

### CUTTING EXPENSES--

Governor Murray of Oklahoma says he can't keep down the high cost of living just yet, but he has cut the cost of dying by having the penitentiary system produce a good grade of coffin that retails at ten dollars.

## PLANS ARE BEING LAID TO ASSIST THE WORTHY JOBLESS

### Shiftless and Floaters Are To Be Denied Assistance This Winter

Plans under way in Clarendon at this time will place the responsibility upon the individual asking aid where it justly belongs. The worthy jobless are to be listed and floaters from other sections and those inclined to be shiftless, who reside here at this time, will find it hard sledding when seeking charity donations this winter.

According to plans in the making, the able bodied will likely have an opportunity to can vegetables on the shares or gather some crops on the same basis. It is said that the committees of each of the charitable organizations will work out a plan whereby the worthy jobless may maintain their self-respect.

There will be no duplication of efforts. Charity will be dispensed on a rigid investigation. No big-hearted individual will be imposed upon to the extent of seeing their donation dispensed to the unworthy as was charged in some instances last winter.

Another factor that will be taken into consideration is that it is no disgrace to be temporarily stranded or short of means. Every possible effort will be made to maintain assistance given on a high plane of honor permitting the receivers of help to earn what they get.

The vacant lots that are now weed patches will likely be plowed up and planted to a winter garden variety of vegetables designed for the use of those who need them. Wheat will likely be purchased now and held until such time as it is needed, when it will be made into a whole wheat flour for the use of those who are temporarily in need.

The idea of guarding against any imposition will enable the contributions to be of benefit to a larger number. Charity work in Clarendon this winter will be purely a business affair designed to help the needy only, and all others had just as well go to work right now with this understanding.

Kenneth Fink, Mr. and Mrs. Sanders and Miss Minnie McCarty of Canyon were week end guests of Mrs. O. L. Fink.

Mrs. Marion Cox and daughters of Panhandle and Mrs. Henry Tice of Wellington are visiting their parents, Mr. and Mrs. A. H. Baker over the week.

## Plans Are Being Made For Purchasing Goodnight Ranch

### Governor Sterling to Meet With Delegation at Ranch On September 7th

Fred L. Haskett, who is said to represent the owners of the Goodnight ranch, has announced that a meeting will be held at the ranch property on Monday, September 7th for the purpose of raising funds with which to purchase the land necessary to maintain the buffalo taken over by the state.

Haskett is of the opinion that the money can be raised by popular subscription since the state has agreed to purchase the buffalo.

Governor Sterling, Lieut. Governor Witt and a committee each from the House and Senate at Austin will be present for the deliberations.

The pen with which the Governor signed the "Buffalo Bill" will be presented to the Panhandle Historical Society museum at Canyon. Delegations from all nearby towns are expected to put in appearances at the meeting which will likely determine whether the park is to be located on the Goodnight ranch or in Palo Duro canyon as at first suggested.

Miss Maude Hewitt of Plainview is a guest of her cousin, Miss Lucille Yates this week.

## Donley Contributes Interesting Fossils To Canyon Museum

### Effort is Made to Save Pricelless Relics For Future Study

An almost complete skeleton of a three-toed horse about the size of a dog and of a type which roamed this region in past geological ages was unearthed this week in the locality of Clarendon, Texas.

A party headed by W. D. Mateer of the faculty of the West Texas State Teachers College and under the guidance of Mr. Ed McAdams of Clarendon made the discovery; the only bones which are missing are the ribs. The skull, vertebrae and legs are complete. Bill Skelton, a student, made the outstanding discovery of the four day trip, but William Strain, another student, found an almost perfect jaw and legs of another three toed horse and teeth, jawbones and other parts of a sloth, camel, and other parts of other animals not yet identified were brought in.

The party came from Canyon to Clarendon where they were joined by Mr. McAdams and E. B. Stocking. McAdams has worked for many years with expeditions sent out by the University of California, Yale, Texas, Southern Methodist University, and the Smithsonian Institution, helping them to find, select and preserve specimens for their collections. He is probably the most experienced fossil hunter in the entire southwest and he and Mr. Stocking pronounce Skelton's find the most perfect of its kind that has been unearthed anywhere in the United States up to this time.

Mr. Mateer said that the services of Mr. McAdams were invaluable in guiding and instructing the excavators and in showing them how to identify and care for the specimens which they found. He and E. B. Stocking worked in the pit four full days, giving their time and energy because of their interest in the work, and in order that the fossils might be saved for the museum of the Panhandle-Plains Historical Society. A mastodon skeleton will be secured by Mr. McAdams for the museum as soon as the building is ready to receive it.

While in Clarendon the Mateer party was given several fine specimens which had been found by Fred Chamberlain and Cook and given to Jerome Stocking who had exhibited them in his store there. These were placed in the hands of L. F. Sheffy for the museum.

The skeletons of the tiny horses will have to be carefully prepared for exhibition and it is stated that they will not be ready to show for several weeks.

Miss Lotta Bourland returned Sunday from Throckmorton where she visited Mrs. Joe McCleskey.

### Old Settlers to Reunion At Finch Ranch

Old settlers of the Hedley country who have lived there for as much as twenty years have been invited to take part in a reunion at the Finch brothers ranch Saturday of this week.

All who attend should take a well filled basket and share in the general picnic dinner that is to be spread.

### Autoists Are Warned to Cut Speed on Highways

According to the laws of this state, it is a violation of highway regulations to operate a car at more than twenty miles an hour within the corporate limits of any incorporated town or village.

It is also a violation of the law to travel at a speed of more than fifteen miles an hour while passing an intersection of any highway or street.

Under the new law, it is not necessary for a highway official to be dressed in any particular style or color of uniform before he can make a legal arrest. The Leader has been requested to make these announcements as a favor to the general public.

## ROTARIANS SEE RETURN TO NORMAL IN ATTENDANCE

### Several Visitors Are Present Friday and Informative Talks Made to Membership

The attendance at the Rotary luncheon Friday was above the average, several members who have been away on business put in appearances. The percentage will likely see improvement in attendance the remainder of the year.

The Community Service of which C. C. Powell is chairman, had charge of the program at this meeting.

Miss Lorena Steagall made an excellent talk in explaining the principal features of Camp Fire work, she having been head sponsor or guardian for the local Camp Fire girls here for several years. She explained that it was her first effort to speak to an assemblage of men only, and put over the job in excellent form.

R. E. Drennon, charter member and a leading worker in Rotary put in his appearance for the first time in several weeks, he having been in school at Norman, Oklahoma during the summer. His talk was timely and encouraging.

Rev. C. B. Stevenson, pastor of the Magnolia Avenue Baptist church of Houston made an address that was highly appreciated. Having lived here, he was in a position to make an address that was applicable to local conditions.

Dewey Smith of Childress and Carl Throop of Memphis were present, the first mentioned as a visitor, and the second making up attendance. Both men expressed their pleasure at meeting with the Rotarians and were invited to be present again whenever possible.

### Churchman Family in Family Reunion Tuesday

The family reunion at the home of Mr. and Mrs. S. D. Churchman Tuesday brought together the immediate members of the family and three sisters of Mrs. Churchman.

