Captains Appointed For Donley County War Bond Drive

Everything is in readiness for the beginning of the 5th War Loan drive here in Donley County, Monday, June 12th, with the main thought in mind to get the drive underway fast and raise our quota as quickly as possible.

Much enthusiasm has been put into the coming drive due to the invasion of the European continent. Our people are just not going to lay down on the job here of financing the war when our brave men are giving their entire over there in that great push to crush the Nazi. Let us always bear in mind when in buying bonds that we are only loaning our money while the boys "over there" are giving their lives.

The march to Berlin is not going to be an easy one. Thousands of

our men are going to be killed and wounded, and millions of dollars worth of fighting material is going to be needed always at the right time. People on the home front are responsible for the needed materials and equipment. Bond buying everywhere must go on without a minute's letup. The big push is on. Let us not falter lest the mockery of failure tear our hearts out when the boys come marching home.

J. R. Porter, Donley county chairman, called on members of the Lions club Tuesday noon to fill their jobs as captains of communities again, and gave the tabulated quotas for each one as listed below. Let everyone do his part and put this drive over long before the deadline.

Two Local Youths Best Fishermen

Long, tall fishing tales are very common in every day talk, but the following item about two of our local youths reveals the facts that place them up and above the fancy fisherman with his rod and reel.

Sunday afternoon Jimmy Douglas and Max Keys were on the Country Club lake boating, and while splashing around near the dam, a two pound bass sailed through the air and landed squarely in their boat. The two boys pounced upon the fish to keep him from flopping back into the water. Those with rod and reel had to take the back seat, for these two boys had plenty to crow about, taking such a fine fish without any fishing equipment at all. To prove their feat, they produced the fish and also enjoyed it for dinner Monday.

Cpl. Clarence Whitlock left for Amarillo Sunday to visit with Mrs. Odis Barnes. He and Mrs. Whitlock will go on to Lubbock Tuesday.

THE THUNDER OF INVASION IS ROLLING WESTWARD

"INVASION IS ON"! Each minute as you read this our American boys are hitting the beach-heads giving their all that we may remain free men and women. Our prayers to a merciful God follow each and every one of them.

We here at home have more to do than beat our breasts and lament. We MUST help! We CAN! We WILL!

Let every American REDOUBLE his or her efforts on every War Program. Only maximum tempo is sufficient to assure complete Victory at the earliest moment.

Buy EXTRA bonds. Save and prepare every bit of waste paper. Don't waste even a spoonful of used kitchen fats. Add to your Red Cross Donation. WORK HARDER! Sacrifice for God and Country.

There should be NO GRANDSTANDS in the grim game of war. NO ONLOOKERS. Every man, woman, and child is needed in the LINE marching to Victory and Freedom!

World War No. 2 Veterans and Movie To Be Here Next Tuesday

"Invasion Punches!" invades Clarendon Tuesday night, June 13, and Clarendon will get in its own special punch at the Axis.

The Big Fifth War Loan Show, a blood-and-bombs action-filled movie of actual combat, will send 50 minutes of thrills and chills through the town when the 3 official war pictures included in "Invasion Punches!"—complete with sound—are shown at the Methodist Church.

The program, free to everyone, will begin at 8:30. In addition to the movie, 2 war-wounded heroes from McCloskey hospital at Temple will be here to give actual experience tales, War Finance Committee Chairman J. R. Porter said.

This time Clarendon's punch at the Axis will be bigger and greater than ever: it will be an invasion punch!

"Invasion Punches!" consists of 3 moving and important motion pictures and of two war heroes telling of their experiences with the enemy. The films are "Kill or Be Killed", "Film Communique No. 6", and "German Fortifications".

"Kill or Be Killed" shows various aspects of hand-to-hand combat. It shows that brass knuckles

First Invasion News Heard By Few Early Listeners Here

Tuesday, June 6, 1944 will never be forgotten as long as men shall write history and those generations which follow shall read. Never before in the history of mankind has such an armada of war might been assembled at one point—and pray never again shall it be necessary for mortal beings to obliterate each other to emancipate a suffering world.

The greatest military undertaking in the annals of history is now underway, and Donley county boys with their comrades-in-arms are now clearing a way for the march to Berlin. The zero hour is passed and the shores of Normandy are resounding to cannonade and bombs. Many have made the supreme sacrifice and others following are storming inland and the beachheads are being deepened day by day.

Despite the fact that most of the local radios were silent at the early morning hour when the invasion was announced, a few Clarendonites were at their radios when the news was flashed. Telephones were soon buzzing and a great number of folks got in on the first news flashes. Although the news was exciting, yet it carried with it the realization that many American boys would be killed and wounded.

Church bells begin ringing early Tuesday morning and special prayers were held in several of the churches. Churches were held open throughout the day and many found solace in massed gatherings when special prayers were held for loved ones and friends in the armed forces.

The news of invasion was taken quietly here in Clarendon as a whole with very little disruption in the regular routine of business. With the realization that many Donley county boys are in the field of operations, Donley county folks are filled with faith, hope and anxiety—faith in their boys who are fighting for freedom—hope for an early victory and peace—and anxiety for the lives of loved ones in the battle line.

Detailed news is lacking and will not be announced until those in authority are sure the information will not aid the enemy. The fate of individuals probably will not be forthcoming for many days. The task ahead is stupendous and the ultimate goal overshadows all else at the present time.

PICKERING INFANT BURIED FRIDAY

Funeral services were held at the Womack Funeral Chapel Friday afternoon for Baby Gene Pickering with Rev. H. W. Hanks, officiating.

Baby Gene, infant son of Mr. and Mrs. Leslie Pickering died one day after birth, and in addition to his parents, he is survived by his grandparents, Mr. and Mrs. W. M. Pickering of the Naylor community and Mrs. E. J. Ward of Hedley.

Burial was in Citizens cemetery under the direction of Womack Funeral Home.

Mr. Frank White returned from Childress Tuesday night from a business trip.

Mr. and Mrs. U. T. Dever and Mr. and Mrs. Alva Dever were Claude visitors Sunday.

Clarendon Wins Over Memphis Ball Nine

Last Sunday, in Memphis, Clarendon defeated the Kraft Cheese Co. of Memphis in a return game 23-3 in 5 innings—abbreviated because of the score.

Every player on the Clarendon team scored at least one run. Poor pitching and fielding proved disastrous for the Memphis club. Emmett Thompson pitched the win for Clarendon.

