

The Donley County Leader

A County-Wide Publication of the "Green Belt" of the Panhandle of Texas

Volume 3 Number 23

CLARENDON, DONLEY COUNTY, TEXAS, AUGUST 13, 1931

A Common Paper For Common People

EXEMPTIONS—

Representatives of foreign nations, racketeers and district judges are said to be the only classes exempt from prosecution in 1931.

LOCAL COLLEGE OFFERS FULL TWO YEAR COURSES

Clarendon Junior College Is Recognized by The State Department Education

Students of Donley county and nearby sections have available at the Clarendon Municipal Junior College a complete two-year academic college course which compares favorably with the first two years work of major colleges and universities, and is superior to some institutions in the state.

At this time when many students may be denied training because of general economic conditions, the Junior College should be especially valuable to residents of this section because of the low tuition cost and the low cost of living in Clarendon.

Students of the regular college district pay no tuition. Students not living in this district may enter on the payment of \$42 each semester, the college year being divided into two semesters. The total tuition cost for the year amounts to \$84.

Closer attention is given the pupils of this College than in the larger schools of a like nature because of the crowded conditions usually to be found in the larger schools.

Clarendon Municipal Junior College is recognized by the State Department of Education and credits from this school are recognized by any state school. It is also rated by the Texas Association of Colleges as a class A institution.

The faculty members have been selected because of their special fitness and training for the branches which they teach. Because of the success attained last season, very few changes have been made in the faculty for the coming sessions.

The 1931-32 session begins on September 3rd. Those wishing to attend school here this fall should make arrangements with Dean W. A. Clark, Jr. at once and not wait until the opening day. There is every evidence of an increased enrollment over the preceding year despite conditions as they now exist.

Game Officials Approve Plan For Buffalo Sanctuary

Many Visit Goodnight Ranch In Sunday Crowd In Effort To Save Buffalo Herd

After a visit to the Goodnight ranch Sunday, in which scores of representatives from all over the Panhandle participated in discussing plans for preserving the buffalo herd, Murrell L. Buckner of the State Game, Fish and Oyster Commission declared that the herd of buffalo would be saved provided the state or citizens of the state would provide a sanctuary for them.

The majority of the officials of the game commission have expressed themselves as being in favor of preserving the buffalo herd, and thus thwart their extermination by the hands of eastern sportsmen.

The 240 herd now grazing on the Goodnight ranch is a remnant of a mighty thundering herd that once swept over the plains country, but which in the past few years were facing an awful doom of becoming extinct.

It is estimated that the herd can be purchased for about \$20,000 and the first price asked for the ranch it is understood, was given at \$126,500. It is stated that an effort to buy the ranch will be made.

If the ranch is purchased, the idea is advanced that it would serve both as a state park and as an animal preserve. The ranch is already well stocked with quail and with the small herd of deer now grazing within its pasture, the ranch could easily be turned into a first class park, stated one of the delegates who was at the ranch Sunday.

Prehistoric Fossils Being Collected For Museum

Prof. Mateer and others representing the museum at Canyon have been here the past week working on the Dill farm making a collection of prehistoric fossil remains which they will place in the museum.

Eby Stocking has been in the field with the crew. Prof. Mateer is a paleontologist of wide reputation and in the collection made here the past week has secured specimens of three-toed horse, camel and other specimens well known locally.

Home Demonstration Agents To Study at Las Vegas

All of the Home Demonstration Agents of this district with the district agent are in camp at Las Vegas. The camp started today (Thursday) and will last until the 20th. The Agents chose the cooler climate this year to hold their annual school. They will study poultry dairying, food preservation and recreation work.

Miss Martha Buttrell, local Agent, stopped in Clarendon for a few hours Tuesday morning. She is being accompanied by her niece, Miss Francis McFarland of Abilene.

Geo. Matthewson Dies Here Tuesday Afternoon

Geo. M. D. Matthewson, residing with his family on the J. L. Bain farm east of town, died as the result of drinking a two and a half ounce bottle of carbolic acid about 4:30 Tuesday afternoon.

Evidently suffering from mental derangement, his actions the day before alarmed the family to the extent that some of them asked that the officers take him in charge. He was in their custody until the following morning.

Upon being liberated, he went home and passing to the back room was followed shortly afterwards by a son who noticed the empty bottle lying near. Upon being asked if he had drank the contents of the bottle, he is said to have remarked that "it will all be over in a few minutes." He died within about three minutes before help could be summoned.

Coming to this section about two years ago, he had served two terms as tax assessor of Wise county and had also served in the capacity of a peace officer in the county where he was regarded as a highly respected citizen.

Interment was made at Estelline Wednesday afternoon. He is survived by his widow and several children.

Local Farmers Make Enjoyable Trip to Arkansas

Leaving here last Thursday, W. F. Shannon and A. L. Otto made a trip up through Oklahoma and over into Arkansas. Their main purpose was to get a load of peaches but they made it a pleasure trip also. They went up thru Oklahoma stopping in Chickasha, Muskogee, Vinita and Oklahoma City. They visited at Fayetteville, Arkansas going from there to Ft. Smith by way of the highway No. 71. Mr. Shannon said that he saw more peaches and prettier scenery from that highway than any highway he had ever been on. They went up on Mt. Lookout and drank out of the famous well that is only 18 to 20 feet deep.

They bought 25 bushels of peaches seven miles east of Ft. Smith for 52 cents per bushel. Some of the peaches in that country were selling as low as 20 cents per bushel. These were in the hill district and were slightly hill specked. Most of the peaches were canned Monday.

Hamlin Man Says Michigan Farmers Prosperous

Woodrow Holland, whose home is at Hamlin, arrived here Wednesday for a visit with his uncle, Joe Holland, Sr. and other relatives. He is more recently from Michigan where he has been employed. In discussing the status of the farmer in that state, he says they are more prosperous than in Texas by reason of the fact that many of them keep as many as 25 good cows and that they are holding their grain and depending on cows to carry them through.

LOCAL GOLFERS DEFEAT SHAMROCK SUNDAY 21-14

Shamrock's Cole Creek Team Will Again Battle Hillcrofters Here 30th

Clarendon's crack Hillcrofters trounced Shamrock's Cole Creek golf team on Shamrock soil Sunday afternoon 21-14. The outcome was featured by close matches and extra holes. By beating Shamrock the local boys made it their fourth straight victory, having defeated Amarillo, Wellington and Hedley.

Al Cooke set the pace for the day with a 69, one under par. Clarendon was assisted by 5 players from Hedley. It is announced that a return match will be played here August 30th.

The following gives who played who and how they came out:

Al Cooke defeated Billy Holmes 3-2, Dick Cooke lost to Walter Pendleton 1 up 22 holes, Ira Merchant lost to Frank Mitham 1 up, Dude Gentry won from Chas. Staggs 3-1, Bill Cooke won from Lyle Holmes 1 up, Meredith Gentry lost to James Smith 3-2, W. A. Wilson downed B. F. Holmes 4-3, H. B. Kerbow downed Earl Hunter 2-1, A. N. Woods won from Bob Douglas 3-2, V. A. Kent was defeated by Fred Staggs 7-5, Pinky Kerbow lost to Noel Woodley 1 up 19 holes, Hank Bagby lost to Windy Clemons 3-2, Holman Kennedy lost to Cabot Brannon 3-2, Wesley Knorrp won from Flake George 6-5, Ray Moreman was defeated by Ted Rogers 7-6, Roney Westberry downed A. N. Holmes 1 up 20 holes, Ansel Adamson downed Dr. Barkley 2-1, John Swinney downed R. R. Claud 3-2, T. M. Shaver won from Bill Summers 2 up, Lee Casey lost to Bill Skidmore 1 up 19 holes, R. C. Weatherly defeated Lee Wallace 1 up, Carl Parsons lost to Ed Griffin 7-6, Ralph Kerbow won from A. Munro 5-3, C. E. Miller won from C. T. Palmer 4-3, Homer Parsons won from T. J. Lyle 6-5, Carroll Knorrp won from Dr. Homer 2-1, Tom F. Connolly won from Norwood Lyle 7-6, Paul Smithy lost to Douglas Jones 2 up, Dan Lattimer lost to Archie Hallmark 2 up, Guy Kerbow defeated O. P. Purcell 4-3, I. O. Noble was defeated by J. Munday 2-1, Nolie Simmons was defeated by Paul Vincent 1 up, Doss Palmer won from Frank Smith 7-6, Fred Connolly won from Pearl Boston 2-1, U. J. Boston won from H. P. Kuhlman 1 up 20 holes.

The idea, according to county agent Broun, is to set up a system of barter for the next few weeks between the surplus of produce of Donley county and the surplus wheat of the plains country. Donley county farmers need the wheat for feed and flour supply, and the plains farmers need the peas, roasting eggs, cucumbers, cantaloupes and watermelons.