Among the visiting relatives were Mr. and Mrs. F. B. Scurlock and children of El Paso; Mrs. Nora Murrell and daughter Miss Gladys and Mrs. Eula Rush of Ft. Worth.

Mesdames Scurlock, Murrell and Rush are the three sisters of Mrs. Churchman.

Of the immediate family, Mr. and Mrs. Zack Salmon and children of Brice were present as was Mr. and Mrs. O. B. Rampey and children. Glenn and Miss Mona, the remaining children yet at home made up the family complete.

The Churchman family has resided in this section since 1901, the greater part of the time in Hall county near Brice and at the family home in Clarendon. No family has been held in higher esteem, and the family name has been linked with progressive development in church and school affairs throughout all these years.

Mr. and Mrs. Andrew Jay returned to their home in Oklahoma City Tuesday after a visit of several days in the J. E. Mongole home.

### Odd Fellows Celebrate With Watermelon Feed

Over a hundred Odd Fellows were in attendance here Saturday night when degrees were conferred. Visitors came from Memphis, Amarillo and other points.

A watermelon feed was staged at the Clark Cooke home east of town where other entertainment was put on for the benefit of the visitors.

### Auxiliary Delegates State Convention at El Paso

Mrs. James Trent, Mrs. L. S. Bagby and Mrs. B. C. Antrobus have been elected delegates to the state convention of the American Legion and Auxiliary meeting at El Paso the 24-25-26 of this month. Alternate delegates elected were Mrs. O. L. Fink, Mrs. Van Allen Kent and Miss Lottie E. Lane. Those attending expect to leave here Saturday.

## COUNTY AGENT INFORMS LIONS BARTER RESULTS

### County Agent is Enthusiastic Over Prospects of Exchange Of Farm Products

County Agent T. R. Brown addressed the Lions Club at their Tuesday noon luncheon hour expressing himself as being well pleased with the results so far in securing an exchange or barter of farm products in Donley county for Plains products, and more especially the small grain for feed and bread.

He stated that Donley county folks were canning as they never canned before, some 17,400 tin cans being sold to them over the thirty day period. This coupled with the food stored in glass jars and tin cans carried over from last year, speaks well for the industry and foresight of Donley's industrious class of citizens.

A letter was read in which an invitation was conveyed asking the members of the local club to attend the celebration to be staged in honor of Julian C. Hyer, International president at Fort Worth on the 28th.

D. O. Stallings presented the Moral Code of Youth adopted by Lions International one to be placed in each school of the county.

The program committee presented H. T. Burton who related some of his experiences as an aviator during the world war. He also mentioned the possibilities of the airplane in modern day transportation.

### Local Pastor Will Conduct Revival At Hedley

Elder D. L. Hukel, pastor of the local Church of Christ will conduct a revival at Hedley beginning Friday, the 28th of this month.

This is the annual revival period for the Hedley church which is said to have a strong active membership.

Evangelist Claude McClung Who will begin a meeting at Lelia Lake next Sunday.

## HEDLEY SCHOOL BEGINS SESSION SEPTEMBER 2ND

### Transfers From Surrounding Districts Will Increase Enrollment This Year

A peculiar circumstance will no doubt mean an increased enrollment this session in the Hedley school because of the large number of transfers from adjoining districts.

The transfers have come principally from Bray, Windy Valley, Fairview, Giles and possibly a few from Quail. The excellent standard maintained in the Hedley school is said to have been the main reason for the transfers.

The School Board has approved a budget for the coming term in which some features have been reduced to save expense, and three less teachers will be employed this season due to slow payments of school taxes.

It is announced that the Parent-Teacher association will begin work in earnest just as soon as school starts, and have planned an active year due to curtailment in other respects that they feel must necessarily be met by and through the efforts of patriotic individuals.

## RETAIL CREDIT MEMBERS DISCUSS ECONOMIC PLANS

### Discussion Tuesday Evening Devoted to Charity Plans For Coming Winter

Members of the Retail Credit Men's Association devoted their time to the discussion of charity plans for the coming winter at their meeting held Tuesday evening.

Some of the members called attention to a duplication of charity efforts here the past winter, as he understood the situation, when the County, City, Churches, Goodfellow and Red Cross were each dispensing charity.

While it is true that the Goodfellows did cooperate with more than one organization, there could have been more accomplished had the work been more centralized according to the views of some of the speakers.

In view of the impending need of charitable work later as winter arrives, and being desirous of lending assistance in the matter, a committee composed of E. P. Shelton, Joe Holland and Eddie Teer was appointed to work with others that assistance rendered might be from a centralized head.

Unemployment was also up for discussion, and it was the consensus of opinion that this matter should also be handled by a centralized head, and possibly more economically from the same source as from which the charity work is dispensed.

Efforts will be made to get the matter organized at the earliest possible moment according to Secretary C. C. Powell, who believes that some remedial measures could be taken right now that would mean a saving of funds during the winter months.

### Country Club Members Will Have Chicken Barbecue

In view of the fact that no special celebration was staged at the Country Club on the 4th of July, a chicken barbecue will be celebrated there Friday evening of this week.

The directors have instructed all the members to each take one or more chickens to the Trent ice plant Thursday (today) where Jim and Charlie Trent will keep them on cold storage over night. They will be taken out the next day and prepared by a special committee.

Members only, their families and their parents and any guest they might have for the day, are expected to be present. It is being urged that all members make it convenient to attend the special occasion.

Members are also being instructed to bring salt, cakes, pies, and other 'eatables' as only coffee, paper plates and water will be furnished at the tables. These same members are also notified that swimming will be one of the features and that they should arrive early.

C. A. Bryan returned home Saturday after a visit with his son E. F. Bryan and family at Amarillo.

### Church of Christ Revival Begins at Lelia Sunday

Announcement is made that a revival is to begin at the Church of Christ at Lelia Lake next Sunday, the 23rd.

Elder Claude McClung will again conduct the revival, this being his fourth year to conduct revivals for this church. A general invitation is extended the public to attend the services.

### Union Revival Is in Progress At Goldston School

The folks out in the Goldston community are enjoying a union revival that is being conducted by Rev. Gattis of Canyon and Rev. Andy Campbell of Hedley.

The meeting started Sunday and the attendance has been good so far all the week with every prospect of a revival that will mean much toward the spiritual uplift of the community.

## Last Wrestling Bout Is Scheduled Thursday Night

### Promoters Say The State Tax Law Going Into Effect The 22nd is Prohibitive

Promoter T. G. Stargel and referee D.R. Davis along with wrestlers and a host of athletic fans over this section are up in the air on account of the law affecting wrestling matches that goes into effect Saturday. The tax is simply too high. It won't work in a small town, so this is your last chance to see a wrestling bout here.

By a lucky chance, Stargel has secured Roy Welch of Borger and Dutch Betket of Plainview for a return match. Welch got the best of it last week and Dutch made a talk before leaving the ring in which he asked for a return match feeling sure that he could beat Welch if given another chance.

"Winner take all." That's the basis upon which these fellows will fan the mat tonight. The loser gets nothing. It was a close contest here the night of the 14th between these fellows--it will be a stem-winder tonight.