This next Sunday Clarendon plays the Memphis City nine at the local diamond. This team was newly organized several weeks ago and, as evidenced by their top-sided win over Paducah last Sunday, are a really good outfit. Their roster includes many former Memphis players of other years and, undoubtedly, Donley County fans will be familiar with all their names.

With this in mind and the fact that they also trounced the Kraft Cheese Co., this game should prove to be interesting, close, and the best-matched game to date.

The following Sunday, Paducah comes to Clarendon. Games are being arranged with other teams in this vicinity for Sunday afternoon sport throughout the summer.

"We extend our appreciation and thanks to those who followed the team to Memphis last Sunday," Dr. Watson, local manager, stated.

S/SGT. CHARLES F. DERRICK AWARDED BRONZE MEDAL

BOUGAINVILLE—Staff Sgt. Charles F. Derrick, Chemical Warfare Service, U. S. Army, of Clarendon, has been awarded the Bronze Star Medal by Maj. Gen. Oscar W. Griswold, Allied Commander here, by direction of the President.

The award, for meritorious service in operations against the enemy at Bougainville, reads: "The night of April 3, and the morning of April 4, 1944, during the temporary absence of a commissioned officer, Sgt. Derrick took command of the guns and ammunition section with skill and initiative directed fire in support of an infantry regiment engaged in an encircling operation, thereby contributing materially to the success of the operation."

Mrs. Lewis Wood and children of Amarillo spent the week end with Mr. and Mrs. L. L. Wood. Lewis left for Ft. Sill, Okla. Thurs.

Mrs. A. L. Mace who underwent surgery at the Clarendon Clinic Hospital, was sufficiently recovered to be moved to the home of her mother, Mrs. Wallace, near Ashtola, where she is making satisfactory recovery at this time.

Mrs. Tom Rush of Ft. Worth is visiting her mother, Mrs. A. H. Baker.

Every Donley County Citizen Should have One or More of These

The picture above shows the War Savings Bond Series E, and what the money will be used for. The Fifth War Loan Drive is everyone's responsibility, and it is up to each and every one to own at least one or more of these bonds before the current drive is finished. It is our Bond dollars that keep the equipment pouring in to our boys on all the fighting front all over the world... and especially at this time, the great invasion of France. See how many of these pretty pieces of paper you can tuck away... right away.

INCOME TAX REFUND CHECKS MAILED

Joseph D. Nunan, Jr., Commissioner of Internal Revenue, announced that the one millionth refund on 1943 individual income tax returns was made last week. However, he cautioned taxpayers that it will take several months before the remainder of the 1943 refunds can be completed. Each refund check will be mailed as soon as possible by the regional disbursing office of the Treasury Department in the taxpayer's own district.

In view of numerous inquiries from taxpayers as to when they can expect their refunds, Commissioner Nunan said: "It is estimated that approximately 18,000,000 taxpayers are entitled to refunds on their 1943 income tax returns. It is our duty and intention to make these refunds as rapidly as possible."

"First attention was given to the claims of members of the armed forces. Now refunds to civilians are being made in large numbers."

"More than a quarter-million taxpayers will receive their refunds this week, bringing the total to more than a million since March 15. An increasing number of taxpayers will get their refunds next week, and in every subsequent week until the list is complete. Each refund will include interest computed at the rate of 6% per year from March 15, 1944, to the date the refund is scheduled."

Each refund is mailed as soon as figured.

Mildred Martin At Headquarters Gen. Eisenhower

EUROPEAN THEATRE OPERATIONS HEADQUARTERS, May 26—Among the WACs working at the headquarters of General Dwight D. Eisenhower, supreme commander of the allied expeditionary forces, is Private First Class Mildred L. Martin of El Reno, Okla., a sister of Mrs. Fred Wewerka, 820 South Mocamb ave. Pfc. Martin is a former Clarendon girl and is well known here.

Women of eight countries and four different branches of the military services work side by side and live together in the allied women's camp.

They are members of the United States women's army corps, representing 43 states, and the British women's military services—the ATS, WAAF and WRNS.

The allied women's camp, located near supreme headquarters, is their home. Here they share the same mess, the same hospital, relax in the same day room, attend the same movies, and sometimes plan days off together.

The allied women work as secretaries, stenographers, clerks, drivers, and in communications section of supreme headquarters.

Mr. and Mrs. A. G. McClenny and daughter Bobbie Fay and son Odell and Mr. and Mrs. Paul Ellis and daughter Sherman of Amarillo spent the week end with their parents, Mr. and Mrs. C. T. McClenny.

Mr. and Mrs. Johnny Beard and family spent Saturday night and Sunday with relatives at Wichita Falls. Their sons, Bobbie and Jimmy and nephew Dick Jackson remained for a week's visit.

Mr. and Mrs. Jack Merchant and daughter Jacqueline ofampa visited his parents Wed. They were on their way to Scott and White at Temple for medical treatment for Mrs. Merchant.

Mr. and Mrs. Elmer Darnell of Hedley visited in the home of Mr. and Mrs. Arlie Wood Sunday.

Texas Farm Family On Nation-Wide Radio Hookup

Chas. Reed, Donley County Agent, believes that you will be interested in the National Farm and Home Hour featuring a Texas farm family on a nation wide radio hookup. This program will be carried by the Blue Network and will be presented at 11:30 a. m. Monday, June 12, by a number of Texas stations.

The program is one of a series designed as a report to the nation on farmers plans for meeting the 1944 agricultural production goals. The Texas Extension Service was requested to select a typical Texas farm family, to be interviewed by J. D. Prewitt, state director of Extension Service, and B. F. Vance, state director of the Triple-A on the family's plans for meeting the production goals on their farm.

Mr. and Mrs. W. H. Hopmann and their son, Wilfred, of Fort Bend County were selected as the representative Texas farm family. This family has been one of the Extension Service's best cooperators in Fort Bend County. Mr. Hopmann operates a 350 acre farm. He is chairman of the Agricultural Victory Council, a member of the county Triple-A committee, the OPA rationing committee, the board of supervisors for the local soil conservation district and takes an active part in other community activities.

Mrs. Hopmann is secretary of the Beasley Home Demonstration Club and chairman of the community Agricultural Victory Council. All the children in the Hopmann family are or have been outstanding 4-H Club workers. The eldest son, Urban, who is now a prisoner of war in Japan, was a member of the first 4-H Club organized in Fort Bend County, and won national honors in 4-H Club contests. Another son, Wilfred, who will appear on the program, won a state wide cotton improvement contest for Texas 4-H Club boys in 1940 and represented Texas in the National 4-H Livestock Judging Contest the same year.