With farmers in nearly every community sponsoring the barter plan, and publicity going out through the newspapers, the bankers, the county agent, it is expected that a veritable stream of trucks will be invading the plains loaded with surplus farm produce, and coming home laden with wheat—cheap wheat, but just as valuable to the Donley county farm home, as the produce will be to the plains home.

Through the Amarillo News-Globe and the good offices of "Old Tack", the plan incorporates the selling of the idea to the plains farmer as well, and it is thought that there will be hundreds of trucks loaded with wheat coming down into Donley county looking for barter for the luscious garden and farm truck of this section.

SCHOOL MATTERS TO BE DISCUSSED BY P. L. STONE

Representative of The State Department Will Speak Here Friday Afternoon

Matters of importance to trustees, patrons and friends of the schools of Donley county will be discussed at a meeting to be held here tomorrow (Friday) afternoon at the Courthouse.

Mrs. Nora McMurtry, county superintendent of schools, announces the coming of P. L. Stone, representing the State Department of Education, who will speak at 1:30 in the afternoon.

The talk to be made by Mr. Stone will be of interest to trustees, patrons and those interested in the welfare of educational matters in the county. Mrs. McMurtry urges the attendance of all those in any way interested in the schools of the county.

The County Board of Education will meet at 9:30 in the morning. The regular school trustee meetings will be held in the afternoon. A round table discussion following the talk by Mr. Stone will give every one an opportunity to ask any questions desired.

Trustees who are not entirely familiar with school matters, should meet Mr. Stone at this time. His visit here is for the purpose of explaining the new school laws and to explain any issue that may be vexing them at this time.

County Agent Urges Barter System Donley Farmers

Surplus Supply of Vegetables Should Be Traded For Feed From Plains Farmers

Donley county farmers are going to early-day barter, in the disposition of their surplus peas, corn, cucumbers, cantaloupes, melons and the like, according to County Agent Broun, who has been busy the past few days interviewing farmers in various sections of the county.

The early prosperity of the farmers came about by his first supplying his own crib and then bartering his surplus produce for food-stuffs and feed he hadn't raised. This new application of the old idea is what the farmers of Donley county are trying to work out now.

Following the principles of successful farming as practiced by many local farmers, advocated by the Extension service at College Station and backed up by the bankers all over the state, the farmers are canning all of the vegetables that can be used for home use for a years supply, but there is a surplus that if not disposed of at the proper time is perishable.

The idea, according to county agent Broun, is to set up a system of barter for the next few weeks between the surplus of produce of Donley county and the surplus wheat of the plains country. Donley county farmers need the wheat for feed and flour supply, and the plains farmers need the peas, roasting eggs, cucumbers, cantaloupes and watermelons.

With farmers in nearly every community sponsoring the barter plan, and publicity going out through the newspapers, the bankers, the county agent, it is expected that a veritable stream of trucks will be invading the plains loaded with surplus farm produce, and coming home laden with wheat—cheap wheat, but just as valuable to the Donley county farm home, as the produce will be to the plains home.

Through the Amarillo News-Globe and the good offices of "Old Tack", the plan incorporates the selling of the idea to the plains farmer as well, and it is thought that there will be hundreds of trucks loaded with wheat coming down into Donley county looking for barter for the luscious garden and farm truck of this section.

Lions Hear Plans Of County Agent For Farmers Exchange

Committees Make Reports Of Activities of Several Phases of Work

At a meeting of the Lions at their luncheon Tuesday, H. T. Burton and M. W. Mosley reported on their trip to Amarillo where they took the Eanes boy for an examination of his eyes. It is thought that with proper treatment a cure can be effected.

Reports from the Loveland, Colorado club conveyed the information that Dr. Stricklin had met with success as a fisherman and had greatly aided in supplying fish for a 'fry' staged by the Lions club at that point.

Sam Braswell, Sr. reported on the Goodnight trip Sunday in which an effort was made to back a movement for the state to acquire the Goodnight buffalo herd and a portion of the Goodnight pasture and establish a game preserve.

T. R. Broun, county agent, outlined plans for the exchange of farmers' products of Donley county for wheat. A more detailed plan of which is given in another article in this issue of the Leader.

H. T. Burton asked that all who could, provide places for boys and girls that they might attend school here. He stated that a number wished to enter school but found it impossible unless they could pay at least a part of their

DUTCH BETKET WRESTLES WELCH TOMORROW NITE

Plenty of Entertainment to Be Staged by Local Promoter In Wrestling and Boxing

Tomorrow night, Aug. 14, the Clarendon fans will again see Roy Welch in action against a man that is said to be plenty good. Dutch Betket comes from Plainview with a record of having beaten Swede Larson, who was thrown here July 31st by Roy Welch, in two main bouts, Jack Gorman once at San Antonio and Bobbie Chick once in Amarillo.

To start the fun for the evening, T. G. Stargel, local promoter, has arranged for a mixed bout between six local boys. Three will have on gloves fighting while three have on wrestling clothes for wrestling. It will be a contest to determine which team wins, the boxers or the wrestlers.

In the preliminaries Elery Watson, local 145 pound boy, will wrestle Charles Ware 138 pound boy of Goldstein in a ten minute bout or one fall.

In the semi-finals "Big Freck" Johnson will wrestle Raymond (Swede) Nichols in a ten minute one fall bout. Johnson weighs 185 while Nichols weighs 180. This was announced as a boxing exhibition but has been changed to a wrestling bout.

Roy Welch will meet Dutch Betket in the finals. Welch is the local favorite at this time. He is a fast man weighing 160 pounds. The fans like his style of wrestling and will be around the ringside boosting for him to throw the 158 pounds of Dutchman.

Denzel Davis will be the third man in the ring.

Roy Welch has been training here for the past week and is in perfect condition. Betket will arrive before the match and train here for the bout.

Johnson, Watson and Nichols have been training with Davis and are getting in good shape. Promoter Stargel said that the boys were getting tough and he would assure the fans of a better program than the last one which in itself was the best that had been put on in Clarendon in several years.

Tickets are on sale at the Pastime Confectionery. Make your reservations early by calling 202.

Misses Vera and Eugenia Noland are visiting friends in Amarillo this week.

Mrs. Nancy C. Shepherd Dies Here Wednesday

Resident of Clarendon since 1904, Mrs. Shepherd was a pioneer house and conducted a rooming house north of the depot for a long number of years.

As a result of a fall some weeks ago, she had been in failing health since that time. She was in her 83rd year at the time of her passing. Choosing the Christian church as her choice, she had become a member in early childhood.

Rev. Morgan, pastor of the First Christian church of Memphis conducted the funeral at the local Christian church at 2:30 this afternoon. Interment was had in the Odd Fellow cemetery.

Only two daughters of the immediate family survive her. They are Mrs. W. M. Miller of Clarendon and Mrs. J. H. Saunders of Amarillo. B. F. Shepherd, a son died at Memphis some months ago, and another son, Zack, died several years ago and one son was killed by a train here several years back.

Gus B. Stephenson and father, L. D. Stephenson of Estelline, spent the week end with his sister, Mrs. John Staggs of Shamrock.

Mrs. Lu McClellan spent the past several days in Pampa where she assisted in the care of her sister, the wife of Dr. John Kelly, who has been seriously ill.

Clarendon Drug is Sold At Auction Tuesday

The stock and fixtures of the Clarendon drug store were sold at auction Tuesday afternoon of this week under receivership proceedings.

Van Shaw of Amarillo was highest bidder on the stock, his bid being \$625. Joe McLauren of Altus, Oklahoma bid in the fixtures at \$1250.

It is understood that the store will again open for business in a few days. Just who will be in charge has not been announced.

Syrup Makers Will Begin Operations Tuesday

John S. Morgan, John Thomas and others are to make up a bunch of real country syrup starting the mill Tuesday of next week.

Will Oneal will be official tester and general supervisor of operations. The mill will handle cane crops for others than the three mentioned here.

Some of these men have already contracted their syrup locally at 65 and 75 cents per gallon in buckets. The variety of cane to be used is best known as Honey Drip, and is said to make an excellent grade of syrup.

Clarendon Rifle Club Is Granted Charter

The Clarendon Rifle Club has been issued a charter by the National Rifle Association with headquarters at Washington, D. C., according to announcement made by that body in a recent letter sent to the Club here.

The officers of the new club are: Clyde I. Price, president; Clinton Henry, vice-president; W. A. Clark, Jr., secretary; Oscar L. Jenkins, treasurer; Charles B. Trent, executive officer; G. L. Boykin, publicity officer.

The Clarendon Rifle Club is one of more than 2800 active rifle shooting clubs affiliated with the National Rifle Association. Many civilian rifle clubs, such as the local club here, are chartered and functioning in practically every state of the country. Junior clubs are operating in high schools, summer camps, Y. M. C. A.'s and Y. W. C. A.'s. Industrial plants, American Legion posts, churches, community centers and other organizations have senior clubs operating under charters of the National Rifle Association.

Members of the Clarendon Rifle Club are eligible to fire for medals awarded by the National Rifle Association.