These fellows are not very fond of each other. In fact when they look at each other they wear an expression something akin to a school boy who has just swallowed an overdose of castor oil. This fact coupled with the fact that the winner gets all of the money will make the fracas something you never saw before.

Pampa, Amarillo, Hedley, McLean, Memphis and other towns turned out for the other bout--they will be here again for the final decision between two of the scrappiest men of the Panhandle.

Stargel says he regrets that this will be the last bout and he assures the public that it will be the best. Referee Davis will be right there with the goods and his Alfalfa Bill brand of square deal. Call 202 and get reservations early, or better still, call at the Pastime Confectionery and make sure that you are safe by the ringside.

The prelims will be interesting. Teddy Hodges has rubbed up with almageuzum until he has recovered from the fast wallop that Dick Nichols gave him the 14th. He meets John McMahan this time.

There is a couple of frisky lads here who want to strut their stuff in the person of Elyer Watson and Walter Brady. These boys are working out and promise a better show than that of last week.

You tell the world the colored boys will be there with the "battle royal" again that captivates the crowd on the start and puts them in fine humor for the skill with the laughs left out. Five sluggers have been signed up, rounded up, corralled and hog tied until 8:30 tonight when they will be turned loose on each other. You can't afford to miss it.

### School Meet Here Friday Draws Large Number

Trustees and friends of the public schools of the county were here in numbers Friday to attend the rally incident to the coming of P. L. Stone, who represented the State Department of Education.

The County Board of Education met the same day and discussed school matters with the visiting representative. Mr. Stone spoke in the afternoon explaining new school regulations.

### City Dads Ask Investigation Local Gas Rates

At a meeting of the City Council this week, resolutions were adopted asking that the Railroad Commission inquire into the local gas situation looking toward a reduction in rates this winter.

When asked about the phone rates Wednesday, Mayor Cagle stated that the matter was under consideration, but that nothing had been done about it up to the present.

It is understood that patrons and consumers of phone and gas in Clarendon are insisting that the City Council take such steps as will secure for them a reduced rate if they are entitled to any reduction under the state law.

## DONLEY FEELS HER THIRD EARTH SHOCK SUNDAY

### Panhandle Gets Only Tail End Of Quake Originating In Southern Mexico

Mayor W. P. Cagle was first to report an earthquake shock to the Leader office here, he having experienced the 'shake' just before six o'clock Sunday morning.

A more severe shock here some 25 years ago opened a large crack between Clarendon and Lelia but did not cover much territory. A quake in 1925 was noticeable here and cracks appeared on the surface at the Caprock and affected a section from the Wichita mountains east to the mountains west of Estancia valley in New Mexico.

The shock Sunday morning did not cause any disturbance and was barely noticeable. According to reports from local citizens, the first tremor was the heaviest, the second some minutes later barely causing a vibration.

The shocks of Sunday morning were noticeable over most of the southwestern and western part of the state with it's severity centered at Valentine in the Big Bend country.

Carlsbad received a severe shock at the same time and occupants of the Crawford hotel were awakened. Mr. Scurlock, who was sleeping in the second story, rushed out of the building according to his statement here Monday on a visit to the S. D. Churchman family. The cavern was not disturbed except for a slight displacement of the small loose stones.

The quake was most severe in Oaxaca, northeast of Mexico City where buildings were damaged as much as they were at Valentine where it is estimated \$75,000 will be required for quake repairs.

Newspapers and radio reports from Mexico City state that the quake extended as far south as the Isthmus. Geologists claim that the tremors were caused by a deep movement of rock sliding into new positions.

Shocks were again felt over the southwestern area from Dallas to Valentine Tuesday shortly after one o'clock, the shock being severest at Valentine and at Carlsbad. No loss of life was reported though property damage occurred at Valentine.

Mr. and Mrs. F. J. Hommel and children spent the week end in Lubbock returning Mrs. H. F. Wilkins, an aunt to her home after a visit here. Mr. Hommel also attended to land business in Leveland.

## "Skippy" Brings A Beautiful Picture Of Boyhood Days

### Pastime Will Present "Skippy" Here Friday and Saturday In All His Glory

"Mister, have you got a grasshopper?" Old as well as young will again become frisky watching the gang of boys and the lone "best girl" present a picture that will remind us of boyhood and girlhood days.

This picture is said to be the greatest ever made picturing the lives of youngsters--things our elders have forgotten for many years. This thrilling story of boyhood is based on Percy Crosby's comic strip. Every fool thing a boy ever did has been worked into this play at the proper place and time.

Dogs? Yes, there will be dogs in the picture because boys and dogs are inseparable companions. Gang rivalries, shabby games, castor oil and "peeredes" all are included in the makeup of a real boy's life.

"Skippy" will be shown at the Pastime Friday and Saturday. Every boy should see it and the grownups can't afford to miss it. This is another picture well worth while. The laughs are there and the sentiment will appeal to every one in such a manner as will cause them to realize that the price of the show has been well spent.

A jury composed of farmers in Greene county, New York, convicted John Scaccio of torturing a man for the alleged purpose of making him tell where his money was located. The judge assessed punishment at 15 years.

Since the peddler law took effect the 21st, Frank is somewhat handicapped in getting his melons to market but insists that he will make a go of his business despite anything the government may do toward starving him and his family.

**Friends in Need.**

Last winter when parts of West Texas were in dire need, citizens of Nebraska out of the fullness of their hearts voluntarily contributed food supplies. Memphis and Slaton as well as Floydada were the recipients of such gifts.

The tables have turned this season. Nebraska with a promise of a full crop has seen her food supplies swept away by grasshopper hordes with the past two weeks. May West Texas remember the gener-

ous citizens of Nebraska and return the loan.

**Athletics.**

Athletic events conducted on a high plane such as the local wrestling matches, gain the admiration of both men and women. A lot of people admire athletic skill. In this respect promoter T. G. Stargel and D. R. Davis have been most fortunate in securing Roy Welch for the main attractions.

Roy Welch is clean as the term is used in wrestling. He conducts himself as a gentleman. He likes athletics is the reason it has become his chosen profession. He is a wrestler and his reputation is becoming more widespread. His conduct here has been such as to result in his adoption as a Donley county athletic idol.

**Martial Law.**

When it becomes necessary to invoke martial law and call out the National Guard to avoid the laws of this or any other state being disregarded, the malefactors should be prosecuted.

Apparently the Governor is of the opinion that the expenses of a National Guard siege is less expensive than prosecuting the would-be law violators through the regular channels. In this he is to be commended. On the other hand, when operators are found to be violating an order by taking an excess of oil from any well, it would seem that a temporary "shut down" order properly enforced by fear of a law with teeth in it, would be the proper penalty.

**Third Rate Board.**

The Farm Board's suggestion that a third of the cotton crop be destroyed is ridiculous as every common-sense individual knows,

but it merely goes to show what a bunch of nuts can attempt at times.

We are told that we have too much wheat. If that be the case, we should destroy a third of it. Judging from the prices received by the growers, we also have too much meat and a third of the live stock should be destroyed.