Nelda, the only girl in the family, served as secretary of the Beasley girls 4-H Club for five years. She now is married and lives in San Antonio. At the 1941 Fort Bend County Dairy Day she was selected "the most outstanding farmer's daughter in Texas." The Hopmanns have two other sons, Elton, who is also in the armed services, and Clarence who is still active in his 4-H Club work.

I remember from school.

I once had to do a composition about the world's greatest invention being wheels. Just think of gear-wheels, water-wheels, and especially all the wheels for transportation! But right now the greatest thing of all, I'd say, is to keep wheels going; keeping your car in service, for instance. There's this and that to help you. There's one motor oil and another. Now from what I know, the explosions in any engine must produce acids, which brings up the bright idea of safely OIL-PLATING your engine's insides with Conoco Nth motor oil. You want to prevent damage from acids... internal corrosion! Some things are specially good at fighting corrosion, and OIL-PLATING comes in that class. Even chromium plating, just for comparison, couldn't stay closer to working parts than this protective OIL-PLATING. It battles corrosion, so as to help you preserve your transportation as soon as you switch to Conoco Nth oil.

LIBRARY NOTES
By Mrs. C. A. Burton

Again we have a few new books for our many readers. The boys and girls are very greatly enjoying the library in these days of vacation time and the largest number of these are for them. Mystery stories are being most popular now among young and old. The following mysteries are by Caroline Keene: "The Clue in the Jewel Box; The Secret of Red Gate Farm; The Mysterious Fireplace; The Clue of the Rusty Key; The Portrait in the Sand; The Secret at the Gatehouse; While the Clock Ticked."

Then by Franklin W. Dixon: "Footprints Under the Window; The Flickering Torch Mystery; The Clue of the Broken Blade." From "Children of Many Lands" for the younger readers are: "The Little Spanish Dancer; Little Erick of Sweden." Dog stories have had an increasing popularity so we have two new ones by Albert Payson Terhune: "Treve" and "Wolf." Another which the boys will enjoy is "Coast Guard, Ahoy" by Kirkus. Alaska continues to be a land of mystery but of increasing interest to us, hence "The Lure of Alaska" by that great travel writer, Harry A. Franck. Of present day interest are "Gudalcanal Diary" and "Under Cover" both of which have been much talked about, but which we have not had until now.

Gene Butler Praised In Letter

EDITORS NOTE—The following is a letter to Mr. and Mrs. W. O. Butler from a friend at Farwell, whose brother-in-law was a buddy to Gene Butler in Italy. Everyone who knew Gene will note that he is still carrying on the same spirit that he always enjoyed while here at home.

Farwell, Texas
May 30, 1944
Dear Mr. and Mrs. W. O. Butler:
Just a note to let you know your son was all right and getting along just fine when Orville left on the way home. Maybe first I had bet-

Quite often our friends bring us books. Elise Norwood recently brought from her childhood's store quite a little collection for our tiny readers. We wish others might do likewise—making available to others the things one has enjoyed themselves in the past. "Love at First Flight" is one of those humorous stories which tend to lighten the dread of the flights our boys are making. "This Is My Story" by Eleanor Roosevelt will give an interesting sidelight into the life of our "First Lady." And the last one of the Dave Dawson series will delight the hearts of our boys.

ter explain what this is all about. Orville London is my brother-in-law and since March in 1941 has been in Company A of the 111th Medical Battalion attached to the 36th Division. On the 8th of April he started home on a furlough from Italy but didn't arrive until May 22nd. Most of the time in between was spent in North Africa waiting for transportation home. You might tell your son that during that time they couldn't be detailed to do KP or the like, Orville seemed to think it was funny.

Their company as a whole has fared right well. They have had no members killed and just a few casualties. Your son evidently was a morale builder as Orville speaks of him being full of fun and not taking things too seriously but at the same time doing his work well. Orville says they really missed him when he went back to Naples to the hospital and since his return things have been running smoothly again.

Orville is to report back to San Antonio on June 14th but he doesn't know where he will be sent or anything. He says Butler, as they call him, often speaks of work back on the farm, and how he wishes he could be there to help. Here's hoping he will be lucky enough to get to come home soon.

Sincerely,
Frances

HE'S OFF ON HIS FIFTY-FIFTH MISSION

There he goes again — out to pour more destruction on the Axis — once more to face the death of enemy fighters and flak!

He won't hesitate to go out on his fifty-sixth or his hundred and fifty-sixth mission. He knows he might not come back, but he keeps on going — giving more and more until the Hitler and Tojo crews are ready to "call it quits."

This is only *your* fifth mission—and a mission which is mighty easy in comparison with the ones he makes every week.

Stay in the fight by welcoming the Victory Volunteers—at least double your Bond purchases and then keep on. Your buying means "bombs away" for the Axis!

GORDON—HARTZOG

Mariam Gordon, daughter of Rev. and Mrs. H. C. Gordon of Burleson and sister of Mrs. W. L. Porterfield, became the bride of Cpl. Lewis B. Hartzog, son of Mr. and Mrs. A. C. Hartzog of Pampa, in a double ring ceremony read by Rev. W. L. Porterfield in the Wesley Memorial Methodist church at Big Spring, Wednesday, May 31.

Mrs. E. L. Ellis played the wedding music and the altar was decorated with pink gladioli and ferns.

The bride wore a black silk crepe dress with light blue accessories and her corsage was of white gladioli.

Mrs. Hartzog attended Clarendon High School and graduated from Slaton High school. She has been employed at the State Hospital as assistant recreational director.

Cpl. Hartzog has been with the Marine Corps in the South Pacific for two years and returned to the United States last month. He is now stationed in San Diego, Calif. as an instructor where the couple will be at home. He is a graduate of Clarendon High School and attended Texas A&M until he joined the Marine in December, 1941.

A reception was held in the church parlor following the wedding. Mrs. W. D. Lovelace, Mrs. Tommy Lovelace, Mrs. Cecil Nabors, and Mrs. Porterfield were hostesses.

The two-tiered wedding cake was served to about 30 wedding guests.

GARDEN CLUB

The Garden Club will meet Monday, May 12, at 4 o'clock in the home of Mrs. Joe Goldston.