Mrs. Nancy C. Shepherd Dies Here Wednesday

A resident of Clarendon since 1904, Mrs. Shepherd was a pioneer house and conducted a rooming house north of the depot for a long number of years.

As a result of a fall some weeks ago, she had been in failing health since that time. She was in her 83rd year at the time of her passing. Choosing the Christian church as her choice, she had become a member in early childhood.

Rev. Morgan, pastor of the First Christian church of Memphis conducted the funeral at the local Christian church at 2:30 this afternoon. Interment was had in the Odd Fellow cemetery.

Only two daughters of the immediate family survive her. They are Mrs. W. M. Miller of Clarendon and Mrs. J. H. Saunders of Amarillo. B. F. Shepherd, a son died at Memphis some months ago, and another son, Zack, died several years ago and one son was killed by a train here several years back.

Gus B. Stephenson and father, L. D. Stephenson of Estelline, spent the week end with his sister, Mrs. John Staggs of Shamrock.

Mrs. Lu McClellan spent the past several days in Pampa where she assisted in the care of her sister, the wife of Dr. John Kelly, who has been seriously ill.

expenses by performing some service. J. R. Bartlett of Childress was a guest of the club. A directors' breakfast was announced for seven o'clock at Caraway's Cafe next Monday morning.

TWO SPEAKERS DISCUSS ROTARY THEMES FRIDAY

Free Medical Examinations Outlined Meets Approval of Membership

The Club Service had the program in charge at the luncheon hour of the Rotary Club Friday noon at Hotel Clarendon. Dr. E. L. Jenkins being the first speaker.

The doctor outlined the duties of a Rotarian pointing out the more important facts for his consideration as being best for his personal well-being and that of his civic club. Like many other talks made by him, Dr. Jenkins spoke in a frank manner using diplomatic expressions of tolerance and sympathy that, if heeded, means much to the individual for whom it was intended.

Robert S. Cope divided his subject speaking first on "What Rotary has Done for Me", and "What I Owe to Rotary." His remarks were the result of careful, earnest study and to the point.

W. W. Chilton, member of the Amarillo Rotary club and chairman of the Highway Department of the Amarillo Chamber of Commerce was present and spoke of the efforts being made to secure a federal appropriation with which to pave the 'breaks' in the highways now practically paved with the exception of short stretches.

Mr. Chilton stated that it was his mission now to make a survey of the highways in order that recommendation be made where most badly needed. He stated that he had in mind highway construction the coming winter as a means of relieving distressed conditions of the unemployed.

The Club Service Committee outlined a plan to be worked out with the Parent-Teacher associations whereby each child in the county might have a free medical examination before the opening of school.

The plan met with popular favor and the dates for making such examinations will be made soon through the Leader. It was especially emphasized that this service would be free to any school pupil of the entire county, if such was desired.

Goodnight Herd Of Buffalo Is Saved By Legislature

Bill is Passed Wednesday But Does Not Include Purchase of Land Necessary

Radio reports this morning are further confirmed by newspaper reports to the effect that the Legislature passed the "Buffalo Bill" Wednesday under which the herd may be condemned and appropriated to state ownership.

No provision was made in the bill for purchase of land for pasture, and it is said that this matter is squarely up to the public to provide a place for their keep.

The purchase of several thousand acres of the old Goodnight ranch is being advocated, the purchase money to be raised by popular subscription. It is claimed that with the purchase of a large area, it will be possible to establish a game preserve where deer, elk, bear, beaver and native game birds may be kept in addition to the buffalo.

Mrs. W. M. Rodgers of Raton, N. Mex. visited here over the week in the W. H. Rodgers home.

Members of Christian Church Enjoy Outing Friday

A number of the members of the First Christian church and friends met at the church at five o'clock Friday afternoon by appointment and went to the river for an outing and picnic.

Sixty-five of all ages enjoyed the excellent picnic lunch and as the youngsters took to the water sports, elders formed a "wading brigade" and added much amusement to the evening.

THE DONLEY COUNTY LEADER
J. C. ESTLACK, Editor and Owner

Published on Thursday of each week.

Subscription \$2.00 a year 1st zone. Other zones \$2.50

Entered as second-class matter March 12, 1929, at the post office at Clarendon, Texas, under the Act of March 3, 1879.

This paper's duty is to print all the news that's fit to print honestly and fairly to all unbiased by any consideration even including its own editorial opinion.

West Texas Press Association Panhandle Press Association

Happy Day.

Won't it be great when we get back on a ham gravy basis?

Hope Returns.

Several garages are being re-floored for smokehouse use again this fall.

Curiosity.

It's alright to stick your head out the window, but if you break any iron on the bridges, they expect you to pay for it.

Explanation.

Probably the reason a dollar is often referred to as a "buck", is because you can't stay with it very long, and it requires a lot of effort to corral it.

That Legislature.

Taking a vacation with pay may be alright as the Bonham News intimates, but listening to some of the speeches is the hardest kind of work.

Surprised M. D.'s.

According to a late census report, it is estimated that the average American pays out \$75 in doctor's bills each year. This will be a surprise to the doctors.

The Tooters.

Then there are those who, in the absence of any one else to toot for them, make an effort to do their own tooting. But the tooting must be done to satisfy a giddy-minded failure.

Consolation.

While so many are complaining about the Legislature wasting so much money while only killing a time, just think what might have happened if we had been in the grasshopper belt. As between the two, it is said that grasshoppers are more destructive, and often exhibit intelligence that is surprising.

Good Grief!

If it ain't one thing, it's two. Here's Sir James Jeans, a British

astronomer, who says that the world will come to a stopping place in exactly a million years.

He is making what may possibly be his last visit to an old friend in Pasadena, California, and will then rush home to prepare for the end. There is just this about it, the "repression" can't last always.

Swapping Governors.

Just when it looked like Oklahoma might swap governors with Texas in which they were to get a "million barrels of oil to-boot, in steps Louisiana and offers a swap of the same nature with two million barrels of oil and a thousand bales of cotton to-boot.

Texas is fast learning that Louisiana is looking upon our domain with envy and will not stop at anything to keep us down. Neighbors? Bah!

Reformers.

Some folks want to reform the world in some manner—make them drink less, gamble less, eat less or something different to what they are now doing.

Then there are those who would have us attend some particular church, club, lodge, read certain books or attend a certain school.

About the most unhappy person in the world is one who is not satisfied with the way other 'carry on' in their daily existence. They're generally the most narrow-minded and unfit yet want to be continually reforming some one else.

Our School Pupils.

Those physicians who propose a free medical examination for all school pupils, or children of a school age, within the county, are to be highly commended for their interest in humanity. They propose to cooperate with the Parent-Teacher associations for the best interests of the schools in general.

No boy or girl should start in school under a handicap. While this examination will be made merely to inform the parents or guardians that something might

need correcting, it does not mean that the one being examined will be expected to begin any course of treatment.

Adenoids, tonsils and eyes in a diseased condition have caused many a bright boy or girl to drag in their class work when it was no fault of the individual. This one fact is mentioned here merely to suggest to parents the importance of having an examination made, which will be done without cost at a date yet to be announced.

Backing Banks.

Banks in any community are dependent upon the prosperity of the people whom they serve. Banks are in business to make money just like any other firm. They are under no obligations other than to take care of deposits and return the money upon the order of the depositor.

The idea that banks are under any obligation to the public at large is a big mistake. No bank is under any more obligations to the public than a grocer or drygoods merchant. It is the duty of each of them to assist in the development of any section just the same as it is the duty of the newspaper to expend time, money and energy in the cause.

Our local banks started out this year with a "live at home" idea which they have advocated to their customers. Banks all over Texas, and many other states as for that matter, are doing the same thing.

The reason for this action is simple. The people must prosper before the banks can expect to pay stockholders any dividend. The bankers like many others, believe that we will all be better off if we produce more of our living at home.

Citizens of Donley county paid out thousands of dollars for food and feed last season that should have been produced at home. The drought in some instances made this impossible, and this year some more thousands have been paid outside the county for both food and feed that should have been produced at home.

We are more fortunate this season in that we are producing food and feed at home in such a quantity as to more than supply the needs of our section through next winter.

The next thing to be done is to save the feed when the time comes. Save the food now by canning and other processes. The glass jar factory at Three Rivers, Texas has been running twenty-four hours each day for several weeks in order to supply the demand for glass jars alone. A great many are using tin cans, but that just goes to show that Texas people are canning this season.

Wheat Belt May Become New Livestock Center

Present low prices of wheat and the immense surplus on hand will revolutionize the cattle and hog industry within the next five years and make the wheat belt another major stock feeding center in the belief of many farm observers in western Kansas and the Panhandle of Texas.

Farmers, they say, are waking up to the knowledge that they can raise wheat as cheaply as corn and that a bushel of wheat has as much feeding value as a bushel of corn. Already many wheat growers in the Panhandle have successfully fed out fat cattle on cracked wheat, with a very small added amount of cake, and there seems no reason why Texas stockers, which have always been shipped to Missouri and Iowa and other corn states for fattening, could not more profitably be fed out in the great wheat producing centers.