Preachers are underpaid and perhaps we are overstocked. Why not kill off a third of them? Lawyers are howling about hard times as much as any one so why not trim up on that tribe? Doctors are in the same boat and we might dispense with a third of them and help get some relief.

There are thousands of hungry and half-clad folks right here in these good old United States despite the fact that we are advised of an overproduction of their needs. Must be overstocked. Might as well kill off a third of them. And we send missionaries to heathen (?) lands in an attempt to persuade them that we are civilized.

**Homemakers Protest.**

When the County Commissioners of Nueces county reduced the salary of the County Home Demonstration agent \$300 recently, over a hundred women met with the court at Corpus Christi and protested, the Court promising them that the matter would be remedied.

Possibly through no other means is the government spending money that is accomplishing as much good for the price as is being expended for home demonstration club work. The benefits from this feature reaches into homes of all classes, and more particularly the humbler homes.

Hundreds of thousands of Texas women today are making use of their H. D. instruction in canning,

the value of which will amount to several millions of dollars. The cost of instruction to the individual is practically nothing. Some clubs charge their members twenty-five cents each per month and some charge nothing.

The opportunity to learn is open to both women and girls. The state and federal governments pay most of the salary of the C. H. D. agent, each county paying only about enough to furnish the agent with methods and expense of travel over the county and living expenses.

**Reminiscent of Mother**

"Dear Mother, if only you were here to-night, My troubles and sorrows would all seem slight.

To hold you in my arms to-night, Would make my heart aches all seem right.

To hear your soft and tender voice, Would make my lonely heart rejoice.

Just to hear you say again, "My son you are a wonderful man."

My love grows greater day by day, And the I'm miles and miles away, I wish that I were home to-night, To talk to you by the old lamp light.

To stroke the silver and the gold, And let my heart aches all unfold, Dear eyes, dear lips, dear mother hands,

Dear heart that always understands.

**In Defense of Woman**

The editor of the Vienna News, who happens to be a woman, and one greatly appreciated, admired and all that, stands loyal to her sex in the following admirable style:

"Some one, a man no doubt, rises to remark "women had more fun and far greater variety in their lives when they could spin and bake and make their husband's clothes." We are not in position to speak for the women of yesterday as to what they considered "fun."

It may be that women of any age could get quite as much out of life spinning, baking, mending or knitting as they can from smoking drinking, bridging and petting. It all depends upon the women. There are some mighty good women now.

There were good ones then. All the good ones in the days of old didn't spend and their time baking, spinning and making their husband's clothes. All the good ones now are

not sitting at home doing drudgery. The same, good woman of any age or any class is she who uses the talents given her to make life for herself and those about her, happier and better. She has brains enough to know that a little play mixed in with her work makes life more enurable for her and makes her more enurable to others."

**KEEP CANNER GOING**

The canning season is here now, it may be possible to get foods for canning later, but that is a risk. Can it now. Can a big variety. Arrange to live more at home.

Never before have citizens of Texas turned to "living at home" as they have this season. Every county and home demonstration agent and other agencies have encouraged the idea.

**\$490**

(F. O. B. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.)

WHEN you buy a Ford car today, you buy what is unquestionably the greatest value in the history of the Ford Motor Company. Never before has so much beauty, comfort, safety and performance been offered at such a low price.

The low price of the Ford is something to think about because it means an immediate saving of many dollars — always an important consideration. But far more significant than price alone is what you get for that price. When high quality is combined with low price, you may justly take pride in having found a most satisfactory purchase.

See the Ford — ride in it — learn something about the value that is built into every part. The more you know about it, the more certain you will be that it is the car for you. It is literally true that when you "get the facts you will get a Ford."

In keeping with the custom over the state at this time, we deeply appreciate the fact that our people are canning for future needs a generous food supply that will mean much to them the coming winter.

To live more at home is sane, sensible solution to our present day problems. It is a time when every resource should be conserved.

Growing most of the living at home will go a long way toward relieving that home of many of the present day worries, provide better food and make the producer more independent. Every one should can every form of foods possible.

**TEMPLE OF TRUTH**  
By the Apostle

**Migosh!**  
The old Apostle is worried, all down and out and if he had any brains he would be thinking.

A neighbor got sick this week and when the medicos made an analysis of his blood, they found it was 95% pea juice. Now this is a serious matter. The old Apostle had depended on going through the winter on canned peas, and here he finds out it won't work.

Listened to Alfalfa Bill or Dollar Bill whatever-you-call-him Murray, over the radio Saturday night while he made a speech to a big crowd at Dallas. Don't know that he was the cause of it, but Gov. Sterling called out the national guard in less than 24 hours.

Murray says that football, baseball, or highballs will not save this nation because it is not ball-bearing. He told that crowd that there was an attempt being made to destroy the middle class and make just two classes—peons and millionaires in this nation. He dangled near proved it.

He said further that the big dailies were hooked up with the 'big boys' and had no sympathy for the producers. He hit the nail on the head there. All that the Apostle knows anything about, have sold out to the moneyed class and you won't read Murray's speech in any of 'em.

The Toms have it this week. Tom Shadle brought in some more dandy good melons and we enjoyed the first four immensely. Tom never said how many should be eaten at one time so we stopped at just four.

Another Tom brought in an extra good melon. Thomas Clayton is the boy to recall a slight favor done him some time ago. He's the kind never to forget a kindness. The old Apostle had forgotten all about it, but Thomas hadn't. He is a son of Mr. and Mrs. S. T. Clayton who live east of town. They raise their children to appreciate things, to value friendships, and to lead lives that reflect credit on the family name wherever you meet one of them.

Heard a woman make the remark recently that she wished there was a law prohibiting women wearing motherhoods. Well, personally, I am not so fond of them myself, but I am strong for the class of women who find comfort and convenience in wearing them.

Ninety percent of the worthwhile men and women of today were given to the world by mothers who wore a 'hubbard' and the women who wear hubbards are of the kind who maintain home life, visit the sick and contribute more to charity according to their means than any other class of women as a whole.

They are interested more in training their children than they are in the new birth-control fad. They are canning vegetables these days for the home folks instead of spending too much time chasing after a fashionable affair that frequently includes a female poker game.

They do more to set an example of christian living, and guide more erring footsteps into paths of righteousness than all the preachers of the land because they often live with their congregation every day where the preacher meets them dressed in their Sunday manners once a week.

They have practiced a forgiving spirit until they are enabled to overlook the little things that cause others to worry, fret and hate. They lead a sympathetic life filled with sacrifice. If the old Apostle should become seriously ill, he would much prefer a sainted old mother clothed with a hubbard who understood the pangs of pain rather than a flip who knew nothing but bridge and face paint, to administer the castor oil.

"Wealth may pass and thrones may crumble,  
Beauty fade and glory die,  
But the friendship of the humble,  
Brightens as the years go by."  
You hain't seen nothing yet until you take a peep at the Empress Eugenie hats that have been adopted as the latest for women's headgear. It was fashioned after a

cantaloupe cut in half with a little more 'peek' at each end. No, sister, it will not keep a flinger's eye in check around the ears unless an arrangement on the order of cotton sideboards are used—they perch too high on the top.