Mrs. Rayburn Smith will review "The Flowering Earth."

Mrs. Henry Green of New Orleans, La. has been visiting relatives here this week. She will be remembered here as Miss Laverne Lott.

ELLERD—WISE

Miss Pauline Ellerd, daughter of Mr. and Mrs. Paul Ellerd of Plainview, and Winifred Wise, son of Mr. and Mrs. E. J. Wise of Amarillo, were married Sunday afternoon at the home of the bride's parents. Paul McClung, minister of the Church of Christ, read the single ring ceremony.

Preceding the ceremony, Mr. and Mrs. H. C. Godfrey sang. Maggie Mae Aden was maid of honor. Walter Lee Johnson acted as best man.

A reception was held following the ceremony. Miss Elvorn Irwin and Mrs. H. Y. Smith served the wedding cake. After a short wedding trip to Amarillo, the couple will be at home at 1031 Baltimore, at Plainview.

The bride attended Plainview High School. Mr. Wise is a graduate of the Clarendon High School and is employed at Koen's Studio at Plainview.

KAPPA KAPPA SORORITY

Marilyn Bartlett acted as hostess for the members of the Kappa Kappa Sorority Wednesday afternoon. The meeting was called to order, and a short business session was held. Lovely refreshments were served to nine members and one visitor.

Tuesday, June 6, the members met at Norwood's Pharmacy for supper, and after the supper went to the show. Everyone enjoyed themselves very much.

1930 NEEDLE CLUB

The 1930 Needle Club met in the home of Emma Ayers May 6, 1944. Two new members were voted into the club, Dolly Wilson and Eula Hay.

Refreshments were served to 1 guest, Mrs. C. Huffman and the following members: Mildred Larimer, Mozelle Wright, Hattie Palmer, Maggie Hunt, Mary Wallace, Betty Keys, Nora Decker, Ona Tatum, Nina Armstrong, and the hostess, Emma Ayers.

DOZIER—BOWLES

Mr. and Mrs. C. N. Dozier announce the marriage of their daughter Mildred to Jay Bowles, June 1, at Clayton, New Mexico. The ceremony was performed by Rev. C. Paul Rich, pastor of the Baptist church.

The bride wore a white floral-linen suit. She has attended Clarendon schools, and is well known.

The groom is employed on the J. A. Ranch. After a wedding trip to New Mexico the couple will be at home on the ranch.

HOSPITAL STAFF HONORED

Drs. Laura and Keith Lowell entertained with a progressive party in honor of the hospital staff, nurses and employees Wednesday night.

The party began with the serving of spiced tea and cookies at the family residence. This was somewhat of a housewarming as many had not visited in the home since remodeling.

After the afternoon shower, the party moved on to the hospital where all enjoyed a meal of "Chicken in the Rough." Dr. Keith Lowell entertained the group with colored movies before moving on to the home of Miss Margaret Kidd.

The remainder of the evening was spent in singing and other entertainment including the celebration of Miss Billy Kidd's twenty-first birthday. Song sheets were prepared by Mr. Larimer. Ice cream and cookies were served.

Some 40 guests attended including Mrs. Katherine Bugbee and staff member, Dr. and Mrs. J. G. Stewart.

WINDY VALLEY CLUB NEWS

The Windy Valley Club met Wednesday, May 31 with Mrs. Cecil Mills as hostess.

There were seven members present. One quilt was quilted.

Mrs. Carl Barker was appointed to purchase a present for Mrs. Harvey Shaw who is recuperating from an operation. She has just returned from the Clinic at Temple, Texas. Mrs. Shaw, we all wish you a speedy recovery.

The next meeting will be held June 14 with Mrs. Reid, hostess. We wish to urge every member to be present.

—Reported.

HARMONY S. S. CLASS

The Harmony Sunday School Class of the Methodist Church met in business and social session at the home of Mrs. Lee Holland with Mrs. Homer Bones as assistant hostess. The entertaining rooms were decorated with mock orange, roses and baby's breath.

The president, Mrs. B. G. Watson, was in charge of the business which consisted of plans for the quarterly conference to be held at the church on June 14. Mrs. O. D. Lowry gave an inspiring devotional.

A refreshing ice course was served to guests, Mrs. Hanks, Patricia Bones and Cynthia Ann Thornberry; members, Mesdames M. R. Allensworth, Frank Phelan, Mike Thornberry, Fontayne Garner, Ellis, O. D. Lowry, Frank White, B. G. Watson, Homer Bones and Lee Holland.

COUNCIL OF CHURCH WOMEN

Mrs. Millard Word, president, presided at both the Executive Board meeting and the general meeting of the Council of Church Women of Clarendon held on Wednesday, May 31st at the First Christian Church. A covered dish luncheon was preceded by the meeting of the Executive Board and followed by the general meeting, open to all members of all churches of Clarendon.

Mrs. Frank Phelan presented the devotional and an interesting program pertaining to the part the Church and Christianity must play in the post-war world was presented by Mrs. Pete Kuntz, Mrs. Allan Jeffries, Mrs. Fred Chamberlain, Mrs. C. A. Burton and Mrs. Millard Word.

Executive Board members expressed appreciation to the members of the First Christian Church for hosting this meeting. Next regular meeting will be held on the fifth Wednesday in August at the Presbyterian Church. Executive Board members are asked to convene promptly at 10:45 a. m., the regular general meeting will begin at 11:00 a. m. and be followed by the covered dish luncheon at 12:00. Program material will be announced at a later date.

Donley County Leader, 32 a year.

BUSY WOMEN S. S. CLASS

This class, of which Mrs. C. A. Burton is teacher, met in the home of Mrs. R. T. Brown for an all day quilting and covered dish luncheon at noon. A quilt was quilted for the Red Cross, given by Mrs. W. C. Holland. Fifteen were present.

MARY BOSTON S. S. CLASS

Mrs. Claude Moore was elected president of the Mary Boston Sunday School Class of the First Methodist Church at a recent business and social meeting. Gordon Bain was elected vice-president and Miss Lucile Polk was chosen as secretary-treasurer. The class plans to have regular monthly business-social meetings throughout the summer.

FIRST CHRISTIAN CHURCH

L. Guy Ament, Pastor
Did you ever stop and wonder what estimate the Lord places on you. He said "if you love me you will do what I say."