In addition, hundreds of farmers are buying stock hogs to feed out this winter on wheat. A few farmers have been making good profits for several years feeding wheat to hogs and if the practice becomes general as seems probable now it will have a profound effect on American agriculture as a whole.

ARE WE A FREE PEOPLE?

In theory, Americans are a free people. Actually we are free only to the extent that we carefully obey some 25,000 laws and regulations prescribed by other individuals, and are prompt to heed the orders of the various bureaus, commissions and boards that preside over our destinies.

Apparently we are working on the untenable theory that human nature can be changed by legislation, as indicated by the estimate that there are now more than 2,000,000 people in this country affiliated with organizations created for the purpose of minding other people's business.

The self-styled moralists and reformers are in the saddle, with the result that instead of increasing the stability and peacefulness of society in general, we have developed an amazing and steadily increasing orgy of law and criminality.

More laws, more crime appears to be establishing itself as an American axiom. Probably no other nation in the world has such a multiplicity of laws as are to be found in the United States, where quantity, rather than quality seems to be the ideal of our lawmakers. Whether it is a question of owning a revolver for sport or for protection, or participating in a Sunday picnic, one is almost certain to run up agin a law providing penalties for these and thousands of other inconsequential acts, the chief object for the enactment of the prohibitory measures apparently being to give employment to some political hanger-on in looking after their enforcement.

—Dunbar Advance

G. O. Brannon and daughter, Georgia Ruth, and Mr. and Mrs. Troy V. Brannon and mother, Mrs. Kate Brannon, all of whom reside near Wichita Falls, have been here the past week visiting Mrs. M. R. Ayers and family. Mrs. Ayers is a sister of the Brannons.

Cecil Alexander and J. C. Estlack attended a district Rotary Convention at Breckenridge the first of the week returning home Tuesday night.

Mrs. Bob Burnett of Oklahoma City is visiting her mother, Mrs. E. W. Promley at the ranch.

Jim Pharr of Erice was in town with a choice lot of watermelons and musk melons Wednesday.

Miss Josephine and Lillian Murphy returned from Jacksboro Tuesday where they visited relatives.

Miss Eva Alexander of Memphis is visiting her uncle and aunt, Mr. and Mrs. W. Cecil Alexander this week.

Mr. and Mrs. Tulloff and children are visiting in the Peebles home and will make their home in San Antonio instead of Amarillo after this week.

The BEST Gray Hair Remedy is Home Made

To half pint of water add one ounce bay rum, small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or grossy and does not rub off.

KEEP CANNER GOING

The canning season is here now, it may be possible to get foods for canning later, but that is a risk. Can it now. Can a big variety. Arrange to live more at home.

Never before have citizens of Texas turned to "living at home" as they have this season. Every county and home demonstration agent and other agencies have encouraged the idea.

BUILDING A HOME?

We have built all kinds costing all kinds of prices. We saved the owners on every job. If you are thinking of building anything, get our prices on a complete job.

WATTERS & McCRARY

LIVING AT HOME

In keeping with the custom over the state at this time, we deeply appreciate the fact that our people are canning for future needs a generous food supply that will mean much to them the coming winter.

To live more at home is sane, sensible solution to our present day problems. It is a time when every resource should be conserved.

Growing most of the living at home will go a long way toward relieving that home of many of the present day worries, provide better food and make the producer more independent. Every one should can every form of foods possible.

DONLEY COUNTY STATE BANK

"Home of the Thrifty"

Domestic Efficiency

THANKS largely to the widespread distribution of inexpensive electric power, the days of household drudgery rapidly are disappearing. Modern time, labor and money-saving Electrical Servants have taken the place of old-fashioned health-destroying methods, and the every-day life of today's Home-manager has been improved immeasurably.

Electric Ranges, Refrigerators, Washers, Vacuum Sweepers—literally hundreds of efficient Electrical Servants—will release you from drudgerous household tasks. You will find more time to devote to your family... to keep abreast of world affairs... to aid worth-while social movements.

If you are one of the few who have not realized the advantages of these modern and efficient household aids, investigate today. You will find these invaluable servants low in first cost—and they'll work for but a few pennies a day!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

West Texas Utilities Company

TEMPLE OF TRUTH

By the Apostle

Migosh! Here's a preacher reciting the life of Christ at a Memphis church. If it takes him as long to recite as it took the Apostle to read the book on the same subject as written by Chas. M. Sheldon, noted Kansas divine, we are glad to be absent.

Long time ago we sat on a bench at a Hardshell meeting. The bench was a home made affair minus any cushions. The preacher did not show up and a member took the platform or rostrum about noon. He may have lacked for ability but he was well supplied with earnestness and, like the minister mentioned above, was a mighty good man.

But he failed to find a quitting place until four-thirty just as my sides collapsed. We went home but it didn't mean anything. Two dozen went to the same place for the dinner-supper affair and I sneaked in to the sixth table and the platter in the middle of that table looked like they had cooked a centipede—counted 44 legs and 17 necks. The bread had played out and there was nothing left but the frames of what had been parts of a chicken.

Did you ever have a nightmare? Well the Apostle had a mulemare one night this week. He ate a bowl of peas, seven ears of corn and washed it down with a gallon of clabber and hit the hay to forget the Hoover administration, family rackets and other political issues.

He dreamed that he was back in old Arkansas again plowing new ground on the mountain side where the stumps were about as thick as the hair on the mule that was pulling the old Georgia stock plow.

Dreams are a funny thing sometime. Got to talking to that mule. Well, Beck you are just a mule and I am an old man, yet we have bumped this patch from end to end until my shins are barked until a seed tick would look for better grazing ground. Beck, I sometimes wonder if you are working for me, or am I working for you. Maybe it's just a partnership affair between a mule and a fool. Soon we will divide this corn crop. The landlord will get a third, you will get a third and I will get what is left. While you will eat all of your third except a few cobs, I have to divide my third with a woman and five kids. You've got the advantage of me, Beck. Only once do I have the advantage of you, and that is on election day. I can vote and you can't. Beck asked me if I voted for Hoover and I hit her with a rock, she dragged me to the bottom of the hill and I woke up just in time to eat more peas and corn and call it breakfast. This is a great world for mules. I'd be alright yet if the clabber hadn't played out.

Stories coming from Nebraska telling about the grasshoppers eating up fork handles and wagon tongues reminds me of some of Dave Johnson's fish stories, only the grasshopper story is a fact.

Hawley Harrison was just in to tell me that my Jersey cow out on his farm had twin calves. He didn't get away with it for I gave him one of the calves. Jerseys are too cheap and if any one ever was overstocked on Jerseys for the past year, it has been the old Apostle and nobody else. But they'll come back folks, just sit tight.

There is nothing I like better or get less of than visiting. About a dozen different farmer friends were in Saturday and I mean to take off a few days and catch up with all the promises made.

W. C. Reeves stopped in with two fingers bunged up. He slammed a car door on 'em just like boys will do and it knocked him out of entering the old fiddler contest at Dumas. He's going to make up a batch of good old-time country syrup, or have it done. A fellow over south of Lelia threatens to break loose and make up a lot and when he gets Oneal on the job with him, it will be real syrup because both men know their syrup.

Want some goobers. The big kind. If some boy will come in I will bargain for a sack and he can deliver when diggin' time comes. There's nothing better than goobers and popcorn balls when winter weather howls around the corner, and there is nothing better to cut down family rackets.

The College Hill widow says that women have the right to vote, but a lot of them would like to swap that right for a home.

When wheat got so cheap that he could not afford to have it threshed, Jim Pharr down in the Brice country got busy trapping owls and hawks. His neighbors watched the old boy and questioned his sanity.

Crazy? Not that boy, he was

getting ready to thresh. In making pets out of the owls, they trampled out wheat at night, and the hawks got on the job during the day. Jim had twelve hour shifts and reports that the birds are doing the job.

The wind sifts out the dirt and chaff. Did it stop at that? It did not. Jim also has a bunch of gopher pets that gather up the grain and carry it to the granary. It is an interesting sight to see the advantage of having pets. Neither hawks nor owls eat grain and they live on the grain eating birds that would come and steal their owner's crop.

"It's wonderful what can be done on a farm", Jim said Wednesday, if a farmer will take advantage of natural surroundings. He has already taken contracts for threshing for his neighbors that he figures will net him enough to enable him to spend the winter in California.

Jim says the only mistake he made was in teaching a monkey-face owl to speak American and to read a newspaper. The owl quit work and had to be sold to a zoo. Jim says an owl farm hand to be worth while must be kept in ignorance, otherwise they become discontented, and want to go to town too often.

MARTIN

Sunday School was held at the usual hour Sunday morning. Interest in Sunday School is still on the increase.

Singing was well attended Sunday evening. Everyone is invited to come and help sing every Sunday evening at 8:30.