And a young lady, Miss Opal E. Hall, who is the sole support of her aged father, wants work. She is strong and willing. Has had experience in hotels and cafes and clerking in a store. She is willing to do housecleaning if she can't do better, but she says she needs a job right now. If any one has a place for her or knows of some one needing her services, call her at phone number 351.

J. S. Weatherford of Tahoka visited Mayor Cagle over Sunday. These men became fast friends while on the recent trip through Mexico. The Mayor evidently was given some advice, or at least suggestions, when Weatherford told him that he was on his way to Canada, would return by Salt Lake and get married, and then go to Reno and get a divorce and skip over to Hollywood and break into the movies.

**ENTERTAIN FRIENDS AT COUNTRY CLUB**

Saturday night Miss Dorothy Jo Taylor and Miss Mary Frances Caraway entertained a number of their friends at the Country Club with a swimming party.

The happy young people gathered early in the evening enjoying a swim which was followed by dancing and bridge games.

Parents of the young ladies entertaining prepared a delicious picnic lunch spread on the club tables in the open affording the finishing touches to a delightful evening filled with pleasures and thrills of excitement dear to the heart of the younger set.

Those present were Misses Barbara Smith, Elizabeth Kemp, Jean Bourland, Jonnie Dee Latson, Lucille Andis, Pauline Shelton, Pauline Sanford, Eunice Johnson, Roberta Lafon, Carol Holder, Lodi Green, Mildred Martin, and the hostesses, Misses Dorothy Jo Taylor and Mary Frances Caraway.

Also Messrs. Robert Green, Benton Smith, Phifer Estlack, Phillip Couch, Tony Watson, Roy Stargel, Mike Stricklin, Carroll Hudson, Joe Noble, Bill Wood, Sam Cauthern, Fred Bourland.

Mr. and Mrs. Odos Caraway and Mr. and Mrs. W. W. Taylor chaperoned the party.

**HOWARD-LEWIS**

Miss Louise Lewis and Mr. Lon Howard were quietly married in the home of the bride's parents, Mr. and Mrs. E. L. Lewis of Lelia Lake Saturday morning at nine o'clock.

In the rooms beautifully decorated with garden flowers were assembled the immediate families of the bride and groom and a few close friends.

Mrs. Ira E. Womack, sister of the bride played "I Love You Truly" while the beautiful ring ceremony was performed by Rev. Knoy, pastor of the Methodist church.

The bride was beautifully attired in an egg shell taffeta gown with accessories to match. She carried an arm bouquet of pink and white rosebuds.

The bride's only attendant was her sister, Mrs. E. R. Reeves Jr. She was lovely in blue chiffon. Her bouquet was of mixed garden flowers.

Mr. E. R. Reeves Jr. was the groom's best man.

The bride's going away suit was a fur trimmed black crepe with black and white accessories.

The young couple left immediately after the ceremony for an extended trip through Colorado and the north west.

**KILL KARE KLUB**

Backward, turn backward, O time in your flight.

The Kill Kare Klub was all kids on Thursday night.

The fun we had would be hard to tell.

Eats galore till our taste rebelled.

Mosley was funman and full of pep

Till Massey told of the bath tub step.

Stewart's readings were divine.

Land's rabbit chase close behind.

Rolling the baby buggy was such fun.

Till Fowler and Sanford fell down on the run.

Goldston caught all the suckers on the string.

And Lowe waded the creek till the supper bell rang.

Noland and Mann played snap in the sand.

Till their slippers were fit for no man's land.

The children were all so sweet.

A better bunch could not be beat.

All was noisy and gay as could be.

When a strange man appeared with hand on hip.

We thought he had come for his usual tip.

But lo and behold

He ask for the road,  
Was given advice  
Without any price.  
McCleskey, Brumley, Cluck, Irafen, Greene, Wood, Kennedy, and Sims, you missed such a treat,  
You never will know till you walk the golden streets.  
No one was weary of toil and care.  
For our picnic went over with hats in the air.

**Yates Says Plains Country Has Arrived This Year**

Last year the drouth played havoc with a wide scope of country and in which was included that section around Hale Center and Plainview. A. O. Yates spent the week end down there visiting relatives and old friends and says the country has absolutely come back. He saw fine orchards and lots of fruit. He saw cellars stocked to the limit with canned goods. He saw acres and acres of fine crops and dandy good gardens grown by irrigation. In fact it made him want to live there again to quote what he said Wednesday when describing what he saw.

His daughter, Miss Lucile and Asa Jr. accompanied him down there to where the family home was located about fourteen years ago and where most all the family reside till yet.

### SOME DEPRESSIONS WORSE THAN THIS

By ROME C. STEPHENSON  
President American Bankers Association

ONE of the most significant aspects of the present business period is that while we had a speculative panic and while we have had a general economic breakdown yet we have not had any semblance of a financial panic, such as occurred in 1907, and in other years when the credit and monetary machinery broke down and we had money panics, suspension of specie payments and kindred disasters.

None of these elements of a true financial panic has been present in this depression of the 1930's. At no time was the banking structure as a whole shaken, despite the unprecedented rate of small bank failures that it had to absorb. At no time was the banking and credit machinery unable to extend support to the panic-stricken and broken stock markets and cooperation to all kinds of business and manufacturing. Anyone would have been a wise prophet who could have foretold that our banking and credit structure would stand up so well under conditions so bad.

**Finance Taking Cuts**

And banking and corporate finance in this period of depression are unflinchingly taking their portions of short rations and enforced self-denial that the nation's need for readjustment demands. Interest rates on money, yields on securities and dividends on corporate investment have all dropped to levels that constitute drastic reductions in the compensation of capital. These are but part of the necessary economic realignments that all phases of the country's working life must go through before a general revival of business activity can start.

"It is my belief—indeed it is my hope—that the tempo of the next cycle of prosperity will be somewhat more moderate than the mad whirl of jazz that brought the last one to a close. I think it will be agreed that the worst aspect of the collapse of that period of false prosperity is the condition of insecurity for employment which it caused. Unemployment is our greatest public problem today.

Unemployment is the worst wage cut that the worker can suffer. It is the worst cause of stagnation that business has to strive against. The sooner we can get our masses of workers back into jobs on almost any terms the better it will be both for capital and labor.

### TRUST BANKING SPREADING FAST

Government Official Shows That This Type of Financial Service is Enlarging Its Field.

SPECTACULAR growth of trust service in the banking field is reflected in the national banking system, Aubrey B. Carter, in charge of Trust department supervision in the office of Comptroller of the Currency, Washington, D. C., brings out in an article in the American Bankers Association Journal.

"At the close of the 1930 fiscal year there were 2,472 national banks with trust powers," he says. "Their banking resources aggregated \$23,529,100,000, which represented 34 per cent of the number of banks and 80 per cent of the total banking resources of the 7,252 national banks. Trust departments had been established by 1,829 of these banks which were administering 79,900 individual trusts with trust assets aggregating \$4,473,000,000, and in addition were administering 11,500 corporate trusts and acting as trustees for outstanding note and bond issues aggregating \$11,868,700,000.