Next Sunday our services will be at 11 a. m. and you are wanted and you need to be there. Evening services will be at 8:30. Be with us.

Our Wednesday night service should be a helpful period for you. Our lesson for Wednesday night will be the first two chapters of the Ephesian letter. Study to show yourself approved of God. May we be constantly in prayer that right and justice may fully prevail in our armed forces. Let us not leave God out of our program in our ever desire and onward going in our christian life.

METHODIST CHURCH

H. W. Hanks, Pastor
Last Sunday was a good day with us. Come and be with us each Sunday. Church school at 9:45; preaching at 10:50. Through

the next few months we will begin our morning worship at 10:50 instead of at eleven. This will save the lost time in between S. S. and the church service and will enable us to get out at 11:50.

Subject for Sunday morning: "God Believes in the Possibilities of the Human Family." Subject for the evening hour: "The Protecting Presence."

Next Wednesday night, June 14 is our church night. We are to meet at eight for a covered dish luncheon. We will have the quarterly conference. Then a social hour that everyone will enjoy. This is for the entire church. In these strenuous times it helps us to get together. So let each member be present. As your pastor, I desire your earnest prayers. Pray for one another. Pray for our loved ones in the service. Pray that each of us may do what God would have us do to make the world what He would have it be.

Mrs. D. E. Davis and son J. M. left Thursday (today) for her home at Beaumont after a visit here with her father, Mack Bourland and other relatives.

Mr. and Mrs. Marvin Land and sons Billy Marvin and Tommy and Mrs. O. H. Massie and daughter Dorothy and son Gene of Tucumcari, N. M. spent the weekend in the home of Mr. and Mrs. W. A. Land. Billy Marvin and Gene remained for a longer visit.

Mr. and Mrs. Monty Garrison were here Friday from Vernon visiting relatives and friends. They returned home Saturday and with them went Mrs. Weldon Warren and little son, Bradford, who had been with relatives here for several weeks.

Mr. and Mrs. J. A. Warren enjoyed a visit over the week end from their daughters, Miss Evelyn Warren and Mrs. Roscoe Crafton, also Warrant Officer Paul Hollingsworth all of Amarillo.

Mr. and Mrs. J. T. Hoy were here Sunday from Pampa visiting friends and looking after their interests here.

Mr. and Mrs. Kenney Lane of White Deer were in Clarendon Monday.

ARE YOUR POCKETS STRIPPED FOR ACTION?

This is it. The zero hour all over the world. The big push we've waited for so long.

This is the time for belts to be worn tighter. For pockets to be scraped. For every last American to wring more dollars out of himself than he thought he could spare!

The U. S. Treasury needs \$16,000,000,000 right now! \$6,000,000,000 from individuals alone. That's more than \$100 in cash from every wage-

earning person in the country! We're going to have to double what we did last time!

Just to show you the seriousness of this drive, our Government says—"It's probably the biggest effort we'll ever be called upon to make!"

What can you say to a wounded soldier?

Never mind the sympathy—he doesn't want it! In his mind, he did his duty, and part of his duty was stopping an enemy bullet.

You have a duty, too, in this war. Part of your duty is to buy War Bonds with every dime and dollar you can.

So simply say "thanks" to a wounded soldier, by buying your full share of War Bonds in the Fifth War Loan. Don't expect credit—you can't match his sacrifice by merely lending your money. But don't be ashamed, either—if you've done your duty, you've shown your gratitude—the way he wants you to.

Say "thanks" to every American soldier—double the Bonds you bought before.

We want to express our appreciation to Mrs. S. T. Sayre, who has not missed a month in sending a check to the Red Cross. This has been a great help toward filling the Soldier's Kits.

Mrs. Geo. Norwood wishes to remind those who have knitting out to be sure and have it in by the 20th of June.

Two pairs of gloves were issued to Mrs. Nova McClure and a muffler to June Atteberry.

Six pairs of gloves were turned in by Mrs. Nova McClure. Helms were turned in by Mrs. Ernest Kent, Mrs. Forrest McCrary, Mrs. Geo. Norwood, and two by Mrs. D. F. Wadsworth, and one by Mrs. Kendall.

A large donation of magazines was received from Miss Maurice Berry. Also, a quilt top was turned in that was pieced by the girls

from the summer class of the Home Economics Department.

HOME SERVICE
Mrs. C. A. Burton

Many protests are being received at the Office of Dependency Benefits from Class B or Class B-1 dependents whose family allowance payments have been reduced or discontinued on review under the provisions of Public Law 174, 78th Congress. All cases were reviewed and classified as: 1-Dependent upon the soldier for chief support, 2-Dependent for substantial support or 3-not dependent. If the dependent believes that the disallowance or reduction is unjust, he should submit a supplementary itemized budget giving a complete statement of income and expenditures which will enable the Office of Dependency Benefits to re-evaluate the data relative to income and expenses. These statements are quite complete. I have the necessary blanks and shall be glad to help at any time. Payments were stopped in several thousand cases immediately after March 1st because

forms sent dependents were not filled out and returned.

From one Prisoner of War Camp in Germany comes this extract from a letter: "Mondays are all Christmases to us for we get a Red Cross parcel per man. Never fail to give to the Red Cross for they sure have done a lot for me."

Recent letters from German P.O.W. camps indicate that air-mail letters arrive about one month quicker than ordinary mail. Mail for prisoners in the Far East goes by air, free of charge to Teheran.

Many relatives and friends put postage stamps on letters to prisoners of war. The United States Post Office wishes it to be made known as widely as possible that all mail except air mail is carried free to prisoners of war. The charge for air mail letters is now 6 cents for each half-ounce to European countries. V-mail is not sent to prisoners of war.

Letters to Japanese-held prisoners must not exceed 24 words in the text. To prisoners in Europe it is preferable that they should not exceed one typewritten sheet.

There is a great lack of eating utensils in most German camps. Plastic utensils are convenient to send in next-of-kin parcels.

Unfortunately no route is available for sending packages to the Far East at this time.

Floods Cause Drop In Cash Income

Traffic-halting floods in Kansas and Oklahoma this spring produced a sharp drop in the anticipated cash income of Texas farmers during April since shipment of Texas cattle north for summer pasturage was almost completely stopped, a University of Texas agricultural statistician reported recently.

Income for farmers in the state during April was \$69,000,000, well below the \$75,000,000 level of April a year ago, Dr. F. A. Buechel, economic analyst for the University's Bureau of Business Research, pointed out.