The many friends here will be glad to hear that Chester Hodges is rapidly improving at the home of his parents.

The County Agent and bankers say that everyone should plant a fall and winter garden and then can all you can.

Mr. and Mrs. A. T. Tolbert and children and Mrs. H. B. Catlett spent Tuesday with Mr. and Mrs. Sutton. The day was spent in canning peas, etc.

The crops and truck patches of this community are looking fine since the good rains of last week.

The community was sorry to hear of Martee Mason happening to the bad accident of getting his leg broken Friday while running a plow. He is at the Adair Hospital and last report was not reported so well.

Mr. and Mrs. Edwin Sullivan and daughter of Sanger, Texas Mr. Ed Harvey and Mr. Howard of Monroe spent the week end with Mr. and Mrs. Noel Harvey.

Several of the ladies of the community are busy canning peas, corn beans, grapes, etc.

The young people were entertained last Sat. night at the home of Mr. and Mrs. A. T. Tolbert with a dance everyone present reported a nice time.

Mrs. T. R. Adkins and Mr. and Mrs. Glen Adkins left Friday for Denver, Colorado. They were called due to the death of a daughter-in-law, Mrs. Jake Adkins.

Mrs. H. B. Catlett returned home Wed. after spending several days at Okla. City visiting relatives and friends.

Mr. and Mrs. Otis Wood returned to their home Sat. from Chickasha, Okla. after visiting a few days with relatives. Mrs. Wood's brother and sister returned home with them for a few days visit.

Mr. and Mrs. J. A. Sowell had as their Sunday dinner guests Mr. and Mrs. J. R. Hillman and children of Windy Valley, Mr. and Mrs. Parmer Thompson and children of Pleasant Valley. Mr. and Mrs. Walter Clifford of Clarendon spent Sunday afternoon.

NAYLOR

The Methodist people began a meeting Sunday. Bro. Knox doing the preaching.

Grandma Hefner was quite ill Sunday, but glad to say she is much better.

Mrs. Atteberry of Kansas City who has been visiting her brothers, Frank and A. E. Tidrow, for the past two weeks returned to her home Thursday.

Horace Hefner of Amarillo is visiting his mother, Grandma Hefner also his brother, A. O. Hefner.

Miss Louise Tidrow and her guest, Miss Ruby Caully of Cooper spent Saturday with friends at Hedley.

Mrs. F. M. Burton of Clarendon visited with Miss Ava Hefner Sunday.

Mrs. A. E. Tidrow, Atteberry, and Richmond Bowlin visited at Hedley Monday afternoon.

Mrs. Zaues after a two weeks stay at Comanche where she was called to the bedside of her father has returned home. Her father is no better.

Dick Tidrow and nephew, Leroy Tidrow are spending the week at Memphis with Mr. and Mrs. Byron Alexander.

PLEASANT VALLEY

Mrs. R. B. Bond of McLean is visiting with her sister, Mrs. Bill Meaders this week.

Mrs. John Blevins of Wellington spent the week with her parents, Mr. and Mrs. R. M. Wilson. Mr. and Mrs. Arthur Arnold and children of Stratford returned home with her Sunday for a visit.

Mr. and Mrs. Lois Davis of Amarillo visited with his parents, Mr. and Mrs. W. K. Davis Saturday.

Mr. and Mrs. Dayton Shelton, D. C. and Mr. and Mrs. Sam Robertson of Ashtola were dinner guests in the John Goldston home Sunday.

Mr. Hugh Riley and Neva and Dorothy called in the afternoon.

Quite a number of people of this community have been attending the services at the church of Christ.

Mrs. Whit and daughter, Lopez and Charles have moved to Huggins. Miss Lopez is teaching in the Huggins school which opened last Monday.

Mrs. J. A. Meaders, Miss Katie Mrs. Glen Williams and children are visiting relatives in Atlanta, Ga. They expect to be gone until the first of Sept.

Visitors in the Romeo Derrick home Sunday afternoon were: Mrs. Clyde Osborne and daughter, Mr. and Mrs. Clyde Gilbert and children, Margaret Blackwell, Mrs. John Goldston and children, Mrs. Sam Robertson, Mrs. Dayton Shelton of Ashtola, Miss Rebecca Welch.

Mr. and Mrs. R. M. Wilson made a business trip to Amarillo Thursday was received here from Mr. and Mrs. Everett Stevenson who left Sat. a week ago for Tenn. that they drove the thousand miles in

two days and a half, pulling mud much of the way.

Mr. and Mrs. Palmer Thompson and children visited with her parents, Mr. and Mrs. Sowell of Martin Sunday.

Mr. and Mrs. S. W. Lamberson and family motored to Hedley Tuesday to visit Mrs. Lamberson's father, Mr. Youree. He has been ill, but is reported to be doing better.

Mrs. Tom Goldston spent Tuesday afternoon with Mrs. John Goldston.

Miss Lucy McMahan spent Sunday with Miss Thelma Robertson.

Mr. and Mrs. Tucker spent Sunday in the J. M. Potter home.

Mr. and Mrs. Elmer Drennon returned home Saturday from Norman, Okla. where they have been attending summer school.

Mr. Romeo Derrick and daughters spent Tuesday in town with his daughter, Mrs. Clyde Osborne.

Dr. and Mrs. C. W. Galloway and Mrs. C. E. Griggs visited with Dr. Warner at Quannah Sunday.

Dr. and Mrs. C. W. Galloway motored to Wichita Falls last week Mrs. C. E. Griggs accompanying them as far as Vernon.

CHAMBERLAIN SCHOOL NEWS

School opened Monday morning with a bang. All members of the school board and a good number of patrons were present. The principle Jimmie Millsap was at the helm with a brand new four year high school certificate, and his usual amount of enthusiasm. Miss Maude Crawford who took special work at Lubbock is on hand with the same smile and determination to duplicate her splendid record of last two years. The school is fortunate in the return of Miss Bettie Baker who is second to none as a primary teacher.

This is the third year for the entire faculty at this place and their teamwork together is largely responsible for the success they have achieved.

The pupils have the appearance of a set determination to beat their record for last year, and to do this they will have to hustle, for at last year's county meet they annexed some dozen or so medals in literary and athletics. Their win over the entire county with a seventh grade arithmetic team is something any

community should be proud of. Then they reached up and grabbed off the medal for individual seventh grade arithmetic. Knoty problems and hard work is pie for these pupils. Keep your eye on Chamberlain.

Miss Norma Rhodes, Leola Bell, Madge Davis and Julia Mae Caraway will leave Wednesday for Carlsbad Cavern and other points in New Mexico, returning by way of El Paso.

Rev. B. N. Shepherd returned home the first part of the week refreshed by a two weeks vacation in the mountains of New Mexico.

It is announced that morning and evening services will be held as usual Sunday.

Rev. C. B. Stevenson of Houston filled the pulpit at the morning and evening hours last Sunday. Both messages were enjoyed very much by all. Rev. Stevenson is always a welcome speaker in this pulpit.

**MELLOWED
A HUNDRED
MILLION
YEARS**

Long, long ago in PENNSYLVANIA

MILLIONS of years ago in the Devonian Age while the world rocked with earthquakes and mighty, armored fish swam the seas—Nature stored away in the Bradford-Allegheny District of the Pennsylvania field her most valuable crude oil. Bradford-Allegheny crude owes its superior quality to earth conditions in the Devonian Age—an age when heat, pressure and materials were more favorable to the forming of oil than they ever were in the oil-forming ages which went before—or came afterward. And Bradford-Allegheny crude has mellowed and filtered for a hundred million years—long enough to bring the crude to the point where its lubricating quality commands the highest price in the Pennsylvania field! Nothing but Bradford-Allegheny crude is used in

making Sinclair Pennsylvania Motor Oil. But before Bradford-Allegheny crude becomes Sinclair Pennsylvania Motor Oil it goes through an exhaustive refining process in the big, new Sinclair refinery at Wellsville, N. Y. Here it is triple-filtered, de-waxed at as low as 60° F. below zero and tested to flow freely at zero.

Have us change your oil to Sinclair Pennsylvania according to the Sinclair Law of Lubrication. Then examine this oil after long, hard driving. Note how it stands up—how it comes out of the crankcase almost as good as it went in. Note, especially, how little has been used up—positive, visible proof that this rich, Pennsylvania oil protects the last mile as well as the first!

REX RAY CIRCLE

The Rex Ray Circle of the Baptist Missionary Society entertained with a surprise party honoring Rev. and Mrs. Stevenson of Houston at the home of Mr. and Mrs. C. W. Taylor. A picnic lunch was spread on the spacious back lawn. Those present were the honorees, Rev. and Mrs. Stevenson, Rev. and Mrs. B. N. Shepherd, Messars, and Mesdames F. L. Goldston, Marvin Warren, Ralph Andis, Allan J. Bryan, G. F. Keener, Walter Lowe, Joe Goldston, Leslie Stevens, Mrs. L. Doshier of Amarillo, Misses Margaret Goldston, Alice Gordon.