"These figures represent an increase during a four-year period of 446, or 22 per cent, in the number of national banks authorized to exercise trust powers; an increase of 725, or 66 per cent, in the number of banks actively administering trusts; an increase of 65,370, or 250 per cent, in the number of trusts being administered; an increase of \$3,500,000,000, or 385 per cent, in the volume of individual trust assets under administration, and an increase of \$9,340,000,000, or 379 per cent, in the volume of bond issues outstanding for which these institutions were acting as trustees."

These facts, he concludes, are "a striking testimonial of the growing public recognition of the desirability of the corporate fiduciary in the settlement of estates and the administration of trusts."

**CHAMBERLAIN SCHOOL NEWS**

If quantity combined with quality brings an inspiration, the Chamberlain pupils should have had a red letter day Monday. Including the faculty and five visitors there were eight teachers on the job.

They were fortunate in having the presence of Mr. and Mrs. J. L. (Slick) Naylor who are teaching in the Panhandle high school.

And of course Mr. Naylor could not be other than plain old Slick. In his own comical way he entertained the school with catch arithmetic problems, and jokes that have always characterized him as the only member of his tribe in captivity.

His best problem was proven in three ways by multiplication, addition, and division that a seventh of twenty eight is thirteen.

Mrs. Naylor had many nice things to say about the character of work the pupils had and the school in general. She is one of the best teachers in Carson county.

Then Bill Dillard played the part of a spell binder with his

cartoon sketches. Bill, too, is a Donley county product and one that by hard work, close economy, and self denial has secured an education. For the coming term he will be teacher and coach of the Allanreed school. In the years to come look for Bill at the top for he'll be there.

Miss Mildred Baker, the very efficient primary teacher of the Smith school added quite a bit to the social part of the program.

Miss Alfa Youree of Hedley is supplying for Miss Maude Crawford while the latter is on a vacation in New Mexico.

Miss Nina Crawford of Clarendon was in the gathering. Also Mrs. J. B. Millsap who helped to show the visitors through the various departments.

A new football, basketball, and two playground balls are the latest to be added to the playground equipment. Enrollment and interest continues to grow.

**Methods of Travel**

"It has been said that people of different religions travel in different kinds of cars," observes the Banks County Journal. "Of course, their wealth, to some extent, determines their mode of travel. If this be true, they may pass thru in this manner: The Jew will come along in a Rolls-Royce, the Catholic in a Packard, the Episcopalian

in a Cadillac, the Presbyterian in a Studebaker, the Baptist in a Chevrolet and the Methodist in a Ford. The Seventh Day Adventist is satisfied with a horse and buggy, the Quaker with an ox cart and the Dukhobors bring up the rear walking naked."

Mr. and Mrs. Jesse Tucker of Garland visited Mr. and Mrs. Hugh Brown here over the week.

**LIAM RIAL SILVEY**

Tuesday, July 21, at forty-one, one of the best known of educators in the Panhandle passed to his heavenly home. Prof. Silvey had been in ill health since October, 1929 and it was not considered serious a year. In December of 1930 he was taken seriously ill, his coming home to be with his case his affliction proved. He rallied from this attack and seemed to be on the path to recovery, only to meet with further setback. In May of 1931 he underwent an operation which was the chance for relief, but he never recovered enough strength to get out of bed again. His only regret was giving up the work he loved so well, and leaving his wife behind him, as his devoted daughter was beautiful even in her last days.

Prof. Silvey was born December 25, 1858, near Versailles, Morgan county, Missouri. He had three sisters, the oldest Enny, then Annie, the youngest Lucy, he being second in age. In 1866 his father died. Very soon after Lucy died her mother.

Prof. Silvey gained his first knowledge from his older sister, in the passing years had taken her good education at various schools near Versailles, Mo. He was sent to several of the private schools one in and the others to his home town. After he finished this type of schooling he undertook teaching in some of the smaller rural schools. At this time when he was about twenty years of age his oldest sister passed away, leaving only his one sister, Annie who survives at present. His father had married again, but there were no children born to this second wife.

Prof. Silvey entered the University of Missouri as a beginning student when he was twenty-four years of age. As he was determined to take teaching as his life work, a part of his college curriculum was devoted to studies in pedagogy. After a little over three years of study he received that institution the degree of Bachelor of Pedagogy, equivalent to a degree now given as Bachelor of Science in Education. He went to California where he held up a position in Fresno teaching rural schools during his first year and later attaining the rank of principal in the city school system.

After five years he returned to Illinois, Missouri, and became the city Superintendent of schools. He held this position in Missouri for ten years. At this place he met a woman who was to become his wife, then Miss Anne Eliza, also of that city.

He came to Texas in 1891 and at his first school at Lockney. When he was in California, he had additional work with the University of California, so that he was one of the best prepared in that section of the Panhandle.

In 1894, he went to St. Louis, where he was married to Miss Annie then of that city. They made their home in Claude, Texas, where he was the Superintendent

of schools. The following year they moved to Clarendon, Texas, where he undertook a like position. On Sept. 1, 1895, their first child was born, a son, christened Joseph William Silvey. His arrival was a great joy to this young couple, though it was short lived, as he was taken from them on the twenty-fifth of the same month. Prof. Silvey kept his position as Superintendent of the City Schools of Clarendon, Texas the following year, and for many to come.

The Clarendon school district was established in 1888, so that when Prof. Silvey came to take up his work, small advance was in evidence. In 1902-3, a new building was built, which at that time was one of the best in that part of the Panhandle. The enrollment increased steadily with the rapid strides of educational enlightenment in the years to come. The high school was the first in the Panhandle to be placed on the accredited list of schools. Many graduates entered colleges and universities throughout the nation, most of them having been inspired to continue by the example set in their worthy leader and teacher. No other teacher in the Panhandle of Texas had more interest or more pleasure in seeing others develop under his guidance. To say that his twenty-four years of teaching in Clarendon was a success, would merely mean that that time was one of supreme happiness and contentment to him and his. In 1912 another building was started some distance from the site of the older one, it serving as the high school for some time. Both of the buildings are still in use.

In 1897, a daughter was born to Prof. and Mrs. Silvey, Floy Gwynn Silvey, the only child to graduate under her father while he was in Clarendon. In 1900, a son was born William Riall Silvey, Jr. He was a great pleasure to his father, and as constant pride because he bore his name, and because he exhibited the same gifts. Death again stole from loving arms the second son, on October 16, 1915. In 1904 another daughter was born, Ruth Eliza Silvey, and in 1907 a son J. K. Gwynn Silvey, both surviving.

In the fall of 1919 he took up his new duties as Superintendent of Pampa schools. In this district at that time there was only one small school building, that did not present extremely over crowded conditions, nor provide ample teaching space. He made plans for the new school building, that was built one year later. Most of the courses in the school system were accredited during his time as leader in this district. A very unusual and new action was provided that called for large buses that collected and delivered the rural school children each day of the school week. This tended to enlarge the enrollment of the schools and provide sufficient funds for all purposes. His time in this district was a success, and he added greatly to his list of acquaintances and friends. When he left in 1923, he left more very dear friends behind than most anyone that followed him in years to come. Many years after his departure he had letters and messages from his former students and friends, and many of them were present when his last rites were spoken.