"Part, at least, of the decline in marketings was the result of serious flood conditions in central and eastern Kansas and northern Oklahoma during the latter part

of April.

"It is a distinctive characteristic of interstate cattle marketings from Texas in April that the bulk of the forwardings are destined for summer pasturage in the Flint Hills of Kansas and the Osage Country of Oklahoma.

"This year, because of the flood conditions, many of the cattle were delayed in transit and instead of reaching their destination on schedule in April did not arrive until early in May."

April's farm cash income showed a \$15,000,000 gain over March, Dr. Buechel explained, while the total income for the first four months of 1944—\$244,936,000—was approximately equal to the same period last year.

Sheep forwardings during April were moderately above and hog shipments substantially above those of April, 1943. Sheep and hog prices, however, were below those of a year ago.

More than \$18,000,000 was received in April for fruits and

vegetables, of which \$11,000,000 went to the Lower Rio Grande Valley area.

Depots Back Invasion

"Fourteen tons a minute is what it takes to win it." This is the slogan of the Field Service Depots of the Ordnance Department, Army Service Forces, which supply the combat forces overseas with Ordnance supplies and equipment.

The slogan has been adopted following disclosure that this is the rate of shipment to overseas depots where Ordnance supplies and equipment are being massed for the fight against the Axis.

During February, March and April, Ordnance depots have been at their highest pressure in supplying the combat troops with what it takes to win the war. This includes artillery, small arms, automotive parts and ammunition. These three months have disclosed the greatest shipment of supplies in response to overseas requests since August 1943, the month that witnessed the closing phases of the Sicilian campaign and the final preparations for the invasion of Italy.

Indicative of the weight of explosives which the troops of Generals Eisenhower, MacArthur and Clark are going to throw against the enemy is the fact that during this period more ammunition has consistently been shipped out of Ordnance depots than has been received from manufacturing and ammunition loading plants. These heavy shipments have come from the reserves which the Ordnance Department has been building up all over the country since the beginning of the war, awaiting the day when it would be required from overseas.

The "fourteen tons a minute" isn't the tonnage that is shipped during an ordinary working day. That is the figure for every minute, day and night, of the twenty four hours for every day of the month except Sundays.

Quentin Reynolds, Collier's war correspondent, recently referred to the mighty Army Ordnance 200-mm. (8-inch) gun as "the pin-up gun of the invasion."

FARM FISH PONDS
There are more than 100,000 fishin' holes in Texas in the form of farm ponds, which many farmers and ranchmen are drawing upon to supply their tables with fish. With this resource, R. E. Callender of the A&M College Extension Service, believes it is as reasonable to think of raising fish by the acres of water as of other crops by the acre of land.

Good management in stocking with right varieties, numbers and combinations of fish, and increasing the food supply during the past few years has raised the production of fish in the average farm pond from a few to several hundred pounds per surface acre of water annually.

Intelligent management helps to produce more fish and in line with this Callender, who is the game management specialist, recommends that if possible ponds should be located on a sodded watershed to prevent silting. Sunshine, which is needed to grow fish food, cannot penetrate mud-

dy water. A pond should be stocked with a combination of the right varieties, and blue gill bream, bass and catfish (channel cat) are the most common and acceptable varieties for Texas. He suggests as a good combination to use in fertilized ponds for each surface acre of water: 100 minnows early in the spring; 25 bass fingerlings; 50 crappie fingerlings, and 500 blue gill bream fingerlings. If channel cat alone is preferred they may be stocked at the rate of 200 fingerlings to the acre in fertilized ponds.

The fish population should be in keeping with the available supply of food. Over population means a flock of small fish. A pond is capable of producing only so many pounds of fish—lots of little ones or a fewer number of larger ones.

The degree of fertilization governs the growth of small plants and bug life which the fish live on, and determines the poundage of fish per acre. He recommends the following formula for each surface acre of water yearly: either 400 pounds of cottonseed meal, or 1,500 pounds of barnyard manure, and 200 pounds of 20% superphosphate.

Since applications for fish must be received by Federal Hatchery from this office prior to August 1, of each year and since a county is only permitted one application per year, farmers and ranchers with tanks desiring fish should make applications immediately at County Agents office at Clarendon.

Mr. and Mrs. George Lane of Amarillo visited their parents, Mr. and Mrs. G. F. Lane here Wednesday. Mrs. Lane will remain here for some time to be with her mother, who is ill.

CHRISTMAS MAIL TO MEN OVERSEAS

Christmas mail to armed forces overseas this year is expected to exceed last year's record. Plans are now being made by the Post Office, War and Navy Departments to handle this mail. From September 15 to October 15, Christmas gift packages for men overseas will be accepted for mailing if they are no more than five pounds in weight, 15 inches in length and girth combined. Only one such package will be accepted from the same person to the same addressee during any one week, the War Department announces.

"AXIS DAYS ARE NUMBERED!"

DRESSED POULTRY PRICE TO TAKE SMALL DROP

A 22 cents-per-pound increase in the price of live and dressed poultry allowed for the month of May by the Office of Price Administration and Office of Economic Stabilization will be reduced to one cent for the month of June, J. B. Mooney, price execu-

tive of the Lubbock District Office, announced today.

Designed to provide better distribution of poultry throughout the year and to permit the surplus crop to be carried into distribution into the period of short supply, the new price schedule went into effect April 21.

After June, no more premiums will be paid until January, 1945.

WARTIME WASHINGTON

By Congressman Eugene Worley
After the last World War, many veterans returned looking for their old jobs back. Nearly everywhere they looked, however, they saw signs "No Help Wanted." Many veterans, who were heroes on the battlefronts, were forced to earn their living with a tin cup and pencils or with a fruit stand on a street corner. All of us still recall the Bonus Army and the tragic conditions which prompted it.

But this time the story will be different for the returning veteran. The Congress has already provided that the returning veteran of this war shall have first call on his old job if he wants it. In addition, under the terms of the "G. I. Bill of Rights", endorsed and sponsored by the American Legion, Congress has provided for discharge payments upon release of the veteran from the armed forces. In addition to this, an unemployment compensation will provide him with a living until he can readjust himself to civilian life and find a job. And to those veterans who want to buy a farm or go into a small private business for themselves, Congress has provided an opportunity for them to secure reasonable loans from banks or other sources which the government will guarantee. This will give these veterans an opportunity to become substantial citizens and make worthy contributions to their communities and the nation.