CIARENDON H D CLUB

The Home Demonstration Club will meet at the home of Mrs. J. C. Estlack on Friday afternoon of August 21st. All members are urged to be present.

FRIENDSHIP CLUB

Members of this club were entertained at the home of Mrs. M. E. Thornton Tuesday afternoon. In addition to the regular program, the members shelled peas as a special innovation and great pleasure of the hostess. A dainty iced refreshment was served to Mesdames A. T. Miller, M. T. Crabtree, J. A. Tomb, L. Ballew, J. A. Allison, H. Tyree, J. D. Stacking. Mrs. J. A. Tomb will be hostess to the next meeting.

GOODWILL CLUB

Mrs. Don Martin was hostess to the members of the Goodwill Club Thursday afternoon, at her home. Needle work and conversation were the main features of the afternoon.

A refreshment of sandwiches and lemonade was served to Mesdames Cy Johnson, Will Johnson, Blanche Odum, A. O. Yates, L. D. Carille, Cecil Longley, Fred Russell. Guests were Mesdames I. O. Noble, Lucian Bones, Johnny Johnson, M. L. Bush of McLean, Jones of Arizona and Miss Delphia Bones.

B. AND P. WOMEN

Mrs. C. C. Powell and Mrs. J. L. McMurtry were hostess to the Business and Professional Women's club at the Country Club Tuesday night. Swimming was an enjoyable part of the program, after which a very good picnic supper was eaten. Small balloons were given as favors and much merriment was had in the balloon contest which followed.

Miss Mantie Graves made a short talk, presenting Miss Lorena Steagall with a club pin, as a gift from the Club members in appreciation of the work she has done for the Club.

Games of various kinds were enjoyed, after which the hostess served the group iced watermelon. Seventeen club members, two guest, the hostess and their families enjoyed the outing.

LEWIS WOOD HAS BIRTHDAY

Mrs. L. L. Wood entertained with a birthday party Wednesday afternoon in honor of her son, Lewis' 12th birthday. A number of lovely gifts were presented the honored young man.

Different kinds of outdoor games were enjoyed from four to six in the afternoon after which a large pink and white angel food cake was cut and served with ice cream.

Those present were Chas. Wisdom, Ralph Thompson, Jess Campbell, B. L. Wood, Maurice Lane, W. L. Walker, James Welch, Winston Wood, Aubrey Brady, James Spiller of Canadian.

Church Society

13-14 INTERMEDIATE B. Y. P. U. PROGRAM August 16, 1931.

Subject—"By faith Moses forsook Egypt".

AUTOMOBILE LARGEST USER OF SEVEN AMERICAN INDUSTRIES

MOHAIR GOES INTO AUTOMOBILES

Estimate 100,000,000 Yds. in Use on Nation's Highways.

TODAY'S automobile is almost entirely an achievement of our natural resources or products. With the exception of rubber which is grown in Africa, India or South America but manufactured in this country, all the basic materials that go to make an automobile are produced in our midst. Steel, mo-hair, plate glass, nickel and lead are not only American products, but are, together with rubber, used to a greater extent in making cars than for any other purpose. Practically every state in the Union contributes to these materials, either in their raw state or in their manufacture. For example, our youngest and fastest growing livestock industry, that of angora goats, provides the mohair which

is used in making mohair velvet for automobile upholstery. Some idea of the demand for this durable fabric, otherwise known as velvino, is gained from the fact that one hundred million yards, it has been estimated, are now in service in cars on the nation's highways. These angora or mohair goats, as they are more appropriately called, originally came from Turkey, and the United States imported millions of fleeces annually, but with the introduction of the goats into this country, the mohair industry has gradually been transferred here, with a total annual clip of well over seventeen million pounds. The pile fabric made from this fleece in New England mills is generally accepted as being the ideal material for automobile upholstery because of its long wearing quality, usually outlasting the life of the car itself, because it is easily cleaned and because it affords the greatest riding comfort, all in addition, of course, to its lustrous and beautiful appearance. Still another commodity of which the automobile industry is its largest consumer is gasoline. Eighty per cent of all gasoline produced in this country, or twelve and a half billion gallons, is used for keeping the nation's twenty-six million motors a-wheel.

A City Run Like a Business

American cities, burdened with debts, should give a thought to Marquette, Michigan. This bustling Upper Peninsula city of 15,000 is successfully run on a pay-as-you-go policy by five commissioners whose services cost the municipality less than one thousand dollars a year.

Health comes first in Marquette. A full-time doctor, office assistant and nurse are employed, and water and milk furnished the city are tested regularly. A 300-acre park provides recreational facilities. All

Convenient for Travelers

Scuffed shoes, slippers and "mules" are one of the problems of light traveling. No one likes to carry too much luggage, so the knitted "shoe case" of soft, lustrous (pure cotton, as pictured, makes a most effective Christmas present.

THE SAME QUALITY TOBACCO IN ANY OTHER CIGAR WOULD COST 10c
John Ruskin
They're Very MILD 5c
BEST · BIGGEST · CLEANEST

DOC WISE

streets are paved. And, with a full time judge waiting to dispense speedy justice, Marquette is not a popular place among crooks.

In sixteen years of commission government, a civic investigator from the "Rotarian" magazine has learned, the value of city-owned property of Marquette has increased from one to almost two and a half million dollars. Bonded indebtedness has been cut from \$240,000 to \$138,000, and \$477,000 in new issues paid off. And, for the past decade, the tax rate has been almost stationary.

It is a rare record for an American municipality.

Probably a good share of the credit is due to the city-owned light plant which turns in a profit of \$100,000 annually. But even more significant, in the opinion of the investigator for the "Rotarian", is the calibre of men Marquette puts in office. The present mayor, Edward J. Hudson, who is boss to hundreds of employees at a large iron works, is typical.

W. C. (Jinks) McNatt of Casa Grande, Arizona and formerly of Bowie and old acquaintance of the Leader editor paid his respects while passing through today.

Watermelon of Prize Beauty Brought to Leader Office

"We simply run the city as you or I would our business," he is quoted as saying. Accounts for each of the six city departments have four columns in the city's books. The first lists itemized expenses. The second notes appropriations allotted for twelve months. The third gives the monthly pro-rata amount, up to the current date. The fourth tells the final tale—just how much the expenditures run over or under the budget allowance. Marquette commissioners never have the excuse for a deficit of not knowing how much money they have to spend.

Tom Shaddle, farmer of the Naylor community, came into the Leader office Monday and announced that he had a watermelon which would make any man's mouth water and would make a negro turn pop-eyed. The same was immediately inspected and a quick barter was made in which the price of the melon went towards paying for a subscription to the Leader. The melon measured thirty-six inches in length, almost thirty-three inches around, and weighed better than fifty-two pounds. Boys, if you don't believe this is a fair sized melon, just try to find a duplicate in size and see how scarce they are.

GETTING BUSINESS GLOOM BEHIND US

By ROME C. STEPHENSON

President American Bankers Association

There is such a thing as over-staying a depression just as there is of over-staying a boom. Over-confidence makes the great majority miss the turn in a boom, and under-confidence makes them miss it in a depression. A leading New York banker when asked recently when he could tell that a turn for the better had come, said, "About three months after it has happened."

There is more significance in that remark than appears on the surface. As more and more manufacturers and business men realize that the turn has already come and that they are over-staying the time to adopt constructive policies, they begin cautiously to press their selling campaigns, to speed up their production, to enlarge their working forces and increase their commitments for supplies. It is the gathering weight of their influences that finally raises the pressure of confidence.

The surest way to bring the nation out of the business depression is to raise the pressure of public confidence to the point of becoming a real dynamic force. It has invariably been the push of that force which has started recovery in the past, and it is the gathering power of this force which will start recovery from this depression.

It is a favorable sign of the times that there seems to be general agreement that the bottom of the depression has been reached and all eyes are peeled and looking ahead for the first indications that the turn for the better is in sight. Who knows but what the first thing we know we will find ourselves looking backward instead of forward as we realize that the turn has already come.

BANKERS FAVOR GRADUAL CHANGE

National Commission Believes Local Sentiment Should Govern Evolution in Methods of Conducting Banking.

If substantial changes are to be brought about in branch banking in the United States they should originate within the states rather than from Washington on inter-state lines as proposed in "trade area" branch banking plans, a recent report of the Economic Policy Commission of the American Bankers Association declares. Such changes, it adds, "should develop by evolutionary rather than revolutionary stages."

"The extension of branch banking through state action would mean that states not now permitting state banks to have branches or else closely restricting them, would individually liberalize their laws as an expression of changing local desires and conditions, and this doubtless would insure a deliberate, evolutionary process," the report says. "The other method, that is, through Federal action, would mean a sweeping change for the country as a whole, for legislation granting branch banking powers to national banks in all states, regardless of local sentiment, would, of course, induce equivalent branch banking enactments in every state in the Union not now permitting or really wanting state banks to have branches, in order to keep them on a competitive equality."

