth Dunn, History of Ricewa Camp of Clarendon by Geraldine Pratt.

"Extinguishing the Fire" by Roberta Lafon, Ruth Donnell and Viola ones. The entire Camp sang "Now Our Camp Fire Fadeth." The program closed with the Camp Fire benediction, and recessional of lighted candles.

### JUNIOR B. Y. P. U. PROGRAM

### Clews Obtained in Donley Bank Robbery Case

During the past week Deputy sheriff Guy Pierce located a money sack northeast of Hedley later identified by employes of the Donley County State bank as one taken from the bank during the robbery.

A lady found the sack in a gulley end had washed it at the time Mr. Pierce called to see her about the matter. Several people have been found who saw the wine colored sack in which the robbers were traveling and from which the sack was thrown.

A detective representing the insurance company paying the loss is working on the case with a description of the two men and the car and developments may be expected at any time.

### Clarendon Hatchery Man Will Vacate in Northern States

Leaving here on the 4th, Frank White, Jr. expects to do Chicago, Detroit and other large cities of the United States and also a number of Canadian towns before returning as a means of adding to his knowledge while taking a real vacation.

He will be accompanied by Raymond Adkisson of Amarillo. They will go by rail until the Great Lakes are reached, when they expect to take their first boat ride in crossing the first lake that attempts to stop their quest of adventure into foreign land.

Mr. and Mrs. A. H. Baker visited over the week end with their daughter, Mrs. Marion Cox and family at Panhandle.

### Donley County Highway Work to Begin

Announcement is made that work on the construction of highway No. 5 recently surveyed from Memphis to the main street of Clarendon, is to begin most any day. The county is furnishing right-of-way and the state will pay for the road construction proper consisting of roadbed, culverts, etc.

Three-fourths of a mile will be saved in the distance from Clarendon to Memphis when the roadbed is completed which is to follow the Denver road the greater part of the distance until the rough section near Giles is reached.

There is to be no rail crossings as the roadbed will be constructed south of the track the entire distance. Road engineers estimate that a year's time will be required for the roadbed to settle before paving can begin.

Mr. and Mrs. Monty R. Garrison and children of Childress visited here and celebrated the Fourth with old friends.

Mr. and Mrs. Frank Houston of Childress visited friends in Clarendon over the 4th.

Miss Ruby Lee Landers of Amarillo visited homefolks over the 4th.