For those members of the armed forces who left the classroom for the battle front, provision has been made for them to resume

their schooling.

These are a few of the provisions which were contained in the "G. I. Bill of Rights" recently passed by a unanimous vote in the House. The bill is now in conference and it is expected to be sent to the President soon for his signature.

No other nation in the world has taken such steps as these to express in concrete form our gratitude to those who are today paying the greatest price in this war. I receive mail every day from members of the armed forces all over the world and these fellows appreciate what is being done for them. It helps them to realize that the people back here on the homefront still remember them and deeply appreciate the tremendously fine job our boys are doing.

Farm Machinery

The production of farm machinery and all other machinery, including automobiles, has had to take second place to the production of war equipment. This has resulted in a severe shortage of the tools which farmers cannot get along without, but a recent conference with Donald Nelson, head of the War Production Board, indicates that the farmers will receive an increased amount of tools, equipment, and repairs later in the year. At the present time, nearly all of the metal available has gone into battle-ships, destroyers, aircraft carriers, submarines, fighter planes, bombers, bullets and bombs in anticipation of the forthcoming invasion and continued operation against the Japs in the Pacific.

The farmer has been confronted by three major obstacles since war was declared, namely, farm labor shortage, lack of machinery, and uncertainty in the seasons. But in spite of these obstacles, farmers of this nation have produced a great supply of food. This proves that no group has done a better job on the homefront than the farmers, and they have done so under the most trying handicaps.

Everyone knows that an Army travels and fights on its stomach. Without food production, no war effort could ever be successful and the present plans to produce more farm machinery have been well received by members of Congress from agricultural sections.

Released by U. S. War Department Bureau of Public Relations
PRACTICE FOR THE GREAT INVASION—On the coast of England American soldiers and sailors and British sailors worked day after day in handling landing barges and in familiarizing themselves with the technique of aquatic offensive warfare. Problems in loading military personnel and munitions and in the rapid discharge of their cargoes were worked out under varying conditions of the seaway and the terrain of the beaches. Thorough training was considered important for the success of actual combat and in saving the lives of the invading forces.

More Kitchen Fats Needed As 'D' Day Nears

News stories out of London on the eve of invasion tell how England is sagging under the weight of vast piles of war materials. When the Allies hit the beaches of Hitler's European "Fortress" they will be the best equipped soldiers in the world.

Guns, explosives, war-medicines, tanks, their protective "umbrella" of planes—all the equipment necessary for the waging of modern war will go along with them.

Most all of the implements vital to the success of the coming invasion need Used Household Fats for either their manufacture or operation in battle.

Explosives for mortars, anti-aircraft and anti-tank guns, sulfamintments, opiates, synthetic rubber, de-icing fluids for planes, nylons for parachutes, railroad lubricants—to name a few—are all dependent on the fats salvaged from the American kitchen.

"Texas is still behind its quota for this vital salvage," according to A. Patrick Flood, State Salvage Manager of the War Production Board. "More kitchen fats must be saved by the Texas housewife to bring our state to the top of its production quota. We have sent our men and it would be nothing short of criminal to send them to battle lacking sufficient quantities of some equipment that may well mean the margin between victory or defeat," he said.

"The Texas housewife should save every drop of grease not necessary for her own kitchen needs. Pour it in a can and when full take it to the butcher or store-keeper. Our lads have what it takes in all other respects. It's up to us to see they have what they need in necessary equipment," he concluded.

Along with Veronica Lake hair-do's, women workers at one Army Ordnance plant have had to sacrifice their fingernail polish and long fingernails. It was found these styles might transmit foreign particles into the delicate mechanisms of the aircraft detection devices being produced.

LOCAL PRICE PANELS IN ALL-OUT EFFORT TO MAINTAIN PRICE LEVELS

County-wide Price Panels of the War Price and Rationing Boards throughout the nation are stepping up their activities in an all-out effort to keep the cost of living at the level that has been maintained for the past year. Boards in the Lubbock District are cooperating in every way with this move, the Office of Price Administration has announced.

Stressing the need for more price panel assistants, Howard R. Gholson, District Director of the OPA, has announced that any man or woman who can volunteer a few hours each week to this community program should contact the Price Panel of his Local Board. "Whenever it is at all possible, we want to keep the price control program on a neighborhood basis. The Local Boards need many more volunteers if the program is to be carried out as it should be," Gholson stated.

Democracy And Discipline

By Samuel B. Pettengill

Paul Mallon has put his finger on one of our sore spots in pointing out how "progressive education" has weakened discipline and the training of our youth for the hard work of life. "Don't make the little dears do anything they don't want to do," has been crooned in too many schools, too long. Many in our schools have opposed this soft slogan but without adequate public support.

But this approach to life goes far beyond our schools. It has been a long time since anyone other than our football coaches, like Rockne, has preached the sturdy Americanism of Theodore Roosevelt, "Hit the line hard." Yet Rockne and T. R. were immensely popular with young men and older men. They would be today.

Without discipline there is no freedom. Without law there is no liberty. It is hard to draw the exact line between "that degree of liberty without which law is tyranny, and that degree of law without which liberty is anarchy." Nevertheless, the line must be drawn.

As was said in the Federalist Papers: "The vigor of government is essential to the security of lib-

erty - - - these interests can never be separated." No one can charge that Justice Brandeis was not a great liberal. Yet he said that government is the ever-present teacher, and when it fails to support law, it teaches lawlessness.

No better illustration of this can be given than in the attitude of our government toward the sit down strike. Under the first National Labor Relations Board a reign of terror was let loose against American industry, which, by frightening investors and management, greatly prolonged the depression and added billions to the debt. Even today, if management undertakes to fire a drunken loafer, it gets too little support from government.

This is hurting the labor movement and the legitimate rights of honest workmen. Outlaw strikes are frequent and go unpunished. Patriotic leaders of labor are having great difficulty in maintaining union discipline and the no-strike pledge.

Terrorists stopping farmers' trucks at city limits have been given a free pass by the United States Supreme Court.

When a prominent woman said, "I never cross a picket line," she washed her hands of all responsibility as to the justice of any and all strikes, and the rights of the public.

Some employers, on the other hand, were at fault in the use of private force against workers. Without justifying this in any way, perhaps one reason was that they could not depend on law enforcement by the officials of the law. Instead of restoring to private violence they should have supported the development of sound public opinion in the schools and elsewhere.