"We find some bankers who feel that a proper stimulus to the development of branch banking would be given by the Federal Government taking the initiative through granting broader privileges within state lines to national banks than they now enjoy. It is argued that state governments could then follow suit as to state banks and that in this way a more progressive branch banking attitude might be promoted by the national banks taking the lead. While we do not deny that there may be some merit in this view as to some specific localities, we stand firm nevertheless on the principle that no such grant of powers to national banks should cross state lines, or exceed the privileges that state legislatures could and would grant to state banks."

"Moreover we believe that if the choice between these two possible courses of extending branch banking were put up to bankers they would be generally opposed to any forcible imposition of branch banking on the states through the medium of the national bank system. We believe it would be preferable for any change to come about through the more gradual and democratic method of the states granting their banks branch banking powers state by state where, if, and as local conditions and sentiment might be ready for a change."

HEDLEY

Mrs. Frank Anderson and daughter Virginia Sue, of Turkey are visiting this week in the home of the lady's parents, Mr. and Mrs. J. W. Noel.

Mr. and Mrs. R. F. Newman returned Saturday from Oklahoma City where they spent the summer months. They will again make their home in Hedley where Mr. Newman is Athletic coach in the High School.

A group of relatives and friends from Clarendon visited with Mr. and Mrs. E. H. Estlack Sunday.

Mr. and Mrs. Harry Matthews

Ashtola Farmer Follows Diversified Crop Arrangement

More than ordinary skill is required in handling the more sandy types of soil in this section to prevent its plowing in the spring of the year. Among those to farm this type of soil successfully is W. P. Holly, whose farm is located about a mile south of Ashtola.

He has been farming forty years, twelve years of that time in Donley county. His land being of a more sandy nature, he does not try to grow small grain, giving row feed crops, corn and cotton the preference.

This year he has in sixty acres of corn and thirty in cotton. The remainder of his field is planted to row crops, principally kaffir and cane. He states that corn and kaffir paid him best last season of all the crops grown.

In addition to his regular crops, he has a fifteen acre sudan pasture for his milk stock, and it is the milk that helps to make his feed stuff more profitable. In addition to a number of good milk cows, he keeps plenty of hogs for the home meat and lard supply, and again he finds a profitable market for more feed through the hog route. He still has corn and bundle stuff grown last season.

Mr. Holly is a successful farmer but frankly admits that his wife and son make more out of poultry than he can in his farm operations, and this after deductions have been made for the price of feed used that is grown on the farm.

Rev. Swan reports heavy rains impeding bus travel Sunday night at Childress and Quannah.

Mr. and Mrs. R. E. Dretnon are home after attending the State University at Norman, Oklahoma this summer.

spent Saturday night with the Messer children.

Mr. and Mrs. H. Earthman and children took supper Saturday night in the home of Mr. and Mrs. Art Pierce.

J. W. Gatewood and family visited their old friends in the Frank Cavil home at Hedley Sunday afternoon.

Chevrolet Four Of Old Time Model Visits Company

Detroit, Michigan, Aug. 12.—One of those venerable old-time cars which remind you that this automobile industry is no longer young recently rolled up to Chevrolet Motor Company headquarters here with Mr. and Mrs. T. J. Finerty, of San Antonio, in their 1916 Chevrolet "Royal Mail" roadster, purchased by them in that year and in their continuous service since that time.

Although the original pistons and rings still furnish motive power, the speedometer gave out some years ago; but Mr. Finerty, basing his estimate on gasoline consumption, states that the car has done well over 300,000 miles in its fifteen years of service with him.

Both Coasts have been visited, as well as the two Borders, the Yellowstone and most of the states of the union by the Finertys during their periodic vacation jaunts, with the old-timer as their mode of transportation. The only major trouble ever developed by the car, Mr. Finerty reported, was when he cracked a frame in some rough going in the Yellowstone, and could not find the flaw until he got back to Texas.

Among those to greet the vacationers here was W. S. Knudsen, president and general manager of Chevrolet, who reminded Mr. Finerty that if every owner took com-

parable care of his car the manufacturers would all be in the poor-house. Mr. Finerty replied that he wouldn't trade his "Royal Mail" for a new Chevrolet, even up, indicating the degree of personal attachment possible to form for a car over a period of years of intimate experiences with it.

The engine of the old timer bears serial number 11,823, while late this month the eight millionth product of the company is expected to come off the assembly lines. After a brief stay here the Finertys turned the nose of the veritable old patriarch of the highways back toward Texas, and started out on a steady twenty-five mile an hour clip as confident of getting home on schedule as though the car were one of the newest sixes.

Mrs. R. I. McGowan and Fannie visited at the C. H. Reynolds home at Lelia over the week end.

Miss Pauline Rodgers, granddaughter of Mrs. C. H. Reynolds of Lelia visited Fannie McGowan over the week end.

Mrs. L. Doshier of Amarillo is visiting at the Walter Lowe home southwest of town.

TIRE VALUES versus TIRE DEFINITIONS

WE KNOW that car owners are interested in real TIRE VALUES, but are not particularly interested in tire definitions which manufacturers and distributors of special-brand mail-order tires had the National Better Business Bureau adopt that they could use to their advantage in their advertising.

When the National Better Business Bureau realized that the public was being misled—and an attempt was being made to keep the truth about real tire values from car owners, they issued a bulletin July 10th which in substance retracted their sponsorship of tire definitions.

Firestone extra values are the result of great savings in buying—great savings in efficient and economical manufacturing and distributing, plus the patented process of Gum-Dipping—the patented two extra cord plies under the tread—and a more efficient non-skid tread, which makes them safer than any other tire.

We have sections cut from Firestone Gum-Dipped Tires and Special-Brand Mail-Order Tires, and invite you to come in and judge for yourself the extra values we give you—values that you can see and understand instead of "definitions." Then we know you too will buy Firestone Tires as thousands of other car owners have done to the extent that during May, June and July they bought more Firestone Tires than during any like period in history—Drive in today!

When the National Better Business Bureau realized that their Bulletin No. 634 was being taken advantage of by some advertisers they issued a Bulletin dated July 10th as follows:

"In our Bulletin No. 634 entitled 'Definitions of Terms Used in the Tire Industry' we published definitions of First Line—Second Line—Third Line—Heavy Duty and Super Heavy Duty Tires.

"Our definitions pointed out, 'Although each manufacturer's or distributor's first line tire may represent his best standard size 4 or 6 ply tire, there is not necessarily an equality of competitive first line tires as to materials, workmanship or price.' This interpretation also applies to all lines of tires.

"We therefore recommend that advertising to the consumer shall avoid the use of these terms for the purpose of comparing competitive products."

WHEN BABIES FRET

THERE are times when a baby is too fretful or feverish to be sung to sleep. There are some pains a mother cannot pat away, but there's quick comfort in Castoria!

For diarrhea, and other infantile ills, give this pure vegetable preparation. Whenever costed tongues tell of constipation; whenever there's any sign of sluggishness. Castoria has a good taste; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

George B. Bagby to Visit New York Soon

Announcement has been made by the United Fidelity Life Insurance company that George B. Bagby, along with a number of other representatives, has won the trip to New York, which they are offering those agents who write a specified amount of life insurance by the middle of August.

To Mr. Bagby goes the honor of leading the entire agency force in this contest, and at this time he

GEO. B. BAGBY

has exceeded his quota by more than one-hundred twenty-five per cent. He is fifty per cent ahead of his nearest competitor, and still he sticks to his task of writing additional business.

Last October, the United Fidelity Life Insurance Company prepared a contest which, if won, permitted contestants a free trip by water to New York City, leaving Galveston about the middle of August, with stop-over in Miami, and returning by rail through Washington and St. Louis, covering a period of two weeks.

Mr. Bagby has been able to maintain this lead, not only because of the extra effort he put forth to win the trip, but because he considers his clients his friends, and looks after their business needs as a real friend should.

The United Fidelity Life Insurance Company expects not only to honor Mr. Bagby with a free sea trip to New York, but also at least 12 other leaders who have proven their ability to write consistently and reach the necessary volume.

(Editor's note: The article appearing above was copied from the July 31st 1931 issue of the Texas Insurance published in Dallas, Tex.)

The following article is taken from the Company annual report on its agency force.)

One of the most outstanding reports of our agents has been made by Mr. George B. Bagby.

On March 28th, 1928, when just a young man of twenty-nine, without previous life insurance experience, he signed a contract to represent the National Security Life Insurance Company.

During the remaining nine months of that year, he wrote \$243,870.00 of high-class business, and the following year, he more than doubled this amount with a production of \$514,465.00. Since that time, he has led the entire agency force each year, his annual production being over half a million dollars. His total production since he signed his contract back in 1928 amounts to \$1,941,574.00.

In March 1931, the United Fidelity and the National Security merged. Since that time, Mr. Bagby has kept up his usual record and has led, each month, the United Fidelity's agency force of seven hundred agents.