In 1923 Prof. Silvey and his family, moved back to Clarendon, Texas, where the two younger children might have the advantages of the College. His daughter graduated from the college department, and his youngest and only son, from the Academic division. During the year in Clarendon, he enjoyed living around with old friends and acquaintances reviewing and reliving the earlier days of his struggles.

ly, moved back to Clarendon, Texas, where the two younger children might have the advantages of the College. His daughter graduated from the college department, and his youngest and only son, from the Academic division. During the year in Clarendon, he enjoyed living around with old friends and acquaintances reviewing and reliving the earlier days of his struggles.

In 1924 he moved with his family to Dallas, Texas where his children continued their studies, all of them graduating from S. M. U. He quickly made many acquaintances and friends because of his keen interest in school life of all sorts and also because of his intricate knowledge in all its activities. He registered on the substitute list of teachers, serving the larger part of one year on the faculty of Highland Park high school. During the last three years of his life he did very little teaching, although his interest never waned.

Prof. Silvey served in summer sessions at Clarendon, College West Texas State Teachers College University of Texas, and many Teachers Institutes throughout the state of Texas. He served on the State Board of Education for some time, and again on the State Board of Examiners.

The life of Prof. Silvey was filled with happiness, and joy, as well as with the sorrows that go to complete an entire existence. He was fearless in his approaches, though fair and kindly in his actions. If he undertook a task, he saw that it was fully completed. He stood for the right, and fought to see that it was carried out justly. He was christian in his thoughts, and Godly in the walks of life. His last rites were performed in the Methodist church, which had always been a pleasure and a pride to him. His life and his work was a success, and he has justly and rightly gained the eternal rest that is now his, forever.

On Wednesday, July 22, a short funeral service was held at his home in Dallas, Rev. W. V. Hite conducting. On the following day

services were held in the First Methodist Church in Clarendon, Texas, Rev. J. Sam Barcus conducting, assisted by Rev. E. B. Bowen, Rev. W. M. Murrell, and Rev. B. N. Shepherd. He was laid to rest in the Citizens cemetery, Clarendon, Texas.

To say that Prof. Silvey was a loyal friend, and a natural leader, would mean that he was a successful teacher. To say that he worked zealously, would mean that he succeeded. But to say that he was a kind and devoted husband, and a loving and thoughtful father, would mean that he was a great man. As a last tribute from his son, it may be said that he was all that he was thought to be and more than the world can ever know, a loving confident and thoughtful father that left to me a very inspiring record. We grieve, yet we are proud of him.

J. K. Gwynn Silvey.

**CHILDREN CRY FOR IT—**

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drugstore; the genuine always bears Chas. H. Fletcher's signature.

## BIG CROWD SEES ATHLETIC BOUTS FRIDAY EVENING

Roy Welch of Borger Retains Title in Hard Contest With Dutch Betket of Plainview

Roy Welch of Borger added one more victory to his laurels here Friday night in a hard contest with Dutch Betket of Plainview. He bested Swede Larson on the same mat two weeks before. This is his third appearance in Clarendon.

The first fall came as a victory for Betket using a reverse head lock in a fast scrimmage lasting two minutes. Welch was considerably the worse when he went down for the count and was forced to 'get air' a few minutes before continuing due to a slam early in the beginning of the game.

Welch forced Betket to take the count in 11 1/2 minutes by administering a slap and a body crush. Betket took his punishment like a hero and came into the ring for the third go seemingly refreshed. Welch had recovered from his blow early in the game and the crowd went wild as they knew both men would put up a stiff scrap for the fall that meant victory.

Both men sparred for position and opportunity as they entered the ring Betket appearing strong for headlocks. Welch had regained his composure and managed to escape headlocks when it looked impossible.

Betket kissed the mat back side down fair and square at the end of a severe test of strength and skill lasting 35 minutes. Welch put his man down with a hammer lock and a body scissor.

The opening feature was a 'slug fest' in which five colored boys gave the crowd plenty of laughs.

Elery Watson and Walter Brady, two local embryo wrestlers staged a ten minute go to a draw. Both needed training to match their gri. The crowd was pleased with the effort and many of them would like to see the boys try again.

Dick Nichols (weight 170 and) Teddy Roosevelt Hodges who tips the beam at 160 entered the ring with every promise of fame. The wrestler who is expected to shed glory upon his illustrious namesake, met with misfortune and went down early in the game when he encountered Nichols hand in a slapping contest which was backed by a body scissor. Hodges was a local hero on the mat a few years ago and was plainly 'soft' from lack of practice.

T. G. Stargel was in charge with Denzel Davis performing the services of referee. There was not a hitch, every one staid in a good humor and the orderly crowds attending these athletic affairs has induced more ladies to attend with each succeeding contest.

Mr. and Mrs. W. C. Brewer and two of their children of Olden visited his parents, Mr. and Mrs. O. H. Brewer here over the week end. They are temporarily making their home in Canyon where Mrs. Brewer is attending school.

### Bozeman Markets Fine Yellow Meat Watermelons

Round melons with yellow meat are common, but the long striped melon with yellow meat is seldom found. J. M. Bozeman of Lella is marketing some of the long striped yellow meat melons at this time.

These melons have a good rind for carrying or shipping, the flavor is equal to the best and the seed content is small in number. In fact those who have eaten this variety of melon from the Bozeman farm say it is far above the average.

He also has a choice variety of jumbo sized cantaloupes and is marketing both kinds of melons mostly in Amarillo. He states that those who try his product become steady customers.

## CHAIN, GROUP AND BRANCH BANKING

Bankers' Commission Describes Differences Among Various Kinds of Multi-Office Banks.

THE Economic Policy Commission of the American Bankers Association has made the following statement on various types of banking systems operating through more than one office:

"We find that there are recognized in the banking world three types of multiple banking organizations, namely, chain bank systems, group bank systems and branch bank systems. They are alike solely in respect to the fact that each embraces under some form of common control or influence two or more banking places, but here the similarity stops since there are essential differences in organization and administration, especially as between branch banking and the chain and group forms.

"Chain banking is recognized as probably the least definite form of multiple banking organization. Generally speaking, this term refers to merely a string of individual separately chartered banks owned or controlled through stock holdings by one or more common individuals, sometimes without public knowledge of the common ownership. Frequently the controlled banks are not administered as a coherent whole under the guidance of a central, publicly known head office, but rather each bank is run as a separate unit bank in accord with the wishes of the dominant interest. In some cases, however, there is a central, publicly known control with a head office that formally supervises the operations of all the banks controlled, and this is perhaps the more desirable arrangement. It lacks, however, the definite legal responsibility that a corporate head organization would have. Each bank in a chain system operates under its own capital and there is ordinarily no binding relation among members of the string.