State legislatures, and on one occasion Congress itself, have defied constitutional mandates to reapportion the states for the election of Congressmen. Sixteen year olds who commit perjury in getting a marriage license are applauded. Sheriffs pose for pictures with their arms around Dillingers. Crime today costs more than our schools.

Americans love freedom, thank God. We don't want martinets to govern us. But a few Cleverlands and Theodore Roosevelts today would make freedom more secure. For at long last people will accept tyranny rather than anarchy.

Tyranny begins where law ends. And "tyranny is a weed that grows in every soil" as Edmund Burke said.

The Army Ordnance Artillery Ammunition Plant at Joliet, Ill., has thus far used 22,000 miles of two-inch adhesive tape in sealing ammunition.

American Red Cross Ships Capture Parcels For Prisoners of War

WASHINGTON—Preparing for the imminent invasion, the American Red Cross has shipped 6,000 Red Cross capture parcels for distribution to American prisoners of war in European transit prison camps, American Red Cross national headquarters announced today.

Containing the essential clothing and personal items needed by newly captured prisoners, the parcels are en route to the Geneva headquarters of the International Red Cross Committee which supervises distribution. A further shipment of 24,000 capture parcels will be sent within the next 30 days, said Red Cross officials.

Contents of the parcel include: one pair pajamas, one pair bedroom slippers, one safety razor, three packages razor blades, one sweater, two pairs socks, one light undershirt, one pair light drawers, six cakes of toilet soap, two bars of laundry soap, one tin tooth powder, tooth brush, clothes brush, hair brush, shoe brush, one pocket comb and cover, one jar brushless shaving cream, two bath towels, two face towels, one tin shoe polish, four handkerchiefs, one "housewife" (including needles, thread, buttons, safety pins, pins and darning cotton), two pairs shoe laces, one box cascara, one box vitamin tablets, one box band-aids, one pipe and pipe cleaners, three packages smoking tobacco, one carton cigarettes, and one carton of chewing gum.

Red Cross prisoner of war relief authorities also stated that a reserve of the standard food parcels, distributed weekly to Americans interned in Europe, is being built up in Geneva in order that regular supplies of supplemental rations can go to prisoners during the invasion.

Bombing Ground Dangerous To Trespassers

A warning to persons who might be in the vicinity of Childress Army Air Field practice bombing targets was issued today by Colonel John W. White, commanding officer.

Bombing ranges are easily

identified by large signs placed one-half mile apart around the ranges. A 20-foot wide guard also extends around each range. Do not under any circumstances enter upon a bombing range, Colonel White warns, since bombing missions are in progress both day and night. If it is absolutely necessary that access to or across a range be had, permission must be obtained in writing from the range officer of the bombardier - navigator school.

To property owners and others,

CAAF's commanding officer warns that rare cases of mechanical failure have released practice bombs outside the bombing ranges. Persons finding a bomb are warned not to touch it. Report the location to the CAAF range officer and a demolition detail will be dispatched immediately to remove it.

Capt. Ralph O. Harvey, range officer, expresses his thanks to residents in vicinity of the ranges for their cooperation since training started at the school.

Thanks TO YOU

AMERICAN FAMILIES are doing without many accustomed things now-a-days. That's one way in which all of us are able to play a definite part in speeding the day of Victory.

Have you ever stopped to consider just how important this "doing without" program really is? It lacks the drama and the lustre of more direct action, to be sure, but our entire war effort might very well collapse without it.

Take the one item of travel, for example. Thousands, yes tens of thousands of people are foregoing pleasure travel these days. By thus "doing without," they are assisting America's railroads in handling their gigantic war assignments with speed and efficiency. It's a job that simply couldn't be done without the public's willingness to "do without."

For this spirit of cooperation, we of the Burlington Lines extend our sincere thanks. We're looking forward to the day when we can show our appreciation more tangibly—in terms of equipment and service fashioned to peacetime standards.

LIGHT MAKES MIGHT!

Good sight becomes increasingly important as the nation's war activities press onward. In factories, in offices, in homes... eyes are being called upon for millions of seeing tasks, for everyone has a job to do during wartime. A light bulb, in all its many designs, is power, flowing through countless miles of wire to wherever there's a job to be done. And light will be the power behind tomorrow's blazing world.

Aussies Camp on Mountain Top

ON SHAGGY RIDGE, 5,000 feet above the New Guinea jungle swamps, Australians make themselves at home after driving out the Japs. This was a key point in the drive to Bogadjim. For weeks the Japs held to this pinnacle and delayed the advance of Aussie infantry. Fine cooperation on the part of American Air Force bombers and some accurate grenade and rifle work by the Aussies finally turned the trick.

NEW TIRE BUSINESSES MAY OPEN NOW WITH CONSENT OF OPA

During the six-week period from June 1 to July 15 dealers may receive new passenger tires and tubes from manufacturers without giving tire rationing certificates, the District Office of Price Administration announced today.

Officials pointed out that this move in no way changes the present method through which a motorist obtains a tire or tube certificate from his Local Board. The action was designed to facilitate the shipment of new passenger tires and tubes from manufacturers to dealers and will bring about better distribution.

Announcement was also made that any person desiring to enter tire business and intending to acquire allotment from a manufacturer under this ruling must apply to the District OPA for recognition as a dealer. This will make it possible for tire dealers who closed their establishments several years ago because of the limited tire distribution to re-enter business and obtain new passenger tires and tubes on a basis similar to the allotment provided for existing dealers.

All tire certificate replenishment portions, Parts B, dated before April 1, 1944, are to be invalid after July 15, 1944, unless they have been received by the manufacturer on or before July 15, officials stated.

Radio transmitters and receivers are used to great advantage in Diesel locomotives at Army Ordnance Depots. Speed is a prime requisite in the dispatching of shipments of Ordnance ammunition where needed.

The Flame that had a bigger job to do!

Thousands thrilled to the celebration of bringing natural gas to Marshall, Texas, back in 1909. Few realized that it was only the beginning of a new, important industry that would some day extend throughout the Gulf South.

In the 35 years that followed, far-sighted men with courage and determination risked capital and planned and worked to discover new sources of supply. They built a natural gas transmission system to serve the fuel needs of this region.

Today this efficient fuel is doing a wartime job in hundreds of communities, industries and military centers. Over the Gulf South, from the Mexican border to the coast of Florida, the flame of natural gas is doing a bigger job.