Not only does Mr. Bagby write an extraordinarily large amount of production, but his business is sold right. He realizes that his clients depend on him for advice, that they are his friends, and he looks after their needs as a real friend should, with the results that his renewals run over 80% annually.

This enviable record was made, not in a big city but in a small town whose population, according to the latest issue of Rand McNally is only 2,465 and the entire county in which he works has only 9,027 population.

*** CHAMBERLAIN ***

Mr. and Mrs. T. J. Rampy and son Omer and wife and their granddaughter Leota, are visiting for the week at Abilene.

Earnest Ewing grandson of L. R. Dean is visiting his mother in east Texas.

Miss Mamie Dingler was a guest in the home of Miss Dixie May Saturday night.

Andy Powell of Hale Center is

visiting in the Olen Cook home.

Mrs. S. J. May spent Saturday night in the home of her son C. C. of Clarendon.

Mrs. Hearn of Goldston called in the home of her daughter Mrs. Emmitt Brison Tuesday.

Mrs. Morris Millsap of Goldston is visiting relatives and friends for a few days.

Mr. and Mrs. Roy Blackman returned home from a ten days vacation in east Texas.

Woodrow Millsap says by gum he'll walk from here out. Said he tried riding a motorcycle and old mother earth flew up and slapped him in the face, then he tried a tin lizzie, and it turned flips so fast it was hard to keep up with its motions.

The V. V. Johnston family returned home Monday from a two weeks vacation in Okla. and east Texas.

On their return from a bedtime call in the Hughes home Friday night, Woodrow and Mr. and Mrs. Jimmie Millsap encountered a rather bad car wreck, when their car collided with another car just after toping a hill west of the Hughes home. Jimmie lost a finger and was cut and bruised about the face and body, but is able to be at his work. His better half sustained a broken arm and bruises but is doing well at this writing. Woodrow escaped unhurt. The car was badly demolished.

J. O. and T. V. Brannan and wife and mother of Wichita Falls visited in the home of their sister and daughter, Mrs. M. R. Ayers for the week end.

*** * * * * SMITH * * * * ***

Mr. and Mrs. C. A. Crow spent Sunday in the home of Mr. and Mrs. Frank Jackson.

Mr. and Mrs. G. Jackson spent Sunday with Mr. and Mrs. Jess Grimes.

Lester, Chester and Cecil Grimes left Thursday for Reswell N. Mex.

Mr. and Mrs. Clyde Roden, Miss Mary Lee Mabry and Gerald Mabry returned from Colorado Fri.

The W. C. D. Club will not meet again until Aug. 26.

Mr. and Mrs. Berl Smith returned Fri. from Okla. where they have been visiting Mrs. Smith's parents.

Mr. Monroe Jackson is working for Mr. Beasley in Lelia Lake.

Rev. Wilburn preached for us again Sunday. Mrs. Wilburn and Mr. Watson were also visitors.

Sunday School is held at 3:30 P. M. A great interest is being shown even though the weather is hot.

You don't know what you are missing by not being present.

Mr. and Mrs. Hick Daniel and family of Amarillo spent the week end with Mr. and Mrs. Sloan Baker. Miss Ella Bess Baker went to Chamberlain to take up her school work again.

Mr. and Mrs. M. A. Beasley, Miss Ara Faye Womack and Mr. Bill Maddox spent Sunday with Mr. and Mrs. Sloan Baker.

A few of the community attended the party given by Mr. and Mrs. Milton Beasley of the Harrel Chapel Community Sat. night. The party was in honor of Mrs. Beasley's sister Miss Ara Faye Womack also Miss Alma Padgett.

The young people greatly enjoyed the party at G. Jackson's Friday night.

Mr. Charlie George is on the sick list this week.

Mr. Young spent Sunday in Giles. Mr. L. Crow and Mr. George Blade went to Ft. Sumner New Mexico for a few days.

Miss Rachel Crow spent several days in Hedley visiting friends.

Miss Mildred Baker and her mother, Mrs. W. B. Baker spent Fri. afternoon visiting with Mrs. C. A. Crow.

Maurine Wood and Nell Butler were Amarillo visitors Wednesday.

Mr. and Mrs. Dewey Herndon had business in Amarillo Tuesday.

Goldston Bldg.

Roy Welch of Borger

Welch said Monday that this bout would give him great pleasure as it would be the first time that he had been able to get the Dutchman in the ring with him. These two men are striving for wrestling fame and nothing would give him more satisfaction than having a chance to prove to the fans of the Panhandle that he is better than Dutch Betket. He said that he knew Dutch was supposed to be one of the toughest men in the game but the tougher they are the better it pleases him. He looked over the mat and said that it really needed dusting and that he thought the Dutchman would be just the rag to do the job with.

*** * * * * GOLDSTON * * * * ***

Mr. and Mrs. Claude Mixon and children were visitors in the Doc Garrett home of Shamrock Sunday.

There was a family reunion in the M. W. Hatley home Sunday August 9th. All the children were present except two boys. Those present were Mr. and Mrs. W. A. Hatley and Mrs. Fannie Jones and children of Lampesa, Mr. and Mrs. S. A. Hatley and family of Ashtola Mr. and Mrs. John Hatley and family, Mr. and Mrs. Kerbie Higin, Mrs. Syril Aduddell and baby, also Mr. and Mrs. Benny Brock all of Brice, Mr. and Mrs. Walker Jones and family of Lakeview, Mr. and Mrs. Leonard Hatley and sons of Clarendon. Friends of this family present were Mr. and Mrs. J. H.

Dutch Betket of Plainview

This introduces Dutch Betket of Plainview to the fans of Clarendon who have not seen him in action before. Any wrestler will tell you that Betket is one of the toughest men in the game. He has thrown Swede Larson of San Antonio twice. Larson was beaten here by Welch July 31st and he was no baby in the ring. Betket also has the scalp of Jack Gorman. He threw Gorman in San Antonio. Gorman is in the big boys' class, too. He has thrown Bobbie Chich of Amarillo, also.

Houston Alexander is visiting his uncle, Byron Alexander near Memphis.

Misses Winnell, Waynell and Aubrey Stillwell of Memphis were guests of Mrs. D. S. Smith and Wilma Dee the past week.

Countess and Sam Jones are visiting relatives in Memphis.

Mr. and Mrs. John Beverly of Pampa visited in Clarendon over the week end.

Gillispie, Mr. and Mrs. Ed Wheeler of Brice and Mr. and Mrs. J. W. Rhodes and family and Leona Clemmons.

A sumptuous dinner was spread, and the entire day was enjoyed by all the friends and relatives that were present.

Mr. and Mrs. Fontayne Elmore visited friends and relatives at Dumas Sunday.

Miss Gladys Noble of Windy Valley visited friends here over the week end.

Mr. and Mrs. John Herrington are the happy parents of a nine lb. boy, having arrived Friday August 7th.

Members of the Merry Maids Club enjoyed an outing on the Elmore creek Saturday night. Games and hiking and a bounteous picnic lunch furnished plenty of amusement for the happy group of young people during the night.

Breakfast was served at an early hour. A sunrise swim was enjoyed by some of the girls.

Those enjoying this affair were the two guests Sada Gray and Gladys Noble. The en club members were Bertie Stewart, Cleo Gray, Jewell, Irene and Allene Rhodes, Louise Seago, Virginia Harris, Dorothy Dill, Pauline Brame and Lenora Clemmons.

Mrs. Murphy Brock returned home Thursday after a three weeks visit with relatives in Arkansas.

Mr. and Mrs. Joe Dill and little son Joe Wayne were guests in the J. D. Pope home of Clarendon Sat. night and Sunday.

Mr. and Mrs. H. B. Rhodes and sons visited Mr. and Mrs. G. A.

BAYER ASPIRIN is always SAFE

Sore Throat Lumbago
Rheumatism Toothache

Aspirin is the trade-mark of Bayer manufacture of monoaceticacidester of salicylicacid.

Relief!

WHEN you start at sudden noises, worry over trifles, can't bear the noise that children make, feel irritable and blue—ten to one it's your nerves.

Don't wait until your overwrought nerves have kept you awake half the night and paved the way for another miserable day. Take two teaspoonfuls of Dr. Miles' Nervine and enjoy the relief that follows. Take two more before you go to bed. Sleep—and wake up ready for the days' duties or pleasures.

Dr. Miles' Nervine is now made in two forms—Liquid and Effervescent Tablet. Both are the same therapeutically.

Liquid or Effervescent Tablets at all drug stores.

Price \$1.00

SHOOT THE WORKS WITH OUR POWERFUL GREASE-GUN

It takes more than the power of the human eye to stop squeaks. Into the dark fastness of tight springs where only water finds its wicked way unaided, our high-pressure grease gun forces clean, rust-preventing, silence evoking lubricant. A few cents plus a few minutes every thousand miles will add comfort, silence and mileage to your car.