Group Responsibility  
"Group banking, on the other hand, is a system in which, while the member banks are separately chartered and operate as individual units with their own capital, control is exercised through a publicly known corporate organization under the direction of a responsible head office. It openly holds stock control of the member banks and is morally and legally responsible as the chief stockholder for their administration and the statutory shares of their liabilities. An essential feature is the fact that an organization of this kind is publicly known, which creates a large degree of responsiveness to public opinion. This is true because anything of an undesirable nature developing in one member of the group would create public distrust of the whole group. Therefore its sense of self-preservation as a group, if nothing else, tends to make it enforce standards of conduct throughout the members of the group and to assume responsibilities for them beyond what mere legal responsibilities would bring about.

"Branch banking is completely distinct from the two foregoing forms of multiple organization in that it does not consist of a string, chain or group of independent banks, for there is only one chartered bank in a branch organization and the extensions from it are all in the form of sub-offices without separate capital or corporate existence. For everything that is done through these offices the bank itself is just as responsible legally and in every other sense of the word as though it were done over its own counters in its head office."

Bankers Help  
In a report on banker-farmer work, H. Lane Young, Chairman Agricultural Commission, American Bankers Association, shows that during the past year there were 409 meetings reported in 38 states, with a total attendance of 38,578. County key bankers numbering 2,541 were appointed in 39 states. Thirty-four states reported an expenditure by banks of \$105,926 for developing better agricultural practices.

Special banker-farmer activities engaged in by banks in 27 states numbered 8,493, while 7,140 projects or farm programs were carried on by rural people through the influence of bankers.

For three years the Agricultural Commission has given special recognition to the state reporting the highest record of accomplishments and this year Georgia achieved first place with its banker-farmer agricultural program. Representatives of the Georgia State College and officials of the Georgia Bankers Association developed the methods and policies which made it possible for Georgia to carry out an effective program which emphasized "direct credit from banks for producing crops on the live-at-home basis."

## FARMER LIVES AT HOME, BOARDS AT THE SAME PLACE

Three Hundred Fifty Acres Planted to Diversified Varieties Each Year

The Meaders farm in Pleasant Valley over on Salt Fork some fifteen miles northeast of Clarendon is located on some of the best all-purpose soil in the county. Three hundred and fifty acres are planted to a wide range of crop varieties.

J. A. Meaders is the owner, having purchased the farm from J. T. Wilson some fifteen years ago. Mr. Meaders has been farming forty-eight years, his experience being confined to the states of Georgia and Texas.

Coming from an eastern state did not deter him long. He began a systematic study of soil, climate and methods that were being used with success and he soon found that it was possible to make some improvement for greater production on his valley farm.

Seventeen cows were being milked when the writer paid a visit to the farm recently. Ten head of nice hogs assured the owner of his yearly supply of meat and lard. Fifteen head of work stock furnished the motive power for operating the vast acreage.

He had one hundred acres of corn, the same acreage in cotton. The remainder of the field space was devoted to row crops such as cane, kafir, maize and feterita with some space left for melons, peas and beans, etc. for some use, and a sudan pasture for the milk cows.

The Meaders farm is a beehive of industry. While the men folks are keeping up with the outside work, the mother and daughter are busy in the home. At the time of the writer's visit, the main canning season had not yet arrived, but forty-five pounds of kraut had been put up and a large number of beans had been canned. Judging from the variety of vegetables growing, the canning industry will be up to par before the close of the season.

### Rex Reeves Becomes Member Clarendon Faculty

The Board and patrons of the Clarendon Junior High School have been most fortunate in securing the services of Rex Reeves as a teacher of math in the 8th grade.

This arrangement is due to a last minute change occasioned by the resignation of a lady teacher who had been engaged for that work the coming term.

Mr. Reeves received his education in old Clarendon College, Texas Tech at Lubbock and the West Texas Teachers' Training School at Canyon. His teaching experience covers a period of eight years.

He began in a school in Deaf Smith county, later taught at Bray and was principal of the Lella Lake schools five years. He was superintendent of the school at Lela near Shamrock last year.

### Rotary Club is Sponsoring Free Medical Examination

In cooperation with the Parent-Teacher Association of the town, and through the kindness of Dr. E. L. Jenkins and Dr. Oscar L. Jenkins, the children of this district expecting to attend school here this next term, will be given a medical examination free of any charge, by an arrangement sponsored by the Clarendon Rotary Club.

Members of the Parent-Teacher Association will arrange to call for the children and transport them to the office of the doctors. The hours for this examination is from 2 to 4, Monday and Tuesday, August 24th and 25th.

All public school pupils of the county will have access to this free medical examination later under the supervision of Mrs. Nora McMurtry, county superintendent of schools. The date will be announced in the Leader.

### Clarendon May Sponsor Club "Murray For President"

Mayor W. P. Cagle announced Wednesday that he was in favor of organizing an "Alfalfa Bill Murray for President" club and get busy. He has been keeping up with the Governor and admires the way he gets results.

If a sufficient number become interested locally, a club backing Murray for representing the common people in the highest office in the land, will be organized here as they have been doing in several other parts of the state recently.

### Editor Groom News Dies There Wednesday

Rev. W. J. Wade, a retired Baptist minister and leader civic worker of Groom and publisher of the Groom News for the past four years, died there Wednesday.

He had been in failing health for a number of years and was forced to retire from the ministry on that account. He leaves a widow, two sons, two daughters, father and three sisters of his immediate family.

### Widow Sues Pete DeShong For Death of Husband

Mrs. Clara Mitcham, widow of M. Mitcham, who was killed in a wreck at Smith Creek bridge in Clay county on one 7th in a collision between the Mitcham car and a truck of the DeShong lines, has filed suit against Pete DeShong claiming \$75000 damages.

Mrs. Mitcham lives at Wichita Falls and DeShong lives at Amarillo but as the wreck occurred in Clay county, the suit was filed at Henrietta. Three men in the Mitcham car were killed as well as the two in the DeShong truck. No one lived to tell the story of the wreck and there were no eye witnesses.

Mrs. J. C. Clark and son Billie Jr. of Lubbock are visiting in the John Clark home here this week.

Mrs. G. G. Kemp is enjoying a visit with her mother, Mrs. Alia Lightsey of Chillicothe.

Mrs. A. E. Beedy of Floydada is visiting her sister, Mrs. J. E. Mongole at this time.

Mr. and Mrs. Clyde Hudson, Mrs. C. A. Burton, Misses Fannie Perry, Carrie Davis, Maude Crawford left here Saturday for a visit to Carlsbad Caverns and other places of interest in New Mexico on a vacation trip.

### Legion Delegates to Leave For El Paso Saturday

Four delegates from Aubyn E. Clark Post of the American Legion will attend the state convention that convenes at El Paso next Monday. These delegates expect to leave here Saturday morning making the trip by auto.

Those who will attend the state meet are Nathan Cox, Joe Holland, Barcus Antrobus and R. W. Moore. Several thousand Legionists are expected to put in appearance and El Paso has made every preparation to excel in entertaining.

Mr. and Mrs. T. B. Morgan and children of Amarillo are visiting her sister, Mrs. M. W. Mosley and family.

Mrs. Dave Cameron of Spearman was a week end guest of Mrs. C. F. Whitlock.

Mr. and Mrs. Eugene Estlack of McKnight spent the week end with home folks.

A son was born to Mr. and Mrs. Ralph Bourland Tuesday night of this week.
